Audit House, Victoria Embankment, E.C.4

[01-353-8901]

This is the Department of the Comptroller and Auditor General, an office created by the Act 29 & 30 Vict. c. 39 (1866) to replace, with extended powers, the separate offices of Comptroller General of the Receipt and Issue of the Exchequer and of the Commissioners for Auditing the Public Accounts. This officer is appointed by Letters Patent under the Great Seal, and is irremovable except upon an address from the two Houses of Parliament. In his capacity of Comptroller General of the Receipt and Issue of the Exchequer, he authorizes all issues from the Consolidated and National Loans Funds after satisfying himself that Parliament has given authority for them. He examines the accounts of the Consolidated and National Loans Funds and makes an annual report on them to Parliament. In his capacity of Auditor

General of Public Accounts, he is charged with the duty of examining on behalf of the House of Commons the accounts of expenditure out of funds provided by Parliament, the accounts of the receipt of revenue, and generally all other public accounts, including the accounts of Government stores and of trading services conducted by Government Departments. The results of his examination of those accounts are reported to the House of Commons.

### GOVERNMENT SOCIAL SURVEY

#### DEPARTMENT

Atlantic House Holborn Viaduct, E.C.1

[01-583-8931]

The Government Social Survey, a department administratively responsible to Treasury Ministers, conducts research into the circumstances, behaviour and attitudes of individuals. It operates by direct contact with samples of the general population or of particular groups. Such work is undertaken, on request, as a direct service to other Government Departments concerned with social and economic problems; and the Department's experience of the large scale use of interviewers and the evaluation and testing of statistical data collected in this way, enables it to advise on techniques and in general to be a focal point in the Government service for matters of survey research.

### DEPARTMENT OF HEALTH AND SOCIAL SECURITY

#### SECURITY

Alexander Fleming House, Elephant and Castle,

S.E.1.

[01-407-5522]

The Department of Health and Social Security was created on November 1, 1968, from the Ministry of Health and Ministry of Social Security. The new Department performs the functions of the two former Ministries.

The Department is responsible for the administration of the National Health Service in England and for the welfare services run by local authorities

in England for the elderly, infirm, handicapped and other persons in need. It has functions relating to food hygiene and welfare foods. The Department is also concerned with the medical and surgical treatment of war pensioners in England, the Channel Isles, Isle of Man or living in the Irish Republic, and is responsible for the ambulance and first aid services in emergency, under the Civil Defence Act, 1948. The Department represents the United Kingdom on the World Health Organisation of the United Nations. Responsibility for the administration of the Health Services in Wales was transferred to the Welsh Office on April 1, 1969. The Department is responsible for the social security services in England, Scotland and Wales. These services comprise schemes for war pensions, national insurance, family allowances and supplementary benefits. Within the Department, the Supplementary Benefits Commission is responsible, subject to regulations made by the Secretary of State for Social Services, for guiding the scheme of supplementary benefits.

10 John Adam Street, W.C.2  
 [01-930-9066]

The National Insurance Advisory Committee was appointed on Oct. 28, 1947, under the National Insurance Act, 1946 to give advice and assistance to the Minister in connection with the discharge of his functions under the Act, and to perform any other duties allotted to it under the Act. These other duties include the consideration of preliminary drafts of regulations to be made under the National Insurance Acts, and of representations received thereon. When the regulations are laid before Parliament, the Committee's Report on the preliminary draft is laid with them, together with a statement by the Minister showing what amendments to the preliminary draft have been made, what effect has been given to the Committee's recommendations, and, if effect has not

been given to any recommendation, the reasons for not adopting it. The Minister may also refer to the Committee for consideration and advice any questions relating to the operation of the Acts (including questions as to the advisability of amending the Acts).

### ROYAL COMMISSION ON HISTORICAL MONUMENTS (ENGLAND)

Fielden House, Great College Street, S.W.1

[01-930-9652]

The Royal Commission on Historical Monuments (England) was appointed in 1908 to survey and publish in inventory form an account of every building, earthwork or stone construction up to the

year 1714. The terminal date was extended after the late war to 1850. The Commission has published up to present date inventories covering seven counties, three cities and Roman York. It is purely recording body and while the Commissioners may recommend that certain structures should be preserved, they have no power to implement their recommendations. The Commission is also responsible for the direction of the National Monuments Record, created in 1964, which includes the National Buildings Record, begun in 1941, of which the Commissioners are the managing trustees.

*Chairman*, The Marquess of Salisbury, K.G., P.C., F.S.A.

### ROYAL COMMISSION ON ANCIENT AND HISTORICAL MONUMENTS OF SCOTLAND

52-54 Melville Street, Edinburgh 3  
 [031-225-5994]

The Commission was appointed in 1908 to make an inventory of the Ancient and Historical Monuments of Scotland from the earliest times to 1707, and to specify those that seem most worthy of preservation. The terms of reference were extended by Royal Warrant dated Jan. 1, 1948, to cover the period since 1707 at the Commissioners' discretion. On April 1, 1966, the Scottish National Building Board was transferred to the Commission. It has been extended in scope, and the name has been changed to the National Monuments Record of Scotland.

### HOME OFFICE

Whitehall, S.W.1  
 [01-930-8100]

The Home Office deals with such internal affairs of England and Wales as are not assigned to other Departments. The Home Secretary is the channel of communication between Her Majesty the Queen and Her subjects, and between the U.K. Government and the Governments of Northern Ireland, the Channel Islands and the Isle of Man. The chief matters with which the Home Office is concerned are—maintenance of law and order; efficiency of the police service; control and administration of the prison service; treatment of offenders; efficiency of the probation and after-care services; organization of magistrates' courts; legislation on criminal justice; supervision of the fire service; civil defence; care of children by local authorities and voluntary societies; regulation of the employment of children and young persons; control of Commonwealth citizens and aliens and the naturalization of aliens; community relations; the law relating to parliamentary and local government elections. In addition, many other subjects are dealt with, including explosives, firearms, dangerous drugs, poisons, vivisection, liquor licensing, shops, public safety, entertainments, by-laws on good rule and government and other subjects, cremations and burials, betting and gaming; addresses and petitions to the Queen, ceremonials and formal business connected with honours.

70 Brompton Road, S.W.3.

[01-584-7011]

The Independent Television Authority was created in August, 1954, to provide public television services of information, education and entertainment. The Television Act was renewed in 1964 for a further 12 years. The Chairman and Members of the Authority are appointed by the Postmaster General. The programmes transmitted from the Authority's 45 stations are provided by 15 independent programme contractors whose revenue derives from the sale, subject to controls exercised by the Authority, of advertising time. The contractors pay a rent to the Authority, to meet the ITA's own requirements and a levy based on net advertising revenue to the Exchequer.

Hercules Road, Westminster Bridge Road, S.E.1

[01-928-2345]

The Central Office of Information is a common service department which produces information and publicity material, and supplies publicity services, for other Government departments which require them. In the United Kingdom it conducts Government display press, television and poster advertising (except for the National Savings Committee), produces and distributes booklets, leaflets, films, television material, exhibitions, photographs and other visual material; and distributes departmental press notices. For the overseas departments it supplies British Information posts overseas with press, radio and television material, booklets, magazines, reference services, films, exhibitions, photographs, display and reading room material; manages schemes for promoting the overseas sale of British books, periodicals and newspapers; arranges tours in the United Kingdom for official visitors from overseas; and provides exhibition stands at trade fairs (for the Board of Trade). Administratively, the Central Office of Information is responsible to Treasury ministers, while the ministers whose departments it serves are responsible for the policy expressed in its work.

### BOARD OF INLAND REVENUE

Somerset House, W.C.2

[01-836-2407]

The Board of Inland Revenue was constituted under the Inland Revenue Board Act, 1849, by the consolidation of the Board of Excise and the Board of Stamps and Taxes. In 1909 the administration of excise duties was transferred to the Board of Customs. The Board of Inland Revenue is responsible for the management and collection of income tax, surtax, profits tax, capital gains tax, corporation tax, estate duty, stamp duties and other direct taxes, and for the valuation of freehold and leasehold property for Inland Revenue taxation, for certain purposes on behalf of other Government Departments and public authorities and, in England and Wales, for local authority rating. The Board is also responsible for the management and collection of title redemption annuities, and for administering the Scheme of compensation for War Damage (except to highways) under the War Damage Act, 1943. Salaries and expenses of the Board for 1969-70 were estimated at £100,274,000.

### H.M. LAND REGISTRY

Lincoln's Inn Fields, W.C.2

[01-405-3488]

The registration of title to land was first introduced in England and Wales by the Land Registry Act, 1862. Many changes have been made to the original system by subsequent legislation and H.M. Land Registry operates today under the Land Registration Acts, 1925 to 1966. The object of registering title to land is for dealings with it to be made more simple and economical. This is achieved by maintaining a register of land owners whose title is guaranteed by the State and by providing simple forms for the transfer, mortgage and other dealings with real property. Under the Land Registration Act 1966, the voluntary first registration of land in non-compulsory areas was severely curtailed in order to facilitate an accelerated programme for the extension of the compulsory system to cover all the built-up areas of the country within a few years. The intention is that registration of title shall ultimately be universal throughout England and Wales. Nevertheless, a great deal of land was formerly registered voluntarily in non-compulsory areas and it is still possible to register building estates, upon certain conditions, throughout the country. A great deal of land in some non-compulsory areas is therefore already registered. H.M. Land Registry is administered under the Lord Chancellor by the Chief Land Registrar and the work is decentralized to a number of regional offices. The Chief Land Registrar is also responsible for the Land Charges Department and the Agricultural Credits Department.

Readers' room open on weekdays, 9.30 a.m. to 6 p.m. (Saturdays, 5 p.m.); closed on Sundays. Admission by Reader's Ticket.

Founded by Royal Charter, 1907, and maintained by annual grant from the Treasury. One of the six libraries entitled to certain privileges under Copyright Act. Contains nearly 2,000,000 printed books, 30,000 manuscripts, 3,500,000 deeds and documents, and numerous maps, prints and drawings. Specializes in manuscripts and books relating to Wales and the Celtic peoples. Repository for pre-1858 Welsh probate records. Approved by the Master of the Rolls as a repository for manorial records and title documents, and by the Lord Chancellor for certain legal records. Bureau of the Regional Libraries Scheme for Wales and Monmouthshire.

Librarian, D. Jenkins.

**NATIONAL CENTRAL LIBRARY**

Store Street, W.C.1

[01-636-0755]

Incorporated by Royal Charter and maintained by annual grants from the Department of Education and Science Municipal and County Authorities, University and special libraries, adult education bodies, and public Trusts.

The Library is the national centre for the loan of books (other than fiction and students' text-books) and periodicals to readers in all parts of the British Isles, through their public, university, or other library; and also to and from foreign libraries through their national centres. It is able to draw on over 21,000,000 books in nearly all the principal British libraries. Other work undertaken by the Library includes loans to organized classes of adult students; and the recording of duplicates and discarded books and periodicals and their distribution to appropriate libraries at home and abroad; also the establishment of a catalogue of Slavonic books and periodicals in British libraries. The Library's own stock for loan comprises about 500,000 volumes.

*Applications to borrow books must be made through the reader's library and not directly to the National Central Library.*  
*Librarian and Secretary to the Trustees, S. P. L. Filon.*  
*Deputy Librarian, I. P. Gibb.*

### NATIONAL LENDING LIBRARY FOR SCIENCE AND TECHNOLOGY

Boston Spa, Yorkshire.

### MEDICAL RESEARCH COUNCIL

20 Park Crescent, W.1

[01-636-5422]

The Council, formerly the Medical Research Committee established in 1913 under the National Health Insurance Act, was incorporated under its present title by Royal Charter on April 1, 1920; a revised charter was issued in 1966. It is responsible to the Secretary of State for Education and Science.

The Council's constitution enables it to pursue an independent policy for the advancement of knowledge in the medical sciences and to initiate and encourage research both in this country and abroad; it is advised by three Research Boards and a number of expert Committees covering particular fields. The Council supports research by employing its own scientific staff in the National Institute for Medical Research and other research establishments (listed below); by financing projects in university and other departments through various schemes of research grants; and by the award of fellowships and scholarships for training in research methods. The Council is supported by a Parliamentary grant-in-aid but is also in a position to receive funds from private sources.

### THE BRITISH MUSEUM

Bloomsbury, W.C.1

[01-636-1555]

Exhibitions.—Manuscripts, Printed Books, Prints and Drawings; Egyptian, Assyrian, Greek and Roman, Romano-British, Prehistoric, Medieval European and Oriental Antiquities; Coins and Medals; Ethnography. Main Entrance, Great Russell Street W.C.1; North Entrance, Montague Place, W.C.1. Open weekdays (including Bank Holidays) 10 to 5 and Sundays 2.30 to 6. Closed on Good Friday and Christmas Day. Admission free.

Reading-room open daily to readers, from 9 to 5 (Tues.—Thurs., 9 p.m.), and Newspaper Room, (at Colindale), from 10 to 5 throughout the year, except Good Friday, Christmas and Boxing Day and Sundays. Closed for cleaning the week beginning with first Monday in May. Long-period tickets of admission for purposes of research and reference which cannot be carried on elsewhere, are granted on written application beforehand to the Director. The applicant should state abode, business or profession and full particulars of purpose, and should send a recommendation from a person of recognized position.

The British Museum may be said to date from 1753, when Parliament granted funds to purchase the collections of Sir Hans Sloane and the Harleian manuscripts, and for their proper housing and maintenance. The building (Montague House) was opened in 1759. The present buildings were erected between 1823 and the present day, and the original collection has increased to its present dimensions by gifts and purchases, and by the

operation of the Copyright Acts. The administrative expenses were estimated at £2,864,000 in 1969-70, and were met by a vote under "Museums, Galleries and the Arts," Class VIII of the Civil Estimates. The constitution of the British Museum was revised under the terms of the *British Museum Act, 1963*.

Bayswater Division, 10 Porchester Gardens, W.2

[01-727-3022]

This Library is part of the Department of Printed Books of the British Museum, though it operates in two separately based divisions. The Holborn Division incorporates the former Patent Office Library, which was transferred to the British Museum on April 1, 1966. Its stock of nearly half a million volumes of modern scientific and technical literature is primarily related to industrial and technological innovation. Most is on open-access and it includes some 17,000 periodicals and the only comprehensive collection in Britain of patent literature. The Bayswater Division contains over 10,000 current periodicals and is particularly rich in literature related to the life sciences.

Opening Hours; Holborn Division Mon. to Fri., 9.30 a.m.-9 p.m. (Foreign Patents Annexe, 9.30 a.m.-5.30 p.m.), Saturdays, 10 a.m.-1 p.m. (Foreign Patents Annexe closed). Bayswater

**THE BRITISH MUSEUM (NATURAL HISTORY)**

Cromwell Road S.W.7

101-589-7321

Open free on week-days (except Good Friday and Christmas Day) 10 to 6, and on Sundays from 2.30 to 6.

The Natural History Museum originates from the natural history departments of the British Museum, Bloomsbury. During the 19th century the natural history collections grew so extensively that it became necessary to find new quarters for them and in 1881 they were moved to South Kensington. The British Museum Act, 1963, made the Natural History Museum completely independent with its own body of Trustees. The five departments are shown below. The Zoological Museum, Tring, bequeathed by the second Lord Rothschild, has formed part of the Museum since 1938. Research workers are admitted to the libraries and study collections by Student's Ticket, applications for which should be made in writing to the Director. Official Guide Lecturers conduct visitors round some of the exhibition galleries at 3 p.m. on week-days free of charge, and their services are available at other times for special parties (also free of charge) by arrangement with the Director.

The administrative expenses were estimated at £1,104,000 in 1969-70.

**MUSEUM OF LONDON**

This museum, which will amalgamate the London and Guildhall Museums under a Board of 18 Governors, appointed (6 each) by the Government, the Corporation of London and the Greater London Council, was approved by Act of Parliament in 1965. When amalgamation takes place, the Museum will be controlled by the Board of Governors and financed in equal shares by the three authorities. It will eventually be housed in a new building to be erected in the City at the west end of London Wall. Meanwhile its two constituent parts will continue to be housed in their present buildings.

**THE LONDON MUSEUM**

Kensington Palace, W.8.

101-937 9816

The collections illustrate the history of London from the earliest times to the present and include archaeological remains, topographical pictures and models, costumes, and royal relics. Originally housed at Kensington Palace, the collections were transferred to Lancaster House in 1914, where they remained till 1950, when most of Lancaster House was converted for use solely as a centre for government hospitality and conferences, and the museum was again granted temporary accommodation at Kensington Palace by King George VI. In 1956 the State Apartments at Kensington Palace were reopened to the public under the administrative control of the London Museum. The Apartments contain pictures from the royal collections, royal costumes, and furniture formerly belonging to Queen Mary.

## THE VICTORIA AND ALBERT MUSEUM

South Kensington, S.W.7

[Kensington: 6371]

Hours 10 to 6 (weekdays and Bank Holidays); Sundays, 2.30 to 6. Admission Free. Art Library (10 to 5.45) and Print Room (10 to 5) open free (closed Sunday). Is a museum of all branches of fine and applied art, under the Department of Education and Science.

The Museum descends direct from the Museum of Manufactures (later called Museum of Ornamental Art) opened in Marlborough House in 1852. The nucleus was a selection of objects bought for £5,000 from the Great Exhibition of 1851 which, with objects illustrating historic styles, was to be devoted to the "application of fine art to the objects of utility" and "the improvement of the public taste in design." The Museum was moved in 1857 to become part of the collective South Kensington Museum. Most of the older buildings date from 1860-82; the new parts from 1899-1909. The South Kensington Museum was re-named the Victoria and Albert Museum in 1899, and only became an exclusively art museum in 1909.

Besides comprising the departments named below, the Museum contains the national collections of post-classical sculpture (excluding modern), of British miniatures and of water-colours, the National Art Library, and of art lantern slides. The branch museum at Bethnal Green (composed of a building formerly at South Kensington) was opened in 1872. The Victoria and Albert Museum also administers the Wellington Museum (Apsley House); Ham House, Richmond and Osterley Park, Middlesex. Administrative expenses of the Museum were estimated at £1,046,000 for 1968-69. Director and Secretary, J. W. Pope-Hennessy, C.B.E. £5,625

### NATURAL ENVIRONMENT RESEARCH COUNCIL

Alhambra House, 27/33 Charing Cross Road,  
W.C.2  
[01-930-9232]

The Natural Environment Research Council was established by Royal Charter on June 1, 1965, under the Science and Technology Act, 1965, to encourage, plan and conduct research in those sciences, both physical and biological, which relate to man's natural environment.

The component bodies of the Council are: the Institute of Geological Sciences, the Institute of Hydrology, the National Institute of Oceanography, the Nature Conservancy, the British Antarctic Survey, the Institute of Coastal Oceanography and Tides (formerly the Liverpool Tidal Institute) and the Research Vessel Unit.

It is also responsible for supporting: the Marine Biological Association, the Scottish Marine Biological Association, the Freshwater Biological Association, the Fisheries Helminthology Unit and the Marine Invertebrate Biology Unit. These bodies have their own governing boards or advisory committees.

In addition the Council advises the Ministry of Agriculture, Fisheries and Food and the Department of Agriculture and Fisheries for Scotland on the research programmes of their fisheries laboratories. It also has responsibility for long-term forestry research in consultation with the Forestry Commission. Much of the Council's activities is related to university research in the environmental sciences, which it supports by post-graduate training awards, research grants and fellowships.

[0293-27833]

The Paymaster General's Office was formed by the consolidation in 1835 of various separate pay departments then existing, some of which dated back at least to the Restoration of 1660. Its function is that of paying agent for Government Departments, other than the Revenue Departments. Most of its payments are made through banks, to whose accounts the necessary transfers are made at the Bank of England. The payment of many types of public service pensions is an important feature of its work. The expenses of the office were estimated at £1,229,000 for 1969-70.

## MINISTRY OF POWER

Thames House South, Millbank, S.W.1

[01-222-7000]

The Ministry of Power has a general responsibility for the fuel and power industries and for iron and steel. The Minister appoints the boards in the nationalised coal, electricity, gas and iron and steel industries and their capital investment plans and programmes of research are subject to his approval. The Ministry is responsible for Government relations with the petroleum industry. The Minister has a statutory responsibility for safety and health in mines and quarries, a function which he discharges largely through the Inspectorate of Mines and Quarries. Under the Chief Scientist to the Ministry, the work of the Safety in Mines Research Establishment reflects the Minister's special responsibility in this field. The Minister is also responsible for the licensing and inspection of nuclear installations (other than those of the Atomic Energy Authority or of other Government Departments) in England and Wales with particular reference to safety. Since 1962 the construction and operation of pipe-lines has also been subject to his control. The search for and getting of petroleum and natural gas in the United Kingdom and on those parts of the Continental Shelf in the United Kingdom jurisdiction are subject to the Minister's control by licensing.

Lambeth Bridge House, Albert

Embankment, S.E.1

[01-735-7611]

The Ministry of Public Building and Works has responsibilities which include the design, building and furnishing of Government offices and of our Embassies abroad; the building programmes of the Navy, Army and Air Force, at home and overseas; the construction of equipment for scientific research stations; building for the Post Office; maintaining the Royal Palaces; maintenance and new construction for the Houses of Parliament; managing the Royal Parks; preserving historic buildings and ancient monuments; co-ordinating building research and development throughout the Government services; and encouraging the building and civil engineering industries and the building materials industries to adopt the best modern methods and techniques.

The Ministry is responsible for nearly all the construction work directly carried out by the Government. It encourages efficiency and increased production in building by its development projects and by supplying technical information and making known the results of research.

#### PUBLIC HEALTH LABORATORY SERVICE

24 Park Crescent, W.1

[01-636-2223]

The Service was originally set up in 1939 as an emergency service to augment the existing public health resources of England and Wales in combating outbreaks of infectious diseases such as might arise from enemy action or abnormal conditions in time of war. In 1945 the Government decided to retain the Service on a permanent footing, and statutory authority for doing so was included in the National Health Service Act, 1946, the Minister of Health being empowered to provide a Bacteriological Service in England and Wales for the control of the spread of infectious diseases. The Service was administered by the Medical Research Council, as agents of the Ministry of Health until August 1, 1961, when, under the provision of the Public Health Laboratory Service Act, 1960, a new Public Health Laboratory Service Board was established as a statutory body capable of acting in its own right as agent for the Ministry.

### PUBLIC TRUSTEE OFFICE

Sardinia Street, Kingsway, W.C.2

[01-405-4300]

This is a Government Office (opened in 1908) by means of which the State acts as executor and trustee under a will, or as trustee under a settlement, and in other capacities of a like nature. The value of the trusts accepted up to March 31, 1969, was £714,000,000.

The facts of any trust, new or old, in which it is desired that the Public Trustee should act may be brought to his notice by letter or by personal interview. The appointment is effected in the same way as a private trustee, or by an Order of the Court. He can act solely or jointly with others.

In the case of a will, all that the testator need say is, "I appoint the Public Trustee executor and trustee of this my Will"; or the appointment may be a joint one with others. Executors who have obtained probate can transfer their duties to him under an Order of the Court. He can also act as administrator with, or without, the will annexed.

Strict secrecy is observed in all matters dealt with in the Department. Accounts in simple form are furnished to the beneficiaries as required. An interview with the Public Trustee or with any of his senior officers can be arranged at any time. A pamphlet giving particulars and details of the fees can be obtained free of cost from the Office of the Public Trustee, Kingsway, W.C.2.

### PUBLIC WORKS LOAN BOARD

19 Old Jewry, E.C.2

[01-606-6234]

The Board is an independent statutory body, consisting of 12 unpaid Commissioners appointed by the Crown to hold office for 4 years; 3 Commissioners retire each year and may be re-appointed.

The functions of the Commissioners, derived chiefly from the Public Works Loans Act, 1875, and the National Loans Act, 1968, are to consider applications for loans by Local Authorities and other prescribed bodies, and, when loans are approved, to collect the repayments.

Funds for loans are authorised from time to time by Parliament and are drawn from the National Loans Fund. Rates of interest on the Board's loans and fees to cover management expenses are fixed by the Treasury.

During the year ended March 31, 1969, gross issues from the National Loans Fund for advance by the Public Works Loan Board amounted to £597,100,000.

### HOUSE OF LORDS RECORD OFFICE

House of Lords, S.W.1

[01-930-6240]

Until 1497 the records of Parliament were normally transmitted at the end of a session to Chancery, and are now therefore preserved in the Public Record Office. Since 1497, however, the records of Parliament have been kept within the Palace of Westminster. They are in the custody of the Clerk of the Parliaments, who in 1046 established a record department to supervise their preservation and their production to students. The Search Room of this office is open to the public throughout the year, Mondays to Fridays inclusive, from 10 to 5. The records preserved number some 2,000,000 documents, and include Acts of Parliament from 1497, Journals of the House of Lords from 1510, Minutes and Committee proceedings from 1610, and Papers laid before Parliament, from 1531. Amongst the records are the Petition of Right, the Death Warrant of Charles I, the Declaration of Breda and the Bill of Rights. The House of Lords Record Office also has charge of the Journals of the House of Commons (from 1547), and other surviving records of the Commons (from 1572), which include plans and annexed documents relating to Private Bill legislation from 1818. The records of both Houses are preserved in the Victoria Tower at the Houses of Parliament. Clerk of the Records, M. F. Bond, O.B.E., F.S.A.

£3,609 to £4,225

Assistant Clerks of the Records, H. S. Cobb, F.S.A.; D. J. Johnson. . . . . £2,050 to £3,330

### ROYAL COMMISSION ON HISTORICAL MANUSCRIPTS

Quality House, Quality Court, Chancery Lane, W.C.2

[01-242-2981]

National Register of Archives, [01-242-3205]

The Historical Manuscripts Commission was first appointed by Royal Warrant in 1869, and was empowered to make enquiry into the place of deposit of collections of manuscripts and papers of historical interest and with the consent of the

owners to publish their contents. The Commission was reconstituted by Royal Warrant in 1959, with wider terms of reference, including the preservation of records and assistance to other bodies working in the same field. The Master of the Rolls, who is the Chairman of the Commission, now exercises through the Commission his responsibility under the Law of Property (Amendment) Act 1924, and the Tithe Act, 1936, for manorial and tithe documents. The Commission has published over 200 volumes of printed reports upon manuscripts of historical import, and under its authority is compiled the *National Register of Archives*, which now contains over 13,500 typed reports upon privately-owned records, with extensive indexes, and may be consulted by historical researchers. At present a grant-in-aid is made through the Commission to the *Records Preservation Section* of the British Records Association. The Commission undertakes to advise owners upon the preservation and use of their manuscripts and records.

Chairman, The Master of the Rolls. Commissioners, The Marquess of Salisbury, K.G., P.C.; Prof. E. F. Jacob, D.Phil., F.B.A., F.S.A.; Prof. Sir J. G. Edwards, D.Litt., F.B.A.; Prof. G. R. St. Andrew's House, Edinburgh 1

[031-556-8501]

Dover House, Whitehall, London,  
S.W. 1

[01-930-6151]

The Scottish Home and Health Department was  
constituted in June 1962 following a redistribution

of the functions of the former Scottish Home  
Department and the former Department of Health  
for Scotland, and is responsible for the central  
administration in Scotland of functions relating to  
law and order and of the National Health Service  
and associated welfare services. It is the Depart-  
ment concerned with the Scottish police and  
probation services, criminal justice, legal aid and  
the services needed by the courts; and it is directly  
responsible for the administration of Scottish  
prisons and Borstal institutions. The Department  
is the central authority in Scotland for the fire  
service and civil defence and for legislation con-  
cerning shops, theatres, cinemas and licensed  
premises.

The Department is responsible for the central  
administration in Scotland of the National Health  
Service comprising the hospital service, the general  
medical, dental and ophthalmic services and the  
local authority health services. The associated  
welfare services include the supervision of local  
arrangements for the care of the aged and handi-  
capped, and medical and surgical treatment of war  
pensioners.

Wholesale and post orders.—P.O. Box 569, S.E.1.

H. M. Stationery Office was established in 1786 and is the British Government's central organization for the supply of printing, binding, office supplies, automatic data processing equipment and office machinery of all kinds, and published books and periodicals, for the Public Service at home and abroad; it also undertakes duplicating, distributing and computer bureau services for government departments. The Stationery Office is the publisher for the government, and has bookshops for the sale of government publications in London, Edinburgh, Cardiff, Manchester, Bristol, Birmingham and Belfast; leading booksellers in the larger towns act as agents; and there are wholesale departments in London, Edinburgh and Belfast from which booksellers may obtain supplies. It is also the agent for the sale of publications of the United Nations and its specialized agencies and for certain other international organizations. The Controller of the Stationery Office is under Letters Patent the Queen's Printer of Acts of Parliament and in him is vested the Copyright in all British Government documents.

Government publications are of a wide and varied range and over 6,500 publications are produced each year. They include the *London Gazette*, which has been issued since 1665, and *Hansard*, the verbatim report of the proceedings in both Houses of Parliament, available on the morning following the debate. The Stationery Office has in stock some 90,000 titles and its subscriptions and standing order lists contain about 200,000 names. The annual sales total about 30,000,000 copies.

The aggregate net estimate for the department for 1969-70 was £38,243,000 (an increase of £1,972,000 on the same estimate for 1968-69).

Generally the department obtains its supplies from commercial sources by competitive tender. For printing and binding, however, the Stationery Office has its own printing works and binderies which produce about one-third of the total requirement, including telephone directories, pension allowance books, national savings certificates and stamps, postal orders, premium bonds, National Insurance stamps, road fund licences, television and wireless licences.

The staff employed on April 1, 1969, was 7,588, including 1,859 in warehouses and 2,791 at printing works; the total space occupied was 2,400,000 square feet, including 1,250,000 sq. ft. for warehouse space and 660,000 sq. ft. for the printing works.

#### SUGAR BOARD

52, Mark Lane, E.C.3  
 [01-480-6221]

The Sugar Board was constituted under the  
 Sugar Act, 1956, on October 15, 1956. The  
 Board buys the sugar which the United Kingdom  
 has contracted to buy under the Commonwealth  
 Sugar Agreement at prices negotiated triennially  
 by the Government and resells the sugar com-  
 mercially at world prices. The Board also pro-  
 vides temporary finance for the British Sugar  
 Corporation and receives from or pays to the  
 Corporation any surplus or deficit arising on the  
 production and refining of home grown beet sugar.

The Board, in turn, balances its accounts, taking one year with another, by receiving a surcharge or making a distribution payment, on all imported and home produced sugar.

### MINISTRY OF TECHNOLOGY

Millbank Tower, Millbank, S.W.1

(01-834-2255)

The original Ministry of Technology was set up in October, 1964. Its present form dates from February, 1967, when it merged with part of the Ministry of Aviation.

It now brings under one management the following main areas of public business: (a) Responsibility for the Government's relationship with the engineering and vehicles industries; (b) Merchant shipbuilding, with the task of carrying out through the Shipbuilding Industry Board the reconstruction of the industry on the lines of the 1966 Geddes Report. (c) Responsibility for the U.K. Atomic Energy Authority. The Minister's responsibility is for the monies provided to the Authority by Parliament, and for major policy decisions. (d) Government Research Establishments. The Ministry controls 16 Research Establishments with a total staff of some 22,000. Including UKAEA Establishments, the total manpower engaged in research and development is about 6,000 qualified engineers and scientists. The Ministry also supports 43 Industrial Research Associations with about 1,800 qualified men. The Minister is responsible for the National Research Development Corporation, which is currently handling over 300 development projects. (e) Responsibility for the Government's relationship with the aircraft and aerospace industries. (f) Government procurement of aircraft, electronics and other equipment for defence purposes. (g) General responsibility for fostering technological advance. This embraces a wide range of tasks undertaken in support of industry, e.g. the operation of productivity and advisory services; the extension of standards both nationally and internationally, and financial support for the British Standards Institution; quality assurance schemes; the metrication programme; the dissemination of technical information; and (with professional institutions) work to strengthen the engineering profession, to improve quantity and quality in the supply of engineers, and to help the development of engineering generally.

The aggregate net estimate for the Ministry in 1969-70 amounts to £409,536,000. The gross estimate amounts to £603,045,000.

### THAMES CONSERVANCY

Burdett House,  
15 Buckingham Street, W.C.2  
[01-839-2441]

The conservation of the River Thames was originally granted to twelve Conservators in 1857. In 1900 the Port of London Authority took over all rights, powers and duties of the Conservators in respect of the river below Teddington. The Conservators of the River Thames under the Thames Conservancy Acts and Orders, 1932 to 1966, now have jurisdiction over the River Thames from Cricklade in Wiltshire to a point about 265 yards below Teddington Lock, and are constituted the Drainage Board of the Thames Catchment Area for the purposes of the Land Drainage Acts, 1930 and 1961. The principal duties of the Conservators as a Navigation Authority are the maintenance and improvement of the navigation, and the registration and regulation of craft. The Conservators exercise jurisdiction for the prevention of pollution over the Thames Catchment Area (both surface and underground water), and over the fisheries in the River Thames from Cricklade to Teddington.

The Conservators also exercise the new water resources functions of River Authorities under the

Water Resources Act, 1963, in respect of both surface and underground water in the Thames Catchment Area and underground water in London (the London "Excluded" Area), including the prevention of pollution.

The Conservators' income is obtainable by precept from the Councils of the various counties, county boroughs and London boroughs within the Thames Catchment Area, from the Greater London Council, licence fees and charges for water abstracted. In addition, the Conservators derive income from various navigation tolls, fees, licences and rents.

Chairman, The Lord Nugent of Guildford, P.C.  
Vice-Chairman, Sir Aubrey Ward.

Secretary and Chief Administrative Officer, R. P. Owen.

Chief Engineer, E. J. Brettell.

Treasurer and Accountant, E. J. Gilliland.

## THE TRANSPORT HOLDING COMPANY

Argosy House, 215 Great Portland Street, W.1

[01-636-8688]

The Transport Holding Company is a statutory company established under the Transport Act, 1962. Until January 1, 1969, it owned and managed all the transport investments of the former British Transport Commission except those transferred to the British Railways Board, London Transport Board, British Transport Docks Board and the British Waterways Board.

As a result of the Transport Act, 1968, its shareholdings in bus companies vested in either the National Bus Company or the Scottish Transport Group, and those in the road haulage and shipping companies vested in the National Freight Corporation. The Transport Holding Company's remaining shareholdings are chiefly in companies engaged in travel and tourism, e.g. Thos. Cook & Son Ltd.

## THE TREASURY

Great George Street, S.W.1

[01-930-1234]

The office of the Lord High Treasurer has been continuously in commission for well over 200 years. The Lords Commissioners of H.M. Treasury consist of the First Lord of the Treasury (who is also the Prime Minister), the Chancellor of the Exchequer and five Junior Lords. This Board of Commissioners is assisted at present by a Chief Secretary, a Parliamentary Secretary who is the Chief Whip, a Financial Secretary and a Minister of State, who are also members of the Government, and joint Permanent Secretaries. The Prime Minister and First Lord is not concerned in the day-to-day aspects of Treasury business. The Junior Lords are Government Whips in the House of Commons. The management of the Treasury devolves upon the Chancellor of the Exchequer, and, under him, on the Chief Secretary, the Financial Secretary and the Minister of State. The Chief Secretary, with the assistance of the Minister of State, is responsible for the control of public expenditure. The Financial Secretary is concerned with matters of home and overseas finance and discharges the traditional responsibility of the Treasury for the largely formal procedures of voting of funds by Parliament. All ministers are concerned in tax matters.

COUNCIL ON TRIBUNALS

5 Spring Gardens, Cockspur Street, S.W.1  
[01-930-8691]

The Council on Tribunals, with its Scottish  
Committee, was constituted in 1958 under the  
provisions of the *Tribunals and Inquiries Act* of  
that year to act as an advisory body in the field of  
administrative tribunals and statutory inquiries.

Its principal functions are (a) to keep under review  
the constitution and working of the various tribu-  
nals which have been placed under its general super-  
vision by the Act; (b) to report on particular  
matters relating to any tribunal which may be  
referred to it by the Lord Chancellor and the  
Secretary of State for Scotland; and (c) to report on  
matters relating to statutory inquiries which may  
be similarly referred to it or which the Council may  
determine to be of special importance. In addition,  
the Council must be consulted both about rules of  
procedure for statutory inquiries and before  
rules are made for any of the tribunals under its  
general supervision, and it may make general  
recommendations about appointments to member-  
ship of such tribunals. The numerous tribunals  
which have been placed under the Council's  
supervision are concerned with a wide variety of  
matters varying from agriculture and road traffic  
to independent schools and pensions. They include  
the main National Health Service and National  
Insurance Tribunals, together with such tribunals as  
the Air Transport Licensing Board, Industrial Tri-  
bunals, the Lands Tribunal, the Mental Health  
Review Tribunals, Local Valuation Courts, Furn-  
ished Houses Rent Tribunals, Rent Assessment  
Committees and the Transport Tribunal. The  
Council's jurisdiction with regard to inquiries is  
being extended by Orders under Section 1 of the  
*Tribunals and Inquiries Act, 1966*.

The Scottish Committee of the Council considers  
Scottish tribunals and matters relating only to  
Scotland.

The Members of the Council are appointed by the  
Lord Chancellor and the Secretary of State for  
Scotland. The Scottish Committee is composed  
partly of members of the Council designated by  
the Secretary of State for Scotland and partly of  
other persons appointed by him. The Parlia-  
mentary Commissioner for Administration is *ex  
officio* a member both of the Council and of the  
Scottish Committee.

The Council submits an annual report on its  
proceedings and those of the Scottish Committee  
to the Lord Chancellor and the Secretary of State for  
Scotland, which must be laid before Parliament.

Chairman, The Baroness Burton of Coventry.  
Members, D. B. Bogle, C.B.E., W.S.; Mrs. E. Bayliss;

#### TRINITY HOUSE

Tower Hill, E.C.3

[01-480-6601]

Trinity House, the first General Lighthouse and Pilotage Authority in the Kingdom, was a body of importance when Henry VIII. granted the Institution its first charter in 1514, *inter alia* "for the relief, increase and augmentation of the Shipping of this Realm of England." Since that period the duty of erecting and maintaining lighthouses and other marks and signs of the sea has by Royal Charter and Acts of Parliament been entrusted to the Corporation of Trinity House, and until 1874 Masters of the Navy were examined by the Elder Brethren of the Corporation. In the present day, the principal duty of the Corporation of Trinity House, as a Public Department, is the administration of the Lighthouse, &c., Service of England and Wales with certain statutory jurisdiction in regard to lighthouses and other seamarks in Scotland, Ireland, the Channel Islands and Gibraltar, while the Corporation is also the chief Pilotage Authority in the United Kingdom, and in its capacity as a private corporation or guild it administers certain Charitable Trusts specifically dedicated to the relief of aged and distressed master mariners, their widows and spinster daughters. The Corporation controls nearly 90 lighthouses and over 30 lightships, and maintains a fleet of 9 lighthouse tenders and a fleet of pilot vessels. The Active Elder Brethren of the Corporation also sit with the Judges of the Admiralty Division of the High Court of Justice to act as Nautical Assessors in Marine Causes tried in that Court. The Lighthouse Service of Trinity House is maintained out of the General Lighthouse Fund, this fund being provided by means of special dues called Light Dues levied on shipping using the ports of the United Kingdom. The accounts are submitted annually to Parliament.

**FOREIGN COMPENSATION COMMISSION**

Alexandra House, Kingsway, W.C.2

The Commission was set up by the *Foreign Compensation Act, 1950*, to distribute funds paid by foreign governments as compensation for expro-

priated British property and other losses sustained by British nationals. The *Foreign Compensation Act, 1962*, provided, *inter alia*, for the payment out of moneys provided by Parliament of additional compensation in respect of claims arising in connection with certain events in Egypt. The *Foreign Compensation Act, 1969*, provided, *inter alia*, for the payment by the Board of Trade of moneys held by the Custodian of Enemy Property being former property of a Baltic State or ceded territory. The Commission has completed the final distribution of the funds contributed by Yugoslavia, Czechoslovakia, Bulgaria, Poland and Rumania. Distribution is being made on Hungarian claims as sufficient funds become available from Hungary under the agreement made with Her Majesty's Government. The Commission has registered certain British claims in Czechoslovakia and also in the Baltic States and territories annexed by the Soviet Union. The Distribution Order in respect of British owned property affected by nationalisation or expropriation and bank balances, government and municipal bonds and debts held by or owing to British nationals at the material time, and unredeemed *Lena* and *Tetiuhu* State Notes irrespective of the nationality of the holders, came into operation on June 16, 1969. The £27,500,000 compensation paid by the Government of the United Arab Republic under the financial agreement of Feb. 28, 1959, has been fully distributed, and claims under the Egypt Order are now being paid from funds provided by Parliament.

## THE BRITISH COUNCIL

65 Davies Street, W.1

The British Council was established in 1934. Its Royal Charter (1940) defines its aims as the promotion of a wider knowledge of Britain and the English language abroad, and the development of closer cultural relations with other countries. It received its Royal Charter in 1940. Most of its funds are provided by Parliament; the gross budget for 1969-70 is £13,606,000, and it administers a further £6,000,000 as agent for other Government Departments and international organisations. It has representatives in some 75 countries.

In recent years the Council has concentrated on educational work in developing countries. In its work of promoting English language teaching, its main task is to advise and assist educational authorities overseas, particularly in the training of teachers; it also maintains an English Teaching Information Centre in London and assists in producing English-by-Television programmes overseas. It helps with the development of science teaching at school level.

The Council runs or supplies about 200 libraries overseas, and makes grants to assist public library development in some Commonwealth countries. It arranges exhibitions abroad of British books and periodicals.

The Council promotes educational, professional, scientific and other exchanges with overseas countries primarily by sponsoring visits in both directions. It sends British experts abroad on short advisory visits and recruits British teachers for service overseas. It awards scholarships and bursaries for study in Britain, and provides services in Britain for professional visitors and students.

*Chairman*, The Lord Fulton.

*Director-General*, Hon. Sir John Henniker, K.C.M.G., C.V.O., M.C.

## THE ARTS COUNCIL OF GREAT BRITAIN

105 Piccadilly, W.1

The Arts Council of Great Britain is incorporated under Royal Charter with the following objects:

(a) to develop and improve the knowledge, understanding and practice of the arts;

(b) to increase the accessibility of the arts to the public throughout Great Britain; and

(c) to advise and co-operate with Government Departments, local authorities and other bodies on any matters concerned whether directly or indirectly with the foregoing objects.

The members of the Council, who may not exceed 20 in number, are appointed by the Secretary of State for Education and Science after consultation with the Secretary of State for Scotland and the Secretary of State for Wales. With the approval of the two latter, the Council appoints separate committees for Scotland and Wales known as the Scottish Arts Council and the Welsh Arts Council respectively.

The Council receives a grant-in-aid from the Government, and for the year 1968-69 the amount was £7,750,000.

*Chairman*, The Lord Goodman.

*Secretary-General*, R. H. Willatt.

### THE NATIONAL TRUST

40-42 Queen Anne's Gate, Westminster, S.W.1

The National Trust was founded in 1895 by Miss Octavia Hill, Sir Robert Hunter and Canon Rawnsley, their object being to preserve as much as possible of the history and beauty of their country for its people. It has since become an organization incorporated by Act of Parliament to ensure the preservation of lands and buildings of historic interest or natural beauty for public access and benefit. It is independent of the State and relies mainly on the voluntary support of private individuals for working funds. The State, however, allows it certain tax exemptions. A further, and more recently instituted, branch of the Trust's work is the acquisition and preservation, with the co-operation of the Royal Horticultural Society, of gardens of national importance. It also has under its care bird sanctuaries and nature reserves, together with several hundred farms.

The National Trust now administers more than 400,000 acres of land in England, Wales and Northern Ireland; and in this area are over 1,000 properties. These properties have come into its hands mainly by gift or bequest; but since 1946 certain land and buildings accepted by the Treasury in lieu of death duties have been handed over to the Trust, the Treasury recompensing itself from the National Land Fund. The properties acquired by the National Trust before last year include the Ashridge Estate (Bucks. and Herts.); Cliveden (Bucks.); West Wycombe Park and village (Bucks.); Wicken Fen (Cambs.); Lyme Park (Cheshire); Cotehele House (Cornwall); Pentire Head (Cornwall); St. Michael's Mount (Cornwall); Trerice (Cornwall); Doveclay (Derbys. & Staffs.); Arlington Court Estate (Devon); Hatfield Forest (Essex); Chedworth Roman Villa (Glos.); Hidcote Manor Gdn. (Glos.); Knole (Kent); over 70,000 acres in the Lake District including the Buttermere Valley, Monk Coniston Estate, Scafell Pike and Troutbeck Park Farm; Tattershall Castle (Lincs.); Osterley Park (Middx.); Blitting Hall Estate (Norfolk); Farne Islands (Northumberland); Clumber Park (Notts.); Holnicote Estate (Somerset); Montacute House (Somerset); Flafford Mill (Suffolk); Box Hill (Surrey); Ham House (Surrey); Bodiam Castle (Sussex); Petworth House (Sussex); Charlecote Park (Warwicks.); Lacock Abbey and village (Wilts.); Stourhead Estate (Wilts.); Derwent Estate (Yorks. and Derbys.); Hardwick Hall (Derbys.); Bodnant Gardens (N. Wales); Powis Castle (Mont.); Castlecote (N. Ireland); Hanbury Hall (Warwicks.); Lanhydrock (Cornwall); Tintinhull House (Somerset); Nymans Gardens (Sussex); Sheffield Park Gardens (Sussex); Uppark (Sussex); Nostell Priory (Yorks.); Staunton Harold Church (Leics.); Penard Cliff (Glam.); Blundell's Old School (Devon); Castleward (N. Ireland).

Recent acquisitions include more than 100 coastal properties obtained as a result of the Trust's campaign to save the coastline. Since 1965 the campaign has raised £1,290,000 and brought 150 miles of coast under the Trust's protection.

### THE NATIONAL TRUST FOR SCOTLAND

5 Charlotte Square, Edinburgh 2

The National Trust for Scotland was founded in 1931, and its objects are similar to those of the National Trust. Like that organization, it is incorporated by Act of Parliament, is dependent for finance upon legacies, donations and the subscriptions of its members, is recognised as a charity for tax exemption purposes, and enjoys certain privileges under various Finance Acts regarding death duties.

The Trust administers about 60 major properties covering over 80,000 acres. Great houses in its care include:— The Binns, West Lothian; Brodick Castle, Isle of Arran; Crathes Castle, Kincardineshire; Culzean Castle, Ayrshire; Falkland Palace, Fife; Hill of Tarvit, Fife, and Leith Hall and Craigievar Castle, Aberdeenshire.

In the Trust's care are also several noteworthy gardens. Some are associated with the great houses, others are:— Inverewe, in Wester Ross; the re-created 17th century garden of Pitmedden in Aberdeenshire; and Threave in Kirkcubrightshire, where a School of Practical Gardening is run and Branklyn Gardens, Perth.

Among the mountainous country owned by the Trust is the Pass of Glencoe and the mountain group "The Five Sisters of Kintail" and the estate of Torridon in Wester Ross.

Islands in the Trust's care include the St. Kilda group, and the Fair Isle. At Bannockburn, Killiecrankie, Glenfinnan and Culloeden, the Trust owns sites associated with Scottish history.

Among smaller properties are houses associated with famous Scots:— the birthplaces of Barrie in Kirriemuir, Carlyle in Ecclefechan, and Hugh Miller in Cromarty; and Burns' Bachelors' Club, Tarbolton and Souter Johnnie's House, Kirkoswald in Ayrshire.

At Culross in Fife, and at Dunkeld, Perthshire, the restoration of attractive groups of houses led to the creation of a special fund under which such properties are bought, restored and sold. Under this scheme a number of properties in the coastal burghs of East Fife and elsewhere have been and are being restored.

### THE PILGRIM TRUST

Millbank House, 2 Great Peter Street, S.W.1  
Trustees, Richard Fleming, M.C. (Chairman); The Lord Franks, P.C., G.C.M.G., K.C.B., C.B.E.; The Earl of Crawford and Balcarres, K.T., G.B.E.; W. F. Oakeshott; The Lord Harlech, P.C., K.C.M.G.; The Hon. Mr. Justice Fisher; The Rt. Hon. Sir Edward Boyle, Bt., M.P.  
Secretary, Sir Edward Ford, K.C.B., K.C.V.O.

The Pilgrim Trust was founded in 1930 by the late Edward S. Harkness of New York, who placed in the hands of British trustees £2,000,000 for the benefit of Great Britain. Since then the Trust has been able to make substantial grants for the repair of ancient buildings, the preservation of the countryside, the support of learned societies, the preservation of historical records, the purchase of works of art and the assistance of social welfare schemes.

Since its foundation the Trust has made grants amounting to over £5,542,778 and in 1968 the Trustees voted sums totalling £263,711. These grants were made under the following three heads:— Preservation, £118,930, Art and Learning, £100,131, Social Welfare, £44,650.

In 1968 the largest grants made by the Trustees were for the preservation of Hereford Cathedral and to the National Trust for Scotland (for the preservation of historic houses in the Fife coastal towns) each of which received £20,000. Community Service volunteers received £15,000 towards the cost of the employment of additional staff in order to facilitate recruitment expansion. Sums of £10,000 each were also voted towards the completion of Liverpool Cathedral; to the Representative Body of the Church in Wales for the repair of churches in Wales of high architectural or historic interest, spread over five years; and to Coleg Harlech for the development of this residential college for adult education.

Other grants during the year included sums of £5,000 each towards the restoration of Derby Cathedral; the purchase by the British Museum of the MSS of Sir Fulke Greville, Lord Brooke (1554-1628); the purchase of the Malcolm Macdonald collection of Chinese ceramics by Durham University; and the construction of an air-conditioned building for old musical instruments at the Royal College of Music.

### THE CIVIC TRUST

18 Carlton House Terrace, S.W.1

[01-930-0914]

Founded in 1957 with the object of improving the appearance of town and country. The Trust is an independent organisation which is supported financially by leading industrial and commercial companies. Four Associate Trusts are linked with it in Scotland, Wales, the North West and the North East.

The Trust gives support and advice to some 700 local civic and amenity societies throughout Britain. It has initiated hundreds of schemes to brighten and tidy up drab streets. It has moved over 650 semi-mature trees into London as part of a wider campaign to plant more trees. It stimulates voluntary action to remove eyesores which mar town and countryside. It makes awards annually for good development of all kinds. Its scheme for a 20-mile regional park alongside the River Lea in East London is now being implemented by the Lee Valley Regional Park Authority. It makes available on loan films, photographs, slides and exhibitions. By conferences, projects and reports, it focuses attention on major issues in town planning and architecture.

### HOUSING CORPORATION

Sloane Square House, S.W.1

[01-730 9991]

Set up on Sept. 1, 1964 to promote the growth of housing societies and, through them, to stimulate the building of new houses and flats for letting at

cost-rents or for co-ownership. The societies are expected to raise about two-thirds of the money from building societies or other financial institutions. The remainder will come from the Housing Corporation lending on second mortgage. £100,000,000 is being made available for this purpose by the Government to the Corporation. Loans will be repayable over 40 years.

Chairman, H. Ashworth.

### THE PRESS COUNCIL

In April, 1947, a Royal Commission was appointed to enquire into the control, management and ownership, etc., of the Press and news agencies and to make recommendations thereon. The Commission, in its report of June, 1949, recommended *inter alia* that a voluntary Press Council be formed.

A constitution ultimately set up provided for the establishment of such a council on July 1, 1953. This constitution was materially amended in 1963 by the introduction of an independent chairman and up to 20 per cent. lay membership. The objects of the Council are (1) to preserve the established freedom of the British Press; (2) to maintain the character of the British Press in accordance with the highest professional and commercial standards; (3) to consider complaints about the conduct of the Press or the conduct of persons and organizations towards the Press; to deal with these complaints in whatever manner might seem practical and appropriate and record resultant action; (4) to keep under review developments likely to restrict the supply of information of public interest and importance; (5) to report publicly on developments that may tend towards greater concentration or monopoly in the Press (including changes in ownership, control and growth of Press undertakings) and to publish statistical information relating thereto; (6) to make representations on appropriate occasions to the Government, organs of the United Nations and Press organizations abroad; and (7) to publish periodical reports recording the Council's work and to review, from time to time, developments in the Press and the factors affecting them.

The membership of the Council consists of editorial and managerial nominees of The Newspaper Publishers Association Ltd. (5), The Newspaper Society (3), The Periodical Publishers Association Ltd. (2), The Scottish Daily Newspaper Society (1), Scottish Newspaper Proprietors' Association (1), The Guild of British Newspaper Editors (2), The National Union of Journalists (4) and The Institute of Journalists (2).

Chairman, The Lord Pearce, P.C.

Secretary, N. S. Paul, 6 Salisbury Square, Fleet Street, E.C.4.

**BRITISH STANDARDS INSTITUTION**

British Standards House, 2 Park Street, W.1

The British Standards Institution is the recognized authority in the U.K. for the preparation and publication of national standards for industrial and consumer products. The Institution originated in 1901, when the Institution of Civil, Mechanical and Electrical Engineers, together with the Iron and Steel Institute and the Institution of Naval Architects, formed a joint Engineering Standards Committee—which subsequently became the British Engineering Standards Association. A Royal Charter was granted in 1929 and with the extension of the scope of the organization to include the building, chemical and textile industries its title was later changed to "British Standards Institution".

The Institution, in consultation with the interests concerned, now prepares standards relating to nearly every sector of the nation's industry and trade. There are over 5,000 British Standards covering specifications of quality, construction, dimensions, performance or safety; methods of test and analysis; glossaries of terms; and codes of practice. About 500 new and revised British Standards are published each year.

The Institution represents the U.K. in the International Organization for Standardization (ISO), the International Electrotechnical Commission (IEC) and other international bodies concerned with harmonizing standards.

British Standards are issued for voluntary adoption though in a number of cases compliance with a British Standard is required by legislation. The Institution operates certification schemes under which industrial and consumer products are certified as complying with the relevant British Standard and manufacturers satisfying the requirements of such schemes may use the Institution's registered certification mark (known as the "Kite" mark). Other testing and certification services, together with information services, are available to industry, including help in meeting technical requirements in export markets.

The Institution is financed by voluntary subscriptions, an annual Government grant, the sale of its publications and fees for testing and certification. There are more than 13,000 subscribing members of B.S.I., including public authorities, trade and technical bodies, professional institutions, manufacturers, distributors and large scale purchasers.

Chairman of Executive Board, G. H. Beeby.  
Director-General, H. A. R. Binney, C.B.

**COUNCIL OF INDUSTRIAL DESIGN**

28 Haymarket, S.W.1

The Council of Industrial Design, with its Scottish Committee, was set up in December, 1944, by the President of the Board of Trade, "to promote . . . the improvement of design in the products of British Industry." For manufacturers, the Council provides advice on the application of design policy, and recommends designers from its Designer Selection Service. For retailers, it provides courses for buyers and salesmen on design appreciation, and organizes exhibitions in retail stores. For the public it provides selective exhibitions of well designed goods.

The Council has a Design Centre for British Industries at 28 Haymarket, S.W.1. and a Scottish Design Centre at 72 St. Vincent Street, Glasgow, C.2.

The Council maintains a selective, pictorial and sample record of well designed goods in current production known as *Design Index*, which is available for consultation at the Design Centre. The Council also maintains a photograph library and slide loan service, press and information services and a lecture panel, and publishes a monthly journal *Design*.

Chairman, Sir Duncan Oppenheim.  
Chairman of Scottish Committee, M. J. G. Wylie.  
Director, Sir Paul Reilly.  
Chief Executive, Scottish Committee, R. G. Clark.

**BRITISH NATIONAL EXPORT COUNCIL**

6-14 Dean Farrar Street, S.W.1

[01-930-3121]

The formation of the British National Export Council was announced by the President of the Board of Trade on July 20, 1964. It is a partnership between industry, commerce and Government for collective export promotion and comprises 12 area export councils and committees, each concerned with a different market overseas. It is financed partly by Government and partly by voluntary contributions from industry and commerce. It is sponsored by the Committee on Invisible Exports, the Confederation of British Industry, the Association of British Chambers of Commerce, the Trades Union Congress and the Board of Trade.

Director General, P. F. G. Tennant. C.M.G., O.B.E.

**THE BANK OF ENGLAND**

Threadneedle Street, E.C.2

The Bank of England was incorporated in 1694 under Royal Charter. It is the banker of the Government on whose behalf it manages the Note Issue, the profits on which are paid to H.M. Treasury. It also manages the National Debt and administers the Exchange Control regulations. As central reserve bank of the country, the Bank keeps the accounts of British banks, who maintain with it a proportion of their cash resources, and of most overseas central banks; but it has gradually withdrawn from new commercial business.

## THE LONDON CLEARING BANKS

COMMITTEE OF LONDON CLEARING BANKS  
(1821), 10 Lombard Street, E.C.3.

The Committee consists of the Chairmen of the eleven Clearing Banks listed in the Almanack (see pp. 449-454) and meets regularly to discuss matters of common interest. It is the body through which the Bank of England communicates official policy to the banks and through which the banks may present their views to the Bank of England and the Treasury. The Committee controls the London Banks' Clearing House.

Secretary, R. H. Barkshire, C.B.E.  
Deputy Secretaries, R. K. C. Giddings, M.C.; L. M. Mears; M. C. Swift, M.C.  
Asst. Secretaries, G. B. Scrine; M. N. Karmel.

INTER-BANK COMPUTER BUREAU  
10 Lombard Street, E.C.3.

The Inter-Bank Computer Bureau forms part of the money transfer service operated by the Clearing Banks, the Scottish Banks and the Bank of England, its main function being the inter-change of Standing Orders between the Banks. The Bureau also processes data relating to Bank Giro Credits and Debits originated under the Direct Debiting scheme, through the medium of magnetic or punched paper tape, on behalf of customers of the Banks.

Manager, R. M. Ashby.

BANKERS' CLEARING HOUSE  
10 Lombard Street, E.C.3.

This is the organization through which the Clearing Banks and the Bank of England exchange cheques drawn on each other and settle their indebtedness to one another. The clearing system came into being in London during the second half of the eighteenth century, and has served as a pattern for the Clearing Houses that have been established since throughout the world.

To obtain payment for any cheque received from a customer for his credit, a banker must present it for payment to the bank on which it is drawn, and the Bankers' Clearing House affords a quick and efficient means of doing this. On an average day 2,200,000 cheques with a total value of £2,300 million, are exchanged and paid for by the eleven Clearing Banks and the Bank of England on behalf of their branches throughout England and Wales which number over 10,000.

At present two cheque clearings are operated each business day. The Town Clearing, which takes place from 2.30 p.m. until 3.45 p.m., enables cheques of £2,000 and over to be cleared the same day, provided that such cheques are drawn on, and paid into, a Town Clearing branch. There are over ninety branches of the Clearing Banks so designated within a half-mile radius of the Clearing House.

The General Clearing, which takes place each morning, handles all cheques, drawn on branches of the member banks, which cannot be passed through the Town Clearing or cleared under local arrangements. Since April, 1960, a Credit Clearing has been operated through which the member banks exchange credit items in respect of monetary transfers between their customers. The daily average for this Clearing, including work passed through the Inter-Bank Computer Bureau, is 600,000 items with a total value of £40 million.

At the end of the day each member bank works out the net balance resulting from its transactions in that day's Town Clearing, the previous day's General Clearing and Credit Clearing, and such differences as need to be adjusted. This net balance is either credited to or deducted from the bank's own account at the Bank of England.

Chief Inspector, G. D. Robson.  
Deputy Inspector, E. A. Young.

## PREMIUM SAVINGS BONDS

One of the most popular forms of saving in the United Kingdom is through Premium Savings Bonds. These bonds are United Kingdom Government security and were first introduced on November 1, 1956. Instead of earning interest, however, each bond offers to its holder the chance of winning a money prize in a prize draw. Bonds are issued in values ranging from £1 to £500 and each £1 buys one bond, which has one chance in the prize draw.

Bonds are sold only to individuals, not to groups or corporate bodies. No more than 1,250 bonds can be held by any one person. The bonds are sold at Post Offices, Banks, Trustee Savings Banks and through certain National Savings Groups. Holders may redeem bonds at any time by completing a form which is available at Post Offices and Banks.

Prizes are paid from a fund formed by the interest, at present 4½ per cent., per annum, carried into the draw by each eligible bond. A bond becomes eligible for the draw three clear calendar months following the month of purchase and goes into every subsequent draw whether or not it has won a prize. Prizes range in value from £5,000 to £25 every month with one £25,000 prize every week, the winning numbers being selected by the electronic random number indicator equipment—usually called "ERNIE." Winning numbers are printed monthly in the *London Gazette*. Bonds are

eligible for inclusion in all prize draws up to 12 months after the death of the holder. These terms also apply to bonds purchased before August 1, 1960 (Series "A").

It is estimated that by the end of May, 1969, bonds to the value of £1,113,000,000 had been sold. Of these £388,700,000 had been cashed, leaving £724,300,000 still invested. After the draw in March, 1969, more than 5,566,129 prizes had been distributed since the draws started. These prizes had a total value of £206,145,650.

## SAVINGS BANKS

National Savings Bank.—(The Post Office Savings Bank was renamed the National Savings Bank under the Post Office Act, 1969).

On Dec. 31, 1968, there were approximately 22 million active accounts with the sum of £1,590,466,773 due to depositors in Ordinary accounts and £189,406,807 in Investment accounts. On Dec. 31, 1968, Government Stocks and Bonds to the amount of £921,020,487 stood to the credit of holders in the Department for National Savings section of the National Savings Stock Register (formerly Post Office Register). Interest on National Savings Bank Ordinary deposits is allowed at 2½ per cent. per annum. A higher rate of interest is paid on deposits in National Savings Bank Investment accounts (the current rate can be ascertained at any Savings Bank Post Office). To open Investment account a depositor must have

at least £50 in an Ordinary account. A depositor may have more than one account in either series but both types of account are subject to an aggregate limit of £10,000 with certain exceptions for trust and trustee accounts.

On Dec. 31, 1968, the average amount held in Ordinary accounts was £74 5s. 2d.; in Investment accounts, approximately £407.

*Trustee Savings Banks* were started in the early years of the 19th century by public-spirited men who recognized the importance of individual thrift to the well-being of the community.

On Nov. 20, 1968, there were 12,329,098 active accounts in the Trustee Savings Banks. The total

assets of the Banks amounted to £2,502,242,839 which comprised £2,364,653,516 due to depositors in the Ordinary and Special Investment Departments, £188,046,799 Stocks and Bonds held for depositors and £39,542,524 representing the accumulated surplus of the individual Trustee Savings Banks throughout the country. Information about these Banks and their offices, numbering 1,464 (principal and subordinate) in November, 1968, can be obtained from the *Trustee Savings Banks Association*, Knighton House, Mortimer Street, W.1.

### UNIT TRUSTS

A Unit Trust is a method of investment by which money subscribed in varying amounts by individual investors is pooled in a fund, the investment and management of which is subject to the strict legal provisions of a Trust Deed. The fund is invested in carefully-selected stocks and shares by a management company and the investments so acquired are held by a Trustee (normally a bank or insurance company). Therefore, through his subscription to the Trust Fund, each subscriber acquires a fractional interest in the block of securities in which the Fund is invested, while the dividends received from the investments form the income of the trust. The net income is paid to all investors in the Trust Fund in proportion to the size of their holdings. The management company and the Trustee, who must be effectively independent of each other, are parties to the Trust Deed which must be authorized by the Board of Trade (or the Ministry of Commerce in Northern Ireland) before any public offer of units for sale may be made.

Although the record of unit trusts has been outstandingly good over the past 13 years, investment of this nature neither guarantees an increasing income nor ensures continual capital appreciation. They are essentially a medium or long-term form of investment—the rate of repurchases of units by the management companies of all authorized unit trusts in 1968 being only about 5 per cent. of the average value of funds invested.

Units are readily marketable, being bought or sold at the price (based on the value of the underlying securities) ruling at the time the order for sale or repurchase is received by the Management Company. The Board of Trade regulates the charges which Unit Trust managers may make. These charges are taken by way of an initial service charge (which is included in the sale price of a unit), and a semi-annual management fee levied on the value of the fund and taken out of either income or capital. Over a 20-year life of a Trust, the initial service charge, together with management fees, may not total more than 13½ per cent. In order to avoid the need for quoting unit prices with awkward fractions of a penny the managers are also entitled to round off the price of a unit by 3d. or 1 per cent. (whichever is the lower).

#### Savings Schemes

Most management companies operate savings schemes whereby an investor is able to make contributions at intervals which are utilized to purchase units at the current price, the cash balance remaining from any such purchase being carried forward and added to the next contribution. The dividend income is either paid directly to the investor every six months, or, more generally, is used by arrangement to purchase further units for his account. In either case any unit-holder who is not liable to tax at the standard rate of tax deducted can claim appropriate relief from the Inland Revenue.

Without doubt, the Savings schemes linked with life assurance have provided one of the most rapid growth sectors of the Unit Trust movement in recent years. These schemes enable a person to accumulate a sum of money for retirement, etc. with the protection of life assurance cover for the duration of the planned period of saving. At the end of this period, the investor receives all the units acquired or their cash value. If death occurs beforehand, the dependants receive all the units bought up to date, plus a cash sum equivalent to the total remaining contributions necessary to have completed the savings programme. Tax relief is available on these contributions as with other life assurance premiums.

#### Arrangements for Children

In general, units cannot be registered in the name of a child but they can be registered in the name of a parent or any other adult, and the registered holding can be designated with the initials of the child. Alternatively, money can be settled on a child under one of the various children's gift plans operated and the units held in trust. Income distributions, less income tax, are invested in further units, and additional units may be purchased at any time. When the child reaches 21 or some chosen later age, the units become his property absolutely, and in most cases he can reclaim income tax deducted from the income distributions. From the point of view of the settlor, income from the gift does not give rise to any liability on him for income tax or surtax and there are advantages in respect of estate duty.

The unit trust movement, which has been in operation for some thirty years, has experienced an upsurge in business in recent years and this is reflected in the following figures.

Year End—	Value of Funds at the £ million	No. of Holdings
1960	201.4	654,520
1961	236.6	672,010
1962	272.5	817,585
1963	371.2	1,049,930
1964	428.9	1,311,573
1965	521.9	1,419,100
1966	581.8	1,637,487
1967	853.6	1,711,157
1968	1,482.4	2,148,097
1969 (30 June)	1,315.7	2,360,104

Allowing for duplication, there were over 1,250,000 separate investors at the end of 1968.

The Association of Unit Trust Managers of 306-8 Salisbury House, Finsbury Circus, E.C.2 was formed on October 13, 1959 and membership is open to any management company of an authorized unit trust scheme. It publishes an annual directory of members who represent approximately three-quarters of the funds invested in the movement. The Association's main object is to act as a consulting body amongst its members in order to agree strict standards of unit trust practices for the pro-

tection of the interest of unit holders and management companies, and to maintain the good name of the Unit Trust Movement.

The following details as at January 1, 1969, relating to the management groups operating in

Great Britain and Northern Ireland have been extracted from the *Unit Trust Year Book 1969*, published by Fundex Ltd., and the Directory of Unit Trusts published by the Association of Unit Trust Managers.

### THE QUEEN'S AWARD TO INDUSTRY

The Queen's Award to Industry was instituted by H. M. the Queen by Royal Warrant published on March 22, 1966, "to recognise outstanding achievements in industry either in increasing exports or in technological innovation."

The Award is related to the production of goods by any branch of British industry, including agriculture and horticulture, and is made to organizations and not to individuals. The Award is normally made to particular industrial units, but units or agencies of central or local government with industrial functions, as well as research associations, educational institutions and bodies of a similar character are eligible provided that they can show they have contributed to industrial efficiency in the field in which the scheme is concerned.

The Award is made for industrial efficiency, assessed in terms of achievement such as: ■ substantial and sustained increase in total exports over 3 years; ■ substantial and sustained increase in the percentage of total exports to total business over 3 years; a percentage of exports to total business which is considerably and consistently higher than the average for the applicant's sector of industry; ■ spectacular increase over a shorter period than three years where there is a reasonable prospect that the performance can be maintained; ■ breakthrough in a particularly difficult market; the greatest value of export sales by any group or company in a given year; a significant advance in the application of advanced technology to ■ production or development process in British industry; the production for sale of goods which incorporate new and advanced technological qualities.

Export achievement is based on visible exports, including, where appropriate, construction work by

British companies overseas. In the case of technological achievement, Awards are confined to finished products or processes resulting from or involved in the normal course of commercial production.

Industrial concerns are invited to apply for the Award and the names of winners of the Award are announced each year on the Queen's Birthday, April 21. There were 85 recipients in 1967, the fifth year of the Award and 85 in 1968. Holders of the Queen's Award are entitled to display its emblem; they receive ■ Grant of Appointment and a representation of the emblem cast in stainless steel and embedded in ■ transparent block. The emblem may appear on the goods themselves.

Clerk of the Court, Mr. Registrar Berkeley.

NOTE ON CIVIL COURTS.—Smaller civil actions are heard locally in County Courts which, with some exceptions, deal with all common law cases where the sum involved is less than £400. Jurisdiction given by special statutes is of the widest range and cases under such statutes are dealt with irrespective of the amount involved. County Courts are presided over by a paid Judge sitting alone. The county court for the City of London is the Mayor's and City of London Court, which deals with small cases and has also jurisdiction unlimited in amount. Bankruptcy cases arising in London are dealt with in the London Bankruptcy Court, Victory House, Kingsway, W.C.2; those arising out of London are dealt with in the county courts.

Actions in the High Court are distributed among the several Divisions of the High Court according to their nature. Certain classes of actions, e.g., those dealing with the administration of estates of deceased persons, partnerships, trusts and mortgages, specific performance of contracts between vendors and purchasers of real estates, including contracts for leases, partition or sale of real estates, wardship of infants and the care of infants' estates, and company and bankruptcy cases, are usually commenced in the Chancery Division. The Queen's Bench Division deals with most ordinary civil cases. Actions may be tried in London or the Assizes. The Probate, Divorce and Admiralty Division has jurisdiction in matters concerning wills, divorces, and Admiralty, prize and shipping cases.

## LAW COMMISSION

England and Wales

Lacon House, Theobald's Road, W.C.1

Set up on June 16, 1965, under the Law Commissions Act, 1965, to make proposals to the Government for the examination of the Law and for its revision where it is unsuited for modern requirements, obscure, or otherwise unsatisfactory. It recommends to the Lord Chancellor programmes for the examination of different branches of the law and suggests whether the examination should be carried out by the Commission itself or by some other body. The Commission is also responsible for the preparation of Consolidation and Statute Law Revision Bills.

Chairman, The Hon. Mr. Justice Scarman, O.B.E.

Members, L. C. B. Gower; N. Lawson, Q.C.;

N. S. Marsh, Q.C.; A. Martin, Q.C.

Secretary, J. M. Cartwright Sharp.

## COUNTY COURTS

In 1968 the total number of proceedings in County Courts of England and Wales (including the Mayor's and City of London Court) was 1,533,949 (as against 1,624,657 for the year 1967). The number of debtors imprisoned under the Debtors Act, was 3,329 (1967), and 2,789 (1968).

### CROWN COURTS

The Criminal Justice Administration Act, 1956,  
 authorized the setting up of two new courts,  
 known as the Crown Court of Liverpool and the  
 Crown Court of Manchester. These Courts took  
 over the jurisdiction of the former Courts of  
 Quarter Session for Liverpool and Manchester and  
 the criminal jurisdiction of the Assize Courts for  
 the West Derby and Salford Divisions of Lancashire.  
 The Courts are normally presided over by the  
 Recorders of Liverpool and Manchester who have  
 power to refer assize cases for trial by a judge of  
 the High Court.

## THE ARMED FORCES

## MINISTRY OF DEFENCE

Main Building  
Whitehall, S.W. 1  
[01-930-7022]

On April 1, 1964 a unified Ministry of Defence was created which absorbed the four separate departments which had previously been responsible for defence matters, namely the Admiralty, the War Office, the Air Ministry and the Ministry of Defence. This Department is now responsible for the formulation of defence policy and the control and administration of the armed forces.

The Ministry is broadly organized into central staffs, who are concerned with general defence policy and strategy, and staffs, under the Admiralty Board, the Army Board and the Air Force Board of the Defence Council, who are responsible for the control and administration of the three Services. The Minister in charge of the department is the Secretary of State for Defence and he is assisted by ■ Minister of Defence for Administration, ■ Minister for Equipment and Parliamentary Under-Secretaries of State, one for each Service.

#### Meteorological Office

London Road, Bracknell, Berks.

[Bracknell: 20242]

The Meteorological Office is the State Meteorological Service. It forms part of the Ministry of Defence, the Director General being ultimately responsible to the Secretary of State for Defence.

Except for the common services provided by other government departments as part of their normal functions, the cost of the Meteorological Office is borne by Air Votes.

The gross annual expenditure by the Exchequer, including that of the common services, is of the order of £8,250,000. Of the expenditure chargeable to Air Votes about £5,815,000 represents expenditure associated with staff and £2,435,000 on stores, communications and miscellaneous services. Of the total expenditure, about £1,900,000 is recovered from outside bodies in respect of special services rendered, sales of meteorological equipment, etc.

Director General, B. J. Mason, D.Sc., F.R.S. £5,950

Chief Scientific Officers, P. J. Meade, O.B.E.; J. S. Sawyer, F.R.S. . . . . £5,000 to £5,250

### ROYAL OBSERVER CORPS

Bentley Priory, Stanmore, Middlesex

Established 1925, the Royal Observer Corps is a uniformed voluntary civilian organization originally set up to identify and track the movement of aircraft in war. In 1955 the Corps assumed the modern role of detecting nuclear bursts and monitoring radioactive fall-out in support of the United Kingdom Warning and Monitoring Organization. The Corps is affiliated to the Royal Air Force and is administered by Strike Command.

Air Commodore-in-Chief, H.M. THE QUEEN.  
Commandant, Air Commodore D. F. RIXSON, O.B.E., D.F.C., A.F.C.

### THE UNION JACK SERVICES CLUBS

Patron: H.R.H. the Duke of Gloucester, K.G.  
President: Major-Gen. Sir Julian Gascoigne, K.C.M.G.  
Comptroller: Col. C. A. la T. Leatham.  
Secretary: Lt.-Cdr. H. Cole, R.N.

### THE UNION JACK CLUB

Waterloo Road, S.E.1 Tel.: [01-928-6401]

Opened in 1907, this is one of our great National Institutions, where all the facilities of their own large residential Club are available to Sailors, Soldiers and Airmen on leave in or passing through London. Comfortable bedrooms and good meals are available at moderate charges, and the amenities include library and writing room, smoke room, lounge bar, billiards room, colour television, radio, barber's shop, launderette, baggage room and club shop. The Club is open throughout the day and night and has a total accommodation of 936 beds.

All serving men below commissioned rank are automatically members of the Club and honorary membership is extended to the Forces of other Powers visiting England. A limited number of ex-Servicemen may be elected to individual membership and, subject to the priority given to serving personnel, accommodation on a temporary honorary basis may be made available to other ex-service men on written application.

The Club also provides excellent facilities for Reunion occasions at reasonable charges.

The *Union Jack Families Club*, Exton Street, Waterloo, S.E.1. Established in 1913, this Club provides accommodation and meals at moderate charges for the wives and children (with or without their husbands and fathers) of members and ex-members of the Royal Navy, Army and Royal Air Force, below commissioned rank. Accommoda-

tion available for 200. Warden: Miss M. F. Robertson.

The *Union Jack Women's Services Club*. Is incorporated into the Families Club in Exton Street, Waterloo, and is, for Service and ex-Service women (including those of the Forces Nursing Services), the counterpart of the Union Jack Club. The Club has accommodation for 31 in single and shared rooms, and all the usual facilities of a residential Club.

## SERVICE PAY AND PENSIONS

Pay and Pensions of the Armed Forces are reviewed regularly at intervals of not more than two years, taking into account movements in civilian earnings in a range of occupations. The following tables show rates of pay effective from April 1, 1968, detailed in *Service Pay and Pensions* (Cmd. 3756) in 1968. In general the rates shown below are for United Kingdom-based regulars of the three Services; where Army ranks only are shown, rates apply equally to equivalent ranks in the other Services. Women's rates of pay maintain the ratio of approximately 85 per cent. of the equivalent men's rates.

## THE CHURCH OF SCOTLAND

Church Office. 131 George Street, Edinburgh 2

THE CHURCH OF SCOTLAND is Presbyterian in constitution, and is governed by Kirk Sessions, Presbyteries, Synods, and the General Assembly, which consists of both clerical and lay representatives from each of the Presbyteries. It is presided over by a Moderator (chosen annually by the Assembly), to whom Her Majesty the Queen has granted precedence in Scotland, during his term of office, next after the Lord Chancellor of Great Britain. The Sovereign, if not present in person, is represented by the Lord High Commissioner (appointed each year by the Crown), who receives up to £7,500 towards his expenses. The country, for Church purposes, is divided into 12 Synods and 59 Presbyteries, and there are about 2,000 ministers and licentiates engaged in ministerial and other work. There are now 63 Presbyteries in all, including: (1) The Presbytery of England and (2) the Presbyteries of (a) Northern

Europe, (b) Southern Europe, (c) Spain and Portugal. The figures at Dec. 31, 1968, were:—

Congregations, 2,115: total membership 1,201,933. In 21 Overseas Mission fields, there are 220 European missionaries (and in addition many missionaries' wives, most of whom are doing mission work in the various fields).

## THE METHODIST CHURCH

UNDER the general designation of METHODISTS are included all those religious bodies which owe their existence, directly or indirectly, to the efforts of the Revd. John Wesley (born June 17, 1703; died March 2, 1791) and his brother, Revd. Charles Wesley (born Dec. 18, 1707; died March 29, 1788).

On September 20, 1932, the Wesleyan Methodist Church, the Primitive Methodist Church and the United Methodist Church were united and became "The Methodist Church."

The Methodist Church is governed primarily by the Conference, secondarily by the District Synods (held in September and May), consisting of all the ministers and of selected laymen in each district, over which a chairman is appointed by the Conference; and thirdly by circuit quarterly meeting of the ministers and lay officers of each circuit. The authority of both Synods and Quarterly Meetings is subordinate to the Conference, which has the supreme legislative and judicial power in Methodism.

*President of the Conference (July 1969-70)*, Rev. B. S. O'Gorman.

*Vice-President of the Conference (July, 1969-70)*, T. K. J. Leese, M.B., Ch.B.

*Secretary of the Conference*, Rev. E. W. Baker, M.A. Ph.D., 2 Central Buildings, Westminster, S.W.1.

*President Designate (1970-71)* Rev. R. E. Davies, M.A., B.D.

*Vice-President Designate (1970-71)*, Prof. W. R. Hindmarsh, M.A., D.Phil.

*Statistics*.—In 1968 in association with the Conference in Great Britain (at home and in overseas Districts) there were 4,344 Ministers, 20,244 Local Preachers, 759,130 Members and Probationers, and 9,948 Churches.

The World Methodist Council, founded 1881, re-organized 1951, associates Methodism throughout the world in 82 countries.

The Methodist Church was founded in 1739 by the two brothers Wesley and rapidly spread throughout the British Isles and to America before 1770. The Methodist Church in Great Britain was united in 1932 by the fusion of the Wesleyan Methodist Church which was the original section, the Primitive Methodist Church, which arose through the evangelists Hugh Bourne and William

Clowes in 1810, and the United Methodist Church, itself a fusion in 1907 of the Methodist New Connexion which dated from 1797, the Bible Christian Methodist Church, which dated from 1815 and the United Methodist Free Churches which originated in controversies in 1828 and 1849. The Methodist Church of America was formed by 1 union of United Methodist denominations with the United Evangelical Brethren.

## METHODIST CHURCH IN IRELAND

The Methodist Church in Ireland has 235 Ministers, 323 Lay Preachers, 29,842 Adult and 19,189 Junior Members, 1,617 Sunday School Teachers and 12,714 Scholars.

*President (1969-70)*, Rev. G. E. Gooch, M.A.  
*Secretary*, Rev. H. Sloan, 90 Osborne Park, Belfast, 9.

## THE UNITED CHURCH OF CANADA

The United Church of Canada is the result of the union (1925) of Methodist, Presbyterian and Congregational Churches in Canada. *Sec. of General Council*, Rev. Ernest E. Long, B.A., D.D., LL.D., The United Church House, 85 St. Clair E., Toronto.

## INDEPENDENT METHODISTS

*Independent Methodists*.—This body is congregational in its organization, with an unpaid Ministry. Its first Conference was held in 1805. In 1969 there were in Great Britain 232 Ministers, 6,816 Members, 144 Chapels and 6,946 Sunday School scholars. *Joint Secretaries*, W. Drummond Brown, 21 Ashley Drive, Swinton, Lancs.; D. S. Downing, 4 Meadow Avenue, Loughborough, Leics.

## WESLEYAN REFORM UNION

This Union is Methodist in doctrine, Congregational in government, with, if any church desires it, a paid ministry. It is the remnant of the original Reformers expelled from Wesleyan Methodism in 1840. The adherents are mainly in the Midland and Northern counties. In 1969 there were in Great Britain 24 Ministers, 242 Lay Preachers, 5,015 Members, 155 Chapels and 6,865 Sunday scholars.—*President (1969-70)*, Rev. D. A. Morris, Bradford. *General Secretary and Connexional Editor*, Rev. A. Halladay, Wesleyan Reform Union House, 123 Queen Street, Sheffield 1.

### THE CALVINISTIC METHODIST CHURCH OF WALES

THE CALVINISTIC METHODIST OR PRESBYTERIAN CHURCH OF WALES is the only Church of purely Welsh origin, and embraces a very large section of the Welsh-speaking population. Its form of government being Presbyterian, it is a constituent of the Pan-Presbyterian Council or Alliance. It is also a member of the British Council of Churches and the World Council of Churches. It has foreign missions in India.

In 1968 the body numbered—chapels and other buildings, 1,329; ministers in pastoral charge, 387; elders, 6,603; communicants 113,468; Sunday-school teachers and officers 7,957, Sunday-school scholars 53,073. Contributions for various religious purposes (including the ministry), £1,097,067.

One of the features of the Welsh churches is the Sunday-school, which is attended by adults as well as children.

The Eastern Association which now includes nine of the English Presbyteries, was formed in 1947.

The Welsh Mission in Assam numbers over 300,000 members.

*Moderator of General Assembly (1969-70)*, Rev. H. Jones, B.A., Ruthin.

*Moderator of Associations (1969-70) South Wales*, Rev. G. M. Roberts, M.A., Llanybyc, Carmarthenshire; *North Wales*, Rev. J. Humphreys, M.A., B.D., Rhosesmor, Flintshire; *The East*, Rev. W. D. Evans, Cardiff.

*Chief Secretary*, Rev. W. D. Jones, B.A., 32 Carstairs Road, Liverpool 6.

### THE INDEPENDENTS AND THE BAPTISTS

THE INDEPENDENTS, or CONGREGATIONALISTS, are the most ancient community of Dissenters. In 1831 the majority of their churches united to form the Congregational Union of England and Wales, incorporated in 1902, and in 1920 nine provinces were formed, each with a Moderator. There are 51 county and other Associations in the British Isles, with 2,663 churches and preaching stations with 1,686 ministers and 187,128 members in England and Wales. The Congregational Church in England and Wales was formed in 1966. *President of the Congregational Church in England and Wales (1969-70)*, Rev. R. W. H. Jones, B.A. *Minister Secretary*, Rev. J. Huxtable, M.A., Livingstone House, 11 Carteret Street, S.W.1.

The *Countess of Huntingdon's Connexion*, with 37 chapels and mission stations, is governed by nine trustees assisted by an annual conference of ministers and delegates. Most of the churches are affiliated with the Congregational Church in England and Wales.

*Secretary*, H. W. L. Keeping. *Offices*, 4 Elgin Park, Redland, Bristol 6.

THE CONGREGATIONAL UNION OF SCOTLAND. In 1795 James and Robert Haldane left the Church of Scotland and the churches which they founded formed the Congregational Union in 1812, which in 1896 united with the Evangelical Union (founded in 1843 by James Morison). There are 120 Churches of the Congregational Union of Scotland with a membership of 26,527. Of the 143 Ministers, 92 are Pastors. *President*, Rev. T. Maxwell, Bathgate. *Secretary*, Rev. J. T. George, 215 West George Street, Glasgow, C.2.

THE BAPTISTS have over 27,500,000 members in all countries. In Britain they are for the most part grouped in associations of churches, and the majority of these belong to the Baptist Union, which was formed in 1812-13. In the British Isles there were, in 1968, 2,075 pastors and deaconesses. The members numbered 281,008, young people (14-20), 54,784, juveniles (under 14) 200,282. *President of the Baptist Union of Great Britain and Ireland (1969-70)*, Rev. W. J. Grant. *Secretary*, Rev. D. S. Russell. *Office*, 4 Southampton Row, W.C.1.

### OTHER RELIGIOUS DENOMINATIONS

The General Assembly of Unitarian and Free Christian Churches has about 226 ministers, 330 chapels and other places of worship in Great Britain and Ireland. *Gen. Sec.*, Rev. B. L. Golland, Essex Hall, Essex Street, W.C.2.

The Salvation Army, first known as the Christian Mission, was founded by William Booth, in the East End of London in 1865. In 1878 it took its present name and adopted a quasi-military method of government. Since then it has become established in 70 countries of the world. The head of the denomination, known as the General, is elected by a High Council consisting of all the Commissioners of the Army. In 1966 there were, in Great Britain, 1,199 Corps (Churches), 2,977 Officers engaged in evangelistic work and 53,933 Local Officers (lay workers). The latest statistics for the world (1966) are 16,190 Corps and 25,248 Officers. *General*, Erich Wickberg.

*International Headquarters* :—101 Queen Victoria Street, E.C.4.

The Brethren number about 80,000, of whom five-eighths belong to the "Open" body.

The Society of Friends (Quakers) consists of 20,009 members in Great Britain, and has 440 places of worship (*Recording Clerk*, Arthur J. White).

The total number in the world is about 197,000 (123,000 are in U.S.A. and Canada). *Central Offices*

(Great Britain), Friends House, Euston Road, N.W.1, (Ireland), 6 Eustace Street, Dublin.

The Oxford Group (Moral Re-Armament), *Hdqs.*, 4 Hays Mews, Berkeley Square, W.1.

The First Church of Christ, Scientist, in Boston, Massachusetts, U.S.A. (District Manager, Committees on Publication for Great Britain and Ireland, Ingersoll House, 9 Kingsway, W.C.2), has 319 branch churches and societies in Great Britain and Ireland.

The Moravian Church, 5 Muswell Hill, N.10, has in the U.K. 40 congregations and preaching stations, with 2,773 communicants.

The Free Church of England (otherwise called The Reformed Episcopal Church) has 34 churches in England. *Gen. Sec.*, Rev. W. C. Watkins, 8 Brassey Avenue, Broadstairs, Kent.

The Seventh Day Adventists (*Hdqs.*, Stanborough Park, Watford, Herts.), have 130 organized churches, 53 companies and 11,566 members in the British Isles.

At Woking, Surrey, is the Shah Jehan Mosque for Moslems, the first in Great Britain, built in 1889. There are also Mosques at Southfields, S.W.18, Commercial Road, E.1, Birmingham, Manchester, Cardiff, Newcastle upon Tyne, South Shields, Coventry and Glasgow.

## THE ROMAN CATHOLIC CHURCH

HIS HOLINESS POPE PAUL VI (Giovanni Battista Montini), Roman Pontiff, born in Concesio, Italy, September 26, 1897; ordained priest May 20, 1920; nominated Archbishop of Milan, November 1, 1954; Cardinal, December 15, 1958; elected Pope June 21, 1963; crowned June 30, 1963.

THE SACRED COLLEGE OF CARDINALS, when complete, consisted of six Cardinal Bishops, fifty Cardinal Priests and fourteen Cardinal Deacons. This number was fixed by Pope Sixtus V in 1586. Pope John XXIII created 52 new Cardinals. The present Pope created 27 new Cardinals on Feb. 22, 1965, 27 on June 26, 1967, and a further 33 on Apr. 28, 1969. In August 1969 there were 133 Cardinals. The Cardinals are advisers and assistants of the Sovereign Pontiff and form the supreme council or Senate of the Church. On the death of the Pope they elect his successor. The assembly of the Cardinals at the Vatican for the election of a new Pope is known as the Conclave in which, in complete seclusion, the Cardinals elect by secret ballot; a two-thirds majority is necessary before the vote can be accepted as final. When a Cardinal receives the necessary votes the Dean of the Sacred College formally asks him if he will accept election and the name by which he wishes to be known. On his acceptance of the office the Conclave is dissolved and the First Cardinal Deacon announces the election to the assembled crowd in St. Peter's Square. On the first Sunday or Holiday following the election the new Pope is crowned with the tiara, the triple crown, the symbol of his supreme spiritual authority. A new pontificate is dated from the coronation.

FORMS OF ADDRESS: Cardinal, "His Eminence Cardinal . . ." (if Archbishop, "His Eminence the Cardinal Archbishop of . . ."); Archbishop, "The Most Rev. Archbishop of . . ."; Bishop, "The Rt. Rev. the Bishop of . . ."

## LONDON CATHEDRALS, CHURCHES, ETC.

**ST. PAUL'S CATHEDRAL**, City of London, E.C.4 (1675-1710), cost £747,660. The cross on the dome is 365 ft. above the ground level, the inner cupola 218 ft. above the floor. "Great Paul," in S.W. tower, weighs 17 tons. Organ by Father Smith (enlarged by Willis) in case carved by Grinling Gibbons (who also carved the choir stalls). The choir and high altar were restored in 1958 after war damage and the North Transept in 1962. The American War Memorial Chapel was consecrated in November, 1958. The Chapel of the Most Excellent Order of the British Empire in the Crypt of the Cathedral was dedicated on May 20, 1960. Nave and transepts free; Fees to the following parts (on weekdays only, 11 a.m. to 3.30 p.m. and—during Summer Time only—4.45 p.m. to 6 p.m.); Crypt, 1s; library, whispering gallery, and stone gallery, 2s; golden gallery 1s; ball, 1s; total, 5s. Service on Sundays at 8, \*10.30, \*3.15, and \*6.30. Weekdays at 8, \*10, \*4. Also Fridays, \*12.30 p.m. short mid-day service. (\*Services are choral.)

**WESTMINSTER ABBEY**, S.W.1 (built A.D. 1050-1760).—Open on weekdays at 8 a.m. Admission to Royal Chapels by fee of 2s. 6d. (children 1s.) (week-days) except on Fridays (open free). Transepts and Nave open on Sundays only between services. Holy Communion at 8; matins at 10.30; Holy Communion at 11.30. Evensong at 3. Evening service with Sermon at 6.30; Daily—Holy Communion at 8 a.m.; Westminster School Service at 9 a.m.; matins 10.30 a.m.; 10 a.m. (choral) Tues. and Fri.; evensong (choral), 5.0 p.m. (Saturday and Bank Holidays, 3 p.m.). Chapel of Henry VII, Chapter House and Cloisters; King Edward the Confessor's shrine, A.D. 1269, tombs

of kings (Edward I, Edward III, Henry V, Mary Queen of Scots, Queen Elizabeth I), and many other monuments and objects of interest, including the grave of "An Unknown Warrior" and St. George's Chapel at the W. end of Nave (1920), and Poets' Corner. The Coronation Chair encloses the "Stone of Scone" brought from Scotland by Edward I in 1297.

**SOUTHWARK CATHEDRAL**, south side of the Thames, near London Bridge, S.E.1.—Mainly 13th century, but the nave is largely rebuilt. Known as St. Mary Overie before 1540. Open 7.30 a.m. to 6.30 p.m., free. Sunday services, Holy Communion, 8.30 and 11 a.m., Morning Prayer, 10 a.m., Evening Prayer, 3 p.m., Discussion, 6.30 p.m. Weekdays: Matins, 7.40 a.m.; Evensong, 5.30 p.m. (choral except Thursdays and Saturdays) (5 p.m. on Saturdays). Holy Communion, 8 a.m., also 5.30 p.m.. Thursdays and 1.10 p.m. Fridays. The tomb of John Gower (1330-1408) is between the Bunyan and Chaucer memorial windows, in the N. aisle; Shakespeare effigy backed by view of Southwark and Globe Theatre in S. aisle; the altar screen (erected 1520) has been restored; the tomb of Bishop Andrewes (died 1626) is near screen. The Early English Lady Chapel (behind the choir), restored 1930, is the scene of the Consistory Courts of the reign of Mary (Gardiner and Bonner); and is still used for this purpose. John Harvard, after whom Harvard University is named, was baptized here in 1607.

**TEMPLE CHURCH**, The Temple, E.C.4.—The west part forms one of five remaining round churches of the Templars in England. Sunday morning services, open to the public, 11.15 a.m., except in August and September. *Master of the*

## THE JEWS

It is estimated that about 450,000 Jews are resident in the British Isles, some 280,000 being domiciled in Greater London.

The *Board of Deputies of British Jews*, established in 1760, is the representative body of British Jewry and is recognized by H.M. Government. The basis of representation is mainly synagogal, but secular organizations are also represented. It is a deliberative body and its objects are to watch over the interests of British Jewry, to protect Jews against any disability which they may suffer by reason of their creed and to take such action as may be conducive to their welfare.

*President of the Board of Deputies* (Woburn House, Upper Woburn Place, W.C.1), M. M. Fidler.  
*Secretary*, A. J. Marks.

**CHIEF RABBI**—The Very Rev. I. Jakobovits, Ph.D.  
*Executive Director* Rabbi M. Rose, *Office*, Adler House, Tavistock Square, W.C.1.

The *Beth Din* (Court of Judgment) is a rabbinic body consisting of *Dayanim* (Assessors) and the Chief Rabbi, who is President of the Court. The Court arbitrates when requested in cases between Jew and Jew and gives decisions on religious ques-

tions. The decisions are based on Jewish Law and practice and do not conflict with the law of the land. The *Beth Din* also deals with matters concerning dietary laws and marriages and divorces, according to Jewish Law.

*Dayanim*, L. Grossnass; A. Rapoport; Dr. M. Lew; M. Steinberg; M. Swift  
*Clerk to the Court*, Marcus Carr, Adler House, Tavistock Square, W.C.1

*Chief Rabbi of the Community of Spanish and Portuguese Jews in London* (Established 1657), Dr. Solomon Gaon.

#### Regional Advisory Councils

Set up in 1947 (i) to bring education and industry together to find out the needs of young workers and advise on the provision required, and (ii) to secure reasonable economy of provision. They also have certain responsibilities in connection with the procedure for the approval by the Department of Education and Science of advanced courses, and issue handbooks, etc., giving, for the guidance of students and teachers, information about the facilities available within a region or district for various types of training (e.g. electrical engineering, textiles, building and chemistry). There are ten Regional Advisory Councils, in England and Wales:—

REGION 1 (LONDON AND HOME COUNTIES).—Regional Advisory Council for Technological Education, Tavistock House South, Tavistock Square, W.C.1.

REGION 2 (SOUTHERN).—Regional Council for Further Education, 9 Bath Road, Reading.

## Technical Colleges

Nearly all technical colleges in England and Wales are maintained or assisted by local education authorities. There are about 560 colleges, a number of which provide a substantial amount of higher education including, in particular, full-time and sandwich courses. These also carry out some less advanced work. A wide range of mainly part-time vocational courses are provided by the other colleges, of which over a third offer courses to H.N.C. level or its equivalent and the remainder to O.N.C. or its equivalent. However, the existing pattern is being altered and in future the development of full-time (and to a lesser extent part-time) higher education will be concentrated in some 30 institutions, to be known as Polytechnics, which will be based upon existing colleges. The first four Polytechnics which were established early in 1969 are:—

HATFIELD POLYTECHNIC.—Dir., N. Lindop.

CITY OF LEICESTER POLYTECHNIC.—Dir., R. E. Wood.

SHEFFIELD.—Dir., G. Tolley, Ph.D.

SUNDERLAND.—Rector, M. Hutton, Ph.D.

The remaining Polytechnics which were expected to be established by 1970 are (together with the colleges from which they will be formed):—

BIRMINGHAM.—Aston Technical College; City of Birmingham College of Commerce; South Birmingham Technical College; Birmingham College of Art and Design; Birmingham School of Music.

BRIGHTON.—Brighton College of Technology; Brighton College of Art.

†BRISTOL.—Bristol Technical College; Bristol College of Commerce; West of England College of Art.

COVENTRY AND RUGBY.—Lanchester College of Technology; Coventry College of Art; Rugby College of Engineering Technology.

GLAMORGAN.—Treforest College of Technology.

HUDDERSFIELD.—Huddersfield College of Technology; Oastler College of Education.

KINGSTON.—Kingston College of Technology; Kingston College of Art.

LEEDS.—Leeds College of Technology; Leeds College of Commerce; Leeds College of Art; Yorkshire College of Education and Home Economics.

LIVERPOOL.—Liverpool College of Technology; Liverpool College of Building; Liverpool College of Commerce; Liverpool College of Art.

LONDON (CENTRAL).—The Polytechnic, Regent Street; Holborn College of Law, Languages and Commerce; (City) City of London College; Sir John Cass College; Nautical College; (Northern/North Western) Northern Polytechnic; North Western Polytechnic; (South Bank) Borough Polytechnic; Brixton School of Building; National College for Heating, Ventilating, Refrigeration and Fan Engineering; City of Westminster College; (Thames) Woolwich Polytechnic; Hammersmith College of Art and Building.

LONDON (NORTH).—Hendon College of Technology; Enfield College of Technology; Hornsey College of Art.

LONDON (NORTH-EAST).—Barking Regional College of Technology; West Ham College of Technology; Waltham Forest Technical College and School of Art.

MANCHESTER.—John Dalton College; Manchester College of Art and Design; Manchester College of Commerce.

†NEWCASTLE.—Rutherford College of Technology; Newcastle upon Tyne College of Art and Industrial Design; Newcastle upon Tyne Municipal College of Commerce.

NORTH STAFFORDSHIRE.—Staffordshire College of Technology; North Staffordshire College of Art; Stoke-on-Trent College of Art.

OXFORD.—Oxford College of Technology.

PLYMOUTH.—Plymouth College of Technology.

†PORTSMOUTH.—Portsmouth College of Technology; Portsmouth College of Art and Design.

TEESSIDE.—Constantine College of Technology.

TRENT.—Nottingham Regional College of Technology; Nottingham College of Art.

†WOLVERHAMPTON.—Wolverhampton College of Technology; Wolverhampton College of Art.

†Establishment of the Polytechnics of Bristol, Newcastle upon Tyne, Portsmouth and Wolverhampton, was announced on Sept. 2, 1969.

In addition to these colleges, there are some 7,500 Evening Institutes and similar types of establishment providing a wide variety of non-vocational classes for adults.

## Scottish Technical Education Consultative Council

The Consultative Council represents both sides of industry and educational interests. The Council's object is "to secure the widest possible measure of consultation on vocational further education between employers, employees and those responsible for its provision, and to advise, and generally to promote, the development of such education".—Sec., Mrs. E. C. G. Craghill, Scottish Education Department, 8 George Street, Edinburgh, 2.

## Scottish Technical Colleges

Technical education is available at approximately 100 day-course schools and colleges in Scotland, including those which specialize in a particular subject. The following are among those recognized by the Scottish Education Department as "central institutions" (colleges for higher technical learning); other Scottish central institutions appear under Agriculture, Art, Domestic Science and Music.

#### Industrial Training Foundation

18 Thurloe Place, S.W.7

Formed in 1964 with the support of the Ministry of Labour (now Department of Employment and Productivity) and the Department of Education and Science to assist in implementing the Industrial Training Act, 1964.

It provides a service for all industries and all categories of employees through its six regional offices. A Training Officer and Advisory Service assists individual firms in the development of training programmes and makes available the part-time services of qualified training officers. This service also provides assistance in maintaining training records required by Industrial Training Boards and advice on dealing with questionnaires and grant claims.

The main activities of the ITF are: assessment of training needs; provision of training for apprentices, operators, supervisors, instructors and salesmen. There is a personal tutorial service for management. The Foundation operates training schemes to the

requirements of individual firms or on a group basis.

A further activity of the ITF under its training officer service is the operation and expansion of the Engineering Industries Group Apprenticeship Scheme (EIGA) formed in 1953, which serves 1,000 firms throughout the country and provides 3,000 training places.

## HEADMASTERS' CONFERENCE SCHOOLS

THE HEADMASTERS' CONFERENCE.—*Chairman*, T. E. B. Howarth, M.C., T.D., (*St. Pauls*) Sec., H. E. Birbeck, 29 Gordon Square, W.C.1. *Deputy Sec.*, R. St. J. Pitts-Tucker. The annual meetings are, as a rule, held at the end of September.

In considering applications for election to membership the Committee will have regard to the scheme or other instrument under which the school is administered (taking particularly into consideration the degree of independence enjoyed by the Headmaster and the Governing Body); the number of boys over thirteen years of age in the school; the number of boys in proportion to the size of the school who are in the sixth form, *i.e.* engaged on studies above the standard of the Ordinary level of the General Certificate Examination; and the connection with the Universities, as indicated by the number of undergraduates from the school at British universities.

### THE INCORPORATED ASSOCIATION OF PREPARATORY SCHOOLS (1992)

There are 485 schools in the British Isles whose headmasters are members of I.A.P.S. and 47 overseas. Most are boys' schools but it was decided in 1968 to admit headmasters of co-educational schools provided that girls do not outnumber boys in the age group 11 to 13. It is a condition of membership that a school be recognized as efficient by the Department of Education and Science and all applications for membership are carefully scrutinized by the Council of the Association. The Annual Conference is held early in September at Oxford or Cambridge.

Chairman, W. L. V. Caldwell

Secretary, L. H. A. Hankey, 138 Church Street, Kensington, W.8.

#### LABOUR

(1968). Oct. 21. It was stated that in first nine months of 1968, 3,874,000 working days were lost in industry because of strikes, more than in any complete year since 1962. 30. Ballot of members of Society of Graphical and Allied Trades decisively rejected proposed productivity bargain with national newspapers.

Nov. 3. Month-long unofficial strike by 160 toolmakers at Girling brake factory at Cwmbran, Monmouthshire, ended when men decided to return to work so that negotiations over pay could be resumed. 14. Government and building unions agreed to compromise pay increases for 1,500,000 workers which had been threatened by legally-enforceable standstill order; both sides agreed to wait for a twice-delayed Prices and Incomes Board report on pay in the building industry. 12. It was announced that a substantial pay increase and reduction in working week had been agreed for about 100,000 policemen in Britain. 15. After meeting in London, teachers rejected pay offer made by management panel of Burnham Committee. 19. Union of Post Office Workers agreed unanimously to accept £7,000,000 improved pay offer for 120,000 postmen and sorters and 50,000 telephonists made by Mr. Stonehouse, the Postmaster-General, to avert the threatened pre-Christmas postal strike. Farmworkers were awarded rise of 17s. by the Agricultural Wages Board for England and Wales.

Dec. 12. Building unions defied ultimatum from Government to accept without conditions a penny cut in recent pay increases and decided to hold strike ballot. 17. Building union leaders agreed to give up 1d. an hour of wage increase. 20. Banking Staff Council announced that banks would open an hour longer from Monday to Friday when Saturday closing was introduced in July.

(1969). Jan. 1. Industry was brought almost to a halt in many parts of country owing to worst New Year's Day absenteeism on record; docks and

coalfields in the North were particularly badly affected; in Liverpool only 400 men of total dock labour force of 11,000 turned up for work, making 82 vessels idle. 2. Prices and Incomes Board issued report declaring that maintenance workers employed by bus companies should not have their pay increased by more than the 3½ per cent. they had already received. 17. Government published White Paper setting out their policy on industrial relations; main proposals were 28-day 'cooling-off period' to avert unofficial strikes, power for Government to order ballot of union members where large official strike was threatened, setting up of Industrial Board empowered to impose fines for breaches of orders issued by Secretary of State for Employment and Productivity, and establishment of Commission on Industrial Relations with Mr. George Woodcock as full-time chairman. 20. Two thousand Post Office overseas telegraphists throughout Britain began strike in support of pay claim and on Jan. 22, Union of Post Office Workers executive decided on extension of industrial action in support of their claim. 30. One-day strike by postal workers in 19 cities in support of wage claim by overseas telegraphists stopped all deliveries and collections in the areas concerned, and huge volumes of undelivered mail piled up; inland telegram service was almost closed; Mr. Stonehouse, the Postmaster-General, announced that because of the dispute 4d. post would be suspended indefinitely from following day; it was restored on Feb. 3. It was stated that Government had decided to allow farm workers 7 per cent. pay increase on recommendation of Prices and Incomes Board. 31. Post Office dispute ended when Government agreed to give overseas telegraphists 5 per cent. pay increase backdated to Aug. 1, 1968, and further ½ per cent. from April 1, 1969, if various productivity measures were fully effective by then.

Feb. 7. T.U.C. General Council decided in favour of the large manual workers' unions in their claim that two white collar unions should be excluded from national recognition in respect of staff in steel industry. 10. Dockers already under threat of suspension for unofficial strike in previous week again walked out of Royal group of docks in London, affecting 31 ships. 14. About 250 schools in Inner London Education Authority area were affected by a half-day strike called by National Association of Schoolmasters; seventeen were closed completely and strike also affected schools in other London boroughs. 17. Several thousand schoolchildren were sent home when 11 number of Birmingham schools closed at lunchtime because of walk-out by teachers to attend mass protest meeting called by National Association of Schoolmasters. More than 2,300 dockers walked out again in Royal group of docks making 36 ships idle; stoppage was said to be in protest against suspensions imposed on some of their workmates for going on unofficial strike. 20. Mr Healey, Secretary of State for Defence, said Government would give no further contracts for nuclear-powered Fleet submarines to Cammell Laird shipyard of Birkenhead and all future contracts would be given to Vickers Armstrong of Barrow-in-Furness, who had previously shared the work with Cammell Laird. 24. Production in Ford Motor Company's plant at Halewood, Liverpool, was halted on first day of unofficial strike against Company's new £5,000,000 pay deal and tractor plant at Basildon was also idle; the strike affected several other plants. 26. Transport and General Workers' Union and Amalgamated Engineering and Foundry Workers' Union called their 32,000 members in Ford plants out on official strike against anti-strike

penalty clauses in Ford's new pay offer. 27. High Court granted Ford Company injunction against T.G.W.U. and A.E.F. preventing them from taking further action in their official strike until March 3; later the two unions told Fords that if writs and penalty clauses in pay deal were withdrawn to enable negotiations to be resumed they would recommend resumption of work; on following day, however, the Company rejected their terms and said legal action would not be withdrawn unless there was return to work on March 3 and penalty clauses were accepted.

March 6. High Court ruled that Ford Company's pay package agreement was not legally enforceable and also ended temporary injunctions against unions. 14. Ford Motor Company came to complete standstill as three-week-old strike continued. 18. Agreement was reached to end Ford strike after four days of negotiations at Department of Employment and Productivity; main features of settlement were all-round wage increases of 7½ to 10 per cent. and new holiday bonus and lay-off benefit, both to be reduced proportionately according to time lost by industrial action. 21. B.O.A.C. offered pay increases designed to give senior pilots earnings of £8,100 a year; in return pilots would be expected to increase productivity, operate airliners with two pilots and one engineer officer, and agree to fly Boeing 747. 27. London ambulancemen voted for 17-day work-to-rule to gain recognition for the Federation of Ambulance Personnel. 31. B.O.A.C. pilots began strike over pay and productivity dispute after talks at Department of Employment and Productivity had failed to find a solution; agreement was finally reached on April 5 and strike ended with basic rate for senior captains increased to £6,750 and new productivity deal decided upon; pay increases were later approved by Mrs. Castle.

May 1. Widespread strikes occurred throughout Britain in protest at Government's proposed strike-control legislation; work was brought to standstill in Port of London, only six ships out of more than 90 were worked on Merseyside, and operations stopped completely at Hull and Manchester docks. No national or evening newspapers were published in London because of strike by members of Society of Graphical and Allied Trades; sectors of the car industry were also badly affected by stoppages and 15,000 protesting workers marched through London. 7. Eight hundred members of National Association of Schoolmasters staged one-day strike in Co. Durham over work-to-contract dispute; 20,000 children were affected. 19. About 8,500 workers employed by Leyland Motors began a strike in support of a pay claim; four factories at Leyland, Lancashire, and one at Chorley were closed. 30. It was stated that nearly 19,000 car workers were idle 11 labour troubles at Leyland Motors spread to involve other car manufacturers.

June 5. Eighty-nine pipe fitters and their mates went on strike at Pressed Steel Fisher, Cowley, Oxford, causing car production to be stopped and making 6,500 workers idle in motor factories at Oxford, Abingdon, and in west Midlands; on June 9, the T.U.C. called for an end to strike and the men returned to work on following day. 10. Prices and Incomes Board report was published approving pay settlement giving national newspaper journalists increases backdated to Jan. 1, 1969, and providing for new pay structure. 11. It was stated that Mrs. Castle had approved immediate pay increase of 14s. 11 week for municipal busmen and garage hands. 19. Workers at Leyland Motors reached settlement with management

over their three main pay demands and decided to call off five-week old strike.

## THE CENTENARIES OF 1970

The Franco-Prussian War made the date 1870 one of the most significant in the history of the nineteenth century, and the war dominated events from July until the end of the year.

The earlier months had been more notable for internal affairs in France, Napoleon III continuing to promote the policy of liberalization of the régime on which he had embarked the previous year. On May 8 a plebiscite was held in which the people were called upon to accept or reject the liberal reforms effected in the Constitution, and they gave their support to the Emperor by 7,366,434 votes to 1,560,709. But the large cities, including Paris, returned anti-Imperial majorities and an atmosphere of unrest continued.

It is perhaps more apparent now than it was to his contemporaries that Bismarck had meanwhile been seeking a pretext for a quarrel with France. He had found it in the search for a candidate for the throne of Spain, and had encouraged the Spaniards to make overtures to Prince Leopold of Hohenzollern-Sigmaringen, a distant relation of the King of Prussia. The Prince had eventually accepted the offer in June, and the Prussian King, as head of the family, had given his consent.

The publication of this news caused an outcry in France. The protest of the Foreign Minister, the Duc de Gramont, was supported by the Chamber and there was a vehement campaign in the Paris press. Efforts by Queen Victoria, the British Government and the King of the Belgians succeeded in persuading Prince Leopold to withdraw his acceptance on July 12. The French Government, however, sought assurances from the King of Prussia that no future offer should be approved. M. Benedetti, the French Ambassador to Prussia, was received by King William at Ems, but the latter failed to give him satisfaction. The official report of the interview, known as the "Ems telegram", was doctored by Bismarck in such bellicose fashion that it became the immediate cause of war, which was declared by France on July 15.

After some early doubts, sympathy in England was generally on the side of the French, though the Queen's attitude was a notable exception. The Government, however, was strictly neutral and succeeded in obtaining from both France and Germany undertakings, which were honoured, to respect the territorial integrity of Belgium—a fact which became of added significance in 1914.

The war itself proved very one-sided. One of the two main French armies, under Marshal MacMahon, was heavily defeated at Würth, and the other, under Marshal Bazaine, was pinned down at Metz and unable to effect a junction with MacMahon. On Sept. 1 the latter's forces were routed at Sedan, capitulating to the Prussians on the following day, when Napoleon III, who had been with his troops, also made his personal surrender, and after an interview with King William was sent as prisoner to Cassel.

The news of the débâcle brought about immediate revolution in Paris. The Emperor was deposed,

the Empress Eugénie fled to England, and the Republic was proclaimed. A Government continued in existence at Tours, but effective power rested in the hands of the Committee of National Defence in Paris. Meanwhile Metz had been invested, and Bazaine surrendered with 170,000 men on Oct. 27, the besieging Army thus being released to join the other Prussian forces in advance on Paris. Gambetta did his best to inspire continued resistance and succeeded in raising new armies outside Paris, but before the end of the year the bombardment of the capital had begun.

The King of Prussia had set up his headquarters in the Palace of Versailles where, following requests by the other leading German rulers, and legislation in the Reichstag, he was proclaimed on Dec. 18 as Emperor of Germany.

In Italy, also, the year had been eventful. On the outbreak of the Franco-Prussian War, the French troops in Rome had been withdrawn, and on Sept. 11 King Victor Emmanuel ordered his forces to enter Papal territory. After slight resistance, which ended on the Pope's orders, they marched into Rome on Sept. 20. A plebiscite held in the Papal states resulted in an overwhelming vote for union with Italy, and after the Italian Government had expressed its intention of allowing the Pope to retain possession of the Vatican City and guaranteeing him a considerable income, Victor Emmanuel formally entered Rome, which was to become the new Italian capital, on the last day of the year. On the previous day his son Amadeo, Duke of Aosta, had arrived in Spain as the new King, the vacancy having been at length filled when the Cortes elected him in November.

Among other occurrences in Europe during the year may be mentioned the murder of a number of English tourists by Greek brigands on April 11, an affair which caused considerable sensation in this country; and the opening of the Mont Cenis tunnel in December.

At home, two measures of considerable importance were passed—the Irish Land Act and the Education Act. The former provided for compensation to be paid to tenants who had carried out improvements. The Education Act, known generally as the Forster Act after the Minister who promoted it, established the principle of elementary education financed from the rates.

The worst disaster of 1870 was the loss of H.M.S. *Captain*, a specially designed turret-ship, which capsized off Cape Finisterre on Sept. 7 with the loss of all but 18 of her complement of 500. Criticism was subsequently levelled at the principles of her construction.

The Queen made few public appearances during the year, but on May 11 she formally opened the new London University buildings in Burlington Gardens. In October the engagement of her fourth daughter, Princess Louise, to the Marquess of Lorne, heir to the Duke of Argyll, was announced. In February, the sensational Mordaunt divorce case had been heard, in the course of which the Prince of Wales had given evidence to rebut allegations made

against him by Lady Mordaunt, who was subsequently held to be mentally disordered.

The Prince of Wales formally opened the Thames Embankment on July 12; on May 30 the District Railway from Westminster to Blackfriars had been inaugurated.

On June 9, Charles Dickens died at Gadshill after suffering a stroke on the previous day. In the words of a contemporary, the announcement of his death caused "a regret, little short of a personal loss, throughout the kingdom". His unfinished novel, *The Mystery of Edwin Drood*, was published later in the year.

In May, Disraeli's *Lothair* appeared, twenty-three years after his last novel, *Tancred*. During the year William Morris' *The Earthly Paradise* was completed. In May, Convocation approved the preparation of the Revised Version of the Bible.

On June 19, George Somers, the Nottinghamshire cricketer, died from the effects of a blow on the head received while batting at Lord's some days earlier; the wickets at Lord's at that time were notoriously dangerous.

## BRITISH RAILWAYS IN 1968

The British Railways Board was set up, along with our other separate nationalized transport undertakings, by the terms of the Transport Act, 1962. This Act dissolved the British Transport Commission and shared its assets between the new bodies which assumed their responsibilities on January 1, 1963. Under the Act the finances of the railways were reconstructed and previous restrictions were modified to give them greater commercial freedom than they had enjoyed in the past.

For the purposes of management and operation the railways are divided into five Regions. They cover the following areas:

1. London Midland Region—bounded by a line joining Carlisle, Oldham, Nottingham, Bedford, London, Banbury, Kidderminster, Aberystwyth.

2. Western Region—west of a line joining Yeovil, Westbury, Reading, London and the southern border of the L.M. Region.

3. Southern Region—south of a line joining Dorchester, Salisbury, London and the Thames.

4. Eastern Region—east of a line joining London, Peterborough, Sheffield, Bradford and Carlisle.

5. Scottish Region—north of a line joining Carlisle and Berwick.

**Financial Results, 1968.**—The balance sheet for 1968 showed a decrease of £5,600,000 in the total deficit of the British Railways Board. The total deficit of £147,400,000 compared with £153,000,000 for 1967, while the railway working deficit (before taking interest charges or revenue from other activities into account) was £83,457,000, compared with £90,447,000 for the previous year.

## OPERATING STATISTICS

At the end of 1968, British Railways had 33,976 miles of standard gauge lines and sidings in use, representing 12,447 miles of route of which 1,977 miles were electrified. Standard rail on main lines has a weight of 109 lbs. per yard. British Railways had 4,655 locomotives (diesel and diesel electric, 4,326 and electric, 329); 3,810 diesel multiple-unit vehicles, 7,348 electric multiple-unit vehicles and 8,386 locomotive-hauled passenger carriages with a capacity of 1,190,510 seats or berths in 1968. Loaded train miles run in passenger service totalled 197,897,000. 831,072,000 passenger journeys were made during the year, including 298,838,000 made by holders of season tickets. The average distance of each passenger journey on ordinary fare was 24.03 miles; and on season ticket, 16.89 miles. Passenger stations in use in 1968 numbered 2,616 and freight stations 619.

**Freight.**—There were 437,412 freight-vehicles and 7,260 other vehicles in the non-passenger-carrying stock. 122,694,000 tons of coal and coke were carried in 1968, 38,743,000 tons of iron and steel and 45,867,000 tons of other traffic. Loaded train miles run in freight service totalled 60,250,000. 32,747 railway road vehicles were in use in 1968 and 28,470 containers.

## Staff and Wages

On Dec. 31, 1968, British Railways employed a total staff of 296,274, compared with 318,092 on Dec. 31, 1967. Average weekly earnings of selected grades at April 6, 1968 (with numbers of staff) were:—Male Clerks (30,343) £21 17s.; Train Drivers (24,153) £25 14s.; Head Shunters (5,292) £21 14s.; Lengthmen and Relayers (14,769) £22 8s.

## ROADS

On April 1, 1968, the total mileage of public roads in Great Britain, excluding green lanes and unsurfaced roads, was 197,300, of which 149,394 are in England, 28,863 in Scotland and 19,043 in Wales. There were 8,907 miles of Trunk Roads and 20,209 miles of Principal Roads of which 533 and 9 miles respectively were Motorways. The remaining 168,184 miles were classified and unclassified roads.

**Highway Authorities.**—The Minister of Transport became the highway authority for some 8,190 miles of roads in Great Britain under the Trunk Roads Acts of 1936 and 1946, whose provisions for England and Wales are consolidated in the Highways Act 1959. These roads, which now also comprise most of the motorway system, are known as trunk roads and are intended to form the national system of routes for through traffic. The Minister of Transport is responsible for the maintenance and improvement of the trunk roads in England. In Scotland (since April, 1956) and in Wales and Monmouthshire (since April, 1965) these duties are the responsibility of the Secretaries of State. The highway powers and responsibilities of local authorities in England and Wales are contained in the Highways Act, 1959. County borough councils are responsible for all highways in their areas other than trunk roads; county councils are the highway authorities for all highways other than trunk roads in rural districts, and for all county roads in the urban areas within their jurisdiction for which the borough or district council is not the highway authority; non-county boroughs or district councils with population over 20,000 may "claim" the right to maintain county roads in their area (at the county council's expense) and they thus become the highway authorities for them; all non-county borough and district councils are the highway authorities for all the roads in their area other than trunk roads and "unclaimed" county roads. In Greater London the most important non-trunk roads are metropolitan roads, which are the responsibility of the Greater London Council. Other roads are the responsibility of the Common Council of the City of London and the London Borough Councils. In Scotland provisions similar to those in Wales and England (outside London) exist under separate legislation.

Under the present system of highway grants, the Minister of Transport or Secretary of State, pays specific Capital grants at the rate of 75 per cent. to local highway authorities for the construction and improvement of roads classified as "principal roads" (these are the main roads other than trunk roads, and are roughly equivalent in mileage to the former Class I roads or non-trunk "A" roads). Other local authority expenditure on highways is assisted, along with other rate borne expenditure, through the general non-specific rate support grant.

**Motorways.**—The network is based on five main routes—London-Yorkshire (M.1), Medway Towns (M.2), London-South Wales (M.4), Birmingham-Bristol-Exeter (M.5) and Birmingham-Carlisle (M.6). In the Birmingham area M.1, M.5 and M.6 will be connected by shorter motorways known as the Midland Links. Other motorways planned are London-Basingstoke (M.3), London-Cambridge (M.11), London-Crawley (M.23), South Orbital (M.25), South Coast (M.27), North Cheshire (M.56), Manchester-Preston (M.61) and Lancashire-Yorkshire (M.62). Motorways by-pass Darlington, Doncaster, Baldoon and Stevenage on A.1, Maidstone on A.20, and High Wycombe on A.40, while another motorway will bypass Beaconsfield and Gerrards Cross on A.40.

At the end of June, 1969, 570.5 miles of motorway were open to traffic in England and Wales and

255.9 miles were under construction. 194.5 miles of the M.1 were in use. Of the 140 miles of the M.4 62 were in use. On M.6 134 miles (incl. 14.9 Midland Link motorways) were open from North of Birmingham to Carnforth and work had begun on 96.03 miles (incl. 40 miles of Midland Link motorways). A continuous 53 miles motorway was in use from the southern outskirts of Birmingham to Ross-on-Wye in Herefordshire.

**Motor Vehicles.**—By the quarter ended Sept. 30, 1968, the number of vehicles with licences current in Great Britain totalled 14,272,000; Cars, 10,816,100; Motor cycles and tricycles, 1,324,440; Buses, Coaches and Taxicabs, 99,260; Goods Vehicles, 1,571,030; Agricultural tractors and engines, 461,370. There were 174,310 vehicles exempt from licensing.

**Taxation.**—Net Exchequer receipts from Motor Vehicle duties in 1967-68 totalled £269,002,000, compared with £262,013,917 in 1966-67. Receipts in 1968-69 were £393,087,000 and estimated receipts in 1969-70, £420,000,000.

**Expenditure on Roads in Great Britain**  
Expenditure on roads in Great Britain rose from £388,600,000 in 1965 to £417,900,000 in 1966. Since introduction of the new system of road classification for grant purposes from April 1, 1967, figures of expenditure on roads are composed as follows: Total expenditure on roads, 1967, £483,700,000. *New construction and improvement*, £280,600,000 (Trunk roads, £126,400,000; Principal roads, £109,300,000; Other, £44,900,000); *Maintenance*, £135,700,000 (Trunk, £15,200,000; Principal, £29,400,000; other, £91,100,000); *Cleansing*, £28,500,000 (Non-trunk roads, £26,900,000); *Administration*, £38,900,000 (Non-trunk roads, £32,300,000). In the foregoing list motorways are included in the trunk roads. In addition to the 1967 total of expenditure on roads, the cost of public lighting was £32,700,000 and car parks, £8,000,000.

The provisional estimate of expenditure on new construction and improvement of trunk roads in England was \*£128,200,000 for 1968-69. In Scotland and Wales this figure amounted to £17,467,000 and £7,781,000 respectively. For 1969-70 the provisional estimate for England is £165,000,000 and Scotland and Wales £20,753,000 and £8,585,000 respectively. Grants made to local highway authorities for the improvement of principal roads in England for the year 1968-69 amounted to £76,000,000 (provisional) and £81,000,000 in 1969-70 (estimate). In Wales and Monmouthshire such grants in 1968-69 were estimated at £2,971,000, and in Scotland at £12,124,000 and in 1969-70 are estimated at £3,500,000 and £12,481,000 respectively.

## Road Casualties, 1949-1968

In 1968 there were 14,364,000 licensed vehicles in use on 203,900 miles of road; 70 vehicles for every mile of road, or one vehicle for every 25 yards. Nineteen road users were killed and 936 injured on an average day.

## IMMIGRATION CONTROL STATISTICS

Figures in the table below relate to those Commonwealth citizens (including British protected persons) whose entry to the United Kingdom is subject to control. Persons born in the United Kingdom and citizens of the United Kingdom and Colonies holding U.K. passports, as defined in s. 1 of the Commonwealth Immigrants Act, and foreign nationals, are excluded. There is no control over travel from Ireland.

## FUEL AND POWER

## ELECTRICITY PRODUCTION

## England and Wales

In the year ended March 31, 1969, the electricity industry sold 160,269 million units to all consumers, an increase of 6.5 per cent over 1967-68. Average price per unit to consumers was 1.914d. compared with 1.848d. in 1967-68. At the end of the year there were 18,087,011 consumers, 1.5 per cent. more than at March 31, 1968.

67,896 million units were supplied to industry (an increase of 6.8 per cent, 59,635 million to domestic users (5.8 per cent. more) and 23,935 million to commercial users (8.5 per cent. more). 10,888 million units were sold on off-peak tariffs, ■ increase of 20.2 per cent. over 1967-68.

On March 31, 1969, the Central Electricity Generating Board had 201 power stations (1968, 216) with ■ maximum output capacity of 44,673 MW an increase in capacity of 6.5 per cent. over 1968. Additional output capacity in 1968-69 was 3,538 MW. C.E.G.B. power stations supplied 173,418 million kWh in 1968-69, 6.6 per cent. more than in 1967-68. Maximum simultaneous demand met during the year was 37,738 MW (1967-68, 35,818).

Generating Board lines in operation during the year totalled 10,329 miles (1967-68, 9,964) and the number of substations rose from 821 to 884.

The industry employed 208,229 persons ■ March 31, 1969, 13,119 less than in 1967-68.

The following results ■ those of the Electricity Council and Area Boards in England and Wales, the figures being rounded off.

## THE POST OFFICE

Crown services for the conveyance of Government letters and despatches by posts or stages were set up under a Master of the Posts about 1516. Public correspondence was officially accepted for the first time for conveyance by these services at fixed postage rates in 1635, but they were still under direct Crown control. In 1657 the Post Office was created under a Postmaster-General by Oliver Cromwell, and responsibility for the carrying of all letters was thus transferred to Parliament, Charles II ratified this arrangement by statute in 1660.

A Money Order Office was inaugurated in 1792, uniform Penny Post in 1840, the Book Post in 1848, the Post Office Savings Bank in 1861, Post Office Telegraphs in 1870, Postal Orders and

the Post Office Telephone Service in 1881 and the Parcel Post in 1883.

The Post Office also acts as agent for many Government Departments in the collection and payment of money.

The financial arrangements brought into effect by the Post Office Act, 1961, separated Post Office finances from the Exchequer and established the Post Office Fund on April 1, 1961.

By the Post Office Act 1969, the Post Office formally set up as a public corporation, and ceased to be a Government Department run by civil servants. It is now headed by a chairman and board of control, appointed by and responsible to the Minister of Posts and Telecommunications.

## MAIL SERVICES

A total of 11,300,000,000 items of correspondence was posted in the United Kingdom in 1968-69 compared with 11,500,000,000 in 1967-68. Parcels handled by the Post Office during the year numbered 212,300,000, a decrease of 4.3 million in the year.

Letters, postcards, printed papers and samples (including pools post) and newspapers conveyed by Inland services totalled 10,754,000,000 and parcels numbered 199,700,000. These figures include 44,900,000 registered items, 24,900,000 recorded delivery items and 117,900,000 business replies.

Overseas services conveyed 328,000,000 letters, postcards and printed papers at surface mail rates and 218,000,000 at air mail rates. Nine million overseas parcels were handled at surface rates and 3,600,000 at air mail rates. In the overseas services 8,700,000 registered and insured items were conveyed.

## COUNTER SERVICES

At March 31, 1969, there were 1,765 Post Offices and 23,055 Sub Post Offices.

**Post Office Services.**—Postage stamps to the value of £147.0 million were sold in 1968-69 (1967-68, £142.9 million), 27.5 million Giro transactions to the value of £250 million were made, 9.9 million Inland Money Orders to the value of £210.7 million were paid (1967-68, 10.3 million orders, value £210.8 million), Overseas Money Orders numbered 2.6 million, value £20.0 million (1967-68, 2.6 million orders, value £18.0 million) and 544.9 million Postal Orders to the value of £587.0 million were issued (1967-68, 616.5 million orders, value £612.9 million).

**Savings Services.**—Savings Stamps to the value of £81.9 million were sold in 1968-69 (1967-68, £74.3 million). Savings Bank Ordinary Deposits were £456.8 million (1967-68, £501.2 million) and Withdrawals were £364.1 million (1967-68, £448.8 million). Savings Bank Investment Account Deposits were £81.8 million (1967-68, £70.7 million) and Withdrawals were £23.1 million (1967-68, £11.8 million). Savings Certificates issued were £132.8 million (1967-68, £171.1 million) and those repaid were £137.3 million (1967-68, £143.7 million). Premium Savings Bonds sold were £90.9 million (1967-68, £69.6 million) and repaid £21.5 million (1967-68, £24.2 million), while Prize payments were £7.4 million (1967-68, £4.1 million).

**Other Agency Services.**—In 1968-69 National Insurance Stamps to the value of £1,244.1 million were sold (1967-68, £1,137.8 million). Inland Revenue, etc., stamps were £9.2 million (1967-68, £8.7 million) and 543.5 million National Insurance pensions, etc., value £2,146.4 million were paid (1967-68, 527.7 million pensions, value £1,951.2 million). Other payments were: Family allowances 220.8 million, value £310.0 million (1967-68, 216.5 million, value £167.6 million) and Service Allowances 44.1 million, value £174.1 million (1967-68, 45.1 million, value £170.8 million). During the year 27.5 million licences were issued compared with 27.2 million in 1967-68. Broadcast Receiving licences issued totalled £85 million, while Road Vehicle and other licences amounted to £85.8 million.

NOTE.—Figures above exclude transactions other than at Post Office counters.

## DEVELOPMENT PLANS, 1968-69

Industrial and Management consultants are working with the Post Office ■ a fundamental and widely based investigation into ways of raising the level of productivity and profitability of the postal services.

In co-operation with the Ministry of Technology and industry it is hoped to speed up the postal mechanization programme. It has been decided:

(1) To press ahead firmly with the introduction of the preferred range of envelopes which has been agreed internationally and which is needed to help mechanization (to conform to the preferred range, envelopes should be: (a) at least 3½" × 5½" (90 mm × 140 mm) and not larger than 4½" × 9½" (120 mm × 235 mm); (b) oblong in shape, with the longer side at least 1.414 times the shorter side; (c) made from paper weighing at least 63 grammes per sq metre). A higher tariff will be applied eventually to minimum weight (up to 4 oz.), items posted in envelopes outside the preferred range.

(2) To introduce progressively a national postal coding system, which is essential to the full success of postal mechanization.

(3) To undertake ■ major review of postal services offered to the public to see whether or not they can be better geared to modern conditions.

**Inland Telecommunications.**—Plans have been made to increase the number of trunk circuits from about 75,000 to 87,000 by March 31, 1970, by means of new cables and radio links and by modifying existing cable and radio systems to give greater capacity. The total number of telephone connections at March 31, 1969, 7,868,000, was expected to increase to approximately 8,513,000 by March 31, 1970 (a net increase of about 645,000). The number of telephones, including extension instruments, should reach about 13.8 million by the end of the year (March, 1970). The telephone waiting list was 87,461 at March 31, 1969.

Development of the telephone service to fully automatic standard was planned to be almost complete by March, 1970. During 1969-70 some 70 of the remaining 140 manual exchanges were due to be converted to automatic working, giving nearly 99 per cent. of subscribers automatic service. Subscriber Trunk Dialling facilities had been introduced, by the end of March, 1969, at 2,176 exchanges serving 6.42 million subscribers (81.6 per cent. of the U.K. total). By March, 1970, about 86 per cent. should have the facility. It is planned to introduce about 5,000 new Telex lines during the year, bringing the total to 32,000 by March 31, 1970.

National Giro is the new money transfer and current account banking service of the Post Office. All records of customers' accounts are kept centrally at the National Giro Centre at Bootle, Lancashire.

Anyone over the age of 16 can open an account with ■ initial deposit of £1. Giro customers are provided with personalized transfer/payment slips for instructing Giro to transfer money from their account to the accounts of other Giro customers and for making deposits to their own account. They also receive Giro-cheques, which are used for paying people who do not have a Giro account. Account holders can draw cash from their accounts at Post Offices.

People who are not Giro customers can pay money into Giro accounts at Post Offices by completing an inpayment form and handing this and the cash over the counter with ■ fee of 9d. All transfers of money between account holders, deposits and postage to the Giro Centre ■ free for Giro customers. The Giro forms are provided at cost. A charge of 9d. is made for withdrawing cash up to £50 from accounts and 2s. for £50 and over.

## AGRICULTURE

## Agricultural Holdings

In 1875 there were 550,796 agricultural holdings in Great Britain, with 11 crop and grass acreage (excluding holdings of rough grazing only) of 31,448,000 acres—England and Wales, 470,000 (26,837,000 acres); Scotland 80,796 (4,611,000 acres). Figures at the 1966 census were Great Britain, 366,742 holdings totalling 28,635,000 acres; England and Wales 312,182 (24,326,000 acres); Scotland, 54,560 (4,309,000 acres). NOTE.—A farm may consist of more than one holding. There are about 220,000 full-time farmers in the United Kingdom (Great Britain, 196,000).

About 200,000 holdings, 50 per cent. of all holdings in the United Kingdom, are on average 16 acres per holding and have a standard labour requirement of under 275 standard man-days\*. These are very small holdings occupying about 10 per cent. of the U.K. crop and grass acreage and supplying about 11 per cent. of total agricultural output.

## Production and Finance, 1968-69

*Production.*—The cereals harvest in 1968 was seriously affected by the weather and production of beef in 1968-69 was still suffering from the aftermath of the foot-and-mouth epidemic. Because of this and a heavier use of inputs a fall of about 11 per cent. in the volume of agricultural net output is expected for the 1968-69 farm year compared with 1967-68. The index of agricultural net output is forecast at 138 (1967-68, 143; 1955-57 = 100).

During 1968-69 production of home-fed beef was expected to be less than in 1967-68, but the beef breeding herd has continued to expand, if at a slower rate than in recent years. The dairy herd, which has been recovering from the effects of the foot-and-mouth epidemic, is again expanding satisfactorily. The sheep breeding flock while expanding in the hills has continued to decline in lowland areas. The pig herd is expanding and home production of pigmeat in 1968-69 should be well up on the previous year. We have been getting more eggs and poultry. Exceptionally bad weather in the principal grain-growing areas has meant lower yields, so that production of cereals has been markedly lower than in 1967-68. The potato acreage fell, but despite some losses from flooding, waterlogging and poor keeping-quality, a surplus was expected. The sugar beet situation remained satisfactory in 1969.

*Farming Income.*—Farming net income benefited from the weather in 1967-68 but was hit by it in 1968-69. Actual net income was £516 million in 1967-68. It is expected to fall to £477 million in 1968-69. The decline in net income per farm will be somewhat less than these figures suggest because the number of full-time farm businesses continues to fall. Adjusted for normal weather, however, net income would have shown a rise between the two years from £495 million to £509 million.

*Agricultural Support.*—The cost to the Exchequer of agricultural support in 1968-69 was estimated at £281,000,000—some £20,000,000 higher than expenditure in 1967-68. The estimate for 1969-70 is £295,000,000, the main increases being on pigs and fertilizers.

† All figures refer to the area which is now Northern Ireland. Figures for N. Ireland in 1921 and 1931 are estimates based on the Censuses held in 1926 and 1937. The last Census was on Oct. 9, 1966.

NOTES.—1. Before 1801 there existed no official return of the population of either England or Scotland. Estimates of the population of England at various periods, calculated from the number of baptisms, burials and marriages, are: in 1570, 4,160,221; 1600, 4,811,718; 1630, 5,600,517; 1670, 5,773,646; 1700, 6,045,008; 1750, 6,517,035.

2. By June 30, 1968, the total population of the United Kingdom was estimated to have risen to 55,282,500 (England, 45,873,000; Wales, 2,720,000; Scotland, 5,187,500; Northern Ireland, 1,502,000).

ISLANDS.—The figures given above do not include islands of the British seas. Populations of these islands at census years since 1900 were:—

## INCREASE OF THE PEOPLE

In England and Wales during the 19th Century, inter-censal increases in the population ranged from 18.06 per cent. to 11.65 per cent., an average of 14 per cent. every ten years; there was  average proportion of 1,050 females to 1,000 males. Between the censuses of 1951 and 1961 the increase was 5.3 per cent. The proportion of 1,088 females to 1,000 males in 1931 declined to 1,082 in 1951 and to 1,066 in 1961.

Estimates of the future total population of the United Kingdom, based on the mid-1967 annual estimate, have been prepared by the Government Actuary in consultation with the Registrars-General. It is assumed in their projections below that, at ages under 40 for males and 50 for females, death rates will decline steadily until after 40 years

they are at one-half or less of the present rates. Above these ages the assumed rates of decline become progressively smaller as age advances until they vanish at ages over 90. Annual live births are assumed to reach 995,000 in 1970, 1,108,000 in 1980, 1,266,000 in 1990 and 1,387,000 in 2000. The ratio of male to female births is taken as 1.06 (N. Ireland, 1.07) throughout and a net outward migration of 55,000 persons per year is assumed from 1968-1969, declining to 20,000 per year after 1977.

## THE ANNUAL ESTIMATES OF POPULATION

Since 1948, estimates of the total population and of populations of counties and other local authority areas at June 30 each year have been prepared by the Registrars-General and published by Her Majesty's Stationery Office. The following table shows the estimated home population of the United Kingdom at June 30, 1968, and its distribution. Estimated populations at the same date for the counties and other administrative areas will be found on pp. 631 *et seq.*

**Murder**

The Murder (Abolition of Death Penalty) Act, 1965, came into force ■ November 9, 1965, and is to remain in force until July 31, 1970, and then expire unless Parliament determines otherwise. Its main provisions ■ ■ follows.

Section 1(1) abolishes the death penalty for murder and provides that a person aged 18 or over convicted of murder shall be sentenced to imprisonment for life. Section 1 (2) provides that ■ sentencing any person convicted of murder to imprisonment for life the Court may at the same time declare the period which it recommends to the Secretary of State ■ the minimum period which in its view should elapse before the Secretary of State orders the release of that person on licence. Section 2 provides that no person convicted of murder shall be released by the Secretary of State on licence under s. 27 of the Prison Act, 1952, unless the Secretary of State has prior to such release consulted the Lord Chief Justice together with the trial judge if available.

In 1968, 183 offences of murder of persons of ■■ year or over were known to the police. As a result of court proceedings in 1969, 23 of the offences were reduced to manslaughter. In 10 offences of murder the murderer was undetected at the time of going to press.

150 victims were murdered by 159 known murderers or suspects. Of these 45 victims were murdered by 38 persons who committed suicide before arrest. For the murder of 105 victims proceedings were taken against 121 persons.

One charge of murder was withdrawn at Magistrates' Court on the instruction of the Director of Public Prosecutions. Two persons proceeded against were discharged under s. 7 of the Magistrates' Courts Act, 1952. The remaining 118 persons were committed for trial.

Two persons were found unfit to plead and two were found not guilty by reason of insanity, including one person concerned in the murder of 3 victims (1 under one year of age). 32 persons were acquitted. Four persons convicted were detained during H.M. Pleasure (under 18 years of age). Of 72 persons convicted of murder and sentenced to life imprisonment, 2 were concerned in the murder of 5 victims. One of these persons was accused of the murder of 3 victims. The trials of 6 cases in-

volving 3 victims were pending at the time of the report.

The total of 121 offences included 5 cases in each of which 3 persons were accused of the murder of one victim. In three of these cases one person was sentenced to life imprisonment and one acquitted; in one the person was sentenced to life imprisonment and had his sentence quashed on appeal. In one other case both convictions were quashed on appeal. In one case 3 persons were accused of the murder of 2 victims (acquitted, 1; life imprisonment, 2); three persons were accused of the murder of 1 victim (all acquitted); in 2 cases, 4 persons were accused of the murder of 1 victim (in one, all acquitted; in one, proceedings were incomplete at the time of report); in one case, 6 persons were

accused of the murder of one victim (acquitted, 1; life imprisonment, 5).

Cases of Murder.—In 1968, 41 cases of murder were known to the police. 5 of the 44 victims were under 10 years of age (three boys aged 6, 7 and 11 under one year, and two girls both under one year) and 1 victim was over 60.

Of 23 persons proceeded against for murder, 16 were sentenced to life imprisonment, 5 males under 18 were detained during H.M. Pleasure, one was found not guilty and the charge against one was not proven. Two suspects committed suicide, and one died before arrest. In five cases there were no proceedings; in three cases the accused were found to be insane and committed to a mental hospital. At the end of 1968, proceedings were pending in 11 cases and three cases were unsolved.

Juvenile Crime.—In 1968, 25,647 juveniles were proceeded against for crimes and offences of

all kinds. 1,570 of these were acquitted or the charge against them was withdrawn. In 4,506 cases the charge was proved and 111 order made without a finding of guilt, 1,223 young persons being discharged absolutely and 3,276 placed on probation. 7 were found to be mentally ill. In 19,101 cases where charges were proved and 11 order made with a finding of guilt, 5,765 juveniles were admonished, etc., 213 were cautioned (with or without surety); and 12 were found mentally deficient. 1,205 juveniles were committed to approved schools, 584 to remand homes, 339 for Borstal training and 66 to the care of fit persons. 13 were placed on probation. 10,193 offenders were fined, and in 544 cases fines were imposed on the parent or guardian of the offender. 469 juveniles were discharged without trial.

## New Houses and Flats

Of the 148,049 new dwellings completed by local authorities in England and Wales in 1968, 48.9 per cent. were flats, 39.0 per cent. of the new dwellings had 3 bedrooms, 31.8 per cent. had 2 bedrooms, 26.4 per cent. had 1 bedroom and 2.8 per cent. 4 or more bedrooms.

Cost.—In the first quarter of 1962, the average tender approved by the Ministry of Housing and Local Government was £1,380 (or 28s. 0½d. per square foot) for a traditional three-bedroom house of an average floor area of 984 sq. feet (including out-buildings). The average tender price for this type of house at the beginning of 1966 was £1,448 (or 31s. 6½d. per square foot), with a smaller average floor area of 918 square feet. In 1967, the average tender price for all types of three-bedroom houses (including new traditional houses) was £2,951 or 62s. 4d. per sq. ft., providing an average floor area per house of 947 sq. ft.

## Conversions and Improvements

In 1968, applications for grants under the Housing Acts for the improvement or conversion of 114,216 houses were approved, including applications made by local authorities for the conversion of 1,757 dwellings, for improvements to 19,003 dwellings and for provision of standard amenities in 10,271 dwellings. Applications by private persons and housing associations were approved for 3,984 conversions, improvements in 21,434 dwellings and provision of standard amenities in 57,767 dwellings.

## Slum Clearance and Repair

In 1968, 74,725 houses were demolished or closed in England and Wales, including 53,875 in scheduled clearance areas, and 188,895 persons were moved to other housing in consequence. At the end of 1968, a total of 18,479 unfit houses were retained in temporary occupation. As a result of informal action by local authorities, 62,550 unfit dwellings were made fit; in formal proceedings under the Health and Housing Acts, a further 22,584 dwellings were made fit by their owners or by local authorities in default of action by the owners.

Scottish Home and Health Department and those of Northern Ireland by the Ministry of Home Affairs.

In 1968 there were 3,455 women police in England and Wales; in Scotland there were 384.

On Dec. 31, 1968, the number of special constables enrolled in England and Wales was: Men, 35,262; Women, 1,968; Scotland (April, 30, 1969): Men, 4,713; Women, 116.

On Dec. 31, 1968, the Metropolitan Police had a total strength of 20,458, including 562 women; City Police, 747, including 18 women.

## EMPLOYMENT IN 1968

## Distribution of total manpower in Great Britain

The total working population of Great Britain in December, 1968, was 25,258,000 (males, 16,258,000; females, 8,936,000), compared with 25,385,000 in December, 1967. Included in the total were 24,414,000 in civil employment (employers and self-employed, 1,681,000); 540,000 persons wholly unemployed; and 390,000 in H.M. Forces and Women's Services. For National Government figures, see also p. 612, para 3.

## STAFFING OF PUBLIC DEPARTMENTS, 1969-70

The Estimates for 1969-70 provided for the employment of 796,801 industrial and non-industrial personnel by public departments, at a total cost for salaries, etc. of £1,072,447,000, allowing for expected changes in staff numbers up to March 1, 1970. The comparable figures for 1968-69 are: Staff, numbers, 809,543; Cost, £1,017,594,000. Additional provision for casual staff employed in 1969-70 was £2,879,000.

The following table shows the estimated strength of each department at April 1, 1969, excluding casual staff and excluding a total of 104,583 staff locally engaged abroad. Cash provision for casual staff, employers' National Insurance and other contributions and fees is included in the final column.

It should be noted that these estimates apply to the United Kingdom and include classes of staff who do not appear employed in National Government Service in employment statistics based on the Standard Industrial Classification.

## THE COST OF LIVING

The first cost-of-living index to be calculated in Great Britain was the one which took July, 1914, as 100 and was based on the pattern of expenditure of working-class families in 1904. Since 1947 the Index of Retail Prices has superseded the cost-of-living index, although the older term is still often popularly applied to it. This index is designed to reflect the month-by-month changes in the average level of retail prices of goods and services purchased by the majority of households in the United Kingdom, including practically all wage-earners and most small and medium salary-earners. For spending coming within the scope of the index, a representative list of items is selected and the prices actually charged for these items are collected at regular intervals. In working out the index figure, the price changes are "weighted"—that is, given different degrees of importance—in accordance with the pattern of consumption of the average family.

## Consumer Price Index

However, a more useful guide when considering changes in the average level of prices of all consumer goods and services, particularly over a number of years, is the consumer price index. This index, which has been calculated back to 1938, covers the expenditure of all consumers as defined for national income purposes, and compares the price of goods and services actually purchased in a given year with the prices of the same goods and services in the base year. It is a by-product of calculations of changes in expenditure at constant prices and is derived by dividing the annual estimates of total consumers' expenditure at current prices by the corresponding estimates at 1963 prices.

The consumer price index and the retail price index therefore give slightly different results because of the differences both in method of construction and in coverage.

## Purchasing Power of the £

The purchasing power of money varies inversely with prices. For example, if prices are doubled over a period of time the purchasing power is halved; if prices rise by 50 per cent., the purchasing power falls by 33½ per cent.; and so on. The consumer price index, which is devised annually, is normally used for estimating changes in the internal purchasing power of the pound, although for years prior to 1938 it is necessary to fall back on the original cost-of-living index. Over short periods of time (e.g. a few months) or when interest is centred particularly upon the purchasing power of

the pound for households such as those of wage earners and medium salary earners, the index of retail prices is used.

The following cost-of-living tables have been compiled by using these official series of indices:—

1967 .. 115 ..	87 ..	17 5				
1968 .. 120 ..	83 ..	16				

There are official figures for the years 1939-1945.

The method employed to estimate the rise in the cost of living in a given period is illustrated by the following example. To find the rise in the cost of living between 1950 and 1959:

From consumer price index (1963 = 100)

1950 = 66 } Then if 1950 = 100,

1959 = 91 }  $\frac{91}{66} \times 100 = 138.$

The purchasing power of money varies inversely with prices. Thus, if the cost of living index (1963 = 100) is 120 in 1968, then the purchasing power of the £1 compared with 20s. in 1963:—

$$\frac{100}{120} = \text{£}0.83 = 16s. 8d.$$

It should be noted that these figures can only be approximate.

## THE NATIONAL LOANS FUND

Under the National Loans Act, 1968, effective from April 1, 1968, most of the Government's domestic lending and the whole of the Government's borrowing transactions are removed from the Consolidated Fund and brought to account in The National Loans Fund. Revenue from taxation and miscellaneous receipts, including interest and dividends on loans made from Votes, continue to be paid into the Consolidated Fund. After ordinary expenditure on Supply Services (details of which appear under Civil Estimates and Defence Estimates in the preceding pages) and on Consolidated Fund Standing Services (e.g. payment in respect of interest, etc. on the National Debt, The Civil List, Annuities, Pensions for Political, Civil and Judicial Services,

Parliamentary and Judicial Salaries and Allowances) the surplus on the Consolidated Fund is payable into the National Loans Fund.

The table following shows issues in 1968-69 and in 1969-70 from the National Loans Fund to nationalized industries. Loans to other public corporations were estimated for 1969-70 at £167,900,000 (1968-69, £120,700,000) and to local and harbour authorities £539,900,000 (£478,300,000). Including loans within Central Government (in respect of the purchase of military aircraft from U.S.A., £56,400,000), total issues from the National Loans Fund were estimated at £1,631,100,000 for 1969-70 (1968-69, £1,426,200,000).

## U.K. EXTERNAL LIABILITIES AND CLAIMS IN STERLING

In the middle of 1939 United Kingdom net external liabilities amounted to rather more than £500 million. During the war years overseas sterling holdings rose extremely fast reaching nearly £3,600 million at the end of 1945. Of this total a large proportion represented obligations to other countries arising from the exigencies of war rather than working balances or normal reserves voluntarily held in London. More recently, a revised statistical series has been introduced—U.K. External Liabilities and Claims in Sterling; this is shown in the following table by type of liability and claim.

December 31

1967.....	1,540	2,453	1,353	5,346
1968.....	2,082	2,305	1,649	6,036

The most noticeable change in post-war figures has been the emergence of the United Kingdom's indebtedness to international organizations such as the International Monetary Fund. At the end of 1968 this debt amounted to £2,082 million, compared with £627 million only five years earlier. (1) Including Burma in 1966. (2) Including Burma from the beginning of 1967.

\* Assets: increase —, decrease +. Liabilities: increase +, decrease —.

The object of the balance of payments accounts is to show the outcome of transactions between residents of the United Kingdom and overseas residents. In principle, transactions are recorded when the ownership of goods or assets changes and when services are rendered. Transactions are classified in three main groups:—The *Current account* includes imports and exports of goods and services, investment income and private transfers. The *Long Term Capital account* includes inter-government loans, other official capital and private investment. *Monetary Movements* include changes in the gold and convertible currency reserves and in official holdings of other currencies, changes in overseas sterling holdings and other capital transactions of monetary nature.

NOTES.—Imports and exports (f.o.b.).—The f.o.b. value is the value of imports and exports entering and leaving the United Kingdom excluding the costs of insurance and freight.

Invisibles.—This is the net balance arising from receipts and payment for such items as shipping, aviation, insurance and travel, interest, profits and dividends.

Inter Government Loans.—The entries under this heading cover drawings and repayments of loans made by the U.K. government to overseas governments and vice versa.

U.K. subscriptions to International Organizations.—Under this heading are grouped the U.K.'s subscriptions to the International Monetary Fund and other similar bodies.

Private Investments.—This is a reflection of investments made in the United Kingdom by foreigners which is offset against the amount invested abroad by United Kingdom companies and individuals.

Exchange Adjustments.—The net total of contra entries arising from the revaluation in sterling terms of certain official monetary or banking assets and liabilities including the Sterling counterpart

of drawings on central bank assistance, or included to account for the fact that the pre-devaluation forward commitments of the Exchange Equalization Account are recorded as being settled on maturity at the new parity.

Miscellaneous Capital.—All identified capital transactions not specifically provided for are included here. One example is borrowing overseas by United Kingdom tobacco companies to finance purchases of tobacco.

Changes in External sterling liabilities.—This section records the net changes in the sterling holdings of International organizations and sterling area and non-sterling area countries.

Gold and convertible currency reserves.—The alterations to our reserves of gold and foreign currencies are shown in this section. These reserves are buttressed by our right to make application for short-term assistance from the International Monetary Fund.

Balancing item.—This is the amount necessary to balance the account: it represents the net total of the errors and omissions in other items.

## LOCAL GOVERNMENT IN THE UNITED KINGDOM

## ENGLAND AND WALES

Local government is carried on by directly elected councils whose powers and duties are defined by statute, under the general supervision of various departments of the central government. Departments principally concerned are the Ministries of Housing and Local Government, Health and Social Security, Transport and the Department of Education and Science; and, in matters affecting law and order, police, fire services, care of children, civil defence preparations, etc., the Home Office. Supervision is by means of inspections and enquiries, issue of Regulations and Orders, approval of bye-laws, loan sanctions for capital expenditure, examination of accounts and the administration of government grants.

**County Councils.**—Constituted by the Local Government Act, 1888, they were made responsible for administrative duties which were previously performed by the justices of the peace in quarter sessions. In the main their functions relate to the more important services. In most cases the area of the administrative county is that of the geographical county, excluding county boroughs. Lincolnshire, Suffolk, Sussex and Yorkshire are exceptions, being divided into parts, each with a separate council, for administrative convenience. Councils consist of a chairman, aldermen and councillors. The chairman, who may receive remuneration, is elected annually by the council, either from among the aldermen or councillors or from persons eligible for election as aldermen or councillors. The aldermen form a quarter of the council; they are elected by the councillors from among themselves or persons eligible to be councillors and hold office for six years, half retiring every three years. Councillors are elected by local government electors for three years. Excluding Greater London there are 58 county councils in England and Wales (see pp. 631-3; Wales, pp. 675-6).

**County Borough Councils.**—Boroughs with populations of 50,000 or more in 1888 and some ancient counties of cities were constituted by the Local Government Act, 1888, as county boroughs; their councils were given the same powers and duties as county councils, but they are also governed by the general law affecting boroughs and have the same constitution. Until 1926 other boroughs reaching 50,000 population could seek county borough status, but the figure was then raised to 75,000. The Local Government Act, 1958, again raised the figure to 100,000, and placed a 15-year prohibition on Private Bills for this purpose. (Although important, level of population is only one factor in the attainment of county borough status.) There are 83 county borough councils in England and Wales (see pp. 657-68; Wales, 675-6).

The district councils within a county are borough councils (other than county borough councils), urban district councils and rural district councils.

**Borough Councils.**—Constituted in their present form by the Municipal Corporations Act, 1882, Urban or Rural district councils may by royal charter be incorporated as boroughs. Borough councils consist of a mayor, aldermen and councillors. The mayor, who presides at council meetings and may be paid, and the aldermen are elected and hold office for the same terms as chairmen and aldermen of county councils (see above). Councillors are elected by the burgesses (local government electors of the borough) for a term of three years, one-third of the council retiring each year. The lists on pp. 671-3 indicate how the political parties were represented on the councils of the important

boroughs in 1968. Excluding the London boroughs there are 259 non-county boroughs in England and Wales (see pp. 664-9; Wales, p. 675).

**Urban and Rural District Councils.**—The Public Health Act, 1875, consolidated legislation on public health and conferred various powers and duties on local sanitary authorities and these bodies were reconstituted by the Local Government Act, 1894, as urban and rural district councils. They are corporate bodies and have a common seal. District councils consist of a chairman, elected annually by the council, and councillors elected for a term of three years. The chairman may receive an allowance. An important part of their responsibility is in the local administration of the Public Health Acts and Housing Acts. Urban district councils are also highway authorities. Both types of authority levy rates; they may raise loans for various purposes and make bye-laws with the sanction of the central Government. There are 522 urban district councils (see pp. 669-70 and 675) and 469 rural district councils in England and Wales.

**Parish Councils and Parish Meetings.**—Local government responsibility is for the area of the civil parish in rural areas and for purely secular matters. Parish meetings consist of all the local government electors of the parish under a chairman chosen by the meeting and must be held at least twice a year where there is no parish council. Parish councils consist of a chairman and a number of councillors which may vary from five to twenty-one, elected for three years. Parishes with a population of more than 300 must have a parish council. A parish meeting must be held annually and is presided over by the chairman of the parish council. Rates to meet the expenses of the parish council are levied by the rural district council.

**London.**—The Greater London Area embraces the old counties of London and Middlesex (except Potter's Bar, Staines and Sunbury-on-Thames) and parts of the neighbouring counties of Essex, Herts., Kent and Surrey and the whole of the county boroughs of Croydon, East Ham and West Ham.

For those functions which need to be considered for the whole of the Area, the Greater London Council (see pp. 634-6) is responsible; such functions as traffic, major roads and overall planning. All other matters are the concern of the 32 London borough councils (12 inner and 20 outer; see p. 642); the City of London, besides retaining its previous functions, has the powers of a London borough.

**Local Government Reorganization.**—A Royal Commission on Local Government in England appointed to consider the structure of local government outside Greater London sat from 1966-1969 and submitted its report in June, 1969. The Commission's recommendations (*The Maud Report*) are discussed under TOPICS OF THE DAY (see pp. 1017-19). Local government reorganization in Wales is being dealt with separately.

## LOCAL GOVERNMENT ELECTIONS

Generally speaking, all British subjects or citizens of the Republic of Ireland of 21 years or over (from February, 1970, 18 years or over) resident on the qualifying date in the area for which the election is being held are entitled to vote at local government elections. A register of electors is prepared and published annually by local electoral registration officers. In 1967 there were, at the time of the ordinary elections of councillors, 9,414,419 local government electors in county boroughs, 15,938,779 in municipal boroughs, urban districts, the City of London and the Greater London boroughs, and 6,578,277 in rural districts. The total electorate of Greater London, including the City, was 5,346,870.

Ordinary county council elections are held triennially in April and elections for other authorities annually or triennially in May.

Voting takes place at polling stations arranged by the local authority and under the supervision of a presiding officer specially appointed for the purpose. Candidates, who are subject to various statutory qualifications and disqualifications designed to secure that they are suitable persons to hold office, must be nominated by two electors and, except in rural district, rural borough, or parish council elections, must secure the assent of eight other electors to the nomination. County council elections are based on divisions of the county regulated by the Home Secretary, each of which returns a single member; most boroughs, including county and London boroughs, are divided into wards, each electing its own members; other authorities may be so divided or may remain as single units, depending upon their size.

#### Local Government Services

Local authorities must in their areas provide the services and carry out the functions required by various Acts of Parliament. They provide additional services under general permissive legislation or under "local" Acts of Parliament which they have promoted as Private Bills. The nature of the duties imposed on local authorities and the scope of the services which they provide vary according to the type of authority. The only all-purpose council is that of the county borough. In the counties functions are divided between the county council and the borough and district councils and there is considerable delegation of functions by the county council to these other authorities, e.g. in education and planning matters. Principal subjects of local government administration are:—

Public health services (prevention of epidemics, abatement of sanitary nuisances, etc.) under the Public Health Act, 1936; local health services under the National Health Service; Care of deprived children; Welfare services for the aged and infirm and for the handicapped, under the National Assistance Act, 1948.

Housing: Land drainage; Water supply; Sewerage; Refuse collection and disposal; Baths and washhouses; Cemeteries.

Town and country planning; Parks and recreation grounds; Smallholdings and allotments.

Roads and bridges; Road safety; Street lighting; Harbours, docks and piers; Passenger transport.

Education; Public libraries, museums and art galleries; Municipal entertainments; Civic restaurants; Information centres.

Police; Fire services; Civil defence services. Food and drugs inspection; Weights and measures.

#### Local Government Committees and Staff

Detailed administration of local government services is commonly carried out by committees, matters of policy being decided by the council as a whole; the appointment of certain committees is made compulsory by Act of Parliament. Committees may be executive or advisory; they may be constituted on a permanent basis as Standing Committees or Special Committees set up for a limited period to deal with a particular subject; their powers and duties are laid down in the Standing Orders of the Council (subject in some cases to special statutory provisions). Where services such as water supply and sewerage are shared between two or more authorities, Joint Committees or Boards of representatives of the

authorities concerned are set up to administer the services.

The executive policy of the local authority is carried out by salaried staff varying in number according to the type of authority. The chief official is, in boroughs, the Town Clerk, and elsewhere the Clerk of the Council, and these appointments, together with those of certain other executive officers, are compulsory. Appointments of staff (including professional, technical and clerical classes, and manual workers) are made to a set establishment.

#### Local Government Finance

Local government is financed from various sources. (1) Rates.—Levied by county borough, borough and district councils and in London by the City Corporation and the London boroughs. Sums required by the Greater London Council and by county councils are included in the rates levied by London and non-county borough and district councils. Rates are levied by a poundage tax on the rateable value of property in the area of the rating authority. Under the General Rate Act, 1967, rating authorities are required to charge a lower rate in the pound on dwellings than on property generally in their area. Differentials of 5d., 10d. and 1s. 3d. in the pound respectively were prescribed for 1967-68, 1968-69 and 1969-70. New valuation lists, prepared by valuation officers of the Board of Inland Revenue, came into force on April 1, 1963, and all rateable property is now rated on the basis of 1963 values. Agricultural land and buildings are exempt from rates. Under the General Rate Act, 1967, local authorities may decide to charge half rates on empty property; otherwise empty property is not rateable. The General Rate Act also makes provision for rate rebates for domestic ratepayers with small incomes. (2) Government Grants.—From 1948-49 to 1958-59, the Exchequer made annual equalization grants to counties and county boroughs whose rateable value was below the average rateable value per head of weighted population in England and Wales to bring their respective rateable values up to the average level. Equalization grants replaced the former "block" grants paid to local authorities until 1948, which included an element of compensation for loss of revenue through de-rating. Percentage grants covered an agreed proportion of expenditure on approved services such as education, health, police and fire services. Special grants were also made.

The Local Government Act, 1958, provided for a new general grant, payable from 1959-60 onwards, in replacement of a number of specific grants, of which the largest were for the education, local health, fire and child care services. It also provided for the replacement of the equalization grant, payable under the 1948 Act, by a rate-deficiency grant based on rate products instead of rateable values, and payable to county districts as well as counties and county boroughs.

The Local Government Act, 1966, provides rate support grant, to be paid to local authorities from 1967-68 in place of the general grant and rate-deficiency grant. The aggregate of Exchequer grants on revenue account is estimated in advance for a period of not less than two years, though not necessarily at the same level for each year of the period, and it may subsequently be increased if there is an unforeseen increase in the level of prices, costs and remuneration. From the aggregate is deducted the estimated amount of the specific grants for the year in aid of revenue expenditure and the balance is the rate support grant. This is then divided into three parts known as the needs, and domestic elements.

The *needs element* is broadly similar to the general grant, though covering a wider field. It is distributed to county and county borough councils, the Common Council of the City of London, London Borough Councils and the Council of the Isles of Scilly by reference to population, the numbers of pupils and students in different stages of education and on other objective factors which are readily ascertainable and afford a fair and reasonable measure of the relative needs of each authority. The *resources element* is payable to any local authority whose rate resources per head of population fall below the national average. The *domestic element* is payable to all rating authorities who are required by the General Rate Act, 1967, to reduce the rate levied on dwelling houses by a number of pence fixed by the Minister of Housing and Local Government. The current level of relief is tenpence in 1968-69 and 1s. 3d. in 1969-70.

(3) *Loans*.—Local authorities may raise loans on the security of the rates, normally with the sanction of the Minister of Housing and Local Government, for capital expenditure on housing, roads, markets, municipal transport services, sewerage works, etc. On March 31, 1967, there were outstanding loans in England and Wales to the amount of £10,193,495,000; against this total the sum of £30,550,000 stood at the credit of various sinking funds.

Total Expenditure... £5,033,325,000

*Rates and Rateable Values*.—In 1965-66, the latest year for which final figures were available, the total of £1,128,397,000 was collected from local government rates in England and Wales, the average rate per £ being 10s. 6d. on the total valuation of £2,142,585,000. Provisional figures for 1968-69 show a total receipt from rates of £1,450,000,000 on a value of £2,313,678,000—average rate per £ levied, 12s. 6d. Exchequer Grants in respect of rate rebates are treated as rate income and included in the 1968-69 receipts.

*Average Rates*.—In 1969-70 average rates levied in England and Wales were: County Boroughs, 14s. 1d.; Inner London Boroughs, 12s. 10d.; Outer London Boroughs, 13s. 7d.; Non-County Boroughs, 14s. 4d.; Urban Districts, 14s. 1d.; Rural Districts, 12s. 4d.

#### SCOTLAND

Scotland is divided for local government purposes into counties, burghs and districts, and local authorities are similar to those in England and Wales.

*County Councils*.—First constituted in 1889, they are responsible for local government of the geographical area of the county excluding for most

purposes the large burghs. For certain purposes the counties of Perth and Kinross, and Moray and Nairn are combined. County councils include representatives from the landward areas and from all the burghs which are within the county for any purpose, town councils electing representatives from among their own members. Councillors are elected triennially. The chairman of the county council is the convener of the County. There are 33 county councils in Scotland (see pp. 679-80).

**Town Councils.**—The town councils of the counties of cities (Edinburgh, Glasgow, Aberdeen and Dundee) are all-purpose authorities similar to the county borough councils in England and Wales and are presided over by the Lord Provost. Town councils consist of a provost (chairman), bailies and councillors. The provost and bailies (the equivalent of aldermen in England) are elected by the councillors from among themselves and hold office for three years; they are the magistrates of the burgh.

Large burghs other than the counties of cities, independent for all purposes except that for valuation, electoral registration, education and, in some cases, police, they are included in the county; small burghs are within the county not only for these purposes but also for such purposes as classified roads, planning, etc.

There are 201 town councils in Scotland (counties of cities, 4; other large burghs, 21; small burghs, 176). Cumbernauld achieved burgh status on May 16, 1968. (See pp. 680-1; 685-6.)

**District Councils.**—Outside the burghs the county council is responsible for most local government functions but district councils have statutory

functions with regard to recreation grounds, rights of way, allotments, bus shelters and other local matters. Two counties—Kinross and Nairn—are not divided into districts. District councils consist of elected members and the county councillors for the district *ex officio*. There are 198 district councils in Scotland.

**Local Government Electors.**—In Scotland there are 1,177,385 electors in counties of cities, 605,933 in other large burghs, 670,043 in small burghs and 975,975 in landward areas—Total 3,422,160.

**Rates and Rateable Values.**—In 1965-66, the latest year for which final figures were available a total of £122,522,000 was received from local government rates in Scotland, the average rate per £ being 2s. 11d. on a total valuation of £106,778,000. Provisional figures for 1967-68 show a total receipt from rates of £149,174,000 on a value of £141,838,000—average rate per £ levied, 2s. 0d.

#### NORTHERN IRELAND

The structure of local government in Northern Ireland is similar to that of England and Wales. Types of local authority are: county councils, 6; county boroughs, 1; non-county boroughs or municipal councils, 9; urban district councils, 26; and rural district councils, 26. (See p. 691.)

**Electors.**—The register published Feb. 15, 1967, contained the names of 694,483 local government electors. Of this total, 196,774 related to the County Borough of Belfast and 23,312 to Londonderry. A new electoral register will be published on Feb. 15, 1970.

**Local Government Debts.**—The total amount of outstanding loans and capitalized annuities in Northern Ireland on March 31, 1968, was £232,559,154 (excluding Hospitals).

#### RIVER AUTHORITIES (ENGLAND AND WALES)

The Water Resources Act, 1963, established for England and Wales the 29 river authorities listed below. River Authorities have functions and duties in relation to land drainage, prevention of pollution and the regulation and improvement of fisheries, taken over from the former River Boards. They have the added responsibility, under the Act, of developing conservation schemes to provide the extra water required by water undertakings and industry. Much of the revenue required for water conservation will be obtained through River Authorities' Charging Schemes to be introduced on April 1, 1969. A river authority derives its income from precepts on the general rates of those counties and county boroughs within the river authority area. In the list below, the name of the Clerk to the Authority is added to its address.

# BRITISH ISLES

## THE KINGDOM OF ENGLAND

*Position and Extent.*—The Kingdom of England occupies the southern portion of the island of Great Britain and lies between  $55^{\circ} 46'$  and  $49^{\circ} 57' 30''$  N. latitude (from the mouth of the Tweed to the Lizard), and between  $1^{\circ} 46'$  E. and  $5^{\circ} 43'$  W. (from Lowestoft to Land's End). England is bounded on the north by the summit of the Cheviot Hills, which form a natural boundary with the Kingdom of Scotland; on the south by the English Channel; on the east by the Straits of Dover (Pas de Calais) and the North Sea; and on the West by the Atlantic Ocean, Wales and the Irish Sea. It has a total area of 50,332 sq. miles (land, 50,056; inland water 276) and  $\blacksquare$  population estimated (June 30, 1968) of 45,873,000.

*Relief.*—There is  $\blacksquare$  natural orographic division into the hilly districts of the north, west and south-west, and the undulating downs and low-lying plains of the east and south-east. In the extreme north the Cheviot Hills run from east to west, culminating in the Cheviot, 2,676 feet above mean sea level. Divided from the Cheviots by the Tyne Gap is the *Pennine Chain*, running N. by W. to S. by E., with its highest point in Cross Fell, 2,930 feet above mean sea level. West of the Pennines are the *Cumbrian Mountains*, which contain in *Scafell Pike* (3,210 feet) the highest land in England, and east of the Pennines are the *Yorkshire Moors*, their highest point being Urra Moor (1,489 feet). South of the Pennines are the *Peak of Derbyshire* (2,088 feet) and *Dartmoor* (High Willhays, 2,039 feet). In the western county of Shropshire are the isolated *Wrekin* (1,335 feet), *Longmynd* (1,696 feet), and *Brown Clee* (1,792 feet); in Herefordshire the *Black Mountain* (2,310 feet), in Worcestershire the *Malvern Hills* (1,395 feet), in Monmouthshire (now usually grouped with Wales) the *Sugar Loaf* (1,955 feet) and *Coity* (1,905 feet), and the *Cotswold Hills* of Gloucestershire contain *Cleeve Cloud* (1,134 feet).

*Hydrography.*—The *Thames* is the longest and most important river of England, with a total length of 210 miles from its source in the Cotswold Hills to its outflow into the North Sea, and is navigable by ocean-going steamers to London Bridge. The Thames is tidal to Teddington (69 miles from its mouth) and forms county boundaries almost throughout its course; on its banks are situated London, the capital of the British Commonwealth; Windsor Castle, the home of the Sovereign, Eton College, the first of the public schools, and Oxford, the oldest university in the kingdom. The *Severn* is the longest river in Great Britain, rising in the north-eastern slopes of Plinlimmon (Wales) and entering England in Shropshire, with a total length of 220 miles from its source to its outflow into the Bristol Channel, where it receives on the left the Bristol Avon, and on the right the Wye, its other tributaries being the *Vyrnwy*, *Tern*, *Stour*, *Teme* and *Upper* (or *Warwickshire*) *Avon*. The Severn is tidal below Gloucester, and a high bore or tidal wave sometimes reverses the flow  $\blacksquare$  high as *Tewkesbury* (13½ miles above Gloucester). The scenery of the greater part of the river is very picturesque and beautiful, and the Severn is  $\blacksquare$  noted salmon river, some of its tributaries being famous for trout. Navigation is assisted by the Gloucester and Berkeley Ship Canal (16½ miles), which admits vessels of 350 tons to Gloucester. The *Severn Tunnel*, begun in 1873 and completed in 1886 (at a cost of £2,000,000) after many difficulties from flooding, is 4 miles 624 yards in length (of which 2½ miles are under the river). A road

bridge over the Severn estuary, between Haysgate, Mon., and Almondsbury, Glos., with  $\blacksquare$  centre span of 3,240 ft. was opened by Her Majesty the Queen on September 8, 1966. Of the remaining English rivers those flowing into the North Sea are the Tyne, Wear, Tees, Ouse and Trent from the Pennine Range, the Great Ouse (160 miles) from the Central Plain, and the Orwell and Stour from the hills of East Anglia. Flowing into the English Channel are the Sussex Ouse from the Weald, the Itchen from the Hampshire Hills, and the Axe, Telfn, Dart, Tamar and Exe from the Devonian Hills; and flowing into the Irish Sea are the Mersey, Ribble and Eden from the western slopes of the Pennines and the Derwent from the Cumbrian Mountains. The *English Lakes* are noteworthy rather for their picturesque scenery and poetic associations than for their size. These lie mainly in Cumberland, but partly in Westmorland and Lancashire, the largest being *Windermere* (10 miles long), *Ullswater* and *Derwentwater*.

*Islands.*—The *Isle of Wight* is separated from Hampshire by the Solent; total area 147 sq. miles, population (estimated, 1968) 100,860. The climate is mild and healthy, and many watering places have grown up during the last century. Capital, Newport, at the head of the estuary of the Medina, Cowes (at the mouth) being the chief port; other centres are Ryde, Sandown, Shanklin, Ventnor, Freshwater, Yarmouth, Totland Bay, Seaview and Bembridge. The *Scilly Islands*, 25 miles from Land's End, consist of about 40 islands, with a total area of about 4,000 acres, only St. Mary's, Tresco, St. Martin's, St. Agnes and Bryher being inhabited. The capital is Hugh Town, in St. Mary's. The climate  $\blacksquare$  unusually mild, and vegetation luxuriant, semi-tropical plants flourishing in the open. *Lundy* (=Island), 11 miles N.W. of Hartland Point, Devon, is about  $\blacksquare$  miles long and about ½ mile broad (average), with  $\blacksquare$  total area of about 1,050 acres (mainly picturesque), and a population of about 20; it became the property of the National Trust in 1969 and has 3 lighthouses (one disused).

*Climate.*—The mean annual air temperature reduced to sea-level varies from  $52^{\circ}$  F. at Penzance and the Scilly Islands to  $48^{\circ}$  F. near Berwick-on-Tweed. In January the south and west are warmer than the east, the mean temperature reduced to sea-level being less than  $40^{\circ}$  F. over the eastern half of the country. In July the warmest districts are more definitely in the south and inland, the range being from  $63^{\circ}$  F. around London to less than  $59^{\circ}$  F. in the extreme north. The decrease of mean temperature with height is about  $1^{\circ}$  F. per 300 ft. The coldest month of the year is January and the warmest July. Sea temperature reaches its maximum rather later than air temperature. The average annual rainfall decreases from west to east, owing to the preponderance of south-west winds, and also increases with altitude. The annual average, 1916-1950, varies from about 20 in. in the neighbourhood of the Thames Estuary and locally in Cambridgeshire to more than 100 in. over the mountains of the Lake District. Rather more rain falls in the summer half-year in parts of the east, but in the west much more falls in the winter half-year. The months of least rain are March to June and the wettest months October to January. The mean annual number of hours of bright sunshine varies from 1,750 hours along the south-east coast to less than 1,300 hours in the neighbourhood of the Pennine range. June is the sunniest month, followed by May, July and August in that order.

## EARLY INHABITANTS

*Prehistoric Man.*—Palaeolithic and Neolithic remains are abundantly found throughout England. The Neolithic period is held to have merged into the Bronze Age about 2000 to 1500 B.C., and a date between these years has been given to *Stonehenge* (10 miles N. of Salisbury, Wiltshire) which consists of two circles of menhirs (the largest monolith being 22½ feet in height). The village of *Avebury* and its surroundings were scheduled in 1937, and in 1943 about 1,000 acres of Avebury were purchased by the National Trust, thus preserving the Circle of megalithic monuments, the Avenue, Silbury Hill, etc., relics of Stone Age culture of 1900–1800 B.C., which make this one of the most important archaeological sites in Europe. The *Devil's Arrows*, near Boroughbridge, Yorkshire, are regarded as the finest remaining megalithic monoliths in northern Europe; the tallest arrow is 30 ft. 6 in. high and its greatest circumference is 16 ft. In the latter part of the Bronze Age the *Goidels*, a people of Celtic race, and in the Iron Age other Celtic races of *Brythons* and *Belgae*, invaded the country and brought with them Celtic civilization and dialects, place names in England bearing witness to the spread of the invasion over the whole kingdom.

*The Roman Conquest.*—Julius Cæsar raided Britain in 55 B.C. and 54 B.C. The Emperor Claudius, nearly 100 years later (A.D. 42), dispatched Aulus Plautius, with a well-equipped force of 40,000 all arms, and himself followed with reinforcements in the same year.

The British leader from A.D. 48–51 was *Caratacus* (Caractacus), who was finally captured and sent to Rome. By A.D. 70 the conquest of South Britain was completed, a great revolt under *Boadicea*, Queen of the Iceni, being crushed in A.D. 61. In A.D. 122, the Emperor Hadrian visited Britain and built a continuous rampart, since known as *Hadrian's Wall*, from Wallsend to Bowness (Tyne to Solway). The work was entrusted by the Emperor Hadrian to Aulus Platorius Nepos, legate of Britain from 122 to 126, and it is now regarded as "the greatest and most impressive relic of the Roman frontier system in Europe."

The Romans administered Britain as a Province under a Governor, with a well-defined system of local government, each Roman municipality ruling itself and the surrounding territory. Colchester, Lincoln, York, Gloucester and St. Albans stand on the sites of five Roman municipalities, while London was the centre of the road system and the seat of the financial officials of the Province of Britain. Well-preserved Roman towns have been uncovered at (or near) *Silchester* (Calleva Atrebatum), 10 miles south of Reading, *Wroxeter* (Viroconium), near Shrewsbury, and *St. Albans* (Verulamium) in Hertfordshire.

Four main groups of roads radiated from London, and a fifth (the Fosse) ran obliquely from Ermine Street (at Lincoln), through Leicester, Cirencester and Bath to Exeter. Of the four groups radiating from London one ran S.E. to Canterbury and the coast of Kent, a second to Silchester and thence to parts of Western Britain and South Wales, a third (now known as *Watling Street*) ran through Verulamium to Chester, with various branches, and the fourth reached Colchester, Lincoln, York and the eastern counties.

Christianity reached the Roman province of Britain from Gaul in the 3rd century (or possibly earlier), *Alban*, "the protomartyr of Britain,"

being put to death as a Christian during the persecution of Diocletian (June 22, 303), at his native town Verulamium. The Bishops of Londinium, Eboracum (York), and Lindum (Lincoln) attended the Council of Arles in 314.

The Roman garrison of Britain was much harassed in the 4th century by Saxon pirates, who invaded the eastern counties. A system of coast defence was organized from the Wash to Southampton Water, with forts at Brancaster, Burgh Castle (Yarmouth), Walton (Felixstowe), Bradwell, Reculver, Richborough, Dover, Stutfall, Pevensey and Porchester (Portsmouth). About A.D. 350 incursions in the north of Irish (Scotti) and Picts became most formidable, and towards the end of the 4th century many troops were removed from Britain for service in other parts of the Roman Empire. Early in the 5th century Gaul was taken from the Romans by Teutonic invaders and Britain was cut off from Rome. The last Roman garrison was withdrawn from Britain in A.D. 442 and the S.E. portion was conquered by the Saxons.

The Latin-speaking Celts of England were replaced by their heathen and Teutonic conquerors, to the submergence of the Christian religion and the loss of Latin speech. According to legend, the British King *Vortigern* called in the Saxons to defend him against the Picts, the Saxon chieftains being *Hengist* and *Horsa*, who landed at Ebbsfleet, Kent, and established themselves in the Isle of Thanet. Bede, a Northumbrian monk, author of the *Ecclesiastical History* at the opening of the 8th century, described these settlers as Jutes, and there are traces of differences in Kentish customs from those of other Anglo-Saxon kingdoms.

*Anglo-Saxons and Normans.*—What happened in Britain during the 150 years which elapsed between the final break with Rome and the coming of St. Augustine is shrouded in the deepest mystery. The Jutes, the Saxons and the Angles (whose gods *Twi*, *Woden*, *Thunor* and *Frigg* are commemorated in "Tuesday, Wednesday, Thursday and Friday") were converted to Christianity by a mission under Augustine (dispatched by Pope Gregory in 597), which established Archbishoprics at Canterbury and York, and England appears to have been again converted by the end of the 7th century. In the 8th century *Offa*, King of Mercia, is stated to have built a wall and rampart, afterwards known as *Offa's Dike*, from the mouth of the Dee to that of the *Wye*, as a protection against the Welsh.

The greatest of the English kingdoms was *Wessex*, with its capital at Winchester, and the greatest of the *Wessex* kings was *Alfred the Great* (871–901), who resisted the incursions of the Northmen (Danes) and fixed a limit to their advance by the Treaty of *Wedmore* (878). In the 10th century the Kings of *Wessex* recovered the whole of England from the Danes, but subsequent rulers were unable to resist the invaders, and England paid tribute (*Danegelt*) for many years, and was ruled by Danish Kings from 1016 to 1042, when Edward the Confessor was recalled from exile. In 1066 Harold (brother-in-law of Edward and son of Earl Godwin of *Wessex*) was chosen King of England, but after defeating (at Stamford Bridge, Yorkshire, Sept. 25) an invading army under Harald Hadrada, King of Norway (aided by the outlawed Earl Tostig, of Northumbria, younger son of Earl Godwin), he was himself defeated at the *Battle of Hastings* on Oct. 14, 1066, and the Norman Conquest secured the throne of England for Duke William of Normandy.

(a) Administrative Counties, excluding County Boroughs; (b) Geographical Counties, including County Boroughs; (c) includes value of property occupied by the Crown for public purposes upon which contributions in lieu of rates are paid.

Lords Lieutenant of Counties.—The actual words used in the Letters Patent relative to these appointments are "Her Majesty's Lieutenant of and in the County of . . ." and this is the official title whether the individual appointed be a Peer or a Commoner. In documents of the highest formality the proper term is therefore "Her Majesty's Lieutenant." In less formal and informal documents and colloquially, the style "Lord Lieutenant" has been applied to H.M. Lieutenants, Peers and Commoners alike, for a great many years. The duties of the Lord Lieutenant are to advise the Lord Chancellor as to the appointment of magistrates to the county bench, to appoint Deputy Lieutenants and to raise the militia, if need be, in time of riot or invasion. The Lord Lieutenant is usually a peer or a baronet and a large landowner and is often appointed *custos rotulorum* (keeper of the records).

## GREATER LONDON COUNCIL

The Greater London Council and 32 London Borough Councils were constituted under the London Government Act, 1963. They replaced, on April 1, 1965, the London County Council, the Middlesex County Council, the County Borough Councils of Croydon, East Ham and West Ham, metropolitan borough, 39 non-county borough and 15 urban district councils. The boundaries and constitution of the Corporation of the City of London were not affected.

Under the Act, Greater London became for the first time a clearly defined local government area with a population (estimated, 1968) of 7,763,820 and an area of 620 square miles, including, in addition to the former counties of London and the greater part of Middlesex, parts of Metropolitan Essex, Kent, Surrey and Hertfordshire.

The Greater London Council consists of 100 councillors and 16 aldermen. Elections are held every third year. For the first two elections in April 1964 and 1967, the electoral areas were the 32 London Boroughs, each returning two, three or four councillors according to the size of the electorate. Aldermen, who are chosen by the councillors, hold office for six years, half their number retiring every third year. The Chairman, Vice-Chairman and Deputy Chairman are elected annually by the councillors and aldermen. The political head of the administration is the Leader of the Council, elected by the majority party. The Council meets fortnightly at 2.30 p.m. on Tuesdays except in holiday periods. Of the 12 standing committees, three meet fortnightly, six monthly and the others as required.

#### G.L.C. Services

The services provided by the G.L.C. include planning, roads, traffic management and control, fire and ambulance services, refuse disposal, housing, parks, licensing, main drainage and sewage disposal. For many of these services it shares responsibility with the London Borough Councils and the City Corporation.

**Education.**—The local education authority for ■ area corresponding with the area of the twelve inner London boroughs and the City of London is the Inner London Education Authority, a special committee of the G.L.C. consisting of the members of the Council elected for the inner London boroughs together with ■ representative of each inner London Borough Council and of the Common Council. The Council charges to the rating authorities in the Inner London Education Area the expenditure of the I.L.E.A., the amount being determined by the Authority. This unique arrangement preserves the continuity of the service which has developed since 1870 as ■ unity without regard to local boundary divisions.

The total number of pupils on the rolls of the Authority's nursery, primary and secondary schools (including special schools for handicapped children) is 423,289. There are 28 nursery, 750 county (including 3 at Children's homes), 357 voluntary and 94 special schools, staffed by the equivalent of 20,388 full-time teachers. Vocational instruction, cultural studies and recreational activities for persons over compulsory school age are arranged at the various establishments for further education. The Authority maintains 17 technical colleges and schools of art and makes grants to 14 polytechnics and other institutions. There are 6 colleges of commerce, 3 general and commercial colleges and 13 colleges for further education. Non-vocational classes are offered at 35 evening and literary institutes, 6 recreational institutes and 26 youth centres.

Nine colleges for the training of teachers are also managed by the Authority. The 20 outer London Borough Councils ■ the education authorities for their Boroughs.

**Housing.**—The Council shares with the London Borough Councils responsibility for housing in London and it accommodates 15,000 families ■ year, 5,000 of them in expanding towns many miles from London. Its present stock of homes is 248,000 but 70,000 will be transferred to the Boroughs. Its building programme in London is 7,500 a year.

**Planning.**—The Council as planning authority for Greater London as a whole has prepared a strategic development plan which lays down basic planning policies and principles for the whole area, including proposals for a future road system. This Greater London Development Plan has been submitted to the Minister of Housing and Local Government for approval. Within its framework, the London Borough Councils and the City Corporation will prepare their own detailed local development plans. Town planning control of private development proposals is mainly the concern of the London Boroughs but the G.L.C. has some responsibilities in this field. As planner and developer the Council is involved in many major schemes. Notable examples are the Thamesmead project and the Covent Garden and Piccadilly areas.

**Expanding towns.**—An important aspect of the Council's policy is the decentralization of population and industry to towns expanding under agreements with the G.L.C. made under the Town Development Act, 1952. The Council has such agreements with 30 towns and is negotiating with several other towns which wish to expand.

**Parks.**—The Council maintains more than 160 former L.C.C. parks and open spaces covering about 7,500 acres. The London Borough Councils and the City Corporation between them provide ■

further 28,000 acres. Over 1,500 open-air entertainments are arranged in G.L.C. parks each summer and almost all games and sports are provided for. At Crystal Palace, in addition to the Council's 70 acre park is the Crystal Palace National Sports Centre, owned by the Council and managed by the Central Council of Physical Recreation.

*Other features of the G.L.C.'s administration* include its responsibility for the Royal Festival Hall, Queen Elizabeth Hall and Purcell Room and the Hayward Gallery; the maintenance of the Iveagh Bequest, Ken Wood, several other buildings of historic interest and two museums. The Greater London Record Office and Library house official records and other manuscripts, books, maps, drawings and photographs relating to London and are open to the public for reference purposes. The Research and Intelligence unit is concerned with information and research on any matters concerning Greater London. The results of its work will be available to government departments, local authorities and the public.

*Traffic and transport.*—The Council is responsible for the construction, improvement and maintenance of metropolitan roads, at present 550 miles in length. As the traffic authority for all roads in Greater London it prepares or approves schemes for one-way working, traffic signals, clearways, waiting and loading restrictions and speed limits and makes the orders which enforce them. It maintains the Thames tunnels, the Woolwich Free Ferry, and the 14 Thames bridges from Waterloo to Kingston and, jointly with the Surrey County Council, the Hampton Court bridge.

The Transport (London) Act, 1969, gives the Council the primary responsibility for overall transport planning, including the fullest possible integration of all forms of public transport, traffic measures and the development of the most important roads, in close association with land use planning. The Act provides for G.L.C. direction of policy for London transport, through a London Transport Executive appointed by the Council.

*Main drainage and sewage purification.*—The Council provides the main drainage service for about seven million people in the 500 square miles of the Greater London sewerage area, dealing with some 540,000,000 gallons of sewage a day. The sewage is carried by gravity and by pumping through over 570 miles of main sewers to twelve sewage treatment works, including the three largest in Western Europe (the Beckton (Newham), Crossness (Bexley) and Mogden (Hounslow) Works), where it is treated and the residual sludge removed for disposal.

*Refuse disposal.*—The Council has been responsible since April 1, 1965, for the disposal of refuse throughout Greater London—some 3,000,000 tons of refuse being handled each year. It operates thirty-two transfer stations (where refuse is transferred into bulk carrying vehicles, barges or railway wagons); fourteen incinerators and a pulverization plant. Refuse is used for infilling at thirty land reclamation sites. The Boroughs continue to be responsible for refuse collection.

*Land drainage, pollution and flood prevention.*—The Council is the land drainage authority for an area of 416 square miles, known as the London Excluded Area. Within this area the Council is responsible for improvement, maintenance and prevention of flooding on all main metropolitan watercourses; for

other metropolitan watercourses the Council shares the responsibility with the London Borough Councils concerned. Pollution prevention is exercised over all watercourses in the area, except the tidal Thames itself and the tidal stretches of its tributaries. The Council is responsible for flood prevention along 91 miles of river bank of the Thames and its tidal tributaries.

*Licensing.*—The Council licenses annually 8,000 premises for the storage of petroleum and 1,900 premises, including 64 theatres and 257 cinemas, where entertainment is regularly provided. In addition, it issues some 1,300 occasional entertainment licences each year. It is also responsible for the licensing and registration of motor vehicles and the licensing of drivers. Records are kept of 3,500,000 drivers and 2,500,000 vehicles. During the year 1968-9 1,250,000 driving licences and 2,000,000 vehicle licences were issued by the Council (a further 1,250,000 vehicle licences being issued at Greater London Post Offices). Revenue from these vehicle and driving licences, which was collected on behalf of the Ministry of Transport, amounted to £67,000,000.

*Fire and Ambulance Services.*—The Council runs both the fire and ambulance services for its whole area. *The London Ambulance Service.*—With a fleet of nearly 1,000 vehicles, based at 76 stations and manned by 2,500 operational and control staff, the London Ambulance Service has about a sixth of the total ambulance resources of England and Wales. Including help given by the hospital car service as agents, more than 3,000,000 patients are carried each year.

*The London Fire Brigade* set up on April 1, 1965, under the London Government Act, 1963, consists of the Brigades of the former counties of London and Middlesex (excluding the districts of Staines, Sunbury and Potters Bar), the former county boroughs of East Ham, West Ham and Croydon and of parts of Essex, Herts., Kent and Surrey. *Headquarters*, Albert Embankment, S.E.1.

The Brigade is organized in 3 Commands (Eastern, Northern and Southern) and 12 Divisions. It has 115 land and 2 river stations. Wholtime authorized establishment, 5,512. There are 546 land appliances and 11 fire boats in commission. Fire calls (estimated), 65,700 per annum.

*Chief Officer*, L. W. T. Leete, C.B.E.

*Deputy Chief Fire Officer*, F. S. Mummery, C.B.E.

*Assistant Chief Officers*, J. K. H. Cunningham; O.B.E.; H. F. Chisnall; A. G. W. Sellwood, M.B.E.; F. R. Trust, M.B.E.; A. J. Milbery (Eastern Command); R. R. Lloyd, O.B.E. (Southern Command); (Northern Command) R. S. Watts, M.B.E.

*Finance.*—The gross revenue expenditure of the G.L.C. in 1969-70 was estimated at over £212,000,000, and that of the I.L.E.A. £138,000,000, making a total of more than £350,000,000. Of this 48 per cent. (£169,000,000) will be met from rates, 40 per cent. (£137,000,000) from income from services, rents, etc., and the balance (£44,000,000) from Government grants. The amount raised by rates varies for different areas according to the services provided. Capital expenditure of the G.L.C. and the I.L.E.A., mainly met by borrowing, will amount to about £150,000,000. More than half of this will be used for housing and loans for house purchase.

## THE CORPORATION OF LONDON

The City of London is the historic centre at the heart of London known as "the square mile" around which the vast metropolis has grown over the centuries. The City's population was estimated at 4,210 on June 30, 1968. The civic government is carried on by the Corporation of London through the Court of Common Council, a body consisting of the Lord Mayor, 25 other Aldermen and 159 Common Councilmen. The legal title of the Corporation is "the Mayor and Commonalty and Citizens of the City of London."

The City is the financial and business centre of London and includes the head offices of the principal banks, insurance companies and mercantile houses, in addition to buildings ranging from the historic interest of the Roman Wall and the 15th century Guildhall, to the massive splendour of St. Paul's Cathedral and the architectural beauty of Wren's spires.

The City of London at the time of the revolt of the Iceni (A.D. 61) was described by Tacitus (born A.D. 55; died A.D. 120) as "a busy emporium for trade and traders." In Saxon times it was, in reality, a small independent federated State of Wards (holding *wardmotes*) with a *folkmete*, predecessor of the present Common Council, for general affairs. Its burgesses maintained their independence even after the Battle of Hastings. William the Norman only gained possession of their city by means of a treaty with them, and granted a charter, which is still preserved. The mayoralty was established on the recognition of the corporate unity of the citizens by Prince John in 1191, the first Mayor being Henry Fitz Allwyn, who filled the office for 21 years and was succeeded by Fitz Alan (1212-15). A new charter was granted by King John in 1215, directing the Mayor to be chosen annually, which has ever since been done, though in early times the individual often held the office more than once. A familiar instance is that of "Whittington, thrice Lord Mayor of London" (in reality four times, A.D. 1397, 1398, 1406, 1419); and many modern cases have occurred. The earliest instance of the phrase "Lord Mayor" in the latter part of the 15th century and becomes invariable from 1535 onwards. At Michaelmas the Liverymen in Common Hall choose two Aldermen who have served the office of Sheriff for presentation to the Court of Aldermen, and one is chosen to be Lord Mayor for the ensuing mayoral year. The Lord Mayor is presented to the Lord Chief Justice at the Royal Courts of Justice on the second Saturday in November to make the final declaration of office, having been sworn in at Guildhall on the preceding day. The procession to the Royal Courts of Justice is popularly known as the *Lord Mayor's Show*.

Aldermen were mentioned in the 11th century and their office is of Saxon origin. They were elected annually between 1377 and 1394, when a charter of Richard II. directed them to be chosen for life. The Common Council, elected annually on December 17, was, at an early date, substituted for a popular assembly called the *Folkmete*. At first only two representatives were sent from each ward, but the number has since been greatly increased.

Sheriffs were Saxon officers; their predecessors were the *wic-reeves* and *portreeves* of London and Middlesex. At first they were officers of the Crown, and were named by the Barons of the Exchequer; but Henry I. (in 1132) gave the citizens permission to choose their own Sheriffs, and the annual election of Sheriffs became fully operative under King John's charter of 1199. The citizens lost this privilege, so far as the election of Sheriff of Middlesex is concerned, by the Local Government Act, 1888; but the Liverymen continue, heretofore, to choose two Sheriffs of the City of London, who are appointed on Midsummer Day, and take office at Michaelmas.

Officers.—The Recorder was first appointed in 1298. The office of Chamberlain is an ancient one, the first contemporary record of which is 1276. The Town Clerk (or Common Clerk) is mentioned in 1274 and the Common Serjeant in 1291.

Activities.—The work is assigned to a number of committees which present reports to the Court of Common Council. These Committees are:—City Lands and Bridge House Estates, Coal, Corn and Rates Finance, Planning and Communications, Streets, Central Markets, Billingsgate and Leadenhall Markets, Spitalfields Market, Police, Port and City of London Health, Library (Library, Records, Art Gallery and Museum), City of London Schools, Freemen's School, Music (Guildhall School of Music and Drama), General Purposes, Establishment, Housing, Gresham (City side), Epping Forest and Open Spaces, West Ham Park, Policy and Parliamentary, Privileges, Welfare, Guildhall Reconstruction, Barbican, Central Criminal Court (Extension) and Licensing Planning.

The Honourable the *Irish Society*, which manages the Corporation's Estates in Ulster, consists of a Governor and 5 other Aldermen, the Recorder, and 19 Common Councilmen, of whom one is elected Deputy Governor.

The City's Estate, in the possession of which the Corporation of London differs from other municipalities, is managed by the City Lands and Bridge House Estates Committee, the Chairmanship of which carries with it the title of "Chief Commoner."

## THE CITY GUILDS (LIVERY COMPANIES)

The Livery Companies of the City of London derive their name from the assumption of a distinctive dress or livery by their members in the 14th century.

The order of precedence (according to 2nd Report of Municipal Corporations' Commissioners, 1837), omitting extinct companies, is given in parentheses after the name of each Company. There are 84 Guilds in existence. The Comb-makers, Silk-throwers, Silkmen, Pinmakers, Soap-makers, Hatbandmakers, Long-bow Stringmakers, Woodmongers, Starchmakers and Fishermen are extinct.

About 10,000 Liverymen of the Guilds are entitled to vote at elections in Common Hall.

## Public and Private Buildings in London

**ADELPHI, Strand, W.C.2.**—Adelphi Terrace and district commemorate the four architect brothers, James, John, Robert and William ADAM, who laid out the district (formerly Durham House) at the close of the 18th century. Four of the streets in the Adelphi were formerly called James, John, Robert, and William Streets to commemorate these founders of the Adam style of architecture and internal decoration. They are now Adam Street, John Adam Street, Robert Street and Durham House Street. Extensive rebuilding took place between the two World Wars, and there are now few 18th-century houses left in the district. In the neighbourhood of the Adelphi was York House, built by the Duke of Buckingham in 1625 (the Water Gate of which still stands in Embankment Gardens), the commemorative streets being *Charles Street, Villiers Street, Duke Street, Of Lane, Buckingham Street* (Of Lane is now "York Buildings").

**AUSTRALIA HOUSE, Strand, W.C.2.**—A handsome and imposing building, erected 1911-14 by the Commonwealth of Australia as the offices of the High Commissioner for the Commonwealth. NEW SOUTH WALES, QUEENSLAND, VICTORIA and WESTERN AUSTRALIA have separate offices in the Strand; TASMANIA at Golden Cross House, Charing Cross, and SOUTH AUSTRALIA at S.A. House, 50 Strand, W.C.2.

**BALTIC EXCHANGE, St. Mary Axe, E.C.3.**—The world market for the chartering of cargo ships. The present Exchange was built in 1903 and the new wing opened by Her Majesty the Queen on Nov. 21, 1956.

**BANK OF ENGLAND, Threadneedle Street, E.C.2.** (Not open to sightseers.)—The Bank of England, founded in 1694, has always been closely connected with the Government. The present building, completed in 1940 to the designs of Sir Herbert Baker, incorporates features reminiscent of the earlier architects, Sampson (1734), Sir Robert Taylor (1765) and Sir John Soane (1788). A Bank picnic is mounted every evening by the Brigade of Guards.

**BRIDGES.**—The bridges over the Thames (from East to West) are the *Tower Bridge* (built by the Corporation of London and opened in 1894), with its bascules, affording a fine view of the Pool and of the metropolis; *London Bridge* (opened after rebuilding in 1831, and until 1750 the only bridge over the Thames in London), with the London Monument (*q.v.*) and Fishmongers' Hall; *Southwark Bridge* (opened in 1819, and rebuilt by the Corporation of London, 1922); *Blackfriars Bridge* (opened in 1869 and widened by the Corporation of London in 1908); width, 105 ft.; *Waterloo Bridge* (Rennie), width, 42 ft. 6 ins. (opened in 1817) commanding a fine view of western London (rebuilt by L.C.C. and re-opened 1944); *Hungerford Bridge* (railway bridge with ■ footbridge); *Westminster Bridge* (built in 1750 and then presenting a view that inspired Wordsworth's sonnet; rebuilt and re-opened in 1862; width, 84 ft.) with Thornycroft's *Boadicea* at the north-eastern end; this bridge leads from Westminster Abbey and the Houses of Parliament to the County Hall (*q.v.*) and St. Thomas's Hospital; *Lambeth Bridge* (rebuilt by L.C.C. and opened in 1932) leading from Lambeth Palace to Millbank; *Vauxhall Bridge* (rebuilt in 1906) leading to Kennington Oval; *Chelsea Bridge*, leading from Chelsea Hospital to Battersea Park (reconstructed and widened 1937); and *Albert Bridge* (1873); *Battersea Bridge* (opened in 1890); *Wandsworth Bridge*

**CANADA HOUSE, Trafalgar Square, S.W.1.**—A conspicuous building on the Western side of the Square, housing the Office of the High Commissioner for Canada in the United Kingdom. Designed by Sir Robert Smirke in 1820, it was renovated and embellished when acquired from the Union Club in 1924. Further major alterations have been completed to incorporate the former Royal College of Physicians building, also designed by Sir Robert Smirke, which was acquired in 1964. The renovated building was re-opened in March, 1967. The exteriors of the two buildings were originally designed to create the appearance of ■ single building by presenting a common façade facing Trafalgar Square. Certain interior features of the original building are preserved and the spacious, richly furnished room now occupied by the High Commissioner is much admired. Surrounded by Offices of Canadian Banks, Steamship, Railway and other Companies, the Canadian Building is one of London's landmarks. It was opened by King George V. in June, 1925.

**CANONBURY TOWER, Canonbury, N.1.**—The largest remaining part of ■ 16th-century house originally built by the Priors of St. Bartholomew, and since 1952 used as the headquarters of ■ non-profitable theatre company. Contains the "Spencer" and "Compton" oak-panelled rooms. Other relics of Canonbury House can be seen nearby.

**CARLYLE'S HOUSE, 24 Cheyne Row, Chelsea, S.W.3.** The home of Thomas Carlyle for 47 years until his death in 1881, and containing much of his furniture, etc. Now ■ property of the National Trust. Open daily, except Tuesdays, 10-1, 2-6, or dusk, if earlier. Sundays, 2-6. Admission, 2s.; Children and Students, 1s.

**CATHOLIC CENTRAL LIBRARY, St. Francis Friary, 47 Francis Street, S.W.1.**—Founded as a private library in 1914, it was taken over in 1959 by the Franciscan Friars of the Atonement. Stock of

45,000 volumes for lending and reference in many aspects of religion (devotional, Church history, doctrine, etc.), sociology, fine arts, literature, history, travel, biography and fiction. Books are sent by post when required. Hours of opening: Mon.-Fri. 10.30-6.30; Sat. 10.30-4.30.

In *Abney Park Cemetery*, Stoke Newington, N.16, are the tomb of General Booth, founder of the Salvation Army, and memorials to many Nonconformist Divines. In the *South Metropolitan Cemetery*, Norwood, S.E.27, are the tombs of C. H. Spurgeon, Lord Alverstone, Douglas Jerrold, John Belcher, R.A., Theodore Watts-Dunton, Dr. Moffat (Missionary), Sir H. Bessemer, Sir H. Maxim, Sir J. Barnby, Sir A. Manns, and J. Whitaker, F.R.S. (*Whitaker's Almanack*). In the churchyard of the former *Marylebone Chapel* are buried Allan Ramsay (poet), Hoyle (whist), Ferguson (astronomer), Charles Wesley (hymn writer) and his son Samuel Wesley (musician). The chapel itself was demolished in 1949. **CREMATORIA.**—*Ilford* (City of London); *Norwood*; *Hendon*; *Streatham Park*; *Finchley* (St. Marylebone) and *Golders Green* (12 acres), Hampstead Heath, with "Garden of Rest" and memorials to famous men and women.

**CENOTAPH.** Whitehall, S.W.1. — (Literally "empty tomb"). Monument erected "To the Glorious Dead," as a memorial to all ranks of the Sea, Land and Air Forces who gave their lives in the service of the Empire during the First World War. Erected as a temporary memorial in 1919 and replaced by a permanent structure in 1920. Unveiled by King George V on Armistice Day, 1920. An additional inscription was added after the 1939-45 War, to commemorate those who gave their lives in that conflict.

**CHARTERHOUSE.** Charterhouse Square, E.C.1. (*Master, Rev. T. S. Nevill, M.A.; Registrar and Clerk to the Governors, N. Long-Brown, M.A., I.L.B.*), a Carthusian monastery until 1538, purchased from the Earl of Suffolk in 1611 by Thomas Sutton as a home for aged "Brothers" and a School (at Godalming since 1872). The buildings are partly 14th (but mainly 16th) century. They suffered much damage during the 1939-45 War but are now restored and can accommodate nearly 40 "Brothers." Visitors must apply to the Registrar for permission to see the Hall, etc. (Charge for admission, 4s. 9d. per person). Roger Williams, the founder and governor of Rhode Island, U.S.A., was on June 25, 1621, elected scholar of Sutton's Hospital. Other famous Carthusians are John Wesley; the poets Crashaw and Lovelace; Addison and Steele; Sir William Blackstone and Thackeray, who described "Greyfriars School" (Charterhouse) in "The Newcomes."

**CHELSEA PHYSIC GARDEN.** Royal Hospital Road, S.W.3. — A garden of general botanical research, established in latter part of 17th century by the Society of Apothecaries, occupies site presented in 1722 by Sir Hans Sloane. **COLLEGE OF ARMS OR HERALDS' COLLEGE.** Queen Victoria Street, E.C.4. — Her Majesty's Officers of Arms (Kings, Heralds and Pursuivants of Arms) were incorporated by Richard III., and granted Derby House on the site of the present College building by Philip and Mary. The building now in use was built after the Fire of London. The powers vested by the Crown in the Earl Marshal (The Duke of Norfolk) with regard to State ceremonial are largely exercised through the College, which is the official repository of English coats of arms and pedigrees. Enquiry may be made to the Officer on duty in the Public Office, Mon.-Fri. between 10 a.m. and 4 p.m. Saturdays, 10 to 1, by appointment.

**COMMONWEALTH INSTITUTE.** Kensington High Street, W.8. — A permanent exhibition opened on Nov. 6, 1962, by Her Majesty the Queen, replacing the former Imperial Institute opened in 1893 in S. Kensington. An interesting feature of the building is its paraboloid copper-sheathed roof. The Institute contains, in 60,000 square feet arranged in 3 galleries, a visual representation of the history and geography of the Commonwealth countries and dependencies; on the ground floor, exhibits of Canada, Australia, New Zealand, India, Pakistan and Ceylon; on the middle gallery, the African territories; and on the upper gallery, the other territories of the Commonwealth. Art gallery; Cinema, showing documentary films daily.

Open, week-days, 10-5.30; Sundays, 2.30-6. Admission free. Closed Good Friday, Christmas Eve and Christmas Day.

**COUNTY HALL.** Westminster Bridge, S.E.1. — The Headquarters of the Greater London Council (see pp. 634-6) built on the Pedlar's Acre, Bishop's Acre, Four Acres and Float Mead, Lambeth, from the designs of Ralph Knott, with a river façade of 750 ft. The foundation stone was laid by King George V on March 9, 1912, and the ceremonial opening took place on July 17, 1922, although the main building was not completed until 1933. The building of the North and South blocks on a site to the East of the main building started in the early 1930's. They were occupied in 1939 but not finally completed until 1963. The main building contains, in addition to office accommodation, the council chamber, a conference hall, committee rooms; education and members' libraries and the county record office. The Council, when in session, meets in public in the council chamber fortnightly on Tuesday afternoons at 2.30 p.m. The times for public inspection of the building are, on Saturdays and Bank Holidays (except Christmas Day) from 10.30-1; 1.30-4 p.m. Admission free.

**CUSTOM HOUSE.** Lower Thames Street, E.C.3. — Built early in 19th century, with a wide quay on Thames. The *Long Room* is about 190 ft. long.

**DICKENS HOUSE.** 48 Doughty Street, W.C.1. — In this house Charles Dickens lived from 1837 to 1839, and here he completed *Pickwick Papers*. It is the headquarters of The Dickens Fellowship and contains many relics of the novelist. It is open to the public daily, 10 to 5 (Sundays and Bank Holidays excepted); admission 2s. 6d.; students, 1s. 6d.; children, 6d.

**DR. JOHNSON'S HOUSE.** Gough Square, Fleet Street, E.C.4. — An imposing late 17th-century house, in the garret of which, with the aid of six

amanuenses, Samuel Johnson compiled his Dictionary. The garret, damaged by bombs in 1941, was restored and reopened in 1948. Open daily (except Sundays and Bank Holidays) from 10.30 to 4.30 or 5 (according to season). Admission 2s.; Students, 1s.

ELY PLACE, Holborn Circus, E.C.1.—The site of the London house of former Bishops of Ely, Ely Place is a private street whose affairs are administered by Commissioners under a special Act of Parliament. The 14th-century chapel, now St. Etheldreda's (R.C.) Church, is open daily until dusk.

FULHAM PALACE, Bishop's Avenue, Fulham, S.W.6.—The courtyard is 16th century, remainder 18th and 19th century. Residence of the Bishop of London. Grounds of about 9 acres.

GEFFRYE MUSEUM, Kingsland Road, E.2.—Open on Tuesdays to Saturdays 10 to 5, Sundays 11 to 5. Closed on Christmas Day and on Mondays except Bank Holidays. Admission free.

The Museum is housed in a building erected originally as almshouses in 1715. It was eventually purchased by the London County Council and opened as a museum in 1914. The exhibits are shown in a series of period rooms dating from 1600 to the present day, each containing furniture and domestic equipment of a middle-class English home. Photographic enlargements illustrate the costume of each period. An 18th century woodworker's shop and a downhearth kitchen are also shown. Temporary exhibitions and periodic series of evening lectures and recitals are held in the Lecture Hall. There is a reference library of books on furniture, social history and art. Special arrangements for children visiting the Museum in school parties and in their leisure time. *Curator*, Mrs. M. Harrison, M.B.E.

GEORGE INN, Southwark.—Near London Bridge Station. Given to National Trust in 1937. Last galleried inn in London, built in 1677.

GUILDHALL, King Street, City, E.C.2 (dating from early 15th century). Burnt out by incendiary bombs, 1940. The main hall and crypt have been restored. The Library, Museum and Art Gallery adjoining mainly escaped damage, and are open to the public. Admission free. The Library (with Commercial Reference Room adjoining) contains Plan of London, 1570; Deed of Sale with Shakespeare's signature; first, second and fourth folios of Shakespeare's plays, etc. Open free on week-days 10-5 and Sundays (May-Sept.), 10-5. *Keeper of the Guildhall*, W. Parker.

HONOURABLE ARTILLERY COMPANY'S HEAD-QUARTERS, City Road, E.C.1.—The H.A.C. (*Sec.*, Lt.-Col. P. Massey, M.C.) received its charter of incorporation from Henry VIII in 1537, and has occupied its present ground since 1641. The Armoury House dates from 1735. Four of its members who emigrated in the 17th century, founded in 1638 the Ancient and Honorable Artillery Company of Massachusetts. The H.A.C. is the senior regiment of the Army Volunteer Reserves, and maintains a Headquarters with an Officer Training Wing, and Artillery and Infantry components.

HORNIMAN MUSEUM AND LIBRARY, London Road, Forest Hill, S.E.23. Open daily except Christmas Eve and Christmas Day, 10.30 to 6, Sundays 11 to 6. Admission free. The Museum was presented in 1901 to the London County Council by the founder, Mr. F. J. Horniman, M.P. The Museum has three main departments, ethnology, musical instruments and natural history. In the ethnology department the large collections include exhibits illustrating man's progress in the arts and crafts from prehistoric times. The natural his-

tory department includes an aquarium. Reference library. Schools Service. Free concerts and lectures (autumn to spring). *Curator*, D. M. Boston.

HORSE GUARDS, Whitehall, S.W.1.—Archway and offices built about 1753. The mounting of the guard (Lifeguard, or the Blues and Royals at 11 a.m. (10 a.m. on Sundays) and the dismounting at 4 p.m. are picturesque ceremonies. Only those on the Lord Chamberlain's list may drive through the gates and archway into *Horse Guards' Parade* (230,000 sq. ft.), where the Colour is "trooped" on the Queen's Official Birthday. (Trafalgar Square is 168,850 sq. ft. (the island site, 102,050 sq. ft.); Parliament Square, 136,900 sq. ft.; Leicester Square, 100,000 sq. ft.)

HOUSES OF PARLIAMENT, Westminster, S.W.1.—After its destruction by fire in 1834, the Palace of Westminster was re-built in 1840-68 from the designs of Sir Charles Barry and Augustus Welby Pugin, at a cost of over £2,000,000.—Open (free) to visitors on Saturdays, on Easter Monday and Tuesday, Spring Bank Holiday Monday and Tuesday; Mon., Tues. and Thursdays in August and Thursdays in September, if neither House be sitting. Admission at the Sovereign's Entrance, House of Lords, on the above-mentioned days, from 10 a.m. to 4.30 p.m. Closed to visitors on Christmas Day, Boxing Day and Good Friday. Admission to the Strangers' Gallery of the House of Lords as arranged by a Peer or by queue via St. Stephen's Entrance. Admission to the Strangers' Gallery of the House of Commons, during session, by member's order, or order obtained on personal application at the Admission Order Office in St. Stephen's Hall after the House meets. The present House of Commons was used for the first time on October 26, 1950, the original Chamber having been destroyed by bombs in 1941. The Victoria Tower (House of Lords) is about 330 ft. high, and when Parliament is sitting the Union Jack flies by day from its flag-staff. The Clock Tower of the House of Commons is about 320 ft. high and contains "Big Ben," the Hour Bell, named after Sir Benjamin Hall, First Commissioner of Works when the original bell was cast in 1856. This bell which weighed 16 tons 11 cwt., was found cracked in 1857. The present bell (13 tons) is a recasting of the original and was first brought into use in July, 1859. A light is displayed from this tower at night when Parliament is sitting.

INNS OF COURT.—The *Inner and Middle Temple*, S. of Fleet Street, E.C.4, and N. of Victoria Embankment, to which the gardens extend, have occupied (since early 14th century) the site of the buildings of the Order of Knights Templars. *Inner Temple Hall* is open to the public on Monday-Friday, 10-11.30 a.m. and 2.30-4 p.m., except during Vacations. *Temple Church*, restored in 1958 after severe damage by bombing, is open on week-days 10-5 p.m. and the public are admitted to Sunday services (see p. 501). *Middle Temple Hall* (sixteenth century) is open to the public, Monday-Friday, 10-12 and 3-4.30 p.m.; Saturday, 10-4.30. Closed 1-2 p.m. and Sundays. In *Middle Temple Gardens* (not open to the public) Shakespeare (Henry VI, Part I) places the incident which led to the "Wars of the Roses" (1455-85). *Lincoln's Inn*, from Chancery Lane to Lincoln's Inn Fields, W.C.2, occupies the site of the palace of a former Bishop of Chichester and of a Black Friars monastery. The records show the Society as being in existence in 1422. The new Hall and Library Buildings are modern, although the Library is first mentioned in 1474, and the old Hall early 16th century, the Chapel (Inigo Jones) early 17th century. *Lincoln's Inn Fields* (7 acres); the Square contains many fine old houses with handsome interiors. *Gray's Inn*,

Holborn/Gray's Inn Road, W.C.1. Early 14th century. Hall (16th Cent.); Chapel (Services 11.15 a.m. during Law Dining Terms only). Holy Communion 1st Sunday in every month except Aug.-Sept. Public welcome. Library (30,000 vols. mss. and printed books) may be viewed by appointment. Gardens open to the public from 12 noon-2 p.m. (May-July), 9.30 a.m.-5 p.m. (Aug.-Sept.). The Inn although badly damaged during the last war has been completely restored to its former beauty with gracious red brick buildings overlooking grass covered squares and gardens. Strong Elizabethan associations. No other "Inns" are active, but what remains of *Staple Inn*'s worth visiting as a relic of Elizabethan London; though heavy damage was done by a flying-bomb, it retains a picturesque gabled front on Holborn (opposite Gray's Inn Road). *Clement's Inn* (near St. Clement Danes' Church), *Clifford's Inn*, Fleet Street, and *Thavies Inn*, Holborn Circus, are all rebuilt. *Serjeant's Inn*, Fleet Street (damaged by bombing), and another (demolished 1910) of the same name in Chancery Lane, were composed of Serjeants-at-Law, the last of whom died in 1922.

**JEWISH MUSEUM**, Woburn House, Upper Woburn Place, W.C.1.—Opened in 1932, the Museum contains a comprehensive collection of Jewish antiquities, liturgical paraphernalia and "Anglo-Judaica." Open free (Mon.-Thurs.), 2.30-5; (Fri. and Sun.), 10.30-12.45. Closed on Saturdays, Jewish Holy days and Bank Holidays. Conducted tours of parties by arrangement with the Secretary/Curator.

**KEATS HOUSE AND MUSEUM**, Keats Grove, Hampstead, N.W.3.—In two houses here, now made into one, John Keats lived at various times between 1818 and 1820. The house and the museum are open free, weekdays, 11 a.m. to 6 p.m. The Keats Memorial Library (5,000 volumes) in the adjoining Branch Library is open free on weekdays 9.30-8 p.m.; Saturday, 9.30-11 p.m.

**KENSINGTON PALACE**, W.8.—Built by Christopher Wren for King William III (1689-94), and continued as a royal residence until 1760. The birthplace of Queen Victoria in 1819. State apartments, re-opened to the public in 1956 under administrative control of the London Museum, contain pictures from the royal collections, royal costumes and furniture formerly belonging to Queen Mary. *Hours of Opening*: (March 1-Sept. 30) 10 a.m.-6 p.m.; Sundays, 2-6 p.m.; (Oct. 1-Feb. 28) 10-5; Sundays, 2-5 p.m. *Kensington Gardens* (*q.v.*) adjoin.

**LAMBETH PALACE**, S.E.1.—The official residence of the Archbishop of Canterbury, on south bank of Thames; the oldest part is 13th century, the house itself is early 19th century. For leave to visit the historical portions, applications should be made by letter to the Archbishop's Chaplain.

**LIVERY COMPANIES' HALLS**.—The Principal Companies (*see pp. 640-642*) have magnificent halls, but admission to view them has generally to be arranged beforehand. Among the finest or more interesting may be mentioned the following: Goldsmiths' Hall, Foster Lane. The present hall was completed in 1835, and contains some magnificent rooms. Exhibitions of plate have been shown here periodically in recent years. Fishmongers' Hall, London Bridge (built 1831-3), now admirably restored after severe bomb damage, also contains fine rooms. Apothecaries' Hall, Water Lane, was rebuilt in 1670, after the Great Fire, and has library, hall and kitchen which are good examples of this period, together with a pleasant courtyard. Vintners' Hall, Upper Thames Street, was also rebuilt after the Great Fire, and its hall has

very fine late 17th century panelling. The Watermen and Lightermen's Company is not, strictly speaking, a Livery Company, but its hall, in St. Mary at Hill, is a good example of a smaller 18th century building, with pilastered façade. It was completed in 1780. Stationers' Hall, in Stationers' Hall Court, behind Ludgate Hill, another post-Fire Hall, standing in its own court, has a particularly finely carved screen. Barbers' Hall, Monkwell Street, with a Hall attributed to Inigo Jones, was completely destroyed by bombing, but is to be rebuilt. The new hall is to be built some 30 ft. from the old site to enable one of the bastions and part of the wall of the Roman fort to remain exposed to view. Mercers' Hall, Cheapside, built to replace the hall destroyed by bombing, was opened in 1958.

**LLOYD'S**, Lime Street, E.C.3.—Housed in the Royal Exchange for 150 years and in Leadenhall Street from 1928-1957. The present building was opened by H.M. Queen Elizabeth the Queen Mother on Nov. 14, 1957. The underwriting space has an area of 44,250 sq. ft.

**LORD'S CRICKET GROUND**, St. John's Wood Road, N.W.8.—The headquarters (since 1814) of the Marylebone Cricket Club, the premier cricket club in England and the governing body of cricket, the scene of some of the principal matches of the season and Middlesex County headquarters. Tennis court in building behind members' pavilion.

Imperial Cricket Memorial Gallery, a museum of cricket, open to the public on match days until close of play, and on other days by prior arrangement. Adults, 1s., children, 6d. In winter, admission free (by prior arrangement).

**MANSHION HOUSE**, City, E.C.4.—(Reconstructed 1930-31.) The official residence of the Lord Mayor; the Egyptian Hall and Ballroom are the chief attractions. Admission by order from the Lord Mayor's Secretary.

**MARKETS**.—The London markets (administered by the Corporation of the City of London) provide foodstuffs for 8,500,000 to 9,000,000 people. The dead meat market at Smithfield is the largest in the world, the supplies marketed amounting to nearly 500,000 tons annually. *Central Meat, Fish, Fruit, Vegetable, and Poultry Markets*, Smithfield; *Leadenhall Market* (Meat and Poultry); *Billingsgate* (Fish), Thames Street; *Spitalfields, E.1* (Vegetables, Fruit, etc.), enlarged 1928, and opened by the late Queen Mary; *London Fruit Exchange*, Brushfield Street (built by Corporation of London 1928-29) faces Spitalfields Market. Other markets are—*Covent Garden, W.C.2* (established under a charter of Charles II, in 1661) and *Borough Market, S.E.1*, for vegetables, fruit, flowers, etc.

**MARLBOROUGH HOUSE**, Pall Mall, S.W.1.—The London home of Queen Mary until her death in 1953. Built by Wren for the great Duke of Marlborough and completed in 1711, the house finally reverted to the Crown in 1835. Prince Leopold lived there until 1831, and Queen Adelaide from 1837 until her death in 1849. In 1863 it became the London house of the Prince of Wales. The Queen's Chapel, Marlborough Gate, begun in 1623 from the designs of Inigo Jones for the Infanta Maria of Spain, and completed for Queen Henrietta Maria, is open to the public for services during part of the year. In 1959 Marlborough House was given by the Queen as a Commonwealth centre for Government conferences and it was opened as such in March, 1962. It is open to the public at certain times when conferences are not taking place.

**LONDON MONUMENT**, (commonly called "The Monument"), Monument Street, E.C.3.—Built from designs of Wren, 1671-77, to commemorate the *Great Fire of London*, which broke out in Pudding Lane, Sept. 2, 1666. The fluted Doric

column is 120 ft. high (the moulded cylinder above the balcony supporting a flaming vase of gilt bronze is 42 ft. in addition), and is based on a square plinth 40 ft. high, with fine carvings on W. face (making a total height of 202 ft.). Splendid views of London from gallery at top of column (311 steps) Admission (until 20 minutes before closing time) 6d., Monday to Saturday, 9 a.m. to 6 p.m. (Oct.—March to 4 p.m.). Sundays—May to Sept. 2-6 p.m. Closed Christmas Day, Boxing Day and Good Friday. Parties of 30 or more school children in charge of an adult, 3d. each.

PERCIVAL DAVID FOUNDATION OF CHINESE ART, 53 Gordon Square, W.C.1.—Set in 1951 to promote the study and teaching of the art and culture of China and the surrounding regions, and provide facilities necessary to end. The Foundation contains the collection of Chinese ceramics formed by Percival David his

important library of books on Chinese art. To these was added a gift from the Hon. Mountstuart Elphinstone of part of his collection of Chinese monochrome porcelains. The galleries were opened to the public in 1952. The Foundation is administered on behalf of the University of London by the School of Oriental and African Studies. Hours of opening: Galleries, Mon. to 5 p.m.; Tues. to Fri. 10.30 a.m. to 5 p.m.; Sat. 10.30 a.m. to 1 p.m.; Library, Mon. 2.30 to 4.30 p.m.; Tues. to Fri. 10.30 a.m. to 12.30 p.m.; 1.30 to 4.30 p.m. Head of the Foundation, Prof. W. Watson.

PORT OF LONDON.—The Port of London comprises the tidal portion of the River Thames from Teddington to the sea, a distance of 9½ miles and four dock systems covering an area of 4,760 acres, of which 633 acres are water. The governing body is the Port of London Authority, whose Head Offices in Trinity Square, E.C.3, were designed by Sir Edwin Cooper. Particulars of the docks are as follows:—*Surrey Commercial Docks, S.E. 16.*—Area 392 acres, including 122 acres water. A chief centre of the London and Provincial soft-wood trade. Also handles hardwood, grain and general cargo. *India & Millwall Docks, E.14.*—Area 455 acres including 127 acres water. Principal commodities handled are rum, sugar, grain, hardwood, fruit, plywood, wood pulp and wine in bulk. *Royal Victoria & Albert & King George V Docks, E.16.*—Area, 1,055 acres including 230 acres water—have special facilities for handling frozen and chilled meat, grain, tobacco and bananas. Large quantities of wool, fruit, dairy produce and general cargo are also dealt with. *Tilbury Docks, Essex.*—Area 927 acres, including 155 acres water. These docks are 26 miles below London Bridge and are used principally by vessels plying on the Australian, North American, Indian, other Eastern routes, West Africa and the Continent. Tilbury Passenger Landing Stage provides accommodation for liners at all states of the tide and adjoins Tilbury Riverside Station.

A development and extension scheme at Tilbury has added nearly 2 miles of deep-water quays, to provide 13 new berths, of which 6 are for container traffic and 3 for packaged timber. Also included is a freight-liner rail container terminal and a riverside grain terminal which can accommodate vessels up to 65,000 tons deadweight and provide a rated maximum discharge of 2,000 tons per hour. Cost of this development was estimated at about £30 million.

The St. Katharine Docks were sold to the G.L.C. in 1969 and the London Docks were closed on May 31, 1969.

PRINCE HENRY'S ROOM, 17 Fleet Street, E.C.4.—Early 17th century timber-framed house containing fine room on first floor with panelling and moulded plaster ceiling. Open Mon. to Fri. 1.45 p.m. to 1 p.m.; Sat. to 4.30 p.m. Closed Christmas Day and Good Friday. Available occasionally for evening lettings to societies, etc. on application to Corporation of London, Guildhall, E.C.

ROMAN LONDON.—Though visible remains very few, almost every excavation for the foundations of new buildings in the City reveals Roman remains. Sections of the City wall, often however merely a mediæval re-build on the Roman foundations, are the most striking remains still to be seen. Fragments may be seen near the White Tower in the Tower of London, Trinity Square, No. 1 Crutched Friars, All Hallows, London Wall—its semi-circular vestry being built on the remains of a round bastion—St. Alphage, London Wall, recently restored by the Corporation of London and showing a striking succession of building and repairs from Roman mediæval times,

St. Giles, Cripplegate and, by permission only, the great bastion beneath the pavement of the yard of the G.P.O. in Giltspur Street. Recent excavations in the Cripplegate area have revealed that a fort was built in this area and later incorporated in the town wall in this north-west corner of the City. Evidence from these excavations proves that the fort was not built until about 100-120 A.D., and the date of the town wall must therefore be considerably later. Remains of a bath building are preserved beneath the Coal Exchange in Lower Thames Street and other foundations may be seen in the Crypt of All Hallows Barking by the Tower. The governmental headquarters of the town was a great basilica, more than 400 ft. long from east to west, the massive walls of which have been encountered, extending from Leadenhall Market across Gracechurch Street as far as St. Michael's, Cornhill. Excavations during the past few years have shown that buildings over the river front were erected on huge oaken piles and a framework of timber for a considerable distance both east and west of the present London Bridge. The "Roman Bath," in Strand Lane, which is not now held by most authorities to be of Roman origin, is maintained by the G.L.C. on behalf of the National Trust, and is open to the public on weekdays from 10 a.m. to 12.30 p.m. (*Admission, 1s.*). Excavations since 1948 on a bombed site in Walbrook, on the banks of the old Wall Brook, produced interesting discoveries, including a Temple of Mithras, from which the splendid marble statues have been placed in Guildhall Museum, now in the Royal Exchange, where many other relics from the Roman City may be seen.

ROYAL EXCHANGE, E.C.3 (founded by Sir Thomas Gresham, 1566, opened as "The Bourse" and proclaimed "The Royal Exchange" by Queen Elizabeth I, 1571, rebuilt 1667-69 and 1842-44).—Open to the public, free. Statues of Queen Elizabeth I, Charles II, Queen Victoria, Sir Thomas Gresham and others; mural paintings in the ambulatory by Leighton, Abbey, Brangwyn, Wyllie and others. The carillon of the Royal Exchange (reinstated 1950) plays English, Scottish Irish, Welsh, Canadian and Australian melodies at 9 a.m., 12 noon and 3 and 6 p.m. With the exception of the courtyard and ambulatory (now used for exhibitions, art displays, etc.) and the shops the whole of the building is occupied by departments of the Royal Exchange Assurance Group (which has had its head office there since 1720) and is administered by the Gresham Committee (*Clerk, Mercers' Hall, Ironmonger Lane, E.C.2*).

ROYAL GEOGRAPHICAL SOCIETY, Kensington Gore, S.W.7.—Map Room open to public, free.

ROYAL MINT, Tower Hill, E.C.3 (building erected 1811), where coins for the United Kingdom and abroad are struck. Admission by order only, application for which should be made to the Deputy Master of the Mint, at least 3 months in advance of intended visit. (In summer and in school holiday periods, 6 months' notice, may be necessary). Hours of admission, 9.20 a.m. to 2.30 p.m., Mon. to Fri., except Bank Holidays, etc., when the Mint is closed. Additional tours at 2.50, 4.45 and 5 p.m., Mon. and Thurs.

ST. JAMES'S PALACE, in Pall Mall, S.W.1.—(Not open to the public.) Built by Henry VIII; the Gatehouse and Presence Chamber remain, and part of the Chapel Royal, which in 1955 was reopened to the public for services during part of the year. A royal residence from 1697 to 1762. Representatives of Foreign Powers are still accredited "to the Court of St. James's" and (by the permission of the Crown) the Conference of the Allies (1921) and later conferences have been held here.

ST. JOHN'S GATE, Clerkenwell, E.C.1.—Now the Chancery of the Order of St. John of Jerusalem, and formerly the gate of the Priory of that Order, of which the gate house (early 16th century) and crypt of Church (12th century) alone survive. The gatehouse may be inspected on application to the Secretary at the Chancery.

SIR JOHN SOANE'S MUSEUM, 13 Lincoln's Inn Fields, W.C.2. The house and galleries, built 1812-24, are the work of the founder, Sir John Soane (1753-1837) and contain his collections, arranged as he left them, in pursuance of an Act procured by him in 1833. Exhibits include the Sarcophagus of Seti I. (c. 1290 B.C.), classical vases and marbles, Hogarth's *Rake's Progress* and *Election* series, paintings by Canaletto, Reynolds, Turner, Lawrence, etc., and sculpture by Chantrey, Flaxman, etc. Soane's library of 8,000 vols. and a collection of 20,000 architectural drawings are available for study. Open Tues.-Sat. inclusive, 10 a.m. to 5 p.m. Closed Bank Holidays and in August. *Curator, Sir John Summerson, C.B.E., F.B.A. Inspector, Miss D. Stroud, M.B.E., F.S.A.*

SOMERSET HOUSE, Strand, W.C.2, and Victoria Embankment, W.C.2.—The beautiful river façade (600 ft. long) was built at the close of the 18th century from the designs of Sir W. Chambers; the remainder of the building is early 19th century. Somerset House was the property of Lord Protector Somerset, at whose attainder in 1552 the palace passed to the Crown, and it was a royal residence until about the close of the 17th century. The building is now occupied by the *Board of Inland Revenue* and other branches of the Civil Service and by the *Principal Probate Registry*.

STOCK EXCHANGE, E.C.2.—The foundation stone of the present building was laid in 1801, but the building was almost entirely reconstructed in 1854 from the designs of Thomas Allason. The Stock Exchange is being rebuilt as a large tower block 331 feet high and a new trading floor to the west of the block. Completion is planned for 1972.

The Stock Exchange provides a market for the purchase and sale of about 9,500 securities quoted in the Stock Exchange Daily Official List and valued at over £100,000,000,000 and also securities listed on other Exchanges. At present the members of the Stock Exchange, who consist of brokers (agents for clients) and jobbers (dealers in specific securities) number about 3,300. Visitors' Gallery open between 10 a.m. and 3.15 p.m. from Monday to Friday. Admission free and without ticket. Film show.

THAMES EMBANKMENTS.—The Victoria Embankment, on the N. side from Westminster to Blackfriars, was constructed by Sir J. W. Bazalgette for the Metropolitan Board of Works, 1864-70 (the seats, of which the supports of some are a kneeling camel, laden with spicery, and of others a winged sphinx, were presented by the Grocers' Company, and by Rt. Hon. W. H. Smith, M.P., in 1874); the Albert Embankment on the S. side (from Westminster Bridge to Vauxhall), 1866-69; the Chelsea Embankment, 1871-74. The total cost exceeded £2,000,000. Sir J. W. Bazalgette (1819-92) also inaugurated the London main drainage system, 1858-65. A medallion has been placed on a pier of the Victoria Embankment to commemorate the engineer of the Thames waterside improvements ("Fluminis vincula posuit"). The headquarters of the G.L.C. include an embankment on the Surrey side.

THAMES TUNNELS.—The *Rotherhithe Tunnel*, constructed by the L.C.C. and opened in 1908, connects Commercial Road E.14, with Lower Road, Rotherhithe; the total length is a mile 332 yards, of which 474 yards are under the river.

The cost of the tunnel and its approaches ■ ■ ■ £1,506,914. The first *Blackwall Tunnel* (foot passengers and vehicles) was constructed by the L.C.C. and opened in 1897, connecting East India Dock Road, Poplar, with Blackwall Lane, East Greenwich. The cost of the tunnel with its approaches was about £1,323,663. A second tunnel (for southbound vehicles only) was opened in August, 1967, at ■ cost of about £9,000,000 and the old tunnel was improved at ■ cost of about £1,100,000 and made one-way northbound. Both tunnels are for vehicles only. The relative lengths of the tunnels measured from East India Dock Road to the Gate House on the south side are 6,215 ft. (old tunnel) and 6,152 feet. *Greenwich Tunnel* (foot passengers only), constructed by the L.C.C. and opened in 1902, connects the Isle of Dogs, Poplar, with Greenwich. The length of the subway is 406 yards, and the cost was about £180,000. The *Woolwich Tunnel* (foot passengers only), constructed by the L.C.C. and opened in 1912, connects North and South Woolwich below the passenger and vehicular ferry from North Woolwich Station, E.16, to High Street, Woolwich, S.E.18. The length of the subway is 552 yards, and its cost was about £86,000. The *Thames Tunnel* (1,300 feet) was opened in 1843 to connect Wapping (N.) with Rotherhithe (S.). In 1866 it was closed to the public, and purchased by the East London Railway Company. The *Tower Subway* for foot passengers was opened in 1870, and has long been closed.

The White Tower is the oldest and central building in Her Majesty's Royal Palace and Fortress of the Tower of London. It was built at the order of William I. and constructed by Gundulph, Bishop of Rochester, in the years 1078-98. The Inner Wall, with thirteen towers, was constructed by Henry III. in the 12th century. The Moat ■ ■ ■ extended and completed by Richard I. and the Wharf first mentioned in 1228. The Outer Wall was completed in the reign of Edward I. and now incorporates 6 towers and ■ bastions. The last Monarch to reside in the Tower of London was James I. The Crown Jewels came to the Tower in the reign of Henry III. All coinage used in Great Britain was minted in the Outer Ward of the Tower of London until 1810 when the Royal Mint was formed. The Tower of London has had a military garrison since 1078. The Chapel Royal

of St. John the Evangelist, within the White Tower (1080-1088) is the oldest Norman church in London.

### ENVIRONS OF LONDON

BARNET AND HADLEY GREEN.—Scene of Battle, A.D. 1471. Hadley Woods.

BURNHAM BEECHES and FLEET WOOD, Bucks.—Magnificent wooded scenery (425 acres), purchased by the Corporation of London for the benefit of the public in 1879; Fleet Wood (65 acres) presented in 1921. During [redacted] omnibus runs daily, Sundays included, from Slough Station (Western Region), passing within 250 yards of "Gray's Elegy" Church. See "Stoke Poges."

BUSHY PARK (1,099 acres).—Adjoining Hampton Court, contains many fine trees and avenue of horse-chestnuts enclosed in a fourfold avenue of limes, planted by King William III. "Chestnut Sunday" (when the trees are in full bloom with their "candles") is usually about 1st to 15th May.

CHEQUERS, a country residence for Prime Ministers, was presented to the Nation (with an endowment to maintain the estate, etc.) by Lord and Lady Lee of Farnham, [redacted] the official country residence for the Prime Minister of the day, and the gift was approved by Parliament in the *Chequers Estate Act, 1917*. In 1921 the Chequers Estate of 700 [redacted] was added to the gift by Lord Lee. Chequers is a mansion in Tudor style in the Chilterns, about 3 miles from Princes Risborough, Bucks, and contains [redacted] collection of Cromwellian portraits and relics.

DARWIN AND DOWN HOUSE, Downe, Farnborough, Kent.—Where Charles Darwin thought and worked for 40 years and died in 1882. Maintained by the Royal College of Surgeons. Open daily (except Fridays and Christmas Day 10 to 5 (Nov.—March, 11 to 5). Admission, 4s. Children, 2s.

DORNEYWOOD, country house in 215 acres, near Burnham Beeches, Bucks., was presented to the nation by Lord Courtauld-Thomson (died 1954) [redacted] an official residence for any Minister of the Crown chosen by the Prime Minister during office. Administered by the National Trust. Open to the public (August & Sept., 2-6 p.m.) Admission 1s. Children 1s.

DULWICH, S.E.21 (5 miles from London), contains Dulwich College (founded by Edward Allyn in 1619), the Horniman Museum and Dulwich Park (72 acres). The Dulwich Picture Gallery, built by Sir John Soane to house the collection bequeathed by the artist, Sir Francis Bourgeois, was damaged by enemy action in the Second World War. The pictures, however, were saved, and the gallery has been rebuilt with the aid of a grant from the Pilgrim Trust. It was reopened by Queen Elizabeth the Queen Mother on April 27, 1953. In Dulwich Village the rural characteristics of the pre-suburban period are preserved.

ELTHAM, Kent (10 miles from London by Southern Region). Remains of 13th-15th century Eltham Palace, the birthplace of John of Eltham (1316), son of Edward II. The hall, built by Edward IV., contains fine hammer-beam roof of chestnut. In the churchyard of St. John the Baptist is the tomb of Thomas Doggett, the comedian and founder of the Thames Watermen's championship (Doggett's Coat and Badge).

EPPING FOREST (6,000 acres, originally purchased by the Corporation of London for £250,000 and thrown open to the public in 1882; the present forest is [redacted] miles long by 1 to [redacted] miles wide, about one-tenth of its original area). LOUGHTON, BUCKHURST HILL, CHINGFORD, HIGH BEECH (London Transport and Eastern Region). Beautiful forest scenery.

ETON COLLEGE.—22 miles from London. The most famous of English schools, founded by Henry VI in 1440, the scholars numbering 1,212 in July, 1969. Buildings date from 1442.

GREENWICH, S.E.10.—Greenwich Hospital (since 1873, the Royal Naval College) was built by Charles II, from designs by Inigo Jones, and by Queen Anne and William III, from designs by Wren, on the site of an ancient royal palace, and of the more recent *Placentia*, [redacted] enlarged edition of the palace, constructed by Humphrey, Duke of Gloucester (1391-1447), son of Henry IV. Henry VIII, Queen Mary I and Queen Elizabeth I were born in the Royal Palace (which reverted to the Crown in 1447) and King Edward VI died there. In the principal quadrangle is [redacted] marble statue of George II, by Rysbrack. (For *National Maritime Museum*, see p. 415.) Painted Hall and Chapel open daily except Thursdays from 2.30 p.m. to 5 p.m. (closed on Sundays, Oct.—April inclusive). Visitors are also admitted to Morning Service in the Chapel at 11 a.m., summer and winter, except during College vacations. Greenwich Park (185 acres) was enclosed by Humphrey, Duke of Gloucester, and laid out by Charles II, from the designs of Le Nôtre. On a hill in Greenwich Park is the former Royal Observatory (founded 1675). Part of its buildings at Greenwich have been taken over by the Maritime Museum and named *Flamsteed House*, after John Flamsteed (1646-1719), first Astronomer Royal. The parish church of Greenwich (*St. Alfege*) was rebuilt by Hawksmoor (Wren's pupil) [redacted] 1728, and restored after severe damage during the Second World War. General Wolfe (Heights of Abraham) and Tallis ("the father of Church Music") are buried in the church. Henry VIII was christened in the former church. *Charlton House*: built in the early 17th century (1607-1612) for Adam Newton, tutor [redacted] Prince Henry, brother to Charles I. The

house ■ largely in the Jacobean style of architecture. *Cutty Sark*, the last of the famous tea clippers, which has been preserved as a memorial to ships and men of ■ past era. The ship is fully restored and re-rigged, with ■ museum of sail on board. Open to visitors: weekdays, 11 to 5 (Summer, 6 p.m.); Sundays and Boxing Day, 2.30 to 5. The yacht *Gipsy Moth IV* in which Sir Francis Chichester sailed single-handed round the world, 1966-67, is preserved alongside *Cutty Sark*.

HAM HOUSE, Richmond.—A notable example of 17th-century domestic architecture, long the home of the Tollemache family (Earls of Dysart). The contents, described as "probably the finest and most varied collection of Charles II.'s reign to survive," were purchased for the Victoria and Albert Museum which now administers the house. Ham House may be seen on Tues.-Sun. inclusive and on Bank Holidays, 2-6 p.m., March-Oct., 12-4 p.m., Nov.-Feb. Closed Mon. (except Bank Holidays), Christmas Day and Good Friday. Admission, 1s., Children, 6d.

HAMPTON COURT.—Sixteenth-century Palace built by Cardinal Wolsey, with additions by Sir Christopher Wren for William and Mary, 15 miles from London. Fine view of river. Beautiful gardens with maze and prolific grape vine (planted in 1769). Old Royal Apartments and collection of pictures. Tennis Court, built by King Henry VIII in 1530. The Palace is closed on Christmas Day, Boxing Day and Good Friday. Comprehensive ticket for all parts of the Palace open to the public, 2s. 6d.; children under 15, 1s. 3d. Individual tickets for Vine (2d.) and Maze (3d.) also available. Admission, Oct.-March, when the Tudor Tennis Court and the Banqueting House are closed, Adults, 2s; Children, 1s. Refreshments can be obtained in the Tilt Yard gardens during the summer season. *Bushy Park* adjoins the Lion Gates of Hampton Court Palace.

Grace and Favour Residences.—Hampton Court contains ■ total of 57 residences occupied by favour of Her Majesty the Queen. The Minister of Public Building and Works reported in Parliament on April 17, 1962, that, of 140 grace and favour residences, the remainder were situated at Windsor Castle (46), Kensington Palace (16), St. James's Palace (8), Marlborough House Mews (9), Bushy Park (2), Kew Palace (1) and Hyde Park (1).

HARROW-ON-THE-HILL.—10 miles by Metropolitan and other railways. Large public school founded by John Lyon in 1571. The "Fourth Form Room" dates from 1608.

HUGHENDEN MANOR, High Wycombe, Bucks.—The home of Disraeli from 1847 till his death and contains much of his furniture, books, etc. Conveyed to the National Trust in 1947. Open daily including Sundays and Monday Bank Holidays (but not other Mondays and not the day after ■ Monday Bank Holiday), 2-6 or till dusk. Saturdays and Sundays, 12.30 to 6. Closed all January, Good Friday and Christmas Day. Admission (non-members), 2s. 6d.; children, 1s.; parties of 20 or more, 2s.

JORDANS AND CHALFONT ST. GILES, near Beaconsfield, Bucks, contain the Old *Quaker Meeting House* (1688) at Jordans in the burial ground of which lies William Penn (Pennsylvania); a barn built out of the timbers of the *Mayflower* by the 17th-century owner of Jordans (Gardener). At Chalfont St. Giles is the cottage where Milton lived during the Great Plague (1665-1666).

KEW, Surrey, was ■ favourite home of the early Hanoverian monarchs. Kew House, the residence of Frederick, Prince of Wales, and later of his son, George III, was pulled down in 1803,

but the earlier Dutch House, now known as Kew Palace, survives. It was built in 1631 and acquired by George III ■ an annexe to Kew House in 1781. The famous Kew Gardens (see p. 649) were originally laid out ■ ■ private garden for Kew House for George III.'s mother in 1759 and were much enlarged in the nineteenth century, notably by the inclusion of the grounds of the former Richmond Lodge.

KINGSTON-UPON-THAMES, Surrey (about ■ miles from London), is the ancient place of coronation of the Kings of Saxon England. The Coronation Stone (hence the name "King's Stone") is preserved within railings adjoining the Guildhall.

MARBLE HILL HOUSE, Twickenham, Middlesex.—Example of the English Palladian style. Reopened 1966, after restoration work on the elevations of the house, entrance hall, main staircase and first floor rooms. The Great Room and mahogany staircase are noteworthy. Open Tues. to Sat., 10-5; Sunday, 2-5; and on Bank Holiday Mondays. Closed Xmas Eve and Xmas Day. Admission, 2s.

NATIONAL ARMY MUSEUM, Royal Military Academy, Sandhurst, Camberley, Surrey.—Established by Royal Charter. Official museum for British Army, Honourable East India Company, Indian Services and Colonial Forces. There is ■ special section for the Irish regiments disbanded in 1922.

OSTERLEY PARK, Isleworth.—House and park of 300 acres given to the National Trust by the Earl of Jersey in 1949. Part of the Elizabethan house, built in 1577 for Sir Thomas Gresham, remains, but it was largely remodelled by Robert Adam, and the staterooms are among the best examples of Adam decoration. Open daily, except Mondays, (Mar.-Oct.) 2-6 p.m.; (Nov.-Feb.) 12 noon-4 p.m. Closed Monday (except Bank Holidays), Christmas Day and Good Friday. Admission 1s., children 6d.

RICHMOND, Surrey, contains the red brick gateway of *Richmond Palace* (Henry VII., 1485-1509) and buildings of the Jacobean, Queen Anne, and early Georgian periods, including *White Lodge* in Richmond Park, the former home of Queen Mary's mother (the Duke of Windsor was born there, June 23, 1894). The *Star and Garter Home* for Disabled Soldiers, Sailors, and Airmen (the Women's Memorial of the Great War) was opened by Queen Mary in 1924. *Richmond Park* (2,469 acres) contains herds of fallow and red deer. From the *Terrace Gardens*, Richmond Hill, can be obtained a wonderful view of the Valley of the Thames.

RUNNIMED.—A meadow of about 100 acres, on S. bank of Thames (part of the Crown Lands), between Windsor and Staines. From June 15-23, 1215, the hostile Barons encamped on this meadow during negotiations with King John, who rode over each day from Windsor. The 48 "Articles of the Barons" were accepted by the King on June 15, and were subsequently embodied in ■ charter, since known as *Magna Carta*, of which several copies were sealed on June 19. About half a mile N.E. of the meadow is *Magna Carta Island* (claimed as the actual site of the sealing), presented to the National Trust in 1930 by Lady Fairhaven and her sons.

A memorial at *Cooper's Hill*, near Runnymede, to members of the Commonwealth air forces who lost their lives in the Second World War while serving from bases in the United Kingdom and north-western Europe and have no known grave, was unveiled by the Queen on October 17, 1953. Her Majesty on May 14, 1965 unveiled a memorial to the late President of the United States, John F. Kennedy, on ground nearby.

**ST. ALBANS.**—A city in Hertfordshire, on the river Ver, 22 miles N.W. of London. The abbey church, built partly of materials from the old Roman city of Verulamium by Paul of Caen, was consecrated in 1115. Parts still remain of the Norman structure. The city was the scene of the overthrow of Henry VI in 1455, and of the Earl of Warwick in 1461. The site of the pre-Roman city of King Tasciovanus and the remains of the ancient City of Verulamium, with well preserved theatre and many other features, excavated in recent years. St. Michael's Church, thought to contain the burial place of Sir Francis Bacon.

**STORE POGES** (2 miles from Slough station, Western Region) contains the 14th-century Church with the Churchyard of Gray's "Elegy" and "Ode on a Distant Prospect of Eton College." The poet was buried in the church in 1771.

**SYON HOUSE, Brentford.**—The town seat of the Duke of Northumberland. The house is part of the buildings of the Nunnery of Syon, erected by permission of Henry VI in 1431. At the Dissolution of the Nunnery the Estate reverted to the Crown. In 1578 it was granted to the 9th Earl of Northumberland and in 1632 the house was repaired under superintendence of Inigo Jones. In 1766 the interior was transformed by Robert Adam, who also built the entrance gateway. The lion on the river-front was brought here in 1874 on the demolition of Northumberland House in the Strand. New gardens opened, 1968. Open (April, May, June), Wed.—Sat.; (July—Sept.), Wed.—Sun. 1 p.m. to 4.30 p.m. Also Bank Holiday Sundays and Mondays.

**WALTHAM ABBEY (or WALTHAM HOLY CROSS),** 13 miles from London (Eastern Region).—The Abbey ruins, Harold's Bridge (11th century), the Nave of the former cruciform Abbey Church (the oldest Norman building in England (consecrated May 3, 1060) and the traditional burial place of King Harold II (1066), and a Lady Chapel of Edward II, with crypt below. New evidence of the position and style of several buildings, which once stood on the site of the Augustinian monastery, were revealed by the prolonged drought in the summer of 1933. At Waltham Cross, 1 mile from the Abbey, is one of the crosses (partly restored) erected by Edward I to mark a resting place of the corpse of Queen Eleanor on its way to Westminster Abbey. (Ten crosses were erected, but only those on Geddington, Northampton and Waltham re-

main; "Charing" Cross originally stood on the spot now occupied by the statue of Charles I at Whitehall.)

**WINDSOR CASTLE** (begun by William the Conqueror, A.D. 1066-87).—22 miles from London, by Western and Southern Regions. The Castle Precincts are open daily, free of charge, from 10 a.m. to sunset. When the Court is not in residence, the *State Apartments* of Windsor Castle are open to the public, during Her Majesty's pleasure, on every weekday and on certain Sunday afternoons during the summer months. When the State Apartments are open, the charges for admission are for Adults, 2s. and for Children, 6d. By the Queen's command, the net proceeds go to charities. An authorized guide book can be obtained at the office, price 2s. The hours of admission to the State Apartments are from April 1 to May 31, and Oct. 1 to 31 between 11 and 4; June 1 to Sept. 30, 11 to 5; and from Nov. 1 to March 31, between 11 and 3; and on certain Sundays during the summer between 1.30 and 5. *Queen Mary's Doll's House*, the *Exhibition of Dolls* and the *Old Master Drawings* can be seen on the same days and hours as the State Apartments, admission 6d. each person to each. When the State Apartments are closed, *Queen Mary's Doll's House* and the *Exhibition of Old Master Drawings* remain open to the public. The *Albert Memorial Chapel* is open throughout the year from 10-4.45 (Nov.—Feb., 4 p.m.), except between 1 and 3 p.m. Closed on Sundays; the *Round Tower or Keep* is open from April 1 to Sept. 30 (except when the Royal Standard is flying) the same days and hours as the State Apartments. Admission free. By permission of the Dean and Chapter, *St. George's Chapel* may be viewed on Mon.—Thurs., between 11 a.m. and 3.45 p.m.; Fridays, 1 p.m. to 3.45 p.m.; Sundays, 2.30 to 4 p.m. Admission 2s. per person, except at service times. The chapel is usually closed during January. The Daily Services in the Chapel are open to the public. The *Curfew Tower* may be seen under the guidance of the Keeper to whom application must be made at the entrance (admission 6d.). The *Royal Mausoleum*, Frogmore Gardens, Home Park, is open annually on two days in early May, usually the first Wednesday and Thursday in the month, in conjunction with the opening of Frogmore Gardens in aid of the National Garden Scheme, 10 a.m.—dusk. Also open on the Wednesday nearest to May 24 (Queen Victoria's birthday) from 11 a.m. to 4 p.m. Admission free.

### HOUSES OPEN TO THE PUBLIC

## THE PRINCIPAL ENGLISH CITIES

### BIRMINGHAM

**BIRMINGHAM** (Warwickshire) is the second largest City in Britain and the chief centre of the hardware trade. The municipal area is about 80 sq. miles, with a population (estimated 1967) of 1,074,940. It is estimated that over 1,500 distinct trades are carried on in the city, the chief industries being the manufacture of buttons, bedsteads, plastic goods, chocolate, chemicals, electro-plate, guns, machine tools, glass, motor-cars and motor cycles, motor tyres, nuts and bolts, pens and nibs, tubes, paint and enamels, tools, toys, electrical apparatus, wire, jewellery and brass working, etc.

Water is supplied by the City Corporation, which also owns the airport, markets, restaurants and Municipal Bank. The first section of Birmingham's new Queen Elizabeth Hospital, erected at Edgbaston at a cost of approximately £1,000,000, is claimed to be the finest of its type in Europe. A new maternity hospital adjoining was opened in 1969. The city has started work on the construction of an inner ring road round the centre of the city, with many improvements in the shopping centre including the redevelopment of the old market centre in the Bull Ring at a cost of £8,000,000. In 1969 work started on the building of a new repertory theatre, a television centre for A.T.V. and a new central library.

The principal buildings are the Town Hall, built in 1832-1834; the Council House and Corporation Museum and Art Gallery (1878); Victoria Law Courts (1891); the University (1909); the Central Library; the 13th century Church of St. Martin (rebuilt 1873); the Cathedral (formerly St. Philip's Church); the Roman Catholic Cathedral of St. Chad (Pugin) and the Methodist Central Hall. Birmingham was incorporated as a borough in 1838, and was created a city in 1889; it is governed by a Lord Mayor and City Council of 39 Aldermen and 127 Councillors. The generally accepted derivation of "Birmingham" is the ham or dwelling-place of the *ing* or the family of *Beorma* presumed to have been a Saxon. Between the 11th and 16th centuries the de Berminghams were Lords of the Manor.

The Lord Mayor (1969-70), N. Bosworth. Recorder, Michael Victor Argyle, M.C., Q.C. (1965). *Sitpendary Magistrate*, J. F. Milward (1951). *Town Clerk*, T. H. Parkinson (1960). *Clerk of the Peace*, G. M. Butts.

### BRADFORD

**BRADFORD** (Yorkshire, West Riding), 192 miles N.N.W. of London and 8 miles W. of Leeds, is a centre of the woollen and worsted trade. The municipal area is 25,504 acres (about 40 square

miles), with a population (estimated, 1968) of 294,440.

The principal textile industries are worsteds, woollens, silks and cottons, and there are also important engineering and iron works and quarries of freestone.

The chief public buildings, in addition to the 15th century Cathedral (formerly the Parish Church) and Bolling Hall (14th century), are the City Hall (1873), the tower of which contains a clock with dials, chimes and a carillon, Cartwright Hall (1904) commemorating the inventor of the power loom, the Windsor Baths and the Queen's Hall (1905), Grammar School (Charter 1662), St. George's Hall (Concert Hall, 1853), Technical College (1882), the Mechanics' Institute (1832), Wool Exchange (1867), Kirkgate Market Hall (1872), Britannia House (1933) and Bradford University.

The Saxon township was created a parliamentary borough in 1832, a borough in 1847, a county borough in 1889, and a city in 1897. The title of Lord Mayor was conferred on the Chief Magistrate in 1907. The Council consists of a Lord Mayor, 19 Aldermen and 57 Councillors.

*The Lord Mayor* (1969-70), E. Newby, O.B.E.  
*Recorder*, Cyril Douglas Chapman, Q.C. (1969).  
*Town Clerk*, G. C. Moore (1969).  
*Clerk of the Peace*, W. K. Scott (1966).

### BRISTOL

BRISTOL, situated on the borders of Gloucestershire and Somerset, is a City and County of itself, and is 119 miles W. of London. The present municipal area is 27,068 acres, with a population (estimated, 1968), of 427,780.

Among the various industries are aircraft and aero-engine construction, general and nuclear engineering, boot and shoe manufacture, chocolate and cocoa, tobacco, pottery, paper bags, cardboard and allied products, printing, chemical industry and ship-building and repairing. Bristol is noted for its maritime history and the docks within the Port are the City Docks, 6 miles from the entrance to the river Avon; the Royal Edward and Avonmouth Docks, at the mouth of the river; and the Portishead Dock, to the west of the river entrance. The principal imports are grain, flour and other cereal products, cocoa, tea, coffee, molasses, feeding stuffs, livestock, bananas and other fruit, provisions, frozen meat, sugar, metals, ores, phosphates, oil-seeds, paper, petroleum and chemicals, fertilizers, sugar, timber, tobacco, wines and spirits, wood pulp and general merchandise, and the chief exports are metals and machinery, chemicals, strontia, unmanufactured clay, motor vehicles and parts, coke, carbon black, petroleum, cider and perry, cocoa waste, electrical apparatus, tea, wines and spirits and manufactured goods. Bristol Airport, at Lulsgate, 7 miles from the City Centre, was opened in May, 1957, and is owned by the City Corporation.

The chief buildings, in addition to the 12th century Cathedral (with later additions), with Norman Chapter House and gateway, the 14th century Church of St. Mary, Redcliffe (described by Queen Elizabeth I as "the fairest, goodliest and most famous parish church in England"), and Wesley's Chapel, Broadmead, are the Merchant Venturers' Almshouses, the Council House (opened by H.M. the Queen in April, 1956), Guildhall, Exchange (erected from the designs of John Wood in 1743), City Museum and Art Gallery, Central Library, Cabot Tower, the University and Clifton College, Red Lodge (Tudor), Georgian House, and Blaise Castle and Mansion with Folk Museum. The *Clifton Suspension Bridge*, with a span of 702 feet over the Avon, was projected by Brunel in 1836

but was not completed until 1864. The beautiful *Clifton Down* adjoins *Durdham Down* (making a total of 442 acres), with *Leigh Woods* and *Nightingale Valley* on the opposite side of the river; *Ashton Court Estate* (840 acres) was acquired by Bristol Corporation in Jan., 1960.

Bristol was a Royal Borough before the Norman Conquest. In 1373 it received from Edward III a charter granting it county status and in 1899 its Mayor became a Lord Mayor. The Corporation includes 28 Aldermen and 84 Councillors. The earliest forms of the name are *Brigstowe* and *Bristow*.

*The Lord Mayor* (1969-70), H. W. M. Willcox.  
*Sheriff* (1969-70), J. N. Chivers, M.B.E.  
*Recorder*, Sir Thomas Molony, Q.C. (1964).  
*Town Clerk*, W. J. Hutchinson.  
*Clerk of the Peace*, T. D. Corpe, O.B.E.

### CAMBRIDGE

CAMBRIDGE, a settlement far older than its ancient University, lies on the Cam or Granta, 51 miles north of London and 65 miles south-west of Norwich. It has an area of 10,060 acres and a population (estimated, 1968) of 100,470.

The city is a parliamentary and quarter sessions borough, county town and regional headquarters. Its industries, which include radio and electronics, flour milling, cement making and the manufacture of scientific instruments, are extensive but nowhere obtrusive. Among its open spaces are Jesus Green, Sheep's Green, Coe Fen, Parker's Piece, Christ's Pieces, the University Botanic Garden, and the Backs, or lawns and gardens through which the Cam winds behind the principal line of college buildings. East of the Cam, King's Parade, upon which stand Great St. Mary's Church, Gibbs' Senate House and King's College Chapel with Wilkins' screen, joins Trumpington Street to form one of the most beautiful thoroughfares in Europe.

University and College buildings provide the outstanding features of Cambridge architecture but several churches (especially St. Benet's, the oldest building in the City, and St. Sepulchre's, the Round Church) also make notable contributions. The modern Guildhall (1939) stands on a site of which at least part has held municipal buildings since 1224.

The City Council consists of a Mayor, 14 Aldermen and 42 Councillors. Four of the Councillors are elected by the Colleges and Halls and two by Grace of the Senate of the University. Two of the Aldermen are elected by the Council from the University and College representatives.  
*Mayor* (1969-70), G. Dean.  
*Recorder*, William Hugh Griffiths, M.C., Q.C. (1964).  
*Town Clerk*, J. W. Elven (1966).  
*Clerk of the Peace*, C. H. Parker.

### CANTERBURY

CANTERBURY, the Metropolitan City of the Anglican Communion, has an unbroken history going back to prehistoric times. It was the Roman Durovernum and the Saxon Cantwaraburg (stronghold of the men of Kent). Here in 597 St. Augustine began the conversion of the English race to Christianity, when Ethelbert, King of Kent, was baptized. In 1170 the rivalry of Church and State culminated in the murder in Canterbury Cathedral, by Henry II's knights, of Archbishop Thomas Becket, whose shrine became a great centre of pilgrimage as described by Chaucer in his *Canterbury Tales*. 800th anniversary celebrations of this event were planned for 1970. After the Reformation pilgrimages ceased, but the prosperity of the City was strengthened by an influx of Huguenot refugees, who introduced weaving. In the first Elizabethan era Christopher Marlowe, the

poetic genius and precursor of Shakespeare, was born and reared in Canterbury, and there are literary associations also with Defoe, Dickens and Barham, author of the *Ingoldsby Legends*, and Somerset Maugham.

Air attacks in the last war caused severe damage, but enabled part of the Roman street plan to be discovered. In the rebuilding a great effort was made to harmonize modern architecture with the ancient setting with the result that Canterbury now possesses ■ most attractive and prosperous shopping centre.

The Cathedral, with its glorious architecture ranging from the eleventh to the fifteenth centuries, is world-famous. Modern pilgrims are attracted particularly to the Martyrdom, the Black Prince's Tomb and other historic monuments, the Warriors' Chapel and the many examples of mediæval stained glass.

Of the Benedictine St. Augustine's Abbey, burial place of the Jutish Kings of Kent (whose capital Canterbury was) only extensive ruins remain. St. Martin's Church, on the eastern outskirts of the City, is stated by Bede to have been the place of worship of Queen Bertha, the Christian wife of King Ethelbert, before the advent of St. Augustine.

The mediæval City Walls are built on Roman foundations and the fourteenth century West Gate is ■ of the finest buildings of its kind in the country.

The University of Kent at Canterbury, which admitted its first students in September, 1965, had 1,899 students in 1969-70.

The city is a county borough and county of itself, with ■ of 4,810 acres and a population (estimated, 1968) of 32,790. Before the institution of the Mayoralty in 1448 it was governed by bailiffs and earlier still by prefects or provosts.

Mayor (1969-70), H. J. Buckworth.  
Recorder, Francis Brooks Purchas, Q.C. (1969).  
Sheriff (1969-70), B. A. Porter.  
Town Clerk and Clerk of the Peace, J. Boyle.

### COVENTRY

COVENTRY (Warwickshire) is a city and ■ county borough, 92 miles N.W. of London, and an important industrial centre. It has ■ population (Registrar-General's estimate, 1968) of 335,410.

Coventry owes its real beginnings to Leofric, Earl of Mercia and his wife Godiva in 1043, when they founded ■ priory. It became one of the richest mediæval towns, receiving its Charter of Incorporation in 1345. The beautiful guildhall of St. Mary dates from about this time, three of its churches date from the 14th and 15th centuries. Sixteenth century almshouses may still be seen. Coventry's first cathedral was destroyed at the Reformation, its second in the 1940 blitz (its walls remain) and the great new cathedral designed by Sir Basil Spence, consecrated in 1962, now draws innumerable visitors.

Recent public buildings include the Art Gallery and Museum, College of Technology, modern Police Headquarters and ■ £1,000,000 Central Baths. The University of Warwick on the city outskirts admitted its first undergraduates in autumn 1965.

Coventry returns three M.P.'s. The City Council own the water and transport undertakings, airport, markets, restaurants and a civic theatre. It is governed by a Lord Mayor and a Council of 72. Coventry produces cars, agricultural machinery, machine tools (the world's largest machine tool organization), radio and television, telecommunications, telephones, man-made fibres.

Lord Mayor (1969-70), W. F. Burdett.

Recorder, James Ross, Q.C. (1968).  
Town Clerk, Sir Charles Barratt.

### KINGSTON UPON HULL

HULL (officially "Kingston upon Hull") is situated in the East Riding of Yorkshire, at the junction of the Hull with the Humber, 23 miles from the North Sea and 205 miles N. of London. The municipal area is 17,537 acres, with ■ population (estimated, 1968) of 294,720.

Hull is one of the great seaports of the United Kingdom. It has docks covering a water area of ■ acres, well equipped for the rapid handling of cargoes of every kind, and its many industries include oil-extracting, saw-milling, flour-milling, engineering and chemical industries. It also claims to be the premier distant-water fishing port.

The City, restored after very heavy air raid damage during World War II, is well laid out with fine thoroughfares. It has good office and administrative buildings, its municipal centre being the Guildhall, its educational centre the University of Hull and its religious centre the Parish Church of the Holy Trinity, 272 feet in length.

Kingston upon Hull (anciently known as *Wyke*) was so named by Edward I, who granted the first of its Charter privileges in 1299. Later privileges included the creation of the office of Mayor (1331); Charter of Incorporation—the creation of the county of the town, with the power, annually exercised, to elect a Sheriff (1440); county area extended (1447); power given to elect a High Steward (1598); City status accorded (1897) and the office of Mayor raised to the dignity of Lord Mayor (1914). The Lord Mayor presides over a Council of 21 Aldermen and 63 Councillors, representing the 21 wards of the City.

The Lord Mayor (1969-70), Mrs. M. Heath, M.B.E.  
Recorder, J. F. S. Cobb, Q.C. (1969).  
Sheriff (1969-70), J. C. M. Otten.  
Stipendiary Magistrate, D. N. O'Sullivan (1952).  
Town Clerk and Clerk of the Peace, J. H. W. Glen.

### LEEDS

LEEDS (Yorkshire, West Riding) is a junction for road, rail and canal services and an important commercial centre, situated in the lower Aire Valley, 195 miles by road N.N.W. of London.

Leeds has a wide variety of manufacturing industries, notably cloth and ready-made clothing, heavy and light engineering, leather and chemical products.

The municipal area is 40,619 acres, the population (estimated, 1968), 506,080.

The principal buildings are the Civic Hall (1933), the Town Hall (1858), the Municipal Buildings and Art Gallery (1884), the Corn Exchange (1863) and the University. The Parish Church (St. Peter's) was rebuilt in 1841; the 17th century St. John's Church has ■ fine interior with ■ famous English Renaissance screen; the last remaining 18th century church is Holy Trinity, Boar Lane (1727). Kirkstall Abbey (about 3 miles from the centre of the city), founded by Henry de Lacy in 1152, is one of the most complete examples of Cistercian houses now remaining. Temple Newsam, birthplace of Lord Darnley, was acquired by the Corporation in 1922. The present house, a stately building in red brick, was largely re-built by Sir Arthur Ingram in about 1620. Adel Church, about 5 miles from the centre of the city, is ■ fine Norman structure.

Leeds was first incorporated by Charles I in 1626, made ■ county borough in 1889, and created a city in 1893. The Lord Mayor presides over a Council of 30 Aldermen and 90 Councillors. The earliest forms of the name are *Loidis* or *Ledes*, the origin of which is obscure.

*The Lord Mayor* (1969-70), A. R. Bretherick.  
*Recorder*, Rudolph Lyons, Q.C. (1965).  
*Stipendiary Magistrate*, J. H. E. Randolph (1965).  
*Town Clerk*, N. C. Haslegrave (1964).  
*Clerk of the Peace*, T. A. Whittington (1952).

### LEICESTER

LEICESTER is situated geographically in the centre of England, 100 miles north of London. The City dates back to pre-Roman times and was one of the five Danish Burhs. In 1589 Queen Elizabeth I granted a Charter to the City and the ancient title was confirmed by Letters Patent in 1919. An Assize Court was established at Leicester Castle at the time of Edward I and the Castle is still so used. The title of Lord Mayor was conferred upon the Chief Magistrate in 1928. Leicester has an area of 18,141 acres and a population, estimated, June, 1968, of 280,340.

The principal industries of the city are hosiery, boots and shoes, and light engineering. The growth of Leicester as a hosiery centre increased rapidly from the introduction there of the first stocking frame in 1670; in 1833 there were 14,000 knitting frames in the city, which to-day has some of the largest hosiery factories in the world. Hosiery produced includes stockings and every kind of woollen and cotton underwear, outerwear, fabrics and gloves, much of which is exported. Leicester is also a centre for the ancillary industries.

The boot and shoe industry specializes in ladies' and children's shoes and sports footwear. It is the centre for wholesaling and distribution and, as in the case of hosiery, the boot and shoe industry has attracted to Leicester many of the ancillary trades. The production of boot and shoe manufacturing machinery and plant is carried out on a very large scale.

Engineering, developed partly for the supply of machinery to the hosiery and boot and shoe industries, has become one of the foremost industries in the city. Printing and the manufacture of motor tyres and cellulose goods are also carried on.

The principal buildings in the city are the Town Hall; the University; Colleges of Art and Technology; De Montfort Hall, one of the finest concert halls in the provinces, with accommodation for over 3,000 persons, and the Museum and Art Gallery. The ancient Churches of St. Martin (now Leicester Cathedral) St. Nicholas, St. Margaret, All Saints, St. Mary de Castro, and buildings such as the Guildhall, the 14th century Newark Gate, the Castle and the Jewry Wall Roman site still exist. Leicester has a large number of parks and open spaces.

*The Lord Mayor* (1969-70), E. Marston.  
*Recorder*, Henry Albert Skinner, Q.C. (1966).  
*Town Clerk*, R. R. Thornton.  
*Clerk of the Peace*, S. W. Whait.

### LIVERPOOL

LIVERPOOL (Lancashire), on the right bank of the river Mersey, 3 miles from the Irish Sea and 194 miles N.W. of London, is one of the greatest trading centres of the world and the principal port in the United Kingdom for the Atlantic trade. The municipal area is 27,819 acres (which includes 2,840 acres in the bed of the river Mersey) (about 43 square miles, excluding the bed of the river), with a population (1968 Registrar-General's estimate) of 688,010. Quays on both sides of the river are about 38 miles long, and the Gladstone Dock can accommodate the largest vessels afloat. Net tonnage of ships entering and leaving the port annually exceeds 62,000,000 tons. The main imports are petroleum, grain, ores, non-ferrous metals, sugar, wood, oil, fruit and cotton.

The Corporation owns large industrial estates at Speke, Kirkby and Aintree, on which many modern factories have been built. These three estates have provided work for some 65,000 people. In 1943 a lease for 99 years was taken of the Elizabethan mansion at *Speke Hall* at a nominal rent.

The principal buildings are the Anglican Cathedral, erected from the designs of Sir Giles Gilbert Scott and consecrated in 1924; when completed this will be the largest ecclesiastical building in England; the Metropolitan Cathedral of Christ the King, designed by Sir Frederick Gibberd and consecrated in 1967; St. George's Hall, erected 1838-1854, and regarded as one of the finest modern examples of classical architecture; the Town Hall, erected 1754 from the designs of Wood; the Walker Art Gallery; the University; the Royal Infirmary; the Municipal Offices; and the Philharmonic Hall.

Constructed between 1925 and 1934, the *Mersey Tunnel* connecting Liverpool and Birkenhead was opened to traffic on July 18, 1934, the total cost being estimated at £6,077,800. More than 17,000,000 vehicles pass through the Mersey Tunnel annually. Work has started on a second tunnel between Liverpool and Wallasey.

Liverpool was incorporated as a borough early in the 13th century and was created a city in 1880. The Corporation consists of a Lord Mayor and a City Council of 40 Aldermen and 120 Councillors.

*The Lord Mayor* (1969-70), S. Minion, O.B.E.  
*Recorder*, Ralph Kilner Brown, O.B.E., T.D., Q.C. (1967).

*Stipendiary Magistrate*, Leslie Mervyn Pugh (1965).  
*Presiding Judge, Court of Passage*, R. H. Forrest, Q.C. (1964).

*Town Clerk*, S. Holmes (1967).

### MANCHESTER

MANCHESTER (Lancashire) (the *Mancunium* of the Romans, who occupied it in A.D. 78) is 189 miles N.W. of London. The municipal area is 27,255 acres (about 43 square miles), the population (estimated, 1968), 602,790.

Manchester is a commercial rather than an industrial centre, the industries being largely in the neighbouring town. Within 25 miles radius, lives a population of 4,500,000 engaged in engineering, chemical, clothing, food processing and textile industries and in providing the packing, transport, banking, insurance and other distributive facilities for those industries. The city is connected with the sea by the Manchester Ship Canal, opened in 1894, 35½ miles long, and accommodating ships up to 15,000 tons. Manchester Airport handles approximately 1,500,000 passengers yearly.

The principal buildings are the Town Hall, erected in 1877 from the designs of Alfred Waterhouse, R.A., together with a large extension; the Royal Exchange, built in 1869 and enlarged in 1921; the Central Library (1934); the Art Gallery; Heaton Hall; the Gallery of English Costume; the 17th century Chetham Library; the Rylands Library (1809), which includes the Althorp collection; the University (Owens College); the University Institute of Science and Technology; the 15th-century Cathedral (formerly the parish church) and the Free Trade Hall. Manchester is one of the principal centres of political, literary and scientific advancement, and the Hallé Concerts have placed the city in the forefront of musical development. The *Guardian* newspaper exercises a widespread influence throughout the English-speaking world.

The town received a charter of incorporation in 1838 and was created a city in 1853. The City Council consists of 38 Aldermen and 114 Councillors.

*The Lord Mayor* (1969-70), N. G. Westbrook.  
*Recorder*, William Gerard Morris (1967).  
*Stipendiary Magistrate*, J. Bamber (1965).  
*Town Clerk*, G. C. Ogden, C.B.E. (1966).

#### NEWCASTLE UPON TYNE

NEWCASTLE UPON TYNE (Northumberland) ■ City and County on the north bank of the River Tyne, ■ miles from the North Sea and 272 miles N. of London, has ■ of 11,401 acres and ■ population (estimated 1968) of 244,880. A Cathedral and University City, it is the administrative, commercial and cultural centre for north-east England and the principal port. It is an important manufacturing centre with ■ wide variety of industries.

The principal buildings include the Castle Keep (12th century), Black Gate (13th century), West Walls (13th century), St. Nicholas's Cathedral (15th century, fine lantern tower), St. Andrew's Church (12th-14th century), St. John's (14th-15th century), All Saints (Georgian masterpiece), St. Mary's Roman Catholic Cathedral (1844), Trinity House (17th century), Sandhill (16th century houses), Guildhall (Georgian), Grey Street (1834-39), Central Station (1846-50), Central Library (1882, houses Bewick Collection), Laing Art Gallery (1904), University of Newcastle Physics Building (1962), Civic Centre (1963). Open spaces include the Town Moor (927 acres) and Jesmond Dene. Seven bridges span the Tyne ■ Newcastle.

The City derives its name from the "new castle" (1080) erected as a defence against the Scots. In 1400 it ■ made a County, and in 1882 ■ City. The City Corporation comprises a Lord Mayor (1906), ■ Aldermen and 60 Councillors. *Lord Mayor* (1969-70), W. R. S. Forsyth.

*Town Clerk* (vacant).

#### NORWICH

NORWICH (Norfolk) is an ancient City and County 110 miles N.E. of London. It grew from ■ early Anglo-Saxon settlement near the confluence of the Rivers Yare and Wensum, and now serves as provincial capital for the predominantly agricultural region of East Anglia. The name is thought to relate to the most northerly of ■ group of Anglo-Saxon villages or "wics". The present City comprises an area of 9,655 acres, with ■ population (estimated, 1968) of 118,940.

Norwich serves its surrounding area ■ market town and commercial centre, banking and insurance being prominent among the City's businesses. Continuously from the fourteenth century, however (when Flemish immigrants helped to establish Norwich as the centre of the woollen industry until the Industrial Revolution) it has combined industry with commerce, and manufactures of ■ wide variety are now produced in the City. The biggest single industry is the manufacture of shoes and other principal trades are engineering, printing, and the production of chemicals, clothing, confectionery and other foodstuffs. Norwich is accessible to seagoing vessels by ■ of the River Yare, entered at Great Yarmouth, 20 miles to the east.

Among many historic buildings ■ the Cathedral (completed in the twelfth century and surmounted by a fifteenth century spire 315 feet in height), the Keep of the Norman Castle (now serving ■ ■ ■) and also housing the Colman Collection of works by the Norwich School of painters), the fifteenth century flint-walled Guildhall, some thirty mediaeval parish churches, St. Andrew's and Blackfriars' Halls, the Tudor houses preserved in Elm Hill and the Georgian Assembly House. The administrative centre of the City is the City Hall, built in 1938. A ■ central library, opened ■

1963, is adjacent to the City Hall. The University of East Anglia has been established in Norwich and received its first students in 1963. The buildings of the University occupy a spacious site at Earlham on the City's western boundary.

The City's first known Charter was granted in 1158 by Henry II and its privileges and form of self government were prescribed successively by later Charters until the enactment of the Municipal Corporations Act, 1835. The City Council consists of the Lord Mayor, 16 Aldermen and 48 Councillors.

*The Lord Mayor* (1969-70), Mrs. J. R. Griffiths.  
*Sheriff* (1969-70), G. R. Moyes.  
*Recorder*, R. M. O. Havers, Q.C. (1968).  
*Judge of the Guildhall Court of Record*, R. Ives.  
*Town Clerk*, G. G. Tilsley.  
*Clerk of the Peace*, B. O. L. Prior, T.D.

#### NOTTINGHAM

NOTTINGHAM (Nottinghamshire) stands on the River Trent, 124 miles N.N.W. of London in one of the most valuable coalfields of the country with excellent railway, water (being connected by canal with the Atlantic and the North Sea), and road facilities. The municipal area is 18,364 acres and population (estimated, 1968), 305,050.

The principal industries are hosiery, lace, bleaching, dyeing and spinning, tanning, engineering and cycle works, brewing, the manufacture of tobacco, chemicals, furniture, typewriters and mechanical products.

The chief buildings are the 17th century Nottingham Castle (restored in 1878, and now the City Museum and Gallery of Art), Wollaton Hall (1580-88) owned by the Corporation and now a Natural History Museum, St. Mary's, St. Peter's, and St. Nicholas's Churches, the Roman Catholic Cathedral (Pugin, 1842-4), the Council House (1929), the Guildhall and Court House (1888), Shire Hall, Albert Hall, the University and Newstead Abbey, home of Lord Byron.

*Snotingham* or *Notingeham*, "the village or home of the sons of Snot" (the Wise), is the Anglo-Saxon name for the Celtic *Tuigogobauc*, "Cave Homes." The city possesses ■ Charter of Henry II, and was created a city in 1897. The Corporation consists of 18 Aldermen and 54 Councillors (including the Lord Mayor).

*The Lord Mayor* (1969-70), W. G. E. Dyer, C.B.E.  
*Recorder*, M. A. L. Cripps, D.S.O., T.D., Q.C. (1961).  
*Town Clerk*, P. M. Vine.  
*Clerk of the Peace*, G. A. Wharton, C.B.E., T.D.

#### OXFORD

OXFORD is a University City, ■ important industrial centre, and a county, assize, and market town.

It has been a City from time immemorial and a County Borough since 1889. It has ■ area of 8,785 acres and a population (estimated, 1968) of 110,050. Oxford is ■ parliamentary constituency returning one member and is governed by a Council of 68 members of whom 8 are, by special enactment, elected by the University.

Industry played ■ minor part in Oxford until the motor industry was established in 1912. To-day this and the adjoining pressed steel works employ about 15,000.

It is for its architecture that Oxford is of most interest to the visitor, its oldest specimens being the reputed Saxon tower of St. Michael's church, the remains of the Norman castle and city walls and the Norman church at Iffley. It is chiefly famous however, for its Gothic buildings, such ■ the Divinity Schools, the Old Library at Merton College, William of Wykeham's New College, Magdalen College and Christ Church and ■ ■ ■

other college buildings. Later centuries are not represented by so many examples, but mention may be made of the exquisite Laudian quadrangle at St. John's College, the renaissance Sheldonian Theatre by Wren, Trinity College chapel, and All Saints Church; Hawksmoor's mock-Gothic at All Souls College, and the superb example of eighteenth century architecture afforded by Queen's College. In addition to individual buildings, High Street and Radcliffe Square, just off it, both form architectural compositions of great beauty. Most of the Colleges have gardens, those of Magdalen, New College, St. John's (designed by "Capability" Brown) and Worcester being the largest.

The visitor will always find some of the college chapels, halls and gardens open for public inspection between 10 a.m. and 5 p.m.

*Lord Mayor* (1969-70), P. D. Bromley.

*Recorder*, E. B. Gibbens, Q.C. (1966).

*Town Clerk*, A. T. Brown (1966).

*Clerk of the Peace*, E. G. Shelton.

### PLYMOUTH

PLYMOUTH is situated on the borders of Devon and Cornwall at the confluence of the Rivers Tamar and Plym, 210 miles from London, with an area of 19,936 acres and a population (estimated, 1968) of 246,290.

Following extensive war damage, the city centre comprising a large shopping centre, municipal offices, law courts and public buildings, has been re-built. The main employment is provided by H.M. Dockyard. Many new industrial firms have become established in the post war period. In conjunction with the Cornwall County Council, the Tamar Bridge was constructed linking the City by road with Cornwall.

Parliament in 1439 passed the Plymouth Act of Incorporation and Plymouth is therefore the first creation of a Municipal Corporation in England by statute. The Lord Mayor presides over a Council consisting of 22 Aldermen and 66 Councillors.

*The Lord Mayor* (1969-70), G. E. H. Creber.

*Recorder*, E. S. Fay, Q.C. (1964).

*Town Clerk*, S. Lloyd Jones.

### PORTSMOUTH

PORTSMOUTH, a city, county and parliamentary borough, with an area of 14½ sq. miles, occupies Portsea Island, Hampshire, with boundaries extending to the mainland. Portsmouth is 70 miles by road from London (90 minutes by electric train). It has a population (estimated, 1968) of 218,790.

Industries include the Royal Dockyard, the principal centre of employment with a labour force exceeding 20,000, which with the naval station, occupies the south-western part of the Island. The holiday and tourist industry, centred on the coast at the resort area of Southsea, caters annually for 150,000 visitors and 800,000 day trippers. Other industries are shipbuilding and maintenance, aircraft engineering and the manufacture of corsets, cardboard boxes, confectionery, baby products, refrigerators and brushes. The commercial port (the Camber) and the airport are owned and run by the City Corporation.

Among many tourist attractions are Lord Nelson's flagship, H.M.S. *Victory*; Charles Dickens' birthplace at 393 Commercial Road, now a Dickens museum; Southsea Castle, now a museum of military history, and the Round Tower and Point Battery, which for hundreds of years have guarded the entrance to Portsmouth Harbour. Southsea is particularly noted for its panoramic views of the busy shipping lanes of the Solent and Spithead.

*Lord Mayor* (1969-70), W. J. Evans.

*Recorder* (vacant).

*Town Clerk*, J. R. Haslegrave, O.B.E., T.D.

### SHEFFIELD

SHEFFIELD (Yorkshire, West Riding), the centre of the special steel and cutlery trades, is situated 159 miles N.N.W. of London, at the junction of the Sheaf, Porter, Rivelin and Loxley with the river Don. The city is set in a beautiful countryside, its residential suburbs penetrating the Peak District of Derbyshire.

Sheffield has an area of 45,363 acres (nearly 71 square miles), including 3,666 acres of publicly owned parks and woodland, and a population (estimated, 1968) of 531,800. Though its cutlery, silverware and plate have long been famous, Sheffield has other and now more important industries—special and alloy steels, engineering and tools in great variety. Titanium is one of the city's latest products. Refractory materials, silver refining, brush making, the manufacture of confectionery, canning, typefounding and the making of snuff are other contrasting industries in Sheffield. Research in glass, metallurgy, radiotherapy and other fields is carried on.

The parish church of St. Peter and St. Paul, founded in the twelfth century, became the Cathedral Church of the Diocese of Sheffield in 1914. Parts of the present building date from about 1435. The principal modern buildings are the Town Hall (1897 and 1923), the Cutlery's Hall (1832), the University (1905 and recent extensions, including 19-storey Arts Tower), City Hall (1932), Central Library and Graves Art Gallery (1934), City Museum (1937), Castle Market Building (1959) and the rebuilt Mappin Art Gallery.

Sheffield was created a borough on Aug. 24, 1843, a county borough in 1888 and a city in 1893, the Mayor becoming Lord Mayor in 1897. It was made an Assize Town in 1955. The Corporation consists of 27 Aldermen and 81 Councillors.

*The Lord Mayor* (1969-70), D. J. O'Neil.

*Recorder*, H. C. Scott Q.C. (1969).

*Master Cutler* (1969-70), (346th Master of the Company of Cutlers in Hallamshire), Hon. M. R.

Balfour.

*Town Clerk*, D. B. Harrison.

*Clerk of the Peace*, R. H. Boyers, D.F.C.

### SOUTHAMPTON

SOUTHAMPTON is Britain's premier passenger port. As the majority of ocean travellers to this country arrive at Southampton, the City is recognized as "The Gateway to Britain". The first Charter was granted by Henry II and Southampton was created a county of itself in 1447. In February, 1964, Her Majesty the Queen granted city status by Royal Charter. The City has an area of 12,071 acres excluding tidal waters and a population (estimated 1968) of 210,050. It is a parliamentary and quarter sessions borough. The University of Southampton (1952) had 4,131 students in 1968-69.

The Civic Centre, completed in 1939, comprises four blocks, municipal offices and law courts, guildhall, library and art galleries. The tower, which is a notable land-mark for shipping using Southampton Water and which can be seen for many miles from vantage points in the surrounding countryside, incorporates a clock and bells. Public open spaces total over 1,000 acres in extent and comprise 8 per cent. of the city's area. The Sports Centre is 268 acres in extent. The Common covers an area of 327 acres in the central district of the city and is mostly natural parkland.

The City Council consists of 18 aldermen and 54 councillors.

*Mayor* (1969-70), Mrs. H. K. Johnson.

Recorder, Raymond Stock, Q.C. (1966).  
Town Clerk, G. Guest (1968).

### STOKE-ON-TRENT

STOKE-ON-TRENT (Staffordshire), familiarly known as The Potteries, stands on the River Trent 157 miles N. of London. The present municipal area is 22,916 acres (36 square miles), with a population (estimated, 1968) of 273,040. The city is the main centre of employment for the half-million population of North Staffordshire. It is the largest clayware producer in the world (chinaware, earthenware, sanitary goods, refractories, bricks and tiles) and has a large coal mining output drawn from one of the richest coalfields in Western Europe, with proved reserves exceeding one thousand million tons. The city has iron works, steelworks, foundries, chemical works, engineering plants, rubber works, paper mills, and a very wide range of manufactures including textiles, furniture, electrical goods, vehicle components, toys, machinery, plastic materials, metal stampings, glass and glazes.

Extensive reconstruction has been carried on since 1930. A unique feature of the city is that it has six "centres" and more shops and public halls than other areas of comparable size. The city was formed by the federation in 1910 of the separate municipal authorities of Tunstall, Burslem, Hanley, Stoke-upon-Trent, Fenton, and Longton, all of which are now combined in the present City of Stoke-on-Trent. Each of the six areas still has its own public buildings and amenities, but all civic administration is controlled centrally by the city council.

The city has 72 councillors and 24 aldermen, and elects 3 Members of Parliament.

*The Lord Mayor (1969-70), A. Moran.*

*Recorder, G. K. Mynett, Q.C. (1962).*

*Town Clerk, L. K. Robinson.*

### STRATFORD UPON AVON

STRATFORD UPON AVON (a municipal borough in Warwickshire, on the banks of the River Avon) had a population of 16,290 at the Census of 1961; estimated 1966, 18,250. As the birthplace of Shakespeare the borough is visited annually by travellers from all parts.

*Shakespeare's Birthplace.* Half timbered house preserved by Shakespeare Birthplace Trust. Contains period furniture and a collection of rare books, mss. and objects of Shakespearian interest. Garden contains the new Shakespeare centre. *King Edward VI School.* Founded by the medieval Guild of the Holy Cross of Stratford, and re-endowed by King Edward VI. Here Shakespeare acquired his "small Latin and less Greek." *Anne Hathaway's Cottage.* At Shottery, one mile from the centre of the town, is the thatched farmstead, the early home of Shakespeare's wife, Anne Hathaway. A fine specimen of domestic architecture. *Shakespeare Memorial.* Mainly due to munificence of C. E. Flower (1830-92) and his wife. Group comprises *Library*, with 10,000 volumes of Shakespeare editions and dramatic literature. *Gallery* of pictures. *Gardens.* *Royal Shakespeare Theatre* burnt down in 1926, rebuilt 1932, with 1,300 seats, chiefly by American generosity. The Shakespeare Festival takes place from spring to autumn each year at this theatre.  
*Mayor (1969-70), P. M. Ray.*  
*Town Clerk, T. Cox.*

### WINCHESTER

WINCHESTER, the ancient capital of England, is situated on the River Itchen 65 miles S.W. of London and 12 miles north of Southampton. The City has an area of 3,888 acres and a population

(estimated, 1968) of 30,950; it is a parliamentary and quarter session borough, an assize town and the county town of Hampshire.

Occupation of the city can be traced back to 1800 B.C. but organized settlements appeared later. Saxon history is somewhat obscure but Winchester became the capital of Wessex and in the 9th century capital of all England. Alfred the Great made Winchester a centre of education. William the Conqueror marched straight from his victory at Hastings to Winchester where he established a new Palace, his Treasury and his capital. Here he compiled Domesday Book as the returns came in from the shires. Winchester remained the capital for many years, but its decline as a capital began with the civil war between Stephen and Matilda; and by 1338 it had lost its favourable position.

Winchester is rich in architecture of all types but the Cathedral takes first place. The longest Gothic cathedral in the world, it was built in 1099-1093 and exhibits splendid examples of Norman, Early English and Perpendicular styles. Winchester College, founded in 1393, is one of the most famous public schools, the original building (of 1393) remaining almost unaltered.

It is not certain when Winchester was first designated a city but it is probable that the term was applied between 650 and 700. Winchester is one of the oldest corporations in the country; the first written record of a Mayor occurs in 1200. *Mayor (1969-70), S. E. Spicer.* [(1962).

*Recorder, D. P. Croom-Johnson, D.S.C., V.R.D., Q.C.*  
*Town Clerk and Clerk of the Peace, R. H. McCall, O.B.E.*

### YORK

YORK is a county borough, an archiepiscopal seat, the county town of Yorkshire and a county in its own right, standing at the junction of the three Ridings. York has an area of 7,295 acres, and a population (estimated, 1968) of 108,600. The city returns one member to Parliament and is governed by a Lord Mayor, 13 Aldermen and 39 Councillors.

The recorded history of York dates from A.D. 71, when the Roman Ninth Legion established a base which later became the fortress of Eboracum. It is mentioned in the Domesday Book. By the 14th century the city had become prosperous and was used as the chief base against the Scots. It became a great mercantile centre, chiefly owing to its control of the wool trade, but under the Tudors its fortunes declined, though Henry VIII made it the headquarters of the Council of the North, so preserving its status as the Northern capital.

With its development as a railway centre in the 19th century the commercial life of York expanded and it is now a flourishing modern city. The principal industries are the manufacture of chocolate, railway coaches, scientific instruments, glass containers and sugar. The city is also a centre for tourists.

It is rich in examples of architecture of all periods, but its finest features are the Minster with its stained glass, and the medieval city walls and gateways, guildhalls and churches. Other notable examples of domestic architecture are the Georgian mansions of The Mount, Mickle-gate and Bootham. Its museums are world-famous, and its Art Gallery contains an important collection of paintings from the 14th to the 20th century. The University of York was opened in 1963 at Heslington on the City's eastern boundary.

## PATRON SAINTS

*St. George, Patron Saint of England.*—St. George is believed to have been born in Cappadocia, of Christian parents, in the latter part of the 3rd century and to have served with distinction as a soldier under the Emperor Diocletian, including a visit to England on a military mission. When the persecution of Christians was ordered, St. George sought a personal interview to remonstrate with the Emperor and after a profession of faith resigned his military commission. Arrest and torture followed and he was martyred at Nicomedia on April 23, 303, a day ordered to be kept in remembrance as a national festival by the Council of Oxford in 1222, although it was not until the reign of Edward III that he was made patron saint of England. His connection with a dragon seems to date from the close of the 6th century and to be due to the transfer of his remains from Nicomedia to Lydda, close to the scene of the legendary exploit of Perseus in rescuing Andromeda and slaying the sea monster, credit for which became attached to the Christian martyr.

*St. David, Patron Saint of Wales.*—St. David is believed to have been born near the beginning and to have died towards the end of the 6th century. St. David was an eloquent preacher and became Primate of South Wales while Bishop of Caerleon on Usk, but he afterwards moved the seat of the Primacy from Caerleon to Menevia, now St. David's.

At the request of Henry I he was canonized in the early part of the 12th century and became the tutelary saint of Wales, his annual festival being observed on March 1.

*St. Andrew, Patron Saint of Scotland.*—St. Andrew, one of the Christian Apostles and brother of Simon Peter was born at Bethsaida on the Lake of Galilee and lived at Capernaum. He preached the Gospel in Asia Minor and in Scythia along the shores of the Black Sea and became the patron saint of Russia. It is believed that he suffered crucifixion at Patras in Achaea, on a *crux decussata* (now known as St. Andrew's Cross) and that his relics were removed from Patras to Constantinople and thence to St. Andrews, probably in the 8th century, since which time he has been the patron saint of Scotland. The festival of St. Andrew is held on November 30, a church festival indicated in the calendar by red letters.

*St. Patrick, Patron Saint of Ireland.*—St. Patrick was born in England about 389 and was carried off to Ireland as a slave about sixteen years later, escaping to Gaul at the age of 22. He was ordained deacon at Auxerre and having been consecrated Bishop in 432 was despatched to Wicklow to reorganize the Christian communities in Ireland. He founded the see of Armagh and introduced Latin into Ireland as the language of the Church. He died in 461 and his festival is celebrated on March 17.

## THE PRINCIPALITY OF WALES AND MONMOUTHSHIRE

*Position and Extent.*—Wales and Monmouthshire occupy the extreme west of the central southern portion of the island of Great Britain, with a total area of 8,006 sq. miles (5,130,107 acres); they are bounded on the N. by the Irish Sea, on the S. by the Bristol Channel, on the E. by the English counties of Cheshire, Salop, and Hereford, and on the W. by St. George's Channel. Across the Menai Straits is the Welsh island-county of Anglesey or Môn (276 sq. miles), communication with which is facilitated by the Menai Suspension Bridge (1,000 ft. long), built by Telford in 1826 (freed from toll as from Jan. 1, 1941) and by the tubular railway bridge (1,100 ft. long) of the form—L.M. & S. Railway, built by Stephenson in 1850. Holyhead harbour, on Holy Isle (N.W. of Anglesey), provides accommodation for a fast steam packet service to Dun Laoghaire and Dublin (70 miles).

*Population.*—The population at the Census of 1961 was 2,641,000 (inclusive of Monmouthshire); Registrar-General's estimate (June 30, 1968), 2,720,000.

*Relief.*—Wales is mostly mountainous, the chief systems being those of North Wales (Snowdon 3,560 ft., Carnedd Llywelyn 3,484 ft., Carnedd Dafydd 3,426 ft.); Berwyn (Aran-mawddwy 2,970 ft.); Powys (Plinlimmon 2,468 ft., Drygan Fawr 2,115 ft., Radnor 2,163 ft.); and the Black Mountain, Brecknock Beacons and Black Forest ranges (Carmarthen Van 2,632 ft., Brecon Beacon 2,906 ft., Pen-y-gader fawr 2,660 ft.).

*Hydrography.*—The principal river of those rising in Wales is the Severn (see England), which flows from the slopes of Plinlimmon to the English border, dividing Montgomeryshire on its way. The Wye (130 miles) also rises in the slopes of Plinlimmon, and flows between Radnor and Brecon on its course to England. The Usk (56 miles) flows into the Bristol Channel, through Monmouthshire. The Dee (70 miles) rises in Bala lake and flows through the Vale of Llangollen, where an aqueduct (built by Telford in 1805) carries the Pontcysyllte branch of the Shropshire Union Canal across the valley. The estuary of the Dee is the navigable portion, 14 miles in length and about 5 miles in breadth, and the tide rushes in with dangerous speed over the "Sands of Dee." The Towy (68 miles), Teifi (50 miles), Taff (40 miles), Dovey (30 miles), Taf (25 miles), and Conway (24 miles), the last named broad and navigable, are wholly Welsh rivers.

The largest natural lake in Wales is Bala (Llyn Tegid) in Merionethshire, 4 miles long and about 1 mile wide; Lake Vymwy is an artificial reservoir, about the size of Bala, and forms the water supply of Liverpool, and Birmingham is supplied from a chain of reservoirs in the Elan and Claeuwen valleys.

*The Welsh Language.*—Statistics published on Sept. 11, 1962, show that only 656,000 persons (of three years and over) in Wales and Monmouthshire were able to speak Welsh at the time of the 1961 Census, compared with 715,000 at the 1951 Census. One per cent. of the population could speak Welsh only, compared with 4 per cent. in 1931. The proportion of people speaking Welsh fell from 28.9 per cent. in 1951 to 26 per cent. in 1961. As in 1951, the Western Counties, Anglesey, Caernarvon, Merioneth (75.9 per cent.), Cardigan and Carmarthen had the highest proportion of Welsh speakers.

*Flag.*—A red dragon on a green and white field (per fess argent and vert a dragon passant gules). The flag was augmented in 1953 by a royal badge on a shield encircled with a riband bearing the words *Ddraig Goch Ddyry Cychwyn* and imperially

crowned. Only the unaugmented flag is flown on Government offices in Wales and, where appropriate, in London. Both flags continue to be used elsewhere.

## EARLY HISTORY

*Celts and Romans.*—The earliest inhabitants of whom there is any record appear to have been subdued or exterminated by the Goidels (a people of Celtic race) in the Bronze Age, and a further invasion of Celtic Brythons and Belgae followed in the ensuing Iron Age. The Roman conquest of South Britain and Wales was for some time successfully opposed by Caratacus (Caractacus ■■■ Caradog), Chieftain of the Catuvelauni and ■■■ of Cunobelinus (Cymbeline) King of the Trinobantes. In A.D. 78 the conquest of Wales was completed under Julius Frontinus, and communications were opened up by the construction of military roads from Chester to Caerleon-on-Usk and Caerwent, and from Chester to Conway (and thence to Carmarthen and Neath). Christianity was introduced (during the Roman occupation) in the 4th century.

*The Anglo-Saxon Attacks.*—The Anglo-Saxon invaders of South Britain drove the Celtic Goidels and Brythons into the mountain fastnesses of Wales, and into Strathclyde (Cumberland and S.W. Scotland) and Cornwall, giving them the name of *Waelisc*, or Welsh (=Foreign). The West Saxons' victory of Deorham (577) isolated Wales from Cornwall and the battle of Chester (613) cut off communication with Strathclyde. In the 8th century the boundaries of the Welsh were further restricted by the annexations of Offa, King of Mercia, and counter-attacks were largely prevented by the construction of ■■■ artificial boundary from the Dee to the Wye (Offa's Dike). In the 9th century Rhodri Mawr united the country against further incursions of the Saxons by land and against the raids of Norse and Danish pirates by sea, but at his death his three provinces of Gwynedd (N.), Powys (Mid.) and Dehenbarth (S.) were divided among his three sons—Anarawd, Mervyn and Cadell—the son of the last named being Howel Dda, who codified the laws of the country, while Lewelyn ap Seissyllt (husband of the heiress of Gwynedd) again united the provinces and reigned as Prince from 1015 to 1022.

*The Norman Conquest.*—After the Norman conquest of England, William I. created Palatine counties along the Welsh frontier, and Robert Fitz-Hamon, the Norman Earl of Gloucester, raided South Wales and erected fortresses from the Wye to Milford Haven. Henry I. introduced Flemish settlers into South Wales, but after his death the Welsh rose under the leadership of Griffith ap Rhys and routed the Norman-Flemish forces at the fords of the Teifi (Cardigan) in 1136. From the early years of the 13th century the house of Gwynedd, in the north, gained an ascendancy over the whole of Wales, and Llywelyn ap Iorwerth was in constant strife with England for recognition as ■■■ independent sovereign. Llywelyn ap Gruffydd (grandson of Llywelyn ap Iorwerth), the last native prince, was killed in 1282 during hostilities between the Welsh and English. On Feb. 7, 1301, Edward of Caernarvon, son of Edward I., was created Prince of Wales.

The Welsh ■■■ a distinct nationality, with a language and literature of their own, and the national bardic festival (Eisteddfod), instituted by Prince Rhys ap Griffith in 1176, is annually maintained. These *Eisteddfodau* (sessions) form part of the *Gorsedd* (assembly), which is believed to date from the time of Prydian, a ruling prince in an age ■■■ centuries before ■■■ Christian ■■■

## CARDIFF

CARDIFF (Glamorgan), at the mouth of the rivers Taff (Caer Taff), Rhymney and Ely, was declared to be the capital of Wales on Dec. 20, 1955. The port of the South Wales coalfields, it has an area of 22,736 acres and a population (estimated 1968) of 287,460. Within the city there is a great variety of industry including iron and steel works, rolling mills and foundries, patent fuel works, engine wagon works, motor vehicle factories, flour mills, breweries, jam, vinegar and ice factories, enamel-ware and hollow-ware, paint works, furniture and bedding, clothing and footwear, sweets and confectionery, tobacco, electrical goods and appliances, food products and building materials.

The principal buildings are Cardiff Castle, built in the 11th century, Llandaff Cathedral, the National Museum of Wales, Public Library, the University College of South Wales and Monmouthshire, the Registry of the University of Wales, the Institute of Science and Technology, City Hall, Law Courts, Glamorgan County Hall, Offices of Government Departments, and "The Temple of Peace and Health." The city returns 3 members to Parliament.

Rt. Hon. Lord Mayor (1969-70), A. L. Hallinan.

Stipendiary Magistrate, J. C. Rutter (1966).

Recorder, Alun T. Davies, Q.C. (1969).

Town Clerk and Clerk of Peace, S. Tapper-Jones.

## SWANSEA

SWANSEA (in Welsh, Abertawe), a seaport of Glamorgan, is a County Borough, at the mouth of the River Tawe. The trade of the port includes coal, patent fuel, ores, and the import and export of oil. There is also a large ship-repairing industry. The municipal airport is situated at Fairwood Common, Gower, a few miles away from the town. The municipal area is 24,241 acres, with a population (estimated, 1968) of 171,240.

The principal buildings are the Norman Castle (rebuilt in 1330), the Royal Institution of South Wales, founded in 1835 (containing Museum and Library), the University College at Singleton and the Guildhall, containing Brangwyn panels. Swansea was chartered by the Earl of Warwick, circa 1158-1184, and further charters were granted by King John, Henry III., Edward II., Edward III., and James II., a from Cromwell and 1 Lord Marcher. The borough returns 2 members to Parliament.

Mayor (1969-70), D. F. Bevan.

Recorder, Phillip Wien, M.B.E., Q.C. (1969).

Town Clerk, I. J. Watkins.

## THE KINGDOM OF SCOTLAND

**Position and Extent.**—The Kingdom of Scotland occupies the northern portion of the main island of Great Britain and includes the Inner and Outer Hebrides, and the Orkney, Shetland, and many other islands. The Kingdom lies between  $60^{\circ} 51' 30''$  and  $54^{\circ} 38' N.$  latitude and between  $1^{\circ} 45' 32''$  and  $6^{\circ} 14' W.$  longitude, its southern neighbour being the Kingdom of England, with the Atlantic Ocean on the N. and W., and the North Sea on the E. The greatest length of the mainland (Cape Wrath to the Mull of Galloway) is 274 miles, and the greatest breadth (Buchan Ness to Applecross) is 154 miles. The total area of the Kingdom is 29,798 square miles (or 19,068,724 acres) exclusive of inland water, tidal water and foreshore. The population (1961 Census) was 5,178,490, an increase of 82,075 or 1.6 per cent. since the census of 1951; Registrar-General's estimate (June 30, 1968), 5,187,500. The average density of the population in 1961 was 174 persons per square mile, compared with 171 persons per sq. mile in 1951.

**Land's End to John o' Groats.**—The customary measurement of the Island of Great Britain is from the site of John o' Groats's house, near Duncansby Head, Caithness (at the N.E. extremity of the island) to Land's End, Cornwall (at the S.W. extremity), a total distance of 603 miles in a straight line and (approximately) 900 by road. But the site of the house of John de Groot (with its 8 doors and octagonal table, to solve the question of precedence between John and his 7 brothers) is about 11 miles S.W. of Duncansby Head, while Dunnet Head (also in Caithness) extends farther N. than Duncansby. John de Groot is believed to have obtained permission to settle in Caithness (from the Netherlands) in the reign of James IV (1488-1513).

**Relief.**—There are three natural orographic divisions of Scotland. The *Southern Uplands* have their highest points in Merrick (2,764 feet), Rinn of Kells (2,668 feet), and Cairnsmuir of Carsphairn (2,612 feet), in Kirkcudbright; Hartfell (2,651 feet) in Dumfries; and Broad Law (2,754 feet) in Peebles. The *Central Lowlands* include the valleys of the Tay, Forth and Clyde, and the cities of Edinburgh, the capital of the Kingdom, and Glasgow, its principal seaport. The heather-clad *Northern Highlands* extend almost from the extreme north of the mainland to the central lowlands, and are divided into a northern and southern system by the *Great Glen*; they contain, in the central Grampian Hills, *Ben Nevis* (4,406 feet), the highest point in the British Isles, and *Ben Mulch Dhul* (4,296 feet). The *Cheviot Hills* form a natural boundary between Scotland and England, their highest point being *The Cheviot* (2,676 feet).

**Hydrography.**—The principal river of Scotland is the *Clyde* (106 miles), one of the most important rivers in the world, with the greatest commercial estuary in Scotland. The *Clyde* is formed by the junction of *Daer* and *Portrail* water, and flows through the city and port of Glasgow to the Firth of *Clyde*. During its course it passes over the picturesque *Falls of Clyde*, *Bonnington Linn* (30 feet), *Corra Linn* (84 feet), *Dundaff Linn* (10 feet), and *Stonebyres Linn* (80 feet), above and below *Lanark*. The *Tweed* (96 miles) has important woollen industries in its valley. The *Tay*, noted for its salmon, and the longest river in Scotland (117 miles), flows into the North Sea, with *Dundee* (the centre of the jute industry) on the estuary, which is spanned by the *Tay Bridge* (10,289 ft.), opened in 1887, and the *Tay Road Bridge* (7,365 ft.), opened by H.M. Queen Elizabeth the Queen Mother on Aug. 18, 1966. The *Dee* (90 miles), noted salmon river, flows through scenery of unequalled beauty to the North Sea at *Aberdeen*. The *Spey* (110 miles), the swiftest flowing river in the British Isles, and also noted for its salmon and its scenery, flows

into the *Moray Firth*. The *Forth* (66 miles), navigable to *Stirling*, is spanned by the *Forth (Railway) Bridge* (1889), constructed at a cost of £3,000,000, with a length of 5,330 ft., and the *Forth (Road) Bridge*, with a total length of 6,156 ft. (over water) and a single span of 3,300 ft. The latter was completed in 1964 at a cost of £20,000,000.

The waterfall, *Eas-Coul-Aulin* in Sutherland with a total height of 658 ft. and the *Falls of Glomach* in Ross-shire, with a drop of 370 feet, are the highest in the British Isles; the *Grey Mare's Tail* (Dumfriesshire) is 200 feet.

The *lochs* are the principal hydrographic feature of the Kingdom, both the mainland and in many of the Islands. The largest is the Kingdom and in Great Britain is *Loch Lomond* (24 miles long), with *Lochs Awe*, *Tay*, *Rannoch* and *Ericht* in the Grampian valleys; *Loch Ness* (24 miles long and 800 feet deep), with *Lochs Oich* and *Lochy*, in the *Great Glen*; and *Lochs Shin* (20 miles) and *Maree* in the northern Highlands.

**Climate.**—The general climatic values for Scotland are given below, together with the corresponding values for England and Wales within brackets—mean air temperature reduced to level  $47.2^{\circ} F.$  (49.7); rainfall, 50.3 inches (35.2); number of days with rain 217 (188); hours per day of bright sunshine, 3.36 (3.96).

**Gaelic Language.**—The preliminary report on the 1961 Census of Scotland showed that 76,587 persons were Gaelic speakers, compared with 95,447 in 1951. 1,079 persons spoke Gaelic only and not English (compared with 2,178 in 1951), though it was considered from experience that this figure would be reduced after full examination of the Census returns. The majority of Gaelic speakers lived in the counties of Ross and Cromarty (38.29 per cent.) and Inverness (24.44 per cent.). 75,508 persons spoke both Gaelic and English, compared with 93,269 in 1951.

**Commerce.**—The principal exports are machinery, ships and vehicles, iron and steel manufactures, non-ferrous metals, woollen and worsted yarns and products, food and drink and textile materials. Whisky continues to be the leading export to dollar countries.

## THE SCOTTISH ISLANDS

There were 147 inhabited islands in the Kingdom at the time of the 1951 Census, with a total population of 141,972, the number of inhabited islands having fallen by 18 since the census of 1931. Preliminary indications from the 1961 Census were of relatively large decreases in the populations of the islands since 1951. Among the islands showing a decline in population were *Islay* 3,866 (9.5 per cent. decrease); *Mull* (including *Iona*, etc.), 1,674 (14.6); *Coll* and *Tiree*, 1,143 (20.0); *Harris Group*, 3,285 (17.7); *Skye*, *Raasay*, etc., 7,765 (10.0); *Barra Group*, 1,467 (22.1); *N. Ulst Group*, 1,921 (13.5).

**Orkney.**—About 6 miles N. of the Caithness coast, separated from the mainland by the *Pentland Firth*, is the island county of *Orkney*, a group of 90 islands and islets ("holms" and "skerries"), of which one-third are inhabited. The total area of the group is 375½ square miles, with a population (1961) of 18,743, a decrease of 11.8 per cent. compared with 1951 (estimated 1968, 17,557). *Kirkwall*, in *Mainland*, the largest island of the group, is the capital of the county. Many of the *Orkney* (and *Shetland*) Islands contain *brochs* (Pictish towers) and other Pictish and Scandinavian remains. *Scapa Flow*, between *Mainland* and *Hoy*, was the war station of the *Grand Fleet* from 1914-19 and the scene of the scuttling of the surrendered German High Seas Fleet (June 21, 1919).

**Zetland.**—About 50 miles N. of *Orkney* (with the detached *Fair Isle* at 25 miles N.) is the island

county of Zetland or Shetland, a group of about 100 islands and islets, of which one-fifth are inhabited. The total area of the group is 551 square miles, with a population (1961 Census, prelim.) of 17,800 (estimated 1968, 17,122). Lerwick, in *Mainland* (the largest and principal island), is the capital of the county. *Faer Isle*, the southernmost of the group, is famous for handknitted hosiery, and *Unst* for the finest of the Shetland woollen work, for which the county is famous. *Muckle Flugga*, about 1 mile N. of Unst, is the most northerly of the group and of the British Isles (60° 51' 30" N. lat.).

*Western Islands.*—Off the W. coast, at varying distances, and extending from Sutherland to Argyll, are over 500 islands and islets, of which 102 are inhabited. The total area of these Western Islands is 2,812 square miles, with a population of close on 80,000, but owing to the mountainous surface of the land only about 300 square miles are under cultivation. *The Hebrides.*—Until the closing years of the 13th century "The Hebrides" included other Scottish islands in the Firth of Clyde, the peninsula of Kintyre (Argyllshire), the Isle of Man, and the (Irish) Isle of Rathlin. The origin of the name is stated to be the Greek *Heboudai*, latinized ■ *Hebudes* by Pliny, and corrupted to its present form. The Norwegian name *Sudreyjar* (Southern Islands) was latinized ■ *Sodorenses*, ■ name that survives in the Anglican bishopric of "Sodor and Man." The *Inner Hebrides* include the island of *Skye* (643 square miles—capital, Portree, famous as a refuge of Prince Charlie after his defeat at Culloden, Inverness-shire, in 1746), which contains the *Cuillins* (Sgurr Alasdair 3,309 feet), *Red Hills* (Ben Caillich, 2,403 feet), and many other picturesque mountains; *Mull* (367 square miles), containing *Ben More* (3,160 feet), *Ben Bulbin* (2,354 feet), and *Ben Creach* (2,289 feet); *Jura* (160 square miles), with a chain of hills culminating in the *Paps of Jura* (Beinn-an-Oir, 2,571 feet and Beinn Chaolais, 2,407 feet); *Islay* (235 square miles), and many smaller islands. The *Outer Hebrides*, separated from the mainland by the *Minch*, include *Lewis with Harris* (770 square miles), celebrated for its homespun "Tweeds," *North Uist*, *South Uist*, *Barra* and other islands. Thirteen miles W. of *Stornoway* (the largest town of Lewis and of the Hebrides) are the "Druidical" remains of *Callanish*, ■ well-preserved series of monolithic circles, cruciform in general arrangement, but usually regarded ■ a heathen monument of the remote Stone Age.

### EARLY HISTORY

*Prehistoric Man.*—The *Picts*, believed to be of non-Aryan origin, and stated to have been named *Picti* by the Romans on account of the tribal habit of painting the body, seem to have inhabited the whole of North Britain and to have spread over the north of Ireland. *Picts' Houses* are most frequent in the northern counties of Caithness and Sutherland and in the Orkney Islands. Celtic *Goidels*, *Brythons* and *Belgae* arrived from Belgic Gaul during the latter part of the Bronze Age and in the early Iron Age, and except in the extreme north of the mainland and in the islands the civilization and speech of the people were definitely Celtic at the time of the Roman invasion of Britain.

*The Roman Invasion.*—In A.D. 80 Julius Agricola extended the Roman conquests in Britain by advancing into *Caledonia* as far as the "Grampian" Hills, but after a victory at *Mons Graupius* (since corrupted to "Grampius" ■) he was recalled, and no further advance was made for about 60 years, when the Roman frontier was carried to the Isthmus between the Forth and Clyde and marked by the *Wall of Pius*, towards which ran military

roads from the Cheviots. The Roman occupation of Southern *Caledonia* was not so effective ■ that of South Britain, and before the close of the second century the northern limit of Roman Britain had receded to *Hadrian's Wall* (Tyne to Solway Firth).

*The Scots.*—During the later years of the Roman occupation the garrison was continually harassed by Pictish tribes north of the Wall, aided by Scots (the Gaelic tribe then dominant in Ireland), and when the garrison was withdrawn these *Picts* and *Scots* were the principal enemies of the Celtic *Brythons*, who are believed to have called in the Saxons to protect them from the invasions of their neighbours. A relic of the struggle between Pict and Brython is still to be seen in the *Catrail*, or *Picts' Work Dyke*, of Roxburgh (from *Torwoodie*, near Galashiels, to Peel Fell in the Cheviots). *Christianity* was introduced into Southern *Caledonia* about 380 by missionaries from Romanized Britain, who penetrated to the northern districts and islands. After the withdrawal (or absorption) of the Roman garrison of Britain there were many years of tribal warfare between the Picts and Scots, the Brythonic *Waelisc* (Welsh) of Strathclyde (South-west Scotland and Cumberland), and the Anglo-Saxons of the Lothians. The *Waelisc* were isolated from their kinsmen in Wales by the victory of the West Saxons at Chester (613), and towards the close of the 9th century the Scots under *Kenneth Macalpine* became the dominant power in *Caledonia*. In the reign of Malcolm I (943-954) the *Brythons* or *Waelisc* (Welsh) of Strathclyde were brought into subjection, the lowland kingdom of the English (Lothian) being conquered by Malcolm II (1005-1034). From the close of the 12th century until the middle of the 16th there ■ constant wars between Scotland and England, the outstanding figures in the struggle being *William Wallace*, who defeated the English at Stirling Bridge (1297), and *Robert Bruce*, who won the victory of Bannockburn (1314). James IV and many of his nobles fell at the disastrous battle of *Flodden* (1513), and in 1603 James VI, the Stuart King of Scotland and the heir to the Tudor line of England (his mother, Mary Queen of Scots, was the great-granddaughter of Henry VII), succeeded Queen Elizabeth I on the throne, his successors reigning ■ Sovereigns of Great Britain. After the abdication (by flight) of James VII and II, the crown devolved upon William III (grand- ■ of Charles I) and Mary (daughter of James VII and II) and, their issue failing, upon Anne (second daughter of James VII and II). Anne's children died young, and the throne devolved upon George I (great-grandson of James VI and I) in 1689 Graham of Claverhouse "roused the Highlands" on behalf of James VII and II, but died after a military success at Killiecrankie. In 1715, armed risings led to the indecisive battle of Sheriffmuir, but the movement died down until 1745, when Prince Charles Edward defeated the Royalist troops under Sir John Cope at Prestonpans and advanced to Derby in England (1746). From Derby, the adherents of "James VIII and III" (the title claimed for his father by Prince Charles Edward) fell back on the defensive, and the *Jacobite* movement was finally crushed by the Royalist troops under the Duke of Cumberland at *Culloden* (April 16, 1746).

*The Hebrides* did not become part of the Kingdom of Scotland until 1266, when they were ceded to Alexander III by Magnus of Norway. Orkney and Shetland fell to the Scottish Crown as a pledge for the unpaid dowry of Margaret of Denmark, wife of James III, in 1468, the Danish suzerainty being formally relinquished in 1590.

Scotland is represented in Parliament by 72 members.

Principal buildings are the University, the Institute of Art and Technology, High School, Albert Institute and the Caird Hall Buildings. There is a magnificent public park of 400 acres at Camperdown and other parks of 646 acres and an observatory at Balgay Park. The principal industries are jute manufacture in all its branches, and various forms of linen weaving, the making of preserves, ship-building, engineering, dyeing, fruit, etc., canning, linoleum manufacturing, watch and clock making, and brewing. The city is governed by a Town Council of 37 members and sends 2 Members to Parliament.

*The Lord Provost* (1967-70), A. Mackenzie, O.B.E.

*Town Clerk*, G. S. Watson.

*City Chamberlain*, J. C. Milne.

#### CHIEFS OF CLANS AND NAMES IN SCOTLAND

The following list of Chiefs comprises the persons officially recognized as such by inheritance of the ancestral arms "without brisur or mark of cadency" under the Act 1672 c. 47, and/or relative supporters, under decree of the Lyon Court. It does not include self-styled, or Society-selected "chiefs", but the hereditary Heads of Families who conform to the evidence that "clan and family mean exactly the same thing"; and the definitions of Sir George Mackenzie of Rosehaugh, Lord Advocate to Charles II, that the undifferenced arms denote the "Chief for so we call the Representative of the Family . . . and in the Erse (Gaelic) with us the Chief of the Family is called the Head of the Clan,"—and the unanimous opinions of the Law Lords in *Seaforth v. Allangrange*, 1921, to the same effect that the undifferenced shield of ■■■■ denotes the Chief of the Clan; which in this hereditary familial sense of parental organization or *kin*, is denoted by the determination of armorial succession by decree of the Court of the Lord Lyon. These organizations were termed "Names" in the Lowlands, where all members bore the same basic surname, and "Clans" in the Border and Highland areas where surnames were ■ later development and evolved from complicated genealogical descriptions, the "clan name" being normally that of the chief.

# Northern Ireland

(For geographical and historical notes on Ireland, see Index)

Final results of the Census of Population held in Northern Ireland on October 9, 1966, showed a total population of 1,484,775 (males, 723,884; females, 760,891) an increase of 59,733 or 4.2 per cent over the total at the Census of 1961. A question on religion was not asked at the 1966 Census. In 1961 the number of persons in the various religious denominations (expressed as percentages of the total population) were: Roman Catholic, 34.9; Presbyterian, 29; Church of Ireland, 24.2; Methodist, 5; others 4.9; not stated, 2. Northern Ireland has a total area of 5,462 sq. miles (land, 5,206 sq. miles; inland water and tideways, 256 sq. miles) with a density of population of 283 person per sq. mile in 1966.

**Constitution and Government.**—Under the Government of Ireland Act, 1920, a separate Parliament and Executive Government were established for Northern Ireland. Under the Constitution certain legislative and fiscal powers are reserved to the Parliament of the United Kingdom.

The Northern Ireland Parliament consists of a *House of Commons* of 52 elected members (who receive allowance) and a *Senate* of 2 *ex officio* Senators and 24 Senators elected by the members of the House of Commons on the proportional representation system. At the General Election of February, 1969, there were elected, Unionists 36, Nationalists 6, Independent Unionists 3, Northern Ireland Labour 2, Republican Labour 2, Independent 3. Northern Ireland continues under the Act of 1920 to return 12 members to the House of Commons at Westminster.

The Executive power is vested in the Governor on behalf of Her Majesty the Queen; he holds office for 6 years, and is advised by 9 Ministers responsible to Parliament.

**Governor, His Excellency the LORD GREY OF NAUNTON, G.C.M.G., K.C.V.O., O.B.E.,** born April 15, 1910; appointed Governor, Dec. 3, 1968 (Government House, Hillsborough, Northern Ireland). . . £4,000 plus allowances.

## FINANCE

The greater part of the taxation in Northern Ireland is imposed and collected by the United Kingdom Government. After deducting the cost of collection, certain services reserved to the United Kingdom Parliament, and the Imperial Contribution, the balance is paid over to Northern Ireland's Exchequer. The Contribution so made by Northern Ireland to the cost of United Kingdom services, i.e. Navy, Army and Air Force, National Debt, etc. for the period from 1921 to March 31, 1969, amounted to £455,174,344. The United Kingdom contribution has been provisionally fixed at £2,000,000 for 1968-69 and £2,000,000 for 1969-70.

## PRODUCTION

**Industries.**—The total value of the industrial production of Northern Ireland in 1967 was approximately £970,000,000, and employment on industrial production was given to about 223,000 persons. The products of the engineering, ship-building and aircraft industries which employed 52,000 persons, were valued at £119,000,000. The textile industries, employing 44,000 persons, produced yarns, fabrics, household textiles, handkerchiefs, carpets, hosiery, ropes and a wide variety of other products valued at approximately £144,000,000. The food, drink and tobacco industries, giving employment to 28,000 persons, produced goods valued at £430,000,000 and clothing to the value of £39,000,000 was manufactured in 1967, of which £14,500,000 represented shirts and collars, which are manufactured principally in Londonderry. Other industries of importance to the economy of Northern Ireland are synthetic rubber and products, cardboard boxes and packing cases, furniture and building materials.

**Minerals.**—2,194 persons were employed in mining and quarrying operations in Northern Ireland in 1967, and the minerals raised were valued at £5,194,000.

**Fisheries.**—The total value of sea and freshwater fish caught in 1968 was £1,262,000.

## COMMUNICATIONS

**Seaports.**—The net tonnage of shipping using the principal ports in 1968 was about 20,000,000 tons. **Belfast.**—Nightly passenger and freight services operate to Glasgow, Heysham and Liverpool. Regular vehicle ferry services are maintained to Ardrossan, Preston and Liverpool and general cargo services operate to the major ports in Great Britain and to foreign ports. **Larne.**—A twice daily passenger, vehicle ferry and general cargo service to Stranraer, a regular vehicle ferry service to Preston and a cargo service to Ardrossan are operated. **Londonderry.**—A cargo service is maintained to Glasgow and a container service operates to Preston and Liverpool. Shipping services also operate

from Coleraine, Newry, Portrush and Warrenpoint to Liverpool and Garston.

**Road and Rail Transport.**—The reorganization of public transport in Northern Ireland was completed by the Transport Act (N.I.), 1967, which provided for the abolition of the Ulster Transport Authority and the establishment of the Northern Ireland Transport Holding Company. The Holding Company took over the assets of the Authority and is responsible for the supervision of the subsidiary companies, Ulsterbus Ltd. which operates the public road passenger services and Northern Ireland Railways Co. Ltd. which provides the railway services. A few privately operated bus services are provided in rural areas under licence. Road freight services are provided by a large number of hauliers operating competitively under licence. The Belfast Corporation provides omnibus services in the Belfast area.

**Air Transport.**—Passenger and freight services operate between Belfast Airport and airports throughout Great Britain. A limited number of services is also operated to North America. In 1968 almost one million passengers, 25,000 metric tons of freight, including mail, were carried. Services are also operated between Londonderry (Ballykelly) and Glasgow.

**NATIONAL MUSEUM**—Ulster Museum, Stranmillis Road, Belfast 9. Open weekdays 10-6 p.m., Wednesdays 10-9 p.m., closed Christmas Day. Admission free. Extension in course of erection. Collections reflect Ulster life and culture and include Irish paintings of all periods, silver, glass and textiles. Permanent collection of European paintings from 17th and 18th centuries. Irish antiquities to Plantation period. World ethnographic material. Important collections of spinning wheels and cycles. Rich Irish natural history material.

## BELFAST

**BELFAST**, a City, the seat of Government of Northern Ireland, situated at the mouth of the River Lagan at its entrance to Belfast Lough, has a municipal area of 16,017 acres, exclusive of tidal water (2,034) and a population (1968) of 390,700. The city received its first charter of incorporation in 1613 and has since grown, owing to its easy access by sea to Scottish coal and iron, to be a great industrial centre. The chief industries are ship-building and the manufacture of aircraft, machinery, textiles, ropes and tobacco. Belfast is an important seaport with extensive docks.

The principal buildings are of a relatively recent date and include the Parliament Buildings at Stormont, the City Hall, the Law Courts, the Public Library and the Museum and Art Gallery. The Queen's University (previously Queen's College) was chartered in 1908.

The city returns 16 members to the Parliament of Northern Ireland and 4 members to the House of Commons at Westminster. Belfast was created a city in 1888 and the title of Lord Mayor was conferred in 1897.

Lord Mayor (1969-70), J. F. Cairns.

Town Clerk, D. Jamison.

## LONDONDERRY

**LONDONDERRY**, a City situated on the River Foyle, has a population (estimated, 1967) of 56,300 and was reputedly founded in 546 by St. Columba. Londonderry (formerly *Derry*) has important associations with the City of London. The Irish Society, under its royal charter of 1613, fortified the city and was for long closely associated with its administration. On April 2, 1969, the Corporation of Londonderry and Londonderry R.D.C. were

dissolved and replaced by the Londonderry Development Commission.

Famous for the great siege of 1688-89, when for 105 days the town held out against the forces of James II until relieved by sea, Londonderry was an important naval base throughout the Second World War. Interesting buildings are the Protestant Cathedral of St. Columb's (1633) and the Guildhall reconstructed in 1912 and containing a number of beautiful stained glass windows, many of which were presented by the livery companies of London. The famous Walls are still intact and form a circuit of almost a mile around the old city. The manu-

facture of shirts and collars is the staple industry. Other industries include motor and mechanical engineering and fancy box making. New industries established in Londonderry in the post-war period include the manufacture of synthetic fibre and rubber, tyre cord and light engineering. A large part of Ulster's agricultural export trade passes through the port.

Chairman, Londonderry Development Corporation,  
B. Morton.

### THE ISLE OF MAN (MONA)

An island in the Irish Sea, in lat. 54° 3'–54° 25' N., and long. 4° 18'–4° 47' W., nearly equidistant from England, Scotland, and Ireland. The total land area is 141,263 acres (227 sq. miles), of which 77,443 acres are under cultivation. Population (1961 Census.), 50,423 (males, 23,226; females, 27,197). In 1967 the births numbered 712 and the deaths 867. 165 persons were returned at the Census of 1961 as able to speak the Manx language, compared with 4,657 in 1901 and 355 in 1951. The Island's main industry is catering for holidaymakers (numbering about 500,000 in the

year) from all parts of the British Isles. Some agricultural produce is exported.

Government.—The Isle of Man is governed by a Legislature, called the Tynwald, consisting of two branches—the Legislative Council and the House of Keys. The Council consists of the Lieutenant-Governor, the Bishop of Sodor and Man, the First Deemster, the Attorney-General, 2 members appointed by the Lieutenant-Governor, and 5 members appointed by the House of Keys. The House of Keys (possibly from the Scandinavian *keise*=chosen) ■ one of the most ancient legislative

assemblies in the world. ■ consists of 24 members, elected by the adult male and female population, 13 from the six *sheadings*, 7 from Douglas, ■ from Ramsey, and 1 each from Castletown and Peel. Bills after having passed both Houses are signed by the members, and then sent for the Royal Assent. After receiving the Royal Assent, a Bill does not become law unless promulgated within the ensuing twelve months, and on the first "Tynwald Day" (July 5) following it is announced in the English and Manx languages ■ the Tynwald Hill. On the promulgation taking place a certificate thereof is signed by the Lieutenant-Governor and the Speaker of the House of Keys.

**Finance.**—An annual contribution of 5 per cent. of the net "Common Purse" Receipts amounting to approximately £220,000 is made to the United Kingdom Government. In 1921 Tynwald accepted liability for the redemption of £250,000 War Stock, and in 1927 liability for ■ further sum of £50,000 of War Stock was accepted in final settlement of all responsibility to the Imperial Government in respect of the cost of the War (1914-18). The Isle of Man has made, in all, free gifts of £1,250,000 to the British Government and has lent £1,000,000 free of interest, £500,000 of the latter being converted into a free gift on June 15, 1948; of the balance of £500,000, a sum of £250,000 was repaid by the Treasury in October, 1961, and interest has since that date been paid on the remaining £250,000 invested in 3 p.c. Savings Bonds, 1960/70.

### THE CHANNEL ISLANDS

Situated off the north-west coast of France (at distances of from ten ■ thirty miles), are the only portions of the *Dukedom of Normandy* now belonging to the Crown, to which they have been attached ever since the Conquest. They consist of Jersey (28,717 acres), Guernsey (15,654 acres), Alderney (1,962 acres), Brechou (74), Great Sark (1,035), Little Sark (239), Herm (320), Jethou (44), and Lihou (38), a total of 48,083 acres, or 75 square miles. In 1961 the population of Jersey was 63,345, and of Guernsey, etc. 47,198 (Guernsey, 45,150; Alderney, 1,449; Sark, 560).

The climate is mild, and the soil exceptionally productive. The land under cultivation is about 38,765 vergées (2½ vergées=1 acre) in Jersey, and about 16,500 vergées (2½ vergées=1 acre) in Guernsey, the principal product of the soil of Jersey being potatoes and tomatoes, and of Guernsey tomatoes, flowers and fern. The famous Jersey and Guernsey breeds of cows have earned a well-deserved celebrity. The Lieutenant-Governors and Commanders-in-Chief of Jersey and Guernsey ■ the Personal Representatives of the Sovereign and the channel of communication between H.M. Government and the Insular Governments. The Bailiffs of Jersey and Guernsey, appointed by the Crown, are Presidents both of the Assembly of the States (the Insular Legislature) and of the Royal Court in their respective Bailiwicks.

The official language is English and a Norman-French *patois* is also in use (except in Alderney). The principal imports are coal and coke, building material and groceries and provisions, and the chief exports potatoes, tomatoes, grapes, flowers, granite and cattle. The chief town of Jersey is Ψ St. Helier ■ the south coast; the principal town of Guernsey is Ψ St. Peter Port, ■ the east coast, and of Alderney is St. Anne's. A telephone exchange was opened on Alderney in May, 1949 and there is one in Sark. Herm is also connected to Guernsey by telephone.

## The Commonwealth

The Commonwealth is a free association of the United Kingdom and the 28 sovereign independent states listed below together with their dependencies (mostly small islands which are dependencies of Britain, Australia or New Zealand) and the Associated States of the Eastern Caribbean. The Member States of the Commonwealth (in the order in which they are treated in the next section of the *Almanack*) are:—

CANADA	MALAWI
AUSTRALIA	MALAYSIA
NEW ZEALAND	MALTA G.C.
BARBADOS	MAURITIUS
BOTSWANA	NIGERIA
CEYLON	PAKISTAN
CYPRUS	SIERRA LEONE
GAMBIA	SINGAPORE
GHANA	SWAZILAND
GUYANA	TANZANIA
INDIA	TRINIDAD AND TOBAGO
JAMAICA	UGANDA
KENYA	ZAMBIA
LESOTHO	WESTERN SAMOA

**AREA AND POPULATION.**—The total area of the British Commonwealth is estimated to be about 14 million square miles. Details of the areas and populations of the Member States and dependencies appear in the following pages and are also tabulated on pp. 199-203. The total population of the Commonwealth is estimated to be approaching 800,000,000.

**GOVERNMENT.**—Most members of the Commonwealth are parliamentary democracies, their laws being made with the consent of a freely elected parliament after discussion in that parliament, the executive government holding office by virtue of a majority in parliament. However, Ghana (1966) and Nigeria (1966) have suspended their constitutions and are under military rule.

Queen Elizabeth II is recognized as Queen and Head of State in the following Member countries of the Commonwealth: Britain, Canada, Australia, New Zealand, Ceylon, Sierra Leone, Jamaica, Trinidad and Tobago, Malta, The Gambia, Guyana, Barbados and Mauritius. In each of these countries (except Britain) Her Majesty is personally represented by a Governor-General, who in many respects holds the same position in relation to the administration of public affairs as is held by the Sovereign in Britain (with the exception of certain constitutional functions which are performed by Her Majesty personally). The Governor-General is appointed by the Queen on the recommendation of the Government of the country concerned and is wholly independent of the British Government; in many cases he is a national of the country in which he holds office.

India, Pakistan, Ghana, Nigeria, Cyprus, Uganda, Tanzania, Kenya, Malawi, Zambia, Singapore and Botswana are Republics with Presidents as Head of State; Malaysia has one of the State Rulers as elected Monarch (*Yang Di-Pertuan Agong*) and Head of State; Lesotho and Swaziland are monarchies which have their own Kings. All Members of the Commonwealth accept the Queen as the symbol of the free association of the Member Nations of the Commonwealth and such, Head of the Commonwealth.

The status of member nations was defined by the Imperial Conference of 1926 and given legal substance by the *Statute of Westminster, 1931*, in which the Commonwealth nations were described as "autonomous communities within the British Empire, equal in status, in no way subordinate one to another, but united by a common allegiance to the Crown and freely associated as members of the British Commonwealth of Nations." (Modifications were subsequently made for the Republics and the Monarchies of which Her Majesty is not sovereign.) Other parts of the Commonwealth,

such as the Dependent Territories and Associated States, are regarded as forming part of the Commonwealth by virtue of their relationship with Member states of the Commonwealth.

**CONSULTATION.**—The most important means of consultation between Governments are Prime Ministers' Meetings. These Meetings, which replaced the more formal pre-war Imperial Conferences, have been held at frequent intervals since 1944. They are a useful means whereby Commonwealth Heads of Government consult together on major issues of international affairs and other matters which affect them all. It is not their practice to pass Resolutions or seek to formulate common and binding policies on international issues; but they have on occasion made general statements of principle to which they all subscribe and policies of individual Governments are clearly often influenced by the information and ideas exchanged at these meetings. In addition to meetings of Prime Ministers, there are annual meetings of Finance Ministers, as well as less frequent meetings between Ministers or officials responsible for subjects such as Trade, Education, Medicine and Law.

A Commonwealth Secretariat was established in 1965, staffed from Commonwealth countries (see p. 373).

**RHODESIA.**—Southern Rhodesia was united with Northern Rhodesia and Nyasaland in a federation which lasted from 1953 until 1963, since when Nyasaland has become independent (as Malawi, 1964) and Northern Rhodesia (as Zambia, 1964). Southern Rhodesia made a unilateral declaration of independence on Nov. 11, 1965, and its constitutional status had not been settled by the summer of 1966.

**CITIZENSHIP AND NATIONALITY.**—Each member of the Commonwealth of Nations defines the citizenship and nationality of its own people and determines the status of other Commonwealth nationals within its own boundaries. In most cases, though not in all, they possess a common status as British subjects (or Commonwealth citizens). Even where there is no such provision for a common status, the Members of the Commonwealth differentiate, in greater or less degree, as regards the grant of privileges, between citizens of the Commonwealth and aliens. The Republic of Ireland, which in 1949 ceased to be a member of the Commonwealth, is not regarded by the other Commonwealth nations as a foreign country as her citizens as foreigners.

**THE JUDICATURE.**—The Supreme Judicial Authority of dependencies in the Commonwealth is the Judicial Committee of the Privy Council, before which appeals may be brought (in the form of a petition to the Crown) from Consular Courts and Courts of Vice-Admiralty, and also from the Courts of certain members of the Commonwealth (New Zealand, Ceylon, Sierra Leone, Jamaica, Trinidad and Tobago, Uganda (constitutional cases only) and Kenya). The Committee consists of such members of the Privy Council as have held or are holding high judicial office, provision being made for the inclusion of judges of other Commonwealth countries. The members of the Commonwealth have each a broadly similar judicial system, judges (except in the Republics, Sierra Leone and Uganda, where they are appointed by the President) being appointed by the Govern-

General on the advice of the Government concerned. The Supreme Judicial Authority for Great Britain and Northern Ireland is the House of Lords.

**DEFENCE.**—Each of the independent members of the Commonwealth is completely responsible for its own defence and all are members of the United Nations. The United Kingdom and Canada belong to N.A.T.O.; the United Kingdom and Pakistan are in C.E.N.T.O.; the United Kingdom, Australia, New Zealand and Pakistan are members of S.E.A.T.O.; Australia and New Zealand are signatories of the Pacific Security Treaty. The United Kingdom has defence agreements with Malaysia, Malta and Mauritius, and is a signatory to the Treaty of Guarantee of Cyprus.

**THE ASSOCIATED STATES.**—Early in 1967 the former colonies of Antigua, Dominica, Grenada, St. Kitts-Nevis-Anguilla and St. Lucia became "non-dependent" States in association with Great Britain. Legal effect was given to this status by the West Indies Act, 1967. The main features of the association are that each State is responsible for its own internal affairs, may amend its own Constitution and may sever the association by unilateral declaration, subject to the observance of procedures contained in the Constitution of each State. Her Majesty's Government retains responsibility for the external affairs and defence of each territory.

**OVERSEAS DEPENDENCIES.**—The United Kingdom, Australia and New Zealand have dependencies for which they are independently responsible. (See following sections.)

**Colony (or Settlement):** a territory belonging by settlement, conquest or annexation to the British Crown.

**Protectorate:** territory not formally annexed, but in respect of which, by treaty, grant, usage, sufferance, and other lawful means, Her Majesty has power and jurisdiction.

**Protected State:** territory under a ruler which enjoys Her Majesty's protection, over whose foreign affairs she exercises control but in respect of whose internal affairs she does not exercise jurisdiction.

**Condominium:** territory for which responsibility is shared by two administering powers.

**Leased Territories:** this term applies only to that part of the mainland of China which was in 1898 leased to Great Britain for 99 years and is administered by the Government of Hong Kong.

**Other Commonwealth Dependencies.**—Australia is responsible for the Trust Territory of Papua and New Guinea. In addition Australia and New Zealand administer a number of island territories and extensive Antarctic areas.

**DEVELOPMENT AND FINANCE.**—Complete financial autonomy is enjoyed by all members of the Commonwealth. In some countries, customs tariffs are lower for merchandise of Commonwealth origin than for imports from foreign countries. The British Government provides guarantees for the capital issues made by dependent territories and also provides budgetary assistance in many cases as well as direct loans and grants to assist development.

Under the Colonial Development and Welfare Act, 1940, annual sums of £5,000,000 were made available for developments and £500,000 for research for a ten-year period. Succeeding Acts increased the total to be made available and extended the period to be covered. The 1965 Act authorized Exchequer Loans towards the cost of approved development programmes amounting to £125,000,000 and a ceiling of £390,000,000 for development and welfare assistance in the period 1941-1970.

## PHYSIOGRAPHY

Canada was originally discovered by Cabot in 1497, but its history dates only from 1534, when the French took possession of the country. The first permanent settlement at Port Royal (now Annapolis), Nova Scotia, was founded in 1605, and Quebec was founded in 1608. In 1759 Quebec was captured by the British forces under General Wolfe, and in 1763 the whole territory of Canada became a possession of Great Britain by the Treaty of Paris of that year. Nova Scotia was ceded in 1713 by the Treaty of Utrecht, the Provinces of New Brunswick and Prince Edward Island being subsequently formed out of it. British Columbia was formed into a Crown colony in 1858, having previously been a part of the Hudson Bay Territory, and was united to Vancouver Island in 1866.

Canada occupies the whole of the northern part of the North American Continent (with the exception of Alaska), from 49° North latitude to the North Pole, and from the Pacific to the Atlantic Ocean. In Eastern Canada, the southernmost point is Middle Island in Lake Erie, at 41° 41'.

*Relief.*—The relief of Canada is dominated by the mountain ranges running north and south on the west side of the Continent, by the Pre-Cambrian shield on the east, with, in between, the northern extension of the North American Plain. From the physiographic point of view Canada has six main divisions. These are: (1) Appalachian-Adian Region, (2) the Canadian Shield, (3) the St. Lawrence-Great Lakes Lowland, (4) the Interior Plains, (5) the Cordilleran Region and (6) the Arctic Archipelago. The first region occupies all that part of Canada lying southeast of the St. Lawrence. In general, the relief is an alternation of highlands and lowlands, and is hilly rather than mountainous. The lowlands area seldom rises over 600 feet above sea level. The great Canadian Shield comprises more than half of the area. The interior as a whole, is an undulating, low plateau (general level 1,000 to 1,500 feet), with the more rugged relief lying along the border between Northern Quebec and Labrador. Throughout the whole area water or muskeg-filled depressions separate irregular hills and ridges, 150 to 200 feet in elevation. Newfoundland as an outlying portion of the shield consists of glaciated, low rolling terrain broken here and there by mountains. The flat relief of the St. Lawrence-Great Lakes lowland varies from 500 feet in the east to 1,700 feet south of Georgian Bay. The whole area in the western part slopes gently to the Great Lakes. The most striking relief is provided by the eastward facing scarp of the Niagara escarpment (elevation 250 to 300 feet). The Interior plains, comprising the Prairie Provinces, slope eastward and northward a few feet per mile. The descent from west to east is made from 5,000 feet to less than 1,000 feet, in three distinct levels, with each new level being marked by an eastward facing coteau or scarp. Horizontal strata and peneplanation make for slight relief of the level to rolling type. Five fairly well-developed topographic divisions mark out the Cordilleran region of western Canada. These are: (1) coastal ranges, largely above 5,000 feet with deep fiords and glaciated valleys, (2) the interior plateau, around 3,500 feet and comparatively level, (3) the Selkirk ranges, largely above 5,000 feet, (4) the Rocky Mountains with their chain of 10,000 to 12,000-foot peaks, and (5) the Peace River or Tramontane region with its rolling diversified country. The Arctic Archipelago, with its plateau-like character has an elevation between 500 and 1,000 feet, though in Baffin Land and Ellesmere Island the mountain ranges rise to 8,500 and 9,500 feet. Two tremendous waterway systems, the St. Lawrence and the Mackenzie, providing thousands of miles of water highway, occupy a broad belt of lowland with their dominant axis following the edge of the shield.

*Climate.*—The climate in the eastern and central portions presents greater extremes than in corresponding latitudes in Europe, but in the south-western portion of the Prairie Region and the southern portions of the Pacific slope the climate is milder. Spring, summer, and autumn are of about seven to eight months' duration, and the winter four to five months.

## GOVERNMENT

The Constitution of Canada has its source in the British North America Act of 1867 which formed a Dominion, under the name of Canada, of the four provinces: Ontario, Quebec, New Brunswick and Nova Scotia; to this Federation the other Provinces have subsequently been admitted. Under this Act Canada came into being on July 1, 1867 (Canada Day), and under the Statute of Westminster, which received the royal assent on Dec. 11, 1931, Canada and the Provinces were exempted (in common with other self-governing Dominions of the Commonwealth of Nations) from the operation of the Colonial Laws Validity Act, the Statute of Westminster having removed all limitations with regard to the legislative autonomy of the Dominions. Provinces admitted since 1867 are: Manitoba (1870), British Columbia (1871), Prince Edward Island (1873), Alberta and Saskatchewan (1905) and Newfoundland (1949).

The Executive power is vested in a Governor-General appointed by the Sovereign on the advice of the Canadian Ministry, and aided by a Privy Council.

*FLAG.*—Red maple leaf with 11 points on white square, flanked by vertical red bars one half the width of the square.

#### THE LEGISLATURE

Parliament consists of a Senate and a House of Commons. The Senate consists of 102 members, nominated by the Governor-General until the age of 75, except present incumbents who may remain members for life. They are distributed between the various provinces thus: 24 for Ontario, 24 for Quebec, 10 for Nova Scotia, 10 for New Brunswick, 4 for Prince Edward Island, 6 for Newfoundland, 6 for British Columbia, 6 for Manitoba, 6 for Alberta, and 6 for Saskatchewan; each Senator must be thirty years old, a resident in the province for which he is appointed, a natural-born or naturalized subject of the Queen, and the owner of a property qualification amounting to \$4,000. The Speaker of the Senate is chosen by the Government of the day. The House of Commons is elected every five years at longest.

The House of Commons has 264 members. Representation by provinces is at present as follows: Newfoundland 7, Prince Edward Island 4, Nova Scotia 11, New Brunswick 10, Quebec 74, Ontario 88, Manitoba 13, Saskatchewan 13, Alberta 19, British Columbia 23, Yukon 1, Northwest Territories 1.

#### THE JUDICATURE

The Judicature.—Justice is administered in England, by judges, police magistrates, and justices of the peace, of whom the first-named are appointed by the Governor-General, for life, from among the foremost men at the Bar in the several provinces. The highest court is the Supreme Court of Canada, composed of a Chief Justice and eight puisne judges, and holding three sessions in the year at Ottawa. The only other Dominion Court, viz., the Exchequer Court of Canada, presided over by

separate judges, and its sittings may be held anywhere in Canada.

### NATIONAL DEFENCE

On Aug. 1, 1964, the Headquarters of the Royal Canadian Navy, the Canadian Army and the Royal Canadian Air Force were integrated to form a single Canadian Forces Headquarters (C.F.H.Q.) under a single Chief of Defence Staff. The role of C.F.H.Q. is to provide military advice to the Minister of National Defence and to control and administer the Canadian Forces.

Chief of Defence Staff, Lt.-Gen. F. Sharp.

On February 1, 1968, the total strength of the Canadian Armed Forces 99,817 made up of the following: Sea Elements, 17,189; Land Elements, 39,277; Air Elements, 43,351.

Navy.—The Royal Canadian Navy has principal commands at Halifax, N.S., and Esquimalt, B.C.

In September, 1965, the R.C.N. had 44 ships in commission, including one light fleet carrier, 26 destroyer escorts, 17 ocean escorts, one mobile repair ship, one fleet replenishment ship, two submarines and one diving depot ship.

Army.—The Canadian Regular Army consists of a field force of four Infantry Brigade Groups, and training, logistic support and headquarters units. One Infantry Brigade Group is stationed in Europe as part of NATO forces. Forces in Canada are organized into four Commands and 11 Military Areas, with Army Headquarters at Ottawa. The Reserves include the Canadian Army (Militia), the Regular Reserve, the Supplementary Reserve, the Canadian Officers' Training Corps, the Cadet Services of Canada and the Reserve Militia.

Air Force.—The Royal Canadian Air Force has the following commands: Air Defence Command, St. Hubert, P.Q.; 1 Air Division, Metz, France; Air Transport Command, Trenton, Ont.; Air Material Command, Rockcliffe, Ont.; Maritime Air Command, Halifax, N.S.; Training Command, Winnipeg, Man. The R.C.A.F. has 26 squadrons in service, 20 being regular and 6 auxiliary.

### EDUCATION AND LANGUAGE

Education is under the control of the Provincial Governments, the cost of the publicly controlled schools being met by local taxation, aided by provincial grants. There were (1967-68) 17,115 publicly controlled schools with 5,215,260 pupils. In addition there were 183,548 pupils in 1,289 private elementary, secondary and commercial schools. There are special schools for Indians with 31,800 pupils (1967-68). In 1967-68, there were nearly 400 universities and colleges with a full-time university grade enrolment of 261,207. Sixty-four of the total were degree-granting institutions.

Canada has two official languages, English and French. At the 1961 census 67.4 per cent. of the total population gave English and 19.1 per cent. gave French as their native tongue. Some 2,231,172 (or 12.2 per cent.) are bilingual.

### CANADIAN PRODUCTION

**Agriculture.**—About 8 per cent. of the total land area of Canada is classified as farm land and approximately half of this is under cultivation, the remainder being woodland or suitable only for grazing purposes. Three-quarters of the land at present cultivated is found in the prairie region of Western Canada. The cash benefits for the sale of farm products in 1967 was \$4,379,038,000. Livestock and poultry contributed \$1,544,712,000; field crops (1967) \$1,827,800,000 and dairy products (1967) \$629,438,000.

Canadian grain crops (in thousands of bushels):

Rye . . . . .	17,220	11,984	13,049
Flaxseed . . . . .	22,020	9,378	18,166

**Livestock.**—On June 1, 1969, the livestock included 341,300 horses, 12,467,000 cattle, 883,000 sheep, 5,792,000 hogs and 71,744,000 poultry. The total milk production in 1968 was 18,335,214,000 lb.; butter, 341,118,000 lb.; factory cheese, 198,633,000 lb.; concentrated milk products, 764,780,000 lb.; ice cream mix, 27,897,000 gallons.

**Fur Production.**—There were 2,382 fur farms in Canada in 1967-68 producing 1,992,082 pelts valued at \$23,087,306, milk contributing 99 per cent. of the total. Wild life pelts totalled 4,106,326 with a value of \$13,490,565.

**Fisheries.**—The total value of the fish marketed in 1966 was \$355,590,000.

**Forestry.**—About 57 per cent. of the total land area is in forests, with almost 1,710,788 sq. miles capable of producing merchantable timber. The value of forest products in 1966 was: newsprint \$1,025,048,000; lumber \$767,773,000; paper (other than newsprint) \$519,526,000; pulp (exports only) \$543,433,000.

**Minerals.**—Canada was, in 1968, the world's greatest producer of nickel and zinc, and ranked second in asbestos, molybdenum, silver, sulphur, titanium oxide, and uranium. The value of the principal minerals produced in 1968 was: \$4,738,789,732; Crude petroleum \$933,420,250; copper \$596,450,576; iron ore \$555,912,519; nickel \$527,005,070; zinc \$329,610,197; natural gas \$225,682,325; asbestos \$190,068,054; cement \$156,541,049; sand and gravel \$128,100,791; natural gas by-products \$121,722,600; silver \$105,750,300; gold \$103,639,636.

### COMMUNICATIONS

**Railways.**—The total first main track mileage of

railways in operation on Dec. 31, 1967, was 43,168 miles, the capital liability of the railways being \$4,795,061,259 operating revenues \$1,519,392,966 and operating expenses \$1,443,956,115. In 1967 the passengers carried on railways numbered 24,626,390, and revenue freight 237,121,237 tons.

**Shipping.**—The registered shipping on Dec. 31, 1967, including inland vessels, was 26,451 vessels with gross tonnage 3,668,429.

**Canals.**—In 1967 the number of vessel passages through 11 Canadian canal systems was 21,046 and the registered net tonnage was 74,676,757. The St. Lawrence Canals and the Welland Canal carried 31,770,174 and 39,244,303, or 95 per cent. of the total.

**Civil Aviation.**—The number of revenue-producing passengers carried in 1967 (all carriers) was 11,596,102. Revenue cargo was 187,092 tons.

**Motor Vehicles.**—Total motor vehicle registrations numbered 7,495,203 in 1967.

**Post.**—There were 10,838 post offices on March 31, 1968, and 5,561 rural and urban mail routes serving 670,266 households and businesses. Total postal revenue was \$337,000,000 in the fiscal year 1967-68; total expenditure \$404,200,000.

### YUKON TERRITORY

The Yukon Act, 1952, as amended, provides for the administration of the Territory by a Commissioner acting under instructions from time to time given by the Governor in Council or the Minister of Indian Affairs and Northern Development. Legislative powers, analogous to those of a provincial government, are exercised by the Commissioner in Council. The Council comprises seven members elected from electoral districts in the Territory. The area of the Territory is 207,076 square miles with a population (April 1, 1969) of 15,000. Mining is the chief industry, though trapping remains important and there is considerable timber production. Mining production, including asbestos, copper, silver and gold, was valued at \$23,496,328 in 1968.

SEAT OF GOVERNMENT, Whitehorse. Pop. (1966) 4,771.

Commissioner, J. Smith.

### NORTHWEST TERRITORIES

Area 1,304,993 square miles; population (estimated, April 1, 1969) 31,000.

The Northwest Territories are subdivided into the districts of Mackenzie, Keewatin and Franklin.

The chief industry of the Northwest Territories is mining, with a total value of \$122,214,612 in 1968. Zinc and lead contributed 78 per cent. of the total. Gold, silver and cadmium are the next most valuable minerals.

SEAT OF GOVERNMENT.—On May 1, 1967, the territorial government was moved from Ottawa to Yellowknife, and all meetings of the Council are held there.

Commissioner, S. M. Hodgson.

## PROVINCES OF CANADA

### ALBERTA

**Area and Population.**—The Province of Alberta has an area of 255,285 square miles, including about 6,485 square miles of water, with a population (estimated April 1, 1969) of 1,533,000.

**Government.**—The Government is vested in a Lieutenant-Governor and Legislative Assembly composed of 65 members, elected for five years, representing 65 electoral districts in the Province.

The present representation of parties is 55 Social Credit Party, 7 Progressive Conservatives, 2 Liberals and 1 Independent.

Finances.—Estimated current Revenue for 1969-70, \$1,024,482,415. Estimated current expenditure, including all capital expenditure, \$1,024,072,425. There is no direct debt.

Production and Industry.—The production levels of the four leading industries were estimated for 1968 as follows: forestry \$1,055,000,000; minerals, \$405,369,000; agriculture, \$207,689,000; fisheries, \$119,255,000. Manufacturing activity is based largely on the processing of products of the four main basic industries. The principal manufacturing centres are Vancouver, New Westminster, Victoria, North Vancouver and Port Moody. Forestry and forest-based industries form the most important

economic activity, accounting for approximately 50 per cent. of total production. British Columbia is the leading province of Canada in the quantity and value of its timber and sawmill products. Mining, the second most important economic activity, is based on copper, zinc, lead, molybdenum, natural gas, crude petroleum and iron concentrates. Molybdenum production is approximately 86 per cent. of the Canadian total. The most important agricultural products are livestock, poultry, fruits and dairy products. Salmon accounts for approximately 70 per cent. of the value of fisheries. Other species include halibut, herring, soles, cod, and crab. The climate is healthy, quite moderate on the coast and continental east of the coast mountains. The economy is dependent upon markets outside the province for the disposal of most of the products of her industry. Canadian and world markets receive lumber, plywood, canned salmon, zinc and fruit.

*Transport.*—The province has deep water harbours which are well serviced by railways and modern paved highways. Vancouver is the base for regular scheduled air routes to other parts of Canada, the United States, Europe, Mexico, South America, Hawaii, Australia, and Japan.

*Principal Cities.*—CAPITAL, Ψ VICTORIA. Metropolitan population (1966 census) 173,455. Ψ Vancouver (founded in 1886), the largest city in the Province, metropolitan population (1966 census) 892,286, is the western terminus of the Canadian Pacific Railway and the Canadian National Railways (the C.N.R. also has a terminus at Prince Rupert) and the southern terminus of the Pacific Great Eastern Railway, and possesses one of the finest natural harbours in the world. Other towns and cities are New Westminster (38,013), Chilliwack (28,681), Prince George (24,471) and Kelowna (17,006).

## MANITOBA

*Area and Population.*—Manitoba, originally the Red River settlement, is the central province of Canada. The Province has a considerable area of prairie land but is also a land of wide diversity combining 400 miles of sea-coast, large lakes and rivers covering an area of 39,225 square miles and Precambrian rock which covers about three-fifths of the Province. The total area is 251,000 square miles with a population, estimated, 1967, of 961,000.

*Government.*—The Government is administered by a Lieutenant-Governor, assisted by an Executive Council of 11 Ministers, who are members of the Legislative Assembly of 57 members. Each member of the Legislative Assembly receives an annual sessional indemnity of \$7,200.

At the General Election held on June 25, 1969, the Progressive Conservative Party led by the Premier, Mr. Walter Weir, was defeated, the New Democratic Party led by Mr. Schreyer gaining 16 seats in the Legislature. The new party strengths after the election were: N.D.P., 28; P.C.P., 22; Liberal, 5; Social Credit, 1; Liberal Democrat, 1. With the support of the Liberal Democrat member for St. Boniface, the N.D.P. secured an overall majority of one vote and Mr. Schreyer formed a ministry on July 9, 1969 (see below).

*Agriculture and Live Stock.*—The total land area in Manitoba is 135,536,000 acres, of which 8,628,200 acres were under field crops in June 1968. The gross value of agricultural production in June, 1968, was estimated at \$475,000,000, of which field crops represented \$307,000,000. Farm animals in June, 1968, numbered 1,037,000 cattle, 526,000 pigs, 41,000 sheep, 38,000 horses and 6,380,000 poultry.

*Manufactures.*—The gross value of manufactured products in 1968 was estimated at \$1,090,000,000. Manufacturing enterprises employed about 49,700 persons. The chief industrial centres are Winnipeg, St. Boniface, St. James, Brandon and Selkirk. The largest manufacturing industry is the food and beverage industry, followed by the metal fabricating and machinery industries.

*CAPITAL.*—Winnipeg, population (estimated, 1966), 257,000 (Greater Winnipeg, 508,759). Other centres are Brandon (29,980) and Portage la Prairie (13,000).

## NEW BRUNSWICK

*Area and Population.*—NEW BRUNSWICK is situated between 45°-48° N. lat. and 63° 47'-69° W. long. and comprises an area of 27,085 square miles with an estimated population (1968) of 624,000. It was first colonized by British subjects in 1761, and in 1783 by inhabitants of New England, who had been dispossessed of their property in consequence of their loyalty to the British Crown.

*Government.*—The Government is administered by a Lieutenant-Governor, assisted by an Executive Council, and a Legislative Assembly of 58 members elected by the people. At the General Election of October 23, 1967, 32 Liberal and 26 Conservative members were returned.

*Finance*.—The estimated revenue for the year ending March 31, 1970, is \$353,612,488 and ordinary expenditure, \$376,126,847.

*Manufactures*.—Forest products: pulp, paper and timber form the major manufactured group, followed by foods, oil refining, shipbuilding and general manufacturing including electronics, cooking and heating equipment, chemicals and fertilizers and diversified other products. Saint John is the principal manufacturing centre. Total value of manufactured products was \$550,000,000 in 1967.

*Agriculture and Livestock*.—The total land area is 17,582,720 acres of which about 85 per cent. is forested. The Province is the largest potato-producing area of Canada, grown chiefly in the upper Saint John River Valley. Dairy farming is next in importance with some mixed garden production. The livestock in 1967 included 131,000 cattle, 27,000 sheep, 41,000 hogs and 1,405,000 poultry. Gross value of farm income was \$65,000,000 in 1966.

*Fishing*.—The chief commercial fish are lobsters, sardines, herring, cod, haddock and salmon with estimated market value of \$45,000,000 in 1966.

*Minerals*.—Extensive zinc, lead and copper deposits are now being mined in the north-eastern part of the Province with a smelter having recently come into operation bringing about \$80,000,000 new income to the Province. Coal continues to be mined in a decreasing scale with lesser amounts of non-metallic minerals. Exploration continues in other known mineral deposits.

*Principal Cities*.—CAPITAL  $\Psi$  Fredericton: population (1966), 22,460.  $\Psi$  Saint John (pop. 91,198) is one of the principal winter ports of Canada and is connected by C.P.R. and Canadian National Railways with Montreal; Moncton (45,847); Bathurst (15,256); Edmundston (12,517); Campbellton (10,175).

## NEWFOUNDLAND

*Area and Population*.—The Island of Newfoundland is situated between 46° 37'–51° 37' N. latitude and 52° 44'–59° 30' W. longitude, on the north-east side of the Gulf of St. Lawrence, and is separated from the North American Continent by the Straits of Belle Isle on the N.W. and by Cabot

Straits on the S.W. The island is about 317 miles long and 316 miles broad and is triangular in shape, with Cape Bauld (N.), Cape Race (S.E.) and Cape Ray (S.W.) at the angles. It comprises an area of 156,185 sq. miles (inclusive of Labrador) with a population (April 1, 1969) of 513,000.

*Government*.—On March 31, 1949, the island, with its dependency of Labrador, became the 10th Province of the Dominion of Canada. The Government is administered by a Lieutenant-Governor, aided by an Executive Council and a Legislative Assembly of 42 members.

#### The Legislature.

A General Election was held on Sept. 8, 1966. The present state of parties is: *Liberal*, 39; *Progressive Conservative*, 3.

*Speaker of the House of Assembly*, Hon. G. W. Clarke.

*Finance*.—The estimated net general revenue in 1967–68 was \$166,500,000 and the net general expenditure \$206,980,000.

*Production and Industry*.—With the exception of Gander, Bishop's Falls, Badger, Millertown, Buchans, Howley, Deer Lake and that portion of the West Coast between St. George's and Port aux Basques the inhabitants are chiefly located on the coast-line of the shore and bays. In 1965 there were fourteen mines in operation, of which five were iron, five base metal and four non-metallic mineral mines. There were also eight establishments mining structural materials such as sand and gravel, stone, cement and clay. Five pulp and paper mills are in operation. The value in 1968 of mineral products was \$324,000,000, including iron ore, \$263,000,000. Copper, asbestos, zinc and lead contributed an additional \$49,000,000. Mining was the largest primary industry in the Province and contributes over 25 per cent. of total production by value.

*Railways*.—The main line of the railway extends from St. John's on the east coast to Port aux Basques on the west coast—a distance of 547 miles—with branches connecting with the ports of Argenta, Carbonar, Bonavista and Lewisporte, a total mileage of 705. There are also 230 miles of private line. Communication between various points on the coast and between Port aux Basques and North Sydney, Nova Scotia, is maintained by a fleet of 20 motor vessels and 5 steam vessels, operated by the Railway.

*Principal Cities*.—The Capital,  $\Psi$  St. JOHN'S (population, 1966 Census, Greater St. John's 90,838), contains two cathedrals, several banks and

numerous public buildings. The second city of Newfoundland is Corner Brook (27,116). Other centres are Wabana (7,884), Gander (7,183) and Carbonear (4,584).

#### LABRADOR

*Labrador*, the most northerly district in the Province of Newfoundland, forms the most easterly part of the North American continent, and extends from Blanc Sablon, at the north-east entrance to the Straits of Belle Isle, on the south, to Cape Chidley, at the eastern entrance to Hudson's Straits on the north. The territory under the jurisdiction of Newfoundland has an area estimated at 112,826 square miles, with a population (1966) of 21,157. Labrador is noted for its cod fisheries and also possesses valuable salmon, herring, trout and seal fisheries. Newfoundland (Labrador) supplies more iron ore than any other province in Canada and the huge hydro-electric plant on the Churchill River will be the largest in the world with a 5,250,000 kw. capacity when completed.

#### NOVA SCOTIA

*Area and Population.*—Nova Scotia is a peninsula between 43° 25'–47° N. lat and 59° 40'–66° 25' W. long., and is connected with New Brunswick by a low fertile isthmus about thirteen miles wide. It comprises an area (with Cape Breton Island) of 21,068 square miles (325 miles of which consists of lakes, rivers and inlets of the sea); total population (estimated, 1968), 760,000.

*Government.*—The Government is administered by a Lieutenant-Governor, aided by an Executive Council and a Legislative Assembly of 46 members. Lieutenant-Governor, Hon. V. de Bolland,

*Finance.*—The revenue in 1967–68 was estimated at \$215,247,260 and the expenditure \$207,115,910; the funded debt (March 31, 1968) was \$580,136,000.

*Agriculture and Live Stock.*—According to the 1966 census Nova Scotia has a total land area of 23,275,000 acres, of which 1,851,895 acres are held as farm land. At the same census, the total number of occupied farms listed at 9,621. Of the total area in farm land, 314,143 acres are devoted to the production of principal field crops.

The Annapolis Valley section of Nova Scotia is famous for its fruit production, with an average crop of 3,000,000 bushels annually.

The number of live stock is estimated (1968) as follows: horses, 5,500; cattle and calves, 146,000; sheep and lambs, 38,000; hogs, 65,000; poultry, 2,793,000.

*Manufactures.*—The value of manufacturing shipments in 1967 exceeded \$598,155,000. Petroleum refining, fish products, primary steel, pulp and paper mills, and shipbuilding are the major industries in terms of output. The principal industrial centres are Sydney, Halifax, Trenton, Amherst, Truro and Yarmouth.

*Fisheries.*—The total landed value of the fisheries in 1968 was \$54,600,000, including lobsters, \$10,944,000; scallops, \$11,861,000; cod, \$7,364,000; haddock, \$6,356,000; and swordfish, \$3,728,000.

*Minerals.*—3,134,310 tons of coal were produced in 1968. Gypsum production was 4,201,395 tons, barite totalled 123,041 tons, salt output was 503,287 tons, anhydrite 269,961 tons and limestone 435,575 tons. Silver production exceeded 375,000 oz.; production of lead was 5,306,000 lbs. and of zinc 450,000 lbs. Cement production began in 1965, and reached 231,000 tons in 1968. Metallurgical grade limestone and dolomite totalled 530,000 tons and salt production reached a record of 404,000 tons. Preliminary figures show the total value of mineral output at just over \$58,000,000 in 1968.

*Principal Cities.*—CAPITAL, Ψ HALIFAX, population of Metropolitan area (1966) 198,193, one of the terminals of the Canadian National Railway, with a magnificent harbour, is one of the principal winter ports of Canada, and the entrepôt of a large trade with the West Indies, South America and Europe. One of the largest bridges in the British Commonwealth spans the harbour and connects the city of Dartmouth and surrounding area with the city of Halifax. A shipyard for the building of large ocean-going steamers, with a dry dock, is one of the leading industries; other cities and towns are Sydney, Glace Bay and New Waterford (see below), Truro (13,226), Amherst (10,551), New Glasgow (10,489) and Yarmouth (8,319).

#### CAPE BRETON ISLAND

*Cape Breton Island*, formerly a distinct Colony, was incorporated with Nova Scotia in 1819. It contains an area of 3,975 sq. miles, population (1966) 166,943. The chief city, Sydney (pop. 33,007), on the eastern coast, has valuable collieries in the neighbourhood and is the site of the third largest steel works in Canada. Glace Bay and New Waterford, also coal mining centres, have populations of 23,516 and 9,725 respectively. The Canadian National Railway provides service to the island. A large rail-highway causeway joins the island to the mainland.

#### ONTARIO

*Area and Population.*—The Province of Ontario contains a total area of 412,582 sq. miles, with a population (estimated April 1, 1969) of 7,425,000.

*Government.*—The Government is vested in a Lieutenant-Governor and a Legislative Assembly of 117 members elected for five years. The state of the parties in July, 1969, was 68 Progressive Conservatives, 28 Liberals, and 20 New Democratic Party (one vacancy).

**Finance.**—The estimated revenue and expenditure for the year ended March 31, 1969, balanced at \$338,654,260. The net public debt (March 31, 1968) was \$53,388,000.

**Agriculture and Live Stock.**—In an average crop year, Saskatchewan produces some 68 per cent. of Canada's wheat. Wheat production in 1968 was 370,000,000 bushels. Cash income from the sale of farm products in 1968 was estimated at \$905,000,000. Livestock population in June, 1968, included 2,283,000 cattle, 508,000 hogs and 128,000 sheep. Income from livestock sales was \$198,295,000. Forest products were estimated at \$16,819,000 for 1968, and fishing and trapping produced \$6,000,000. The total commercial fishing catch was valued at \$1,700,000.

**Industries.**—In 1968 the gross value of commodity production was estimated at \$2,495,000,000; the value of factory shipments (preliminary) \$477,100,000; private and public investment reached \$1,210,000,000 and retail trade was estimated at \$1,071,000,000.

Mineral production for 1968 was estimated at \$371,000,000; oil accounted for \$211,300,000 and metallic minerals some \$45,400,000. Potash production increased to \$74,000,000.

**Capital.**—Regina. Population (estimated, 1969), 140,000. Other cities: Saskatoon (124,950), Moose Jaw (33,500), Prince Albert (28,000), Swift Current (15,000) and Yorkton (14,000).

### THE ARCTIC OCEAN

The Arctic Ocean consists of a deep over 2,000 fathoms, the southern margin of which there is a broad continental shelf with numerous islands. Into this deeper there is only one broad channel, about 700 miles, between Greenland and Scandinavia. Behring Strait is only 49 miles wide and 27 fathoms deep. The southern boundary of the Arctic Ocean is the Wyville-Thomson and Faeroe-Icelandic submarine ridge, which separates the North Atlantic from the Norwegian and Greenland Seas. The Norwegian Deep lies between Norway and Jan Mayen and Iceland; it exceeds 1,500 fathoms. The Greenland Deep, of similar depth, lies between Spitsbergen and Greenland. These two depressions are separated by a somewhat deeply submerged ridge from the east of Jan Mayen to Bear Island, south of Spitsbergen. A shallow ridge from the north-west of Spitsbergen to Greenland separates the Greenland Sea from the deep North Polar Basin. This extends from the north of Spitsbergen and Franz Josef Land to the north of the New Siberia Islands and of the North American Arctic Archipelago. Another more shallow depression is Baffin Bay, between Spitsbergen, Norway and Novaya Zemlya, and the Kara Sea, between Novaya Zemlya and the Siberian coast, respectively below 200 and 100 fathoms. The total area of the Arctic Sea is about 5.5 million square miles, of which 2.3 million square miles are probably covered with floating ice.

#### PHYSICAL FEATURES

Australia was separated from the other great land surfaces at a remote period, and exhibits therefore some very archaic types of fauna and flora. It may be regarded as the largest island or the smallest continent, being surrounded by the following waters:—North, the Timor and Arafura Seas and Torres Strait; East, Pacific Ocean; South, Bass Strait (which separates Tasmania from the Continent) and Southern Ocean; and West, Indian Ocean. The total area of the mainland is 2,941,526 square miles, the island of Tasmania having an area of 26,383 square miles, and making a total area for the Commonwealth of 2,967,909 square miles. The coast-line of Australia is approximately 12,446 miles (including Tasmania, 900 miles), and its geographical position is between  $10^{\circ} 41' - 39^{\circ} 8'$  ( $43^{\circ} 39'$ , including Tasmania) South latitude and  $113^{\circ} 9' - 153^{\circ} 39'$  East longitude; the greatest length East to West is 2,500 miles, and from North to South 2,000 miles (2,300 miles, including Tasmania). Its nearest distance from England is about 11,000 miles.

From a physical standpoint the continent of Australia is divisible into an eastern and a western area, the former containing a regular coast-line with a good harbourage, roadsteads, rivers, and inland waterways, and a greater development of fauna and flora; the latter a broken coast-line with estuaries rather than rivers, and but little inland water communication. The whole continent is, roughly speaking, a vast, irregular, and undulating plateau, part of which is below the level of the sea, surrounded by a mountainous coast-line, with frequent intervals of low and sandy shore on the north, west and south. The Great Barrier Reef extends parallel with the East coast of Queensland for 1,200 miles, at a distance of about 60 miles from the mainland. A large part of the interior, particularly in the west, consists of sandy and stony desert, covered with spinifex, and containing numerous salt-marshes, though reaches of grass-land occur here and there. The geological formation of Australia is remarkable for its simplicity and regularity; the strike of the rocks is, with a single exception, coincident with the direction of the mountain-chains, from N. to S.; and the tertiary formation to be found in the N., S., and W. develops in the S.E. into a gigantic tertiary plain, watered by the Darling and the Murray Rivers. Nearly all round the coast, however, and in eastern and south-eastern Australia, stretching far inland from the coastal range, is a fertile area devoted partly to agriculture, partly to dairying, while the inland districts particularly are admirably adapted to the rearing of sheep. The most extensive mountain system takes its rise near the S.E. point, and includes a number of ranges known by different names in different places, none of them being of any great height. The highest peak, Mount Kosciusko, in New South Wales, reaches an elevation of more than 7,300 feet. The principal rivers are the Murray, which debouches on the south coast, after receiving the waters of its tributaries the Murrumbidgee, Lachlan, and Darling, in the S.E. part of the continent; on the east coast, the Hawkesbury, Hunter, Clarence, Richmond, Brisbane, Mary, Burnett, Fitzroy, and Burdekin; on the west, the Swan, Murchison, Gascoyne, Ashburton, Fortescue, De Grey, and Fitzroy; on the north, the Drysdale, Ord, Victoria, and Daly; and the Roper, Flinders, and Mitchell, which debouch into the Gulf of Carpentaria.

The scarcity of the natural water supply in the interior has, however, been mitigated by successful borings and by the construction of large dams. The work of conserving the vast quantities of water which run to waste in the wet season is being vigorously prosecuted by a system of locks and weirs on some of the rivers. A major development work in progress is the use of the waters of the Snowy River in south-eastern New South Wales for hydro-electricity generation and irrigation. Minerals comprise bauxite, coal, copper, gold, gypsum, iron, lead, limestone, mineral sand, pyrite, silver, uranium, and zinc in large quantities, antimony, asbestos, barite, beryllium, chromite, dolomite, feldspar, magnesite, manganese, mica, salt, silica, talc, tantalite-columbite, tin, tungsten, &c., and there are abundant supplies of building stones, clays, &c. Potential supplies of metals and minerals have not yet been fully tested.

Australia now has three commercial oilfields, Moonie and Alton in Queensland (connected by pipeline to Brisbane, Queensland) and at Barrow Island, Western Australia, together capable of supplying about 8 per cent. of the nation's requirements. The oilfield at Barrow Island was commissioned in April, 1967, when the first shipment of oil was despatched to Kwinana, Western Australia, for refining. In addition, small amounts of oil (some 200 barrels per day) are produced from individual wells in the Roma and Bennett fields in Queensland.

Natural gas deposits have been found in Queensland, Western Australia, Northern Territory, South Australia (Gidgealpa and Moomba) and in the Gippsland Basin off the coast of Victoria and commercial development of some of them is planned. Large iron deposits are being developed in the north of Western Australia.

*Climate.*—The seasons are: summer, December to February; autumn, March to May; winter, June to August, spring, September to November. Australia is less subject to extremes of climate than are regions of similar size in low parts of the world, though the climate varies considerably from the tropical to the alpine.

### GOVERNMENT

The Commonwealth of Australia was constituted by an Act of the Imperial Parliament dated July 9, 1900, and was inaugurated Jan. 1, 1901. The Government is that of a Federal Commonwealth within the British Commonwealth of Nations, the executive power being vested in the Sovereign (through the Governor-General), assisted by a Federal Ministry of twenty-six Ministers of State. Under the Constitution the Federal Government has acquired and may acquire certain defined powers as surrendered by the States, residuary legislative power remaining with the States. Trade and customs passed under Federal control, immediately on the establishment of the Commonwealth; posts, telegraphs and telephones, naval and military defence, lighthouses and quarantine on proclaimed dates. The Federal Government also controls such matters as social services, patents and copyrights, naturalization, navigation, &c. The right of a State to legislate is not abrogated except in connection with matters exclusively under Federal control, but where State law is inconsistent with a law of the Commonwealth the latter prevails to the extent of the inconsistency.

*FLAG.*—Blue ground, with Union Jack in top corner of hoist above large seven pointed star; Southern Constellation on fly. *AUSTRALIA DAY.*—January 26.

### THE LEGISLATURE

The Parliament of the Commonwealth of Australia consists of the Queen, ■ Senate and a House of Representatives. The Constitution provides that the number of members of the House of Representatives shall be, as nearly as practicable, twice the number of Senators. An Act, assented to on May 18, 1948, provided for an increase in the number of members of the Senate from thirty-six to sixty, and as ■ result the number of members of the House of Representatives was increased from 74 to 123. There are now 124 members in the House of Representatives, including one member each for the Northern Territory and the Australian Capital Territory. Members of the Senate are elected for six years by universal suffrage, half the members retiring every third year and each of the six States returning an equal number. The House of Representatives, similarly elected for a maximum of three years, contains members proportionate to the population, with ■ minimum of five members for each State. The present state of parties in the House of Representatives is Liberal 59, Country Party 21, Labour 42, Independent 1 and Independent Liberal, 1. Members of both Houses receive \$A9,500 per annum, with allowances and free air and rail travel on parliamentary business.

President of the Senate, Senator Hon. Sir Alistair McMullin, K.C.M.G.

Clerk of the Senate, J. R. Odgers, C.B.E. \$A13,257

### DEFENCE

Subject to the authority of Cabinet the Minister and Department of Defence are responsible for the formulation and general application of a unified defence policy relating to the Defence Forces and their requirements. Separate Ministers and Departments of the Navy, Army and Air are responsible for the administration of their respective Services in accordance with defence policy. The Minister and Department of Supply are responsible for the supply, manufacture and overhaul of services and goods, including munitions, for the Defence Forces and for defence research and development, in accordance with approved policy.

#### Royal Australian Navy

Under the Naval Defence Acts, 1910-68, the naval forces of the Commonwealth are administered by a Naval Board of Administration responsible to the Minister of State for the Navy.

The Royal Australian Navy consists of ■ Anti-Submarine Warfare support carrier, ■ troop-transports, 6 destroyers, 4 destroyer escorts, 3 submarines, a destroyer tender, a fleet oiler, 20 patrol boats, 1 survey ship, 1 coastal survey ship, 2 oceanographic research ships, a destroyer and destroyer escort employed as training ships, 2 minesweepers, ■ mine-hunter and support craft. In reserve there are 3 minesweepers, 1 destroyer, 2 destroyer escorts, 3 miscellaneous accommodation ships and several support craft.

One submarine is being built in the United Kingdom and two destroyer escorts in Australia.

The strength of the Royal Australian Navy on May 31, 1969, was 1,924 officers and 15,036 sailors.

#### Army

Under the Minister for the Army, the Military Board is charged with the control and administration of all matters relating to the Australian Military Forces. Command and control is exercised through the framework of Army Headquarters and Commands geographically related to States—Northern Command, Eastern Command, Southern Command, Central Command, Western Command, Tasmania Command, Northern Territory Command and Papua and New Guinea Command.

Since 1957, the basis of the readiness of the Army has been with emphasis on South-East Asia ■ an area of primary strategic importance to Australia. The strength of the Regular Army, including National Servicemen, was approximately 44,000 at the end of May 1969. The field force organization has been expanded with emphasis on ■ substantial increase in the combat element and high priority logistic units. The aim has been to give greater flexibility in deployment to meet the present requirement for "cold" and limited warfare with light, air-portable formations.

Compulsory selective service to increase the numbers in the Regular Army applies to young men in their 21st year. The number inducted at present is 8,400 a year. Recruits serve two years

full time, followed by three years in the Reserve. They are liable for overseas service.

A volunteer Regular Army Emergency Reserve of approximately 1,000 former Regular Army members has been formed and can be called out when the Governor-General considers it desirable.

The strength of the Citizen Military Forces was approximately 35,000 and the strength of the Army cadets 44,830. In addition, the Pacific Islands Regiment has two battalions and supporting units; total strength, about 2,500.

Currently about 8,400 Australian Army personnel are serving overseas in Malaysia and Vietnam.

#### Air

The total strength of the R.A.A.F. on June 1, 1969, was 22,575. There were 16 flying squadrons, 5 maintenance squadrons, 19 training units, 3 aircraft depots, one airfield construction squadron, 4 control and reporting units, 5 auxiliary squadrons, 6 university squadrons and 7 A.T.C. squadrons. Five flying squadrons, one maintenance squadron and supporting personnel were serving outside Australia in the South-East Asian theatre.

### COMMONWEALTH FINANCE

Revenue and expenditure of the consolidated fund balanced at \$A.5,760,480 in 1967-68, compared with \$5,227,721 in 1966-67. Gross Loan Fund expenditure on works totalled \$A162,637 in 1967-68 (1966-67, \$A155,185).

The unit of Australian currency is the \$A. Rates of exchange in June, 1969, were \$A2:1429 = £1 (buying) and \$A2:1514 (selling).

#### DEBT

The total of the Commonwealth Debt on December 31, 1968, was \$A4,444,500,000. Adding the indebtedness of the States, viz. \$A8,471,200,000, the "face" or "book" value of Australian government securities on issue amounted (December 31, 1968) to \$A12,915,700,000.

The Debt per head of population at Dec. 31, 1968, was \$A1,060 90.

### SOCIAL SECURITY BENEFITS

Age and Invalid Pensions and allowances (maximum weekly rates—subject to a means test):—

(a) Standard Rate—payable to a single, widowed or divorced pensioner, a married man whose wife receives a wife's allowance or a married pensioner whose spouse is not receiving a pension, benefit or tuberculosis allowance, \$A14.

(b) Married Rate—married couple, both pensioners, \$A25 each. For a married person whose spouse is receiving a benefit, tuberculosis allowance or a Service pension the rate is also \$A12.50.

(c) Allowances—Wife's allowance, \$A7; guardian's allowance, \$A4; supplementary allowance (available for standard rate pensioners who pay rent or pay for board and lodging or for lodging), \$A2. Additional pension is payable (subject to means test) for each dependent child of a pensioner. Dependent child means a child under 16 years or a full-time student child aged 16 to 21 years if wholly or substantially dependent on the pensioner. The maximum rate of additional pension is \$A2.50 for each eligible child.

Widows' Pensions (maximum weekly rates) (subject to a means test).—"A" class widows (having one or more children)—\$A18 (incl. \$A4 mother's allowance) plus \$A2.50 for each child under 16 years or until 21 years if it is receiving full-time education; "B" class widows (not less than

50 years of age, without dependent children, or on reaching the age of 45 years having had dependent children) \$A12.50; "C" class widows (under 50 years, without children, but in necessitous circumstances within the 26 weeks following their husbands' deaths) \$A12.50. Supplementary assistance of \$2 a week is also payable to a widow pensioner who pays rent, or pays for board and lodging or for lodging.

Maternity Allowance.—Where there are no other children under 16 years, \$A30, where there are one or two other children, \$A32; where there are three or more children, \$A35. An extra \$A10 is paid for each additional child in multiple births.

Child Endowment.—For children under 16 years in a family—\$A0.50 for the first child; \$A1.00 for the second child; \$A1.50 for the third child; and then increasing by cumulative amounts of 25 cents, making \$A1.75 for the fourth child, \$A2.00 for the fifth child and so on. For each full-time student child, aged 16 to 21 years, in a family the rate is \$A1.50. \$A1.50 is also payable for each child under 16 years or eligible student child in an approved Institution.

Unemployment, Sickness and Special Benefits (subject to a means test)—\$A8.25 per week for a married person or unmarried adult, plus \$A6 for a dependent spouse (or unpaid housekeeper if claimant has one or more dependent children under 16 years and no such benefit is payable for his wife), plus \$A1.50 for each child under 16 years. For unmarried persons aged 16 and 17 years the rate is \$A3.50 and from 18 to 20 years, \$A4.75.

Hospital Benefits.—Insured patients in approved hospitals, \$A2 a day; eligible pensioners and their dependents in public wards of public hospitals, \$A5 a day.

Uninsured patients, in approved hospitals, other than pensioners, \$A0.80 a day; a benefit of \$A2 a day is payable for a patient in an approved nursing home whether or not he is a member of a hospital insurance organization. A supplementary benefit of \$A3 a day is also payable for intensive care patients in approved nursing homes.

Tuberculosis Benefits (subject to a means test).—Single person, \$A17.25 per week, or \$A14 a week if receiving free hospital treatment; married person with dependent spouse, \$A28.25 a week plus \$A2.50 for each dependent child.

Total..... 25,146 \$A526,779,000  
(a) Excludes certain government subsidies aggregating \$A13,230,000.

The *Trans-Australian (Government) Railway*, 4 ft. 8½ in. gauge, connects Kalgoorlie, W.A., with Port Pirie, S.A. (1,108 miles) and so forms a link (including Kalgoorlie-Perth 372 miles) between Perth and Brisbane, Q., a total length of 3,314 miles.

The gross earnings of all Government lines in 1967-68 were \$A526,779,000, working expenses \$A499,872,000, and net earnings \$A26,906,000. In 1967-68 passenger journeys numbered 452,818,000 and 71,061,000 tons of goods and livestock were carried. There are 268 miles of electrified line in New South Wales and 263 miles in Victoria.

*Tramways, Trolley-buses and Omnibuses.*—The total route mileage on June 30, 1968, under Government and semi-Government control was 222 for trams, 64 for trolley-buses and 6,794 for omnibuses.

*Shipping.*—The entrances and clearances (one entrance and one clearance per voyage, irrespective of the number of ports visited) of vessels engaged in overseas trade at the various Australian ports in 1967-68 were: entered 3,972 (30,109,000 tons); cleared 4,013 (30,278,000 tons).

The total, including local shipping, entering the ports of the capital cities during 1967-68 was: Sydney 3,832 vessels of 15,208,000 tons, Melbourne 2,856 (12,294,000), Brisbane 1,485 (6,638,000), Adelaide 1,434 (5,233,000), Fremantle 1,211 (6,886,000) and Hobart 544 (1,529,000). At June 30, 1968, the Australian trading fleet vessels 200 tons gross and over comprised 141 vessels with a total 811,784 tons gross. Of these, 127 vessels totalling 740,400 tons gross were coastal trading vessels.

*Posts and Telegraphs.*—In the year ended June 30, 1968, there were 7,516 post offices dealing with 2,203,089,900 letters, 411,091,000 packets and newspapers, 12,908,000 registered articles and 20,783,000 parcels. 21,047,000 internal telegrams were despatched and 2,359,000 international telegrams received and despatched. At June 30, 1968, there were 6,358 telephone exchanges with 2,358,837 services and 3,392,436 instruments.

*Broadcasting and Television.*—On June 30, 1968, the Australian Broadcasting Commission operated 88 stations, including 17 short-wave stations in Australia. Privately owned commercial broadcasting stations totalled 114. On June 30, 1968, there were in force in Australia 2,579,860 listeners' licences, including 2,092,612 combined broadcast and television receiving licences. On June 30, 1968, 81 television stations were in operation, 23 in the various State capitals (including Canberra), and 58 in country areas. Television licences in force at June 30, 1968, numbered 2,519,392 (including combined licences, as above).

*Motor Vehicles.*—At June 30, 1968, there were 4,344,746 motor vehicles registered in Australia. These comprised 3,349,087 cars and station wagons, 88,477 motor cycles, and 907,182 commercial vehicles; revenue derived from motor registration fees and motor tax, &c. in 1967-68 was \$206,154,000.

*Civil Aviation.*—At June 30, 1968, there were 50 recognized landing grounds, including 381 licensed public aerodromes, in the various States and Territories, and 13 flying boat bases and alighting areas. Aircraft on the Australian Register at June 30, 1968, numbered 3,356. Mileage flown on regular internal air services in 1967-68 was 56,724,000 and overseas services owned by Australia, 31,914,000.

## CAPITAL

CANBERRA, the Capital of the Australian Commonwealth, is 203 miles by rail (150 by air) from Sydney, N.S.W. It is situated in the Australian

Capital Territory which was acquired in 1911 from the State of N.S.W. The original area was 911 sq. miles, increased in 1915 by the acquisition of 28 sq. miles at Jervis Bay. Canberra contains the Australian (1914-18 and 1939-45) War Memorial, Parliament House, National Library, Commonwealth Offices, and the Australian National University, and is connected with the N.S.W. railway system by a line (5 miles) to Queanbeyan and by good roads to Melbourne and Sydney. Frequent air-services also link it with the State capitals. The population of Canberra city district at December 30, 1968, was 114,450. Total population of the Australian Capital Territory at December 30, 1968, was 117,200.

## THE NORTHERN TERRITORY

The Northern Territory has a total area of 520,280 square miles, and lies between 129°-138° East longitude and 11°-26° South latitude. The administration was taken over by the Commonwealth on January 1, 1911, from the government of the State of South Australia. The headquarters of the Administrator are at Darwin. Under the provisions of the Northern Territory (Administration) Act a Legislative Council has been established. The Council, which has power to make ordinances for the peace, order and good government of the Territory consists of six official members, three non-official members and eight elected members. The official and non-official members are appointed by the Governor-General on the recommendation of the Administrator, and the elected members are elected by adult franchise. The President of the Legislative Council is elected by the Council from among the non-official and elected members. Ordinances passed by the Council must be presented to the Administrator who may declare his assent, withhold his assent or reserve the ordinance for the Governor-General's pleasure. The Administrator may return an ordinance to the Legislative Council with recommended amendments; but the ordinance with or without amendments must be again presented to the Administrator for assent. Certain ordinances must be reserved for the Governor-General's pleasure. The Governor-General may return an ordinance with recommended amendments and this ordinance with or without amendments shall again be presented to the Administrator, who shall reserve it for the Governor-General's pleasure. Ordinances assented to by the Administrator may be disallowed by the Governor-General, and the Governor-General may return ordinances to the Administrator with recommended amendments.

The population of the Northern Territory (including aborigines) at Dec. 31, 1968, was estimated to be 64,000. The number of aborigines at the Census of 1966 was 21,119.

Beef cattle raising is the chief pastoral activity, and the staple industry of the Territory. On June 30, 1967, there were 1,097,000 cattle, 38,000 horses and 8,000 sheep in the Territory. The northern part of the Territory is capable under improved pastures of carrying successfully and profitably a great expansion of the beef cattle industry. Export abattoirs established at Darwin and Katherine in 1963 have created stable markets for pastoralists. A cold store has been constructed in Darwin. Hides and skins exported from the Northern Territory during the year ended June 30, 1966, were as follows:—cattle 48,586, sheep 3,500, crocodile 1,752 and buffalo 762.

Agriculture in the Northern Territory hitherto has been confined to small farm settlements in the Darwin, Katherine, Daly River, Alice Springs,

Adelaide River and Pine Creek areas. Principal crops grown in the Territory are grain sorghum, vegetables and fruit (pineapples, paw-paws, bananas and citrus). However, extensive experiments are being carried out, particularly in the area between Darwin and Katherine to determine what crops ■ be successfully grown in the Northern Territory on a commercial scale. Experimental work on pastures is also being undertaken.

The mineral industry has always contributed largely to the income of the Northern Territory and the value of mineral production exceeds that of the beef cattle industry. The principal minerals produced are copper, gold, uranium, manganese, iron-hematite, mica and tin. In 1966-67, the total value of minerals produced (excluding uranium) was \$A20,500,000.

Tourism is an important industry, and in 1966-67 about 48,000 tourists visited the Territory.

The chief rivers of the Territory are Victoria, Adelaide, Daly, Roper, South Alligator, McArthur, Liverpool, and Goyder. The first six are navigable, from 40 to 100 miles from their entrance, for boats drawing 4 feet. A limited amount of pearling is carried on from Darwin. The mother of pearl shell is of good quality.

The railway extends from Darwin to Larrimah (316 miles) and Alice Springs is connected by rail with Adelaide. A good bitumen road (the Stuart Highway) links Darwin with Alice Springs (956 miles) and another bitumen road, the Barkly Highway, runs from this road near Tennant Creek to Mt. Isa in Queensland (403 miles). The Commonwealth Government's programme for reconstructing nine other roads (1,600 miles, costing \$28,000,000) in the Northern Territory, to such a standard as will facilitate the movement of beef cattle by large road trains, is already well advanced.

Regular shipping services operate to Darwin from the Eastern States and Western Australia and overseas ships call frequently to discharge general cargoes and petroleum products and to load export cargoes. There is also a service from Brisbane to Gulf of Carpentaria ports. During 1966-67, 275 vessels entered Darwin and 280,521 tons of cargo were handled.

There are regular air services between Darwin and the capital cities and two airlines operate internal services.

ψ Darwin (estimated population of the urban area at the 1966 Census, 20,413) occupies an elevated site 97 ft. above sea level, overlooking Port Darwin. Alice Springs is situated in the MacDonnell Ranges. Climate of the Northern Territory ranges from dry in the south to wet-monsoonal in the north.

*Administrator of the Northern Territory* (Darwin), R. L. Dean, C.B.E.

*Judges of the Supreme Court*, Hons. A. B. K. I. Bridge; R. A. Blackburn; E. A. Dunphy; P. E. Joske, C.M.G.; R. A. Smithers.

### TERRITORY OF PAPUA AND NEW GUINEA

The *Papua and New Guinea Act, 1949*, which came into force on July 1, 1949, approved the placing of the Territory of New Guinea under the Trusteeship system of the United Nations and the agreement by which Australia became the sole administering authority. It provides for the Government of the Territory of Papua and the Territory of New Guinea in an Administrative Union.

In 1968 membership of the House of Assembly was increased to 94 members. The number of open electorates was increased to 69 and 15 electorates were created for candidates having prescribed minimum educational qualifications. There are 20 official members appointed by the

Governor-General ■ the nomination of the Administrator.

The House of Assembly elects its own Speaker and a Nominations Committee to select 15 elected members ■ nominees for Ministerial office. The Australian Minister for External Territories, after receiving the recommendation of the Administrator, may then appoint from this list, 7 Ministerial members and 8 Assistant Ministerial Members. The Ministerial Members are responsible in the House for the functions of seven departments within the Administration while the Assistant Ministerial Members have more limited functions. The Ministerial members have seats on the Administrator's Executive Council which also includes 3 official members and an Administrator's nominee from the elected members of the House of Assembly. The Council advises on matters which the Administrator is required by ordinance to refer to it and on any other matters which he may consider appropriate.

The Territory of Papua, which was placed under the authority of the Commonwealth of Australia in 1906, comprises the south eastern portion of the island of New Guinea, together with the Trobriands, Woodlark, D'Entrecasteaux and Louisiade groups of islands and is separated from Australia by Torres Strait. The Territory lies wholly within the Tropics, between the 141st and the 157th meridians of east longitude and the 5th and 12th parallels of south latitude. The total area is 86,100 sq. miles, of which 83,325 are on the mainland. The non-indigenous population of Papua and New Guinea at June 30, 1968, was 40,363; the indigenous population was 2,276,632, of whom nearly 900,000 live in the Highlands Districts of the Territory. Owing to heavy rainfall Papua is well watered in most parts and possesses a large number of streams. The best-known rivers are the Fly (730 miles long, including its tributary, the Strickland, and navigable by vessels with a draught of up to 8 ft. for about 500 miles) and the Purai. The climate is favourable to the cultivation of tropical products.

The Trust Territory includes (1) *North-Eastern New Guinea*, the northern section of east New Guinea between 2° 35'–8° S. lat., and 142°–148° E. long., with ■ total area of 69,095 sq. miles. This includes adjacent islands (Manam, Karkar, Long, Bagabag, Schouten and D'Urville or Kairiru Island). The chief centres are Lae, Bulolo, Finschhafen, Wau, Madang, Wewak, Goroka and Mount Hagen; (2) *Bismarck Archipelago*, including New Britain, New Ireland, and islands adjacent to both; (3) *Admiralty Islands* (chief town, Lorengau, in Manus Island); and (4) the two northernmost *Solomon Islands* (Bougainville and Buka with adjacent islands). The estimated area of the islands is 23,065 square miles, making ■ total area for the territory of 92,160 square miles.

The principal river in N.E. New Guinea is the Sepik, 690 miles long, and navigable for about 300 miles by vessels with a draught of up to 13 ft.

The most important road links Lae with the populous and developing highlands. This road is being upgraded and improvements have been completed to Goroka. Other major roads are between Lae and Wau and Oro Bay (being extended beyond Kokoda), and in the hinterlands of Port Moresby, Rabaul, Madang and Wewak.

Trans-Australian Airlines and Ansett-A.N.A. operate regular air services from Australia to Port Moresby. Internal scheduled and charter services are provided by T.A.A., Ansett Mandated Airlines, Papuan Air Lines and other companies. There are regular services to the British Solomon Islands and to West Irian. Qantas calls at Port Moresby on its Far East Service between Australia and Manila.

Several shipping companies operate regular cargo and passenger services between the Territory and Australia, Europe and the Far East. In 1967-68 overseas shipping entries at the eight main Territory ports totalled 1,615 ships, and over a million tons of cargo were handled through these ports.

The climate is hot and moist along the coast, becoming cooler and dryer as the higher altitudes are reached. It is suitable for the growth of all tropical products. At present the main products are copra, coffee, cocoa, rubber and timber; tea, oil palm, pyrethrum and passion fruit are expected to increase in importance (particularly plywood). The mining of gold has declined considerably, but copper mines are being established on Bougainville and are expected to provide one of the largest sources of income for the territory.

**SEAT OF ADMINISTRATION.**—Administrative Headquarters of the Territory of Papua and New Guinea is  $\Psi$ Port Moresby, the principal port and town of Papua (non-indigenous population, June 30, 1966 (preliminary census figures), 9,865).  $\Psi$ Rabaul (in New Britain), is the largest port in the Territory and second town, while  $\Psi$ Lae (in Morobe District) is the third port and town, being the outlet for the Morobe plywood and gold mining district and for the Highlands region, and one of the principal air centres in the Territory.

Administrator, D. O. Hay, C.B.E., D.S.O.

Port Moresby is 1,800 miles from Sydney.

#### NORFOLK ISLAND

This island is about 1,035 miles from Sydney and 400 miles north of New Zealand. It is about five miles in length by three in breadth, and was discovered by Capt. Cook in 1774. Its area is 8,528 acres and circumference 20 miles. The climate is mild, with a mean temperature of 68° and an annual rainfall of 53 inches. The descendants of the mutineers of the *Bounty* were brought here from Pitcairn Island in 1856. The island is a popular tourist resort, and a large proportion of the population depends on tourism and its ancillaries for employment. Population (estimated, June 30, 1967), 2,000.

Seat of Government and Administration Offices, Kingston. The Norfolk Island Council advises the Administrator on policy and the control of public finance.

An airfield was constructed in 1943, and bi-weekly air services operate from Australia and New Zealand.

Administrator, Air Cdre. R. N. Dalkin, D.F.C. (R.A.A.F., ret.).

Deputy Administrator and Official Secretary, J. G. Cowap.

#### COCOS (KEELING) ISLANDS

The Cocos (Keeling) Islands were declared a British possession in 1857. In 1878 they were placed under the control of the Governor of Ceylon and were later annexed to the Straits Settlements and incorporated with Singapore. On Nov. 23, 1955, their administration was transferred to the Commonwealth of Australia. They are two separate atolls comprising some 27 small coral islands with a total area of about 5½ square miles, situated in the Indian Ocean in latitude 12° 5' South and longitude 96° 53' East. The main islands are West Island (the largest, about 6 miles from north to south) on which are the aerodrome and the administrative centre, and most of the European community; Home Island, the headquarters of the Clunies Ross Estate; Direction Island, on which is situated the Department of Civil Aviation's marine base; and Horsburgh. North Keeling Island, which forms part of the Territory, lies about 15 miles to the north of the group and has ■ inhabitants. The climate is equable and pleasant, being usually under the influence of the south-east trade winds for about three-quarters of the year. A fortnightly air charter service operates between Perth and the Cocos Islands. Population (estimated, 1967), 1,000.

Official Representative, J. R. Burbrook.

#### CHRISTMAS ISLAND

Until the end of 1957 ■ part of the then Colony of Singapore. Christmas Island was administered as ■ separate colony until October 1, 1958, when it became Australian territory by Order in Council. It is situated in the Indian Ocean about 224 miles S. of Java Head and 529 miles E. of the Cocos (Keeling) Islds. Area, 52 sq. miles. Population (estimated, June 30, 1967), 3,653. The island is densely wooded and contains extensive deposits of phosphate of lime.

Official Representative, Brig. L. D. King, O.B.E., T.D.

#### THE ANTARCTIC CONTINENT

The area of the Antarctic Continent is estimated at approximately 5 million square miles. The greater part of the coastline has been charted with varying degrees of accuracy, but considerable portions of the interior have not been visited, or at best have been seen only from the air. The question of territorial rights is complicated and there is no general international agreement thereon.

The *Australian Antarctic Territory* ■ established by an Order in Council, dated February 7, 1933, which placed under the government of the Commonwealth of Australia all the islands and territories, other than Adélie Land, which are situated south of the latitude 60°S. and lying between 160° E. longitude and 45° E. longitude. The Order came into force on August 24, 1936, after the passage of the Australian Antarctic Territory Acceptance Act, 1933. The boundaries of Terre Adélie were definitely fixed by a French Decree of April 1, 1938, as the islands and territories south of 60° S. latitude lying between 136° E. longitude and 142° E. longitude. The Australian Antarctic Territory Act 1954 declared that the laws in force in the Australian Capital Territory are, ■ far as they are applicable, in force in the Australian Antarctic Territory.

On February 13, 1954, the Australian National Antarctic Research Expeditions (ANARE) established a station on MacRobertson Land at latitude 67° 36' S. and longitude 62° 53' E. The station ■ named Mawson in honour of the late Sir Douglas Mawson and was the first permanent Australian station to be set up on the Antarctic continent. Meteorological and other scientific research is conducted at Mawson, which is the centre for coastal and inland survey expeditions.

A second Australian scientific research station was established on the coast of Princess Elizabeth Land on January 13, 1957, at latitude  $68^{\circ} 35' S.$  and longitude  $77^{\circ} 59' E.$  The station was named Davis in honour of the late Captain John King Davis of Melbourne, who commanded a number of famous Antarctic ships. The station was temporarily closed down in January 1965. In February, 1959, the Australian Government accepted from the United States Government custody of Wilkes Station in Vincennes Bay, at latitude  $66^{\circ} 15' S.$  and longitude  $110^{\circ} 33' E.$  A new station of advanced design is being constructed close to Wilkes which it will eventually replace. ANARE have also operated a station, since the 1947-48 Antarctic season, at Macquarie Island, approximately 850

miles south-east of Hobart. Macquarie Island is a dependency of the State of Tasmania.

On December 1, 1959, Australia signed the Antarctic Treaty with Argentine, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the U.S.S.R., the United Kingdom and the United States, Poland, Czechoslovakia and Denmark have subsequently acceded to the Treaty. The Treaty reserves the Antarctic area south of  $60^{\circ} S.$  latitude for peaceful purposes, provides for international co-operation in scientific investigation and research, and preserves, for the duration of the Treaty, the *status quo* with regard to territorial sovereignty, rights and claims. The Treaty came into force on June 23, 1961.

For other Commonwealth dependencies in the Antarctic see New Zealand, p. 736.

## STATES OF THE COMMONWEALTH OF AUSTRALIA

### NEW SOUTH WALES

The State of New South Wales is situated entirely between the 28th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and comprises an area of 309,433 square miles (exclusive of 939 square miles of Australian Commonwealth Territory which lies within its borders).

**POPULATION.**—The estimated population at December 31, 1968, was: Males, 2,222,900; Females, 2,207,300. Total, 4,430,200.

#### Births, Deaths and Marriages.

Year	Births	Deaths	Marriages
1965	78,069	38,949	35,276
1966	77,758	40,546	35,575
1967	78,841	39,613	37,977
1968	81,696	41,803	39,213

**Vital Statistics.**—Annual rate per 1,000 of mean population in 1968:—Births, 18.62; Deaths, 9.53; Marriages, 8.94. Deaths under 1 year per 1,000 live births, 18.67.

#### Religions.

The members of the Church of England in New South Wales, according to the Census of 1966, number 1,622,066. Roman Catholic (including "Catholic") 1,174,779. Presbyterian 353,084. Methodist 305,733. Congregational 23,017. Baptist 55,774. Orthodox 96,606. Lutheran 30,019. Salvation Army 17,368, and Hebrew 25,913. The religion of 382,447 persons was not stated in the census schedules.

#### PHYSIOGRAPHY.

Natural features divide the State into four strips of territory extending from north to south, viz., the Coastal Divisions; the Tablelands, which form the Great Dividing Range between the coastal districts and the plains; the Western Slopes of the Dividing Range; and the Western Plains. The highest points are Mounts Kosciusko, 7,328 feet, and Townsend, 7,266 feet. The coastal district is well watered by numerous rivers flowing from the ranges into fertile flats which form their lower basins. The western portion of the State is watered by the rivers of the Murray-Darling system and immense reservoirs have been constructed for irrigation purposes, and there are many artesian bores. The Darling, 1,702 miles, and the Murrumbidgee, 981 miles, are both tributaries of the Murray, part of which forms the boundary between the States of New South Wales and Victoria. Other inland rivers are: Lachlan, Bogan, Macquarie, Castlereagh, Namoi and Gwydir.

**Climate.**—New South Wales is situated entirely in the Temperate Zone. The climate is equable and very healthy. At the capital (Sydney) the average mean shade temperature is  $63^{\circ}$ . The

mean (shade) temperature ranges for the various divisions of the State are as follows: coastal,  $60^{\circ}$  in the south to  $69^{\circ}$  in the north; northern and central tableland,  $53^{\circ}$  to  $62^{\circ}$ ; southern tableland,  $44^{\circ}$  to  $57^{\circ}$ ; and for the rest of the State (western slope, central plains, Riverina and western),  $60^{\circ}$  in the south to  $69^{\circ}$  in the north.

#### GOVERNMENT.

New South Wales was first colonized by a British possession in 1788, and after progressive settlement a partly elective legislature was established in 1843. In 1855 Responsible Government was granted, the present Constitution being founded on the Constitution Act of 1902. New South Wales federated with the other States of Australia in 1901. The executive authority of the State is vested in a Governor (appointed by the Crown), assisted by a Council of Ministers.

#### GOVERNOR.

#### THE LEGISLATURE.

The Legislature consists of the Sovereign and the two Houses of Parliament (the Legislative Council and the Legislative Assembly). The *Legislative Council* consists of 60 members, elected jointly by both Houses of Parliament. Membership is for 12 years, 15 members retiring in rotation triennially. The *Legislative Assembly* consists of 94 members. The Women's Legal Status Act, 1918, removed disqualification regarding the election of women to be members of the Legislative Assembly. A provident fund for members of the Legislative Assembly was established in 1946; a pension is payable to those who on ceasing to be members have served in three parliaments. Natural-born or naturalized persons 21 years of age, who have resided 6 months in the Commonwealth, 3 months in the State and 1 month in the electoral district are entitled to the franchise. Voting is compulsory. At the State General Elections in February, 1968, there were 2,356,977 persons enrolled. In contested elections 2,218,543 persons (1,081,635 men and 1,136,908 women) voted, representing 94 per cent. of persons enrolled.

Ψ SYDNEY, the chief city and capital and the largest city in Australia, stands on the shores of Port Jackson, with ■ water frontage of 152 miles; the depth of water at the Heads is not less than 80 ft. and at the wharves up to 40 ft. There are extensive facilities for handling cargo, and for storing and loading grain in bulk or bags; also for replenishing coal and oil bunkers. For

13 miles Sydney Harbour extends inland, the finest harbour in the world, and is surrounded by scenery of surpassing beauty. The principal wharves are situated in close proximity to the business centre of the city. The total of water in the harbour is 13,600 acres, or about 21 square miles, of which approximately one-half has a depth of not less than 30 ft.: the rise and fall of the tide is from 3 to 6 ft.

The parks in or adjacent to the metropolitan area include the Royal National Park which measures about 36,800 acres, Kuring-gal Chase 36,000 acres, Lane Cove River Park 1,000 acres and Centennial Park 490 acres.

The Sydney Statistical Division embraces an area of approximately 1,573 square miles, with a population of 2,646,800 (at June 30, 1968). The Newcastle and Wollongong Statistical Districts contain populations of 338,920 and 187,910 respectively.

The population of principal municipalities located outside the boundaries of these statistical areas are: Broken Hill 30,320, Wagga Wagga 27,180, Albury 26,210, Tamworth 22,480, Orange 21,970, Goulburn 21,090, Lismore 20,040, Bathurst 17,330, Blue Mountains 16,820 (part not included in Sydney Statistical Division) and Grafton 16,150.

**Vital Statistics.**—Annual rate per 1,000 of mean population in 1968: Births, 20.3; Deaths, 9.3; Marriages 8.6. Deaths under 1 year, 20.3 per 1,000 live births.

#### Religions.

At the Census of 1966 there were 522,540 Church of England, 425,669 Roman Catholics (including Catholics undefined), 188,492 Presbyterians, 179,591 Methodists, 40,237 Lutherans, 26,032 Baptists, 13,896 Orthodox, 9,949 Congregationalists, 66,063 other Christians, and 1,629 Hebrews.

#### PHYSIOGRAPHY.

The Great Dividing Range on the eastern coast of the continent produces a similar formation to that of New South Wales, the eastern side having a narrow slope to the coast and the western a long and gradual slope to the central plains, where the Selwyn and Kirby Ranges divide the land into a northern and southern watershed. The Brisbane, Burnett, Fitzroy, and Burdekin rise in the eastern

ranges and flow into the Pacific, the Flinders, Mitchell, and Leichhardt into the Gulf of Carpentaria, and the Barcoo and Warrego in the central ranges and flow southwards.

**Climate.**—At Brisbane the temperature for 1968 was 69.8°, the maximum and minimum shade temperatures being 105.5° and 38.2°; barometer, 30.03 inches. The coastal regions are warm and moist, but the rainfall decreases away from the coast and is scanty in the far west. The rainfall in Brisbane during 1968 was 33.5 inches, compared with average rainfall of 43.0 inches.

#### GOVERNMENT.

Queensland constituted a separate colony with Responsible Government in 1859, having previously formed part of New South Wales. The executive authority is vested in a Governor (appointed by the Crown), aided by an Executive Council of 13 members.

#### EDUCATION.

Education is compulsory between the ages of 6 and 15, and is free in state primary and secondary schools. On Aug. 1, 1968, there were 1,264 state schools, including 231 providing secondary education, in operation, with 11,437 teachers and an enrolment of 287,534 children, and 334 private and 8 grammar schools, with an enrolment of 88,207. There were 15 state technical colleges and 3 state institutes of technology with 1,035 full-time, 17,573 part-time, and 5,312 correspondence students in 1967. The state agricultural college had 430 full-time students and the state-aided University had an enrolment of 7,321 full-time students in 1968. State expenditure on education in 1967-68 was \$A67,487,000.

#### PRODUCTION AND INDUSTRY

The gross value of primary production in 1967-68 was \$A854,220,000 (agriculture \$A308,922,000, dairying \$A75,996,000, pastoral \$A273,438,000, poultry and bee-keeping \$A20,864,000, mining \$A148,876,000, forestry \$A17,683,000, fisheries \$A7,308,000, hunting and trapping \$A1,132,000, and net value of manufacturing \$A657,853,000.)

Land Tenure.—Of the total area of 426,880,000 acres 46,413,000 acres were alienated or in process of alienation at Dec. 31, 1968, and 355,780,000 acres were held under Crown leases.

Agriculture and Livestock.—The total area under crop in 1967-68 was 4,875,780 acres. The most important crop was sugar-cane, under which there were 633,516 acres, producing 2,213,810 tons of raw sugar, 1,476,589 acres were under wheat (yielding 27,416,757 bushels), 147,732 under maize (4,777,848 bushels), 382,192 under sorghum (8,938,816 bushels), and 342,468 under barley (8,964,544 bushels). The livestock on March 31, 1968, included 7,361,026 cattle, 835,082 being dairy cattle, 19,947,744 sheep, 181,028 horses, and 520,141 pigs.

Forestry.—At June 30, 1968, 6,973,000 acres were permanently dedicated State forests and 1,882,000 acres were timber reserves. Total Australian grown timber processed amounted to 406,000,000 super feet.

Minerals.—There are rich deposits of bauxite, copper, lead, silver, uranium and zinc, and deposits of gold, tin, limestone, ironstone, wolfram and mineral sands. Coal is mined in the Ipswich (near Brisbane) and some northern districts, and there is extensive production by open-cut method in Central Queensland. Commercial production of oil began at Moonie in South Queensland in 1964 and at Alton nearby in 1966. The output in 1968 included gold, \$A2,434,000, coal, \$A39,732,000; copper \$A79,319,000; tin \$A2,763,000; silver \$A17,405,000; lead \$A24,759,000; zinc \$A16,283,000.

Factories.—In 1968-68, 6,154 factories employed 120,852 persons. Value of production (value added to raw materials) was \$A657,853,000. Much production was the processing of primary products,

e.g. sugar, meat, butter, flour, timber, minerals and fruit. Included in other factory production were the products from engineering, railway, metal, chemical fertilizer works, cement, paper and woollen mills and oil refineries. An alumina works at Gladstone began production in 1967.

#### FINANCE.

Receipts and Expenditure of the Consolidated Revenue Fund and Debt of Queensland for four years ended June 30:—

#### TOWNS.

CAPITAL,  $\Psi$  BRISBANE, is situated in the Brisbane River, which is navigable by large vessels to the city, over 10 miles from Moreton Bay. The population of the Brisbane Statistical Division at June 30, 1968, was 813,300. This area includes the cities of Brisbane (680,000), Ipswich (56,850) and Redcliffe (29,650). Of the 953 square miles in the Division, 385 square miles are under the control of the Brisbane City Council, presided over by Lord Mayor.

Other cities and towns with population over 10,000 at June 30, 1968, are:  $\Psi$  Townsville, 63,300;  $\Psi$  Toowoomba, 58,000;  $\Psi$  Gold Coast, 56,500;  $\Psi$  Rockhampton, 47,000;  $\Psi$  Cairns, 27,400;  $\Psi$  Bundaberg, 26,500;  $\Psi$  Maryborough, 19,850;  $\Psi$  Mackay, 19,100;  $\Psi$  Mount Isa, 19,100;  $\Psi$  Gladstone, 12,400;  $\Psi$  Gympie, 11,350;  $\Psi$  Warwick, 10,150.

Transmission of mails from London to Brisbane, by air, 3 days; by sea 5 to 6 weeks.

## SOUTH AUSTRALIA

The State of South Australia is situated between 26° and 38° S. lat. and 129° and 141° E. long., the total area being 380,070 sq. miles.

POPULATION.—At Dec. 31, 1968, the population was estimated to be 1,136,400.

## Births, Deaths and Marriages

Year	Births	Deaths	Marriages
1965	20,891	8,788	8,680
1966	20,319	9,323	9,051
1967	20,386	9,071	9,434
1968	21,207	9,916	9,652

Before 1967, registrations of vital events of full-blood Aborigines, where identified, have been excluded.

## Religions.

Religion is free and receives no State aid. At the Census, 1966, the persons belonging to the principal religious denominations were as follows: Church of England, 286,154; Methodists, 227,483; Congregationalists, 18,288; Baptists, 22,235; Lutherans, 59,281; Roman Catholics, 220,576; Presbyterians, 42,687; Churches of Christ, 25,344; and Orthodox, 27,753.

## PHYSIOGRAPHY.

The most important physical features of South Australia are broad plains, divided longitudinally by four great secondary features, which form barriers to east-west movement, and which have thus largely determined the direction of roads and railways, the sites of towns and villages and the manner of distribution of the population. These four barriers are Spencer Gulf, Gulf St. Vincent, the Mt. Lofty-Flinders Ranges and the River Murray. The long, deeply-indented coastline, which provides a few major, and ■ multitude of lesser harbours, trends generally south-eastward. Pleasant weather conditions and good rainfall are experienced in most coastal areas.

The north-western portion of the State is mostly desert, while north of latitude 32°S. the country is unpromising by comparison with the fertile land which surrounds the hill country of the east. The Murray, which flows for some 400 miles through the south-eastern corner, is the only river of importance.

The lack of rivers and fresh-water lakes in the settled areas has necessitated the building of ■ number of reservoirs, which have been supplemented since 1941 by the construction of pipelines from the River Murray.

*Climate.*—The mean annual temperature at Adelaide is 63°, the winter temperature (June-August) averaging 53°, and the summer (November-March) 71°. During the summer months the maximum temperature at times exceeds 100°, but owing to the purity and dryness of the atmosphere the inconvenience is comparatively slight. The average annual rainfall at Adelaide, derived from over 100 years' record is 21 inches. This total is rather higher than the approximate average annual rainfall over the whole of the agricultural areas. In the Mount Lofty Ranges the mean yearly rainfall in places exceeds 40 inches, while in Adelaide the precipitation has fallen as low as 10-11 inches.

## GOVERNMENT.

South Australia was proclaimed a British Province in 1836, and in 1851 a partially elective legislature was established. The present Constitution rests upon ■ Law of Oct. 24, 1856, the executive authority being vested in a Governor appointed by the Crown, aided by ■ Council of 9 Ministers.

## GOVERNOR.

## EDUCATION.

Public Education (Primary, Secondary and Technical) is provided by the State, and controlled by ■ responsible Minister; it is secular, compulsory, and free. In 1967 there were 673 State schools, with 255,539 scholars. The Government grants Exhibitions and Scholarships, carrying the holders to higher schools and the University. Private schools number 180 with 43,312 scholars.

There are two universities: the University of Adelaide, founded in 1874, and the Flinders University of South Australia, opened in 1966, with a total enrolment of 6,298 full-time students in 1968. A State Institute of Technology has also been established, and there are technical schools at 9 country

centres and technical colleges at 4 and also special trade schools for apprentices and domestic art centres. The public library, museum, art gallery and local institutes are supported or assisted by the State.

STATE FINANCE.  
(For years ended June 30)

Year	Revenue	Expenditure	Debt
	\$A	\$A	\$A
1965...	222,181,000	224,803,000	902,823,000

1967...	258,823,000	258,717,000	1,013,060,000
1968...	274,544,000	277,404,000	1,074,959,000

*Banking.*—There are 9 trading banks in Adelaide, including the Commonwealth Trading Bank and the State Bank of South Australia, having total average deposits of \$A389,756,000 in December quarter, 1968. The nine savings banks had deposits of \$A658,043,000 at December 31, 1968.

PRODUCTION AND INDUSTRY.

The gross value of primary production in 1967-68 was: crops \$A127,288,000, pastoral \$A129,504,000, dairying \$A37,263,000, fisheries, game and poultry, and forestry \$A28,340,000.

*Land Tenure.*—Of the total area of the State (243,000,000 acres), 16,500,000 acres have been sold or are in the process of alienation by the Crown under systems of deferred payment; 127,300,000 acres are held under pastoral leases and 22,300,000 under other miscellaneous leases.

*Agriculture.*—The total area cultivated in 1967-68 was 13,384,000 acres—under wheat 2,864,000 acres, hay 429,000, oats 525,000, barley 1,157,000. Wheat harvest 1967-68, 26,899,000 bushels; barley, 12,380,000 bushels. Oranges, lemons, apples, apricots, peaches, and all stone fruits and olives are successfully grown, and fruit drying is profitable. In 1967-68, there were 58,000 acres of vines with a production of 30,055,000 gallons of wine and 8,312 tons of currants and raisins. Considerable quantities of fruits (fresh and dried), wine and brandy, are annually sent to overseas countries, principally the United Kingdom, and to other Australian States. Some areas of the State, particularly near Adelaide, are also very suitable for growing all kinds of root crops and vegetables. Production was generally poor in 1967-68 because of exceptionally low rainfall.

*Live Stock* (March 31, 1968).—There were 16,405,000 sheep, 695,000 cattle, 242,000 pigs. Wool production (1967-68), 222,667,000 lb.

*Minerals.*—Iron, pyrite, gypsum, salt, coal, limestone, clay, &c., are found. The total mineral output was valued at \$A77,398,000 in 1968, including iron ore valued by the South Australian Director of Mines at \$A48,382,000.

*Manufactures.*—In 1967-68 there were 6,255 factories, employing 121,417 hands, the value of production being \$A631,104,000. Plant, machinery, land and buildings were valued at \$A813,610,000.

*Transport and Communications.*—There were (June, 1968) 3,852 miles of railway in South Australia, 157 miles of tram and bus routes and 75,000 miles of roads, including roads and tracks outside local government areas. The railway mileage includes the South Australian part of the Transcontinental Railway from Port Pirie (South Australia) to Kalgoorlie (Western Australia) which forms a link in the system from Brisbane to Fremantle (654 miles), and also part of the Commonwealth line from Port Augusta to the Northern Territory (581 miles) as well as private railways (76 miles). There are ■

number of excellent harbours, of which Port Adelaide is the most important. The number of vessels (exceeding 200 net tons) entering South Australia from overseas and interstate during 1967-68 was 1,794 with net tonnage of 9,616,797. The total value of shipping at South Australian ports during 1967-68 was 12,153,168 net tons involving 3,000 recorded entries of vessels. The countries of registration of vessels entered were: Australia, 1,732; United Kingdom, 414; Japan, 99; Norway, 93; Sweden, 93; New Zealand, 91; Netherlands, 84; and other countries 394. Cargo loaded for overseas was 41,339,064 tons weight and 2,101,859 tons measure, and cargo discharged from overseas was 27,572,158 tons weight and 4,684,274 tons measure. There are 911 post offices in the State.

*Civil Aviation.*—There are 27 Government and licensed airports; the largest of these, Adelaide airport, recorded 863,652 passenger movements during 1967-68.

*Motor Vehicles.*—The registrations on Dec. 31, 1968, were 438,079, equal to 1 per 259 persons.

*Wireless and Television* (1968)—Broadcasting stations 16; listeners' licences 290,051. Television stations 8; viewers' licences 268,595.

TOWNS

Ψ ADELAIDE, the chief city and capital, estimated population (December 31, 1968) 747,700, inclusive of suburbs. Other centres (with 1968 populations) are: Ψ Port Pirie (117,570), Kadina (3,000), Moonta (1,750), and Wallaroo (2,050) in the Lower North; Port Augusta (10,850) and Peterborough (3,050) in the Upper North; Gawler (6,650) on the Adelaide Plains; Victor Harbor (3,300) on the South Coast; Whyalla (28,100) and Port Lincoln (9,450) on Eyre Peninsula; Murray Bridge (6,450), Renmark (3,150) and Berri (2,300) on the River Murray; and Mount Gambier (17,450), Naracoorte (4,800), and Millicent (5,150) in the South East.

*Transit.*—Transmission of mails from London to Adelaide, approximately, 29 days by sea and ■ days by air.

TASMANIA

Tasmania is an island in the Southern Ocean off the south-eastern extremity of Australia, from which it is separated by Bass Strait, about 140 miles wide, in which are situated the Furneaux Group and King Island, included within the State. It lies between 40° 40'–43° 39' S. lat. and 144° 31'–146° 18' E. long., and contains an area of 26,383 square miles.

*POPULATION.*—At June 30, 1968, the estimated population numbered 382,030 (192,724 males and 189,306 females); estimated Dec. 31, 1968, 386,000.

Year	Births	Deaths	Marriages
1965	7,535	3,043	2,888
1966	7,397	3,158	2,946
1967	7,547	3,228	3,213
1968	8,316	3,284	3,426

**Vital Statistics.**—The birth rate in 1968 was 21.76 death rate 8.59, marriage rate 8.96 per 1,000. Infant mortality (1968) 17.2 per 1,000 births.

#### Religions.

In 1966 there were 166,023 members of the Church of England, 71,089 Roman Catholics, 43,084 Methodists, 17,498 Presbyterians, 4,530 Congregationalists and Independents, and 7,759 Baptists.

#### PHYSIOGRAPHY.

The surface of the country is generally hilly and timbered, with mountains from 1,500 to 5,300 ft. in height, and expanses of level, open plains. There are numerous rivers, the Gordon, Derwent and Tamar being the largest. The climate is fine and salubrious, and well suited to European constitutions; the hot winds of Australia do not often reach the island. At Hobart the mean maximum temperature ranges from 53.5° in winter to 68.8° in summer, the minimum from 40.7° to 52.1°. The western side of the island is very wet, the eastern side being much drier; the average rainfall varies from 11 inches to 140 inches in different parts.

#### GOVERNMENT

The island was first settled by a British party from New South Wales in 1803, becoming a separate colony in 1825. In 1851 a partly elective legislature was inaugurated, and in 1856 responsible government was established. In 1901 Tasmania became a State of the Australian Commonwealth. The State executive authority is vested in a Governor (appointed by the Crown), but is exercised by Cabinet Ministers responsible to the Legislature, of which they are members.

#### GOVERNOR.

*Governor of Tasmania, His Excellency Lieut.-Gen. Sir Edric Montague Bastyan, K.C.M.G., K.C.V.O., K.B.E., C.B., b. April 5, 1903; assumed office Dec. 2, 1968.*

#### THE LEGISLATURE.

Parliament consists of two Houses, a *Legislative Council* of 19 members, elected for six years (3 retiring annually, in rotation, except in every sixth year, when four retire) and a *House of Assembly* of 35 members, elected by proportional representation for five years in five 7-member constituencies, the electors for both Houses being all adult Tasmanians who have resided continuously in the State for 6 months.

At the election held on May 10, 1969, the Labour Party lost its majority in the House of Assembly and the longest period of continuous government by a single party in any Australian state ended after 35 years. A Liberal-Centre Party coalition was

formed by Mr. Bethune on May 27, 1969. The composition of the House of Assembly in May, 1969, was: Labour, 17, Liberal, 17 and Centre Party, 1.

*President of the Legislative Council, Hon. W. J. T. Davis.*

*Clerk of the Council, G. W. Brimage.*  
*Speaker of the House of Assembly, Hon. C. R. Ingamells.*

*Clerk of the House, C. K. Murphy, C.B.E.*

#### THE JUDICATURE.

*The Supreme Court of Tasmania, with civil, criminal, ecclesiastical, admiralty and matrimonial jurisdiction, was established by Royal Charter on October 13, 1823.*

*Chief Justice, Hon. Sir Stanley Charles Burbury, K.B.E.*

*Puisne Judges, Hon. Sir Malcolm Crisp; Hon. G. H. Crawford; Hon. F. M. Neasey; Hon. D. M. Chambers.*

Local Courts established under the Local Courts Acts, 1896, are held before Commissioners who are legal practitioners, with a jurisdiction up to \$1,500 in the case of liquidated claims (\$1,000, unliquidated claims). Courts of General Sessions, constituted by a chairman who is a Justice of the Peace and at least one other Justice, are established in the municipalities for the recovery of debts and demands not exceeding \$100. Courts of Petty Sessions are established under the Justices Act, 1959, constituted by Police Magistrates sitting alone, or any two or more justices. A single justice may hear and determine certain matters.

#### EDUCATION.

Government schools are of three main types: primary, secondary and matriculation schools. On Aug. 1, 1968, there were 76,109 scholars enrolled in 291 Government schools. There were also 65 independent schools with an enrolment of 14,974. The University of Tasmania at Hobart, established 1890, had 1,763 full-time students, 673 part-time students and 156 external students in 1968.

#### FINANCE.

Revenue into the Consolidated Revenue fund in 1967-68 totalled \$A100,562,811, compared with \$A92,676,009 in 1966-67; expenditure, 1967-68, \$102,413,435 (1966-67, \$A93,248,028). Public debt of Tasmania on June 30, 1968, amounted to \$A568,296,000 (1967, \$A535,606,361).

*Banking.*—The average weekly deposits of cheque-paying banks during April, 1969, were \$A130,492,000; the savings bank deposits, April, 1969, were \$A187,342,000.

#### PRODUCTION AND INDUSTRY.

The net value of production in 1967-68 was \$A305,014,000—agriculture and pastoral \$A41,739,000, mines and quarries \$A25,200,000, other primary industries \$A40,056,000 and manufactures \$A198,019,000.

*Agriculture and Live Stock.*—Of the total area of the State (16,885,000 acres) there were, in 1967-68, 430,530 acres of crops. The principal crops are potatoes, apples and other fruit, hay, hops, oats, green peas for processing, peas, turnips, barley and wheat. The live stock included (March 31, 1968), 563,700 cattle, 4,428,000 sheep and 86,517 pigs. The wool production (1967-68) was 38,308,000 lbs.

*Electrical Energy.*—Tasmania, the smallest Australian state, ranks third as a producer of electrical energy—all of it derived from water power, with an output of 3,776,533,000 kW in 1967-68. By reason of its low-cost electrical energy, Tasmania is the Commonwealth's only local source of ferromanganese, newsprint and calcium carbide and the

provider of the bulk of Australian requirements of electrolytic zinc, aluminium and fine papers. The Hydro-Electric Commission is constructing a network of ten stations on north-western rivers, a thermal station at Bell Bay and a hydro station in the south-west. One hydro station was completed in 1968 and two in 1969. Present and planned future output are: 1969, 1,014,000 kW; 1971, 1,322,000 kW; 1975, 1,560,000 kW.

**Forestry.**—State forest areas in 1967-68, 2,704,821 acres. The quantity of timber (excluding firewood) of various species cut in 1967-68 was 783,841,000 true super feet, including 257,684,000 true super feet for wood-pulp.

**Minerals.**—The chief ores mined are those containing copper, zinc, tin, silver and lead. The value of output of all mines and quarries in 1968 was \$A38,724,000.

**Manufactures.**—The chief manufactures for export are: refined metals, preserved fruit and vegetables, butter, woollen manufactures, paper, confectionery and sawn timber: the net value of production in 1967-68 was \$A198,019,000, the value of land, buildings, plant and machinery for 1,797 establishments being \$A448,047,000.

**CAPITAL, Ψ HOBART,** which was founded in 1804. Population (June 30, 1968), 123,500.

Other towns (with population at June 30, 1968) are Ψ Launceston (61,870), Ψ Devonport (15,910), Burnie-Somerset (19,050), Ulverstone (7,270) and New Norfolk (6,340).

Transmission of mails from London to Hobart, 28 days by sea; 2 days by air.

**VICTORIA**

The State of Victoria comprises the south-east corner of Australia, at that part where its mainland territory projects farthest into the southern latitudes; it lies between 34°-39° S. latitude and 141°-150° E. longitude. Its extreme length from east to west is about 493 miles, its greatest breadth is about 290 miles, and its extent of coast-line is about 980 geographical miles, including the length around Port Phillip Bay, Western Port and Corner Inlet, the entire area being 87,884 square miles.

**Population.**—The population at Dec. 31, 1968, was 3,356,900 (1,683,500 males and 1,673,400 females).

**Births, Deaths and Marriages.**

Year	Births	Deaths	Marriages
1965	63,550	28,031	26,421
1966	64,008	28,673	27,080
1967	65,485	28,373	28,004
1968	70,228	29,967	29,724

**Vital Statistics.**—Annual rate per 1,000 of population in 1968: Births, 21.10; Deaths, 9.00; Marriages, 8.93. Deaths under 1 year per 1,000 births, 14.4.

**Religions.**

Members of the Church of England at the date of the census in 1966 numbered 923,078, Roman Catholics 889,495, Presbyterians 387,108, Methodists 279,300, Orthodox 100,387, Baptists 41,419, Churches of Christ 39,263, Lutheran 37,637 and Hebrew 31,058. The number of persons who did not state their religion was 333,734.

**PHYSIOGRAPHY.**

The *Australian Alps* and the *Great Dividing Range* pass through the centre of the State, and divide it into a northern and southern watershed, the latter sloping down to the ocean and containing, especially in the south-east, well-wooded valleys. The length of the Murray River, which forms part

of the northern boundary of Victoria, is about 1,200 miles along the Victorian bank. Melbourne, the capital city, stands upon the Yarra-Yarra, which rises in the southern slopes of the Dividing Range.

**Climate.**—The climate of Victoria is characterized by warm summers, rather cold winters, and rain in all months with a maximum in winter or spring. Prevailing winds are southerly from November to February inclusive, with a moderate percentage of northerlies often associated with high temperatures. Northerly or westerly winds predominate from March to October inclusive. Rain on an average falls in Melbourne on 143 days per year, the annual average being 25.91 inches.

**GOVERNMENT.**

Victoria was originally known as the Port Phillip District of New South Wales and was created a separate colony in 1851, with a partially elective legislature. In 1855 Responsible Government was conferred. The executive authority is vested in a Governor, appointed by the Crown, aided by an Executive Council of Ministers.

**Governor of the State of Victoria,** His Excellency Maj.-Gen. Sir Rohan Delacombe, K.C.M.G., K.B.E., C.B., D.S.O., born Oct. 25, 1906, assumed office May 8, 1963. \$A20,500

**Lieutenant-Governor,** Lieut.-General Hon. Sir Edmund Herring, K.C.M.G., K.B.E., D.S.O., M.C., E.D., Q.C.

**THE MINISTRY.**

**Premier and Treasurer,** Hon. Sir Henry Bolte, K.C.M.G.

**Chief Secretary,** Hon. Sir Arthur Rylah, K.B.E., C.M.G., E.D.

## EDUCATION.

*Primary Education* is compulsory, secular and free between the ages of 6 and 15. At Aug. 1, 1968, there were 1,879 Primary Schools attended by 341,134 pupils, 38 Primary-Secondary Schools with 15,642 pupils, and 240 Secondary Schools (excluding Junior Technical Schools) with an enrolment of 145,263. There were also 100 Technical Schools, most of which had both junior and senior sections, with an enrolment of 53,799 junior and 85,413 senior students.

At Aug. 1, 1968, 188,573 pupils attended 579 independent schools, 483 of which are Roman Catholic, as the Roman Catholic Church in the State maintains an independent scholastic organization.

There are three State-aided Universities—Melbourne, Monash and La Trobe. Enrolments for 1968 at Melbourne were 14,464, at Monash 8,472 and at La Trobe 1,156.

## PRODUCTION AND INDUSTRY.

The gross value of primary production in 1967-68 was \$A904,841,000, agricultural \$A221,960,000, pastoral \$A355,318,000, dairying \$A181,541,000, poultry and bee-keeping \$A51,316,000, trapping \$A3,621,000, forestry \$A27,845,000, mining and quarries \$A57,339,000, fisheries \$A5,901,000. The net value of production of primary industries was \$A675,833,000. Wool, wheat, flour, butter, live stock, fruits, milk and cream, meats, poultry and eggs are staple products.

*Agriculture*.—Of the 8,459,000 acres under cultivation in 1967-68, 3,224,000 were wheat crops and 723,000 oats, 1,165,000 acres were cut for hay, and 2,647,000 acres were lying fallow. In 1967-68, 5,180,000 gallons of wine were produced.

*Live Stock*.—There were on rural holdings in March, 1968, 27,909,000 sheep, 3,474,000 cattle, and 377,000 pigs. The quantity of wool produced in 1967-68 was 332,427,000 lbs., valued at \$A133,213,000.

*Minerals*.—Production of gold in 1968 was 11,210 fine oz. Other minerals raised consisted

principally of coal (black and brown), limestone, kaolin, fireclay, white clay and gypsum. Production of brown coal in 1968 amounted to 22,970,653 tons.

## FINANCE.

The revenue and expenditure of the Consolidated Revenue Fund and the State debt for the last three years are as follows:—

Year	Revenue	Expenditure	Debt
	\$A	\$A	\$A
1965-66	508,553,852	516,682,232	1,781,543,000
1966-67	559,594,884	559,594,884	1,893,069,000
1967-68	601,328,373	604,122,006	1,998,611,000

*Banking, etc.*—State Savings Bank deposits at June 30, 1968, amounted to \$A1,033,644,000; in addition, deposits in the Commonwealth Savings Bank (in the State of Victoria) amounted to \$A474,238,000, and in other savings banks \$A577,647,000.

*Insurance (other than Life)*.—There were 243 companies or other bodies transacting business in Victoria during the year 1967-68. Total revenue amounted to \$A240,540,000, made up of premium income \$A227,886,000 and other income \$A12,654,000. Expenditure totalled \$A213,275,000, comprising claims \$A142,374,000, commission and agents' charges \$A22,071,000 and other expenditure \$A48,830,000.

*Secondary Industry*.—In 1967-68 there were 316,108 males and 133,837 females (including working proprietors) employed in Victoria factories. Salaries and wages paid totalled \$A1,244,216,000. The total cost of materials used, containers, tools replaced and repairs to plant was \$A2,956,509,000, and of power, fuel and light, lubricants and water \$A143,086,000. Gross value of output was \$A5,351,311,000 and added value (net value of production) \$A2,394,801,000. Principal factory products are motor vehicles and light engineering products, foodstuffs, chemicals, textiles, clothing, paper and rubber products.

## TRANSPORT.

*Victoria State Railways*.—At June 30, 1968, there were 4,210 miles of railway open for traffic. The revenue and expenditure for the year ended June 30, 1968, were \$A99,331,299 and \$A105,084,440 respectively. Total traffic mileage was 19,885,495 and passenger journeys numbered 146,268,071. The tonnage of goods and live stock carried was 11,115,953.

*Shipping*.—During the year ended June 30, 1968, 3,550 vessels with net tonnage 17,160,902 entered Victorian ports and 3,548 vessels with total net tonnage of 17,141,902 were cleared.

*Motor Vehicle Registrations*.—The number of vehicles in the register at Dec. 31, 1968, was: cars and station wagons, 980,244; utilities and vans, 128,831; trucks and omnibuses, 96,797, and motor cycles, 17,042.

## OVERSEAS TRADE

The export trade (excluding inter-state trade) consists largely of agricultural and pastoral products. The principal overseas imports of the State are aircraft and parts, apparel and textiles, manufactured fibres, machines and machinery, motor vehicles and tractors, metals and metal manufactures, rubber and rubber manufactures, crude petroleum, paper, drugs and chemicals, synthetic resins and foodstuffs of vegetable origin.

## Overseas Trade—continued.

Year	Imports	Exports
	\$A	\$A
1963-64	933,847,162	746,639,664
1964-65	1,026,834,594	733,046,440
1965-66	1,017,360,000	763,963,000
1966-67	1,072,514,000	801,187,000

## CITIES, TOWNS AND BOROUGHES.

Ψ MELBOURNE, the capital city, which is an archiepiscopal see, was originally laid out in the year 1837 with wisdom and foresight; its wide streets, park lands, public gardens, university, public library, museum and large churches are the principal features of the city. At the Census of June 30, 1966, the Melbourne Metropolitan Area had a population of 2,110,168. Other cities and towns are: Ψ Geelong, 105,059; Ballarat, 56,290; Bendigo, 42,208; Moe-Yallourn, 23,198; Shepparton, 17,506; Ψ Warrnambool, 17,499; Wangaratta, 15,175; Traralgon, 14,079.

## WESTERN AUSTRALIA

Includes all that portion of the continent west of 129° E. long., the most westerly point being in 113° 9' E. long., and from 13° 44' to 35° 8' S. lat. Its extreme length is 1,480 miles, and 1,000 miles from east to west; total area 975,920 sq. miles.

POPULATION.—At December 31, 1968, the population was estimated at 930,756 (males, 473,755; females, 456,981). The figures include full-blood Aborigines.

Year	Births	Deaths	Marriages
1964	16,685	6,429	6,023
1965	16,186	6,274	6,448
1966	17,007	6,772	7,001
1967	18,023	6,779	7,430
1968	19,541	7,468	8,086

Religions.—Census of 1966—Church of England 316,153, Roman Catholics 213,659, Methodists 80,840, and Presbyterians 44,055.

Physical Features.—Large areas of the State, for some hundreds of miles inland, are hilly and even mountainous, although the altitude, so far as ascertained, rises nowhere above that of Mount Meharry (4,104 ft.) in the north-west division or that of Bluff Knoll (3,640 ft.) in the Stirling Range in the south-west. The coastal regions are undulating, with an interior slope to the unsettled central portion of Australia. The Darling and Hamersley ranges of the west have a seaward slope to the Indian Ocean, into which flow many streams, notably the Preston, Collic, Murray, Swan, Murchison, Gascoyne, Ashburton, Fortescue, and De Grey. In the north the Fitzroy flows from the King Leopold ranges into the Indian Ocean, and the Drysdale and Ord into the Timor Sea. The greater portion of the State may be described as an immense tableland, with an average elevation of 1,000 to 1,500 ft. above sea-level, the surface of which varies from stretches of clayey soils to the sand dunes of the far interior. The climate is one of the most temperate in the world. The total rainfall at Perth during 1968 was 36.63 inches, the average for the previous 92 years 34.89. Of the total area two-thirds is suitable for pastoral purposes.

## GOVERNMENT.

Western Australia was first settled by the British in 1829, and in 1870 it was granted a partially elective legislature. In 1890 Responsible Government was granted, and the Administration vested in a Governor, a Legislative Council, and a Legislative Assembly. The present constitution rests upon the Constitution Act, 1889, the Constitution Acts Amendment Act, 1899, and amending Acts. The Executive is vested in a Governor appointed by the Crown and aided by a Council of responsible Ministers.

The Legislative Assembly (elected March, 1968) is composed of Australian Labour Party 23, Liberal Party 19, Country Party 9.

## EDUCATION.

Education.—In 1968 there were 570 government schools and 199 non-government schools (excluding kindergartens) with 161,416 and 40,568 pupils respectively. The total amount expended on education (from State Revenue) during the year ended June 30, 1968, was \$A49,462,647, including grants of \$A3,778,775 to the University of Western Australia (4,079 full-time students in 1968).

## PRODUCTION AND INDUSTRY.

The gross value of primary production in 1967-68 was: agricultural \$A234,484,241; pastoral \$A158,753,914; dairying \$A24,119,876; poultry farming \$A11,125,261; bee keeping \$A239,520; trapping \$A1,235,957; forestry \$A14,076,244; fishing and whaling \$A21,953,744; mining and quarrying \$A157,545,261.

Crops and Livestock.—Of the total area under crop (8,883,123 acres), 6,647,095 acres were under wheat for grain, the 1967-68 production being 106,975,000 bushels. On March 31, 1968 the live-stock included 1,426,936 cattle, 30,160,877 sheep, and 182,507 pigs. In 1967-68 there were 7,665 acres of vineyards and 25,599 acres of orchards. The wool clip in 1967-68 was 286,281,000 lbs. in the grease.

Manufacturing Industries.—There were in the year ending June 30, 1968, 11 total of 5,404 industrial establishments in the State employing either machinery or at least four hands. The average number of persons employed in them during the year was 67,335.

Forestry.—The forests contain some of the finest hardwoods in the world. The total quantity of timber sawn and hewn during 1967-68 was 236,373,129 superficial feet.

Minerals.—The State has large deposits of a wide range of minerals, many of which are being mined or are under development for production. The principal minerals produced during 1967 were: iron ore 12,160,702 tons (\$A84,358,259); gold 573,755 fine ounces (\$A21,618,215); coal 1,062,151 tons (\$A4,764,502); mineral sand concentrates 564,746 tons (\$A6,692,058) and manganese 195,065 tons (\$A4,465,602). Large quantities of bauxite, nickel, tin and pyrites were also mined. Extensive exploration is being undertaken in the State for petroleum, nickel and many other minerals.

Communications.—On June 30, 1968, there were 3,815 miles of State government railway open for general and passenger traffic; and 454 miles of the Commonwealth line (Kalgoorlie-Port Pirie Junction). In the year ended June 30, 1968, 3,186 vessels (net tonnage 17,779,348) entered Western

Australian ports and 3,187 (net tonnage 17,788,638) cleared. The total length of roads at June 30, 1967 was 109,107 miles. The number of registered motor vehicles on June 30, 1968, was 365,747 (263,552 motor cars and station wagons, 92,563 utilities, vans, trucks and omnibuses and 9,632 motor cycles and motor scooters).

## FINANCE.

Total revenue of Western Australia in 1968 was \$A250,737,839, compared with \$A228,146,198 in 1967. Expenditure in 1968 totalled \$A249,909,203 (1967, \$A228,173,692). The net public debt of the State at June 30, 1968, was \$A792,561,768 (1967, \$A748,385,533).

## COMMONWEALTH SCIENTIFIC LIAISON OFFICES

## Africa House, Kingsway, W.C.a

The Commonwealth Scientific Liaison Offices exist to keep in touch with scientific developments in the United Kingdom, to deal with scientific enquiries from and to their home countries and to act as scientific advisers to the Commonwealth High Commissioners and Governments concerned.

Joint headquarters were set up in May, 1948. Liaison offices of the various countries continue to act as separate autonomous units but share common services to the cost of which the Commonwealth countries contribute in agreed proportions.

C.S.L.O. serves as a headquarters for Commonwealth scientists visiting the United Kingdom; it is also responsible for the Commonwealth Geological Liaison Office.

Secretary, E. D. A. Davies.

Countries represented (with ■■■■ of their Chief Scientific Liaison Officers):

UNITED KINGDOM.—E. C. Appleyard (D.E.S.).

CANADA.—W. L. Haney.

AUSTRALIA.—R. F. Turnbull.

NEW ZEALAND.—V. Armstrong.

### PHYSIOGRAPHY

New Zealand consists of a number of islands of varying size in the South Pacific Ocean, and has also administrative responsibility for a large tract in the Antarctic Ocean. The two larger and most important islands, the North and South Islands of New Zealand, are separated by only a relatively narrow strait. The remaining islands are very much smaller and, in general, are widely dispersed over a considerable expanse of ocean. The boundaries, inclusive of the most outlying islands and dependencies, range from 8° South latitude to south of 60° South latitude, and from 160° East longitude to 150° West longitude.

**Geographical Features.**—The two principal islands have a total length of 1,040 miles, and a combined area of 202,374 square miles. A large proportion of the surface is mountainous in character. The principal range is that of the Southern Alps, extending over the entire length of the South Island and having its culminating point in Mount Cook (12,349 ft.). The North Island mountains include several volcanoes, two of which are active, others being dormant or extinct. Mt. Ruapehu (9,175 ft.) and Mt. Ngauruhoe (7,515 ft.) are the most important. Of the numerous glaciers in the South Island, the Tasman (18 miles long by 1½ wide), the Franz Josef and the Fox are the best known. The North Island is noted for its hot springs and geysers. For the most part the rivers are too short and rapid for use in navigation. The more important include the Waikato (270 miles in length); Wanganui (180), and Clutha (210). Lakes (Taupo, 234 sq. miles in area; Wakatipu, 113; and Te Anau 133) are abundant, many of them of great beauty.

**Climate.**—New Zealand has a moist-temperate marine climate, but with abundant sunshine. A very important feature is the small annual range of temperature which permits of some growth of vegetation, including pasture, all the year round. Very little snow falls on the low levels even in the South Island. The mean temperature ranges from 59° F. in the North to about 49° F. in the South. Rainfall over the more settled areas in the North Island ranges from 35 to 70 inches and in the South Island from 25 to 45 inches. The total range is

from approximately 13 to over 250 inches. The number of rainy days is generally in the neighbourhood of 160 to 180 in the North Island and between 110 and 140 in the South, except in the southern portion of the west coast. The amount of sunshine is generally over 2,000 hours per annum and ranges between 1,600 to 2,500 hours.

### GOVERNMENT

The west coast of the South Island of New Zealand was discovered by Abel Janszoon Tasman, the navigator (voyaging under the direction of the Netherlands' East India Company), on December 13, 1642.

The islands were visited, and charted, in 1769 by Captain Cook, who returned to them in 1773, 1774 and 1777. From 1800 onwards sealers and whalers settled along the coasts, and trade in timber and flax followed. Christianity was introduced in 1814, and in 1832 a British Resident was appointed. In 1840 British sovereignty was proclaimed, and on May 3, 1841, New Zealand was, by letters patent, created a separate colony distinct from New South Wales. Organized colonization on a large scale commenced in 1840 with the New Zealand Company's settlement at Wellington. On Sept. 26, 1907, the designation was changed to *The Dominion of New Zealand*. The Constitution rests upon the Imperial Act of 1852, and on the New Zealand Constitution (Amendment) Act of Dec. 10, 1947. The Statute of Westminster was formally adopted by New Zealand in 1947. The executive authority is entrusted to a Governor-General appointed by the Crown and aided by an Executive Council, within a Legislature consisting of one chamber, the House of Representatives.

**FLAG:** Blue ground, with Union Jack in top left quarter, four five-pointed red stars with white borders on the fly. On June 20, 1968, a new naval ensign bearing the Southern Cross was adopted, replacing the British white ensign.

## POLICE

On March 31, 1969, the strength of the Police Force was 2,950 of all ranks, equivalent to 1 for every 943 of the population. The total cost of police protection in 1968-69 was \$NZ12,885,000.

## DEFENCE

A unified Ministry of Defence was set up on Jan. 1, 1964. The Ministry is responsible, under the Minister of Defence, for the whole field of

national defence. The former Navy, Army and Air Departments have been abolished, but the three Armed Services retain their separate identities within the Ministry. Defence expenditure in 1968-69 amounted to \$NZ85,336,000.

#### Navy.

The Royal New Zealand Navy was greatly expanded during the Second World War and a number of small vessels were built in New Zealand. The naval forces include the Women's Royal New Zealand Naval Service, and Volunteer Reserve forces in four divisions. The strength is 4 frigates, 1 survey ship, 1 Antarctic support ship, 1 minesweeper and 1 fleet auxiliary in commission; 2 frigates, and 1 ocean minesweepers in reserve. Active naval personnel numbers 324 officers and 2,611 ratings. A cruiser or a frigate is normally attached to the Far East Station.

#### Army.

The New Zealand Army consists of the Regular Force, the Territorial Force, the Army Reserve and the Cadet Corps. The strength of the Regular Force at March 31, 1969, was 5,730 and of the Territorial Force 11,217.

In 1962 selective national service was introduced to build the Territorial Force up to 10,000. The Army is now organized on the basis of one Regular Brigade Group, supported by three Territorial Brigade Groups. One battalion of the Regular Brigade Group is stationed as part of the Commonwealth Far East Strategic Reserve in Malaysia. An infantry company has been withdrawn from this battalion for deployment with the N.Z. artillery battery in South Vietnam.

#### Air.

The Royal New Zealand Air Force was constituted as a separate defence service in 1937. The Air Force now consists of the Regular Air Force, the Air Force Reserve, the Women's Royal New Zealand Air Force and the Air Training Corps. One Air Force transport unit is based outside New Zealand in Singapore. The strength of the Regular Force at March 31, 1969, was 4,498.

### FINANCE

Into the Consolidated Revenue Account (New Zealand's main public account) are paid the proceeds of income tax, social security income tax, sales tax, customs and excise duties and other taxes. Revenue from taxation is also paid into the National Roads Fund principally from a tax on motor spirits and registration and licence fees for motor vehicles. Figures of the Consolidated Revenue Account shown in this table are quoted on a gross basis, i.e. credits have not been deducted from departmental expenditure, but have been included as receipts.

Year ended March 31	Revenue	Expenditure
	\$N.Z.	\$N.Z.
1966	974,462,000	970,940,000
1967	1,051,334,000	1,050,609,000
1968	1,096,696,000	1,095,318,000
1969	1,154,609,477	1,146,929,939*

\* Includes \$NZ.643,977,621 for the social services, incl. education and health, \$NZ.67,455,878 for development of primary and secondary industries, \$NZ.149,778,173 for debt services and \$NZ.85,335,993 for defence.

Revenue from taxation in 1968-69 amounted to \$NZ.1,058,404,000, of which \$NZ.992,079,000

represented receipts into the Consolidated Revenue Account, and \$NZ.66,325,000 receipts into the National Roads Fund.

#### DEBT.

The gross Public Debt amounted on March 31, 1969, to \$NZ.2,776,480,000, of which \$NZ.336,229,000 was domiciled in London and \$NZ.106,920,000 in the U.S.A., and \$NZ.72,299,000 represented World Bank loans.

#### CURRENCY.

On July 10, 1967, New Zealand changed to decimal currency. The basic unit is the N.Z. dollar, divisible into 100 cents. On Nov. 21, 1967, New Zealand devalued its currency by 19.45 per cent. in relation to the U.S. dollar, bringing the N.Z. dollar to parity with the Australian dollar. At IMF par value the \$NZ. became worth £0.4667 sterling.

#### BANKING.

There are five trading banks (with numerous branches) doing business, two of which are predominantly New Zealand banks. Of these the Bank of New Zealand is owned by the State. At May 28, 1969, assets of all trading banks in respect of New Zealand business amounted to \$NZ.803,800,000; liabilities, \$NZ.830,200,000; and the value of notes in circulation amounted to \$NZ.125,900,000. The Reserve Bank of New Zealand commenced business on August 1, 1934. The note-issuing powers of other banks have since been withdrawn and the Reserve Bank notes are legal tender. Net overseas assets of banks (on account of New Zealand business only) at May 28, 1969, amounted to \$NZ.225,800,000, of which \$NZ.103,500,000 and \$NZ.42,900,000 represented the Reserve Bank's holdings of sterling exchange and overseas investments respectively. Trading banks' advances, including discounts on May 28, 1969, totalled \$NZ.593,700,000 compared with \$NZ.527,700,000 in the previous year. Deposits with trading banks on May 28, 1969, amounted to \$NZ.787,500,000 (1968, \$NZ.731,300,000).

Post-office and trustee savings banks had, at the close of the year 1968-69, 2,682,000 accounts having \$NZ.1,387,078,000 to their credit. Private savings banks have been operated by the trading banks since Oct. 1964, and at March 31, 1969, deposits totalled \$NZ.285,420,000.

#### EDUCATION.

Schools are free and attendance is compulsory between the ages of 6 and 15. There are opportunities for apt pupils to proceed to university. In 1967 there were 2,234 public primary schools, with 452,049 scholars; there were also 337 registered private primary schools with 55,974 scholars and 114 Maori primary schools with 8,933 scholars. The secondary education of boys and girls in the cities and large towns is carried on in 194 state secondary schools, 71 state secondary departments of district high schools, 113 private secondary schools and 7 Maori private secondary schools. The total number of pupils receiving full-time secondary education in July 1967 was 142,614 and in addition there were 85,537 part-time students attending technical classes and 12,639 receiving part-time tuition from the Technical Correspondence School. The university system consists of the University of Auckland, the University of Waikato, Massey University of Manawatu, Victoria University of Wellington, the University of Canterbury and the University of Otago. The Lincoln university college of agriculture is associated with the University of Canterbury. The university system

is co-ordinated by the University Grants Committee. The Universities had a total of 26,331 students in 1968.

The total expenditure on education out of public funds in 1968-69 was \$NZ175,918,757.

**Agriculture and Forestry.**—The total area of New Zealand (excluding its Island Territories) is 66,390,700 acres; of this, approximately 42,893,000 acres are occupied land, 22,708,000 acres being under cultivation. The output of sawn timber for 1968-69 was 732,600,000 board ft., of which 533,900,000 board ft. represented exotic varieties, mainly pine.

**Livestock.**—Livestock on farms at Jan. 31, 1969, included 3,771,000 dairy cattle (of which 2,304,000 were dairy cows in milk during season), 4,786,000 beef cattle (of which 1,476,000 were beef breeding cows), and 562,500 pigs. At June 30, 1968, sheep numbered 60,474,000, including 42,651,000 breeding ewes.

**Manufactures.**—Statistics of factory production show (1966-67) 10,394 factories in operation, employing 229,302 persons. Salaries and wages amounted to \$NZ.492,730,000; cost of materials used, \$NZ.1,466,347,000. Total value of production, \$NZ.2,483,742,000.

**Minerals.**—Coal output in 1968 was 2,224,568 tons. Gold-mining was formerly an important industry, but production has declined greatly in recent years. Gold produced in 1968 was 8,626 oz. Other minerals produced on a relatively small scale are copper, silver, iron ore, manganese ore, tungsten and asbestos. Valuable deposits of natural gas have been discovered in Taranaki, and this is to be

piped to main North Island centres. New Zealand has large resources of potential iron ore in the black sands of many of its beaches and steelworks are being built near Auckland to utilize such deposits.

## TRADE.

Provisional figures of New Zealand's trade during the year ended June, 1969, were: Imports (c.i.f.) \$NZ.2,849,644,000, compared with \$NZ.668,527,000 in 1967-68; Exports, (f.o.b.) \$NZ.987,519,000, compared with \$NZ820,475,000 in 1967-68.

### Trade with U.K.

	1967	1968
Imports from U.K. . . . .	£99,366,000	£103,120,000
Exports to U.K. . . . .	185,894,000	197,362,000
(Board of Trade Totals)		

New Zealand produce exported to the U.K. in the 12 months ending June 1968 was valued at \$NZ.352,039,000 and included butter, valued at \$NZ.99,759,474, cheese (\$NZ.39,693,252); meat (\$NZ.135,444,403); dried and condensed milk (\$NZ.6,035,173); wool (\$NZ.34,680,861); and fruit (\$NZ.3,379,164). Estimated value of exports to U.K. in 1968-69, \$NZ.380,987,000.

**Railways.**—In March, 1968, there were 3,063 route miles of Government railway in operation. The number of passengers carried on Government lines in 1968-69, including season-ticket holders, was 22,630,000. Goods railed amounted to 11,055,000 tons. Railway total revenue and expenditure were \$NZ.85,832,000 and \$NZ.84,660,000 in 1967-68.

**Motor Vehicles.**—On March 31, 1969, there were 1,138,557 motor vehicles licensed, including 843,190 cars, and 47,983 motor cycles and power cycles. The number of persons per motor vehicle was 2.5.

**Shipping.**—During 1968 the vessels entered from overseas ports numbered 3,497 (net tonnage 16,538,000) and those cleared for overseas 3,501 (net tonnage 16,530,000).

**Post Office Statistics.**—During 1968-69 internal postal services handled 574,964,000 items, including 279,918,000 letters and 279,214,000 items of printed matter. Overseas mails included 1,562,947 lb. of airmail received and 975,354 lb. dispatched. Telephones totalled 1,155,465.

**Civil Aviation.**—In 1968-69 domestic scheduled services flew 11,699,000 miles and carried 1,304,400 passengers. Freight carried amounted to 47,900 tons. In 1967-68 international services to and from New Zealand carried 411,900 passengers, 7,696 tons of freight and 1,173 tons of mail.

**NATIONAL DAY (Waitangi Day).**—February 6.

## THE ISLANDS OF NEW ZEALAND.

In addition to North, South, Stewart and Chatham Islands:—

**The Three Kings** (discovered by Tasman on the Feast of the Epiphany), in 34° o' S. lat. and 172° 8' 8" E. long. (uninhabited). **Auckland Islands**, about 200 miles south of Bluff Harbour, in 50° 32' S. lat. and 166° 13' E. long. The islands contain several good harbours, but are

uninhabited. *Campbell Island* (used as a weather station). *Antipodes Group* (40° 41' 15" S. lat. and 178° 43' E. long.) uninhabited. *Bounty Islands* (47° 4' 43" S. lat., 170° 0' 30" E. long.). *Snares Islands and Solander* (uninhabited).

The *Kermadec Group* (population 10 in 1966) between 29° 10' to 31° 30' S. lat., and 177° 45' to 179° W. long., includes Raouli or Sunday, Macaulay, Curtis Islands, L'Esperance, and some islets.

*Cook and other Islands*, included in the boundaries of New Zealand since June, 1901, consist of the islands of Rarotonga (9,971). Aitutaki (2,579), Mangaia (2,002), Atiu (1,327), Mauke (671), Maniaki (293), Manuae (15), Takutea (uninhabited), Palmerston (86), Penrhyn or Tongareva (545), Manihiki (584), Rakahanga (323), Pukapuka or Danger (684), Nassau (68). The population figures for individual islands are at the Census of 1966, the total for the Group being 19,777. Niue, which is geographically part of Cook Islands, but which is administered separately, had a population (estimated Dec., 1968) of 5,302. The chief exports of the Cook Islands are fruit juice, clothing, copra, tomatoes, citrus fruit and pearl shell. The trade is chiefly with New Zealand, Australia, Japan, the U.K. and the U.S.A. The exports in 1967 were valued at \$NZ.1,777,369; imports at \$NZ. 2,991,307 for Cook Islands, and at \$NZ.125,867 and \$NZ.598,156 for Niue Island.

The High Commissioner of the Cook Islands is employed in a dual role, since he represents both the Queen and the New Zealand Government. Since

Aug. 4, 1965, the Islands have enjoyed complete internal self-government, executive power being in the hands of a Cabinet consisting of the Premier and five other ministers. The new Constitution Act was passed by the New Zealand Parliament in November 1964, but did not come into force until it had been endorsed by the 22-member Legislative Assembly of the Cook Islands, elected in April 1965.

The New Zealand citizenship of the Cook Islanders is embodied in the Constitution, and assurances have been given that the changed status of the Islands will in no way affect the consideration of subsidies or the right of free entry into New Zealand for exports from the group.

A Resident Commissioner is also stationed at Niue and is assisted in the executive government of that island by the Niue Island Assembly.

*Tokelau (or Union) Islands*.—A group of atolls (Fakaofu, Nukunono and Atafu) (population 1,832 in Sept. 1968), proclaimed part of New Zealand as from Jan. 1, 1948.

#### THE ROSS DEPENDENCY.

The *Ross Dependency*, placed under the jurisdiction of New Zealand by Order in Council dated July 30, 1923, and defined as all the islands and territories between 160° E. and 150° W. longitude which are situated south of the 60° S. parallel. The Ross Dependency includes Edward VII Land and portions of Victoria Land. For some years there have been permanent bases in the area, staffed by survey and scientific personnel.

## Barbados

Barbados, the most easterly of the West India islands, is situated in latitude 13° 14' N. and longitude 59° 37' W. The island has a total area of 166 square miles, the land rising in a series of tablelands marked by terraces to the highest point, Mt. Hillaby (1,104 ft.). It is nearly 21 miles long by 14 miles broad. Some 46 acres are covered by forest and 68,875 acres are cultivated. *Climate*.—Barbados has a pleasant climate with annual average temperature 26.5° C. (79.8° F.) and rainfall varying from a yearly average of 75 inches in the high central district to 50 inches in some of the low-lying coastal areas. *Population*.—Since the Census held in 1960, the population has risen from 232,820 to an estimated total of 252,931 on Dec. 31, 1968.

*CAPITAL*.— $\Psi$  Bridgetown (population, estimated 1968, 12,282). Other towns with 1960 populations are Christ Church (33,425); St. Philip (17,255); St. George (13,075); St. James (13,611); St. Peter (10,860) and St. Thomas (10,026). Bridgetown, the only port of entry, has a deep-water harbour with berths for 11 ships, opened in 1961. Oil is pumped ashore at one installation on the West Coast. *NATIONAL DAY*.—Nov. 30 (Independence Day)

*Government*.—Barbados was first settled by the British in 1627 and was a Crown Colony from 1652 until it became an independent state within the Commonwealth on November 30, 1966. The Legislature consists of the Governor-General, a Senate and a House of Assembly. The Senate comprises 21 members appointed by the Governor-General, of whom 12 are appointed on the advice of the Prime Minister, 2 on the advice of the Leader of the Opposition and 7 by the Governor-General at his discretion to represent religious, economic or social interests in the island or such other interests as the Governor-General considers ought to be represented. The House of Assembly comprises 24 members elected every five years by adult suffrage. In 1963 the voting age was reduced to 18. In June, 1969, seats in the House of Representatives were held as follows: Democratic Labour Party, 15; Barbados Labour Party, 8; Barbados National Party, 1. *Governor-General*, Sir Winston Scott, G.C.M.G. (1967) (+ duty allowance \$9,600) ..... \$19,200

## JUDICATURE

There is a Supreme Court of Judicature consisting of a High Court and a Court of Appeal. In certain cases further appeal lies to the Judicial Committee of H.M. Privy Council. The Chief Justice is appointed by the Governor-General on the recommendation of the Prime Minister in consultation with the Leader of the Opposition. Puisne Judges are appointed by the Governor-General, on the advice of the Judicial and Legal Service Commission.

Chief Justice, Hon. Sir William Douglas... \$15,600  
Puisne Judges, A. J. H. Hanschell; D. H. L. Ward; D. Williams.

**Education.**—Primary and secondary education is free in Government-aided schools.

**Communications.**—Barbados has some 800 miles of roads, of which about 720 miles are asphalted. There is an international airport at Seawell, 12 miles from Bridgetown, and frequent scheduled services connect Barbados with the major world air routes. There are a television service, a radio broadcasting service operated by the Caribbean Broadcasting Corporation, and a wired broadcasting service operated by a local subsidiary of Redifusion Ltd.

**Production, etc.**—The principal exports are sugar, molasses, rum, margarine, lard and laundry soap, and the imports meat, rice, salted fish, dairy products, flour, corn meal, lumber, textiles, animal foods and chemical fertilizers. The tourist industry is an important source of revenue.

## TRADE

Goods to the value of \$73,361,073 were exported in 1968, including Sugar (\$29,496,091), Molasses \$3,541,546, Rum \$2,910,885, and Edible Oils \$16,804.

## Botswana

Botswana (formerly the British Protectorate of Bechuanaland) lies between latitudes 18° and 26° S. and longitudes 20° and 28° W and is bounded by the Cape and Transvaal Provinces of South Africa on the south and east, by Rhodesia, the Zambesi and Chobe (Linyanti) Rivers on the north and north-east and by South West Africa on the west. Botswana extends some 500 miles by 550 miles, with a total area of 220,000 square miles. The climate of the country is generally sub-tropical, but varies considerably with latitude and altitude. A plateau at a height of about 4,000 feet divides Botswana into two main topographical regions. To the east of the plateau streams flow into the Marico, Notwani and Limpopo Rivers; to the west lies a flat region comprising the Kalahari Desert, the Okavango Swamps and the Northern State Lands area. The Kalahari Desert is a level tract closely covered with thorn bush and grass, extending 300 miles to the west and bounded by the Makarikari salt pans and the Botletle River in the north. Its rainfall varies from 20 inches in the east to 9 inches in the south-west. The Okavango Swamps, 6,500 square miles in area, lie in the remote north-western corner of Botswana, and, apart from the Limpopo and Chobe Rivers, are the only source of permanent surface water in the country. North of the Botletle River and the Makarikari depression the Kalahari Desert gives way to forest and dense bush of the Northern State Lands. Large areas of the country support only herds of game. Elephant numbers have been estimated at 10,000.

**Population.**—Botswana has a population estimated Jan. 31, 1967, at 593,000. The annual increase is believed to be about 3 per cent. The eight principal Botswana tribes (with population in 1964) are Bakgatla (32,118), Bakwena (73,088), Bangwakatse (71,289), Bamalete (13,861), Bamangwato (199,782), Barolong (10,662), Batawana (42,347) and Batlowka (3,735). The non-African population at the Census of 1964 numbered only 7,830. **CAPITAL.**—Gaborones, estimated population, 18,000. Other business centres are Francistown (11,000) and Lobatsi (8,000). The four largest towns are Serowe (34,182), Kanye (34,045), Molepolole (29,625) and Mochudi (17,712). **FLAG.**—Horizontal bands of blue, white, blue, with a black stripe on the white band.

**Government.**—On September 30, 1966, Bechuanaland became a Republic within the Commonwealth under the name Botswana. The President of Botswana is Head of State and appoints as Vice-President a member of the National Assembly who is his principal assistant and leader of Government business in the National Assembly. The Assembly consists of the President, 31 members elected on a basis of universal adult suffrage, 4 specially elected members, the Attorney-General (non-voting) and the Speaker. There is also a House of Chiefs. 28 seats in the House of Assembly were won by the Bechuanaland Democratic Party at the first General Election in 1965 and its leader, Sir Seretse Khama, became the country's first Prime Minister and subsequently President. Botswana is a member of the United Nations and of the Organisation for African Unity.

Chief Justice of Botswana, Hon. Mr. Justice J. R. D. Young.  
Attorney-General, M. D. Mokama.

The country is essentially pastoral, although sorghum, maize, beans, pumpkins, melons and some cotton are sown. Cattle thrive, in spite of the drought of 1965, during which some 200,000 died. In 1967 they numbered 1,104,722.

Schemes for improvements in agriculture, medical services, education and communications, and schemes for combating soil erosion, investigating mineral resources, improving water supplies, irrigation dams, tribal granaries and roads and for improving living conditions are being carried out.

Education.—In 1967, there were 252 primary schools with enrolment of 71,500 and 9 secondary schools with enrolment of 1,845. There were also two teacher training establishments with enrolment of 310. The principal languages in use in the country are English and Setswana.

Communications.—The railway from Kimberley to Vryburg and Mafeking traverses Botswana on its way to Rhodesia and Zambia. There are telegraph and telephone lines from Cape Province through from Mafeking, via Gaborones and Francistown to Bulawayo and Salisbury.

## Ceylon

## AREA AND POPULATION

Ceylon is an island in the Indian Ocean, off the southern tip of the peninsula of India and separated from it by a narrow strip of shallow water, the Palk Strait. Situated between 5° 55'–9° 50' N. latitude and 79° 42'–81° 52' E. longitude, it has an area of 25,332 square miles, including 333 square miles of inland water. Its greatest length is from north to south, 270 miles; and its greatest width 140 miles, no point in Ceylon being more than 80 miles from the sea.

At the Census of 1963, the population was 10,582,064; (estimated, 1968, 11,964,000).

## Races and Religions

The races of Ceylon are low-country Sinhalese, Kandyan Sinhalese, Ceylon Tamils, Indian Tamils, Ceylon Moors, Indian Moors, Burghers and Eurasians, Malays and Veddahs. Generally Sinhalese who trace their descent to a low-country district are classified as low-country Sinhalese, others as Kandyan Sinhalese. The Western and Southern Provinces, the Southern (Chilaw) District and the Western parts of Puttalam District are low-country areas; the Central and North Central Provinces, Uva, Sabaragamuwa, Kurunegala and the Sinhalese divisions of the districts of Batticaloa, Trincomalee and Vavuniya are regarded as Kandyan districts. At the 1953 Census 42.3 per cent. of the population were low-country Sinhalese, 28.8 per cent. Kandyan Sinhalese. The religion of the great majority of inhabitants is Buddhism, introduced from India, according to ancient Sinhalese chronicles, in 300 B.C. Next to Buddhism, Hinduism has a large following.

## PHYSIOGRAPHY

Ceylon is a compact area, except for the Island of Mannar and almost detached portion in the north, the Jaffna Peninsula and its satellite islands of Delft, Kayts, etc. The relief of the island includes a mountainous in the south-central region of 3,000 to 7,000 feet above sea level, surrounded by an upland belt of about 1,000 to 3,000 feet and a narrow coastal plain broadening out to a vast tract in the north. The coastal plain continues for a distance out to sea as a continental shelf and a coral reef, for the most part submerged, lies close to the coast. On the Central Ridge of the hill country are some of the highest peaks in Ceylon, Pidurutalagala (8,281 ft.), Kirigalpotta (7,857 ft.) and Totapolakanda (7,741 ft.) and the high plains Nuwara Eliya (over 6,000 ft.), Elk Plains (6,000 ft.) and Horton Plains (over 7,000 ft.). The other principal peaks are Adam's Peak (7,360 ft.), Namunukula (6,679 ft.), Knuckles (6,112 ft.) and Haycock (2,167 ft.). The Peninsula of Jaffna and the Island of Mannar are featureless level stretches.

The Mahaveli-ganga, 206 miles long, is the largest river of Ceylon. Rising on the western side of the central hilly ridge, it flows north and east to empty into the Koddiyar Bay on the east coast. Other rivers are the Kelaniganga (90 miles), Aruvi-aru (104), Kala-oya (97), Yam-oya (94) and Deduru-oya (87). Waterfalls girdle the central mountainous massif and offer some of the best scenic features in the island; Dunhinda (Badulla), Diyalawa (Koslanda), Elgin (Hatton Plateau) and Perawella are among the outstanding falls. Forests, jungle and scrub cover the greater part of the island, often being intermingled. The forests, of varying species, extend from fairly near the coast right into the hill country. In areas over 2,000 feet above level grasslands (*palanas* or *talawas*) are found. Their total area is some 250 square miles, principally in the Province of Uva.

Climate.—The climate of Ceylon is warm throughout the year, with high relative humidity. Temperatures average 80° F. during the year in the lowlands, falling off in the hills to 60° F. at elevations over 6,000 ft. Day humidity is over 70 per cent. and night humidity over 85 per cent. Temperature ranges vary little between wet and dry seasons. In the hilly areas morning mists sometimes occur. Traces of ground frost appear occasionally at night, at the highest levels, and disappear at sunrise. Thunderstorms occasionally give hail, but snow is completely absent. Rainfall is generally heavy, with marked regional variations; the heaviest falls (200–250 inches) are recorded on the south-west slopes of the central hills. Some depression or cyclonic activity occurs generally during October to December.

## GOVERNMENT

Early in the sixteenth century the Portuguese landed in Ceylon and founded settlements, eventually conquering much of the country. Portuguese rule in Ceylon lasted 150 years during which the Roman Catholic religion established among the Sinhalese inhabitants and to some extent Portuguese modes

of living adopted. In 1658, following a twenty-year period of decline, Portuguese rule gave place to that of the Dutch East India Company which was to exploit Ceylon with varying fortunes until 1796.

The Maritime Provinces of Ceylon were ceded by the Dutch to the British on February 16, 1798, becoming the British Crown Colony in 1802 under the terms of the Treaty of Amiens. With the annexation of the Kingdom of Kandy in 1815, all Ceylon came under British rule.

On February 4, 1948, Ceylon became a self-governing state and a member of the British Commonwealth of Nations under the *Ceylon Independence Act 1947*. The Parliament of Ceylon consists of (a) The Queen (represented by the Governor-General) and (b) two houses, namely, the Senate and the House of Representatives. The Executive consists of the Prime Minister and a Cabinet chosen from the party which has the majority in the House of Representatives.

## COMMUNICATIONS

There are 12,398 miles of motorable roads in Ceylon, of which 2,213 miles are bitumen surfaced. In December, 1968 there were 161,154 motor vehicles on register—84,678 private cars and cabs, 9,151 coaches, 29,484 lorries, 12,492 tractors, 5,784 trailers and 18,043 motor cycles.

In 1967, 2,262 ocean-going merchant vessels of a total net register tonnage of 9,373,436 entered the port of Colombo.

In 1968 there were 2,361 Money Order Offices,

1,320 Telegraph Offices and 33,409 Telephones. There were 41 Telex subscribers in 1968.

A commercial wireless telegraph station has a range of 500 miles by day and about 1,000 to 2,000 miles by night and handles ship-to-shore traffic.

Since 1965 Air Ceylon has been chartering a VC-10 aircraft from B.O.A.C. for operation on a weekly service on the route: London—Rome—Karachi—Colombo—Kuala Lumpur—Singapore. Air Ceylon's regional services are operated direct to Madras four times weekly. Services between Jaffna and Tiruchirappalli operate thrice weekly and two services a week are operated to Bombay. A *Trident* service was due to start in August, 1969, providing new links with South-east Asia.

## CAPITAL OF CEYLON

Colombo is distant from London 5,700 miles; transit 17 days; by air 13½ hours.

NATIONAL DAY.—February 4.

## Cyprus

*Area, Climate and Population.*—Cyprus with an area of 3,572 square miles, is the third largest island in the Mediterranean Sea, exceeded in size by Sicily and Sardinia. Its greatest length is 140 miles and greatest breadth 60 miles. It is situated at the extreme north-east corner of the Mediterranean in latitude 35° N. and longitude 33° 30' E. It is about 40 miles distant from the nearest point of Asia Minor, 60 miles from Syria and 240 miles from Port Said. The main topographical features of Cyprus are: (a) A narrow limestone range of mountains extending in an unbroken chain for nearly 100 miles along the north coast, at an average height of 2,000 feet; (b) A broad central plain, running for some 60 miles from west to east; (c) An extensive igneous mass rising to over 6,000 feet in the west of the island; and (d) Narrow coastal plains between the mountains and the sea. The rivers are little more than mountain torrents. There is no permanent stream of any volume.

Cyprus has a somewhat intense Mediterranean climate (with a hot dry summer and a variable warm winter). There are two contrasted seasons, winter and summer, while the intermediate ones are short and transitional. The winter is generally sunny with frequent cold spells between the beginning of December and end of February. The mean temperatures of the coldest month range from 35° to 50° F.

The rainy season lasts from October to April with average total rainfall of about 20 inches. The summers are hot, dry and almost cloudless. July and August are the warmest months, with mean temperatures ranging from 80°–85° F in the lowlands, to 70° in the mountains. At the end of 1968 the estimated population was 621,000. There are two major communities, Greek Cypriots (78 per cent) and Turkish Cypriots (18·2 per cent); and minorities of Armenians, Maronites and others. The population increases on the average at about 1·7 per cent. annually. Birth rate is moderately high (24·4 per thousand in 1966) and the death rate (6·1 per thousand) is one of the lowest in the world. Infant mortality rate is about 29 per thousand.

CAPITAL.—Nicosia, near the centre of the island, with a population of 109,000 (including suburbs); the other principal towns are Ψ Limassol (population 49,000), Ψ Famagusta (40,000), Ψ Larnaca (21,000), Paphos (11,000) and Kyrenia (4,000). Nicosia is distant from London 2,028 miles by air.

FLAG.—Gold map of Cyprus on a white ground, surmounting crossed olive branches (green).

President, Archbishop Makarios, elected Dec. 14, 1959; assumed office Aug. 16, 1960; re-elected Feb. 25, 1968.

## CABINET

A joint Greek-Turkish Cabinet was formed in 1960, but the three Turkish members ceased to attend, following events in Dec. 1963, and their Ministries were taken over by Greek Ministers.

## GOVERNMENT

Cyprus was formally annexed to Great Britain on Nov. 5 1914, on the outbreak of war with Turkey. From 1925 to 1960 it was a crown colony administered by a Governor, assisted by an Executive Council and also for a time by a partly-elected Legislative Council. A state of emergency was declared in November, 1955, and Archbishop Makarios was deported. Further proposals for a workable constitution made in 1956 and a seven-year-plan for the government of Cyprus in association with Greece and Turkey were rejected by the Greek Government and Greek Cypriots. Archbishop Makarios was released in March, 1957, but was not allowed to return immediately to Cyprus. Following a meeting at Zürich between the Prime Ministers of Greece and Turkey, a conference was held in London and an agreement was signed on February 19, 1959, between the United Kingdom,

Greece, Turkey and the Greek and Turkish Cypriots which provided that Cyprus would be a Republic.

**Constitution.**—Under the Cyprus Act, 1960, the island became an independent sovereign republic on August 16, 1960. The constitution provides for a Greek Cypriot President and a Turkish Cypriot Vice-President elected for a five-year term by the Greek and Turkish communities respectively. The House of Representatives, elected for five years by universal suffrage of each community separately, consists of 35 Greek and 15 Turkish members. The 1960 Constitution proved unworkable in practice and, following the submission of proposals for its revision presented by President Makarios, intercommunal troubles started in December 1963.

**British Sovereign Areas.**—The United Kingdom retained full sovereignty and jurisdiction over two areas—Akrotiri-Episkopi-Paramali and Dhekelia-Pergamos-Ayios Nicolaos-Xylophagou—and use of roads and other facilities. The British Administrator of these areas is appointed by the Queen and is responsible to the Secretary of State for Defence.

**Production and Industries.**—About 38 per cent. of those gainfully employed take part in agriculture, the chief agricultural products being:—cereals, vine products, potatoes, carobs, carrots, citrus and other fresh and dried fruit, tobacco and legumes. Various kinds of livestock are raised, principally sheep, goats, pigs and poultry. The value of agricultural and livestock exports in 1967 was about

£17,286,000. Mining is an important industry in Cyprus; the value of minerals exported in 1968 was £10,400,000. The principal minerals are cupreous and copper concentrates, copper and iron pyrites, and asbestos. There is no heavy industry, but a wide variety of light manufacturing industries. Tourism is becoming an increasingly important source of revenue. Long-stay visitors to the island in 1968 numbered 88,000.

**Communications.**—Ψ Famagusta is the main seaport. In 1968, 2,445 steam and motor ships (net tonnage 4,495,373) and 146 sailing vessels (tonnage 15,383) engaged in the foreign trade. Air passenger traffic in, out and through Nicosia airport in 1967 totalled 236,890 persons and freight amounted to 3,395 metric tons.

## The Gambia

The West African river Gambia was discovered by the Portuguese in 1447; and in 1588, the year of the Spanish Armada, Queen Elizabeth I, being then at war with Spain and Portugal, gave a charter to a British Company to trade with the Gambia, and as early as 1618 an effort to do so was made, but it was not successful. In 1686 a fort was built upon a rocky island, and, in honour of the new King, was named Fort James; but the English merchants had formidable rivals in the Portuguese and French, and it was not until 1783 that the river was recognized, by the *Treaty of Versailles*, as British. The Colony had no regular political institutions until 1807, when it was put under the Government of Sierra Leone. The Colony of the Gambia was created in 1843, and was constituted a separate government in 1888. It consists of a narrow strip of land, estimated at 4,003 sq. miles, lying on both sides of the River Gambia to a distance of about 300 miles, mainly between 13° 15'–13° 45' N. and 13° 45'–13° 65' W. The river is navigable to ocean-going vessels

for 150 miles and to river steamers up to 300 miles from its mouth. The capital and chief port, Bathurst, is situated on the island of St. Mary at the mouth of the River. The total population of the country was 315,486 at the 1963 Census; (estimated, 1968, 350,000). The climate of Bathurst is extremely pleasant except during the rainy season from June to October, when it sometimes becomes uncomfortably warm. Rainfall 30–60 inches a year.

**CAPITAL.**— $\Psi$  Bathurst. Population (1963 census), 27,809.

**FLAG.**—Three equal horizontal stripes; the top stripe red, the bottom stripe green, and the central stripe blue with a white band on either side one quarter of the width of the blue stripe.

**Governor-General, His Excellency Alhaji Sir Farimang Singhatch, G.C.M.G.**..... £4,100

**Government.**—On February 18, 1965, the Gambia became an independent state within the Commonwealth. The Governor-General is appointed by the Queen on the advice of the Prime Minister. The House of Parliament which elects its own Speaker consists of 32 elected members, 4 elected Head Chiefs, 2 nominated members and the Attorney-General. The Cabinet consists of the Prime Minister and Ministers appointed from among Members on his advice.

**Deputy High Commissioner, E. Sullivan.**

**Communications.**—Bathurst is 2,600 miles from London; the mail boat from Liverpool takes seven days. There is one direct air service weekly *via* Las Palmas and three weekly, changing at Dakar. Ocean-going vessels entering the ports in 1968 totalled 221 (net tonnage 666,163). Civil aviation movements at the international aerodrome of Yundum 17 miles from Bathurst, numbered 1,948. Internal communication is by road and river. There are some 730 miles of motor road, including about 129 miles of bituminous surface road connecting Bathurst and areas on South Bank. There are eight Government wireless stations and  $\Psi$  V.H.F. telephone service linking Bathurst with the prin-

pal towns in the provinces. In 1962  $\blacksquare$  broadcasting service was started.

**Education.**—There are 94 primary schools (66 Government and 28 others), 12 post-primary schools or departments, and 4 secondary schools, all recognized for School Certificate Examination. The total school enrolment in 1968–69 was 20,242 pupils, including 5,763 girls. The vocational training centre in Bathurst offers courses in carpentry, metal work, shorthand and typing. Yundum College provides training for teachers.

**Production.**—Most of the population is engaged in agriculture, the chief product being ground-nuts which is the single important cash crop. Other crops are rice, millet and various kinds of fruit and vegetables. Fishing and livestock production are considerable. No minerals are at present being exploited and there are practically no manufactures other than ground-nut processing.

The chief exports are ground-nut products, which account for over 90 per cent. of total exports, the main markets being Italy and United Kingdom. Other exports are palm kernels, dried fish and hides. Foodstuff imports include rice, sugar, flour and kola nuts. Manufactured goods of all kinds are imported, the chief being textiles and apparel, vehicles, machinery, metal goods and petroleum products.

## Ghana

Ghana (formerly the British Colony of the Gold Coast) is situated on the Gulf of Guinea, between 3° 15' W. long. and 1° 12' E. long. It is bounded on the north by the Republic of Upper Volta, on the west by the Republic of Ivory Coast, on the east by the Republic of Togo, and on the south by the Atlantic Ocean. It extends about 334 miles along the coast-line and inland to an average distance of 440 miles or to 11° N. lat. Although a tropical country, Ghana is cooler than many countries within similar latitudes.

**Area and Population.**—Ghana has  $\blacksquare$  total area of 92,100 sq. miles with a total population (estimated, 1968) of 8,376,000.

**CAPITAL.**— $\Psi$  ACCRA. Population of the Capital District (including Accra Tema City Council area, and Accra Rural area) (estimated, 1966), of 532,600. Other towns are Kumasi, Tamale, Sekondi-Takoradi, Cape Coast, Sunyani, Ho, Koforidua,

**FLAG.**—Horizontal bands of red, green and yellow. **FORCES DAY.**—July  $\blacksquare$  (Republic Day).

#### GOVERNMENT

The Gold Coast region of West Africa  $\blacksquare$  first visited by European traders in the fifteenth century. The Gold Coast Colony, Ashanti, the Northern

Territories and Trans-Volta-Togoland, the constituent parts of the new State, came under British administration at various times, the original Gold Coast Colony, the coastal and Southern areas, being first constituted in 1874; Ashanti in 1901; and the Northern Territories Protectorate in 1902. The territory of Trans-Volta-Togoland, part of Togo, a former German colony, was mandated to Britain by the League of Nations after the First World War, and remained under British administration as ■ United Nations Trusteeship after the Second World War. After ■ plebiscite in May, 1956, under the auspices of the United Nations, the territory was integrated with the Gold Coast Colony.

The former Gold Coast Colony and associated territories became the independent state of Ghana and ■ member of the British Commonwealth on March 6, 1957, under the *Ghana Independence Act, 1957* and adopted a Republican constitution on July 1, 1960.

On Feb. 24, 1966, the Army seized power and Dr. Nkrumah and his ministers were dismissed. The National Liberation Council is the ultimate political and military authority in Ghana performing the functions of a Presidential Council. There is an Executive Council (its membership is predominantly civilian) in which, subject to the powers of the N.L.C., executive power of the State is vested and which is responsible for the general direction and control of the Government of Ghana.

A National Advisory Committee co-ordinates general policy and proposals for presentation to the N.L.C. The Committee consists of the non-N.L.C. members of the Executive Council and 15 other civilians.

The final plan for a new constitution, was approved in the autumn of 1969. Meetings of a Constituent Assembly to draw up the constitution began in January, 1969. The ban on political activity, in force since February 24, 1966, was lifted on April 30, 1969, and a general election was held on August 29, 1969. After admitting involvement in political fund-raising, Lt.-Gen. Ankrah resigned in March, 1969, and was replaced as Chairman of the N.L.C. by Brig. A. A. Afrifa.

#### COMMUNICATIONS

There ■ four aerodromes in Ghana, situated at Accra, Takoradi, Kumasi and Tamale. Accra Airport is ■ international airport and is the terminus for services from the United Kingdom, the Northern, Ashanti and Western Regions. There is ■ National Meteorological Service, providing forecasting, climatological and agrometeorological services.

Railway communications consist of a main line running from Takoradi to Kumasi thence to Accra, a distance of 357 miles, with branches from Kojokrom to Sekondi (3 miles), Tarkwa to Prestea (18 miles) and Achimota to Tema (16 miles). A link of 51 miles between the Huni-Valley-Kade line at Achlase Junction and the Accra-Kumasi line at Kotoku was opened in 1956. Total route mileage is 501 miles 3' 6" gauge track. On Dec. 31, 1964, the mileage of all-weather roads was 5,519, comprising 3,388 miles of bitumen surface and 2,131 miles gravel surface. In addition there are 700 miles of roads at present maintained by the regional organization and local authorities.

Takoradi Harbour consists of two breakwaters enclosing a water area of 220 acres. Seven quay berths are situated on the lee breakwater—five are used for the handling of general cargo, one is leased specially for manganese exports and one is used for shallow draft colliers. Tema Harbour—Africa's largest artificial harbour and ■ prospective major port of the South Atlantic—was opened in 1962. There are 12 berths for larger ocean going vessels. An oil berth has also been built to serve the Ghana refinery which has been constructed at Tema. As part of the Tema Harbour project, a new township has been built where many industries are already operating.
