**INDEPENDENT BROADCASTING AUTHORITY**

70 Brompton Road, S.W.3  
 [01-584 7011]

The Independent Television Authority was created by Act of Parliament in July, 1954 to provide additional television broadcasting services to those provided by the British Broadcasting Corporation. In July, 1972, under the Sound Broadcasting Act, 1972, it was renamed the Independent Broadcasting Authority and its functions were extended to cover the provision of a local radio service. The Television Act, 1964, and the Sound Broadcasting Act, 1972 were consolidated into the Independent Broadcasting Authority Act, 1973. The Broadcasting Act, 1980, provided for the setting up of the Channel Four Television Company as a subsidiary of the IBA; it is due to start broadcasting in England, Scotland and Northern Ireland in November, 1982. A separate Welsh Fourth Channel Authority has also been established by this Act. The Broadcasting Act, 1981 has consolidated a number of Acts relating to the IBA. As part of its review of the ITV system, the Authority, in December 1980, offered a contract to

broadcast a new national breakfast-time television service, to start in 1983, to TV-AM. In addition, changes were made to some ITV companies. The Authority consists of a Chairman and eleven members appointed by the Home Secretary (of whom three make Scotland, Wales and Northern Ireland their respective responsibilities) and a permanent staff under the Director General. The four main functions of the Authority are to appoint the ILR and ITV programme companies; to own and operate the transmitters; to supervise the programmes provided by the contractors and the Channel Four Television Company and their scheduling; and to control the advertising. The programme companies pay the Authority a rental to enable it to carry out its duties. Fifteen ITV programme companies provide programmes in 14 regions (two companies share the London contract, one operating at the weekends, the other during the week). By June, 1982, 34 Independent Local Radio contractors were broadcasting in 33 areas of the U.K. (in London, there are two companies, one providing a news and information service, and the second general entertainment and information). A further 35 areas will be covered by Independent Local Radio during the 1980s. These companies are financed by the sale of advertising time.

#### DEPARTMENT OF INDUSTRY

Ashdown House, 123 Victoria Street, S.W.1  
 [01-212 7676]

The Department is responsible for policy in relation to industry including policy towards small firms. It is responsible for regional industrial policy and for financial assistance to industry other than through the tax system, though some of its functions in this field relate only to England. The Department 'sponsors' the general manufacturing industries as well as British Aerospace, British Shipbuilders, the British Steel Corporation, the Post Office, British Telecom, Cable and Wireless Ltd. and the National Enterprise Board. It is responsible for the operation of the Government's industrial research establishments and for the Business Statistics Office. The Design Council and the National Research Development Corporation also come within its sphere.

Hercules Road, S.E.1  
[01-928 2345]

The Central Office of Information is a common service department which produces information and publicity material, and supplies publicity services, for other Government departments which require them. In the United Kingdom it conducts Government display press, television and poster advertising, produces and distributes booklets, leaflets, films, television material, exhibitions, photographs and other visual material; and distributes departmental press notices. For the overseas departments it supplies British Information posts overseas with press, radio and television material, booklets, magazines, reference services, films, exhibitions, photographs, display and reading room material; arranges tours in the United Kingdom for official visitors from overseas. Administrative responsibility for the Central Office of Information rests with H.M. Treasury Ministers, while the ministers whose departments it serves are responsible for the policy expressed in its work.

**BOARD OF INLAND REVENUE**

Somerset House, W.C.2

[01-438 6622]

The Board of Inland Revenue was constituted under the Inland Revenue Board Act, 1849, by the consolidation of the Board of Excise and the Board of Stamps and Taxes. In 1909 the administration of

excise duties was transferred to the Board of Customs. The Board of Inland Revenue administers and collects direct taxes—mainly income tax, corporation tax, capital gains tax, capital transfer tax, stamp duty, development land tax and petroleum revenue tax—and advises the Chancellor of the Exchequer on policy questions involving them. The Head-Office is in London and there are Inspectors of Taxes offices and Collection offices throughout the United Kingdom. The Department's Valuation Office is responsible for valuing property for tax purposes, for compensation and for compulsory purchase and (in England and Wales) for local rating purposes. In 1980/81 Inland Revenue collected over £32,000,000,000 tax at a cost of approximately £651,000,000.

**H.M. LAND REGISTRY**

Lincoln's Inn Fields, W.C.2  
[01-405 3488]

The registration of title to land was first introduced in England and Wales by the Land Registry Act, 1862. Many changes have been made to the original system by subsequent legislation and H.M. Land Registry operates today under the Land Registration Acts, 1925 to 1971. The object of registering title to land is for dealings with it to be made more simple and economical. This is achieved by maintaining a register of land owners whose title is guaranteed by the State and by providing simple forms for the transfer, mortgage and other dealings with real property. Under the Land Registration Act, 1966, the voluntary first registration of land in non-compulsory areas was severely curtailed in order to facilitate an accelerated programme for the extension of the compulsory system to cover all the built-up areas of the country as soon as possible. The intention is that registration of title shall ultimately be universal throughout England and Wales. Nevertheless, before the 1966 Act a great deal of land became registered voluntarily and it is still possible in non-compulsory areas to register building estates, upon certain conditions, and other classes of property in specified circumstances. H.M. Land Registry is administered under the Lord Chancellor by the Chief Land Registrar and the work is decentralized to a number of regional offices. The Chief Land Registrar is also responsible for the Land Charges Department and the Agricultural Credits Department.

**LIBRARIES**

**THE BRITISH LIBRARY**  
 2 Sheraton Street, W.1  
 [01-636 1544]

The British Library was established on July 1, 1973, under the British Library Act, 1972, to provide, on a national scale, comprehensive reference, lending, bibliographic and other services based on its vast collections of books, manuscripts, maps, music, periodicals and other material.

The Library was created by bringing together under a management Board a number of national organizations to form three main Divisions. The Reference Division comprises the former library departments of the British Museum including the Newspaper Library at Colindale, the Science Reference Library, the Library Association Library and since April 1982, the India Office Library and Records, when responsibility for its collections was transferred from the Foreign and Commonwealth Office to the British Library Board. The Lending Division comprises the former National Lending Library for Science and Technology and the former National Central Library. The Bibliographic Services Division was formed from the former British National Bibliography Ltd. and the (former British Museum) Copyright Receipt Office. There is also a Research and Development Department which supports external research on library and information topics.

The Reference Division contains about 10,300,000 volumes of printed books and periodicals, about 83,500 volumes of Western manuscripts and 37,300 volumes of Oriental manuscripts, and outstanding collections of newspapers, official papers, papyri, charters, seals, maps, music and postage stamps. Admission to the Bloomsbury reading rooms and the reading rooms of the Department of Oriental Manuscripts and Printed Books, the India Office Library and Records and the Newspaper Library is by "reader's pass" only. The Science Reference Library is the principal public reference library in the United Kingdom for contemporary literature of science and technology, and here no "reader's pass" is necessary.

The Lending Division in Yorkshire operates a

rapid postal loan or photocopy service for organizations and currently receives 2,686,000 requests a year from British and foreign libraries. Individuals should apply through their local libraries. The stock contains 4,450,000 volumes of books and periodicals, 3,300,000 documents in microfilm and large quantities of semi-published materials such as reports, translations and theses.

The Bibliographic Services Division produces the British National Bibliography and the UK-MARC (machine-readable catalogue) records, and provides automated services, including the BLAISE-LINK and BLAISE-LINE on-line information retrieval services giving access to 7,000,000 bibliographic records, and the local cataloguing service, LOCAS.

**MONOPOLIES AND MERGERS COMMISSION**

New Court, 48 Carey Street, W.C.2  
[01-831 6111]

The Commission was established under the Monopolies and Restrictive Practices (Inquiry and Control) Act, 1948 as the Monopolies and Restrictive Practices Commission and was reconstituted on subsequent occasions. It became the Monopolies and Mergers Commission when the Fair Trading Act, 1973, came into operation on November 1, 1973. The Commission has the duty of investigating and reporting on questions referred to it in accordance with the Act with respect to (a) the existence or possible existence of monopolies not registrable under the Restrictive Trade Practices Act, 1976, which consolidated earlier legislation, and relating to the supply of goods or services to the United Kingdom or part of the United Kingdom or to the supply of goods for export; (b) the transfer of a newspaper or newspaper's assets; (c) the creation or possible creation of a merger qualifying for investigation within the meaning of the Act.

In monopoly references (except those "limited to the facts") and in merger references it is the duty of the Commission to report on the effect of the facts which they find on the public interest and to consider and, if they think fit, to recommend the action to be taken to remedy or prevent adverse effects. In addition the Fair Trading Act, 1973, provides for references to the Commission on the general effect on the public interest of specified monopoly or other uncompetitive practices and of restrictive labour practices.

The Competition Act, 1980, provides for the reference to the Commission of particular anti-competitive practices and of questions of efficiency, costs, service provided and possible abuse of monopolies in the public sector.

### THE BRITISH MUSEUM

Great Russell Street, W.C.1

[01-636 1555]

*Antiquities Departments:* Egyptian, Greek and Roman, Medieval and Later, Oriental, Prehistoric and Romano-British; Western Asiatic; also, Coins and Medals, Prints and Drawings, Ethnography. *Main entrance,* Great Russell Street, W.C.1; *North entrance,* Montague Place, W.C.1. Open weekdays (including Bank Holidays) 10 to 5 and Sundays 2.30 to 6. Closed on Good Friday, Christmas Eve, Christmas Day, Boxing Day, New Year's Day and the first Monday in May. The ethnographical collections are displayed in The Museum of Mankind at 6 Burlington Gardens, W.1. Opening times as above.

The British Museum may be said to date from 1753, when Parliament granted funds to purchase the collections of Sir Hans Sloane and the Harleian manuscripts, and for their proper housing and maintenance. The building (Montagu House) was opened in 1759. The present buildings were erected between 1823 and the present day, and the original collection has increased to its present dimensions by gifts and purchases. The administrative expenses were estimated at £11,722,000 in 1982-83, and were met by a vote under "Museums, Galleries and the Arts", Class X of the Civil Estimates. The constitution of the British Museum was revised under the terms of the British Museum Act, 1963.

Under the provisions of the British Library Act 1972 and the British Library Act (Appointed Day) Order 1973, the Library Departments of the British Museum were transferred on July 1, 1973, from the responsibility of the Trustees of the British Museum to that of the British Library Board and became part of the British Library.

**THE BRITISH MUSEUM (NATURAL HISTORY)**  
 Cromwell Road, S.W.7  
 [01-589 6323]

Open free Monday to Saturday (except New Year's Day, Good Friday, May Day, Christmas Eve, Christmas Day and Boxing Day) 10 to 6, and on Sundays from 2.30 to 6.

The Natural History Museum originates from the natural history departments of the British Museum, Bloomsbury. During the 19th century the natural history collections grew so extensively that it became necessary to find new quarters for them and in 1881 they were moved to South Kensington. The British Museum Act, 1963, made the Natural History Museum completely independent with its own body of Trustees. The Zoological Museum, Tring, bequeathed by the second Lord Rothschild, has formed part of the Museum since 1938. Research workers are admitted to the libraries and study collections by Student's Ticket, applications for which should be made in writing to the Director. There are lectures for visitors at 3 p.m. on week-days and lectures are also available at other times for special parties by arrangement with the Department of Public Services.

The administrative expenses were estimated at £8,512,000 in 1981-82.

**OFFICE OF THE PARLIAMENTARY COMMISSIONER AND HEALTH SERVICE COMMISSIONER**

Church House, Great Smith Street, S.W.1  
 [01-212 7676]

The Parliamentary Commissioner for Administration is responsible for investigating complaints referred to him by Members of the House of Commons from members of the public who claim to have sustained injustice in consequence of maladministration in connection with administrative action taken by or on behalf of Government Departments. Certain types of action by Departments are excluded from investigation. Actions taken by other public bodies (such as local authorities, the police, the Post Office and nationalised industries) are outside the Commissioner's scope.

The Health Service Commissioners for England, for Scotland and for Wales are responsible for investigating complaints against National Health Service authorities that are not dealt with by those authorities to the satisfaction of the complainant. Complaints can be referred direct by the member of the public who claims to have sustained injustice or hardship in consequence of the failure in a service provided by a relevant body, failure of that body to provide a service or in consequence of any other

action by that body. Certain types of action are excluded, in particular, action taken solely in consequence of the exercise of clinical judgment. The three offices are presently held by the Parliamentary Commissioner.

#### Paymaster General's Office

Sutherland House, Russell Way, Crawley, West Sussex  
[0293 27833]

The Paymaster General's Office was formed by the consolidation in 1835 of various separate pay departments then existing, some of which dated back at least to the Restoration of 1660. Its function is that of paying agent for Government Departments, other than the Revenue Departments. Most of its payments are made through banks, to whose accounts the necessary transfers are made at the Bank of England. The payment of approximately one million public service pensions is an important feature of its work.

### OFFICE OF POPULATION CENSUSES AND SURVEYS

St. Catherine's House, W.C.2  
[01-242 0262]

The Office of Population Censuses and Surveys was created by a merger in May 1970 of the General Register Office and the Government Social Survey Department. The Registrar General controls the local registration service in England and Wales in the exercise of its registration and marriage duties. Copies of the original registrations of births, still-births, marriages and deaths are kept in London. A register of adopted children is held at Titchfield. Central indexes are compiled quarterly and certified copies of entries may be obtained on payment of certain fees. Since 1841 the Registrar General has been responsible for taking the census of population. He also prepares and publishes a wide range of statistics and appropriate commentary relating to population, fertility, births, still-births, marriages, deaths and cause of death, infectious diseases, sickness and injuries. The Registrar General also maintains, at Southport, a central register of persons on doctors' lists, for the purposes of the National Health Service.

### THE POST OFFICE

St. Martins le Grand, E.C.1  
[01-432 1234]

Crown services for the carriage of Government despatches were set up about 1516. The conveyance of public correspondence began in 1635 and the mail service was made a Parliamentary responsibility with the setting up of a Post Office in 1657. Telegraphs came under the Post Office control in 1870 and the Post Office Telephone Service began in 1880. The

National Data Processing Service, the Post Office's commercial computer bureau, was set up in 1967. The National Girobank service of the Post Office began in 1968. The Post Office ceased to be a Government Department on October 1, 1969, following the Post Office Act 1969. The office of Postmaster General was abolished and responsibility for the running of the postal, telecommunications, and giro and remittance services was transferred to the new public authority called the Post Office. The 1981 British Telecommunications Act separated the functions of the Post Office. The Post Office is now solely responsible for postal services and National Girobank. The Act reaffirmed the Post Office basic letter monopoly but added some specific exclusions. The Chairman and members of the Post Office Board are appointed by the Secretary of State but responsibility for the running of the Post Office as a whole rests with the Board in its corporate capacity.

**PUBLIC TRUSTEE OFFICE**  
Stewart House, Kingsway, W.C.2  
[01-405 4300]

The Public Trustee is a Trust corporation created to undertake the business of executorship and trusteeship; he can act as executor or administrator of the estate of a deceased person, or as a trustee of a will or settlement (either by original appointment or by transfer at a later stage) alone or jointly with others in the same manner and under the same legal obligations as a private individual or commercial trust corporation, but with a guarantee that all breaches of trust will be made good out of the Consolidated Fund. He cannot accept a trust which is foreign, exclusively charitable or for the benefit of creditors, nor an insolvent estate. He can accept the trusteeship of and manage pension funds, disaster funds and the funds of private individuals or institutions. He also administers common investment funds for moneys in Court. Fees are charged for his services, the Office being self supporting but non profit making.

**HOUSE OF LORDS RECORD OFFICE**  
House of Lords, S.W.1  
[01-219 3074]

Since 1497, the records of Parliament have been kept within the Palace of Westminster. They are in the custody of the Clerk of the Parliaments, who in 1946 established a record department to supervise their preservation and their production to students. The Search Room of this office is open to the public throughout the year, Mondays to Fridays inclusive from 9.30 a.m. to 5.30 p.m. The records preserved number some 3,000,000 documents, and include Acts of Parliament from 1497, Journals of the House of Lords from 1510. Minutes and Committee proceedings from 1610, and Papers laid before Parliament from 1531. Amongst the records are the Petition of Right, the Death Warrant of Charles I, the Declaration of Breda and the Bill of Rights. The House of Lords Record Office also has charge of the Journals of the House of Commons (from 1547), and other surviving records of the Commons (from 1572), which include plans and annexed documents relating to Private Bill legislation from 1818. Among other documents are the records of the Lord Great Chamberlain, the political papers of certain members of the two Houses (including the papers of Lloyd George, Bonar Law and other statesmen previously preserved in the Beaverbrook Library), and documents relating to Parliament acquired on behalf of the nation. All the manuscripts and other records are preserved in the Victoria Tower of the Houses of Parliament. A permanent exhibition was established in the Royal Gallery in 1979.

ROYAL COMMISSION ON  
HISTORICAL MANUSCRIPTS

Quality House, Quality Court, Chancery Lane,  
W.C.2

[01-242 1198]

The Commission was set up by Royal Warrant in 1869 to enquire and report on collections of papers of value for the study of history in private hands. In 1959 a new warrant enlarged these terms of reference to include all historical records, wherever situated, outside the Public Records and gave it added responsibilities, as a central co-ordinating body, to promote, assist and advise on their proper preservation and storage. The Commission has published over 200 volumes of reports. It holds a further 25,000 unpublished reports in the National Register of Archives, available for consultation in its search room. It also administers the Manorial and Tithe Documents Rules on behalf of the Master of the Rolls. *Chairman*, The Master of the Rolls.

*Commissioners*, The Very Rev. S. J. A. Evans, C.B.E., F.S.A.; Sir John Summerson, C.B.E., F.B.A., F.S.A.; Prof. J. C. SCOTTISH RECORD OFFICE

H.M. General Register House, Edinburgh 1  
[031-556 6585]

The history of the national archives of Scotland can be traced back to the 13th century. The present headquarters of the Scottish Record Office, the General Register House, was founded in 1774 and built to designs by Robert Adam, later modified by Robert Reid. Here are preserved the administrative records of pre-Union Scotland, the registers of central and local courts of law, the public registers of property rights and legal documents, and many collections of local and church records and private archives. Certain groups of records, mainly the modern records of government departments in Scotland, the Scottish railway records, and the plans collection, are preserved in the branch repository at the West Register House in Charlotte Square—the former St. George's Church which was designed by Robert Reid. The Search Rooms in both buildings open daily from 9 to 4.45 (Mondays to Fridays). A permanent exhibition at the West Register House and changing exhibitions at the General Register House are open to the public on weekdays from 10 to 4. The National Register of Archives (Scotland), which is a branch of the Scottish Record Office, is based in the West Register House.

*Keeper of the Records of Scotland*, J. Imrie.

**HER MAJESTY'S STATIONERY OFFICE**

Sovereign House, Botolph Street, Norwich  
[0603-22211]

Her Majesty's Stationery Office was established in 1786 and is the British Government's central organization for the supply of printing, binding, office supplies and office machinery of all kinds for the Public Service at home and abroad; it also undertakes duplicating and distributing for Government departments. H.M.S.O. is the publisher for the Government

and has bookshops for the sale of Government publications in London, Edinburgh, Cardiff, Manchester, Bristol, Birmingham and Belfast; leading booksellers in the larger towns act as agents; and there are wholesale departments in London, Edinburgh and Belfast from which booksellers may obtain supplies.

Generally the department obtains its supplies from commercial sources by competitive tender. For printing and binding, however, H.M.S.O. has its own printing works and binderies which produce about one-third of the total requirement, including telephone directories, pension allowance books, postal orders, premium bonds, road fund licences and television licences.

Since April 1, 1980, H.M.S.O. has been financed by means of a trading fund established under the Government Trading Funds Act 1973.

**DEPARTMENT OF TRADE**  
1 Victoria Street, S.W.1  
(unless otherwise stated)  
[01-215 7877]

*Overseas trade.* The Department is responsible for commercial policy and relations with overseas countries and is concerned with economic policies affecting the international position of the United Kingdom. It promotes United Kingdom commercial interests overseas, negotiates on trade and commercial matters, and administers United Kingdom protective tariffs. Under the direction of the British Overseas Trade Board, which was set up in January 1972 and has the Secretary of State for Trade as President, the department promotes British exports, providing an export information service to industry and commerce, largely through the eight regional offices, and handling government support for overseas trade fairs. The Export Credits Guarantee Department is a separate department responsible to the Secretary of State for Trade, providing a credit insurance facility, and guaranteeing finance for exported goods and services.

*Competition and consumer affairs.* The Department is responsible for competition policy and administers powers under fair trading legislation for monopolies, mergers and restrictive practices. It deals with consumer protection and representation generally and is responsible for policy on consumer safety, consumer credit, quality assurance, standards, weights and measures (including metrication).

*Shipping and civil aviation.* The Department represents the interests of the United Kingdom shipping and civil aviation industries. It is also

responsible for the regulation of marine safety. It exercises statutory functions and powers in relation to the British Airways Board, the British Airways Authority and the Civil Aviation Authority including the approval of the capital investment of these bodies.

*Commerce and industry.* The Department is responsible in general for the basic legal framework for the regulation of industrial and commercial enterprises, administering a number of statutes governing company affairs and insolvency. It also holds general responsibility for company law, patent, trademark and copyright matters, and for all matters affecting insurance. The Department is also responsible for tourism and the hotel and travel industries; the newspaper, printing and publishing industries; the film industry and the distributive and service trades.

**THE TREASURY**

Parliament Street, S.W.1  
 [01-233 3000]

The Office of the Lord High Treasurer has been continuously in commission for well over 200 years. The Lord High Commissioners of H.M. Treasury consist of the First Lord of the Treasury (who is also the Prime Minister), the Chancellor of the Exchequer and five Junior Lords. This Board of Commissioners is assisted at present by the Chief Secretary, a Parliamentary Secretary who is the Chief Whip, a Financial Secretary, an Economic Secretary and two Ministers of State (Civil Service and State Revenue) and by the Permanent Secretary. The Prime Minister and First Lord is not primarily concerned in the day-to-day aspects of Treasury business. The Parliamentary Secretary and the Junior Lords are Government Whips in the House of Commons. The management of the Treasury devolves upon the Chancellor of the Exchequer and, under him, the Chief Secretary,

the Financial Secretary and the Economic Secretary. The Chief Secretary is responsible for the control of public expenditure. The Financial Secretary discharges the traditional responsibility of the Treasury for the largely formal procedure for the voting of funds by Parliament. The Minister of State (Civil Service) deals with the whole range of Civil Service matters and also export credit. The Minister of State (Revenue) deals with support for industry and corporation, petroleum revenue and development land tax.

**COUNCIL ON TRIBUNALS**

St. Dunstan's House, Fetter Lane, E.C.4  
 [01-404 4954]

The Council on Tribunals are an independent body established in 1958 by the *Tribunals and Inquiries Act* of that year, to act as an advisory body in the field of administrative tribunals and statutory inquiries. They now operate under the *Tribunals and Inquiries Act, 1971*. Under the Act they keep under review the constitution and working of the various tribunals which have been placed under their general supervision, and consider and report on administrative procedures relating to statutory inquiries.

The Council must be consulted both about procedural regulations for the tribunals under their supervision and about many procedural rules for statutory inquiries. They are also frequently consulted on proposals for legislation affecting tribunals and inquiries and on proposals where the need for an appeals procedure may arise.

The numerous tribunals which have been placed under the Council's supervision are concerned with a wide variety of matters ranging from agriculture and road traffic to immigration, taxation, pensions, and the allocation of school places. They include social security and National Health Service Tribunals, the Lands Tribunal, Industrial Tribunals, Mental Health Review Tribunals, Local Valuation Courts and the Civil Aviation Authority. The Council's jurisdiction is from time to time extended to additional tribunals, inquiries and hearings.

The Scottish Committee of the Council generally considers Scottish tribunals and matters relating only to Scotland.

Members of the Council are appointed by the Lord Chancellor and the Lord Advocate. The Scottish Committee is composed partly of members of the Council designated by the Lord Advocate and partly others appointed by him. The Parliamentary Commissioner for Administration is *ex officio* a member of both the Council and the Scottish Committee.

The Council submit an annual report on their work and that of the Scottish Committee to the Lord Chancellor and the Lord Advocate, which must be laid before Parliament.

**CORPORATION OF TRINITY HOUSE**

Trinity House, Tower Hill, E.C.3  
 [01-480 6601]

Trinity House, the first General Lighthouse and Pilotage Authority in the Kingdom, was a body of importance when Henry VIII granted the institution its first charter in 1514. The Corporation is the General Lighthouse Authority for England and Wales, the Channel Islands and Gibraltar, with certain statutory jurisdiction over aids to navigation maintained by local harbour authorities. It is also

responsible for dealing with wrecks dangerous to navigation, except those occurring within port limits or wrecks of H.M. ships. The Trinity House Lighthouse Service is maintained out of the General Lighthouse Fund which is provided from light dues levied on ships using the ports of the United Kingdom and Eire. The Corporation is also the principal pilotage authority in the United Kingdom and is responsible for London and 39 other districts. Certain charitable trusts are administered by the Corporation for the relief of aged or distressed mariners and their dependants. The affairs of the Corporation are managed by a Board of ten active Elder Brethren and the Secretary, assisted by administrative, engineering and marine staff. The active Elder Brethren also act as nautical assessors in marine causes in the Admiralty Division of the High Court of Justice.

### COMMONWEALTH WAR GRAVES COMMISSION

2 Marlow Road, Maidenhead, Berkshire [Maidenhead: 34221]

The Commonwealth War Graves Commission (formerly Imperial War Graves Commission) was founded by Royal Charter in 1917. It is responsible for the commemoration of 1,695,000 members of the forces of the Commonwealth who fell in the two world wars. More than one million graves are maintained in 23,465 burial grounds throughout the world. Over three-quarters of a million men and women who have no known grave or who were cremated are commemorated by name on memorials built by the Commission.

The funds of the Commission are derived from the six Governments participating in its work—the United Kingdom, Canada, Australia, New Zealand, South Africa and India.

## COMMISSIONS, ETC.

COMMISSION FOR LOCAL  
ADMINISTRATION IN ENGLAND  
21 Queen Anne's Gate, S.W.1  
[01-222 5622]

Three Local Commissioners are responsible for investigating complaints from members of the public in England who claim to have suffered injustice because of maladministration by a local authority, a water authority or a police authority. Certain types of action are excluded from investigation, particularly personnel matters and commercial transactions unless they relate to the purchase or sale of land. Complaints must normally be made through a member of the authority against which the complaint is made although a complaint can be put to a Local Commissioner direct if a member fails or refuses to refer it. A free booklet "Your Local Ombudsman" is available from the Commission's office.

*Secretary*, M. R. Hyde ..... £22,446

## FOREIGN COMPENSATION COMMISSION

Alexandra House, Kingsway, W.C.2  
[01-836 0701]

The Commission was set up by the Foreign Compensation Act 1950, primarily to distribute under Orders in Council funds received from foreign governments in accordance with agreements to pay compensation for expropriated British property and other losses sustained by British nationals. Amending Acts followed, the Foreign Compensation Acts 1962 and 1969, the first dealing with Egyptian compensation and that in 1969 with claims for losses in the Baltic States and ceded territories of the USSR. The Commission has since 1950 completed the determination of claims and distribution of funds in respect of Egypt (1962), Yugoslavia, Czechoslovakia, Bulgaria, Poland, Hungary, Romania (1961), and moneys received from the Board of Trade under the USSR Order in Council 1969, dealing with the Baltic States and ceded territories. The Commission has also completed the determination of claims in respect of Egypt (1971) and Romania (1976) and made a final payment from each Fund. The Commission also has the duty of registering claims for British-owned property in contemplation of agreements with other countries, and it has done so in seven instances since

1950, the most recent being under the German Democratic Republic (Registration) Order, 1975, and the People's Republic of China (Registration) Order, 1980, which latter Order came into operation on January 5, 1981, and is being administered by the Commission. It enables certain claims of United Kingdom nationals relating to property in, and debts or pensions owing from persons in the territory controlled by the People's Republic of China to be registered and reported on by the Commission.

An Agreement was made on January 29, 1982, between the United Kingdom and Czechoslovakia on the settlement of certain outstanding claims and financial issues. If an Order in Council is made relative to any distribution by the Commission details should be available by January 1, 1983.

*Chairman*, Sir James Henry, Bt., C.M.G., M.C., T.D.  
*Commissioner*, S. W. Magnus.  
*Secretary and Chief Examiner*, D. H. Wright.

## THE BRITISH COUNCIL

10 Spring Gardens, S.W.1

The British Council was established in 1934 and incorporated by Royal Charter in 1940. Its principal aims and functions are: to promote a wider knowledge of Britain and the English language abroad, to develop closer cultural relations between Britain and other countries and to administer educational aid programmes. The Council receives grants from the Foreign and Commonwealth Office and the Overseas Development Administration (estimated at £62,200,000); acts as the agent of the Overseas Development Administration in specific aid programmes (totalling £48,700,000); and gains, from sources other than the British taxpayer, earnings from English language teaching, paid educational services, and acting for international organizations, including U.N. agencies (£31,200,000). On April 1, 1981, the Inter-University Council was merged with the British Council, which also took over the management of the Technical Education and Training Organization for Overseas Countries.

*Chairman*, Sir Charles Troughton, C.B.E., M.C., T.D.  
*Director-General*, Sir John Burgh, K.C.M.G., C.B.

## THE NATIONAL TRUST

40-42 Queen Anne's Gate, Westminster, S.W.1  
[01-222 9251]

The National Trust was founded in 1895 by Miss Octavia Hill, Sir Robert Hunter and Canon Rawnsley, their object being to preserve as much as possible the history and beauty of their country for its people. It became an organization incorporated by Act of Parliament (1907) to ensure the preservation of lands and buildings of historic interest or natural beauty for public access and benefit. It is independent of the State and relies on the voluntary support of private individuals for working funds. As a charity, however, it is allowed certain tax exemptions.

The Trust protects more than 530,000 acres, much of it superb hill country in the Lake District, Snowdonia, the Peak District and other National Parks. The Trust also owns and opens to the public some 250 country houses, other buildings and gardens and preserves villages, nature reserves, archaeological sites and many farms.

In 1965 the Trust launched a campaign to acquire as much as possible of the most beautiful stretches of coastline which were under threat from development. The Trust now protects about 412 miles of coastline.

The Trust has now over 1,000,000 members paying an annual subscription and more than 150,000 new members are joining each year. Rents, admission fees, legacies and gifts are other important sources of support and income.

The policy of the Trust is determined by the governing body, the Council. Half of its members are appointed by national institutions, such as the British Museum, the National Gallery, the Ramblers' Association and the Royal Horticultural Society; the other half are elected by Trust members at the Annual General Meeting. The Council appoints the Executive Committee, which in turn has established Regional Committees responsible for the management of the Trust's properties.

## THE NATIONAL TRUST FOR SCOTLAND

5 Charlotte Square, Edinburgh 2

The National Trust for Scotland was founded in 1931, and its objects are similar to those of the National Trust. Like that organization, it is incorporated by Act of Parliament, is dependent for finance upon legacies, donations and the subscriptions of its members, is recognized as a charity for tax exemption purposes, and enjoys certain privileges under various Finance Acts regarding capital transfer tax and capital gains tax.

The Trust administers about 85 major properties covering over 90,000 acres. Great houses in its care include:—The House of The Binn, West Lothian; Brodick Castle, Isle of Arran; Crathes Castle, Kincardineshire; Culzean Castle, Ayrshire; Falkland Palace, Fife; Hill of Tarvit and Kellie Castle, Fife; Drum Castle, Castle Fraser, Leith Hall, Craigievar Castle and Haddo House, Aberdeenshire; and Brodie Castle, Morayshire. In Edinburgh are two contrasting houses—the Georgian House in the New Town and Gladstone's Land in the Old Town; and in Helensburgh is Charles Rennie Mackintosh's The Hill House.

In the Trust's care are also several noteworthy gardens. Some are associated with the great houses, others are:—Inverewe, in Wester Ross; the recreated 17th century garden of Pitmedden in Aberdeenshire; Threave in Kirkcudbrightshire, where a School of Gardening is run; Cranlynn Garden, Perth; Inveresk Lodge Garden, near Edinburgh, and Greenbank, Clarkston, Glasgow.

Among the mountainous country owned by the Trust is the Pass of Glen Coe and the mountain group "The Five Sisters of Kintail" and the estate of Torridon in Wester Ross.

Islands in the Trust's care include the St. Kilda group, Fair Isle, Iona and Canna. At Bannockburn, Killycrankie, Glenfinnan and Culloden, the Trust owns sites associated with Scottish history.

Among smaller properties are houses associated with famous Scots:— the birthplaces of Barrie in Kirriemuir, Carlyle in Ecclefechan, and Hugh Miller in Cromarty, and Burns' Bachelors' Club, Tarbolton and Souter Johnnie's House, Kirkoswald in Ayrshire.

At Culross, in other Fife coastal villages, and at Dunkeld, Perthshire, the restoration of architecturally attractive groups of houses led to the creation of the Little Houses Improvement Scheme, under which properties are bought, restored and re-sold. Since its inception over 150 houses reflecting the vernacular architecture of Scotland have been restored throughout the country. The operation was one of the four pilot projects in the U.K. selected for special allocation during European Architectural Heritage Year, 1975 and in 1976 was awarded the European Prize for the Preservation of Ancient Monuments, given by the F.V.S. Foundation of Hamburg.

#### BRITISH STANDARDS INSTITUTION

British Standards House, 2 Park Street, W.1

The British Standards Institution is the recognized authority in the U.K. for the preparation and publication of national standards for industrial and consumer products. The Institution originated in 1901, when the Institutions of Civil, Mechanical and Electrical Engineers, together with the Iron and Steel Institute and the Institution of Naval Architects, formed a joint Engineering Standards Committee—which subsequently became the British Engineering Standards Association. A Royal Charter was granted in 1929 and with the extension of the scope of the organization to include the building, chemical and textile industries its title was later changed to "British Standards Institution".

The Institution, in consultation with the interests concerned, now prepares standards relating to nearly every sector of the nation's industry and trade. There are over 8,000 British Standards covering specifications of quality, construction dimensions, performance or safety; methods of test and analysis; glossaries of terms; and codes of practice. Over 500 new and revised British Standards are published each year.

British Standards are issued for voluntary adoption though in a number of cases compliance with a British Standard is required by legislation. The Institution operates certification schemes under which industrial and consumer products are certified as complying with the relevant British Standard and manufacturers satisfying the requirements of such schemes may use the Institution's certification trade marks known as the "Kitemark" and the "Safety Mark"). Other testing and certification services, together with information services, are available to industry, including help in meeting technical requirements in export markets.

The Institution is financed by voluntary subscriptions, an annual Government grant, the sale of its publications and fees for testing and certification. There are more than 15,000 subscribing members of B.S.I. *Chairman of the Executive Board, Dr. W. Rizk, O.B.E.*

#### HOUSING CORPORATION

149 Tottenham Court Road, W.1.

A Government agency established in 1964 which registers, supervises and funds non-profit making housing associations throughout the United Kingdom. Under the 1974 Housing Act the Corporation was given a new and central role in promoting the housing association and funding an expanded programme of housing schemes by associations mainly for fair rent. The Act also gave the Corporation the responsibility for the registering of the housing and associations before they could be eligible for public funds and supervising and controlling their activities to ensure accountability for the public money in their care. The Corporation has now registered over 3,000 associations under the 1974 Act.

Since 1974 the Corporation has supported housing associations in the rehabilitation of older houses and in new building, much of it to help people with special needs, including the elderly and physically handicapped. Following the 1980 Housing Act the Corporation is encouraging and backing new initiatives by housing associations to extend the range of housing available through schemes for shared equity, leasehold for the elderly and improvement for sale. All housing associations may now sell to their tenants and tenants of non-charitable housing associations have the right to buy their homes. *Chairman, H. G. Cubitt, C.B.E.*

#### DESIGN COUNCIL

28 Haymarket, S.W.1

The Design Council's aim is to improve the design of British products by: advising companies on up-to-date practice in engineering and industrial design; selecting well designed British goods for The Design Centre and for the annual Design Council Awards; publishing information to help manufacturers, designers, and others professionally involved in design; and promoting improvements in design education at all levels. The Design Centres in London and Glasgow mount exhibitions showing new developments in design and include shops selling selected British products. There is a smaller Design Centre in Cardiff. Publications include the monthly *Design* and *Engineering* magazines as well as books and other periodicals. There is a comprehensive design bookshop in the London Design Centre. The Design Council is funded partly by a Government grant-in-aid and partly by earned revenues.

## SAVINGS

### PREMIUM SAVINGS BONDS

These bonds are a United Kingdom Government security and were first introduced on November 1, 1966. Instead of earning interest, however, each bond offers to its holder the chance of winning a money prize in a prize draw. Bonds are issued in values ranging from £5 (the minimum purchase) to £1,000, and may be purchased in multiples of £5; each £1 buys one bond unit, which has one chance in each prize draw. Individual holdings are limited to £10,000.

Prizes are paid from a fund formed by the interest, at present 7 per cent *per annum*, on each bond eligible for the draw. A bond becomes eligible for the draw three clear calendar months following the month of purchase and goes into every subsequent draw whether or not it has won a prize until the end of the month in which it is repaid.

Bonds belonging to a deceased bondholder will remain eligible for all Prize Draws held in the month of death and in the following 12 calendar months, provided they have not been repaid earlier. They will then become ineligible for all further draws. These terms also apply to bonds purchased before August 1, 1960 (Series "A").

The winning numbers are selected by the electronic random number indicator equipment—usually called "ERNIE". Winning numbers are printed monthly in the *London Gazette*.

It is estimated that by the end of May 1982, bonds to the value of £2,933,882,495 had been sold. Of these £1,421,500,609 had been cashed, leaving £1,512,381,886 still invested. After the draws in July 1982, 20,360,747 prizes, totalling £1,020,551,650 had been distributed since the inception of the Premium Savings Bond Scheme.

### BRITISH SAVINGS BONDS

British Savings Bonds were on sale from April 1, 1968 to December 31, 1979. They were a Government Security intended primarily for small savers, the principal and interest being guaranteed by the State. They are held only on the National Savings Stock Register. They cannot be sold and are not subject to market fluctuations. The last issue of bonds was the 94% British Savings Bonds (Second Issue).

The interest which is payable half yearly is taxable but tax is not deducted at source. Bonds may be encashed before the maturity date at par, giving one month's notice in writing. They will be redeemable at the rate of £104 for £100 of bonds on the next interest date after 5 years have passed from the purchase date. The £4 capital bonus is exempt from United Kingdom Tax.

### SAVINGS BANKS

*National Savings Bank.*—On March 31, 1982, there were approximately 20,064,000 active accounts with the sum of £1,702,163,000 due to depositors in Ordinary accounts and approximately 2,025,000 active accounts with the sum of £2,991,320,000 due

to depositors in Investment accounts.

Interest on National Savings Bank Ordinary deposits is allowed at 5 per cent *per annum*. A higher rate of interest is paid on deposits in National Savings Bank Investment accounts (the current rate can be ascertained at any Savings Bank Post-Office). A depositor may have more than one account in either series. With certain exceptions, the total balance in the Ordinary account is subject to a limit of £10,000 and the balance that may be held in an Investment account is £200,000.

On March 31, 1982, the average amount held in Ordinary accounts was £84.84; in Investment accounts, £1,477.20.

*Trustee Savings Banks.*—There are 16 Trustee Savings Banks with more than 1,650 branches in the United Kingdom. On November 20, 1981, the Banks operated nearly 14,000,000 active accounts and total customer balances exceeded £6,080,000,000. *Central Board, P.O. Box 33, 3 Copthall Avenue, E.C.2.*

### SAVE AS YOU EARN

The "Save As You Earn" Scheme was brought into operation on October 1, 1969. A Second Issue was introduced on July 1, 1974, a Third Issue ("index-linked") was brought in on July 1, 1975, and a Fourth Issue, which runs concurrently with the Third Issue, was introduced on Nov. 15, 1980. (The Fourth Issue is not available to the general public and details are not given here.) Any individual aged 16 years or over may participate in the Third Issue by making regular monthly payments with a minimum of £4 and a maximum of £50 over 5 years.

Savings may be contributed by deductions from pay, by standing order on a bank or National Girobank or by cash payments at most post offices. At the end of five years, the repayment value of completed contracts will be the total contributions plus any increase due to the monthly linking of contributions to the Retail Price Index. Completed contracts which are not withdrawn will qualify for further index-linking and a bonus equal to two monthly contributions at the end of seven years.

Uncompleted contracts repaid between the first and seventh anniversaries will earn tax-free interest of 6 per cent *per annum* but no interest is payable if repayment is taken before the first anniversary. Partial withdrawal of savings is not permitted; the total sum saved must be repaid.

Beyond the seventh year, the value at the seventh anniversary, including the bonus, will continue to be index-linked until repayment is required. Index-linking will be applied at the end of each complete period of three months for which the contract is held after the seventh anniversary. Incomplete contracts will also qualify for the three-monthly indexation.

By the end of June 1982, 961,234 live S.A.Y.E. contracts remained registered with the Department of National Savings, with a total monthly commitment to save of £11,350,371. The total payments received since October 1, 1969, amounted to £850,034,565.

## NATIONAL SAVINGS CERTIFICATES

The amount, including accrued interest, index-linked increase or bonus remaining to the credit of investors in National Savings Certificates on March 31, 1982 was approximately £12,349.4m. In 1981-82, approx. £4,080.3m was subscribed and £942.4m (excluding interest, index-linked increase or bonus) was repaid. Interest, index-linked increase, bonus or other sum payable is free of United Kingdom income tax (including investment income surcharge) and capital gains tax.

\* As announced by the Treasury.

† From June 1982, savings certificates of the 7th to 14th and 16th Issues will be extended on common interest terms as they reach the end of their existing extension periods. The percentage interest rate is determined by the Treasury and any change in this common interest rate will be applicable from the 1st of the month following its announcement.

Under the new system, a certificate earns interest for each complete period of three months beyond the expiry of the previous extension terms. Within each three month period interest is calculated separately for each month at the rate applicable from the beginning of that month. The interest for each month is 1/12 of the annual rate (i.e. it does not vary with the number of days in the month) and is capitalised annually on the anniversary of the date of purchase. The current rate of interest under the common extension terms is displayed on special posters at most post offices.

## BRITISH PASSPORT REGULATIONS

Applications for United Kingdom passports must be made on the forms obtainable at any of the Passport Offices (addresses given below) or at any Main Post Office.

*London*.—Clive House, 70-78 Petty France, S.W.1.

*Liverpool*.—India Buildings, Water Street, Liverpool, 2.

*Newport, Gwent*.—Olympia House, Upper Dock Street.

*Peterborough*.—Passport Office, 55 Westfield Road, Peterborough.

*Glasgow*.—1st Floor, Empire House, 131 West Nile Street, Glasgow, C.1.

*Hours*. The above offices are open Mon.-Fri. 9 a.m. to 4.30 p.m. The Passport Office, London, is also open for cases of special emergency (e.g. death or serious illness) arising outside normal office hours between 4.30 p.m. and 6.00 p.m. and on Saturdays between 10 a.m. and noon.

Completed forms of application should be sent to one of the five Passport Offices, with photographs, supporting documents and the fee of £11, in the form of a Cheque or Postal Order which should be crossed and made payable to the Passport Office.

Persons resident in *Northern Ireland* may apply in person to the Foreign and Commonwealth Office Passport Agency, 1st Flr., Marlborough House, 30 Victoria Street, Belfast, or by post to the Passport Office, Glasgow.

A Passport cannot be issued or extended by the Foreign and Commonwealth Office on behalf of a person *already abroad*; such person should apply, in a foreign country, to the nearest British Mission or Consulate, or, within the British Commonwealth outside the United Kingdom of Great Britain and N. Ireland, to the nearest British Passport issuing authority.

United Kingdom Passports are granted:—

(i) To citizens of the United Kingdom and Colonies.

(ii) To British subjects without citizenship.  
(iii) To British Protected Persons.

A passport granted to a child under 16 will normally be valid for an initial period of five years, after which it may be extended for a further five years with no extra charge. A passport granted to a person over 16 will normally be valid for 10 years and will not be renewable. Thereafter, or if at any time the Passport contains no further space for visas, a new Passport must be obtained.

A Passport including particulars of the *holder's spouse* is not available for his/her use when he/she is travelling alone. A spouse's particulars may *only* be added at the time of issue of a passport.

*Children* who have reached the age of sixteen years require separate Passports. Their applications must be signed by one of their parents.

Passport applications must be countersigned by a Member of Parliament, Justice of the Peace, Minister of Religion, Doctor, Lawyer, Bank Officer, Police Officer or any person of similar standing who has been personally acquainted with the applicant for at least two years. The applicant's birth certificate and other evidence in support of the statements made in the application must be produced.

In the case of children under the age of 16 requiring a separate passport, an application should be made by one of the parents on form (B).

If the applicant for a Passport be a citizen of the United Kingdom and Colonies by naturalization or registration, the Certificate of Naturalization or registration must be produced with the application.

British Passports are generally available for travel to *all countries*. The possession of a Passport does not, however, exempt the holder from compliance

with any *Immigration Regulations* in force in British or foreign countries, or from the necessity of obtaining a *visa* where required.

## Photographs

Duplicate unmounted photographs of applicant (and wife/husband, if to be included in the Passport) must be sent. These photographs should be printed on normal thin photographic paper. They should measure not more than 2½ in. by 2 in. (63 mm. by 50 mm.), or less than 2 in. by 1½ in. (50 mm. by 38 mm.), and should be taken full face without a hat.

## Extension of Passports

Applications for the extension of United Kingdom passports must be made on Form D.

## 94-Page Passports

On May 1, 1973, a new type of passport became available. Intended to meet the needs of frequent travellers who fill standard passports well before the ten-year validity has expired, it contains 94 pages, is valid for ten years and costs £22.

## British Visitors' Passports

A simplified form of travel document is available for British subjects (Citizens of the United Kingdom and Colonies) wishing to pay short visits (not exceeding three months) to certain foreign countries, *viz.*

ANDORRA; AUSTRIA; BELGIUM; BERMUDA; CANADA; DENMARK; FINLAND; FRANCE (incl. CORSICA); GREECE (& THE GREEK ISLANDS); W. GERMANY (incl. West Berlin by air only); GIBRALTAR; ICELAND; ITALY; LIECHTENSTEIN; LUXEMBOURG; MALTA; MONACO; NETHERLANDS; NORWAY; PORTUGAL (incl. MADEIRA & AZORES); SAN MARINO; SPAIN (incl. BALEARIC & CANARY ISLANDS); SWEDEN; SWITZERLAND; TURKEY.

A fee of £5-50 is charged for the issue of a British Visitors' Passport, which is valid for 12 months, cannot be amended and is not renewable; on expiry application should be made for a new passport if required. Particulars of an applicant's spouse and/or children under 16 years can be included at the *time of issue only* at no extra cost. A child of 8 years of age and over is eligible to hold a British Visitors' Passport. Applications for, or including, a person under 18 years of age (unless married or serving in H.M. Forces) must be countersigned by the legal guardian.

British Visitors' Passports are obtainable by application on Form VP (from any Main Post Office). Applicants in England, Scotland and Wales should take the completed form in person to any Main Post Office which will normally issue the passport without further delay; applicants in Northern Ireland to Foreign and Commonwealth Passport Agency, Belfast. *British Visitors' Passports are not obtainable from the Passport Offices*. Two recent passport photographs will be required of the applicant and of his/her spouse, if to be included; photographs of children are not required. Size of photographs must be 2 in. × 1½ in. (50 mm. by 38 mm.) They should be unmounted and unglazed on the reverse side and must be printed on normal thin photographic paper. No visas are required on British Visitors' Passports.

Applicants must also produce for the purpose of identification a N. H.S. Medical Card, birth certificate or retirement pension book.

### BRITISH FORCES BROADCASTING SERVICE

King's Buildings, Dean Stanley Street, S.W.1

The service came into existence during the middle of the Second World War to provide radio programmes of entertainment and information, and a link with home. No exact date can be given for the inception of the service because it began in many different places almost simultaneously during 1943.

In 1960 B.F.B.S. was reorganized: a Director was appointed and a Head Office was created in London to co-ordinate the activities of the service and to provide programme material specifically aimed at H.M. Forces, and their dependents overseas, and featuring leading personalities in all walks of life which the stations cannot produce themselves. These programmes are recorded in London and flown to B.F.B.S. stations abroad, as well as to H.M. Ships in many parts of the world, and for the benefit of personnel serving in places such as Belize and Dharan.

Over the years output has increased considerably and the stations in Germany, Cyprus and Gibraltar are now on the air round the clock. In Cyprus and

Gibraltar a second channel for minority tastes is also available on medium wave. In Hong Kong and Brunei, B.F.B.S. stations provide services in Gurmahali and in English.

B.F.B.S. Television—a service combining programmes from B.B.C. and I.T.V., with some specially produced, started at Celle, near Hanover on September 18, 1975. When the full transmitter chain is completed, it will serve all the main concentrations of personnel and their families in West Germany.

The Combined Services Entertainment section of B.F.B.S. arranges stage and cabaret shows, as well as solo artistes, to tour Northern Ireland and Commands overseas.

The staff of B.F.B.S. are all civilian, professional broadcasters and engineers. A trainee scheme is in operation, details of which may be obtained from the Head Office. The Service is administered by the Army on behalf of the other two Services, and is financed from Ministry of Defence funds.

Director, I. J. Woolf.

#### Meteorological Office

London Road, Bracknell, Berks.

[Bracknell: 20242]

The Meteorological Office is the State Meteorological Service. It forms part of the Ministry of Defence, the Director General being ultimately responsible to the Secretary of State for Defence.

Except for the common services provided by other government departments as part of their normal functions, the cost of the Meteorological Office is borne by Defence Votes.

Of the expenditure chargeable to Defence Votes about £27,100,000 represents expenditure associated with staff and £23,000,000 on stores, communications and miscellaneous services. About £16,900,000 is recovered from outside bodies for special services rendered, sales of meteorological equipment, etc.

**Royal Naval Auxiliary Service.**—The Royal Naval Auxiliary Service (RNXS) is a uniformed civilian volunteer service, administered by the Ministry of Defence and trained by the Royal Navy to operate at ports and anchorages, for duty in emergencies and war. RNXS units are situated on the coasts of the United Kingdom and organised and run by the Area Flag Officers. The role of the RNXS is to man Port Headquarters and to support the Naval Control of Shipping Organisation. The strength is 2,600.

## ROYAL MARINES

The Corps of Royal Marines, about 7,200 strong, first formed in 1664, is part of the Royal Navy and provides Britain's sea soldiers, in particular a commando brigade Headquarters and three commandos, of which the Brigade Headquarters and two commandos are fully trained and equipped for operations in the Arctic. They also serve at sea in H.M. Ships and provide landing craft crews, special boat sections (frogmen) and other detachments for amphibious operations. The Royal Marines Band Service pro-

vides bands for the Royal Navy and Royal Marines.

The Royal Marines Reserve of about 1,000 volunteers consists of five main centres at London, Bristol, Liverpool, Newcastle and Glasgow.

#### CONSTITUTION OF THE ROYAL AIR FORCE

The Royal Air Force consists of 3 Commands: Strike Command and Support Command in the United Kingdom, and R.A.F. Germany. Strike Command is responsible for providing the air defence of the United Kingdom and reinforcement forces for N.A.T.O.; its roles include strike/attack, air defence, control and reporting, maritime surveillance, air reconnaissance, air refuelling, offensive support, air transport, aero-medical facilities, and search and rescue. Support Command is responsible for training, communications, engineering support, logistics, hospitals and for providing a range of administrative support. R.A.F. Germany provides tactical air sup-

port in N.A.T.O.'s Central Region; its roles include strike/attack, interdiction, counter air operations, air defence, close air support of land forces, tactical reconnaissance and helicopter support.

To carry out its tasks, the Royal Air Force is equipped with Vulcan, Victor, Tornado, Buccaneer, Phantom, Lightning, Harrier, Jaguar, Canberra, Hunter, Nimrod, Shackleton, VC10, Hercules, Hawk, Jet Provost, Chipmunk and Bulldog aircraft; Puma, Wessex, Sea King and Chinook helicopters; miscellaneous communications aircraft; and Bloodhound and Rapier missiles.

#### ROYAL OBSERVER CORPS Bentley Priory, Stanmore, Middlesex

Established 1925, the Royal Observer Corps is a uniformed voluntary civilian organization originally set up to identify and track the movement of aircraft in war. In 1955 the Corps assumed the

modern role of detecting nuclear bursts and monitoring radioactive fall-out in support of the United Kingdom Warning and Monitoring Organization. The Corps is affiliated to the Royal Air Force and is administered by Strike Command.

*Air Commodore-in-Chief*, H.M. THE QUEEN.  
*Commandant*, Air Commodore R. J. Offord, A.F.C.

#### THE UNION JACK CLUB Sandell Street, S.E.1 [Tel.: 01-928 6401]

The Union Jack Club has recently been rebuilt and the new premises stand on the site of the old building. It provides residential accommodation for service and ex-service men and women and their families. All serving men and women below commissioned rank are members. Ex-service membership is

by election. Honorary membership is extended to the Forces of other nations visiting the United Kingdom, to members of the Police, Fire, Ambulance and Prison Services, to members of the Merchant Navy, Royal Observer Corps, Coast Guards, Civil Service, Royal British Legion, and Corps of Commissionaires, and those sponsored by various other organizations approved by the Governing Council.

The new premises provide the most modern standards of accommodation with 417 single bedrooms and 63 double bedrooms for families. The facilities include restaurant, bars, a full range of public rooms, including billiards room and launderette. A new feature of the Union Jack Club is a separate conference area.

The original Union Jack Club was erected by public subscription as a National Memorial to those who had fallen in the South African War and other campaigns and was opened in 1907 by King Edward VII.

## SERVICE SALARIES AND PENSIONS

The military salaries effective from April 1, 1982 for Service men and women are shown below. The Government accepted the recommendations of the Review Body on Armed Forces Pay (Eleventh Report, 1982) which maintained the pay of the armed forces at fully up to date levels. The Review Body was concerned with ranks up to and including Brigadier, the salaries of Major-General (and equivalent ranks) and above and of medical and dental officers being

subject to separate review. Since 1970 the determining factor of the Review Body's recommendations has been the relation of forces' salaries to civilian earnings by job evaluation. The undermentioned salaries for the Women's Services reflect equal pay for equal work and conditions but because the x-factor for women is lower than that for men, women's rates approximate to 97.73 per cent. of the rates for men.

## THE CHURCH OF SCOTLAND

*Church Office*, 121 George Street, Edinburgh 2

THE CHURCH OF SCOTLAND is Presbyterian in constitution, and is governed by Kirk Sessions, Presbyteries, Synods, and the General Assembly, which consists of both clerical and lay representatives from each of the Presbyteries. It is presided over by a Moderator (chosen annually by the Assembly), to whom Her Majesty the Queen has granted precedence in Scotland, during his term of office, next after the Lord Chancellor of Great Britain. The Sovereign, if not present in person, is represented by a Lord High Commissioner, who is appointed each year by the Crown. The country, for Church purposes, is divided into 12 Synods and 46 Presbyteries, and there are about 2,000 ministers and licentiates engaged in ministerial and other work. The figures at Dec. 31, 1981, were:—

Congregations, 1,829; total membership 938,930. In 21 Overseas Mission fields there are 141 European missionaries (and in addition many missionaries' wives, most of whom are doing mission work in the various fields).

LORD HIGH COMMISSIONER (1982). Sir John Gilmour, Bt.

MODERATOR OF THE ASSEMBLY (1982), Right Rev. J.

McIntyre, D.Litt., D.D., F.R.S.E.

*Principal Clerk*, Rev. D. F. M. Macdonald, C.B.E., M.A., LL.B.

*Deputy Clerk*, Rev. A. G. McGillivray, M.A., B.D.

*Prosecutor*, C. K. Davidson, q.c.

*Law Agent and Solicitor of the Church*, R. A. Paterson, M.A. LL.B.

*Parliamentary Solicitor*, Colin McCulloch (London).

*General Treasurer*, W. G. P. Colledge, C.A.

THE PRESBYTERIAN CHURCH IN IRELAND.—The largest of the Presbyterian churches in Ireland consists of 22 presbyteries, 427 ministers, 565 congregations, with 132,598 communicants, 125,521 families and 6,700 Sunday-school teachers. During the 12 months ended Dec. 31, 1981, there was contributed by congregational effort £1,332,771 plus IR£198,202 for religious, charitable, and missionary purposes. The total income for the period raised by congregations for all purposes was £11,748,077 plus IR£656,739.—*General Sec.*, Very Rev. A. J. Weir, M.Sc., D.D., Church House, Belfast, 1.

## UNITED REFORMED CHURCH

The United Reformed Church was formed by the union of the Congregational Church in England and Wales and the Presbyterian Church of England on October 5, 1972. The Reformed Association of Churches of Christ were joined to the URC on September 26, 1981. It is divided into 12 Provinces, each with a Provincial Moderator, and 67 Districts, 150,000 members, and 1,700 ministers, 800 of them in pastoral charge. It carries on its overseas work through the Council for World Mission. Its ministers are trained at five recognized colleges.

General Sec., Rev. B. G. Thorogood, M.A., 86 Tavistock Place, W.C.1.

The majority of those members of the Congregational Church who did not join the United Reformed Church comprise the Congregational Federation. Sec., J. B. Wilcox, The Congregational Centre, 4 Castle Gate, Nottingham.

## THE METHODIST CHURCH

The Methodist Church is governed primarily by the Conference, secondarily by the District Synods (held in the autumn and the spring), consisting of all the ministers and of selected laymen in each district, over which a chairman, who is a minister, is appointed by the Conference; and thirdly by the circuit meeting of the ministers and lay officers of each circuit. The authority of both Synods and Circuit Meetings is subordinate to the Conference, which has the supreme legislative and judicial power in Methodism.

President of the Conference (July 1982-83), Rev. N. E. Denny, B.D.

Vice-President of the Conference (July 1982-83), Mrs. P. Lawton.

Secretary of the Conference, Rev. K. G. Greet, D.D., 1 Central Buildings, Westminster, S.W.1.

President Designate (1983-84), Rev. A. S. Cresswell, M.A.

Vice-President Designate (1983-84), P. G. Bartlett Lang.

*Statistics.*—In 1981 in association with the Conference in Great Britain there were 3,506 Ministers, 14,847 Local Preachers, 487,972 Members in 7,990 churches. Statistics are published triennially.

*The World Methodist Council*, founded 1881, reorganized 1951, associates Methodism throughout the world in 90 countries.

The Methodist Church was founded in 1739 by the two brothers Wesley and rapidly spread throughout the British Isles and to America before 1770. The Methodist Church in Great Britain was united in 1932 by the fusion of the Wesleyan Methodist Church which was the original section, the Primitive Methodist Church, which arose through the evangelists Hugh Bourne and William Clowes in 1810, and the United Methodist Church, itself a fusion in 1907 of the Methodist New Connexion which dated from 1797, the Bible Christian Methodist Church, which dated from 1815 and the United Methodist Free Churches which originated in controversies in 1828 and 1849. The United Methodist Church of America was formed by a union of United Methodist denominations with the United Evangelical Brethren.

#### Methodist Church in Ireland

The Methodist Church in Ireland has 198 Ministers, 274 Lay Preachers, 22,017 Adult and 15,155 Junior Members.

*President*, (1982-83), Rev. C. G. Eyre, B.A.

*Secretary*, Rev. C. G. Eyre, B.A., 3 Upper Malone Road, Belfast, 9.

#### The United Church of Canada

85 St. Clair Ave. E., Toronto, Ontario  
The United Church of Canada is the result of the union (1925) of Methodist, Presbyterian and Congregational Churches in Canada. Subsequently several other communions have become part of the Church.

#### Independent Methodists

*Independent Methodists.*—This body is Congregational in its organization, with an unpaid Ministry. Its first Conference was held in 1805. In 1982 there were in Great Britain 150 Ministers, 4,600 Members, 119 Churches and 5,087 Sunday scholars. *Gen. Sec.*, Rev. J. M. Day, The Old Police House, Croxton, Stafford.

#### Wesleyan Reform Union

This Union is Methodist in doctrine, Congregational in government, with, if any church desires it, a paid ministry. It is the remnant of the original Reformers expelled from Wesleyan Methodism in 1849. The adherents are mainly in the Midland and Northern counties. In 1982 there were in Great Britain 24 Ministers, 174 Lay Preachers, 3,590 Members, 140 Chapels and 2,919 Sunday School scholars.—*President*, Rev. D. A. Morris, Sheffield. *General Secretary and Connexional Editor*, Rev. D. A. Morris, Wesleyan Reform Church House, 123 Queen Street, Sheffield 1.

### THE PRESBYTERIAN CHURCH OF WALES

The PRESBYTERIAN OR CALVINISTIC METHODIST CHURCH OF WALES is the only Church of purely Welsh origin, and embraces a very large section of the Welsh-speaking population. Its form of government is Presbyterian, and it is a constituent of the World Alliance of Reformed Churches.

In 1979 the body numbered—chapels and other buildings, 1,200; ministers in pastoral charge, 230; elders, 5,432; communicants, 85,014; Sunday scholars, 29,615.

The *Eastern Association* which includes nine of the English Presbyteries, was formed in 1947.

*Moderator of General Assembly* (1982-83), Rev. G. I. Davies, B.A., B.D., Llanrwst.

*Moderators of Associations* (1982-83) *South Wales*, Rev. H. W. Griffiths, B.A., B.D., Swansea; *North*

*Wales*, Rev. R. Williams, B.A., B.D., Amlwch; *The East*, Rev. R. L. Jones, B.A., B.D., Neath.  
*Chief Secretary*, Rev. L. D. Richards, B.A., B.D., Y Berth, Cwmafan, Port Talbot, West Glamorgan.

The Baptists have over 33,000,000 members in all countries. In Britain they are for the most part grouped in associations of churches, and the majority of these belong to the Baptist Union, which was formed in 1812-13. In the British Isles there were, in 1982, 1,757 pastors. The members numbered 223,086, young people and children 176,211. *President of the Baptist Union of Great Britain and Ireland*, (1982-83), Dr. D. J. Charley, O.B.E. *Secretary*, Rev. B. Green, M.A., B.D. *Office*, 4 Southampton Row, W.C.1.

### THE JEWS

It is estimated that about 410,000 Jews are resident in the British Isles, some 280,000 being domiciled in Greater London.

The *Board of Deputies of British Jews*, established in 1760, is the representative body of British Jewry and is recognized by H.M. Government. The basis of representation is mainly synagogal, but secular organizations are also represented. It is a deliberative body and its objects are to watch over the interests of British Jewry, to protect Jews against any disability which they may suffer by reason of their creed and to take such action as may be conducive to their welfare.

*President*, The Hon. Greville Janner, Q.C., M.P.

*Office*, Woburn House, Upper Woburn Place, W.C.1.  
**CHIEF RABBI**—The Very Rev. I. Jakobovits, kt., Ph.D.

*Executive Director*, M. Davis. *Office*, Adler House, Tavistock Square, W.C.1.

The *Beth Din* (Court of Judgment) is a rabbinic body consisting of *Dayanim* (Assessors) and the Chief Rabbi, who is President of the Court. The Court arbitrates when requested in cases between Jew and Jew and Jew and non-Jew and gives decisions on religious questions. The decisions are based on Jewish Law and practice and do not conflict with the law of the land. The *Beth Din* also deals with matters concerning dietary law and marriages and divorces, according to Jewish Law.

*Dayanim*, M. Swift; Dr. I. Lerner; C. D. Kaplin; Rabbi I. D. Berger.

*Clerk to the Court*, Marcus Carr, Adler House, Tavistock Square, W.C.1.

## OTHER RELIGIOUS DENOMINATIONS

The General Assembly of Unitarian and Free Christian Churches has about 95 ministers, 250 chapels and other places of worship in Great Britain and Ireland. *Gen. Sec.*, R. W. Smith, Essex Hall, Essex Street, W.C.2.

The Salvation Army, first known as the Christian Mission, was founded by William Booth in the East End of London in 1865. In 1878 it took its present name and adopted a quasi-military method of government. Since then it has become established in over 80 countries of the world. The head of the denomination, known as the General, is elected by a High Council, consisting of all active Commissioners and Territorial Commanders who have held the rank of Colonel for at least two years. In 1981 there were in Great Britain, 1,120 Corps (Churches), 193 Social Services Centres and 2,175 Officers engaged in evangelistic and social work. The latest statistics for the world (1981) are 14,511 Corps, 3,056 Social Services Centres (including institutions and schools) and 24,755 Officers. *General*, Jarl Wahlström. *International Headquarters*.—101 Queen Victoria Street, E.C.4.

The Religious Society of Friends (Quakers),

founded in the 17th century, has no separated ministry. World membership (1980) is 198,637, of whom 18,549 are in Great Britain organized into 444 places of worship. *Central Offices (Great Britain)*, Friends House, Euston Road, N.W.1; (*Ireland*), 6 Eustace Street, Dublin.

The First Church of Christ, Scientist, in Boston Massachusetts, U.S.A. (District Manager, Committees on Publication for Great Britain and Ireland, 108 Palace Gardens Terrace, W.8), has about 260 branch churches and societies in Great Britain and Ireland.

The Moravian Church, 5 Muswell Hill, N.10, has in the U.K. 40 congregations with 4,600 members.

The Free Church of England (otherwise called The Reformed Episcopal Church) has 33 churches in England. *Gen. Sec.*, Rt. Rev. A. Ward, 28 Sedgebrook, Swindon, Wilts.

The Seventh Day Adventists (*Hdqrs.*, Stanborough Park, Watford, Herts.), have more than 200 organized churches and companies and more than 14,500 members in the British Isles. *Executive Sec.*, E. W. Howell.

## THE ROMAN CATHOLIC CHURCH

HIS HOLINESS POPE JOHN PAUL II (Karol Wojtyła), born in Wadowice, Poland, May 18, 1920; ordained priest November 1, 1946; appointed *Archbishop of Krakow* January 13, 1964, created *Cardinal* at a Consistory on June 16, 1967. Formally assumed Pontificate October 16, 1978.

THE SACRED COLLEGE OF CARDINALS, when complete, consisted of six Cardinal Bishops, fifty Cardinal Priests and fourteen Cardinal Deacons. This number was fixed by Pope Sixtus V in 1586. Pope John XXIII created 52 new Cardinals. Pope Paul VI created 27 new Cardinals on Feb. 22, 1965, 27 on June 26, 1967, 33 on Apr. 28 1969, 30 on March 5, 1973, 20 on May 24, 1976, 4 on June 27, 1977; Pope John Paul II created 15 new Cardinals on June 30, 1979. In July 1982 there were 122 Cardinals. The Cardinals are advisers and assistants of the Sovereign Pontiff and form the supreme council or Senate of the Church. On the death of the Pope they elect his successor. The assembly of the Cardinals at the Vatican for the election of a new Pope is known as the Conclave in which, in complete seclusion, the Cardinals elect by secret ballot; a two-thirds majority is necessary before the vote can be accepted as final. When a Cardinal receives the necessary votes the Dean of the Sacred College formally asks him if he will accept election and the name by which he wishes to be known. On his acceptance of the office the Conclave is dissolved and the First Cardinal Deacon announces the election to the assembled crowd in St. Peter's Square. On the first Sunday or Holiday following the election the new Pope assumes the pontificate at High Mass in St. Peter's Square. A new pontificate is dated from the assumption of the pontificate.

FORMS OF ADDRESS: *Cardinal*, "His Eminence Cardinal . . ." (if an Archbishop, "His Eminence the Cardinal Archbishop of . . ."); *Archbishop*, "The Most Rev. Archbishop of . . ."; *Bishop*, "The Rt. Rev. Bishop of . . ."

### LONDON CATHEDRALS, CHURCHES, ETC.

#### Church of England

**ST. PAUL'S CATHEDRAL**, City of London, E.C.4 (1675–1710), cost £747,660. The cross on the dome is 365 ft. above the ground level, the inner cupola 218 ft. above the floor. "Great Paul," in S.W. tower weighs 17 tons. Organ by Father Smith (enlarged by Willis and rebuilt by Mander) in case carved by Grinling Gibbons (who also carved the choir stalls). The choir and high altar were restored in 1958 after war damage and the North Transept in 1962. The American War Memorial Chapel was consecrated in November, 1958. The Chapel of the Most Excellent Order of the British Empire in the Crypt of the Cathedral was dedicated on May 20, 1960. Nave and transepts free; Fees to the following parts (on weekdays only, 10 a.m. (Sat. 11 a.m.) to 3.15 p.m. and—during Summer Time only—to 4.15 p.m.); Crypt, Treasury and historical display, 70p; whispering gallery, stone gallery, 70p (children reduced price). Service on Sundays at 8, 10.30, 11.30 and 3.15. Weekdays at 7.30, 8, 4 (winter), 5 (summer).

**WESTMINSTER ABBEY**, S.W.1. (built A.D. 1050–1745).—Open on weekdays 8 a.m. to 6 p.m., (8 p.m., Wednesdays). Admission to the Royal Chapels, Poets' Corner, Quire and Statesmen's Hall £1.10 (students 60p; O.A.P.s and children 20p). Last admission Monday–Friday 4 p.m., Saturday 5 p.m. Wednesdays 6 p.m.–8 p.m. free. Nave open on Sundays between services. ## PATRON SAINTS

*St. George, Patron Saint of England*.—St. George is believed to have been born in Cappadocia, of Christian parents, in the latter part of the 3rd century and to have served with distinction as a soldier under the Emperor Diocletian, including a visit to England on a military mission. When the persecution of Christians was ordered, St. George sought a personal interview to remonstrate with the Emperor and after a profession of faith resigned his military commission. Arrest and torture followed and he was martyred at Nicomedia on April 23, 303, a day ordered to be kept in remembrance as a national festival by the Council of Oxford in 1222, although it was not until the reign of Edward III that he was made patron saint of England. His connection with a dragon seems to date from the close of the 6th century and to be due to the transfer of his remains from Nicomedia to Lydda, close to the scene of the legendary exploit of Perseus in rescuing Andromeda and slaying the sea monster, credit for which became attached to the Christian martyr.

*St. David, Patron Saint of Wales*.—St. David is believed to have been born near the beginning and to have died towards the end of the 6th century. St. David was an eloquent preacher, who founded the monastery at Meneva, now St. David's. He became the patron of Wales, but there is no record of any

papal Canonization before 1181. His annual festival is observed on March 1.

*St. Andrew, Patron Saint of Scotland*.—St. Andrew, one of the Christian Apostles and brother of Simon Peter, was born at Bethsaida on the Lake of Galilee and lived at Capernaum. He preached the Gospel in Asia Minor and in Scythia along the shores of the Black Sea and became the patron saint of Russia. It is believed that he suffered crucifixion at Patras in Achaia, on a *crux decussata* (now known as St. Andrew's Cross) and that his relics were removed from Patras to Constantinople and thence to St. Andrews, probably in the 8th century, since which time he has been the patron saint of Scotland. The festival of St. Andrew is held on November 30, a church festival indicated in the calendar by red letters.

*St. Patrick, Patron Saint of Ireland*.—St. Patrick was born in England about 389 and was carried off to Ireland as a slave about sixteen years later, escaping to Gaul at the age of 22. He was ordained deacon at Auxerre and having been consecrated Bishop in 432 was despatched to Wicklow to reorganize the Christian communities in Ireland. He founded the see of Armagh and introduced Latin into Ireland as the language of the Church. He died in 461 and his festival is celebrated on March 17.

## UNIVERSITIES

The universities are responsible for more than half of the full-time and sandwich students in higher education, for the great majority of the students taking first degrees and almost all students taking higher degrees. The universities provide most of the basic and much of the applied research undertaken in Britain. They have power to award their own degrees.

COUNCIL FOR  
NATIONAL ACADEMIC AWARDS

344–354 Gray's Inn Road, W.C. 1

Established in 1964 with powers to award degrees and other academic distinctions, comparable in

standard with awards granted and conferred by universities to students in polytechnics and other institutions of higher education in the United Kingdom which do not have the power to award their own degrees. The Council awards degrees and honours degrees of B.A., B.Ed. and B.Sc. and higher and research degrees and doctorates. On Sept. 1, 1974, the Council assumed responsibility for the work formerly undertaken by the National Council for Diplomas in Art and Design, and in September, 1976, for the Diploma on Management Studies.

*President*, H.R.H. the Prince of Wales, K.G., K.T., G.C.B.

*Chairman*, Sir Denis Rooke, C.B.E., F.R.S.

*Chief Officer*, E. Kerr, B.Sc., Ph.D.

## POLYTECHNICS

The 30 polytechnics constitute a substantial part of the higher education system in England and Wales. Overall they provide an educational environment for some 260,000 students each year, about half of them following full-time or sandwich courses. Within the public sector their total entry includes over 75% of all first-year enrolments to degree courses and others recognised as being of the same standard. In many cases, their student enrolments at this level match those of most universities. In

addition the polytechnics play a major part in the national provision of other advanced courses which do not lead to a degree or degree-equivalent qualifications. The polytechnics' function is to provide virtually the full range of courses, albeit with a pronounced vocational flavour. Together engineering, science and technology currently account for little more than one-third of the enrolments. A further third is involved in administrative, business and social studies and some 13% occur in education. The remaining 22% are spread over other professional and vocational subjects (e.g. architecture, librarianship and catering); music, drama and visual arts; languages (3%) and other arts (3%).

## ADULT EDUCATION

'Adult Education' covers a broad spectrum of educational activities ranging from non-vocational courses of general interest, through the acquiring of special vocational skills needed in industry or

commerce, to study for a degree at the Open University. It has been defined as "the provision of non-formal and informal education for adult people: that is, courses excluding the normal range of

provision in colleges and universities for young people immediately following the statutory school leaving age, but including the full range of recurrent educational opportunities designed for people of more mature years, and related to any or all aspects of adult life\*.

**Providers.** Courses are provided by many bodies: local education authorities (regional authorities in Scotland, education and library boards in Northern Ireland), residential colleges, the Open University, the extra-mural departments of other universities (and Birkbeck College of the University of London), the BBC, ITV and local radio stations, and various voluntary bodies. The local education authorities operate through 'area' adult education centres, institutes or colleges and the adult studies departments of colleges of further education. The Open University, in partnership with the BBC, provides distance teaching leading to ordinary or honours first degrees, and also offers post-experience and higher degree courses. Nearly 40 other universities\* have extra-mural or adult education or continuing education departments which serve their local areas or regions. The BBC has a Continuing Education Advisory Council and the Independent Broadcasting Authority an Educational Advisory Council which has an Adult Education Panel. Of the voluntary bodies the biggest and best-known is the Workers' Educational Association (see below).

**Courses.** Although lengths vary, most courses are part-time. Long-term residential colleges (see below) provide full-time courses lasting one or two years. Adult education courses are of two main kinds—those involving face-to-face teaching with teacher and student in the same room and the distance teaching provided through TV and radio, and/or correspondence courses.

**Numbers.** There are no comprehensive statistics covering all aspects of adult education but it is known that in November 1981 just over 1½ million students were enrolled by LEAs at adult education centres in England, a slight increase on the previous year. About 66,000 students were enrolled at the Open University in 1981. In 1980–81 courses of liberal adult education provided by university extra-mural departments and the WEA were attended by some 295,500 students (252,000 in 1979–80). In residential establishments maintained or assisted by LEAs there were in 1980–81 more than 78,600 students on short courses; 433 students were on courses at six of the long-term colleges of adult education (other than short courses or summer schools).

**ADVISORY COUNCIL FOR ADULT AND CONTINUING EDUCATION** (19b De Montfort Street, Leicester) was established in 1977 by the Secretary of State for Education and Science to advise generally on matters relevant to the provision of education for adults in England and Wales and, in particular, (a) to promote cooperation between the various bodies in adult education and review current practice, organisation and priorities, with a view to the most effective deployment of available sources; and (b) to promote the development of future policies and priorities, with full regard to the concept of education as a process continuing throughout life. It has issued

three annual reports, and other publications include, in 1982, a report on the future development of a system of continuing education for adults in England and Wales. *Chairman*, R. Hoggart; *Secretary*, F. J. Taylor.

**NATIONAL INSTITUTE OF ADULT EDUCATION** (England and Wales), 19b De Montfort Street, Leicester (*Dir.*, A. K. Stock). The institute provides a means of consultation and cooperation between all the forces in adult education. It provides information and advice to organisations and individuals on all aspects of adult education; it conducts enquiries into problems of adult education; organises conferences and other meetings; and issues publications. It administers the government-funded Adult Literacy and Basic Skills Unit.

**SCOTTISH INSTITUTE OF ADULT EDUCATION**, 4 Queensferry Street, Edinburgh (*Dir.*, V. L. Smith). The institute is an advisory and consultative body which arranges conferences and training courses, undertakes research, acts as an information centre on current activities, and issues publications.

**UNIVERSITIES COUNCIL FOR ADULT AND CONTINUING EDUCATION**, consisting of one representative from each university, was established in 1947 for the interchange of ideas and the formulation of common policies on extra-mural education—*Hon. Secretary*, W. Forster, M.A., Dept. of Adult Education, The University, Leicester.

**WORKERS EDUCATIONAL ASSOCIATION**, Temple House, 9 Upper Berkeley Street, London W.1. (*Gen. Secretary*, R. J. Jeffries). Founded in 1903, the WEA consists of about 900 branches and nearly 1,500 affiliated educational and workers' organisations. Non-sectarian and non-party-political, it aims to stimulate and to satisfy the demands of workers for education, and to further the advancement of education generally. The WEA is organised in 21 districts. Each district in England and Wales is recognised by the Department of Education and Science as a 'responsible body' for the provision of educational facilities in respect of which it receives grants under Departmental regulations. LEAs also make grants towards administrative expenses.

## RESIDENTIAL COLLEGES FOR ADULT EDUCATION

### Long term:

The eight long-term colleges listed below offer one- and two-year courses for adults and are grant-aided by the Department of Education and Science. Students are eligible for state bursaries provided by the Department of Education and Science and the Welsh Office or (for certain specialised courses) discretionary LEA awards.

**COLEG HARLECH**, Harlech, Gwynedd. (For men and women).—*Warden*, J. W. England.

## PROFESSIONAL EDUCATION (excluding postgraduate study)

NOTE.—References to university courses in the sections following cover only *full-time* courses leading to *first degrees*. The considerable facilities available for postgraduate study or research are not treated.

POSTGRADUATE STUDY AND RESEARCH. All universities provide facilities for postgraduate study and research. They co-operatively issue each year a handbook of *Postgraduate Courses in United Kingdom Universities* which lists all "taught courses", (except in medicine, dentistry and veterinary science) but does not cover research. In general, universities can provide facilities for research in at least some aspects of all the subjects in which first degrees are offered.

Courses at postgraduate level leading to master's-level degrees of the Council for National Academic Awards (C.N.A.A.) are offered by polytechnics and other colleges. They are listed in the C.N.A.A.'s annual *Directory of Postgraduate and Post-Experience Courses*. It is also possible to undertake research at polytechnics leading to an M. Phil. or Ph.D. granted by the C.N.A.A.

### ACCOUNTANCY

(See also Business, Management and Administration).

First Degrees in *Accounting* or *Accountancy* are granted by the Universities of Birmingham, Dundee, East Anglia, Exeter, Glasgow, Hull, Kent, Liverpool, Stirling, Strathclyde and Wales (Aberystwyth and Institute of Science and Technology). At several other universities one of these subjects can be combined with, e.g., Financial Administration, Finance or Economics.

Courses leading to first degrees in *Accounting*, *Accountancy* or *Accounting and Finance* granted by the Council for National Academic Awards are

provided by City of Birmingham Polytechnic, Brighton Polytechnic, Bristol Polytechnic, City of London Polytechnic, Dundee College of Technology, Ealing College of Higher Education, Glasgow College of Technology, Huddersfield Polytechnic, Kingston Polytechnic, Leeds Polytechnic, Liverpool Polytechnic, Manchester Polytechnic, Middlesex Polytechnic, Napier College of Commerce and Technology, Newcastle upon Tyne Polytechnic, North East London Polytechnic (*Finance with Accounting*), Polytechnic of North London, Portsmouth Polytechnic, Preston Polytechnic, Sheffield City Polytechnic (*Accountancy and Financial Control*), Trent Polytechnic, Ulster Polytechnic, Polytechnic of Wales.

*Professional Bodies*.—The main bodies granting membership on examination after a period of practical work are:

INSTITUTE OF CHARTERED ACCOUNTANTS IN ENGLAND AND WALES, Chartered Accountants' Hall, Moorgate Place, E.C.2.

### ECONOMICS

Almost all universities grant first degrees in economics. Courses leading to first degrees in Economics granted by the Council for National Academic Awards are provided by nearly 20 Polytechnics and Colleges.

### ENGINEERING

First Degrees in *General Engineering* or *Engineering Science* are granted by the Universities of Aberdeen, Cambridge, Durham, Edinburgh, Exeter, Leicester, Liverpool, London (Queen Mary College), Loughborough, Oxford, Reading, Surrey and Warwick. Courses leading to first degrees in *Engineering* granted by the Council for National Academic Awards are provided by 7 polytechnics.

The sixteen member institutions of The Council of Engineering Institutions, 2 Little Smith Street, S.W.1, are the principal qualifying bodies (see below).

#### Aeronautical Engineering

See main heading:

AERONAUTICS AND AERONAUTICAL ENGINEERING

#### Agricultural Engineering

First Degrees in *Agricultural Engineering* and *Agricultural Mechanisation* are granted by the University of Newcastle upon Tyne. Courses in *Agricultural Engineering* leading to degrees granted by Cranfield Institute of Technology are provided at National College of Agricultural Engineering, Silsoe, Beds.

### Chemical Engineering

First Degrees are granted by the Universities of Aston in Birmingham, Bath, Belfast, Birmingham, Bradford, Cambridge, Edinburgh, Exeter, Heriot-Watt, Leeds, London (Imperial College of Science and Technology; University College), Loughborough, Manchester (Manchester Institute of Science and Technology), Newcastle upon Tyne, Nottingham, Salford, Sheffield (*Chemical Process Engineering*), Strathclyde, Surrey, Wales (University College, Swansea).

Courses leading to first degrees granted by the Council for National Academic Awards are provided by North East London Polytechnic, Polytechnic of the South Bank, Teesside Polytechnic and Polytechnic of Wales.

### Civil, Electrical & Mechanical Engineering

First Degrees in *Civil, Electrical* (or *Electrical and Electronic*) and *Mechanical Engineering* are granted by Aberdeen, Aston in Birmingham, Bath, Belfast, Birmingham, Bradford, Bristol, Brunel (*E. & M.*), Cambridge, City, Dundee, Durham, Edinburgh, Exeter, Glasgow, Heriot-Watt, Lancaster, Leeds, Leicester, Liverpool, London (Imperial College of Science and Technology, King's College, Queen Mary College, University College), Loughborough, Manchester, also Manchester Institute of Science and Technology, Newcastle upon Tyne, Nottingham, Reading (*E. & M.*), Salford, Sheffield, Southampton, Strathclyde, Surrey, Sussex, Wales (University Colleges at Cardiff and Swansea; Institute of Science and Technology, Cardiff; University College, Bangor E.), and Warwick.

Nearly 20 polytechnics or colleges of technology provide courses (in one or more of civil, electrical/electronic and mechanical engineering) leading to first degrees granted by the Council for National Academic Awards.

### Electronic Engineering & Electronics

First Degrees in *Electronic Engineering* or *Electronics* or *Electrical and Electronic Engineering* or *Electrical Engineering* (including *Electronics*) are granted by the following universities: Aston, Bath, Belfast, Birmingham, Bradford, Bristol, City, Dundee, East Anglia (*Electronic Systems Engineering*), Edinburgh, Essex, Exeter, Glasgow, Heriot-Watt, Hull, Keele, Kent at Canterbury, Lancaster, Leeds, Leicester, Liverpool, London (Chelsea College, Imperial College of Science and Technology, King's, Queen Mary and University Colleges), Loughborough, Manchester (also Manchester Institute of Science and Technology), Newcastle upon Tyne, Nottingham, Reading, Salford, Sheffield, Southampton, Strathclyde, Surrey, Sussex, Ulster, Wales (University Colleges of Bangor (also *Ocean Electronics*), Cardiff and Swansea, Institute of Science and Technology), Warwick (*Engineering Electronics*), York.

Courses leading to first degrees in *Electronic Engineering* or in *Electrical and Electronic Engineering*, granted by the Council for National Academic Awards are provided by some 20 polytechnics or colleges of technology.

### Marine Engineering and Naval Architecture

First Degrees in *Marine Engineering* and *Naval Architecture* and *Shipbuilding* are granted by the University of Newcastle upon Tyne; in *Naval Architecture* and *Ocean Engineering* by the University of London (University College); in *Naval Architecture* by Glasgow and Strathclyde; in *Ship Science*

by the University of Southampton and in *Maritime Technology* by the University of Wales (Institute of Science and Technology).

Courses leading to first degrees in *Marine Engineering* granted by the Council for National Academic Awards are provided by Southampton College of Higher Education, and in *Mechanical Engineering (Marine)* by Liverpool Polytechnic.

#### Nuclear Engineering

First Degrees are granted by the Universities of London (Queen Mary College—also *Nuclear Reactor Science and Technology*), Manchester, and Salford (*Applied Chemistry—Nuclear Technology*).

#### Offshore Engineering

First Degrees are granted by Heriot-Watt University.

#### Production Engineering

First Degrees in *Production Engineering, Manufacturing Engineering or Industrial Engineering* are granted by the following Universities: Aston in Birmingham, Bath, Birmingham, Bradford, Brunel, Cambridge, City, Hull (*Engineering Design and Manufacture*), Loughborough, Manchester (and Manchester Institute of Science and Technology), Nottingham, Salford, Strathclyde and Wales (Institute of Science and Technology).

Courses leading to first degrees in *Production Engineering* granted by the Council for National Academic Awards are provided by Coventry (Lanchester) Polytechnic, Kingston Polytechnic, Leeds Polytechnic, Trent Polytechnic; in *Industrial Engineering* by Hatfield Polytechnic, Paisley College of Technology; in *Manufacturing Engineering* by Liverpool Polytechnic; in *Manufacturing Systems Engineering* by Sheffield City Polytechnic; and in *Plant Engineering* by Trent Polytechnic.

#### Structural Engineering

First Degrees are granted by the Universities of Bath, Bradford (*Civil and Structural Engineering*), Cambridge (*Structural and Civil Engineering*), Heriot-Watt, London (University College: *Civil, Structural and Environmental Engineering*), Sheffield (*Civil and Structural Engineering*), Sussex, and Wales (University College, Cardiff (*Civil and Structural Engineering*)).

#### Qualifying Engineering Institutions

- ROYAL AERONAUTICAL SOCIETY, 4 Hamilton Place, W.1.  
 INSTITUTE OF ENERGY, 18 Devonshire Street, W.1.  
 INSTITUTION OF CHEMICAL ENGINEERS, 165/171 Railway Terrace, Rugby, Warwickshire; London Office, 12 Gayfere Street, S.W.1.

ROYAL INSTITUTION OF NAVAL ARCHITECTS, 10 Upper Belgrave Street, S.W.1.

#### ESTATE MANAGEMENT AND SURVEYING

First Degrees are granted by the Universities of Aberdeen (*Land Economy*), Cambridge (*Land Economy*), Heriot-Watt (*Estate Management*), and Reading (*Land Management*).

First Degrees in *Surveying Science* are granted by the University of Newcastle upon Tyne, in *Building Economics and Measurement* by the University of Aston in Birmingham, in *Building Economics and Quantity Surveying* by Heriot-Watt University, in *Property Valuation and Management* by the City University, in *Quantity Surveying and Building Surveying* by the University of Reading, and in *Quantity Surveying and Construction Economics and Building Surveying* by the University of Salford.

Courses leading to first degrees granted by the Council for National Academic Awards are provided by the following: in *General Practice Surveying* by Newcastle upon Tyne Polytechnic, in *Land Administration* and in *Surveying and Mapping Sciences* by North East London Polytechnic, in *Land Economics* by Paisley College of Technology, in *Building Surveying* by Leicester Polytechnic, Liverpool Polytechnic, Polytechnic of the South Bank and Thames Polytechnic; in *Quantity Surveying* by City of Birmingham Polytechnic, Bristol Polytechnic, Polytechnic of Central London, Dundee College of Technology, Glasgow College of Technology with Glasgow College of Building and Printing, Kingston Polytechnic, Leeds Polytechnic, Liverpool Polytechnic, Newcastle upon Tyne Polytechnic, Portsmouth Polytechnic, Robert Gordon's Institute of Technology, Polytechnic of the South Bank, Thames Polytechnic, Trent Polytechnic, Ulster Polytechnic and Polytechnic of Wales; in *Housing Administration* by Bristol Polytechnic; in *Housing Studies* by Sheffield City Polytechnic; in *Land Administration* by North East London Polytechnic; in *Land Management* by Leicester Polytechnic; in *Minerals Estate Management* by Sheffield City Polytechnic; in *Estate Management* with courses at City of Birmingham Polytechnic, Kingston Polytechnic, Oxford Polytechnic, Polytechnic of the South Bank and Thames Polytechnic, in *Land Economics* with courses at Paisley College of Technology; in *Urban Estate Management* at Polytechnic of Central London, Liverpool Polytechnic and the Polytechnic of Wales, in *Urban Estate Surveying* by Trent Polytechnic, in *Urban Land Economics* by Sheffield City Polytechnic; in *Urban Land Administration* by Portsmouth Polytechnic; and in *Valuation and Estate Management* by Bristol Polytechnic.

Qualifying professional bodies include:

- THE INCORPORATED SOCIETY OF VALUERS AND AUCTIONEERS, 3 Cadogan Gate, S.W.1.  
 RATING AND VALUATION ASSOCIATION, 115 Ebury Street, S.W.1.  
 THE INCORPORATED ASSOCIATION OF ARCHITECTS AND SURVEYORS, Jubilee House, Billing Brook Road, Weston Favell, Northampton.

THE ROYAL INSTITUTION OF CHARTERED SURVEYORS, 12 Great George Street, Parliament Square, S.W.1.  
THE INSTITUTE OF QUANTITY SURVEYORS, 98 Gloucester Place, W.1.

THE FACULTY OF ARCHITECTS AND SURVEYORS, with which is incorporated the Institute of Registered Architects, 15 St. Mary Street, Chippenham, Wilts.

### FISHERY SCIENCE

First Degrees in *Wildlife and Fisheries Management* are granted by the University of Edinburgh.

Courses leading to first degrees in *Fishery Science/Studies* granted by the Council for National Academic Awards are provided by Hull College of Higher Education, Plymouth Polytechnic.

### FOOD AND NUTRITION SCIENCE (See also Dietetics, Home Economics and Hotelkeeping)

First Degrees in *Food Science* are granted by the Universities of Belfast, Leeds, London (Queen Elizabeth College), Loughborough (*Food Processing Technology*), Nottingham, Reading (also *Food Science and Food Economics and Food Technology*), Strathclyde and Surrey (*Nutrition-Food Science*); and in *Nutrition* by the Universities of London (Queen Elizabeth College), Nottingham and Surrey.

Courses leading to first degrees in *Food Science* granted by the Council for National Academic Awards are provided by the Polytechnic of the South Bank; in *Nutrition and Dietetics* by Robert Gordon's Institute of Technology; in *Catering Science and Applied Nutrition* by Huddersfield Polytechnic; in *Food and Accommodation Studies* by Leeds Polytechnic; and in *Food Marketing Sciences* by Sheffield City Polytechnic.

Scientific and professional bodies include: NUTRITION SOCIETY, Chandos House, 2 Queen Anne Street, W.1.

### FORESTRY AND TIMBER STUDIES

First Degrees in Forestry are granted by the Universities of Aberdeen, Edinburgh, and (also *Wood Science*) Wales (University College, Bangor).

Courses leading to first degrees in *Timber Technology* granted by the Council for National Academic Awards are provided by Buckinghamshire College of Higher Education.

### Professional Organizations

THE COMMONWEALTH FORESTRY ASSOCIATION, c/o CFI, South Parks Road, Oxford.

THE ROYAL FORESTRY SOCIETY OF ENGLAND, WALES AND NORTHERN IRELAND, 102 High Street, Tring, Herts.

THE ROYAL SCOTTISH FORESTRY SOCIETY, 18 Abercromby Place, Edinburgh.

THE INSTITUTE OF CHARTERED FORESTERS, 22 Walker Street, Edinburgh.

### FUEL AND ENERGY STUDIES (See also Nuclear Engineering)

First Degrees in *Fuel and Combustion Science* and in *Fuel and Energy Engineering* are granted by the University of Leeds; in *Petroleum Engineering* by London (Imperial College of Science and Technology); in *Mining and Petroleum Engineering* by the University of Strathclyde; in *Natural Gas Engineering* by the University of Salford; in *Energy Studies* by the University of Wales (University College, Swansea) and the New University of Ulster; in *Fuel and Energy and Management Studies* by the Univer-

sity of Leeds; in *Thermal Power Engineering* by the University of Bath; and in *Energy Technology* by Aston in Birmingham. These subjects may also form part of other degree courses.

Courses leading to first degrees in *Energy Studies* granted by the Council for National Academic Awards are provided by Sunderland Polytechnic, in *Energy Engineering* by Napier College of Commerce and Technology, and in *Power Engineering* by Derby Lonsdale College of Higher Education.

Courses leading to certificates and qualification by professional bodies are available at many Technical Colleges.

The principal professional bodies are:—

THE INSTITUTE OF GAS ENGINEERS, 17 Grosvenor Crescent, S.W.1.

THE INSTITUTE OF ENERGY, 18 Devonshire Street, W.1.

THE INSTITUTE OF PETROLEUM, 61 New Cavendish Street, W.1.

### GEOLOGY

First Degrees in *Geology* or *Geological Sciences* or *Applied Geology* are granted by the Universities of Aberdeen, Aston in Birmingham, Belfast, Birmingham, Bristol, Cambridge, Dundee, Durham, East Anglia (*Environmental Sciences*), Edinburgh, Exeter, Glasgow, Hull, Keele, Lancaster (*Geophysical Sciences*), Leeds, Leicester, Liverpool, London (Bedford College, Birkbeck College, Chelsea College, Imperial College of Science and Technology, King's College, Queen Mary College, University College), Manchester, Newcastle upon Tyne, Nottingham, Oxford, Reading, St. Andrews, Sheffield, Southampton, Strathclyde, Wales (University Colleges at Aberystwyth, Cardiff and Swansea).

Courses leading to first degrees in *Geology* granted by the Council for National Academic Awards are provided by City of London Polytechnic, Derby Lonsdale College of Higher Education (*Earth and Life Studies*), Kingston Polytechnic and Portsmouth Polytechnic; in *Geology and Environment* by Oxford Polytechnic; and in *Engineering Geology and Geotechnics* by Portsmouth Polytechnic.

### HOME ECONOMICS AND CATERING (See also Dietetics, Food, Hotelkeeping and Institutional Management)

First Degrees are granted by the Universities of Wales (Cardiff University College: *Home Economics*), Strathclyde (*Hotel and Catering Management*) and Surrey (*Home Economics*-provisional; and *Hotel and Catering Management*). Courses leading to first degrees in *Home Economics* granted by the University of Bath are provided at Bath College of Higher Education; by the University of Liverpool at Liverpool Polytechnic; by the University of Manchester at City of Manchester College of Higher Education; and in *Home and Community Studies* at Ilkley College by the University of Bradford.

Courses leading to first degrees granted by the Council for National Academic Awards are provided by Dorset Institute of Higher Education, Huddersfield Polytechnic (*Catering Science and Applied Nutrition*); *Hotel and Catering Administration*); Leeds Polytechnic (*Home Economics and Food and Accommodation Studies*); Liverpool Polytechnic (*Home Economics*), Manchester Polytechnic (*Hotel and Catering Studies*); Napier College of Commerce and Technology (*Catering and Accommodation Studies*); Newcastle upon Tyne Polytechnic (*Home Economics*); Oxford Polytechnic (*Catering and Food Science and Nutrition*); Portsmouth Polytechnic/Highbury College of Technology (*Hotel and Catering*

*Management*); Polytechnic of North London (*Institutional Management*); Queen Margaret College (*Home Economics*); Robert Gordon's Institute of Technology (*Home Economics*); Sheffield Polytechnic (*Catering Systems*); and Ulster Polytechnic (*Catering Administration and Home Economics*).

#### HOTELKEEPING

(See also Home Economics)

First Degrees in *Hotel and Catering Management* are granted by the Universities of Strathclyde and Surrey.

Courses leading to first degrees in *Hotel and Catering, Administration/Studies/Management* granted by the Council for National Academic Awards are provided by Huddersfield and Manchester Polytechnics and by Portsmouth Polytechnic/Highbury College of Technology.

## TEACHING

There are now three main ways to gain the qualification needed to become a teacher:

(a) The first is to follow a three- or four-year course leading to a B.Ed. degree. B.Ed. courses are provided by nearly 80 colleges of education/institutes of higher education/polytechnics. The degrees are awarded either by universities or by the Council for National Academic Awards (C.N.A.A.).

(b) The second, for those who are already graduates with a degree other than a B.Ed., is to follow a one-year course leading to a postgraduate certificate in education.

(c) The third is to take a course at one of the few institutions, mainly universities, that offer concurrent courses (normally four years) leading to a degree (other than B.Ed.) and a teaching qualification.

## TECHNICAL EDUCATION

First Degrees in one or more technologies are awarded by almost all universities; and many polytechnics and colleges of technology provide courses leading to first degrees granted by the Council for National Academic Awards. Details are given under individual subject headings.

CITY AND GUILDS OF LONDON INSTITUTE  
76 Portland Place, W.1

An independent educational organisation founded in 1878 and incorporated by Royal Charter. The

Institute offers examinations on its published regulations and syllabuses, and awards certificates at operative, craft and technician level in a wide range of technical subjects. Its syllabuses are taught in technical colleges and other establishments of further education in the United Kingdom and overseas. The Institute provides the administrative services for the National Examinations Board for Supervisory Studies.

*President*, H.R.H. the Duke of Edinburgh, K.G., K.T.  
*Chairman*, H. M. Neal.  
*Director-General*, H. Knutton, C.B.  
*Secretary*, B. B. Phillips.

#### TECHNICIAN EDUCATION COUNCIL Central House, Upper Woburn Place, W.1

The Council was established in 1973 to be responsible for "the development of policies for schemes of technical education for persons at all levels of technician occupation in industry and elsewhere," in England, Wales and Northern Ireland. The Council's awards and programmes of study have almost completely replaced the existing qualifications and courses in the technician field.

*President*, H.R.H. the Duke of Kent.  
*Chairman*, H. N. Raine.  
*Chief Executive Officer*, D. G. Mitchell.

#### Regional Advisory Councils

Set up in 1947 (i) to bring education and industry together to find out the needs of young workers and advise on the provision required, and (ii) to secure reasonable economy of provision. They also have certain responsibilities in connection with the procedure for the approval by the Department of Education and Science of advanced courses, and issue handbooks, etc., giving, for the guidance of students and teachers, information about the facilities available within a region or district for various types of training (e.g. electrical engineering, textiles, building and chemistry). There are ten Regional Advisory Councils in England and Wales:—

- 1 (LONDON AND HOME COUNTIES).—Regional Advisory Council for Technological Education, Tavistock House South, Tavistock Square, W.C.1.
- 2 (SOUTHERN).—Regional Council for Further Education, 26 Bath Road, Reading.
- 3 (SOUTH-WEST).—Regional Council for Further Education, Wessex Lodge, 11-13 Billetfield, Taunton.
- 4 (WEST MIDLANDS).—Advisory Council for Further Education, Norfolk House, Smallbrook Queensway, Birmingham.
- 5 (EAST MIDLANDS).—East Midlands Further Education Council, Robins Wood House, Robins Wood Road, Aspley, Nottingham.
- 6 (EAST ANGLIAN).—Regional Advisory Council for Further Education, Shirehall, Bury St. Edmunds, Suffolk.
- 7 (YORKSHIRE AND HUMBERSIDE).—Association for Further and Higher Education, Bowling Green Terrace, Green Terrace, Leeds.
- 8 (NORTH-WESTERN).—North Western Regional Advisory Council for Further Education (incorporating the Union of Lancashire and Cheshire Institutes), Town Hall, Walkden Road, Worsley, Manchester.
- 9 (NORTHERN).—Northern Council for Further Education, 5 Grosvenor Villas, Grosvenor Road, Newcastle upon Tyne.
- 10 (WALES).—Welsh Joint Education Committee, 245 Western Avenue, Cardiff.

#### Industrial Training Foundation

91 Waterloo Road, S.W.1.

The Industrial Training Foundation provides a consultancy service to British and overseas governments, industry and commerce, on technical education and training. It is a non profit-making institution registered under the Charities Act and charges fees only to cover its costs. Its objectives are to promote the development of vocational and industrial education and training in its broadest sense.

ITF has acted for, or in association with, all relevant Government departments, and international and institutional bodies. It was formed in 1964 with British Government support and the experience gained in Britain was later put to use in developing training services for overseas countries.

ITF advises Governments and industry on the necessary steps for the institution, development and implementation of training programmes ranging from courses to cover a specific problem to fully integrated comprehensive projects.

#### TEXTILES

First Degrees in *Textiles* are awarded by the Universities of Leeds and Manchester (Manchester Institute of Science and Technology). The four-week "tea break" strike at British Leyland's Longbridge plant was called off by a majority of only 46 votes at a mass meeting of strikers. 8. Mr Arthur Scargill became President-elect of the National Union of Mine-workers when the result of a pit-head ballot was announced. Unions representing water and sewerage workers agreed to recommend acceptance of a pay offer of just over nine per cent. 12. Leaders of the National Union of Public Employees refused to accept a 7 per cent pay deal and decided to let their members ballot the offer. 14. An eight per cent pay offer for seamen was accepted by NUS in a ballot. 22. The NUR executive accepted a system of flexible work rosters under which railmen would work shifts of between seven and nine hours. 27. It was stated that membership of the TUC had dropped from 12 million to 11½ million in the last twelve months.

(1982) Jan. 3. A.S.L.E.F., the train drivers' union, began a campaign of disruption at midnight with an official ban on overtime and rest-day working with the start of weekly two-day stoppages from Jan. 13 and 14 because British Rail refused to pay A.S.L.E.F. members a three per cent wage rise or reduce their working week to 39 hours unless they agreed to forego their right to an eight-hour day and instead work between seven and nine hours. 4. Fifty seamen began a sit-in on board the cross-Channel ferry *Senlac* at Newhaven in protest against British Rail's decision to give up the Newhaven-Dieppe service; on Jan. 13 the strike at all but the Newhaven Sealink ports was called off after a peace settlement over job cuts. 5. British Rail announced 213 redundancies among seamen at Parkeston Quay, Harwich, because of the postponement of plans to build new ferries. 6. Workers at the British Aluminium smelter at Invergordon began a sit-in at the factory being closed with the loss of 900 jobs in an effort to apply pressure on the company and the Government to reprove the plant. The provincial newspaper members of the N.U.J. voted three to

one to accept a 3 to 4 per cent pay offer from the Newspaper Society, the employers' body. 7. Ford's hourly-paid workers voted 3-2 in favour of accepting the company's 7.4 per cent pay and conditions offer, 16 of the 24 plants being for the deal and seven factories against with one recording a split vote. 11. Talks between British Rail and the railway unions broke down and A.S.L.E.F. train drivers started the first of their weekly 48-hour strikes at midnight on Jan. 12; on Jan. 14 British Rail offer the N.U.R.'s footplatemen the three per cent second-stage pay award refused to A.S.L.E.F. train drivers because they would not accept the flexible rostering condition; on Jan. 15 Mr. Len Murray, T.U.C. general secretary, intervened in the dispute and gave his backing to A.S.L.E.F.; on Jan. 26 British Rail suspended all non-essential Sunday work and an unofficial 24-hour strike by guards belonging to N.U.R. caused large-scale cancellations of trains on London-North Kent lines as they protested against flexible rostering; on Feb. 2, A.S.L.E.F. leaders refused to give evidence to the three-man committee set up by A.C.A.S., under the chairmanship of Lord McCarthy; the inquiry ended its hearings on Feb. 11; on Feb. 16 the inquiry published its report which called upon A.S.L.E.F. to end their guerrilla strikes and British Rail Board to pay the disputed three per cent, requesting both sides to get back to the industry's own procedural machinery although the shorter working week given to N.U.R. and T.S.S.A. members should be withheld from A.S.L.E.F. until the union agreed to implement flexible rostering; on Feb. 17 A.S.L.E.F. and British Rail had talks at A.C.A.S. which concluded on Feb. 18 with a deal giving A.S.L.E.F. the three per cent pay increase immediately and the union calling off its strikes. 15. Unions representing water and sewerage workers agreed to accept a 9.1 per cent pay deal. 19. Mr. Joe Gormley, president, National Union of Mineworkers, avoided censure from the union executive by a 13-12 margin for publishing an appeal to miners to think again about backing a national strike against the Coal Board's 9.3 per cent pay offer, and taking a line against the recommendation of the executive and special conference of coalfield delegates. Members of the General and Municipal Workers Union and the T.&G.W.U. accepted the Government's offer to one million local authority "dirty jobs" workers of a 6.9 per cent wages deal. 21. Members of the National Union of Mineworkers voted by a 10 per cent majority to accept the N.C.B.'s 9.3 per cent pay offer, the result of the pithead ballot after an 82 per cent poll being: for acceptance 113,144 (55 per cent), against 91,477 (45 per cent) 22. Feb. 8. French railways accepted British Rail proposals to reopen the Newhaven-Dieppe car ferry route and retain the ferry *Senlac*, which had been occupied by her crew for five weeks. 9. British Airways pilots and office staff loaded baggage at Heathrow after a dispute with 600 tarmac staff over the implementation of new work rosters forced the airline to cancel nearly half its European flights. 18. The four-week strike at Leyland Vehicles' truck and bus plant in Lancashire was called off after workers at a mass meeting refused to accept the strike leader's announcement that a vote by several thousand workers at the Leyland headquarters had been overwhelmingly in favour of continuing the dispute over redundancies; after noisy demonstrations the strike committee met and agreed there should be a return to work on Feb. 22. 19. Thousands of commuters on the Eastern and Western regions of British Rail met renewed chaos when guards, members of N.U.R., staged a 24-hour unofficial strike over flexible rostering. 22. Mr. Rupert Murdoch, proprietor of the *Times* and *Sunday Times*, issued dismissal notices to 210 clerical staff on the two newspapers following the failure of talks to secure 600 full-time redundancies; on Mar. 11 Mr. Murdoch stated the two newspapers had been saved with a cut of 430 jobs and more than 400 casual shifts.

Mar. 1. Mr. Buckton, A.S.L.E.F. general secretary, declined to negotiate with British Rail and other rail union leaders at the Railway Staffs National Council because British Rail was adamant on eliminating the eight-hour day for flexible rostering. 8. The Health and Social Services Secretary (Mr. Fowler) announced an extra £82 million would be made available so that nurses and some other hospital workers could have pay rises averaging 6.3 per cent. 10. London Transport tubes and buses were at a standstill due to a 24-hour strike to protest at the enforced doubling of fares. 23. Unemployment in March fell by 52,556 to 2,992,322. 25. The management panel of the Burnham Committee decided to allow the teachers' pay dispute to go to arbitration and the industrial action ordered in schools throughout the country was called off. 26. Paint shop workers at Talbot's plant at Ryton, Coventry, voted to end their strike which halted all car production for three weeks and agreed to cut their rest time by eight minutes a day.

**April 2.** Ramp workers at Heathrow Airport returned to work after voting to end their seven-week strike over new rosters. **5.** A special TUC conference at Wembley voted to endorse an eight-point campaign against the Employment Act, 1980, and the new proposals in the present Employment Bill. Dockers in London won an improved bonus scheme and resumed work on April 6 after a two-week strike over pay. **15.** The National Union of Teachers at their annual conference in Scarborough voted overwhelmingly for the abolition of corporal punishment in State schools within two years. **22.** British Rail proposed the closure of its engineering workshops at Shildon, Co. Durham, Horwich, Lancs, and a partial closure of its Swindon works as part of a plan to cut between 3,500 and 4,000 jobs before the end of the year. **23.** An arbitration tribunal proposed a pay award of 5.9 per cent for white-collar civil servants. **27.** Unemployment in April rose by 15,404 to 3,007,726. **30.** Two-hour stoppages by hospital staff demonstrating in support of their 12 per cent pay claim took place in hospitals in London, Belfast, and Scotland.

**May 4.** The Manpower Services Commission published details of its youth training programme with plans to set up a foundation work-based year of training for all 16 and 17 year-old school-leavers. Electricians and plumbers working for the National Health Service accepted a pay deal raising basic earnings by about eight per cent. **7.** Lord McCarthy's report on the dispute over flexible rostering of train drivers was published and favoured the introduction of the system subject to safeguards. On May 12, the A.S.L.E.F. executive unanimously rejected the report. Members of N.A.L.G.O. voted by nearly eight to one against affiliation to the Labour party. **10.** The TUC announced a one-day strike for the following week by unions representing hospital workers followed by a series of two-hour strikes every Thursday starting on May 27 in support of a 12 per cent pay claim. Delegates at the Civil and Public Services Association conference in Brighton voted to accept the Government's 5.9 per cent pay offer. **17.** The electricity supply unions rejected by ballot a pay offer of 8½ per cent. **20.** British Telecom agreed a 6½ per cent pay deal for members of the Post Office Engineering Union and the Society of Post Office Executives. **21.** The N.U.R. executive supported a demand for the withdrawal of British Rail's plans to close some railway engineering workshops and the A.S.L.E.F. conference in London re-affirmed its commitment to the eight-hour day, instructing its executive to continue the policy of non-acceptance of the McCarthy report. **28.** British Railways Board offered the unions a five per cent pay rise from September dependent upon acceptance of flexible rostering by the train-drivers and

other productivity measures and stated any disruptive action would immediately mean the withdrawal of the offer. **31.** The annual conference of the National Association of Teachers in Further and High Education voted to change its rules to enable it to pursue political objectives.

**June 2.** Wandsworth council dustmen voted unanimously to end their six-week strike in protest against the privatization of public sector jobs in the borough and accepted a package put forward by the council and unions. **3.** A.S.L.E.F. rejected British Rail's five per cent pay offer and flexible rostering; British Rail suspended the closure of workshops and cutbacks involving members of N.U.R. Union leaders of the manual workers in the electricity supply industry agreed to a pay increase of between £6 and £12 weekly. **4.** Nurses voted to reject the Government's pay offer by a two-to-one majority in a ballot held by the Royal College of Nursing. The unofficial strike of marine officers which stopped all ferry services operated by the British and Irish Steam Packet between Britain and Ireland ended with acceptance in Dublin of allowances proposals. **7.** Talks between the railway unions and British Rail ended in deadlock. **9.** The N.U.R. voted by 17-6 to call a nationwide strike to begin on June 28 after the executive rejected a five per cent pay offer and productivity conditions. **10.** Ten ports were affected when dockers walked out in support of the TUC's "Union Day" campaign against the Government's proposed industrial legislation. A.C.A.S. recommended a six per cent across the board pay increase backdated to April 1 for teachers in England and Wales. Mr Fowler, Social Services Secretary, announced the appointment of Mr Pat Lowry, chairman of A.C.A.S., as an intermediary to the unions representing the N.H.S. ancillary workers. **17.** Talks between the rail unions and British Railways Board failed to make progress and the Prime Minister made it clear in the Commons that the Government would not intervene in the dispute. **19.** The Piccadilly Line underground service was closed throughout Central London after drivers and guards failed to turn up for work; there was also widespread disruption of the District Line as staff protested against service cuts due to begin on June 21, when all London's Underground system came to a halt at midnight. **21.** Nurses were offered an extra 0.6 per cent pay increase raising total offer to seven per cent at a meeting with the Social Services Secretary; other hospital workers were offered an extra 1.5 per cent, bringing the total offer to 5½ per cent. **22.** Peace negotiations between the British Railways Board and the N.U.R. ended in deadlock. On June 25 a final attempt to get the N.U.R. to call off its action failed at a meeting of the Railway Staff National Council in London.

26. The dispute with electricians in the photo-composition and process department at *The Times*, which stopped publication for two days, was settled. 27. The rail strike began at midnight. On June 28 opposition from union members forced delegates at the N.U.R. annual conference at Plymouth to vote 47 to 30 in favour of suspending the strike from midnight and to refer the dispute to the Railway Staff National Tribunal. British Rail stated they were not prepared to discuss pay in any form until the productivity issues from the 1981 pay deal had been resolved. The London Tube strike continued when delegates voted by 55 to 15 to continue the strike against new timetables but by 43 to 28 votes to call off the strike on pay. 29. A.S.L.E.F., the train-drivers' union, ordered an all-out indefinite strike from midnight on July 3 after British Rail announced it would impose flexible rostering from July 4 without the union's agreement. The week-long London Tube strike involving N.U.R. members was suspended by a unanimous vote of the union's conference in Plymouth. 30. British Rail withdrew its five per cent pay offer to employees in all three rail unions. A merger with the National Union of Journalists was unanimously supported by the bi-annual conference of the National Graphical Association at Eastbourne.

July 1. Proposals by A.S.L.E.F. for a trial period of flexible rostering in one "substantial area" were rejected by British Rail whose management insisted that the threatened strike should be called off before it would hold talks. 2. Delegates at the N.U.R.'s conference in Plymouth voted to accept flexible rostering. London Transport and the three rail unions set up a working party to find ways of cutting costs without reducing services and new timetables were withdrawn temporarily. 3. The A.S.L.E.F. train-drivers' strike began at midnight; on July 4 "rebel" train drivers kept a skeleton service running of between 200 and 300 trains; on July 6, British Rail said about 800 drivers had reported for duty by midnight and 1,400 trains ran during the day; on July 8, the British Railways Board decided to dismiss all striking A.S.L.E.F. train drivers who had not returned to work by July 13 and 14 and they would only be reinstated if they agreed to flexible rostering and other productivity measures; on July 14, British Rail announced that it was to close the entire network from midnight on July 20 unless there was a substantial return to work, all those still on strike being dismissed along with any other railmen who refused to cross picket lines; the decision followed failure of mediation efforts by A.C.A.S., the T.U.C. general secretary, and Opposition leader (Mr. Foot); on July 16, the entire A.S.L.E.F. executive was called to T.U.C. headquarters to meet the Finance and

General Purposes Committee which was in urgent session throughout the day and sent proposals to the British Railways Board to find a way to bring A.C.A.S. into the dispute again; on July 17, after 24-hours of negotiation involving all-night talks, the T.U.C. leaders agreed that British Rail should go ahead with flexible rostering and urged A.S.L.E.F. to end its strike; the A.S.L.E.F. executive committee met but adjourned without taking a decision; British Rail said management had not changed its position and the understanding drawn up in a written agreement with the T.U.C. was on the lines already laid down by British Rail and rejected by A.S.L.E.F.; on July 18, the A.S.L.E.F. executive voted to accept a return-to-work formula and the two-week-old strike was called off from midnight; the formula accepted in principle flexible rostering, the working of the rosters at 71 depots where they had been posted, and the recall of the union's annual conference within seven to ten days, to which the A.S.L.E.F. executive was told to recommend the new flexible rostering system and to support its introduction at the rest of the 265 depots while entering into negotiations with British Rail; a statement by Mr. Ray Buckton, A.S.L.E.F. general secretary, said: "This was a battle which could not be won without the support and assistance of the whole trade union movement—support which was not forthcoming"; on July 19, train services returned to normal within hours of the strike collapsing and by mid-day about 98 per cent of normal services were stated to be operating; on July 27 a recalled A.S.L.E.F. union conference accepted flexible rostering "under duress" and under protest. 6. The National Union of Mineworkers, in conference at Inverness, decided to demand £27-a-week across the board rises. 10. British Airways stated that it was to reduce its staff by a further 7,000 this year. 15. British Shipbuilders stated that it was to make 1,500 men redundant in an effort to halt losses running at £12 million a year on its repair yards. 19. One million health workers began a three-day strike action to support their campaign for a 12 per cent pay increase; the Army and police stood by in case emergency ambulance services broke down. 20. Unemployment in July totalled 3,190,621, the highest number since records began, representing 13.4 per cent of the work force. 24. Nissan, the car manufacturing firm, announced its decision to delay plans for a £400 million British car plant because of uncertainties about world car demand and economic prospects. 28. It was announced that the replacement for the Cunard container ship, *Atlantic Conveyor*, sunk in the Falklands, was to be built at British Shipbuilders' Swan Hunter yard at Tyneside with the help of a £15 million package of Government aid. Mr. Younger, Scottish Secretary, told the Com-

mons that efforts to re-open the Invergordon aluminium smelter had failed despite the offer to prospective purchasers of a £100 million subsidy over five years. 30. A.S.L.E.F. and the N.U.R. reached a formal understanding with the British Railways Board on the introduction of flexible rostering for train drivers.

Aug. 2. A strike began by members of British Sealink crews over seamen at Harwich who had been asked to accept cuts in their earnings; no British-crewed Sealink ferries sailed from British ports; on Aug. 3 the strike was called off when the Harwich seamen accepted a four-point peace formula. 3. The Electricity Council disclosed that over 7,000 jobs would be lost in the industry in the next two years. 4. Sealink announced that 2,000 jobs were to be cut over the next five years by natural wastage. The British Railways Board said that 15,000 jobs would have to go within the next 12 months. 9. A five-day campaign of disruption of hospitals throughout the country was started by unions in the National Health Service in support of an improved pay offer and many hospitals were forced to admit only accident and emergency cases. Officials of three Fleet Street unions were ordered by Mr. Justice Leonard in a private hearing to call off any threat of a 24-hour national newspaper strike in support of the health service workers. 10. A sympathy strike by electricians from the Fleet Street branch in support of the health service unions, prevented publication of London editions of national newspapers, but full production was resumed on Aug. 11. British Steel announced that another 800 jobs at Tipton, in the West Midlands, and Ravenscraig, Lanarkshire, were to be axed. 20. It was announced that nearly 1,700 workers in the steel industry in Sheffield and Glasgow would lose their jobs in the next few months. 23. Leaders of unions representing "blue collar" civil servants accepted a six per cent pay increase back-dated to July 1. 24. Unemployment in August rose to a record 3,292,702. 26. Members of the Royal College of Nursing working in the N.H.S. voted 58,143 to 28,534 against accepting the Government's revised pay offer of 7½ per cent.

#### LEGAL

(1981) Sept. 16. Judge ruled at Blackburn County Court that three men in a mental hospital at Whalley, Lancs., were entitled to the vote because they were residents and not patients.

Oct. 21. Two Appeal Court judges ruled that Mr Heseltine, Environment Secretary, had acted unlawfully in cutting rate support grants totalling £9 million for six London

boroughs and had not exercised his discretionary powers validly. 29. The Law Commission report on breach of confidence was published.

Nov. 3. Conservative-controlled Bromley council failed in the High Court to prevent the Greater London Council's cheap fares on the rates when two judges ruled that the Labour-controlled GLC was legally entitled to pass on the cost of cutting fares by 25 per cent to ratepayers; on Nov. 10 three Appeal Court judges allowed an appeal by Bromley council against this decision; on Dec. 17 five Law Lords decided unanimously that the GLC had acted unlawfully in levying a supplementary rate to pay for its cheap fare scheme and that the GLC and London Transport executive had exceeded their statutory powers. 5. The European Court of Human Rights declared that the Government had violated the human rights of mental patients by refusing their right of appeal to a court or tribunal. The Scottish Law Commission report on aliment and financial provision was published.

Dec. 3. Burmah Oil failed in the House of Lords to avoid a £3 million corporation tax assessment by the use of a tax avoidance scheme when five Law Lords unanimously allowed an Inland Revenue appeal against a decision of the Court of Session in Scotland in the company's favour. 11. Three Court of Appeal judges ruled that union blacking of a cargo ship in Hull docks was unlawful secondary action. 18. Two judges in the High Court ruled against a claim by Norwich City Council to quash the order of the Environment Secretary to take over the sales of Norwich council houses because he had acted unreasonably and unlawfully.

(1982) Jan. 14. It was disclosed that the mother of Jayne MacDonald, youngest victim of the Yorkshire Ripper, had won her legal action to make the killer pay damages; on March 5 damages of £6,722.45p were awarded. 15. The Lord Chief Justice declared that other than in wholly exceptional circumstances the crime of rape called for an immediate custodial sentence. 20. Birmingham Industrial Tribunal ordered Walsall Council, which had dismissed four dinner ladies because they refused to join unions operating a closed shop agreement, to give them their jobs back and awarded each varying amounts of compensation; the Council conceded that the women had been unfairly dismissed. 26. Mr. Justice Woolf in the High Court granted an order to the Conservative-controlled Solihull Borough Council and Guest Keen and Nettlefold quashing the 14p in the £ supplementary rate levied by the Labour-controlled West Midlands Council to pay for an election promise of 25 per cent cuts

in bus fares and granted costs against West Midlands Council.

**Feb. 9.** Three Appeal Court judges ruled that the Environment Secretary (Mr. Heseltine) had acted within his powers when he ordered his officials to take charge of Norwich Council's sale of council homes and dismissed an appeal by the Council against a High Court decision. **11.** Miss Harriet Harman, legal officer of the National Council for Civil Liberties, lost her appeal to the House of Lords against a ruling that she was guilty of contempt of court in allowing a journalist to see confidential Home Office documents disclosed to her for a legal action but which had been read out in open court previously, the decision being made by a majority of three to two. **12.** Lord Denning, Master of the Rolls, Lord Justice Kerr, and Lord Justice May ruled in the Appeal Court that Shell International was not entitled to compensation for the loss of 180,000 tons of crude oil stolen from the supertanker, *Salem*, before it was scuttled off the west coast of Africa two years previously, the insurers being only liable for the 15,000 tons of oil left in the ship when it sank; the Appeal Court judges allowed an appeal by 69 Lloyd's syndicates and 29 insurance companies against a High Court ruling that they were liable for the entire loss, but both sides were given leave to appeal to the House of Lords. **17.** Mr. Justice Woolf, in a reserved judgement in the High Court, ruled that Merseyside Metropolitan County Council acted lawfully in levying a 6p in the pound supplementary rate to pay for a 10 per cent fares cut and dismissed a claim by the mail order company, Great Universal Stores, as Merseyside ratepayers, for an order quashing the supplementary rate demand. **19.** A girl of six, who was born mentally and physically handicapped, blind and deaf, after her mother caught German measles during pregnancy, failed in an attempt to sue a doctor and the Essex Area Health Authority for ever being born; through her uncle, Mr. Michael Davis, she claimed in the Court of Appeal that hers was a "wrongful birth" which would not have taken place but for the negligence of the doctor and the Authority; the Court allowed the appeal by the doctor and the Authority to strike out the claim. **25.** The European Court in Strasbourg ruled that teachers who caned, belted or tawsed children against the wishes of their parents were in breach of the European Convention on Human Rights. **26.** The Home Office announced new powers from March 29 for judges and magistrates to suspend part of prison sentences to help ease the serious overcrowding in prisons.

**Mar. 1.** The Appeal Court halted the takeover of Associated Communications Corporation by Mr. Robert Holmes à Court; commitments made by the directors transfer-

ring voting control to Mr. Holmes à Court's Australian-based Bell Group were declared "void and of no effect" by the three judges who heard an appeal in an action brought by Mr. Gerald Ronson, head of the Heron Corporation, which had wanted to make its own takeover bid.

**April 1.** By a 3 to 2 majority, the House of Lords ruled that a union which blacked a ship in dock and demanded money from the owner for its release had obtained the money under duress, and that the payment fell outside the protection given to unions and their officials for acts done in contemplation or furtherance of a trade dispute over "terms and conditions of employment"; the International Transport Workers' Federation was ordered to repay \$6,400 dollars (about £2,870) to Universe Tankships Inc. whose tanker was blacked by the union when she berthed at Milford Haven in 1978. **2.** The High Court refused an application by the Conservative-controlled London borough of Kensington and Chelsea for an order outlawing the Labour-controlled GLC's rate precept for the coming year and found that the GLC did not act illegally, or unreasonably or in breach of its "fiduciary duty" to ratepayers in fixing its rate. **9.** After a special dispensation by the Lord Chancellor the Central Criminal Court sat for the first time on a Good Friday since it was established in 1834 because the jury in a murder case was still considering their verdict, for the fourth day. **21.** Mrs. Maureen Long, aged 46, of Buttershaw, Bradford, who survived an attack by the Yorkshire Ripper, Peter Sutcliffe, was awarded £8,500 damages by a High Court judge for the physical and psychological injuries which she had suffered. **27.** Three Appeal Court judges ruled that pre-menstrual tension was no defence for a woman on a criminal charge although it could be used in mitigation to lessen sentences and dismissed an appeal against conviction by a 30-year-old East London barmaid who had been put on probation for threatening to kill a policeman. **29.** The High Court ruled that councillors in the London borough of Camden acted lawfully when they settled the "dirty jobs" strike three years ago before national negotiations and dismissed an action brought by the Metropolitan District Auditor who claimed 31 Labour councillors had unlawfully acted beyond their powers.

**May 4.** Marilyn Moore, aged 30, who had been attacked by the Yorkshire Ripper, Peter Sutcliffe, was awarded £8,000 for pain, suffering and loss of amenity and £2,500 for loss of employment prospects in the High Court, Leeds. **5.** Gilbert O'Sullivan, the singer-songwriter, won back the copyright to his songs in the High Court, London, and was awarded a multi-million pound share in the fortune he unwittingly signed away to his

manager, Mr Gordon Mills; the judge declared the agreements all void and unenforceable and ordered Mr Mills and his companies and the company of Mr Bill Smith, Mills' assistant, to pay costs.

**June 17.** Five Law Lords unanimously dismissed the appeal of the Commission for Racial Equality against an order of the Court of Appeal preventing it from conducting an investigation into the housing policies of Hillingdon Borough Council.

**July 1.** Five law lords unanimously upheld the Court of Appeal's decision that it had no power to order a retrial in a case where there was a material irregularity in an otherwise valid trial; the decision meant that Newton Rose, aged 21, of Stoke Newington, who had his conviction for murder of a National Front supporter quashed by the Court of Appeal in March because the judges sent a secret message to the jury setting a deadline for their verdict, would not face a re-trial. **8.** The High Court refused to order a new inquest into the deaths of 13 black youngsters who died in a fire in Deptford in January, 1981, the Court ruling that no new evidence had come to light since the inquest in May, 1981 and that alleged irregularities during the hearing were of "total insignificance." **15.** A High Court ruling that courts had no legal authority to hear any more prosecutions brought under the suspected persons law, abolished by the Criminal Attempts Act, which came into force on Aug. 27, 1981, was overturned by the House of Lords when five law lords unanimously allowed a Metropolitan Police appeal. **30.** An inquest into the death of Miss Helen Smith, the British nurse who died in 1979 during an illegal drinks party in Saudi Arabia, was ordered in the Appeal Court by a two to one majority.

**Aug. 5.** The report of the five-year inquiry by Lord Hunter, chairman of the Scottish Law Commission, into the murder 13 years ago of Mrs. Rachel Ross in Ayr, Scotland, and for which Mr. Patrick Meehan was convicted but pardoned after serving seven years of a life sentence, was published.

## SPORT

**(1981) Sept. 3.** The International Amateur Athletics Federation decided at a Rome meeting to permit sportsmen to promote commercial products. **14.** Nottinghamshire, beating Glamorgan by 10 wickets at Trent Bridge, won the County Cricket Championship for the first time since 1929. **19.** Mrs. Josie O'Donnell became the first woman to win the King's Cup Air Race at RAF Finningley, South Yorks. **25.** The Football League

Management Committee proposed a restructuring of the League involving the abandonment of the Fourth Division and the creation of three regional sections of the Third Division comprising 18 clubs each. **30.** It was decided that the 1988 Olympic Games would be held in Seoul, South Korea; on the following day it was also decided that tennis should become an Olympic sport again with full reinstatement at the Seoul Games.

Eitan claimed about 100 guerrilla tanks had been destroyed in eight days of fighting, 2,000 guerrillas had been killed, and 6,000 taken prisoner, while Syria had lost 200 tanks, five helicopters, 19 surface-to-air missiles, and 85 combat aircraft; of the Israelis, 170 were dead and about 700 wounded. **15.** Israel continued to pour infantry, tanks and armoured personnel carriers

into areas around Beirut. 17. The Israeli Cabinet agreed to the U.S.'s request made on behalf of the P.L.O. for a full ceasefire on the Beirut front. The Israeli General Staff announced that 214 men had been killed, 35 were missing, and 1,114 wounded. 18. Israeli guns fired on new targets closer to Beirut. In New York, Mr. Haig, U.S. Secretary of State, had talks with Mr. Begin before the Israeli Prime Minister addressed the U.N. special session on disarmament, the delegations from Arab states, the Soviet bloc, and several African countries walking out in protest at the Lebanese invasion. 20. Israel announced it would agree to a further 48-hour ceasefire. 22. Syrian positions east of Beirut were attacked by Israeli air and ground forces and Palestinian areas around the capital were shelled before Israel declared another ceasefire. 23. As the ceasefire collapsed, Israeli planes hit Syrian artillery and tanks close to the main Beirut-Damascus road and troops clashed east of Lakev Karouan in the Bekaa Valley. 24. Israeli aircraft and artillery pounded Syrian positions close to the Damascus highway and their gunners, naval craft, helicopter gunships, and planes attacked targets all round west Beirut. 25. Israel launched the heaviest air attack of the three-week campaign; Israeli gunners shelled the remaining Palestinian positions and their planes maintained strikes on selected targets while their gun-boats shelled buildings along the Beirut sea-front. 26. Government officials stated that at least 300 people were killed in the previous day's Israeli bombardments of West Beirut and 1,000 were wounded; Israeli jets also destroyed Syrian ground-to-air missiles as they were being installed in the Bekaa Valley. 27. Israeli jets dropped leaflets over West Beirut warning the people to leave.

July 4. Israel imposed a total blockade on West Beirut. 5. A resolution calling for the restoration of water, power and food supplies to West Beirut was passed unanimously by the U.N. Security Council; on July 10 three lorries carrying supplies were allowed into West Beirut. 11. There was day-long shelling of Beirut. 25. Israeli planes attacked West Beirut for the fourth day running. 27. Israel maintained its pressure on West Beirut with air strikes against Palestinian positions, shelling by artillery and tanks in the hills above the city and with bombardment from gunboats; according to Beirut Radio, 120 people were killed.

Aug. 1. After air, land and sea bombardment of West Beirut, Israeli forces overran the city's airport and advanced to a few hundred yards of one of the main Palestinian refugee camps; according to the official count, 165 people were killed and over 400 injured; the U.N. Security Council unanimously demanded an immediate ceasefire policed by

U.N. observers. 4. Israel launched another bombardment of West Beirut with tank assaults because, Mr. Begin stated, the Palestinians broke the 10th ceasefire of the war; reports put the dead at 250 with 670 injured and 19 Israeli soldiers killed with 64 injured. 5. The Israeli Cabinet rejected appeals from President Reagan and the U.N. to withdraw its troops in Beirut. 6. More than 100 people were killed when Israeli bombs destroyed two large buildings in Beirut. In New York, the U.S.A. vetoed a Russian resolution in the U.N. Security Council calling for an international embargo on arms supplies to Israel, 11 countries voting for the resolution and three, including Britain, abstaining. 9. Details of the latest U.S. plan for the evacuation of Palestinian guerrillas from West Beirut were said to have been accepted by the central committee of the P.L.O. and the Lebanese Government; on Aug. 11, Mr. Begin said he and his ministers were all satisfied with the plan. 12. Israel called off its bombing of Beirut after President Reagan threatened to withdraw the peace mission of his envoy, Mr. Philip Habib; the artillery and gunboat bombing coupled with air attacks had lasted 11 hours and initial estimates set the death toll at over 200. 16. Forty ships of the U.S. Sixth Fleet gathered in the eastern Mediterranean to assist in the evacuation of the P.L.O. from Beirut. 18. Lebanon's Cabinet endorsed the plan made by Mr. Philip Habib, the U.S. special envoy, for the evacuation of the P.L.O. from West Beirut and on Aug. 19 formally requested France, the U.S.A. and Italy to send troops, as units of a multinational force (the French being the first to land on Aug. 20 at Beirut); on Aug. 19 the Israeli Cabinet approved the Habib peace plan. 20. Two Israelis held captive by the P.L.O. were handed over to the Red Cross for return to Israel. 21. The first lorry loads of Palestinians to be evacuated from Beirut began to leave and embarked by boat for Cyprus before flying on to Jordan and Iraq. 23. Bachir Gemayel was elected President of Lebanon in succession to President Sarkis; one thousand more Palestinian fighters were evacuated from West Beirut. 25. Eight hundred U.S. Marines landed in Beirut from vessels of the Sixth Fleet and took control of the port in a dawn operation before the P.L.O. evacuation resumed. 26. Some 500 Italian troops landed in Beirut to bring the multinational peace-keeping force to full strength; 500 more P.L.O. men left for Syria and the first contingent of wounded boarded a hospital ship; on Aug. 27, 1,361 members of the Palestine Liberation Army were evacuated by road from Beirut to Damascus in a convoy of 200 vehicles escorted by Italian soldiers; a further 760 P.L.O. fighters left Beirut by sea for Syria. 30. Yasser Arafat, leader of the P.L.O., left Beirut on a Greek ferry, which took him and his aides directly to Piraeus with an escort of

French, Greek, and U.S. naval vessels; at dawn the Syrian Army began its withdrawal from Beirut. 31. A Syrian fighter was shot down by Israeli forces while on a photo-reconnaissance flight over Lebanon.

June 10. The House of Representatives passed the budget plan for 1983. 17. President Reagan challenged Russia to demonstrate by deeds, not words, that it was sincere about curbing the arms race in an address to U.N. General Assembly on disarmament. 23. The Foreign Affairs Committee of the House of Representatives voted 26-9 for the resolution calling on the U.S.A. and the Soviet Union to seek "to achieve a mutual and very viable freeze on the testing, production and further deployment" of nuclear weapons. Mrs. Thatcher, after addressing the U.N. disarmament session, was invited to the White House for talks on the Falklands conflict with President Reagan. The Administration forecast that its restrictions on selling technology to Russia would delay construction of the Siberian gas pipeline for two years or even cause it to collapse. The Senate approved a 1983 budget plan backed by President Reagan with a \$103,900 million (£60,400 million) deficit, the voting being 54 to 45 after five months' debate. 25. Mr Alexander Haig resigned as Secretary of State and said in his resignation letter that America's foreign policy was shifting from "that careful course which we had laid out". The President chose Mr George Shultz, a former Treasury secretary, as Mr. Haig's replacement. 27. The space shuttle, *Columbia*, lifted off from Cape Canaveral, Florida; it returned from its mission on July 4. 28. Mr. Raymond Donovan, President Reagan's Secretary of Labour, was cleared of allegations that he had business and social links with organized crime in a report presented by a federal special prosecutor, who stated that he had found "insufficient credible evidence" to warrant prosecution.

July 4. President Reagan and a crowd of 500,000 welcomed the space shuttle *Columbia* back at Edwards Air Force Base, California, from its fourth and final test flight. 15. By 97 votes to nil, the Senate confirmed Mr. George Shultz as Secretary of State. 19. The President halted the shipment of anti-personnel cluster bombs to Israel while he considered an explanation for their use during the

campaign in Lebanon, but the White House stated this decision did not affect shipment of other U.S. supplies to Israel. 20. Official figures issued by the Census Bureau showed that there were over 31 million people in the U.S.A. living below the poverty line and that Americans' spending power declined by 3.5 per cent last year. 22. An offer by Britain, France, Italy and Belgium to cut their share of the American steel market by 10 per cent to stop the Administration imposing import duties was rejected as insufficient. For the second time in 14 days, President Reagan used his executive powers to block a strike by railway workers when he ordered a 60-day cooling-off period for coach attendants, clerks and others. The Administration gave final approval to a plan opening up almost the whole of the continental shelf to oil and gas exploration. 23. The Senate approved by 50-47 votes the largest tax increase in U.S. history to raise nearly \$100,000 million over three years; it increased taxes on businesses and individuals by \$98,000 million and cut about \$17,000 million from spending on welfare programmes and medical care for the elderly. 26. Three major U.S. banks lowered their prime interest rate  $\frac{1}{2}$  per cent to 15.5 per cent, the lowest rate for two years.

Aug. 6. The number of unemployed in July was 10,800,000. 17. President Reagan reached a new agreement with China involving the eventual phasing out of U.S. arms supplies to Taiwan although no cut-off date was set. 19. The House of Representatives voted 226 to 207 in favour of the President's tax Bill. 25. The U.S. Commerce Department ruled that Britain and five other E.E.C. countries had subsidised steel exports to America, the declaration being a step towards imposition of penalty duties on steel imports from Europe. 26. The U.S.A. temporarily black-listed two French firms for supplying equipment to the Russian gas pipeline in defiance of President Reagan's ban. The annual Index of Crime was published showing that 13 million serious offences were committed in 1981.

### COMMON MARKET

(1981) Sept. 23. According to figures released by the Europe Commission in Brussels, unemployment in the EEC passed the nine million mark for the first time in August. The EEC Commissioner for budget policy, Mr Christopher Tugendhat, announced the Commission was to pay back £450 million to EEC Governments following new estimates for revenues and spending in the current year with Britain receiving about £81 million.

Oct. 4. Changes in values of leading European currencies were agreed by Common Market finance ministers meeting in Brussels

with a revaluation of the German mark and Dutch guilder by 5.5 per cent each and a devaluation of the French franc and Italian lira by three per cent each. 26. A publication for reforming the financial structure of the Common Market was issued by the EEC in Luxembourg.

Nov. 12. The Common Market Commission withdrew its opposition to the British Government's current British Steel aid programme and gave approval to pay the balance of £360 million earmarked for the present financial year. 26. EEC summit meeting began in London.

(1982) Jan. 4. The Common Market countries decided in Brussels against introducing economic sanctions against Russia because of the military takeover in Poland but E.E.C. foreign ministers said they would consider action as the situation developed. Norway banned E.E.C. vessels from fishing inside its 200-mile economic zone because of failure by the Common Market to implement a fisheries agreement. 5. Grants totalling more than £28 million were made by the Common Market agencies to help over 13,600 steelworkers in the U.K. who had lost their jobs. 8. The European Court of Auditors' report on Common Market activities in 1980 disclosed financial irregularities and administrative shortcomings in running the E.E.C. institutions. 13. The E.E.C. Commission decided against launching a general move to phase out duty-free purchases through the Common Market countries. 18. It was announced that Britain was to receive £316 million in grants for road-building and public works, bringing to £815 million the total the U.K. had received in rebates from the E.E.C. Budget for 1980-81. 21. The E.E.C. Commission decided to stop further sales of subsidised E.E.C. food to Poland and that the money saved would be distributed through non-governmental agencies. 22. It was announced that the number of unemployed in the Common Market had passed the 10 million figure for the first time. 27. Price increases averaging nine per cent for food covered by the Common Agricultural Policy were recommended by the E.E.C. Commission.

Feb. 2. The E.E.C. Commission banned herring fishing in the southern part of the North Sea because Denmark had taken ten times its share with the overall quota permitted from Oct. 1981 to the end of March 1982 being exhausted. 23. The Common Market countries agreed to reduce their imports, including manufactured and luxury goods, from the Soviet Union as a signal of their opposition to the suppression of Solidarity in Poland. Greenland decided in a referendum to withdraw from the Common Market with the support of 52 per cent of its voters.

Mar. 3. The E.E.C. Commission decided to open proceedings against France before the European Court of Justice on the grounds that some of the £510 million handout to French farmers announced in December flouted E.E.C. rules. 5. The European Court in Brussels ordered that France must remove bureaucratic obstacles which had disrupted imports of cheap Italian wine. 11. The European Parliament voted overwhelmingly in Strasbourg for a Common Market ban on imports of seal pelts and products. 22. E.E.C. Foreign Ministers agreed to begin proceedings against Japan under Article 23 of the General Agreement on Tariffs and Trade for alleged violations of international trade rules. 25. The Common Market was 25 years old. 26. Members of the European Parliament in Strasbourg voted by a 28-majority in favour of giving Common Market farmers a record 14 per cent price increase this year despite opposition from U.K. Euro-MPs, both Tory and Labour, and the Brussels Executive Commission.

April 20. Britain made a net financial profit from Common Market membership in the previous year of £20 million, according to revised budget figures published by the Brussels Commission, the first profit for Britain since joining. 27. Common Market foreign ministers failed to agree on a plan to reduce Britain's EEC bills over the next few years and the proposal to give the U.K. Budget rebates of about £450 million in 1982 and similar amounts over the next two to three years was rejected by Mr. Pym, the Foreign Secretary, in Luxembourg. 30. An EEC farm prices agreement provisionally approved in Luxembourg added 1.2 per cent on British food prices.

May 11. Another farm price clash between Britain and its EEC partners in Brussels produced a near-crisis when efforts were made to ignore a British veto and introduce a price package which the UK considered unacceptable; Britain was isolated nine votes to one after new aid measures prompted Greece and Italy to drop reservations over the farm package provisionally agreed in April. 13. The European Parliament voted for an end to the right of a single Common Market country to veto decisions taken by the majority. 18. EEC agriculture ministers meeting in Brussels forced through farm price proposals against British opposition by a majority vote and thereby jettisoned the power of veto safeguarding vital national interests. 25. Britain's efforts to secure major cuts in its Common Market contributions ended in Brussels when Mr. Pym (Foreign Secretary) accepted a one-year settlement which would give the U.K. a refund of about £480 million of its 1982 contribution; there was also provision for extra relief if Britain's

final bill much exceeded the estimate. It was agreed to decide by the end of November on a longer-lasting scheme to protect Britain from paying more than its fair share of the costs of running the EEC.

June 24. The latest proposals to settle the Common Market battle over fisheries were decisively rejected by the executive of the National Federation of Fishermen's Organisations. 28. Common Market leaders met in Brussels for a two-day summit. 29. EEC Fisheries Ministers again failed to agree a Common Fishery Policy after Danish opposition and new compromise proposals were deferred.

July 6. Britain was found to be in breach of Common Market law by not having a proper job evaluation system to assist in enforcing its law on equal pay for men and women; judges of the European Court of Justice in Luxembourg upheld a complaint by the Common Market Commission that Britain had failed to comply with an E.E.C. directive on equal pay introduced in 1975. 9. By 84 to 51 votes, the European Parliament approved a resolution moved by Mr. Alan Tyrrell (Con., London East) calling for the establishment of "common principles for extradition between member states". 15. The European Court of Justice ordered Britain to lift its ban on poultry imports from other E.E.C. countries. 24. Common Market Ministers gave the Commission a mandate to seek an overall settlement with the United States of the current steel dispute after an emergency meeting in Brussels. 27. Aid of more than £9,400,000 was announced for areas hit by shipbuilding closures, being allocated to help create new jobs in Strathclyde, Cleveland, Tyne and Wear, Merseyside, and Belfast.

Aug. 12. The E.E.C. handed over a protest in Washington against President Reagan's ban on American firms and their European subsidiaries exporting technology for the Siberian gas pipeline.

#### AFRICA

(1981) Sept. 1. The South African Defence Minister announced that his troops killed several Russian army officers and captured a warrant-officer during the previous week's incursion into Angola. to cover the cost of the subsidies and other measures. 13. *Iraq* claimed to have inflicted heavy losses on advancing *Iranian* troops as the battle for Khorramshahr entered its fifth day with military communiquees from both sides confirming fierce fighting. 14. The commander of the *Iranian* ground forces said *Iran* had retaken from *Iraqi* troops all the towns and territories in Khuzistan province, except Khorramshahr. 15. *Polish* press reports stated police arrested 636 people for taking part in Solidarity's protest on May 13 against martial law. 18. President Brezhnev offered the *U.S.A.* a mutual freeze on strategic missile development, and President Reagan welcomed the *Russian* leader's willingness to open negotiations. 21. *Japanese* workers won an average basic rise of about seven per cent in the annual pay negotiations. 23. *Iran* claimed fresh victories in the battle for Khorramshahr. 24. The head of the K.G.B., Mr. Yuri Andropov, was promoted to the Soviet Communist party's ten-man Secretariat. *Iran* said it had recaptured Khorramshahr and *Iraq* admitted its loss on the following day. 27. *Japanese* and *British* car manufacturers agreed in *Tokyo* to keep *Japan's* car exports this year to under 11 per cent of *Britain's* total domestic market. 30. *Spain* became the 16th member of N.A.T.O. at a ceremony in Washington.

June 1. Bombs exploded at four *U.S. Army* installations in *West Germany*. 5. The economic summit of Western leaders opened at *Versailles*. 9. President Reagan, addressing the Bundestag in *Bonn*, spoke of proposals to reduce substantially the ground forces of N.A.T.O. and the Warsaw Pact. The *U.S.A.* vetoed a U.N. Security Council resolution threatening *Israel* with sanctions unless she agreed to a ceasefire and unconditional withdrawal from *Lebanon*. 10. The one-day N.A.T.O. summit concluded in *Bonn*. 11. Thousands of demonstrators protesting about arms policies during President Reagan's visit clashed with police in *West Berlin*. 13. King Khalid, the *Saudi Arabian* ruler, who died in Taif, was succeeded by his brother, Prince Fahd. The *French* Government introduced an austerity programme with a four-month pay and prices freeze. 15. Mr. Gromyko, *Russian* Foreign Minister, told the U.N. General Assembly in New York, in a statement he read on behalf of President Brezhnev to the special session on disarmament, that *Russia* "assumes an obligation not to be the first to use nuclear weapons". 20. *Iraq* had started to withdraw its troops from *Iranian* territory, President Saddam Hussain said in Baghdad. The indefinite postponement of talks about *Gibraltar* was announced in Luxembourg after a meeting between Mr. Pym, Foreign Secretary, and the Spanish Foreign Minister. *Iran* warned that the *Iraqi* decision to withdraw all its forces from

Iranian territory was not enough to end the Gulf War. 22. The Army took over political control in *Argentina*; it was announced that Gen. Reynaldo Bignone would become President from July 1 with the Navy and Air Force refusing to serve in the government; on the following day, Senor Costa Mendez, Argentina's Foreign Minister, submitted his resignation and it was accepted. 24. A *French* fighter pilot became the first astronaut from the West to take part in a *Russian* space mission. 28. *Russia* said it was cutting by two-thirds telephone lines between itself and Britain and that lines were also to be reduced with other countries in the West. Three British journalists, detained in *Argentina* since April 13, were released on bail; they arrived back in London on June 29. 30. *Russia* stated that it intended to cut more than a third of its telephone links with the U.S.A. and end direct dialling between the two countries.

July 1. Gen. Bignone was sworn in as President of *Argentina*. 4. The family of Viktor Korchnoi, the *Russian* defector and chess grand master, arrived in Zurich for a reunion after a six-year campaign for permission to leave Russia. President Guzman of the *Dominican Republic* died of a gunshot wound which a Government spokesman said was inflicted when a pistol he was holding apparently went off accidentally in his room at the presidential palace in Santo Domingo. 14. *Iran* claimed its forces had crossed into *Iraq* and penetrated six to eight miles; the *Iraqis* said they had stopped the advance and had counter-attacked inflicting heavy losses and forcing a retreat. 15. Heavy fighting between *Iranian* and *Iraqi* forces was reported near the oil port of Basra. 18. *Iran* claimed further major military successes against *Iraq*. 21. The release of 1,227 martial law detainees was announced in *Poland*, but 630 men would remain in detention centres where they had been held without trial or charges since martial law was declared. 22. The *French* Government announced it intended to ignore U.S. sanctions on the construction of the Trans-Siberian gas pipeline and honour all its contracts. *Iranian* forces launched another major attack into *Iraq*, but were reported to have been forced to retreat after a seven-hour battle east of Basra. 23. It was reported that half of the 819 *Poles* who went to the World Cup Finals in Spain in June had not returned home. 24. *Iraq* claimed to have killed over 2,000 *Iranian* troops when it repelled a new offensive towards the city of Basra; *Iran* said 700 *Iraqis* were killed or wounded. 26. It was reported that living costs in *Poland* rose 104 per cent in the first six months of the year and food costs soared 150 per cent, but real wages were down 26 per cent. 29. *Iran* said its forces launched another attack against

the *Iraqis* east of Basra, but a military *communiqué* issued in Baghdad reported the attack had been repulsed with heavy losses.

Aug. 4. Unemployment in *West Germany* in July reached its highest level for 30 years, rising to 1,760,000. 9. *Hungary* introduced big price increases for food and transport. The *French* Government announced its decision to lift its embargo on arms sales to Argentina. 13. Street fighting between demonstrators and riot police broke out in Gdansk in *Poland* and thousands also demonstrated in Warsaw, Cracow and Wroclaw. 16. Riot police used water cannon in *Warsaw* to disperse several hundred Solidarity supporters. 19. Svetlana Savitskaya, aged 34, became the second woman to fly in space when the *Soyuz* craft in which she and two male companions were flying was launched by the *Soviet Union* and docked on Aug. 20 with the *Salyut 7* space station; the three cosmonauts landed safely at Kazakstan on Aug. 27. 26. In Czestochowa, the *Polish* Primate, Archbishop Glemp, called on the military regime to release Lech Walesa, the Solidarity leader, and to ease its grip on the country. 27. The *Spanish* Prime Minister announced that general elections would be held on Oct. 28. 28. It was announced in *Paris* that two important arrests had been made "in the area of international terrorism"; on the following day police stated that a woman had also been arrested later; on Aug. 30, the trio were identified as members of the Irish National Liberation Army, being named as Michael Plunkett, aged 30, Mary Reid, 29, both from the Dublin area, and Stephen King, 30, from Co. Tyrone in Northern Ireland; all three were charged with possessing arms, explosives and false papers and of having criminal association. 31. Thousands of *Poles* marched in support of Solidarity to commemorate the second anniversary of the agreement which legalised it as a free trade union; police used tear gas and concussion grenades; the authorities said that the demonstrations involved at least 12 towns and cities and that 4,050 people were detained; in Lublin police opened fire and killed two people.

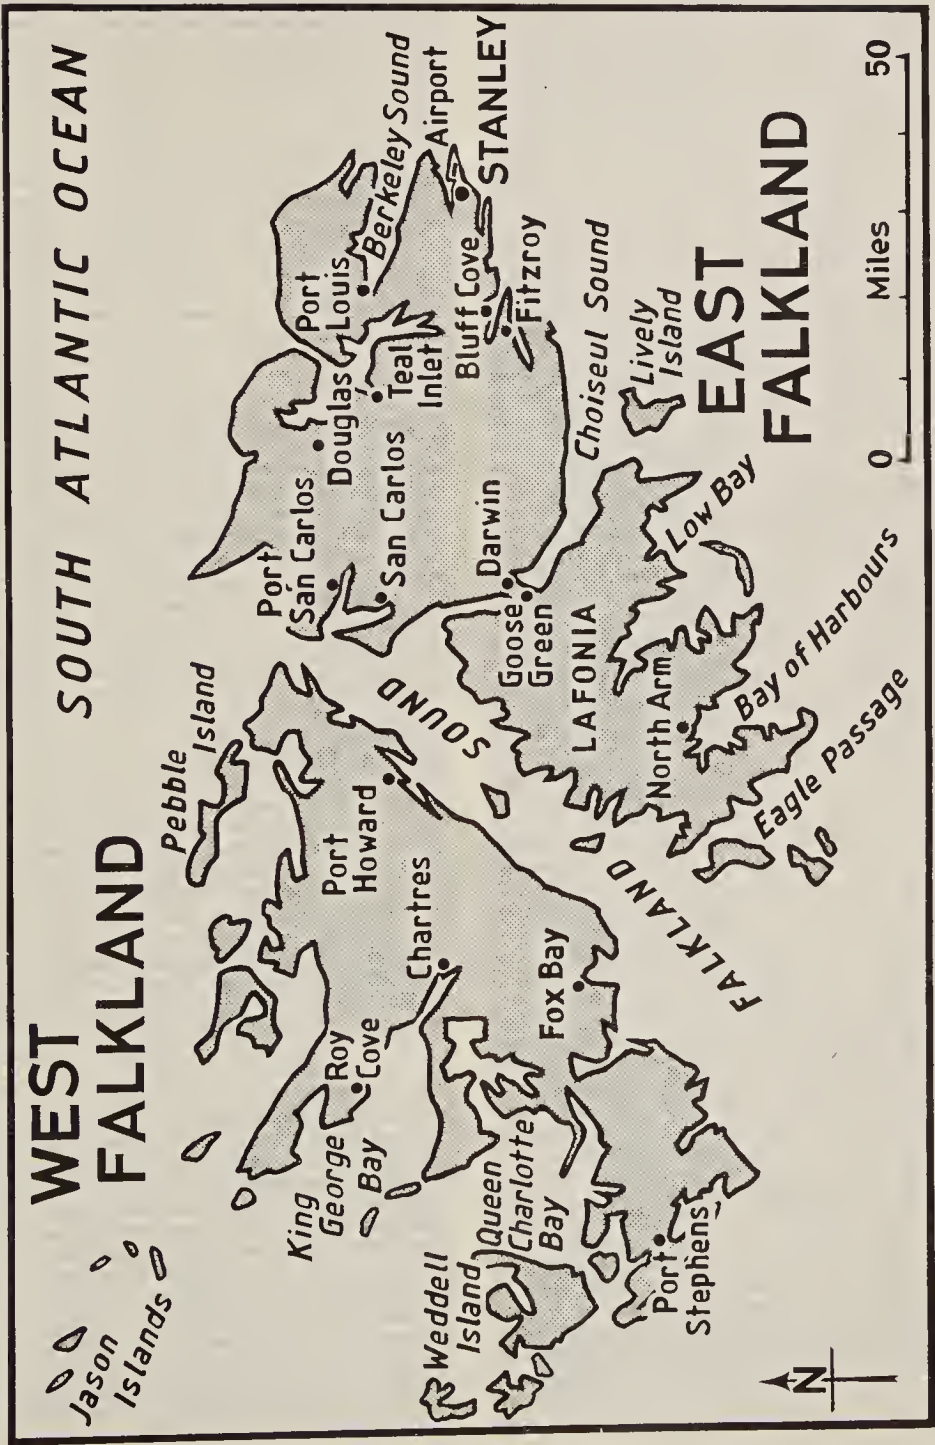

## THE FALKLANDS CONFLICT

(1982) Mar. 23. The Royal Navy's Antarctic patrol ship, *Endurance*, was reported to be sailing at full speed to South Georgia Island in the South Atlantic to deal with an Argentinian "presence" after reports on Mar. 22 that some 60 Argentinians collecting scrap metal from a disused whaling station at Leigh had hoisted their country's flag before sailing away, but leaving a handful of their number on the island. 30. The Foreign Secretary (Lord Carrington) told the House of Lords that the dispute with Argentina over the

Falkland Islands had developed into a "potentially dangerous" situation and had resulted in a review of British commitments in the South Atlantic.

April 1. The British Ambassador to the U.N. (Sir Anthony Parsons) said in New York that an Argentine naval force was steaming toward the Falklands and that the U.K. Government feared an invasion was imminent; Britain's delegation asked for an immediate meeting of the Security Council. 2. After much confusion and delay it was confirmed by Lord Carrington in London that Argentina had invaded and captured the Falkland Islands in an air and sea operation. Mr. Rex Hunt, the Governor of the Falklands, and the garrison of 81 Royal Marines were in Argentine hands. Some 5,000 Argentine troops were reported to have landed and raised their flag over Government House. A gun battle resulted in three Argentinian casualties. The Defence Secretary (Mr. Nott) said Britain was assembling up to 40 warships and 1,000 commandos. Britain broke off diplomatic relations with the Argentine. The Lord Privy Seal (Mr. Humphrey Atkins) made a statement in the Commons. Foreign ministers of the Common Market countries condemned the armed intervention and called on Argentina to withdraw its forces immediately. 3. The Commons met for an emergency debate, the first sitting of the House on a Saturday since the Suez crisis of 1956. The Prime Minister announced that a large Task Force was being despatched to the Islands and that financial sanctions including the freezing of assets were being imposed on Argentina. Argentina announced that one of its officers had been killed and three other members of the invasion force wounded when Royal Marines resisted the first wave assault. U.N. Security Council in New York demanded a cessation of hostilities and an immediate Argentine withdrawal followed by negotiations; Panama cast the only vote against the British resolution. 4. Argentine forces seized the island of South Georgia after strong resistance by 22 Royal Marines who shot down a helicopter, holed a warship with a hand-held anti-tank weapon, and killed three invaders before being overwhelmed. The Governor of the Falklands (Mr. Rex Hunt) and 81 Marines captured earlier were flown home to Britain from Uruguay. The Argentines imposed a curfew in Port Stanley. 5. Lord Carrington resigned as Foreign Secretary and accepted responsibility for "a very great national humiliation". His successor was Mr. Francis Pym, Lord President of the Council and Leader of the Commons, who in turn was succeeded by Mr. John Biffen, formerly Trade Secretary. Mr. Atkins, Lord Privy Seal and Deputy Foreign Secretary, and Mr. Richard Luce, Minister of State, Foreign Office, also resigned. Mrs.

Thatcher refused a resignation offer from Mr. John Nott, Defence Secretary. Britain's Task Force sailed from Portsmouth led by the carriers *Invincible* and *Hermes*. The cruise liner *Canberra* was placed under Naval control and the Government said other ships would be requisitioned and chartered as necessary. The Australian Government pledged full support to Britain and New Zealand severed its diplomatic ties with Argentina. 6. Mr. Alexander Haig, U.S. Secretary of State, held separate meetings with Britain's Ambassador (Sir Nicholas Henderson) and the Argentine Ambassador (Senor Eesteban Takacs) in Washington. Mrs. Thatcher announced a ban on imports from Argentina. El Salvador expressed support for Argentina's action, but Zambia condemned its invasion. 7. Britain declared a 200-mile war zone round the Falklands from 4 a.m. G.M.T. on April 12 and stated that any Argentine warships or naval auxiliary ships within the zone would be treated as hostile and liable to attack. The new Foreign Secretary (Mr. Pym) told the Commons that Britain would do all it could to achieve a settlement without further fighting. Argentina installed Gen. Mario Benjamin Menendez as military governor of the occupied Islands. France, Germany, Holland, Belgium and Switzerland banned all arms sales to Argentina. The Turks and Caicos Islands offered support for Britain and Hongkong ordered the Argentine Consulate General to be closed and the Consul General to leave. 8. The Prime Minister told M.P.s that the Government was considering in what form a review or inquiry should take place into events leading up to the invasion. 9. Mr. Haig, U.S. Secretary of State, flew from London to Buenos Aires for talks. The liner *Canberra* sailed from Southampton with 2,000 troops aboard for a rendezvous with the Task Force in the south Atlantic. Argentina ordered several thousand young men who completed their one year's national service last December to report for duty. Russia accused Britain of posing an immediate threat to international peace and security by her "aggressive course" in the dispute. 10. E.E.C. Governments agreed in Brussels to ban imports of all goods from Argentina from this week and also issued a statement condemning the Argentine invasion and demanding withdrawal of its troops in line with U.N. Security Council resolution. In Buenos Aires, Mr. Haig, U.S. Secretary of State, met leaders of the military regime. 11. Peru proposed the sending of an international peace-keeping force to the Falklands and called for an immediate 72-hour truce to allow Mr. Haig time to complete his negotiations. The P. & O. cruise liner *Uganda* was requisitioned as a hospital ship for the British Task Force. 12. Britain's maritime blockade around the Falklands took effect. Mr. Haig left Downing

Street after 11 hours of talks with Mrs. Thatcher and other Ministers to fly again to Buenos Aires, stating a number of substantial differences remained over proposals he had brought from the Argentine Government. Argentine Foreign Ministry stated that the 22 Royal Marines taken during the invasion of South Georgia were "perfectly safe" and with some civilian members of the British Antarctic survey team on the island were aboard a ship sailing for Montevideo. 13. Mr. Haig flew back to Washington from London after saying that he had received "some new ideas" understood to have emanated from Senor Costa Mendez, Argentine Foreign Minister, during a telephone talk. Four large trawlers were requisitioned by the British Government for minesweeping operations off the Falklands along with a North Sea oil rig maintenance ship. Argentina's armed forces were placed on full alert. Argentina banned imports from the E.E.C. in retaliation to E.E.C. sanctions. Hongkong banned all imports from Argentina with immediate effect. Canada also banned Argentinian imports and cut off government aid to exports to Argentina. Bolivia mobilised its air force and offered to fight beside Argentina "if the situation arises". The Organisation of American States meeting in Washington adopted a resolution calling for a peaceful solution within the context of the rules of international law. 14. Both Houses of Parliament were recalled from the Easter Recess for emergency sittings. Mrs. Thatcher stated that Britain was seeking a peaceful solution but would use its military strength if necessary. President Reagan described the situation as "most sensitive" and said he was sending Mr. Haig back to Buenos Aires again as a "fair broker". E.E.C. Governments agreed to ban imports from Argentina for one month from April 16. The Argentine military government in the Falklands deported Mr. Richard Baker, British Chief Executive and other senior officials including the chief of police. Peru, Guatemala, and Panama announced support for the invasion. 16. Mr. Haig held more talks with Argentine leaders before flying to London from Buenos Aires. Two British reporters, Simon Winchester, of the *Sunday Times*, and Ian Mather, of the *Observer*, and an *Observer* photographer, Tony Prime, were reported to be in an Argentine jail in Ushuaia accused of spying (they were released and returned to England on June 29th). 17. Mr. Haig met the three members of the Argentine junta at the Presidential Palace in Buenos Aires. 18. Gen. Galtieri, the Argentine President, said in response to a message from the Pope that Argentina had gone as far as it could towards seeking a basis for negotiation with Britain. Sudan demanded the withdrawal of Argentine troops. 19. Mrs Thatcher and her inner Cabinet declared as unacceptable "at first

sight" the latest peace proposals conveyed to Britain by Mr. Haig after his lengthy talks with the Argentine leadership in Buenos Aires. The newly-converted hospital ship, *Uganda*, left Gibraltar to join the British Task Force. 20. Mrs. Thatcher told the Commons that the Argentine proposals she had received on April 19 for a peaceful settlement were not adequate for the British Government. The President of the E.E.C., after a meeting of E.E.C. foreign ministers in Brussels, stated that from a diplomatic, political and legal point of view the Common Market countries were in total solidarity with Britain but no military aspects of the dispute had been discussed. The Organisation of American States voted at the request of Argentina to convene a special meeting of foreign ministers to consider invoking collective defence provisions against the United Kingdom; the vote was 18 to 0, with the U.S.A., Colombia and Trinidad-Tobago abstaining. 21. Port Stanley, capital of the Falklands, was renamed Puerto Argentino by Argentine decree. A statement issued by the Argentine junta said nothing less than full exercise of Argentine sovereignty after a limited transitional period was its aim. 22. Mr. Pym, Foreign Secretary, put Britain's proposals for averting hostilities to Mr. Haig in Washington. Gen. Galtieri visited the Falklands. The European Parliament voted 202 to 28 with 10 abstentions unreservedly to condemn the invasion and called for the withdrawal of Argentine troops before a halting of British naval operations. 23. The Foreign Office in London urged British citizens to consider leaving Argentina. 24. Mr. Pym arrived back at Downing Street to report to the Prime Minister on his Washington talks and warned that the peace efforts faced formidable obstacles and that Britain must be ready for military action. President Galtieri said the possibilities for peace were shrinking. 25. Royal Marines landing from helicopters recaptured South Georgia, the Defence Secretary (Mr. Nott) announcing that the landing met limited resistance with no British casualties but three Argentines were killed; earlier helicopters knocked out the Argentine submarine *Santa Fe*, which had reached Cumberland Bay; it was revealed that on April 22 men of the Royal Marines' Special Boat Squadron had landed on South Georgia to reconnoitre. 26. Mrs. Thatcher told Argentina that time was running out for a peaceful settlement; it was stated that 156 Argentine troops and 38 civilians were taken prisoner in South Georgia; more warships and paratroopers and marines sailed from Britain to join the Task Force. 27. In angry scenes in the Commons, Mr. Foot, Opposition leader, told the Prime Minister that there should be no military escalation until a British Minister had been to New York for peace talks at the United Nations and said

that the Commons should be consulted before there were any further steps in a military escalation, but Mrs. Thatcher rejected both these demands; Argentina declined an offer by Mr. Haig to visit Buenos Aires for a third time to submit President Reagan's peace plan. 28. Britain announced that the blockade of the Falklands in the form of a Total Exclusion Zone would be tightened from noon, April 30, London time, and extended to aircraft as well as ships of all nations; the Argentine junta was considering a settlement agreed in broad principle between Mr. Pym and Mr. Haig and presented in formal proposals in the name of President Reagan; Argentine military sources said air surveillance of the Falklands approaches was being increased as their Air Force changed to an offensive posture; a resolution approved by foreign ministers of the Organisation of American States called on Britain to cease hostilities, endorsed Argentina's claim to sovereignty, and declared that the crisis should be resolved within the framework of U.N. Security Council resolution, the vote being 17-0 in favour with the U.S.A., Chile, Colombia, and Trinidad-Tobago abstaining. 29. Argentina rejected President Reagan's proposals for a peaceful settlement because they did not satisfy fundamental aspects and required more clarification; in the Commons, Mr. Pym said: "If Argentina will not accept a negotiated settlement, reluctantly, and with the greatest possible restraint, we must use force"; a dusk-to-dawn curfew, restrictions on shopping, and a night-time blackout were imposed in the Falklands by Argentina; the Council of Europe voted overwhelmingly to condemn Argentina's invasion and called for an immediate withdrawal of its forces. 30. The United States came down firmly on Britain's side and announced economic and military sanctions against Argentina and offered "material support" for British forces; Mr. Haig announced an end to America's efforts at mediation because of Argentina's "failure to accept a compromise"; the U.N. Secretary-General, Senor Perez de Cuellar, offered to mediate.

May 1. Military action started in the South Atlantic when Port Stanley airfield was attacked by long-range Vulcan bombers flying from Ascension Island followed by a wave of Sea Harrier jets launched from *H.M.S. Hermes*; two Argentine Mirage fighters were shot down by a Sea Harrier and other enemy aircraft damaged and six ships from the Task Force bombarded Argentine positions on the Falklands; no British casualties were reported and all aircraft returned; the airstrip at Goose Green, Darwin, was also attacked; the Ministry of Defence stated that the first attack by R.A.F. Vulcans took place on April 30. 2. Buenos Aires claimed five Harriers had been shot down and

the flagship *Hermes* made inoperable after attack, but these claims were dismissed by the Defence Ministry; Mr. Pym resumed diplomatic efforts in Washington; Mrs. Thatcher invited leaders of the main opposition parties to talks on April 4; Mr. Steel, the Liberal leader, and Dr. David Owen, of the Social Democrats, accepted but Mr. Foot declined. 3. Argentina's joint chiefs of staff reported that the Argentine cruiser *General Belgrano*, hit by two torpedoes from the nuclear-powered submarine *Conqueror*, was "presumed sunk"; Task Force helicopters sank an armed Argentine tug and severely damaged another; Britain requisitioned the liner *Q.E.2* and three merchant ships to take 3,000 more troops to the war zone. 4. *H.M.S. Sheffield*, a Type 42 destroyer, was attacked in the total exclusion zone around the Falklands and hit by an Exocet missile; the ship caught fire and this spread out of control; the crew abandoned ship and were picked up; two days later the Ministry of Defence confirmed casualty figures as 20 officers and men presumed dead and 24 crew wounded; further air operations were conducted on the Falklands and all Vulcans returned safely but a Sea Harrier was shot down; the U.S. House of Representatives joined the Senate in passing a resolution supporting Britain. 5. Argentina stated that about 800 survivors had been rescued from the cruiser *General Belgrano*, but it was unsure how many of the 1,042 men aboard had died as rescue operations continued. Mr. Haig and the British Ambassador (Sir Nicholas Henderson) resumed urgent discussions in Washington on U.S.-Peruvian peace proposals. 6. Two Royal Navy Sea Harrier jump jets were lost over the South Atlantic after disappearing in low cloud; Argentina rejected the U.S.-Peruvian proposals for negotiations; Mrs Thatcher told the Commons that there could be no ceasefire without a properly supervised withdrawal of Argentine forces; N.A.T.O defence ministers meeting in Brussels issued a communique condemning Argentina's invasion and refusal to comply with U.N. Security Council Resolution 502. 7. Britain warned Argentina that any of its warships or military aircraft found more than 12 nautical miles from the Argentine coast would forthwith be considered hostile and liable to attack; more Harrier aircraft were sent to the South Atlantic. 8. The U.N. Secretary-General offered minor amendments to his peace proposals to try to reconcile differences. 9. Two Sea Harriers intercepted the Argentine fishing vessel *Narwal*, which was gathering intelligence inside the blockade zone and which surrendered with her crew being taken as prisoners; British frigates, helicopters and Sea Harrier jump jets went into action and radar and other military installations were shelled. 10. The destroyer *H.M.S. Sheffield* sank six days after being struck by an Exocet missile. A

controlled airspace 100 nautical miles in radius was imposed by Britain around Wideawake airfield on Ascension Island. 11. The Royal Navy sank a supply ship trying to run the blockade and continued to bombard military positions on the Falklands. 12. Two Argentine Skyhawk fighter-bombers, which had attacked a British ship in the war zone, were shot down by Sea Wolf missiles fired from a destroyer. In a separate incident, a Royal Navy Sea King helicopter ditched into the sea but all four crew were rescued. All Argentine prisoners and evacuated civilians from South Georgia arrived by British ship at Ascension Island and reached Montevideo by air on May 13. 13. Mrs. Thatcher told M.P.s: "We are working for a peaceful solution; not a peaceful sell-out". President Galtieri said Argentina was willing to talk about the crisis but could not give up its objective of sovereignty. 14. A bomb from an Argentine Skyhawk aircraft during an air attack on May 12 passed right through a Royal Navy frigate without exploding and without causing casualties, it was revealed. Britain's Ambassador to the U.N. was summoned back to London to brief the "War Cabinet" on the week's talks at the U.N. 15. The Ministry of Defence announced that a British raiding party destroyed a large ammunition dump and parked aircraft during a night attack on May 14 on an Argentine held airstrip on Pebble Island, off the north coast of West Falkland, 11 aircraft being wrecked. 16. The Prime Minister and her "War Cabinet" sanctioned one last attempt to reach a settlement through the U.N. Sea Harriers attacked two Argentine supply ships in small harbours in Falkland Sound. President Galtieri said Argentina would neither lower its flag nor raise the white flag in its confrontation with Britain. 17. As talks resumed at the U.N., the Prime Minister said if Argentina did not withdraw its troops "we will have to use force to get them out". In Luxembourg E.E.C. foreign ministers decided to extend economic sanctions against Argentina for only one week with Italy and Ireland dissociating themselves from the extension. 18. U.N. negotiations were halted for 24 hours at Argentina's request to give the junta more time to consider the British response. Whitehall sources disclosed that the night raid on Pebble Island on May 14 was carried out by 12 four-man S.A.S. teams. 19. A new Ministry of Defence radio station established in Ascension Island to broadcast to the Argentines on the Falklands, beamed its first programme. 20. Proposals made by Britain for a negotiated settlement through the U.N. were withdrawn and Mrs. Thatcher accused the junta of "obduracy and delay, deception and bad faith". Orders were given to the Task Force commander to step up military action after a message from the U.N. Secretary-General was received in London setting

out ideas which the Prime Minister intimated would not be acceptable. The insistence of Mr. Wedgwood Benn and his allies to force a vote in the Commons debate on the Falklands on a technical motion to adjourn the House at the end of the sixth debate on the crisis was deplored by Mr. Foot, Labour leader, at a meeting of the Parliamentary Labour party. In the vote, the Government's handling of the situation was endorsed by 296 votes to 33, with most Labour M.P.s abstaining although 31 and two Welsh Nationalists voted against. A Task Force Sea King helicopter was lost in appalling weather while trying to reach the Chilean naval base of Punta Arenas for an emergency landing, the Defence Ministry stated. The Government's detailed account of the diplomatic negotiations since Argentina invaded was published. 21. Mr. Nott, Defence Secretary, announced that following earlier raids British forces had established a firm bridgehead in the Falklands; Royal Marine Commandoes and the Parachute Regt. were ashore in substantial numbers with artillery, air defence weapons and other heavy equipment already disembarked from ships. Argentine forces had suffered casualties and some prisoners were taken. British ships had come under heavy air attack and five were damaged, two seriously. Argentina claimed direct hits on five British frigates and to have shot down one Sea Harrier and one helicopter. A Sea King helicopter crashed into the sea when transferring men between ships with the loss of 21 lives, nine men being rescued. 22. The Task Force commander received orders from Downing Street to retake all of the Islands and re-establish British control. The Ministry of Defence stated that Britain had some 5,000 troops on the Falklands and a firmly-established 10-square-mile bridgehead. The Type-21 frigate *H.M.S. Ardent* was sunk and there was damage to four other warships; two helicopters were lost and an R.A.F. Harrier listed as missing. Twenty-two crew members of *Ardent* were missing and about 30 injured. Argentina lost nine Mirage aircraft, five Skyhawks, two Pucaras, and four helicopters. Argentina admitted the British landing at San Carlos Bay but claimed efforts to secure a bridgehead were not succeeding. 23. Five Argentine Mirages and one Skyhawk were shot down in an attack on the British bridgehead and a further Mirage and two Skyhawks were believed to have been brought down. One frigate sustained some damage. In a separate incident, Harriers attacked Argentine helicopters in Falkland Sound; one exploded, a second crashed on fire, and a third was thought to be damaged. 24. Seven more Argentine warplanes were shot down during attacks on the ships of the Task Force in San Carlos Water, the Ministry of Defence stating some ships might have been damaged. It was reported that the

frigate *H.M.S. Antelope* had sunk in Falkland Sound when fire became uncontrollable after she was hit by a 500-lb. bomb which exploded when disposal experts attempted to defuse it, one crewman being killed and seven others injured, the remainder of the crew being transferred to other ships. Seven E.E.C. countries agreed in Brussels to continue economic sanctions against Argentina for an indefinite period, but Italy and Ireland refused to support any further boycott of sales. 25. A British ship was badly damaged during Argentine air attacks and there were fears that a second warship had been hit, the Defence Secretary (Mr. Nott) describing it as "bad news". Argentina claimed a British destroyer was sinking and that two frigates and a troop transport had been hit. Argentina asked the U.N. Security Council to call for a ceasefire and a resumption of negotiations under the Secretary-General. The Chilean Foreign Ministry said in Santiago that three men from a British Sea King helicopter discovered the previous week in southern Chile had been picked up. 26. Mr. Nott, Defence Secretary, confirmed the loss the previous day of the Type 42 destroyer *H.M.S. Coventry* and the merchant ship *Atlantic Conveyor* in Argentine air attacks, 20 men dying on the *Coventry* and four on the merchant ship. The U.N. Secretary-General began exploring with U.K. and Argentine representatives the possibility of negotiating a ceasefire after the Security Council instructed him to undertake a "a renewed mission of good offices". 27. Mrs. Thatcher told the Commons that men of the Task Force were moving forward from the San Carlos bridgehead. The Prime Minister accepted the New Zealand Government's offer to make the frigate *Canterbury* temporarily available to the Royal Navy because of the crisis. 28. The Defence Ministry announced that the 2nd Battalion Parachute Regt. had captured the East Falkland town of Port Darwin and the nearby Goose Green airstrip, some Argentinian prisoners being taken. Four Royal Marines and a Royal Engineer were killed and 20 troops wounded during air raids on the bridgehead on May 27. Replying to a request from the U.N. Secretary-General for precise terms on which Britain would stop fighting, Mrs. Thatcher repeated her demand that a ceasefire be "unequivocally linked" with Argentine withdrawal. Argentina claimed its troops had beaten back British ground forces advancing south from San Carlos and had the situation under control. 29. The 2nd Battalion Parachute Regt. which captured Goose Green took 1,400 Argentine prisoners, a Ministry of Defence spokesman said. The commanding officer of the Battalion, Lt.-Col. Herbert Jones, aged 42, was killed in the action. British casualties were 17 killed and 31 wounded. 30. Royal Marines advanced on the northern pincer route from

San Carlos towards Port Stanley after capturing Douglas Settlement and Teal Inlet. Two Argentine news agencies claimed the carrier *H.M.S. Invincible* had been bombed and hit by Exocet missiles but the Ministry of Defence denied that any ships had been hit by Argentine aircraft. 31. The Ministry of Defence confirmed that there had been clashes between British and Argentine forces in the Mount Kent area of the Islands and that the *Atlantic Conveyor*, hit by two Exocet missiles, had sunk.

June 1. British forces were firmly in control of Mount Kent. In another operation, an Argentine C-130 Hercules aircraft was shot down 50 miles north of Pebble Island. Latest estimates put Argentines killed in the retaking of Darwin and Goose Green at 250. 2. Mrs. Thatcher, declaring that she did not wish to humiliate Argentina, said the junta would be given 10 to 14 days to withdraw its troops should it so decide. Two Task Force Harriers attacking Port Stanley targets were damaged and forced to ditch, but both pilots were recovered safely. The U.N. Secretary-General reported at a private meeting of the Security Council that his contacts with London and Buenos Aires had failed to produce any formula to end hostilities. The British hospital ship *Hecla* arrived in Montevideo with British casualties and Argentine prisoners. 3. British planes dropped leaflets to Argentines in Port Stanley urging them to surrender. A British Vulcan bomber landed in Brazil after running short of fuel and on June 10 was given clearance to leave after being "totally disarmed". 4. The award of medals to five officers and men with six mentioned in dispatches for their conduct in the battle for South Georgia was announced. Britain, joined by the U.S.A., vetoed a resolution in the U.N. Security Council calling for an immediate ceasefire, nine members of the 17-member Council voting for the resolution sponsored by Panama and Spain with France, Guyana, Jordan and Togo abstaining. Later Mrs. Jean Kirkpatrick, U.S. Ambassador at the U.N., said the U.S.A. would like to change their vote from a veto to an abstention. Mrs. Thatcher met President Reagan for talks at the U.S. Embassy in Paris and stated that the U.S.A. was still firmly on Britain's side. 6. The Ministry of Defence stated that the elements of 5th Infantry Brigade, including the Guards and Gurkhas, had transferred from the *Q.E.2* to other ships and had disembarked on the Islands as reinforcements. One thousand Argentine prisoners of war began their journey home from Falkland Sound aboard a British ship. 7. Maj.-Gen. Jeremy Moore, Commander, British troops in the Falklands, was reported to have contacted Gen. Mario Menendez, Commander of the Argentine forces, and invited him to surrender because

of the hopeless position of his troops. British marines outflanked the Argentines north of Port Stanley and established strong positions on the mountains, and sea and land forces controlled and moved freely along the northern waters of East Falkland where large quantities of stores, guns, ammunition and men had been taken. The Defence Ministry announced that four British soldiers were killed on June 4 when a Gazelle helicopter crashed in an accident on East Falkland. 8. Three Task Force ships—the frigate *Plymouth* and the landing ships, *Sir Tristram* and *Sir Galahad*—were damaged by Argentine air attacks as British troops built up a new bridgehead south of Port Stanley. The Defence Ministry announced British forces were firmly established at Fitzroy settlement and Bluff Cove. Two Argentine aircraft were shot down, one other was possibly shot down, and at least four more damaged. In the Commons, Mrs. Thatcher rejected a call by Mr. Foot, Labour leader, for another attempt at seeking a diplomatic solution and declared the time had come to take by force what the Argentines had refused to give up through negotiations. 9. The Defence Ministry stated that men of the Task Force were killed and wounded when Argentine planes bombed the *Sir Galahad* and *Sir Tristram* landing ships as they unloaded supplies near Fitzroy settlement; five men were wounded in a separate attack on the frigate *Plymouth*; four of the attacking Argentine planes were shot down by two Sea Harriers, bringing the likely enemy air losses in two days to 11 aircraft. 10. Mr. Nott, the Defence Secretary, told the Commons that the Task Force's plans had not been prejudiced by Argentine's air attacks on the *Sir Galahad* and *Sir Tristram*. 11. The *Q.E.2* returned to Southampton from the South Atlantic with survivors of H.M. Ships *Coventry*, *Ardent*, and *Antelope* and made a rendezvous in Southampton Water with *Britannia* with the Queen Mother on board. 12. The Defence Secretary announced that shortly after dark on June 11 British troops surrounding Port Stanley carried out what the Commander-in-Chief, Admiral Fieldhouse, "has described as a brilliant surprise night attack on Argentine positions to the west of Port Stanley". By first light advances of up to five miles had been made and all objectives were taken, the enemy being largely asleep at the time. The Argentine junta admitted that British forces had launched "an important attack" from the Mount Kent area but claimed the advance had been contained as Argentine troops fell back two miles to prepared positions. In London, a one-minute silence was observed at the Queen's Birthday Parade on Horse Guards for all those serving in the South Atlantic. 13. Mr. Nott announced that British troops who overran the outer defences and captured high ground overlooking Port

Stanley took 400 prisoners in the nine-hour battle on June 11 and 12; the death toll in the attack on June 8 on British landing ships at Bluff Cove was fifty—43 troops and seven seamen—and 46 were wounded. The Defence Secretary said the destroyer *Glamorgan* was hit by enemy fire during the bombardment of Port Stanley on June 11 and nine crew were killed with 17 wounded. Britain agreed to Red Cross proposals for a safe area for Port Stanley residents to be set up; the Defence Ministry said there was "sadly some evidence" that Argentine reports of two civilians killed and four injured were true. 14. Mrs. Thatcher told cheering M.P.s that Argentine troops in Port Stanley were flying the white flag after British troops had stormed the town, that there was a ceasefire, and that talks were proceeding for the surrender by the Argentines of both East and West Falkland. The Prime Minister in an emergency statement shortly before 10.15 p.m. told the Commons that the Argentines retreated after successful attacks the previous night and large numbers of their soldiers threw down their weapons. Talks were in progress between Gen. Menendez (the Argentine commander) and the British deputy commander (Brig. Waters) about the surrender. A Defence Ministry spokesman said British troops were now totally in control around Port Stanley. 15. At 3.12 a.m., the Defence Ministry received a message from Maj.-Gen. Jeremy Moore, Commander, Land Forces, stating: "In Port Stanley at 9 o'clock p.m. Falkland Islands time tonight 14 June 1982, Gen. Menendez surrendered to me all the Argentine Armed Forces in East and West Falklands together with their impedimenta. The Falkland Islands are once more under the government desired by their inhabitants." In the Commons, Mrs. Thatcher described the operation as "boldly planned, bravely executed and brilliantly accomplished". The Queen's Press Secretary said that Her Majesty was "delighted and relieved" at the news but saddened at the tragic losses. The Government sent a message to the Argentine junta asking it to confirm that it regarded hostilities in the South Atlantic as ended. It was estimated there were about 15,000 Argentine prisoners, about 5,000 more than expected. Mrs. Thatcher said the recapture of the Islands had cost the lives of some 250 British servicemen and civilians; she made it clear that she was not prepared to negotiate over Argentina's claim to sovereignty. In Buenos Aires police charged a crowd chanting anti-government slogans and President Galtieri addressed the nation on radio. 16. Rear-Admiral Woodward, commander of the Task Force, reported to London that he faced "a major disaster relief problem" in providing for the prisoners. Maj.-Gen. Moore put the number of prisoners at about 9,200 as against the 14,000 men Gen. Menendez

said he commanded. The Defence Ministry's latest estimate of the number of enemy aircraft destroyed by the Task Force was over 100; British losses in action were six Harriers and three Army helicopters brought down by fire from the ground; accidents in adverse operating conditions increased Task Force losses to 20, including three more Harriers and eight helicopters. 17. President Galtieri of Argentina was ousted and Gen. Alfredo Saint Jean was appointed interim President. The Armed Forces Minister (Mr. Peter Blaker) stated in a Commons written answer that the number of British servicemen and associated civilians killed in the actions to re-take the Falklands stood at 255. 18. The Argentine junta called for U.N. talks on the Falklands and said there could be a full cessation of hostilities only when Britain withdrew its troops from the Islands, lifted its blockade and ended economic sanctions. After their government gave the ships safe passage to Puerto Madryn, 6,200 Argentine prisoners sailed from Port Stanley in the liner *Canberra* and the ferry *Norland*. Prince Andrew, a helicopter pilot with the *Invincible*, flew to Port Stanley and told the Falkland Islanders "The Queen is proud of you". The Queen sent her congratulations to the men who won back the Falklands in a message to Admiral Sir John Fieldhouse, Commander-in-Chief, Fleet. 19. Helicopter-borne British troops surrounded an Argentine weather station in the Thule group in the British-owned South Sandwich Islands, the Argentine Foreign Ministry announced; on June 20, the Defence Ministry in London confirmed that the so-called "scientific base" surrendered to British forces and all the Argentines on the island were servicemen. 20. Common Market countries decided in Luxembourg to end their economic sanctions against Argentina. 22. The number of prisoners Britain would retain until there was a clear indication that Argentine accepted that hostilities had ended was stated to be between 500 and 600, all officers and specialist troops. 24. The landing ship *Sir Galahad*, crippled in a bombing raid off Fitzroy Settlement, was towed out to sea and sunk as a war grave. 25. Mr. Rex Hunt, the Governor, returned to Port Stanley in the role of Civil Commissioner. 29. Mr. Nott, Defence Secretary, told the Commons that preliminary figures for the cost of the Falklands campaign was about £500 million for the year 1982/83, £250 million in each of the two following years, and lesser amounts thereafter.

July 1. The Defence Secretary announced in a Commons defence debate his plans to replace all the ships and aircraft lost in the Falklands and a major programme to strengthen the country's defence capability. 2. Rear-Admiral Derek Reffell was appointed Naval Task Group Commander in the South

Atlantic in succession to Rear-Admiral John Woodward; Maj-Gen. David Thorne was appointed to succeed Maj-Gen. Jeremy Moore as Commander, British Forces Falkland Islands. Mr. Peter Blaker, Minister of State, Defence, stated in a Commons written reply, that the number of Argentine officers of field rank and above held prisoner was estimated to be 115. In his first television address to the nation, Gen. Bignone, the new President, said Argentina would never give up its claim to the Falklands, South Georgia and the South Sandwich Islands. 3. The nuclear powered submarine *Conqueror* returned to base on the Clyde. 4. Rear-Admiral John Woodward, commander of the Task Force, flew back to Britain and said the victory was a "fantastic success story" achieved under the most difficult conditions. 6. Mr. Blaker, Minister of State, Defence, in a Commons written reply, stated a total of 255 Task Force members were killed or were missing presumed dead and 777 were wounded, the figures excluding the three civilians in Port Stanley who died in the battle preceding the surrender; there were no authoritative figures for Argentinian casualties. The Prime Minister told M.P.s in a Commons written reply that the inquiry into the Falklands invasion would be chaired by Lords Franks. In Buenos Aires, Dr. Juan Aguirre Lanari, Argentine's new Foreign Secretary, stated there was a "de facto" cessation of hostilities in the Falklands but Argentina would never desist from its claim to sovereignty over the Islands. The first of a series of flights bringing home nearly 700 members of the Parachute Regt. arrived at R.A.F. Brize Norton and was welcomed by the Prince of Wales. 8. Mrs. Thatcher announced in the Commons that the Queen had approved the award of a campaign medal for operations in the South Atlantic. Flt.-Lt. Jeffrey Glover, a R.A.F. Harrier pilot held prisoner by the Argentines, was handed over to British Embassy officials in Montevideo and on July 10 returned to London. It was announced that the bodies of servicemen who died in the Falklands and had been given temporary burial would be brought back to Britain for final burial if their next of kin wished. 11. *Canberra* received a jubilant welcome when she reached Southampton with Royal Marines on board and was greeted by the Prince of Wales. 12. It was announced that Britain was satisfied that active hostilities were over and would repatriate the remaining 593 Argentine prisoners as soon as possible but that the total exclusion zone remained in force for the time being along with economic sanctions. President Reagan lifted U.S. economic sanctions against Argentina. 13. The Royal Navy's two assault ships, *Fearless* and *Intrepid*, returned with troops to Plymouth and were welcomed by the Duke of Edinburgh. At Yeovilton, Somerset, cap-

tured Argentine helicopters with Royal Navy crews at the controls landed at the Fleet Air Arm base, leading 846 Squadron's Sea King helicopters back from the South Atlantic. 19. Maj.-Gen. Jeremy Moore, commander of British Land Forces, arrived back at R.A.F. Brize Norton and was officially welcomed by Rear-Admiral Woodward. A victory fly-past at Yeovilton, Somerset, marked the return of six Sea Harriers from duty with the Task Force. 21. The aircraft carrier *H.M.S. Hermes* returned to Portsmouth to a tumultuous welcome. 22. Britain lifted the total exclusion zone around the Falklands but warned the Argentine Government to keep its warships and military aircraft from coming within 150 miles of their shores. 26. The Falkland Islands Service was held in St. Paul's Cathedral. The Prime Minister gave an assurance that the Government was determined to do all it could to improve the living conditions of servicemen in the Falklands. 27. The trustees announced that widows of men killed during the campaign were to receive an immediate payment of at least £10,000 each from the South Atlantic Fund with an extra £1,000 for every child whose father died during the

fighting. 29. Mrs. Thatcher, in a Commons written answer, said the Government reserved the right to claim compensation from Argentina for damage and loss of life stemming from the invasion. The Prince of Wales as Colonel of the Welsh Guards welcomed home men of the 1st Battalion at R.A.F. Brize Norton. 30. Mrs. Thatcher announced there would be a victory parade with a march past and salute at Mansion House.

Aug. 1. Guardsman Philip Williams, aged 18, of the Scots Guards, walked into a settlement at Bluff Cove nearly seven weeks after he had been presumed killed. 5. The Defence Ministry's interim report on weapon performance in the conflict was published. 9. The liner *Uganda* returned to Southampton and a rapturous welcome. 20. The ice patrol ship *Endurance* returned home to Chatham, being welcomed by thousands. 23. In a letter to the U.N. Security Council, Sir John Thomson, Britain's U.N. Ambassador, described Argentina's call to reopen talks on the Falklands as "quite unrealistic". 28. The new aircraft carrier, *Illustrious*, joined the naval force in the South Atlantic.

### THE PAPAL VISIT

The six-day visit of John Paul II, which began on May 28, 1982, was the first ever by a Pope to Britain. John Paul, being the youngest Pope in the twentieth century, and, as a Pole, the first non-Italian for half a millenium, was both able and anxious to embark on an ambitious programme of visits throughout the world. In the four years following his election in 1978, he travelled to Africa and Asia as well as various European countries. This programme has been continued despite two assassination attempts. As a prelude to the visit, in January 1982, Britain's representation at the Vatican was raised to full Embassy status, the first ambassador being Sir Mark Heath and the first Papal ambassador to the United Kingdom, being Archbishop Bruno Heim.

Some Protestant antagonism to the Pope's visit had been but one of the difficulties with which the organisers had had to contend. Others, like concern over that constant British variable, the weather, fortunately proved groundless—the sun shone almost continuously during the tour. Another problem, that of paying for the visit, proved to be starker than anticipated. The cost of the arrangements has been variously estimated, but the most common quoted figure is £6m. The four "Popemobiles" in which the Pope could stand in a large bullet-proof bubble in the back of a vehicle had alone cost £200,000. The Church had chosen to recoup a large amount of the expenditure by co-ordinating associated commercial activity, particularly the sale of souvenirs, through a franchise system. Financial expectations were, however, not realised primarily because numbers attending the various events were less than budgeted-for, albeit that there were, for example, 200,000 people at Heaton Park, Manchester and 80,000 at Wembley. The greatest difficulty had, however, been the Falklands conflict, which overshadowed all preparations for the visit. Indeed the prospect of cancellation had, for a time, been a real one. The Pope's determination that his visit should not be construed as partisan was manifest in his constant calls for peace whilst he was in Britain, his mass for peace held in Rome before the visit and by his hastily-arranged two-day visit to Argentina beginning on 10th June.

The Pope's plane landed at Gatwick Airport early on the morning of Friday 28th May. Having descended the steps His Holiness symbolically kissed the ground just as he was to do on arriving in Scotland and Wales. Thence he travelled to Westminster Cathedral to celebrate Mass and visited

Buckingham Palace in the afternoon for a 35-minute audience with the Queen. On the Saturday, he went to Canterbury, for an ecumenical service in the Cathedral, preceded by a short talk with the Prince of Wales in the Deanery library. The service was attended by 2,500 people and the symbolism of unity was powerfully expressed. Archbishop Runcie welcomed the Pope with words repeated by the congregation: "Your Holiness, Blessed Brother in Christ, in the name of the Lord we greet you". Both the Pope and the Archbishop prayed before the shrine of Becket, His Holiness being presented with a portrait of the martyr and a copy of T. S. Eliot's *Murder in the Cathedral*.

The Pope was subsequently conveyed to Wembley Stadium for an open-air Mass conducted from a huge podium. The rapturous greeting by 80,000 people reflected the warm welcome he had been given at Canterbury, and, also yet earlier in the day, at Roehampton, where the audience had been 4,000 nuns, priests and monks, some from closed orders. Sunday began with a call on 24,000 expatriate Poles assembled at the Crystal Palace sports centre. Thereafter another open-air Mass, this time at Coventry Airport, a flight to, and rally at, Speke Airport, Liverpool, a motorcade into the city, a visit to the Anglican Cathedral and a Mass at the Roman Catholic Cathedral.

On the Monday, the North West was the venue for another huge Mass at Heaton Park, Manchester. The Pope's wish to reach beyond the Catholic community was reflected on that day as well when he met the Chief Rabbi. An afternoon rally at York racecourse preceded the Pope's departure from England and arrival in Scotland, at Edinburgh. There also he met leaders of the Jewish, Protestant and Moslem communities. However, it was perhaps his reception by 40,000 young people in Murrayfield Stadium that provided one of the most moving highlights of the whole visit, as his words and presence excited almost continuous chanting. On Tuesday, it was the turn of Glasgow with an open-air Mass at Bellahouston Park and visits to a Catholic hospital for the mentally ill and a Catholic teacher training college.

The final day, Wednesday 2nd June, was spent in Wales with a Mass at Pontcanna Fields, a youth rally at Ninian Park, Cardiff and a motorcade to Cardiff airport whence the Pope flew back to Rome having wished his hosts goodbye in their native Welsh.

## BROADCASTING

### BRITISH BROADCASTING CORPORATION

(see also entry on pages 376-77)

#### Radio

This includes four complementary BBC services: Radio 1 (the 'pop' network), Radio 2 (light music and sport), Radio 3 (serious music plus programmes reflecting the arts, including poetry and drama), and Radio 4 (mainly news and other speech programmes).

**Radio 1:** Transmits Monday - Friday from 7 a.m. to midnight, then joins Radio 2 until 7 a.m.; Saturdays 7 a.m. to 7.30 p.m., then joins Radio 2 until 8 a.m.; Sundays 8 a.m. until 10 p.m. then joins Radio 2 until 7 a.m. Wavelengths: 1053 kHz/285m and 1089 kHz/275m, in Bournemouth 1485 kHz/202m.

**Radio 2:** Transmits 24 hours a day. Wavelengths: 693 kHz/433m and 909 kHz/330m.

**Radio 3:** Transmits Monday to Friday 6.55 a.m. to 11.15 p.m.; Saturday and Sunday 7.55 a.m. to 11.15 p.m. Wavelengths: 1215 kHz/247m, in Bournemouth, Cambridge and Torquay 1197 kHz/251m.

**Radio 4:** Transmits daily from 6.00 a.m. to midnight (Saturday and Sunday 6.25 a.m. to midnight). Wavelengths: 200 kHz/1500m with these additional services: Aberdeen 1499 kHz/207m; Carlisle 1485 kHz/202m; Tyneside 603 kHz/498m; Northern Ireland and Central London 720 kHz/417m; Barnstaple 801 kHz/375m; Exeter 990 kHz/303m; Plymouth 855 kHz/351m; Redruth 756 kHz/397m; Torbay 1458 kHz/206m.

**VHF Transmissions:** Radio 2, 3 and 4 are available on VHF (88.00-97.6 MHz) to more than 99 per cent of the population of the United Kingdom. Radio 1 is available on Radio 2 VHF network at certain times.

**Local Broadcasting:** Twenty-five stations were in operation in the U.K. by June 30, 1982 (see below).

#### Television

The BBC's experiments in television broadcasting started in 1929 and in 1936 the BBC began the world's first public service of high-definition television from Alexandra Palace.

**BBC 1**, or the equivalent service in Wales, Scotland and Northern Ireland on 405 lines are at present transmitted from one hundred and ten stations and one programme or the other is available to virtually the whole population of the United Kingdom, using channels 1-13 in bands 1 and 111.

**BBC 2**, which started in April 1964, was the first service in the U.K. to use 625 lines and is transmitted in the UHF Bands IV and V. Colour was introduced in July 1967.

625 line versions of the long-established 405 line services of BBC 1 and ITV began, in the same UHF Bands as BBC 2, in November 1969. The 625 line UHF colour transmissions are radiated from over 1,000 stations throughout the U.K., and are available to over 98.8 per cent of the population. The VHF 405 transmissions will be discontinued by 1986.

#### External Services

The External Services broadcast over 700 hours of programmes a week in 37 languages including English on the BBC World Service. 79 transmitters are used, 47 of them in the U.K. and 32 at relay stations overseas. In addition the External Services supply many recorded programmes to other radio stations.

**World Service**, which is on the air in English for 24 hours a day, directed to all parts of the world, and with additional streams of programmes specially

designated for audiences in Africa and South Asia at appropriate peak listening times.

**African Service**, which broadcasts in Swahili, Somali and Hausa.

**Arabic Service**, on the air for 9 hours a day to Middle East and North Africa.

**Eastern Service**, which broadcasts in Bengali, Burmese, Hindi, Nepali, Persian, Tamil and Urdu.

**Far Eastern Service**, in Chinese (Cantonese and Standard Chinese), Indonesian, Japanese, Malay, Thai and Vietnamese.

**Latin American Service**, in Spanish and Portuguese.

**Overseas Regional Service**, provides programmes on tape, via cable link or satellite and by direct radio transmissions to radio stations in many parts of the world.

**French Service**, directed to Europe and Africa.

**German Service**, directed to West and East Germany and Austria.

**Central European Service**, in Czech and Slovak, Hungarian, Polish and Finnish.

**East European Service**, in Bulgarian, Romanian, Russian, Serbo-Croat and Slovene.

**South European Service**, in Greek, Portuguese, and Turkish.

BBC's English by Radio and Television service is the largest English-teaching "laboratory" in the world.

## THE NATIONAL DEBT

Net central government borrowing each year represents an addition to the National Debt. At the end of March 1980 the National Debt amounted to some £96,000 million of which nearly £4,000 million was in currencies other than sterling. Of the £92,000 million sterling debt, nearly £71,000 million consisted

of gilt-edged stock; of this, 34 per cent had a maturity of up to five years, 24 per cent a maturity of over five years and up to 15 years and 42 per cent a maturity of over 15 years or undated. The remaining sterling debt was made up mainly of Treasury bills and national savings securities.

## ORGANIZATION OF PETROLEUM EXPORTING COUNTRIES (O.P.E.C.)

The Organization was set up in 1960 to represent oil exporting countries with the aims of unifying and co-ordinating members' policies and to advance their interests. Membership in 1980 was as follows:

Algeria, Ecuador, Gabon, Indonesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates, and Venezuela. The Organization's headquarters is in Vienna, Austria.

## THE UNITED KINGDOM

Area.—The land area of the United Kingdom\* (England, Wales, Scotland and N. Ireland) is 93,051 sq. miles. The area of inland water in the United Kingdom is 1,196 sq. miles. Total 94,247 sq. miles.

NOTES.—1. Before 1801 there existed no official return of the population of either England or Scotland. Estimates of the population of England at various periods, calculated from the number of baptisms, burials and marriages, are: in 1570, 4,160,221; 1600, 4,811,718; 1630, 5,600,517; 1670, 5,773,646; 1700, 6,045,008; 1750, 6,517,035.

2. The last official Census of Population in respect of England and Wales, Scotland, Northern Ireland, the Isle of Man and Guernsey, was taken on the night of April 5, 1981, but preliminary totals only are available at the time of going to press.

3. † All figures refer to the area which is now Northern Ireland. Figures for N. Ireland in 1921 and 1931 are estimates based on the Censuses held in 1926 and 1937.

ISLANDS.—The figures given above do not include islands of the British seas. Populations of these islands at census years since 1900 were:—

‡ 1976 Census.

## INCREASE OF THE PEOPLE, ETC.

In Great Britain 6.3 per cent of the usually resident population was born outside the United Kingdom, and in England and Wales this figure was 6.6 per cent. Some 4.5 per cent of the population of England and Wales lived in households whose head was born in the New Commonwealth or Pakistan. Britain's total population is expected, on 1979 estimates, to be 56.4 million in 1986, 58.4 million in 2001 and 60 million in 2018. Annual births have fallen by some 30 per cent since the mid-1960s, but recent information suggests that this may be coming to an end. The

number of live births in 1980 was 754,000 (compared with 980,000 in 1966), of which about 11 per cent were illegitimate.

Although the total population has remained relatively stable in the last decade there have been changes in the age and sex structure. The proportion of people under 16 has declined to about 23 per cent, while the proportion of elderly people, especially those aged 85 and over, has increased to about 18 per cent. There are about 6 per cent more male than female births every year, but the higher mortality of men at all ages, means there are nearly 106 females to every 100 men.

## LOCAL GOVERNMENT IN ENGLAND AND WALES

The Local Government Act, 1972 provided for the reorganisation of local government in England (outside Greater London whose local government was reorganised in 1965) and Wales. On April 1, 1974 the former county, county borough, and county district councils were abolished. Two tiers of new local authorities, county and district councils, covering metropolitan and non-metropolitan counties and districts, replaced them.

### Structures and Areas in England

Six *metropolitan counties* cover the main conurbations outside Greater London: Tyne and Wear, West Midlands, Merseyside, Greater Manchester, West Yorkshire and South Yorkshire. They range in population from 1,152,400 (Tyne and Wear) to 2,686,700 (West Midlands). Each metropolitan county extends to the edge of the general continuously built-up area of the conurbation. Thus each of the major conurbations outside London now has one local authority to administer strategic functions over the whole conurbation.

The six metropolitan counties are divided into 36 *metropolitan districts*. These range in population from 164,101 (South Tyneside) to 1,006,527 (Birmingham). Most of them have a population of over 200,000 and most include a former county borough. They form compact areas.

There are 39 *non-metropolitan counties* ranging in population from 115,400 (Isle of Wight) and 296,000 (Northumberland) to 1,482,600 (Essex). These counties have generally been formed by combining former administrative counties and associated county boroughs, i.e. they are based on geographical counties. There are, however, three completely new non-metropolitan counties: Avon, Cleveland, and Humberside. Some former counties have been merged to form Cumbria (Cumberland, Westmorland and the Furness area of Lancashire); Hereford and Worcester; Cambridgeshire (Huntingdon and Peterborough and Cambridgeshire and Isle of Ely); and Leicestershire (Leicestershire and Rutland). Smaller boundary adjustments have been made between, e.g., Berkshire and Oxfordshire, Buckinghamshire and Berkshire, and Hampshire and Dorset.

Each of the non-metropolitan counties is divided into *non-metropolitan districts*, of which there are 296. These districts have been formed generally by the amalgamation of former county districts to cover areas with populations broadly between 60,000 and 100,000. About one third of the non-metropolitan districts, however, have populations above this range because of the need to avoid dividing large towns. Some districts, mainly in sparsely populated areas, have populations below 60,000 though only 10 have populations below 40,000 (as compared with three quarters of the 1,210 former authorities).

Permanent Local Government Boundary Commissions for England and Wales have been set up to keep the areas and electoral arrangements of the new local authorities under review.

### Constitution and Elections

The new county and district councils consist of directly elected councillors. The broad range of sizes of councils are: county councils 60-100 members; metropolitan district councils 50-80 members; non-metropolitan district councils 30-60 members. The councillors elect annually one of their number as chairman. There are no aldermen under the new system, though councils may give past councillors

the title "honorary alderman". The title carries no right to sit on the council.

The general pattern in England is that councillors serve 4 years and there are no elections of district and parish councillors in county elections year. All new authorities were elected *en bloc* in 1973 (as "shadow" authorities until they took on their functions on April 1, 1974). All county councils were elected together in 1977 and every four years thereafter (i.e. 1981, 1985, etc.). In metropolitan districts one-third of the councillors for each ward are elected each year except in the year of county elections. Non-metropolitan districts can choose whether to have elections by thirds or whole council elections. In the former case, one-third of the council, as nearly as may be, is elected in each year of metropolitan district elections. If they choose whole council elections these are held in the mid-year of the county cycle (i.e. 1979, 1983, etc.). Local elections are normally held on the first Thursday in May.

*Greater London* (see below) was not affected by reorganisation. Elections to local authorities in Greater London, however, have been brought into line with the rest of England so that the normal term of office for councillors on the G.L.C. and the London Borough Councils is now four years instead of three. Greater London Council elections took place in the same year as county council elections in 1977 and will take place every fourth year thereafter. Aldermen ceased to sit as members of the G.L.C. after the 1977 elections and as members of London Borough Councils after the 1978 elections.

### Internal Organisation and Local Government Services in England

The council are the final decision making body within any authority. They are free to a great extent to make their own internal organisational arrangements. Normally questions of major policy are settled by the full council, while the administration of the various services is the responsibility of committees of members. Day to day decisions are delegated to the council's officers, who act within the policies laid down by the members.

Many councils have set up corporate management teams of the Chief Executive and chief officers. Such teams consider the operations of their authority as a whole, rather than dealing with each service separately, as was often the case in the past.

Local authorities are empowered or required by various Acts of Parliament to carry out functions in their areas. The legislation concerned comprises public general Acts and "local" Acts which local authorities have promoted as private bills. Functions are divided everywhere between two tiers of authorities, though their allocation within the metropolitan areas is somewhat different from outside, the metropolitan district councils exercising more functions than the non-metropolitan district councils.

Responsibility for the main local government functions is allocated as follows (though responsible authorities may involve other authorities in the provision of certain of their services through agency arrangements):

*County councils:* Strategic planning (e.g. structure plans; major projects); traffic, transport and highways; police; fire service; consumer protection (other than hygiene); refuse disposal; smallholdings.

*Non-metropolitan county and metropolitan district councils:* Education; social services; libraries.

*District Councils:* Local planning; housing; highways (maintenance of certain urban roads and off-street car parks); building regulations; environ-

mental health; refuse collection; cemeteries and crematoria.

*Concurrent* (county and district councils); Recreation (e.g. parks, playing fields, swimming pools); museums; encouragement of the arts.

The sewerage and sewage disposal functions of local authorities have been transferred to 9 new water authorities in England and the Welsh Water Authority. Water authorities, however, are expected to make agreements whereby the new district councils discharge sewerage functions on an agency basis. Apart from these functions, the water authorities are responsible for water supply and conservation; river pollution control and river management; fisheries; land drainage; and use of water space for recreation and amenity purposes.

The personal health functions of local authorities were transferred in 1977 to area health authorities, whose areas were the same as non-metropolitan and Welsh counties and metropolitan districts. From April 1982 this two-tier structure will be replaced by about 199 District Health Authorities. They will work in close collaboration with local education, social services and environment health authorities.

*London.*—The Greater London Area embraces the old counties of London and Middlesex (except Potters Bar, Staines and Sunbury-on-Thames) and parts of the neighbouring counties of Essex, Herts., Kent and Surrey and the whole of the county boroughs of Croydon, East Ham and West Ham.

For those functions which need to be considered for the whole of the Area, the Greater London Council is responsible; such functions as traffic, major roads and overall planning. All other matters are the concern of the 32 London borough councils; the City of London, besides retaining its previous functions, has the powers of a London borough.

### Parishes

The rural parishes in England have not, in general, been affected by local government reorganisation except that the powers of parish councils have been extended and a few of them have been divided by the boundaries of new counties and districts. 300 former small borough and urban district councils have become parish councils with the same powers as other parish councils.

Parishes with 200 or more electors must generally have parish councils, and about three-quarters of the parishes have councils. A parish council comprises at least 5 members, the number being fixed by the district council. All parishes have parish meetings, comprising the electors of the parish.

Parish council functions include: allotments; arts and crafts; community halls, recreational facilities (e.g. open spaces, swimming pools), cemeteries and crematoria; and many minor functions. They must also be given an opportunity to comment on planning applications. They may, like county and district councils, spend up to a 2p rate for the general benefit of the parish. They precept on the district councils for their rate funds. In general, parish councils are elected every four years, in the year in which the local district councillor is elected.

### Civic dignities

District councils may petition for a royal charter granting borough status to the district. In boroughs the chairman of the council is the mayor. The status "city" and the right to call the mayor "Lord Mayor" may also be granted by letters patent. Parish councils may call themselves "town councils", in which case their chairman is the "town mayor".

Charter trustees are established for those former boroughs which are too large to have parish councils and are situated in districts without city or borough

status. The charter trustees are the district councillors representing the former borough and they elect a mayor, continue civic tradition, and look after the charters, insignia and civic plate of the former borough.

### Local Government Elections

Generally speaking, all British subjects or citizens of the Republic of Ireland of 18 years or over, resident on the qualifying date in the area for which the election is being held are entitled to vote at local government elections. A register of electors is prepared and published annually by local electoral registration officers.

A returning officer has the overall responsibility for an election. Voting takes place at polling stations, arranged by the local authority and under the supervision of a presiding officer specially appointed for the purpose. Candidates, who are subject to various statutory qualifications and disqualifications designed to secure that they are suitable persons to hold office, must be nominated by electors for the electoral area concerned.

### Local Commissioners for England and Wales

There exist Local Commissioners for England and Wales whose duty it is to investigate complaints of maladministration in many aspects of local government.

### Wales

Wales, including the former Monmouthshire, has been divided into eight counties; Gwynedd; Clwyd; Powys; Dyfed; West, Mid and South Glamorgan; and Gwent. They range in population from 111,100 (Powys) to 539,400 (Mid-Glamorgan). There are 37 new districts in Wales, many of those in the less populated parts reflecting the areas of former Welsh counties. Their populations range from 20,898 (Radnor) to 278,900 (Cardiff).

The arrangements for Welsh counties and districts are generally similar to those for English non-metropolitan counties and districts. There are some differences in functions: Welsh district councils have refuse disposal as well as refuse collection functions and they may provide on-street as well as off-street car parks with the consent of the county council. A few districts have also been designated as library authorities.

In Wales parishes have been replaced by communities. Unlike England, where many areas are not in any parish, communities have been established for the whole of Wales; there is one for each former Welsh parish, county borough, borough or urban district (or part where the former area is divided by a new boundary). Community meetings may be convened as and when desired. Community councils already exist where there were formerly parish councils, and also in nearly all the former boroughs and urban districts, and further councils may be established at the request of the community meeting. Community councils have broadly the same range of powers as English parish councils. Community councillors are elected *en bloc* on the same basis as parish councillors in England, i.e. at the same time as a district council election and for a term of four years.

### Local Government Finance

Local government is financed from various sources.

(1) *Rates.*—Levied by district councils and in London by the City Corporation and the London boroughs. Sums required by the Greater London Council, by county councils and parish or community councils are included in the rates levied by London

boroughs and district councils. Rates are levied by a poundage tax on the rateable value of property in the area of the rating authority. Under the General Rate Act, 1967, rating authorities are required to charge a lower rate in the pound on dwellings than on property generally in their area. Differentials of 18½p for England and 36p for Wales were prescribed for 1975-76, 1976-77, 1977-78, 1978-79, 1979-80, 1980-81 and 1981-82. A differential of 18½p for both England and Wales was prescribed for 1982-83. Rental values are annual rental values, on certain statutory assumptions, determined as at the date of the current valuation lists. The current valuation lists, prepared by valuation officers of the Board of Inland Revenue, came into force on April 1, 1973. New property is added to the list and significant changes to existing property necessitate amendments to the rateable value. The lists remain in force until the next general revaluation. Certain types of property are exempt from rates, e.g. agricultural land and buildings, and places of public religious worship. Some charities and other non-profit making organizations can receive partial exemption. Under the General Rate Act, 1967, as amended by the Local Government Act, 1974, local authorities can resolve to rate specified classes of empty property by an amount up to 100 per cent of the full rates, subject to a maximum of 50 per cent on non-domestic properties from 1 April 1981. The Local Government Act, 1974, also makes provision for rate rebates for domestic ratepayers occupying property with rateable values of less than £1,500 in London or £750 elsewhere, eligibility depending on income and family circumstances. The Rating (Disabled Persons) Act 1978 provides rate relief in respect of certain facilities needed by disabled persons.

(2) *Government Grants.*—In addition to specific Government grants in aid of revenue expenditure on particular services, from April 1, 1981 grants known as rate support grants are payable to local authorities under the provisions of Part VI of the Local Government, Planning and Land Act, 1980. These grants, which replace the block grants previously paid under the Local Government Act, 1974, consist of two elements: block grant and domestic rate relief grant. The block grant, which is a single grant payment, replaces the needs and resources element under the previous system, and is payable to non-metropolitan counties and districts, metropolitan districts, London boroughs, the City of London, and the Isles of Scilly. The block grant is intended to enable all authorities to provide comparable standards of service at the same poundage cost to local ratepayers. The domestic rate relief grant, like the previous domestic element, is payable to all rating authorities to reimburse them for the cost of giving the domestic rate relief prescribed for the year.

In order to arrive at the total amount of the rate support grants to local authorities in England for any year (the new grant system provides for Wales to be administered separately), the aggregate of Exchequer grants to local authorities in respect of their relevant expenditure for the year is determined in advance (housing subsidies and specific grants towards expenditure on rate rebates and mandatory awards to students and trainee teachers are outside this aggregate amount) and from this is deducted the estimated amount of specific grants for the year in aid of revenue expenditure and the supplementary grants for transport purposes and in connection with national parks; the resulting balance is the amount of rate support grant. This amount can be subsequently increased if there is a substantial increase in the relevant expenditure of local authorities due to an increase in the level of prices, costs or remuneration, or because later legislation has created new areas of expenditure.

Forecasts of local authority relevant expenditure for 1982-83 in England adopted by the Government for rate support grant purposes were as follows. The amounts given are at 1982-83 cash prices.

The aggregate amount of Exchequer grants for 1982-83 was determined at £11,484 million, being 56.1 per cent of the estimated relevant expenditure. Of this, the specific revenue grants and the Transport and National Parks Supplementary grants were estimated at £2,124 million, giving a total for rate support grants of £9,360 million, of which £8,682 million was in respect of the block grant and £678 million the domestic rate relief grant.

*Rates and Rateable Values.*—The total rateable value for England and Wales on April 1, 1981 was £7,441,233,000. The latest estimate of the amount to be raised in rates (net of rate rebates) in 1981-82 is £9,500,000,000.

*Average Rates.*—The estimated average rates levied in England in 1982-83 were: Inner London Boroughs, domestic rate 149.87p, non-domestic rate 157.78p; Outer London, 135.48p and 156.08p; Metropolitan Districts, 166.25p and 187.72p; Non-Metropolitan Districts, 132.09p and 152.96p. In Wales the estimated average rates levied were, domestic rate 148.93p, non-domestic rate 167.36p. The average rates levied in England were estimated as 140.85p (domestic) and 161.16p (non-domestic).

## SCOTLAND

Under the new structure of local government, which in terms of the Local Government (Scotland) Act, 1973, came into operation on May 16, 1975, Scotland is divided into 9 regions, and 3 islands areas covering respectively Orkney, Shetland and the Western Isles. Within the regions there is a second independent tier of 53 districts.

*Functions.*—Regional and district councils have separate responsibility for specific functions. In addition, at present they share responsibility for specific functions such as leisure and recreation, and tourism. However, on the implementation of the Local Government and Planning (Scotland) Act 1982, most of these concurrent functions will be allocated specifically to one tier. Islands councils are most-purpose authorities and are each responsible in their areas for the functions (except police, fire and

valuation) which are the separate or concurrent responsibility of regions and districts.

**Regional Functions.**—The regional authorities are responsible for strategic planning for the provision of infrastructure such as roads, water and sewerage, for flood prevention, coast protection, and for certain public transport services. They also carry out among others the education, social work and consumer protection functions and have responsibility for police, fire and civil defence.

**District Functions.**—The district authorities deal with more local matters such as local planning; development control; building control; housing; environmental health including cleansing, refuse collection and disposal, food hygiene, inspection of shops, offices and factories, clean air, markets and slaughterhouses, burial and cremation; licensing, including liquor, cinemas and theatres, betting and gaming, taxis, house to house collections.

**Community Councils.**—Provision is also made in the Act for setting up community councils under schemes prepared by each district and islands authority. Such councils are not local authorities but have a statutory base. They have no statutory functions but are expected to take such action in the community as appears to their members to be desirable and practicable.

**Local Government Electors.**—In October 1981 there were 3,913,510 electors in Scotland. Elections are next due to take place in 1984 for district councils and in 1986 for region and island councils.

**Rates and Rateable Values.**—In 1978–79\*, the latest year for which final figures were available, a total of £621,587,000 was received from the general rates of local government in Scotland and £27,431,000 from domestic water rates. The rateable value on which rates were leviable was £1,154,609,000 on the general rates and £547,466,000 on the domestic water rates. The average general rate levied was 54p and the domestic water rate levied was 5p.

from general rates of £1,321,079,000 and £53,910,000 from domestic water rates. The rateable value leviable for 1981–82 was £1,215,259,000 (general) and £616,581,000 (domestic water rate). The average rate per £ levied for 1981–82 was 108.5p (general) and 8.5p (domestic rates).

## NORTHERN IRELAND

For the purpose of local government Northern Ireland has a system of 26 single-tier district councils. There are 526 members of the councils, elected for periods of four years at a time on the principle of proportional representation.

The district councils all have the same three main roles. These are:

- (a) a direct role in which the councils are responsible for a wide range of local services including the provision of recreational, social, community, and cultural facilities; environmental health; consumer protection; the enforcement of building regulations; the promotion of tourist development schemes; gas supply; street cleansing; refuse collection and disposal; litter prevention; and miscellaneous licensing and registration provisions;
- (b) a representative role in which they nominate representatives to sit as members of the various statutory bodies responsible for the administration of regional services such as education and libraries, health and personal social services, drainage, fire and electricity; and
- (c) a consultative role in which they act as the media through which the views of local people are expressed on the operation in their area of other regional services notably planning, roads, and conservation (including water supply and sewerage services) provided by those departments of central government which have an obligation, either statutorily or otherwise, to consult the district councils about proposals affecting their areas.

## THE NATIONAL PARKS

The ten National Parks described below in their order of designation have been established in England and Wales. These areas are not public property and visitors are not free to wander over private land within the Park boundaries. They have been marked out for special care aimed at two prime purposes: to conserve and enhance their natural beauty, and to promote their enjoyment by the public.

**Peak District National Park** (542 sq. miles).—Mainly in Derbyshire but extending into Staffordshire, Cheshire, South Yorkshire, West Yorkshire and Greater Manchester. In the south and east are limestone uplands, and finely wooded dales with swift, clear rivers and unspoilt stone villages. Northwards, moorlands, edged by gritstone crags, attract hill walkers and climbers. There are information centres at Bakewell, Edale (open all year) and Castleton (Easter–October and possibly winter weekends), and information points in Goyt Valley and at Hartington (summer weekends and Bank Holidays). An information caravan tours the Park.

**Lake District National Park** (880 sq. miles).—In Cumbria. Spectacular mountain scenery with wooded lower slopes enhanced by lakes and tarns. The area includes England's highest mountains (Scafell Pike, Helvellyn and Skiddaw) and largest lakes. Walking and rock-climbing are the principal recreations, but there are fishing, swimming, sailing, boating and winter sports as well. There are information centres at Keswick, Ambleside, Waterhead, Hawkshead, Seatoller and Bowness. Information vans are sited at Conistone, Glenridding and Pooley Bridge. At Brockhole on the shore of Windermere, is a National Park centre.

**Snowdonia National Park** (838 sq. miles).—In Gwynedd in North Wales. A mountainous region supporting farms, forest, reservoirs and power stations and traversed by high passes, offering some of the finest rock-climbing and mountain walking for both beginner and expert. The main valleys often finely wooded, hold lakes and are watered by rivers with cascading falls. There are information centres at Aberdyfi, Bala, Betws y Coed, Blaenau Ffestiniog, Conwy, Harlech, Dolgellau, Llanberis, Llanrwst and Plas Tan y Bwlch.

**Dartmoor National Park** (365 sq. miles).—In Devon, the highest area of high moorland in southern England, famous for its granite "tors" often weathered into strange shapes. Fine hanging oak woods adorn the river valleys which lead up into the Moor. The Park is rich in prehistoric relics and offers fine walking and riding. Information vans are sited at Newbridge, Tavistock, Steps Bridge, Princetown and Postbridge.

**Pembrokeshire Coast National Park** (225 sq. miles).—A spectacular section of Britain's coastline, where rock cliffs alternate with bays and sandy coves. In the north is Mynydd Preseli, abounding in prehistoric relics. The Park includes the fine Milford

Have waterway reaches, Tenby, the cathedral of St. David's, and Carew and other Norman castles. There are information centres at Tenby, St. David's, Pembroke, Newport, Kilgetty, Haverfordwest and Broad Haven.

**North York Moors National Park** (553 sq. miles).—In North Yorkshire and Cleveland, the Park stretches from the Hambleton Hills in the west to the coastline above Scarborough. On the coast sheltered bays and sandy beaches alternate with headlands harbouring villages such as Staithes and Robin Hood's Bay. The heart of the Park offers tracts of open moorland, intersected by beautiful wooded valleys. Mount Grace Priory and the abbeys of Rievaulx and Byland are within the Park. There are information centres at Danby Lodge, Pickering and Sutton Bank.

**Yorkshire Dales National Park** (680 sq. miles).—An area of upland moors, cut by deep valleys, mostly in North Yorkshire but extending into Cumbria. The Park includes some of the finest limestone scenery in Britain: Kilnsey Crag in Wharfedale, Gordale Scar, and Malham Cove in Malhamdale. In the Park also are Swaledale and Wensleydale, the three peaks of Ingleborough, Wharfedale and Pen-y-Ghent, and many relics of the past such as the Roman fort at Bainbridge and Bolton Abbey in Wharfedale. There are information centres at Clapham, Aysgarth Falls, Malham and Sedbergh. An information caravan is sited at Hawes.

## AREAS OF OUTSTANDING NATURAL BEAUTY

These are designated solely for landscape conservation purposes. They are listed below, in alphabetical order, having been designated between December, 1956 and February, 1978.

**Anglesey** (83 sq. miles).—Except for breaks around the urban areas and in the vicinity of Wylfa, the designated area extends along the entire coastline. The varied scenery is famed for its beauty, as also are the Menai Straits, separating the island from the mainland.

**Arnsdale and Silverdale** (29 sq. miles).—Lying along the upper half of Morecambe Bay, the area embraces the Kent estuary where it adjoins the Lake District National Park and includes extensive tidal flats in the Bay. The varied coastal landscape contains several limestone hills, woodland and bog areas locally known as "mosses". Known for its wildfowl breeding grounds, the whole area is of considerable ecological value.

**Cannock Chase** (26 sq. miles).—This is an area of high heathland in Staffordshire, relieved by varied scenery in which parklands adjoin farms, woodlands and pleasant villages. Deer continue to roam over the Chase.

**Chichester Harbour** (29 sq. miles).—Well known for its small boating and sailing facilities, the area extends from Hayling Island in the west to Apuldram in the east and contains the whole of Thorney Island.

**Chilterns** (309 sq. miles).—The well-known chalk downlands from Goring in South Oxfordshire north-eastwards through Buckinghamshire, Hertfordshire and Bedfordshire to Dunstable and Luton, including the outlying group of hills beyond Luton. Contains several National Trust properties and Whipsnade Zoo.

**Cornwall** (360 sq. miles).—Comprising a number of separate areas including Bodmin Moor and some of the finest and best-known coastal scenery in Britain. Most of the Land's End peninsula; the coast between St. Michael's Mount and St. Austell with

**Exmoor National Park** (265 sq. miles).—Mainly in Somerset but extending into Devon, this is a moorland plateau seamed with finely wooded combs. The well-known coastline between Minehead and Combe Martin Bay is exceptionally beautiful. In the east are the Brendon Hills. There are information centres at Lynmouth, County Gate and Dulverton. An information van is sited at Combe Martin.

**Northumberland National Park** (398 sq. miles).—A region of hills and moorland, stretching from Hadrian's Roman Wall in the south to the Cheviot Hills on the Scottish Border. The area is rich in historic interest. There are information centres at Byrness, Ingram, Once Brewed, Rothbury and Harbottle Hills.

**Brecon Beacons National Park** (519 sq. miles).—The most recent National Park, established in 1957, is centred on "The Beacons" with its three peaks: Pen y Fan, Corn Du and Cribyn rising to nearly 3,000 feet. But it includes the Black Mountains to the east and the Black Mountain to the west, thus taking in parts of Gwent and Dyfed as well as southern Powys and a small area of Mid-Glamorgan. The Upper Usk Valley, Llangorse Lake, Brecon Cathedral, Carreg Cennen Castle and Llanthony Priory are all within the Park. There are information centres at Brecon, Abergavenny, Llandoverly, a study centre at Danywenallt and a day visitor centre near Libanus, Brecon.

Falmouth omitted; and the Fowey Estuary are all included: in north Cornwall most of the coast to Bedruthan Steps, north of Newquay, and between Perranporth and Godrevy Tawns.

**Cotswolds** (582 sq. miles).—Contains the great limestone escarpment overlooking the Vales of Gloucester and Evesham. The remainder is high undulating country and narrow wooded valleys traversed by shallow rapid streams. Noted for its beautiful villages.

**Dedham Vale** (22 sq. miles).—This is the flat land of water meadows with hedges and woodland, bordering Essex and Suffolk, where John Constable (1776-1837) painted during much of his life. Flatford Mill, Willy Lott's Cottage and the church of Stoke-by-Nayland still stand.

**East Devon** (103 sq. miles).—The area comprises the fine stretch of coastline between Orcombe Rocks, near Exmouth, and the Dorset area near Lyme Regis, with Sidmouth, Beer and Seaton omitted, Inland Gittisham Hill, East Hill and Woodbury and Aylebore Commons are all included.

**North Devon** (66 sq. miles).—Comprising three sections of fine coastline—the whole of the Hartland peninsula; from Bideford Bar to the western limits of Ilfracombe, and from east of Ilfracombe to the boundary of the Exmoor National Park. Clovelly, Braunton Burrows, Woolacombe and Combe Martin are all included.

**South Devon** (128 sq. miles).—It includes the magnificent coast between Bolt Head and Bolt Tail, a National Trust property; Salcombe, Slapton Sands and Dartmouth, and the four estuaries and valleys of the Yealm, Erme, Avon and Dart.

**Dorset** (400 sq. miles).—Takes in the whole of the coastline between Lyme Regis and Poole, with the Isle of Portland and Weymouth omitted, and stretches inland to include the Purbeck Hills and the downs, heaths and wooded valleys of the Hardy country.

**Forest of Bowland** (310 sq. miles).—A fine tract of high open moorland running westward from near Settle and Bolton by Bowland in the Pennines, to Caton and Scorton in Central Lancashire. A small outlying area east of the River Ribble includes Pendle Hill and Pendleton Moor.

**Gower** (73 sq. miles).—In the county of West Glamorgan, South Wales, the area is known for its beautiful coastline, its rocky limestone cliffs, sandy bays and coves and for its wooded ravines stretching inland.

**East Hampshire** (151 sq. miles).—The area stretches from the outskirts of Winchester to the Hampshire/Sussex border at a distance of about 10 miles inland from the south coast.

**South Hampshire Coast** (30 sq. miles).—14 miles of coastline on the northern shores of the Solent, between Hurst Castle and Calshot Castle, south-east of Fawley, with the central part of the area extending inland up the Beaulieu River for about six miles, including a beautiful part of the New Forest. Along much of the coast woods of oak and Scots pine stretch down to the water's edge, while at the western end are some attractive salt marshes.

**Kent Downs** (326 sq. miles).—Running from the Surrey border near Westerham (its boundary adjoining that of the Surrey Hills area), about 60 miles to the coast near Dover and Folkestone, with a coastal outlier at South Foreland and a narrow strip of the old sea cliff escarpment west of Hythe overlooking Romney Marsh. Pleasant pastoral scenery, picturesque villages, ancient churches and castles, with the Downs rising to 600 feet.

**Lincolnshire Wolds** (216 sq. miles).—The area extends in a south-east direction from Lacey and Caistor in the north to the region of Spilsby, about ten miles west of Skegness. Its charm is derived from the undulating terrain, sparse settlement pattern and the excellent views from the chalk escarpments. The wolds are extensively farmed and contain numerous small, attractive villages.

**Lleyn** (60 sq. miles).—An isolated peninsula in Gwynedd, North Wales, of unique character, still largely unspoilt by the hand of man.

**Malvern Hills** (40 sq. miles).—The area embodies the whole range of the Malvern Hills in the county of Hereford and Worcester, just touching Gloucestershire. Such well-known features as the Worcestershire Beacon, North Hill, the Herefordshire Beacon, and Midsummer Hill, a National Trust property, are within the area.

**Mendip Hills** (78 sq. miles).—Comprising over half of the Mendip Hills, the area stretches, east to west, from Bleadon Hill to the A.39 road north of Wells. Blagdon Lake and Chew Magna Lake are within the boundary which, in the south, takes in Cheddar Gorge. The plateau, rising to over 1,000 ft., commands fine views over the Bristol Channel and surrounding countryside. Noted for its caves, including Wookey Hole, the area is of great scientific and historic interest.

**Norfolk Coast** (174 sq. miles).—With coastal scenery ranging from salt marsh and mudflats, sand-dunes and shingle ridges to sea cliffs, this area includes six miles of the south-east coast of the Wash, an almost continuous coastal strip three to five miles in depth from Hunstanton to Bacton, with a further small strip between Sea Palling and Winterton-on-Sea. The area, which is rich in wild-life, also includes part of the Sandringham Estate.

**Northumberland Coast** (50 sq. miles).—Low cliffs and rocky headlands with active fishing villages comprise this area which stretches from just south of

Berwick to Amble. It includes Holy Island, with the oldest monastic ruins in the country; the Farne Islands, and the great castles of Bamburgh, Dunstanburgh and Warkworth.

**Quantock Hills** (38 sq. miles).—The main feature of this area in Somerset is the range of red sandstone hills rising to a height of 1,260 feet at Will's Neck above Crow Combe.

**Isles of Scilly** (6 sq. miles).—There are about 140 islands and skerries in the Scillies group of which only five are inhabited. Geologically, the formation is similar to Land's End and other granite areas in Cornwall. The coastline is dramatically rocky, interspersed with sheltered sandy beaches and areas of dune of bleached decomposed granite, glistening with mica and shells. There are coastal paths round the larger islands, and a number of sites of special scientific interest, identified by the Nature Conservancy Council.

**Shropshire Hills** (300 sq. miles).—This area includes the fine landscape around Church Stretton, with Caer Caradoc, the Long Mynd, the Stiperstones, and the long ridge of Wenlock Edge from which it extends north-east to the Wrekin and the Ercall.

**Solway Coast** (41 sq. miles).—A stretch of beautiful coastline in Cumbria from above Maryport to the estuaries of the Rivers Eden and Esk (with Silloth omitted) backed by the Solway Plain and noted for its historic and scientific interests.

**Suffolk Coast and Heaths** (151 sq. miles).—Takes in 38 miles of coastline and parts of the Stour and Orwell estuaries, while the Deben, Alde and Blyth flow through it. With heath, woodland, marsh and beaches, the scenery is attractively varied and the area important to ornithologists.

**Surrey Hills** (160 sq. miles).—The Hog's Back and the ridge of the North Downs from Guildford to Titsey in the east are within this area, as are Leith Hill, Hindhead Common, the Devil's Punch Bowl; the well-known villages of Abinger, Shere, Hambleton and Chiddingfold; Box Hill and Frensham Ponds.

**Sussex Downs** (379 sq. miles).—The area includes the chalk escarpment of the South Downs from Beachy Head to the West Sussex/Hampshire border, with such well-known features as Fittle Beacon and Chanctonbury Ring, and stretches down to the coast between Eastbourne and Seaford. In the west the boundary adjoins the East Hampshire and Surrey Hills areas.

**North Wessex Downs** (671 sq. miles).—An upland area in Hampshire, Wiltshire, Oxfordshire and Berkshire, bounded by the Marlborough and Lambourn Downs in the west and the Chiltern Hills in the east. To the south of the downs the area is intersected by the Kennet Valley, the Vale of Pewsey and Enbourne Vale, with Savernake Forest in the midst. The southern section comprises the North Downs where they descend to the Test Valley which, together with Salisbury Plain, form the southern limit of what is so far the largest area designated.

**Isle of Wight** (73 sq. miles).—A number of separate areas comprising unspoiled stretches of coastline, the Yar Valley, the high downland behind Ventnor and the fine chalk downland ridge east of Newport to Culver Cliff and Foreland.

**Wye Valley** (125 sq. miles).—This area lies within the counties of Gwent, Gloucestershire and Hereford and Worcester. The lower Wye Valley landscape is characterised by its steeply-wooded slopes, cliffs and gorges where the river has cut through limestone outcrops. Further north the valley is broader and the river meanders through pleasant pastureland. Tintern Abbey and the well-known viewpoint from Symonds Yat are within this beautiful area. The flora include many rare species.

## The Kingdom of England

**Position and Extent.**—The Kingdom of England occupies the southern position of the island of Great Britain and lies between 55° 46' and 49° 57' 30" N. latitude (from the mouth of the Tweed to the Lizard), and between 1° 46' E. and 5° 43' W. (from Lowestoft to Land's End). England is bounded on the north by the summit of the Cheviot Hills, which form a natural boundary with the Kingdom of Scotland; on the south by the English Channel; on the east by the Straits of Dover (Pas de Calais) and the North Sea; and on the West by the Atlantic Ocean, Wales and the Irish Sea. It has a total area of 50,362 sq. miles (land 50,081; inland water 281).

**Population.**—The population (1981 Census) was 46,221,000.

**Relief.**—There is a natural orographic division into the hilly districts of the north, west and south-west, and the undulating downs and low-lying plains of the east and south-east. In the extreme north the *Cheviot Hills* run from east to west, culminating in the Cheviot, 2,676 feet above mean sea level. Divided from the Cheviots by the Tyne Gap is the *Pennine Chain*, running N. by W. to S. by E., with its highest point in Cross Fell, 2,930 feet above mean sea level. West of the Pennines are the *Cumbrian Mountains*, which contain in *Scafell Pike* (3,210 feet) the highest land in England, and east of the Pennines are the *Yorkshire Moors*, their highest point being *Urra Moor* (1,489 feet). South of the Pennines are the *Peak of Derbyshire* (2,088 feet) and *Dartmoor* (High Willhays, 2,039 feet). In the western county of Salop are the isolated *Wrekin* (1,335 feet), *Longmynd* (1,696 feet), and *Brown Clee* (1,792 feet); in Hereford the *Black Mountain* (2,310 feet), in Worcester the *Malvern Hills* (1,395 feet); the Cotswold Hills of Gloucestershire contain *Cleeve Cloud* (about 1,100 feet).

**Hydrography.**—The *Thames* is the longest and most important river of England, with a total length of 210 miles from its source in the Cotswold hills to its outflow into the North Sea, and is navigable by ocean-going steamers to London Bridge. The Thames is tidal to Teddington (69 miles from its mouth) and forms county boundaries almost throughout its course; on its banks are situated London, the capital of the British Commonwealth; Windsor Castle, the home of the Sovereign, Eton College, the first of the public schools, and Oxford, the oldest university in the kingdom. The *Severn* is the longest river in Great Britain, rising in the north-eastern slopes of *Plinlimmon* (Wales) and entering England in Salop with a total length of 220 miles from its source to its outflow into the Bristol Channel, where it receives on the left the *Bristol Avon*, and on the right the *Wye*, its other tributaries being the *Vrynwy*, *Tern*, *Stour*, *Teme* and *Upper* (or *Warwickshire*) *Avon*. The *Severn* is tidal below Gloucester, and a high bore or tidal wave sometimes reverses the flow as high as *Tewkesbury* (13½ miles above Gloucester). The scenery of the greater part of the river is very picturesque and beautiful, and the *Severn* is a noted salmon river, some of its tributaries being famous for trout. Navigation is assisted by the Gloucester and Berkeley Ship Canal (16½ miles), which admits vessels of 350 tons to Gloucester. The *Severn Tunnel*, begun in 1873 and completed in 1886 (at a cost of £2,000,000) after many difficulties from flooding, is 4 miles 628 yards in length (of which 21 miles are under the river). A road bridge over the *Severn* estuary,

between *Haysgate*, *Gwent*, and *Almondsbury*, *Glos.*, with a centre span of 3,240 ft. was opened by Her Majesty the Queen on September 8, 1966. Of the remaining English rivers those flowing into the North Sea are the *Tyne*, *Wear*, *Tees*, *Ouse* and *Trent* from the *Pennine Range*, the *Great Ouse* (160 miles) from the *Central Plain*, and the *Orwell* and *Stour* from the hills of *East Anglia*. Flowing into the English Channel are the *Sussex Ouse* from the *Weald*, the *Itchen* from the *Hampshire Hills*, and the *Axe*, *Teign*, *Dart*, *Tamar* and *Exe* from the *Devonian Hills*; and flowing into the *Irish Sea* are the *Mersey*, *Ribble* and *Eden* from the western slopes of the *Pennines* and the *Derwent* from the *Cumbrian Mountains*. The *English Lakes* are noteworthy rather for their picturesque scenery and poetic associations than for their size. They lie in *Cumbria*, the largest being *Windermere* (10 miles long), *Ullswater* and *Derwentwater*.

**Islands.**—The *Isle of Wight* is separated from Hampshire by the *Solent*; total area 147 sq. miles, population about 117,000. The climate is mild and healthy, and many watering places have grown up during the last century. Capital, *Newport*, at the head of the estuary of the *Medina*, *Cowes* (at the mouth) being the chief port; other centres are *Ryde*, *Sandown*, *Shanklin*, *Ventnor*, *Freshwater*, *Yarmouth*, *Totland Bay*, *Seaview* and *Bembridge*. The *Scilly Islands*, 25 miles from Land's End, consist of about 40 islands, with a total area of about 4,000 acres, only *St. Mary's*, *Tresco*, *St. Martin's*, *St. Agnes* and *Bryher* being inhabited (population, 1971, 2,428). The capital is *Hugh Town*, in *St. Mary's*. The climate is unusually mild, and vegetation luxuriant, semi-tropical plants flourishing in the open. *Lundy* (= *Island*) 11 miles N.W. of *Hartland Point*, *Devon*, is about 2 miles long and about ½ mile broad (average), with a total area of about 1,050 acres (mainly picturesque), and a population of about 20; it became the property of the *National Trust* in 1969 and has 3 lighthouses (one disused).

**Climate.**—The mean annual air temperature reduced to sea-level varies from 11°C. in the extreme south-west to 9°C. near *Berwick-on-Tweed*. In January the south and west are warmer than the east, the mean temperature reduced to sea-level being less than 4.5°C. over the eastern half of the country. In July the warmest districts are more definitely in the south and inland, the range being from 17°C. around London to less than 5.9°C. in the extreme north. The decrease of mean temperature with height is about 0.6°C. per 100 metres. The coldest month of the year is January and the warmest July. Sea temperature reaches its maximum rather later than air temperature. The average annual rainfall decreases from west to east, owing to the preponderance of south-west winds, and also increases with altitude. The annual average 1916–1950, varies from 20 in. (500 mm.) in the neighbourhood of the *Thames Estuary* and locally in *Cambridgeshire* to more than 100 in. (2,500 mm.) over the mountains of the *Lake District*. Rather more rain falls in the summer half-year in parts of the east, but in the west much more falls in the winter half-year. The months of least rain are *March* to *June* and the wettest months *October* to *January*. The mean annual number of hours of bright sunshine varies from 1,750 hours along the south-east coast to less than 1,300 hours in the neighbourhood of the *Pennine range*. *June* is the sunniest month followed by *May*, *July* and *August* in that order.

## EARLY INHABITANTS

**Prehistoric Man.**—Palæolithic and Neolithic remains are abundantly found throughout England. The Neolithic period is held to have merged into the Bronze Age about 2000 to 1500 B.C., and a date between these years has been given to *Stonehenge* (10 miles N. of Salisbury, Wiltshire) which consists of two circles of menhirs (the largest monolith being 22½ feet in height). The village of *Avebury* and its surroundings were scheduled in 1937, and in 1943 about 1,000 acres of Avebury were purchased by the National Trust, thus preserving the Circle of megalithic monuments, the Avenue, Silbury Hill, etc., relics of Stone Age culture of 1900–1800 B.C., which make this one of the most important archaeological sites in Europe. The *Devil's Arrows*, near Boroughbridge, Yorkshire, are regarded as the finest remaining megalithic monoliths in northern Europe; the tallest arrow is 30 ft. 6 in. high and its greatest circumference is 16 ft. In the latter part of the Bronze Age the *Goidels*, a people of Celtic race, and in the Iron Age other Celtic races of *Brythons* and *Belgae*, invaded the country and brought with them Celtic civilization and dialects, place names in England bearing witness to the spread of the invasion over the whole kingdom.

**The Roman Conquest.**—Julius Cæsar raided Britain in 55 B.C., and 54 B.C. The Emperor Claudius nearly 100 years later (A.D. 42), dispatched Aulus Plautius, with a well-equipped force of 40,000, and himself followed with reinforcements in the same year.

The British leader from A.D. 48–51 was *Caratacus* (Caractacus), who was finally captured and sent to Rome. By A.D. 70 the conquest of South Britain was completed, a great revolt under *Boadicea*, Queen of the Iceni, being crushed in A.D. 61. In A.D. 122, the Emperor Hadrian visited Britain and built a continuous rampart, since known as *Hadrian's Wall*, from Wallsend to Bowness (Tyne to Solway). The work was entrusted by the Emperor Hadrian to Aulus Platorius Nepos, legate of Britain from 122 to 126, and it is now regarded as "the greatest and most impressive relic of the Roman frontier system in Europe."

The Romans administered Britain as a Province under a Governor, with a well-defined system of local government, each Roman municipality ruling itself and surrounding territory. Colchester, Lincoln, York, Gloucester and St. Albans stand on the sites of five Roman municipalities, while London was the centre of the road system and the seat of the financial officials of the Province of Britain. Well-preserved Roman towns have been uncovered at (or near) *Silchester* (Calleva Atrebatum), 10 miles south of Reading, *Wroxeter* (Viroconium), near Shrewsbury, and *St. Albans* (Verulamium) in Hertfordshire.

Four main groups of roads radiated from London, and a fifth (the Fosse) ran obliquely from Ermine Street (at Lincoln), through Leicester, Cirencester and Bath to Exeter. Of the four groups radiating from London one ran S.E. to Canterbury and the coast of Kent, a second to Silchester and thence to parts of Western Britain and South Wales, a third (now known as *Walling Street*) ran through Verulamium to Chester, with various branches, and the fourth reached Colchester, Lincoln, York and the eastern counties.

**Christianity** reached the Roman province of Britain from Gaul in the 3rd century (or possibly earlier), *Alban*, "the protomartyr of Britain," being put to death as a Christian during the persecution of

Diocletian (June 22, 303), at his native town Verulamium. The Bishops of Londinium, Eboracum (York), and Lindum (Lincoln) attended the Council of Arles in 314.

The Roman garrison of Britain was much harassed in the 4th century by Saxon pirates, who invaded the eastern areas. A system of coast defence was organized from the Wash to Southampton Water, with forts at Brancaster, Burgh Castle (Yarmouth), Walton (Felixtowe), Bradwell, Reculver, Richborough, Dover, Strutfall, Pevensey and Porchester (Portsmouth). About A.D. 350 incursions in the north of Irish (Scotti) and Picts became most formidable, and towards the end of the 4th century many troops were removed from Britain for service in other parts of the Roman Empire. Early in the 5th century Gaul was taken from the Romans by Teutonic invaders and Britain was cut off from Rome. The last Roman garrison was withdrawn from Britain in A.D. 442 and the S.E. portion was conquered by the Saxons.

The Latin-speaking Celts of England were replaced by their heathen and Teutonic conquerors, to the submergence of the Christian religion and the loss of Latin speech. According to legend, the British King *Vortigern* called in the Saxons to defend him against the Picts, the Saxon chieftains being *Hengist* and *Horsa*, who landed at Ebbsfleet, Kent, and established themselves in the Isle of Thanet. Bede, a Northumbrian monk, author of the Ecclesiastical history at the opening of the 8th century, described these settlers as Jutes, and there are traces of differences in Kentish customs from those of other Anglo-Saxon kingdoms.

**Anglo-Saxons and Normans.**—What happened in Britain during the 150 years which elapsed between the final break with Rome and the coming of St. Augustine is shrouded in the deepest mystery. The Jutes, the Saxons and the Angles (whose gods *Twi*, *Woden*, *Thunor* and *Frigg* are commemorated in "Tuesday, Wednesday, Thursday and Friday") were converted to Christianity by a mission under Augustine (dispatched by Pope Gregory in 597), which established Archbishoprics at Canterbury and York, and England appears to have been again converted by the end of the 7th century. In the 8th century Offa, King of Mercia, is stated to have built a wall and rampart, afterwards known as *Offa's Dike*, from the mouth of the Dee to that of the Wye, as a protection against the Welsh.

The greatest of the English kingdoms was *Wessex*, with its capital at Winchester, and the greatest of the Wessex kings was *Alfred the Great* (871–899), who resisted the incursions of the Northmen (Danes) and fixed a limit to their advance by the Treaty of Wedmore (878). In the 10th century the Kings of Wessex recovered the whole of England from the Danes, but subsequent rulers were unable to resist the invaders, and England paid tribute (*Danegelt*) for many years, and was ruled by Danish Kings from 1016 to 1042, when Edward the Confessor was recalled from exile. In 1066 Harold (brother-in-law of Edward and son of Earl Godwin of Wessex) was chosen King of England, but after defeating (at Stamford Bridge, Yorkshire, Sept. 25) an invading army under Harald Hadrada, King of Norway (aided by the outlawed Earl Tostig, of Northumbria, younger son of Earl Godwin), he was himself defeated at the *Battle of Hastings* on Oct. 14, 1066, and the Norman Conquest secured the throne of England for Duke William of Normandy.

## GREATER LONDON COUNCIL

The Greater London Council and 32 London Borough Councils were constituted under the London Government Act, 1963. They replaced, on April 1, 1965, the London County Council, the Middlesex County Council, the County Borough Councils of Croydon, East Ham and West Ham, 28 metropolitan borough, 39 non-county borough and 15 urban district councils. The boundaries and constitution of the Corporation of the City of London were not affected.

Under the Act, Greater London became for the first time a clearly defined local government area including, in addition to the former counties of

London and the greater part of Middlesex, parts of Metropolitan Essex, Kent, Surrey and Hertfordshire.

The Greater London Council at present consists of 92 councillors. Councillors are elected for single-member electoral divisions which are coterminous with the parliamentary constituencies. Councillors hold office for four years. The Chairman, Vice-Chairman and Deputy Chairman are elected annually by the councillors. The political head of the administration is the Leader of the Council, elected by the majority party. The Council meets at three weekly intervals at 2.30 p.m. on Tuesdays except in holiday periods. Most committees and sub-committees meet at three- or six-weekly intervals.

## G.L.C. SERVICES

The services provided by the G.L.C. include planning, roads, traffic management and control, fire services, refuse disposal, housing, parks and licensing. For certain services it shares responsibility with the London Borough Councils and the City Corporation.

**Education.**—The local education authority for an area corresponding with the area of the twelve inner London boroughs and the City of London is the Inner London Education Authority, a special committee of the G.L.C. consisting of the members of the Council elected for the inner London boroughs together with a representative of each inner London Borough Council and of the Common Council. The Council charges to the rating authorities in the Inner London Education Area the expenditure of the I.L.E.A., the amount being determined by the Authority. This unique arrangement preserves the continuity of the service which has developed since 1870 as a unity without regard to local boundary divisions.

The total number of pupils on the rolls of the Authority's nursery, primary and secondary schools (including special schools for handicapped children) is 323,128. There are 1,130 schools, staffed by the equivalent of 24,759 full-time teachers. Vocational instruction, cultural studies and recreational activities for persons over compulsory school age are arranged at the various establishments for further education. The Authority maintains 26 colleges and makes grants to 5 polytechnics and 3 other institutions. Part-time classes are offered at 24 adult education and literary institutes, and 85 youth centres, including 2 drama centres. The 20 outer London Borough Councils are the education authorities for their Boroughs.

**Housing.**—The Council shares with the London Borough Councils responsibility for housing in London. In line with the development of its strategic housing role the Council has now transferred most of its housing management functions to the Borough Councils. For the future, the Council intends to concentrate on analysing London's overall housing needs, presenting a co-ordinated view of action required, with a much reduced range of executive activities, although it will continue to carry out new building programmes and improvement work on older properties. This work is set out in the Council's London Housing Appraisal and its annual Housing Investment Programme submission to the Department of the Environment.

**Planning and Transportation.**—Planning responsibilities in London are shared between the G.L.C. and the London Borough Councils. The G.L.C. is the planning authority for London as a whole and its strategic policies are set out in the G.L.D.P.—the structure plan for Greater London. Within the framework of the G.L.D.P., London Borough Councils may prepare their own local plans which together with the G.L.D.P. then form the basis for controlling development.

Town planning control of private development proposals is mainly the concern of the London Boroughs (or the London Docklands Development Corporation), but the G.L.C. has some responsibilities in this field. As planner and developer the Council is involved in many major schemes. Notable examples are the Thamesmead project and the Covent Garden area.

The Council is responsible for the construction, improvement and maintenance of principal roads. As the traffic authority for all roads in Greater London it prepares or approves schemes for one-way working, traffic signals, clearways, bus only lanes, waiting and loading restrictions and speed limits and makes the orders which enforce them. It maintains

the Thames tunnels, the Woolwich Free Ferry, and all but four of the Thames bridges (London, Tower, Blackfriars and Southwark, which are maintained by the Corporation of London).

The Transport (London) Act, 1969, gives the G.L.C. responsibility, through the London Transport Executive, which is appointed by the Council, for London Transport finance and policies. The Act also gives the Council the primary responsibility for overall transport planning, including the fullest possible integration of all forms of public transport, traffic measures and the development of the most important roads, in close association with land use planning.

**Expanding towns.**—The Council continues to have agreements with a number of towns for the provision of homes and jobs out of London, but negotiations are now well advanced for their termination where this can be done by agreement.

**Parks.**—The Council maintains some 5,485 acres of parks and open spaces. The London Borough Councils and the City Corporation between them provide a further 26,500 acres. Up to 800 open-air entertainments are arranged in G.L.C. parks each summer and almost all games and sports are provided for. At Crystal Palace, in addition to the Council's 106 acre park is the Crystal Palace National Sports Centre, owned by the Council and managed by the Sports Council.

**Other features** of the G.L.C.'s administration include its responsibility for the Royal Festival Hall, Queen Elizabeth Hall and Purcell Room and the Hayward Gallery; the maintenance of the Iveagh Bequest, Kenwood, several other buildings of historic interest and two museums. The Greater London Record Office and Library house official records and other manuscripts, books, maps, drawings and photographs relating to London and are open to the public for reference purposes. The Research and Intelligence unit is concerned with information and research on any matters concerning Greater London. The results of its work will be available to government departments, local authorities and the public.

**Solid waste disposal.**—The Council is responsible for the disposal of refuse throughout Greater London—some 3,250,000 tonnes currently being handled each year. It operates a number of transfer stations and one incinerator. Refuse is used for infilling at thirty-four land reclamation sites. The Boroughs continue to be responsible for refuse collection. Well over 13,000 old vehicles and more than 300,000 tonnes of bulky household refuse (the latter deposited direct by members of the public but included in the total of 3,250,000 tonnes) are also dealt with as a means of improving the environment under the Civic Amenities Act, 1967.

**Land Drainage and Flood Prevention.**—The G.L.C. and the Borough Councils exercise land drainage functions on certain watercourses within a 400 sq. mile area in and adjoining Greater London known as the London Excluded Area. The G.L.C. undertakes flood prevention works and maintains unobstructed flows in main metropolitan watercourses including the Ravensbourne, Beverley Brook, Wandle, Crane and Brent rivers. The Council also has flood prevention functions along some 120 miles of riverbank of the Thames and its tidal tributaries. Work is nearing completion on the construction of a moveable barrier across the Thames at Silvertown which, with associated bank raising schemes, will provide flood protection against surge tides.

**Licensing.**—The Council is the licensing authority in Greater London for certain places of entertainment, greyhound race tracks and petroleum installations.

**Fire Services.**—The Council runs the fire service for its whole area.

The *London Fire Brigade* set up on April 1, 1965, under the London Government Act, 1963, consists of the Brigades of the former counties of London and Middlesex (excluding the districts of Staines, Sunbury and Potters Bar), the former county boroughs of East Ham, West Ham and Croydon and of parts of Essex, Herts., Kent and Surrey. *Headquarters*, 8 Albert Embankment, S.E.1.

The Brigade has 114 land and 1 river station. Wholetime authorized establishment, 6,808. There are 633 fire-fighting appliances and support vehicles and two fire-boats in commission.

*Chief Officer*, R. A. Bullers, Q.F.S.M.

*Deputy Chief Officer*, D. J. Willmott, Q.F.S.M.

**Finance.**—The Greater London Council's budget for 1982-83 (including London Transport Executive) amounts to £3,359 million of which £2,829 million is

revenue expenditure (including £914 million for the Inner London Education Authority) and £530 million capital expenditure (£21 million for the Inner London Education Authority).

Revenue expenditure during the year will be met by precept on the London Borough Councils (£1,465 million); income from loan repayments, rents, reimbursements for town developments, fees etc. (£563 million); London Transport fares etc. (£575 million); Block Grant, payable direct to the Greater London Council (£44 million) and by other Exchequer grants for certain works and services (£182 million). The Inner London Education Authority determines the amount the Council must precept on the rating authorities in Inner London for education purposes.

Capital expenditure on housing and education is financed by external borrowing; capital expenditure on all other services is financed internally through a capital fund.

## THE CORPORATION OF LONDON

The City of London is the historic centre at the heart of London known as "the square mile" around which the vast metropolis has grown over the centuries. The City's population is 4,232 (1971 Census, preliminary). The civic government is carried on by the Corporation of London through the Court of Common Council, a body consisting of the Lord Mayor, 24 other Aldermen and 136 Common Councilmen. The legal title of the Corporation is "the Mayor and Commonalty and Citizens of the City of London."

The City is the financial and business centre of London and includes the head offices of the principal banks, insurance companies and mercantile houses, in addition to buildings ranging from the historic interest of the Roman Wall and the 15th century Guildhall, to the massive splendour of St. Paul's Cathedral and the architectural beauty of Wren's spires.

The City of London was described by Tacitus in A.D. 62 as "a busy emporium for trade and traders". Under the Romans it became an important administration centre and hub of the road system. Little is known of London in Saxon times when it formed part of the kingdom of the East Saxons. In 886 Alfred recovered London from the Danes and reconstituted it a burgh under his son-in-law. In 1066 the citizens submitted to William the Conqueror who in 1067 granted them a charter, which is still preserved, establishing them in the rights and privileges they had hitherto enjoyed. The mayoralty was established on the recognition of the corporate unity of the citizens by Prince John in 1191, the first Mayor being Henry Fitz Ailwyn who filled the office for 21 years and was succeeded by Fitz Alan (1212-15). A new charter was granted by King John in 1215, directing the Mayor to be chosen annually, which has ever since been done, though in early times the same individual often held the office more than once. A familiar instance is that of "Whittington, thrice Lord Mayor of London" (in reality four times, A.D. 1397, 1398, 1406, 1419); and many modern cases have occurred. The earliest instance of the phrase "Lord Mayor" in English is in 1414. It is used more generally in the latter part of the 15th century and becomes invariable from 1535 onwards. At Michaelmas the Liverymen in Common Hall choose two Aldermen who have served the office of Sheriff for presentation to the Court of Aldermen, and one is chosen to be Lord Mayor for the ensuing mayoral year. The Lord Mayor is presented to the Lord Chief Justice at the Royal Courts of Justice on the second

Saturday in November to make the final declaration of office, having been sworn in at Guildhall on the preceding day. The procession to the Royal Courts of Justice is popularly known as the *Lord Mayor's Show*.

*Aldermen* are mentioned in the 11th century and their office is of Saxon origin. They were elected annually between 1377 and 1394, when a charter of Richard II directed them to be chosen for life. The *Common Council*, elected annually on December 17, was, at an early date, substituted for a popular assembly called the *Folkmote*. At first only two representatives were sent from each ward, but the number has since been greatly increased.

*Sheriffs* were Saxon officers; their predecessors were the *wic-reeves* and *portreeves* of London and Middlesex. At first they were officers of the Crown, and were named by the Barons of the Exchequer; but Henry I (in 1132) gave the citizens permission to choose their own Sheriffs, and the annual election of Sheriffs became fully operative under King John's charter of 1199. The citizens lost this privilege, as far as the election of Sheriff of Middlesex is concerned, by the Local Government Act, 1888; but the Liverymen continue, as heretofore, to choose two Sheriffs of the City of London, who are appointed on Midsummer Day, and take office at Michaelmas.

*Officers.*—The Recorder was first appointed in 1298. The office of Chamberlain is an ancient one, the first contemporary record of which is 1276. The Town Clerk (or Common Clerk) is mentioned in 1274 and the Common Serjeant in 1291.

*Activities.*—The work is assigned to a number of committees which present reports to the Court of Common Council. These Committees are:—City Lands and Bridge House Estates, Policy and Resources, Coal, Corn and Rates Finance, Planning and Communications, Central Markets, Billingsgate and Leadenhall Markets, Spitalfields Market, Police, Port and City of London Health and Social Services, Library (Library, Records, Art Gallery and Museum), Board of Governors of Schools, Music (Guildhall School of Music and Drama), Establishment, Housing, Gresham (City side), Epping Forest and Open Spaces, West Ham Park, Privileges, Barbican Development, Barbican Residential and Barbican Centre (Barbican Arts and Conference Centre).

The Honourable the *Irish Society*, which manages the Corporation's Estates in Ulster, consists of a Governor and 5 other Aldermen, the Recorder, and 19 Common Councilmen, of whom one is elected Deputy Governor.

The *City's Estate*, in the possession of which the Corporation of London differs from other municipalities, is managed by the City Lands and Bridge House

Estates Committee, the Chairmanship of which carries with it the title of "Chief Commoner."

Deputies.—In the preceding list each Common Councilman so described serves as *Deputy* to the Alderman of his Ward.

## THE CITY GUILDS (LIVERY COMPANIES)

The Livery Companies of the City of London derive their name from the assumption of a distinctive dress or livery by their members in the 14th century.

The order of precedence (according to 2nd Report of Municipal Corporations' Commissioners, 1837), omitting extinct companies, is given in parentheses after the name of each Company.

About 10,000 Liverymen of the Guilds are entitled to vote at elections in *Common Hall*.

## PUBLIC AND PRIVATE BUILDINGS IN LONDON

(For National Art Galleries and Museums in London see pages 374-5 and 419-24; for London Cathedrals, Churches, etc. see pages 502-3.)

**Adelphi, Strand, W.C.2.**—Adelphi Terrace and district commemorate the four architect brothers, James, John, Robert and William Adam, who laid out the district (formerly Durham House) at the close of the 18th century. Four of the streets in the Adelphi were formerly called after the brothers but are now Adam Street, John Adam Street, Robert Street and Durham House Street. Due to extensive rebuilding there are now few 18th-century houses left in the district. In the neighbourhood of the Adelphi was York House, built by the Duke of Buckingham in 1625 (the Water Gate of which still stands in Embankment Gardens), the commemorative streets being *Charles Street*, *Villiers Street*, *Duke Street*, *Of Lane*, *Buckingham Street* (Of Lane is now "York Buildings").

**Australia House, Strand, W.C.2.**—A handsome and imposing building, erected 1913-18 by the Commonwealth of Australia as the offices of the High Commissioner for the Commonwealth.

**Baltic Exchange, St. Mary Axe, E.C.3.**—The world market for the chartering of cargo ships. The present Exchange was built in 1903 and the new wing opened by Her Majesty the Queen on Nov. 21, 1956.

**Bank of England, Threadneedle Street, E.C.2.** (Not open to sightseers)—The Bank of England, founded in 1694, has always been closely connected with the Government. The present building, completed in 1940 to the designs of Sir Herbert Baker, incorporates features reminiscent of the earlier architects, Sampson (1734), Sir Robert Taylor (1765) and Sir John Soane (1788).

**Banqueting House, Whitehall, S.W.1.**—The only important building left of the great Palace of Whitehall. The previous banqueting house was burnt down in 1619, and replaced by the present structure designed by Inigo Jones. In 1635 it was enriched with Rubens' splendid ceiling paintings. Charles I was executed on a scaffold set up just in front of the present entrance. Open, Tues.-Sat., 10-5; Sun., 2-5. Closed Mondays. Admission, 50p; Children and O.A.P.s 25p.

**Barbican Arts Centre, E.C.2.**—The final phase of the Barbican complex in the City of London was opened on 3 March 1982 by H.M. The Queen. The Arts Centre houses the 1,166 seat Barbican Theatre, now the London base of the Royal Shakespeare Company along with a smaller 200 seat studio theatre, and the 2,025 seat Barbican Hall for concerts by the London Symphony Orchestra. There are also three cinemas, an art gallery, a sculpture court and a large lending library, in addition to facilities for exhibitions and conferences, and to bars and restaurants.

**Bridges.**—The bridges over the Thames (from East to West) are the *Tower Bridge* (built by the Corporation of London and opened in 1894), with its bascules, operated now by new electrically-run machinery. The walkway was opened to the public in 1982. *London Bridge* (opened after rebuilding in 1831 by Rennie; the new London Bridge was completed in 1973 and opened by Her Majesty the Queen on March 16, 1973); *Southwark Bridge* (opened in 1819, also by Rennie; rebuilt by the Corporation of London, 1922); *Blackfriars Bridge* (opened in 1769, rebuilt, 1869, and widened by the Corporation of London in 1909); *Waterloo Bridge* (Rennie), opened in 1817, commanding a fine view of western London, rebuilt by L.C.C. and reopened 1944; *Hungerford Bridge*, 1863 (railway bridge with a footbridge); *Westminster Bridge* (built

in 1750 and then presenting a view that inspired Wordsworth's sonnet; rebuilt and re-opened in 1862; width, 84 ft.) with Thomas Thornycroft's *Boadicea* at the north-eastern end; this bridge leads from Westminster Abbey and the Houses of Parliament to the County Hall and St. Thomas's Hospital; *Lambeth Bridge* (built 1862, rebuilt 1932) leading from Lambeth Palace to Millbank; *Vauxhall Bridge* (built in 1811-16, rebuilt in 1906), leading to Kennington Oval; *Chelsea Bridge*, leading from Chelsea Hospital to Battersea Park (reconstructed and widened; 1937) and *Albert Bridge* (1873); *Battersea Bridge* (opened in 1890); *Wandsworth Bridge* opened in 1873; rebuilt and re-opened in 1940); *Putney Bridge* (built 1729, rebuilt 1884, widened in 1933), where the Oxford and Cambridge Boat Race is started for Mortlake; *Hammer-smith Bridge* (rebuilt 1887); *Barnes Bridge* (for pedestrians only, 1933); *Chiswick Bridge* (opened in 1933); *King Edward VII Bridge, Kew* (rebuilt in 1902, opened 1903), leading to the Royal Botanic Gardens, Kew; *Twickenham Lock Bridge*; *Twickenham Bridge* (opened 1933); *Richmond Bridge* (opened in 1777); *Kingston Bridge* (built 1828 and widened 1914) and *Hampton Court Bridge* (rebuilt, 1933).

**Buckingham Palace, St. James's Park, S.W.1.** (Not open to the public.)—Was purchased by King George III in 1762 from the heir of the Duke of Buckingham, and was altered by Nash for King George IV. The London home of the Sovereign since Queen Victoria's accession in 1837. Refronted in stone (part of the Queen Victoria Memorial) by Sir Aston Webb in 1913.

The Queen's Gallery, containing a changing selection of the finest pictures and works of art from all parts of the royal collection, was opened to the public on July 25, 1962. Open: Tues.-Sat., and Bank Holidays 11-5 p.m.; Sundays, 2-5 p.m. Admission charges are payable, entering from Buckingham Palace Road.

The Royal Mews is open to visitors on Wednesdays and Thursdays throughout the year (except in Ascot Week), 2-4 p.m. Admission charges, the net proceeds of which are devoted to charities, are payable at the entrance.

**Canada House, Trafalgar Square, S.W.1.**—A conspicuous building in the Western side of the Square, housing the Office of the High Commissioner for Canada in the United Kingdom. Designed by Sir Robert Smirke and built in 1824-7, it was renovated and embellished when acquired from the Union Club in 1924. Further major alterations have been completed to incorporate the former Royal College of Physicians building, also designed by Sir Robert Smirke, which was acquired in 1964. The renovated building was re-opened in March, 1967. Certain interior features of the original building are preserved and the spacious, richly furnished room now occupied by the High Commissioner is much admired.

**Canonbury Tower, Canonbury, N.1.**—The largest remaining part of a 16th-century house originally built by the Priors of St. Bartholomew, and since 1952 used as the headquarters of a non-professional theatre company. Contains the "Spencer" and "Compton" oak-panelled rooms. Other relics of Canonbury House can be seen nearby.

**Carlyle's House, 24 Cheyne Row, Chelsea, S.W.3.** The home of Thomas Carlyle for 47 years until his death in 1881, and containing much of his furniture, etc. Now the property of the National Trust. Open daily, except Mondays and Tuesdays, 11-5 (Sundays,

2-6) or sunset, whichever is earlier, from April 1 until Oct. 31. Admission 90p; children 45p.

**Catholic Central Library**, St. Francis Friary, 47 Francis Street, S.W.1.—Founded as a private library in 1914, it was taken over in 1959 by the Franciscan Friars of the Atonement. It is an up-to-date lending and research library of over 55,000 volumes, 150 periodicals, for the general reader, student and ecumenist. Books are sent by post when required. Hours of opening: Mon.-Fri. 10.30-6.30; Sat. 10.30-4.30.

**Cemeteries**.—In *Kensal Green Cemetery*, North Kensington, W.10 (70 acres), are tombs of W. M. Thackeray, Anthony Trollope, Sydney Smith, Shirley Brooks, Wilkie Collins, Tom Hood, W. Mulready, George Cruikshank, John Leech, Leigh Hunt, Brunel ("Great Eastern"), Ross (Arctic), Charles Kemble and Charles Mathews (actors). In *Highgate Cemetery*, N.6, are the tombs of George Eliot, Herbert Spencer, Michael Faraday, Karl Marx and G. J. Holyoake. In *Abney Park Cemetery*, Stoke Newington, N.16 are the tomb of General Booth, founder of the Salvation Army, and memorials to many Nonconformist Divines. In the *South Metropolitan Cemetery*, Norwood, S.E.27, are the tombs of C. H. Spurgeon, Lord Alverstone, Douglas Jerrold, John Belcher, R.A., Theodore Watts-Dunton, Dr. Moffat (missionary), Sir H. Bessemer, Sir H. Maxim, Sir J. Barnby, Sir A. Manns, Mrs. Beeton, Sir Henry Tate and J. Whitaker, F.S.A. (*Whitaker's Almanack*). In the churchyard of the former *Marylebone Chapel* are buried Allan Ramsay (poet), Hoyle (whist), Ferguson (astronomer), Charles Wesley (hymn writer) and his son Samuel Wesley (musician). The chapel itself was demolished in 1949. **Crematoria**.—*Ilford* (City of London); *Norwood*; *Hendon*; *Streatham Park*; *Finchley* (St. Marylebone) and *Golders Green* (12 acres), near Hampstead Heath, with "Garden of Rest" and memorials to famous men and women.

**Cenotaph**, Whitehall, S.W.1.—(Literally "empty tomb"). Monument erected "To the Glorious Dead", as a memorial to all ranks of the Sea, Land and Air Forces who gave their lives in the service of the Empire during the First World War. Designed by Sir Edwin Lutyens. Erected as a temporary memorial in 1919 and replaced by a permanent structure in 1920. Unveiled by King George V on Armistice Day, 1920. An additional inscription was added after the 1939-45 War, to commemorate those who gave their lives in that conflict.

**Charterhouse**. Sutton's Hospital, Charterhouse Square, E.C.1. (*Master, O. Van Oss, M.A., F.S.A.; Registrar and Clerk to the Governors, J. C. Moss*), a Carthusian monastery from 1371-1537, when it came into the possession of Sir Edward (later first Lord) North, who sold it in 1565 to the fourth Duke of Norfolk, who renamed it Howard House. After his execution in 1572, following the Ridolfi Plot, hatched at Charterhouse, it was eventually granted by Queen Elizabeth, in 1587, to Norfolk's second son, Thomas Howard, Earl of Suffolk, who in 1608 sold it to Thomas Sutton, who endowed it as a Hospital for aged men "of gentle birth" and a School for Boys (removed to Godalming in 1872). The buildings are partly 14th but mainly 15th and 16th century. The Duke's private palace was destroyed by enemy action in the second World War, but the Hall, Chapel and Great Chamber are intact or restored and now accommodate some 30 Brothers. Roger Williams, founder and governor of Rhode Island, was a scholar on the Foundation. Among other famous pupils were John Wesley, Sir William Blackstone and Lord Baden-Powell, as were the poets and writers Crashaw, Lovelace, Beddoes and Thackeray, who described the School as "Greyfriars" in "The Newcombes". Visi-

tors are shown round on Wednesdays at 2.45 p.m. from April to July inclusive (charge 50p), except on the Wednesdays immediately following Easter, May Day and Spring Holiday.

**Chelsea Physic Garden**, Royal Hospital Road, S.W.3.—A garden of general botanical research, established in latter part of 17th century by the Society of Apothecaries, occupies site presented in 1772 by Sir Hans Sloane. Transferred in 1899 to the Trustees of the London Parochial Charities. Applications for orders of admission to the Clerk to the Trustees, 10 Fleet Street, E.C.4.—*Bona fide* students and teachers on any weekday. Unqualified persons limited to five special Open Days a year.

**Chelsea Royal Hospital** (founded by Charles II, in 1682, and built by Wren; opened in 1692), Royal Hospital Road, Chelsea, S.W.3, for old and disabled soldiers. Great Hall and Chapel open daily 10 to 12 and 2 to 4 (Museum 10 to 12 and 2 to 4 in winter, 2 to 5 in summer) and on Sunday afternoons. The extensive grounds include the former Ranelagh Gardens. *Governor*, General Sir Robert Ford, G.C.B., C.B.E.; *Lieut-Governor and Secretary*, Major-Gen. P. A. Downard, C.B., D.S.O., D.F.C.

**College of Arms or Heralds' College**, Queen Victoria Street, E.C.4—Her Majesty's Officers of Arms (Kings, Heralds and Pursuivants of Arms) were first incorporated by Richard III, and granted Derby House on the site of the present College building by Philip and Mary. The building now in use dates from 1671-88. The powers vested by the Crown in the Earl Marshal (The Duke of Norfolk) with regard to State ceremonial are largely exercised through the College, which is also the official repository of English pedigrees and all Arms granted to subjects of the Queen (except in Scotland). Enquiry may be made to the Officer on duty in the Public Office, Mon.-Fri. between 10 a.m. and 4 p.m.

**Commonwealth Institute**, Kensington High Street, W.8.—A permanent exhibition opened on Nov. 6, 1962, by Her Majesty the Queen, replacing the former Imperial Institute opened in 1893 in S. Kensington. An interesting feature of the building is its paraboloid copper-sheathed roof. The Institute contains, in 60,000 square feet arranged in 3 galleries, a visual representation of the history, geography and ways of life of the Commonwealth countries and dependencies; on the ground floor, exhibits of Australia, New Zealand, Bangladesh, Canada, India, Sri Lanka, the Pacific and Atlantic islands and Antarctica; on the middle gallery, the African countries, Mauritius and Seychelles; and on the upper gallery, the Caribbean counties, Bermuda, Cyprus, Gibraltar and Malta, Brunei, Hong Kong, Malaysia, Singapore, Belize, Guyana, Papua New Guinea, Isle of Man and the Channel Islands. Art Gallery; Cinema; Theatre; Library & Resource Centre; Restaurant, Shop.

Open, weekdays, 10-5.30; Sundays, 2.00-5.00. Admission free. Closed Christmas Eve, Christmas Day, Boxing Day, New Year's Day, Good Friday and May Day.

**County Hall**, Westminster Bridge, S.E.1.—The Headquarters of the Greater London Council (see pp. 634-5) built on the Pedlar's Acre, Bishop's acre, Four Acres and Float Mead, Lambeth, from the designs of Ralph Knott, with a river façade of 750 ft. The main building was completed in 1933. The building of the North and South blocks on a site to the East of the main building started in the early 1930s. They were occupied in 1939 but not finally completed until 1963. The Council, when in session, meets in public

in the council chamber every third Tuesday afternoons at 2.30 p.m.

**Courtauld Institute Galleries, University of London, Woburn Square, WC1.**—The galleries of the University of London contain the Lee collection and the Gambier-Parry collections (14th century to 18th century old masters); the important Courtauld collection of Impressionist and Post-Impressionist paintings; the Roger Fry collection and the Witt and Spooner collections (old masters and English water-colours). A major new bequest, the Princes Gate collection of old master paintings and drawings, was opened to the public in July 1981. Open weekdays, 10-5; Sundays, 2-5. Admission £1; children, OAPs, and students (except London University students), 50p.

**Custom House, Lower Thames Street, E.C.3.**—Built 1813-17, with a wide quay on Thames. The Long Room is about 190 ft. long.

**Dickens House, 48, Doughty Street, W.C.1.**—In this house Charles Dickens lived from 1837 to 1839, and here he completed *Pickwick Papers*. It is the headquarters of the Dickens Fellowship and contains many relics of the novelist. It is open to the public daily, 10 to 5 (Sundays and Bank Holidays excepted); admission 75p; students 50p; children, 25p.

**Dr. Johnson's House, Gough Square, Fleet Street, E.C.4.**—A tall late 17th-century house in which Samuel (and his wife) lived between 1748 and 1759. His *Dictionary* was compiled here. The house is furnished with 18th century pieces and there is an excellent collection of Johnsoniana. Open daily (except Sundays and Bank Holidays) from 11 to 5.30 (Winter 5). Admission 70p; students and O.A.P.s, 50p.

**Ely Place, Holborn Circus, E.C.1.**—Previously the site of the London house of the Bishop of Ely, Ely Place is a private street (built in 1773) whose affairs are administered by Commissioners under a special Act of Parliament. The 14th-century chapel, now St. Etheldreda's (R.C.) Church, is open daily until dusk.

**Fulham Palace, Bishop's Avenue, Fulham, S.W.6.**—The courtyard is 16th century, remainder 18th and 19th century. Former residence of the Bishop of London. Grounds of about 9 acres.

**Geffrye Museum, Kingsland Road, E.2.**—Open on Tuesdays to Saturdays 10 to 5, Sundays 2 to 5. Closed on Christmas Day and on Mondays except Bank Holidays. Admission free.

The Museum is housed in a building erected originally as almshouses in 1713. It was eventually purchased by the London County Council and opened as a museum in 1914. The Exhibits are shown in a series of period rooms dating from 1600 to 1939, each containing furniture and domestic equipment of middle-class English home. An 18th century wood-worker's shop, an openhearth kitchen and the original chapel are also shown, together with a selection of costume. Temporary exhibitions are held in the Exhibition Hall. There is a reference library of books on furniture, social history and art. Special arrangements for children visiting the Museum in school parties (which must be booked in advance) and in their leisure time. *Director, J. Daniels.*

**George Inn, Southwark.**—Near London Bridge Station. Given to National Trust in 1937. Last galleried inn in London, built in 1677. Open during licensed hours.

**Guildhall, King Street, City, E.C.2.**—Scene of civic government for the City for more than a thousand years. Built c. 1440; façade built 1788-9; damaged in the Great Fire, 1666, and by incendiary

bombs, 1940. The main hall and crypt (the most extensive medieval crypt in London) have been restored. Events in Guildhall include the annual election of Lord Mayor, election of Sheriffs, receptions in honour of Sovereigns and Heads of State, and the meetings of the Court of Common Council (see "Corporation of London"). Open free; weekdays, 10-5; Sundays (May to Sept.) 10-5. *Keeper of the Guildhall, J. H. Lucioni.*

The Library and Museum of the Clockmakers' Company are housed in new premises, and are open to the public, Mon. to Fri., 10-5. Admission free (entrance in Aldermanbury). The Library contains Plans of London, 1570; Deed of Sale with Shakespeare's signature; first second and fourth folios of Shakespeare's plays etc. *see also City Business Library.*

**Honourable Artillery Company's Headquarters, City Road, E.C.1.**—The H.A.C. (*Chief Exec. Capt. G. C. Lloyd, C.B.E., R.N.*) received its charter of incorporation from Henry VIII in 1537, and has occupied its present ground since 1641. The Armoury House dates from 1735. The present castellated barracks date from 1860. Four of its members who emigrated in the 17th century, founded in 1638 the Ancient and Honourable Artillery Company of Massachusetts. The H.A.C. is the senior regiment of the Territorial Army Volunteer Reserves, and maintains a Headquarters with an Officer Training Wing, and four squadrons.

**Horniman Museum and Library, London Road, Forest Hill, S.E.23.** Open daily (except Christmas Eve and Christmas Day), 10.30 to 6, Sundays 2 to 6. Only the Lecture Hall is open on Boxing Day afternoon. Admission free. The Museum was presented in 1901 to the London County Council by the founder, Mr. F. J. Horniman, M.P. It is now administered by the I.L.E.A. on behalf of the G.L.C. The Museum has three main departments, ethnography, musical instruments and natural history. In the ethnography department the large collections include exhibits illustrating man's progress in the arts and crafts from prehistoric times. The natural history department includes an aquarium. Reference library (except Mondays). Schools Service. Free concerts and lectures (autumn and spring). Special exhibitions. *Director, D. M. Boston, O.B.E.*

**Horse Guards, Whitehall, S.W.1.**—Archway and offices built about 1753. The mounting of the guard (Life Guards, or the Blues and Royals) at 11 a.m. (10 a.m. on Sundays) and the dismounting at 4 p.m. are picturesque ceremonies. Only those on the Lord Chamberlain's list may drive through the gates and archway into *Horse Guard's Parade* (230,000 sq. ft.), where the Colour is "trooped" on the Queen's Official Birthday.

**Houses of Parliament, Westminster, S.W.1.**—After its destruction by fire in 1834, the Palace of Westminster was re-built in 1840-68 from the designs of Sir Charles Barry assisted by Augustus Welby Pugin, at a cost of over £2,000,000.—Normally open (free) to visitors on Saturdays, on Easter Monday and Tuesday, May Day, Spring and late summer Bank Holiday Mondays and Tuesdays; Mon., Tues. and Thurs. in August and Thurs. in September, if neither House is sitting. Admission at the Norman Porch, on the above mentioned days, from 10 a.m. to 4.30 p.m. Closed to visitors on Christmas Day, Boxing Day and Good Friday and the Saturday preceding the State Opening of Parliament. Admission to the Strangers' Gallery of the House of Lords as arranged by a Peer or by queue *via* the St. Stephen's Entrance. Admission to the Strangers' Gallery of the House of Commons, during session by Members' order (Members' orders should be sought well in

advance), or by queue via St. Stephen's Entrance. Queues are shorter after 6 p.m., Mon-Thurs. Overseas visitors may obtain cards of introduction from their Embassy or High Commission. The present House of Commons was used for the first time on October 26, 1950, the original Chamber having been destroyed by bombs in 1941. The Victoria Tower (House of Lords) is about 330 ft. high, and when Parliament is sitting the Union Jack flies by day from its flagstaff. The Clock Tower of the House of Commons is about 320 ft. high and contains "Big Ben," the Hour Bell, said to be named after Sir Benjamin Hall, First Commissioner of Works when the original bell was cast in 1856. This bell, which weighed 16 tons 11 cwt., was found cracked in 1857. The present bell (13½ tons) is a recasting of the original and was first brought into use in July, 1859. A light is displayed from this tower at night when Parliament is sitting.

**Inns of Court.**—The *Inner and Middle Temple*, S. of Fleet Street, E.C.4, and N. of Victoria Embankment, to which the gardens extend, have occupied (since early 14th century) the site of the buildings of the Order of Knights Templars. *Inner Temple Hall* (rebuilt in 1955 after bomb damage) is open to the public on Monday-Friday, 11-12 noon, except on Public Holidays. *Temple Church*, restored in 1958 after severe damage by bombing, is open on weekdays 2-4.30 p.m. and the public are admitted to Sunday services. *Middle Temple Hall* (1562-70) is open to the public when not in use, Monday-Friday, 10-12 and 3-4.30 p.m.; Saturday when staff are available. Closed, Public Holidays. In Middle Temple Gardens (not open to the public) Shakespeare (Henry VI, Part I) places the incident which led to the "Wars of the Roses" (1455-85). *Lincoln's Inn*, from Chancery Lane to Lincoln's Inn Fields, W.C.2, occupies the site of the palace of a former Bishop of Chichester and of a Black Friars monastery. The records show the Society as being in existence in 1422. The Hall and Library Buildings are of 1845, although the Library is first mentioned in 1474, and the old Hall early 16th century, the Chapel was rebuilt c. 1619-23. Halls open to public by appointment. Chapel and Gardens, Mon.-Fri. 12-2.30. Chapel services, Sun. 11.30 a.m. during Law Terms. *Lincoln's Inn Fields* (7 Acres); the Square, laid out by Inigo Jones, contains many fine old houses with handsome interiors. *Gray's Inn*, Holborn/Gray's Inn Road, W.C.1. Early 14th century. Hall (1556-60); Chapel (largely rebuilt in 1698). Services 11.15 a.m. (during Law Dining Terms only.) Holy Communion 1st Sunday in every month except Aug.-Sept. Public welcome. Library (33,000 vols., mss. and printed books) may be viewed by appointment. Gardens open to the public from 12 noon to 2 p.m. (May-July), 9.30 a.m.-5 p.m. (Aug.-Sept.). The Inn, although badly damaged during the last war, has been completely restored to its former beauty with gracious red brick buildings overlooking grass covered squares and gardens. Strong Elizabethan associations. No other "Inns" are active, but what remains of *Staple Inn* is worth visiting as a relic of Elizabethan London; though heavy damage was done by a flying-bomb, it retains a picturesque gabled front on Holborn (opposite Gray's Inn Road). *Clement's Inn* (near St. Clement Danes' Church), *Clifford's Inn*, Fleet Street, and *Thavies Inn*, Holborn Circus, are all rebuilt. *Serjeant's Inn*, Fleet Street (damaged by bombing) and another (demolished 1910) of the same name in Chancery Lane, were composed of Serjeants-at Law, the last of whom died in 1922.

**Jewish Museum**, Woburn House, Upper Woburn Place, W.C.1.—Opened in 1932, the Museum contains a comprehensive collection of Jewish antiquities, liturgical items and "Anglo-Judaica". Open (Mon.-Thurs.), 12.30-3; (Sun.), 10.30-12.45. Closed on Fri-

days, Saturdays, Jewish Holy days and Bank Holidays. Admission charge. Conducted tours of parties by arrangement with the Secretary.

**Keats House**, Keats Grove, Hampstead, N.W.3.—In two houses here, now made into one, John Keats lived at various times between 1818 and 1820. Restored 1974-75. Open weekdays, 10-1 a.m., 2-6 p.m.; Sundays and Bank Holidays, 2 p.m.-5 p.m. Closed—Christmas Day, Boxing Day, New Year's Day, Good Friday, Easter Eve and May Day. The Keats Memorial Library contains over 6,000 volumes.

**Kensington Palace**, W.8.—The original house was bought by William III in 1689 and enlarged by Christopher Wren. The birthplace of Queen Victoria in 1819. The state apartments are open to the public and contain pictures and furniture from the royal collections. A suite of rooms devoted to the memory of Queen Victoria is also shown. *Hours of Opening*: Weekdays, 9 a.m.-5 p.m.; Sundays (throughout the year) 1 p.m.-5 p.m. Admission: summer, 80p; winter, 40p; children and OAPs: summer, 40p; winter, 20p. *Kensington Gardens* (q.v.) adjoin.

**Lambeth Palace**, S.E.1.—The official residence of the Archbishop of Canterbury, on south bank of Thames; the oldest part is 13th century, the house itself is early 19th century. For leave to visit the historical portions, applications should be made by letter to the Archbishop's Chaplain.

**Livery Companies' Halls.**—The Principal Companies (see pp. 636-7) have magnificent halls but admission to view them has generally to be arranged beforehand. Among the finest or more interesting may be mentioned the following: Goldsmiths' Hall, Foster Lane. The present hall was completed in 1835, and contains some magnificent rooms. Exhibitions of plate have been shown here periodically in recent years. Fishmongers' Hall, London Bridge (built 1831-3), now admirably restored after severe bomb damage, also contains fine rooms. Apothecaries' Hall, Black Friars Lane, was rebuilt in 1670, after the Great Fire, and has library, hall and kitchen which are good examples of this period, together with a pleasant courtyard. Vintners' Hall, Upper Thames Street, was also rebuilt after the Great Fire, and its hall has very fine late 17th century panelling. The Watermen and Lightermen's Company is not, strictly speaking, a Livery Company, but its hall, in St. Mary at Hill, is a good example of a smaller 18th century building, with pilastered façade. It was completed in 1780. Stationers' Hall, in Stationers' Hall Court, behind Ludgate Hill, another post-fire Hall, standing in its own court, has a particularly finely carved screen; its façade dates from 1800. Barbers' Hall, Monkwell Street, with a Hall attributed to Inigo Jones, was completely destroyed by bombing, but has now been rebuilt. The new hall was built some 30 ft. from the old site to enable one of the bastions and part of the wall of the Roman fort to remain exposed to view.

**Lloyd's**, Lime Street, E.C.3.—Housed in the Royal Exchange for 150 years and in Leadenhall Street from 1928-1957. The present building was opened by H.M. Queen Elizabeth the Queen Mother on Nov. 14, 1957. The underwriting space has an area of 44,250 sq. ft. and houses the Lutine Bell.

**London Transport Museum**, Covent Garden, W.C.2.—Housed in the former Flower Market, the Museum contains a collection of buses, trams, trolleybuses, trains, working displays and London Transport paraphernalia. There is a research library and lecture theatre. Open every day, 10 a.m. to 6.00 p.m. (except Christmas Day and Boxing Day). Admission: £1.60; children and OAPs, 80p.

**Lord's Cricket Ground**, St. John's Wood Road, N.W.8.—The headquarters (since 1814) of the Marylebone Cricket Club (founded 1787), the premier cricket club in England, the scene of some of the principal matches of the season and Middlesex County headquarters. Real tennis court and squash courts in building behind members' pavilion.

The Cricket Memorial Gallery, a museum of cricket, open to the public on match days (except Sundays) until 5 p.m. Adults, 50p; children and O.A.P.s, 25p. In winter and on non-match days admission is by prior arrangement with the Curator.

**Mansion House**, City, E.C.4.—(Built 1739–53, reconstructed 1930–31.) The official residence of the Lord Mayor; the Egyptian Hall and Ballroom are the chief attractions. Admission by order from the Lord Mayor's Secretary.

**Markets.**—The London markets (administered by the Corporation of the City of London) provide foodstuffs for 8,500,000 to 9,000,000 people. *Central Meat, Fish, Fruit, Vegetable, and Poultry Markets*, Smithfield (present buildings, 1866) the largest meat market in the world and site of St. Bartholomew's Fair from 9th to 19th century; *Leadenhall Market* (Meat and Poultry built 1881, part recently demolished); *Billingsgate* (Fish), Thames Street (built 1875, part recently demolished) a market site for over 1,000 years (moved to the Isle of Dogs in Jan. 1982); *Spitalfields*, E.1. **National Army Museum**, Royal Hospital Road, S.W.3. Established by Royal Charter (1960). History of British, Indian and Colonial land forces, 1485 to 1914. Galleries showing the development of the British army from 1914 and the Indian army 1914–47 will open in 1983. Indian Army room and the regimental collections of 5 Irish infantry regiments disbanded in 1922 at R.M.A. Sandhurst, Camberley, Surrey may be viewed by appointment only, Mon. to Fri.

**Percival David Foundation of Chinese Art**, 53 Gordon Square, W.C.1.—Set up in 1951 to promote the study and teaching of the art and culture of China and the surrounding regions, and provide facilities necessary to that end. The Foundation contains the collection of Chinese ceramics formed by Sir Percival David and his important library of books on Chinese art. To these was added a gift from the Hon. Mountstuart Elphinstone of part of his collection of Chinese monochrome porcelains. The galleries were opened to the public in 1952. The Foundation is administered on behalf of the University of London by the School of Oriental and African

Studies. *Hours of opening:* Galleries, Mon. 2 to 5 p.m.; Tues. to Fri. 10.30 a.m. to 5 p.m.; Sat. 10.30 a.m. to 1 p.m.; Closed Sats. in August and Bank Holidays. Library available to ticket holders only; applications in writing to the Curator, Miss M. Medley. *Head of the Foundation,* Prof. W. Watson.

**Port of London.**—The Port of London comprises the tidal portion of the River Thames from Teddington to the seaward limit (Tongue light vessel), a distance of 95 miles and two operational dock systems and land for redevelopment, covering an area of 4,315 acres, of which 512 acres are water. The governing body is the Port of London Authority, whose Head Office is in London Dock House, E.1. Particulars of the docks are as follows:—*India & Millwall Docks, E.14*—remaining area vested in Docklands Development Corporation. Closed except for wine in bulk. *Royal Victoria & Albert & King George V Docks, E.16*—Area 776 acres, including 230 acres water—limited operations. *Tilbury Docks, Essex.*—Area 1,037 acres, including 155 acres water. These docks are 26 miles below London Bridge and are used principally by vessels plying on the Australian, North American, Indian, other Eastern routes, West Africa and the Continent. Tilbury Passenger Landing Stage provides accommodation for liners at all states of the tide and adjoins Tilbury Riverside Station. A development and extension scheme at Tilbury added nearly 2 miles of deepwater quays, in addition to a £7 million Grain Terminal. With the recently completed Northfleet Hope Development, Tilbury is capable of handling forest products, containers and roll-on/roll-off traffic.

The Katherine Docks were sold to the G.L.C. in 1969 and the London Docks were closed on May 31, 1969 and sold to Tower Hamlets Council in 1976. Surrey Commercial Docks were closed in 1970 and were sold to the G.L.C. and Southwark Council in 1976 and 1977.

**Prince Henry's Room, 17 Fleet Street, E.C.4.**—Early 17th century timber-framed house containing fine room on first floor with panelling and moulded plaster ceiling. Open Mon. to Fri. 1.45 p.m. to 5 p.m.; Sat. to 4.30 p.m. Admission free. Closed Christmas Day and Good Friday. Available for morning or evening lettings on application to The Town Clerk, Guildhall, E.C.2.

**Roman London.**—Though visible remains are very few, almost every excavation for the foundations of new buildings in the City reveals Roman remains. Sections of the City wall, often however merely a medieval re-build on the Roman foundations, are the most striking remains still to be seen. Fragments may be seen near the White Tower, in the Tower of London, Trinity Square, No. 1 Crutched Friars, All Hallows, London Wall—its semi-circular vestry being built on the remains of a round bastion—St. Alphage, London Wall, recently restored by the Corporation of London and showing a striking succession of building and repairs from Roman till later medieval times, St. Giles, Cripplegate and, by permission only, the great bastion beneath the pavement of the yard of the G.P.O. in Giltspur Street. Recent excavations in the Cripplegate area have revealed that a fort was built in this area and later incorporated in the town wall in this north-west corner of the City. Evidence from these excavations proves that the fort was not built until about A.D. 100–120 and the date of the town wall must therefore be considerably later. Remains of a bath building are preserved beneath the Coal Exchange in Lower Thames Street and other foundations may be seen in the Crypt of All Hallows Barking by the Tower. The governmental headquarters of the town was a great basilica, more than 400 ft. long from east

to west, the massive walls of which have been encountered, extending from Leadenhall Market across Gracechurch Street as far as St. Michael's, Cornhill. Excavations during the past few years have shown that buildings over the river front were erected on huge oaken piles and a framework of timber for a considerable distance both east and west of the present London Bridge. Excavations since 1948 on a bombed site in Walbrook, on the banks of the old Wall Brook, produced interesting discoveries including a Temple of Mithras, from which the splendid marble statues have been placed in the Museum of London, where many other relics from the Roman City may be seen.

**Royal Exchange, E.C.3.** (founded by Sir Thomas Gresham, 1566, opened as "The Bourse" and proclaimed "The Royal Exchange" by Queen Elizabeth I, 1571, rebuilt 1667–69 and 1842–44). The building is occupied by the Guardian Royal Exchange Assurance Group and by the London International Financial Futures Exchange, and is administered by the Gresham Committee (*Clerk, Mercers' Hall, Ironmonger Lane, E.C.2.*)

**Royal Geographical Society, Kensington Gore, S.W.7.**—Map room open to public, free.

**St. James's Palace, in Pall Mall, S.W.1.**—(Not open to the public.) Built by Henry VIII; the Gatehouse and Presence Chamber remain, later alterations by Wren and Kent. The Chapel Royal and the Queen's Chapel (1623) opposite the Palace are open to the public for services. Representatives of Foreign Powers are still accredited "to the Court of St. James's". Clarence House (1825) in the palace precinct is the home of H.M. the Queen Mother.

**St. John's Gate, Clerkenwell, E.C.1.**—Now the Chancery of the Order of St. John of Jerusalem, and formerly the entrance of the Priory of that Order, of which the gate house (early 16th century) and crypt of Church (12th century) alone survive. They may be inspected on application to the Curator.

**Sir John Soane's Museum, 13 Lincoln's Inn Fields, W.C.2.** The house and galleries, built 1812–24, are the work of the founder, Sir John Soane (1753–1837) and contain his collections, arranged as he left them, in pursuance of an Act procured by him in 1833. Exhibits include the Sarcophagus of Seti I (c. 1290 B.C.), classical vases and marbles, Hogarth's *Rake's Progress* and *Election* series, paintings by Canaletto, Reynolds, Turner, Lawrence, etc., and sculpture by Chantrey, Flaxman, etc. Soane's library of 8,000 vols. and collection of 20,000 architectural drawings are available for study. Open Tues.—Sat. inclusive, 10 a.m. to 5 p.m. Closed Bank Holidays. *Curator,* Sir John Summerson, C.B.E., F.B.A. *Inspector,* Miss D. Stroud, M.B.E., F.S.A.

**Somerset House, Strand, W.C.2, and Victoria Embankment, W.C.2.**—The beautiful river façade (600 ft. long) was built in 1776–86 from the designs of Sir W. Chambers; the eastern extension, which houses part of King's College, was built by Smirke in 1829. Somerset House was the property of Lord Protector Somerset, at whose attainder in 1552 the palace passed to the Crown, and it was a royal residence until 1692.

**Stock Exchange, E.C.2.**—The market floor of the new Stock Exchange building in London opened for trading in June, 1973. A tower, 331 feet high, and the new Market replace the complex of buildings started in 1801 on the same site. The new building is the headquarters of The Stock Exchange, following the amalgamation of all the Stock Exchanges in Great Britain and Ireland on March 25, 1973.

The Stock Exchange provides a market for the

purchase and sale of over 7,000 securities officially listed, and valued at nearly £455,994,600,000 and also securities listed on other Stock Exchanges throughout the World. At present the members of The Stock Exchange, who consist of brokers (agents for clients) and Jobbers (dealers in specific securities) number about 4,200. The Visitors Gallery is open between 9.45 a.m. and 3.15 p.m. Monday to Friday. Admission free and without ticket; film show. Advance bookings are advisable; last complete programme begins at 2.30 p.m.

**Thames Embankments.**—The Victoria Embankment, on the N. side (from Westminster to Blackfriars), was constructed by Sir J. W. Bazalgette for the Metropolitan Board of Works, 1864–70 (the seats, of which the supports of some are a kneeling camel, laden with spicery, and of others a winged sphinx, were presented by the Grocers' Company, and by Rt. Hon. W. H. Smith, M.P., in 1874); the Albert Embankment, on the S. side (from Westminster Bridge to Vauxhall), 1866–69; the Chelsea Embankment, 1871–74. The total cost exceeded £2,000,000. Sir J. W. Bazalgette (1819–91) also inaugurated the London main drainage system, 1858–65. A medallion has been placed on a pier of the Victoria Embankment to commemorate the engineer of the Thames waterside improvements ("Flumini vincula posuit"). The headquarters of the G.L.C. include an embankment on the Surrey side.

**Thames Tunnels.**—The *Rotherhithe Tunnel*, constructed by the L.C.C. and opened in 1908, connects Commercial Road, E.14, with Lower Road, Rotherhithe; the total length is 1 mile 332 yards, of which 474 yards are under the river. The cost of the tunnel and its approaches was £1,506,914. The first *Blackwall Tunnel* (pedestrians and vehicles) was constructed by the L.C.C. and opened in 1897, connecting East India Dock Road, Poplar, with Blackwall Lane, East Greenwich. The cost of the tunnel with its approaches was about £1,323,663. A second tunnel (for southbound vehicles only) was opened in August, 1967, at a cost of about £9,750,000 and the old tunnel was improved at a cost of about £1,350,000 and made one-way northbound. Both tunnels are for vehicles only. The relative lengths of the tunnels measured from East India Dock Road to the Gate House on the south side are 6,215 ft. (old tunnel) and 6,152 feet. *Greenwich Tunnel* (pedestrians only), constructed by the L.C.C. and opened in 1902, connects the Isle of Dogs, Poplar, with Greenwich. The length of the subway is 406 yards, and the cost was about £180,000. The *Woolwich Tunnel* (pedestrians only), constructed by the L.C.C. and opened in 1912, connects North and South Woolwich below the passenger and vehicular ferry from North Woolwich Station, E.16, to High Street, Woolwich, S.E.18. The length of the subway is 552 yards, and its cost was about £86,000. The *Thames Tunnel* (1,300 feet) was opened in 1843 to connect Wapping (N.) with Rotherhithe (S.). In 1866 it was closed to the public, and purchased by the East London Railway Company. The *Tower Subway* for pedestrians was opened in 1870, and has long been closed.

**Tower Hill**, E.C.1 and E.C.3, was formerly the place of execution for condemned prisoners from the Tower, the site of the scaffold being marked in the gardens of Trinity Square.

**Tower of London**, E.C.3.—Admission to a general view of the Tower, the White Tower (Armouries), the History and Oriental Galleries, Ordnance, the Beauchamp and Bloody Towers and the Chapels Royal—Admission (1982): £2:50 (£3:00 July and

On Sundays throughout the year the public is admitted to Holy Communion, 9.15 a.m. and Morning Service, 11 a.m. Open on weekdays, Mar. 1 to Oct. 31, 9.30–5; Nov. 1 to Feb. 28, 9.30–4; Sundays, 2 p.m. to 5 p.m., Mar. 1–Oct. 31 only; Tower closed Christmas Eve, Christmas Day, Boxing Day, Good Friday and New Year's Day. *Constable*, Gen. Sir Peter Hunt, G.C.B., D.S.O., O.B.E.; *Lieutenant*, Lieut. Gen. Sir Terence McMeekin, K.C.B., O.B.E.; *Resident Governor and Keeper of the Jewel House*, Maj.-Gen. G. H. Mills, C.B., O.B.E.; *Master of the Armouries*, A. V. B. Norman; *Chaplain of the Chapel Royal of St. Peter ad Vincula*, Rev. J. F. M. Llewellyn.

The White Tower is the oldest and central building in Her Majesty's Royal Palace and Fortress of the Tower of London. It was built at the order of William I and constructed by Gundulph, Bishop of Rochester, in the years 1078–98. The Inner Wall, with thirteen towers, was constructed by Henry III in the 12th century. The Moat was extended and completed by Richard I and the Wharf first mentioned in 1228. The Outer Wall was completed in the reign of Edward I and now incorporates 6 towers and 2 bastions. The last Monarch to reside in the Tower of London was James I. The Crown Jewels came to the Tower in the reign of Henry III. All coinage used in Great Britain was minted in the Outer Ward of the Tower of London until 1810 when the Royal Mint was formed. The Tower of London has had a military garrison since 1078. The Chapel Royal of St. John the Evangelist, within the White Tower (1080–1088) is the oldest Norman church in London. The chapel of St. Peter ad Vincula was built in the early 16th century.

**Wellington Museum**, Apsley House, 149 Piccadilly, at Hyde Park Corner, W.1.—Admission 60p, children 30p. Open weekdays, 10 to 6; Sundays, 2.30 to 6. Closed Mondays and Fridays, Christmas Eve, Christmas Day, Boxing Day and New Year's Day. Apsley House was designed by Robert Adam for Lord Bathurst and built 1771–8. It was bought in 1817 by the Duke of Wellington, who in 1828–29 employed Benjamin Wyatt to enlarge it, face it with Bath stone and add the Corinthian portico. The museum contains many fine paintings, services of porcelain and silver plate and personal relics of the 1st Duke of Wellington (1769–1852) and was given to the Nation by the 7th Duke. It was first opened to the public in 1952, under the administration of the Victoria and Albert Museum.

**Westminster Hall**, S.W.1 (built by William Rufus, A.D. 1097–99 and altered by Richard II, 1394–1401), adjacent to and incorporated in the Houses of Parliament—Westminster Hall is part of the old Palace of Westminster and survived the fire, which destroyed most of the remainder of the Palace (Oct. 16, 1834) and the bombs of 1941. The Hall is about 240 ft. long, 69 ft. wide, and 90 ft. high. The hammer beam roof of carved oak, dating from 1396–98, is one of the principal attractions. King Charles I was tried in the Hall. Admission: During sessions—Mon. to Fri., 10 a.m. until 1.30 p.m., provided neither House is sitting. Sat. 10 a.m.–5 p.m. During Recess—Mon. to Fri., except Good Friday, Christmas Day and Boxing Day, 10 a.m.–4 p.m.; Sat., 10 a.m.–5 p.m.

#### MUSIC

Royal Opera House, Covent Garden, W.C.2.—Opera and Ballet mid Sept.—early August. The (third) Covent Garden Theatre was opened May 15, 1858 (the first was opened Dec. 7, 1732). *General Director*, Sir John Tooley.

Royal Albert Hall, Kensington Gore, S.W.7.—Regular seasons of Promenade Concerts. Also used for public meetings, concerts and other entertainments. The elliptical hall, one of the largest in the world, was completed in 1871.

Royal Festival Hall, South Bank, S.E.1.—Opened for the Festival of Britain, 1951, and administered by Greater London Council. Concerts and regular ballet seasons. Queen Elizabeth Hall and Purcell Room opened 1967. *General Administrator*, South Bank Concert Halls, M. Kaye.

Kneller Hall, Twickenham.—Royal Military School of Music. A band of up to 120 instrumentalists gives concerts in the grounds on Thursdays throughout the summer season, commencing at 8 p.m. Members of the public are welcome to attend; admission, 50p (Grand Concerts, £1). Season tickets available.

#### ENVIRONS OF LONDON

Alexandra Park and Palace, Muswell Hill, N.10.—Set in a park of 220 acres, the second Palace

was completed in 1875 at a cost of £400,000. Although it suffered severe damage from a fire in July 1980 it is still partially in use for exhibitions and concerts, and there are plans for restoration to provide modern facilities. Trusteeship of the Palace devolved onto the G.L.C. in 1965, who in turn passed it to Haringey Council on January 1, 1980.

Barnet and Hadley Green.—Scene of Battle, A.D. 1471. Hadley Woods.

Burnham Beeches and Fleet Wood, Bucks.—Magnificent wooded scenery, purchased by the Corporation of London for the benefit of the public in 1879, includes Fleet Wood (65 acres) presented in 1921. During summer a bus service runs daily, Sundays included, from Slough Station passing within 250 yards of "Gray's Elegy" Church.

Bushy Park (1,099 acres).—Adjoining Hampton Court, contains many fine trees and avenue of horse-chestnuts enclosed in a fourfold avenue of limes, planted by King William III. "Chestnut Sunday" (when the trees are in full bloom with their "candles") is usually about May 1 to 15.

Chequers, presented to the Nation by Lord and Lady Lee of Fareham, as the official country residence for the Prime Minister of the day, and subsequent holders of the office. The gift was approved by Parliament in the *Chequers Estate Act*, 1917 and in 1921 the Chequers Estate of 700 acres was added to the gift by Lord Lee. Chequers is a mansion in Tudor style in the Chilterns about 3 miles from Princes Risborough, Bucks, and contains a collection of Cromwellian portraits and relics.

Darwin and Down House, Downe, Farnborough, Kent.—Where Charles Darwin thought and worked for 40 years and died in 1882. Maintained by the Royal College of Surgeons. Open 1 to 6. Closed Mondays (except Bank Holidays), Fridays, Christmas Eve, Christmas Day, Boxing Day and February. Admission, 70p. Children, 20p.

Dulwich, S.E.21 (5 miles from London), contains *Dulwich College* (founded by Edward Alleyn in 1619), the *Horniman Museum and Dulwich Park* (72 acres). The *Dulwich Picture Gallery*, built by Sir John Soane to house the collection bequeathed by the artist, Sir Francis Bourgeois, was damaged by enemy action in the Second World War. The pictures, however, were saved, and the gallery has been rebuilt with the aid of a grant from the Pilgrim Trust. It was reopened by Queen Elizabeth the Queen Mother on April 27, 1953. In *Dulwich Village* the rural characteristics of the pre-suburban periods are preserved.

Eltham, Kent (10 miles from London by Southern Region). Remains of 13th-15th century Eltham Palace, the birthplace of John of Eltham (1316), son of Edward II. The hall, built by Edward IV, contains fine hammer-beam roof of chestnut. In the churchyard of St. John the Baptist is the tomb of Thomas Doggett, the comedian and founder of the Thames Watermen's championship (Doggett's Coat and Badge).

Epping Forest (6,000 acres, originally purchased by the Corporation of London for £250,000 and thrown open to the public in 1882; the present forest is 12 miles long by 1 to 2 miles wide, about one-tenth of its original area). *Loughton, Buckhurst Hill, Chingford, High Beech* (London Transport and Eastern Region). Beautiful forest scenery.

Eton College.—22 miles from London. The most famous of English schools, founded by Henry VI in 1440, the scholars numbering 1,250 in July, 1980. Buildings date from 1442.

**Greenwich, S.E.10.**—*Greenwich Hospital* (since 1873, the Royal Naval College) was built by Charles II, largely from designs by John Webb, and by Queen Anne and William III, from designs by Wren, on the site of an ancient royal palace, and of the more recent *Palace of Placentia*, an enlarged edition of the palace, constructed by Humphrey, Duke of Gloucester (1391–1447), son of Henry IV. Henry VIII, Queen Mary I and Queen Elizabeth I were born in the Royal Palace (which reverted to the Crown in 1447) and King Edward VI died there. In the principal quadrangle is a marble statue of George II, by Rysbrack. (For *National Maritime Museum*, see Index.) *Painted Hall and Chapel* open daily except Thursdays from 2.30 p.m. to 5 p.m. (closed on Sundays, Oct.–April inclusive). Visitors are also admitted to Morning Service in the Chapel at 11 a.m. summer and winter, except during College vacations. *Greenwich Park* (196½ acres) was enclosed by Humphrey, Duke of Gloucester, and laid out by Charles II, from the designs of Le Nôtre. The Queen's House, begun in 1616, was designed for Anne of Denmark by Inigo Jones. On a hill in Greenwich Park is the former Royal Observatory (founded 1675). Part of its buildings at Greenwich have been taken over by the Maritime Museum and named *Flamsteed House*, after John Flamsteed (1646–1719), first Astronomer Royal. Astronomical and navigational equipment is exhibited, and the time ball and zero meridian of longitude can also be seen. The Parish church of Greenwich (*St. Alfege*) was rebuilt by Hawksmoor (Wren's pupil) in 1728, and restored after severe damage during the Second World War. General Wolfe (Heights of Abraham) and Tallis ("the father of Church Music") are buried in the church. Henry VIII was christened in the former church. *Charlton House*: built in the early 17th century (1607–1612) by Adam Newton, tutor to Prince Henry, brother to Charles I. The house is largely in the Jacobean style of architecture. *Cutty Sark*, the last of the famous tea clippers, which has been preserved as a memorial to ships and men of a past era. The ship is fully restored and re-rigged, with a museum of sail on board. Open to visitors: weekdays, 11 to 5 (Summer, 6 p.m.); Sundays and Boxing Day, 2.30 to 5. The yacht *Gipsy Moth IV* in which Sir Francis Chichester sailed single-handed round the world, 1966–67, is preserved alongside the *Cutty Sark*.

**Ham House, Richmond.**—A notable example of 17th-century domestic architecture, long the home of the Tollemache family (Earls of Dysart). The contents, described as "probably the finest and most varied collection of Charles II's reign to survive", were purchased for the Victoria and Albert Museum which now administers the house. Ham House may be seen on Tues.–Sun. inclusive and on Bank Holidays, 2–6 p.m., April–Sept., 12–4 p.m., Oct.–March. Closed Mon. (except Bank Holidays), Christmas Eve, Christmas Day, Boxing Day, Good Friday, New Year's Day and May Day. Admission £1; children, students and O.A.P.s, 50p.

**Hampton Court.**—Sixteenth-century Palace built by Cardinal Wolsey, with additions by Sir Christopher Wren for William and Mary, 15 miles from London. Fine view of river. Beautiful gardens with maze and prolific grape vine (planted in 1769). Old Royal Apartments and collection of pictures. Tennis Court, built by King Henry VIII in 1530. The Palace is closed on Christmas Eve, Christmas Day, Boxing Day, New Year's Day and Good Friday. April–September: State Apartments: (1982) £1.80; (Oct.–March 90p). Children under sixteen and O.A.P.s 90p (Oct.–March 50p). Mantegna Gallery 15p. State Carriages 15p. Maze 15p. Tennis Court, closed Oct.–March. Maze closed Nov.–Feb. Open April–Sept.

9.30–6 (Sundays 11–6) (Maze 10.00–6.00; 11–6). Nov.–March, 9.30–5 (Sundays 2–5) (Maze 10–5, 11–5).

**Harrow-on-the-Hill.**—10 miles by Metropolitan and other railways. Large public school founded by John Lyon in 1571. The "Fourth Form Room" dates from 1608.

**Hughenden Manor, High Wycombe, Bucks.**—The home of Disraeli from 1847 till his death and contains much of his furniture, books, etc. Conveyed to the National Trust in 1947. Open April to October, Wednesday to Saturday, 2–6 or till dusk. Sundays and Bank Holidays, 12.30 to 6. March and Nov., Sat. and Sun. only, 2–5 or till dusk. Closed Good Friday. Admission (1982) (non-members), £1.30; Children 65p.

**Jordans and Chalfont St. Giles, near Beaconsfield, Bucks,** contain the *Old Quaker Meeting House* (1688) at Jordans, in the burial ground of which lies William Penn (Pennsylvania); a barn built out of the timbers of the *Mayflower* by the 17th-century owner of Jordans (Gardener). At Chalfont St. Giles is the cottage where Milton lived during the Great Plague (1665–1666).

**Kew, Surrey,** was a favourite home of the early Hanoverian monarchs. Kew House, the residence of Frederick, Prince of Wales, and later of his son, George III, was pulled down in 1803, but the earlier Dutch House, now known as Kew Palace, survives. It was built in 1631 and acquired by George III as an annexe to Kew House in 1781. The famous Kew Gardens (see p. 647) were originally laid out as a private garden for Kew House for George III's mother in 1759 and were much enlarged in the nineteenth century, notably by the inclusion of the grounds of the former Richmond Lodge.

**Marble Hill House, Twickenham, Middlesex.**—Example of the English Palladian style, built 1724–9 for Henrietta Howard, Countess of Suffolk, mistress of George II. Reopened 1966, after restoration work on the elevations of the house, entrance hall, main staircase and first floor rooms. The Great Room and mahogany staircase are noteworthy. Open daily (except Fri.) 10 a.m.–5 p.m. (closed 4 Nov.–Jan.). Admission free. Now houses fine collection of early 18th century paintings and furniture.

**Osterley Park, Isleworth.**—House and park of 140 acres given to the National Trust by the Earl of Jersey in 1949. The Elizabethan house, built in 1577 for Sir Thomas Gresham, was largely remodelled by Robert Adam, and the staterooms are among the best examples of Adam decoration. Open daily, except Mondays, (April–Sept.) 2–6 p.m.; (Oct.–Mar.) 12 noon–4 p.m. Closed Monday (except Bank Holidays), Christmas Eve, Christmas Day, Boxing Day, New Year's Day, Good Friday and May Day. Admission £1, children 50p.

**Richmond, Surrey,** contains the red brick gateway of *Richmond Palace* (Henry VIII, 1485–1509) and buildings of the Jacobean, Queen Anne, and early Georgian periods, including *White Lodge* in Richmond Park, the former home of Queen Mary's mother (the Duke of Windsor was born there, June 23, 1894), and now the home of the Royal Ballet School. The *Star and Garter Home for Disabled Soldiers, Sailors, and Airmen* (the Women's Memorial of the Great War) was opened by Queen Mary in 1924. *Richmond Park* (2,469 acres) contains herds of fallow and red deer.

**Royal Air Force Museum, Hendon, N.W.9.**—The museum was established in 1963 and officially opened by the Queen in November 1972. It covers all aspects of the history of the Royal Air Force and its predecessors and most of the history of aviation

generally. The museum building is sited on ten acres of the historic former airfield at Hendon. Its aircraft hall, which occupies two hangars dating from the First World War, displays some 40 aircraft from the museum's total collection of over 100 machines. Admission free.

Adjacent to the R.A.F. Museum is the Battle of Britain Museum, which contains a unique collection of British, German and Italian aircraft. Admission: £1.00; children and O.A.P.s 50p. Both Museums are open weekdays 10 a.m.–6 p.m. (Sundays, 2 p.m.–6 p.m.). Closed 24, 25, 26 Dec., 1 Jan., Good Fri. and May Day.

**Runnimeade.**—A meadow of about 100 acres, on S. bank of Thames (part of the Crown Lands), between Windsor and Staines. From June 15–23, 1215, the hostile Barons encamped on this meadow during negotiations with King John, who rode over each day from Windsor. The 48 "Articles of the Barons" were accepted by the King on June 15, and were subsequently embodied in a charter, since known as *Magna Carta*, of which several copies were sealed on June 19. About half a mile N.E. of the meadow is *Magna Carta Island* (claimed as the actual site of the sealing), presented to the National Trust in 1930.

A memorial at *Cooper's Hill*, near Runnimeade, to members of the Commonwealth air forces who lost their lives in the Second World War while serving from bases in the United Kingdom and north-western Europe and have no known grave, was unveiled by the Queen on October 17, 1953. Her Majesty on May 14, 1965, unveiled a memorial to the late President of the United States, John F. Kennedy, on ground nearby.

**Syon House, Brentford.**—The summer home of the Duke of Northumberland. The House is built on the remains of the Nunnery of Syon, founded by the order of Henry V in 1415. At the Dissolution of the Monasteries the estate reverted to the Crown. In 1594 it was granted to the 9th Earl of Northumberland, who altered and improved the property. In the eight years, 1762–1770, the interior was transformed and furnished by Robert Adam. Open Easter to Sept. 29 (Sun. to Thurs.), 12–5–00 p.m.

**Waltham Abbey (or Waltham Holy Cross), 13 miles from London (Eastern Region).**—The Abbey ruins, Harold's Bridge (11th century), the Nave of the former cruciform Abbey Church (the oldest Norman building in England (consecrated May 3, 1060) and the traditional burial place of King Harold

II (1066), and a Lady Chapel of Edward II, with crypt below. New evidence of the position and style of several buildings, which once stood on the site of the Augustinian monastery, were revealed by the prolonged drought in the summer of 1933. At Waltham Cross, 1 mile from the Abbey, is one of the crosses (partly, restored) erected by Edward I to mark a resting place of the corpse of Queen Eleanor on its way to Westminster Abbey. (Ten crosses were erected, but only those at Geddington, Northampton and Waltham remain; "Charing" Cross originally stood near the spot now occupied by the statue of Charles I at Whitehall.)

**Windsor Castle** (begun by William the Conqueror, A.D. 1066–87).—22 miles from London, by Western and Southern Regions. The Castle Precincts are open daily, free of charge, from 10 a.m. to 4.15 p.m. late October to late March; 5.15 p.m. late March and April and September to late October; and 7.15 p.m. May to August. When the Queen is not in official residence, the *State Apartments* of Windsor Castle are open to the public on every weekday and on Sunday afternoons during the summer months. When the State Apartments are open, the charges for admission are for Adults, £1 and for Children and O.A.P.s 50p. By the Queen's command, the net proceeds go to charities. The hours of admission to the State Apartments are: Jan. to late Mar., late Oct. to Dec., 10.30–3; May to late Oct., 10.30–5; Sundays, May to late Oct. 1.30–5; Closed, mid-March, April and mid-June. *Queen Mary's Doll's House, the Exhibition of Dolls, the Exhibition of Drawings by Holbein, Leonardo da Vinci and other artists and the Royal Mews Exhibition* can be seen on the same days and hours as the State Apartments; admission, adults 40p, children and O.A.P.s 10p. When the State Apartments are closed, Queen Mary's Doll's House, the Exhibition of Drawings and the Royal Mews Exhibition remain open to the public. The *Albert Memorial Chapel* is open throughout the year from 10–1; 2–3.45; closed on Sundays; Admission free. A fee is charged to visit *St. George's Chapel*. The *Curfew Tower* may be seen under the guidance of the Keeper to whom application must be made at the entrance.

The *Royal Mausoleum*, Frogmore Gardens, Home Park, is open annually on two days in early May in conjunction with the opening of Frogmore Gardens in aid of the National Garden Scheme, 10 a.m.–7 p.m. Also open on the Wednesday nearest to May 24 (Queen Victoria's birthday) from 11 a.m. to 4 p.m. Admission free.

## HOUSES OPEN TO THE PUBLIC

Times of summer opening and admission fees shown are those which obtained in 1982, and are subject to modification. ## THE PRINCIPAL ENGLISH CITIES

## BIRMINGHAM

BIRMINGHAM (West Midlands) is the second largest city in Britain and the chief centre of the hardware trade. It is estimated that over 1,500 distinct trades are carried on in the city. The generally accepted derivation of "Birmingham" is the *ham* or dwelling-place of the *ing* or the family of *Beorma* presumed to have been a Saxon. Between the 11th and 16th centuries the de Berminghams were Lords of the Manor. Recent development includes the construction of an inner ring road round the centre, completed in 1971, improvements in the shopping centre including the redevelopment of the old market centre in the Bull Ring, a new complex of buildings near the Town Hall including a School of Music, Central Library, a shopping precinct and Corporation offices. There is also a television centre, a repertory theatre, and the National Exhibition Centre at Bickenhill opened in 1976.

The principal buildings are the Town Hall, built in 1832-1834; the Council House (1878); Victoria Law Courts (1891); the University (1909); the 13th century Church of St. Martin (rebuilt 1873); the Cathedral (formerly St. Philip's Church); the Roman Catholic Cathedral of St. Chad (Pugin) and the Methodist Central Hall.

Under local government reorganization in 1974, Birmingham was merged with Sutton Coldfield as a Metropolitan District in the West Midlands Metropolitan County.

## BRADFORD

BRADFORD (West Yorkshire), 192 miles N.N.W. of London, is the administrative centre of the Metropolitan District of Bradford. The District covers an area of 91,444 acres and lies on the southern edge of the Yorkshire Dales National Park, including within its boundaries the village of Haworth, home of the Brontë sisters, and Ilkley Moor.

Originally a Saxon township, Bradford received a market charter in 1251 but developed only slowly until the industrialisation of the textile industry brought rapid growth during the 19th century. The prosperity of that period is reflected in much of the city's architecture, particularly the public buildings—City Hall (1873), Wool Exchange (1867), St George's Hall (Concert Hall, 1853), Cartwright Hall (Art Gallery, 1904) and Technical College (1882). Other chief buildings are the Cathedral (15th century) and Bolling Hall (14th century).

Textiles still play an important part in the city's economy but industry is now more broadly based, including engineering and micro-electronics. The city has a strong banking, insurance and building society sector, and a growing tourism industry.

## BRISTOL

BRISTOL (Avon) is the largest non-metropolitan district in population in the country, and lies 119 miles W. of London. The present municipal area is 10,954 hectares.

Bristol's port systems at Avonmouth, Portishead and Portbury are the largest municipally owned docks in the country, handling imports of fresh and processed foods, sugar, molasses, tobacco, chemicals, petroleum products, metals and forest products. Goods exported through the port include vehicles, metals and all types of manufactured goods. The Royal Portbury Dock is capable of handling six 70,000 d.w.t. vessels at any one time.

The chief buildings include the 12th century Cathedral (with later additions), with Norman Chapter House and gateway, the 14th century Church of

St. Mary Redcliffe, Wesley's Chapel, Broadmead, the Merchant Venturers' Almshouses, the Council House (1956), Guildhall, Exchange (erected from the designs of John Wood in 1743), Cabot Tower, the University and Clifton College, Red Lodge (Tudor), Georgian House and Blaise Folly and Mansion. The Roman Catholic Cathedral at Clifton was opened in 1973.

The *Clifton Suspension Bridge*, with a span of 702 feet over the Avon, was projected by Brunel in 1836 but was not completed until 1864. Brunel's *SS Great Britain*, the first ocean going propeller driven ship, is now being restored in the City Docks from where she was launched in 1843.

Bristol was a Royal Borough before the Norman Conquest. The earliest form of the name is *Bricgstow*. In 1373 it received from Edward III a charter granting it county status.

## CAMBRIDGE

CAMBRIDGE, a settlement far older than its ancient University, lies on the Cam or Granta, 51 miles north of London and 65 miles south-west of Norwich. It has an area of 10,060 acres.

The city is a county town and regional headquarters. Its industries include electronics, flour milling, cement making and the manufacture of scientific instruments. Among its open spaces are Jesus Green, Sheep's Green, Coe Fen, Parker's Piece, Christ's Pieces, the University Botanic Garden, and the Backs, or lawns and gardens through which the Cam winds behind the principal line of college buildings. East of the Cam, King's Parade, upon which stand Great St. Mary's Church, Gibbs' Senate House and King's College Chapel with Wilkins' screen, joins Trumpington Street to form one of the most beautiful thoroughfares in Europe.

University and College buildings provide the outstanding features of Cambridge architecture but several churches (especially St. Benet's, the oldest building in the City, and St. Sepulchre's the Round Church) also are notable. The modern Guildhall (1939) stands on a site of which at least part has held municipal buildings since 1224.

## CANTERBURY

CANTERBURY, the Metropolitan City of the Anglican Communion, has a history going back to prehistoric times. It was the Roman Durovernum and the Saxon Cant-wara-byrig (stronghold of the men of Kent). Here in 597 St. Augustine began the conversion of the English to Christianity, when Ethelbert, King of Kent, was baptized.

Of the Benedictine St. Augustine's Abbey, burial place of the Jutish Kings of Kent (whose capital Canterbury was) only extensive ruins remain. St. Martin's Church, on the eastern outskirts of the City, is stated by Bede to have been the place of worship of Queen Bertha, the Christian wife of King Ethelbert, before the advent of St. Augustine.

In 1170 the rivalry of Church and State culminated in the murder in Canterbury Cathedral, by Henry II's knights, of Archbishop Thomas Becket, whose shrine became a great centre of pilgrimage as described by Chaucer in his *Canterbury Tales*. After the Reformation pilgrimages ceased, but the prosperity of the City was strengthened by an influx of Huguenot refugees, who introduced weaving. The Elizabethan poet and playwright Christopher Marlowe was born and reared in Canterbury, and there are literary associations also with Defoe, Dickens, Joseph Conrad and Somerset Maugham.

The Cathedral, with architecture ranging from the eleventh to the fifteenth centuries, is world famous. Modern pilgrims are attracted particularly

to the Martyrdom, The Black Prince's Tomb, the Warriors' Chapel and the many examples of mediæval stained glass.

The mediæval City Walls are built on Roman foundations and the fourteenth century West Gate is one of the finest buildings of its kind in the country.

The University of Kent at Canterbury admitted its first students in 1965.

The city's district has an area of 120 square miles, including the towns of Whitstable and Herne Bay. Before the institution of the Mayoralty in 1448 it was governed by bailiffs and earlier still by prefects or provosts.

### CHESTER

CHESTER is situated on the River Dee, 189 miles north west of London. The city administers an area of 173 square miles and was granted Borough and City status in 1974.

Chester's recorded history dates from the 1st century when the Romans founded the fortress of *Deva*. The city's name is derived from the Latin *castra* (a camp or encampment). During the Middle Ages, Chester was the principal port of north west England but declined with the silting of the Dee estuary and competition from Liverpool. The city was also an important military centre, notably during Edward I's Welsh campaigns and the Elizabethan Irish campaigns. During Civil War, Chester supported the King and was besieged from 1643-6. Chester's first charter was granted c 1175 and the city was incorporated in 1506. The office of Sheriff is the earliest created in the country (c 1120's), and the Mayor also enjoys the title "Admiral of the Dee".

The city's architectural features include the city walls (an almost complete two mile circuit), the unique Rows (covered galleries above the street level shops), the Victorian Gothic Town Hall (1869), the Castle (rebuilt 1788 and 1822) and numerous half-timbered buildings. The Cathedral was a Benedictine abbey until the Dissolution. Remaining monastic buildings include the chapter house, refectory and cloisters and there is a modern free-standing bell tower. The Norman church of St. John the Baptist was a Cathedral church in the early Middle Ages.

Chester's principal industry is tourism, and the city is also a shopping centre for North Wales and the North West. Other industries include light engineering and manufacture of car components.

### COVENTRY

COVENTRY (West Midlands) is a city 92 miles N.W. of London, and an important industrial centre, producing cars, machine tools, agricultural machinery and telecommunications equipment.

The city owes its beginning to Leofric, Earl of Mercia and his wife Godiva who, in 1043, founded a Benedictine monastery. The guildhall of St. Mary dates from the 14th century, three of the city's churches date from the 14th and 15th centuries and 16th century almshouses may still be seen. Coventry's first cathedral was destroyed at the Reformation, its second in the 1940 blitz (its walls and spire remain) and the new cathedral designed by Sir Basil Spence, consecrated in 1962, now draws innumerable visitors.

Post-war public buildings include the Art Gallery and Museum, Lanchester Polytechnic, the Civic Theatre, Museum of British Road Transport, new swimming baths and sports centre.

### DERBY

DERBY stands on the banks of the River Derwent, 127 miles N.N.W. of London, and covers an area of 30 square miles. The name Derby dates back to 880 when the Danes settled in the locality and changed

the original Saxon name of "Northworthy" to "Deoraby".

Derby has a wide range of industries, supported by excellent communications. It is an engineering centre with products including aero engines, lawn mowers, and sugar refining machinery. Other industries include textiles, chemicals, plastics and porcelain. The city is an established railway centre and in recent years British Rail has added a training centre and technical centre with research laboratories to its engineering complex in which has been developed the Advanced Passenger Train.

Buildings of interest include St Peter's Church, (14th century), the Cathedral (1525), St Mary's Roman Catholic Church (1839), the Industrial Museum, formerly the Old Silk Mill (1721), and the Old Abbey Building dating from the 14th century. Two recent developments are the Assembly Rooms in the Market Place and the Eagle Centre, a shopping precinct covering twelve acres, including a market and the new Derby Playhouse.

The first charter granting a Mayor and Aldermen was that of Charles I in 1637. Previous charters date back to 1154. It was granted City status in 1977.

### DURHAM

The city of DURHAM is a district in the county of Durham and covers an area of 73 square miles. The city is the major tourist attraction in the county because of its prominent Norman Cathedral and Castle set high on a wooded peninsula overlooking the River Wear. The Cathedral was founded as a shrine for the body of St. Cuthbert in 995. The present building dates from 1093 and among its many treasures is the tomb of the Venerable Bede (673-735). Durham's Prince Bishops had unique powers up to 1836, being lay rulers as well as religious leaders. As a palatinate Durham could have its own army, nobility, coinage and courts. The Castle was the main seat of the Prince Bishops for nearly 800 years; it is now used as a Hall of Residence by the University.

The University, founded on the initiative of Bishop William Van Mildert, is England's third oldest. Its students live in 14 colleges spread across the city.

Among other buildings of interest is the Guildhall in the Market Place which dates originally from the 14th century. Much work has been carried out to conserve this area, forming part of the city's major contribution to the Council of Europe's Urban Renaissance Campaign. Annual events include Durham's Regatta in June (claimed to be the oldest rowing event in Britain) and the Miners' Gala in July.

In the past 20 years the economy of Durham has undergone a significant change with the replacement of mining as the dominant feature by "white collar" employment. The majority of this employment is in local government service industries and the University.

### EXETER

EXETER lies on the River Exe 170 miles south west of London and 10 miles from the sea. It covers an area of 11,037 acres and was granted a Royal Charter by Henry II.

The Romans founded *Isca Dumnoniorum* in the 1st century A.D., and in the 3rd century a stone wall (most of which remains) was built, providing protection against Saxon, and then Danish invasions. After the Conquest, the city led resistance to William in the west, until reduced by siege. The Normans built the motte and bailey castle of Rougemont, the gatehouse and one tower of which remain, although

the rest was pulled down in 1784. The first bridge across the Exe was built in the 13th century. The city's role as a port declined due to the silting of the river, but was somewhat restored by the construction in the 1560's of the first ship canal in England. Exeter was the Royalist headquarters in the West during the Civil War.

The diocese of Exeter was established by Edward the Confessor in 1050, although a church existed on the Cathedral site in the early 10th century. A new cathedral was built in the 12th century but the present building was begun c 1275 in the Gothic style, although incorporating the Norman towers, and completed about a century later with the West Front. The Guildhall dates from the 12th century and there are many other medieval buildings in the city, as well as architecture in the Georgian and Regency styles (Custom House, The Quay). Damage suffered by bombing in 1942 led to the redevelopment of the city centre.

Exeter's prosperity from medieval times was based on trade in wool and woollen cloth (commemorated by Tuckers Hall), which remained at its height until the late 18th century when export trade was hit by the French Wars. Subsequently Exeter has developed as an administrative and commercial centre, notably in the distributive trades and light manufacturing industries.

### KINGSTON UPON HULL

HULL (officially "Kingston upon Hull") lies in the mostly rural County of Humberside, at the junction of the River Hull with the Humber, 22 miles from the North Sea and 205 miles N. of London. The municipal area is 17,535 acres.

Hull is one of the great seaports of the United Kingdom. It has docks covering a water area of 172 acres, equipped to handle cargoes by unit-load techniques, and is a departure point for car ferry services to the continent. There is a great variety of industry and service industries, as well as increasing tourism and conference business. The city is also an important distant-water fishing port and is a centre for allied processing activities.

The city, restored after very heavy air raid damage during World War II, has good office and administrative buildings, its municipal centre being the Guildhall, its educational centre the University of Hull and its religious centre the Parish Church of the Holy Trinity. The old Town area is being renovated, and this also includes a Town Docks Scheme to develop defunct docks as a marina. Just west of the city is the Humber Bridge, the world's longest single span suspension bridge, which was officially opened by H.M. the Queen in July 1981.

Kingston upon Hull was so named by Edward I. City status was accorded in 1897 and the office of Mayor raised to the dignity of Lord Mayor in 1914.

### LEEDS

LEEDS (West Yorkshire), a Metropolitan District from April 1, 1974, is a junction for road, rail and canal services and an important commercial centre, situated in the lower Aire Valley, 195 miles by road N.N.W. of London. The municipal area is 138,441 acres.

Leeds has a wide variety of manufacturing industries, notably cloth and ready-made clothing, engineering of all kinds, leather and chemical products, food and drink, furniture and plastics.

The principal buildings are the Civic Hall (1933), the Town Hall (1858), the Municipal Buildings and Art Gallery (1884), the Corn Exchange (1863) and the University. The Parish Church (St. Peter's) was rebuilt in 1841; the 17th century St. John's Church has a fine interior with a famous English renaissance

screen; the last remaining 18th century church is Holy Trinity, Boar Lane (1727). Kirkstall Abbey (about 3 miles from the centre of the city), founded by Henry de Lacy in 1152, is one of the most complete examples of Cistercian houses now remaining. Temple Newsam, birthplace of Lord Darnley, was acquired by the Council in 1922. The present house was largely re-built by Sir Arthur Ingram in about 1620. Adel Church, about 5 miles from the centre of the city, is a fine Norman structure.

Leeds was first incorporated by Charles I in 1626. The earliest forms of the name are *Loidis* or *Ledes*, the origins of which are obscure.

### LEICESTER

LEICESTER is situated geographically in the centre of England, 100 miles north of London. The City dates back to pre-Roman times and was one of the five Danish *Burhs*. In 1589 Queen Elizabeth I granted a Charter to the City and the ancient title was confirmed by Letters Patent in 1919. Under local government reorganization Leicester's area remained unchanged at 18,141 acres, and it retains its designation as a City.

The principal industries of the city are hosiery, and knitwear, footwear manufacturing and engineering. The growth of Leicester as a hosiery centre increased rapidly from the introduction there of the first stocking frame in 1670 and to-day it has some of the largest hosiery factories in the world, with much of the output being exported.

The principal buildings in the city are the Town Hall; the New Walk Centre; the University; Leicester Polytechnic and De Montfort Hall, one of the finest concert halls in the provinces seating over 2,750 persons. The ancient Churches of St. Martin (now Leicester Cathedral), St. Nicholas, St. Margaret, All Saints, St. Mary de Castro, and buildings such as the Guildhall, the 14th century Newarke Gate, the Castle and the Jewry Wall Roman site still exist. The Haymarket Theatre, an integral part of a large new shopping and car-parking complex, was opened in 1973.

### LIVERPOOL

LIVERPOOL (Merseyside) on the right bank of the river Mersey, 3 miles from the Irish Sea and 194 miles N.W. of London, is one of the greatest trading centres of the world and the principal port in the United Kingdom for the Atlantic trade. The municipal area of 27,819 acres includes 2,840 acres in the bed of the river Mersey.

Quays on both sides of the river are about 38 miles long, and the Gladstone Dock can accommodate the largest vessels afloat. Gross tonnage of ships entering and leaving the port annually exceeds 15,375,000 tonnes. The main imports are petroleum, grain, ores, non-ferrous metals, sugar, wood, oil, fruit and cotton. The Seaforth Container Terminal was opened in 1972, covering 500 acres and costing £50m.

Liverpool was created a borough in 1207 and a city in 1880. From the early eighteenth century it expanded rapidly with the growth of the port. Surviving buildings from this date include the Bluecoat Chambers (1718, formerly the Bluecoat School), the Town Hall (1754, rebuilt to the original design, 1795), and buildings in Rodney Street, Canning Street and the suburbs. Notable from the nineteenth and twentieth centuries are the Anglican Cathedral, built from the designs of Sir Giles Gilbert Scott (the foundation stone was laid in 1904, and the building was only completed in 1980); the Catholic Metropolitan Cathedral (designed by Sir Frederick Gibberd, consecrated 1967) and St. George's Hall, (1838-1854), regarded as one of the finest modern examples of classical architecture. In 1852 an Act

was obtained for establishing a public library, museum and art gallery; as a result Liverpool had one of the first public libraries in the country. The Brown, Picton & Hornby libraries now form the largest city central libraries in Europe. The Victoria Building of Liverpool University, The Royal Liver, Cunard and Mersey Docks & Harbour Company buildings at the Pier Head, the Municipal Buildings and the Philharmonic Hall are other examples of the City's fine buildings.

Constructed between 1925 and 1934 the first Mersey Tunnel was named "Queensway". When the volume of traffic increased far beyond earlier expectations, the second Mersey Tunnel—"Kingsway"—was opened on 24 June 1971, and a similar tunnel adjacent to it was opened on 14th February 1974.

Strenuous efforts were made after 1945 to improve employment prospects. The City Council developed large industrial estates at Kirby, Speke and Aintree and is now tackling the problem of the "inner city". In 1969 the Merseyside Passenger Transport Executive was formed to improve and co-ordinate local transport throughout Merseyside, and, in partnership with British Rail, developed the Merseyside Loop/Link system, opened in 1977 to link Southport, Ormskirk and Garston with the City Centre stations and lines to the Wirral.

### MANCHESTER

MANCHESTER (the *Mancunium* of the Romans, who occupied it in A.D. 78) is 189 miles N.W. of London and covers about 43 square miles.

Manchester is a commercial and industrial centre with a population engaged in engineering, chemical, clothing, food processing and textile industries. Banking and insurance are among the prime commercial activities. The city is connected with the sea by the Manchester Ship Canal, opened in 1894, 35½ miles long, and accommodating ships up to 15,000 tons. Manchester Airport handles approximately 3,000,000 passengers yearly.

The principal buildings are the Town Hall, erected in 1877 from the designs of Alfred Waterhouse, R.A., together with a large extension of 1938; the Royal Exchange (1869, enlarged 1921) the Central Library (1934); Heaton Hall; the 17th century Chetham Library; the Rylands Library (1899), which includes the Althorp collection; the University precinct; the 15th-century Cathedral (formerly the parish church) and the Free Trade Hall. Manchester is the home of the Hallé Orchestra, the Royal Northern College of Music, the Royal Exchange Theatre and seven public art galleries.

The town received its first charter of incorporation in 1838 and was created a city in 1853. The title of city was retained under local government reorganization.

### NEWCASTLE UPON TYNE

NEWCASTLE UPON TYNE (Tyne and Wear) a Metropolitan District on the north bank of the River Tyne, is 8 miles from the North Sea, 272 miles N. of London and has an area of 27,640 acres. A Cathedral and University City, it is the administrative, commercial and cultural centre for north-east England and the principal port. It is an important manufacturing centre with a wide variety of industries.

The principal buildings include the Castle Keep (12th century), Black Gate (13th century), West Walls (13th century), St. Nicholas's Cathedral (15th century, fine lantern tower), St. Andrew's Church (12th–14th century), St. John's (14th–15th century), All Saints (1786 by Stephenson), St. Mary's Roman Catholic Cathedral (1844), Trinity House (17th century), Sandhill (16th century houses), Guildhall

(Georgian), Grey Street (1834–39), Central Station (1846–50), Laing Art Gallery (1904), University of Newcastle Physics Building (1962), Civic Centre (1963), Central Library (1969) and Eldon Square Development (1976). Open spaces include the Town Moor (927 acres) and Jesmond Dene. Eight bridges span the Tyne at Newcastle.

The City derives its name from the "new castle" (1080) erected as a defence against the Scots. In 1400 it was made a County, and in 1882 a City.

### NORWICH

NORWICH (Norfolk) is an ancient City 110 miles N.E. of London. It grew from an early Anglo-Saxon settlement near the confluence of the Rivers Yare and Wensum, and now serves as provincial capital for the predominantly agricultural region of East Anglia. The name is thought to relate to the most northerly of a group of Anglo-Saxon villages or "wics". The present City has an area of 9,655 acres. The City's first known Charter was granted in 1158 by Henry II.

Norwich serves its surrounding area as a market town and commercial centre, banking and insurance being prominent among the City's businesses. From the 14th century until the Industrial Revolution, Norwich was the regional centre of the woollen industry, but now the biggest single industry is the manufacturing of shoes and other principal trades are engineering, printing, and the production of chemicals, clothing, confectionery and other food-stuffs. Norwich is accessible to seagoing vessels by means of the River Yare, entered at Great Yarmouth, 20 miles to the east.

Among many historic buildings are the Cathedral (completed in the twelfth century and surmounted by a fifteenth century spire 315 feet in height), the Keep of the Norman Castle (now a museum and art gallery), the fifteenth century flint-walled Guildhall, some thirteenth medieval parish churches, St. Andrew's and Blackfriars' Halls, the Tudor houses preserved in Elm Hill and the Georgian Assembly House. The University of East Anglia has been established in Norwich on a spacious site at Earham on the City's western boundary and received its first students in 1963.

### NOTTINGHAM

NOTTINGHAM (Nottinghamshire) stands on the River Trent, 124 miles N.N.W. of London in one of the most valuable coalfields of the country connected by canal with the Atlantic and the North Sea. The municipal area is 18,364 acres.

The principal industries are hosiery, lace, bleaching, dyeing and spinning, tanning, engineering and cycle works, brewing, the manufacture of tobacco, chemicals, furniture, typewriters and mechanical products.

The chief buildings are the 17th century Nottingham Castle (restored in 1878, and now the City Museum and Gallery of Art), Wollaton Hall (1580–88) owned by the City Council and now a Natural History Museum, St. Mary's, St. Peter's, and St. Nicholas's Churches, the Roman Catholic Cathedral (Pugin, 1942–4), the Council House (1929), the Guildhall and Court House (1888), Shire Hall, Albert Hall, the University, Trent Polytechnic, Newstead Abbey, home of Lord Byron, the Theatre Royal (1865), the Playhouse (1963) and the Concert Hall (1982).

*Snotingham* or *Notingeham*, "the village or home of the sons of Snot" (the Wise), is the Anglo-Saxon name for the Celtic *Tuigogobauc*, "Cave Homes". The City possesses a Charter of Henry II, and was created a City in 1897. Under local government reorganization, the style of city was reaccorded from April, 1974.

## OXFORD

OXFORD is a University City, an important industrial centre, and a market town, with an area of 8,785 acres. Industry played a minor part in Oxford until the motor industry was established in 1912.

It is for its architecture that Oxford is of most interest to the visitor, its oldest specimens being the reputed Saxon tower of St. Michael's church, the remains of the Norman castle and city walls and the Norman church at Iffley. It is chiefly famous however, for its Gothic buildings, such as the Divinity Schools, the Old Library at Merton College, William of Wykeham's New College, Magdalen College and Christ Church and many other college buildings. Later centuries are represented by the Laudian quadrangle at St. John's College, the Renaissance Sheldonian Theatre by Wren, Trinity College Chapel, and All Saints Church; Hawksmoor's mock-Gothic at All Souls College, and the eighteenth century Queens' College. In addition to individual buildings, High Street and Radcliffe Square, just off it, both form architectural compositions of great beauty. Most of the Colleges have gardens, those of Magdalen, New College, St. John's (designed by "Capability" Brown) and Worcester being the largest.

## PLYMOUTH

PLYMOUTH is situated on the borders of Devon and Cornwall at the confluence of the Rivers Tamar and Plym, 210 miles from London, with an area of 19,572 acres. The city has a long maritime history; it was the home port of Sir Francis Drake and the starting point for his circumnavigation of the world, as well as the last port of call for the Mayflower when the Pilgrim Fathers sailed for the New World in 1620. The Barbican harbour area has many Elizabethan buildings, and on Plymouth Hoe stands the first lighthouse to be built on the Eddystone Rocks, some miles offshore.

Following extensive war damage, the city centre comprising a large shopping centre, municipal offices, law courts and public buildings, has been re-built. The main employment is provided by H.M. Dockyard, though many new industrial firms have become established in the post-war period and the city is a growing tourism centre. In conjunction with the Cornwall County Council, the Tamar Bridge was constructed linking the City by road with Cornwall.

## PORTSMOUTH

PORTSMOUTH occupies Portsea Island, Hampshire, with boundaries extending to the mainland. It has an area of 14½ sq. miles and is 70 miles from London.

Industries include H.M. Naval Base, the principal centre of employment with a civilian work force of several thousands. The holiday and tourist industry, centred at the resort area of Southsea, caters annually for thousands of visitors and day trippers. Other industries are shipbuilding, electronics, aircraft engineering and various manufactures, and the city is also the U.K. headquarters of a multi-national computer firm. The commercial port (the Camber, Flathouse and Mile End) is owned and run by the City Council. In 1976 a Continental Ferry Port was opened, with car ferries running to France and the Channel Islands.

Among many tourist attractions are Lord Nelson's flagship, H.M.S. *Victory*; Charles Dickens' birthplace at 393 Old Commercial Road, Southsea Castle, the Round Tower and Point Battery, which for hundreds of years have guarded the entrance to Portsmouth Harbour and Fort Widney on Portsdown Hill.

## ST. ALBANS

Twenty-five miles north west of London and situated on the River Ver, ST. ALBANS' origins stem from the major Roman town of *Verulamium*. Named after the first Christian martyr in Britain, who was executed here, St. Albans has developed around the Norman Abbey and Cathedral Church (consecrated 1115), the second longest in Britain, built partly of materials from the old Roman city. The museums house Iron Age and Roman artifacts and the Roman Theatre, unique in Britain, has a stage as opposed to an amphitheatre. Archaeological excavations in the city centre continue also to reveal evidence of pre-Roman, Saxon and medieval occupation.

The town's significance grew to the extent that it was a signatory and venue for the drafting of the Magna Carta. It was also the scene of major riots during the Peasants' Revolt; the French King John was imprisoned there after the Battle of Poitiers, and heavy fighting took place during the Wars of the Roses; but it is as a Roman town that it is best recognised.

Previously controlled by the Abbot, the town achieved a Royal Charter in 1553 and City status in 1877. The street market, first established in 1553, is still an important feature of the city, as are many hotels and inns which survive from the days when St. Albans was an important coach stop. Tourist attractions include historic churches and houses, and a 15th century clock tower.

The advent of the railway saw the gradual expansion of the city, and the area now contains a wide range of firms, with special emphasis on micro-technology and electronics, particularly in the medical field. In addition, it is the home of the Royal National Rose Society, and of Rothamsted Park, the agricultural research centre.

In 1974 the City and District of St. Albans was formed, taking in the town of Harpenden and many villages, and it now covers an area of 63 square miles.

## SHEFFIELD

SHEFFIELD (South Yorkshire), the centre of the special steel and cutlery trades, is situated 159 miles N.N.W. of London, at the junction of the Sheaf, Porter, Rivelin and Loxley with the River Don.

Sheffield has an area of 91,000 acres (nearly 150 square miles), including 4,619 acres of publicly owned parks and woodland. Though its cutlery, silverware and plate have long been famous, Sheffield has other and now more important industries—special and alloy steels, engineering and tool-making. Research in glass, metallurgy, radiotherapy and other fields is carried on.

The parish church of St. Peter and St. Paul, founded in the twelfth century, became the Cathedral Church of the Diocese of Sheffield in 1914. Parts of the present building date from about 1435. The principal buildings are the Town Hall (1897, 1923 and 1977), the Cutlers' Hall (1832), the University (1905 and recent extensions, including 19-storey Arts Tower), City Hall (1932), Graves Art Gallery (1934), Castle Market Building (1959), the retail market (1973), Mappin Art Gallery and the Crucible Theatre.

Sheffield was created a city in 1893 and on April 1, 1974 became a Metropolitan District Council incorporating Stocksbridge and most of the Wortley Rural area, and retained city status.

*Master Cutler* (1982-83) 359th *Master of the Company of Cutlers in Hallamshire*, K. G. T. Clephane.

## SOUTHAMPTON

SOUTHAMPTON is Britain's premier passenger and a fast-growing container port. The first Charter was

granted by Henry II and Southampton was created a county of itself in 1447. In February, 1964, Her Majesty the Queen granted city status by Royal Charter. The city has an area of 12,071 acres excluding tidal waters.

There have been Roman and Saxon settlements on the site of the city, which has been an important port since the time of the Conquest due to its natural deep-water harbour. The oldest church is St. Michael's (1070) which has a black tourmaline marble font and an unusually tall tower, a landmark for navigators of Southampton Water. Other buildings and monuments within the city walls are the Tudor Merchants Hall, the Weigh-house, West Gate, King John's House, Long House, Holy Rood Church, St. Julian's Church and the Mayflower Memorial. From 1982 a naval destroyer, H.M.S. Cavalier went on show as a floating museum in the Eastern Docks. Public open spaces total over 1,000 acres in extent and comprise 9 per cent. of the city's area. The Common covers an area of 328 acres in the central district of the city and is mostly natural parkland.

### STOKE-ON-TRENT

STOKE-ON-TRENT (Staffordshire), familiarly known as The Potteries, stands on the River Trent 157 miles N. of London. The present municipal area is 22,916 acres (36 square miles) and the city is the main centre of employment for the population of North Staffordshire. It is the largest clayware producer in the world (china, earthenware, sanitary goods, refractories, bricks and tiles) and has a large coal mining output drawn from one of the richest coalfields in Western Europe. The city has steelworks, foundries, chemical works, engineering plants, rubber works, paper mills, and a very wide range of manufactures.

Extensive reconstruction has been carried on since 1930. A unique feature of the city is that it has six "centres" and more shops and public halls than other areas of comparable size. The City was formed by the federation in 1910 of the separate municipal authorities of Tunstall, Burslem, Hanley, Stoke-upon-Trent, Fenton, and Longton, all of which are now combined in the present City of Stoke-on-Trent.

### WINCHESTER

WINCHESTER, the ancient capital of England, is situated on the River Itchen 65 miles S.W. of London and 12 miles north of Southampton. Since local government reorganization in 1974, the style of City has been accorded to the whole of the new district of Winchester, which embraces an area of 162,921 acres of Mid-Hampshire.

Winchester is rich in architecture of all types but the cathedral takes first place. The longest Gothic cathedral in the world, it was built in 1079-1093 and exhibits examples of Norman, Early English and Perpendicular styles. Winchester College, founded in 1382, is one of the most famous public schools, the original building (of 1393) remaining unaltered. St. Cross Hospital, another great medieval foundation, lies 1 mile south of the city. Founded in 1136 by Bishop Henry de Blois, the Almshouses were re-established in 1445 by Cardinal Henry Beaufort. The Chapel and dwellings are of great architectural interest, and visitors may still receive the "Wayfarer's Dole" of bread and ale.

Recent excavations have done much to clarify the origins and development of Winchester. Excavations in the Cathedral Close have uncovered the entire site of the Anglo-Saxon cathedral (known as the Old Minster) and parts of the New Minster, built by Alfred's son Edward the Elder, and the burial place of the Alfredian dynasty. The original burial place of St. Swithun, before his remains were translated to a site in the present cathedral, was also uncovered.

Excavations in other parts of the City have thrown much light on Norman Winchester, notably on the site of the Royal Castle, adjacent to which the new Law Courts have been built, and in the grounds of the Bishop's Palace at Wolvesey, where the great house built by Bishops Walkelin and Henry of Blois in the early 12th century has been uncovered.

### YORK

The City of YORK is a District in the County of North Yorkshire, and is an archiepiscopal seat. The City has an area of 7,295 acres.

The recorded history of York dates from A.D. 71, when the Roman Ninth Legion established a base under Petilius Cerealis which later became the fortress of Eboracum. In Anglo-Saxon times the city was the royal and ecclesiastical centre of Northumbria, and was captured by a Viking army in A.D. 866, after which it became the capital of the Viking kingdom of Jorvik. By the 14th century the city had become a great mercantile centre, chiefly owing to its control of the wool trade, and was used as the chief base against the Scots. Under the Tudors its fortunes declined, though Henry VIII made it the headquarters of the Council of the North. Recent excavations on many sites, including Coppergate, has greatly expanded knowledge of Roman, Viking and medieval urban life.

With its development as a railway centre in the 19th century the commercial life of York expanded and it is now a flourishing modern city. The principal industries are the manufacture of chocolate, railway coaches, scientific instruments, glass containers and sugar. The City is also an important tourist centre.

It is rich in examples of architecture of all periods. The earliest church (built, 627) was succeeded by several others until, in the 12th to the 15th centuries, the present Minster was built in a succession of styles. The finest features are the West front with its two towers, the spacious transepts and the stained glass. Other examples within the city are the medieval city walls and gateways, churches and guildhalls. Domestic architecture includes the Georgian mansions of The Mount, Micklegate and Bootham. Its museums are world-famous and include the Castle Museum, one of the best-known folk museums in Great Britain, and the National Railway Museum.

### STRATFORD UPON AVON

STRATFORD UPON AVON is in Warwickshire, on the banks of the River Avon and as the birthplace of Shakespeare the town is visited by tourists from all parts of the world.

*Shakespeare's Birthplace.* Half timbered house preserved by Shakespeare Birthplace Trust. Contains period furniture and a collection of rare books, mss. and objects of Shakespearian interest. Garden contains the new Shakespeare centre. *The Grammar School.* Founded by the medieval Guild of the Holy Cross of Stratford, and re-endowed by King Edward VI. Here Shakespeare acquired his "small Latin and less Greek". *Anne Hathaway's Cottage.* At Shottery, one mile from the centre of the town, is the thatched farmhouse, the early home of Shakespeare's wife, Anne Hathaway. *Mary Arden's House.* At Wilmcote, four miles from Stratford, is the Tudor farmhouse, the home of Mary Arden, Shakespeare's mother. The farm buildings are used as a museum of farming and rural life. *Hall's Croft.* Half-timbered building of outstanding character, home of Shakespeare's daughter Susannah and her husband Dr. John Hall. *Royal Shakespeare Theatre* burnt down in 1926, rebuilt 1932, with 1,500 seats.

## AERODROMES AND AIRPORTS

There are 172 aerodromes in Great Britain, Northern Ireland, the Isle of Man and the Channel Islands which are either State owned, operated by the Civil Aviation Authority or licensed for use by civil aircraft. A number of unlicensed airfields not included in this list are also available for private use by permission of the owner or controlling authority.

S = Aerodrome owned and operated by the State.

CAA = Aerodrome operated by the Civil Aviation Authority.

BAA = Aerodrome operated by the British Airports Authority.

M = Aerodrome owned or operated by Municipal Authority.

J = Military airfield available for civil use by prior permission.

H = Licensed helicopter station.

Those aerodromes which are designated as Customs airports are printed in bold type. Customs facilities are available at certain other aerodromes by special arrangement.

# ENGLAND AND WALES

## The Principality of Wales

**Position and extent.**—Wales occupies the extreme west of the central southern portion of the island of Great Britain, with a total area of 8,019 sq. miles; it is bounded on the N. by the Irish Sea, on the S. by the Bristol Channel, on the E. by the English counties of Cheshire, Salop, Hereford and Worcester and Gloucester, and on the W. by St. George's Channel. Across the Menai Straits is the Welsh island of *Anglesey* or *Ynys Môn* (276 sq. miles), communication with which is facilitated by the Menai Suspension Bridge (1,000 ft. long), built by Telford in 1826 (freed from toll as from Jan. 1, 1941) and by the tubular railway bridge (1,100 ft. long) of the former L.M. & S. Railway, built by Stephenson in 1850. Holyhead harbour, on Holy Isle (N.W. of Anglesey), provides accommodation for a fast steam packet service to Dun Laoghaire and Dublin (70 miles).

**Population.**—The population at the Census of 1981 was 2,790,000, compared with 2,731,000 at the 1971 Census.

**Relief.**—Wales is mostly mountainous, the chief systems being those of North Wales (Snowdon 3,560 ft., Carnedd Llywelyn 3,484 ft., Carnedd Dafydd 3,426 ft.); Berwyn (Aran-mawddwy 2,970 ft.); Powys (Plinlimmon 2,468 ft., Drygan Fawr 2,115 ft., Radnor 2,163 ft.); and the Black Mountain, Brecknock Beacons and Black Forest ranges (Carmarthen Van 2,632 ft., Brecon Beacon 2,906 ft., Pen-y-gader fawr 2,660 ft.).

**Hydrography.**—The principal river of those rising in Wales is the *Severn* (see England), which flows from the slopes of Plinlimmon to the English border. The *Wye* (130 miles) also rises in the slopes of Plinlimmon. The *Usk* (56 miles) flows into the Bristol Channel, through Gwent. The *Dee* (70 miles) rises in Bala Lake and flows through the Vale of Llangollen, where an aqueduct (built by Telford in 1805) carries the Pontcysyllte branch of the Shropshire Union Canal across the valley. The estuary of the Dee is the navigable portion, 14 miles in length and about 5 miles in breadth, and the tide rushes in with dangerous speed over the "Sands of Dee". the *Towy* (68 miles), *Teifi* (50 miles), *Taff* (40 miles), *Dovey* (30 miles), *Taf* (25 miles), and *Conway* (24 miles), the last named broad and navigable, are wholly Welsh rivers.

The largest natural lake in Wales is *Bala* (Llyn Tegid) in Gwynedd, 4 miles long and about 1 mile wide; *Lake Vyrnwy* is an artificial reservoir, about the size of Bala, and forms the water supply of Liverpool, and Birmingham is supplied from a chain of reservoirs in the Elan and Clærwen valleys.

**The Welsh Language.**—Statistics published on Oct. 1, 1973, show that only 542,400 persons (of three years and over) in Wales were able to speak Welsh at the time of the 1971 Census, compared with 656,000 at the 1961 Census and 715,000 at the 1951 Census. One per cent. of the population could speak Welsh only, compared with 4 per cent. in 1931. The proportion of people speaking Welsh fell from 28.9 per cent. in 1951 to 20.8 per cent. in 1971. As in 1961, the Western Counties (75.9 per cent.), had the highest proportion of Welsh speakers.

**Flag.**—A red dragon on a green and white field (per fess argent and vert a dragon passant gules). The flag was augmented in 1953 by a royal badge on a shield encircled with a riband bearing the words *Ddraig Goch Ddyry Cychwyn* and imperially crowned. Only the unaugmented flag is flown on Government offices in Wales and, where appropriate, in London. Both flags continue to be used elsewhere.

### EARLY HISTORY

**Celts and Romans.**—The earliest inhabitants of whom there is any record appear to have been subdued or exterminated by the *Goidels* (a people of Celtic race) in the Bronze Age, and a further invasion of Celtic *Brythons* and *Belgae* followed in the ensuing Iron Age. The Roman conquest of South Britain and Wales was for some time successfully opposed by *Caratacus* (Caractacus or Caradog), Chieftain of the Catuvellauni and son of *Cunobelinus* (Cymbeline) King of the Trinobantes. In A.D. 78 the conquest of Wales was completed under Julius Frontinus, and communications were opened up by the construction of military roads from Chester to Caerleon-on-Usk and Caerwent, and from Chester to Conway (and thence to Camarthen and Neath). *Christianity* was introduced (during the Roman occupation; in the 4th century).

**The Anglo-Saxon Attacks.**—The Anglo-Saxon invaders of South Britain drove the Celtic Goidels and Brythons into the mountain fastness of Wales, and into Strathclyde (Cumberland and S.W. Scotland) and Cornwall giving them the name of *Waelisc*, or Welsh (= Foreign). The West Saxons' victory of Deorham (577) isolated Wales from Cornwall and the battle of Chester (613) cut off communication with Strathclyde. In the 8th century the boundaries of the Welsh were further restricted by the annexations of Offa, King of Mercia, and counter-attacks were largely prevented by the construction of an artificial boundary from the Dee to the Wye (Offa's Dike). In the 9th century Rhodri Mawr united the country against further incursions of the Saxons by land and against the raids of Norse and Danish pirates by sea, but at his death his three provinces of *Gwynedd* (N.), *Powys* (Mid.), and *Deheubarth* (S.) were divided among his three sons—Anarawd, Mervyn and Cadell—the son of the last named being Hywel Dda, who codified the laws of the country, while Llewelyn ap Seisyll (husband of the heiress of Gwynedd) again united the provinces and reigned as Prince from 1018 to 1023.

**The Norman Conquest.**—After the Norman conquest of England, William I created Palatine counties along the Welsh frontier, and Robert FitzHamon, the Norman Earl of Gloucester, raided South Wales and erected fortresses from the Wye to Milford Haven. Henry I introduced Flemish settlers into South Wales, but after his death the Welsh rose under the leadership of Griffith ap Rhys and routed the Norman-Flemish forces at the fords of the Teifi (Cardigan) in 1136. From the early years of the 13th century the house of Gwynedd, in the north, gained an ascendancy over the whole of Wales, and Llywelyn ap Iorwerth was in constant strife with England for recognition as an independent sovereign. Llywelyn ap Gruffydd (grandson of Llywelyn ap Iorwerth), the last native prince, was killed in 1282 during hostilities between the Welsh and English. On Feb. 7, 1301, Edward of Caernarvon, son of Edward I, was created *Prince of Wales*.

**Eisteddfod.**—The Welsh are a distinct nationality, with a language and literature of their own, and the national bardic festival (Eisteddfod), instituted by Prince Rhys ap Griffith in 1176, is annually maintained. These *Eisteddfodau* (sessions) form part of the *Gorsedd* (assembly), which is believed to date from the time of Prydian, a ruling prince in an age many centuries before the Christian era.

## PRINCIPAL WELSH CITIES

## CARDIFF

CARDIFF (South Glamorgan), at the mouth of the rivers Taff, Rhymney and Ely, is the capital City of Wales and one of Britain's major administrative, commercial and office centres. It has many industries, including steel works, car component manufacturing, cigars and a flourishing port with a substantial and varied trade, including citrus fruits and timber. There are many fine buildings in the civic centre started early this century which includes the City Hall, the National Museum of Wales, University Buildings, Law Courts, Welsh Office, County Hall, Police Headquarters and the Temple of Peace and Health. Also in the city are Llandaff Cathedral, the Welsh National Folk Museum at St. Fagans, Cardiff Castle and the New Theatre.

New buildings include the Sherman Theatre and the Cardiff College of Music and Drama. The City returns four Members to Parliament. Population 278,900.

## SWANSEA

SWANSEA (in Welsh, Abertawe) is a City and a seaport of West Glamorgan with its own municipal airport. The beautiful Gower Peninsula was brought within the City boundary under local government reform on April 1, 1974. The trade of the port includes coal, patent fuel, ores, and the import and export of oil. The municipal area is 60,511 acres.

The principal buildings are the Norman Castle (rebuilt in 1330), the Royal Institution of South Wales, founded in 1835 (containing Museum and Library), the University College at Singleton and the Guildhall, containing the Brangwyn panels. New buildings include the Quadrant Shopping Centre, the Leisure Centre and the Industrial and Maritime Museum. Swansea was chartered by the Earl of Warwick, circa 1158-1184, and further charters were granted by King John, Henry III., Edward II., Edward III. and James II., 2 from Cromwell and 1 Lord Marcher.

## THE KINGDOM OF SCOTLAND

**Position and Extent.**—The Kingdom of Scotland occupies the northern portion of the main island of Great Britain and includes the Inner and Outer Hebrides, and the Orkney, Shetland, and many other islands. The Kingdom lies between 60° 51' 30" and 54° 38' N. latitude and between 1° 45' 32" and 6° 14' W. longitude, its southern neighbour being the Kingdom of England, with the Atlantic Ocean on the N. and W., and the North Sea on the E. The greatest length of the mainland (Cape Wrath to the Mull of Galloway) is 274 miles, and the greatest breadth (Buchan Ness to Applecross) is 154 miles. The total area of the Kingdom is 29,795 square miles exclusive of inland water, tidal water and foreshore.

**Population.**—The population (1981 Census) was 5,117,000. The average density of the population in 1981 was 0.66 persons per square hectare, compared with 175 persons per square mile in 1971.

**Land's End to John o' Groats.**—The customary measurement of the Island of Great Britain is from the site of John o' Groats house, near Duncansby Head, Caithness (at the N.E. extremity of the island) to Land's End, Cornwall (at the S.W. extremity), a total distance of 603 miles in a straight line and (approximately) 900 by road. But the site of the house of John de Groot (with its 8 doors and octagonal table, to solve the question of precedence between John and his 7 brothers) is about 4 miles S.W. of Duncansby Head, while Dunnet Head (also in Caithness) extends farther N. than Duncansby. John de Groot is believed to have obtained permission to settle in Caithness (from the Netherlands) in the reign of James IV (1488-1513).

**Relief.**—There are three natural orographic divisions of Scotland. The *Southern Uplands* have their highest points in Merrick (2,764 feet), Rinns of Kells (2,668 feet), and Cairnsmuir of Carsphairn (2,612 feet), in Kirkcudbright; Hartfell (2,651 feet) in Dumfries; and Broad Law (2,754 feet) in Peebles. The *Central Lowlands* include the valleys of the Tay, Forth and Clyde, and the cities of Edinburgh, the capital of the Kingdom, and Glasgow, its principal seaport. The heather-clad *Northern Highlands* extend almost from the extreme north of the mainland to the central lowlands, and are divided into a northern and southern system by the *Great Glen*; they contain, in the central Grampian Hills, *Ben Nevis* (4,406 feet), the highest point in the British Isles, and *Ben Macdui* (4,296 feet). The *Cheviot Hills* form a natural boundary between Scotland and England, their highest point being *The Cheviot* (2,676 feet).

**Hydrography.**—The principal river of Scotland is the *Clyde* (106 miles), one of the most important rivers in the world, with the greatest commercial estuary in Scotland. The Clyde is formed by the junction of Daer and Portrail water, and flows through the city and port of Glasgow to the Firth of Clyde. During its course it passes over the picturesque *Falls of Clyde*, *Bonnington Linn* (30 feet), *Corra Linn* (84 feet), *Dundaff Linn* (10 feet) and *Stonebyres Linn* (80 feet), above and below Lanark. The *Tweed* (96 miles) has important woollen industries in its valley. The *Tay*, noted for its salmon, and the longest river in Scotland (117 miles), flows into the North Sea, with *Dundee* (the centre of the jute industry) on the estuary, which is spanned by the *Tay Bridge* (10,289 ft.), opened in 1887 and the *Tay Road Bridge* (7,365 ft.), opened by H.M. Queen Elizabeth the Queen Mother on Aug. 18, 1966. The

*Dee* (90 miles), a noted salmon river, flows through scenery of unequalled beauty to the North Sea at Aberdeen. The *Spey* (110 miles), the swiftest flowing river in the British Isles, and also noted for its salmon and its scenery, flows into Moray Firth. The *Forth* (66 miles) navigable to Stirling, is spanned by the *Forth (Railway) Bridge* (1890), constructed at a cost of £3,000,000, with a length of 5,330 ft., and the *Forth (Road) Bridge*, with a total length of 6,156 ft. (over water) and a single span of 3,000 ft. The latter was completed in 1964 at a cost of £20,000,000.

The waterfall *Eas-Coul-Aulin* in Sutherland with a total height of 658 ft. and the *Falls of Glomach* in Ross-shire, with a drop of 370 feet, are the highest in the British Isles; the *Grey Mare's Tail* (Dumfriesshire) is 200 feet.

The *lochs* are the principal hydrographic feature of the Kingdom, both on the mainland and in many of the islands. The largest in the Kingdom and in Great Britain is *Loch Lomond* (24 miles long), with *Lochs Awe*, *Tay*, *Rannoch* and *Ericht* in the Grampian valleys; *Loch Ness* (24 miles long and 800 feet deep), with *Lochs Oich* and *Lochy*, in the Great Glen; and *Lochs Shin* (20 miles) and *Maree* in the northern Highlands.

**Climate.**—The general climatic values for Scotland are given below, together with the corresponding values for England and Wales within brackets—mean air temperature reduced to sea level 47.1° F. (49.7); rainfall, 50.3 inches (35.2); number of days with rain 217 (188); mean hours per day of bright sunshine, 3.36 (3.96).

**Gaelic Language.**—Some 88,000 persons in 1971, mainly in the Highlands and western coastal regions, were able to speak the Scottish form of Gaelic.

**Commerce.**—The principal exports are machinery, ships and vehicles, iron and steel manufacturers, non-ferrous metals, woollen and worsted yarns and products, food and drink and textile materials. Whisky continues to be the leading export to dollar countries.

## THE SCOTTISH ISLANDS

The preliminary report of the 1971 Census of Scotland showed a continued decline in the population of the islands. The populations at April 25, 1971, with 1961 populations in parenthesis, included: Islay 3,825 (1961, 3,871); Mull (including Iona, etc.), 1,560 (1,635); Coll and Tiree, 1,021 (1,173); Skye 7,372 (7,772); Barra, 1,087 (1,564); North Uist, 1,732 (1,982); South Uist, 3,781 (4,000).

**Orkney.**—About 6 miles N. of the Caithness coast, separated from the mainland by the *Pentland Firth*, is the island county of Orkney, a group of 90 islands and islets ("holms" and "skerries"), of which one-third are inhabited. The total area of the group is 375½ square miles, with a population (1971 Census, preliminary) of 17,075 (1961, 18,888). 1971 populations of the islands (with 1961 figures in italic) are: Eday 179 (202); Hoy and Walls, 531 (699); Mainland 6,502 (7,764); N. Ronaldsay, 134 (166); Rousay, 256 (350); Sanday, 592 (632); Shapinsay, 346 (432); S. Ronaldsay, 990 (1,275); Stronsay, 440 (497); Westray 841 (1,015); Kirkwall (4,618), in *Mainland* (Pomona), the largest island of the group, is the capital of the county. Many of the Orkney (and Shetland) Islands contain *brochs* (Pictish towers) and other Pictish and Scandinavian remains. *Scapa Flow*, between *Mainland* and *Hoy*, was the war station of the Grand Fleet from 1914-19 and the scene of the scuttling of the surrendered German High Seas Fleet (June 21, 1919).

**Zetland.**—About 50 miles N. of Orkney (with the detached Fair Isle at 25 miles N.) is the island county of Zetland or Shetland, a group of about 100 islands and islets, of which one-fifth are inhabited. The total area of the group is 551 square miles, with a population (1971 Census, prelim.) of 17,298 (1961, 17,978). Lerwick (6,107), in *Mainland* (the largest and principal island), is the capital of the county. *Fair Isle*, the southernmost of the group is famous for handknitted hosiery, and *Unst* (with Fair Isle, 1,129) for the finest of the Shetland woollen work for which the county is famous. *Muckle Flugga*, about 1 mile N. of Unst, is the most northerly of the group and of the British Isles (60° 51' 30" N. lat.).

**Western Islands.**—Off the W. coast, at varying distances, and extending from Sutherland to Argyll, are over 500 islands and islets, of which 102 are inhabited. The total area of these Western Islands is 2,812 square miles, but owing to the mountainous surface of the land only about 300 square miles are under cultivation. *The Hebrides.*—Until the closing years of the 13th century "The Hebrides" included other Scottish islands in the Firth of Clyde, the peninsula of Kintyre (Argyllshire), the Isle of Man, and the (Irish) Isle of Rathlin. The origin of the name is stated to be the Greek *Eboudai*, latinized as *Hebudes* by Pliny, and corrupted to its present form. The Norwegian name *Sudreyjar* (Southern Islands) was latinized as *Sodoresens*, a name that survives in the Anglican bishopric of "Sodor and Man." *The Inner Hebrides* include the island of *Skye* (643 square miles—capital, Portree, famous as a refuge of Prince Charlie after his defeat at Culloden, Inverness-shire, in 1746), which contains the *Cuillins* (Sgurr Alasdair 3,309 feet), *Red Hills* (Ben Caillich, 2,403 feet), and many other picturesque mountains; *Mull* (367 square miles), containing *Ben More* (3,169 feet), *Ben Buy* (2,354 feet), and *Ben Creach* (2,289 feet); *Jura* (160 square miles), with a chain of hills culminating in the *Paps of Jura* (Beinn-an-Oir, 2,571 feet and Beinn Chaolais, 2,407 feet); *Islay* (235 square miles), and many smaller islands. The *Outer Hebrides*, separated from the mainland by the *Minch*, include *Lewis with Harris* (770 square miles), celebrated for its homespun "Tweeds," *North Uist*, *South Uist*, *Barra* and other islands. Thirteen miles W. of *Stornoway* (the largest town of Lewis and of the Hebrides) are the "Druidical" remains of *Callanish*, a well-preserved series of monolithic circles, cruciform in general arrangement, but usually regarded as a heathen monument of the remote Stone Age.

#### EARLY HISTORY

**Prehistoric Man.**—The *Picts*, believed to be of non-Aryan origin, and stated to have been named *Picti* by the Romans on account of the tribal habit of painting the body, seem to have inhabited the whole of North Britain and to have spread over the north of Ireland. *Picts' Houses* are most frequent in the northern counties of Caithness and Sutherland and in the Orkney Islands. Celtic *Goidels*, *Brythons* and *Belgae* arrived from Belgic Gaul during the latter part of the Bronze Age and in the early Iron Age, and except in the extreme north of the mainland and in the islands, the civilization and speech of the people were definitely Celtic at the time of the Roman Invasion of Britain.

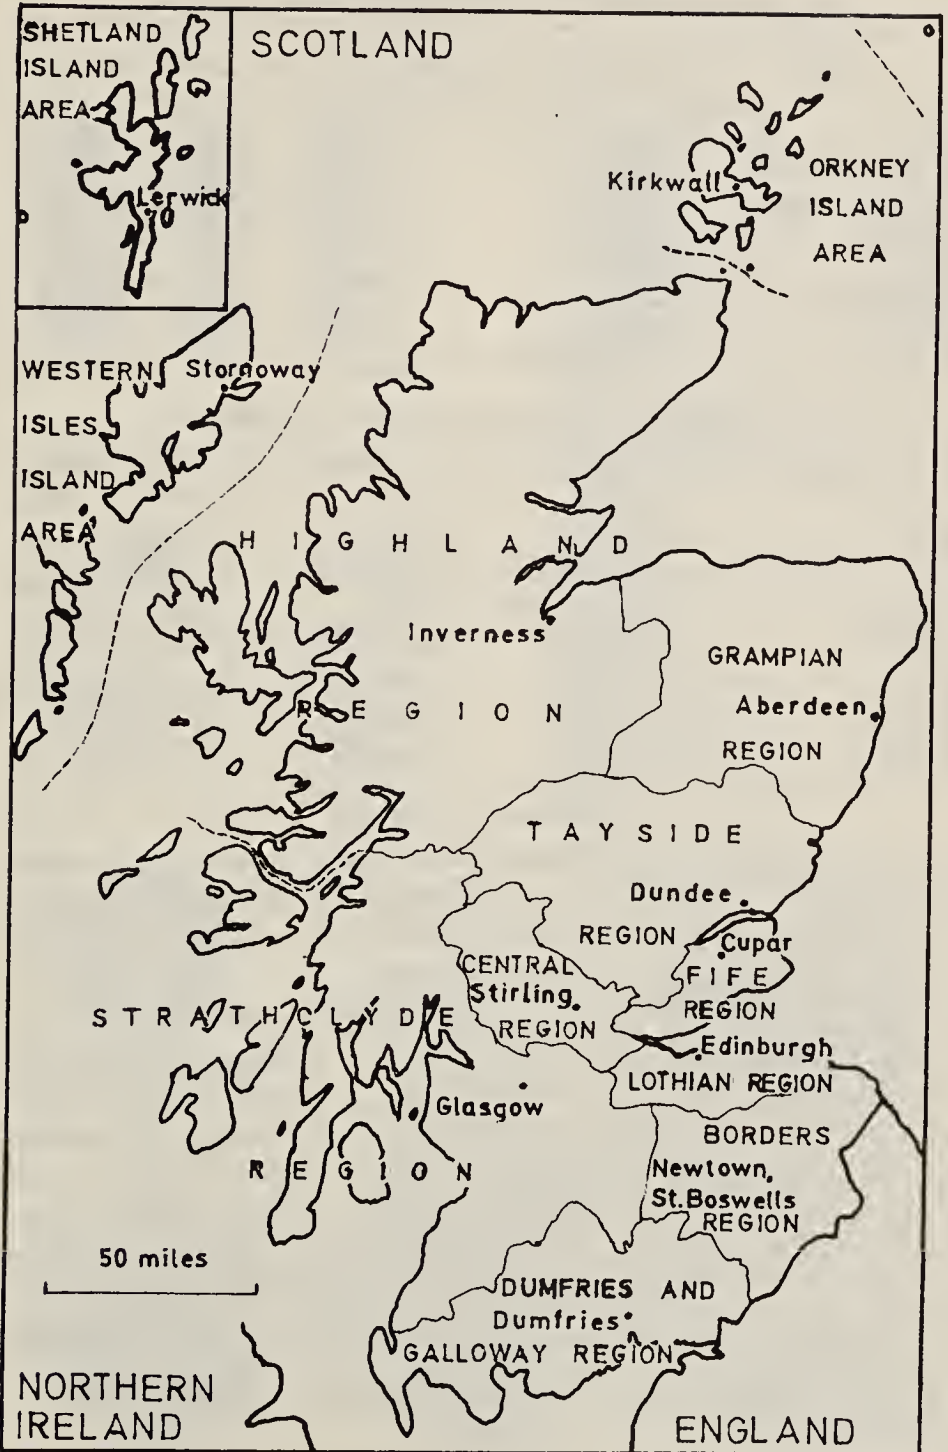

**The Roman Invasion.**—In A.D. 80 Julius Agricola extended the Roman conquests in Britain by advancing into *Caledonia* as far as the "Grampian" Hills, but after a victory at *Mons Graupius* (since corrupted to "Grampius") he was recalled, and no further advance was made for about 60 years, when the

Roman frontier was carried to the isthmus between the Forth and Clyde and marked by the *Wall of Pius*, towards which ran military roads from the *Cheviots*. The Roman occupation of Southern *Caledonia* was not so effective as that of South Britain, and before the close of the second century the northern limit of Roman Britain had receded to *Hadrian's Wall* (Tyne to Solway Firth).

**The Scots.**—During the later years of the Roman occupation the garrison was continually harassed by Pictish tribes north of the Wall, aided by Scots (the Gaelic tribe then dominant in Ireland), and when the garrison was withdrawn these *Picts* and *Scots* were the principal enemies of the Celtic Brythons, who are believed to have called in the Saxons to protect them from the invasions of their neighbours. A relic of the struggle between Pict and Brython is still to be seen in the *Catrail*, or *Picts' Work Dyke* of Roxburgh (from Torwoodlee, near Galashiels, to Peel Fell in the Cheviots). *Christianity* was introduced into Southern *Caledonia* about 380 by missionaries from Romanized Britain, who penetrated to the northern districts and islands. After the withdrawal (or absorption) of the Roman garrison of Britain there were many years of tribal warfare between the Picts and Scots, the Brythonic Waelisc (Welsh) of Strathclyde (South-west Scotland and Cumberland), and the Anglo-Saxons of the Lothians. The Waelisc were isolated from their kinsmen in Wales by the victory of the West Saxons at Chester (613), and towards the close of the 9th century the Scots under *Kenneth Macalpine* became the dominant power in *Caledonia*. In the reign of Malcolm I (943-954) the Brythons of Waelisc (Welsh) of Strathclyde were brought into subjection, the lowland kingdom of the English (Lothian) being conquered by Malcolm II (1005-1034). From the close of the 11th century until the middle of the 16th there were constant wars between Scotland and England, the outstanding figures in the struggle being *William Wallace*, who defeated the English at Stirling Bridge (1297) and *Robert Bruce*, who won the victory of Bannockburn (1314). James IV and many of his nobles fell at the disastrous battle of *Flodden* (1513), and in 1603 James VI, the Stuart King of Scotland and the heir to the Tudor line of England (his mother, Mary Queen of Scots, was the great-granddaughter of Henry VII), succeeded Queen Elizabeth I on the throne, his successors reigning as Sovereigns of Great Britain. After the abdication (by flight) of James VII and II, the crown devolved upon William III (grandson of Charles I) and Mary (daughter of James VII and II) and, their issue failing, upon Anne (second daughter of James VII and II). Anne's children died young, and the throne devolved upon George I (great-grandson of James VI and I). In 1689 Graham of Claverhouse "roused the Highlands" on behalf of James VII and II, but died after a military success at Killiecrankie. In 1715, armed risings led to the indecisive battle of Sheriffmuir, but the movement died down until 1745, when Prince Charles Edward defeated the Royalist troops under Sir John Cope at Prestonpans and advanced to Derby in England (1746). From Derby, the adherents of "James VII and III" (the title claimed for his father by Prince Charles Edward) fell back on the defensive, and the *Jacobite* movement was finally crushed by the Royalist troops under the Duke of Cumberland at *Culloden* (April 16, 1746).

**The Hebrides** did not become part of the Kingdom of Scotland until 1266, when they were ceded to Alexander III by Magnus of Norway. Orkney and Shetland fell to the Scottish Crown as a pledge for the unpaid dowry of Margaret of Denmark, wife of James III, in 1468, the Danish suzerainty being formally relinquished in 1590.

## PRINCIPAL SCOTTISH CITIES

## EDINBURGH

EDINBURGH, the Capital of Scotland, has a municipal area of 100.6 sq. miles. The city is built on a group of hills and contains in Princes Street one of the most beautiful thoroughfares in the world. The principal buildings are the Castle, which includes St. Margaret's Chapel, the oldest building in Edinburgh, and near it, the Scottish National War Memorial; the Palace of Holyroodhouse; Parliament House, the present seat of the judicature; two universities (Edinburgh and Heriot Watt); St. Giles' Cathedral (restored 1879-83); St. Mary's (Scottish Episcopal) Cathedral (Sir Gilbert Scott); the General Register House (Robert Adam); the National and the Signet Libraries; the National Gallery; the Royal Scottish Academy; and the National Portrait Gallery. The city is governed by the City of Edinburgh District Council which includes the area of South Queensferry, Kirkliston, Currie, Ratho and Balerno.

## GLASGOW

GLASGOW, a Royal Burgh, City, largest District in the Strathclyde Region, and the principal commercial and industrial centre in Scotland, has a municipal area of 48,822 acres. The city occupies the north and south banks of the Clyde, one of the chief commercial estuaries in the world. The principal industries include heavy engineering, aero and marine engines, chemicals, printing, carpet, cotton thread, food processing, etc. The chief buildings are the Early Gothic former Cathedral, the University (Sir Gilbert Scott), the City Chambers, Pollok House, the Transport Museum, Kelvingrove Art Galleries and the Mitchell Library. The city is home of the Scottish National Orchestra, Scottish Opera, etc.

## ABERDEEN

ABERDEEN, 126 miles N.E. of Edinburgh, received its charter as a Royal Burgh from William the Lion in 1179. Scotland's third largest city, it covers an area of 73.25 square miles. Aberdeen is the principal commercial and administrative centre in the N. of Scotland, the largest Scottish fishing port and the main European centre for offshore oil exploration. It is also an ancient university town and distinguished research centre. Other industries include engineering, shipbuilding, food processing, textiles, paper manufacturing and chemicals. Places of interest: King's College, St. Machar's Cathedral, Brig o' Balgownie, the Kirk of St. Nicholas, Mercat Cross, Marischal College, Provost Skene's House, Art Gallery, James Dun's House (children's museum). Aberdeen is governed by a City Council of 48 members.

## DUNDEE

DUNDEE, a Royal Burgh, City, is the administrative centre of Tayside Region. Situated on the north bank of the Tay estuary, it extends over 96 square miles. The city's first class port and dock installations are important to the offshore oil industry and the airport also provides servicing facilities. Principal industries include textiles, watches and clocks, computers and other electronic industries, publishing, tyre manufacture, food processing, carpets, heavy electrical engineering, greetings cards, shipbuilding and marine engineering and clothing manufacture. The University of Dundee was established in 1967. The unique City Churches—three churches under one roof, together with the 15th century St. Mary's Tower—are the most prominent architectural feature.

## Northern Ireland

(For geographical and historical notes on Ireland, see Index)

The estimated population of Northern Ireland in 1980 was 1,547,300 (males, 763,700; females, 783,600) compared with a total population of 1,536,065 at the Census of 1971. In 1971 the number of persons in the various religious denominations (expressed as percentages of the total population) were: Roman Catholic, 31.4; Presbyterian, 26.7; Church of Ireland, 22; Methodist, 4.7; others 5.8; not stated, 9.4. Northern Ireland has a total area of 5,462 sq. miles (land, 5,206 sq. miles; inland water and tideways, 255 sq. miles) with a density of population of 282 persons per sq. mile in 1971.

**Constitution and Government.** A separate parliament and executive Government was established for Northern Ireland in 1921 by the Government of Ireland Act. The Northern Ireland Constitution Act, 1973, abolished the post of Governor and Parliament of Northern Ireland and provided for the transfer of certain legislative functions to a Northern Ireland Assembly and Executive. Elections for a Northern Ireland Assembly took place on June 28, 1973. Devolved Government came into operation with effect from January 1, 1974 but when the Executive collapsed the Northern Ireland Assembly was prorogued on May 29 1974. The Northern Ireland Constitution Act, 1974, which became law in July 1974, made provision for temporary arrangements for the government of Northern Ireland by the Secretary of State for Northern Ireland and also provided for the holding of elections and a Constitutional Convention. The Convention which had the purpose of considering what provision for the government of Northern Ireland was likely to command the most widespread acceptance throughout the community there, reported on November 8, 1975. The Convention was reconvened on February 3, 1976 so that it might be determined whether agreement could be reached on the specific and crucial issue of a system of Government within Northern Ireland which provided for a form of partnership and participation. No further report was made and the Convention was dissolved on March 5, 1976. In January 1980, the main political parties were invited by the Secretary of State for Northern Ireland to participate in a conference with the object of seeking the highest level of agreement on the Province's future government. The conference, attended by three of the four main parties, was adjourned in March 1980. Direct Rule continues in being under the terms of the Northern Ireland Act 1974.

In April 1982, the Government published a White Paper entitled "Northern Ireland: A Framework for Devolution", in which it signified its intention to hold elections for a Northern Ireland Assembly. This would initially perform a consultative and deliberative role, but in due course would also be able to assume administrative and legislative responsibility for transferred functions if a sufficient level of agreement on how these powers should be exercised could be reached by the parties represented in it. The Government subsequently presented to Parliament a Northern Ireland Bill aimed at giving effect to these proposals, and elections to a 78 member Ulster Assembly took place on October 20th, 1982.

#### BELFAST

BELFAST, a City, the seat of Government of Northern Ireland, situated at the mouth of the River Lagan at its entrance to Belfast Lough, has a municipal area of 16,017 acres, exclusive of tidal water (2,034) and a population (mid-1980) of 345,800. The city received its first charter of incorporation in 1613 and has since grown, owing to its easy access by sea to Scottish coal and iron, to be a great industrial centre. The chief industries are ship-building and the manufacture of aircraft, aerostucture, heavy and light engineering, textiles, ropes and tobacco. Belfast is an important seaport with extensive docks.

The principal buildings are of a relatively recent date and include the Parliament Buildings at Stormont, the City Hall, the Law Courts, the Public Library and the Museum and Art Gallery. The Queen's University (previously Queen's College) was chartered in 1908.

The city returns 4 members to the House of Commons at Westminster. Belfast was created a city in 1888 and the title of Lord Mayor was conferred in 1892.

### LONDONDERRY

LONDONDERRY, a City situated on the River Foyle, has a population (mid-1980) of 91,200 and was reputedly founded in 546 by St. Columba. Londonderry (formerly *Derry*) has important associations with the City of London. The Irish Society, under its royal charter of 1613, fortified the city and was for long closely associated with its administration. On April 2, 1969, the Corporation of Londonderry and Londonderry R.D.C. were dissolved and replaced by the Londonderry Development Commission, itself dissolved in Sept. 1973, and its functions taken over by a Local District Council and various Government departments and Area Boards.

Famous for the great siege of 1688-89, when for 105 days the town held out against the forces of James II until relieved by sea, Londonderry was an important naval base throughout the Second World War. Interesting buildings are the Protestant Cathedral of St. Columba's (1633) and the Guildhall reconstructed in 1912 and containing a number of beautiful stained glass windows, many of which were presented by the lively companies of London. The famous Walls are still intact and form a circuit of almost a mile around the old city. The traditional activity in Londonderry is shirtmaking. Other industries include mechanical engineering, automobile components including rubber tyres, cord and synthetic fibre. New industries include the manufacture of bicycles. A large part of Ulster's agricultural export trade passes through the port.

### FINANCE

Taxation in Northern Ireland is largely imposed and collected by the United Kingdom Government. After deducting the cost of collections and of Northern Ireland's contributions to the European Economic Community the balance, known as the Attributed Share of Taxation, is paid over to the Northern Ireland Consolidated Fund. Northern Ireland's revenue is insufficient to meet its expenditure and is supplemented by a grant in aid.

### PRODUCTION

*Industries.*—The total value of the industrial production of Northern Ireland employing 20 or more

persons in 1979 was approximately £3,516,000,000 and the number of persons employed about 160,000. The products of the engineering, shipbuilding and aircraft industries which employed 34,000 persons, were valued at £449,000,000. The textile industries, employing about 28,000 persons, produced yarns, fabrics, household textiles, handkerchiefs, carpets, hosiery, ropes and a wide variety of other products valued at approximately £526,000,000. The food and drink industry, employing about 24,000 persons, produced goods valued at £1,145,000,000. The value of clothing manufactured in 1979 was about £154,000,000, of which £75,000,000 represented shirts and collars, which are manufactured principally in Londonderry.

*Minerals.*—1,417 persons were employed in mining and quarrying operations in Northern Ireland in 1980 and the minerals raised were valued at £18,420,093.

### COMMUNICATIONS

*Seaports.*—The total number of ships using the principal ports in 1981 was 9,649. *Belfast.*—Regular services operate to and from ports on the Western coast of Great Britain and the Continent of Europe. In addition there are frequent, though less regular, calls by many other coastal and foreign-going ships. There are roll on/roll off services to Liverpool and Ardrossan. Container services—with adequate cranes available—operate to Holyhead and Garston and there are weekly sailings catering for unutilised traffic to ports in France, Germany, Holland, Belgium, Sweden and Denmark. *Larne.*—Roll on/roll off ferry services carrying passengers, cars and commercial vehicles operate 8 times daily to Stranraer and five times daily to Cairnryan; roll on/roll off services for commercial vehicles also operate daily to Liverpool and Fleetwood. There is also a daily lift on/lift off service to Cairnryan. *Warrenpoint.*—Container services operate to Rotterdam, bi-weekly. A roll on/roll off berth has been provided.

*Road and Rail Transport.*—The Northern Ireland Transport Holding Company is responsible for the supervision of the subsidiary companies, Ulsterbus and Citybus, which operate the public road passenger services, Northern Ireland Railways, which provides the railway services, and Northern Ireland Airports, which is responsible for running the main airport at Aldergrove, near Belfast. A few privately operated bus services are provided in rural areas under licence. Road freight services are also provided by a large number of hauliers operating competitively under licence.

*Air Transport.*—Passenger and freight services operate between Belfast Airport and airports throughout Great Britain. In 1981, 1,400,000 passengers, and 17,000 metric tons of freight, including mail, were carried, making the Airport the seventh busiest in the United Kingdom. A major development programme was started in 1977 which, on completion, will leave the Airport better equipped to handle traffic growth in the foreseeable future.

There are four other licensed aerodromes in Northern Ireland at Belfast Harbour (Sydenham), Newtownards, Eglinton (Londonderry) and St. Angelo (Enniskillen). Scheduled services operate to Glasgow/Edinburgh from Eglinton and during the summer months to Glasgow from St. Angelo. The aerodromes are used by flying clubs, by private owners and by expanding air taxi businesses flying to destinations in Ireland, Great Britain and continental Europe.

## THE ISLE OF MAN (MONA)

An island in the Irish Sea, in lat. 54° 3'–54° 25' N. and long. 4° 18'–4° 47' W., nearly equidistant from England, Scotland, and Ireland. The total land area is 141,263 acres (221 sq. miles), of which 78,080 acres are under cultivation. The report on the 1981 Census showed a resident population of 64,679 (males, 30,901; females, 33,778). In 1981 births numbered 752 and deaths 979. 284 persons were returned at the Census of 1971 as able to speak the Manx language, compared with 4,657 in 1901, 355 in 1951 and 165 in 1961. The principal sectors of the Island's economy in terms of income generated and in order of importance (1980/81 figures) are Finance, Manufacturing Industry and Tourism.

*Government*—The Isle of Man is governed by a Legislature, called the Tynwald, consisting of two branches—the Legislative Council and the House of Keys. The Council consists of the Bishop of Sodor

and Man, the Attorney-General and 8 members appointed by the House of Keys, one of whom is elected President of the Council. The House of Keys is one of the most ancient legislative assemblies in the world. It consists of 24 members, elected by the adult male and female population, 13 from the six *sheedings*, 7 from Douglas, 2 from Ramsey, and 1 each from Castletown and Peel. Bills after having passed both Houses are signed by the members, and then sent for the Royal Assent. After receiving the Royal Assent, a Bill does not become law unless promulgated within the ensuing twelve months, and on the first "Tynwald Day" (July 5) following it is announced in the English and Manx languages on the Tynwald Hill. On the promulgation taking place a certificate thereof is signed by the Lieutenant-Governor, the President of the Legislative Council and the Speaker of the House of Keys. The Isle of Man is associated

for certain purposes with the Common Market under Protocol 3 of the Treaty of Accession.

*Finance.*—The Island's Budget for 1982/83 provided for net revenue and capital expenditure of £92,711,880. The principal sources of Government revenue are a) Income Tax, charged at the rate of 20 per cent of all taxable income and b) Customs and Excise Duties, which are collected by the Isle of Man Government. Currently, the rates of indirect taxation in the Isle of Man are the same as those in the United Kingdom, but the Isle of Man Government may alter these rates, subject to three months' notice and agreement by the UK Government. The Customs and Excise Agreement may be terminated by either Government subject to six months' notice. There are no surtax or death duties, although there is a Company Registration Tax, which is levied at the flat rate of £250 on every company incorporated in the Isle of Man which trades, and there is a Land Speculation Tax payable at the rate of 20 per cent.

An annual contribution of 2.5 per cent of the net Customs and Excise Union receipts is made towards the cost of defence and other common services provided by the United Kingdom Government.

There are also reciprocal Social Security arrangements with the U.K.

There are 37 primary, 5 secondary schools, one special school and a college of further education, in addition to King William's College and the Buchan School for Girls.

*CAPITAL.* ΨDouglas. Population (1981), 19,944; ΨCastletown (3,141) is the ancient capital; the other towns are ΨPeel (3,688), and ΨRamsey (5,818).

*FLAG.*—Three legs in white and gold armed conjoined on a red ground.

*Lieutenant-Governor*, His Excellency Rear-Adm. Sir Nigel Cecil, K.B.E., C.B.

*Government Secretary*, P. J. Hulme.

*Speaker, House of Keys*, Sir Charles Kerruish, K.B.E.

## THE CHANNEL ISLANDS

Situated off the north-west coast of France (at distances of from ten to thirty miles), are the only portions of the *Dukedom of Normandy* now belonging to the Crown, to which they have been attached ever since the Conquest. They consist of Jersey (28,717 acres), Guernsey (15,654 acres), Alderney (1,962 acres), Brechou (74), Great Sark (1,035) Little Sark (239), Herm (320), Jethou (44) and Lihou (38), a total of 48,083 acres, or 75 square miles. In 1981 the population of Jersey was 76,050; and of Guernsey, etc. (1975) (Guernsey, 54,380; Alderney, 2,000; Sark, 604).

The climate is mild, and the soil exceptionally productive. The land under cultivation is about 37,599 vergées (2½ vergées=1 acre) in Jersey, and about 16,500 vergées (2½ vergées=1 acre) in Guernsey, the principal product of the soil of Jersey being potatoes, tomatoes and flowers, and of Guernsey, tomatoes, flowers and fern. The famous Jersey and Guernsey breed of cows have earned a well-deserved celebrity. The Lieutenant-Governors and Commanders-in-Chief of Jersey and Guernsey are the Personal Representatives of the Sovereign and the channel of communication between H.M. Government and the Insular Governments. The Bailiffs of Jersey and Guernsey, appointed by the Crown, are Presidents both of the Assembly of the States (the Insular Legislature) and of the Royal Courts respectively.

The official language is English and a Norman-French *patois* is also in use (except in Alderney). The principal imports are food, beverages, tobacco, manufactured goods, fuels and chemicals; and the chief exports potatoes, tomatoes, grapes, flowers and cattle. The chief town of Jersey is ΨSt. Helier on the south coast; the principal town of Guernsey is ΨSt. Peter Port, on the east coast, and of Alderney is St. Anne's.

**Area and Population.**—The total area of the independent Commonwealth is estimated at 10,679,084 square miles. Details of the areas and populations of the Member States and dependencies appear in the following pages. The total population of the Commonwealth is estimated to be 959,660,905.

**History and Government.**—The status and relationship of member nations was first defined by the Inter-Imperial Relations Committee of the 1926 Imperial Conference, under the chairmanship of Lord Balfour, in what came to be known as the "Balfour formula": "They are autonomous communities . . . equal in status, in no way subordinate one to another in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown and freely associated as Members of the British Commonwealth of Nations." This principle was given legal substance by the Statute of Westminster 1931.

The concept of a group of countries owing allegiance to a single Crown changed in 1949 when India decided to become a republic, and her continued membership of the Commonwealth was agreed by the other members on the basis of her "acceptance of the King as the symbol of the free association of its independent member nations and as such the Head of the Commonwealth". All member nations continue to acknowledge The Queen as Head of the Commonwealth.

Most members of the Commonwealth are parliamentary democracies.

Queen Elizabeth II is Head of State of 17 member countries of the Commonwealth: Antigua and Barbuda, Australia, the Bahamas, Barbados, Belize, Britain, Canada, Fiji, Grenada, Jamaica, Mauritius, New Zealand, Papua New Guinea, Saint Lucia, Saint Vincent and the Grenadines, Solomon Islands and Tuvalu. In each of these countries (except Britain) The Queen is personally represented by a Governor-General, who holds in all essential respects the same position in relation to the administration of public affairs in the realm as is held by Her Majesty in Britain (with the exception of certain constitutional functions which are performed by The Queen personally). The Governor-General is appointed by The Queen on the advice of the Government of the country concerned.

Twenty-five member countries are republics:

Bangladesh, Botswana, Cyprus, Dominica, The Gambia, Ghana, Guyana, India, Kenya, Kiribati, Malawi, The Maldives, Malta, Nauru, Nigeria, Seychelles, Sierra Leone, Singapore, Sri Lanka, Tanzania, Trinidad & Tobago, Uganda, Vanuatu, Zambia and Zimbabwe. In Malaysia, the Head of State is elected from among the nine hereditary Malay rulers and holds office for five years. Lesotho, Tonga, and Swaziland have their own monarchs. Western Samoa has a Head of State whose functions are analogous to those of a constitutional monarch.

Membership of the Commonwealth is subject only to the approval of existing members. Four countries, The Maldives, Nauru, St. Vincent and Tuvalu, are special members, with the right to participate in all functional Commonwealth meetings and activities, but not to attend Meetings of Commonwealth Heads of Government.

**Consultation.**—Commonwealth Heads of Government meet every two years to discuss international developments and to consider cooperation among members. These Meetings are the successors to the pre-war Imperial Conferences. They are private exchanges of views. They do not pass resolutions or seek to formulate common policies; but they have on occasion made general statements of principle to which they all subscribe.

In addition, there are annual meetings of Finance Ministers, and frequent meetings of Ministers and officials in the fields of trade, education, medicine, law, science, agriculture and youth affairs.

**Defence.**—The Commonwealth is not a military alliance and members make their own defence arrangements in the light of their particular requirements. Some are parties to multi-lateral treaties, for example A.N.Z.U.S. and N.A.T.O. Members of the Commonwealth cooperate with each other in combined exercises, joint research organizations and exchanges of personnel and training facilities.

**Law.**—English common law forms the basis of the legal system in many Commonwealth countries, although in most cases it has been radically adapted by statute to suit the individual needs and aspirations of a country, and there are countries where other systems have been adopted—for example, the law of Quebec Province and of Mauritius is founded on that of France, and Roman Dutch law forms the basis in Sri Lanka and Lesotho. Trinidad and Tobago, Singapore, The Gambia, Dominica and Kiribati retain the right of appeal to the Judicial Committee of the Privy Council in the United Kingdom, which also hears appeal from dependent territories.

**Citizenship and Nationality.**—Each member of the Commonwealth defines the citizenship and nationality of its own people and determines the status of other Commonwealth nationals within its own boundaries. In most cases, though not in all, they possess a common status as British subjects or Commonwealth citizens. Even where there is no such provision for a common status, members of the Commonwealth differentiate, in greater or lesser degree, as regards the grant of privileges, between citizens of the Commonwealth and aliens. The Republic of Ireland, which in 1949 ceased to be a member of the Commonwealth, is not regarded by the other Commonwealth nations as a foreign country nor her citizens as foreigners.

**Finance and Development.**—Complete financial autonomy is enjoyed by all members of the Commonwealth. In some countries, customs tariffs are lower for merchandise of Commonwealth origin than for

imports from foreign countries. Developing countries, including those in the Commonwealth, obtain preference for exports of industrial goods and some agricultural exports from the developed countries under the Generalised Scheme of Preferences (G.S.P.). Many smaller Commonwealth countries are also party to the Lomé Convention which accords preferential access to the European Economic Community. Many former Commonwealth preferences have been replaced by these arrangements.

British aid for the development needs of the Commonwealth countries and dependent territories are dealt with under the provisions of the Overseas Aid Act 1966, administered by the Ministry of Overseas Development. This Act succeeds the former Colonial Development and Welfare Acts. Those countries which are party to the Lomé Convention also receive aid under that Convention from the European Community.

**Commonwealth Secretariat.**—This was established by decision of Commonwealth Heads of Government in 1965, and is the main agency for multi-lateral communication between Commonwealth Governments. It promotes consultation and disseminates information on matters of common concern, organizes meetings and conferences, coordinates Commonwealth activities and provides technical assistance for economic and social development through the Commonwealth Fund for Technical Cooperation.

**Associated States.**—Early in 1967, the former colonies of Antigua, Dominica, Grenada, St. Christopher-Nevis-Anguilla and St. Lucia became "non-independent" states in association with the United Kingdom. The main features of the association are that each state is responsible for its own internal affairs, may amend its own constitution and may sever the association by unilateral declaration, subject to the observance of procedures contained in the constitution of each state. The United Kingdom remains responsible for the external affairs and defence of each state. Legal effect was given to the status by the West Indies Act 1967. In October 1969, St. Vincent also became an associated state. Grenada, Dominica, Saint Lucia, Saint Vincent and Antigua and Barbuda ceased to be associated states when they became independent. Anguilla seceded from St. Christopher-Nevis in 1967 only three months after the formation of the associated state, and is at present administered as a dependent territory by Her Majesty's Commissioner under the Anguilla (Constitution) Order 1976.

New Zealand also has two associated states: Cook Islands (since 1965) and Niue (since 1974).

**Dependent Territories.**—Britain, Australia and New Zealand have a number of dependent territories, most of which are colonies, and the Leased Territories which are that part of mainland China which was leased to Britain in 1898 for 99 years and administered by the Government of Hong Kong. (There are no longer any protectorates or protected states.)

## Mother Tongues of the Population

In the 1981 Census a distinction was made for the first time between the many aboriginal languages used in Canada, and a greater number of languages were identified as separate mother tongues than in the 1976 Census. N.B. Processing procedures in 1981 were not strictly comparable to those used in 1976.

## PHYSIOGRAPHY

Canada was originally discovered by Cabot in 1497, but its history dates only from 1534, when the French took possession of the country. The first permanent settlement at Port Royal (now Annapolis), Nova Scotia, was founded in 1605, and Quebec was founded in 1608. In 1759 Quebec was captured by the British forces under General Wolfe, and in 1763 the whole territory of Canada became a possession of Great Britain by the Treaty of Paris of that year. Nova Scotia was ceded in 1713 by the Treaty of Utrecht, the Provinces of New Brunswick and Prince Edward Island being subsequently formed out of it. British Columbia was formed into a Crown colony in 1858, having previously been a part of the Hudson Bay Territory, and was united to Vancouver Island in 1866.

Canada occupies the whole of the northern part of the North American Continent (with the exception of Alaska), from 49° North latitude to the North Pole, and from the Pacific to the Atlantic Ocean. In Eastern Canada, the southernmost point is Middle Island in Lake Erie, at 41° 41'.

*Relief.*—The relief of Canada is dominated by the mountain ranges running north and south on the west side of the Continent, by the pre-Cambrian shield on the east, with, in between, the northern extension of the North American Plain. From the physiographic point of view Canada has six main divisions. These are: (1) Appalachian-Acadian Region, (2) the Canadian Shield, (3) the St. Lawrence-Great Lakes Lowland, (4) the Interior Plains, (5) the Cordilleran Region and (6) the Arctic Archipelago. The first region occupies all that part of Canada lying southeast of the St. Lawrence. In general, the relief is an alternation of highlands and lowlands and is hilly rather than mountainous. The lowlands area seldom rises over 600 feet above sea level. The great Canadian Shield comprises more than half the area. The interior as a whole is an undulating, low plateau (general level 1,000 to 1,500 feet), with the more rugged relief lying along the border between Northern Quebec and Labrador. Throughout the whole area water or muskeg-filled depressions separate irregular hills and ridges, 150 to 200 feet in elevation. Newfoundland, an outlying portion of the shield, consists of glaciated, low rolling terrain broken here and there by mountains. The flat relief of the St. Lawrence-Great Lakes lowland varies from 500 feet in the east to 1,700 feet south of Georgian Bay. The whole area in the western part slopes gently to the Great Lakes. The most striking relief is provided by the eastward facing scarp of the Niagara escarpment (elevation 250 to 300 feet). The interior plains, comprising the Pacific Provinces, slope eastward and northward a few feet per mile. The descent from west to east is made from 5,000 feet to less than 1,000 feet in three distinct levels, with each new level being marked by an eastward facing *conteau* or scarp. Horizontal strata and peneplanation make for slight relief of the level to rolling type. Five fairly well-developed topographic divisions mark out the Cordilleran region of western Canada. These are: (1) coastal ranges, largely above 5,000 feet with deep fiords and glaciated valleys, (2) the interior plateau, around 3,500 feet and comparatively level, (3) the Selkirk ranges, largely above 5,000 feet, (4) the Rocky Mountains with their chain of 10,000 to 12,000 feet peaks, and (5) the Peace River or Tramontane region with its rolling diversified country. The Arctic Archipelago, with its plateau-like character has an elevation between 500 and 1,000 feet, though in Baffin Land and Ellesmere Island the mountain ranges rise to 8,500 and 9,500 feet. Two tremendous waterway systems, the St. Lawrence and the Mackenzie, providing thousands of miles of water

highway, occupy a broad area of lowland with their dominant axis following the edge of the shield.

*Climate.*—The climate of the eastern and central portions presents greater extremes than in corresponding latitudes in Europe, but in the southwestern portion of the Prairie Region and the southern portions of the Pacific slope the climate is milder. Spring, summer, and autumn are of about seven to eight months' duration, and the winter four to five months.

## GOVERNMENT

The Constitution of Canada had its source in the British North America Act of 1867 which formed a Dominion, under the name of Canada, of the four provinces; Ontario, Quebec, New Brunswick and Nova Scotia; to this Federation the other Provinces have subsequently been admitted. Under this Act Canada came into being on July 1, 1867 (Dominion Day), and under the Statute of Westminster, which received the royal assent on Dec. 11, 1931, Canada and the Provinces were exempted (in common with other self-governing Dominions of the Commonwealth of Nations) from the operation of the Colonial Laws Validity Act, the Statute of Westminster having removed all limitations with regard to the legislative autonomy of the Dominions, except that the British North America Act could be amended in important respects only by Acts of the British Parliament. Provinces admitted since 1867 are: Manitoba (1870), British Columbia (1871), Prince Edward Island (1873), Alberta and Saskatchewan (1905) and Newfoundland (1949).

Agreement was reached in Nov. 1981 between the Federal and Provincial Governments (except Quebec) to patriate the Constitution so that it was amendable only in Canada. The inclusion in the Constitution of a Charter of Rights was also agreed. At the request of the Canadian Parliament, legislation was passed at Westminster and the Constitution formally patriated on 17th April 1982.

The Executive power is vested in a Governor-General appointed by the Sovereign on the advice of the Canadian Ministry, and aided by a Privy Council.

## NATIONAL DEFENCE

The Minister of National Defence has the control and management of the Canadian Armed Forces and all matters relating to National Defence establishments and works for the defence of Canada.

The Canadian Forces are organized on a functional basis to reflect the major commitments assigned by the government and are formed into National Defence Headquarters and five major Commands reporting to the Chief of the Defence Staff. The roles of the five Commands are: *Mobile Command*—Provision of ground forces for the protection of Canadian territory, combat forces in Canada for support of overseas commitments, and forces for support of

United Nations or other peace-keeping operations. *Maritime Command*—Provision of sea forces on the Atlantic and Pacific coasts for the defence of Canada, anti-submarine defence in support of NATO. Support to Canadian Military operations and the conduct of search and rescue operations within the Atlantic and Pacific search and rescue areas. Maritime Command also has operational control of Maritime aircraft. *Air Command*—Provision of operationally ready air forces to national, continental and international commitments. *Canadian Forces Communication Command*—Manages, operates and maintains strategic communications for the Canadian Forces. *Canadian Forces Europe*—Canadian Forces allocated to support NATO in Europe consisting of land and air elements.

National Defence expenditures for the fiscal year 1981-2—\$5,904.7 million. Canadian Armed Forces strength at March 31, 1982, 82,858.

## EDUCATION AND LANGUAGE

Education is under the control of the Provincial Governments, the cost of the publicly controlled schools being met by local taxation, aided by provincial grants. In 1979-80 there were 15,429 publicly controlled elementary and secondary schools with 5,184,252 pupils. Of these, 936 were private schools with 198,858 pupils; 345 Indian schools with 37,935 pupils and 21 special schools for the blind and deaf with 3,193 pupils. In 1979-80 there were 65 degree-granting universities with a full-time enrolment of 371,359, as well as 251,450 students in 192 other post-secondary, non-university institutions.

Canada has two official languages, English and French. At the 1976 census 61.4 per cent. of the total population gave English as their mother language and 25.6 per cent. French.

## CANADIAN PRODUCTION

*Agriculture.*—About 7 per cent. of the total land area of Canada is classified as farm land and approximately half of this is under cultivation, the remainder being woodland or suitable only for grazing purposes. More than three-quarters of the land now cultivated is found in the prairie region of Western Canada. Farm cash receipts from the sale of farm products in 1981 were \$18,441,400,000. Livestock, poultry and eggs contributed \$8,964,020,000; field crops \$8,921,780,000.

### YUKON TERRITORY

The Yukon Act, 1970, as amended, provides for the administration of the Territory by a Commissioner acting under instructions from time to time given by the Governor in Council or the Minister of Indian Affairs and Northern Development. Legislative powers, analogous to those of a provincial government, are exercised by a Legislative Assembly of 16 members elected from electoral districts in the Territory. The Executive Council of the Assembly consists of the government leader as chairman and four elected members. The area of the Territory is 207,076 square miles with a population (Jan. 1, 1980) of 21,800. Mining is the chief industry, though trapping remains important and there is considerable timber production. Mining production, including asbestos, copper, silver, lead, zinc, gold and nickel, was valued at \$298,564,000 in 1979.

## THE JUDICATURE

Court of Appeal—Chief Justice of British Columbia, Hon. N. T. Nemetz.	
Justices of Appeal, Hons. M. M. McFarlane; J. D. Taggart; P. D. Seaton; A. B. B. Carrothers; E. E. Hinkson; W. A. Craig; J. S. Aikins; J. D. Lambert; J. A. Macdonald; R. P. Anderson; H. E. Hutcheon; A. B. Macfarlane.	
Supreme Court—Chief Justice, Hon. A. McEachern.	
Puisne Judges, Hons. F. C. Munroe; V. L. Dryer; J. G. Gould; G. G. S. Rae; H. C. McKay; T. R. Berger; D. E. Andrews; K. E. Meredith; A. A. Mackoff; S. M. Toy; J. C. Bouck; L. G. McKenzie; G. L. Murray; H. P. Legg; W. J. Trainor; P. M. Proudfoot; K. S. Fawcus; H. A. Callaghan; A. G. MacKinnon; M. R. Taylor; C. C. Locke; W. A. Esson; W. J. Wallace; P. D. Dohm; R. M. P. Paris; D. B. Hinds; A. A. W. Macdonell; J. E. Spencer; B. M. McLachlin; W. S. Davies.	

**Agent-General in London,** A. Hart, Q.C., British Columbia House, 1 Regent Street, S.W.1.

**Finances.**—Estimated Revenue for 1981-82, \$6,636,400,000. Estimated current expenditure, \$6,610,300,000. Direct debt at March 31, 1981, \$209,247,790.

*Production and Industry.*—The production levels of the four leading industries were estimated for 1981 as follows: lumber and plywood, \$3,668 million; pulp and paper, \$2,661 million; minerals, \$3,051 million; agriculture, \$876 million; fisheries, \$218 million. Manufacturing activity is based largely on the processing of the output of the logging, mineral, fishing and agriculture industries. The principal manufacturing centres are Vancouver, New Westminster, Victoria, North Vancouver and Prince George. Forestry and forest-based industries form the most important economic activity, accounting for approximately 40 per cent of total production. British Columbia is the leading province of Canada in the quantity and value of its timber and sawmill products. Mining, the second most important economic activity, is based on copper, zinc, lead, iron concentrates, molybdenum, coal, natural gas, crude petroleum, asbestos and silver. Molybdenum production is approximately 90 per cent of the Canadian total. The most important agricultural products are livestock, eggs and poultry, fruits and dairy products. Salmon accounts for approximately 65 per cent of the value of fisheries. Other species include halibut, herring, sole, cod, flounder, perch, tuna and shellfish. In recent years the sale of herring roe to Japan has become an important source of fishery revenue. The climate is healthy, quite moderate on the coast and continental east of the coast mountains. The economy is dependent upon markets outside the province for the disposal of most of the products of her industry. Canadian and world markets receive forestry, mineral, fishing and agricultural products. An estimated 60 per cent of production is exported to foreign markets.

*Transport.*—The province has deep water harbours which are well serviced by railways and modern paved highways. Vancouver is the base for regular scheduled air routes to other parts of Canada, the United States, Europe, Mexico, South America, Hawaii, Fiji, Australia, Japan, Hong Kong and the Middle East.

*Principal Cities.*—CAPITAL, ΨVICTORIA, Metropolitan population (1981) 233,481. ΨVANCOUVER metropolitan population (1981) 1,268,183, is the western terminus of the Canadian Pacific Railway and the Canadian National Railways (the C.N.R. also has a terminus at Prince Rupert) and the southern terminus of the British Columbia Railway, and possesses one of the finest natural harbours in the world, servicing a variety of vessels, including large bulk cargo carriers. Other principal cities are Prince George, Kamloops, Kelowna and Nanaimo.

## MANITOBA

*Area and Population.*—Manitoba, originally the Red River settlement, is the central province of Canada. The Province has a considerable area of prairie land but is also a land of wide diversity combining 400 miles of sea-coast, large lakes and rivers covering an area of 30,225 square miles and pre-cambrian rock which covers about three-fifths of the Province. The total area is 251,000 square miles with a population estimated at 1,017,000 in 1981.

*Government.*—The Government is administered by a Lieutenant-Governor, assisted by an Executive Council of Ministers, who are members of the Legislative Assembly of 57 members. Each member of the Legislative Assembly receives an annual sessional indemnity totalling \$26,949 for the year ending March 31, 1982.

The New Democratic Party formed the government of Manitoba in November 1981. The standing in the House at May 1, 1982 was: New Democratic Party 34, Progressive Conservative 23.

*Lieut.-Governor,* Her Honour Pearl McGonigal (1981).

## EXECUTIVE

*Premier,* Hon. Howard R. Pawley, q.c.  
*Health, Recreation and Sport,* Hon. Laurent L. Desjardins.  
*Government Services, Highways and Transportation,* Hon. Samuel Uskiw.

## THE JUDICATURE

### *Court of Appeal:*—

*Chief Justice of Manitoba,* Hon. Samuel Freedman ..... \$87,300

*Puisne Judges,* Hons. A. M. Monnin; R. J. Matas; G. C. Hall; J. F. O'Sullivan; C. R. Huband ..... each 80,143

### *Queen's Bench:*—

*Chief Justice, Q.B.D.* Hon. A. S. Dewar .. 87,300

*Puisne Judges,* Hons. I. Nitikman; L. Deniset; J. E. Wilson; J. M. Hunt; W. S. Wright; J. R. Solomon; A. C. Hamilton; P. S. Morse; B. Hewak; G. J. Kroft; ..... each 80,143

*Finance.*—The revenue of the provincial government, 1982-83, is estimated at \$2,495,000,000 and the expenditure \$2,830,000,000.

*Agriculture.*—The total land area in Manitoba is 135,536,000 acres, of which 19,026,255 acres are in occupied farms. The gross value of agriculture production in 1981 was estimated at \$2,000,000,000.

*Manufactures.*—Manufacturing enterprises employed about 65,000 persons on average in 1981. The chief manufacturing centres are Winnipeg, Brandon, Selkirk and Portage la Prairie. The largest manufacturing industry is the food and beverage industry, followed by the machinery and metal fabricating industries.

*CAPITAL.*—Winnipeg, population 584,842. Other centres are Brandon (36,242), Thompson (14,288), Portage la Prairie (13,086) and Flin Flon (7,894).

## NEW BRUNSWICK

*Area and Population.*—New Brunswick is situated between 45°-48° N. lat. and 63° 47'-69° W. long. and comprises an area of 28,354 square miles with a population (1981 census) of 696,403. It was first colonized by British subjects in 1761, and in 1783 by inhabitants of New England, who had been dispossessed of their property in consequence of their loyalty to the British Crown.

*Government.*—The Governor is administered by a Lieutenant-Governor, assisted by an Executive Council, and a Legislative Assembly of 58 members elected by the people. At the General Election of October 23, 1978, 30 Progressive Conservative and 28 Liberal members were returned.

*Lieutenant-Governor,* His Honour H. J.

Robichaud (1971) ..... \$39,966

## EXECUTIVE

*Premier,* Hon. Richard B. Hatfield ..... \$51,980  
*Justice,* Hon. R. E. Logan, q.c.

*Tourism*, Hon. Leland McGaw.

*Chairman, Treasury Board*, Hon. J. M. Simard.  
*Social Services*, Hon. Leslie Hull.

*Youth*, Hon. J. P. Ouellett.  
*Chairman, New Brunswick Electric Power Commission*, Hon. G. W. N. Cockburn.

*Supply and Services*, Hon. H. Fanjoy.  
*Environment*, Hon. Eric J. Kipping.

Ministers, each \$41,980  
*Speaker of the House*, Hon. Robert McCready. \$31,980

#### THE JUDICATURE

##### *Court of Appeal*

*Chief Justice*, Hon. C. J. A. Hughes.  
*Judges of Appeal*, Hons. R. V. Limerick; J. N. Bugold; H. E. Ryan; G. A. Richard; S. G. Stratton and La Forest.

##### *Queen's Bench Division*

*Judges*, Hons. D. M. Dickson; J. P. Barry; C. I. L. Legere; R. C. Stevenson; B. A. Jean; H. E. Montgomery; A. J. Cormier; R. L. Miller; W. L. M. Creaghan; W. W. Meldrum; R. J. Higgins; J.-C. Angers and E. T. Caurhey.

*Finance*.—The estimated revenue for the year ending March 31, 1981, was \$1,523,300,000 and ordinary expenditure, \$1,505,000,000.

*Manufactures*.—Forest products: pulp, paper, and timber form the major manufacture group, followed by foods, metal fabrication, chemicals and chemical products, non-metallic mineral products, furniture and fixture products and miscellaneous other products. Saint John is the principal manufacturing centre. Total value of manufactured shipments was \$3,461,470,000 in 1980.

*Agriculture*.—Total land area 27,633 sq. m.; farms numbered 3,244 and averaged 306 acres each in 1976. The Province is now second to Prince Edward Island in potato production with 54,000 acres in 1979. Dairy farming is now more important than potato production; both industries together accounted for 41.3 per cent of total farm cash receipts in 1980. Farm cash receipts in 1980 totalled \$154,684,000.

*Fisheries*.—The chief commercial fish are lobsters, herring, tuna, crab and cod. Total direct employment exceeds 10,000, of whom 5,286 are fishermen. Landings reached 139,367 metric tons valued at \$53,917,000 in 1979.

*Minerals*.—Extensive zinc, lead and copper deposits are now being mined in the north-eastern part of the Province with New Brunswick being the second largest producer of zinc in Canada. A lead smelter, fertilizer plant and port facilities have been constructed at Belledune. Canada's only primary antimony producer is located at Lake George. There is exploration and development near Sussex and Salt Springs, where potash and salt deposits have been found. Coal is mined at Grand Lake and exploration for other deposits is being undertaken. Total mineral production was valued at \$402,220,000 in 1980.

*Principal Cities*.—CAPITAL  $\Psi$ Fredericton: popula-

tion (1976), 45,248.  $\Psi$ Saint John (85,956); Moncton (55,934); Bathurst (16,301); Edmundston (12,710); Campbellton (9,282).

#### NEWFOUNDLAND AND LABRADOR

*Area and Population*.—The Island of Newfoundland is situated between 46° 37'–51° 37' N. latitude and 52° 44'–59° 30' W. longitude, on the north-east side of the Gulf of St. Lawrence, and is separated from the North American Continent by the Straits of Belle Isle on the N.W. and by Cabot Strait on the S.W. The island is about 317 miles long and 316 miles broad and is triangular in shape, with Cape Bauld (N.), Cape race (S.E.) and Cape Ray (S.W.) at the angles. It comprises an area of 43,359 sq. miles with a population (1981 Census) (inclusive of Labrador) of 567,681.

Labrador forms the most easterly part of the North American continent, and extends from Point St. Charles, at the northeast entrance to the Straits of Belle Isle, on the south, to Cape Chidley, at the eastern entrance to Hudson's Straits on the north. It has an area estimated at 112,826 sq. miles, with a population (1981 census) of 31,318.

*Government*.—On March 31, 1949 Newfoundland became the 10th Province of the Dominion of Canada. The Government is administered by a Lieutenant-Governor, aided by an Executive Council and a Legislative Assembly of 52 members.  
*Lieutenant-Governor*, Hon. W. Anthony Paddon, C.M., M.D. (July 10, 1981).

#### EXECUTIVE

*Premier and Intergovernmental Affairs*, B. Peckford.  
*President of the Council and Minister for Energy*, W. Marshall.

*Minister of Justice*, G. Ottenheimer.

*Education*, L. Verge.

*Fisheries*, J. Morgan.

*Transportation*, R. Dawe.

*Environment*, H. Andrews.

*Mines and Development*, N. Windsor.

*Finance*, J. Collins.

*Rural, Agricultural and Northern Development*, J. Goudie.

*Health*, W. House.

*Forest Resources and Land*, C. Power.

*Municipal Affairs*, H. Newhook.

*Labour and Manpower*, J. Dinn.

*Culture, Recreation and Youth*, L. Simms.

*Social Services*, T. Hickey.

*Public Works and Services*, H. Young.

*Communications*, N. Doyle.

*Speaker of the House of Assembly*, J. Russell.

*Clerk of the Executive Council*, D. Vardy.

#### THE LEGISLATURE

A General Election was held on April 6, 1982. The standings in the current House of Assembly are: 44 Progressives Conservatives and 8 Liberals.

*Finance*.—The estimated gross capital and current account revenues for 1982–83 were \$1,804,152,000 and the gross current and capital account expenditures \$1,972,400,000.

*Production and Industry*.—The main primary industries are fishing, forestry and mining. In 1981 shipments of fish products were valued at \$373.0 million. In 1981 paper products from the two pulp and paper mills were valued at \$345.4 million. In 1981 the mining operations plus the structural materials producers had combined shipments of \$1,194.5 million of which \$1,058.3 million was from the 3 iron ore mines in Labrador. Manufacturing shipments with the exclusion of fish and paper products totalled \$496.0 million in 1981. The hydro-

electric plant on the Churchill river is the largest underground plant in the world, with a capacity of 5,225,000 kw.

**Transport.**—The province is connected to mainland Canada by a ferry service from North Sydney, Nova Scotia to Port aux Basques and Argentia. The main line of the railway extends from St. John's on the east coast to Port aux Basques on the west coast. Transport between various points on the island is by highway but the south coast and Labrador still rely on the coastal boat service.

**Principal Cities.**—**CAPITAL**, St. John's (population 1981 Census, Greater St. John's 154,820) is North America's oldest city, and thus of historical interest and is the seat of the provincial legislature, the site of most provincial and federal government offices and the principal port for the island of Newfoundland. Newfoundland's second city of Corner Brook (population 1981 Census, 24,339) is situated on the west coast, its principal industry being its pulp and paper mill.

### Labrador

**Labrador**, the most northerly area of the Province of Newfoundland, forms the most easterly part of the North American continent, and extends from Blanc Sablon, at the north-east entrance to the Straits of Belle Isle, on the south, to Cape Chidley, at the eastern entrance to Hudson's Straits on the north. Labrador is noted for its cod fisheries and also possesses valuable salmon, herring, trout and seal fisheries. Newfoundland (Labrador) produces more iron ore than any other province in Canada.

### NOVA SCOTIA

**Area and Population.**—Nova Scotia is a peninsula between 43° 25'–47° N. lat. and 59° 40'–66° 25' W. long., and is connected with New Brunswick by a low fertile isthmus about 17.5 miles wide. It comprises an area of 21,425 square miles including 1,023 square miles of lakes and rivers and 6,479 miles of shoreline. No place is more than 35 miles from the Atlantic Ocean. Total population (1981) 847,442.

**Government.**—The Government consists of a Lieutenant-Governor and a 52-member elected Legislative Assembly, from which the Executive Council (Cabinet) is selected. The Lieutenant-Governor represents the Queen and is appointed by the Governor-in-Council.

**Lieutenant-Governor**, Hon. John E. Shaffner  
(plus expense allowance \$12,000) ..... \$35,000

### EXECUTIVE COUNCIL

**Premier**, Hon. John M. Buchanan, q.c.  
(plus members' sessional indemnity \$16,400  
and expense allowance \$8,200) ..... \$32,000

**Development**, Hon. R. J. Thornhill.

**Lands and Forests**, Hon. G. Henley.

**Health**, Hon. G. Sheehy.

**Attorney General**, Hon. H. How, q.c.

**Mines and Energy**, Hon. R. Barkhouse.

**Agriculture and Marketing**, Hon. R. S. Bacon.

**Fisheries**, Hon. K. Streach.

**Tourism**, Hon. B. Cochran.

**Municipal Affairs**, Hon. T. J. McInnes.

**Labour and Manpower**, Hon. J. MacIsaac.

**Management Board**, Hon. R. S. Russell.

**Education**, Hon. T. Donahoe.

**Transportation**, Hon. R. C. Griffin, q.c.

**Finance**, Hon. J. Matheson, q.c.

**Social Services**, Hon. E. Morris.

**Government Services**, Hon. G. Lawrence.

**Environment**, Hon. J. G. Kerr.

**Consumer Affairs**, Hon. L. Stirling.

**Culture, Recreation and Fitness**, Hon. R. F. Hudson.  
**Cabinet Ministers** receive \$25,000 a year, plus member's sessional indemnity \$16,400 and expense allowance \$8,200.

**Agent-General in London**, Donald M. Smith, 14 Pall Mall, S.W.1.

### THE JUDICATURE

**Supreme Court—Appeal Division**  
**Chief Justice**, Hon. I. M. MacKeigan ..... \$87,000  
**Judges**, Hons. T. H. Coffin; A. G. Cooper;  
A. L. Macdonald; G. L. S. Hart; L. L. Pace;  
M. C. Jones ..... 80,000

### Trial Division

**Chief Justice**, Hon. Constance R. Glube .... 87,000  
**Judges**, Hons. V. J. Morrison; A. M. Mac-  
Intosh; W. J. Grant; J. D. Hallett; K. P.  
Richard; C. Denne Burchell; L. Clarke; R.  
M. Rogers ..... 80,000

**Finance.**—The revenue for the fiscal year ending March 31, 1981, was \$1,718,989,000 and expenditure was \$1,769,553,000. The net direct debt was \$987,257,000.

**Manufacturing.**—Manufacturing constitutes the most important sector of the economy. Shipments were worth \$3,744,200,000 in 1981 with a total added value estimated to be more than \$1,200,000,000. Manufacturing plants provide employment for 48,000 or 14.5 per cent of the labour force. Capital expenditure in the manufacturing sector has increased from \$337,000,000 in 1981 to \$340,000,000 in 1982.

**Utilities.**—Electric power in Nova Scotia is supplied by the Nova Scotia Power Corporation, a Crown corporation. The Corporation's generating stations, which are predominantly fossil fuel based have a nameplate capacity of 1,890,507 kilowatts. Under construction as part of a programme to reduce dependency on oil by utilizing indigenous energy resources, are two 150,000 kilowatt coal-fired units and a 20,000 kilowatt tidal power generating station. The Corporation's generating system is made up of seven thermal plants, three gas turbines and 30 hydro stations scattered throughout the province. The number of telephones in Nova Scotia was 519,328 in December, 1981, or approximately 61 per 100 population.

**Oil and Gas.**—In 1979, the federal government announced that control and management of the offshore resources would be the responsibility of the Province of Nova Scotia, which now controls the rate and method of exploration and development onshore and in the offshore areas. By the end of 1981, 74 wells had been completed offshore. The most significant discoveries have been on the Venture Structure east of Sable Island. Venture D-23, completed in 1979 to a depth of 4,975 metres, flowed gas at a rate of 1.13 million cubic feet a day from three zones between 4,300 metres and 4,876 metres. Venture B-13, three kilometres east of D-23, was completed in June 1981 to 5,367 metres. Several zones tested yielded a combined gas flow rate of 2.124 million cubic feet per day. At the start of 1982, Mobil Oil was drilling a second step-out well in the Venture Structure and was awaiting a second rig to increase delineation drilling. Petro Canada, and Shell Canada (in conjunction with Canada Development Corporation and Norcen Energy Resources) announced offshore drilling programs for 1982. Onland, Chevron and Irving completed Scotsburn No. 2 to a depth of 2,638 metres in Pictou County. The 74 holes completed offshore covered a broad range of geological targets and were drilled in an area that extends 100 kilometres south of Shelburne in the southwest to 40 kilometres north of Sydney in the northeast.

*Tourism.*—Between June 1 and October 31, 1981, about 1,172,116 visitors spent about \$164,580,700 in the province.

*Forest Products.*—The gross value of primary and secondary forestry was \$450,000,000 in 1981. Forest lands total 10,800,000 acres or 84 per cent of the land area. About 75 per cent of forest land is privately owned. Forest based industries employ about 8,000.

*Fishing.*—The value of fish landed in 1981 was over \$263,531,000. Products have been diversified and enlarged into a variety of processed foods that are increasing in number. Primary fishing and fish processing employed 17,558 persons in 1981 (11,432 fishermen and 6,126 plant workers).

*Mining.*—The total value of mineral production in 1981 was estimated at \$261,916,000, of which \$126,000,000 was contributed by coal. Gypsum (\$28,990,000), salt (\$30,057,000) and sand and gravel (\$26,000,000) followed in dollar value.

*Agriculture.*—Farm cash receipts were \$218,849,000 in 1981. About 9 per cent of the total area, or 1,218,953 acres, is classified as agricultural land. Dairy and poultry products form the largest sectors.

*Principal cities.*—Capital ΨHALIFAX, including the neighbouring city of Dartmouth, has a population of 271,200. In addition to a container-handling terminal in South Halifax a new terminal at the north end of Halifax Harbour was opened in 1981. A 90-acre autopoort has been built at Port Halifax to handle both the export and import of motor vehicles. A shipyard, with dry-dock, can build and repair the largest ocean-going liners. The harbour, ice-free the year round, is the main Atlantic winter port of Canada. Other cities and towns include ΨSydney (29,444), ΨGlouce Bay (21,466), Amherst (9,684) and New Glasgow (10,464).

#### Cape Breton Island

This has been part of Nova Scotia since 1819. It is the centre of the steel manufacturing and coal mining industries, and is also noted for its large lakes and beautiful coastal scenery, making it a tourist attraction in Canada.

### ONTARIO

*Area and Population.*—The Province of Ontario contains a total area of 412,582 sq. miles, with a population (1981) of 8,625,107.

*Government.*—The Government is vested in a Lieutenant-Governor and a Legislative Assembly of 125 members elected for five years. The state of the parties at May 1, 1982 was 70 Progressive Conservatives, 33 Liberals, 21 New Democrats.

*Lieutenant-Governor*, Hon. John Black Aird, q.c. (1980).

#### EXECUTIVE COUNCIL

*Premier and President of the Council*, Hon. William G. Davis, q.c.

*Minister of Citizenship and Culture*, Hon. B. McCaffrey.

*Chairman of Management Board of Cabinet*, Hon. G. R. McCague.

*Education, Colleges and Universities*, Hon. Bette M. Stephenson, M.D.

*Health*, Hon. L. Grossman, q.c.

*Community and Social Services*, Hon. F. Drea.

*Agriculture and Food*, Hon. D. R. Timbrell.

*Intergovernmental Affairs*, Hon. T. L. Wells.

*Without Portfolio*, Hon. B. Gregory; Hon. R. Eaton.

*Industry and Trade*, Hon. G. Walker, q.c.

*Tourism and Recreation*, Hon. R. Baetz.

*Solicitor-General*, Hon. G. W. Taylor.

*Secretary of the Cabinet*, Dr. E. E. Stewart.

*Speaker, Legislative Assembly*, Hon. J. M. Turner.

*Chief Justice of Ontario*, Hon. W. G. C. Howland.

*Chief Justice of the High Court*, Hon. G. T. Evans.

*Agent-General in London*, W. R. DeGeer, 13 Charles 11 Street, S.W.1.

*Agriculture.*—Ontario has the highest total of agricultural production in Canada with a gross value of \$3.4 billion and a total net farm income of \$798,000,000 in 1978.

*Forestry.*—Productive forested lands cover 176,000,000 acres or about 48 per cent of the land area of the Province. Paper and allied industries are by far the most important sector of Ontario's forest industry and account for over 25 per cent of Canada's production.

*Minerals.*—Ontario's natural resources include 15 basic minerals, such as copper, iron ore, zinc, silver, gold and platinum. The province has half the world's supply of nickel and the largest amount of uranium in the Western World. Total value of the mineral production in 1978 was estimated at \$2,595,000,000.

*Energy.*—Total electrical energy generated in Ontario in 1979 was 110.6 billion kWh (35.1 per cent hydro, 29.2 per cent nuclear and 27.9 per cent other conventional fossil fuels).

*Manufacture.*—Ontario is the chief manufacturing province in Canada, producing 50 per cent of all manufactured goods. It represents over 43 per cent of total Canadian exports of fully manufactured products. During 1978 Ontario's exports totalled \$23.3 billion, an increase in value of \$4.2 billion over 1977. A \$2.4 billion growth in the value of end products—the sector which contains the bulk of Ontario's manufactured exports—was also achieved.

*CAPITAL.*—ΨTORONTO (population, 2,131,159) has a wide range of manufacturing and service industries and is a centre of education, business and finance. Other major urban areas are: Ottawa, the national capital (300,678); ΨHamilton (306,538), with iron and steel industry, metal fabrication, machinery, electrical and chemical industries; London (256,789), a business and manufacturing centre; ΨWindsor (198,722); Kitchener (136,091) and Sudbury (92,350).

#### FEDERAL CAPITAL

OTTAWA, the Federal Capital, 111 miles west of Montreal and 247 miles north-east of Toronto, is a city on the south bank of the Ottawa river. The city was chosen as the Capital of the Province of Canada in 1857 and was later selected as the site of the Dominion capital. Ottawa contains the Parliamentary Buildings, the Public Archives, Royal Mint, National Museum, National Art Gallery and the Dominion Observatory.

A National Arts Centre opened on June 2, 1969, near the Parliament buildings. Facilities provided on 64 acres of terraced land include an opera house with seating for 2,300, a theatre (800 seats), an experimental studio (300 seats) and a hall (100 seats).

Manufacturing is also carried on, food production, printing and publishing being of greatest importance. Ottawa is connected with Lake Ontario by the Rideau Canal. The City population was 303,114 at the Census of 1981; Metropolitan Ottawa 710,000 (1981 census).

**PRINCE EDWARD ISLAND**

*Area and Population.*—Prince Edward Island lies in the southern part of the Gulf of St. Lawrence, between 46°-47° N. lat. and 62°-64° 30' W. long. It is about 130 miles in length, and from 4 to 34 miles in breadth; its area is 2,184 square miles and its population (1981) 124,000.

*Government.*—The Government is vested in a Lieut.-Governor and an Executive Council, and Legislative Assembly of 32 members elected for a term of 5 years, 16 as Councillors and 16 as Assemblymen. Party representation at May 20, 1982, was: *Conservative* 21; *Liberal* 10; one vacancy.

## PHYSICAL FEATURES

Australia, including Tasmania, comprises a land area of 7,682,300 square kilometres lying between latitudes 10°41'S (Cape York) and 43°39'S (South East Cape, Tasmania) and longitudes 113°09'E (Steep Point) and 153°39'E (Cape Byron). The latitudinal distance between Cape York and South East Cape is about 3,680 kilometres and the longitudinal distance between Steep Point and Cape Byron is about 4,000 kilometres. (The latitudinal distance between Cape York and the most southerly point on the mainland South Point, Wilson's Promontory, is about 3,180 kilometres.)

Australia has three major landforms: the western plateau, the interior lowlands and the eastern uplands. The western half of the continent consists

mainly of a great plateau. The interior lowland includes the Channel country of southwest Queensland (drainage to Lake Eyre) and the Murray-Darling river system to the south. The eastern uplands consist of a broad belt of varied width extending from north Queensland to Tasmania and composed largely of tablelands, ranges and ridges with only limited mountain areas above 1,000 metres.

Australia's large area and latitudinal range have resulted in climatic conditions ranging from the alpine to the tropical. Two thirds of the continent is arid or semi-arid although good rainfalls (over 800 mm annually) occur in the northern monsoonal belt under the influence of the Australian Asian Monsoon and along the eastern and southern highland regions under the influence of the great atmospheric depressions of the Southern Ocean. The

effectiveness of the rainfall is greatly reduced by marked alternations of wet and dry seasons, unreliability from year to year, high temperatures and high potential evaporation.

Fifty per cent of the area of Australia has a medium rainfall of less than 300 mm per year and 80 per cent has less than 600 mm. Extreme minimum temperatures are not as low as those recorded in other continents because of the absence of extensive mountain masses and because of the expanse of ocean to the south. However, extreme maxima are comparatively high, reaching 50 C. over the inland, mainly due to the great east-west extent of the continent in the vicinity of the Tropic of Capricorn.

Only one third of the Australian land mass drains directly to the ocean, mainly on the coastal side of the Main Divide and inland with the Murray-Darling system. With the exception of the Murray-Darling system, most rivers draining to the ocean are comparatively short and account for the majority of the country's average annual discharge.

In 1980-81, 64.5 per cent of the Australian land area consisted of agricultural establishments, with the remainder being urban areas, State forests, mining leases and unoccupied land. Crop-growing areas constituted up to 3.7 per cent of the total agricultural establishments, emphasizing the relative importance of the livestock industries in Australia (sheep in the warm, temperate, semi-arid lands and beef cattle in the tropics).

The wide range of climatic and soil conditions over the agricultural regions of Australia has resulted in a diversity of crops being grown throughout the country. Generally, cereal crops (excluding rice and sorghum) are grown in all States over wide areas, while other crops are confined to specific locations in a few States. However, scanty or erratic rainfall, limited potential for irrigation and unsuitable soils or topography have restricted intensive agriculture. Despite this, agricultural production has increased over time to meet increased demands both in Australia and overseas. Australia is becoming a major world supplier in wheat exports.

Significant mineral resources comprise bauxite, coal, copper, crude petroleum, gems, gold, ilmenite, iron ore, lead, limestone, manganese, nickel, rutile, salt, silver, tin, tungsten, uranium, zinc and zircon. Recently, geological exploration has significantly increased the mineral resources of the nation.

Australia now has fourteen oilfields in production: Alton, Bennett, Conloi, Kincora, Moonie and Trinidad in Queensland; Barracouta, Cobia, Halibut, Kingfish, Mackerel and Tuna in Victoria in the offshore Gippsland Basin and from Dongara and Barrow Island in Western Australia.

Stabilised crude oil production from the Australian fields in the year 1980 amounted to 23-24 million cubic metres or some 69% of the country's total requirement. Work is at present in hand to install the West Kingfish oil production platform and with the fabrication of the platform for the Cobia field. At present crude production for the Cobia field is from Cobia No. 2, Australia's first sub-sea completion. This well is tied into the Mackerel platform.

Production of natural gas for supply to Brisbane from fields in the Roma area began in 1969 and was augmented by the addition of the Kincora field in March 1977 and the Boxleigh-Silverspring fields in October 1978. Natural gas supply to Melbourne from the offshore Barracouta Field, Gippsland Basin, started in April 1969 and to Adelaide from the Cooper Basin fields in November 1969. Perth received its first gas from the Dongara area in October 1971. Sydney was connected to the Cooper Basin gas fields in December 1976 with the completion of the Moomba Sydney line. Commercial production of natural gas in 1980 amounted to 26,980,000 cubic metres per day.

## GOVERNMENT

The Commonwealth of Australia was constituted by an Act of the Imperial Parliament dated July 9, 1900, and was inaugurated Jan. 1, 1901. The Government is that of a Federal Commonwealth within the British Commonwealth of Nations, the executive power being vested in the Sovereign (through the Governor-General), assisted by a Federal Ministry of twenty-seven Ministers of State. Under the Constitution the Federal Government has acquired and may acquire certain defined powers as surrendered by the States, residuary legislative power remaining with the States. Trade and customs passed under Federal control immediately on the establishment of the Commonwealth; posts, telegraphs and telephones, naval and military defence, lighthouses and quarantine on proclaimed dates. The Federal Government also controls such matters as social services, patents and copyrights, naturalization, navigation, &c. The right of a State to legislate on these and other matters is not abrogated except in connection with matters exclusively under Federal control, but where a State law is inconsistent with a law of the Commonwealth the latter prevails to the extent of the inconsistency.

FLAG.—The British Blue Ensign, consisting of a blue flag, with the Union Jack occupying the upper quarter next the staff, differenced by a large white star (representing the six States of Australia and the Territories of the Commonwealth) in the centre of the lower quarter next the staff and pointing direct to the centre of the St. George's Cross in the Union Jack and five white stars, representing the Southern Cross, in the fly.

AUSTRALIA DAY.—January 26.

### THE LEGISLATURE

Parliament consists of the Queen, a Senate and a House of Representatives. The Constitution provides that the number of members of the House of Representatives shall be, as nearly as practicable, twice the number of Senators. An Act, assented to on May 18, 1948, provided for an increase in the number of members of the Senate from thirty-six to sixty, and as a result the number of members of the House of Representatives was increased from 74 to 123. There are now 124 members in the House of Representatives, including one member for the Northern Territory and two for the Australian Capital Territory. Members of the Senate are elected for six years by universal suffrage, half the members retiring every third year. Each of the six States returns an equal number of 10 Senators, and the Australian Capital Territory and the Northern Territory two each. The House of Representatives, similarly elected for a maximum of three years, contains members proportionate to the population, with a minimum of five members for each State. The state of parties in the House of Representatives in June, 1982 was Liberal Party 53, National Country Party 20, Australian Labour Party 52. Members of both Houses received \$A33,013 per annum, with allowances and free air and rail travel on parliamentary business.

*Resident Judges*, Hons. J. H. Muirhead; J. L. Toohey; J. F. Gallop; J. A. Nader; W. J. F. Kearney.  
*Master*, N. Patel.

### DEFENCE

A single Department of Defence was created on November 30, 1973, following the abolition of the Departments of the Navy, Army and Air. The defence research and development elements of the former Department of Supply, along with other research groups on the three services, were incorporated in 1978 into the Defence, Science and Technology Organization.

The separate identities of the three services have been retained. The three Service Boards have been dissolved. Most of their previous powers are now exercised by the Minister for Defence or have been delegated by him to specific military or civilian appointments within the Department of Defence.

A new statutory appointment of Chief of Defence Force Staff has been created, under the Minister for Defence, responsible for command of the Defence Force through the three Service Chiefs of Staff (Navy, Army, Air Force) who are the professional heads of their respective arms of the Defence Force. The Chief of Defence Force Staff is also the principal military adviser to the Minister.

The Secretary to the Department of Defence has generally the powers and functions prescribed for such appointments in the Australian Public Service Act and the Audit Act. He is responsible to the Minister for Defence for advice on policy, resources and organization.

Total defence expenditure amounted to \$A3,646 million in 1980-81.

### Royal Australian Navy

The Royal Australian Navy consists of an Anti-Submarine Warfare and strike aircraft carrier, 4 destroyers, 7 destroyer escorts, 6 submarines, 3 mines

counter-measure vessels, 15 patrol boats, 2 survey ships, 2 fleet support ships, 6 heavy landing craft, 2 oceanographic ships, one training ship, 2 guided missile frigates, one heavy lift ship and one oiler. The Fleet Air Arm is equipped with Skyhawk, Tracker, Macchi, Jindivik and HS748 fixed-wing aircraft, and with Sea King, Wessex, Iroquois and Bell 206 helicopters.

The strength of the Royal Australian Navy on June 30, 1981 was 17,298.

### Army

On June 30, 1981 the Australian Army comprised a volunteer Regular Army component of 32,898 and a volunteer Army Reserve component (formerly known as the Citizen Military Force) of 32,737.

The command structure of the Australian Army was reorganized in 1973, replacing the previous geographically based organization with a modernized functional organization.

The major development was the raising of three new functional commands which were invested with Australia-wide responsibilities for the command of units allocated to them and for the conduct of their specialist functions. Field Force Command, with its headquarters in Sydney, commands all field force units and is responsible for the operation of the Army's fighting formations. Logistic Command, with its headquarters in Melbourne, commands all logistic units and is responsible for the broad military functions of transport, supply and repair. Training Command, with its headquarters in Sydney, is responsible for the command of operation of all Army schools and training establishments.

### Air Force

The Royal Australian Air Force consists of 16 operational units, operating F111 strike aircraft, Mirage fighters, Hercules and Caribou transports, Orion maritime reconnaissance aircraft, Iroquois and Chinook helicopters, Macchi, HS748, Winjeel and C74A trainers, HS748, Mystere and BAC1-11 special transports, and Canberra photo reconnaissance aircraft. In addition the R.A.A.F. has six maintenance squadrons, two control and reporting units, three aircraft depots, three stores depots, one ammunition depot, and many training and support establishments. Two squadrons of Mirage fighters, backed by a maintenance squadron and supporting personnel, are based at Butterworth in Malaysia. The total strength of the R.A.A.F. at June 30, 1981, was 22,322.

### COMMONWEALTH FINANCE

Revenue and expenditure of the consolidated reserve fund balanced at \$A35,052,000,000 in 1980-81, compared with \$A29,672,000,000 in 1979-80. Total loan fund expenditure was \$A4,831,000,000 in 1980-81 (1979-80, \$A2,333,000,000).

#### DEBT

The total of the Commonwealth Debt on June 30, 1981, was \$A17,653,800,000. Adding the indebtedness of the States, viz. \$A14,948,200,000, the "face" or "book" value of Commonwealth government securities on issue amounted (June 30, 1981) to \$A32,635,400,000.

The Debt per head of population at June 30, 1981, was \$A2,198.31.

#### BANKING

The weekly average of liabilities and assets (excluding shareholders' funds, interbranch accounts and contingencies) of the 6 major trading banks operating in Australia in March 1982 were: Liabilities in Australia, \$A37,991,000,000 (1981, \$A32,279,000,000); Assets in Australia,

\$A39,738,000,000 (1981, \$A33,924,000,000). Total amount on deposit in savings banks in Australia in March 1982, was \$A24,458,000,000 or \$A1,637 per head of population.

## CAPITAL

Canberra is the capital of Australia. It is situated in the Australian Capital Territory which has an area of 939 sq. miles and was acquired from New South Wales in 1911. Canberra, which is the seat of the federal government, had a population at June 30, 1981, of 220,423. Apart from Parliament House, the city also contains other National institutions, such as the Australian War Memorial, National Library, Royal Australian Mint and the Australian National University. Most Government departments have their headquarters in Canberra. An artificial lake is a central feature of this planned city, based on Walter Burley Griffin's design.

## THE NORTHERN TERRITORY

The Northern Territory has a total area of 1,346,200 square km. and lies between 129°-138° east longitude and 11°-26° south latitude.

The administration was taken over by the Commonwealth on January 1, 1911, from the government of the State of South Australia.

The Northern Territory (Self-Government) Act 1978 established the Northern Territory as a body politic as from 1 July 1978, with Ministers having control over and responsibility for Territory finances and the administration of the functions of government as specified by the Federal Government by regulations made pursuant to the Act. Proposed laws passed by the Legislative Assembly in relation to a transferred function require the assent of the Administrator. Proposed laws in all other cases may be assented to by the Administrator or reserved by the Administrator for the Governor-General's pleasure. The Governor-General may disallow any laws assented to by the Administrator within six months of the Administrator's assent.

The Northern Territory has federal representation electing one member to the House of Representatives and two members to the Senate.

*Administrator,* His Hon. Cdre. E. E. Johnston, O.B.E.

## THE MINISTRY

*Chief Minister and Attorney-General,* Hon. P. A. E. Everingham.

*Treasurer, Minister of Industrial and Community Development,* Hon. M. B. Perron.

*Health, Mines and Energy,* Hon. I. L. Tuxworth.

*Education, Lands and Housing,* Hon. J. M. Robertson.

*Primary Production and Tourism,* Hon. R. M. Steele.

*Transport and Works, Youth, Sport and Recreation,* Hon. N. Dondas.

The estimated population in the Northern Territory at the 1981 Census was 126,300, of which about a quarter are Aborigines. Various Aboriginal Land Trusts hold title to land previously called Reserves, totalling about one-fifth of the Northern Territory.

The Aboriginal Land Rights (N.T.) Act of 1976 provides for the investigation and determination of Aboriginal traditional claims to vacant Crown land or land already owned by or on behalf of Aborigines. Successful land claims to date have increased Aboriginal ownership to 27% of the Northern Territory whilst a further 18% is the subject of claims.

There are 26 major Aboriginal communities and these were formerly administered by Church Mission Societies and the Federal Government but are now controlled by local Aboriginal Councils. A recent phenomenon is the relocation of some Aborigines to their traditional homeland areas where they feel that their culture will be better preserved.

The beef industry is the main rural activity in the Northern Territory, and production depends primarily on access to the manufacturing meat market in the U.S.A. and a developing live export market in Asia.

The total turn-off for 1979-80 was 472,963, as follows:—

Live cattle—moving interstate	268,198
—exported overseas	20,804
N.T. export licenced abattoirs	149,416
N.T. non-export licenced abattoirs	24,045
Station consumption (estimated)	10,500
	<hr/>
	472,963

In 1979-80 approximately 25,508 buffalo were slaughtered. Egg production was 1,196,500 dozen valued at \$1,405,232. The total value of animal production industries was \$102,797,430. Agricultural and horticultural industries contributed \$1,869,270 making total value for the year \$104,666,700 (Fisheries excluded).

The importance of the Northern Territory fishing industry has increased over the last decade following the development of northern prawn resources, particularly in the Gulf of Carpentaria. The total value (ex-vessel) of commercial fish products landed in the Northern Territory in 1979/80 was \$17.1 million. Of this, the prawn fishing contributed \$15.3 million and the inshore gillnet fishing contributed \$1.8 million.

Mining has played a major part in the development of the Northern Territory and is now its major industry with production mainly of uranium oxide, bauxite-alumina, manganese, gold, copper, oil, gas and lead-zinc. The value of production in 1980 was \$381 million.

The Northern Territory has three main ports; Darwin, managed by the Northern Territory Port Authority, and the private mining ports of Gove, operated by Nabalco Pty. Ltd. and Groote Eylandt, operated by Groote Eylandt Mining Co. Pty. Ltd..

The new standard gauge rail link between Southern Australia and Alice Springs was officially opened in October, 1980, a year ahead of schedule. This replaced the old narrow gauge line. Survey and planning works have commenced on a route north of Alice Springs to Darwin, a distance of about 1500 km. It is intended to start construction as soon as feasible and to complete the rail link by 1988. In the meantime, the link between Alice Springs and Darwin is provided by a fully co-ordinated rail-road service.

The Stuart Highway is constructed to national highways standards and connects Alice Springs to Darwin via Tennant Creek and Katherine. At Tennant Creek, the Barkly Highway runs easterly to Mt. Isa in Queensland and at Katherine, the Victoria Highway runs westwards to Wyndham/Kununurra in north Western Australia. Apart from these, there are various major roads connecting towns, mining, pastoral and tourist areas to the main highway system. Of special interest to

the Northern Territory is the operation of "road trains". These are basically massive trucks hauling two or three trailers and having a net capacity of about 100 tonnes and measuring up to 45 metres in length.

The two national domestic carriers, Trans-Australia Airlines (T.A.A.) and Ansett Airlines of Australia, both operate daily services to and from all Australian capital cities and main Northern Territory centres. In addition to the two national domestic carriers, intra-Territory services are provided by Airlines of Northern Australia (A.N.A.), plus a number of smaller commuter operators. A.N.A. services the major regional centres and Ayers Rock; remote area communities including Aboriginal townships in Arnhemland are serviced by the commuter operators based primarily in Darwin. There are also a number of charter and general aviation operators providing feeder type services. Qantas currently operates one international flight out of Darwin each week and Garuda provides two services weekly to Bali and Jakarta. It is envisaged that other international airlines will operate direct services into Darwin in future.

*Judges of the Supreme Court*, Hon. Sir William Forster (*Chief Judge*); Hon. J. H. Muirhead; Hon. J. L. Toohey; Hon. J. Gallop.

#### NORFOLK ISLAND

The island is situated in latitude 29° 02' S. and longitude 167° 57' E., being about 1,042 miles from Sydney and 400 miles north of New Zealand. It is about five miles in length by three in breadth, and was discovered by Capt. Cook in 1774. Its area is 8,528 acres and circumference 20 miles. The climate is mild, with a mean temperature of 20° C. The descendants of the mutineers of the *Bounty* were brought here from Pitcairn Island in 1856. The island is a popular tourist resort, and a large proportion of the population depends on tourism and its ancillaries for employment. Estimated population (including tourists) (June 30, 1981), 2,175.

Seat of Government and Administration Offices, Kingston. The Norfolk Island Council advises the Administrator on policy and the control of public finance. A Legislative Assembly was elected in 1979, and it is hoped that the island will achieve full self-government as a Territory under the authority of the Commonwealth. The island is currently administered by the Australian Government through the Department of Home Affairs and Environment in Canberra.

Regular air services operate from Australia and New Zealand.

*Administrator*, Air Vice-Marshal R. E. Trebileo, A.O., D.F.C.

#### COCOS (KEELING) ISLANDS

The Cocos (Keeling) Islands were declared a British possession in 1857. In 1878 they were placed under the control of the Governor of Ceylon and were later annexed to the Straits Settlements and incorporated with the colony of Singapore. On Nov. 23, 1955, their administration was transferred to Australia. They are two separate atolls comprising some 27 small coral islands with a total area of about 5½ square miles, situated in the Indian Ocean in latitude 12° 5' South and longitude 96° 53' East. The main islands are West Island (the largest, about 6 miles from north to south) on which are the aerodrome and the administrative centre, and most of the European community; Home Island, where the Cocos Malay community lives; Direction Island, and Horsburgh. The main economic activity is the production of copra: total exports 1980-81 were 187 metric tons. The climate is equable and pleasant, being usually

under the influence of the south-east trade winds for about three-quarters of the year. A two weekly air charter service operates between Perth and the Cocos Islands and Christmas Island. Population (estimated June 30, 1980), 487. The islands are administered by the Australian Government through the Department of Home Affairs and Environment in Canberra, although all proposed regulations and laws for the Islands must be submitted to the Islands Council (est. 1979) for its consideration.

*Administrator, C. I. Buffett, O.B.E.*

### CHRISTMAS ISLAND

Until the end of 1957 a part of the then Colony of Singapore. Christmas Island was administered as a separate colony until October 1, 1958, when it became Australian territory. It is situated in the Indian Ocean about 224 miles S. of Java Head. Area 52 sq. miles. Population (estimated, June 30, 1980) is 3,308, consisting of employees of the Phosphate Mining Company and the Administration, and their families. There is no indigenous population.

The island is densely wooded and contains extensive deposits of phosphates, the recovery of which is the sole economic activity. The Christmas Island Phosphate Commission is responsible for mining activities in the Territory on behalf of the Australian and New Zealand Governments. By agreement, the Commission's function of obtaining and distributing phosphates for the Australian and New Zealand markets is carried out by the British Phosphate Commissioners as managing agents. The island is administered by the Australian Government through the Department of Home Affairs and Environment in Canberra.

### THE ANTARCTIC CONTINENT

The area of the Antarctic Continent is estimated at approximately 13,000,000 square kilometres. The greater part of the coastline has been charted, but considerable portions of the interior have not been visited, or at best have been seen only from the air. The question of territorial rights is complicated and there is no general international agreement thereon.

The *Australian Antarctic Territory* was established by an Order in Council, dated February 7, 1933, which placed under the government of the Commonwealth of Australia all the islands and territories, other than Adélie Land, which are situated south of the latitude 60° S. and lying between 160° E. longitude and 45° E. longitude. The Order came into force on August 24, 1936, after the passage of the Australian Antarctic Territory Acceptance Act, 1933. The boundaries of Terre Adélie were definitely fixed by a French Decree of April 1, 1938, as the islands and territories south of 60° S. latitude lying between 136° E. longitude and 142° E. longitude. The Australian Antarctic Territory Act, 1954 declared that the laws

in force in the Australian Capital Territory are, so far as they are applicable, in force in the Australian Antarctic Territory.

On February 13, 1954, the Australian National Antarctic Research Expeditions (ANARE) opened a station in Mac-Robertson Land at latitude 67° 36' S. and longitude 62° 53' E. The station was named Mawson in honour of Sir Douglas Mawson and was the first permanent Australian station to be set up on the Antarctic continent. Scientific research conducted at Mawson includes upper atmosphere physics, cosmic ray physics, meteorology, earth sciences, biology and medical science. Mawson is also a centre for coastal and inland exploration.

A second Australian scientific research station was opened on the coast of Princess Elizabeth Land on January 13, 1957, at latitude 68° 35' S. and longitude 77° 58' E. The station was named in honour of Captain John King Davis, second in command of two of Mawson's expeditions and master of several famous Antarctic ships. The station was temporarily closed on Jan. 25, 1965 and reopened on Feb. 15, 1969. Scientific programmes carried out at Davis include meteorology, biology, upper atmosphere physics, with field investigations in biology. In February, 1959, the Australian Government accepted from the United States Government custody of Wilkes Station on the Budd Coast, Wilkes Land at about 66° 15' S. and longitude 110° 31' E. The station was closed in February 1969, and activities were transferred to Casey station. Casey station was named in honour of Lord Casey, former Governor-General of Australia, in recognition of his long association with Australia's Antarctic effort. The station, at 66° 17' S., 110° 32' E., is of advanced design and scientific programmes carried out there include geophysics, meteorology with field programmes in glaciology, geology, etc.

Since 1948 ANARE has also operated a station on Macquarie Island, a dependency of Tasmania, situated at 54° 30' S. and 158° 57' E., about 900 miles north of the Antarctic Continent.

On December 1, 1959, Australia signed the Antarctic Treaty with Argentine, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the United Kingdom, the United States and U.S.S.R., all countries which have been active in Antarctic operations and research. Poland was admitted as the thirteenth full member in 1977 following its establishment of a station in the Antarctic Peninsula region, while West Germany was admitted as a full member in 1981. The Treaty reserves the Antarctic area south of 60° S. latitude for peaceful purposes, provides for international co-operation in scientific investigation and research, and preserves, for the duration of the Treaty, the *status quo* with regard to territorial sovereignty, rights and claims. The Treaty came into force on June 23, 1961, and has been acceded to by another eight nations not actively engaged in the area.

For other Commonwealth dependencies in the Antarctic see New Zealand.

## STATES OF THE COMMONWEALTH OF AUSTRALIA

### NEW SOUTH WALES

The State of New South Wales is situated entirely between the 28th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and comprises an area of 309,433 square miles (exclusive of 939 sq. miles of Australian Capital Territory which lies within its borders).

POPULATION.—Estimated resident population (June 30, 1981): Males, 2,607,900; Females, 2,629,200. Total, 5,237,100.

### Births, Deaths and Marriages

Year	Births	Deaths	Marriages
1978	77,773	40,394	35,904
1979	77,134	38,817	36,906
1980	79,459	40,310	38,965
1981	81,530	39,959	40,679

*Vital Statistics.*—Annual rate per 1,000 of mean population in 1981:—Births, 15.51; Deaths, 7.63;

Marriages, 7.77. Deaths under 1 year per 1,000 live births, 9.92.

#### Religions

The members of the Church of England in New South Wales, according to the Census of 1976, numbered 1,538,786. Roman Catholic (including "Catholic") 1,314,374, Presbyterian 310,200, Methodist 271,814, Baptist 57,866, Lutheran 30,535, other Christian 347,265, Hebrew 21,700 and Muslim 22,206. The religion of 837,829 persons was either not stated in the census schedules or was stated as "none".

#### PHYSIOGRAPHY

Natural features divide the State into four strips of territory extending from north to south, viz., the Coastal Divisions; the Tablelands, which form the Great Dividing Range between the coastal districts and the plains; the Western Slopes of the Dividing Range; and the Western Plains. The highest points are Mounts Kosciusko, 7,314 feet, and Townsend, 7,251 feet. The coastal district is well watered by numerous rivers flowing from the ranges into fertile flats which form their lower basins. The western portion of the State is watered by the rivers of the Murray-Darling system and immense reservoirs have been constructed for irrigation purposes, as well as many artesian bores. The Darling, 1,712 miles, and the Murrumbidgee, 981 miles, are both tributaries of the Murray, part of which forms the boundary between the States of New South Wales and Victoria. Other inland rivers are: Lachlan, Macquarie-Bogan, Castlereagh, Namoi and Gwydir.

*Climate.*—New South Wales is situated entirely in the Temperate Zone. The climate is equable and very healthy. At the capital (Sydney) the average mean shade temperature is 18° C. The mean (shade) temperature ranges for the various divisions of the State are as follows: coastal, 15° C in the south to 20° C in the north; northern and central tableland, 12° C to 16° C; southern tableland, 7° C to 14° C; and for the rest of the State (western slope, central plains, Riverina and western), 15° C in the south to 20° C in the north.

#### GOVERNMENT

New South Wales was first colonized as a British possession in 1788, and after progressive settlement a partly elective legislature was established in 1843. In 1855 Responsible Government was granted, the present Constitution being founded on the Constitution Act of 1902. New South Wales federated with the other States of Australia in 1901. The executive authority of the State is vested in a Governor (appointed by the Crown), assisted by a Council of Ministers.

*Agent-General, Hon. J. B. Renshaw (1980)*

#### THE LEGISLATURE

The Legislature consists of the Sovereign and the two Houses of Parliament (the Legislative Council and the Legislative Assembly). Under legislation passed in 1978, the *Legislative Council* consists of 45 members, elected by popular vote. Membership is for a term of office equivalent to three terms of the *Legislative Assembly*, 15 members retiring at the same time as the *Legislative Assembly* elections. The *Legislative Assembly* consists of 99 members, currently elected for a maximum period of 3 years. Australian citizens and other British subjects aged 18 and over, who have resided 6 months continuously in Australia and in an electoral district for one month preceding the date of claim for enrolment, are entitled to the franchise. Voting is compulsory. At the State General Elections in September, 1982, there were 3,212,657 persons enrolled. In contested elections 2,897,033 persons voted, representing 91 per cent. of the persons enrolled.

*President of the Legislative Council, Hon. J. R. Johnson . . . . . (incl. allowance)* \$A47,010  
*Chairman of Committees, Legislative Council, Hon. C. Healey . . (incl. allowance)* 30,860  
*Speaker, Legislative Assembly, Hon. L. B. Kelly . . . . . (incl. allowance)* 62,679  
*Chairman of Committees, Legislative Assembly, T. J. Cahill . . . . . (incl. allowance)* 44,085  
*Leader of Opposition members, Legislative Assembly, J. R. A. Dowd . . (incl. allowance)* 62,679  
(Office-holders above who are members of the Legislative Assembly also receive electoral and accommodation allowances ranging from \$A10,208 to \$A24,373 according to the location of the electorate.)

#### THE JUDICATURE

The judicial system includes a Supreme Court (with the Chief Justice, President, nine Judges of Appeal, and 25 Judges), Land and Environment Court, Industrial Commission, District Courts, Workers' Compensation Commission, Courts of Petty Sessions and Children's Courts.

1981 .....	4,819,498,000	4,848,516,000

The Public Debt of New South Wales at June 30, 1981, was \$A4,885,370,000, of which an amount of \$A4,335,000 was repayable in London (interest \$A238,000), \$A5,008,000 was repayable in New York (interest \$A275,000), \$A228,000 was repayable in the Netherlands (interest \$A11,000) and \$A4,875,799,000 was held in Australia, with an annual interest bill of \$A437,116,000.

*Banking, etc.*—There were (March 1982) 10 trading banks with deposits of \$A13,934,200,000. Savings bank deposits amounted to \$A6,699,200,000, representing \$A1,271 per head of the population. The amount assured in New South Wales in *Life Insurance* in Jan. 1982 was \$A14,606,600,000 ordinary and industrial and \$A3,014,200,000 superannuation. The membership and funds of *Friendly Societies* at June

30, 1981 were 172,667, and \$A68,726,000 respectively. On Dec. 31, 1981, there were 191 separate *Trade Unions* in New South Wales with a total membership of 1,145,600. Balances outstanding on *Instalment Credit* for retail sales on March 31, 1982, were \$A1,303,900,000.

## EDUCATION

*Education.*—Education is compulsory between the ages of 6 and 15 years. It is non-sectarian and free at all state schools. The enrolment in July 1981 in 2,236 state schools was 790,393. In addition to the state schools there were, in 1981, 804 private colleges and schools, with an enrolment of 237,853 scholars. The six universities had an enrolment of 63,532 students in 1981; 17,805 at Sydney (incorporated 1850), 18,844 at New South Wales (1948), 8,914 at New England (1954), 10,489 at Macquarie (1964), 4,391 at Newcastle (1965) and 3,089 at Wollongong (1975). Colleges of Advanced Education which provide courses at tertiary level, but with a more vocational emphasis than universities, had 39,907 students enrolled in 1981. Students enrolled in technical and further education colleges in 1981 numbered 314,042. The State expenditure on education was \$A1,634,104,000 in the year 1980-81.

## PRODUCTION AND INDUSTRY

*Value of Production.*—In 1980-81 the local value of primary commodities produced was \$A2,775,349,000. Of that crops contributed \$A1,132,132,000, livestock products (wool, milk, etc.) \$A757,990,000, and livestock slaughterings \$A885,227,000. Value added in mining and quarrying industries and manufacturing industries in 1980-81 was \$A1,262,843,000 and \$A10,879,442,000 respectively.

*Agriculture.*—The production of wheat in 1980-81 was 2,865,000 tonnes of grain and 67,830 tonnes of hay. Other important crops in 1980-81 were 413,325 tonnes of barley, 309,867 tonnes of oats, 703,530 tonnes of rice, besides other kinds of grain, 86,526 tonnes of potatoes, 47,402 tonnes of oilseed, 173,428 tonnes of cotton and 1,043,404 kilograms of dried leaf tobacco. Sugar-cane to the extent of 1,435,287 tonnes was crushed; while 62,836,060 kilograms of bananas were obtained; almost every kind of fruit and vegetable is grown.

*Pastoral, etc.*—A large area is suitable for sheep-raising, the principal breed of sheep being the celebrated merino, which was introduced in 1797. On March 31, 1981, there were 5,459,087 cattle, 46,000,000 sheep and lambs, and 786,953 pigs. In 1980-81, 198,213,000 kg. (stated as in the grease) of wool were produced, 1,388,000 kg. of butter, 11,291,000 kg. of cheese, and 25,644,000 kg. of bacon and ham.

*Mining Industry.*—The principal minerals are coal, lead, zinc, tin, rutile, copper and zircon. The total value of minerals won in 1980-81 was \$A1,941,973,000, of which the value of output of the coal mining industry was \$A1,318,104,000 and of the silver-lead-zinc industry, \$A267,291,000. The average number of persons employed in the mining industry during 1980-81 was 28,545. In 1980-81, 58,549,000 tonnes of coal were produced.

*Manufacturing Industry.*—At June 30, 1981, there were 10,333 manufacturing establishments (employing four of more persons). The average number of persons employed during 1980-81 was 436,039, and the value added to materials was \$A10,879,442,000. Large iron and steel works with subsidiary factories are in operation at Newcastle and Port Kembla in proximity to the coalfields. Products of the regions include iron and steel of various grades, pipes, boilers, steel wire and wire netting, copper wire, copper and brass cables and tin-plate. The production (1980-81) of pig-iron was 6,269,000 tonnes, and of steel ingots 7,136,000 tonnes.

## OVERSEAS TRADE

Year ended June 30	Overseas Imports \$A(f.o.b.)	Overseas Exports \$A(f.o.b.)
1978	4,635,018,000	3,114,401,000
1979	5,760,063,000	3,770,509,000
1980	6,704,649,000	4,456,550,000
1981	7,951,738,168	4,466,458,742

The chief exports in 1980–81 were coal, wool, meat, iron and steel, cereal grains, machinery, hides and skins, chemicals, metalliferous ores and metal scraps. Chief imports were transport equipment, machinery, petroleum and petroleum products, chemicals, paper products, textile yarns and fabrics, metal manufactures and plastic materials.

## TRANSPORT AND COMMUNICATIONS

*Shipping.*—2,739 vessels entered the major ports of N.S.W. from overseas during the year ended June 30, 1981, the gross tonnage being 49,459,852. The shipping entries at Sydney were 1,505 vessels of 21,297,812 gross tonnage.

*Roads and Bridges.*—Expenditures by the State Government and the local authorities on road systems and regulation in 1979–80 was \$A654,800,000. Sydney Harbour Bridge carries eight lanes of roadway with a total width of 25.6 m, two footways each of 3 m wide, and two lines of railway. At mean high water there is a headway of 52.6 m.

*Motor Vehicles.*—At June 30, 1981, there were 2,626,900 registered motor vehicles (cars, 1,695,600).

*Railways.*—The railways of New South Wales are controlled by the State, which also operates bus and ferry services. At June 30, 1981, the route kilometres of the State railways open for traffic was 9,773, revenue in the year 1980–81 being \$A902,306,000.

*Aviation.*—Sydney is the principal overseas terminal in Australia. Traffic movements at Sydney airport in 1980 were: passengers 8,412,077 (5,999,925 domestic, 2,412,152 international); freight 137,946 tonnes (53,935 domestic, 84,011 international); aircraft, 105,291 (86,748 domestic, 18,543 international).

*Posts, Telegraphs and Telephones.*—The postal, telegraphic, telephonic and radio services are administered by the Australian Government. At June 30, 1981, there were 1,658 post offices in New South Wales. During the year 1,938,000 telegrams were despatched to places within Australia and 672,000 telegrams to places outside Australia. Transmit time between Sydney and London is approximately 2½ days for airborne mail and between 4 and 6 weeks for seaborne mail. The telephone services in operation numbered 1,917,529.

*Radio and Television.*—At June 30, 1981, there were 25 National Broadcasting Stations in New South Wales and 43 commercial stations operating under licence. There were also 11 licensed non-profit radio stations providing special interest services not catered for by the national and commercial services. At June 30, 1981, there were 28 television stations (14 national, 14 commercial) in operation.

## TOWNS

ΨSYDNEY, the chief city and capital and the largest city in Australia, stands on the shores of Port Jackson, with a water frontage of 245 kilometres; the depth of water at the entrance is not less than 24 m and at the wharves up to 12 m. There are extensive facilities for handling cargo, and for storing and loading grain in bulk or bags. For 21 kilometres Sydney Harbour extends inland, the finest harbour in the world, and is surrounded by scenery of surpassing beauty. The principal wharves

are situated in close proximity to the business centre of the city. The total area of water in the harbour is about 55 square kilometres, of which approximately one-half has a depth of not less than 9 m; the average tidal range is 1 m.

According to the preliminary results of the Census held on June 30, 1982, the Sydney Statistical Division has a population of 3,204,211. The Newcastle and Wollongong Statistical Districts contain populations of 389,212 and 222,488 respectively.

The populations of principal municipalities located outside the boundaries of these statistical areas are: Albury 36,686, Wagga Wagga 47,392, Broken Hill 26,913, Tamworth 31,778, Orange 30,350, Goulburn 21,750, Lismore 34,020, Dubbo 28,503, Bathurst 22,702, Shoalhaven 46,773 and Greater Taree, 31,278.

## LORD HOWE ISLAND

Lord Howe Island, which is part of New South Wales, is situated 702 kilometres north-east of Sydney. Lat. 31° 33' 4" S., Long. 159° 4' 26" E. Area 17 sq. km. Pop. June 30, 1981, 287. The island is of volcanic origin with Mount Gower reaching an altitude of 866 m. The affairs of the island are administered by the Lord Howe Island Board.

## QUEENSLAND

This State, situated in lat. 10° 40'–29° S. and long. 138°–153° 30' E., comprises the whole north-eastern portion of the Australian continent.

Queensland possesses an area of 1,727,000 square km. (*i.e.*, equal to more than 5½ times the area of the British Isles).

POPULATION.—At June 30, 1980, the population numbered 2,345,300 persons.

## Religions

At the Census of 1976, there were 560,900 Church of England, 494,300 Roman Catholics (including Catholics undefined), 179,100 Presbyterians, 179,300 Methodists, 46,000 Lutherans, 29,900 Baptists, and 136,000 other Christians.

## PHYSIOGRAPHY

The Great Dividing Range on the eastern coast of the continent produces a similar formation to that of New South Wales, the eastern side having a narrow slope to the coast and the western a long and gradual slope to the central plains, where the Selwyn and Kirby Ranges divide the land into a northern and southern watershed. The Brisbane, Burnett, Fitzroy and Burdekin rise in the eastern ranges and flow into the Pacific, the Flinders, Mitchell, and Leichhardt into the Gulf of Carpentaria, and the Barcoo and Warrego rise in the central ranges and flow southwards.

## GOVERNMENT

Queensland was constituted a separate colony with Responsible Government in 1959, having previously formed part of New South Wales. The executive authority is vested in a Governor (appointed by the Crown), aided by an Executive Council of 18 members.

Education is compulsory between the ages of 6 and 15, and is free in state primary and secondary

schools. On July 1, 1981 there were 1,268 state schools, including 227 providing secondary education, in operation, with 19,627 teachers and an enrolment of 360,424 children, and 341 private and 8 grammar schools, with an enrolment of 100,503. During 1980, 431 full-time and 333 part-time students were enrolled in tertiary courses at technical colleges and 5,174 full-time and 95,091 part-time students (including correspondence and apprenticeship students, were enrolled in non-tertiary courses at these colleges and rural training schools. At April 30, 1980, there were 10,286 full-time and 12,726 part-time students enrolled in tertiary courses at colleges of advanced education and 150 full-time and 1,949 part-time students enrolled in non-tertiary courses. The three Universities had an enrolment of 12,241 full-time students and 10,151 part-time students at April 30, 1981.

## PRODUCTION AND INDUSTRY

The gross value of agricultural commodity production in 1980-81 was \$A2,411,436,000 (including crops \$A1,452,137,000, livestock disposals \$A711,720,000, livestock products \$A247,578,000.

*Agriculture and Livestock.*—The most important crop in 1980-81 was sugar-cane, producing 3,149,000 tonnes of raw sugar. Wheat yielded 485,255 tonnes, maize 123,190 tonnes, sorghum 1,050,177 tonnes and barley 170,339 tonnes. The livestock on March 31, 1981 included 9,924,586 cattle, 364,012 being dairy cattle, 10,620,092 sheep and 501,824 pigs.

*Forestry.*—Total Australian grown timber processed in 1980-81 amounted to 1,404,938 cubic metres (gross volume measure).

*Minerals.*—There are rich deposits of bauxite, coal, copper, lead, phosphate, silver, uranium, and zinc, and deposits of tin, limestone, ironstone, wolfram and mineral sands. Coal is mined extensively in Central Queensland and on a lesser scale in North Queensland and Ipswich districts. The output in 1981 included gold, \$A13,418,062; coal, \$A1,067,318,596; copper \$A229,376,087; tin \$A35,707,096; silver \$A112,463,893; lead \$A86,885,743; zinc \$A83,810,984; bauxite \$A110,766,771; mineral sands \$A23,139,660; uranium oxide \$A63,950,640.

*Manufacturing.*—In 1979-80 there were 3,171 establishments with four or more workers, employing 115,605 persons, and producing goods and services worth \$A8,304 million. The value added was \$A2,693 million. Much of the production was the processing of primary products, e.g. meat, milk, fruit and vegetables, flour, sugar and other foods, timber and minerals. Included in other factory production were the products from engineering, transport equipment, basic and fabricated metal, chemical and fertilizer works, cement, paper and textile mills and oil refineries.

## SOUTH AUSTRALIA

The State of South Australia is situated between 26° and 38° S. lat. and 129° and 141° E. long., the total area being 380,070 sq. miles.

**POPULATION.**—At June 30, 1981, the resident population was estimated to be 1,319,300.

## Births, Deaths and Marriages

Year	Births	Deaths	Marriages
1978	18,558	9,763	9,800
1979	18,478	9,661	9,778
1980	18,499	9,582	10,064
1981	19,310	9,706	10,252

## Religions

Religion is free and receives no State aid. At the Census, 1976, the persons belonging to the principal religious denominations were as follows: Church of England, 275,334; Methodists, 195,895; Congregationalists, 11,504; Baptists, 22,003; Lutherans, 62,341; Roman Catholics, 247,572; Presbyterians, 34,776; Churches of Christ, 20,260; and Greek Orthodox, 34,827.

## PHYSIOGRAPHY

The most important physical features of South Australia are broad plains, divided longitudinally by four great secondary features, which form barriers to east-west movement, and which have thus largely

determined the direction of roads and railways, the sites of towns and villages and the manner of distribution of the population. These four barriers are Spencer Gulf, Gulf St. Vincent, the Mt. Lofty-Flinders Ranges and the River Murray. The long, deeply-indented coast-line, which provides a few major, and a multitude of lesser harbours, trends generally south-eastward. Pleasant weather conditions and good rainfall are experienced in most coastal areas.

The north-western portion of the State is mostly desert, while north of latitude 32° S. the country is unpromising by comparison with the fertile land which surrounds the hill country of the east. The Murray, which flows for some 400 miles through the south-eastern corner, is the only river of importance.

The lack of rivers and fresh-water lakes in the settled areas has necessitated the building of a number of reservoirs, which have been supplemented since 1941 by the construction of pipelines from the River Murray.

**Climate.**—The mean annual temperature at Adelaide is 17.1°C, the winter temperature (June-August) averaging 11.8°C, and the summer (Nov.-Mar.) 21.5°C. During the summer months the maximum temperature at times exceeds 40°C, but is associated with a relatively low humidity. The average annual rainfall at Adelaide, derived from over 139 years' record is 21 inches. This total is rather higher than the approximate average annual rainfall over the whole of the agricultural areas.

## GOVERNMENT

South Australia was proclaimed a British Province in 1836, and in 1851 a partially elective legislature was established. The present Constitution rests upon a Law of Oct. 24, 1856, the executive authority being vested in a Governor appointed by the Crown, aided by a Council of 13 Ministers.

1981	1,548,299,000	1,554,885,000	1,872,699,000

## PRODUCTION AND INDUSTRY

The gross value of primary production in 1980-81 was: crops \$A693,592,000, livestock slaughterings \$A306,896,000, livestock products \$A321,053,000, and fisheries \$A46,603,000.

*Agriculture*.—Wheat harvest 1980-81, 1,650,390 tonnes; barley, 1,158,077 tonnes. Oranges, lemons, apples, apricots, peaches, and all stone fruits and olives are successfully grown, and fruit drying is profitable. In 1980-81 220,384,000 litres of wine and 2,779 tonnes of sultanas, currants and raisins were produced. Considerable quantities of fruits (fresh and dried), wine and brandy, are annually sent to overseas countries, and to other Australian States. Some areas of the State, particularly near Adelaide,

are also very suitable for growing all kinds of root crops and vegetables.

*Livestock* (March 31, 1981).—There were 17,055,849 sheep, 1,091,301 cattle, 393,516 pigs. Wool production (1980-81), 99,455,885 kg.

*Minerals*.—Iron, pyrite, gypsum, salt, coal, limestone, clay, &c., are found. The total mineral output was valued at \$A226,100,000 in 1980-81, including iron ore valued by the South Australian Director of Mines and Energy at \$A21,143,000.

*Transport and Communications*.—There were (June, 1981) 141 kilometres of railway operated by State Transport Authority, 962 kilometres of tram and bus routes and 102,122 kilometres of roads, including roads and tracks outside local government areas. There are a number of excellent harbours, of which Port Adelaide is the most important. The number of vessels (exceeding 200 net tons) entering South Australia from overseas during 1980-81 was 822 with 2,684,513 import tonnes and leaving with 4,364,838 export tonnes. There are 645 post offices in the State.

*Civil Aviation*.—There are 29 Government and licensed airports; the largest of these, Adelaide airport, recorded 1,930,219 passenger movements during 1980-81.

*Motor Vehicles*.—The registration on 30 June, 1981, were 725,426, equal to 1 per 1.82 persons.

*Wireless and Television* (June 30, 1980)—Broadcasting stations 25; Television stations 13.

## TOWNS

ΨADELAIDE, the chief city and capital, according to population Census on June 30, 1981, 952,700, inclusive of suburbs. Other centres (with 1981 populations) are: ΨWhyalla (31,150); ΨMt. Gambier (25,850); ΨPort Pirie (17,550); ΨPort Augusta (15,850); and ΨPort Lincoln (10,600).

*Transit*.—Transmission of mails from London to Adelaide, approximately 35 days by sea and 5 days by air.

## TASMANIA

Tasmania is an island state of Australia situated in the Southern ocean off the south-eastern extremity of the mainland. It is separated from the Australian mainland by Bass Strait and incorporates King Island and the Furneaux group of islands which are in the Strait. It lies between 40° 38'–43° 39' S. lat. and 144° 36'–148° 23' E. long., and contains an area of 26,383 square miles.

*POPULATION*.—The estimated resident population at June 30, 1981 was 427,300.

## Births, Deaths and Marriages

Year	Births	Deaths	Marriages
1977	6,735	3,269	3,166
1978	6,788	3,311	3,148
1979	6,757	3,167	3,254
1980	6,735	3,392	3,433
1981	7,188	3,320	3,515

*Vital Statistics.*—The birth rate in 1980 was 16.8, death rate 7.8, marriage rate 8.2 per 1,000. Infant mortality (1980) 11.8 per 1,000 births.

### Religions

In 1981 there were 151,207 members of the Anglican Church of Australia, 78,143 Roman Catholics, 17,668 United Church of Australia, 19,906 Methodists, 11,575 Presbyterians, 1,790 Congregationalists and 7,965 Baptists.

### PHYSIOGRAPHY

The surface of the country is generally hilly and timbered, with mountains from 1,500 to 5,300 ft. in height, and expanses of level, open plains. There are numerous rivers, the South Esk, Gordon, Derwent and Huon being the largest. The climate is fine and salubrious, and well suited to European constitutions; the hot winds of Australia do not often reach the island. At Hobart the mean maximum temperature ranges from about 12°C in winter to 21°C in summer, the mean minimum from 5°C to 11°C. The western side of the island is very wet, the eastern side being much drier.

### GOVERNMENT

The island was first settled by a British party from New South Wales in 1803, becoming a separate colony in 1825. In 1851 a partly elective legislature was inaugurated, and in 1856 responsible government was established. In 1901 Tasmania became a State of the Australian Commonwealth. The State executive authority is vested in a Governor (appointed by the Crown), but is exercised by Cabinet Ministers responsible to the Legislature, of which they are members.

### GOVERNOR

*Governor of Tasmania, His Excellency Sir James Plimsoll, A.C., C.B.E.; assumed office Oct. 1982.*

### THE MINISTRY

*Premier, Treasurer and Minister for Racing and Gaming, and Energy, Hon. R. T. Gray.*

*Deputy Premier, Attorney-General and Minister for Education, Industrial Relations, and Police and Emergency Services, Hon. E. M. Bingham.*

### THE JUDICATURE

*The Supreme Court of Tasmania*, with civil, criminal ecclesiastical, admiralty and matrimonial jurisdiction, was established by Royal Charter on October 13, 1823.

*Chief Justice, Hon. Sir Guy Green.*  
*Puisne Judges, Hon. F. M. Neasey; Hon. R. R. Nettlefold; Hon. H. E. Cosgrove; Hon. M. G. Everett; Hon. W. E. Cox.*

Local Courts established under the Local Courts Acts, 1896, are held before Commissioners who are legal practitioners with a jurisdiction up to \$A1,500 in the case of liquidation claims (\$A1,000, unliquidated claims). Courts of General Sessions, constituted by a chairman who is a Justice of the Peace and at least one other Justice, are established in the municipalities for the recovery of debts and demands not exceeding \$A100. Courts of Petty Sessions are established under the Justices Act, 1959, constituted by Police Magistrates sitting alone, or any two or more justices. A single justice may hear and determine certain matters.

### EDUCATION

Government schools are of three main types: primary, secondary and matriculation schools. On July 1, 1981, there were 70,932 scholars enrolled in 261 Government schools. There were also 61 independent schools with an enrolment of 14,917. The University of Tasmania at Hobart, established 1890, had 2,344 full-time students and 1,173 part-time (including external) students in 1980. A College of Advanced Education offering degree and diploma courses was established in 1972. Enrolments in 1980 were 1,806 full-time students and 1,120 part-time students.

### FINANCE

Revenue and expenditure of the Consolidated Revenue Fund and debt of Tasmania at current rates of exchange (June 30) was:—

Year	Revenue	Expenditure	Debt
	\$A	\$A	\$A
1977-78	444,262,888	450,706,175	870,097,384
1978-79	495,822,063	492,960,811	922,559,023
1979-80	560,192,127	563,916,672	969,948,332
1980-81	620,307,281	627,440,727	1,020,804,363

*Banking.*—The weekly average of depositors' balances at trading banks in May 1981 was \$A451,190,000; the savings bank balances at the end of May 1981, were \$A690,009,000.

### PRODUCTION AND INDUSTRY

Gross value of agricultural production in 1980-81 was \$A275m. The estimated value added for agricultural enterprises in 1980-81 was \$A107.3m. Total value added in manufacturing in 1980-81 was \$A709.4m.; value added in mining was \$A193m. in 1980-81.

*Agriculture and Livestock.*—The principal crops are apples and other fruit, potatoes, green peas, oil poppies, hops, barley, beans and onions.

The livestock included (March 31, 1981) 659,000 cattle, 4,383,000 sheep and 54,000 pigs. The wool production (1980-81) was 18,091 tonnes.

*Electrical Energy.*—Tasmania, the smallest Australian state, ranks fourth as a producer of electrical

energy—most of it derived from water power, with a total installed generator capacity of 1,862,144 kW. By reason of its low-cost electrical energy, Tasmania has large plants producing ferro-manganese and newsprint. A large aluminium plant is situated at Bell Bay and Tasmania is the source of the bulk of Australian requirements of zinc and fine papers. The Hydro-Electric Commission has completed a network of 24 stations including a dual machine oil fired station at Bell Bay. Work is continuing on three hydro-electric developments in the remote western and south-western regions of the State, which will increase the installed generator capacity to 2·20 million kW.

**Forestry.**—The quantity of timber (excluding firewood) of various species cut in 1980–81 was 4,362,800 cubic metres, including 3,369,800 cubic metres for woodchip and wood-pulp.

**Minerals.**—The chief ores mined are those containing copper, tin, iron, silver, zinc and lead.

**Manufactures.**—The chief manufactures for export are: refined metals, pelletized iron ore, preserved fruit and vegetables, butter, cheese, woollen manufactures, paper, confectionery, wood chips and sawn timber. In 1980–81, 558 manufacturing establishments employed 26,487 persons, including working proprietors. Salaries and wages paid totalled \$A345·9m.

#### COMMUNICATIONS

**Road and Rail.**—Tasmania is served by a 1,067 mm gauge Federal Government railway system of 851 route kms. An additional 134 route kms of the same gauge is privately operated. During 1979–80 the Government system carried 2,141,000 tonnes of goods and livestock. Regular passenger services no longer operate. At June 30, 1981 there were 22,190 kilometres of road normally open to traffic. Of this total 7,769 kilometres were sealed. Motor vehicles on the register at Dec. 31, 1981 were: cars and station wagons, 189,300; commercial vehicles, 50,100 and motor cycles, 5,900.

**Aviation.**—Regular services operate between Tasmania and the other Australian States. During 1981 more than 1,168,800 passengers were carried on these services. The main cities and town in the State are served by regular internal services.

#### OVERSEAS TRADE

Year	Imports	Exports
	\$A'000	\$A'000
1977–78	115,778	381,942
1978–79	140,652	516,495
1979–80	179,780	646,827
1980–81	172,456	658,013

The principal overseas exports are ores and concentrates, refined metals, woodchips, fresh fruit, greasy wool, meat, cheese and hides and skins.

#### TOWNS

**CAPITAL, ΨHOBART**, founded 1804. Population (June 30, 1981), 128,603.

Other towns (with population at June 30, 1981) are ΨLaunceston (64,555), ΨDevonport (21,424), Burnie-Somerset (20,368), Ulverstone (9,413), New Norfolk (6,243) and Kingston-Blackmans Bay (8,556).

#### VICTORIA

The State of Victoria comprises the south-east corner of Australia, at the part where its mainland territory projects farthest into the southern latitudes; it lies between 34°–39° S. latitude and 141°–150° E. longitude. Its extreme length from east to

west is about 493 miles, its greatest breadth is about 290 miles, and its extent of coast-line is about 1,043 geographical miles, including the length around Port Phillip Bay, Western Port and Corner Inlet, the entire area being 87,876 square miles.

**Population.**—The estimated resident population at June 30, 1981 was 3,948,600.

#### Births, Deaths and Marriages

Year	Births	Deaths	Marriages
1978	58,861	29,096	27,178
1979	57,767	29,078	27,019
1980	58,206	29,374	27,724

**Vital Statistics.**—Annual rate per 1,000 of estimated resident population in 1980: Births, 14·88; Deaths, 7·51; Marriages, 7·09. Deaths under 1 year per 1,000 live births, 10·17.

#### Religions

Members of the Church of England at the date of the Census in 1976 numbered 791,853, Roman Catholics 990,458, Presbyterians 303,498, Methodists 209,138, Baptists 38,591, Lutheran 36,743 and Hebrew 25,755. The number of persons who did not state their religion was 472,065.

#### PHYSIOGRAPHY

The *Australian Alps* and the *Great Dividing Range* pass through the centre of the State, and divide it into a northern and southern watershed, the latter sloping down to the ocean and containing, especially in the south-east, well-wooded valleys. The length of the Murray River, which forms part of the northern boundary of Victoria, is about 1,196 miles along the Victorian bank. Melbourne, the capital city, stands upon the Yarra-Yarra, which rises in the southern slopes of the Dividing Range.

**Climate.**—The climate of Victoria is characterized by warm to hot summers and rather cold winters. The highest temperature ever recorded in the State is 50·8°C, the lowest being –12·8°C. Normally, rain falls at most places throughout the year, with a maximum in winter or spring. In Melbourne, the mean annual temperature is 14·8°C.

#### GOVERNMENT

Victoria was originally known as the Port Phillip District of New South Wales and was created a separate colony in 1851, with a partially elective legislature. In 1855 Responsible Government was conferred. The executive authority is vested in a Governor, appointed by the Crown, aided by an Executive Council of Ministers.

**Governor of the State of Victoria**, His Excellency Rear Adm. Sir Brian Stewart Murray, K.C.M.G., assumed office March 1, 1982.

**Lieutenant-Governor**, Hon. Sir John McIntosh Young, K.C.M.G. (1974).

#### EDUCATION

Primary Education is compulsory, secular and free between the ages of 6 and 15. At July 1, 1981, there were 1,663 Government Primary Schools attended by 352,383 pupils, 19 Primary-Secondary Schools with 4,263 pupils, and 284 Secondary Schools (excluding Secondary Technical Schools) with an enrolment of 165,511. There were also 109 Government Secondary Technical Schools with 65,175 pupils and 71 Special Schools with 5,627 pupils. In addition there are technical and further education institutions and Colleges of Advanced Education.

At July 1, 1981, 221,611 pupils attended 632 non-Government schools, 488 of which were Roman Catholic.

There are four State-aided Universities—Melbourne, Monash, La Trobe and Deakin. Enrolments for 1981 at Melbourne were 16,242, at Monash 14,161, at La Trobe 8,538 and at Deakin 5,278.

#### FINANCE

Consolidated Fund			Debt at end of year
Year	Receipts	Payments	
	\$A'000	\$A'000	\$A'000
1978-79	3,543,598	3,543,598	3,427,554
1979-80	3,985,502	3,985,502	3,584,874
1980-81	4,514,164	4,514,164	3,758,134

*Banking, etc.*—State Savings Bank deposits at June 30, 1981, amounted to \$A4,259,855,000; in addition, deposits in the Commonwealth Savings Bank (in the State of Victoria) amounted to \$A1,731,301,000, and in other savings banks \$A2,630,784,000.

*Insurance (other than Life).*—The total premium of companies or other bodies transacting business in Victoria during the year 1980-81 amounted to \$A1,102,825,000. Expenditure on claims amounted to \$A1,035,729,000.

#### PRODUCTION AND INDUSTRY

The gross value of primary production (excluding mining and quarrying) in 1980-81 was \$A2,740,020,000, crops \$A1,031,986,000, livestock \$A1,708,034,000, mining and quarries (including oil and natural gas) \$A1,616,651,000. The local value of production of primary industries, excluding mining, was \$A2,488,569,000. Wool, wheat, flour, butter, livestock, fruits, milk and cream, meats, poultry and eggs are staple products.

*Livestock.*—There were on rural holdings in March, 1981, 25,486,993 sheep, 4,312,123 cattle, and 400,179 pigs. The quantity of wool produced in 1980-81 was valued at \$A334,356,000.

*Minerals.*—Minerals raised include oil and natural gas, brown coal, limestone, clays and stone for construction material. Production of brown coal in 1980-81 amounted to 32,103,948 tonnes.

*Crude Oil and Natural Gas.*—In February, 1965 natural gas was first discovered in commercial quantities in the offshore waters of the Gippsland Basin in eastern Victoria. An even larger gas field was found early in 1966, and during 1967 two valuable oilfields were located in the same general area. These fields are still the largest yet found in Australia. Following the development of the four fields, com-

mercial gas began to flow to consumers in Melbourne during April 1969, and crude oil came on stream in October, 1969. Production from the Gippsland fields during the calendar year 1981 was: stabilized crude oil, 21,349,174 cubic metres; treated natural gas, 5,701,778,800 cubic metres; commercial propane, 1,539,434 cubic metres, and commercial ethane, 148,548,992 cubic metres.

**Secondary Industry.**—In 1979–80 there were 11,971 manufacturing establishments in which 287,091 males and 117,096 females were employed. The principal industrial sub-divisions were: Transport equipment, 61,316 persons; basic and fabricated metal products 37,308 persons; other industrial machinery, 55,400 persons; clothing and footwear, 44,637 persons; and food, beverages and tobacco, 54,966 persons. Manufacturing activity is concentrated in the Melbourne Statistical Division. Important manufacturing centres are Geelong, Ballarat, Bendigo and in the shire of Morwell. Value added in the course of manufacture by all manufacturing establishments with four or more persons employed was \$A8,505 million.

#### TRANSPORT

**Victoria State Railways.**—At June 30, 1980, there were 6,184 kms of railway open for traffic. The revenue and expenditure for the year ended June 30, 1980, were \$A230,633,410 and \$A393,009,889 respectively. Total distance travelled was 30,795,460 kms and passenger journeys numbered 88,962,031. Goods and livestock carried amounted to 13,453,431 tonnes.

**Shipping.**—During the year ended June 30, 1980, 2,220 overseas vessels with dead-weight tonnage of 46,717,000 arrived at Victorian ports and 2,257 overseas vessels with dead-weight tonnage of 47,740,000 departed.

**Motor Vehicle Registration.**—The number of vehicles on the register at June 30, 1981, was: cars and station wagons, 1,632,500; utilities and panel vans, 170,900; trucks and omnibuses, 168,300, and motor cycles, 64,200.

#### OVERSEAS TRADE

The export trade (excluding inter-state trade) consists largely of agricultural and mining products, machinery and transport equipment. The principal overseas imports of the State are apparel and textiles, electrical and other machines and machinery, motor vehicles and tractors, metals and metal manufactures, iron and steel, chemicals, petroleum and petroleum products, artificial resins and plastic materials.

#### Religions

Census of 1976—Church of England 360,337, Roman Catholics 283,241, Methodists 77,011, and Presbyterians 42,630.

#### PHYSIOGRAPHY

Large areas of the State, for some hundreds of miles inland, are hilly and even mountainous, although the altitude, so far as ascertained, rises nowhere above that of Mount Meharry (4,097 ft.) in the north-west division or that of Bluff Knoll (3,640 ft.) in the Stirling Range in the south-west. The coastal regions are undulating, with an interior slope to the unsettled central portion of Australia. The Darling and Hamersley ranges of the west have a seaward slope to the Indian Ocean, into which flow many streams, notably the Preston, Collie, Murray, Swan, Murchison, Gascoyne, Ashburton, Fortescue and De Grey. In the north the Fitzroy flows from the King Leopold ranges into the Indian Ocean, and the Drysdale and Ord into the Timor Sea. The greater portion of the State may be described as an immense tableland, with an average elevation of 1,000 to 1,500 ft. above sea-level, the surface of which varies from stretches of clay soils to the sand dunes of the far interior. The climate is one of the most temperate in the world. Of the total area two-thirds is suitable for pastoral purposes.

#### GOVERNMENT

Western Australia was first settled by the British in 1829, and in 1870 it was granted a partially elective legislature. In 1890 Responsible Government was granted, and the Administration vested in a Governor, a Legislative Council, and a Legislative Assembly. The present constitution rests upon the Constitution Act, 1889, the Constitution Acts Amendment Act, 1899, and amending Acts. The Executive is vested in a Governor appointed by the Crown and aided by a Council of responsible Ministers.

The Legislative Assembly (elected February, 1980) is composed of Liberal Party 26, Australian Labour Party 23, National Country Party 4, National Party 2.

### PHYSIOGRAPHY

New Zealand consists of a number of islands of varying size in the South Pacific Ocean, and has also administrative responsibility for a large tract in the Antarctic Ocean. The two larger and most important islands, the North and South Islands of New Zealand, are separated by only a relatively narrow strait. The remaining islands are very much smaller and, in general, are widely dispersed over a considerable expanse of ocean. The boundaries, inclusive of the most outlying islands and dependencies, range from 33° to 53° South latitude, and from 162° East longitude to 173° West longitude.

**Geographical Features.**—The two principal islands have a total length of 1,040 miles, and a combined area of 102,344 square miles. A large proportion of the surface is mountainous in character. The principal range is that of the Southern Alps, extending over the entire length of the South Island and having its culminating point in Mount Cook (12,349 ft.). The North Island mountains include several volcanoes, two of which are active, others being dormant or extinct. Mt. Ruapehu (9,175 ft.) and Mt. Ngauruhoe (7,515 ft.) are the most important. Of the numerous glaciers in the South Island, the Tasman (18 miles long by 1½ wide), the Franz Josef and the Fox are the best known. The North Island is noted for its hot springs and geysers. For the most part the rivers are too short and rapid for use in navigation. The more important include the Waikato (270 miles in length); Wanganui (180), and Clutha (210). Lakes (Taupo, 234 sq. miles in area; Wakatipu, 113; and Te Anau, 133) are abundant, many of them of great beauty.

**Climate.**—New Zealand has a moist-temperate marine climate, but with abundant sunshine. A very important feature is the small annual range of temperature which permits of some growth of vegetation, including pasture, all the year round. Very little snow falls on the low levels even in the South Island. The mean temperature ranges from 15° C. in the North to about 9° C. in the South. Rainfall over the more settled areas in the North Island ranges from 35 to 70 inches and in the South Island from 25 to 45 inches. The total range is from approximately 13 to over 250 inches. The number of rainy days is

generally in the neighbourhood of 160 to 180 in the North Island and between 110 and 140 in the South, except in the southern portion of the west coast. The amount of sunshine is generally over 2,000 hours per annum and ranges between 1,600 to 2,500 hours.

### GOVERNMENT

The west coast of the South Island of New Zealand was discovered by Abel Janszoon Tasman, the navigator (voyaging under the direction of the Netherlands' East India Company), on December 13, 1642.

The islands were visited, and charted, in 1769 by Captain Cook, who returned to them in 1773, 1774 and 1777. From 1800 onwards sealers and whalers settled along the coasts, and trade in timber and flax followed. Christianity was introduced in 1814, and in 1832 a British Resident was appointed. In 1840 British sovereignty was proclaimed, and on May 3, 1841, New Zealand was, by letters patent, created a separate colony distinct from New South Wales. Organized colonization on a large scale commenced in 1840 with the New Zealand company's settlement at Wellington. On Sept. 26, 1907, the designation was changed to *The Dominion of New Zealand*. The Constitution rests upon the Imperial Act of 1852, and on the New Zealand Constitution (Amendment) Act of Dec. 10, 1947. The Statute of Westminster was formally adopted by New Zealand in 1947. The executive authority is entrusted to a Governor-General appointed by the Crown and aided by an Executive Council, within a Legislature consisting of one chamber, the House of Representatives.

**FLAG:** Blue ground, with Union Jack in top left quarter, four five-pointed red stars with white borders on the fly. On June 20, 1968, a new naval ensign bearing the Southern Cross was adopted, replacing the British white ensign.

#### EDUCATION

Schools are free and attendance is compulsory between the ages of 6 and 15. There are opportunities for apt pupils to proceed to university. In 1980 there were 379,558 pupils attending public primary schools, and 45,746 pupils attending registered private primary schools. The secondary education of boys and girls in the cities and large towns is carried on in 265

state secondary schools, 35 state secondary departments of district high schools and 96 private secondary schools. The total number of pupils receiving full-time secondary education in July 1980 was 226,346 and in addition there were 145,075 students attending technical classes and 28,566 receiving part-time tuition from the Technical Correspondence School. Almost all the students attending technical classes are part-time. The university system consists of the University of Auckland, the University of Waikato, Massey University of Manawatu, Victoria University of Wellington, the University of Canterbury and the University of Otago. The Lincoln university college of agriculture is associated with the University of Canterbury. The university system is co-ordinated by the University Grants Committee. The Universities had a total of 51,608 students in 1980.

The total expenditure on education out of public funds in 1979-80 was \$NZ1,009,293,000.

*Forestry.*—The output of sawn timber for 1980 was 2,010,000 cubic metres, of which 1,815,000 cubic metres represented exotic varieties, mainly radiata pine.

**Livestock.**—Livestock on farms at June 30, 1980, included 2,969,000 dairy cattle (of which 1,999,000 were dairy cows in milk during season), 5,162,000 beef cattle (of which 1,879,000 were beef breeding cows), and 434,000 pigs. Sheep numbered 68,772,000.

**Minerals.**—Coal output in 1981 was 2,196,000 tonnes. Gold-mining was formerly an important industry, but production has declined greatly in recent years. Other minerals produced on a relatively small scale are silver, iron ore, manganese ore and tungsten. Valuable deposits of natural gas have been discovered in Taranaki, and this has been piped to some main North Island centres. New Zealand has large resources of potential iron ore in the black sands of many of its beaches of which 3,193,700 tonnes were exported in 1980 and steelworks have been built near Auckland to utilize such deposits.

## TRADE

The figures of New Zealand's trade during the year ended June, 1981, were: Imports (c.i.f.) \$NZ6,023,628,000 compared with \$NZ5,172,607,000 in 1980; Exports (f.o.b.) \$NZ6,065,277,000 compared with \$NZ5,152,212,000 in 1980.

### Trade with U.K.

	1980	1981

## THE ISLANDS OF NEW ZEALAND

In addition to North, South, Stewart and Chatham Islands:—

**The Three Kings** (discovered by Tasman on the Feast of the Epiphany), in 34° 9' S. lat. and 172° 8' 8" E. long. (uninhabited). **Auckland Islands**, about 290 miles south of Bluff Harbour, in 50° 32' S. lat. and 166° 13' E. long. The islands contain several good harbours, but are uninhabited. **Campbell Island** (used as a weather station). **Antipodes Group** (40° 41' 15" S. lat. and 178° 43' E. long.) uninhabited. **Bounty Islands** (47° 4' 43" S. lat., 170° 0' 30" E. long.). **Snares Islands and Solander** (uninhabited).

**The Kermadec Group** (population normally 9 or 10) between 29° 10' to 31° 30' S. lat., and 177° 45' to 179° W. long., includes Raoul or Sunday, Macaulay, Curtis Islands, L'Esperance, and some islets. All the inhabitants are government employees at a meteorological station.

**Cook and other Islands**, included in the boundaries of New Zealand since June, 1901, consist of the islands of Rarotonga, Aitutaki, Mangaia, Atiu, Mauke, Mitiaro, Manuae, Takutea, Palmerston, Penrhyn or Tongareva, Manihiki, Rakahanga, Suwarow, Pukapuka or Danger and Nassau. The total population of the group was estimated at 18,000 (Sept. 30, 1980). The chief exports of the Cook Islands are fruit juice, clothing, copra, bananas, citrus fruit and pulp, and pearl shell. The trade is chiefly with New Zealand, Australia, Japan, the U.K. and the U.S.A. The New Zealand Government continues to give financial aid to the Cook Islands.

The High Commissioner of the Cook Islands is employed in a dual role, since he represents both the Queen and the New Zealand Government. Since Aug. 4, 1965, the Islands have enjoyed complete internal self-government, executive power being in the hands of a Cabinet consisting of the Premier and five other ministers. The new Constitution Act was passed by the New Zealand Parliament in November 1964, but did not come into force until it had been endorsed by the 22-member Legislative Assembly of the Cook Islands, elected in April 1965.

The New Zealand citizenship of the Cook Islanders is embodied in the Constitution, and assurances have been given that the changed status of the Islands will in no way affect the consideration of subsidies or the right of free entry into New Zealand for exports from the group.

**Niue**, which is geographically part of Cook Islands, but which is administered separately, had a population on Dec. 31, 1980 of 3,226.

A New Zealand Representative is stationed at Niue, which since October 1974 has been self-governing in free association with New Zealand, which is responsible for external affairs and defence, and continues to give financial aid. Executive power is in the hands of a Premier and a Cabinet of 3 drawn from the Assembly of 20 members.

**Tokelau (or Union Islands).**—A group of atolls (Fakaofu, Nukunono and Atafu) (population 1,572 at Dec. 31, 1981), proclaimed part of New Zealand as from Jan. 1, 1948.

## THE ROSS DEPENDENCY

The *Ross Dependency*, placed under the jurisdiction of New Zealand by Order in Council dated July 30, 1923, and defined as all the islands and territories between 160° E. and 150° W. longitude which are situated south of the 60° S. parallel. The Ross Dependency includes Edward VII Land and portions of Victoria Land. For some years there have been permanent bases in the area, staffed by survey and scientific personnel.

## Antigua and Barbuda

Antigua and Barbuda comprises the islands of Antigua (108 square miles; population, 73,000), Barbuda (62 square miles; population, 1,500) 25 miles north of Antigua, and Redonda (½ square mile; uninhabited) 25 miles south-west of Antigua. Antigua is part of the Leeward Islands in the Eastern Caribbean and lies 17° 3' N. and 61° 48' W. It is distinguished from the rest of the Leeward group by its absence of high hills and forest, and a drier climate than most of the W. Indies. Barbuda, formerly a possession of the Codrington family, is very flat with a large lagoon and well wooded in the north east. Antigua was first settled by the English in 1632, and was granted to Lord Willoughby by Charles II. Tourism is the most important industry, with a good choice of resort hotels mostly built to take advantage of the many fine white sand beaches. There are frequent air services to Canada, U.S.A., the United Kingdom and other Caribbean Islands. Rum and some cotton are exported.

CAPITAL.—ΨSt. John's. Population, 22,000.

FLAG.—Inverted triangle (centred on a red field) divided horizontally into three bands of black over blue over white; rising sun device in gold on black band.

### GOVERNMENT

Antigua became internally self-governing in 1967 and fully independent on Nov. 1, 1981, as a constitutional monarchy with H.M. The Queen as Head of State, represented by the Governor-General. There is a Senate of 17 members and a House of Representatives.

*Governor-General*, Sir Wilfred Ebenezer Jacobs,  
K.C.V.O., O.B.E., Q.C.  
*Prime Minister*, Hon. V. C. Bird, Sr.

### FINANCE AND TRADE

## The Bahamas

The Bahama Islands are an archipelago lying in the Atlantic Ocean between 20° 55'–25° 22' N. Lat.; 72° 35'–79° 35' W. Long. They extend from the coast of Florida on the north-west almost to Haiti on the south-east. The group consists of 700 islands, of which 30 are inhabited and 2,400 cays comprising an area of more than 5,380 square miles. The population, at the census of 1980 was 237,090. The principal islands include: Abaco, Acklins, Andros, Berry Islands, Bimini, Cat Cay, Cat Island, Crooked Island, Eleuthera, Exumas, Grand Bahama, Harbour Island, Inagua, Long Cay, Long Island, Mayaguana, New Providence (on which is located the capital, Nassau), Ragged Island, Rum Cay, San Salvador and Spanish Wells. San Salvador was the first landfall in the New World of Christopher Columbus on October 12, 1492.

The Bahamas were settled by British subjects when the islands were deserted. The ownership of the Bahamas was taken over in 1782 by the Spanish, but the Treaty of Versailles in 1783 restored them to the British.

Tourism is the economic mainstay of the Bahamas, whose salubrious climate and fine beaches attract over 2,000,000 visitors annually.

CAPITAL.—ΨNassau. Population (1980 census), 135,437. Nassau is distant from Liverpool 4,000 miles.

### GOVERNMENT

The Bahamas gained independence on July 10, 1973. There are a Senate of 16 members and an elected House of Assembly of 43 members.

*Governor-General*, His Excellency Sir Gerald Cash,  
G.C.M.G., K.C.V.O., O.B.E.

*Prime Minister*, Rt. Hon. L. O. Pindling.

### INDUSTRIES

Plants for the manufacture of cement and pharmaceuticals and an oil refinery have been established in Freeport, Grand Bahama, where there are also a number of light industries. A rum distillery is in operation in New Providence and a multi-million dollar aragonite operation is in progress off the island of Andros. Other industries are those associated with the treatment of local agriculture and marine produce, salt extraction, handwork, laminated steel pipe, and timber-felling for plywood.

## EDUCATION

Education is compulsory between the ages of 5 and 14. More than 62,000 students are enrolled in Ministry of Education and Independent schools in New Providence and the Family Islands.

## CIVIL AVIATION

Facilities for external traffic are provided by Bahamasair, British Airways, Air Canada, Air Jamaica, Eastern Air Lines, Delta Air Line, National Airlines, International Air Bahama, Sabena, and Mackey International Airline. Kwinair and Trans-Island Airways provide internal schedule and charter flights to the Family Islands, and Miami, Fort Lauderdale, etc. There are daily return flights between Nassau and Miami, several daily flights between Nassau-Palm Beach-Fort Lauderdale and Tampa, and a regular service between Nassau, Kingston and Montego Bay, Jamaica, besides regular trunk communication with London, New York, Chicago, Toronto, Mexico City, Panama City, Montreal, Bermuda, Kingston and Haiti.

## COMMUNICATIONS

There are a General Post Office in Nassau, 4 branch offices in New Providence and 109 sub-offices in the Family Islands. Wireless and telephone services are in operation to all parts of the world. There are 132 radio-telephone channels among the islands.

## Bangladesh

AREA, POPULATION, CLIMATE, ETC.—The People's Republic of Bangladesh consists of the territory which was formerly East Pakistan (the old province of East Bengal and the Sylhet district of Assam), covering an area of 55,126 sq. miles in the region of the Gangetic delta, and has a population, according to the 1981 census, of 89,940,000.

The country is crossed by a network of navigable rivers, including the eastern arms of the Ganges, the Jumna (Brahmaputra) and the Meghna, flowing into the Bay of Bengal. The climate is tropical and monsoon; hot and extremely humid during the summer, and mild and dry during the short winter. The rainfall is heavy, varying from 50 inches to 135 inches in different districts and the bulk of it falls during monsoon season from June to September. The mean temperature during the winter (November to February) is about 20°C. (68°F.) and during the hot season 30°C. (86°F.).

Prior to becoming East Pakistan, the territory had been part of British India. It acceded to Pakistan in October, 1947, and became a Republic on March 23, 1956.

By a proclamation of March 26, 1971, Bangladesh purported to secede from the central government, and a government-in-exile was set up in April in Calcutta. The short war between India and Pakistan, in both the East and the West, and India's overwhelming defeat of the Pakistani Army in the East, brought about a *de facto* secession of the East wing. The Indo-Pakistan war was concluded on December 16, 1971, and Mr. Zulfikar Ali Bhutto became President on December 20. Sheikh Mujib was sworn in as Prime Minister on January 12. Recognition of the new state was accorded swiftly by many countries. Bangladesh was admitted to the Commonwealth on April 18, and to the United Nations in 1974. Pakistan and Bangladesh accorded one another mutual recognition in Feb. 1974 and established diplomatic relations in Jan. 1976.

CAPITAL.—Dacca. Population 3,458,602, according to the results of the 1974 census.

## GOVERNMENT

From 1975 a non-political administration ran the country under martial law, initially under President Mr. Justice A. M. Sayem (the former Chief Justice) who resigned on April 21, 1977, when Major General Ziaur Rahman became President. A Presidential election was held on June 3, 1978, and President Zia was elected by a considerable majority. Parliamentary elections were held in February 1979 and martial law was lifted in April 1979. The 1974 Proclamation of Emergency, which suspended certain sections of the constitution concerned with fundamental rights, was revoked in November 1979. Zia was assassinated in May 1981 in an unsuccessful coup, but the military, led by Lt.-Gen. Ershad, took over in March 1982 and martial law was again imposed.

President, Mr. Justice A. F. M. Ahsanuddin.

## EDUCATION

Primary education is free but not universal. Most primary schools are under government management. The majority of secondary schools and colleges are privately managed, but many receive government grants. There are six Universities: Dacca, Rajshahi, Chittagong, Bangladesh University of Engineering and Technology (at Dacca), Bangladesh Agricultural University (at Mymensingh), and Jahangirnagar (opened in 1970). In 1980 literacy was estimated at 22 per cent of the whole of Bangladesh and 26 per cent of the male population.

## TRANSPORT AND COMMUNICATIONS

Principal seaports with total import and export tonnages for 1978–79 in millions, were:  $\Psi$ Chittagong

4-53, and  $\Psi$ Chalna 1-7. The Bangladesh Shipping Corporation has been set up by the Government to operate the Bangladesh merchant fleet. The principal airports with runway lengths in feet are Dacca-Kurmitola (10,500) and Chittagong (7,500). The international airline, Bangladesh Biman, serves Europe, the Middle East, South and South-East Asia, and an internal network.

There are about 6,880 miles of roads in Bangladesh; 4,724 miles are metalled. There are 2,798 miles of railway track.

Radio Bangladesh is the main national broadcast-ing service. A television service was introduced in 1965.

## PRODUCTION

Bangladesh is the principal producer of raw jute in the world. Other agricultural products are rice, tea, oil seeds, pulses, and sugar cane. The chief industries are jute, cotton, tea, leather, pharmaceuticals, fertilizer, sugar and natural gas.

## AID

Bangladesh is a major recipient of bilateral and multilateral development aid. Aid disbursement in 1980–81 totalled U.S. \$1,147,000,000. Disbursements were composed of U.S. \$194,000,000 in food aid, U.S. \$393,000,000 commodity aid and U.S. \$560,000,000 project aid.

# Barbados

Barbados, the most easterly of the Carribean islands, is situated in latitude 13° 14' N. and longitude 59° 37' W. The island has a total area of 166 square miles, the land rising in a series of tablelands marked by terraces to the highest point, Mt. Hillaby (1,104 ft.). It is nearly 21 miles long by 14 miles broad. Some 46 acres are covered by forest and 68,875 acres are cultivated.

**CLIMATE.**—Barbados has a pleasant climate with annual average temperature 26-5°C. (79-8°F.) and rainfall varying from a yearly average of 75 inches in the high central district to 50 inches in some of the low-lying coastal areas.

**POPULATION.**—The population of Barbados (census 1980) was 248,983.

**CAPITAL.**— $\Psi$ Bridgetown (population, estimated April, 1980, 17,552). Populations of other administrative areas (parishes) in 1980 were: St. Michael (92,401); Christ Church (40,790); St. Philip (18,662); St. George (17,361); St. James (17,255); St. Peter (10,717) and St. Thomas (10,709). Bridgetown, the only port of entry, has a deep-water harbour with berths for 8 ships, opened in 1961. Oil is pumped ashore at Spring Gardens and at an Esso installation on the West Coast.

**FLAG.**—Three vertical stripes, dark blue, gold and dark blue, with trident devices on gold stripe.

**NATIONAL DAY.**—Nov. 30 (Independence Day).

## GOVERNMENT

Barbados was first settled by the British in 1627 and was a Crown Colony from 1652 until it became an independent state within the Commonwealth on November 30, 1966. The Legislature consists of the Governor-General, a Senate and a House of Assembly. The Senate comprises 21 Senators appointed by the Governor-General, of whom 12 are appointed on the advice of the Prime Minister, 2 on the advice of the Leader of the Opposition and 7 by the Governor-General at his discretion to represent religious, economic or social interests in the Island or such other interests as the Governor-General considers ought to be represented. The House of Assembly comprises 27 members elected every five years by adult suffrage. In 1963 the voting age was reduced to 18. The last General Election took place on June 18, 1981 and, as a result, seats in the House of Assembly were distributed as follows: Barbados Labour Party 17; Democratic Labour Party 10.

*Governor-General*, Sir Deighton Ward, G.C.M.G., G.M.V.O. (1976).

## Belize

Belize lies on the east coast of Central America, bounded on the north and north-west by Mexico, and on the west and south by Guatemala. The total area (including offshore islands) is about 8,867 sq. miles, with a length and breadth of 174 miles and 68 miles respectively. The climate is sub-tropical, with a mean annual temperature of 79°F, but is tempered by sea breezes. There are two dry seasons, the main one from March to May and the other (the Maugre Season) from August to September. The country is occasionally affected by hurricanes.

The coastal areas are mostly flat and swampy but the country rises gradually towards the interior. The northern and western districts are hilly, and in the south the Maya Mountains and the Cockscombs form the backbone of the country, reaching a height of 3,800 feet at Victoria Peak. There are 17 principal rivers, of which the Belize River is the most important, but few are navigable for any distance.

The population is 144,857 (1980 census, provisional results), of which the main racial groups are Creoles, Mestizos (Maya-Spanish) and Caribs, plus a number of East Indian and Spanish descent. The races are now heavily inter-mixed. The majority of the population is Christian, about 60 per cent Catholic and most of the remainder Protestant.

The early history of Belize is little known, although the numerous ruins in the area indicate that it was heavily populated by the Maya Indians. The first British settlement was established in 1638 but was subject to repeated attacks by the Spanish, who claimed sovereignty over the area, until the decline of Spanish power in the Americas in the 19th century. In 1862 the area was recognised by Britain as a Colony and called British Honduras. On June 1, 1973 the colony was officially renamed Belize, and was granted independence on September 21, 1981. The long-standing territorial dispute with Guatemala, which had delayed independence earlier, remains unresolved despite efforts to reach a settlement.

CAPITAL.—Belmopan (estimated population, Dec. 31, 1975, 4,000). The largest city and the former capital is ΨBelize City (population, estimated, 1978 50,000), which was badly damaged by a hurricane in October 1961. Other towns are ΨCorozal (6,000), San Ignacio (6,000), Dangriga (9,000), Orange Walk (7,000), Punta Jarda (2,700).

### GOVERNMENT

The Queen is Head of State, represented in Belize by a Governor-General, who is a citizen of the

country, appointed in consultation with the Prime Minister of Belize. There is a National Assembly, comprising a House of Representatives (29 members

elected for 5 years) and a Senate (8 members appointed by the Governor-General). Executive power is vested in the Cabinet, which is responsible to the National Assembly.

*Governor-General*, Dr. Minita Alvira Gordon.  
*Prime Minister*, Rt. Hon. George Price.

#### EDUCATION

Education is compulsory from 6 to 14 years of age. In 1980 free primary education was provided by 21 state schools and 180 grant-aided schools (usually run by the churches), with a total enrolment of 35,000. Secondary education was provided by 5 state and 17 grant-aided schools with an enrolment of over 6,000. There are 4 post-secondary institutions, but no universities although the Government offers scholarships for students to go abroad.

#### ECONOMY

About 42 per cent of the population is engaged in agriculture. Corn (maize), rice, red kidney beans, root crops and fruit are the main food crops, although main agricultural exports are sugar, bananas and citrus products. The country is more or less self-sufficient in beef, pork and poultry, but processed meat and dairy products are imported. About 25 per cent of timber production (mostly mahogany) is exported, and there is a large U.S. market for lobster, conch and scale fish. Tourism is also a valuable source of income.

#### FINANCE

Revenue .....	\$62,624,655	\$74,225,730
Expenditure .....	62,624,655	74,225,730
Public Debt, \$4,647,667.		

The Canadian Government has made a loan of \$8,000,000 for modern water and sewerage systems in Belize City.

#### COMMUNICATIONS

There is a Government-operated radio service but no television service in the country. An automatic telephone service covers the whole country; internal services are handled by the Belize Telecommunication Authority and external services by Cable and Wireless Ltd. through the earth satellite system (opened 1978).

The principal airport is at Belize City and various airlines operate international flights to U.S. and other Central American states. The main port is also Belize City, where construction of deep water quays was recently completed. There are 1,865 miles of road, including four main highways, but there is no railway system.

## Botswana

Botswana (formerly the British Protectorate of Bechuanaland) lies between latitudes 18° and 26° S. and longitudes 20° and 28° W. and is bounded by the Cape and Transvaal Provinces of South Africa on the south and east, by Zimbabwe and the Zambesi and Chobe (Linyanti) Rivers on the north and north-east and by South West Africa on the west. Botswana extends some 500 miles by 550 miles, with a total area of 220,000 square miles. The climate of the country is generally sub-tropical, but varies considerably with latitude and altitude. A plateau at a height of about 4,000 feet divides Botswana into two main topographical regions. To the east of the plateau streams flow into the Marico, Notwani and Limpopo Rivers; to the west lies a flat region comprising the Kgalagadi Desert, the Okavango Swamps and the Northern State Lands area. The Kgalagadi Desert is a level tract closely covered with thorn bush and grass, extending 300 miles to the west and bounded by the Makgadikgadi salt pans and the Boteti River in the north. Its rainfall varies from 20 inches in the east to 9 inches in the south-west. The Okavango Swamps, 6,500 square miles in area, lie in the remote north-western corner of Botswana, and, apart from the Limpopo and Chobe Rivers, are the only source of permanent surface water in the country. North of the Boteti River and the Makgadikgadi depression the Kgalagadi Desert gives way to forest and dense bush of the Northern State Lands. Large areas of the country support only herds of game. Elephant numbers have been estimated at 15–30,000.

**POPULATION.**—Botswana has an estimated population (1981) of about 937,000. The eight principal Botswana tribes are Bakgatla, Bakwena, Bangwaketse, Bamalete, Bamangwato, Barolong, Batawana and Batlokwa.

**CAPITAL.**—Gaborone, estimated population 60,000. Other business centres are Francistown (31,000), Lobatse (19,000), and Selebi-Phikwe (30,000).

**FLAG.**—Horizontal bands of blue, white, blue, with a black stripe on the white band.

#### GOVERNMENT

On September 30, 1966, Bechuanaland became a Republic within the Commonwealth under the name Botswana. The President of Botswana is Head of State and appoints as Vice-President a member of the National Assembly who is his principal assistant and leader of Government business in the National Assembly. The Assembly consists of the President, 32 members elected on a basis of universal adult suffrage, 4 specially elected members, the Attorney-General (non-voting) and the Speaker. There is also a House of Chiefs.

### AGRICULTURE

Botswana is a predominantly pastoral country, with a national herd of over 3 million cattle and over 2 million smallstock. Eighty per cent of agricultural income is derived from cattle. The country is embarking on a Tribal Grazing Land Programme which will encourage the adoption of modern ranching techniques. Measures are being taken to combat soil erosion and to increase livestock and crop production.

### MINERAL PRODUCTION

Mineral extraction and processing has recently become a major source of income for the country, following the opening of large mines for diamonds and copper-nickel. Large deposits of coal have been discovered, and are being mined on a small scale; further development, including coal exports, is anticipated. Much of the country has yet to be fully prospected. Manufacturing industry is expected to grow slowly in the future, as communications improve.

### EDUCATION

In 1981 there were 415 primary schools with an enrolment of 179,564 and 38 secondary schools with 19,129 enrolments. There were also three teacher

training establishments with an enrolment of 844 and one Polytechnic with 193 students and the University College of Botswana with 928 undergraduates. The principal languages in use in the country are English and Setswana.

### COMMUNICATIONS

The railway from Kimberley and Mafikeng in South Africa to Bulawayo in Zimbabwe passes through eastern Botswana. The main roads in the country are the north-south road, which closely follows the railway, and the road running east-west that links Francistown and Maun. A new road from Nata to Kazungula provides a direct link to Zambia from Botswana. Air services are provided on a scheduled basis between the main towns, linking with services from South Africa, Zambia and Zimbabwe.

## Cyprus

**AREA, CLIMATE AND POPULATION.**—Cyprus with an area of 3,572 square miles, is the third largest island in the Mediterranean Sea, exceeded in size by Sicily and Sardinia. Its greatest length is 140 miles and greatest breadth 60 miles, situated at latitude 35°N. and longitude 33° 30'E. It is about 40 miles distant from the nearest point of Asia Minor, 60 miles from Syria and 240 miles from Port Said. The main topographical features of Cyprus are: (a) A narrow limestone range of mountains extending in an unbroken chain for nearly 100 miles along the north coast, at an average height of 2,000 feet; (b) A broad central plain, running for some 60 miles from west to east; (c) An extensive igneous massif rising to over 6,000 feet in the west of the island; and (d) Narrow coastal plains between the mountains and the sea. The rivers are little more than mountain torrents. There is no permanent stream of any volume.

Cyprus has a somewhat intense Mediterranean climate with a hot dry summer and a variable warm winter, while the intermediate seasons are short and transitional. The winter is generally sunny with frequent cold spells between the beginning of December and end of February. The rainy season lasts from October to April with average total rainfall of about 20 inches. July and August are the warmest months.

In 1978 the estimated population was 618,300. There are two major communities, Greek Cypriots (78 per cent) and Turkish Cypriots (18.2 per cent); and minorities of Armenians, Maronites and others. The population growth in 1978 was 0.7 per cent. The birth rate in 1978 was estimated to be 19.3 and the death rate 8.4 per thousand.

**CAPITAL.**—Nicosia, near the centre of the island, with a population of 233,500 (1974 estimate); the other principal towns are ΨLimassol, ΨFamagusta, ΨLarnaca, Paphos and Kyrenia. Nicosia is distant from London 2,028 miles by air.

**FLAG.**—Gold map of Cyprus on a white ground, surmounting crossed olive branches (green).

### GOVERNMENT

Cyprus passed under British administration from 1878. Cyprus was formally annexed to Great Britain

on Nov. 5, 1914, on the outbreak of war with Turkey. From 1925 to 1960 it was a Crown Colony administered by a Governor, assisted by an Executive Council and also for a time by a partly-elected

Legislative Council. Following the launching in April 1955 of an armed campaign by EOKA in support of ENOSIS (union with Greece), a state of emergency was declared in November, 1955, which lasted for four years. Following a meeting at Zürich between the Prime Ministers of Greece and Turkey, a conference was held in London and an agreement was signed on February 19, 1959, between the United Kingdom, Greece, Turkey and the Greek and Turkish Cypriots which provided that Cyprus would be an independent Republic.

#### CONSTITUTION

Under the Cyprus Act, 1960, the island became an independent sovereign republic on August 16, 1960. The constitution provided for a Greek Cypriot President and a Turkish Cypriot Vice-President elected for a five-year term by the Greek and Turkish communities respectively. The House of Representatives, elected for five years by universal suffrage of each community separately, was to consist of 35 Greek and 15 Turkish members. The 1960 Constitution proved unworkable in practice and led to intercommunal troubles. The mandate of the U.N. Peace Keeping Force in Cyprus (UNFICYP) was last renewed on June 25, 1982.

On July 15, 1974, mainland Greek officers of the Greek Cypriot National Guard launched a *coup d'état* against President Makarios and installed a former E.O.K.A. member, Nikos Sampson, in his place. Turkey reserved to itself the right to maintain constitutional order and the independence and territorial integrity of the island, invaded Northern Cyprus and occupied over a third of the island. In 1975 a "Turkish Federated State of Cyprus" under Mr. Rauf Denktaş was declared in this area. This is not recognized by Her Majesty's Government.

Since 1974 attempts to reach a settlement have focused on the procedure of intercommunal talks under the auspices of the U.N. Until September 1980 these talks had taken place only intermittently; but since then there have been regular weekly meetings.

A general election was held for the Greek House of Representatives on May 24, 1981, resulting in the parties gaining the following number of seats: AKEL (Communist) 12; Democratic Rally 12; Democratic Party (Centre) 8; EDEK (Socialist) 3.

*President, Spyros Kyprianou, elected Feb. 28, 1978.*

#### BRITISH SOVEREIGN AREAS

The United Kingdom retained full sovereignty and jurisdiction over two areas of 99 square miles in all—Akrotiri—Episkopi—Paramali and Dhekelia—Pergamos—Ayios Nicolaos—Xylophagou—and use of roads and other facilities. The British Administrator of these areas is appointed by the Queen and is responsible to the Secretary of State for Defence.

#### ECONOMY

Following a period of sustained growth in the years 1975–79 the economy is now beginning to feel the impact of successive oil-price increases, the inflationary effect on manufactured goods from the main supplier markets and recession in many of its export markets. Nevertheless, growth continues at a modest rate. The latest economic plan (1982–86) states the Government's intention to make the island a services centre for the Middle East.

Agriculture continues to occupy a prime position in the Cyprus economy, the main products being citrus fruits, grapes and wines, potatoes and other vegetables. Surplus labour has been absorbed by the expanding manufacturing, construction and tourist industries. In 1980 receipts from tourism were valued at C£70.5 million. Plans to establish an "industrial free zone" to attract new foreign investment for exportable commodities are in hand.

Britain is still the country's most important trading partner, taking some 18.8 per cent of its exports in 1980 and supplying 14.2 per cent of its imports. Cyprus is seeking to diversify its export markets and now sells more than half its exports to Middle East markets. The trading account nevertheless continues in deficit and is offset by invisible earnings—mainly from tourism, foreign aid and development loans, capital inflows and income derived from the Sovereign Base Areas and United Nations personnel.

## Dominica

Dominica, the loftiest of the Lesser Antilles, was transferred from the Leeward to the Windward Group on Jan. 1, 1940. It is situated between 15° 20' and 15° 45' N. lat. and 61° 13' and 61° 30' W. long., 95 miles S. of

Antigua, and is about 29 miles long and 15 broad comprising an area of 290 sq. miles, of which about 41,000 acres are under cultivation. The island is of volcanic origin and very mountainous and picturesque, abounding in streams fairly well stocked with fish, and the soil is very fertile. The temperature varies, according to the altitude, from 55° to 85°F. The climate is healthy, and during the winter months is very pleasant. The exports consist almost entirely of agricultural produce, principally bananas, lime oil, lime juice, oranges, bay oil, cocoa, copra, ground provisions, grapefruits, coconut oil and washing soap. Population (1981 census, 74,069). The principal towns are Roseau, on the south-west coast, population, 8,346 and Portsmouth, population, 2,220.

#### GOVERNMENT

On November 3, 1978, Dominica became an independent republic governed by a President and democratically elected Parliament. On independence the island took the name of Commonwealth of Dominica.

## Fiji

This is a group of some 840 islands (of which about 100 are inhabited) in the South Pacific Ocean, about 1,100 miles north of New Zealand. The gross area of the group, which extends 300 miles from east to west, and 300 north to south, between 15° 45'—21° 10' S. lat. and 176° E.—178° W. long. is 7,072 square miles. The International Date Line has been diverted to the east of the island group. Many of the islands are of volcanic origin, with lofty mountains, and well wooded. The principal are Viti Levu, Vanua Levu, Taveuni and Kandavu. The climate is tropical, without extremes of heat and temperatures rarely exceed 32° C. and seldom fall below 15° C.

The population (1980) was 634,151, of which about 44 per cent are indigenous Fijians and about 50% Indians. CAPITAL.—Suva, in the island of Viti Levu. Population 66,018.

#### GOVERNMENT

Fiji was a British colony from 1874 until October 10, 1970, when it became an independent state and a member of the Commonwealth. Under the Constitution there is a Governor-General appointed by the Queen. An elected House of Representatives (52 members) consists of 12 Fijians, 12 Indians and 3 General members elected on Communal rolls; and 10 Fijians, 10 Indians and 5 General members elected on National rolls. General members are in the main representatives of the European, part-European and Chinese communities.

There is a Senate of 22 members, 8 nominated by the Great Council of Chiefs, 7 by the Prime Minister, 6 by the Leader of the Opposition and one by the Council of Rotuma, an island dependency 400 miles from Suva, discovered in 1879 and annexed in 1881.

The chief imports are machinery, foodstuffs, petroleum products, chemicals, beverages, tobacco and manufactured articles. Chief exports are sugar, coconut oil, gold, molasses, ginger, lumber and canned fish. The main industries are the processing of sugar and copra, mining and light manufacturing industries; tourism is also an important source of revenue.

#### COMMUNICATIONS

Fiji is approximately 11,000 miles from the United Kingdom; transit time from London via Panama Canal about 28–30 days. Air connections are provided between the United Kingdom and Fiji via Canada, United States of America, Australia and the Middle

East. Flights connecting with Fiji operate to New Zealand, Australia, U.S.A., Vancouver, Honolulu, Tahiti, Pago Pago, Noumea and Tokyo. Fiji is one of the main aerial crossroads in the Pacific.

Air Pacific Ltd. (previously Fiji Airways Ltd.) is based at Nausori Airport near Suva and operates scheduled domestic services within the Fiji islands and from Suva provides services to Tonga, Western Samoa, Vanuatu (Vila); the Solomon Islands (Honiara) and Kiribati. Fiji Air Services Ltd. operates charter flights within the Fiji group of islands and South Pacific and provides scheduled services within the Fiji group.

Fiji has three ports of entry, at Suva, Lautoka and Levuka.

## The Gambia

The Gambia River of West Africa was discovered by the Portuguese in 1447; and in 1588, the year of the Spanish Armada, Queen Elizabeth I, being then at war with Spain and Portugal, gave a charter to a British Company to trade with the Gambia, and as early as 1618 an effort to do so was made, but it was not successful. In 1686 a fort was built upon a rocky island, and, in honour of the new King, was named Fort James; but the English merchants had formidable rivals in the Portuguese and French, and it was not until 1783 that the river was recognized, by the *Treaty of Versailles*, as British. The Colony had no regular political institutions until 1807, when it was put under the Government of Sierra Leone. The Colony of the Gambia was created in 1843, and was constituted a separate government in 1888. It consists of a narrow strip of land, estimated at 4,003 sq. miles, lying on both sides of the River Gambia to a distance of about 200 miles, mainly between 13° 15'–13° 45' N. and 13° 45'–13° 65' W. The river is navigable to ocean-going vessels for 150 miles and to river steamers up to 300 miles from its mouth. The capital and chief port, Banjul, formerly Bathurst, is situated at the mouth of the river. The present population of the country is estimated at 620,000. Except during the rainy season from June to October, when it sometimes becomes uncomfortably humid, Banjul's climate is very pleasant, a factor which underlies the recent rapid growth of tourism. Rainfall, 30–60 inches year.

CAPITAL.—ΨBanjul. Population (estimated), 50,000.

FLAG.—Horizontal stripes of red, blue and green, separated by narrow white stripes.

#### GOVERNMENT

On February 18, 1965, the Gambia became an independent monarchy within the Commonwealth, with the Queen as Head of State. On April 24, 1970, following a referendum, the constitution was changed to that of a Republic (within the Commonwealth) with an executive President. The Gambia's relationship with Senegal has always been an important factor in political and economic policy. Moves towards a closer association were accelerated after an abortive coup in The Gambia in July 1981 was put down with the help of Senegalese troops. In Feb. 1982 the Senegambia Confederation was formerly instituted, based on certain joint institutions and integration of policies, but each country remains sovereign and independent.

The House of Representatives, which elects its own Speaker, consists of 32 elected members, 4 elected Chief Representatives, 3 nominated members and the Attorney General (who is also a nominated member with voting rights). The Vice-President, who is the Government leader in the House, and other Ministers are appointed by the President. The latter's tenure of office is co-terminous with the life of a Parliament. Parliament is elected for five years, the last elections being held in May 1982. The state of the parties for elected members in the House of Representatives in 1982 was: PPP (People's Progressive Party) 27; NCP (National Convention Party) 3, Independents 5.

Banjul is 2,600 miles from London. There are three direct air services weekly from Gatwick and others via Dakar and Freetown. There are no regular passenger or mails service by sea. There is an international aerodrome at Yundum, 17 miles from Banjul. Internal communication is by road and river. There are 1,400 miles of motor road, including some 470 miles of bituminous surface roads, and 470

miles of gravel roads. There are two broadcasting stations and a V.H.F. telephone service linking Banjul with the principal towns in the provinces. There is no television service.

#### EDUCATION

Primary school enrolment in 1980-81 was 43,500 at 148 schools. There are 23 secondary high schools and technical colleges with a total enrolment of 9,000 students. Two High Schools provide 'A' level education. Gambia College provides post-secondary courses in education and agriculture, and there are four vocational training institutions with a total enrolment of 317.

#### PRODUCTION

Agriculture accounts for 30 per cent of production and 85 per cent of the population depend upon it for their livelihood. The chief product, groundnuts, is also the most important export item, being 90 per cent of all exports. Other crops are rice, millet, sorghum, maize and cotton. Fishing and livestock industries are being developed. Thirty per cent of the country's basic food requirements are imported. The Gambia has some generally low quality deposits of minerals but none of these are exploited commercially. Manufactures are limited to groundnut processing, minor steel and metal fabrications,

paints, furniture and bottling. Tourism is being developed but is not yet economically significant. The Gambia's first brewery and soft drinks bottling factory opened in 1977.

## Ghana

Ghana (formerly the British Colony of the Gold Coast) is situated on the Gulf of Guinea, between 3° 07' W. long. and 1° 14' E. long. (about 334 miles), and extends 441 miles north from Cape Three Points (4° 45' N.) to 11° 11' N. It is bounded on the north by the Republic of Upper Volta, on the west by the Republic of Ivory Coast, on the east by the Republic of Togo, and on the south by the Atlantic Ocean. Although a tropical country, Ghana is cooler than many countries within similar latitudes.

*AREA AND POPULATION.*—Ghana has a total area of 92,100 sq. miles with a total population (Census of 1970) of 8,545,561, some 27 per cent more than the population at the Census of 1960. Almost all Ghanaians are Sudanese Negroes, although Hamitic strains are common in Northern Ghana.

*CAPITAL.*—ACCRA. Population of the Capital District (including Accra Tema City Council area, and Accra Rural area) (provisional, 1970) 851,614. Other towns are Kumasi, Tamale, Sekondi-Takoradi, Cape Coast, Sunyani, Ho, Koforidua, Tarkwa and Winneba. Accra is 3,920 miles by sea from Liverpool, transit 12 to 30 days.

*FLAG.*—Equal horizontal bands of red over yellow over green; five-point black star on gold stripe.

*INDEPENDENCE DAY.*—March 6.

#### GOVERNMENT

The Gold Coast region of West Africa was first visited by European traders in the fifteenth century. The constituent parts of the State came under British administration at various times, the original Gold Coast Colony (the coastal and Southern areas) being first constituted in 1874; Ashanti in 1901; and the Northern Territories Protectorate in 1901. The territory of Trans-Volta-Togoland, part of the former German colony of Togo, was mandated to Britain by the League of Nations after the First World War, and remained under British administration as a United Nations Trusteeship after the Second World War. After a plebiscite in May, 1956, under the auspices of the United Nations, the territory was integrated with the Gold Coast Colony.

The former Gold Coast Colony and associated territories became the independent state of Ghana and a member of the British Commonwealth on March 6, 1957, under the *Ghana Independence Act, 1957*, and adopted a Republican constitution on July 1, 1960.

A *coup* in June 1979 led to the formation of an Armed Forces Revolutionary Council chaired by

Flt.-Lt. Jerry Rawlings. Civilian rule was restored in Sept. 1979 but overthrown on Dec. 31, 1981, when another *coup* brought back into power Flt.-Lt. Rawlings.

#### PRODUCTION, ETC.

*Agriculture.*—Agriculture forms the basis of Ghana's economy, employing 70 per cent. of the

working population. Crops of the *Forest Zone* include cocoa, which is the largest single source of revenue, rice and a variety of other foodstuff crops grown on mixed-crop farms. Fruits such as avocado pears, oranges and pineapples are grown. Cassava is the most important crop of the *Coastal Savannas Zone*, which consists of the Accra Plains (1,400 sq. miles) and Ho-Keta Plains (2,600 sq. miles) of the lower Volta area. Fishing is important in coastal areas and in the Volta itself. Production of pulses such as groundnuts, tiger nuts and cowpeas is widespread. Near the Togo border oil palms, yams, maize, cassava, fruit and vegetables are produced. Livestock is raised in the uncultivated areas. The *Northern Savanna Zone* is Ghana's principal cattle rearing area and other livestock production there is important for home consumption. Corn and millet crops are produced in the far north and maize, yams, rice and groundnut crops in more southerly parts of the Zone.

A State Farms Corporation, established in 1963 to further larger scale farming enterprise, has more than 100 farms in various parts of the country and operates from eight regional centres.

**Fisheries.**—Some 150,000 of the country's population are engaged in fisheries which now produce about 180,000 tons annually. Ghana's estimated annual requirements is at least 250,000 tons and there are considerable imports of fish products. About 80 per cent of home supply is obtained from sea fisheries, but production from the Volta Lake and other inland fisheries is increasing rapidly thanks to greatly increased fish population.

**Mineral Production.**—The area within a 60 mile radius of Dunkwa produces 90 per cent of Ghana's mineral exports. Manganese production from Nsuta ranks among the world's highest and gold, industrial diamonds and bauxite are also produced. Some 30,000 persons are employed by the mining companies.

**Manufactures.**—Examples of the small-scale traditional industries are tailoring, goldsmithing and carpentry. Priority has been given in recent years to the establishment of a number of "Pioneer Industries" including sawmill furniture, prefabricated doors, plywood, vehicle assembly, cigarettes, boatbuilding, refrigerator assembly, food processing (biscuits, edible oils, confectionery, brewing, etc.), cotton textiles, clothing, footwear, printing and other light industries. A modern industrial complex is growing in the Accra-Tema area.

**Volta River Project.**—The Volta River is formed at the confluence of the Black and White Voltas, both of which rise in the neighbouring republic of Upper

Volta. With its tributaries the Volta drains an area of 150,000 sq. miles of which 61,000 sq. miles lie in Ghana. The Volta Dam at Akosombo was inaugurated in January, 1966, to generate hydro-electric power for the processing of bauxite and feed a power transmission network for the Accra-Kumasi-Takoradi area. Electricity is now also sent to Togo and Dahomey. The lake raised by the Volta Dam has a maximum area of 3,275 sq. miles, a length of 250 miles and a shore line of 4,500 miles. A water transport service from Akosombo to various points on the lake has been instituted.

#### COMMUNICATIONS

There are four aerodromes in Ghana, situated at Accra, Takoradi, Kumasi and Tamale. Accra Airport is an international airport and is the terminus for services from the United Kingdom, the Northern, Ashanti and Western Regions.

Railway communications consist of a main line running from Takoradi to Kumasi thence to Accra, a distance of 357 miles. From Huni Valley on the Kumasi line north of Takoradi a line runs to Kotoku on the railway about 17 miles north of Accra. Branch lines run to Sekondi, Prestea, Kade, Awaso and Tema. Total railway mileage open to traffic is 600. There are 20,245 miles of motorable roads, of which 2,335 are bitumen.

Takoradi Harbour consists of two breakwaters enclosing a water area of 220 acres. Seven quay berths are situated on the lee breakwater—five are used for the handling of general cargo, one is leased specially for manganese exports and one is used for shallow draft colliers. Tema Harbour—Africa's largest artificial harbour and a prospective major port of the South Atlantic—was opened in 1962. There are 10 berths for larger ocean going vessels and the harbour also has the largest dry dock on the West African coast. An oil berth has also been built to serve the Ghaip refinery which has been constructed at Tema.

## Grenada

Grenada is situated between the parallels of 12° 13'–11° 58' N. lat. and 61° 20'–61° 35' W. long., and is about 21 miles in length and 12 miles in breadth; it is about 80 miles north of Trinidad, 68 miles S.S.W. of St. Vincent, and about 120 miles S.W. of Barbados. Area, including the Grenada Grenadines about 133 square miles; estimated population (including some of the Grenadines), 109,200 (1980). The country is mountainous and very picturesque, and the climate is healthy. Grenada was discovered by Columbus in 1498, and named Conception. It was originally colonized by the French, and was ceded to Great Britain by the Treaty of Versailles in 1783. It became an Associated State in 1967 and an independent nation on Feb. 7, 1974.

The soil is very fertile, and cocoa, bananas, nutmeg and other spices, coconuts, sugar cane and fruit are grown. The imports are chiefly dry goods, wheat, flour, dried fish and rice.

†St. George's (population 7,500) on the southwest coast, is the chief town, and possesses a good harbour.

#### GOVERNMENT

The government of Sir Eric Gairy was overthrown on March 13, 1979. A People's Revolutionary Government was set up, headed by Mr. Maurice Bishop, one of the leaders of the revolution. The P.R.G.

consists of seven ministers and seven deputy ministers called secretaries.

*Governor-General*, Sir Paul Scoon, G.C.M.G., O.B.E. (1978).

*Premier*, Maurice Bishop.

## TRADE

Total value of imports in 1980 was EC\$135.9 million. Principal domestic exports for 1980 were cocoa (EC\$18m), nutmeg (EC\$8.6m), mace (EC\$1.8m) and bananas (EC\$10.5m).

## Guyana

GUYANA, the former colony of British Guiana, which includes the Counties of Demerara, Essequibo and Berbice, is situated on the north-east coast of South America, bordering on Venezuela, Brazil and Suriname. It has a total area of 83,000 square miles with a seaboard of about 270 miles. The population at December 31, 1980, was estimated at 795,000. There are three distinct areas. (1) A narrow alluvial coastal belt 10 to 40 miles deep, the eastern part of which is intensively cultivated and contains some 90 per cent of the population. Much of this is below the level of the sea and is drained and irrigated by an intricate system of canals constructed by the Dutch. (2) A mountainous area of dense rain forest behind the coastland, still partly unexplored, which reaches its highest point at *Mount Roraima* (9,000 ft.) on the junction of the Guyana-Brazil-Venezuela borders. (3) The open savannah country of the Rupununi in the south-west where cattle ranching is practised and oil deposits have been discovered.

The entire country is intersected by numerous large rivers, though these are of limited navigational use because of rapids and waterfalls, the most notable of which are the *Kaieteur Fall* on the Potaro River with a sheer drop of 741 ft., the *Horse Shoe Falls* on the Essequibo and the *Marina Fall* on the Ipohe River.

The seasons are divided into dry and wet, the two dry seasons normally lasting from the middle of February to the end of April, and from the middle of August to the end of November. The climate on the coast is pleasant and healthy for the greater part of the year. In the Aug.-Oct. period it is hot. The mean temperature is 80.3°, its extremes during 87 years ranging between 68° and 96°, but these are very rare, the usual extremes being 70° and 90°. In the interior the mean temperature is higher—82.6°, its extremes ranging from 66° to 103°. The yearly rainfall is subject to marked variation, its mean on the coast lands averaging about 90 inches with an average of 58 inches on the savannahs. The daily average sunshine is nearly 7 hours and, except when rain is falling, dull and cloudy weather is rarely experienced.

CAPITAL.—ΨGeorgetown. Estimated population, including environs, 185,000. Other towns are: Linden (population 29,000); ΨNew Amsterdam (population 23,000); Corriverton (population 17,000).

FLAG.—Red triangle with black border, pointing from hoist to fly, on a yellow triangle with white border, all on a green field.

## GOVERNMENT

Guyana became independent on May 26, 1966, with a Governor-General appointed by the Queen. It became a Cooperative Republic on Feb. 23, 1970, and Mr. Arthur Chung was elected first President on March 17, 1970, for a term of six years. The electoral system is a Proportional Representation or "single list" system, each voter casting his vote for a party list of candidates. The voting age is 18. Under the Independence Constitution the Prime Minister and Cabinet were responsible to a National Assembly of 53 members elected by secret ballot every 5 years. The last election under this Constitution was in 1973 and the term of that Assembly was later extended to October 1980.

On April 10, 1978, the Constitution Amendment Bill was passed in the National Assembly. The Bill sought to amend Article 73 of the existing Constitution so as to remove the requirement for the holding of a Referendum and to enable provisions of that kind to be amended by a Bill which has been supported by the vote of not less than two-thirds of all the elected members of the National Assembly. After the Constitution had been so amended it would be competent for the Assembly to repeal the existing Constitution and to replace it by another without the necessity for a Referendum. A Referendum permitting the Assembly so to act was held on July 10, 1978. The new Constitution was passed into law in February 1980 and promulgated in October 1980. It provides for an Executive President, a National Assembly of 65 members, and also for a National Congress of Local Democratic Organs responsible for local government. The Supreme Congress of the People consists of all members of these two assemblies.

## JUDICATURE

The Supreme Court of Judicature consists of a Court of Appeal and a High Court. There are also Courts of Summary Jurisdiction. The Court of Appeal consists of the Chancellor as President, the Chief Justice and such number of Justices of Appeal as may be prescribed by Parliament.

The High Court consists of the Chief Justice, as President, and nine Puisne Judges. It is a court with unlimited jurisdiction in civil matters and exercises exclusive jurisdiction in probate, divorce and admiralty, and certain other matters. It also sits as a Full Court of the High Court of the Supreme Court of Judicature comprising not less than 2 Puisne Judges and then its jurisdiction is almost entirely appellate.

## PRODUCTION, ETC.

Much of the country is forest. The cultivated portion (about 600,000 acres, of which 107,182 are under sugar-cane and 316,950 in rice) is largely confined to the narrow coastal alluvial belt. There are extensive deposits of gold, diamonds, bauxite and mica.

## COMMUNICATIONS

The Georgetown Automatic Exchange had 11,952 direct extension lines in 1977, involving 20,741 telephones. Twenty-four subsidiary exchanges provided a total of 4,141 direct exchange lines with 6,485 telephone stations. Thirty-nine land-line telegram stations are maintained at coastal post offices and telegraph stations in the interior, providing communications with the coast. In Georgetown a central radio station, operated by the Guyana Telecommunication Corporation, provides radio-telephone communication with 10 branches, 201 operated by other Government departments, and 190 by private concerns. Overseas telephone, telex and telegraph services are provided by the Guyana Telecommunications Corporation. In 1982 there were 58 district post offices at which all classes of postal business were transacted, 60 postal agencies and 63 telegraph

stations. There are two state-owned broadcasting stations operated on a commercial basis. The Guyana Airways Corporation provides internal and international air services.

## EDUCATION

In September 1976 Government assumed total control of the education system and made education free from nursery to university level. At Aug. 1981 there were 374 nursery schools with 27,955 pupils which is 65 per cent of the 3 years 9 months to 5 years 9 months age-group. Enrolment in the 425 primary schools stands at 130,832, representing 92 per cent of the 6–12 age group. There were 75,325 students in secondary schools. Government trains teachers for primary and secondary schools at its own institutions.

In 1979–80, 1,518 students were enrolled at the University of Guyana in degree programmes and certificate and diploma courses in the Faculties of Arts, Social Science, Natural Science, Technology, Education and Agriculture. In 1980, 417 students graduated.

There are five technical and vocational institutions: Georgetown and New Amsterdam Technical Institutes, Carnegie and Fredericks Schools of Home Economics and the Guyana Industrial Training Centre. Besides these there are 36 Home Economics and Industrial Arts Centres in various parts of the country and many primary and secondary schools have departments attached to them. There are also a number of technical and vocational institutions not under the aegis of the Ministry of Education.

It was estimated that in 1980 the Government spent G\$107.2 million on education, of which G\$14.3 million was spent on capital works.

## Trade with U.K.

## CONSTITUTION

The Constitution of India came into force on January 26, 1950. The Constitution provides for a single and uniform citizenship for the whole of India, with the right to vote for every adult citizen.

## EXECUTIVE

The executive of the Indian Union consists of the President, the Vice-President and the Council of Ministers. The President is elected for five years by an electoral college consisting of all elected members of Parliament and of the various State Legislative Assemblies. The Vice-President is also elected for five years by members of the two Houses of Parliament. As head of the State the President exercises his functions with the aid and advice of the Council of Ministers headed by the Prime Minister. The Council is collectively responsible to the House of the People.

## LEGISLATURE

The Legislature of the Union is called Parliament. It consists of two Houses known as the Council of States (*Rajya Sabha*) and the House of the People (*Lok Sabha*). The Council of States consists of not more than 250 members, of whom 12, having special knowledge or practical experience in literature, science, art or social service, are nominated by the President and the rest are indirectly elected representatives of the State and Union Territories. The Council is not subject to dissolution, one-third of its members retiring every two years. The House of the People at present consists of 524 members. Of these, 506 are directly elected from 21 States and 15 from eight Union Territories. One member is nominated by the President to represent the Union Territory of Arunachal Pradesh and two to represent the Anglo-Indian community. The House has a maximum duration of five years.

Subject to the provisions of the Constitution, the Union Parliament can make laws for the whole of India and the State legislatures for their respective units. The distribution of legislative powers is governed by a system of three lists—the Union, the State and the Concurrent—under which all legislative activity has been mapped out. The Union Parliament has exclusive powers to legislate on 97 subjects of all-India importance, such as defence, foreign affairs, communications, railways, currency and banking, insurance, customs duties, etc. The State List contains 65 headings, e.g. public order and police, justice, education, public health, local government, agriculture, etc. The Concurrent List contains 48 subjects of common interest to the Union and the States.

## OFFICIAL LANGUAGE

The Constitution (Art. 343) provides that the official language of the Union shall be Hindi in the Devanagari script and the form of numerals for official purposes shall be the international form of Indian numerals. English, which was originally to continue as the official language for a period of 55 years from the commencement of the Constitution

(January 1950), will, under the Official Language Act, 1963, as amended, continue to be used for all the official purposes for which it was used before Jan. 26, 1965, and also for the transaction of business in Parliament.

## THE JUDICATURE

The Supreme Court of India, consisting of a Chief Justice and not more than 13 other judges, is the highest court in respect of constitutional matters. It is also the final Court of Appeal in the country.

## DEFENCE

The supreme command of the armed forces is vested in the President. Administrative and operational control resides in the Army, Navy and Air Headquarters under the supervision of the Ministry of Defence.

The Army has five Commands, Southern, Eastern, Northern, Western and Central.

The *Indian Navy* consists of an aircraft-carrier, two cruisers, a number of frigate squadrons, including some of the latest type of anti-submarine and anti-aircraft frigates, a squadron of anti-submarine patrol vessels, a minesweeping squadron, conventional type submarines, a submarine depot ship and fast boats carrying surface-to-surface guided missiles. A Naval aviation wing and a hydrographic office have also been set up. India has started building her own naval craft.

The *Indian Air Force* is organized in five major formations, the Western, Eastern and Central Air Commands, and the Training and Maintenance Commands and an independent Operational Group. Aircraft in use include SU-7, Hunter, Gnat, Mig 21 and HF24; Canberra bomber, helicopter and training planes.

## PRODUCTION

About 70 per cent. of the inhabitants of India are dependent on agricultural pursuits. Most of the agricultural holdings are less than 5 acres. Food grains occupy three-fourths of the total cropped area. Main crops are rice, cereals, pulses, sugar cane, jute, cotton and tea. There are about 176,000,000 cattle, or about a quarter of the world's cattle population. Agricultural production has grown by 3 per cent each year since 1951.

## Industrial

The output of coal in 1980-81 was 125 million tonnes; iron ore 423 lakh tonnes; finished steel 7.3 million tonnes; aluminium 209,000 tonnes; cement 195 lakh tonnes; machine tools Rs.200 crores; automobiles (commercial vehicles, passenger cars, etc.) 121,000; diesel engines (stationary) 174,000; sewing machines 319,000; sulphuric acid 2,056,000 tonnes; fertilizers 3,000,000 tonnes; petroleum products (refined), 241 lakh tonnes; cotton cloth 8,400,000 metres; cotton yarn, 1,211 tonnes.

## Trade with U.K.

	1980	1981
Imports from U.K. . . . .	£829,000,000	£600,000,000
Exports to U.K. . . . .	315,900,000	320,000,000

## FINANCE

The budget estimates for 1982-83, placed expenditure (on revenue account) at Rs.18,227 crores. Revenue (excluding States' shares) was estimated at Rs.17,131 crores. The deficit on capital budget was Rs.989 crores, leaving an overall uncovered deficit of Rs.1,365 crores.

## COMMUNICATIONS

*Civil Aviation.*—India occupies an important place in civil aviation among the nations of the world. All air lines were nationalized in 1953 and two corporations formed, Indian Airlines and Air India.

Four international aerodromes are managed by the International Airports Authority. The other 84 aerodromes are controlled and operated by the Civil Aviation Department of the Government.

*Railways.*—The railways are grouped into nine administrative zones, Southern, Central, Western,

Northern, North-Eastern, North-East Frontier, Eastern, South-Eastern and South-Central.

Gross Traffic Receipts (1980-81), crores of rupees, 2,642. Working expenses, 2,232. Net railway revenues, 127.

*Ports.*—The chief seaports are Bombay (Mumbai), Calcutta, Madras, Mormugao, Cochin, Visakhapatnam, Kandla, Paradip, Mangalore and Tuticorin. There are 167 intermediate and minor ports with varying capacity.

*Shipping.*—On Dec. 31, 1981, 403 ships totalling 58.89 lakh gross tons were on the Indian Register.

## Jamaica

Jamaica is situated in the Caribbean Sea south of the eastern extremity of Cuba and lies between latitudes 17° 43' and 18° 32' North, and longitude 76° 11' and 78° 21' West. The island was discovered by Columbus on May 4, 1494, and occupied by the Spanish from 1509 until 1655 when a British expedition, sent out by Oliver Cromwell, under Admiral Penn and General Venables, attacked the island, which capitulated after a token resistance. In 1670 it was formally ceded to England by the Treaty of Madrid. Jamaica became an independent state within the British Commonwealth on August 6, 1962.

*AREA AND POPULATION.*—Jamaica is 4,243.6 square miles in area and is divided into three counties (Surrey, Middlesex and Cornwall) and 14 parishes. The surface of the island is extremely mountainous, the highest peak being 7,402 ft. above sea level. The greatest length from east to west (Morant Point to Negril Point) is 146 miles and the extreme breadth 51 miles. At Dec. 31, 1981 Jamaica's population was estimated to be 2,223,400. Jamaica for climatic and other reasons is a popular tourist resort, attracting visitors mainly from the U.S.A. The total number of visitor arrivals in 1981 was 551,878. Tourist expenditure in 1981 was estimated at US\$284,300,000.

*PHYSICAL FEATURES.*—The topography consists mainly of coastal plains, divided by the Blue Mountain Range in the east, and the hills and limestone plateaux which occupy the central and western areas of the interior. The central chain of high peaks of the Blue Mountains is over 6,000 feet above sea level, and the Blue Mountain Peak, the highest of these, reaches an elevation of 7,402 feet. The rivers flow down from the central mountainous area. Most of the rivers are narrow and fast flowing, and some have rapids. In general those flowing south are longer and are fed by more tributaries than those flowing north. None is navigable except the Black River, and that only for small craft.

*CAPITAL.*—The seat of government is Kingston, the largest town and seaport (estimated population of the Corporate area of Kingston and St. Andrew in 1979, 662,501). Other towns are Montego Bay, Spanish Town, Mandeville and May Pen.

*FLAG.*—Gold diagonal cross forming triangles of green at top and bottom, triangles of black at hoist and in fly.

*NATIONAL DAY.*—First Monday in August (Independence Day).

## GOVERNMENT

The Legislative consists of a Senate of 21 nominated members and a House of Representatives consisting of 60 members elected by universal adult suffrage. The Senate has no power to delay money bills for longer than one month or other bills for longer than seven months against the wishes of the House of Representatives. The Constitution provides for a Leader of the Opposition.

*Governor-General*, His Excellency Sir Florizel Glaspole, G.C.M.G.

## CABINET

*Prime Minister, Minister of Finance and Planning and Minister of Mining and Energy*, Rt. Hon. E. Seaga, P.C., M.P.

## COMMUNICATIONS

There are several excellent harbours, Kingston being the principal port. The island is intersected by about 3,000 miles of main road, of which 2,648 are asphalted. There are about 226 miles of railway open. Telegraph stations and post offices are established in every town and in very many villages.

There are two international airports capable of handling the largest civil jet aircraft, the Norman Manley International Airport on the south coast serving Kingston, and the Donald Sangster Airport on the north coast serving the major tourist areas. In addition there are licensed aerodromes at Port Antonio, Ocho Rios, Tinson Pen, Mandeville and Negril, which are used by Trans Jamaica Airlines on scheduled domestic flights. There are 16 privately owned, seven public and two military airstrips.

Air Jamaica, the national airline formed by the Government of Jamaica in association with Air Canada, operates scheduled services between the U.K., Canada, U.S.A., Nassau, Europe, Cayman, Port-au-Prince, San Juan and Jamaica. Twelve other international carriers provide air communication with Europe, North, Central and South America and the Caribbean islands. They are: British Airways, British West Indian Airways, Air Canada, A.L.M. Antillean, Cubana, Cayman Airways, Eastern Airlines, American Airlines, Air Florida and Aeroflot.

Scheduled internal routes are operated by Trans-Jamaica Airlines. There are also three non-scheduled air services catering for various services and activities.

## PRODUCTION

Most of the staple products of tropical climates are grown. Sugar and rum are manufactured and exported (the latter is still counted the best in the world), and fine quality coffee is grown in certain areas of the Blue Mountains. Chief products exported in 1981 were sugar (121,274 tons), bananas (19,000 tons), cocoa (156,400 kilos) and coffee (862,000 kilos). Citrus exports amounted to 6,199,000 kilos. Jamaica has developed a breed of dairy cattle known as Jamaica Hope and a beef breed, the Jamaica Black. Jamaica is the fourth largest producer of bauxite in

the world; output for 1981 was 6.3 million metric tonnes, of which 2.5 million metric tonnes were processed into alumina before being exported. The bauxite deposits are worked by one Canadian and four U.S. companies; the Canadian company, a U.S. company and a consortium of three U.S. companies process bauxite into alumina. The Government has entered into partnership with three of the U.S. companies and has acquired majority shareholding in the operations. Gypsum is also mined, production in 1981 being 216,200 metric tonnes. Cement is manufactured locally, the output of the factory being 161,928 long tons in 1981. The Esso Oil Refinery processed 5,271,620 barrels of crude oil during 1980. The Jamaica Industrial Development Corporation is responsible for implementing the Government's industrial development programme. This Corporation administers incentive legislation which was enacted to stimulate the establishment of industries locally. In addition to undertaking promotional activities both locally and abroad, the Corporation maintains offices in the United States and the United Kingdom. In the last decade, manufacturing has grown from the processing of a few agricultural products into the production of a whole range of commodities dependent on both local and foreign raw materials.

## Kenya

Kenya is bisected by the equator and extends approximately from latitude 4° N. to latitude 4° S. and from longitude 34° E. to 41° E. From the coast of the Indian Ocean in the east, the borders of Kenya are with Somalia in the east and Ethiopia and Sudan in the north and north-west. To the west lie Uganda and Lake Victoria. On the south is Tanzania. The total area is 224,960 square miles (including 5,171 square miles of water). The population is estimated to be 15,332,000 and to be increasing by 3.9 per cent annually. The country is divided into 7 Provinces (Nyanza, Rift Valley, Central Coast, Western, Eastern and North-Eastern).

CAPITAL.—Nairobi situated at latitude 2° S. and longitude 36° 49' E. at 5,453 feet above sea level, covers an area of 266 sq. miles and has a population of about 1,000,000. It is 307 miles by road from Mombasa, the country's main port. Mombasa (400,000) possesses what is perhaps the finest harbour on the East Coast of Africa and is well served by shipping lines from Europe and Asia besides a frequent coastal service. Other centres are Nakuru (47,800), Kisumu (30,700), Eldoret (16,900), Thika (18,100) and Nanyuki (11,200).

Nairobi: transit from London about 25 days by sea; by air, 10 hrs.

FLAG.—Three equal horizontal bands of black over red over green; red and white spears and shield device in centre.

NATIONAL DAY.—December 12.

## GOVERNMENT

Kenya became an independent state and a member of the British Commonwealth on December 12, 1963, after six months of internal self-government. The national assembly consists of a single House of Representatives. Kenya became a Republic on Dec. 12, 1964. In 1982 the Government introduced amend-

ments to the constitution and election law, making the country a one-party (K.A.N.U.) state.

On July 4, 1974, the executive of the ruling Kenya African National Union decided that Swahili should become Kenya's official language, to be used in the National Assembly and in the country's administration, instead of English, but English and Swahili can now be used officially in the National Assembly.

### PRODUCTION

Agriculture provides about 35 per cent of the national income. The great variation in altitude and ecology provide conditions under which a wide range of crops can be grown. These include wheat, barley, pyrethrum, coffee, tea, sisal, coconuts, cashew nuts, cotton, maize and a wide variety of tropical and temperate fruits and vegetables. The total area of well-farmed land on which concentrated mixed farming can be practised is small and the remainder is arid or semi-arid country suitable for stock raising. Most of the old, large-scale farms, formerly farmed by Europeans, have been bought by the Government for settlement of landless people and for transfer to other large-scale farmers.

Prospecting and mining are carried on in some parts of the country, the principal minerals produced being soda ash, salt and limestone. Major deposits of fluorite and galena are also being exploited. Small amounts of gold are mined.

Hydro-electric power has been developed, particularly on the Upper Tana River. Kenya is now almost self-sufficient in electric power generation but the connection with Owen Falls in Uganda is still in being. Work is in progress on the final stage of the

£37,000,000 Seven Forks Project which is expected to provide 300 MW on completion in the early 1980s.

There has been considerable industrial development over the last 15 years and Kenya has a wide variety of industries processing agricultural produce and manufacturing an increasing range of products from local and imported raw materials. New industries have recently come into being such as steel, textile mills, dehydrated vegetable processing and motor tyre manufacture as well as many smaller schemes which have added to the country's already considerable consumer goods. There is an oil refinery in Mombasa supplying both Kenya and Uganda, and a fuel pipeline now connects Mombasa and Nairobi. Industrial areas have been developed in all the principal towns and light industrial estates are being developed for African entrepreneurs. The Kenya Government is actively encouraging investment in the industrial sector and has a Foreign Investments Protection Act to protect such investments.

The main imports are manufactured goods, classified chiefly as materials, machinery and transport equipment, mineral fuels, lubricants and related fuels and chemicals.

### COMMUNICATIONS

The Kenya Railways Corporation is self-contained and self-financing; the railway, which is metre gauge, has a total route mileage of 1,700 miles. There are also 31,000 miles of road, of which 2,700 are bitumen surfaced. The Kenya Harbour Authority controls operations at Mombasa.

Scheduled airline services are operated to and from Kenya, through Nairobi airport, by Kenya Airways, British Airways, Air India, Air France, Scandinavian Airlines System, Alitalia, Pan Am, K.L.M., Ethiopian Airlines, El Al Israel Airlines, Pakistan International Airlines, Lufthansa German Airlines, Sabena, Swissair, Olympic Airways, T.W.A. and Egyptair, while regional scheduled services are also run by Kenya Airways, Ethiopian Airlines, Air Zaire, Air Malawi, Zambia Airways, Sudan Airways and Air Madagascar. Moi airport at Mombasa has been extended to cater for international flights.

### TRADE

A large part of Kenya's trade is with the United Kingdom. The principal exports are coffee, tea, maize, meat products, pyrethrum flowers, powder and extract, and hides and skins.

## Kiribati

Kiribati, the former Gilbert Islands, became an independent Republic in 1979. Kiribati comprises 33 islands—the Gilberts Group (17) including Ocean Island, the Phoenix Islands (8) and the Line Islands (8)—situated in the South West Central Pacific around the point at which the International Date Line cuts the Equator. The total land area of 264 square miles is spread over some 2 million square miles of ocean. Few of the atolls are more than half a mile in width or more than 12 feet high. The vegetation consists mainly of coconut palms, breadfruit trees and pandanus. The total population based on a census in 1978 is 56,452. Tarawa is the capital with an est. population of 20,000. The Phoenix and Line Islands now have no indigenous populations. Christianity is widespread, roughly half of the population being Protestant and the other half Roman Catholic. Most people still practise a subsistence economy, the main staples of their diet being coconuts and fish.

The unit of currency is the Australian dollar. Estimated revenue for 1981 is \$A14,659,590, of which \$A2,225,000 is provided by the United Kingdom as budgetary assistance under the Independence Financial

Settlement. This assistance is necessary following the expiry of the phosphate industry, which previously accounted for approximately 50 per cent. of recurrent revenue. The principal imports are foodstuffs, consumer goods and building materials. The only export is copra, most of which is produced by small landowners, and marine products.

Air communication exists between most of the islands, and is operated by Air Tungaru, a statutory corporation. The Corporation also operates a weekly flight to Christmas (Line Islands), and Honolulu. International flights are operated thrice weekly by Air Nauru. Inter-island shipping is operated by a statutory corporation, the Shipping Corporation of Kiribati.

The Government maintains a teacher training college and a secondary school. Four junior secondary schools are maintained by missions. Throughout the Republic there are about a hundred primary schools. The total enrolment of children of school age is about 14,000. The Marine Training School at Tarawa trains seamen for service with overseas shipping lines. There is a general hospital at Tarawa. The other inhabited islands have dispensaries, the larger ones being in the charge of qualified medical officers.

*President and Minister of Foreign Affairs*, Hon. Teremia Tabai, C.M.G..

*Vice-President and Minister of Home Affairs*, Hon. T. Teannaki.

*Minister of Finance*, Hon. T. Awira.

*Minister of the Line and Phoenix Groups*, Hon. I. Tata.

*Attorney-General*, R. L. Davey.

The President is Head of State as well as Head of Government and is elected nationally. There is an elected House of Assembly (35 members); executive authority is vested in the Cabinet.

*High Commissioner*, His Excellency Donald Henry Gair Rose (1979).

## Lesotho

Lesotho is a landlocked mountainous state entirely surrounded by the Republic of South Africa. Of the total area of 11,716 sq. miles a belt between 20 and 40 miles in width lying across the western and southern boundaries and comprising about one-third of the total is classed as Lowlands, being between 5,000 and 6,000 ft. above sea level. The remaining two-thirds are classed as Foothills and Highlands, rising to 11,425 ft. The land is held in trust for the nation by the state. The population was estimated at 1,204,000 in 1981.

CAPITAL.—Maseru, population, 240,081.

FLAG.—Blue with conical white Basotho hat in centre, red and green vertical stripes (next staff).

### GOVERNMENT

Lesotho became a constitutional monarchy within the Commonwealth on October 4, 1966. The independence constitution was suspended in January 1970, when the country was governed by a Council of Ministers, until the establishment of a nominated National Assembly in April 1974.

The country is divided into ten administrative districts. In each district there is a District Coordinator who co-ordinates all Government activity in the area, working in co-operation with hereditary chiefs.

*High Commissioner*, His Excellency Clive Carruthers Clemens, M.C. (1981).

*British Council Representative*, B. P. Chenery, Hobson's Square, P.O. Box 429, Maseru.

### EDUCATION

There were 1,080 primary schools with 235,604 students enrolled in 1979, 96 secondary schools with 21,406 pupils and a teacher training college, with 822 trainees. There are also 13 vocational training schools with 1,140 students and a training centre for civil servants. There is an Agricultural College with 203 students. The National University of Lesotho situated at Roma was established in 1975. There is a high literacy rate of about 70 per cent.

### HEALTH SERVICES

There are nine Government General hospitals, the largest being the Queen Elizabeth II Hospital in Maseru, one mental hospital, eight Mission hospitals and a leprosanium as well as 105 health centres and clinics run by Government, Missions and other voluntary organizations.

### COMMUNICATIONS

The main north-south tarred road of 110 miles links Maseru and the lowlands. The mountainous areas are linked by a 1,300 miles of gravelled and earth roads and tracks. Roads link border towns in South Africa with the main towns in Lesotho. Maseru is connected by rail with the main Bloemfontein-Durban line of the South African Railways. Scheduled international air services are operated daily between Maseru and Johannesburg and twice weekly to Manzini and Maputo. There are 30 airstrips. Internal scheduled services are operated by the Lesotho Airways Corporation. The telephone

network is fully automated in all urban centres. Subscribers can dial direct to telephone exchanges in South Africa. Similar facilities exist for telex subscribers, who can also dial direct to a number of overseas countries. Radio telephone communication is used extensively in the remote rural areas.

#### AGRICULTURAL PRODUCTION

The economy of Lesotho is based on agriculture and animal husbandry. At the last enumeration livestock numbers were: cattle 560,000, sheep 974,000, goats 618,000, horses 102,000, poultry 660,000 and pigs 78,000. A project for providing basic agricultural services in the lowlands is planned.

#### FINANCE, TRADE AND INDUSTRY

The main sources of revenue are customs and excise duty. Estimates of expenditure and revenue

(1982) are recurrent revenue M127,000,000; recurrent expenditure M107,900,000; capital revenue M77,000,000; capital expenditure M104,000,000. Lesotho has few known and developed natural resources but it is intended to develop commercially the mineral resources of water and diamonds. Drilling is being carried out for oil. Tourism is being developed and is rapidly playing a major role in the economic progress of the country. A National Park has been established at Sehlabathebe in the Maluti mountains. A number of light industries have recently been established. They include the manufacture of clothing, tapestries, carpets, sheepskin products, jewellery, pharmaceuticals, bricks and building materials; together with milling, diamond cutting and tractor assembly.

On Jan. 19, 1980 the *Maloti* was introduced as Lesotho's currency, on the basis of parity with the S. Africa *rand*.

## Malawi

MALAWI, formerly the Nyasaland Protectorate, comprises Lake Malawi (formerly Lake Nyasa) and its western shore, with the high table-land separating it from the basin of the Luangwa River, the watershed forming the western frontier with Zambia; south of the lake, Malawi reaches almost to the Zambesi and is surrounded by Mozambique, the frontier lying on the west on the watershed of the Zambesi and Shire Rivers, and to the east on the Ruo, a tributary of the Shire, and Lakes Chiuta and Chirwa. This boundary reaches the eastern shore of Lake Malawi and extends up to the mid-point of the lake for about half its length where it returns to the eastern and northern shores to form a frontier with Tanzania.

Malawi has a total area of 45,747 sq. miles. The population of Malawi according to the Census held in September 1977 is 5,547,460.

**CAPITAL.**—Lilongwe (population, 102,924). The city of Blantyre in the Southern Region, incorporating Blantyre and Limbe (population, 222,153), is the major commercial and industrial centre. Other main centres are: Mzuzu, Thyolo, Mulanje, Mangochi, Salima, Dedza and Zomba, the former capital.

**FLAG.**—Horizontal stripes of black, red and green, with rising sun in the centre of the black stripe.

#### GOVERNMENT

Malawi became a republic on July 6, 1966, having assumed internal self-government on February 1, 1963, and achieved independence on July 6, 1964, and is a member of the Commonwealth. There is a Cabinet consisting of the life President and other Ministers. The Parliament consists of 87 members, each elected by universal suffrage. Under the 1981 Amendment to the Constitution, the life President has the power to nominate as many Members of Parliament as he wishes. Being a one-party State (the Malawi Congress Party), all elected members are required to be members of the Party. The Parliament, which usually meets twice a year, is presided over by a Speaker.

*President, Minister of External Affairs, Works and Supplies, Agriculture and Justice*, Dr. H. Kamuzu Banda, elected 1966, sworn in as President for Life July 6, 1971.

#### CABINET

*British Council Representative*, J. Mulholland, O.B.E., British Council Centre (P.O. Box 30222), Lilongwe. There is also a library at Blantyre.

#### EDUCATION

Primary education is the responsibility of local authorities in both urban and rural areas. The ministry is responsible for policy, school curricula, secondary education teachers' and technical training. Religious bodies, with Government assistance, still play an important part in primary and secondary education and teacher training. In 1977-78 there were 675,740 pupils enrolled in primary schools and 15,140 pupils in secondary schools. There were 11,115 primary school teachers. Further training is pursued at the University of Malawi, opened in September 1965. For the academic year 1977-78 there were 1,153 students studying for degrees and diplomas at the three constituent colleges. A fourth college, Kamuzu College of Nursing, has now been incorporated into the University.

## COMMUNICATIONS

A single-track railway runs from Mchinji on the Zambian border, through Lilongwe and Salima on Lake Malawi (itself served by two passenger and a number of cargo boats) through Blantyre to the southern frontier into Mozambique, crossing the Zambezi River by a bridge 12,050 feet long, and connecting with the Mozambique port of Beira, which handles the bulk of the country's imports and exports. In 1970 a 70-mile line was opened from Liwonde to Nayuchi, linking the Malawi rail system with the Mozambique network to the port of Nacala. There are about 11,000 miles of maintained roads in Malawi of which about 2,000 are bituminized.

Agriculture is the country's mainstay. Principal exports in 1980 were tobacco (K105m); tea (K30m); sugar (K36m); groundnuts (K16m) and cotton (K5m). Other cash crops include coffee and tung oil. Main imports are fuels and fertilizer, transport and agricultural machinery and equipment.

## Malaysia

Malaysia, comprising the 11 states of Peninsula Malaya plus Sabah and Sarawak, forms a crescent well over 1,000 miles long between latitudes 1° and 7° N. and longitudes 100° and 119° E. It occupies two distinct regions—the Malay Peninsula which extends from the Isthmus of Kra to the Singapore Strait and the North-West Coastal area of the Island of Borneo. Each is separated from the other by 400 miles of the South China Sea.

*Area and Population.*—The total area of the 13 states of Malaysia, including the Federal Territory of Kuala Lumpur (94 sq. miles), is estimated to be 130,000 sq. miles, containing a population of 13,435,588 (1980 census). The principal racial groups are the Malays, the Chinese and those of Indian and Sri Lankan origin, as well as the indigenous races of Sarawak and Sabah.

*Climate.*—The whole region is open to maritime influences and is subject to the interplay of wind systems which originate in the Indian Ocean and the South China Sea. The year is commonly divided into the Southwest and Northwest monsoon seasons. Rainfall averages about 100 inches throughout the year, though the annual fall varies from place to place. The average daily temperature throughout Malaysia varies from 70° F. to 90° F., though in higher areas temperatures are lower and vary widely.

*CAPITAL.*—Kuala Lumpur was proclaimed Federal Territory on February 1, 1974. Its population is about 937,875. The chief town of Sarawak is Kuching, and of Sabah is Kota Kinabalu.

Bahasa Malaysia (Malay) is the national language. In Sarawak English continues as an official language as well as Bahasa Malaysia.

*RELIGION.*—Islam is the official religion of Malaysia, each Ruler being the head of religion in his State, though the Heads of State of Sabah and Sarawak are not heads of the Muslim religion in their States. The Yang di-Pertuan Agung is the head of religion in Malacca and Penang. The Constitution guarantees religious freedom. *NATIONAL DAY.*—August 31 (*Hari Kebangsaan*).

*FLAG.*—Equal horizontal stripes of red (7) and white (7); 14 point yellow star and crescent in blue canton.

## GOVERNMENT

The Federation of Malaya became an independent country within the Commonwealth on August 31, 1957, as a result of an agreement between H.M. the Queen and the Rulers of the Malay States, whereby Her Majesty relinquished all powers and jurisdiction over the Malay States and over the Settlements of Penang and Malacca which then became States of the Federation. On Sept. 16, 1963, the Federation was enlarged, by the accession of the further states of Singapore, Sabah (formerly British North Borneo) and Sarawak, and the name of MALAYSIA was adopted from that date. On Aug. 9, 1965, Singapore seceded from the Federation.

The Constitution was designed to ensure the existence of a strong Federal Government and also a measure of autonomy for the State Governments. It provides for a constitutional Supreme Head of the Federation (His Majesty the *Yang di-Pertuan Agung*) to be elected for a term of five years by the Rulers from among their number, and for a Deputy Supreme Head (His Royal Highness the *Timbalan Yang di-Pertuan Agung*) to be similarly elected. The Malay Rulers are either chosen or succeed to their position in accordance with the custom of the particular

state. In other states of Malaysia choice of the Head of State is in the discretion of the *Yang di-Pertuan Agung* after consultation with the Chief Minister of the State. Save in certain instances provided in the Constitution, the Supreme Head acts in accordance with the advice of a Cabinet appointed by him from among the members of Parliament on the advice of the Prime Minister. The Supreme Head appoints as Prime Minister the person who in his judgment is likely to command the confidence of the majority of the members of the House of Representatives. He also has the powers to promulgate emergency ordinances. The National Operations Council was dissolved on February 19, 1971, and the *Yang di-Pertuan Agung* promulgated the reconvening of Parliamentary democracy the following day.

*Supreme Head of State*, His Majesty Sultan Haji Ahmad Shah Ibni al-Marhuam Sultan Abu Bakar (Sultan of Pahang), assumed office for a term of 5 years, April 1979.

*Deputy Supreme Head of State*, His Royal Highness Tuanku Ja'afar Ibni al-Marhuam Tuanku Abul Rahman (Yang di-Pertuan Besar of Negri Sembilan).

NOTE.—The words "Tunku/Tengku", "Tun", "Tan Sri", and "Datuk" are titles. The word "Tunku/Tengku" is equivalent to "Prince". "Tun" denotes membership of a high Order of Malaysian Chivalry and "Tan Sri" and "Datuk" ("Datuk Seri" in Perak and "Datu" in Sabah) are each the equivalent of a knighthood. The wife of a "Tun" is styled "Toh Puan", that of a "Tan Sri" is styled "Puan Sri" and of a "Datuk" "Datin". The honorific "Tuan" or "Encik" is equivalent to "Mr." and the honorific "Puan" is equivalent to "Mrs.". The words "Al-Haj" or "Haji" indicate that the person so named has made the pilgrimage to Mecca.

MALAYSIAN HIGH COMMISSION  
45 Belgrave Square, S.W. 1  
[01-235 8033]

*High Commissioner*, His Excellency Raja Tan Sri Aznam (1979).

BRITISH HIGH COMMISSION  
Wisma Damansara, Jalan Semantan  
(P.O. Box 1030), Kuala Lumpur.

*High Commissioner*, His Excellency William Bentley, C.M.G.  
*British Council Representative*, E. T. J. Phillips, Jalan Bukit Aman, Kuala Lumpur, and offices at Kota Kinabalu (Sabah) and Kuching (Sarawak).

## LEGISLATURE

The Federal Parliament consists of two houses, the Senate and the House of Representatives. The Senate (*Dewan Negara*) consists of 58 members, under a President (*Yang di-Pertua Dewan Negara*), 26 elected

by the Legislative Assemblies of the States (2 from each) and 32 appointed by the *Yang di-Pertuan Agung* from persons who have achieved distinction in major fields of activity or are representative of racial minorities, including the Aborigines. The House of Representatives (*Dewan Rakyat*), consists of 154 members (Peninsular Malaysia, 114; Sarawak, 24; and Sabah, 16). Members are elected on the principle of universal adult suffrage with a common electoral roll. The House of Representatives is presided over by a Speaker who is either a member of the House or is qualified to be elected as a member. *Speaker*, Tan Sri Datuk Syed Nasir bin Ismail.

The Constitution provides that each State shall have its own Constitution not inconsistent with the Federal Constitution, with the Ruler or Governor acting on the advice of an Executive Council appointed on the advice of the *Menteri Besar* or Chief Minister and a single chamber Legislative Assembly. Three *ex officio* members sit in the Executive Council besides these elected members. They are the State Secretary, the State Legal Adviser and the State Financial Officer. The State Constitutions provide for the Ruler or Governor to appoint as *Menteri Besar* or Chief Minister, to preside over the Executive Council, a member of the Legislative Assembly who in his judgement is likely to command the confidence of the majority of the members of the Assembly. The Legislative Assemblies are fully elected on the same basis as the Federal Parliament.

Legislative powers are divided into a Federal List, a State List and a Concurrent List, with residual powers vested in the State Legislatures. The Federal List comprises broadly, external affairs, defence, civil and criminal law and justice, the machinery of government, finance, commerce and industry, communications and transport, power, education, medicine and labour and social security. The State List includes land, agriculture and forestry, local government and services and the machinery of state government. In the Concurrent List are, *inter alia*, social welfare, wild-life, animal husbandry, town and country planning, public health and drainage and irrigation.

A State of Emergency was declared after disturbances on May 13, 1969. As Parliament was not then sitting, the *Yang di-Pertuan Agung* did not summon Parliament and instead established the National Operations Council and Y.A.B. Tun Abdul Razak bin Dato Hussein, the then Deputy Prime Minister, was appointed Director of Operations vested with the executive authority of the Federation including the powers to make essential regulations. The *Yang di-Pertuan Agung* remained as the Supreme Head of Federation with powers to promulgate emergency ordinances.

## JUDICATURE

The Judicial System consists of a Federal Court and two High Courts, one in Peninsular Malaysia and one for Sabah and Sarawak (sitting alternately in Kota Kinabalu and Kuching). The High Court in Peninsular Malaysia known as the High Court in Malaya has its principal registry in Kuala Lumpur while the High Court in Sabah/Sarawak known as the High Court in Borneo has its principal registry in Kuching.

The Federal Court comprises a President, the two Chief Justices of the High Courts and other judges.

This court possesses appellate, original and advisory jurisdiction. In its capacity as an appellate court it has exclusive jurisdiction to determine appeals from the decisions of a High Court or of a judge thereof (except decisions of a High Court given by a registrar or other officer of the court and appealable under federal law to a judge of the Court). This appellate jurisdiction is subject to

limitations imposed by or under federal law. It also has jurisdiction to determine disputes between the Federation and any of the States within the Federation, any challenge to the competence of the Federal or any State legislature to enact a particular law and any question as to the effect of any of the provisions of the Constitution which question has arisen in proceedings before another court. It also renders advisory opinions on questions referred to it by the *Yang di-Pertuan Agung* as regards the effect of any provisions of the Constitution which has arisen or is likely to arise.

Each of the High Courts consists of a Chief Justice and not less than 4 other judges. The Federal Constitution allows for a maximum of twelve such judges for Malaya and eight for Borneo. In Peninsular Malaysia the Subordinate Courts consist of the Sessions Courts and the Magistrates' Courts. In Sabah/Sarawak the Magistrates' Courts constitute the Subordinate Courts.

#### DEFENCE

The Malaysian Armed Forces consist of the Army, Navy and Air Force, together with volunteer forces for each arm. The defence of the country is largely borne by the army in its role of providing defence against external threat and counter-insurgency operations and also to assist the police in the performance of public order duties. The *Royal Malaysian Navy (RMN)* has the responsibility of defending the 3,000 miles of the country's coastline and maintaining constant patrol of 500 miles of the high seas that separate Sahah and Sarawak from the mainland. The *Royal Malaysian Air Force (RMAF)* is capable of providing close strategic and tactical support to the army and police in the defence and internal security of the country.

#### PRODUCTION AND TRADE

The agricultural sector continues to be the mainstay of the Malaysian economy. However, diversification of crops and rapid growth in the manufacturing sector has made Malaysia less vulnerable to fluctuations in the price of its primary crop, natural rubber.

Malaysia is the largest exporter of natural rubber, tin, palm oil and tropical hardwoods. Other major export commodities are manufactured and processed products, petroleum, oil, and other minerals, palm kernel oil, tea and pepper.

Exports of the four major primary commodities: rubber, tin, palm oil and tropical hardwoods accounted for 47.7 per cent of the total exports in 1980 (preliminary figures). With the rapid expansion in the manufacturing sector, Malaysia is also increasing her export of manufactured products.

Another commodity which is produced throughout Malaysia is rice, the staple food of Malaysians. Total output of *padi* in the 1979 season amounted to 1,759,760 tons. To achieve self-sufficiency, various measures aimed at increasing output and productivity are being introduced. They include wider use of improved seeds and fertilizers, expansion of double-cropping through the provisions of large scale irrigation schemes and research programmes to improve rice yields. The rapid increase in oil production means that Malaysia is a net exporter, and as her own oil is almost sulphur free, she obtains a considerably higher price than she has to pay for her imports.

Imports consist mainly of machinery and transport equipment, manufactured goods, foods, mineral fuels, chemicals and inedible crude materials for her growing population and to accelerate the pace of her economic growth and development.

## Malta

Malta lies in the Mediterranean Sea, 58 miles from Sicily and about 180 miles from the African coast, about 17 miles in length and 9 in breadth, and having an area of 94.9 square miles. Malta includes also the adjoining island of Gozo (area 25.9 sq. miles); *Comino* and minor islets. The estimated population at June 1980 was 316,850. Malta's climate, although not tropical, is hot in summer.

Malta was in turn held by the Phoenicians, Greeks, Carthaginians, Romans and Arabs. In 1090 it was conquered by Count Roger of Normandy. In 1530 it was handed over to the Knights of St. John, who made of it a stronghold of Christianity. In 1565 it sustained the famous siege, when the last great effort of the Turks was successfully withstood by Grandmaster La Valette. The Knights expended large sums in fortifying the island and carrying out many magnificent works, until they were expelled by Napoleon in 1798. The Maltese

rose against the French garrison soon afterwards, and the island was subsequently blockaded by the British fleet. The Maltese people freely requested the protection of the British Crown in 1802 on condition that their rights and privileges would be preserved and respected. The islands were finally annexed to the British Crown by the Treaty of Paris in 1814.

Malta was again closely besieged in the last war. From June, 1940, to the end of the war, 432 members of the garrison and 1,540 civilians were killed by enemy aircraft, and about 35,000 houses were destroyed or damaged.

**CAPITAL**—Valletta. Population (estimated, Dec., 1979), 14,042. Valletta Grand Harbour is one of the finest in the world; it is very deep, and large vessels can anchor alongside the shore. It is an important port of call and ship repairing centre for vessels, being half-way between Gibraltar and Port Said.

**FLAG**—Two equal vertical stripes, white at the hoists and red at the fly. A representation of the George Cross is carried edged in red in the top corner of the white stripe.

**NATIONAL DAY**—March 31.

*President*, Her Excellency Miss Agatha Barbara, *elected* 16 Feb. 1982.

### GOVERNMENT

On Sept. 21, 1964, under the Malta Independence Order, 1964, Malta became an independent state within the Commonwealth; on December 13, 1974, Malta became a republic within the Commonwealth. In the 1981 general election the Malta Labour Party was returned to office. State of the parties; Malta Labour Party, 34 seats; Nationalist Party, 31 seats. The Nationalist Party received 51% of the votes cast but failed to obtain a majority of seats and have boycotted Parliament since the election; they were unseated by the Speaker in late April 1982.

Maltese and English are the official languages of administration and Maltese is ordinarily the official language in all the courts of law and the language of general use in the islands.

### EDUCATION

In October 1981 there were 80 Government Primary Schools with 24,748 pupils and 31 Secondary Schools and new Lyceums, with a total of 15,324 pupils.

Tertiary education is available at the University of Malta (922 students in Oct. 1981). The Government also runs Technical Institutes and 15 Trade Schools (with an enrolment of 3,795 students), a School of Art, a School of Music, a School of Secretarial Studies and evening courses in a number of academic, commercial, technical and practical subjects. There is also a School of Catering, a School of Nursing and an Academy of Dramatic Art sponsored by the Government.

A number of Private Schools offer more or less the

same facilities that exist in Government Schools. With one exception, St. Paul's Missionary College, private schools are fee-paying.

In religion, the Maltese are Roman Catholics. The Maltese language is of Semitic origin and held by some to be derived from the Carthaginian and Phoenician tongues.

### PRODUCTION

The total labour force in 1981 was 121,903 of whom 116,223 were gainfully employed.

### AGRICULTURE

Agriculture plays a significant role in the economy. There are 7,236 full time farmers and about 10,500 part time farmers. The yearly crop production is about 87,988 metric tonnes consisting mainly of tomatoes, potatoes, onions, cabbages and cauliflower, and some 3,512 metric tonnes of fruit. Grape is the largest fruit crop.

### INDUSTRY

The island's leading industry is the state-owned Malta Drydocks, employing about 5,000 people. Local manufactures include textiles, footwear, furniture, detergents, plastics, rubber products, electronic equipment and components, glass products and carpets. The private sector employs 88,476 people.

### TOURISM

In 1981, some 705,000 tourists visited the island. Gross income from this industry stood at £M110 million.

### FINANCE AND TRADE

	1981	1982
Revenue . . . . .	£M209,600,000	£M218,800,000
Expenditure . . . . .	197,000,000	220,500,000

The Central Bank of Malta has the sole right of issuing legal tender currency notes and coins. The Maltese pound is divided into 100 cents and 1,000 mils. The Malta £ was revalued in June 1981 and the rate of exchange fell to £stg1 = £M0.77.

### TRADE

The principal imports for home consumption are foodstuffs—mainly wheat, meat and bullocks, milk and fruit—fodder, beverages and tobacco, fuels, chemicals, textiles and machinery (industrial, agricultural and transport). The chief domestic exports are potatoes, tomatoes, onions, smoking requisites, textile fabrics, rubber goods, gloves, hosiery, beer, mineral waters, edible oil, fresh flowers, fibres and yarns, rubber seals, flower cuttings, plastic goods, wine, mattresses, knitwear, stainless steel sinks, electronic equipment and components, etc. Imports in 1981 were £M331,600,000, as against exports worth £M171,000,000.

## Mauritius

Mauritius is an island group lying in the Indian Ocean, 550 miles east of Madagascar, between 57° 17'–57° 46' E. long. and lat. 19° 58'–20° 33' S., and comprising with its dependencies an area of 805 square miles. The estimated resident population in 1979 was: Mauritius, 924,243; Rodrigues, 29,973; Lesser Dependencies about 350, made up of Asiatic races (Hindus 52.6 per cent, Muslims 16.5 per cent), and persons of European (mainly French extraction), mixed and African descent (28.3 per cent).

Mauritius was discovered in 1511 by the Portuguese; the Dutch visited it in 1598, and named it Mauritius, in honour of the Stadholder, Prince Maurice of Nassau. From 1638 to 1710 it was held as a small Dutch colony and in 1715 the French took possession but did not settle it until 1721. Mauritius was taken by a British Force in 1810. A British garrison remained on the island until its withdrawal in June 1960. The French language and French law have been preserved under British rule. English is the official language but French is in common use.

**CLIMATE.**—Mauritius enjoys a sub-tropical maritime climate, with sufficient difference between summer and winter to avoid monotony; further variation is introduced by the wide range of rainfall and temperature resulting from the mountainous nature of the island. Humidity is rather high throughout the year and rainfall is sufficient to maintain a green cover of vegetation, except for a brief period in the driest districts.

**CAPITAL.**—Port Louis, population (1980), 145,817; other centres are Beau Bassin and Rose Hill (85, 875); Curepipe (56,024); Vacoas and Phoenix (53,966) and Quatre Bornes (55,278) (all figures provisional). **FLAG.**—Red, blue, yellow and green horizontal stripes.

### GOVERNMENT

A Crown Colony for 158 years, Mauritius became an independent state within the Commonwealth on March 12, 1968. The Constitution defined by Order in Council in 1964 was slightly altered in 1966 on the recommendation of the Banwell Commission, the effect being to increase the membership of the Legislative Assembly to 70, 62 elected by block voting in multi-member constituencies (including 2 members for Rodrigues) and 8 specially-elected members. Of the latter, 4 seats go to the "best loser" of whichever communities in the island are under-represented in the Assembly after the General Election and the four remaining seats are allocated on the basis of both party and community. The Constitution provides for the appointment of a Governor-General who acts on the advice of the Council of Ministers, collectively responsible to the Legislative Assembly. However the new M.M.M./P.S.M. Government is committed, over the next 12 months, to change Mauritius into a Republic with a non-executive president.

In the June 1982 General Election the Labour Party, in power since independence, failed to gain any seats, all 60 being won by the coalition of the M.M.M. (*Mouvement Militant Mauricien*) and P.S.M. (*Parti Socialiste Mauricien*). The 2 seats for Rodrigues were won by the O.P.R. (*Organisation du Peuple Rodriguais*).

*Governor-General*, Sir Dayendranath Burrenchobay,  
C.M.G., C.V.O.

### COUNCIL OF MINISTERS

*Premier and Minister of Defence, Internal Security, and External Communications*, Anerood Jugnauth.

*Deputy Prime Minister and Minister of Information*, Harish Boodhoo.

*Minister of External Affairs, Tourism and Emigration*, Jean Claude de L'Estrac.

*Minister of Finance*, Paul Berenger.

### EDUCATION

Primary education is free and is provided for over 125,000 children at 254 primary schools. Although education is not compulsory it is estimated that about 90 per cent of children of primary age attend school. At post-primary level there are a total of 81,946 students attending 8 government secondary schools, 6 government junior secondary schools, 3 junior technical schools and 127 private secondary schools: fees and teachers' salaries in the private secondary schools are paid by government. 194 students attend the Industrial Trade Training Centre. The College of Education trains primary school teachers. The Institute of Education is responsible for training secondary school teachers and for curriculum development. The University of Mauritius consists of Schools of Agriculture, of Administration and of Industrial Technology. There are 646 students at the University. Estimated expenditure on education in 1980–81 was: recurrent Rs.360,800,000; capital Rs.88,000,000.

### COMMUNICATIONS

Port Louis, on the N.W. coast, has an excellent harbour which handles the bulk of the island's external trade. A bulk sugar terminal capable of handling the total crop began operating in 1980. The international airport is located at Plaisance in the southeast of the island about 5 miles from Mahébourg, and the Government has decided to build a new international airport in the north of the island. There are 30 telephone exchanges serving 35,000 individual telephone installations on the islands. There are 8 daily newspapers and 2 weeklies, mostly in French with occasional articles in English, and 2 Chinese daily papers and one weekly paper. The Mauritius Broadcasting Corporation has a monopoly of radio broadcasting in the country. Television was introduced in February 1965, and colour television in 1975; there are over 78,000 licensed T.V. sets. There is a satellite communications ground station near Port Louis.

### PRODUCTION

In 1979, sugar cane was cultivated over an area of 213,000 acres compared with 15,000 acres under tea, 1,905 acres under tobacco and about 3,500 acres devoted to vegetables and other crops. In 1979 the sugar crop was 688,383 metric tonnes and manufactured tea amounted to 4,998 metric tonnes.

### FINANCE

The main sources of Government revenue are private and company income tax, customs and excise duties, mainly on imports, but also on sugar exports.

	1980-81 (Estimates)
Public revenue .....	Rs. 3,065,500,000
Public expenditure .....	3,790,000,000
The National Debt in June 1980 was approx. Rs.	
3,227,400,000.	

Currency—Rs. = Rupee = 6p.

### TRADE

Most foodstuffs and raw materials have to be imported from abroad. Apart from local consumption (about 35,000 long tons per annum), the sugar produced is exported, mainly to Britain, U.S.A. and Canada.

	1980
Total imports .....	Rs. 4,721,400,000
Total exports .....	3,341,300,000

### Trade with U.K.

Exports to U.K. ....	145,227,000

### RODRIGUES AND DEPENDENCIES OF MAURITIUS

*Rodrigues*, formerly a dependency but now part of Mauritius, is about 350 miles east of Mauritius. Area, 40 square miles. Population (1980) 30,275. Cattle, salt fish, sheep, goats, pigs and onions are the principal exports. The island is administered by a Resident Commissioner. *Resident Commissioner*, M. G. Magnien.

The islands of Agalega and St. Brandon are dependencies of Mauritius. Other small islands, formerly Mauritian dependencies, including Six Islands, Peros Banhos, Salomon, Diego Garcia and Trois Frères, have since 1965 constituted the British Indian Ocean Territory.

## Republic of Nauru

The Republic of Nauru is an island of 8.2 sq. miles in size, situated in 166° 55' E. longitude and 32' S. of the Equator. It has a population (Census Jan. 1977) of 7,254 (Nauruans 4,174; other Pacific Islanders 1,890; Chinese 626; Caucasians 564). About 43 per cent of Nauruans are adherents of the Nauruan Protestant Church and there is a Roman Catholic Mission on the island.

FLAG.—Twelve-point star (representing the 12 original Nauruan tribes) below a gold bar (representing the Equator), all on a blue ground.

### GOVERNMENT

From 1888 until the First World War Nauru was administered by Germany, in 1920 becoming a British mandated territory under the League of Nations administered by Australia. A Trusteeship superceding the Mandate was approved in 1947 by the U.N. and Nauru continued to be administered by Australia until it became an Independent State on February 1, 1968. It was announced in November, 1968, that a limited form of membership of the Commonwealth had been devised for Nauru at the request of its Government. The Cabinet is chosen by the President and comprises not fewer than five nor more than six members including the President.

*President and Minister for External Affairs, Internal Affairs, Island Development and Industry, Civil Aviation Authority and the Public Service*, His Excellency Hammer DeRoburt, O.B.E.

### CABINET

*Minister for Finance*, Hon. K. Aroi.  
*Health and Education*, Hon. J. D. Audoa.  
*Works and Community Services*, Hon. R. B. B. Detudamo.  
*Justice*, Hon. L. D. Keke.  
*Chief Justice*, Hon. I. R. Thompson.

### LEGISLATURE

Parliament has eighteen members including the Cabinet and Speaker. Voting is compulsory for all Nauruans over 20 years of age, except in certain specified instances. Elections are held every three years.

### JUDICIARY

A Supreme Court of Nauru is presided over by the Chief Justice. The District Court, which is subordinate to the Supreme Court, is presided over by a Resident Magistrate. Both the Supreme Court and the District Court are Courts of Record. The Supreme Court exercises both original and appellate jurisdiction.

### EDUCATION AND WELFARE

Nauru has a hospital service and other medical and dental services. There is also a maternity and child welfare service. Education is available in 9 primary and 2 secondary schools on the island with a total enrolment of about 1,600 pupils receiving primary education and 500 secondary education.

### PRODUCTION, ETC.

There are valuable deposits of phosphates on the island which were purchased from the Pacific Phosphate Company in 1919 by the Governments of Australia, New Zealand and the United Kingdom for £3,500,000 and vested in the British Phosphate Commissioners. Royalties on phosphate exports (about £5,000,000 annually) have been paid partly to the Nauruans and partly into a trust fund which uses income from investments abroad to pay for Nauru's administrative and social services.

The assets on Nauru of the British Phosphate Commissioners have been purchased by the Nauruans, control of mining and marketing passing to the Nauru Phosphate Corporation on July 1, 1970.

BRITISH HIGH COMMISSION (see Suva, Fiji).

## Nigeria

AREA AND POPULATION.—The Republic of Nigeria is situated on the west coast of Africa. It is bounded on the south by the Gulf of Guinea, on the west by the Republic of Benin, on the north by Niger and on the east by Cameroon. It has an area of 356,669 sq. miles with a population (1963 Census) of 55,654,000. Estimates of the present population range from 80 to 100 million. The population is almost entirely African.

A belt of mangrove swamp forest 10–60 miles in width lies along the entire coastline. North of this there is a zone 50–100 miles wide of tropical rain forest and oil-palms. North of this the country rises and the vegetation changes to open woodland and savannah. In the extreme north the country is semi-desert. There are few mountains, but in Northern Nigeria the central plateau rises to an average level of 4,000 feet. The Niger, Benue, and Cross are the main rivers.

The climate varies with the types of country described above, but Nigeria lies entirely within the tropics and temperatures are high. Temperatures of over 100° in the north are common while coast temperatures are seldom over 90°. The humidity at the coast, however, is much higher than in the north. The rainy season is from about April to October; rainfall varies from under 25 inches a year in the extreme north to 172 inches on the coast line. During the dry season the *harmattan* wind blows from the desert; it is cool and laden with fine particles of dust.

### GOVERNMENT

The Federation of Nigeria achieved independence and became a member of the Commonwealth on Oct. 1, 1960. The country became a Federal Republic in 1963. Following the military take-over of January 16, 1966, the Federal and Regional Constitutions were suspended, and Parliament and the Regional Legislatures were dissolved. The country was divided into 12 States by decree in May, 1967, and this number was increased to 19 in January 1976. A Federal Military Government performed the functions of the former Federal Government and Council of Ministers. Following the promulgation of a new Constitution (based on the United States model) and elections in July–August, 1979, a civilian Government was installed on Oct. 1, 1979. There is a bicameral Federal Legislature and each State has an elected Governor and a State House of Assembly.

### EDUCATION

There are 13 Universities, situated in Lagos, Ife, Zaria, Benin, Nsukka, Ibadan, Calabar, Jós, Ilorin, Kano, Port Harcourt, Sokoto and Maiduguri.

### COMMUNICATIONS

The Nigerian railway system, which is controlled by the Nigerian Railway Corporation, is the most extensive in West Africa. There are 2,178 route miles of lines. The principal international airlines operating from Lagos and Kano bring Nigeria within about six hours of the Western European capitals. There are also services to other parts of Africa and to the United States. A network of internal air services connects the main centres. The principal seaports are served by a number of shipping lines, including the Nigerian National Line. A nationwide television

and radio network is being developed, with each State eventually having its own television and radio station. There is a network of meteorological reporting stations.

### PRODUCTION AND INDUSTRY

Nigeria has a traditional but increasingly mixed economy: farming, forestry, and fishing activities still contribute some 25 per cent of the country's gross domestic product but petroleum and, to a lesser extent, manufacturing play an increasingly important part. Oil revenues account for over 90 per cent of export earnings. Secondary export commodities are groundnuts, cocoa, palm products and rubber. Other crops include benniseed, capsicum, cassava, coffee, copra, cotton, guinea-corn, gum arabic, kola-nuts, maize, millet, piassava, rice, tobacco, and yams. About three out of four Nigerians live by the land. There are important tin and coal-mining industries at Jós and Enugu respectively. The coal is at present used within the country. Nigeria is the principal source of supply of the world's requirements of columbite. Timber and hides and skins are other important commodities, though, to satisfy growing domestic demand, timber exports have been stopped since late 1975. Some of the country's more important industrial installations include a steel-rolling mill, a tin smelter, four petroleum refineries, flour mills, a sugar factory, several cement plants and textile factories. Of growing importance is the local assembly of motor vehicles, bicycles, radio sets, fans and sewing machines. Other major manufactures include soap, cigarettes, beer, soft drinks, vegetable oils, canned food, confectionery, metal containers, plywood, footwear, tyres and tubes, paints, pharmaceuticals, plastic goods, glass containers, cement products, and roofing sheets. Major developments under construction or planned include two steel plants and a petro-chemicals complex. There are plans for liquefaction of natural gas.

### TRADE

The principal imports include food, cotton yarn and thread, medicines and drugs, milk, motor vehicles and spares, general machinery and iron and steel bars, electrical goods, pipes and sheets. The principal export is crude oil. Due to the balance of payments deficit and a sharp fall in revenues from oil, Nigeria was obliged to halt imports in March 1982.

## Papua New Guinea

Papua New Guinea extends from the equator to Cape Baganowa in the Louisiade Archipelago at 11° S. latitude and from the border with Irian Jaya to 160° E. longitude. The total area of Papua New Guinea is 178,260 square miles, of which approximately 152,420 are on the main island.

The main group of islands in Papua New Guinea is the Bismark Archipelago, portion of the Solomon Islands, the Trobriands, the D'Entrecasteaux Islands and the Louisiade Archipelago. The main islands of the Bismark Archipelago are New Britain, New Ireland and Manus. Bougainville is the largest of the Solomon Islands within Papua New Guinea.

Papua New Guinea lies wholly within the tropics between the continents of Asia and Australia and has a typically monsoonal climate. Atmospheric temperature and humidity are uniformly high throughout the year. The temperature may be slightly less in the dry areas around Port Moresby. The average rainfall is about 80 inches per year but there are wide variations—from 47 inches *per annum* at Port Moresby to 200 inches at Kikori in the Gulf of Papua.

**POPULATION.**—At Feb 1981 the estimated total indigenous population of Papua New Guinea was 3,006,799. The indigenous inhabitants of the country comprise a great diversity of physical types and a large number of linguistic groups. The population increases by approximately 2.7 per cent annually.

**CAPITAL.**—Port Moresby. Estimated population 131,000. Other major towns are Lae, Rabaul, Madang, Wewak, Goroka and Mount Hagen.

**FLAG.**—A rectangle divided diagonally from the top of the hoist to the bottom of the fly, the upper segment scarlet and containing a soaring yellow bird of paradise. The lower segment is black charged with five white five-pointed stars representing the Southern Cross.

### GOVERNMENT

New Guinea was sighted by Portuguese and Spanish navigators in the early sixteenth century. In 1884 Germany formally took possession of what came to be known as the Trust Territory of New Guinea. In 1914 the Territory was occupied by Australian troops and remained under military administration until 1921. In 1884, a British Protectorate was proclaimed over the southern coast of New Guinea and the islands adjacent thereto. British New Guinea, by which name the Protectorate was called, was annexed outright in 1888. In 1906 the Territory of British New Guinea was placed under the authority of the Commonwealth of Australia. In 1921 the League of Nations conferred on the Government of the Commonwealth of Australia a mandate for the government of the Territory of New Guinea.

New Guinea was administered under the Mandate and Papua under the Papua Act until the invasion by the Japanese in 1942 when the civil administration was suspended. With the surrender of the Japanese in 1945, civil administration of Papua New Guinea was progressively restored between October 1945 and June 1946, under the provisions of the Papua-New Guinea Provisional Administration Act 1945-1946.

The first House of Assembly opened in 1964 and had 64 members who included an elected indigenous majority and only ten nominated official members. After 1970 there was a gradual assumption of powers by the Papua New Guinea Government, culminating in formal self-government in December 1973. Final reserve powers held by Australia over defence and foreign relations were relinquished to Papua New Guinea in March 1975. In June 1975, the Coalition Government obtained the approval of the House of Assembly for Papua New Guinea to achieve full independence on September 16, 1975.

Elections are at present held every four years. The House of Assembly comprises 100 elected Members, 18 from Regional electorates, the remainder from Open electorates. There are 20 provinces, 19 of which have their own provincial governments with certain legislative and administrative powers.

### COMMUNICATIONS

The most important roads are those linking Lae with the populous and developing Highlands and with Wau, and those in the hinterlands of Port Moresby, Rabaul, Madang and Wewak.

Air Niugini (the National Airline) and Qantas operate regular air services from Australia to Port Moresby. Air Niugini also operates regular services to Manila (Philippines), Honiara (Solomon Islands), Jayapura (Indonesia), Hong Kong, Honolulu and Singapore. Internal air services are operated by Air Niugini, Douglas Airways, Panga Airways and Talair.

Several shipping companies operate regular cargo and passenger services between Papua New Guinea and Australia, Europe, the Far East and U.S.A. Over 100 coastal vessels up to 1,000 tons provide cargo and limited passenger services between Papua New Guinea main ports, outports, plantations and missions.

Papua New Guinea is linked *via* the Seacom international cable to Australia, Guam, Hong Kong, Kota Kinabalu and Singapore. Further connections *via* the Compac cable are made to Canada, New Zealand and the United Kingdom. Direct dialling is available between the major towns and also with Australia. Telex services are also available.

### ECONOMY

Papua New Guinea is essentially an agricultural nation and relies on primary industries for most of its overseas income. Before the mineral resources were tapped in any large quantities its wealth came from primary crop products; the most commercially important are coffee, copra, timber, palm oil, rubber, tea and peanuts.

New crops for Papua New Guinea with considerable export value are palm oil and tea. Commercial plantings started in the mid 1960's and central processing factories on nucleus estates provide points of sale and processing facilities for smallholder blocks in their neighbourhood. To meet local demand for meat, the Government is increasing extension effort and providing transport assistance to the cattle industry. As a result local cattle production has increased in recent years. The cattle industry is supplying about 60 per cent of domestic beef needs.

Since the mid 1970's the North Solomon Province's low-grade copper deposits have become the country's major overseas money earner. Indications are that

extensive mineral deposits exist in other parts of the country. Developers are investigating these and they could contribute significantly to the country's economic prosperity and development in the future.

Secondary industry was originally orientated towards the processing of the local primary products. Emphasis has now swung to industries that service the expanding local market. Amongst those in successful operation are beer brewing, bottle and other packaging factories, paint manufacture, plywood, nails and other wire products, steel drums, clothing, match manufacture, louvred windows and doors, furniture, cement bricks and pipes and many others.

More and more Papua New Guinean entrepreneurs are starting their own businesses or are taking up equity in overseas operated companies. Papua New Guineans are increasingly entering the fields of retail trading, road transport and all aspects of the building industry.

## St. Lucia

St. Lucia, the second largest and the most picturesque of the Windward group, situated in 13° 54' N. lat. and 60° 50' W. long., at a distance of about 90 miles W.N.W. of Barbados, 21 miles N. of St. Vincent, and 24 miles S. of Martinique, is 27 miles in length, with an extreme breadth of 14 miles. It comprises an area of 238 square miles with an estimated population (1980) of 120,300. About 56,000 acres are devoted to agriculture. It possesses perhaps the most interesting history of all the smaller islands. Fights raged hotly around it, and it constantly changed hands between the English and the French. It is mountainous, its highest point being Mt. Gimie (3,145 feet) and for the most part it is covered with forest and tropical vegetation.

**CAPITAL.**— $\Psi$ Castries (estimated population 1980, 48,782) is recognized as being one of the finest ports in the West Indies on account of its reputation as a safe anchorage in the hurricane season.

**FLAG.**—Blue, bearing in centre a device of yellow over black over white triangles having a common base.

### GOVERNMENT

St. Lucia became independent within the Commonwealth on Feb. 22, 1979. The Head of State is H.M. The Queen, represented in the island by a St. Lucian Governor-General, and there is a bicameral legislature. The Senate has 11 members, 6 appointed by the ruling party, 3 by the Opposition and 2 by the Governor-General. The House of Assembly, which has a life of five years, has 17 elected Members and a Speaker, who may be elected from outside the House. *Governor-General*, His Excellency Boswell Williams. *Prime Minister, Minister of Finance, Development and Foreign Affairs*, Hon. The principal exports are bananas, coconut oil (raw and refined), cardboard boxes, copra, beer and textile manufactures. The chief imports are flour, meat, machinery, building materials, motor vehicles, cotton piece goods, petroleum and fertilisers.

## St. Vincent and the Grenadines

The territory of the State of St. Vincent includes certain of the Grenadines, a chain of small islands stretching 40 miles across the Caribbean Sea between Grenada and St. Vincent, some of the larger of which are Bequia, Canouan, Mayreau, Mustique, Union Island, Petit St. Vincent and Prune Island. The whole territory extends 150 square miles (96,000 acres).

The main island, St. Vincent, is situated between 13° 6' and 14° 35' N. latitude and 61° 6' and 61° 20' W. longitude, approximately 21 miles south west of St. Lucia and 100 miles west of Barbados. The island is 18 miles long and 11 miles wide at its extremities comprising an area of 133 square miles and an estimated population of 119,942 (1979). St. Vincent was discovered by Christopher Columbus in 1498. It was granted

by Charles I to the Earl of Carlisle in 1627 and after subsequent grants and a series of occupations alternately by the French and English, it was finally restored to Britain in 1783.

CAPITAL and principal port is  $\Psi$ Kingstown, population approximately 34,000.

GOVERNMENT

St. Vincent and the Grenadines achieved full independence within the Commonwealth on Oct. 27, 1979.

St. Vincent has a constitution under which there is a Governor-General who is Her Majesty's Representative. Except where otherwise provided, the Governor-General is required to act in accordance with the advice of the Prime Minister.

The House of Assembly consists of 13 elected members, 6 Senators appointed by the Governor-General and the Attorney-General. It is presided over by a Speaker elected by the House from within or without it.

*Governor-General*, His Excellency Sir Sydney Douglas Gun-Munro, G.C.M.G., M.B.E.

*Economy*.—This is based mainly on agriculture but the tourist and manufacturing industries have been expanding. The main products are bananas, arrow-root, coconuts, sugar, cocoa, spices and various kinds of food crops. The main imports are foodstuffs (meat, rice, beverages), textiles, lumber, cement and other building materials, fertilizers, motor vehicles and fuel.

*Education*.—Primary and secondary education in Government schools is free but not compulsory. In 1979-80 there were 24,346 enrolments in primary schools and 5,421 enrolments in secondary schools.

Seychelles

The Republic of Seychelles, in the Indian Ocean, consists of two distinct collections of islands—the relatively compact granitic group, 45 islands in all, with high hills and mountains (highest point about 2,990 ft.), of which Mahé is the largest and most populated; and the outlying coralline group, numbering 49 more and, for the most part, only a little above sea-level. The total land area of the islands is 171.4 square miles, spread over about 400,000 square miles of ocean. Although only 4° S. of the Equator, the climate is pleasant though tropical. The population was estimated at the end of 1980 to be 64,303. The average natural growth rate (1981) was 0.9 per cent. Proclaimed as French territory in 1756, the Mahé group began to be settled as a dependency of Mauritius from 1770, was captured by a British ship in 1794 and was finally assigned to Great Britain in 1810. By Letters Patent of September, 1903, these islands, together with the coralline group, were formed into a separate Colony. On June 29, 1976, the Islands became an independent republic within the Commonwealth. A *coup d'état* took place on June 5, 1977.

CAPITAL.— $\Psi$ Victoria (population, 1981, 25,000), on the N.E. side of Mahé.

GOVERNMENT

A new constitution making Seychelles a one-party state came into force in June 1979 and provides for a President with executive power elected by popular vote, a Council of Ministers a People's Assembly of 25 members, an independent judiciary commission and an integrity commission.

Sierra Leone

AREA AND POPULATION, ETC.—Sierra Leone, with a total land area of 27,925 square miles and a population of 14,600,000 (1981 census; preliminary reports), is on the west coast of Africa, between Guinea and Liberia. The origins of the country date back to the late 18th century when a project was begun to settle destitute Africans from England on Freetown peninsula. In 1808 the settlement was declared a Crown Colony and became the main base in West Africa for enforcing the 1807 Act outlawing the slave trade. The Colony was

also used as a settlement for Africans from North America and the West Indies, and great numbers of Africans rescued from slave ships, also settled there. Their descendants, known as Creoles, still live on Freetown peninsula. The southern half of Sierra Leone is inhabited by peoples whose languages fall into the Mende group; the northern half by the Temne, and smaller groups such as the Limba, Loko, Koranko and Susu.

**CAPITAL.**—Freetown (population, 274,000).

**FLAG.**—Three horizontal stripes of leaf green, white and cobalt blue.

**NATIONAL DAY.**—April 19.

#### GOVERNMENT

Sierra Leone became a fully independent state within the Commonwealth on April 27, 1961. On April 19, 1971 a Republican Constitution was adopted and Dr. Siaka Stevens became the first Executive President. In June 1978 Sierra Leone became a one-party State, following approval by Parliament and a Referendum. Opposition Members of Parliament declared for the ruling A.P.C., rather than lose their seats.

The first General Election under the one party system was held on May 1, 1982. The Parliament now comprises 85 elected members and 12 Paramount Chiefs, plus four nominated members, two of whom are the Army Commander and the Commissioner of Police.

#### COMMUNICATIONS

Since the phasing out of the railway system in 1974 the road network has been developed considerably and there are now 5,000 miles of roads in the country, over 2,000 miles being surfaced. A bridge has been constructed over the Mano River linking Sierra Leone and Liberia.

The Freetown international airport is situated at Lungi, across the Sierra Leone River from Freetown. The main port is Freetown, which has one of the largest natural harbours in the world, and where there is a deep water quay providing about six berths for medium sized ships. There are smaller ports at Pepel (at present not used) and Bonthe.

Radio and television are operated by the Department of Broadcasting of the Sierra Leone Government. There are two shortwave transmitting and

receiving stations in Freetown. A 250 KW radio transmitter has been installed which covers the whole country. Broadcasts are made in several of the more important indigenous languages in addition to English. There is also a weekly broadcast in French. The television service was established in 1963 and transmits five hours of programmes each evening. Transmissions cover about two-thirds of the country.

#### EDUCATION

There are 1,277 primary schools in Sierra Leone and 153 secondary schools. Technical education is provided in the two Government Technical Institutes, situated in Freetown and Kenema, in two Trade Centres and in the technical training establishments of the mining companies. Teacher training is carried out at the university, six colleges in the Provinces and in the Milton Margai Training College near Freetown. The University of Sierra Leone (1967), consists of Fourah Bay College (1827) and Njala University College (1964).

#### PRODUCTION AND TRADE

On the Freetown Peninsula, farming is largely confined to the production of cassava and garden crops, such as maize and vegetables, for local consumption. In the hinterland, the principal agricultural product is rice, which is the staple food of the country, and cash crops such as cocoa, coffee, palm kernels, and ginger.

The economy depends largely on mineral exports (66 per cent), mainly diamonds and bauxite. Rutile production recommenced in 1979 and iron ore in 1981. Exports of diamonds in 1981-82 totalled Le60 million.

Total exports in 1980-81 were estimated at Le177,236,000.

#### FINANCE

In August 1964, Sierra Leone adopted decimal currency. The basic unit is the Leone. In October 1978, President Stevens announced that the Leone was to be delinked from the pound and pegged to the SDR (Special Drawing Rights). This resulted in a 5 per cent devaluation.

Total revenue was estimated at Le220.7 million in 1981-82; total expenditure Le362.3 million (extra-budgetary expenditure resulting in a deficit of Le141.6 million).

## Singapore

The Republic of Singapore consists of the island of Singapore and 54 smaller islands, covering a total area of 230 square miles. Singapore Island is 26 miles long and 14 miles in breadth and is situated just north of the Equator off the southern extremity of the Malay Peninsula, from which it is separated by the Straits of Johore. A causeway, carrying a road and railway, crosses the three-quarters of a mile to the mainland. The highest point of the island is 581 feet above sea level.

**CLIMATE.**—The climate is hot and humid and there are no clearly defined seasons. Rainfall averages 96 inches a year and temperature ranges from 24°-31° C (76°-87° F).

**POPULATION.**—At the 1980 census this was 2,362,700. The population is multiracial with a preponderance of Chinese. The racial groups were in 1980: Chinese—1,819,600; Malays—359,700; Indians—162,800; others

(Europeans, Eurasians, etc.)—48,700. At least 8 Chinese dialects are used and Malay, Mandarin, Tamil and English are the official languages.

FLAG.—Horizontal bands of red over white; crescent with five five-point stars on red band near staff.

NATIONAL DAY.—August 9.

GOVERNMENT

Singapore, where Sir Stamford Raffles had first established a trading post under the East India Company in 1819, was incorporated with Penang and Malacca to form the Straits Settlements in 1826. The Straits Settlements became a Crown Colony in 1867. Singapore fell into Japanese hands in 1942 and civil government was not restored until 1946, when it became a separate colony. Internal self-government and the title "State of Singapore" were introduced in 1959. Singapore became a state of Malaysia when the Federation was enlarged in September, 1963, but left Malaysia and became an independent sovereign state within the Commonwealth on August 9, 1965. Singapore adopted a Republican constitution from that date, the Yang di-Pertuan Negara being re-styled President. There is a Cabinet collectively responsible to a fully-elected Parliament of 69 members.

COMMUNICATIONS

Singapore is one of the largest seaports in the world, with deep water wharves and ship repairing facilities. Ships also anchor in the roads, unloading into lighters. 73,339,000 tons of cargo were handled in 1978. The Airport is at Paya Lebar, 7½ miles from the centre of the city, and a new international airport is being built at Changi. There are 16 miles of metric gauge railway connected to the Malaysian rail system by the causeway across the Straits of Johore, and 2,285 kilometres of roads. There are both wireless and wired broadcasting services carrying commercial advertising. Television was introduced in 1963 and a colour service on two channels in 1974. Radio Singapore and Television Singapore amalgamated to form the Singapore Broadcasting Authority Corporation in February 1980.

PRODUCTION, ETC.

Historically Singapore's economy was largely based on the sale and distribution of raw materials from surrounding countries and on entrepot trade in finished products. In the last decade, however, new manufacturing industries have been introduced, including ship building and repairing, iron and steel, textiles, footwear, wood products, micro-electronics, scientific instruments, detergents, confectionery, pharmaceuticals, petroleum products, sanitary-ware, building materials, domestic electrical appliances, plastic articles, transport equipment, etc. Singapore has also become a financial centre with over ninety banks established in the Republic, and an oil-refining centre.

Projects now being undertaken include the construction of a rail underground system; further reclamation of marshy land at Jurong Town; extension of other industrial estates; the building of more low-cost housing units by the Housing & Development Board; a new drainage system throughout the island; and the development of additional water-supply catchments.

Solomon Islands

Forming a scattered archipelago of mountainous islands and low-lying coral atolls, Solomon Islands stretches about 900 miles in a south-easterly direction from Bougainville, in Papua New Guinea, to the Santa Cruz islands. The archipelago covers an area of about 249,000 square nautical miles while the land area is approximately 11,500 square miles. Solomon Islands lies between the east longitudes 155° 30' and 170° 30' and between south latitudes 5° 10' and 12° 45'. The six biggest islands are: Choiseul, New Georgia, Santa Isabel, Guadalcanal, Malaita and San Cristobal. They are characterised by precipitous, thickly-forested mountain ranges intersected by deep, narrow valleys, and vary between 90 to 120 miles in length and between 20 to 30 miles in width.

Distribution of population at the Census of 1976 was: Melanesian 183,665; Polynesian 7,821; Micronesian 2,783; European 1,359; Chinese 452; Others 773. Total 196,823.

CAPITAL, Honiara (population 14,942).

*Governor-General*, Sir Baddeley Devesi, G.C.M.G. (1978).

*Prime Minister*, Solomon Mamaloni.

*Deputy Prime Minister and Minister for Home Affairs and National Development*, Kamilio Teke.

#### FINANCE AND TRADE

Revenue (1980), \$56,121,000 (incl. British Development Aid \$10,340,000 and grant \$1,500,000).

The main imports are foodstuffs, consumer goods, machinery and transport materials. Principal exports are copra, timber, fish and palm oil. Other exports include cocoa, marine shells, tobacco and scrap metal.

#### JUDICIARY

The High Court of Solomon Islands, constituted by the Solomon Islands Independence Order, consists of a Chief Justice and not fewer than two nor more than three Puisne Judges. The Court of Appeal Act was enacted on May 8, 1978.

#### COMMUNICATIONS

An internal air service, Solair, serves 22 airstrips throughout the country, four of which are designated international airports. Air Pacific makes two air connections weekly to Brisbane via Honiara, one of which is a combined service with Solair. Air Nauru makes two flights a week, and Air Niugini also

provides flights between Honiara/Port Moresby twice a week. Solair has also extended its services to Bougainville three times a week and to Santo in the New Hebrides once a week.

There are about 52 miles of secondary and minor roads in the urban areas of Honiara, Auki and Gizo. About 18 miles of road in and around Honiara and one mile in Auki and Gizo are bitumen sealed, the remainder being coral or gravel surfaced. In the rural areas there are some 800 miles of road, including those in private plantations, forestry areas and roads built and maintained by councils. All main islands have transreceivers to maintain communications with Honiara and there is a VHF link between Honiara and Auki and also between Honiara and Tulagi.

A new company, Soltel, jointly owned by Cable and Wireless Limited and Solomon Islands Government operates the international telephone circuits from a ground station in Honiara via the Intelsat Pacific Ocean communication satellite.

## Sri Lanka

**AREA AND POPULATION.**—Sri Lanka (formerly Ceylon) is an island in the Indian Ocean, off the southern tip of the peninsula of India and separated from it by a narrow strip of shallow water, the Palk Strait. Situated between 5° 55'–9° 50' N. latitude and 79° 42'–81° 52' E. longitude, it has an area of 25,332 square miles, including 33 square miles of inland water. Its greatest length is from north to south, 270 miles; and its greatest width 140 miles, no point in Sri Lanka being more than 80 miles from the sea.

The population at the 1981 census was 14,800,001.

**RACES AND RELIGIONS.**—At the 1981 Census the total population was found to be 14.8 million. Of these 74 per cent were Sinhalese, 12.6 per cent Sri Lankan Tamils, 5.6 per cent Indian Tamils, 7.1 per cent Sri Lankan Moor and 0.7 per cent Burghers, Malays and others. The religion of the great majority of inhabitants is Buddhism, introduced from India, according to ancient Sinhalese chronicles, in 247 B.C. Next to Buddhism, Hinduism has a large following.

**PHYSIOGRAPHY.**—From a central massif of mountains the land slopes down to the sea on all sides in a series of three peneplains. These lie at approximately 6,000 feet, 1,600 feet and 100 feet. The lowest is broadest towards the north and continues for a distance out to sea as a continental shelf; a coral reef, for the most part submerged, lies close to the coast. The highest peaks are Pidurutalagala (8,281 ft.), Kirigalpota (7,857 ft.), Totapola Kanda (7,741 ft.), Adam's Peak (7,360 ft.), a place of pilgrimage for Buddhists, Hindus and Moslems, and Great Western (7,269 ft.). The Peninsula of Jaffna and the island of Mannar are featureless level stretches.

The Mahaweli-Ganga, 208 miles long, is the largest river of Sri Lanka, rising on the western side of the central hilly ridge, and flowing north east into Trincomalee Bay. None of the rivers is navigable by ocean-going vessels. Dunhinda (Badulla), Diyuluma (Koslanda), Elgin (Hatton Plateau) and Perawella are among the outstanding waterfalls. Forests, jungle and scrub cover the greater part of the island, often being intermingled. The forests, of varying species, extend from fairly near the coast right into the hill country. In areas over 2,000 feet above sea level grasslands (*patanas* or *talawas*) are found.

**CLIMATE.**—The climate of Sri Lanka is warm throughout the year, with a high relative humidity. Temperatures average 80° F. during the year in the lowlands, falling off in the hills to 60° F. at elevations over 6,000 ft. Day humidity is over 70 per cent and night humidity over 85 per cent. Temperature ranges vary little between wet and dry seasons. In the hills the climate is more temperate. Traces of ground frost appear occasionally at night and thunderstorms occasionally give hail, but snow is completely absent. Rainfall is generally heavy, with marked regional variations; the heaviest falls (200–250 inches) are recorded on the south-west slopes of the central hills. The two main monsoon seasons are mid-May to September (south-west) and November to March (north-east).

**CAPITAL.**—ΨColombo, population (1981, 585,776). Other principal towns are ΨJaffna (118,215), Kandy (101,281), ΨGalle (77,183), ΨNegombo (51,376) and ΨTrincomalee (44,913).

FLAG.—On a dark red field, within a golden border, a golden lion passant holding a sword in its right paw, and a representation of a bo-leaf, issuing from each corner; and to its right, two vertical stripes of saffron and green also placed within a golden border, to represent the minorities of the country.

INDEPENDENCE DAY.—Feb. 4.

### GOVERNMENT

Early in the sixteenth century the Portuguese landed in Ceylon and founded settlements, eventually conquering much of the country. Portuguese rule in Ceylon lasted 150 years during which the Roman Catholic religion was established among the Sinhalese inhabitants and to some extent Portuguese modes of living adopted. In 1658, following a twenty-year period of decline, Portuguese rule gave place to that of the Dutch East India Company which was to exploit Ceylon with varying fortunes until 1796.

The Maritime Provinces of Ceylon were ceded by the Dutch to the British on February 16, 1798, becoming a British Crown Colony in 1802 under the terms of the Treaty of Amiens. With the annexation of the Kingdom of Kandy in 1815, all Ceylon came under British rule.

On February 4, 1948, Ceylon became a self-governing state and a member of the British Commonwealth of Nations under the *Ceylon Independence Act 1947*. A republican Constitution was adopted on May 22, 1972, providing for a unicameral legislature, the National State Assembly, which has a six year term, and the country was renamed the Republic of Sri Lanka (meaning 'Resplendent Island'). On Feb. 4, 1978, Mr. Junius Jayewardene became the first Executive President and on Sept. 5 the position was consolidated by a new Constitution which also introduced the title the Democratic Socialist Republic of Sri Lanka and a system of proportional representation. (A Presidential election is arranged for Oct. 20, 1982).

### THE LEGISLATURE

According to the Constitution, the legislative power of the people is to be exercised by Parliament, the executive power being exercised by the President.

### THE JUDICATURE

The Judicial System provides for a Supreme Court, a Court of Appeal, a High Court and other Courts of First Instance.

### PRODUCTION

*Agriculture.*—The staple products of the island are tea, rubber, copra, spices and gems. There is increasing emphasis on local production of food, especially rice, and plans for the large-scale production of sugar cane, cotton and citrus fruits.

*Industry.*—Factories are established for the manufacture or processing of ceramic ware, vegetable oils and by-products, paper, tobacco, tanning and leather goods, plywood, cement, chemicals, sugar, flour, salt, textiles, ilmenite, tiles, tyres, fertilizers, clothing, jewellery and hardware and there is a petroleum refinery.

### COMMUNICATIONS

There are over 15,660 miles of motorable roads in Sri Lanka and a government-run railway system with 984 miles of lines.

On May 6, 1976, Sri Lanka inaugurated a satellite earth station at Padukka, in south-west Sri Lanka. Constructed with assistance from the Asian Development Bank, the earth satellite station provides instant telecommunication links *via* satellite with any part of the globe.

The principal airports are at Katunayake, 19 miles north of Colombo, and Ratmalana, nine miles south of the capital. Air Lanka operates on 52 flights weekly to Bangkok, Singapore, Trivandrum, Madras, Bombay, the Republic of Maldives, Bahrain, Dubai, London, Paris, Frankfurt and Zürich.

## Swaziland

Surrounded by South Africa on its northern, western and southern borders and by Mozambique to the east, this small land-locked country is geographically and climatically divided into three principal areas. The broken mountainous Highveld along the western border with an average altitude of 4,000 feet has been densely afforested mainly with conifers and eucalyptus; the Middleveld, averaging about 2,000 feet, is a mixed farming area including rice and pineapples; and the Lowveld in the east which was mainly scrubland until the introduction of large sugar cane plantations west of the Lubombo mountain range and the Mozambique border. Four rivers, the Komati, Usutu, Mbuluzi and Ngwavuma, flow from west to east, cutting their way through the Lubombo mountains to the Indian Ocean. The exploitation of these rivers is particularly important to the agricultural development of the Middle and Lowveld, where irrigation schemes have

promoted the introduction of sugar cane and have effectively altered the landscape of the Bushveld (Lowveld). The total area of Swaziland is 6,782 sq. miles and the population is estimated at some 600,000.

**CAPITAL.**—Mbabane (population, estimated 25,000), the headquarters of the Government, is situated on the hills at an altitude of 3,800 ft. Other main townships are: Manzini (population 26,000), Hlatikulu, Seteki, Nhlanguano, Pigg's Peak, Havelock, Big Bend, Mhlume, Lusoti and Ngomane.

**FLAG.**—Five horizontal bands, crimson, bearing shield and spears device, bordered by narrow yellow bands; blue bands at top and foot.

#### GOVERNMENT

The Kingdom of Swaziland came into being on April 25, 1967, under a new internal self-government constitution and became an independent kingdom, headed by H.M. Sobhuza II, in membership of the Commonwealth on September 6, 1968. On April 12, 1973, the King, in response to a motion passed by both Houses of Parliament, repealed the Parliamentary Constitution of 1968 and assumed supreme legislative, executive and judicial power, to be exercised in collaboration with a Council constituted by his Cabinet Ministers. A new electoral law was introduced (experimentally) in 1978, under which each of the 40 traditional Tinkhundla elect two members to the electoral college who elect 40 members to the House of Assembly. The King nominates 10 members to the House of Assembly, making 50 in all, who then elect 10 members (not of their own number) to the Senate. To these are added 10 senators nominated by the King, bringing the full membership of the Senate to 20. Under the Establishment of the Parliament of Swaziland Order, 1978, the King continues to reserve a large measure of executive, legislative and judicial authority.

*King of Swaziland*, (Queen Dzewile will act as Regent until a successor to H.M. Sobhuza II is crowned).

#### EDUCATION

In 1979 the primary school enrolment was 105,607;

junior secondary schools, 22,091; senior secondary schools, 4,123.

#### COMMUNICATIONS

Swaziland's railway was completed in 1964 and is for goods traffic only. It is about 140 miles long starting at Ngwenya in the Highveld and running across the eastern border to the Mozambique port of Maputo. A rail link to South Africa *via* Gollel was opened in 1978.

All passenger and most goods traffic is carried by privately-owned motor transport services. There are daily scheduled air services from Matsapha International Airport to Johannesburg by Royal Swazi National Airways and South African Airlines. Royal Swazi National Airways also have scheduled routes to Durban, Lusaka, Mauritius, Nairobi, Salisbury, Blantyre, Seychelles and Madagascar. Modern telephone and telex services provide international communications through Mbabane and Manzini via South Africa.

#### FINANCE

Government revenue and expenditure for 1982-83 was estimated at E.190,000,000. It is expected that E.117,000,000 of the Government's revenue will come from their share of the receipts of the Common Customs Union with South Africa, Botswana and Lesotho. Capital expenditure for 1982-83 was estimated at E.55,000,000. Aid from foreign donors including the U.K. was estimated at E.35,000,000.

#### CURRENCY

Swaziland is a member of the Rand Monetary Union and its unit of currency Emalangeni (singular Lilangeni) has a par value with the South African Rand.

## Tanzania

Tanganyika, the mainland part of the United Republic of Tanzania (Tanganyika and Zanzibar), occupies the east-central portion of the African continent, between 1°-11° 45' S. lat. and 29° 20'-40° 38' E. long. It is bounded on the N. by Kenya and Uganda; on the S.W. by Lake Malawi, Malawi and Zambia; on the S. by Mozambique; on the W. it is bounded by Rwanda, Burundi and Zaire; on the E. the boundary is the Indian Ocean. Tanganyika has a coastline of about 500 miles and an area of 362,820 sq. miles (including 20,650 sq. miles of water). The greater part of the country is occupied by the Central African plateau from which rise, among others, Mt. Kilimanjaro, the highest point on the continent of Africa (19,340 ft.) and Mt. Meru (14,974 ft.). The Serengeti National Park, which covers an area of 6,000 sq. miles in the Arusha, Mwanza and Mara Regions, is famous for its variety and number of species of game.

The African population consists mostly of tribes of mixed Bantu race. The total population of Tanzania at the Census held in August, 1978 was 17,551,925; Africans form a very large majority, while the Europeans, the Asians, and other non-Africans form a small minority. Annual average population growth is 3.3 per cent. The total population of Zanzibar at the 1978 census was 475,655. Swahili is the national and official language. English is the second official language, both for educational and government purposes.

*Zanzibar.*—Formerly ruled by the Sultan of Zanzibar, and a British Protectorate until Dec. 10, 1963. Zanzibar consists of the islands of Zanzibar, Pemba and Latham. It has a total area of approximately

1,000 sq. miles. The islands produce a large part of the world's supply of cloves and clove oil, and coconuts, coconut oil and copra are also produced.

Zanzibar became internally self-governing on June 24, 1963, and fully independent on Dec. 10, 1963. The revolutionary Afro-Shirazi party seized power on Jan. 12, 1964, and the Sultan was forced to leave the country. Later Zanzibar united with Tanganyika (see below).

**CAPITAL.**—Dar es Salaam (population about 757,346 (mid-1978)). Other towns (1978 population) are ΨTanga (103,409); Mwanza (110,611); Arusha (55,281); Moshi (52,223); Morogoro (61,890); Dodoma (45,703); Tabora (67,392) and Mtwara (48,510). In Zanzibar, the chief town and seaport of that name (population, 110,669) provides facilities for shipping and trade. The principal international airports are Dar es Salaam and Kilimanjaro. Other airports include Zanzibar, Arusha, Mwanza and Tanga.

**FLAG.**—Green (above) and blue; divided by diagonal black stripe bordered by gold, running from bottom (next staff) to top (in fly).

**NATIONAL DAY.**—April 26 (Union Day).

### GOVERNMENT

Following a constitutional conference held in Dar es Salaam in March, 1961, Tanganyika became an independent state and a member of the British Commonwealth on December 9, 1961.

Tanganyika became a Republic, within the Commonwealth, on December 9, 1962, with an executive President, elected by universal suffrage, who is both the Head of State and Head of the Government. Tanzania is a one-party state. General and Presidential elections have been held every five years since 1965. The President is elected by a national referendum on a simple majority. Two candidates stand in each parliamentary constituency, selected by the ruling party in primary elections. In 1977 the Tanganyika African National Union (TANU) and the Afro-Shirazi party of Zanzibar merged to form the C.C.M. Party.

On April 25, 1964, following a Parliamentary ratification of an agreement signed by the President of the Republic of Tanganyika and the President of the People's Republic of Zanzibar and Pemba, Tanganyika united with Zanzibar to form a new sovereign state. The present Constitution of April 1977 provides that the President should come from one part of the Union and the Vice-President from the other. Zanzibar retains some internal autonomy with a Revolutionary Council, but Zanzibar Ministers and MPs take part in the Union government. Tanganyika has a separate government. 111 members of the National Assembly are elected, 10 nominated, 20 *ex officio*, 40 indirectly elected and 64 from Zanzibar (from the Zanzibar Revolutionary Council as chosen by the Zanzibar House of Representatives) and the Vice-President—a total of 246 members. In addition there is a speaker. The C.C.M. (Revolutionary Party) is the supreme organ of the state in policy matters. The National Assembly is the legislature and subordinate to the Party, which is the only one permitted.

*President of the United Republic, Mwalimu Julius K. Nyerere, b. 1922; elected Nov. 1962; took office Dec. 9, 1962; re-elected Sept., 1965, Nov., 1970, Oct., 1975 and Oct. 1980.*

### EDUCATION

Education, almost entirely under state control, is characterised by official insistence that education must serve the aims of overall Government policy and planning. All Tanzanian Secondary Schools are expected to include practical subjects in the basic course. All who receive secondary (or equivalent) education are called up for a period of National Service. The school system is administered in Swahili and the intention is for the national language to become the medium at all levels. For higher education most Tanzanian students go to the University of Dar es Salaam, other East African universities, or to Universities and Colleges outside East Africa, mainly in Britain.

### PRODUCTION AND TRADE

The economy is based mainly on the production and export of primary produce and the growing of foodstuffs for local consumption. The chief export crops are coffee, cotton, sisal, cloves, tea, tobacco and cashew nuts. The most important minerals are diamonds. Hides and skins are another valuable export. Industry is at present largely concerned with the processing of raw material for either export or local consumption. There is also a healthy growth of secondary manufacturing industries, including factories for the manufacture of leather and rubber footwear, knitwear, razor blades, cigarettes and textiles, and a wheat flour mill.

## Tonga

The Kingdom of Tonga, or Friendly Islands, is an independent constitutional monarchy within the Commonwealth. Prior to June 4, 1970 it had been a British-protected state for 70 years. The islands are situated in the Southern Pacific some 450 miles to the E.S.E. of Fiji, with an area of 288 sq. miles, and population (end 1981 estimate) of 98,000. The largest island, Tongatapu, was discovered by Tasman in 1643. Most of the islands are of coral formation, but some are volcanic (Tofua, Kao and Niuafoou or "Tin Can" Island). The limits of the group are between 15° and 23° 30' S., and 173° and 177° W.

CAPITAL.—Nuku'alofa (18,396).

FLAG.—Truncated red cross on rectangular white ground (next staff) on a red field.

### GOVERNMENT

The constitution provides for a Government consisting of the Sovereign, a privy council and cabinet, a legislative assembly and a judiciary. The legislative assembly has 24 members, with a Speaker, and includes the Ministers of the Crown, the two Governors of Island groups, and the representatives of the Nobles and of the people (seven of each), who are elected triennially.

## Trinidad and Tobago

AREA AND POPULATION.—*Trinidad*, the most southerly of the West Indian Islands, lies close to the north coast of the continent of S. America, the nearest point of Venezuela being 7 miles distant. The island is situated between 10° 3'–10° 50' N. lat. and 60° 55'–61° 56' W. long., and is about 50 miles in length by 37 miles in width, with an area of 1,864 sq. miles. *Population*.—Of the population (estimated at 1,136,900 in June 1978), 42 per cent are Negro, 42 per cent East Indian, 2 per cent European, Chinese, and others and 14 per cent of mixed descent.

The island was discovered by Columbus in 1498, was colonized in 1532 by the Spaniards, capitulated to the British under Abercromby in 1797, and was ceded to Britain under the Treaty of Amiens (March 25, 1802). Two mountain systems, the Northern and Southern Ranges, stretch across almost its entire width and a third, the Central Range, lies somewhat diagonally across its middle portion; otherwise the island is mostly flat. The highest peaks are in the Northern Range (Aripo 3,085 ft., El Tucuche 3,072 ft.). The climate is tropical with temperatures averaging 82° F. by day and 74° F. by night, and a rainfall averaging 82.7 inches a year. There is a well-marked dry season from January to May and wet season from June to December. The nights are invariably cool. The main tourist season is from December to April.

*Tobago* lies between 11° 9' and 11° 21' N. lat. and between 60° 30' and 60° 50' W. long., about 75 miles south-east of Grenada, 19 miles north-east of Trinidad, and 120 miles S.W. of Barbados. It was ceded to the British Crown in 1814 and amalgamated with Trinidad in 1888. The island is 26 miles long, and 7½ wide, and has an area of 116 sq. miles. The population was 33,333 in the 1961 census and was estimated at 40,950 in June 1978. It is one of the healthiest of the West Indies and a popular tourist resort. The main town is Scarborough.

*Other Islands*.—Corozal Point and Icacos Point, the N.W. and S.W. extremities of Trinidad, enclose the Gulf of Paria, and west of Corozal Point lie several islands, of which Chacachacare, Huevos, Monos and Gaspar Grande are the most important.

CAPITAL.—Port of Spain (population approximately 120,000) is the administrative centre of the island. Programmes are currently being planned to extend and improve the supply of utilities to the city which are at present inadequate to meet the demand largely created by recent building development. A town of growing importance is San Fernando, about 33 miles south of the capital (population about 60,000), which is emerging as the business centre of Trinidad, near which a number of large industrial plants are being constructed.

FLAG.—Black diagonal stripe bordered with white stripes, running from top by staff, all on a red field.

NATIONAL DAY.—August 31 (Independence Day).

### GOVERNMENT

The Territory of Trinidad and Tobago became an independent state and a member of the British Commonwealth on August 31, 1962, under the Trinidad and Tobago Independence Act, 1962, and a republic in 1976. The President is elected for 5 years by all members of the Senate and the House of Representatives. The House of Representatives has 36 members elected by universal adult suffrage and

the Senate has 31, of whom 16 are appointed on the advice of the Prime Minister, 6 on the advice of the Leader of the Opposition and 9 on the advice of the President. Legislation was passed in Sept. 1980 which afforded Tobago a degree of self-administration.

*High Commissioner*, His Excellency David Neil Lane (1980).

EDUCATION

The education system is based on the British model and covers primary and secondary schools and university. The system provides for free education at all state-owned and government-assisted denominational schools and certain faculties at the University of the West Indies. In addition there are various private teaching establishments. Selection to secondary schools is by common entrance examination at 11 years. There are two technical institutes, two teachers' training colleges, and one of the three branches of the University of the West Indies is located in Trinidad, at the St. Augustine campus.

COMMUNICATIONS

There are some 4,000 miles of all-weather roads. The only general cargo port is Port of Spain but there

are specialized port facilities elsewhere for landing crude oil, loading refinery products and sugar and for landing, storing and trans-shipping bauxite and cement. Regular shipping services call at Port of Spain, which is also a port for the many small inter-island craft. International scheduled airlines, including the national airline, Trinidad and Tobago Airways (BWIA) Corporation, use Piarco International Airport outside Port of Spain. The airline also flies between Piarco and Crown Point Airport in Tobago.

There are four commercial broadcasting stations and one commercial television station. There is an internal telephone system and external telephone and telegraph connections.

PRODUCTION

Oil, which is extracted from both offshore and on-shore, is the main source of the country's revenue. Present production is averaging 212,000 b.p.d., the majority of which is exported in crude form. The two major oil refineries which have a combined capacity of 450,000 b.p.d., refine in the main imported crude. With large reserves of natural gas, currently estimated at 14 trillion cubic feet, there is emphasis on the development of manufacturing industries, which are energy intensive. An integrated steel plant and an anhydrous ammonia plant have been constructed; a methanol and a urea plant, an aluminium smelter and an LNG plant are planned. Large scale water projects and extensive highway improvements are being undertaken. Fertilisers, tyres, clothing, soap, furniture and some foodstuffs are manufactured locally while motor vehicles, radios, TV sets, and electro-domestic equipment are assembled.

Total exports in 1980 amounted to TT\$9,755 million, of which TT\$9,156 million was on account of crude oil and petroleum products. Other main exports were sugar and chemicals. Total imports in 1980 were TT\$7,585 million, of which TT\$2,876 million was accounted for by imports of crude oil.

Tuvalu

Tuvalu, formerly the Ellice islands, formed part of the Gilbert and Ellice Islands Colony until October 1, 1975. Separation from the Gilbert Islands took place on January 1, 1976.

Tuvalu comprises nine coral atolls situated in the South West Pacific around the point at which the International Date Line cuts the Equator. The total land area is only about 10 square miles. Few of the atolls are more than 12 feet above sea level or more than half a mile in width. The vegetation consists mainly of

coconut palms. The resident population according to the 1979 Census was 7,349, but it is estimated that about 1,500 Tuvaluans work overseas, mostly in Nauru, or as seamen. The entire population is Christian and is predominantly Protestant. Most people still practise a subsistence economy, the main staples of their diet being coconuts and fish. The main imports are foodstuffs, consumer goods and building materials. The only export is a small amount of copra, but philatelic sales provide a major source of revenue.

On October 1, 1978, Tuvalu became fully independent as a sovereign state within the Commonwealth. The Constitution provides for a Prime Minister and four other Ministers who must be members of the 12-member elected Parliament. The Prime Minister presides at meetings of the Cabinet, which consists of the five Ministers, and is attended by the Attorney General. Local Government services are provided by elected Island Councils.

The unit of currency is the Australian dollar.

**CAPITAL.**—Funafuti. Estimated population 2,120. The capital has a grass strip airfield from which a service operates regularly to Fiji and Kiribati. An internal air service connects five islands with the capital, which is also the only port.

There are eight primary schools in Tuvalu and a church secondary school run jointly with the Government. The total of enrolled children of school age in 1980 was 1,573. A Maritime Training School started in 1979.

There is a 31-bed hospital at Funafuti. All islands are served by a dispensary and a primary school.

## Uganda

Situated in Eastern Africa, Uganda is flanked by Zaire, the Sudan, Kenya and on the south by Tanzania and Rwanda. Large parts of Lakes Victoria, Edward and Albert (Mobuto) are within its boundaries, as are Lakes Kyoga, Kwana, George and Salisbury and the course of the River Nile from its outlet from Lake Victoria to the Sudan frontier post at Nimule. Despite its tropical location, Uganda's climate is tempered by its situation some 3,000 ft. above sea level, and well over that altitude in the highlands of the Western and Eastern Regions. In South Uganda, temperatures seldom rise above 85° F. (29° C.) or fall below 60° F. (15° C.). The rainfall averages about 50 inches a year which means that the country is covered in a lush green cloak for most of the year. Uganda has three National Parks with a wide variety of wildlife and flora, and a fourth (Lake Mboro) is to open soon.

**AREA AND POPULATION.**—Uganda has an area of 91,000 sq. miles (water and swamp 16,400 sq. miles) and population (estimated, 1980) of 12,600,000. The official language of Uganda is English. The main local vernaculars are of Bantu, Luo and Hamitic origins. Ki-Swahili is generally understood in trading centres.

**CAPITAL.**—Kampala (population of Greater Kampala, 331,000).

**FLAG.**—Six horizontal stripes of black, yellow and red (repeated) with a crested crane emblem on a white orb in the centre.

**NATIONAL DAY.**—October 9 (Independence Day).

### GOVERNMENT

Uganda became an independent state and a member of the Commonwealth on October 9, 1962, after some 70 years of British rule. A Republic was instituted on September 8, 1967, under an executive President, assisted by a Cabinet of Ministers.

Early on Jan. 25, 1971, while the President, A. Milton Obote, was in Singapore at the 1971 Commonwealth Prime Ministers' Meeting, the Uganda Army, with the co-operation of the police forces, assumed control of the country. All political activity in Uganda was suspended. On Jan. 26, 1971, Maj.-Gen. Idi Amin, the Army Commander, proclaimed himself Head of State, later suspending those sections of the constitution dealing with executive and legislative powers, and subsequently ruling by decree. There was some short-lived military opposition in northern parts of Uganda, by troops loyal to Dr. Obote. In 1979, following on risings and military intervention by Tanzania, President Amin was overthrown. Dr. Yusuf Lule became President in April, but in June and was succeeded by Mr. Godfrey Binaisa. Mr. Binaisa was in turn replaced by the Military Commission of the Uganda National Liberation Front, which governed the country until elections were held in December 1980, as a result of which Dr. Obote was returned to power.

Diplomatic relations between the United Kingdom and Uganda, which had been broken off in 1976, were resumed in April 1979.

### EDUCATION

Education is a joint undertaking by the Government, Local Authorities and, to some extent, Voluntary Agencies. The education system is divided into three distinct sectors—Primary, Secondary and Post-Secondary. The Primary course covers the first seven years of schooling. Education at secondary level falls into four categories—Secondary schools, which are of the Grammar type of school with a course extending over six years to Higher School Certificate; Technical Schools; Farm Schools; and Primary Teacher Training Colleges. Further education is provided at the Uganda Technical College,

the National Teachers' College, the Uganda College of Commerce; and Agricultural Colleges. There are also in addition to these, several departmental training schools training staff for different departments. The Medical Department alone has eight such schools training nurses, midwives, medical assistants, health inspectors, and other medical staff.

The National University is Makerere University, Kampala. Founded as a trade school in 1921 it gained university college status in 1949 and became an independent University on the break-up of the University of East Africa in 1970. Long regarded as the principal seat of learning in East Africa, the University has some 3,500 students.

COMMUNICATIONS

There is an international airport at Entebbe, with direct flights to many places in Africa, Asia and Europe. There are 8 other state airports and airfields in Uganda. There are 2,226 kilometres of bituminized

and 25,310 kilometres of gravel roads. The state of the roads at present is very poor. A railway network joins the capital to the western, eastern and northern centres. National Corporations have been established recently to replace the former East African Railways and Airways Corporations of the East African Community which has been in liquidation since early 1977.

TRADE, ETC.

The principal export earners are coffee, cotton, tea and copper. Hydro-electricity is produced from the Owen Falls power station which has a capacity of 150 MW and about 30MW is exported to Kenya. The principal food crops are plantains and bananas, cassava and sweet potatoes.

Vanuatu

The former Condominium of the New Hebrides became an independent republic and a member of the Commonwealth under the name of Vanuatu on July 30, 1980. The *Vanuatu* Group, in the South Pacific Ocean, is situated between 13° and 21° S. and 166° and 170° E. It includes 13 large and some 70 small islands, of coral and volcanic origin, including the Banks and Torres Islands in the North, and has a total land area of about 6,050 square miles. The principal islands are Vanua Lava and Gaua (Banks), Espiritu Santo, Maewa, Pentecost, Aoba, Malekula, Ambrym, Epi, Efate, Erromango, Tanna and Anietyum. Most islands are mountainous and there are active volcanoes on several. The climate is oceanic tropical, moderated by the south-east trade winds which blow between May and October. At other times winds are variable and cyclones may occur. Temperatures range between 60° F. and 29° F, with annual rainfall averaging 90 in. in the south and 155 in. in the north.

The 1979 Census showed a population of 112,596. The national language is Bislama (Pidgin), but English and French are also official languages.

Principal products are copra, frozen fish, timber, canned and chilled beef, coffee and cocoa. Tourism is now an important revenue earner. The currency in use is the *Vatu*.

Western Samoa

Formerly administered by New Zealand (latterly with internal self-government), Western Samoa became, on January 1, 1962, the first fully-independent Polynesian State. The State was treated as a member country of the Commonwealth until its formal admission on August 28, 1970.

Western Samoa consists of the islands of Savai'i (662 sq. miles) and of Upolu, which, with seven other islands, has an area of 435 sq. miles. All islands are mountainous. Upolu, the most fertile, contains the harbours of Ψ Apia and Ψ Saluafata and Savai'i the harbour of Ψ Asau. The islanders are Christians of different denominations. The population at the 1981 census was 158,130, the largest numbers being on Upolu (114,980) and Savai'i (43,150). The main languages spoken are Samoan and English.

The chief exports are copra and cocoa; the chief imports are tobacco, textiles, fuel, chemicals, machinery and other manufactured goods.

CAPITAL.—Ψ Apia (population 33,100). Robert Louis Stevenson died and was buried at Apia in 1894.

FLAG.—Five white stars (depicting the Southern Cross) on a quarter royal blue at top next staff, and three quarters red.

## Zambia

The Republic of Zambia lies on the plateau of Central Africa between the longitudes 22° E. and 33° 33' E. and between the latitudes 8° 15' S. and 18° S. It has an area of 290,587 square miles within boundaries 3,515 miles in length and a population (mid-year estimate, 1980) of 5,834,000, including about 50,000 non-Africans.

With the exception of the valleys of the Zambesi, the Luapula, the Kafue and the Luangwa Rivers, and the Luano valley, the greater part of Zambia has a flat to rolling topography, with elevations varying from 3,000 to 5,000 feet above sea level, but in the north-eastern districts the plateau rises to occasional altitudes of over 6,000 feet. In many localities the evenness of the plateau is broken by hills, sometimes occurring as chains which develop into areas of broken country.

Although Zambia lies within the tropics, and fairly centrally in the great land mass of the African continent its elevation relieves it from the extremely high temperatures and humidity usually associated with tropical countries. The lower reaches of the Zambesi, Luangwa and Kaufe rivers in deeper valleys do experience high humidity and trying extremes of heat, but these areas are remote and sparsely populated.

**CAPITAL.**—Lusaka, situated in the Central Province. Population (estimated, 1980), 641,000. Other centres are Livingstone, Kabwe, Chipata, Mazabuka, Mbala, Kasama, Solwezi, Mongu, Mansa, Ndola, Luanshya, Mufulira, Chingola, Chililabombwe, Kalulushi and Kitwe, the last six towns being the main centres on the Copperbelt.

**FLAG.**—Green with three small vertical stripes, red, black and orange (next fly); eagle device on green above stripes.

### GOVERNMENT

At the dissolution of the Federation of Rhodesia and Nyasaland, on December 31, 1963, Northern Rhodesia (as Zambia was then known) achieved internal self-government under a new constitution. Zambia became an independent republic within the Commonwealth on October 24, 1964—75 years after coming under British rule and nine months after achieving internal self-government. Until December 1972, when the 1964 Constitution was superseded, the country had a multi-party constitution. In July 1973, a new Constitution was introduced, providing that the United National Independence Party shall be the only party.

*President*, Dr. Kenneth David Kaunda, *assumed office* October 24, 1964; *re-elected*, December 1973 and December 1978.

## Zimbabwe

Zimbabwe, the former Southern Rhodesia (named after Cecil Rhodes) comprising eight provinces (Manicaland, Victoria, Matabeleland North, Matabeleland South, Midlands, Mashonaland West, Central and East), lies south of the Zambesi river. The political neighbours are Zambia and Mozambique on the N.; the Transvaal and Botswana on the S. and W., and Mozambique on the E. It has a total area of 150,820 square miles

and a population (estimated 1979) of 7,260,000 (Africans over 7 million; Europeans, Asians and coloured, approximately 250,000). The population is increasing at around 3·5 per cent. annually.

**CAPITAL.**—Harare (Salisbury) situated on the Mashonaland plateau, altitude 4,850 ft., population (December 1977), 601,000 (African 470,000, European 119,000, Asians and coloured 12,500). Bulawayo—the largest town in Matabeleland, altitude 4,450 ft., population (December 1977), 359,000 (290,000 Africans, 57,000 Europeans, 11,000 Asians and coloured). Other centres are Umtali, Gwelo, Gatooma, Que Que, Fort Victoria and Wankie. Harare is 5,600 miles from London (air route), transit 12 hours; by sea via Cape Town, 17 days (approx.).

**FLAG.**—Seven horizontal stripes (green, gold, red, black, red, gold, green) with white triangle at the hoist containing the Zimbabwe bird superimposed on red five-point star.

#### GOVERNMENT

Southern Rhodesia was granted responsible government in 1923. An illegal declaration of independence on November 11, 1965 was finally terminated on December 12, 1979. Following elections in February 1980 the country obtained independence on April 18, 1980 as the Republic of Zimbabwe, a member of the British Commonwealth. The Parliament consists of a House of Representatives of 100 members (20 European) and a Senate of 40 Senators and has a maximum life of five years. The President is elected by the Members of Parliament and holds office for a period of six years.

Recent legislation has now reformed the system of local government and established a series of new district councils for rural areas (elections in the autumn of 1980).

*President*, Rev. Canaan Banana, *elected* April, 11 1980.

#### MINISTRY

*Prime Minister and Minister of Defence*, Robert G. Mugabe.

#### EDUCATION

Since independence, a policy of free primary education has resulted in rapidly expanding enrolment. In 1981, an estimated 1,830,000 children were enrolled in Government and Government aid schools. Although about 90 per cent of schools are private, many receive grants and all teaching staff are paid by the Government.

#### ECONOMY

Agriculture is the chief source of income for more than 70 per cent of the population, and the source of more than one third of the country's earnings. Major crops are maize, wheat, cotton, tobacco and sugar, with diversification occurring significantly in livestock; Zimbabwe's beef herd exceeds 5 million head of cattle, and there are thriving dairy and sheep industries.

Although mining accounts for only 7·5 per cent of the Gross National Product and employs only 6 per cent of the labour force, it plays an important role in the economy as almost 90 per cent of output is exported. Direct mineral exports in 1980 were valued at Z\$300 million. The most important minerals are gold and silver (accounting for nearly 40 per cent of total output in 1980), asbestos, nickel, copper, coal, chrome ore, tin, iron ore and cobalt.

Manufacturing industries contributed more than 25 per cent of the Gross National Product in 1980, employing about 16 per cent of the labour force. Principal products in the light industry sector are foodstuffs, drink and tobacco, textiles, clothing and footwear, wood and furniture, and paper, printing and publishing. Heavy industry includes chemical and petroleum products, non-metallic mineral products, metal and metal products, and transport equipment. Growth in this sector, however, continues to be inhibited by a shortage of skilled labour.

#### BERMUDA

The Bermudas, or Somers Islands, are a cluster of about 100 small islands (about 20 only of which are

inhabited) situated in the west of the Atlantic Ocean, in 32° 18' N. lat. and 64° 46' W. long., the nearest point of the mainland being Cape Hatteras in North Carolina, about 570 miles distant. The total area is now approximately 20·59 sq. miles which includes 2·3 sq. miles leased to, or claimed by, the U.S. authorities between 1941 and 1957 under the terms of the 99 year lease. The civil population was 54,670

at the 1980 Census. The colony derives its name from Juan Bermudez, a Spaniard, who sighted it before 1515, but no settlement was made until 1609, when Sir George Somers, who was shipwrecked here on his way to Virginia, colonized the islands.

Vegetation is prolific, the principal trees being the casuarina and the Bermuda cedar (juniper), formerly of great importance for shipbuilding, but since 1943 almost entirely destroyed by blight. At one time the islands enjoyed a flourishing export in onions, potatoes, and green vegetables, but the imposition of tariffs in U.S.A. and the growing shortage of arable land made further growing for export unprofitable. The lively trade with Canada and U.S.A. and locally manufactured concentrates and pharmaceuticals are now the Colony's leading exports. Little food is produced except vegetables and fish, other foodstuffs being imported.

The Colony's economic structure is based on tourism, which continues to be the major industry and source of revenue. In 1978 a total of 557,466 visitors arrived in Bermuda. The airport is used by British Airways, American Delta, Eastern Airlines and Air Canada Cruise ships dock at Hamilton and St. George.

Free elementary education was introduced in May, 1949. Free secondary education was introduced in 1965 for those children in the aided and maintained schools who were below the upper limit of the statutory school age (16 from 1969 onwards).

There are 5 radio and 2 television stations, one daily and 2 weekly newspapers and overseas telephone and telegraph services are maintained.

#### GOVERNMENT

Internal self-government was introduced on June 8, 1968. There are a Senate of 11 Members and an elected House of Assembly of 40 Members. The Governor retains responsibility for external affairs, defence, internal security and the police, although administrative matters for the Police Service have been delegated to the Minister of Home Affairs.

Voters must be British subjects of twenty-one years of age or older and if they do not possess Bermudian status, they must have been registered as electors before May 1, 1976. Registration is held every year. Candidates for election must qualify as electors and must possess Bermudian status.

## THE BRITISH VIRGIN ISLANDS

The Virgin Islands are a group of islands at the eastern extremity of the Greater Antilles, divided between Great Britain and the U.S.A. Those of the group which are British number about 42, of which 11 are uninhabited, and have a total area of about 59 square miles. The principal are Tortola, the largest (situate in 18° 27' N. lat. and 64° 40' W. long., area, 21 sq. miles), Virgin Gorda (8½ sq. miles), Anegada (15 sq. miles) and Jost Van Dyke (3½ sq. miles). The 1980 Census of Population showed a total population of 12,034 (Tortola (9,322); Virgin Gorda (1,443); Anegada (169); Jost Van Dyke (136); and other islands (82). Apart from Anegada, which is a flat coral island, the British Virgin Islands are hilly, being an extension of the Puerto Rico and the U.S. Virgin Islands archipelago. The highest point is Sage Mountain on Tortola which rises to a height of 1,780 feet. The islands are very picturesque and form one of the finest sailing areas in the world on account of their sheltered waters. The sea is rich in gamefish and there are said to be over 400 wrecks off Anegada. Tourism is the main industry, but there is some cattle raising and fishing. Other products are vegetables, fruit, charcoal and rum.

The islands lie within the Trade Winds belt and possess a pleasant and healthy sub-tropical climate. The average temperature varies from 71° to 82° F. in winter and 78°-88° F. in summer. The summer heat is tempered by sea breezes and the temperature usually falls by about 10° at night. Average rainfall is 53 inches. Hurricanes are very rare—the last occurrence being in 1928.

The principal airport is on Beef Island, linked by bridge to Tortola, and an extended runway of 3,600 feet enables larger aircraft to call. There is a second airfield on Virgin Gorda and a third on Anegada. There are direct shipping services to the United Kingdom and the United States and fast passenger services connect the main islands by ferry.

#### GOVERNMENT

The British Virgin Islands are partially internally self-governing, with a ministerial system. The Governor, appointed by the Crown, remains responsible for defence and internal security, external affairs, the civil service and the administration of the courts, and acts in accordance with the advice of the Executive Council. The Executive Council consists of the Governor as Chairman, one *ex officio* member (the Attorney-General), the Chief Minister and three other ministers. The Legislative Council consists of a Speaker chosen from outside the Council, one *ex officio* member (the Attorney-General), and nine

elected members returned from nine one-member electoral districts. The islands are proud of their tradition of stable government.

*Governor*, His Excellency David R. Barwick, C.B.E., Q.C.

*Chief Minister and Minister of Finance*, Hon. H. L. Stoutt.

*Minister for the Environment and Natural Resources*, Hon. A. U. Anthony.

*Communications, Works and Public Utilities*, Hon. T. B. Lettsome.

*Social Services*, Hon. R. T. O'Neal, O.B.E.

*Attorney-General*, Hon. S. M. H. de Silva.

*Financial Secretary*, K. Bain.

*Deputy Governor*, A. E. Penn.

*Permanent Secretary, Chief Minister's Office*, E. Georges.

*Permanent Secretary, Environment and Natural Resources*, L. Walters (acting).

*Permanent Secretary, Communications, Works and Industry*, Miss Ethlyn Smith.

*Chief Education Officer*, C. Wheatley.

*Chief of Police*, R. Bretterton.

*Chief Engineer, Public Works*, I. Wright.

*Chief Agricultural Officer*, E. N. Vanterpool.

*Commissioner of Inland Revenue*, S. E. Braithwaite.

#### BRUNEI

*Sultan*, H.H. Sir Muda Hassanal Bolkiah Mu'izzadin Waddaulah, G.C.M.G., *acceded* 1967, *crowned* Aug. 1, 1968.

Brunei is situated on the north-west coast of the island of Borneo, total area about 2,226 sq. miles, population (estimated 1979), 212,840 of whom 68 per cent are of Malay or other indigenous race and 25 per cent Chinese. The chief town, Bandar Seri Begawan, with its nearby water village (groups of houses on stilts on the Brunei River) has a population of about 58,000. The country has a humid tropical climate.

In 1959, the Sultan of Brunei promulgated the first written Constitution, which provides for a Privy Council, a Council of Ministers and a Legislative Council. Britain's responsibility under the 1959 Agreement, as amended in 1971, for external affairs and an obligation to consult the Brunei Government on the defence of the State will continue until Brunei becomes fully independent under the terms of a Treaty of Friendship and Co-operation signed by the governments of the U.K. and Brunei in January 1979. The post of British Resident was abolished in 1969 and many of his functions were transferred to the Sultan in Council. A *Mentri Besar* (Chief Minister) is appointed by the Sultan, and is responsible to him for the exercise of executive authority. The Sultan presides over the Privy Council and the Council of Ministers.

**Currency**.—Brunei issues its own currency, the *Brunei dollar* of 100 cents, which is fully interchangeable with the currency of Singapore.

#### FALKLAND ISLANDS

The Falkland Islands, the only considerable group in the South Atlantic, lie about 300 miles east of the Straits of Magellan, between 52° 15'–53° S. lat. and 57° 40'–62° W. long. They consist of East Falkland (area 2,610 sq. miles), West Falkland (2,090 sq. miles) and upwards of 100 small islands in the aggregate, the population at the Census of Dec. 5, 1980 being 1,813. Mount Osborne (E. Falkland), the loftiest peak, rises 2,312 feet above the level of the sea.

The Falklands were sighted first by Davis in 1592, and by Hawkins in 1594. A settlement was made by France in 1764; this was subsequently sold to Spain, but the latter country recognized Great Britain's title to a part at least of the group in 1771. The settlement was destroyed by the Americans in 1831. In 1833 occupation was resumed by the British for the protection of the seal-fisheries, and the islands were permanently colonized as the most southerly organized colony of the British Empire. Argentina has long claimed sovereignty over the Islands (known to them as las Islas Malvinas), and in pursuance of this claim invaded the Islands on April 2, 1982 and also occupied South Georgia. A Task Force despatched from Great Britain recaptured South Georgia on April 25, and after landing at San Carlos Bay on May 21, recaptured the Islands from the Argentines, who surrendered on June 14, 1982. A large British naval and military presence remains in the area.

The climate is cool. At Stanley the mean monthly temperature varies between 49° F. in January and 35.5° F. in July. The air temperature has never been known to exceed 77° F. or to fall below 12° F.; it is notably windy. The islands are chiefly moorland.

The population is almost totally British, and is principally engaged in sheep-farming to which practically all the land in the colony is devoted, 663,367 sheep being carried in 1979–80. Wool, hides and skins are exported. Main imports are foodstuffs, manufactured goods, timber and machinery. The only town is  $\Psi$ Stanley on the coast of East Falkland.

#### GOVERNMENT

The Civil Commissioner is advised by an Executive Council, over which he presides, composed of the Chief Secretary, the Financial Secretary, two nominated members, and two elected members, elected by the unofficial members of the Legislative Council from among the elected members of that same body. The Legislative Council is composed of two *ex officio* members, namely, the Chief Secretary and the Financial Secretary, and six representatives elected by the people, with the Civil Commissioner as President.

*Civil Commissioner*, Rex M. Hunt.

*Military Commissioner and Commander-in-Chief*,

*Land Forces*, Maj.-Gen. David Thorne.

*Chief Secretary*, F. E. Baker, O.B.E.

**CHIEF TOWN.**— $\Psi$ Stanley, population 1,050 (1980). The size of the British garrison had not been decided when this edition went to press but the number of servicemen on the Islands at autumn 1982 was about 4,000. Stanley is distant from England about 8,103 miles. Telegrams by wireless U.K. direct.

**DEPENDENCIES.**—*South Georgia*, an island 800 miles east-south-east of the Falkland group, with an area of 1,450 sq. miles. The population comprises the staff of the British Antarctic Survey Station at King Edward Point, about 20 people in 1980. *The South Sandwich Islands* lie some 470 miles S.E. of South Georgia. The group is a chain of uninhabited, actively volcanic islands about 150 miles long, with a wholly Antarctic climate. (See Index for other entries).

**GIBRALTAR**

Gibraltar is a rocky promontory, 2½ miles in length, ¼ of a mile in breadth and 1,396 feet high at its greatest elevation, near the southern extremity of Spain, with which it is connected by a low isthmus. It is about 14 miles distant from the opposite coast of Africa. In a total area of 2½ sq. miles, the population at the census of Nov. 1981 was 29,648 (provisional).

Gibraltar is a naval base of strategic importance to Great Britain. It was captured in 1704, during the war of the Spanish Succession, by a combined Dutch and English force, under Sir George Rooke, and was ceded to Great Britain by the Treaty of Utrecht, 1713. Several attempts have been made to retake it, the most celebrated being the great siege in 1779–83, when General Eliott, afterwards Lord Heathfield, held it for 3 years and 7 months against a combined French and Spanish force. The town stands at the foot of the promontory on the W. side. Gibraltar enjoys the advantages of an extensive shipping trade and is a popular shopping centre. The chief sources of revenue are the port dues, the rent of the Crown estate in the town, and duties on consumer items. The free port tradition of Gibraltar is still reflected in the low rates of import duty. The gradual change from a fortress city to an attractive holiday centre has led to a flourishing tourist trade.

A total of 2,710 merchant ships (17,689,248 net registered tons) entered the port during 1981. Of these 1,533 were deep-sea ships (17,347,034 net registered tons). In addition 6,180 yachts (55,206 net registered tons) called at the port. There are 26-75 miles of roads.

Education is compulsory and free between the ages of 5 and 15 and scholarships are available for higher education in Britain. The total enrolment in Government schools was 4,415 in Dec. 1981. Government expenditure on education in 1981 was £3,787,200.

**HONG KONG**

Hong Kong, consisting of a number of islands and of a portion of the mainland, on the south-eastern coast of China, is situated at the eastern side of the mouth of the Pearl River, between 22° 9' and 22° 37' N. lat. and 113° 52'–114° 30' E. long.

The capital city, Victoria, situated on the island of Hong Kong, is about 81 miles S.E. of Canton and 40 miles E. of the Portuguese province of Macau at the other side of the Pearl River. It lies along the northern shore of the island and faces the mainland; the harbour (23 sq. miles water area) lies between the city and the mainland, on which are situated Kowloon and the New Territories. The total area of the territory is 404 sq. miles (including recent reclamation) with a population which at the beginning of 1981 was estimated at 5,108,000.

The island of *Hong Kong* is about 11 miles long and from 2 to 5 miles broad, with a total area of 29 square miles; at the eastern entrance to the harbour it is separated from the mainland by a narrow strait. The island was first occupied by Great Britain in January, 1841, and formally ceded by the Treaty of Nanking in 1842; *Kowloon* was subsequently acquired by the Peking Convention of 1860; and the *New Territories*, consisting of a peninsula in the southern part of the Kwangtung province, together with adjacent islands, by a 99-year lease signed June 9, 1898. Hong Kong Island is now linked to the Kowloon peninsula by a mile-long underwater road tunnel and an underground railway system which began operation on Oct. 1, 1979.

The island is broken in shape and mountainous, the highest point being Victoria Peak, which is 1,805 feet high. The New Territories contain several peaks higher than this, the highest being Tai Mo Shan, 3,140 ft.

**CLIMATE**

Although Hong Kong lies within the tropics it enjoys unusually varied weather for a tropical area. The mean monthly temperature ranges from 15° C. in February to 29° C. in July. Spring is cloudy and humid, often with spells of fog and drizzle. Summer days are hot with temperatures exceeding 33° C. several times in most years. The average annual rainfall is 2,246 mm., of which nearly 80 per cent falls between May and September. Tropical cyclones

passing at various distances from Hong Kong occur between July and September, causing high winds and heavy rain. The severe weather associated with a tropical cyclone usually affects Hong Kong for one to three days. Autumn and early winter are the most pleasant seasons, with sunny, dry and mild weather. In late winter there is more cloud and strong northerly winds can cause temperatures to drop below 10° C.

### COMMUNICATIONS

Hong Kong, one of the world's finest natural harbours, possesses excellent wharves. The Kwai Chung container terminal is the third busiest in the world. It has six berths but there are hopes of adding three more to ease serious congestion. An ocean terminal pier with an overall length of 1,250 ft. can accommodate large liners and cargo vessels. Tankers up to 920 ft. in length and 51 ft. draught can be berthed. Buoy moorings in the harbour are available to vessels of up to 37 ft. draught. Excellent dockyard facilities are available and include five floating drydocks, the largest of which has a lifting capacity of over 100,000 tonnes. In 1981 some 10,600 ocean-going vessels called at Hong Kong and loaded and discharged more than 33,000,000 tonnes of cargo.

Hong Kong International Airport, Kai Tak, situated on the north shore of Kowloon Bay, is an important link on the main air routes of the Far East. It is regularly used by over 30 international airlines, providing some 1,000 frequent scheduled passenger and cargo services each week between Hong Kong and the United Kingdom, the People's Republic of China, North and South America, Europe, East and South Africa, the Middle East, Australasia, the South Pacific region, and Asian countries. In addition, some 11 airlines operate about 30 non-scheduled services a week.

British Airways operate 10 passenger services per week from and to London, Africa and Japan. Cathay Pacific Airways, the Hong Kong based airline, operate 415 passenger and cargo services from Hong Kong weekly to points in the Far East, Australia and the Middle East and, since 1980, the U.K. British Caledonian Airways also flies the London-Hong Kong route.

During 1981, 55,393 aircraft on international flights arrived and departed, carrying more than 8,200,000 passengers and over 290,000 metric tonnes of freight.

### EDUCATION

In 1981 there were 2,639 schools with 1,404,219 pupils. In 1980 free education for all children up to the age of 15 was made compulsory. Post-secondary education is provided by five technical institutes (enrolment, 29,800), four teacher training colleges, three post-secondary colleges, two universities and a polytechnic. The University of Hong Kong has five faculties and three schools, with an undergraduate enrolment of 5,099. The Chinese University of Hong Kong comprises three foundation colleges and has four faculties with 4,809 undergraduate places. The Hong Kong Polytechnic has an enrolment of 24,796 full-time and part-time students.

### TRADE

Hong Kong is an industrial territory with an economy based on exports rather than the domestic

market. Domestic industry, producing mainly light manufactures, has grown rapidly in recent years and now provides the bulk of goods for the export trade; but the secondary role as an *entrepôt*, has also been sustained. In 1981 the value of the re-export trade was 34 per cent of total exports.

Hong Kong produces a wide range of articles, although the economy is very dependent upon textiles (40 per cent production and jobs) and plastics, optical goods and metalware (25 per cent of production).

Diversification of manufacture continues to be a major feature of recent industrial development, as are industrial partnerships with overseas companies in a wide and varied field of manufactures. Modern manufacturing processes have also been introduced to local industry. The marked improvement in both quality and output of items for which precision engineering is required, has continued.

Attempts are being made to promote the high technology and financial services sectors in the interests of broadening the base of the economy.

The adverse balance on visible trade is offset by a favourable balance on invisible account-remittances from overseas Chinese, investments, exchange, shipping and insurance profits, and the spending of tourists, etc. In 1981 Hong Kong's principal customers for its domestic products, in order of value of trade, were U.S.A., the United Kingdom, the Federal Republic of Germany, Japan, China, Australia, Canada, Singapore, the Netherlands and France. Japan was its principal supplier, followed by China, U.S.A., Taiwan, Singapore, the United Kingdom and South Korea.

## PITCAIRN ISLANDS

Pitcairn, a small volcanic island of less than two square miles in area, is the chief of a group of Islands situated about midway between New Zealand and Panama in the South Pacific Ocean at longitude 130° 06' W. and latitude 25° 04' S.

The island rises in cliffs to a height of 1,100 feet and access from the sea is possible only at Bounty Bay, a small rocky cove, and then only by whale-boats. Mean monthly temperatures vary between 66° F. in August and 75° F. in February and the average annual rainfall is 80 inches. Moderate easterly and north-easterly winds predominate but short easterly and south-easterly gales occasionally occur from April to September. With an equable climate, the island is very fertile and produces both tropical and sub-tropical trees and crops.

The small community, descendants of the Bounty mutineers and their Tahitian companions who did not wish to remain on Norfolk Island and returned here, numbers about 54 (1982). The Islanders live by subsistence farming and fishing, and their limited monetary needs are satisfied by the manufacture of wood carvings and other handicrafts which are sold to passing ships and to a few overseas customers. Other than small fees charged for gun and driving licences there are no taxes and Government revenue is derived almost solely from the sale of postage stamps. Communication with the outside world is maintained by cargo vessels travelling between New Zealand and Panama which call at irregular intervals; and by means of a telegraphic link with Fiji.

The other three islands of the group (Henderson lying 105 miles E.N.E. of Pitcairn, Oeno lying 75 miles N.W. and Ducie lying 293 miles E.) are all uninhabited. Henderson Island is occasionally visited by the Pitcairn Islanders to obtain supplies of "miro" wood which is used for their carvings. Oeno is visited for excursions of about a week's duration every two years or so.

The New Zealand Education Department provides assistance in recruiting a teacher for the sole-charge school. Education is compulsory between the ages of five and fifteen. Secondary education in New Zealand is encouraged by the Administration which provides scholarships and bursaries for the purpose. Medical care is provided by a registered nurse. Since 1887 the islanders have all been adherents of the Seventh Day Adventist Church.

Pitcairn became a British Settlement under the British Settlement Act, 1887, and was administered by the Governor of Fiji from 1952 until 1970, when the administration was transferred to the British High Commission in New Zealand and the British High Commissioner was appointed Governor. The local Government Ordinance of 1964 provides for a Council of ten members of whom four are elected.

Governor of Pitcairn, Ducie, Henderson and Oeno Islands, Sir Richard J. Stratton, K.C.M.G. (British High Commissioner to New Zealand).

Island Magistrate and Chairman of Island Council, I. Christian.

Education Officer and Government Adviser, A. K. Cox.

## ST. HELENA

Probably the best known of all the solitary islands in the world, St. Helena is situated in the South Atlantic Ocean, 955 miles S. of the Equator, 760 S.E. of Ascension, 1,140 from the nearest point of the African Continent, 1,800 from the coast of S. America, 1,694 from Cape Town and 4,477 from Southampton (transit 5 days and 16 days respectively), in 15° 55' S. lat. and 5° 42' W. long. It is 10½ miles long, 6½ broad, and encloses an area, of 47 square miles, with a population (1976 census) of 5,147.

St. Helena is of volcanic origin, and consists of numerous rugged mountains, the highest rising to 2,700 feet, interspersed with picturesque ravines. Although within the tropics, the south-east "trades" keep the temperature mild and equable. St. Helena was discovered by the Portuguese navigator, João de Nova, in 1502 (probably on St. Helena's Day) and remained unknown to other European nations until 1588. It was used as a port of call for vessels of all nations trading to the East until it was annexed by the Dutch in 1633. It was never occupied by them, however, and the English East India Company seized it in 1659. In 1834 it was ceded to the Crown. During the period 1815 to 1821 the island was lent to the British Government as a place of exile for the Emperor Napoleon Bonaparte who died in St. Helena on May 5, 1821. It was formerly an important station on the route to India, but its prosperity decreased after the construction of the Suez Canal. Since the collapse of the New Zealand flax (*phormium tenax*) industry in 1965, there have been no significant exports, but a second five year development plan, launched in 1979, seeks primarily to increase the island's productivity in its limited land and sea resources. St. James's Bay, on the north-west of the Island, possesses a good anchorage.

## GOVERNMENT

The government of St. Helena is administered by a Governor, with the aid of a Legislative Council, consisting of the Governor, two *ex-officio* members (Government Secretary and Treasurer) and twelve elected members. Five committees of the Legislative Council are responsible for general oversight of the activities of Government Departments and have in addition a wide range of statutory and administrative functions. The Governor is also assisted by an Executive Council of the two *ex-officio* members and the Chairmen of the Council committees.

Governor, His Excellency J. D. Massingham.

Government Secretary, P. Dale, O.B.E.

Colonial Treasurer and Development Secretary, R. J. Saltwell.

Senior Medical Officer, Dr. D. W. Young (acting).

Agricultural Officer, K. R. Sim (acting).

## ASCENSION

The small island of Ascension lies in the South Atlantic (7° 56' S., 14° 22' W.) some 700 miles north-west of the island of St. Helena. It is said to have

been discovered by João de Nova, on Ascension Day, 1501, and two years later was visited by Alphonse d'Albuquerque, who gave the island its present name. It was uninhabited until the arrival of Napoleon in St. Helena in 1815 when a small British naval garrison was stationed on the island. It remained under the supervision of the Board of Admiralty until 1922, when it was made a dependency of St. Helena by Royal Letters Patent.

Ascension Island is a main relay point of the coaxial submarine cable system laid between South Africa, Portugal and the United Kingdom, which is operated by the South Atlantic Cable Company. Cable & Wireless Ltd operates the international telephone and cable services, maintains an internal telephone service, and also operates an Earth Station on behalf of N.A.S.A. The B.B.C. opened its Atlantic relay station broadcasting to Africa and South America in 1967. The British Foreign Secretary appoints the Administrator. There is a small Police Force and Post Office.

The British organizations provide and operate various common services for the island (school, hospital, public works etc).

Ascension is a rocky peak of purely volcanic origin, the highest point (Green Mountain) some 2,817 ft. is covered with lush vegetation, which with each rainy season is slowly creeping down to the lower areas. Cable & Wireless Ltd. maintains a farm of some 10 acres on the mountain, permitting the production of vegetables and livestock. The island is famous for turtles, which land on the beaches from January to May to lay their eggs. It is also a breeding area for the sooty tern, or wideawake, large numbers of which settle on the south-western coastal section every eighth month to hatch their eggs. Other wild life on the island includes feral donkeys and cats, rabbits and francolin partridge. All wild life except rabbits and cats is protected by law. The ocean surrounding the island abounds with shark, barracuda, tuna, bonito and many other fish.

The only inhabitants of the island consist of the employees and families of the British organizations, of the contractors for the U.S. Air Force and N.A.S.A. (Pan American Airways, Radio Corporation of America and Bendix Field Engineering Corporation) and of the St. Helena Government. The total population in March 1982 totalled 1,051, of whom 689 were from St. Helena, 181 from the United Kingdom, 170 from U.S.A. and 11 from the Republic of South Africa.

Administrator, B. E. Pauncefort.

### TRISTAN DA CUNHA

Tristan da Cunha is the chief of a group of islands of volcanic origin lying in lat. 37° 6' S. and long. 12° 2' W., discovered in 1506 by a Portuguese admiral (Tristão da Cunha), after whom they are named. They have a total area of 45 square miles. The main island, with a peak rising to 6,760 ft., is about 1,500 miles W. of the Cape of Good Hope, 3,600 miles N.E. of Cape Horn, and about 1,320 miles S.S.W. of St. Helena. It was the resort of British and American sealers from the middle of the 18th century, and in 1760 a British naval officer visited the group and gave his name to Nightingale Island. On August 14, 1816, the group was annexed to the British Crown and a garrison was placed on Tristan da Cunha, but this force was withdrawn in 1817, William Glass, a corporal of artillery (*died* 1853), remaining at his own request, with his wife and two children. This party, with five others, formed a settlement. In 1827 five coloured women from St. Helena, and afterwards others from Cape Colony, joined the party.

The islands form a dependency of St. Helena, being administered by the Foreign and Commonwealth

Office through a resident Administrator, with headquarters at the settlement of Edinburgh. Under a new constitution introduced in 1969, he is advised by an elected Island Council of 8 members of whom one must be a woman, and three appointed members, with universal suffrage at 18. The population numbered 295 persons in 1980, plus 9 expatriate Government officers and their families.

In October, 1961, a volcano, believed to have been extinct for thousands of years, erupted and lava was thrown up in some cases to a height of 75 feet. In view of the danger of further volcanic activity, the inhabitants were evacuated and reached the United Kingdom on Nov. 23, 1961, where they remained for nearly two years. An advance party returned to Tristan da Cunha in the spring of 1963, and the main body of the islanders has now returned to the island.

A boat harbour was completed in 1967. The first freezing factory was re-established in 1966. There are no taxes on Tristan, income being derived from royalties paid by the fishing company and from the sale of stamps. The new Camogli Hospital was opened early in 1971 and a new school was opened in 1975.

Administrator, C. F. Redston.

INACCESSIBLE ISLAND is a lofty mass of rock with sides 2 miles in length; the island is the resort of penguins and sea-fowl. Cultivation was started in 1937, but has been abandoned.

THE NIGHTINGALE ISLANDS are three in number, of which the largest is 1 mile long and  $\frac{1}{2}$  mile wide, and rises in two peaks, 960 and 1,105 ft. above sea-level respectively. The smaller islands, Stoltenhof and Middle Isle, are little more than huge rocks. Seals, innumerable penguins, and vast numbers of sea-fowl visit these islands.

GOUGH ISLAND (or Diego Alvarez), in 40° 20' S. and 9° 44' W., lies about 250 miles S.S.E. of Tristan da Cunha. The island is about 8 miles long and 4 miles broad, with a total area of 40 square miles, and has been a British possession since 1816. The island is the resort of penguins and sea-elephants and has valuable guano deposits. There is no permanent population, but there is a meteorological station maintained on the island by the South African Government and manned by South Africans.

### VIRGIN ISLANDS, see BRITISH

### THE WEST INDIES

The West Indies are a number of islands and islets, some of them mere rocks, situated between 10° to 27° North and 59° 30' to 85° West. The whole archipelago extends in a curve from the Florida Channel (North America) to within 7 miles of the coast of Venezuela (South America), and is divided into three main groups: I. GREATER ANTILLES, which contain the largest islands, Cuba (44,000 sq. miles) and Hispaniola (Haiti and the Dominican Republic) (30,000 sq. miles), Jamaica and Puerto Rico; II. BAHAMAS; III. LESSER ANTILLES. The total area of the archipelago is nearly 100,000 square miles. The West Indian Islands which lie nearest the East have been called the *Windward Islands*; the others the *Leeward Islands*, on account of the winds which in this area generally blow from the east.

British Government Representative, West Indies Associated States, The Viscount Dunrossil, C.M.G. (147 Roebuck Street, Bridgetown, Barbados).

## THE CAYMAN ISLANDS

The Cayman Islands, between 79° 44' and 81° 26' W. and 19° 15' and 19° 46' N., consist of three islands, Grand Cayman, Cayman Brac, and Little Cayman, with a total area of 100 square miles. Population (1981), 17,955. The constitution provides for a Governor, Legislative Assembly and an Executive Council. The Legislative Assembly consists of the Governor, three official members and 12 elected members. The Governor presides over the Executive Council, which consists of three official members appointed by the Governor, and four elected members, chosen by the elected members of the Assembly from among their own number. The normal life of the Assembly is four years.

Governor, His Excellency George Peter Lloyd, C.M.G.

## EXECUTIVE COUNCIL

## MONTSERRAT

Situated in 16° 45' N. lat. and 61° 15' W. long., 27 miles S.W. of Antigua, the island is about 11 miles long and 7 wide, with an area of 39 square miles; population (1980), 12,073. Discovered by Columbus in 1493, it was settled by Irishmen in 1632, conquered and held by the French for some time, and finally assigned to Great Britain in 1783. It is justly considered one of the most healthy and beautiful of the Antilles; it contains two active soufrières and several hot springs, while the scenery is charmingly diversified. About two-thirds of the island is mountainous, the rest capable of cultivation. The chief exports are flour bags, sea island cotton, tomatoes, hot peppers and other fruits and vegetables. Real estate development and tourism have done much to aid the island's economy. Revenue (1981) EC\$18,460,964; Expenditure EC\$18,033,706.

A Ministerial system was introduced in Montserrat in 1960. The Executive Council is composed of 4 elected members (the Chief and 3 other Ministers) and two official members (the Attorney-General and the Financial Secretary). The 4 Ministers are appointed from the members of the political party holding the majority in the Legislative Council. The present composition of the Legislative Council consists of the Speaker, two official members, two

nominated unofficial members and 7 elected members. Governor, His Excellency D. K. H. Dale, C.B.E.

## ST. KITTS-NEVIS

The State of St. Kitts-Nevis is located at the northern end of the Eastern Caribbean. It comprises the islands of St. Kitts (65 sq. miles, population about 35,000) and Nevis (36 sq. miles, 9,300).

St. Kitts, lat. 17° 18' N. and long. 62° 48' W. was the first island in the British West Indies to be colonised (1623). Its economy has been based on sugar for over three centuries. Tourism and light industry is being developed. The central area of the island is forest-clad and mountainous, rising to the 3,792 ft. Mount Misery. The capital, Basseterre, is a port of registry. Golden Rock airport can take large jet aircraft.

Nevis, lat. 17° 10' N. and long. 62° 35' W. is separated from the southern tip of St. Kitts by a strait two miles wide. The sea ferry route from Basseterre, St. Kitts to Charlestown, Nevis is 11 miles. Newcastle airstrip can take small aircraft, e.g. Islanders: no night landing facilities are available. The economy of Nevis centres on small peasant farmers. A sea-island cotton is being developed for export to Japan. The island is dominated by the central Nevis Peak, 3,232 ft. The chief town,  $\Psi$ Charlestown (pop. 1,200), is a port of entry.

The Territory of St. Kitts-Nevis became a State in Association with Britain on Feb. 27, 1967. The State became responsible for internal affairs, while Britain became responsible for defence and external affairs. Her Majesty the Queen is represented by a Governor, appointed by her. There is a Cabinet Government with a Ministerial system.

Governor, His Excellency Sir Clement Athelston Arrindell (1981).

Attorney-General, Hon. S. W. T. Seaton.

Cabinet Secretary, C. Farier.

CAPITAL: Basseterre (St. Kitts), population 15,000. FLAG: Tricolor of green (next staff), yellow and blue vertical stripes; palm tree device on yellow stripe.

## ANGUILLA

Anguilla is a flat coralline island about 70 miles N.W. of St. Kitts. The island is rather less than 16

miles in length, 3½ miles in breadth at its widest point and its area is about 35 sq. miles. The population is approximately 7,000. Salt and lobster are the principal products. Much work has been done in recent years, with British aid, in developing the island's infrastructure, and tourism is being developed.

The island is covered with low scrub and fringed with some of the finest white coral-sand beaches in the Caribbean. The climate is pleasant and healthy with temperatures in the range of 75-85°F. throughout the year.

Three months after the associated State of Saint Christopher (St. Kitts)-Nevis-Anguilla came into being in 1967 the Anguillans repudiated government from St. Kitts. A Commissioner appointed by Her Majesty the Queen was installed in 1969 and additional powers were conferred upon him in 1971 by the Anguilla (Administration) Order in Council under the provisions of the Anguilla Act 1971. On February 10, 1976 the Anguilla (Constitution) Order came into effect giving a new status and a separate constitution to Anguilla. Cabinet government was introduced with an Executive Council composed of the Commissioner, three elected and two official Members, and an eleven member Legislative Assembly headed by the Commissioner. Further constitutional changes were introduced on April 1, 1982. These included a change of title from H.M. Commissioner to Governor, provision for a fourth elected Minister, and for the Commissioner to be replaced by a Speaker in a restyled House of Assembly.

Final separation from St. Kitts-Nevis was effected on Dec. 19, 1980 and Anguilla reverted to a British Dependency.

Governor, Charles Henry Godden, C.B.E. (1978).

#### EXECUTIVE COUNCIL

President, The Governor.

Chief Minister and Minister of Finance and Home Affairs, J. R. Webster.

Minister of Public Utilities, N. Webster.

Minister of Social Services, V. Banks.

Minister of Agriculture and Fisheries, and Tourism, O. Fleming.

Secretary to the Executive Council, E. Hughes.

#### TURKS AND CAICOS ISLANDS

The Turks and Caicos Islands are situated between 21° and 22° North latitude and 71° and 72° West longitude, about 100 miles north of the Dominican Republic and 50 miles West of the Bahamas of which they are geographically an extension.

There are over 30 islands of which eight are inhabited covering an estimated area of 192 square miles. The principal is Grand Turk. The present population is 7,436 (Grand Turk 3,146). The most important industry is fishing but tourism is of increasing importance with about 11,887 visitors in 1980.

The Islands lie in the Trade Wind but with an excellent climate. The average temperature varies from 75°-80°F. in the winter and 85°F.-90°F. in the summer and humidity is generally low. Average rainfall is 21 inches per annum. Hurricanes are rare, the last occurring in 1960.

The principal airports are on the islands of Grand Turk, South Caicos and Providenciales. There are direct shipping services to the U.S.A. (Miami). There is an air service between Miami and Grand Turk via the Dominican Republic. An internal air service provides a twice daily service between the principal islands. A comprehensive telephone and telex service is provided by Cable and Wireless (W.I.) Ltd.
