## PROFESSIONAL EDUCATION

The organisations listed below are those which, by providing specialist training or conducting examinations, control entry into a profession, or are responsible for maintaining a register of those with professional qualifications in their sector.

### EU RECOGNITION

It is possible for those with professional qualifications obtained in the UK to have these recognised in other European Countries. A booklet, *Europe Open for Professions*, is available at [www.dfes.gov.uk/europeopen](http://www.dfes.gov.uk/europeopen). Further information can be obtained from:

DEPARTMENT FOR EDUCATION AND SKILLS Room E38,  
Moorfoot, Sheffield S1 4PQ T 0870-0012345  
W [www.dfes.gov.uk](http://www.dfes.gov.uk)

## ACCOUNTANCY

The main bodies granting membership on examination after a period of practical work are:

ASSOCIATION OF CHARTERED CERTIFIED

ACCOUNTANTS (ACCA) 29 Lincoln's Inn Fields, London

## ACTUARIAL SCIENCE

The UK actuarial profession is controlled by the Institute of Actuaries in London and the Faculty of Actuaries in Edinburgh. The Faculty and Institute together set professional codes, disciplinary standards and examinations continuing professional development. UK qualified actuaries may be Fellows of either organisation. Practising certificates are issued on certain actuaries for their statutory role in the financial management of life offices and most pension schemes.

FACULTY OF ACTUARIES IN SCOTLAND Maclaurin House,

## ARCHITECTURE

The Education Committee of the Royal Institute of British Architects sets standards and guides the whole system of architectural education throughout the UK. The Architects Registration Board is the independent regulator for the architects' profession in the UK. It was established to simultaneously protect the interests of consumers and to safeguard the reputation of architects. RIBA recognises courses at 36 schools of architecture in the UK for exemption from their own examinations as well as courses at 56 overseas schools.

**DENTISTRY**

In order to practise in the UK, a dentist must be registered with the General Dental Council. To be registered a person must be qualified in one of the following ways: hold the degree or diploma in dental surgery of a university in the UK or hold the licentiate in dental surgery awarded by one of the Royal Surgical Colleges in the UK; have completed the Council's International Qualifying Examination (IQE); be a European Community or European Economic Area national holding an appropriate European diploma; hold a registered overseas diploma or be an EEA national holding a primary dental qualification from outside the EEA but having acquired the right to practise in the EEA. The holder of a dental degree or diploma other than those referred to above may be eligible for temporary registration to enable him or her to practice dentistry in the United Kingdom for a limited period and in specified posts without the need to take further examinations. The Dentists Register and Rolls of Dental Auxiliaries are maintained by:

GENERAL DENTAL COUNCIL 37 Wimpole Street, London  
W1G 8DQ T 020-7887 3800 W www.gdc-uk.org

**DIETETICS**

The professional association is the British Dietetic Association. Full membership is open to dietitians holding a recognised qualification, who must also be registered with the Health Professions Council (*see Professions Supplementary to Medicine*).

**DRAMA**

The national validating body for courses providing training in drama for the professional theatre is the National Council for Drama Training (NCDT). NCDT accredits courses at 21 drama schools in England, Scotland and Wales. It also sponsors annual seminars on graduate showcases, television training and skills needs in the small sector. There are two useful guides for students entering drama school: *A Practical Guide to Vocational Training in Dance and Drama* and *An Applicant's Guide to Auditioning and Interviewing at Dance and Drama*. These publications and numerous information sheets and useful links are available on the NCDT's website (*see below*).

## JOURNALISM

Courses for trainee newspaper journalists are available at 30 centres. One-year full time courses are available for selected students, three-year degree programmes and 18-week courses for graduates. Particulars for all these courses are available from the National Council for the Training of Journalists. Short courses for mid-career development are available, as are various distance learning courses.

For periodical journalists, there are twelve centres running courses approved by the Periodicals Training Council (PTC). The PTC also provides career information for people wishing to join the industry.

## LAW

THE BAR

The governing body of the Bar of England and Wales is the General Council of the Bar (also known as the Bar Council). All practising barristers pay an annual subscription fee to support the Bar Council. Its functions include dealing with disciplinary matters, acting as the public voice of the profession, and regulating the education and training requirements for those wishing to enter the profession.

Those intending to practise at the Bar of England and Wales must complete three main stages of training: the academic stage (the law degree, or non-law degree plus conversion course), the vocational stage (the Bar Vocational Course/BVC), and pupillage (a period of in-service training). There are also Continuing Professional Development (CPD) requirements on barristers, and a minimum number of hours of CPD must be completed each year. Training at the vocational stage takes place at one of eight validated institutions around the country; pupillage can take place in any approved legal environment, usually a set of barristers' chambers, but it can also be in an employed legal environment, such as the government legal service. All barristers must be members

of one of the four Inns of Court. Students are currently Called to the Bar by their Inn after completion of the vocational stage, but from 2008 Call will take place after a period of pupillage. Call to the Bar does not entitle a person to practise as a barrister, successful completion of pupillage is now a pre-requisite. Further information can be found on the Bar Council's website.

Admission to the Bar of Northern Ireland by the Honorable Society of the Inn of Court of Northern Ireland and admission as an Advocate of the Scottish Bar is controlled by the Faculty of Advocates.

#### **SOLICITORS**

The College of Law is the oldest and largest provider of vocational legal education and training for students wishing to become solicitors and barristers in England and Wales. It also offers training after qualification and a wide range of distance-learning courses. There are a number of other institutions offering the necessary courses, namely the Legal Practice Course and the Common Professional Examination (conversion course for non-law graduates). The Law Society of England and Wales, the Law Society of Scotland and the Law Society of Northern Ireland control the education and examination of trainee solicitors and the admission of solicitors.

#### **MEDICINE**

All doctors must be registered with the General Medical Council (GMC), which is responsible for protecting the public by setting standards for professional practice, overseeing medical education, keeping a register of qualified doctors and taking action where a doctor's fitness to practice is in doubt. A doctor not registered with the GMC is not a 'legally qualified' medical practitioner for the purpose of the Medical Act 1983. In order to be eligible for registration, doctors must obtain a primary medical qualification recognised by the GMC and have satisfactorily completed a year of general medical training. Special arrangements apply to doctors qualified outside the UK. Once registered, doctors undertake general professional and basic specialist training as senior house officers. Further specialist training is provided by the royal colleges, faculties and societies listed below.

The United Examining Board holds qualifying examinations for candidates who have trained overseas. These candidates must also have spent a period at a UK medical school.

**NURSING**

All nurses and midwives must be registered with the Nursing and Midwifery Council (NMC). Courses leading to registration as a nurse or midwife are at least three years in length. Most courses are at diploma level, but some are at degree level. Students study in colleges of nursing or in institutions of higher education. Different courses lead to different types of registration, including Registered Nurse (RN), Registered Mental Nurse (RMN), Registered Learning Disability Nurse (RLDN), Registered Sick Children's Nurse (RSCN), Registered Midwife (RM) and Registered Health Visitor (RHV). The NMC is responsible for validating courses in nursing and midwifery.

The Royal College of Nursing is the largest professional union representing nurses and provides higher education through its Institute.

**OSTEOPATHY**

Osteopathy is the first of the professions previously outside conventional medical services to achieve statutory recognition under a new body the General Osteopathic Council (GOC). Since May 2000 all practising osteopaths have to be registered with the GOC and the title 'osteopath' is protected by law. To gain entry to the register, all newly qualified osteopaths have to be in possession of a recognised qualification from a course of training accredited by the GOC. The GOC is also responsible for the regulation, promotion and development of the profession.

**PHARMACY**

The Royal Pharmaceutical Society of Great Britain is the regulatory and professional body for pharmacists in all aspects of practice. It has a statutory duty to maintain the registers of pharmacists and pharmacy premises. In order to register students must have a degree in pharmacy followed by one year pre-registration training at a premises recognised by the Society and must pass an entrance examination.

*Chief Executive, J. H. A. J. Armstrong*

**TEACHING**

To work as a qualified teacher in a school in England and Wales, Qualified Teacher Status (QTS) must be acquired by completing a programme of Initial Teacher Training. Teaching is an all-graduate profession. Those without a first degree may take a Bachelor of Education (BEd) or a Bachelor of Arts/Science (BA/BSc) with QTS, full-time for three or four years, depending on the programme followed. These degrees combine subject and professional studies with teaching practice.

For those who already have a first degree, the most common route is through a one-year Postgraduate Certificate in Education (PGCE). This may be taken full-time or part-time, or as a distance learning programme. Postgraduates may also gain QTS through training in a school (School-Centred Initial Teacher Training). Graduates aged 24 or above can apply to train through the Graduate Teacher Programme, which offers a salary while employed in a school as a trainee teacher, usually for one year.

Further information on how to become a teacher in England and Wales is available on the Teacher Training Agency's website (*see below*) or in *The Initial Teacher Training Handbook* (£9.99 plus p&p) available from UCAS on 01242-544610. Further personal advice is available from the Teaching Information Line, 0845-600 0991. The Higher Education Funding Council (ELWA) funds initial teacher training and accredits providers of initial teacher training in Wales. They also produce Performance Information on Initial Teacher Training Providers in Wales. Details on courses in Scotland can be obtained from universities and the Graduate Teacher Training Registry (GTTR). Details of the courses in Northern Ireland can be obtained from the Department of Education for Northern Ireland.

## VETERINARY MEDICINE

The regulatory body for veterinary medicine is the Royal College of Veterinary Surgeons, which keeps the register of those entitled to practice veterinary medicine. Holders of recognised degrees from any of the six UK university veterinary schools or from certain EU or overseas universities are entitled to be registered, and holders of certain other degrees may take a statutory membership examination.

The British Veterinary Association is the professional body representing veterinary surgeons. The British Veterinary Nursing Association is the professional body representing veterinary nurses.

# INDEPENDENT SCHOOLS

The following pages list those independent schools in the UK and Europe whose head is a member of the Headmasters' and Headmistresses' Conference (HMC), the Society of Headmasters and Headmistresses of Independent Schools (SHMIS) or the Girls' School Association (GSA). This list contains the name of the school, location, date founded, number of pupils, termly fees (day and board), the name of the head and details of which of the above associations the school is a member. This section has been compiled with the help of Klaus Boehm and Jenny Lees-Spalding, editors of the *Guide to Independent Schools 2005*.

<i>School</i>	<i>Date founded</i>	<i>No. of pupils</i>	<i>Termly fees</i> <i>Day</i>	<i>Head</i> <i>(with association affiliation)</i> <i>Board</i>
ENGLAND				
The Abbey School, Reading	1887	990	£2,800	– Mrs Barbara E. Stanley (GSA)

# NATIONAL ACADEMIES OF SCHOLARSHIP

## BRITISH ACADEMY (1902)

10 Carlton House Terrace, London SW1Y 5AH  
T 020-7969 5200 F 020-7969 5300  
W [www.britac.ac.uk](http://www.britac.ac.uk)

The British Academy is an independent, self-governing learned society for the promotion of the humanities and social sciences. It supports advanced academic research and is a channel for the Government's support of research in those disciplines.

The Fellows are scholars who have attained distinction in one of the branches of study that the Academy exists to promote. Candidates must be nominated by existing Fellows. There are 770 Ordinary Fellows, 15 Honorary Fellows and 306 Corresponding Fellows overseas.

*President*, The Viscount Runciman, PBA  
*Treasurer*, Prof. R. J. P. Kain, FBA  
*Foreign Secretary*, Prof. C. N. J. Mann, FBA  
*Publications Secretary*, Dr D. J. McKitterick, FBA  
*Secretary*, P. W. H. Brown, CBE

## ROYAL ACADEMY OF ARTS (1768)

Burlington House, Piccadilly, London W1J 0BD  
T 020-7300 8000 F 020-7300 8001  
W [www.royalacademy.org.uk](http://www.royalacademy.org.uk)

The Royal Academy of Arts is an independent, self-governing society devoted to the encouragement and promotion of the fine arts.

Membership of the Academy is limited to 80 Royal Academicians, all being painters, engravers, sculptors or architects. Candidates are nominated and elected by the existing Academicians. There is also a limited class of honorary membership and there were 20 honorary members as at June 2004.

*President*, Prof. P. King, CBE, PRA  
*Treasurer*, Prof. P. Huxley, RA  
*Keeper*, Prof. B. Neiland, RA  
*Secretary*, Miss L. Fitt

## ROYAL ACADEMY OF ENGINEERING (1976)

29 Great Peter Street, London SW1P 3LW  
T 020-7222 2688 F 020-7233 0054  
W [www.raeng.org.uk](http://www.raeng.org.uk)

The Royal Academy of Engineering was established as the Fellowship of Engineering in 1976. It was granted a royal charter in 1983 and its present title in 1992. It is an independent, self-governing body whose object is the pursuit, encouragement and maintenance of excellence in the whole field of engineering, in order to promote the advancement of the science, art and practice of engineering for the benefit of the public.

Election to the Fellowship is by invitation only, from nominations supported by the body of Fellows. At June 2004 there were 1,324 Fellows. The Duke of Edinburgh is the Senior Fellow and the Duke of Kent is a Royal Fellow.

*President*, Sir Alec Broers, FRS, FRENG  
*Senior Vice-President*, Sir Duncan Michael, FRENG

*Vice-Presidents*, G. A. Campbell, FRENG; P. Saraga, OBE, FRENG; Dr S. E. Ion, OBE, FRENG; P. C. Ruffles, CBE, FRS, FRENG; Dr S. Steedman, FRENG; Sir Peter Williams, CBE, FRS, FRENG

*Hon. Treasurer*, C. Price, FRENG

*Hon. Secretaries*, P. Saraga, OBE, FRENG (*International Activities*); Dr Julia King, CBE, FRENG (*Education and Training*)

*Chief Executive*, J. Burch

## ROYAL SCOTTISH ACADEMY (1838)

The Mound, Edinburgh EH2 2EL  
T 0131-225 6671 W [www.royalscottishacademy.org](http://www.royalscottishacademy.org)

The Scottish Academy was founded in 1826 to arrange exhibitions of contemporary paintings and to establish a society of fine art in Scotland. The Academy was granted a royal charter in 1838.

Members are elected from the disciplines of painting, sculpture, architecture and printmaking. Elections are from nominations put forward by the existing membership. At mid-2004 there were four Senior Academicians, five Senior Associates, 36 Academicians, 46 Associates, four non-resident Associates and 20 Honorary Members.

*President*, I. McKenzie Smith, OBE, PRSA  
*Secretary*, W. Scott, RSA  
*Treasurer*, I. Metzstein, RSA  
*Administrative Secretary*, B. Laidlaw, ACIS

## ROYAL SOCIETY (1660)

6-9 Carlton House Terrace, London SW1Y 5AG  
T 020-7839 5561 F 020-7930 2170  
W [www.royalsoc.ac.uk](http://www.royalsoc.ac.uk)

The Royal Society is an independent academy promoting the natural and applied sciences. Founded in 1660, the Society has three roles, as the UK academy of science, as a learned Society and as a funding agency. It is an independent, self-governing body under a royal charter, promoting and advancing all fields of physical and biological sciences, of mathematics and engineering, medical and agricultural sciences and their application.

Fellows are elected for their contributions to science, both in fundamental research resulting in greater understanding, and also in leading and directing scientific and technological progress in industry and research establishments. A maximum of 42 new Fellows, who must be citizens or residents of the British Commonwealth countries or Ireland, may be elected annually.

Up to six Foreign Members, who are selected from those not eligible to become Fellows because of citizenship or residency, are elected annually for their contributions to science.

One Honorary Fellow may be elected each year from those not eligible for election as Fellows or Foreign members. There are approximately 1,300 Fellows and Foreign Members covering all scientific disciplines.

*President*, Lord May of Oxford, Kt., AC  
*Treasurer*, Prof. D. Wallace, CBE, FRS  
*Biological Secretary*, Prof. D. Read, FRS  
*Physical Secretary*, Prof. J. Enderby, CBE, FRS

*Foreign Secretary*, Prof. Dame J. Higgins, DBE, FRS  
*Executive Secretary*, S. Cox, CVO

### **ROYAL SOCIETY OF EDINBURGH (1783)**

22–26 George Street, Edinburgh EH2 2PQ

T 0131-240 5000 F 0131-240 5024

W [www.royalsoced.org.uk](http://www.royalsoced.org.uk)

The Royal Society of Edinburgh (RSE) is Scotland's National Academy. A wholly independent, non party-political body with charitable status, the RSE provides a forum for broadly-based interdisciplinary activity in Scotland. This includes organising conferences and lectures both for the specialist and for the general public; providing independent, expert advice to key decision making bodies, including Government and Parliament; strengthening links between academia and industry and boosting wealth generation at home. The Society's Research Awards programme annually awards nearly half a million pounds to exceptionally talented young academics and potential entrepreneurs in Scotland.

Fellows are elected by ballot after being nominated by at least four existing Fellows. Elections are held annually, on the first Monday in March.

At June 2004 there were 1,280 Ordinary Fellows, 71 Honorary Fellows and 24 Corresponding Fellows.

*President*, Lord Sutherland of Houndwood, Kt., FBA, FRSE  
*Vice-Presidents*, Prof. J. Coggins, FRSE; Prof. A. C. Walker, FRSE; Prof. Gavin McCrone, CB, FRSE  
*Treasurer*, Prof. Sir Laurence Hunter, CBE, FRSE  
*General Secretary*, Prof. A. Miller, CBE, FRSE

# THE RESEARCH COUNCILS

The Government funds basic and applied civil science research, mostly through the seven research councils, which are supported by the Department of Trade and Industry. The councils support research and training in universities and other higher education establishments. They also receive income for research commissioned by Government departments and the private sector. A total of £356 million of resource is being added to the science budget over three years from 2002 to increase basic research. Of this, £252 million, (including £12 million of capital) will be directed to cross-council research programmes in genomics, e-science and basic technology. The remaining £104 million of resource is added to the science budget, mainly to provide an uplift to existing council programmes. In July 2000, the Chancellor announced a further £1 billion of investment in science infrastructure over the years 2002–4, comprising £755 million from Government and £225 million from the Wellcome Trust.

The Government science budget for 2004–5 includes the following allocations:

	2004–5 £m
BBSRC	285.007
ESRC	102.694
EPSRC	490.519
MRC	435.088
NERC	266.687
PPARC	259.180
*CLRC	8.113
Pensions	31.140
Royal Society	31.045
Royal Academy of Engineering	5.600
Diamond	10.081
Higher Education Innovation Fund	60.305
Science Research Investment Fund	296.570
Cambridge/MIT	14.000
Exchange Rate and Contingency	25.000
OST Managed Funds	58.364
Exploitation of Discoveries at PSRES	4.655

\*partially funded by the European Union

## BIOTECHNOLOGY AND BIOLOGICAL SCIENCES RESEARCH COUNCIL (BBSRC)

Polaris House, North Star Avenue, Swindon SN2 1UH  
T 01793-413200

The BBSRC promotes and supports research and post-graduate training relating to the understanding and exploitation of biological systems; advances knowledge and technology; provides trained scientists to meet the needs of biotechnological-related industries; and provides advice, disseminates knowledge, and promotes public understanding of biotechnology and the biological sciences.

*Chairman*, Dr P. Ringrose

*Chief Executive*, Prof. J. Goodfellow, CBE

## INSTITUTES

**BABRAHAM INSTITUTE**, Babraham Hall, Babraham, Cambridge CB2 4AT T 01223-496000

### COUNCIL FOR THE CENTRAL LABORATORY OF THE RESEARCH COUNCILS (CCLRC)

Rutherford Appleton Laboratory, Chilton, Didcot, Oxon OX11 0QX

T 01235-445553 F 01235-446665

W www.cclrc.ac.uk

The CCLRC is a non-departmental body of the Office of Science and Technology, which is part of the Department of Trade and Industry. It is the national portal and centre for key, large-scale research facilities in support of science and engineering research. In particular, the CCLRC has strategic and operational roles in respect of neutron scattering, synchrotron radiation and high power laser facilities. These will enable UK researchers to carry out world-leading science. As well as providing strategic advice, the CCLRC also provides facilities for scientists to research a broad spectrum of applications, from the molecular structure of drugs enabling them to be targeted to maximise efficiency and minimise side effects, to the discovery of planets in distant galaxies.

The CCLRC operates the Rutherford Appleton Laboratory in Oxfordshire, the Daresbury Laboratory in Cheshire and the Chilbolton Observatory in Hampshire.

*Chairman*, Prof. Sir Graeme Davies

*Chief Executive*, Prof. J. Wood

The Particle Physics and Astronomy Research Centre (PPARC) is the UK's strategic science investment agency. It funds research, education and public understanding in four broad areas of science – particle physics, astronomy, cosmology and space sciences.

PPARC is government funded and provides research grants and studentships to scientists in British universities, gives researchers access to world-class facilities and funds the UK membership of international bodies such as the European Laboratory for Particle Physics (CERN), the

European Space Agency (ESA) and The European Southern Observatory (ESO). It also contributes money to the UK telescopes overseas on La Palma, Hawaii, Australia and in Chile, the UK Astronomy Technology Centre at the Royal Observatory, Edinburgh and the MERLIN/VLBI National Facility.

## RESEARCH AND TECHNOLOGY ORGANISATIONS

The following industrial and technological research bodies are members of the Applied Industrial Research Trading Organisations (AIRTO). Members' activities span a wide range of disciplines from life sciences to engineering. Their work includes basic research, development and design of innovative products or processes, instrumentation testing and certification, and technology and management consultancy. AIRTO publishes a directory to help clients identify the organisations that might be able to assist them.

# SOCIAL WELFARE

## NATIONAL HEALTH SERVICE

The National Health Service (NHS) came into being on 5 July 1948 under the National Health Service Act 1946, covering England and Wales and, under separate legislation, Scotland and Northern Ireland. The NHS is now administered by the Secretary of State for Health (in England), the National Assembly for Wales, the Scottish Executive and the Secretary of State for Northern Ireland.

The function of the NHS is to provide a comprehensive health service designed to secure improvement in the physical and mental health of the people and to prevent, diagnose and treat illness. It was founded on the principle that treatment should be provided according to clinical need rather than ability to pay, and should be free at the point of delivery.

Hospital, mental, dental, nursing, ophthalmic and ambulance services and facilities for the care of expectant and nursing mothers and young children are provided by the NHS to meet all reasonable requirements. Rehabilitation services such as occupational therapy, physiotherapy, speech therapy and surgical and medical appliances are supplied where appropriate. Specialists and consultants who work in NHS hospitals can also engage in private practice, including the treatment of their private patients in NHS hospitals.

## STRUCTURE

The structure of the NHS remained relatively stable for the first 30 years of its existence. In 1974, a three-tier management structure comprising Regional Health Authorities, Area Health Authorities and District Management Teams was introduced in England, and the NHS became responsible for community health services. In 1979 Area Health Authorities were abolished and District Management Teams were replaced by District Health Authorities.

The National Health Service and Community Care Act 1990 provided for more streamlined Regional Health Authorities and District Health Authorities, and for the establishment of Family Health Services Authorities (FHSAs) and NHS Trusts. The concept of the 'internal market' was introduced into health care, whereby care was provided through NHS contracts where health authorities or boards and GP fundholders (the purchasers) were responsible for buying health care from hospitals, non-fundholding GPs, community services and ambulance services (the providers). The Act also paved the way for the Community Care reforms, which were introduced in April 1993, and changed the way care is administered for older people, the mentally ill, the physically handicapped and people with learning disabilities.

## ENGLAND

Regional Health Authorities in England were abolished in April 1996 and replaced by eight regional offices which, together with the headquarters in Leeds, formed the NHS Executive (which has since been merged with the Department of Health). In April 2002, as an interim arrangement, the eight regional offices were replaced by

four Directorates of Health and Social Care (DsHSC). In April 2003, the DsHSCs were abolished.

## STRATEGIC HEALTH AUTHORITIES

In April 1996 the District Health Authorities and Family Health Service Authorities were merged to form 100 unified Health Authorities (HAs) in England. In April 2002, 28 new health authorities were formed from the existing HAs. In October 2002, as part of the new arrangements set out in the NHS Reform and Health Care Professions Act 2002, these new health authorities were renamed Strategic Health Authorities (SHAs) and charged with creating a strategic framework for managing the performance of Primary Care Trusts and building the capacity of health services locally.

## PRIMARY CARE TRUSTS

The first 17 Primary Care Trusts (PCTs) became operational in England on 1 April 2000. As at 1 April 2004 a total of 304 PCTs covered all areas of England. PCTs were created to give primary care professionals greater control over how resources are best used to benefit patients. PCTs are responsible for tackling health inequalities, developing primary and community health services and commissioning secondary care services. They are free-standing statutory bodies undertaking many of the functions previously exercised by former Health Authorities, such as securing the provision of services and integrating health and social care.

Each PCT is overseen by a lay board, comprising a chairman and non-executive directors who are appointed by the NHS Appointments Commission and who are members of the local community to be served by the PCT. The Board's role is to provide strategic oversight and verification to the work of the Executive, which is made up of health professionals.

## FOUNDATION TRUSTS

The first ten NHS foundation trusts were established on 1 April 2004 with a further ten established on 1 July 2004. NHS foundation trusts are NHS hospitals, they are part of the NHS but have their own accountability and governance systems, which function outside of the Department of Health's framework, giving them greater freedom to run their own affairs. NHS foundation trusts treat patients according to NHS principles and standards and are inspected by the Healthcare Commission. The Government's aim is that by 2008, all NHS trusts will have reached a standard which will enable them to apply for NHS foundation trust status.

Contact details for all the SHAs, PCTs and other NHS organisations in England can be found in the *NHS England, Authorities and Trusts* section on the NHS website: [www.nhs.uk](http://www.nhs.uk) or by calling the Department of Health Public Enquiry Office on 020-7210 4850.

## WALES

In Wales there were five HAs which replaced the former 17 HAs and FHSAs in April 1996. The HAs set up 22 Local Health Groups (LHGs), coterminous with local authority areas (*see* Local Government Section), which

began work in April 1999. Originally they advised HAs, but in March 2003 the five HAs were abolished and the LHGs, were renamed Local Health Boards (LHBs) and took up a role similar to PCTs; assuming responsibility for commissioning services and devising strategies for improving health. They also integrate the delivery of primary and community care. Each Local Health Board has a governing body made up of local doctors, a nurse, other health professionals, members of the local authority and voluntary organisations and others to represent the interests of patients. There is also a small executive team to take action on decisions and provide services for the public.

Contact details for the LHBs and other NHS organisations in Wales are available in the *NHS Wales Directory* section on the Welsh NHS website. W [www.wales.nhs.uk](http://www.wales.nhs.uk)

## SCOTLAND

In Scotland, the Scottish Executive Health Department leads the central management of the NHS, heading a Management Executive which oversees the work of 15 area Health Boards responsible for planning health services for their area, and 28 self-governing NHS Trusts responsible for providing services to patients and the community. At a local level there are currently Local Health Care Co-operatives (LHCCs) which are voluntary associations of primary health care professionals and local authority representatives. There are plans to replace the LHCCs with Community Health Partnerships (CHPs) to give more consistency to the planning, development and delivery of local services across Scotland.

## NORTHERN IRELAND

In Northern Ireland there are four Health and Social Services Boards responsible for commissioning services to meet the needs of their respective populations. They are also responsible for assessing the needs of that population, establishing objectives and developing policies and priorities to meet these objectives. There are 15 Local Health and Social Care Groups (LHSCGs) responsible for the planning and delivery of primary and community care and to represent local interests to their respective Health and Social Services Board.

## PATIENT AND PUBLIC INVOLVEMENT FORUMS

There are Patient and Public Involvement (PPI) Forums throughout the UK; their role is to represent the interests of the public to NHS Trusts, PCTs and SHAs and their equivalents in Wales and Scotland.

There is a PPI Forum for every NHS Trust and PCT in England. PPI Forums are made up of local people and play an active role in health-related decision-making within their communities. They have a number of primary roles which include:

- Obtaining views from local communities on the range and day to day delivery of health services and making recommendations and reports
- Influencing the design of and access to NHS services
- Providing advice and information to patients and their carers about services
- Monitoring the effectiveness of local Patient Advice and Liaison Services (PALS)

## THE NHS PLAN

In July 2000 the government launched the NHS Plan, a ten year strategy to modernise the health service. In June 2004 the Government launched the NHS Improvement Plan, which set out the next stage of NHS reform, moving the focus from access to services towards the broader issues of public health and chronic disease management. The core aims are to sustain increased levels of investment in the NHS and to continue to focus on the improvements outlined in the NHS Plan, while delivering greater levels of choice and information to patients. In July 2004, the Department of Health published *National Standards, Local Action: Health and Social Care Standards and Planning Framework 2005/6–2007/8* which cut the number of national targets that NHS providers must comply from 62 to 20. These national targets, which cover areas such as waiting times for accident and emergency treatment, will become national core standards which all providers of care must maintain from April 2005. Alongside, NHS providers will be given power to set more locally relevant targets.

## FINANCE

The NHS is still funded mainly through general taxation, although in recent years more reliance has been placed on the NHS element of National Insurance contributions, patient charges and other sources of income.

In the April 2002 Budget, the Chancellor announced a five-year spending plan for the NHS. Over the years 2003–4 to 2007–8, these plans mean that expenditure on the NHS in the UK will increase on average by 7.2 per cent a year over and above inflation, 7.4 per cent a year for England. The spending plans are set out in the table below:

£ millions	% real terms		England	% real terms
	UK	increase*		increase*
2003–4	74,800	7.0	61,300	7.1
2004–5	82,200	7.1	67,400	7.2
2005–6	90,500	7.4	74,400	7.6
2006–7	99,400	7.2	81,800	7.3
2007–8	109,400	7.4	90,200	7.5

\* calculated using GDP deflator at 27 June 2003

PRIVATE FINANCE INITIATIVE

The Private Finance Initiative (PFI) was launched in 1992, and involves the private sector in designing, building, financing and operating new hospitals and primary care premises, which are then leased to the NHS. The NHS Plan committed the NHS to entering into a new public private partnership, Partnerships for Health, a joint venture between the Department of Health and Partnerships UK plc (PUK) established in September 2001. Its role is to support the development of NHS Local Improvement Finance Trusts (LIFT) by implementing a standard approach to procurement as well as providing some equity. LIFTs are set up as limited companies with the local NHS, Partnerships for Health and the private sector as shareholders. LIFT schemes build and refurbish primary care premises, which the schemes own and then rent to GPs on a lease basis (as well as other parties such as chemists, opticians, dentists etc). There are 42 LIFT schemes covering more than 100 PCTs, with up to £1,000 million investment supported by £195 million of public money.

EMPLOYEES AND SALARIES

EMPLOYEES

NHS HOSPITAL AND COMMUNITY HEALTH SERVICE  
STAFF (Great Britain) 2002

Full-time equivalent

Hospital medical staff	76,122
Community health medical staff	1,902
Hospital dental staff	1,944
Community health dental staff	1,413
Nursing and midwifery staff	455,361
General medical practitioners	38,649
General dental practitioners	22,194

Source: National Statistics – Annual Abstract of Statistics 2004 (Crown copyright)

SALARIES

General Practitioners (GPs), dentists, optometrists and pharmacists are self-employed, and are employed by the NHS under contract. On 20 June 2003 GPs accepted a new practice-based contract which rewards practices for delivering quality and a wider range of services. Dentists receive payment for items of treatment for individual adult patients and, in addition, a continuing care payment for those registered with them. Optometrists receive approved fees for each sight test they carry out. Pharmacists receive professional fees from the NHS and are refunded the cost of prescriptions supplied. Doctors in training receive additional supplements reflecting the intensity and out-of-hours elements of their duties, these can range from 20–100 per cent of the basic salary.

SALARIES

As at 1 April 2004 for Hospital Medical and Dental Staff and Nurses (these figures do not include merit awards, discretionary points or banding supplements):

Consultant	£55,699–£72,483
Specialist Registrar	£27,483–£41,733
Registrar	£27,483–£33,337
Senior House Officer	£24,587–£34,477
House Officer	£19,703–£22,240
Nursing Grades H–I (Modern Matron)	£26,650–£34,920
Nursing Grades G–I (Senior Ward Sister)	£23,860–£34,920
Nursing Grade F (Ward Sister)	£20,220–£25,250
Nursing Grade E (Senior Staff Nurse)	£18,230–£22,015
Nursing Grade D (Staff Nurse)	£17,060–£18,830
Nursing Grade C (Enrolled Nurse and some Nursing auxiliary staff)	£13,900–£17,060
Nursing Grades A–B	£10,375–£13,025

HEALTH SERVICES

PRIMARY AND COMMUNITY HEALTH CARE

Primary and community health care services comprise the family health services (i.e. the general medical, personal medical, pharmaceutical, dental, and ophthalmic services) and community services (including preventive activities such as vaccination, immunisation and fluoridation). Nursing services including practice nurses, community nurses and health visitors and ante- and post-natal care.

## PRIMARY MEDICAL SERVICES

In England, Primary Medical Services are the responsibility of Primary Care Trusts (PCTs) who contract with GPs to provide the service to the NHS. They do so in one of two ways: by providing general medical services (GMS) under national rules or by successfully applying to become a personal medical service (PMS) pilot, with a contract that is largely locally determined. As at 1 October 2003, just over 40 per cent of GPs were in PMS.

In Wales, responsibility for primary medical services rests with Local Health Boards (LHBs) and in Scotland with the NHS Trusts (see Structure section).

Any vocationally trained doctor may provide general or personal medical services. The average number of patients on a doctor's list in the UK as at September 2002 was 1,838. GPs may also have private fee-paying patients, but not if that patient is already an NHS patient on that doctor's patient list.

A person who is ordinarily resident in the UK is eligible to register with a GP (or PMS provider) for free primary care treatment. Should a patient have difficulty in registering with a doctor, he or she should contact the local PCT for help. When a person is away from home he/she can still access primary care treatment from a GP if they ask to be treated as a temporary resident. In an emergency any doctor in the service will give treatment and advice.

GPs are responsible for the care of their patients 24 hours a day, seven days a week, but can fulfil the terms of their contract by delegating or transferring responsibility for out-of-hours (OOH) care to an accredited provider. Under the new GMS contract, practices will be able to opt out of responsibility for patient care during the OOH period. When they do so, it will become a Primary Care Trust (PCT) responsibility. PCTs will be able to provide the OOH cover themselves or commission the service from an OOH provider.

Increasingly, some secondary care services, such as minor operations and consultations can be provided in a primary care setting. The number of such practitioners is growing and the new GMS contract provides a platform for further expansion.

In addition, drop-in services are being developed. A total of 42 NHS Walk-in Centres are operational across the country, with further centres planned to open over the next few years. They are nurse-led and provide treatment for minor ailments and injuries, health information and self-help advice with extended opening hours (normally every day of the year from 7a.m.-10p.m. Monday to Friday, and 9a.m.-10p.m. Saturday and Sunday).

## HEALTH COSTS

Some people are exempt or entitled to help with health costs such as prescription charges, ophthalmic and dental costs, and in some cases help towards travel costs to and from hospital.

The following list is intended as a general guide to those who are entitled to help or are exempt:

- children under 16 and young people in full time education who are under 19
- people aged 60 or over
- pregnant women and women who have had a baby in the last 12 months
- people receiving Income Support and/or Jobseeker's Allowance
- people receiving Tax Credits
- people with a specified medical condition
- people with impaired hearing

- patients of a genito-urinary medicine clinic
- people who need help to go out or live in residential care or a nursing home
- people supported by a Local Authority after leaving care
- NHS in-patients
- NHS out-patients for all medication given at the hospital
- patients of the Community Dental Service
- people registered blind or partially sighted
- people who need complex lenses
- war pensioners

People in other circumstances may also be eligible for help; Booklet HC11, available from main post offices or local social security offices, gives further details. Or visit: [www.dh.gov.uk](http://www.dh.gov.uk)

## PHARMACEUTICAL SERVICES

Patients may obtain medicines and appliances under the NHS from any pharmacy whose owner has entered into arrangements with the PCT to provide this service; the number of these pharmacies in England and Wales as at March 2003 was 10,452. There are also some suppliers who only provide special appliances. In rural areas, where access to a pharmacy may be difficult, patients may be able to obtain medicines, etc., from a dispensing doctor.

Except for contraceptives (for which there is no charge), a charge of £6.40 is payable for each item supplied unless the patient is exempt and the declaration on the back of the prescription form is completed. Prepayment certificates (£33.40 valid for four months, £91.80 valid for a year) may be purchased by those patients not entitled to exemption who require frequent prescriptions.

## DENTAL SERVICES

Dentists, like doctors, may take part in the NHS and also have private patients. Over 18,000 dentists in England provide NHS general dental services. They are responsible to the PCTs in whose areas they provide services. Patients may go to any dentist who is taking part in the NHS and is willing to accept them. Patients are required to pay 80 per cent of the cost of NHS dental treatment. Since 1 April 2003 the maximum charge allowed for an NHS course of treatment has been £372. There is no charge for arrest of bleeding or repairs to dentures; home visits by the dentist or re-opening a surgery in an emergency are charged for as treatment given in the normal way.

In July 2004 the government announced a £368 million funding injection for NHS dentistry. The Department of Health plans to recruit the equivalent of an extra 1,000 dentists by October 2005, of which around 650 will be new recruits. This funding was accompanied by a package of reforms to modernise the dentistry profession and ensure continued local expenditure on dentistry through PCTs.

### GENERAL DENTAL SERVICE 2002-3 (ENGLAND)

Number of dentists	18,500
Number of patients registered	
Adults	16,600,000
Children	6,700,000
Number of courses of treatment	
Adults	26,300,000
Expenditure (£ million)	
Gross expenditure	1,770
Paid by patients	500
Paid out of public funds	1,270

Source: Department of Health

## GENERAL OPHTHALMIC SERVICES

General Ophthalmic Services are administered by PCTs. Testing of sight may be carried out by any ophthalmic medical practitioner or ophthalmic optician (optometrist). The optician must give the prescription to the patient, who can take this to any supplier of glasses to have them dispensed. Only registered opticians can supply glasses to children and to people registered as blind or partially sighted. At the end of December 2002 there were 8,096 ophthalmic practitioners under contract to provide NHS sight tests. An estimated 16.9 million sight tests were carried out in 2002–3 in Great Britain.

The NHS sight test costs £16.72. Free eyesight tests and help towards the cost are available to people in certain circumstances. Help is also available for the purchase of glasses. (see Health Costs section or booklet HC11)

## COMMUNITY CHILD HEALTH SERVICE

Pre-school services at GP surgeries or child health clinics provide regular monitoring of children's physical, mental and emotional health and development, and advice to parents on their children's health and welfare.

The School Health Service provides for the medical and dental examination of schoolchildren, and advises the local education authority, the school, the parents and the pupil of any health factors which may require special consideration during the pupil's school life. GPs are increasingly undertaking child health monitoring in order to improve the preventive health care of children.

All Primary Care Trusts (PCTs) are working with Local Authorities under accredited local health and education partnerships to recruit more schools into the Healthy Schools Programme which was established in 1999 as a joint initiative between the Department of Health and the Department for Education and Skills.

## NHS DIRECT

NHS Direct is a telephone service staffed by nurses which gives patients advice on how to look after themselves as well as directing them to the appropriate part of the NHS for treatment if necessary. T 0845-4647

## SECONDARY CARE AND OTHER SERVICES

## HOSPITALS

NHS hospitals provide acute and specialist care services, treating conditions which normally cannot be dealt with by primary care specialists and medical emergencies.

## NUMBER OF BEDS AND PATIENT ACTIVITY 2002

	England	Wales
<b>In-patients:</b>		
Average daily available beds	184,000	14,300
Average daily occupation of beds	157,000	11,800
Persons waiting for admission at 31 March	992,000	74,600
Day-case admissions	3,592,000*	109,400
Ordinary admissions	8,761,000*	493,000
<b>Out-patient attendances:</b>		
New patients	13,032,000	747,300
Total attendances	44,598,000	2,842,500
<b>Accident and emergency:</b>		
New cases	12,945,000	888,700
Total attendances	14,046,000	1,004,700
Ward attendances	1,179,000	–

\* 2001 figures

## SCOTLAND

## In-patients:

Average available staffed beds	30,900
Average occupied beds	25,100

## Out-patient attendances:

New patients	2,743,000
Total attendances	6,291,000

## NORTHERN IRELAND

## In-patients:

Beds available	8,301
Average daily occupation of beds	6,973

## Out-patients:

New cases	992,000
Total attendances	2,122,000

## CHARGES

NHS trusts can provide accommodation in single rooms or small wards, if not required for patients who need privacy for medical reasons. The patient is still an NHS patient, but there may be a charge for these additional facilities. NHS trusts can charge for certain patient services that are considered to be additional treatments over and above the normal service provision. There is no blanket policy to cover this and each case is considered in the light of the patient's clinical need. However, if an item or service is considered to be an integral part of a patient's treatment by their clinician, then a charge should not be made.

In some NHS hospitals, accommodation and services are available for the treatment of private patients where it does not interfere with care for NHS patients. Income generated by treating private patients is then put back into the local NHS services. Private patients undertake to pay the full costs of medical treatment, accommodation, medication and other related services. Charges for private patients are set locally.

## WAITING LISTS

At the end of March 2004 the total number of patients waiting to be admitted to NHS hospitals in England was 906,000, a decrease of 8.7 per cent on the previous year. The number of patients in England and Wales who had been waiting more than nine months was 48, a decrease of 99.9 per cent on the previous year, when the total was 53,183. No patients had been waiting longer than 12 months at the end of March 2004 and the average wait was 10.2 weeks. Under the charter *Your Guide to the NHS*, patients are guaranteed admission within 18 months of being placed on a waiting list. In July 2004 a new target was set of an 18 week maximum wait from start time (i.e. seeing a GP) to treatment by 2008.

## AMBULANCE SERVICE

The NHS provides emergency ambulance services free of charge via the 999 emergency telephone service. Air ambulances, provided through local charities and partially funded by the NHS, are used throughout the UK. They assist with cases where access may be difficult or heavy traffic could hinder road progress. Non-emergency ambulance services are provided free of charge to patients who are deemed to require them on medical grounds.

In 2003–4 in England approximately 5.3 million emergency calls were made to the ambulance service, an increase of 8 per cent on the previous year. There were about 3.4 million emergency patient journeys. Since 1

April 2001 all services have had a system of call prioritisation. The prioritisation procedures require all emergency calls to be classified as either immediately life threatening (category A) or other emergency (category B/C). Services are expected to reach 75 per cent of Category A (life threatening) calls within eight minutes and 95 per cent of category B/C calls within 19 minutes in rural areas and 14 minutes in urban areas. In 2003–4, 75.7 per cent of life threatening calls resulted in emergency response arriving at the scene of the incident within 8 minutes (74.6 per cent in 2002–3). Twenty-two services met or exceeded the 75 per cent target. For category B/C calls, 11 services responded to 95 per cent or more calls within 14 or 19 minutes.

#### BLOOD SERVICES

There are four national bodies which co-ordinate the blood donor programme in the UK. Donors give blood at local centres on a voluntary basis.

NATIONAL BLOOD SERVICE, Oak House, Reeds Crescent, Watford, Herts WD24 4QN T 01923-486800  
W [www.blood.co.uk](http://www.blood.co.uk)

SCOTTISH NATIONAL BLOOD TRANSFUSION SERVICE, 21 Ellens Glen Road, Edinburgh EH17 7QT T 0131-536 5700  
W [www.scotblood.co.uk](http://www.scotblood.co.uk)

WELSH BLOOD SERVICE, Ely Valley Road, Talbot Green, Pontyclun CF72 9WB T 01443-622000  
W [www.welsh-blood.org.uk](http://www.welsh-blood.org.uk)

NORTHERN IRELAND BLOOD TRANSFUSION SERVICE, Belfast City Hospital Complex, Lisburn Road, Belfast BT9 7TS T 028-9032 1414 W [www.nibts.org](http://www.nibts.org)

#### HOSPICES

Hospice or palliative care may be available for patients with life-threatening illnesses. It may be provided at the patient's home or in a voluntary or NHS hospice or in hospital, and is intended to ensure the best possible quality of life for the patient during their illness, and to provide help and support to both the patient and the patient's family. The National Council for Hospices and Specialist Palliative Care Services co-ordinates NHS and voluntary services in England, Wales and Northern Ireland; the Scottish Partnership Agency for Palliative and Cancer Care performs the same function in Scotland.

NATIONAL COUNCIL FOR HOSPICE AND SPECIALIST PALLIATIVE CARE SERVICES, 1st Floor, 34–44 Britannia Street, London WC1X 9JG T 020-7520 8299  
W [www.hospiceinformation.info](http://www.hospiceinformation.info)

SCOTTISH PARTNERSHIP FOR PALLIATIVE CARE, 1A Cambridge Street, Edinburgh EH1 2DY T 0131-229 0538  
W [www.palliativecarescotland.org.uk](http://www.palliativecarescotland.org.uk)

#### NHS CHARTERS

The original Patient's Charter was published in 1991 and came into force in 1992; an expanded version was published in 1995. The Charter set out the rights of patients in relation to the standards of service they should expect to receive at all times and standards of service that the NHS aimed to provide.

The Patient's Charter was replaced nationally in 2001 with *Your Guide to the NHS*, which provided information on how to get treatment and gave specific details on minimum standards for patients, targets for the NHS and improvements in the NHS Plan. It also detailed what patients had a right to expect from the NHS and what is expected from patients.

Information for patients about all aspects of the NHS

has now been reorganised and is available on the NHS website. W [www.nhs.uk](http://www.nhs.uk)

#### COMPLAINTS

There are three levels to the NHS complaints procedure: the first level involves resolution of a complaint locally, following a direct approach to the Patients Advice and Liaison Service (PALS) at the relevant NHS service provider; the second level involves an independent review procedure by the local PCT if the complaint is not resolved locally. As a final resort, patients may approach the Health Service Ombudsman (in Northern Ireland, the Commissioner for Complaints) if they are dissatisfied with the response of the NHS to a complaint.

#### RECIPROCAL ARRANGEMENTS

Citizens of countries in the European Economic Area (EEA – see European Union section) who are resident in the UK are entitled to receive emergency health care either free of charge or for a reduced charge when they are temporarily visiting other member states of the EEA. Form E111, available at post offices, should be obtained before travelling (to be replaced by the European Health Insurance Card from December 2005). There are also bilateral agreements with several other countries, including Australia and New Zealand, for the provision of urgent medical treatment free of charge.

EEA nationals visiting the UK and visitors from other countries with which the UK has bilateral health care agreements, are entitled to receive emergency health care on the NHS on the same terms as it is available to UK residents.

#### PERSONAL SOCIAL SERVICES

The Secretary of State for Health (in England), the National Assembly for Wales, the Scottish Executive and the Secretary of State for Northern Ireland are responsible, under the Local Authority Social Services Act 1970, for the provision of social services for older people, disabled people, families and children, and those with mental disorders. Personal Social Services are administered by local authorities according to policies with standards set by central and devolved government. Each authority has a Director of Social Services and a Social Services Committee responsible for the social services functions placed upon them. Local authorities provide, enable and commission care after assessing the needs of their population. The private and voluntary sectors also play an important role in the delivery of social services, and an estimated six million people in Great Britain provide substantial regular care for a member of their family.

Under the Care Standards Act 2000, the National Care Standards Commission (NCSC) was set up on 1 April 2002 to regulate social, private and voluntary care services throughout England. In April 2004, under the Health and Social Care (Community Health and Standards) Act 2003, the NCSC was replaced by the Commission for Social Care Inspection (CSCI). The CSCI was established as a single, regulatory authority, incorporating the work formerly carried out by the the Social Services Inspectorate (SSI), the SSI/Audit Commission Joint Review Team and the NCSC. Services such as care homes and children's homes managed by local authorities, domiciliary care services, independent fostering agencies and residential family centres, that were

previously regulated by the NCSC, are now registered and inspected by the CSCI. The CSCI ensures that care services are run in accordance with national minimum standards and regulations that have been set by the Government. As well as regulating care services, the CSCI assesses all areas of care services provided by the 150 local authorities in England against a national agenda, ensuring they meet their social services responsibilities through a system of inspections and self-assessment. The CSCI collates information on local services from May to July each year and makes this information available to the public.

COMMISSION FOR SOCIAL CARE INSPECTION (CSCI),  
33 Greycoat Street, London SW1P 2QF T 020-7979 2000  
W www.csci.org.uk

#### FINANCE

The Personal Social Services programme is financed partly by central government, with decisions on expenditure allocations being made at local authority level. Spending on personal social services in 2001–2 by central government was £52 million with £13,416 million allocated by local authorities.

#### STAFF

##### PERSONAL SOCIAL SERVICES STAFF 2002 (ENGLAND)

###### *Full-time equivalent*

Home help service	37,300
Field social workers	35,800
Residential care staff	51,400
Day care establishments staff	29,300
All other staff (including management and administration and ancillary staff)	54,500
Total staff	208,300

Source: National Statistics – Annual Abstract of Statistics 2004 (Crown copyright)

#### OLDER PEOPLE

Services for older people are designed to enable them to remain living in their own homes for as long as possible. Local authority services include advice, domestic help, meals in the home, alterations to the home to aid mobility, emergency alarm systems, day and/or night attendants, laundry services and the provision of day centres and recreational facilities. Charges may be made for these services. Respite care may also be provided in order to allow carers temporary relief from their responsibilities.

Local authorities and the private sector also provide 'sheltered housing' for older people, sometimes with resident wardens.

If an older person is admitted to a residential home, charges are made according to a means test; if the person cannot afford to pay, the costs are met by the local authority.

In March 2001 a National Service Framework for Older People was published. The framework set national standards and service models of care across health and social service for older people whether they live at home, in residential care or are being cared for in hospital.

#### DISABLED PEOPLE

Services for disabled people are designed to enable them to remain living in their own homes wherever possible. Local authority services include advice, adaptations to the home, meals in the home, help with personal care, occupational therapy, educational facilities and recreational facilities. Respite care may also be provided in

order to allow carers temporary relief from their responsibilities.

Special housing may be available for disabled people who can live independently, and residential accommodation for those who cannot.

#### FAMILIES AND CHILDREN

Local authorities are required to provide services aimed at safeguarding the welfare of children in need and, wherever possible, allowing them to be brought up by their families. Services include advice, counselling, help in the home and the provision of family centres. Many authorities also provide short-term refuge accommodation for women and children.

#### DAY CARE

In allocating day care places to children, local authorities give priority to children with special needs, whether in terms of their health, learning abilities or social needs. Since September 2001 the Office for Standards in Education (OFSTED) has been responsible for the regulation and registration of all early years childcare and education provision in England (previously the responsibility of the local authorities). All day care and childminding services which care for children under 8 years of age for more than two hours a day must register with OFSTED and are inspected at least every two years. In March 2003 there were over 1.3 million childcare places and almost 100,000 childcare providers in England.

In Wales, Scotland and Northern Ireland local authorities have responsibility for registration and inspection of day care facilities.

#### CHILD PROTECTION

Children considered to be at risk of physical injury, neglect or sexual abuse are placed on the local authority's child protection register. Local authority social services staff, schools, health visitors and other agencies work together to prevent and detect cases of abuse. In England as of 31 March 2003 there were 26,600 children on child protection registers, a 3.5 per cent increase from March 2002. Of the children registered during 2002–3, 11,700 were at risk of neglect, 5,700 of physical abuse, 3,000 of sexual abuse and 5,400 of emotional abuse. On 31 March 2003 there were 2,239 children on child protection registers in Wales and 1,608 in Northern Ireland. In Scotland as of 31 March 2002\*, there were 2,018 children on local child protection registers.

\* 2003 figures for Scotland were not available at the time of going to press.

#### LOCAL AUTHORITY CARE

Local authorities are required to provide accommodation for children who have no parents or guardians or whose parents or guardians are unable or unwilling to care for them. A family proceedings court may also issue a care order where a child is being neglected or abused, or is not attending school; the court must be satisfied that this would positively contribute to the well-being of the child.

The welfare of children in local authority care must be properly safeguarded. Children may be placed with foster families, who receive payments to cover the expenses of caring for the child or children, or in residential care.

Children's homes may be run by the local authority or by the private or voluntary sectors; all homes are subject to inspection procedures. In England as of 31 March 2002,

59,700 children were in the care of local authorities. Of these, 39,200 were in foster placements.

#### ADOPTION

Local authorities are required to provide an adoption service, either directly or via approved voluntary societies. In the UK, in 2002, 6,239 children (under 18 years of age) were entered onto the Adopted Children Register; 5,680 in England and Wales, 385 in Scotland and 174 in Northern Ireland.

#### PEOPLE WITH LEARNING DISABILITIES

Services for people with learning disabilities are designed to enable them to remain living in the community wherever possible. Local authority services include short-term care, support in the home, the provision of day care centres, and help with other activities outside the home. Residential care is provided for the severely or profoundly disabled.

#### MENTALLY ILL PEOPLE

Under the Care Programme Approach, mentally ill people should be assessed by specialist services and receive a care plan, and a key worker should be appointed for each patient. Regular reviews of the patient's progress should be conducted. Local authorities provide help and advice to mentally ill people and their families, and places in day centres and social centres. Social workers can apply for a mentally disturbed person to be compulsorily detained in hospital. Where appropriate, mentally ill people are provided with accommodation in special hospitals, local authority accommodation, or homes run by private or voluntary organisations. Patients who have been discharged from hospitals may be placed on a supervision register. A Mental Health National Service Framework was published in September 1999 setting national standards on how to prevent and treat mental illness.

## NATIONAL INSURANCE

The National Insurance (NI) scheme operates under the Social Security Contributions and Benefits Act 1992 and the Social Security Administration Act 1992, and orders and regulations made thereunder. The scheme is financed by contributions payable by earners, employers and others (see below) and by a Treasury grant. Money collected under the scheme is used to finance the National Insurance Fund (from which contributory benefits are paid) and to contribute to the cost of the National Health Service.

#### NATIONAL INSURANCE FUND

Estimated receipts and payments of the National Insurance Fund for 2004–5:

<i>Receipts</i>	<i>£000s</i>
Net National Insurance contributions	62,239,000
Compensation from Consolidated Fund for Statutory Sick Pay and Statutory Maternity Pay recoveries	1,284,000
Income from investments	1,375,000
State scheme premiums	149,000
Other receipts	68,000
Total receipts	65,115,000
<i>Payments</i>	<i>£000s</i>
Benefits	55,290,000
Benefits increase due to proposed changes	1,536,000

Personal and stakeholder pensions	
contracted-out rebates	3,793,000
Age-related rebates for contracted-out money purchase schemes	295,000
Transfers to Northern Ireland	255,000
Administration	1,321,000
Redundancy fund payments (net)	248,000
Other payments	20,000
Total receipts	62,759,000

<i>Balances</i>	<i>£000s</i>
Opening balance	27,264,000
Excess of receipts over payments	2,369,000
Balance at end of year	29,633,000

#### CONTRIBUTIONS

There are six classes of National Insurance contributions (NICs):

Class 1	paid by employees and their employers
Class 1A	paid by employers who provide employees with certain benefits in kind for private use, such as company cars
Class 1B	paid by employers who enter into a Pay As You Earn (PAYE) Settlement Agreement with the Inland Revenue
Class 2	paid by self-employed people
Class 3	voluntary contributions paid to protect entitlement to the State Pension and who do not pay enough NI contributions in another class
Class 4	paid by the self-employed on their taxable profits over a set limit. These are normally paid by self-employed people in addition to Class 2 contributions. Class 4 contributions do not count towards benefits.

The lower and upper earnings limits and the percentage rates referred to below apply from April 2004 to April 2005.

#### CLASS 1

Class 1 contributions are paid where a person:

- is an employed earner (employee), office holder (e.g. company director) or employed under a contract of service in Great Britain or Northern Ireland
- is 16 or over and under state pension age
- earns at or above the earnings threshold of £91.00 per week (including overtime pay, bonus, commission, etc., without deduction of superannuation contributions)

Class 1 contributions are made up of primary and secondary contributions. Primary contributions are those paid by the employee and these are deducted from earnings by the employer. Since 6 April 2001 the employee's and employer's earnings thresholds have been the same and are referred to as the earnings threshold. Primary contributions are not paid on earnings below the earnings threshold of £91.00. Contributions are payable at the rate of eleven per cent on earnings between the earnings threshold and the upper earnings limit of £610.00 per week (9.4 per cent for contracted-out employment). Above the upper earnings limit one per cent is payable.

Some married women or widows pay a reduced rate of 4.85 per cent on earnings between the earnings threshold and upper earnings limits and one per cent above this. It is no longer possible to elect to pay the reduced rate but those who had reduced liability before 12 May 1977 may

retain it so long as certain conditions are met. See leaflet CA09 (widows) or leaflet CA13 (married women).

Secondary contributions are paid by employers of employed earners at the rate of 12.8 per cent on all earnings above the earnings threshold of £91.00 per week. There is no upper earnings limit for employers' contributions. Employers operating contracted-out salary related schemes pay reduced contributions of 9.3 per cent; those with contracted-out money-purchase schemes pay 11.8 per cent. The contracted-out rate applies only to that portion of earnings between the earnings threshold and the upper earnings limits. Employers' contributions below and above those respective limits are assessed at the appropriate not contracted-out rate.

#### CLASS 2

Class 2 contributions are paid where a person is self-employed and is 16 or over and under state pension age. Contributions are paid at a flat rate of £2.05 per week regardless of the amount earned. However, those with earnings of less than £4,215 a year can apply for Small Earnings Exception, e.g. exemption from liability to pay Class 2 contributions. Those granted exemption from Class 2 contributions may pay Class 2 or Class 3 contributions voluntarily. Self-employed earners (whether or not they pay Class 2 contributions) may also be liable to pay Class 4 contributions based on profits. There are special rules for those who are concurrently employed and self-employed.

Married women and widows can no longer choose not to pay Class 2 contributions but those who elected not to pay Class 2 contributions before 12 May 1977 may retain the right so long as certain conditions are met.

Class 2 contributions are collected by the National Insurance Contributions Office (NICO), an executive agency of the Inland Revenue, by direct debit or quarterly bills. See leaflets CWL2 and CA02.

#### CLASS 3

Class 3 contributions are voluntary flat-rate contributions of £7.15 per week payable by persons over the age of 16 who would otherwise be unable to qualify for retirement pension and certain other benefits because they have an insufficient record of Class 1 or Class 2 contributions. This may include those who are not working, those not liable for Class 1 or Class 2 contributions or those excepted from Class 2 contributions. Married women and widows who on or before 11 May 1977 elected not to pay Class 1 (full rate) or Class 2 contributions cannot pay Class 3 contributions while they retain this right. Class 3 contributions are collected by the NICO by quarterly bills or direct debit. See leaflet CA08.

#### CLASS 4

Self-employed people whose profits and gains are over £4,745 a year pay Class 4 contributions in addition to Class 2 contributions. This applies to self-employed earners over 16 and under the state pension age. Class 4 contributions are calculated at eight per cent of annual profits or gains between £4,745 and £31,720 and one per cent above. Class 4 contributions are assessed and collected by the Inland Revenue together with Schedule D tax. It is possible, in some circumstances, to apply for exceptions from liability to pay Class 4 contributions or to have the amount of contribution reduced (where Class 1 contributions are payable on earnings assessed for Class 4 contributions). See leaflet CWL2.

## PENSIONS

The Social Security Pensions Act (1975) came into force in 1978. It aimed to:

- reduce reliance on means-tested benefit in old age, widowhood and chronic ill-health
- ensure that occupational pension schemes which are contracted out of the state scheme fulfil the conditions of a good scheme
- ensure that pensions are adequately protected against inflation
- ensure that men and women are treated equally in State and occupational schemes

Legislation and regulations introduced since 1978 go further towards fulfilling these aims and more changes came into effect in April 1997. One of the changes is to equalise the state pension age for men (currently 65 years) and women (currently 60 years) from 6 April 2020. The change will be phased in over the ten years leading up to 6 April 2020. As a result the state pension age is as follows:

- the pension age for men remains at 65
- the pension age for women born on or before 5 October 1950 remains at 60
- the pension age for women born on or between 6 October 1950 and 5 October 1951 is 61
- the pension age for women born on or between 6 October 1951 and 5 October 1952 is 62
- the pension age for women born on or between 6 October 1952 and 5 October 1953 is 63
- the pension age for women born on or between 6 October 1953 and 5 October 1954 is 64
- the pension age for women born on 6 October 1954 or later is 65

#### STATE PENSION SCHEME

The state pension scheme consists of the basic State Pension and the State Second Pension, also known as the Additional Pension, which reformed the State Earnings-Related Pension Scheme (SERPS) from 6 April 2002.

The amount of basic State Pension paid is dependent on the number of 'qualifying years' a person has in their 'working life'. A 'qualifying year' is a tax year in which a person pays enough Class 1 National Insurance contributions (NICs) at the standard rate or class 2 or 3 NICs for the whole year (see National Insurance section) for it to count towards their basic State Pension. Those in receipt of Carer's Allowance, Working Tax Credit (with a disability element), Jobseeker's Allowance, Incapacity Benefit, Statutory Sick Pay or Statutory Maternity Pay may have Class 1 NICs credited to them. Persons undertaking certain training courses or jury service or who have been wrongly imprisoned for a conviction which is quashed on appeal may also get class 1 credits for each week they receive benefit or fulfil certain conditions. Class 1 credits count toward all future contributory benefits. A Class 3 credit for basic State Pension and bereavement benefit purposes is awarded, where required, for each week the Working Tax Credit (without a disability element) has been received.

'Working life' is counted from the start of the tax year in which a person reaches 16 to the end of the tax year before the one in which they reach pensionable age: for men this is normally 49 years and for women this varies between 44 and 49 years depending on birth date (see above). To get the full rate (100 per cent) basic pension a person must have qualifying years for about 90 per cent of their working life. To get the minimum basic pension (25

per cent) a person will need ten or eleven qualifying years. Married women who are not entitled to a pension on their own NICs may get a pension on their husband's NICs. It is possible for people who are unable to work because they care for children or a sick or disabled person at home to reduce the number of qualifying years required. This is called home responsibilities protection (HRP) and can be given for any tax year since April 1978; the number of years for which HRP is given is deducted from the number of qualifying years needed. From April 2002, HRP may also qualify the recipient for additional State Pension through the State Second Pension.

The amount of Additional Pension paid depends on the amount of earnings a person has, or is treated as having, between the lower and upper earnings limits for each complete tax year between 6 April 1978 (when the scheme started) and the tax year before they reach state pension age. The right to Additional Pension does not depend on the person's right to basic State Pension. The amount of additional State Pension paid also depends on when a person reaches state pension age; changes phased in from 6 April 1999 mean that pensions are calculated differently from that date. Men or women widowed before 6 October 2002 inherit all their late spouse's additional State Pension. From 6 October 2002, the maximum percentage of SERPS that a person can inherit from a late spouse will depend on their late spouse's date of birth:

<i>Maximum % SERPS entitlement for surviving spouse</i>	<i>d.o.b (men)</i>	<i>d.o.b (women)</i>
100%	5/10/37 or earlier	5/10/42 or earlier
90%	6/10/37 to 5/10/39	6/10/42 to 5/10/44
80%	6/10/39 to 5/10/41	6/10/44 to 5/10/46
70%	6/10/41 to 5/10/43	6/10/46 to 5/10/48
60%	6/10/43 to 5/10/45	6/10/48 to 5/7/50
50%	6/10/45 or later	6/7/50 or later

The maximum State Second Pension a person can inherit from a late spouse is 50 per cent.

There are four categories of State Pension provided under the Social Security Contributions and Benefits Act 1992:

- Category A, a contributory pension made up of a basic State Pension dependent on the number of qualifying years in one's working life and an additional State Pension dependent on earnings since April 1978
- Category B, a contributory pension made up of basic and additional elements, payable to married women, widows and widowers based on their spouse's qualifying years and earnings. From 6 April 2010 both men and women will be able to get a basic State Pension based on their spouse's NICs, if this is better than the pension based on their own NIC record
- Category C, this pension is now obsolete
- Category D, a non-contributory State Pension for those aged 80 and over. Graduated Retirement Benefit is also available to those who paid graduated NICs into the scheme when it existed between April 1961 and April 1975

The Pension Service provides a State Pension forecasting service. T 0845-300 0168

From 1978 to 2002, additional pension was called the State Earnings-Related Pension Scheme (SERPS). SERPS covered all earnings by employees from 6 April 1978 to 5 April 1997 on which standard rate class 1 National Insurance had been paid and earnings between 6 April

1997 and 5 April 2002 if the standard rate class 1 contributions had been contracted-in.

In 2002 The Welfare Reform and Pensions Act 1999 replaced SERPS with State Second Pension, targeted at low and moderate earners and certain carers and people with long-term illness or disability. If earnings on which Class 1 NICs have been paid or can be treated as paid are above the annual National Insurance Lower Earnings Limit (£4,108 for 2004–5) but below the new Low Earnings Threshold (£11,600 for 2004–5), the State Second Pension regards this as earnings of £11,600 and it is treated equivalently. Certain carers and people with long term illness and disability will be considered as at the Low Earnings Threshold for each complete tax year even if they do not work at all, or earn less than the annual Lower Earnings Limit.

## CONTRACTED-OUT PENSION SCHEMES

### *Personal Pension Schemes*

Since July 1988, an employee has been able to start a personal pension which, if it meets certain conditions, can be used in place of additional State Pension. These pensions are known as Appropriate Personal Pensions (APPs). That part of an APP derived from the protected rights (rights comprising mainly the NIC rebate and its investment return) is intended to provide benefits broadly equivalent to those given up in the additional State Pension. At retirement, a contracted-out deduction will be made from additional State Pension built up from 6 April 1987 to 5 April 1997. The reduction may be more or less than that part of the pension derived from the protected right. From 6 April 1997 to 5 April 2002, members of an APP scheme will not have built up any entitlement to additional State Pension during the period of their membership. From 6 April 2002, employees contracted-out into a personal pension and earning between the lower earnings limit and the low earnings threshold (£4,108 and £11,600 in 2004–5) will be entitled to a reduced amount of State Second Pension.

### *Stakeholder Pension Schemes*

Introduced in 2001, Stakeholder pensions are available to everyone but are principally for moderate earners who do not have access to a good value company pension scheme. Stakeholder pensions must meet a number of minimum standards to make sure they are flexible and not expensive (the annual management charge is capped). The minimum contribution is £20 per month.

As with personal pensions it is possible to invest up to £3,600 (including tax relief) into stakeholder pensions each year without evidence of earnings. Contributions can be made on someone else's behalf, for example, a non-working partner. Some people who are already members of occupational pension schemes can also contribute to a stakeholder pension scheme. If it meets certain conditions, it can be used to contract out of the State Second Pension (formerly SERPS). When someone contracts out of the State scheme with either an APP or a Stakeholder Pension, both the employee and their employers pay NICs at the full not contracted out rate. At the end of the tax year to which those NICs relate, the Inland Revenue pays an age-related rebate (which increases with age) and tax relief on the employee's share of the rebate directly into the scheme for investment on behalf of the employee.

## OCCUPATIONAL PENSION SCHEMES

*Contracted-Out Salary-Related (COSR) Scheme*

- this scheme provides a pension related to earnings
- any notional additional pension built up from 6 April 1978 to 5 April 1997 will be reduced by the amount of Guaranteed Minimum Pension (GMP) built up during that period (the contracted-out deduction)
- from 6 April 1997 these schemes no longer provide a GMP. Instead, as a condition of contracting out they have to satisfy a reference scheme test to ensure that the benefits provided are at least as good as a prescribed standard
- when someone contracts out of the additional State Pension through a COSR scheme, both the scheme member and the employer pay a reduced rate of NICs (known as the rebate) to compensate for the State Pension given up

*Contracted-Out Money Purchase (COMP) Scheme*

- this scheme provides a pension based on the value of the fund at retirement i.e. the money paid in, along with the investment return
- that part of the COMP fund derived from protected rights is intended to provide benefits broadly equivalent to those given up in the additional State Pension
- a contracted-out deduction, which may be more or less than that part of the pension derived from the protected rights will be made from any additional pension built up from 6 April 1988 to 5 April 1997. Between 6 April 1997 and 5 April 2002 members of a COMP scheme will not have built up any entitlement to additional State Pension during the period of their membership
- as with a COSR scheme, when someone contracts out of the additional State Pension through a COMP scheme, both the scheme member and the employer pay a reduced rate of NICs to compensate for the State Pension given up. In addition, at the end of the tax year to which the NICs relate, the Inland Revenue pays an additional age-related rebate direct to the scheme for investment on behalf of the employer

*Contracted-Out Mixed Benefit (COMB) Scheme*

A mixed benefit scheme has two active sections, one salary related and the other money purchase. Scheme rules set out which section individual employees may join and the circumstances (if any), in which members may move between sections. Each section must satisfy the respective contracting-out conditions for COSR and COMP schemes.

From April 2002, members of contracted-out occupational schemes earning between £4,108 and £26,600 (in 2004–5) may build up entitlement to a reduced amount of State Second Pension as well as that built up in their occupational pension.

## COMPLAINTS

The Pensions Advisory Service (OPAS) gives free help and advice to people who have problems with occupational or personal pensions. There are two bodies for pension complaints. The Financial Ombudsman Service deals with complaints which predominantly concern the sale and marketing of occupational, stakeholder and personal pensions. The Pensions Ombudsman deals with complaints which predominantly concern the management (after sale or marketing) of occupational, stakeholder and personal pensions. The Occupational Pensions Regulatory Authority (OPRA) was set up by parliament to help make sure occupational pension

schemes are safe and well run, it can impose penalties where there are breaches of the law.

## TAX CREDITS

From April 2003 Working Families' Tax Credit, Disabled Person's Tax Credit and the Children's Tax Credit were replaced with Working Tax Credit and Child Tax Credit. Tax Credits are administered by the Inland Revenue and are awarded for up to 12 months, although they can be adjusted during the year to reflect changes of income or circumstances.

## WORKING TAX CREDIT

Working Tax Credit is made up of a basic payment with additional payments for couples, lone parents, people working over 30 hours a week, disabled workers and people aged 50 or over returning to work after a period of benefits. The tax credit will be paid with wages to people who are employed and directly to the self-employed. It is available to:

- People with dependant children and/or a disability, working at least 16 hours a week
- People aged 25 or over and working at least 30 hours a week

The aim of the tax credit system is to provide a guaranteed income from full-time work for those aged 25 or over without children or a disability, of £193 a week for couples, and £164 a week for single people.

## WORKING TAX CREDIT 2004–5

<i>Annual Income/status*</i>	<i>Tax Credit per annum</i>
£5,000	
Single	-
Couple	-
Single adult with a disability	£3,675
£8,000	
Single	£1,125
Couple	£2,675
Single adult with a disability	£3,230
£10,000	
Single	£385
Couple	£1,935
Single adult with a disability	£2,490
£15,000	
Single	-
Couple	-
Single adult with a disability	£640

\* Those with incomes of £5,000 a year are assumed to work part-time (working between 16 and 30 hours a week). In families with an income of £8,000 a year or more, at least one adult is assumed to be working 30 or more hours a week.

## CHILD CARE

In families where a lone parent or both partners in a couple work for at least 16 hours a week, or where one partner works and the other is disabled, the family is entitled to child care payments. This payment can contribute up to £135 a week to the cost of child care for one child and up to £200 a week for two or more children. Families can only claim if they use an approved child care provider.

## CHILD TAX CREDIT

Child Tax Credit combines all income-related support for children and is paid direct to the main carer. The credit is made up of a main 'family' payment with additional payments for each extra child in the household, for

children with a disability and an extra payment for children who are severely disabled. Child Tax Credit is available to households where:

- There is at least one dependant child under 16 years old
- There is at least one dependant young person under 19 years old and in full-time non-advanced education or registered with the Careers or Connexions Service (does not include Scotland or Northern Ireland)

#### CHILD TAX CREDIT 2004-5

(£ per year)

Annual Income	One Child		Two Children	
	No Childcare	Maximum Childcare	No Childcare	Maximum Childcare
0	2,175	2,175	3,800	3,800

50,000	545	545	545	545
60,000	-	-	-	-

## BENEFITS

Leaflets relating to the various benefits and contribution conditions for different benefits are available from local social security offices; leaflet GL23 *Social Security Benefit Rates* is a general guide to benefit rates and contributions.

### CONTRIBUTORY BENEFITS

Entitlement to contributory benefits depends on contribution conditions being satisfied either by the claimant or by some other person (depending on the kind of benefit). The class or classes of contribution which for this purpose are relevant to each benefit are:

Jobseeker's Allowance (contribution-based)	Class 1
Incapacity Benefit	Class 1 or 2
Maternity Allowance	Class 1 or 2
Widow's Benefit and Bereavement Benefit	Class 1, 2 or 3
State Pensions, categories A and B	Class 1, 2 or 3

The system of contribution conditions relates to yearly levels of earnings on which contributions have been paid.

### JOBSEEKER'S ALLOWANCE

Jobseeker's allowance (JSA) replaced unemployment benefit and income support for unemployed people under pension age from 7 October 1996. There are two routes of entitlement. Contribution-based JSA is paid as a personal rate (i.e. additional benefit for dependants is not paid) to those who have made sufficient NI contributions in two particular tax years. Savings and partner's earnings are not taken into account and payment can be made for up to six months. Rates of JSA correspond to income support rates.

Claims for this benefit are made through Jobcentre Plus offices and Jobcentres. A person wishing to claim JSA must be unemployed, capable of work and available for any work which they can reasonably be expected to do, usually for at least 40 hours per week. They must agree

and sign a 'jobseeker's agreement', which will set out each claimant's plans to find work, and must actively seek work. If they refuse work or training their benefit may be sanctioned for between one and 26 weeks.

A person will be sanctioned from JSA for up to 26 weeks if they have left a job voluntarily without just cause or through misconduct. In these circumstances, it may be possible to receive hardship payments, particularly where the claimant or their family is vulnerable, e.g. if sick or pregnant, or for those with children or caring responsibilities. See leaflet JSAL5.

### INCAPACITY BENEFIT

Incapacity Benefit is available to those who are incapable of work but cannot get statutory sick pay from their employer. It is not payable to those over State Pension age. However, people who are already in receipt of short-term Incapacity Benefit when they reach State Pension age may continue to receive this benefit for up to 52 weeks. Apart from those people who qualify under the special provisions for people incapacitated in youth, entitlement is based on a person's National Insurance Contribution record. In order to qualify for Incapacity Benefit, two contribution conditions, based on the last three tax years before the year in which benefit is claimed, must be satisfied. The amount of Incapacity Benefit payable may be reduced where a claimant receives more than a specified amount of occupational or personal pension. Severely disabled people aged between 16 and 19 should receive Incapacity Benefit without meeting the national insurance contribution conditions. There are three rates of Incapacity Benefit:

- short-term lower rate for the first 28 weeks of sickness
- short-term higher rate from weeks 29 to 52
- long-term rate from week 53 onwards

The terminally ill and those entitled to the highest rate care component of disability living allowance are paid the long-term rate after 28 weeks. Incapacity benefit is taxable after 28 weeks.

Two rates of age addition are paid with long-term benefit based on the claimant's age when incapacity started. The higher rate is payable where incapacity for work commenced before the age of 35; and the lower rate where incapacity commenced before the age of 45. Increases for dependants are also payable with short and long-term incapacity benefit.

There are two medical tests of incapacity: the 'own occupation' test and the 'personal capability' assessment. Those who worked before becoming incapable of working will be assessed, for the first 28 weeks of incapacity, on their ability to do their own job. After 28 weeks (or from the start of incapacity for those who were not working) claimants are assessed on their ability to carry out a range of work-related activities. See leaflets IBI and IB214. Since October 2001 all new benefit claimants in the 51 Jobcentre Plus areas receive a service combining jobs and benefits advice and support. The government plans to extend this as Jobcentre Plus is rolled out nationally. New Incapacity Benefit claimants will be invited back for work-focused interviews at intervals of not longer than three years. The interviews do not include medical tests, but if the claimant is due for a medical test around the same time, their local office will aim to schedule both together. People who are severely disabled and those who are terminally ill will not be asked to attend these interviews.

## BEREAVEMENT BENEFITS

Bereavement benefits replaced widow's benefit on 9 April 2001. Those claiming widow's benefit before this date will continue to receive them under the old scheme for as long as they qualify. The new system provides bereavement benefits for widows and widowers providing that their deceased spouse paid National Insurance contributions. The new system offers benefits in three forms:

*Bereavement Payment* – may be received by a man or woman who is under the state pension age at the time of their spouse's death, or whose husband or wife was not entitled to a Category A retirement pension when he or she died. It is a single tax-free lump sum of £2,000 payable immediately on becoming a widow or widower

*Widowed Parent's Allowance* – a taxable benefit payable to the surviving partner if he or she is entitled or treated as entitled to child benefit, or to a widow if she is expecting her husband's baby

*Bereavement Allowance* – a taxable weekly benefit paid for 52 weeks after the spouse's death. A widow or widower may receive this pension if aged 45 or over at the time of his or her spouse's death or if his or her Widowed Parent's Allowance ends before 52 weeks. If aged 55 or over he or she will receive the full Bereavement Allowance

It is not possible to receive Widowed Parent's Allowance and Bereavement Allowance at the same time. Bereavement benefits and widow's benefit, in any form, cease upon remarriage or are suspended during a period of cohabitation as man and wife without being legally married. See leaflet GL14, D49 (D49S for deaths that occur in Scotland).

## STATE PENSION: CATEGORIES A AND B

Category A pension is payable for life to men and women who reach State Pension age and who satisfy the contributions conditions. Category B pension is payable for life to married women, widows and widowers and is based on their wife or husband's contributions. It is payable to a married woman only when the wife and husband have claimed their State Pension and they have both reached State Pension age. From April 2010, a married man will be able to qualify for a Category B pension from his wife's contributions providing she was born on or after 6 April 1950. A Category B pension is also payable on widowhood after the State Pension age. This is payable to widows regardless of the age of their husband when he died. At present it is paid to widowers only if their wife had reached State Pension age when she died. Widowers who reach State Pension age on or after 6 April 2010 will be able to get a Category B pension on the same terms as widows. There are special rules for those who are widowed before reaching State Pension age.

Where a person is entitled to both a Category A and Category B pension then only one can be paid. The person can choose which to get. If no choice is made, the most favourable one will be paid.

A person may defer claiming their pension for five years after State Pension age. In doing so they may earn increments which will increase the weekly amount paid when they claim their State Pension. If a married man defers his Category A pension, his wife cannot claim a Category B pension on his contributions but she may earn increments on her State Pension during this time. A woman can defer her Category B pension, and earn

increments, even if her husband is claiming his Category A pension.

The basic State Pension is £79.60 per week plus any additional (earnings-related) State Pension the person may be entitled to. An increase of £47.65 is paid for an adult dependant, providing the dependant's earnings do not exceed the rate of Jobseeker's Allowance for a single person (see below) and the couple are living together. If the couple are not living together an increase is payable of the dependant's earnings are not above £47.65. Before April 2003 it was also possible to get an increase of Category A and B pensions for a child or children. Since April 2003 provision for children has been made through Child Tax Credits. An age addition of 25p per week is payable with a State Pension if a pensioner is aged 80 or over.

Since 1989 pensioners have been allowed to have unlimited earnings without affecting their State Pension. Income support can be paid where a person's income is below a set level and pensioners may also be entitled to housing and council tax benefits.

## GRADUATED RETIREMENT BENEFIT

Graduated NI contributions were first payable from 1961 and were calculated as a percentage of earnings between certain bands. They were discontinued in 1975. Graduated Retirement Benefit is paid in addition to any State Pension. A husband or wife can only get a graduated pension in return for his/her own graduated contributions, but not for his/her spouse's.

Graduated Retirement Benefit is at a weekly rate for each 'unit' of graduated contributions paid by the employee (half a unit or more counts as a whole unit); the rate varies from person to person. A unit of graduated Retirement Benefit can be calculated by adding together all graduated contributions and dividing by 7.5 (men) or 9.0 (women). If a person defers making a claim beyond 65 (60 for a woman), entitlement may be increased by one seventh of a penny per £1 of its weekly rate for each complete week of deferred retirement, as long as the retirement is deferred for a minimum of seven weeks.

In April 2002 the Pension Service, part of the Department for Work and Pensions was set up to provide an improved service for pensioners, through its network of pension centres and local services.

WEEKLY RATES OF BENEFIT *from April 2004*  
*Jobseeker's Allowance (JSA) (contribution-based)*

Person under 18	£33.50
Person aged 18–24	£44.05
Person aged 25 to State Pension age	£55.65

From October 2003 people between 60 and State Pension age can choose to claim Pension Credits instead of JSA.

*Short-term Incapacity Benefit*

Person under State Pension age – lower rate	£55.90
Person under State Pension age – higher rate	£66.15
Increase for adult dependant	£34.60
Person over State Pension age	£71.15
Person over State Pension age – higher rate	£74.15
Increase for adult dependant	£42.65

*Long-term Incapacity Benefit*

Person under State Pension age	£74.15
Increase for adult dependant	£44.35
Age addition – lower rate	£7.80
Age addition – higher rate	£15.55

*Widow's Benefit (from April 2004)*

Widowed mother's allowance	£79.60
Widow's pension, full entitlement (aged 55 and over at time of spouse's death)	£79.60

Amount of widow's pension by age of widow at spouse's death (for deaths occurring before 11 April 1988 refer to the age-points in brackets):

aged 54 (49)	£74.03
aged 53 (48)	£68.46
aged 52 (47)	£62.88
aged 51 (46)	£57.31
aged 50 (45)	£51.74
aged 49 (44)	£46.17
aged 48 (43)	£40.60
aged 47 (42)	£35.02
aged 46 (41)	£29.45
aged 45 (40)	£23.88

*Bereavement Benefit (from April 2003)*

Bereavement Payment (lump sum)	£2,000.00
Widowed Parent's Allowance	£79.60
Bereavement Allowance, full entitlement (aged 55 and over at time of spouse's death)	£79.60

Amount of Bereavement Allowance by age of widow/widower at spouse's death:

aged 54	£74.03
aged 53	£68.46
aged 52	£62.88
aged 51	£57.31
aged 50	£51.74
aged 49	£46.17
aged 48	£40.60
aged 47	£35.02
aged 46	£29.45
aged 45	£23.88

*State Pension: categories A and B*

Single person	£79.60
Increase for adult dependant	£47.65

**NON-CONTRIBUTORY BENEFITS**

These benefits are paid from general taxation and are not dependent on NI contributions. Unless otherwise stated, a benefit is tax-free and is not means tested.

**JOBSEEKER'S ALLOWANCE (INCOME-BASED)**

Those who do not qualify for contribution-based Jobseeker's Allowance (JSA(c)), those who have exhausted their entitlement to contribution-based JSA or those for whom contribution-based JSA provides insufficient income may qualify for income-based JSA. The amount paid depends on age, number of dependants, amount of income and savings. Income-based JSA comprises of three parts:

- A personal allowance for the jobseeker and his/her partner and an allowance for each child or young person for whom they are responsible (*see below*)
- Premiums for people with special needs
- Premiums for housing costs

The rules of entitlement are the same as for contribution-based JSA.

If one person in a couple was born after 28 October 1957 and neither person in the couple has responsibility for a child or children, then the couple will have to make a joint claim for JSA if they wish to receive income-based JSA.

Since April 2003 claimants have had the option to

choose to claim Child Tax Credit instead of an increase of JSA for children.

**MATERNITY ALLOWANCE**

Maternity Allowance (MA) covers women who are self-employed or otherwise do not qualify for Statutory Maternity Pay (SMP). In order to qualify for payment, a woman must have been employed and/or self-employed for at least 26 weeks in the 66 week period up to and including the week before the baby is due (test period). She must also have average weekly earning of at least £30 (Maternity Allowance Threshold) in any 13 weeks of the test period. Women who are self-employed will be deemed to have earnings at or above the Maternity Allowance Threshold. A woman can choose to start receiving MA from the 11th week before the week in which the baby is due up to the day following the day of birth. This will depend on when the woman stops work to have her baby or if the baby is born before she stops work. However, where the woman is absent from work for pregnancy related illness on or after the Sunday of the 4th week before the baby is due to be born, MA will start the day following the first day of absence from work for a pregnancy related illness. MA is paid up to 26 weeks and is only paid while the woman is not working.

**CHILD BENEFIT**

Child Benefit is payable for virtually all children aged under 16, and for those aged 16 to 18 who are studying full-time up to and including A-level or equivalent standard. It is also payable for a short period if the child has left school recently and is registered for work or work-based training for young people at a careers office or with the Connexions Service (in Northern Ireland, Training and Employment Agency).

**GUARDIAN'S ALLOWANCE**

Where the parents of a child are dead, the person who has the child in his/her family may claim a Guardian's Allowance in addition to Child Benefit. In specified circumstances the allowance is payable on the death of only one parent. *See leaflet NI14.*

**CARER'S ALLOWANCE**

Carer's Allowance (CA) is a benefit payable to people who spend at least 35 hours per week caring for a severely disabled person. To qualify for CA a person must be caring for someone in receipt of one of the following benefits:

- the middle or highest rate of disability living allowance care component
- either rate of attendance allowance
- constant attendance allowance, paid at not less than the normal maximum rate, under the industrial injuries or war pension schemes

*See leaflets SD1 and SD4.*

**SEVERE DISABLEMENT ALLOWANCE**

Since April 2001 Severe Disablement Allowance (SDA) has not been available to new claimants. Those claiming SDA before that date will continue to receive it for as long as they qualify. *See leaflet NI252.*

**ATTENDANCE ALLOWANCE**

This is payable to disabled people who claim after the age of 65 and who need a lot of care or supervision because of physical or mental disability for a period of at least six

months. Attendance Allowance has two rates: the lower rate is for day or night care, and the higher rate is for day and night care. People not expected to live for more than six months because of an illness can receive the highest rate of Attendance Allowance straight away. See leaflets DS702 and SD1.

#### DISABILITY LIVING ALLOWANCE

This is payable to disabled people who claim before the age of 65 who have personal care and/or mobility needs because of an illness or disability for a period of at least three months and are likely to have those needs for a further six months or more. The allowance has two components: the care component, which has three rates, and the mobility component, which has two rates. The rates depend on the care and mobility needs of the claimant. People not expected to live for more than six months because of an illness will automatically receive the highest rate of the care component. See leaflets DS704 and SD1.

#### STATE PENSION: CATEGORY D

Category D pension is provided for people aged 80 and over if they are not entitled to another category of pension or are entitled to less than the Category D rate. The person must also normally live in Great Britain and have done so for a continuous period of ten years within any 20-year period since their 60th birthday.

#### WEEKLY RATES OF BENEFIT from April 2004

<i>Jobseeker's Allowance (income-based)</i>	
Person under 18, living with family	£33.50
Person under 18, living away from home	£44.05
Person aged 18–24	£44.05
Person aged 25 to state pension age	£55.65
Couple with one or both under 18	£33.50–£87.30
	(depending on circumstances)
Couple aged 18 to state pension age	£87.30
Dependant children and young persons premium	
up to 16	£42.27
16–19 years	£42.27
Family premium	£15.95
Family premium (lone parent)	£15.95

#### Maternity Allowance

Standard rate	£100 or 90% of the women's average weekly earnings if less than £100
Increase for adult dependant	£34.60

#### Child Benefit

Eldest child	£16.50
Each subsequent child	£11.05

#### Guardian's allowance

Each child	£11.85
------------	--------

#### Carer's Allowance

Increase for dependant adult	£26.50
------------------------------	--------

#### Severe Disablement Allowance

*Basic rate	£44.80
Age related addition:	
Under 40	£15.55
40–49	£10.00
50–59	£5.00

Additions may be payable for dependant adults

#### Attendance allowance

Higher rate	£58.80
Lower rate	£39.35

#### Disability living allowance

Care component	
Higher rate	£58.80
Middle rate	£39.35
Lowest rate	£15.55

#### Mobility component

Higher rate	£41.05
Lower rate	£15.55

#### State Pension: category D

Single person	£47.65
Increase for wife/other adult dependant	£28.50
Age addition to State Pension at age 80	£0.25

\* The age addition applies to the age when incapacity began

#### INCOME SUPPORT

Income Support is a benefit for those aged 16 and over whose income is below a certain level. It can be paid to people who are not expected to sign on as unemployed (Income Support for unemployed people was replaced by Jobseeker's Allowance in October 1996) and who are:

- incapable of work due to sickness or disability
- bringing up children alone
- looking after a person who has a disability
- registered blind

Pension Credit replaced Income Support for people aged 60 or over on 6 October 2003. Some people who are not in these categories may also be able to claim income support.

Income Support is also payable to people who work for less than 16 hours a week on average (or 24 hours for a partner). Some people can claim Income Support if they work longer hours.

Income Support is not payable if the claimant, or claimant and partner, have capital or savings in excess of £8,000. For capital and savings in excess of £3,000, a deduction of £1 is made for every £250 or part of £250 held. Different limits apply to people permanently in residential care and nursing homes: the upper limit is £16,000 and deductions apply for capital in excess of £10,000.

Sums payable depend on fixed allowances laid down by law for people in different circumstances. If both partners are entitled to Income Support, either may claim it for the couple. People receiving Income Support may be able to receive Housing Benefit, help with mortgage or home loan interest and help with health care. They may also be eligible for help with exceptional expenses from the Social Fund. Special rates may apply to some people living in residential care or nursing homes. Leaflet IS20 gives a detailed explanation of income support.

In October 1998 the Government's voluntary New Deal for Lone Parents programme became available throughout the UK. All lone parents receiving Income Support are assigned a personal adviser at a Jobcentre who will provide guidance and support with a view to enabling the claimant to find work.

#### INCOME SUPPORT PREMIUMS

Income Support premiums are additional weekly payments for those with special needs. People qualifying for more than one premium will normally only receive the highest single premium for which they qualify. However,

family premium, disabled child premium, severe disability premium and carer premium are payable in addition to other premiums.

People with children may qualify for:

- the family premium if they have at least one child (a higher rate is paid to lone parents, although from 6 April 1998 it has not been available to new claimants)
- the disabled child premium if they have a child who receives Disability Living Allowance or is registered blind

Carers may qualify for:

- the carer premium if they or their partner are in receipt of Carer's Allowance

Long-term sick or disabled people may qualify for:

- the disability premium if they or their partner are receiving certain benefits because they are disabled or cannot work; are registered blind; or if the claimant has been incapable of work or receiving Statutory Sick Pay for at least 364 days (196 days if the person is terminally ill), including periods of incapacity separated by eight weeks or less
- the severe disability premium if the person lives alone and receives Attendance Allowance or the middle or higher rate of Disability Living Allowance care component and no one receives Carer's Allowance for caring for that person. This premium is also available to couples where both partners meet the above conditions

#### WEEKLY RATES OF BENEFIT *from April 2004*

##### *Income Support*

Single person	
under 18	£33.50
under 18 (higher)	£44.05
aged 18–24	£44.05
aged 25 and over	£55.65
aged under 18 and a single parent (lower)	£33.50
aged under 18 and a single parent (higher)	£44.05
aged 18 and over and a single parent	£55.65
Couples	
Both under 18	£66.50
One or both aged 18 or over	£87.30
For each child in a family from birth to day before 19th birthday	£42.27

##### *Premiums*

Family premium	£15.95
Family (lone parent) premium	£15.95
Disabled child premium	£42.49
Carer premium	£25.55
Disability premium	
Single	£23.70
Couple	£33.85
Enhanced disability premium	
Single	£11.60
Enhanced disabled child premium	£17.08
Severe disability premium	
Lower rate (single person and some couples)	£44.15
Higher rate (couples)	£88.30

#### PENSION CREDIT

Pension Credit was introduced on 6 October 2003 and replaces Income Support for those aged 60 and over.

There are two elements to Pension Credit:

##### *The Guarantee Credit*

The guarantee credit provides a guaranteed minimum income, with additional elements for people who have:

- relevant housing costs
- severe disabilities
- caring responsibilities

Income from State Pension, private pensions, income from capital, earnings and certain benefits are taken into account when calculating the guarantee credit. For savings and capital in excess of £6,000 a deduction of £1 is made for every £500 or part of £500 held.

People receiving the guarantee credit element of Pension Credit may be able to receive Housing Benefit, Council Tax Benefit and help with health care.

##### *The Savings Credit*

Single people aged 65 or over (and couples where one member is 65 or over) may be entitled to a Savings Credit which will reward pensioners who have modest income or savings. The Savings Credit is calculated by taking into account any qualifying income above the Savings Credit threshold. For 2004–5 the threshold is £79.60 for single people and £127.25 for couples. The Savings Credit gives pensioners a cash addition calculated at 60p for every pound of qualifying income they have between the Savings Credit threshold and the Guarantee Credit. After this, the maximum reward will be reduced by 40p for every pound of income above the guarantee level. The maximum Savings Credit is £15.51 per week (£20.22 a week for couples).

Income that qualifies towards the Savings Credit includes state pensions, earnings, second pensions and capital above £6,000.

Where only the Savings Credit is in payment, people need to claim standard Housing Benefit or Council Tax Benefit. Although local authorities take any Savings Credit into account in the Housing Benefit/Council Tax Benefit assessment. The Housing Benefit/Council Tax Benefit applicable amount for people aged 65 and over is enhanced to ensure that gains in Pension Credit are not depleted.

#### WEEKLY RATES OF BENEFIT *from April 2004*

Standard minimum guarantee:	
Single	£105.45
Couple	£160.95
Additional amount for:	
Severe disability	£44.15
Carers	£25.55
Savings Credit threshold	
Single	£79.60
Couple	£127.25

#### HOUSING BENEFIT

Housing Benefit is designed to help people with rent (including rent for accommodation in guesthouses, lodgings or hostels). It does not cover mortgage payments. The amount of benefit paid depends on:

- the income of the claimant, and partner if there is one, including earned income, unearned income (any other income including some other benefits) and savings
- number of dependants
- certain extra needs of the claimant, partner or any dependants
- number and gross income of people sharing the home who are not dependent on the claimant
- how much rent is paid

Housing Benefit is not payable if the claimant, or claimant and partner, have savings of over £16,000. The amount of benefit is affected if savings held exceed £3,000 (£6,000 for pensioners and £10,000 for people living in care homes). Housing Benefit is not paid for meals, fuel or certain service charges that may be included in the rent. Deductions are also made for most non-dependants who live in the same accommodation as the claimant (and their partner).

The maximum amount of benefit (which is not necessarily the same as the amount of rent paid) may be paid where the claimant is in receipt of Income Support or income-based Jobseeker's Allowance or where the claimant's income is less than the amount allowed for their needs. Any income over that allowed for their needs will mean that their benefit is reduced. See leaflets GL16 and RR2.

#### COUNCIL TAX BENEFIT

Nearly all the rules which apply to Housing Benefit apply to Council Tax Benefit, which helps people on low incomes to pay council tax bills. The amount payable depends on how much council tax is paid and who lives with the claimant. The benefit may be available to those receiving Income Support or income-based Jobseeker's Allowance or to those whose income is less than that allowed for their needs. Any income over that allowed for their needs will mean that their Council Tax Benefit is reduced. Deductions are made for non-dependants.

The maximum amount that is payable for those living in properties in council tax bands A to E is 100 per cent of the claimant's council tax liability. This also applies to those living in properties in bands F to H who were in receipt of the benefit at 31 March 1998 if they have remained in the same property. From 1 April 1998 council tax benefit for new claimants living in property bands F to H (or existing claimants moving into these bands) was restricted to the level payable for band E.

If a person shares a home with one or more adults (not their partner) who are on a low income, it may be possible to claim a second adult rebate. Those who are entitled to both Council Tax Benefit and second adult rebate will be awarded whichever is the greater. Second adult rebate may be claimed by those not in receipt of Council Tax Benefit.

#### ONE-OFF 70+ PAYMENT

In 2004 the Government made a one-off payment of up to £100 to each household with one occupier aged 70 or over to help them with living expenses, including council tax bills. To be eligible for the payment, the person had to reside in the UK on any day of the week between 20–26 September 2004 and have reached the age of 70 on or before 26 September 2004. The payment was a tax-free lump sum that did not affect any state pensions or benefits received. The One-off 70+ Payment was paid automatically with the Winter Fuel Payment.

#### THE SOCIAL FUND

##### REGULATED PAYMENTS

###### *Sure Start Maternity Grant*

The Sure Start Maternity Grant (SSMG) is a one-off payment of £500 for parents on low incomes to buy essential items for new babies. To qualify, mothers and expectant mothers must also receive health and welfare advice for themselves and their child from an approved

health professional. SSMG can be claimed any time from the 29th week of pregnancy until the child is three months old. Those eligible are mothers or their partners in receipt of Income Support, income-based Jobseeker's Allowance, Child Tax Credit at a rate higher than the family element or Working Tax Credit where a disability or severe disability element is in payment.

###### *Funeral Payments*

Payable for the necessary cost of burial or cremation, plus other funeral expenses reasonably incurred up to £700, to people receiving Income Support, income-based Jobseeker's Allowance, Child Tax Credit at a higher rate than the family element, Working Tax Credit where a disability or severe disability element is in payment, Council Tax Benefit or Housing Benefit who have good reason for taking responsibility for the funeral expenses. These payments are recoverable from any estate of the deceased.

###### *Cold Weather Payments*

A payment of £8.50 when the average temperature over seven consecutive days is recorded at or forecast to be 0°C or below in the qualifying person's area. Payments are made to people on Income Support or income-based Jobseeker's Allowance and those who have a child under five or whose benefit includes a pensioner or disability premium. Payments do not have to be repaid.

###### *Winter Fuel Payments*

An annual payment of £200 per household paid to most people aged 60 or over. The majority of eligible people are paid automatically before Christmas, although a few need to claim. Payments do not have to be repaid.

#### DISCRETIONARY PAYMENTS

##### *Community Care Grants*

These are intended to help people on Income Support or income-based Jobseeker's Allowance or receiving payments on account of such benefits (or those likely to receive these benefits on leaving residential or institutional accommodation) to live as independently as possible in the community; ease exceptional pressures on families; care for a prisoner or young offender released on temporary licence; help people set up home as part of a resettlement programme and/or assist with certain travelling expenses. They do not have to be repaid.

##### *Budgeting Loans*

These are interest-free loans to people who have been receiving Income Support or income-based Jobseeker's Allowance, or payments on account of such benefits for at least 26 weeks, for intermittent expenses that may be difficult to budget for.

##### *Crisis Loans*

These are interest-free loans to anyone, whether receiving benefits or not, who is without resources in an emergency, where there is no other means of preventing serious damage or serious risk to their health or safety.

#### SAVINGS

Savings over £500 (£1,000 for people aged 60 or over) are taken into account for Community Care Grants and Budgeting Loans. All savings are taken into account for Crisis Loans. Savings are not taken into account for Sure Start Maternity Grants, Funeral Payments, Cold Weather or Winter Fuel Payments.

## INDUSTRIAL INJURIES AND DISABLEMENT BENEFITS

The industrial injuries scheme, administered under the Social Security Contributions and Benefits Act 1992, provides a range of benefits designed to compensate for disablement resulting from an industrial accident (i.e. an accident arising out of and in the course of an employed earner's employment) or from a prescribed disease due to the nature of a person's employment. Those who are self-employed are not covered by this scheme.

### INDUSTRIAL INJURIES DISABLEMENT BENEFIT

A person must be at least 14 per cent disabled (except for certain respiratory diseases) in order to qualify for this benefit. The amount paid depends on the degree of disablement:

- those assessed as 14–19 per cent disabled are paid at the 20 per cent rate
- those with disablement of over 20 per cent will have the percentage rounded up or down to the nearest ten per cent, e.g. a disablement of 44 per cent will be paid at the 40 per cent rate while a disablement of 45 per cent will be paid at the 50 per cent rate

Benefit is payable 15 weeks (90 days) after the date of the accident or onset of the disease and may be payable for a limited period or for life. The benefit is payable whether the person works or not and those who are incapable of work are entitled to draw statutory sick pay or incapacity benefit in addition to industrial injuries disablement benefit. It may also be possible to claim the following allowances:

- reduced earnings allowance for those who are unable to return to their regular work or work of the same standard and who had their accident (or whose disease started) before 1 October 1990
- retirement allowance for those who were entitled to reduced earnings allowance who have reached State Pension age
- constant attendance allowance for those with a disablement of 100 per cent who need constant care. There are four rates of allowance depending on how much care the person needs
- exceptionally severe disablement allowance for those who are entitled to constant care attendance allowance at one of the higher rates and who need constant care permanently

See leaflets SD6, SD7 and SD8.

### OTHER BENEFITS

People who are disabled because of an accident or disease that was the result of work that they did before 5 July 1948 are not entitled to industrial injuries disablement benefit. They may, however, be entitled to payment under the workmen's compensation scheme or the pneumoconiosis, byssinosis and miscellaneous diseases benefit scheme. See leaflet GL23. People who suffer from certain industrial diseases caused by dust, or their dependants, can make a claim for an additional payment under the Pneumoconiosis etc. (Workers' Compensation) Act 1979 if they are unable to get damages from the employer who caused or contributed to the disease.

### WEEKLY RATES OF BENEFIT from April 2004

\*Disablement benefit/pension

Degree of disablement:

100 per cent	£120.10
90	£108.09
80	£96.08
70	£84.07
60	£72.06
50	£60.05
40	£48.04
30	£36.03
20	£24.02
Unemployability supplement	£74.15
Addition for adult dependant (subject to earnings rule)	£44.35
Reduced earnings allowance (maximum)	£48.04
Retirement allowance (maximum)	£12.01
Constant attendance allowance (normal maximum rate)	£48.10
Exceptionally severe disablement allowance	£48.10

\* There is a weekly benefit for those under 18 with no dependants which is set at a lower rate

## CLAIMS AND QUESTIONS

Entitlement to benefit and regulated Social Fund payments is determined by a decision maker on behalf of the Secretary of State for the Department of Work and Pensions. A claimant who is dissatisfied with that decision can ask for an explanation. They can dispute the decision by applying to have it revised or, in particular circumstances, superseded. If they are still dissatisfied they can go to the Appeals Service where it will be heard by an independent tribunal. There is a further right of appeal to a Social Security Commissioner against the tribunal's decision but this is on a point of law only and leave to appeal must first be obtained.

Decisions on claims and applications for Housing Benefit and Council Tax Benefit are made by Local Authority decision makers. The explanation, dispute and appeals process is the same as for other benefits. See leaflets GL24 and NI260DMA.

Decisions on applications to the discretionary Social Fund are made by Social Fund Officers. Applicants can ask for a review within 28 days of the date on the decision letter. The Social Fund Review Officer will review the case and there is a further right of review by an independent Social Fund Inspector.

## EMPLOYER PAYMENTS

### STATUTORY MATERNITY PAY

Employers pay Statutory Maternity Pay (SMP) to pregnant women who have been employed by them full or part-time for at least 26 weeks into the 15th week before the week the baby is due, and whose earnings on average at least equal the lower earnings limit applied to NI contributions (£79 per week from April 2004). All women who meet these conditions receive payment of 90 per cent of their average earnings for the first six weeks, followed by a maximum of 20 weeks at £102.80 or 90 per cent of the woman's average weekly earnings if this is less than £102.80. SMP can be paid, at the earliest, 11 weeks before the week in which the baby is due, up to the day following the birth. Women can decide when they wish their maternity leave to start and can work until the baby is born. However, where the woman is absent from work for a pregnancy related illness on or after the

Sunday of the 4th week before the baby is due to be born, SMP will start the day following the first day of absence from work for the pregnancy related illness. SMP is not payable for any week in which the woman works. Employers are reimbursed for 92 per cent of the SMP they pay. Small employers with annual gross NI payments of £45,000 or less recover 100 per cent of the SMP paid out plus 4.5 per cent in compensation for the secondary National Insurance Contributions paid on SMP. See Leaflet NI17A and Inland Revenue guide for employers E15.

#### STATUTORY PATERNITY PAY

Employers pay Statutory Paternity Pay (SPP) to employees who are taking leave when a child is born or placed for adoption. To qualify the employee must:

- have responsibility for the child's upbringing
- be the biological father of the child (or the child's adopter), or the husband/partner of the mother or adopter
- be taking time off work to care for the child and/or support the mother or adopter
- have been employed by the same employer for at least 26 weeks ending with the 15th week before the baby is due (or the week in which the adopter is notified of having been matched with a child)
- continue working for the employer up to the child's birth (or placement for adoption)
- have earnings on average at least equal to the lower earnings limit applied to NI contributions (£79 per week from April 2004)

Employees who meet these conditions receive payment of £102.80 or 90 per cent of the employee's average weekly earnings if this is less than £102.80. The employee can choose to be paid for one or two consecutive weeks. The earliest the SPP period can begin is the date of the child's birth or placement for adoption. The SPP period must be completed within eight weeks of that date. SSP is not payable for any week in which the employee works. Employers are reimbursed in the same way as for Statutory Maternity Pay. See Department of Trade and Industry leaflet PL514 and PL515.

#### STATUTORY ADOPTION PAY

Employers pay Statutory Adoption Pay (SAP) to employees taking adoption leave from their employers. To qualify for SAP the employee must:

- be newly matched with a child by an adoption agency
- have been employed by the same employer for at least 26 weeks ending the week in which they have been notified of being matched with a child
- have earnings at least equal to the lower earnings limit applied to NI contributions (£79 per week from April 2004)

Employees who meet these conditions receive payment of £102.80 or 90 per cent of their average weekly earnings if this is less than £102.80 for up to 26 weeks. The SAP period can start from the date of the child's placement. SAP is not payable for any week in which the employee works. Where a couple adopt a child only one of them may receive SAP, the other may be able to receive Statutory Paternity Pay (SPP) if they meet the eligibility criteria. Employers are reimbursed in the same way as for Statutory Maternity Pay. See Department of Trade and Industry leaflet PL515.

#### STATUTORY SICK PAY

Employers pay Statutory Sick Pay (SSP) for up to 28 weeks to any employee incapable of work for four or

more consecutive days. SSP is payable to employees between the ages of 16 and 65 who have average earnings at or above the point at which earnings become relevant for NI purposes (£79 from April 2004) in a specified period. SSP is paid at £66.15 per week and is subject to PAYE and NI contributions. Employees who cannot obtain SSP may be able to claim Incapacity Benefit. Employers may be able to recover some SSP costs. See Inland Revenue Leaflets CA86 *Employees* and CA30 *Employer Manual*.

## WAR PENSIONS

The Veteran's Agency (originally known as The War Pensions Agency) became an executive agency of the Ministry of Defence in June 2001. The Agency awards war pensions under the Naval, Military and Air Forces, Etc. (Disablement and Death) Service Pensions Order 1983 to members of the armed forces in respect of disablement or death due to service. There is also a scheme for civilians and civil defence workers in respect of the 1939–45 war, and other schemes for groups such as merchant seamen and Polish armed forces who served under British command during World War II.

#### PENSIONS

War disablement pension is awarded for the disabling effects of any injury, wound or disease which is the result of, or has been aggravated by, conditions of service in the armed forces. Claims can only be considered once the person has left the armed forces. The amount of pension paid depends on the severity of disablement, which is assessed by comparing the health of the claimant with that of a healthy person of the same age and sex. The person's earning capacity or occupation are not taken into account in this assessment. A pension is awarded if the person has a disablement of 20 per cent or more and a lump sum is usually payable to those with a disablement of less than 20 per cent. No award is made for noise-induced sensorineural hearing loss where the assessment of disablement is less than 20 per cent.

War widow/widower's pension is payable where the spouse's death was due to, or hastened by, service in the armed forces or where the spouse was in receipt of a war disablement pension constant attendance allowance (or would have been if not in hospital) at the time of death. A war widow/widower's pension is also payable if the spouse was getting War Disablement Pension at the 80 per cent rate or higher and was receiving unemployment supplement at the time of death. War widows/widowers receive a standard rank-related rate but a lower weekly rate is payable to war widows/widowers of personnel below the rank of Major who are under the age of 40, without children and capable of maintaining themselves. This is increased to the standard rate at age 40. Allowances are paid for children (in addition to child benefit) and adult dependants. An age allowance is automatically given when the widow/widower reaches 65 and increased at ages 70 and 80.

All war pensions and war widow/widower's pensions are tax-free and pensioners living overseas receive the same amount as those resident in the UK.

#### SUPPLEMENTARY ALLOWANCES

A number of supplementary allowances may be awarded to a war pensioner which are intended to meet various needs which may result from disablement or death and take account of its particular effect on the pensioner or

spouse. The principal supplementary allowances are unemployability supplement, allowance for lowered standard of occupation and constant attendance allowance. Others include exceptionally severe disablement allowance, severe disablement occupational allowance, treatment allowance, mobility supplement, comforts allowance, clothing allowance, age allowance and widow/widower's age allowance. Rent and children's allowances are also available on war widow/widower's pensions.

#### DEPARTMENT FOR WORK AND PENSIONS

##### BENEFITS

Most benefits are paid in addition to the basic war disablement pension or war widow/widower's pension, but may be affected by supplementary allowances in

payment. Any State Pension for which a war widow/widower qualifies on their own NI contribution record can be paid in addition to war widow/widower's pension.

##### CLAIMS AND QUESTIONS

To claim a war pension it is necessary to contact the nearest war pensioners' welfare service office, the address of which is available from local social security offices, or to write to the Veteran's Agency, Norcross, Blackpool FY5 3WP. Claims can also be made through authorised agents, usually ex-service organisations such as the RBL, BLESMA etc. General advice on any war pensions matter can be obtained by ringing the War Pensions Freeline (UK only) on 0800-169 2277. If living overseas, call T (+44) (125) 386-6043 E [help@veteransagency.mod.uk](mailto:help@veteransagency.mod.uk) W [www.veteransagency.mod.uk](http://www.veteransagency.mod.uk)

# THE WATER INDUSTRY

## ENGLAND AND WALES

The water industry supplies around 18,000 million litres of water every day. In 2002 water companies in England and Wales carried out around 2.9 million tests on drinking water samples of which 99.87 per cent met all British and European standards. In England and Wales the Secretary of State for Environment, Food and Rural Affairs and the National Assembly for Wales have overall responsibility for water policy and oversee environmental standards for the water industry.

### THE WATER COMPANIES

Until 1989 nine regional water authorities in England and the Welsh Water Authority in Wales were responsible for water supply and the development of water resources, sewerage and sewage disposal, pollution control, freshwater fisheries, flood protection, water recreation and environmental conservation. The Water Act 1989 provided for the creation of a privatised water industry under public regulation. The functions of the regional water authorities were taken over by ten holding companies and the regulatory bodies and have since been consolidated into the Water Industry Act 1991.

Water UK is the industry association that represents all UK water and wastewater service suppliers at national and European level. Water UK provides a framework for the water industry to engage with government, regulators, stakeholder organisations and the public. Water UK is funded directly by its members who are the service suppliers for England, Scotland, Wales and Northern Ireland; every member has a seat on the Water UK Council.

## REGULATORY BODIES

The Office of Water Services (Ofwat) was set up under the Water Act 1989 and is the independent economic regulator of the water and sewerage companies in England and Wales. Overall responsibility for water policy and overseeing environmental standards for the water industry lies with the Department for Environment, Food and Rural Affairs and the Welsh Assembly. Ofwat's main duty is to ensure that the companies can finance and carry out their statutory functions and to protect the interests of water customers. Ofwat is a non-ministerial government department headed by the Director-General of Water Services.

Under the Competition Act 1998, from 1 March 2000 the Competition Appeal Tribunal has heard appeals against the regulator's decisions regarding anti-competitive agreements and abuse of a dominant position in the marketplace. The 2003 Water Bill placed a new duty on Ofwat to have regard to sustainable development.

The Environment Agency was set up by the 1995 Environment Act as a non-departmental public body and is sponsored largely by the Department for Environment, Food and Rural Affairs and the Welsh Assembly. The Environment Agency has statutory duties and powers in relation to water resources, pollution control, flood defence, fisheries, recreation, conservation and navigation in England and Wales. They are also responsible for issuing permits, licences, consents and registrations such as industrial licences to abstract water and fishing licences.

The Drinking Water Inspectorate (DWI) is the drinking water quality regulator for England and Wales, responsible for assessing the quality of the drinking water supplied by the water companies and investigating any incidents affecting drinking water quality, initiating prosecution where necessary. The DWI also provides scientific advice on drinking water policy issues to the

Department of the Environment, Food and Rural Affairs and the Welsh Assembly.

## METHODS OF CHARGING

In England and Wales, most domestic customers still pay for domestic water supply and sewerage services through charges based on the old rateable value of their property. It is expected that by March 2005 about 26 per cent of householders will be charged according to consumption, which is recorded by meter. Industrial and most commercial customers are charged according to consumption.

Under the Water Industry Act 1999, water companies can continue basing their charges on the old rateable value of property. Domestic customers can continue paying on an unmeasured basis unless they choose to pay according to consumption. After having a meter installed (which is free of charge), a customer can revert to unmeasured charging within 12 months. Domestic, school and hospital customers cannot be disconnected for non-payment.

Price Limits for the period 2000-5 were set by Ofwat in November 1999. Price limits for the period 2005-10 will be finalised by Ofwat in December 2004.

## AVERAGE HOUSEHOLD WATER BILLS 2004-5

	<i>Unmetered (£)</i>	<i>Metered (£)</i>
Water	122	101
Sewerage	136	121
Combined	258	222

## SCOTLAND

Overall responsibility for national water policy in Scotland rested with the Secretary of State for Scotland until July 1999 when it was devolved to the Scottish Ministers. Until The Local Government (Scotland) Act 1994, water supply and sewerage services were local authority responsibilities. The Central Scotland Water Development Board had the function of developing new sources of water supply for the purpose of providing water in bulk to water authorities whose limits of supply were within the Board's area. Under the Act, three new public water authorities, covering the north, east and west of Scotland respectively, took over the provision of water and sewerage services from April 1996. The Central Scotland Water Development Board was then abolished. The Act also established the Scottish Water and Sewerage Customers Council representing consumer interests. It monitored the performance of the authorities; approved charges schemes; investigated complaints; and advised the Secretary of State. The Water Industry Act 1999, whose Scottish provisions were accepted by the Scottish Executive, abolished the Scottish Water and Sewerage Customers Council and replaced it in November 1999 by a Water Industry Commissioner.

The Water Industry (Scotland) Act 2002 resulted from the Scottish Executive's proposal that a single authority was better placed than three separate authorities to harmonise changes across the Scottish water industry. In 2002 the three existing water authorities, East of Scotland Water, North of Scotland Water and West of Scotland Water merged to form Scottish Water. Scottish Water is a public sector company, structured and managed like a private company, but remains answerable to the Scottish Parliament. Scottish Water is regulated by the Water Industry Commissioner for Scotland, the Scottish Environment Protection Agency (SEPA), and the Drinking Water Quality Regulator for Scotland. The Water Industry Commissioner is responsible for regulating all aspects of economic and customer service performance, including water and sewerage charges and SEPA is responsible for environmental issues, including controlling pollution and promoting the cleanliness of Scotland's rivers, lochs and coastal waters.

## METHODS OF CHARGING

Scottish Water sets charges for domestic and non-domestic water and sewerage provision through charges schemes which are regulated by the Water Industries Commissioner for Scotland. In February 2004 the harmonisation of all household charges across the country was completed following the merger of the separate authorities under Scottish Water.

## NORTHERN IRELAND

In Northern Ireland ministerial responsibility for water services lies with The Minister of the Department for Regional Development. The Water Service, which is an executive agency of the Department for Regional Development, is responsible for policy and co-ordination with regard to supply, distribution and cleanliness of water, and the provision and maintenance of sewerage services.

The Water Service comprises four Divisions: Eastern, Northern, Western and Southern. The main divisional offices are based in Belfast, Ballymena, Londonderry and Craigavon.

## METHODS OF CHARGING

The Water service is currently funded from public funds and direct charges. The department's policy is to meter all properties that are not exclusively domestic. They are, however, granted an allowance of 200 cubic metres per annum to reflect domestic usage – this is known as the domestic usage allowance. Customers are charged only for water used in excess of the domestic usage allowance together with a standing charge, which is intended to cover the costs of meter provision, maintenance, reading and billing. This allowance is not granted if rates are not paid on the property. Traders operating from de-rated, rate exempt or rate rebated premises are required to pay for the treatment and disposal of trade effluent which they discharge into the public sewer.

In December 2002, the Northern Ireland Office announced that water and sewerage services would become self-financed by 2006. Domestic customers would be charged directly for water and sewerage services, currently a proportion of the rates paid on domestic properties. Following a major public consultation on *The Reform of the Water and Sewerage Services In Northern Ireland* the initial conclusions from the Department for Regional Development was that the new domestic charge would include a fixed element and a variable element, the latter determined by property value or consumption.

# ENERGY

The main primary sources of energy in Britain are oil, natural gas, coal, nuclear power and water power. The main secondary sources (e.g. sources derived from the primary sources) are electricity, coke and smokeless fuels and petroleum products. The Department for the Environment, Food and Rural Affairs (DEFRA) is responsible for promoting energy efficiency.

## INDIGENOUS PRODUCTION OF PRIMARY FUELS

## OIL

Until the 1960s Britain imported almost all its oil supplies. In 1969 oil was discovered in the Arbroath field of the UK Continental Shelf (UKCS). The first oilfield to be brought into production was the Argyll field in 1975, and since the mid-1970s Britain has been a major producer of crude oil.

Licences for exploration and production are granted to companies by the Department of Trade and Industry; the leading British oil companies are BP and Shell. At the end of 2003, 1,155 Seaward Production Licences and 132 onshore Petroleum Exploration and Development Licences had been awarded, and there were a total of 259 offshore oil and gas fields in production. In 2002 there were 9 oil refineries and three smaller refining units processing crude and process oils. There are estimated to be reserves of 1,300 million tonnes of oil remaining in the UKCS. Royalties are payable on fields approved before April 1982 and petroleum revenue tax is levied on fields approved between 1975 and March 1993.

## COAL

Coal has been mined in Britain for centuries and the availability of coal was crucial to the industrial revolution of the 18th- and 19th-centuries. Mines were in private ownership until 1947 when they were nationalised and came under the management of the National Coal Board, later the British Coal Corporation. In addition to producing coal at its own deep-mine and opencast sites, of which there were 850 in 1955, British Coal was responsible for licensing private operators.

Under the Coal Industry Act 1994, the Coal Authority was established to take over ownership of coal reserves and to issue licences to private mining companies as part of the privatisation of British Coal. The Coal Authority also deals with the physical legacy of mining, e.g. subsidence damage claims, and is responsible for holding and making available all existing records. The mines were sold as five separate businesses in 1994 and coal production in the UK is now undertaken entirely in the private sector.

The main UK customer for coal is the electricity supply industry. A review of energy policy was undertaken in 1998 and the Government announced measures in its October 1998 Energy White Paper which included a freeze on new applications to build gas-fired power stations in order to increase opportunities for coal-fired power stations. The moratorium on new gas-fired power stations was lifted in 2000 in the light of two measures to improve the competitiveness of coal-fired generation. Firstly, the Government reached an agreement with the European Commission to make available temporary state aid for the coal industry with such aid to end with the termination of the European Coal and Steel Community Treaty in 2002. The second measure was the reform of the electricity wholesale market and the replacement of the Electricity Pool with the New Electricity Trading Arrangement (NETA) which took effect from 27 March 2001. In 2003, the Government launched Coal Investment Aid with a budget of up to £60 million to be allocated between 2003–5 to coal producers for projects that maintain access to coal reserves. An Energy White Paper published on 24 February 2003 stated that coal generation still provides around a third of the UK's power output but recognised that for a low-carbon economy the development of cleaner coal technologies is required. By 2020 coal generation's contribution to the UK's power output is likely to be significantly lower than today.

## COAL PRODUCTION AND FOREIGN TRADE

## GAS

From the late 18th-century gas in Britain was produced from coal. In the 1960s town gas began to be produced from oil-based feedstocks using imported oil. In 1965 gas was discovered in the North Sea in the West Sole field, which became the first gasfield in production in 1967, and from the late 1960s natural gas began to replace town gas. Britain is now the world's fourth largest producer of gas and in 1998 only 1.5 per cent of gas available for consumption in the UK was imported. From October 1998 Britain was connected to the continental European gas system via a pipeline from Bacton, Norfolk to Zeebrugge, Belgium. There are 275,000km of mains pipeline including 6,400km of high pressure gas pipelines owned and operated in the UK by National Grid Transco.

The gas industry in Britain was nationalised in 1949 and operated as the Gas Council. The Gas Council was replaced by the British Gas Corporation in 1972 and the industry became more centralised. The British Gas Corporation was privatised in 1986 as British Gas plc.

In 1993 the Monopolies and Mergers Commission found that British Gas's integrated business in Great Britain as a gas trader and the owner of the gas transportation system could operate against the public interest. In February 1997, British Gas demerged its trading arm to become two separate companies, BG plc and Centrica plc. BG Group, as the company is now known, is an international natural gas company whose principal business is finding and developing gas reserves and building gas markets. Its core operations are located in the UK, South America, Egypt, Trinidad & Tobago, Kazakhstan and India. Centrica runs the trading and services operations under the British Gas brand name in Great Britain. In October 2000 BG demerged its pipeline business, Transco, which became part of Lattice Group, finally merging with the National

Grid Group in 2002 to become National Grid Transco plc.

Competition was gradually introduced into the industrial gas market from 1986. Supply of gas to the domestic market was opened to companies other than British Gas, starting in April 1996 with a pilot project in the West Country and Wales. From early 1997 competition was progressively introduced throughout the rest of Britain in stages which were completed in May 1998.

## ELECTRICITY

The first power station in Britain generating electricity for public supply began operating in 1882. In the 1930s a national transmission grid was developed and it was reconstructed and extended in the 1950s and 1960s. Power stations were operated by the Central Electricity Generating Board.

Under the Electricity Act 1989, 12 regional electricity companies (RECs), which were responsible for the distribution of electricity from the national grid to consumers, were formed from the former area electricity boards in England and Wales. Four companies were formed from the Central Electricity Generating Board: three generating companies (National Power plc, Nuclear Electric plc and PowerGen plc) and the National Grid

Company plc, which owned and operated the transmission system. National Power and PowerGen were floated on the stock market in 1991. National Power was demerged in October 2000 to form two separate companies: International Power plc and Innogy plc, which manages the bulk of National Power's UK assets. Nuclear Electric was split into two parts in 1996 British Energy (see Nuclear Energy) and Magnox Electric, which owns the magnox nuclear reactors, remained in the public sector and was integrated into British Nuclear Fuels (BNFL) in 1998. The National Grid Company was floated on the stock market in 1995 and formed a new holding company, National Grid Group. National Grid Group completed a merger with Lattice in 2002 to form National Grid Transco, a public limited company.

NATIONAL GRID TRANSCO PLC, 1-3 Strand, London,  
WC2N 5EH T 020-7004 3000 W [www.ngtgroup.com](http://www.ngtgroup.com)

Generators and suppliers participate in a competitive wholesale trading market known as NETA (New Electricity Trading Arrangements) which began in March 2001, replacing the Electricity Pool. The introduction of competition into the domestic electricity market was completed in May 1999. With the gas market also open, most suppliers now offer their customers both gas and electricity.

In Scotland, three new companies were formed under the Electricity Act 1989: Scottish Power plc and Scottish Hydro-Electric plc, which are responsible for generation, transmission, distribution and supply; and Scottish Nuclear Ltd. Scottish Power and Scottish Hydro-Electric were floated on the stock market in 1991. Scottish Hydro-Electric merged with Southern Electric in 1998 to become Scottish and Southern Energy plc. Scottish Nuclear Ltd. was incorporated into British Energy in 1996.

In Northern Ireland, Northern Ireland Electricity plc was set up in 1993 under a 1991 Order in Council. In 1993 it was floated on the stock market and in 1998 it became part of the Viridian Group and is responsible for distribution and supply.

On 30 September 2003 the Electricity Association, the industry's main trade association, was replaced by three separate trade bodies:

## GAS AND ELECTRICITY SUPPLIERS

Now that the gas and electricity markets are open, most suppliers now offer their customers both gas and electricity. The majority of gas/electricity companies have become part of larger multi-utility companies, often operating internationally. The following list comprises a selection of some of the suppliers offering gas and electricity. Organisations in italics are subsidiaries of the companies listed in capital letters directly above.

## REGULATION OF THE GAS AND ELECTRICITY INDUSTRIES

The Office of the Gas and Electricity Markets (Ofgem) supports the Gas and Electricity Markets Authority, the regulator of the gas and electricity industries in Great Britain. Ofgem's aim is to bring choice and value to all gas and electricity customers by promoting competition and regulating monopolies. The Authority's powers are provided for under the Gas Act 1986, the Electricity Act 1989 and the Utilities Act 2000.

OFGEM, 9 Millbank, London SW1P 3GE T 020-7901 7000

W [www.ofgem.gov.uk](http://www.ofgem.gov.uk)

## NUCLEAR POWER

Nuclear reactors began to supply electricity to the national grid in 1956. It is generated at six magnox reactors, seven advanced gas-cooled reactors (AGRs) and one pressurised water reactor (PWR), Sizewell 'B' in Suffolk. In 1989 nuclear stations were withdrawn from privatisation. In 1996 Nuclear Electric Ltd and Scottish

Nuclear Ltd became operating subsidiaries of British Energy and the magnox stations were transferred to Nuclear Electric which became Magnox Electric, later part of British Nuclear Fuels Ltd (BNFL). In September 2002 the Government stepped in to provide a loan facility to British Energy which was facing insolvency and a major financial restructuring package was announced in November 2002. In March 2003 British Energy received formal approvals for loan standstill agreements from its creditors and the Government agreed to extend the loan facility until September 2004.

The UK Atomic Energy Authority (UKAEA) is responsible for the decommissioning of nuclear reactors and other nuclear facilities used in research and development. UKAEA is a non-departmental public body, funded mainly by the Department of Trade and Industry. UK Nirex, which was set up by the nuclear generating companies with the agreement of the Government, is responsible for the disposal of intermediate and some low-level nuclear waste. The Nuclear Safety Directorate of the Health and Safety Executive is the nuclear industry's regulator.

## RENEWABLE SOURCES

Renewable sources of energy principally include biofuels, hydro, wind and solar. Renewable sources accounted for 3.2 million tonnes of oil equivalent of primary energy use in 2002; of this, about 2.5 million tonnes was used to generate electricity and 0.7 million tonnes to generate heat.

The Non-Fossil Fuel Obligation (NFFO) Renewables Orders have been the Government's principal mechanism for developing renewable energy sources. NFFO Renewables Orders require the regional electricity companies to buy specified amounts of electricity from specified non-fossil fuel sources.

In January 2000 the government announced a target for renewables to supply 10 per cent of UK electricity by

2010, which would require about 10,000 megawatts of renewables to be installed. A new renewables obligation was introduced in England and Wales in April 2002 to give incentives to generators to supply progressively higher levels of renewable energy over time. These measures included:

- the exemption of renewable electricity sources from the Climate Change Levy
- the creation of a renewables support programme worth £250 million from 2002–5
- the creation of a strategic framework for a major expansion of offshore wind generation
- the formation of a new organisation within the Government (Renewables UK) to help the industry grow and compete internationally

In July 2003 the DTI announced that the world's biggest wind farms will be built in three sites off the English coast (the Thames Estuary, the Wash on the east coast and from Morecambe Bay to north Wales), providing enough power for one in six British homes.

### RENEWABLE ENERGY SOURCES 2002

	<i>Percentages</i>
Biofuels and wastes	83.2

# TRANSPORT

## CIVIL AVIATION

Since the privatisation of British Airways in 1987, UK airlines have been operated entirely by the private sector. In 2003, total capacity of British airlines amounted to 43 billion tonne-km, of which 31 billion tonne-km was on scheduled services. In 2003 British airlines carried 110 million passengers, 76 million on scheduled services and 34 million on charter flights. Overall, passenger traffic grew by six per cent in 2003. In 2003, traffic at the five main London airports grew by 3 per cent over 2002 and regional airlines saw a growth of 11 per cent in 2003, largely due to the expansion of no-frills airlines. The number of passengers is estimated to be growing at 6 per cent each year. Leading British airlines include British Airways, Britannia Airways, BMI British Midland, Air 2000, My Travel, Thomas Cook Airlines, Monarch, Virgin Atlantic and easyJet. Irish airline Ryanair also operates frequent flights from Britain.

There are around 140 licensed civil aerodromes in Britain, with Heathrow and Gatwick handling the highest volume of passengers. BAA PLC owns and operates the seven major airports: Heathrow, Gatwick, Stansted, Southampton, Glasgow, Edinburgh and Aberdeen, which between them handle about 70 per cent of air passengers and a high percentage of air cargo traffic in Britain. Other airports are controlled by local authorities or private companies.

The Civil Aviation Authority (CAA), an independent statutory body, is responsible for the regulation of UK airlines. This includes economic and airspace regulation, air safety, consumer protection and environmental research and consultancy. All commercial airline companies must be granted an Air Operator's Certificate, which is issued by the CAA to operators meeting the required safety standards. The CAA issues airport safety licences, which must be obtained by any airport used for public transport and training flights. All British-registered aircraft must be granted an airworthiness certificate, and the CAA issues professional licences to pilots, flight crew, ground engineers and air traffic controllers. The CAA also manages the Air Travel Organiser's Licence (ATOL), the UK's principal travel protection scheme. The CAA's costs are met entirely from charges on those whom it regulates; there is no direct Government funding of the CAA's work.

The Transport Act, passed by Parliament on 29 November 2000, separated the CAA from its subsidiary, National Air Traffic Services (NATS), which provides air traffic control services to aircraft flying in UK airspace, over the eastern part of the North Atlantic and at 14 of Britain's major airports. In 2003 a total of 2,078,207 flights used UK airspace, an increase of 3.9 per cent on 2002 and 2.8 per cent on 2001. In March 2001, the Airline Group, a consortium of seven UK airlines (British Airways, BMI British Midland, Virgin Atlantic, Britannia, Monarch, easyJet and My Travel), was selected by the government as its strategic partner for NATS. Financial restructuring of NATS was completed in March 2003 with additional equity investment of £65 million each from BAA and the government. The new structure has enabled NATS to begin its £1 billion investment

programme to run over the next ten years. NATS is a public private partnership between the Airline Group which holds 42 per cent of the shares, NATS staff who hold 5 per cent, BAA which holds 4 per cent and the government which holds 49 per cent and a golden share.

## RAILWAYS

Britain pioneered railways and a railway network was developed across Britain by private companies in the 19th century. In 1948 the main railway companies were nationalised and were run by a public authority, the British Transport Commission. The Commission was replaced by the British Railways Board in 1963, operating as British Rail. On 1 April 1994, responsibility for managing the track and railway infrastructure passed to a newly-formed company, Railtrack plc. In October

2001 Railtrack was put into administration under the Railways Act 1993 and Ernst and Young was appointed as administrator. In October 2002 Railtrack was taken out of administration and replaced by the not-for-profit company Network Rail. The British Railways Board continued as operator of all train services until 1996–7 when they were sold or franchised to the private sector.

On 15 July 2004 the Government announced a new structure for the rail industry in the white paper, *The Future of Rail*. The Strategic Rail Authority will be abolished (*see below*), the number of rail franchises will be reduced, and devolved governments in Scotland and Wales will have more say in decisions at a local level. The Office of Rail Regulation will also regulate safety, currently the responsibility of the Health and Safety Executive.

## OTHER RAIL SYSTEMS

Plans for a public-private partnership (PPP) for London Underground were pushed through by the Government in February 2002 despite opposition from the Mayor of London and a range of transport organisations. Under the PPP, long-term contracts with private companies are estimated to enable around £16 billion to be invested in renewing and upgrading the Underground's infrastructure over 15 years. Responsibility for stations, trains, operations, signalling and safety will remain in the public sector. In 2002–3 there were 942 million passenger journeys on the London Underground, down 1.2 per cent on the previous year.

Britain has seven other light rail systems; Croydon Tramlink, Docklands Light Railway (DLR), Manchester Metrolink, Midland Metro, the Nottingham Express Transit (NET), Sheffield Supertram and Tyne and Wear Metro. Most recently opened was the Nottingham Express Transit in March 2004.

Light rail and metro systems in Great Britain contributed to the growth in public transport, with 136 million passenger journeys in 2002–3, up seven per cent on the previous year. The Government's 10-year Transport Plan target is to double light rail use in England by 2010.

## OFFICE OF RAIL REGULATION (ORR)

Under the Railways Act 1993 the Rail Regulator was created with responsibility for the regulation of the monopoly of the railways and the network infrastructure operator, now known as Network Rail (formerly Railtrack). The Transport Act 2000 enabled the Regulator to direct enhancement of a network facility, expand an operator's existing rights and, under the Competition Act 1998, prevent anti-competitive practices. Tom Winsor's five-year appointment as Rail Regulator ended on 4 July 2004 and under the Railways and Transport Safety Bill 2003 he was replaced by a regulatory board. The re-named Office of Rail Regulation consists of a board of nine members headed by a chairman, who is appointed by the Secretary of State for Transport, and a chief executive.

## STRATEGIC RAIL AUTHORITY (SRA)

The Strategic Rail Authority (SRA) was created to provide strategic leadership to the rail industry and formally came into being on 1 February 2001 following the passing of the Transport Act 2000. In January 2002 it published its first Strategic Plan, setting out the strategic priorities for Britain's railways over the next ten years. In addition to its coordinating role, the SRA is responsible for allocating Government funding to the railways, awarding and

monitoring the franchises for operating rail services, as well as a number of other statutory functions; particularly relating to customer protection. On 15 July 2004 a white paper, *The Future of Rail*, was published which announced that the SRA would be abolished, its strategic functions and financial obligations passing to the Department for Transport. Network Rail will have full responsibility for industry planning and timetables.

For privatisation, domestic passenger services were divided into 25 train operating units, which were franchised to private sector operators via a competitive tendering process overseen by the SRA. The majority of the original franchises were let on a seven-year term, consequently there are now a large number of franchises to be let over the next few years. The SRA has devised a long-term programme to enable a steady state replacement of franchises of approximately three per annum. In November 2002 the SRA issued a franchising policy statement specifying that new franchises should set service levels and quality standards and the private sector should be charged with delivering the standards set. This led to the development of a new standard form of Franchise Agreement, which incorporates rewards and penalties for standards of train and station cleanliness, security and passenger information. It also contains guidelines and incentives for customer services and business priorities such as short and long-term costs. The first franchise to be let under this new agreement was the Greater Anglia franchise (One Railway), incorporating: Anglia; Great Eastern; West Anglia and Stansted Express train services, on 1 April 2004, and operated by the National Express Group plc.

#### SERVICES

As at March 2004 there were 23 train operating companies (TOCs): Arriva Trains Northern; Arriva Trains Wales; c2c; Central Trains; Chiltern; First Great Western; First Great Western Link; First North Western Trains; Gatwick Express; Great North Eastern Railways; Island Line (Isle of Wight); Midland Mainline; One Railway; ScotRail; Silverlink; South Central; South Eastern Trains; South West Trains; ThamesLink; Virgin Trains (CrossCountry Trains Ltd); Virgin Trains (West Coast Trains Ltd); WAGN and Wessex Trains.

In addition, Eurostar and Merseyrail provide services, but are not subject to the franchise process. The Heathrow Express service is a subsidiary of the airports group BAA.

Network Rail publishes a national timetable which contains details of rail services operated over the network, coastal shipping information and connections with Ireland, the Isle of Man, the Isle of Wight, the Channel Islands and some European destinations.

The national rail enquiries service offers information about train times and fares for any part of the country:

NATIONAL RAIL ENQUIRIES T 08457-484950

W [www.nationalrail.co.uk](http://www.nationalrail.co.uk)

TRANSPORT FOR LONDON T 020-7941 4500

W [www.transportforlondon.gov.uk](http://www.transportforlondon.gov.uk)

EUROSTAR T 08705-186186 W [www.eurostar.com](http://www.eurostar.com)

Rail Users' Consultative Committees (RUCCs) were set up under the Railways Act 1993 to protect the interests of users of the services and facilities provided on Britain's rail network. The Transport Act 2000 changed their name to the Rail Passenger Committees (RPCs) and transferred sponsorship from the Rail Regulator to the SRA. There are nine RPCs nationwide, seven for England and one

each for Scotland and Wales. They are statutory bodies and have a legal right to make recommendations for changes. The London Transport Users' Committee represents users of buses, the Underground and rail services in and around London, including Eurostar and Heathrow Express, Croydon Tramlink and the Docklands Light Railway. The interests of pedestrians, cyclists and motorists are also represented, as are those of taxi users. Transport for London was established by the Greater London Assembly and the Mayor in 2000.

On privatisation, British Rail's bulk freight haulage companies and Rail Express Systems, which carried Royal Mail traffic, were sold to English, Welsh and Scottish Railways (EWS), which also purchased Railfreight Distribution (international freight) in 1997. At the end of 2003 18.6 billion-tonne-kilometres of freight was transported by EWS and other freight companies. In 2003 Royal Mail announced it would phase out its use of rail for postal distribution by the end of March 2004.

#### NETWORK RAIL

Network Rail owns and maintains 21,000 miles of track, owns and provides access to 2,500 stations and operates and maintains more than 9,000 level crossings and 40,000 bridges and tunnels. In addition to providing the timetables for the passenger and freight operators Network Rail is also responsible for all the signalling and electrical control equipment needed to operate the rail network.

Network Rail is run as a commercial business but has members instead of shareholders. The members have similar rights to those of shareholders in a public company except they do not receive dividends or share capital and thereby having no financial or economic interest in Network Rail. All of Network Rail's profits are reinvested into maintaining and upgrading the rail infrastructure.

#### RAIL SAFETY

The Railways (Safety Case) Regulations 2000 came into force on 31 December 2000 and transferred responsibility for safety cases from Railtrack to HM Railway Inspectorate, part of the Health and Safety Executive (HSE). The regulations demand that rail operators such as Network Rail, London Underground, the station and train operators must prepare a comprehensive safety case and have it accepted by HSE before being allowed to operate their business. The Office of Rail Regulation will not grant a licence to a railway operator without an accepted safety case or an exemption being in place.

Amendments to railway safety case regulations were

announced in March 2003 and came into force on 1 April 2003. The requirement for infrastructure controllers to obtain an independent assessment of safety cases in addition to the Health and Safety Executive's acceptance was removed and the requirement to obtain annual independent health and safety audits of train and station operations was transferred from HSE to individual operators. The Rail Safety and Standards Board (RSSB) was established on 1 April 2003 as a new industry body to provide health and safety leadership for the railway industry.

#### ACCIDENTS ON RAILWAYS

	2001-2	2002-3

#### THE CHANNEL TUNNEL

The earliest recorded scheme for a submarine transport connection between Britain and France was in 1802. Tunnelling has begun simultaneously on both sides of the Channel three times: in 1881, in the early 1970s, and on 1 December 1987, when construction workers began to bore the first of the three tunnels which form the Channel Tunnel. They 'hired through' the first tunnel (the service tunnel) on 1 December 1990 and tunnelling was completed in June 1991. The tunnel was officially inaugurated by The Queen and President Mitterrand of France on 6 May 1994.

The submarine link comprises three tunnels. There are two rail tunnels, each carrying trains in one direction, which measure 24.93 ft (7.6 m) in diameter. Between them lies a smaller service tunnel, measuring 15.75 ft (4.8 m) in diameter. The service tunnel is linked to the rail tunnels by 130 cross-passages for maintenance and safety purposes. The tunnels are 31 miles (50 km) long, 24 miles (38 km) of which is under the sea-bed at an average depth of 132 ft (40 m). The rail terminals are situated at Folkestone and Calais, and the tunnels go underground at Shakespeare Cliff, Dover, and Sangatte, west of Calais.

Eurostar is the high speed passenger train connecting London with Paris in three hours and Brussels in two hours 40 minutes, via the Channel Tunnel. Some trains stop en route at Ashford (Kent) and Calais, Disneyland Paris and Lille in France.

#### RAIL LINKS

The route for the British Channel Tunnel Rail Link will run from Folkestone to a new terminal at St Pancras station, London, with new intermediate stations at Ebbsfleet, Kent, and Stratford, east London; at present services run into a terminal at Waterloo station, London.

Construction of the rail link is being financed by the private sector with a substantial government contribution. A private sector consortium, London and Continental Railways Ltd (LCR), is responsible for the design, construction and ownership of the rail link, and comprises Union Railways and the UK operator of Eurostar. Construction was expected to be completed in 2003, but on 28 January 1998 LCR informed the Government that it was unable to fulfil its obligations. On 3 June 1998 the Government announced a new funding agreement with LCR. The rail link will be constructed in two phases: phase one, from the Channel Tunnel to Fawkham Junction, North Kent began in October 1998 and opened to fare paying passengers on 28 September 2003; phase two, from Southfleet Junction to St Pancras, is due to be completed in 2007. Infrastructure developments in France have been completed and high-speed trains run from Calais to Paris and from Lille to the south of France.

#### ROADS

##### HIGHWAY AUTHORITIES

The powers and responsibilities of highway authorities in England and Wales are set out in the Highways Act 1980; for Scotland there is separate legislation.

Responsibility for trunk road motorways and other trunk roads in Great Britain rests in England with the Secretary of State for Transport, in Scotland with the Scottish Executive, and in Wales with the Welsh Assembly. The costs of construction, improvement and maintenance are paid for by central government in England and by the Welsh Assembly in Wales. The highway authority for non-trunk roads in England, Wales and Scotland is, in general, the local authority in whose area the roads lie. With the establishment of the Greater London Authority in July 2000, Transport for London became the highway authority for roads in London.

In Northern Ireland the Department of Regional Development is the statutory road authority responsible for public roads and their maintenance and construction; the Roads Service executive agency carries out these functions on behalf of the Department.

##### FINANCE

In England all aspects of trunk road and motorway funding are provided directly by the Government to the Highways Agency which operates, maintains and improves around 5,878 miles of motorways and trunk roads on behalf of the Secretary of State. For the financial year 2004-5 the Highways Agency was allocated £1.7 billion, of which £730 million was for maintenance, £508 million for major new roads including private finance payments and £231 million on smaller improvements and traffic management measures.

Government support for local authority capital expenditure on roads and other transport infrastructure is provided through grant and credit approvals as part of the Local Transport Plan (LTP). Local Authorities bid for resources on the basis of a five-year programme built around delivering integrated transport strategies. As well

as covering the structural maintenance of local roads and the construction of major new road schemes, LTP funding also includes smaller-scale safety and traffic management measures with associated improvements for public transport, cyclists and pedestrians.

For the financial year 2004–5 local authorities received a total of £1.9 billion in the form of a Local Transport Plan budget. This includes £657 million for small-scale integrated transport measures, £651 million for road maintenance and £459 million for new and existing major projects.

Total expenditure by Welsh Assembly on trunk roads, motorways and transport services (including grants to local authorities and credit approvals) in 2003–4 was £243 million. Forecast expenditure for 2004–5 is £326 million.

Until 1999 the Scottish Office received a block vote from Parliament and the Secretary of State for Scotland determined how much was spent on roads. Since 1 July 1999 all decisions on transport expenditure have been devolved to the Scottish Executive. Total planned expenditure on motorways and trunk road in Scotland during 2003–4 including depreciation and cost of capital charge was £631.2 million. Planned expenditure for 2004–5 is £643.47 million.

In Northern Ireland total expenditure by the Roads Service on trunk roads and motorways for 2003–4 was £84.5 million and £96.5 million has been allocated for expenditure in 2004–5.

The Transport Act 2000 gave English and Welsh local authorities (outside London) powers to introduce road user charging or workplace parking levy schemes. The Act requires that the net revenue raised is used to improve local transport services and facilities for at least ten years. The aim is to reduce congestion and encourage greater use of alternative modes of transport. Schemes developed by local authorities require Government approval. The Government's Ten Year Plan for Transport assumes that eight large road user charging schemes and 12 large workplace parking levy schemes will be developed by 2010. Charging schemes in London are allowed under the 1999 Greater London Authority Act. The Central London Congestion Charge Scheme began on 17 February 2003.

#### TARGETED PROGRAMME OF IMPROVEMENT

The 1998 Roads Review increased the emphasis given to making better use of the existing road network and improving road maintenance. In addition a carefully targeted programme of major trunk road improvements was announced which initially consisted of 37 schemes. The current programme contains 78 schemes, funded conventionally or through public-private partnerships. A series of 22 studies were announced in March 1999 to look at transport problems across all modes. Based on these studies the Government announced a major national road expansion programme on 10 July 2003.

#### ROAD LENGTHS (IN KILOMETRES) 2002

## BUSES

Nearly all bus and coach services in Great Britain are provided by private sector companies. The Transport Act 2000 outlines a 10-year transport plan intended to promote bus use, through agreements between local authorities and bus operators and to improve the standard and efficiency of services. The 10-year plan sets targets for bus patronage and reliability of services. There are a number of ways in which the Government supports bus services:

- Bus Service Operators Grant (BSOG) is paid directly to bus operators and reimburses 80 per cent of fuel duty and 100 per cent of duty for some 'clean' fuels
- Local authorities outside London have a duty to secure socially necessary bus services not provided commercially. Services are tendered and let to commercial operators in return for payment from the local authority
- Rural Bus Challenge supports innovative and flexible rural transport solutions, such as taxi-bus services and awarded £20 million to 42 projects in 2003
- Rural Bus subsidy grant was £48.5 million in 2003–4 and supported some 21,000 services
- Urban Bus Challenge aims to improve transport in deprived urban areas and awarded £19.6 million to 40 projects in 2003

Since June 2001 it has been a statutory minimum requirement for all local authorities to provide at least half fares and a free bus pass to pensioners and disabled people in the area. Local authorities recompense operators for the reduced fare revenue.

In London, Transport for London (TfL) has overall responsibility for setting routes, service standards and fares for the bus network. Almost all routes are competitively tendered to commercial operators. TfL

budget for buses in 2004–5 is £229 million, in addition London also benefits from a share of the funding schemes listed above.

In Northern Ireland, passenger transport services are provided by Ulsterbus Limited and Citybus Limited, two wholly owned subsidiaries of the Northern Ireland Transport Holding Company. Along with Northern Ireland Railways, Ulsterbus and Citybus operate under the brand name of Translink and are publicly owned. Ulsterbus is responsible for virtually all bus services in Northern Ireland except Belfast city services which are operated by Citybus.

## BUSES AND COACHES (GREAT BRITAIN) 2001–2

Vehicle kilometres (millions)	4,226
Local bus services passenger journeys (millions)	4,347
Passenger receipts (£ million)	4,625

Source: Department for Transport

## TAXIS

A taxi is a public transport vehicle with fewer than nine passenger seats, which is licenced to 'ply for hire'. This distinguishes taxis from private hire vehicles which must be booked in advance through an operator.

In London, taxis and their drivers are licensed by The Public Carriage Office (PCO) which is part of Transport for London (TfL). At the end of December 2001 there were 59,682 licensed taxis in England, of which 20,500 were in London. At the end of 2001, 3,381 taxis were licensed in Wales and 9,343 in Scotland.

AVERAGE TAXI FARE FOR A FOUR-MILE JOURNEY BY  
REGION 2002

<i>Region</i>	<i>Fare in £</i>
London (Transport for London)	9.10
North East	5.64
North West	5.96
Yorkshire & the Humber	5.85
East Midlands	6.09
West Midlands	6.14
East	6.58
South East	6.87
South West	7.14
Wales	6.07

## ROAD SAFETY

In March 2000, the Government published a new road safety strategy, *Tomorrow's Roads – Safer for Everyone*, which set new casualty reduction targets for 2010. The new targets include a 40 per cent reduction in the overall number of people killed or seriously injured in road accidents, a 50 per cent reduction in the number of children killed or seriously injured and a 10 per cent reduction in the slight casualty rate, all compared with the average for 1994–8.

There were 290,607 reported casualties on roads in Great Britain in 2003, 4 per cent less than in 2002. Road traffic levels were estimated to be 1 per cent higher than in 2002, consequently the casualty rate per 100 million vehicle kilometres was five per cent lower. Child casualties fell by eight per cent with 171 child fatalities, 4 per cent less than in 2002. Car user casualties decreased by 5 per cent on the 2002 level to 188,342, although fatalities were one per cent higher. Pedestrian casualties were

## 470 Transport

36,405 in 2003, 6 per cent less than 2002 and pedal cyclist casualties fell marginally to 17,033.

### ROAD ACCIDENT CASUALTIES 2003

### DRIVING LICENCES

It is necessary to hold a valid full licence in order to drive unaccompanied on public roads in the UK. Learner drivers must obtain a provisional driving licence before starting to learn to drive and must then pass theory and practical tests to obtain a full driving licence.

There are separate tests for driving motor cycles, cars, passenger-carrying vehicles (PCVs) and large goods vehicles (LGVs). Drivers must hold full car entitlement before they can apply for PCV or LGV entitlements.

The Driver and Vehicle Licensing Agency (DVLA) ceased the issue of paper licences in March 2000, however, those currently in circulation will remain valid until they expire or the details on them change. The photocard driving licence was introduced to comply with the second EC directive on driving licences. This requires a photograph of the driver to be included on all UK licences issued from July 2001.

To apply for a first photocard driving licence, individuals are required to complete the forms *Application for a Driving Licence (D1)* and *Application for a Photocard Driving Licence (D750)*. Application forms are available from post offices.

The minimum age for driving motor cars, light goods vehicles up to 3.5 tonnes and motor cycles is 17 (moped, 16). Since June 1997, drivers who collect six or more penalty points within two years of qualifying lose their licence and are required to take another test. A leaflet, *What You Need to Know About Driving Licences* (form D100), is available from post offices.

The DVLA is responsible for issuing driving licences, registering and licensing vehicles, and collecting excise duty in Great Britain. In Northern Ireland the Driver and Vehicle Licensing Agency (Northern Ireland) has similar responsibilities.

### DRIVING LICENCE FEES as at 1 April 2004

First provisional licence	
Car, motorcycle or moped	£38.00
Bus or lorry	Free
Changing a car, motorcycle or moped provisional licence to a full licence	
If first provisional licence issued before 1 March 2004	£9.00
If first provisional licence issued after 1 March 2004	Free
Changing a bus or lorry provisional licence to a full licence	Free
Licence renewal	
At age 70 and over	Free
For medical reasons	Free
Bus or lorry	Free
After disqualification	£50.00
After disqualification for some drink driving offences*	£75.00
After revocation	£38.00
Replacing a lost or stolen licence	£19.00
Adding an entitlement to a full licence	Free
Removing expired endorsements	£19.00
Exchanging	
a paper licence for a photocard licence	£19.00
for a full Northern Ireland car licence	Free
for a full EC/EEA or other foreign licence (including Channel Islands and Isle of Man)	£38.00
Change of name or address (existing licence must be surrendered)	Free

\* For an alcohol related offence where the DVLA needed to arrange medical enquiries.

### DRIVING TESTS

The Driving Standards Agency is responsible for carrying out driving tests and approving driving instructors in Great Britain. In Northern Ireland the Driver and Vehicle Testing Agency (Northern Ireland) is responsible for testing drivers and vehicles.

### DRIVING TESTS TAKEN/PERCENTAGE PASSED April 2003–March 2004

<i>Type of Test</i>	<i>Number Taken</i>	<i>Percentage Passed</i>
Practical Tests		
Car	1,399,115	43%
Motorcycle	83,428	64%
Large goods vehicle	61,594	49%
Passenger carrying vehicle	9,373	46%
Theory Tests		
Car	1,297,635	57%
Motorcycle	81,879	77%
Large goods vehicle	44,067	64%
Passenger carrying vehicle	10,542	61%

The theory and practical driving tests can be booked by postal application, online at [www.dsa.gov.uk](http://www.dsa.gov.uk) or by telephoning 0870-010 1372.

DRIVING TEST FEES (weekday rate/evening and Saturday rate) *effective from 1 September 2003\**

For cars	£39.00/£48.00
For motor cycles	£48.00/£57.00
For lorries, buses	£76.00/£94.00
Extended Test for cars (after disqualification)	£78.00/£96.00
Extended Test for motorcycles (after disqualification)	£96.00/£114.00
Motorcycle Compulsory Basic Training Certificate (CBT)	£8.00
Theory Test for all categories	£20.50

\* Correct at the time of going to press – see DSA website for further information: [www.dsa.gov.uk](http://www.dsa.gov.uk)

## MOTOR VEHICLES

Vehicles must be licensed by the DVLA or the DVLNI before they can be driven on public roads. They must also be approved as roadworthy by the Vehicle Certification Agency. The Vehicle Inspectorate carries out annual testing and inspection of goods vehicles, buses and coaches.

There were 31,207 thousand vehicles licensed at the DVLA at the end of 2003.

## VEHICLE LICENCES

Registration and first licensing of vehicles is through local offices of the Driver and Vehicle Licensing Agency in Swansea. Local facilities for relicensing are available at any post office which deals with vehicle licensing. Applicants will need to take their vehicle registration document; if this is not available the applicant must complete form V62 which is held at post offices. Postal

applications can be made to the post offices shown in the V100 booklet, available at any post office. This V100 also provides guidance on registering and licensing vehicles.

Details of the present duties chargeable on motor vehicles are available at post offices and Local Offices. The Vehicle Excise and Registration Act 1994 provides *inter alia* that any vehicle kept on a public road but not used on roads is chargeable to excise duty as if it were in use. All non-commercial vehicles constructed before 1 January 1973 are exempt from vehicle excise duty. Any vehicle licensed on or after 31 January 1998, not in use and not kept on public roads must be registered as SORN (Statutory Off Road Notification) to be exempted from vehicle excise duty. From 1 January 2004 the registered keeper of a vehicle remains responsible for licensing a vehicle or making a SORN declaration until that liability is formally transferred to a new keeper.

## MOTOR VEHICLES CURRENTLY LICENSED BY BODY TYPE 2003 (GREAT BRITAIN)

*Thousands*

All Cars (including exempt)	26,240
All company cars	2,212
Taxis (black cabs only)	39

## MOT TESTING

Cars, motor cycles, motor caravans, light goods and dual-purpose vehicles more than three years old must be covered by a current MOT test certificate. However, some vehicles i.e. minibuses may require a certificate at one year old. All certificates must be renewed annually. The MOT testing scheme is administered by the Vehicle and Operator Services Agency (VOSA) on behalf of the Secretary of State for Transport.

A fee is payable to MOT testing stations, which must be authorised to carry out tests. The maximum fees, which are prescribed by regulations, are:

For cars and light vans	£40.75	
For solo motor cycles	£15.20	
For motor cycle combinations	£24.85	
For three-wheeled vehicles	£29.00	
Motor caravans	£40.75	
Dual purpose vehicles	£40.75	
Public service vehicles (up to 8 seats)	£40.75	
Ambulances and Taxis	£40.75	
Private passenger vehicles and ambulances		
With 9–12 passenger seats	£42.65	£47.85*
13–16 passenger seats	£45.70	£61.80*
Over 16 passenger seats	£61.95	£95.65*
For light goods vehicles between 3,000 and 3,500 kg	£44.40

## SHIPPING AND PORTS

Since earliest times sea trade has played a central role in Britain's economy. By the 17th century Britain had built up a substantial merchant fleet and by the early 20th century it dominated the world shipping industry. Until the late 1990s the size and tonnage of the UK-registered trading fleet had been steadily declining. In December 1998 the Government published, *British Shipping: Charting a New Course*, which outlined strategies to promote the long-term interests of British shipping. By the end of 2003 the number of ships in the UK fleet had increased by 55 per cent whilst tonnage more than tripled; and the UK-flagged merchant fleet now constitutes over 1 per cent of the world fleet.

Freight is carried by liner and bulk services, almost all scheduled liner services being containerised. About 95 per cent by weight of Britain's overseas trade is carried by sea; this amounts to 75 per cent of its total value. Passengers and vehicles are carried by roll-on, roll-off ferries, hovercraft, hydrofoils and high-speed catamarans.

There were about 51 million ferry passengers a year in 2002, of whom 29 million travelled internationally. The leading British operators of passenger services are P&O Ferries and Stena Line (which has a Swedish parent company).

Lloyd's of London provides the most comprehensive shipping intelligence service in the world. *Lloyd's Shipping Index*, published daily, lists some 25,000 ocean-going vessels and gives the latest known report of each.

## PORTS

There are about 100 commercially significant ports in Great Britain including such ports as London, Dover, Forth, Tees and Hartlepool, Grimsby and Immingham, Sullom Voe, Milford Haven, Southampton, Felixstowe and Liverpool. Belfast is the principal freight port in Northern Ireland.

Broadly speaking, ports are owned and operated by private companies, local authorities or trusts. The largest operator is Associated British Ports which owns 21 ports. Total freight traffic through UK ports in 2002 amounted to 558 million tonnes, a decrease of 1 per cent on the previous year's figure of 566 million tonnes.

## MARINE SAFETY

From 1 October 2002 all roll-on, roll-off ferries operating to and from the UK are required to meet the new international safety standards on stability established by the Stockholm Agreement.

The Maritime and Coastguard Agency (MCA) was established on 1 April 1998 by the merger of the Coastguard Agency and the Marine Safety Agency. It is an executive agency of the Department for Transport. The Agency's aims are to reduce accidents and deaths at sea and minimise pollution in UK waters. HM Coastguard coordinates all civil maritime Search and Rescue around the UK and over a large part of the eastern Atlantic. There are about 560 full-time Coastguard Officers and a further 3,100 Auxiliary Coastguards. Each year HM Coastguard responds to around 13,000 incidents of which 7,500 are accidents to which search and rescue resources are deployed.

Locations hazardous to shipping in coastal waters are marked by lighthouses and other lights and buoys. The lighthouse authorities are the Corporation of Trinity House (for England, Wales and the Channel Islands), the Northern Lighthouse Board (for Scotland and the Isle of Man), and the Commissioners of Irish Lights (for Northern Ireland and the Republic of Ireland). Trinity House maintains 72 lighthouses, 11 major floating aids to navigation, 412 buoys, 19 beacons and 7 DGPS (Differential Positioning System) beacons\*. The Northern Lighthouse Board maintains 198 lighthouses and 131 buoys; and Irish Lights 80 lighthouses and 145 buoys.

Harbour authorities are responsible for pilotage within their harbour areas; and the Ports Act 1991 provides for the transfer of lights and buoys to harbour authorities where these are used for mainly local navigation.

\* DGPS is a satellite based navigation system provided under the three Lighthouse Authorities' Marine Navigation Plan and became operational on 1 July 2002

UK OWNED TRADING VESSELS OF 100 GROSS TONS  
AND OVER *as at end 2002*

MARINECALL WEATHER FORECAST  
SERVICE

Marinecall provides information for coastal, inshore and offshore UK sea areas by telephone. Forecasts include gale and strong wind warnings, the general situation, wind speed and direction, probability and strength of gusts, developing weather conditions, visibility and sea state and can vary in format from current observations to six-hour summaries, to 48-hour and five-day forecasts.

## UK SHIPPING FORECAST AREAS

Weather bulletins for shipping are broadcast daily on BBC Radio 4 at the following times: 0048 and 0535 (long wave and FM), 1200 and 1755 (normally long wave only). The bulletins consist of a gale warning summary, general synopsis, sea-area forecasts and coastal station reports. In addition, gale warnings are broadcast at the first available programme break after receipt. If this does not coincide with a news bulletin, the warning is repeated after the next news bulletin.

# RELIGION IN THE UK

The 2001 census included a voluntary question on religion for the first time (although the question had been included in previous censuses in Northern Ireland); 92 per cent of people chose to answer the question. In the UK, 71.6 per cent of people in Britain identified themselves as Christian (42.1 million people). After Christianity, the next most prevalent faith was Islam with 2.7 per cent describing their religion as Muslim (1.6 million people). The next largest religious groups were Hindus (559,000), followed by Sikhs (336,000), Jews (267,000), Buddhists (152,000) and people from other religions (179,000). Together, these groups accounted for less than 3 per cent of the total UK population. People in Northern Ireland were most likely to say that they identified with a religion (86 per cent) compared with 77 per cent in England and Wales and 67 per cent in Scotland. About 16 per cent of the UK population stated that they had no religion. This category included those who identified themselves as agnostics, atheists, heathens and Jedi Knights.

## CENSUS 2001 RESULTS – RELIGIONS IN THE UK (thousands)

## INTER-CHURCH AND INTER-FAITH CO-OPERATION

The main umbrella body for the Christian churches in the UK is the Churches Together in Britain and Ireland. There are also ecumenical bodies in each of the constituent countries of the UK: Churches Together in England, Action of Churches Together in Scotland, CYTUN (Churches Together in Wales), and the Irish Council of Churches. The Free Churches' Council comprises most of the Free Churches in England and Wales, and the Evangelical Alliance represents evangelical Christians.

The Inter Faith Network for the United Kingdom promotes co-operation between faiths, and the Council of Christians and Jews works to improve relations between the two religions. Churches Together in Britain and Ireland also has a Commission on Inter-Faith Relations.

## CHRISTIANITY

Christianity is a monotheistic faith based on the person and teachings of Jesus Christ and all Christian denominations claim his authority. Central to its teaching is the concept of God and his son Jesus Christ, who was crucified and resurrected in order to enable mankind to attain salvation. The Jewish scriptures predicted the coming of a *Messiah*, an 'anointed one', who would bring salvation. To Christians, Jesus of Nazareth, a Jewish rabbi (teacher), who was born in Palestine, was the promised Messiah. Jesus' birth, teachings, crucifixion and subsequent resurrection are recorded in the *Gospels*, which, together with other scriptures that summarise Christian belief, form the *New Testament*. This, together

with the Hebrew scriptures, entitled the *Old Testament* by Christians, makes up the *Bible*, the sacred texts of Christianity.

### BELIEFS

Christians believe that sin distanced mankind from God, and that Jesus was the Son of God, sent to redeem mankind from that sin by his death. In addition, many believe that Jesus will return again at some future date, triumph over evil and establish a kingdom on earth, thus inaugurating a new age. The Gospel assures Christians that those who believe in Jesus and obey his teachings will be forgiven their sins and will be resurrected from the dead.

### PRACTICES

Christian practices vary widely between different Christian churches, but prayer is universal to all, as is charity, giving for the maintenance of the church buildings, for the work of the church, and to the poor and needy. In addition, certain days of observance, i.e. the *Sabbath*, *Easter* and *Christmas*, are celebrated by most Christians. The Orthodox, Roman Catholic and Anglican churches celebrate many more days of observance, based on saints and significant events in the life of Jesus. The belief in sacraments, physical signs believed to have been ordained by Jesus Christ to symbolise and convey spiritual gifts, varies greatly between Christian denominations; *Baptism* and the *Eucharist* are practised by most Christians. Baptism, symbolising repentance and faith in Jesus is an act marking entry into the Christian community; the Eucharist, the ritual re-enactment of the Last Supper, Jesus' final meal with his disciples, is also practised by most denominations. Other sacraments, such as anointing the sick, the laying on of hands to symbolise the passing on of the office of priesthood or to heal the sick and speaking in tongues, where it is believed that the person is possessed by the Holy Spirit, the Spirit of God, are less common. In denominations where infant baptism is practised, confirmation is common, where the person repeats the commitments made for him or her at infancy. Matrimony and the ordination of priests are also widely believed to be sacraments. Many Protestants only view baptism and the Eucharist as sacraments; the Quakers and the Salvation Army reject the use of sacraments. Most Christians believe that God actively guides the Church.

### THE EARLY CHURCH

The apostles were Jesus' first converts and are recognised by Christians as the founders of the Christian community. The new faith spread rapidly throughout the eastern provinces of the Roman Empire. Early Christianity was subject to great persecution until 313 AD, when Emperor Constantine's Edict of Toleration confirmed its right to exist and it became established as the religion of the Roman Empire in 381 AD.

The Christian faith was slowly formulated in the first millennium of the Christian era. Between AD 325 and 787 there were seven Oecumenical Councils at which bishops from the entire Christian world assembled to resolve various doctrinal disputes. The estrangement between East and West began after Constantine moved the centre of the Roman Empire from Rome to Constantinople, and it grew after the division of the Roman Empire into eastern and western halves. Linguistic and cultural differences between Greek East and Latin West served to encourage separate ecclesiastical

developments which became pronounced in the tenth and early 11th centuries.

Administration of the church was divided between five ancient patriarchates: Rome and all the West, Constantinople (the imperial city – the 'New Rome'), Jerusalem and all Palestine, Antioch and all the East, and Alexandria and all Africa. Of these, only Rome was in the Latin West and after the schism in 1054, Rome developed a structure of authority centralised on the Papacy, while the Orthodox East maintained the style of localised administration. Papal authority over the doctrine and jurisdiction of the Church in western Europe was unrivalled after the split with the Eastern Orthodox Church until the Protestant Reformation in the 16th century.

### CHRISTIANITY IN BRITAIN

An English Church already existed when Pope Gregory sent Augustine to evangelise the English in AD 596. Conflicts between Church and State during the Middle Ages culminated in the Act of Supremacy in 1534, which repudiated papal supremacy and declared King Henry VIII to be the supreme head of the Church in England. Since 1559 the English monarch has been termed the Supreme Governor of the Church of England. In 1560 the jurisdiction of the Roman Catholic Church in Scotland was abolished and the first assembly of the Church of Scotland ratified the Confession of Faith, drawn up by a committee including John Knox. In 1592 Parliament passed an Act guaranteeing the liberties of the Church and its presbyterian government. King James VI (James I of England) and later Stuart monarchs attempted to reintroduce episcopacy, but a presbyterian church was finally restored in 1690 and secured by the Act of Settlement (1690) and the Act of Union (1707).

### PORVOO DECLARATION

The Porvoo Declaration was drawn up by representatives of the British and Irish Anglican churches and the Nordic and Baltic Lutheran churches and was approved by the General Synod of the Church of England in July 1995. Churches that approve the Declaration regard baptised members of each other's churches as members of their own, and allow free interchange of episcopally ordained ministers within the rules of each church.

### NON-CHRISTIAN RELIGIONS AND BELIEFS

#### BAHÁ'Í FAITH

Mirza Husayn-'Alí, known as *Bahá'u'lláh* (Glory of God) was born in Iran in 1817 and became a follower of the *Báb*, a religious reformer and prophet who was imprisoned for his beliefs and executed on the grounds of heresy in 1850. *Bahá'u'lláh* was himself imprisoned in 1852, and in 1853 he had a vision that he was the Promised One foretold by the *Báb*. He was exiled after his release from prison and eventually arrived in Acre, now in Israel, where he continued to compose the Bahá'í sacred scriptures. He died in 1892 and was succeeded by his son, Abdu'l-Bahá, as spiritual leader, under whose guidance the faith spread to Europe and North America. He was followed by Shoghi Effendi, his grandson, who translated many of *Bahá'u'lláh's* works into English. Upon his death in 1957, a democratic system of leadership was brought into operation. The Bahá'í faith recognises the unity and relativity of religious truth and teaches that there is only one God, whose will has been revealed to

mankind by a series of messengers, such as Zoroaster, Abraham, Moses, Buddha, Krishna, Christ, Muhammad, the Báb and Bahá'u'lláh, who were seen as the founders of separate religions, but whose common purpose was to bring God's message to mankind. It teaches that all races and both sexes are equal and deserving of equal opportunities and treatment, that education is a fundamental right and encourages a fair distribution of wealth. In addition, mankind is exhorted to establish a world federal system to promote peace and tolerance.

A Feast is held every 19 days, which consists of prayer and readings of Bahá'í scriptures, consultation on community business, and social activities. Music, food and beverages usually accompany the proceedings. There is no clergy; each local community elects a local assembly, which co-ordinates community activities, enrolls new members, counsels and assists members in need, and conducts Bahá'í marriages and funerals. A national assembly is elected annually by locally elected delegates, and every five years the national spiritual assemblies meet together to elect the Universal House of Justice, the supreme international governing body of the Bahá'í Faith. World-wide there are over 13,000 local spiritual assemblies; there are around five million members residing in about 235 countries, of which 182 have national organisations.

## BUDDHISM

Buddhism originated in northern India, in the teachings of Siddharta Gautama, who was born near Kapilavastu about 560 BC and became the *Buddha* (Enlightened One).

Fundamental to Buddhism is the concept of rebirth. Each life carries with it the consequences of the conduct of earlier lives (known as the law of *karma*). This cycle of death and rebirth is broken only when the state of *nirvana* has been reached. Buddhism steers a middle path between belief in personal immortality and belief in death as the final end.

The Four Noble Truths of Buddhism (*dukkha*, suffering; *tanha*, a thirst or desire for continued existence which causes *dukkha*; *nirvana*, the final liberation from desire and ignorance; and *ariya*, the path to nirvana) are all held to be universal and to sum up the *dhamma* or true nature of life. Necessary qualities to promote spiritual development are *sila* (morality), *samadhi* (meditation) and *panna* (wisdom).

There are two main schools of Buddhism: *Theravada* Buddhism, the earliest extant school, which is more traditional, and *Mahayana* Buddhism, which began to develop about 500 years after the Buddha's death and is more liberal; it teaches that all people may attain Buddhahood. Important schools that have developed within Mahayana Buddhism are *Zen* Buddhism, *Nichiren* Buddhism and *Pure Land* Buddhism or *Anidism*. There are also distinctive Tibetan forms of Buddhism. Buddhism began to establish itself in the West in the early 20th century. The scripture of Theravada Buddhism is the *Pali Canon*, which dates from the first century BC. Mahayana Buddhism uses a Sanskrit version of the Pali Canon but also has many other works of scripture.

There is no set time for Buddhist worship, which may

take place in a temple or in the home. Worship centres around meditation, acts of devotion centring on the image of the Buddha, and, where possible, offerings to a relic of the Buddha. Buddhist festivals vary according to local traditions and within Theravada and Mahayana Buddhism. For religious purposes Buddhists use solar and lunar calendars, the New Year being celebrated in April. Other festivals mark events in the life of the Buddha.

There is no supreme governing authority in Buddhism. In the United Kingdom communities representing all schools of Buddhism have developed and operate independently. The Buddhist Society was established in 1924; it runs courses and lectures, and publishes books about Buddhism. It represents no one school of Buddhism.

There are estimated to be at least 300 million Buddhists world-wide, and more than 500 groups and centres and up to 20 temples or monasteries in the UK.

## HINDUISM

Hinduism has no historical founder but had become highly developed in India by about 1200 BC. Its adherents originally called themselves Aryans; Muslim invaders first called the Aryans 'Hindus' (derived from 'Sindhu', the name of the river Indus) in the eighth century.

Most Hindus hold that *satya* (truthfulness), *ahimsa* (non-violence), honesty, sincerity and devotion to God are essential for good living. They believe in one supreme spirit (*Brahman*), and in the transmigration of *atman* (the soul). Most Hindus accept the doctrine of *karma* (consequences of actions), the concept of *samsara* (successive lives) and the possibility of all *atmans* achieving *moksha* (liberation from *samsara*) through *jnana* (knowledge), *yoga* (meditation), *karma* (work or action) and *bhakti* (devotion).

Most Hindus offer worship to *murtis* (images of deities) representing different incarnations or aspects of Brahman, and follow their *dharma* (religious and social duty) according to the traditions of their *varna* (social class), *ashrama* (stage in life), *jati* (caste) and *kula* (family).

Hinduism's sacred texts are divided into *shruti* ('that which is heard'), including the *Vedas*; or *smriti* ('that which is remembered'), including the *Ramayana*, the *Mahabharata*, the *Puranas* (ancient myths), and the sacred law books. Most Hindus recognise the authority of the *Vedas*, the oldest holy books, and accept the philosophical teachings of the *Upanishads*, the *Vedanta Sutras* and the *Bhagavad-Gita*.

Brahman is omniscient, omnipotent, limitless and all-pervading, and is usually worshipped in His deity form. Brahma, Vishnu and Shiva are the most important gods worshipped by Hindus; their respective consorts are

Saraswati, Lakshmi and Durga or Parvati, also known as Shakti. There are believed to have been ten *avatars* (incarnations) of Vishnu, of whom the most important are Rama and Krishna. Other popular gods are Ganesha, Hanuman and Subrahmanyan. All gods are seen as aspects of the supreme God, not as competing deities.

Orthodox Hindus revere all gods and goddesses equally, but there are many denominations, including the Hare-Krishna movement (ISKCon), the Arya Samaj, the Swami Narayan Hindu mission and the Satya Sai-Baba movement, in which worship is concentrated on one deity. The *guru* (spiritual teacher) is seen as the source of spiritual guidance.

Hinduism does not have a centrally-trained and ordained priesthood. The pronouncements of the *shankaracharyas* (heads of monasteries) of Shringeri, Puri, Dwarka and Badrinath are heeded by the orthodox but may be ignored by the various sects.

The commonest form of worship is a *puja*, in which offerings of water, flowers, food, fruit, incense and light are made to a deity. Puja may be done either in a home shrine or a *mandir* (temple). Many British Hindus celebrate *samskars* (purification rites) to name a baby, the sacred thread (an initiation ceremony), marriage and cremation.

The largest communities of Hindus in Britain are in Leicester, London, Birmingham and Bradford, and developed as a result of immigration from India, eastern Africa and Sri Lanka.

There are an estimated 800 million Hindus worldwide; there are about 500,000 adherents, according to the 2001 UK census, and over 150 temples in the UK.

## HUMANISM

Humanism traces its roots back to ancient times, with Indian, Chinese, Greek and Roman philosophers expressing Humanist ideas some 2,500 years ago. Confucius, the Chinese philosopher who lived around 500 BC, believed that religious observances should be replaced with moral values as the basis of social and political order and that 'the true way' is based on reason and humanity. He also stressed the importance of benevolence, respect for others and believed that the individual situation should be considered rather than the

global application of traditional rules. Humanists believe that there is no God or other supernatural beings and that humans have only one life within the material universe (Humanists do not believe in an after-life or reincarnation). Humanists believe that humans can live ethical and fulfilling lives without religious beliefs through a moral code derived from the lessons of history, personal experience and thought. Particular emphasis is placed on science as the only reliable source of knowledge of the universe. Humanists have a positive outlook on life believing that the world's problems can be solved through co-operation and mutual respect and that personal inspiration can be gained from life, especially art, culture and the natural world. There are no sacred Humanist texts. Humanists believe in ceremonies to mark important occasions in life and the British Humanist Association has a network of accredited officials and celebrants who are qualified to conduct baby namings, weddings and funerals.

## ISLAM

Islam (which means 'peace arising from submission to the will of Allah' in Arabic) is a monotheistic religion which was taught in Arabia by the Prophet Muhammad, who was born in Mecca (Al-Makkah) in 570 CE. Islam spread to Egypt, North Africa, Spain and the borders of China in the century following the Prophet's death, and is now the predominant religion in Indonesia, the Near and Middle East, northern and parts of western Africa, Pakistan, Bangladesh, Malaysia and some of the former Soviet republics. There are also large Muslim communities in other countries.

For Muslims (adherents of Islam), there is one God (*Allah*), who holds absolute power. His commands were revealed to mankind through the prophets, who include Abraham, Moses and Jesus, but his message was gradually corrupted until revealed finally and in perfect form to Muhammad through the angel *Jibril* (Gabriel) over a period of 23 years. This last, incorruptible message has been recorded in the *Qur'an* (Koran), which contains 114 divisions called *surahs*, each made up of *ayahs*, and is held to be the essence of all previous scriptures. The *Abadith* are the records of the Prophet Muhammad's deeds and sayings (the *Sunnah*) as recounted by his immediate followers. A culture and a system of law and theology gradually developed to form a distinctive Islamic civilisation. Islam makes no distinction between sacred and worldly affairs and provides rules for every aspect of human life. The *Shari'ah* is the sacred law of Islam based upon prescriptions derived from the *Qur'an* and the *Sunnah* of the Prophet.

The 'five pillars of Islam' are *shahadah* (a declaration of faith in the oneness and supremacy of Allah and the messengership of Muhammad); *salat* (formal prayer, to be performed five times a day facing the *Ka'bah* (sacred house in the holy city of Al-Makkah)); *zakat* (welfare due); *sawm* (fasting during the month of Ramadan); and *hajj* (pilgrimage to Al-Makkah); some Muslims would add *jihad* (striving for the cause of good and resistance to evil).

Two main groups developed among Muslims. *Sunni* Muslims accept the legitimacy of Muhammad's first four *caliphs* (successors as head of the Muslim community) and

of the authority of the Muslim community as a whole. About 90 per cent of Muslims are Sunni Muslims.

*Shi'ites* recognise only Muhammad's son-in-law Ali as his rightful successor and the *Imams* (descendants of Ali, not to be confused with *imams* (prayer leaders or religious teachers)) as the principal legitimate religious authority. The largest group within Shi'ism is *Twelver Shi'ism*, which has been the official school of law and theology in Iran since the 16th century; other subjects include the *Ismailis*, the *Druze* and the *Alawis*, the latter two differing considerably from the main body of Muslims. The *Ibadhis* of Oman are neither Sunni nor Shi'a, deriving from the strictly observant *Khariji* (Seceders). There is no organised priesthood, but learned men such as *ulama*, *imams* and *ayatollahs* are accorded great respect. The *Sufis* are the mystics of Islam. Mosques are centres for worship and teaching and also for social and welfare activities.

Islam was first known in western Europe in the eighth century AD when 800 years of Muslim rule began in Spain. Later, Islam spread to eastern Europe. More recently, Muslims came to Europe from Africa, the Middle East and Asia in the late 19th century. Both the Sunni and Shi'a traditions are represented in Britain, but the majority of Muslims in Britain adhere to Sunni Islam. Efforts to establish a representative central organisation recognised by all Muslims in Britain are beginning to yield results with the emergence of the Muslim Council of Britain. In addition, there are many other Muslim organisations in Britain. There are about 1,000 million Muslims worldwide, with nearly two million adherents and about 1,200 mosques in Britain.

## JAINISM

Jainism traces its history to Vardhamana Jnatiputra, known as *Tirthankara Mahavira* (The Great Hero) whose traditional dates were 599-527 BC. He was the last of a series of 24 *Jinas* (those who overcome all passions and desires) or *Tirthankaras* (those who show a way across the ocean of life) stretching back to remote antiquity. Born to a noble family in north-eastern India, he renounced the world for the life of a wandering ascetic and after 12 years of austerity and meditation he attained enlightenment. He then preached his message until, at the age of 72, he passed away and reached *moksha*, total liberation from the cycle of death and rebirth.

Jains deny the authority of the *Vedas*, the Hindu sacred

scriptures. They recognise some of the minor deities of the Hindu pantheon, but the supreme objects of worship are the *Tirthankaras*. The pious Jain does not ask favours from the *Tirthankaras*, but seeks to emulate their example in his or her own life.

Jains believe that the universe is eternal and self-subsisting; there is no omnipotent creator God ruling it and the destiny of the individual is in his or her own hands. *Karma*, the fruit of past actions, determines the place of every living being and rebirth may be in the heavens, on earth as a human, an animal or other lower being, or in the hells. The ultimate goal of existence is *moksha* or *nirvana*, a state of perfect knowledge and tranquility for each individual soul, which can be achieved only by gaining enlightenment.

The path to liberation is defined by the Three Jewels, *samyak darsana* (right thought), *samyak jnana* (right knowledge) and *samyak charitra* (right conduct).

There are about 25,000 Jains in Britain, sizeable communities in North America and East Africa and smaller groups in many other countries.

## JUDAISM

Judaism is the oldest monotheistic faith. The primary authority of Judaism is the Hebrew Bible or *Tanakh*, which records how the descendants of Abraham were led by Moses out of their slavery in Egypt to Mount Sinai where God's law (*Torah*) was revealed to them as the chosen people. The *Talmud*, which consists of commentaries on the *Mishnah* (the first text of rabbinical Judaism), is also held to be authoritative, and may be divided into two main categories: the *halakah* (dealing with legal and ritual matters) and the *Aggadah* (dealing with theological and ethical matters not directly concerned with the regulation of conduct). The *Midrash* comprises rabbinic writings containing biblical interpretations in the spirit of the *Aggadah*. The *halakah* has become a source of division; Orthodox Jews regard Jewish law as derived from God and therefore unalterable; Reform and Liberal Jews seek to interpret it in the light of contemporary considerations; and Conservative Jews aim to maintain most of the traditional rituals but to allow changes in accordance with tradition. Reconstructionist Judaism, a 20th-century movement, regards Judaism as a culture rather than a theological system and accepts all forms of Jewish practice.

The family is the basic unit of Jewish ritual, with the synagogue playing an important role as the centre for public worship and religious study. A synagogue is led by a group of laymen who are elected to office. The Rabbi is primarily a teacher and spiritual guide. The Sabbath is the central religious observance. Most British Jews are descendants of either the *Ashkenazim* of central and eastern Europe or the *Sephardim* of Spain, Portugal and the Middle East.

The Chief Rabbi of the United Hebrew Congregations of the Commonwealth is appointed by a Chief Rabbinate Conference, and is the rabbinical authority of the mainstream Orthodox sector of the Ashkenazi Jewish community, the largest body of which is the United Synagogue. His formal ecclesiastical authority is not recognised by the Reform Synagogues of Great Britain (the largest progressive group), the Union of Liberal and

Progressive Synagogues, the Sephardi community, or the Assembly of Masorti Synagogues. He is, however, generally recognised both outside the Jewish community and within it as the public religious representative of the totality of British Jewry. The Chief Rabbi is President of the London *Beth Din*. *Beth Din* (Court of Judgement) is a rabbinic court. The *Dayanim* (Assessors) adjudicate in disputes or on matters of Jewish law and tradition; they also oversee dietary law administration.

The Board of Deputies of British Jews, established in 1760, is the representative body of British Jewry. The basis of representation is mainly synagogal, but communal organisations are also represented. It watches over the interests of British Jewry, acts as the central voice of the community and seeks to counter anti-Jewish discrimination and antisemitic activities. In November 1998 a Consultative Committee was established comprising representatives of the Assembly of Masorti Synagogues, Reform Synagogues of Great Britain, Union of Liberal and Progressive Synagogues and the United Synagogue. The Committee holds discussions to further communal harmony and development.

There are over 12.5 million Jews world-wide; in Great Britain and Ireland there are an estimated 285,000 adherents and about 365 synagogues. Of these, 191 congregations and about 175 rabbis and ministers are under the jurisdiction of the Chief Rabbi; 99 orthodox congregations have a more independent status; and 79 congregations are outside the jurisdiction of the Chief Rabbi.

## PAGANISM

Paganism draws on the ideas of the Celtic people of pre-Roman Europe and is closely linked to Druidism. The first historical record of Druidry comes from classical Greek and Roman writers of the 3rd century BC, who noted the existence of Druids among a people called the Keltoi who inhabited central and southern Europe. The word druid may derive from the Indo-European 'dreo-vid', meaning 'one who knows the truth'. In practice it was probably understood to mean something like 'wise-one' or 'philosopher-priest'. Pagans place much emphasis on the natural world and the ongoing cycle of life and death is central to Pagan beliefs. Most Pagans are eco-friendly and seek to live in a way that minimises harm to the natural environment. Pagans worship many different forms. The most important and widely recognised of these are the God and Goddess whose annual cycle of procreation, birth and dying defines the Pagan year. Paganism strongly emphasises the equality of the sexes with women playing a prominent role in the modern Pagan movement and Goddess worship featuring in most ceremonies. Paganism is not based on doctrine and many pagans follow the code 'if it harms none, do what you will'.

The Pagan Federation was founded in 1971 to provide information on Paganism and publishes a quarterly journal, *Pagan Dawn*, and other publications. It arranges members-only and public events and maintains personal contact by letter with individual members and the wider Pagan community. An annual conference is held at the end of each November and there are regional gatherings throughout the year. The aims of the Pagan Federation are to provide contact between national and international Pagan organisations.

**THE PAGAN FEDERATION**, BM Box 7097, London, WC1N 3XX

## SIKHISM

The Sikh religion dates from the birth of Guru Nanak in the Punjab in 1469. 'Guru' means teacher but in Sikh tradition has come to represent the divine presence of God giving inner spiritual guidance. Nanak's role as the human vessel of the divine guru was passed on to nine successors, the last of whom (Guru Gobind Singh) died in 1708. The immortal guru is now held to reside in the sacred scripture, *Guru Granth Sahib*, and so to be present in all Sikh gatherings.

Guru Nanak taught that there is one God and that different religions are like different roads leading to the same destination. He condemned religious conflict, ritualism and caste prejudices. The fifth Guru, Guru Arjan Dev, largely compiled the Sikh Holy Book, a collection of hymns (*gurbani*) known as the *Adi Granth*. It includes the writings of the first five Gurus and the ninth Guru, and

selected writings of Hindu and Muslim saints whose views are in accord with the Gurus' teachings. Guru Arjan Dev also built the Golden Temple at Amritsar, the centre of Sikhism. The tenth Guru, Guru Gobind Singh, passed on the guruship to the sacred scripture, *Guru Granth Sahib*. He also founded the *Khalsa*, an order intended to fight against tyranny and injustice. Male initiates to the order added 'Singh' to their given names and women added 'Kaur'. Guru Gobind Singh also made five symbols obligatory: *kaccha* (a special undergarment), *kara* (a steel bangle), *kirpan* (a small sword), *kes* (long unshorn hair, and consequently the wearing of a turban), and *kangha* (a comb). These practices are still compulsory for those Sikhs who are initiated into the *Khalsa* (the *Amritdharis*). Those who do not seek initiation are known as *Sehajdharis*.

There are no professional priests in Sikhism; anyone with a reasonable proficiency in the Punjabi language can conduct a service. Worship can be offered individually or communally, and in a private house or a *gurdwara* (temple). Sikhs are forbidden to eat meat prepared by ritual slaughter; they are also asked to abstain from smoking, alcohol and other intoxicants. Such abstention is compulsory for the *Amritdharis*.

There are about 20 million Sikhs world-wide and about 500,000 adherents and 250 *gurdwaras* in Great Britain. Every *gurdwara* manages its own affairs and there is no central body in the UK. The Sikh Missionary Society provides an information service.

## ZOROASTRIANISM

Zoroastrianism was founded by Zarathushtra (or Zoroaster in its hellenised form) in Persia. Linguistic analysis of the earliest extant Zoroastrian texts suggests that he lived around 1500 BC. Zarathushtra's words are recorded in five poems called the *Gathas*, which, together with other scriptures, forms the *Avesta*.

Zoroastrianism teaches that there is one God, *Ahura Mazda* (the Wise Lord), and that all creation stems ultimately from God; the *Gathas* teach that human beings have free will, are responsible for their own actions and can choose between good and evil: Choosing *Asha* (truth or righteousness), with the aid of *Vohu Manah* (good mind), leads to happiness for the individual and society, whereas choosing evil leads to unhappiness and conflict. The *Gathas* also encourage hard work, good deeds and charitable acts. Zoroastrians believe that after death, the immortal soul is judged by God, and is then sent to paradise or hell, where it will stay until the end of time. It will be resurrected for the final judgement.

In Zoroastrian places of worship, an urn containing fire is the central feature; the fire symbolises purity, light, and truth and is a visible symbol of the *Fravashi* or *Faroahar*, the presence of *Ahura Mazda* in every human being.

Zoroastrians respect nature and much importance is attached to cultivating land and protecting the air, the earth and water. The practice of leaving corpses on mountain tops or towers developed to avoid pollution.

Zoroastrians were persecuted in Iran following the Arab invasion of Persia in the seventh century AD, which also brought Islam and a group migrated to India in the tenth century AD, who are known as Parsis, to avoid harassment and persecution; there are fewer than 150,000 Zoroastrians world-wide, of which 7,000 reside in Britain, mainly in London and the south east.

# CHURCHES

There are two established, i.e. state, churches in the United Kingdom: the Church of England and the Church of Scotland. There are no established churches in Wales or Northern Ireland, though the Church in Wales, the Scottish Episcopal Church and the Church of Ireland are members of the Anglican Communion.

## THE CHURCH OF ENGLAND

The Church of England is the established (i.e. national) church in England and seeks to serve the nation through its dioceses and parishes. It traces its life back to the first coming of Christianity to England. Its position is defined by the ancient creeds of the Church and by the 39 Articles of Religion (1571), the Book of Common Prayer (1662) and the Ordinal. The Church of England is thus both catholic and reformed. It is the mother church of the Anglican Communion.

### THE ANGLICAN COMMUNION

The Anglican Communion consists of 38 independent provincial or national Christian churches throughout the world, many of which are in Commonwealth countries and originated from missionary activity by the Church of England. Every ten years all the bishops in the Communion meet at the Lambeth Conference, convened by the Archbishop of Canterbury. The Conference has no policy-making authority but is an important forum for discussing and forming consensus around issues common concern. The Anglican Consultative Council was set up in 1968 to liaise between the member churches and provinces of the Anglican Communion. It meets every three years. Meetings of the Anglican primates have taken place every two years since 1979.

There are about 70 million Anglicans organised into 500 dioceses and 64,000 individual congregations world-wide.

### STRUCTURE

The Church of England is divided into the two provinces of Canterbury and York, each under an archbishop. The two provinces are subdivided into 44 dioceses.

Legislative provision for the Church of England is made by the General Synod, established in 1970. It also discusses and expresses opinion on any other matter of religious or public interest. The General Synod has 580 members in total, divided between three houses: the House of Bishops, the House of Clergy and the House of Laity. It is presided over jointly by the Archbishops of Canterbury and York and normally meets twice a year. The Synod has the power, delegated by Parliament, to frame statute law (known as a Measure) on any matter concerning the Church of England. A Measure must be laid before both Houses of Parliament, who may accept or reject it but cannot amend it. Once accepted the Measure is submitted for royal assent and then has the full force of law. In addition to the General Synod, there are Synods at diocesan level.

The Archbishops' Council was established in January 1999. Its creation was the result of changes to the Church of England's national structure proposed in 1995 and

subsequently approved by the Synod and Parliament. The Council's purpose, set out in the National Institutions Measure 1998, is 'to co-ordinate, promote and further the work and mission of the Church of England'. It reports to the General Synod. The Archbishops' Council comprises the Archbishops of Canterbury and York, *ex officio*, the Prolocutors elected by the Convocations of Canterbury and York, the Chairman and Vice-Chairman of the House of Laity, elected by that House, two bishops, two clergy and two lay persons elected by their respective Houses of the General Synod, and up to six persons appointed jointly by the two Archbishops with the approval of the General Synod.

There are also a number of national Boards, Councils and other bodies working on matters such as social responsibility, mission, Christian unity and education which report to the General Synod through the Archbishops' Council.

### THE ORDINATION OF WOMEN

The canon making it possible for women to be ordained to the priesthood was promulgated in the General Synod in February 1994 and the first 32 women priests were ordained on 12 March 1994.

### MEMBERSHIP

In 2001, 153,000 people were baptised, the Church of England had an electoral roll membership of 1.4 million, and each week about 1.2 million people attended services. As at December 2002 there were over 16,000 churches and places of worship. At December 2002 there were 370 dignitaries (including bishops, archdeacons and cathedral clergy); 8,712 parochial stipendiary clergy; 399 non parochial stipendiary clergy; 1,159 chaplains etc; 35 lay workers and Church Army evangelists; 8,384 licensed readers and 1,900 readers with permission to officiate and active emeriti; and approximately 4,600 active retired ordained clergy.

## OTHER ANGLICAN CHURCHES

## THE CHURCH IN WALES

The Anglican Church was the established church in Wales from the 16th century until 1920, when the estrangement of the majority of Welsh people from Anglicanism resulted in disestablishment. Since then the Church in Wales has been an autonomous province consisting of six sees. The bishops are elected by an electoral college comprising elected lay and clerical members, who also elect one of the diocesan bishops as Archbishop of Wales.

The legislative body of the Church in Wales is the Governing Body, which has 350 members divided between the three orders of bishops, clergy and laity. Its President is the Archbishop of Wales and it meets twice annually. Its decisions are binding upon all members of the Church. The Church's property and finances are the responsibility of the Representative Body. There are about 84,000 members of the Church in Wales, with 648 stipendiary clergy and 1,020 parishes.

The stipend for a diocesan bishop of the Church in Wales is £32,005 a year for 2004–5.

## THE SCOTTISH EPISCOPAL CHURCH

The Scottish Episcopal Church was founded after the Act of Settlement (1690) established the presbyterian nature of the Church of Scotland. The Scottish Episcopal Church is a member of the world-wide Anglican Communion. The governing authority is the General Synod, an elected body of approximately 140 members which meets once a year. The diocesan bishop who convenes and presides at meetings of the General Synod is called the Primus and is elected by his fellow bishops.

There are 44,280 members of the Scottish Episcopal Church, of whom 29,251 are communicants. There are seven bishops, approximately 482 serving clergy, and 313 churches and places of worship.

THE GENERAL SYNOD OF THE SCOTTISH EPISCOPAL CHURCH, 21 Grosvenor Crescent, Edinburgh EH12 5EE

*St Andrews, Dunkeld and Dunblane*, vacant. *Clergy*, 86

The minimum stipend of a diocesan bishop of the Scottish Episcopal Church for 2004–5 is £27,540 (i.e. 1.5 times the minimum clergy stipend of £18,360)

## THE CHURCH OF IRELAND

The Anglican Church was the established church in Ireland from the 16th century but never secured the allegiance of the majority and was disestablished in 1871. The Church of Ireland is divided into the provinces of Armagh and Dublin, each under an archbishop. The provinces are subdivided into 12 dioceses.

The legislative body is the General Synod, which has 660 members in total, divided between the House of Bishops and the House of Representatives. The Archbishop of Armagh is elected by the House of Bishops; other episcopal elections are made by an electoral college.

There are about 375,000 members of the Church of Ireland, with two archbishops, ten bishops, about 600 clergy and about 1,100 churches and places of worship.

### THE CHURCH OF SCOTLAND

The Church of Scotland is the established (i.e. national) church of Scotland. The Church is Reformed in doctrine, and presbyterian in constitution, i.e. based on a hierarchy of councils of ministers and elders and, since 1990, of members of a diaconate. At local level the Kirk Session consists of the parish minister and ruling elders. At district level the presbyteries, of which there are 44 in Britain, consist of all the ministers in the district, one ruling elder from each congregation, and those members of the diaconate who qualify for membership. The General Assembly is the supreme authority, and is presided over by a Moderator chosen annually by the Assembly. The Sovereign, if not present in person, is represented by a Lord High Commissioner who is appointed each year by the Crown.

The Church of Scotland has about 550,000 members, 1,100 ministers and 1,500 churches. There are about 100 ministers and other personnel working overseas.

*Lord High Commissioner* (2004), The Rt. Hon. Lord Steel of Aikwood

The stipends for ministers in the Church of Scotland in 2004 range from £20,090–£24,659, depending on length of service. In addition, congregations can make extra payments.

## THE ROMAN CATHOLIC CHURCH

The Roman Catholic Church is one world-wide Christian Church acknowledging as its head the Bishop of Rome, known as the Pope (Father). He leads a communion of followers of Christ, who believe they continue his presence in the world as servants of faith, hope and love to all society. The Pope is held to be the successor of St Peter and thus invested with the power which was entrusted to St Peter by Jesus Christ. A direct line of succession is therefore claimed from the earliest Christian communities. With the fall of the Roman Empire the Pope also became an important political leader. His territory is now limited to the 107 acres of the Vatican City State, created to provide some independence to the Pope from Italy and other nations.

The Pope exercises spiritual authority over the Church with the advice and assistance of the Sacred College of Cardinals, the supreme council of the Church. He is also advised by bishops in communion with him, by a group of officers which form the Roman Curia and by his ambassadors, called Apostolic Nuncios, who liaise with the Bishops' Conference in each country.

Those members of the College of Cardinals who are under the age of 80 elect a successor of the Pope following his death. The assembly of the Cardinals called to the Vatican for the election of a new Pope is known as the Conclave. In complete seclusion the Cardinals vote by a secret ballot; a two-thirds majority is necessary before the vote can be accepted as final. When a Cardinal receives the necessary number of votes, the Dean of the Sacred College formally asks him if he will accept election and the name by which he wishes to be known. On his acceptance of the office of Supreme Pontiff, the Conclave is dissolved and the first Cardinal Deacon announces the election to the assembled crowd in St Peter's Square.

The number of cardinals was fixed at 70 by Pope Sixtus V in 1586 but has been steadily increased since the pontificate of John XXIII and at the end of October 2003 stood at 194, plus two cardinals created 'in pectore' (their names being kept secret by the Pope for fear of persecution; they are thought to be Chinese).

The Pope has full legislative, judicial and administrative power over the whole church. He is aided in his administration by the Curia, which is made up of a number of departments. The Secretariat of State is the central office for carrying out the Pope's instructions and is presided over by the Cardinal Secretary of State. It maintains relations with the departments of the Curia, with the episcopate, with the representatives of the Holy See in various countries, governments and private persons. The congregations and pontifical councils are the Pope's ministries and include departments such as the Congregation for the Doctrine of Faith, whose field of competence concern faith and morals; the Congregation for the Clergy and the Congregation for the Evangelisation of Peoples, the Pontifical Council for the Family and the Pontifical Council for the Promotion of Christian Unity.

The Vatican State does not have diplomatic representatives. The Holy See, composed of the Pope and those who help him in his mission for the Church, is recognised by the Conventions of Vienna as an International Moral Body. The representatives of the Holy See are known as Apostolic Nuncios. Where representation is only to the local churches and not to the government of a country, the Papal representative is known as an apostolic delegate. The Roman Catholic Church has an estimated 840 million adherents under the care of some 2,500 diocesan bishops world-wide.

### SOVEREIGN PONTIFF

His Holiness Pope John Paul II (Karol Wojtyła), *born* Wadowice, Poland, 18 May 1920; *ordained priest* 1946; *appointed Archbishop* of Kraków 1964; *created Cardinal* 1967; *assumed pontificate* 16 October 1978

### SECRETARIAT OF STATE

*Secretary of State*, HE Cardinal Angelo Sodano  
*First Section (General Affairs)*, Archbishop Leonardo Sandri (Titular Archbishop of Cittanova)  
*Second Section (Relations with other states)*, Most Revd Giovanni Lajolo (Titular Archbishop of Cesariana)

### BISHOPS' CONFERENCE

The Roman Catholic Church in England and Wales consists of a total of 22 dioceses and is governed by the Bishops' Conference, membership of which includes the Diocesan Bishops, the Apostolic Exarch of the Ukrainians, the Bishop of the Forces and the Auxiliary Bishops. The Conference is headed by the President (*HE Cardinal Cormac Murphy-O'Connor, Archbishop of Westminster*) and Vice-President (*The Most Revd Patrick Kelly, Archbishop of Liverpool*). There are five departments, each with an episcopal chairman: the Department for Christian Life and Worship (the Bishop of Menevia), the Department for Mission and Unity (the Bishop of Portsmouth), the Department for Catholic Education and Formation (the Archbishop of Birmingham), the Department for Christian Responsibility and Citizenship (the Archbishop of Cardiff), and the Department for International Affairs (the Bishop of Leeds).

The Bishops' Standing Committee, made up of all the Archbishops and the chairman of each of the above departments, has general responsibility for continuity of policy between the plenary sessions of the Conference. It prepares the Conference agenda and implements its decisions. It is serviced by a General Secretariat. There are also agencies and consultative bodies affiliated to the Conference.

The Bishops' Conference of Scotland is the permanently constituted assembly of the Bishops of Scotland. The Conference is headed by the President (*HE Cardinal Keith Patrick O'Brien, Archbishop of St. Andrews and Edinburgh*). To promote its work, the Conference establishes various agencies which have an advisory function in relation to the Conference. The more important of these agencies are called Commissions and each one has a Bishop President who, with the other members of the Commissions, are appointed by the Conference.

The Irish Episcopal Conference has as its president Archbishop Brady of Armagh. Its membership comprises all the Archbishops and Bishops of Ireland and it appoints various Commissions to assist it in its work. There are three types of Commissions: (a) those made up of lay and clerical members chosen for their skills and experience, and staffed by full-time expert secretariats; (b) Commissions whose members are selected from existing institutions and whose services are supplied on a part-time basis; and (c) Commissions of Bishops only.

The Roman Catholic Church in the UK has an estimated 1,631,449 members, 6,583 priests and 4,475 churches.

## OTHER CHURCHES IN THE UK

## AFRICAN AND AFRO-CARIBBEAN CHURCHES

There are more than 160 Christian churches or groups of African or Afro-Caribbean origin in the UK. These include the Apostolic Faith Church, the Cherubim and Seraphim Church, the New Testament Church Assembly, the New Testament Church of God, the Wesleyan Holiness Church and the Aladura Churches. The Afro-West Indian United Council of Churches and the Council of African and Afro-Caribbean Churches UK (which was initiated as the Council of African and Allied Churches in 1979 to give one voice to the various Christian churches of African origin in the UK) are the media through which the member churches can work jointly to provide services they cannot easily provide individually.

There are about 70,000 adherents of African and Afro-Caribbean churches in the UK, and over 1,000 congregations. The Council of African and Afro-Caribbean Churches UK has about 17,000 members, 250 ministers and 125 congregations.

## COUNCIL OF AFRICAN AND AFRO-CARIBBEAN

CHURCHES UK, 31 Norton House, Sidney Road, London SW9 0UJ T 020-7274 5589

*Chairman*, His Grace The Most Revd Father Olu A. Abiola, OBE

## ASSOCIATED PRESBYTERIAN CHURCHES OF SCOTLAND

The Associated Presbyterian Churches came into being in 1989 as a result of a division within the Free Presbyterian Church of Scotland. Following two controversial disciplinary cases, the culmination of deepening differences within the Church, a presbytery was formed calling itself the Associated Presbyterian Churches (APC). The Associated Presbyterian Churches has about 900 members, 9 ministers and 16 churches.

*Clerk of the Scottish Presbytery*, Revd A. N. McPhail, Fernhill, Polvinster Road, Oban PA34 5TN T 01631-567076

## THE BAPTIST CHURCH

Baptists trace their origins to John Smyth, who in 1609 in Amsterdam reinstated the baptism of conscious believers as the basis of the fellowship of a gathered church. Members of Smyth's church established the first Baptist church in England in 1612. They came to be known as 'General' Baptists and their theology was Arminian, whereas a later group of Calvinists who adopted the baptism of believers came to be known as 'Particular' Baptists. The two sections of the Baptists were united into one body, the Baptist Union of Great Britain and Ireland, in 1891. In 1988 the title was changed to the Baptist Union of Great Britain.

Baptists emphasise the complete autonomy of the local church, although individual churches are linked in various kinds of associations. There are international bodies (such as the Baptist World Alliance) and national bodies, but some Baptist churches belong to neither. However, in Great Britain the majority of churches and associations belong to the Baptist Union of Great Britain. There are also Baptist Unions in Wales, Scotland and Ireland which are much smaller than the Baptist Union of Great Britain, and there is some overlap of membership.

There are over 40 million Baptist church members world-wide; in the Baptist Union of Great Britain there are 139,028 members, 1,917 pastors and 2,099 churches. In the Baptist Union of Scotland there are 14,002 members, 120 pastors and 176 churches. In the Baptist Union of Wales (*Undeb Bedydwyr Cymru*) there are about 15,073 members, 100 pastors and 443 churches. In the Association of Baptist Churches in Ireland (formerly the Baptist Union of Ireland) there are 8,251 members, 85 pastors and 111 churches.

## THE CONGREGATIONAL FEDERATION

The Congregational Federation was founded by members of Congregational churches in England and Wales who did not join the United Reformed Church in 1972. There are also churches in Scotland and France affiliated to the Federation. The Federation exists to encourage congregations of believers to worship in free assembly, but it has no authority over them and emphasises their right to independence and self-government.

The Federation has 10,058 members, 59 accredited ministers and 294 churches in England, Wales and Scotland.

*President of the Federation (2004–5), Val Price*

## THE FREE CHURCH OF ENGLAND

The Free Church of England is a union of two bodies in the Anglican tradition, the Free Church of England, founded in 1844 as a protest against the Oxford Movement in the established Church, and the Reformed Episcopal Church, founded in America in 1873 but which also had congregations in England. As both Churches sought to maintain the historic faith, tradition and practice of the Anglican Church since the Reformation, they decided to unite as one body in England in 1927. The historic episcopate was conferred on the English Church in 1876 through the line of the American bishops, who had pioneered an open table Communion policy towards members of other denominations.

The Free Church of England has 1,300 members, 45 ministers and 30 churches in England. It also has three house churches and three ministers in New Zealand and one church and one minister in St Petersburg, Russia.

*General Secretary, Revd Paul Hunt, 329 Wolverhampton*

Road West, Willen Hall WV13 2RL T 01902-607335

## THE FREE CHURCH OF SCOTLAND

The Free Church of Scotland was formed in 1843 when over 400 ministers withdrew from the Church of Scotland as a result of interference in the internal affairs of the church by the civil authorities. In 1900, all but 26 ministers joined with others to form the United Free Church (most of which rejoined the Church of Scotland in 1929). In 1904 the remaining 26 ministers were recognised by the House of Lords as continuing the Free Church of Scotland.

The Church maintains strict adherence to the Westminster Confession of Faith (1648) and accepts the Bible as the sole rule of faith and conduct. Its General Assembly meets annually. It also has links with Reformed Churches overseas. In January 2000, a division occurred within the church, the larger body retains the name of the Free Church of Scotland with the smaller body known as the Free Church of Scotland (Continuing) and has around 2,000 members. The Free Church of Scotland has about 11,500 members, 82 ministers and 162 churches.

*General Treasurer, I. D. Gill, The Mound, Edinburgh EH1 2LS*

T 0131-226 5286 E [offices@freechurchofscotland.org.uk](mailto:offices@freechurchofscotland.org.uk)

## THE FREE PRESBYTERIAN CHURCH OF SCOTLAND

The Free Presbyterian Church of Scotland was formed in 1893 by two ministers of the Free Church of Scotland who refused to accept a Declaratory Act passed by the Free Church General Assembly in 1892. The Free Presbyterian Church of Scotland is Calvinistic in doctrine and emphasises observance of the Sabbath. It adheres strictly to the Westminster Confession of Faith of 1648.

The Church has about 3,000 members in Scotland and about 4,000 in overseas congregations. It has 16 ministers and 50 churches in the UK.

*Moderator, Revd R. MacLeod, 4 Laurel Park Close, Glasgow G13 1RD*

*Clerk of Synod, Revd J. MacLeod, 16 Matheson Road,*

Stornoway, Isle of Lewis HS1 2LA T 01851-702755

## THE HOLY APOSTOLIC CATHOLIC ASSYRIAN CHURCH OF THE EAST

The Holy Apostolic Catholic Assyrian Church of the East traces its beginnings to the middle of the first century. It spread from Upper Mesopotamia throughout the territories of the Persian Empire. The Assyrian church of the East became theologically separated from the rest of the Christian community following the Council of Ephesus in 431. The Church is headed by the Catholicos Patriarch and is episcopal in government. The liturgical language is Syriac (Aramaic). The Assyrian Church of the East and the Roman Catholic Church agreed a common Christological declaration in 1994 and a process of dialogue between the Assyrian Church of the East and the Chaldean Catholic Church, which is in communion with Rome but shares the Syriac liturgy, was instituted in 1996.

The Church numbers about 400,000 members in the Middle East, India, Europe, North America and Australasia. There are around 600 members in the UK.

The Church in Great Britain forms part of the diocese of Europe under Mar Odisho Oraham.

*Representative in Great Britain*, Very Revd Younan Y.

Younan, 66 Montague Road, London W7 3PQ  
T 020-8579 7259

## THE INDEPENDENT METHODIST CHURCHES

The Independent Methodist Churches were formed in 1805 and remained independent when the Methodist Church in Great Britain was formed in 1932. They are mainly concentrated in the industrial areas of the north of England.

The churches are Methodist in doctrine but their organisation is congregational. All the churches are members of the Independent Methodist Connexion of Churches. The controlling body of the Connexion is the Annual Meeting, to which churches send delegates. The Connexional President is elected annually. Between annual meetings the affairs of the Connexion are handled by departmental committees. Ministers are appointed by the churches and trained through the Connexion. The ministry is open to both men and women and is unpaid.

There are 2,108 members, 90 ministers and 89 churches in Great Britain.

*Connexional President* (2003–5), Geoffrey Lomas

*General Secretary*, W. C. Gabb, 66 Kirkstone Drive,  
Loughborough LE11 3RW T 01942-223526

## THE LUTHERAN CHURCH

Lutheranism is based on the teachings of Martin Luther, the German leader of the Protestant Reformation. The authority of the scriptures is held to be supreme over Church tradition. The teachings of Lutheranism are explained in detail in 16th century confessional writings, particularly the Augsburg Confession. Lutheranism is one of the largest Protestant denominations and it is particularly strong in northern Europe and the USA. Some Lutheran churches are episcopal, while others have a synodal form of organisation; unity is based on doctrine rather than structure. Most Lutheran churches are members of the Lutheran World Federation, based in Geneva.

Lutheran services in Great Britain are held in 18 languages to serve members of different nationalities. Services usually follow ancient liturgies. English-language congregations are members either of the Lutheran Church in Great Britain, or of the Evangelical Lutheran Church of England. The Lutheran Church in Great Britain and other

Lutheran churches in Britain are members of the Lutheran Council of Great Britain, which represents them and coordinates their common work.

There are over 70 million Lutherans world-wide; in Great Britain there are about 100,000 members, 50 clergy and 100 congregations.

*General Secretary of the Lutheran Council of Great Britain*,

Revd T. Bruch, 30 Thanet Street, London WC1H 9QH

## THE METHODIST CHURCH

The Methodist movement started in England in 1729 when the Revd John Wesley, an Anglican priest, and his brother Charles met with others in Oxford and resolved to conduct their lives and study by 'rule and method'. In 1739 the Wesleys began evangelistic preaching and the first Methodist chapel was founded in Bristol in the same year. In 1744 the first annual conference was held, at which the Articles of Religion were drawn up. Doctrinal emphases included repentance, faith, the assurance of salvation, social concern and the priesthood of all believers. After John Wesley's death in 1791 the Methodists withdrew from the established Church to form the Methodist Church. Methodists gradually drifted into many groups, but in 1932 the Wesleyan Methodist Church, the United Methodist Church and the Primitive Methodist Church united to form the Methodist Church in Great Britain as it now exists.

The governing body and supreme authority of the Methodist Church is the Conference, but there are also 33 district synods, consisting of all the ministers and selected lay people in each district, and circuit meetings of the ministers and lay people of each circuit. There are over 60 million Methodists world-wide; in Great Britain in 2001 there were 327,724 members, 3,626 ministers, 9,951 lay preachers and 6,378 churches.

*President of the Conference in Great Britain* (2004–5), Revd W. Morrey

## THE METHODIST CHURCH IN IRELAND

The Methodist Church in Ireland is autonomous but has close links with British Methodism. It has a community roll of 53,829, 15,800 members, 203 ministers, 287 lay preachers and 223 churches.

*President of the Methodist Church in Ireland* (2004–5),

Revd Dr W. Brian Fletcher, 33a Arderlee Avenue, Belfast  
BT9 0AA T 028-9045 1521

*Secretary of the Methodist Church in Ireland*, Revd W.

Winston Graham, 1 Fountainville Avenue, Belfast BT9 6AN  
T 028-9032 4554

## THE (EASTERN) ORTHODOX CHURCH

The Eastern (or Byzantine) Orthodox Church is a communion of self-governing Christian churches recognising the honorary primacy of the Oecumenical Patriarch of Constantinople.

The position of Orthodox Christians is that the faith was fully defined during the period of the Oecumenical Councils. In doctrine it is strongly trinitarian, and stresses the mystery and importance of the sacraments. It is

episcopal in government. The structure of the Orthodox Christian year differs from that of western Churches.

Orthodox Christians throughout the world are estimated to number about 300 million; there are an estimated 284,298 in the UK.

#### EASTERN ORTHODOX CHURCHES IN THE UK THE PATRIARCHATE OF ANTIOCH

There are ten parishes served by 15 clergy. In Great Britain the Patriarchate is represented by the Revd Fr Samir Gholam, St George's Cathedral, 1A Redhill Street, London NW1 4BG T 020-7383 0403

#### THE GREEK ORTHODOX CHURCH (PATRIARCHATE OF CONSTANTINOPLE)

The presence of Greek Orthodox Christians in Britain dates back at least to 1677 when Archbishop Joseph Geogirenes of Samos fled from Turkish persecution and came to London. The present Greek cathedral in Moscow Road, Bayswater, was opened for public worship in 1879 and the Diocese of Thyateira and Great Britain was established in 1922. There are now 121 parishes and other communities (including monasteries) in the UK, served by five bishops, 110 clergy, nine cathedrals and about 93 churches.

In Great Britain the Patriarchate of Constantinople is represented by Archbishop Gregorios of Thyateira and Great Britain, Thyateira House, 5 Craven Hill, London W2 3EN T 020-7723 4787 F 020-7224 9301

#### THE RUSSIAN ORTHODOX CHURCH (PATRIARCHATE OF MOSCOW) AND THE RUSSIAN ORTHODOX CHURCH OUTSIDE RUSSIA

The records of Russian Orthodox Church activities in Britain date from the visit to England of Tsar Peter I in the early 18th century. Clergy were sent from Russia to serve the chapel established to minister to the staff of the Imperial Russian Embassy in London.

In Great Britain the Patriarchate of Moscow is represented by Bishop Basil of Sergievo, 94a Banbury Road, Oxford OX2 6JT. He is assisted by one bishop and 30 clergy. There are 30 parishes and smaller communities. The Russian Orthodox Church Outside Russia is represented by Archbishop Mark of Berlin, Germany and Great Britain, c/o *Dean of English-Language Parishes*, Very Revd Archimandrite Alexis, Saint Edward Brotherhood, St Cyprian's Avenue, Brookwood, Surrey GU24 08L T 01483-487763 W [www.rocorbritishisles.org](http://www.rocorbritishisles.org).

There are eight communities, including two monasteries in England and one mission in Northern Ireland.

#### THE SERBIAN ORTHODOX CHURCH (PATRIARCHATE OF SERBIA)

There are 33 parishes and smaller communities in Great Britain served by 11 clergy. The Patriarchate of Serbia is represented by the Episcopal Vicar, the Very Revd Milenko Zebic, 131 Cob Lane, Bournville, Birmingham B30 1QE T 0121-458 5273

#### OTHER NATIONALITIES

Most of the Ukrainian parishes in Britain have joined the Patriarchate of Constantinople, leaving a small number of Ukrainian parishes in Britain under the care of other patriarchates (not all of which are recognised by the other Orthodox Churches). The Latvian, Polish and some Belarusian parishes are also under the care of the Patriarchate of Constantinople. The Patriarchate of

Romania has one parish served by two clergy. The Patriarchate of Bulgaria has one parish served by one priest. The Belarusian Autocephalous Orthodox Church has five parishes served by two priests.

### THE ORIENTAL ORTHODOX CHURCHES

The term 'Oriental Orthodox Churches' is now generally used to describe a group of six ancient eastern churches which reject the Christological definition of the Council of Chalcedon (AD 451) and use Christological terms in different ways from the Eastern Orthodox Church. There are about 34 million members world-wide of the Oriental Orthodox Churches and about 22,020 in the UK.

#### ORIENTAL ORTHODOX CHURCHES IN THE UK THE ARMENIAN ORTHODOX CHURCH (PATRIARCHATE OF ETCHMIADZIN)

The Armenian Orthodox Church is the longest-established Oriental Orthodox community in Great Britain. It is represented by the Rt. Revd Bishop Nathan Hovhannisian, Armenian Primate of Great Britain, Armenian Vicarage, Iverna Gardens, London W8 6TP T 020-7937 0152 E [armchurchlondon@aol.com](mailto:armchurchlondon@aol.com)

#### THE COPTIC ORTHODOX CHURCH

The Coptic Orthodox Church is the largest Oriental Orthodox community in Great Britain.

### PENTECOSTAL CHURCHES

Pentecostalism is inspired by the descent of the Holy Spirit upon the apostles at Pentecost. The movement began in Los Angeles, USA, in 1906 and is characterised by baptism with the Holy Spirit, divine healing, speaking in tongues (glossolalia), and a literal interpretation of the scriptures. The Pentecostal movement in Britain dates from 1907. Initially, groups of Pentecostals were led by

laymen and did not organise formally. However, in 1915 the Elim Foursquare Gospel Alliance (more usually called the Elim Pentecostal Church) was founded in Ireland by George Jeffreys and in 1924 about 70 independent assemblies formed a fellowship, the Assemblies of God in Great Britain and Ireland. The Apostolic Church grew out of the 1904–5 revivals in South Wales and was established in 1916, and the New Testament Church of God was established in England in 1953. In recent years many aspects of Pentecostalism have been adopted by the growing charismatic movement within the Roman Catholic, Protestant and Eastern Orthodox churches. There are about 105 million Pentecostals world-wide, with about 280,260 adherents in Great Britain and Ireland.

**THE APOSTOLIC CHURCH**, International Administration Offices, PO Box 389, 24–27 St Helens Road, Swansea SA1 1ZH T 01792-473992 *National Leader*, Warren Jones The Apostolic Church has about 106 churches, 4,481 adherents and 77 ministers

The New Testament Church of God has about 120 organised congregations, about 21,540 members and 280 accredited ministers

## PLYMOUTH BRETHREN

The Brethren was founded in Dublin in 1827–28. It rejected denominationalism and clericalism and based itself on the structures and practices of the early Church. Many groups sprang up and that at Plymouth became the best known, which resulted in the designation by others as Plymouth Brethren. Other groups are based in Ireland, USA, Burma and Guyana.

Early worship had a prescribed form but quickly assumed an unstructured, non-liturgical format. There were services devoted to worship, usually involving the breaking of bread, and separate preaching meetings. There was no salaried ministry.

A theological dispute led in 1848 to schism between the Open Brethren and the Closed or Exclusive Brethren, each branch later suffering further divisions.

Open Brethren churches are completely independent, but freely co-operate with each other. Churches are run by appointed elders. Exclusive Brethren churches believe in a universal fellowship between congregations. They do not have elders, but appoint respected members of their congregation to perform certain administrative functions.

The Brethren are established throughout the UK, Ireland, Europe, India, Africa and Australasia. Total membership in the UK is 80,210.

## THE PRESBYTERIAN CHURCH IN IRELAND

The Presbyterian Church in Ireland is Calvinistic in doctrine and presbyterian in constitution. Presbyterianism was established in Ireland as a result of the Ulster plantation in the early 17th century, when English and Scottish Protestants settled in the north of Ireland.

There are 21 presbyteries and five regional synods under the chief court known as the General Assembly. The General Assembly meets annually and is presided over by a Moderator who is elected for one year. The ongoing work of the Church is undertaken by 18 boards under which there are a number of specialist committees.

There are about 179,549 Presbyterians in Ireland, mainly in the north, in 460 congregations and with 370 ministers.

*Moderator* (2004–5), Rt. Revd Ken Newell  
*Clerk of Assembly and General Secretary*, Revd Dr Donald Watts, Church House, Belfast BT1 6DW T 028-9032 2284

## THE PRESBYTERIAN CHURCH OF WALES

The Presbyterian Church of Wales or Calvinistic Methodist Church of Wales is Calvinistic in doctrine and presbyterian in constitution. It was formed in 1811 when Welsh Calvinists severed the relationship with the established church by ordaining their own ministers. It secured its own confession of faith in 1823 and a Constitutional Deed in 1826, and since 1864 the General Assembly has met annually, presided over by a Moderator elected for a year. The doctrine and constitutional structure of the Presbyterian Church of Wales was confirmed by Act of Parliament in 1931–2.

The Church has about 31,970 members, 93 ministers and 762 churches.

*Moderator* (2004–5), Revd W. G. Edwards  
*General Secretary*, Revd Ifan Roberts, Tabernacle Chapel, 81 Merthyr Road, Whitchurch, Cardiff CF14 1DD T 029-2062 7465

## THE RELIGIOUS SOCIETY OF FRIENDS (QUAKERS)

Quakerism is a movement, not a church, which was founded in the 17th century by George Fox and others in an attempt to revive what they saw as 'primitive Christianity'. The movement was based originally in the Midlands, Yorkshire and north-west England, but there are now Quakers in 36 countries around the world. The colony of Pennsylvania, founded by William Penn, was originally Quaker.

Emphasis is placed on the experience of God in daily life rather than on sacraments or religious occasions. There is no church calendar. Worship is largely silent and there are no appointed ministers; the responsibility for conducting a meeting is shared equally among those present. Social reform and religious tolerance have always been important to Quakers, together with a commitment to non-violence in resolving disputes.

There are 213,800 Quakers world-wide, with over 16,000 in Great Britain and Ireland. There are about 500 meetings in Great Britain.

**CENTRAL OFFICES: (GREAT BRITAIN)** Friends House, 173–177 Euston Road, London NW1 2BJ T 020-7663 1000 F 020-7663 1001 W www.quaker.org.uk

## THE SALVATION ARMY

The Salvation Army was founded by a Methodist minister, William Booth, in the east end of London in 1865, and has since become established in 108 countries world-wide. In 1878 it adopted a quasi-military command structure intended to inspire and regulate its endeavours and to reflect its view that the Church was engaged in spiritual warfare. Salvationists emphasise evangelism and the provision of social welfare. World-wide there are about 26,000 active officers (full-time ordained ministers) and 15,500 worship centres and outposts. In Great Britain and Ireland there are 45,000 members, 1,400 active officers and 800 worship centres.

## THE SEVENTH-DAY ADVENTIST CHURCH

The Seventh-day Adventist Church was founded in 1863 in the USA and the first church in the UK was established in 1886. Its members look forward to the second coming of Christ and observe the Sabbath (the seventh day) as a day of rest, worship and ministry. The Church bases its faith and practice wholly on the Bible and has developed 27 core beliefs. The World Church is divided into 13 divisions, each made up of unions of churches. The Seventh-day Adventist Church in the British Isles is known as the British Union Conference of Seventh-day Adventists and is a member of the Trans-European Division. In the British Isles the administrative organisation of the church is arranged in three tiers: the local churches; the regional conferences for south England, north England, Wales, Scotland and Ireland; and the national headquarters. There are over 12 million members and 53,500 churches in 203 countries. In the UK and Ireland there are 22,205 members and 249 churches.

## THE (SWEDENBORGIAN) NEW CHURCH

The New Church is based on the teachings of the 18th century Swedish scientist and theologian Emanuel Swedenborg (1688–1772), who believed that Jesus Christ appeared to him and instructed him to reveal the spiritual meaning of the Bible. He claimed to have visions of the spiritual world, including heaven and hell, and conversations with angels and spirits. He published several theological works, including descriptions of the spiritual world and a Bible commentary.

The Second Coming of Jesus Christ is believed to have already taken place and is still taking place, being not an actual physical reappearance of Christ, but rather His return in spirit. It is also believed that concurrent with our life on earth is life in a parallel spiritual world, of which we are usually unconscious until death. There are around 30,000 Swedenborgians world-wide, with 1,130 members, 27 Churches and 10 ministers in the UK.

THE GENERAL CONFERENCE OF THE NEW CHURCH.

## UNDEB YR ANNIBYNWYR CYMRAEG

Undeb Yr Annibynwyr Cyraeg, the Union of Welsh Independents was formed in 1872 and is a voluntary association of Welsh Congregational Churches and personal members. It is mainly Welsh-speaking. Congregationalism in Wales dates back to 1639 when the first Welsh Congregational Church was opened in Gwent. Member churches are Calvinistic in doctrine, although a wide range of interpretations are permitted, and congregationalist in organisation. Each church has complete independence in the government and administration of its affairs.

The Union has 32,500 members, 220 ministers and 500 member churches.

*President of the Union* (2004–5), Dr Hefin Jones

*General Secretary*, Revd D. Myrddin Hughes, Ty John Penry,

11 Heol Sant Helen, Swansea SA1 4AL T 01792-652542

F 01792-650647

## THE UNITED REFORM CHURCH

The United Reformed Church was first formed by the union of most of the Congregational churches in England and Wales with the Presbyterian Church of England in 1972. Congregationalism dates from the mid 16th century. It is Calvinistic in doctrine, and its followers form independent self-governing congregations bound under God by covenant, a principle laid down in the writings of Robert Browne (1550–1633). From the late 16th century the movement was driven underground by persecution, but the cause was defended at the Westminster Assembly in 1643 and the Savoy Declaration of 1658 laid down its principles. Congregational churches formed county associations for mutual support and in 1832 these associations merged to form the Congregational Union of England and Wales.

Presbyterianism in England also dates from the mid 16th century, and was Calvinistic and evangelical in its doctrine. It was governed by a hierarchy of courts.

In the 1960s there was close co-operation locally and nationally between Congregational and Presbyterian Churches. This led to union negotiations and a Scheme of Union, supported by Act of Parliament in 1972. In 1981 a further unification took place, with the Reformed Association of Churches of Christ becoming part of the URC. In 2000 a third union took place, with the Congregational Union of Scotland. In its basis the United Reformed Church reflects local church initiative and responsibility with a conciliar pattern of oversight. The General Assembly is the central body, and is made up of equal numbers of ministers and lay members.

The United Reformed Church is divided into 13 Synods, each with a Synod Moderator, and 78 Districts. There are 87,732 members, 628 full-time stipendiary ministers, 83 part-time stipendiary ministers, 173 non-stipendiary ministers, 16 active church related community workers and 1,719 local churches.

## THE WESLEYAN REFORM UNION

The Wesleyan Reform Union was founded by Methodists who left or were expelled from Wesleyan Methodism in 1849 following a period of internal conflict. Its doctrine is conservative evangelical and its organisation is congregational, each church having complete independence in the government and administration of its affairs. The Union has 1,947 members, 17 ministers, 131 lay preachers and 108 churches.

*President* (2004–5), Revd R. Brindley

## NON-TRINITARIAN CHURCHES

### CHRISTADELPHIANISM

Christadelphians believe that the Bible is the word of God and that it reveals both God's dealing with mankind in the past and his plans for the future. These plans centre on the work of Jesus Christ, who is believed shortly to return to earth to establish God's kingdom. Christadelphians have existed since the 1850s, beginning in the USA through the work of an Englishman, Dr John Thomas.

### THE CHURCH OF CHRIST, SCIENTIST

The Church of Christ, Scientist was founded by Mary Baker Eddy in the USA in 1879 to 'reinstatate primitive Christianity and its lost element of healing'. Christian Science teaches the need for spiritual regeneration and salvation from sin, but is best known for its reliance on prayer alone in the healing of sickness. Adherents believe that such healing is a law, or Science, and is in direct line with that practised by Jesus Christ (revered, not as God, but as the Son of God) and by the early Christian Church.

The denomination consists of The First Church of Christ, Scientist, in Boston, Massachusetts, USA (the Mother Church) and its branch churches in over 80 countries world-wide. The Bible and Mary Baker Eddy's book, *Science and Health with Key to the Scriptures*, are used at services; there are no clergy. Those engaged in full-time healing are called practitioners, of whom there are 3,500 world-wide.

No membership figures are available, since Mary Baker Eddy felt that numbers are no measure of spiritual vitality and ruled that such statistics should not be published. There are over 2,000 branch churches world-wide, including nearly 120 in the UK.

 Tony Lobl

### THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

The Church (often referred to as 'the Mormons') was founded in New York State, USA, in 1830, and came to Britain in 1837. The oldest continuous branch in the world is to be found in Preston, Lancs. Mormons are Christians who claim to belong to the 'Restored Church' of Jesus Christ. They believe that true Christianity died when the last original apostle died, but that it was given back to the world by God and Christ through Joseph Smith, the Church's founder and first president. They accept and use the Bible as scripture, but believe in continuing revelation from God and use additional scriptures, including *The Book of Mormon: Another Testament of Jesus Christ*. The importance of the family is central to the Church's beliefs and practices. Church members set aside Monday evenings as Family Home Evenings when Christian family values are taught. Polygamy was formally discontinued in 1890. The

Church has no paid ministry; local congregations are headed by a leader chosen from amongst their number. The world governing body, based in Utah, USA, is the three-man First Presidency, assisted by the Quorum of the Twelve Apostles. There are more than 11 million members world-wide, with about 178,000 adherents in Britain in 371 congregations.

BRITISH HEADQUARTERS, Church Offices, 751 Warwick Road, Solihull, W. Midlands B91 3DQ T 0121-712 1207

### JEHOVAH'S WITNESS

The movement now known as Jehovah's Witnesses grew from a Bible study group formed by Charles Taze Russell in 1872 in Pennsylvania, USA. In 1896 it adopted the name of the Watch Tower Bible and Tract Society, and in 1931 its members became known as Jehovah's Witnesses. Jehovah's (God's) Witnesses believe in the Bible as the word of God, and consider it to be inspired and historically accurate. They take the scriptures literally, except where there are obvious indications that they are figurative or symbolic, and reject the doctrine of the Trinity. Witnesses also believe that the earth will remain for ever and that all those approved of by Jehovah will have eternal life on a cleansed and beautified earth; only 144,000 will go to heaven to rule with Christ. They believe that the second coming of Christ began in 1914 and his thousand-year reign on earth is imminent, and that Armageddon (a final battle in which evil will be defeated) will precede Christ's rule of peace. They refuse to take part in military service, and do not accept blood transfusions. The 10-member world governing body is based in New York, USA. There is no paid ministry, but each congregation has elders assigned to look after various duties and every Witness is assigned homes to visit in their congregation. There are over 6 million Jehovah's Witnesses world-wide, with 130,000 Witnesses in the UK organised into over 1,400 congregations.

### UNITARIAN AND FREE CHRISTIAN CHURCHES

Unitarianism has its historical roots in the Judaeo-Christian tradition but rejects the deity of Christ and the doctrine of the trinity. It allows the individual to embrace insights from all the world's faiths and philosophies, as there is no fixed creed. It is accepted that beliefs may evolve in the light of personal experience.

Unitarian communities first became established in Poland and Transylvania in the 16th century. The first avowedly Unitarian place of worship in the British Isles opened in London in 1774. The General Assembly of Unitarian and Free Christian Churches came into existence in 1928 as the result of the amalgamation of two earlier organisations.

There are about 4,400 Unitarians in Great Britain and Ireland and about 72 Unitarian ministers. Nearly 200 self-governing congregations and fellowship groups, including a small number overseas, are members of the General Assembly.

GENERAL ASSEMBLY OF UNITARIAN AND FREE CHRISTIAN CHURCHES, Essex Hall, 1-6 Essex Street, London WC2R 3HY T 020-7240 2384 F 020-7240 3089

## SPECIAL DELIVERY SERVICES

## ROYAL MAIL SPECIAL DELIVERY

A guaranteed next working day delivery service by noon to most UK destinations for first class letters and packets. Prices start at £3.75. There is also a service which guarantees delivery by 9 a.m. Prices start at £6.95. Compensation of up to £2,500 is available for lost or damaged items.

## INTERNATIONAL SIGNED FOR AND AIRSURE

Express airmail services. The fee for International Signed For is £3.30 plus airmail postage. The fee for Airtsure is £4.00 plus airmail postage.

## RECORDED MAIL (SIGNED FOR)

Provides a record of posting and delivery of letters and ensures a signature on delivery. This service is recommended for items of little or no monetary value. All packets must be handed to the post office and a certificate of posting issued. Charges: 65p plus the standard first or second class postage.

## OTHER SERVICES

## BUSINESS SERVICES

A range of postal services are available to businesses including business collection, freepost, business reply services, business packaging for special deliveries and international mailing options.

## COMPENSATION

Compensation for loss or damage to an item sent varies according to the service used to send the item. Royal Mail does not accept responsibility for loss or damage arising from faulty packing.

## PASSPORT APPLICATIONS

Around 2,000 post offices process passport applications. To find out your nearest office, and for further information, see contact details below.

## TRACK AND TRACE

This service enables customers to track the progress of items sent using selected delivery services. See below for contact details.

## REDIRECTION

A printed form obtainable from the Post Office must be signed by the person to whom the letters are to be addressed. A fee is payable for each different surname on the application form. Charges: 1 month, £6.55 (abroad via airmail, £13.15); 3 months, £14.30 (£28.60); 6 months, £22.00 (£44.05); 12 months, £33.00 (£66.05).

## INTERNATIONAL PREPAID PRODUCTS

Prepaid products are a secure way of packaging items that are to be sent overseas. There are a number of different types of prepaid products to choose from, depending on the weight of the article to be sent, ranging in price up to £6.99.

## KEEPSAFE

Mail is held for up to two months while the addressee is away and is delivered when the addressee returns. Prices start at £5.25. Perishable items are returned to the sender. Recorded items are held for a week and Special Delivery items are held for three weeks before being returned to the sender.

## POST OFFICE BOX

A PO Box provides a short and easy-to-remember alternative address. Mail is held at a local delivery office until the addressee is ready to collect it. Prices start at £43.00.

## IDD CODES

## INTERNATIONAL DIRECT DIALLING (IDD)

International dialling codes are composed of four elements which are dialled in sequence:

- (i) the international code  
 (ii) the country code  
 (iii) the area code  
 (iv) the telephone number

Calls to some countries must be made via the international operator.

\*Can vary depending on area and/or carrier

# MOBILE COMMUNICATIONS

## CURRENT NETWORK OPERATOR MARKET SHARES

January 2004	O <sub>2</sub>	Vodafone	T-Mobile	Orange	Hutchison
Current Subscriber Base	10,897,740	16,773,480	9,190,260	13,358,520	n/a
Total Market Share	21.7%	33.4%	18.3%	26.6%	n/a

## 5-YEAR SUBSCRIBER GROWTH

Date	Jan 1999	Jan 2000	Jan 2001	Jan 2002	Jan 2003	Jan 2004
Subscriber Base	13,001,000	23,944,000	40,057,300	45,677,600	46,922,000	50,220,000
Penetration Rate	22.3%	41%	67.2%	76.6%	78.8%	84.4%

The UK mobile communications industry is continuing to be dominated by the introduction of new technologies. This has led to an increasing emphasis on expanding the traditional mobile operator services as well as encouraging consumer use of more expensive handset devices. The push towards new technology and enhanced service offerings is due to the near to saturation point of the mobile market and the need to increase revenues through other means. The combination of fewer 'new' customers, heavy licence fees for mobile Network Operators, the government having sold the 3G operating licences at a great profit and the costs associated with technology upgrades have left the Network Operators with financial holes to fill.

## INDUSTRY PLAYERS

The mobile communications industry has a number of players: Network Operators who own the infrastructure and provide services; Service Providers and MVNOs who do not own infrastructure but have commercial agreements with the Network Operators; and the Regulator, who is responsible for setting the controls of the mobile market, implementing EU-wide legislation and ensuring that industry players do not behave anti-competitively.

### NETWORK OPERATORS

Competition was introduced into the UK's mobile market at an early stage. Until recently there were only four network operators rolling out their mobile networks and actively offering mobile services. A fifth, Hutchison 3G, was launched in March 2003. The licensed Network Operators in the UK are detailed in the table below. Network Operators are responsible for setting tariffs, billing, offering services and maintaining the network infrastructure.

### UK MOBILE NETWORK OPERATORS

Operator	Ownership	Licence	Launch Date
O <sub>2</sub>	Formerly BT Cellnet	Tacs-900	January 1985
	100% O <sub>2</sub>	GSM	January 1994
Vodafone	100% Vodafone	Tacs-900	January 1985
		GSM	July 1992
T-Mobile	Formerly One2One	GSM 1800	September 1993
	100% - Deutsche Telekom		
Orange	100% - France Telecom	GSM 1800	April 1994
Hutchison 3G	65% - Hutchison Whamoa	UMTS	March 2003
	20% - DoCoMo		
	15% - KPN Mobile		

### ALTERNATIVE SERVICE PROVIDERS

Service Providers were introduced into the UK market from its inception as a means to stimulate competition. Service Providers buy airtime wholesale from the Network Operators and sell it on to end users. This agreement means that they can set their own tariff structures and have a direct billing relationship with customers. O<sub>2</sub> and Vodafone have an obligation under the terms of their licences to offer wholesale minutes of airtime to Service Providers while Orange and T-Mobile have not been subject to this condition. There are said to be around 50 Service Providers operating in the UK market and in order to maintain a viable business operation many of these have diversified their product offering away from pure mobile services to other telecommunication or Internet based services.

The newest players in the mobile market offering mobile services are MVNOs, Mobile Virtual Network Operators. Whereas a number of the Network Operators are obliged to open their networks to Service Providers, none of the Network Operators are currently obliged to open their networks to MVNOs. That they choose to do so, is purely a commercial agreement between the MVNO and Network Operator.

The main difference between Service Providers and MVNOs is the degree of ownership over the equipment used. A true MVNO has its own mobile network code, issues its own SIM cards (Subscriber Identity Module card - the 'brain' of a handset), operates its own mobile switching centre and has a pricing structure fully independent from the Network Operator. MVNOs include Virgin Mobile and FT Mobile, a joint venture between the Financial Times and the Carphone Warehouse.

### TYPES OF MOBILE SERVICE

Network Operators, Service Providers and MVNOs offer two basic types of service, contract and pre-paid (pay-as-you-go). Contracts (generally paid on a monthly basis though fixed to a minimum contract term) mean that the end user pays a fixed subscription fee each month that entitles them to a number of services (for example voicemail, SMS text messaging, downloadable games, access to news and other information updates) and gives them a certain amount of 'free' airtime/access to services each month. Pre-paid subscribers have access to the same services but pay in advance and simply top up their account when it is running low. The introduction of pre-paid services has allowed industry players to target additional consumer segments, in particular the youth market and customers who do not have an acceptable credit rating for a contract service. Pre-paid has proven to be a very popular option as it allows customers to control their spend. For the first half of 2004, the split between pre-paid and contract customers in the UK remained constant at around 68:32.

## NETWORK TECHNOLOGY

### DEVELOPMENT OF MOBILE INFRASTRUCTURE

The first technology introduced into the UK was an analogue technology called TACS which was adopted in 1985. In 1992 Vodafone launched a new digital GSM network, usually referred to as 2G or second generation. BT Cellnet (now O<sub>2</sub>) and two more entrants launched GSM services in the following two years making the UK one of Europe's most competitive markets.

More recently, GSM networks have been modified to enable them to transfer packet-switch data and this technology is known as GPRS (General Packet Radio Service). GPRS is not a completely new network – rather it is an upgrade from the existing GSM infrastructure and is also referred to as 2.5G. The main difference between GSM and GPRS technology is the ability to transmit data as well as voice across the network. This is a result of higher bandwidth and with GPRS.

The industry is still waiting for the fully-fledged delivery of next generation mobile services, 3G or UMTS (Universal Mobile Telecommunications System). The main difference between GPRS and UMTS lies with the capacity of UMTS to offer even faster data transmission speeds, therefore allowing expanded data facilities and access to the internet. Additionally, UMTS has the potential to offer further advantages over GSM/GPRS such as international roaming, whereas at present, despite GSM's widespread presence, other mobile technologies used in other parts of the world are incompatible with GSM handsets, for instance in parts of Asia and in America.

As 3G or UMTS technology is an entirely new network, Network Operators must hold a licence to deploy it. The UK was the third European country to licence 3G operators after Finland and Spain but was the first to auction its licences. Auctions are not new to the European communications industry – many of the second and third entrants to Europe's communications markets had to bid for their licences – but what was spectacular about the UK's 3G auction was the size of the bids. While industry observers had speculated that the auction might reach £4 billion, a total of £22 billion was raised from the sale of the spectrum.

### DATA SERVICES

GSM from analogue brought clearer voice quality, while the upgrade from GSM through GPRS to UMTS has brought not only improved voice quality but also new services, primarily data-based services as seen in the table below.

#### DATA SERVICES MIGRATION PATH

*Mobile Infrastructure*      *Data Services available*

GSM (2G)	Phone calls
Speed:	Voice mail
10kb/sec	Receipt of simple email messages
GPRS (2.5G)	Phone calls/fax
Speed:	Voice mail
64–144kb/sec	Receipt and transmission of large emails
	Web browsing
	Navigation/maps

UMTS (3G)	Phone calls/fax
Speed:	Global roaming
144kb–2mb/sec	Receipt and transmission of large emails
	High speed web
	Navigation/maps
	Video-conferencing
	TV Streaming
	Electronic agenda meeting reminder

The provision of improved and new services is crucially important for the industry as it reaches saturation point. In order to maintain revenues, Network Operators have had to change focus from customer acquisition strategies to increasing customer service usage levels, as well as encouraging more frequent handset renewal.

#### 2G & 2.5G DATA SERVICES

To date, the most popular and readily available data service has been SMS (Short Messaging Service). SMS or 'text messaging' allows consumers to send and receive text messages up to 160 characters long on their mobile phones. Due to its simplicity and popularity, particularly among young users, the number of SMS messages being sent has increased dramatically. In 2003 approximately 1.75 billion SMS messages were sent per month compared with 271 million per month in 1999. In the last few years, SMS has helped boost revenues for network operators through integrated use with interactive TV – for example, during Channel 4's *Big Brother* in 2003 over 10m text alerts and 5.5m votes were recorded.

WAP, Wireless Application Protocol, is a software language that allows Internet-style data to be downloaded and viewed on a mobile phone. WAP was billed as 'mobile internet' – that consumers could access content from mobile portals which, like traditional Internet portals, aggregate and display mobile Internet content in an accessible manner. WAP has been generally used by consumers to obtain travel information, sports headlines, financial news and emails. Mobile operators such as Vodafone, Orange, T-Mobile, and O<sub>2</sub> all launched pan-European portals which allowed customers to have very similar – if not the same – services around their different countries of operations. However, WAP mobile portals have been characterised by their poor usability and the limited online experience offered to end-users. Many factors have been responsible for this, including unreliable early handsets, limited content, slow connections, and poor portal navigation.

Many of the factors that made WAP so cumbersome have been largely solved by improved handsets, better content and high-speed infrastructure. Portal navigation remains a problem though, with users routinely expected to make perhaps 20–25 'clicks' on their mobile handset in order to locate content, thus greatly limiting accessibility.

With increased consumer familiarity and accessibility of SMS technology, network operators have re-positioned their service offerings from an emphasis on mobile phones being billed as 'mobile internet' to other new services (sending logos, basic pictures and downloading personal ring-tones) that have proved to be very popular. These types of services are referred to as EMS, Enhanced Messaging Services. In late 2002, Vodafone launched its 'Live!' service which offered mobile users access to multimedia services, including the taking, sending and receiving of photos with an integrated camera, Java games, email, polyphonic ring-tones, chat, SMS and mobile phone calls. Vodafone Live! has been popular with over 2 million customers subscribing to the service in its first year.

Consumers are clearly attracted to enhanced data-services as well as the colour screens, improved quality in sound and more intuitive user interfaces that have been introduced in parallel with operator branded initiatives. Both T-Mobile and O<sub>2</sub> have followed suit by launching similar services called T-Zone and Active respectively.

### 3G DATA SERVICES

The main difference between UMTS and GPRS/GSM from the customer's viewpoint is the extension of data services that are accessible through one's mobile. All operators have launched 3G style services over their GPRS networks though these services will be further enhanced (for example by the introduction of video messaging) once the move to the 3G network has taken place. Hutchison 3G was the first to launch its highly advertised '3' service which offers video calling, content browsing, interactive games and location based services which took place in March 2003. The uptake of '3' to date has been disappointing, with only 361,000 subscribers by March 2004 compared with an initial target of 1 million.) The slowness of up-take and launch of 3G has been exacerbated by delays in handset availability (leading to high handset prices), network teething problems – including many reports of 'lost' calls, and the reticence by the mobile consumer market to upgrade to a new technology.

Vodafone officially launched its 3G service in the UK at the start of April 2004, though at this stage, the 3G service is accessible only with laptop 3G data cards, not handsets. Vodafone's services are aimed mainly at business users. Currently, the service works in the UK, Sweden, Italy, Spain, the Netherlands, Japan and Portugal. Both T-Mobile and Orange have launched similar initiatives. Vodafone has not yet revealed when 3G services will be made available to mobile phone users.

### REGULATION

Until July 2003, the industry was regulated by two government bodies; Ofiel, a government department independent of ministerial control, headed by the Director General of Telecommunications; and the Radiocommunications Agency, which was the part of the Department of Trade and Industry (DTI). The greater part of regulatory control was assumed by Ofiel; it had authority over licensing procedures, tariffing, interconnection issues (where one operator has access to another's infrastructure), and acted as arbitrator in operator disputes. The Radiocommunications Agency was responsible for radio frequency allocation.

In July 2003, the regulation of the mobile industry changed significantly, with the passing of a Communications Bill in the UK and the implementation of new EU framework for the regulation of electronic communications networks and service providers. The aim of the EU framework is to set out a technology-neutral regime for the regulation of communications companies across the EU. This technology neutral regime is based on EU directives that cover interconnections and access, data protection, universal services, authorisation of electronic communications networks and services and a common regulatory framework.

The Communications Bill in the UK took forward four of the Directives and following its enactment has changed

the UK's regulatory structure by creating a new regulatory body for the whole communications industry – Ofcom (the Office of Communications). Ofcom has replaced the existing communications and broadcasting regulators, including Ofiel and the Radiocommunications Agency and has a different funding structure to Ofiel – while Ofiel was funded by licence fees, Ofcom levies administration charges. Ofcom is responsible for furthering the interests of the users of television, radio, telecommunications and wireless communications services.

Key features of the 2003 Communications Act are:

- *The abolition of licensing requirements* – With the removal of licensing requirements, Ofcom has drawn up a set of conditions for providers in the areas of universal service, significant market power, access and privileged supplier obligations – these conditions are effectively regulations but are much more flexible than the previous system
- *The provision for spectrum trading* – Previously, when an operator was awarded a mobile licence, the allocated spectrum could only be used by that named company; under the new Bill, licencees are able to transfer the entitlement to use the spectrum to another player
- *New enforcement provisions for dealing with anti-competitive behaviour* – Ofcom has the power to levy a fine of up to 10 per cent of turnover (or suspend a licence in extreme cases) should a mobile operator breach the conditions of its authorisation instead of having to refer cases to the Competition Authority

# INFORMATION TECHNOLOGY

## ANCESTRY

The ancestors of the modern computer are the Difference Engine and the Analytical Engine devised by mathematician Charles Babbage. Designed in 1820 to automatically compute mathematical tables, Babbage abandoned construction of his mechanical, clockwork-like Difference Engine in the 1840s for personal and financial reasons. In 1834 he began work on his Analytical Engine. Unlike the Difference Engine, the Analytical Engine was designed as a general-purpose tool with a store to hold information.

Babbage's work relied heavily on mechanics and physical machinery. It was not until the twentieth century invention of the electrical vacuum tube, and then the transistor, that computers became a feasible means to solving problems.

## FIRST GENERATION

War has been a significant factor in the development of the computer. In 1943, during World War II, the British and Americans developed electro-mechanical computers. Colossus, a British effort, was specifically developed to crack German coding ciphers, whilst an American effort, Harvard Mark I, was developed as a more general-purpose electro-mechanical programmable computer (partly for atom bomb research). Regarded as early first generation computers, these machines primarily comprised wired circuits and vacuum valves. Punched cards and paper tape were largely employed as the input, output and main storage systems. ENIAC (Electronic Numerical Integrator and Computer) was completed in 1946 at the University of Pennsylvania, USA. Capable of carrying out 100,000 calculations a second, it was remarkable for its day despite weighing thirty tons.

## SECOND GENERATION

Similar to light bulbs, valves were prone to failure, requiring tedious checks to resolve problems (ENIAC alone contained 18,000 vacuum valves). In 1947, the transistor was invented. Performing the same role as a vacuum valve but less prone to failure, smaller and more efficient, the transistor allowed smaller 'second generation' computers to be developed throughout the 1950s and early 1960s.

## THIRD GENERATION

In 1958 Jack St Claire Kilby produced the first integrated circuit 'microchip'. A microchip is comprised of a large number of transistors and other components bonded to a wafer ('chip') of silicon, interconnected by a surface film of conductive material rather than by wires. By reducing distance between components, savings are made in both size and electricity. In 1963 the first 'third generation' computers based on microchip technology appeared.

## FOURTH GENERATION

In 1971 Intel produced the first 'microprocessor' heralding a 'fourth generation' of computers. The Intel 4004 (capable of 60,000 instructions per second) grouped much of the processing functions onto a single microchip. Around the same time, Intel invented the RAM (random access memory) chip which grouped significant amounts of memory onto a single chip. Supercomputers and mainframes, utilising scores of microprocessors, had terrific power in the order of 150 million instructions per second. Developments such as multi-layer circuits, and the use of copper instead of gold in microchips, yielded

improvements in size and performance through miniaturisation. The size of the transistor was scaled down from thumb size to far smaller than the thickness of a human hair, allowing for greater density and thus exponentially increasing the total power of the computer.

## NEXT GENERATION

Most modern computers are still regarded as 'fourth generation' as they use essentially the same technology, albeit highly miniaturised. The future of computer technology is widely thought to be dependent on the physics of light. Already used extensively in the computer industry for high-speed communications, light offers future possibilities for both calculation and storage.

Gordon Moore, co-founder of Intel, observed in 1965 that the number of transistors per square inch had doubled every 12 months since the inception of the integrated circuit. The pace of development has slowed somewhat. The widely recognised current definition of the so-called 'Moore's Law' is that data density doubles every 18 months and is likely to do so for the next few decades.

## PROGRAMMING LANGUAGES

Numerous programming languages have been adopted with the common purpose of devising a program of instructions for computers to follow to achieve a task. The languages are categorised by generation:

1GL or first-generation language is the machine language that the processor chips execute in raw binary form (strings of zeros and ones).

2GL or second-generation language. Assembly language is a human-understandable language insofar as it uses names as well as numbers. An assembler program takes assembly language and turns it into a machine code program. Very common in early systems where resources (speed, storage) were at a premium, it is typically only used today as an output from 3GL and higher systems.

3GL or third-generation language is a 'high-level' programming language typically more readable and concise than assembly language.

4GL or fourth generation language is designed to be closer to natural language than a 3GL language.

5GL or fifth-generation programming uses graphical development environments to create source language to be compiled with a 3GL or 4GL language compiler. Often a mix of generations is used, with a high level language (4 or 5GL) used to produce interface elements and a lower level language used to provide the processing power.

## OPERATING SYSTEMS

An operating system (OS) is a set of utility programs that acts as the liaison between the computer user, the hardware (processor unit, memory) and its peripherals (disk, mouse, display, printer, network, etc.) and the program that the user is running (e.g. a word processor). The first computers had no operating system, and each program had to directly control the hardware on its own, adding greatly to the burden of programming. Early operating systems were hardware and manufacturer-specific with assembly language or machine code as the programming language. Each computer model or series tended to have its own specific operating system. UNIX was one of the first operating systems that could be ported (converted) to a

variety of system hardware. This ability was enabled largely through the use of the 'C' programming language.

#### PERSONAL COMPUTER OPERATING SYSTEMS

Since the 1990s, the personal computer world has been dominated by Microsoft Corporation. Although not a significant manufacturer of computer equipment, the Microsoft Corporation has built on its market share secured in the 1980s with MS-DOS to become the market leading operating system provider. Microsoft's MS Windows personal computer operating systems are installed on more computers than any other commercial operating system. Microsoft's main personal computer rival is Apple which was established in the 1970s.

#### THE INTERNET

Prior to the Internet ('the Net' or 'the Web') computers tended to be connected together by hardware and protocols that were specific to each particular connection. Typically, links were point-to-point (a link had to be directly and physically established between the two computers). In 1969 ARPANET was formed by the US Department of Defence to establish a way for the computer capability of the military to be dispersed so that no one centre was critical to the operation of the network as a whole. This was achieved by interconnecting computers both directly and by way of other intermediary computers; thus if one computer was hit by a nuclear bomb, other pathways of communication could be established. The interconnections, when drawn, appeared as a mesh, or net or web. ARPANET was extended to non-military users such as universities early in the 1970s, with initial international links appearing in 1972.

The introduction of domain names (e.g. [www.whitakersalmanack.com](http://www.whitakersalmanack.com)) in 1984 offered an easier means of using the Web. Prior to domain names one had to remember IP numbers (e.g. 192.168.1.100) for accessing destination computers. However, before 1989 the Internet was still primarily limited to government agencies, the military, academic and research organisations and some big businesses.

In 1989, what most people perceive as 'the Net' was born. It was effectively invented at CERN (the European Particle Physics Laboratory) by Tim Berners-Lee as a way for scientists to share information by placing it in a prescribed format on a server. Initially text only, development of computer capability allowed inclusion of images.

By 1993 a whole new industry of ISPs (Internet Service Providers) had begun, allowing computer users to dial up via a modem and access the Internet and to view the Web through a browser (*see* glossary). Developments throughout the late 1990s (such as the widespread introduction of 'broadband') have allowed music, video, games, text, graphics and telephone calls to travel the Internet in much greater quantities and speeds than ever before. The future is likely to see the majority of telephone calls, and probably video, being transmitted over the Internet for at least part of their journey. Expansion of fibre-optic cable networks to homes and businesses will underpin this.

#### INTERNET STATISTICS

- 19% of households had access to the Internet in 1998 compared with 40% of households in 2001/2 and approximately 48% in 2003
- 32% of UK homes access the Internet via dial-up/narrowband
- 15% of UK homes access the Internet via broadband
- 33% of businesses with between 1 and 250 employees access the Internet via dial-up/narrowband

- 32% of businesses with between 1 and 250 employees access the Internet via broadband

Sources: OfTel 2003; UK 2004 published by TSO; Office for National Statistics Expenditure and Food Survey

#### COUNTRIES WITH THE HIGHEST NUMBER OF BROADBAND SUBSCRIBERS

Global Ranking	Country	Broadband subscribers as at 31 December 2003
1	China	10,950,000
2	Japan	10,272,052
3	USA	9,119,000
4	South Korea	6,435,955
5	Germany	4,500,000
6	France	3,262,700
7	Taiwan	2,800,000
8	Italy	2,280,000
9	Canada	2,170,243
10	UK	1,820,230

#### GLOSSARY OF TERMS

The following is a selected list of modern computing terms. It is by no means exhaustive but is intended to cover those that the average computer user might encounter.

- 3G:** Third Generation wireless – a popular term commonly used to describe high bandwidth (2 Mbps) wireless technologies for mobile phones. 3G is still in its infancy but will offer high speed and capacity transmission of sound, vision and data to and from wireless devices and networks.
- ADSL:** Asymmetric Digital Subscriber Line – high speed Internet connection, four or more times faster than a modem, but using the same standard cables as regular telephone. Faster at downloading than uploading.
- BLOG:** A blog (short for weblog) is an online personal journal that is frequently updated and intended to be read by the public. Blogs are kept by 'bloggers'.
- BLUETOOTH:** Standard for short-range (10 metre) wireless connectivity between devices such as laptops, mobile telephones and printers to interact without cables. Bluetooth typically operates at speeds of up to 2Mbps.
- BROADBAND:** Generic term to describe high speed Internet access technologies such as ADSL, cable etc. as opposed to narrowband connections via modem.
- BROWSER:** Typically referring to a 'web browser' program that allows a computer user to view web page content on their computer, e.g. Microsoft Explorer, Netscape Navigator, AOL, etc.
- BURN:** To 'burn' a file or files to a CD-ROM or similar media means to copy the files to the media from hard disk (or other source). Derived from the fact that CD-ROMs are burnt by a laser during the process of writing to the disk.
- C:** A 3GL programming language developed in the late 1960s in parallel with the UNIX operating system. Primarily limited to UNIX until the mid-1980s when standards such as POSIX emerged, allowing C to be widely adopted on many operating systems. UNIX used C as its core programming language.
- CACHING:** In order to provide enhanced response times or to reduce the demands on computer resources, a *cache* is often employed to hold copies of recently or frequently accessed content (e.g. web pages). The cache (stored on a user's machine, or on a *proxy server*) is searched for the requested item. If a sufficiently fresh copy is not available

- it is retrieved from the remote server, a copy stored in the cache and another supplied to the requesting machine. If for example ten users request the same page it is only retrieved from the remote server once if a *caching proxy* is used. If a user requests the same page multiple times it can be downloaded once and retrieved from the cache many times. Hard disk drives and computer memory employ similar caching techniques to optimise performance.
- CAT-5:** An electrical performance and cable quality standard prescribed to support high-speed Ethernet networks. There are higher category and capability specifications denoted by higher numbers but Cat-5 is the most commonly installed today.
- CD:** Compact Disc – a digital disk format capable of storing 650 megabytes of information per side. A laser head detects pits etched into the substrate of the spinning disk and interprets them as information. Widely used in an audio format for storing recorded music. The computer format CD-ROM is likely to be superseded by the higher capacity DVD in the next few years. CD-RAM/CD-RW and CD-R are modifiable versions that use lasers to alter the disk substrate to make the pits interpreted later as information. *See also* DVD.
- DNS:** Domain Name Server – a server that translates domain names into the IP numbers used by programs to directly access computers on the Internet. Each server has an IP number and a name. DNS is analogous to the telephone directory enquiry service, providing a means of looking up and locating a computer connected to the Internet.
- DOMAIN:** A set of words, numbers and letters separated by dots used to identify an Internet server or group of servers, e.g. www.whitakersalmanack.co.uk, where 'www' denotes a web (http) server, 'whitakersalmanack' denotes the organisation name, 'co' denotes that the organisation is a company and 'uk' denotes United Kingdom (there are alternatives for every country but 'us' is typically omitted for the United States).
- DVD:** Digital Versatile Disc – DVD-ROM is a high capacity (read only) disk format that has the same form factor as CD-ROM but can store several gigabytes of information on each surface and can have four readable surfaces (through laser focusing technology). DVD-RAM is a modifiable version. Various formats are available, the most common being that used to store high-quality digital video, an alternative to the laser disk or videotape. *See also* CD.
- EMAIL:** Electronic mail – an email message is a document that is addressed to one or more persons from an individual address. Usually containing a message, it can also include other documents. The advent of the Internet has seen an explosion in the use of email in modern life. Without encryption or digital signature, an Internet email is not secure.
- ETHERNET:** Utilising simple, standard and relatively cheap cable and connectors, Ethernet has become the standard for local area networks. Ethernet employs a system whereby each computer listens for information addressed to its own unique address. Before transmitting, each computer waits for silence on the line; if multiple computers start transmitting simultaneously, they each detect the 'collision' and each wait a random period of time before trying again, thus allowing communications to proceed politely.
- EXTRANET:** An extranet is a secure and private subset of the Internet, protected by security protocols and typically used for exchanging information and services between a specific group.
- FILE SERVER:** A computer on a network that stores computer files that users can access from other computers on the network. Popular modern systems include Microsoft Windows, UNIX, Linux, and MacOS Server.
- FIREWALL:** Computer or device to protect a network from security risks posed by the Internet. Just as a firewall protects parts of a building from a fire raging on the other side, a network firewall stops risks posed by the Internet from egressing into a private network.
- FIREWIRE:** Apple Computer's implementation of IEEE 1394. *See also* IEEE 1394.
- FTP:** File Transfer Protocol – an Internet protocol whereby an FTP client program can exchange files with a remote server.
- GBPS:** Giga bits per second – denoting 1,000 million bits transmitted per second.
- GIF:** Graphics Interchange Format – compressed graphic format suitable for logos and non-photographic images. Invented by Unisys to allow images to be sent electronically in an efficient manner.
- GPRS:** General Packet Radio Services – a service for continuous wireless communication over the Internet from mobile phones and computers. Presently available in data rates of between 56 and 114K Bps, GPRS is normally charged by volume of information transferred rather than by time connected.
- HTML:** HyperText Mark-up Language – a small programming language used to denote or mark-up how an Internet page should be presented to a user from an HTTP server via a web browser. HTML is an evolving standard that has grown greatly from its first version to accommodate new types of web content and features provided by the different web browsers.
- HTTP:** HyperText Transfer Protocol – an Internet protocol whereby a web server sends web pages, images and files to a web browser.
- IEEE 1394:** High-speed serial (400 Mbps) connection standard for hard disks, digital video cameras and other multimedia devices. Popularised as iLink (Sony) and FireWire (Apple).
- iLINK:** Sony's implementation of IEEE 1394. *See also* IEEE 1394.
- IMAP:** Internet Mail Access Protocol – an Internet protocol IMAP allows a user to review, manipulate and store email on a central server from one or more workstations without necessitating message removal from the server.
- INTERNET:** An abstract concept applied to describe the global network of INTER-connected computer NETWORKS of computers. *See* body of article.
- INTRANET:** Subset of the Internet, using Internet protocols over a local area network, common today for publishing information and services within an organisation.
- iPOD:** Market leading high capacity personal MP3 player marketed by Apple Computer.
- IRC:** Internet Relay Chat – protocol that allows users to 'chat' online with other users using their keyboards. Under IRC a user can log into various chat rooms under their own name or an alias and have a text 'conversation' in real time with other users.
- ISDN:** Integrated Services Digital Network – widely adopted in the United Kingdom and Europe but not North America, ISDN allows both digital computer data and voice telephony to exist simultaneously on the same cable circuits. Data can be digitally exchanged at 64 Kbps per circuit. Used for file transfer of large documents and on-demand Internet access, it is increasingly being replaced by broadband connections such as ADSL.
- JPEG:** Joint Photographic Experts Group – compressed graphic format suitable for compression of photographic images, losing some detail in the process.

- KBPS:** Kilo bits per second – measure of transmission speed, denoting approximately 1,000 bits of information transmitted per second.
- LINUX:** A UNIX-like operating system first developed as a free or low cost system for personal computers. Linux was first developed by Linus Torvalds but its source code is now in the public domain and there are many distributions (versions) available. It is increasingly popular for business enterprise applications, highly scalable and can be used for anything from running a vehicles engine managementsystem to controlling a supercomputing cluster. *See also* UNIX.
- MACOS:** Operating system developed by Apple Computer for use on their own Macintosh computers.
- MBPS:** Mega bits per second – denoting approximately 1 million bits of information transmitted per second.
- MODEM:** A device that modulates digital signals from a computer into analogue signals for transmission over a standard telephone line and demodulates an incoming analogue signal and converts it to a digital signal for the computer.
- MP3:** Popular format for compressing audio information for transmission over the Internet for later playback on personal computers, music players and other devices.
- MPEG:** Motion Picture Encoding Group – popular format standard for compressing video and audio information for transmission over the Internet for later playback on personal computers and other players.
- MS-DOS:** Microsoft Corporation's Disk Operating System – an early OS commercially developed, but not invented, by Microsoft for use on early Intel-based personal computers. *See also* Operating System.
- NNTP:** Network News Transfer Protocol – an Internet protocol that implements a bulletin board on a global scale. Using a NNTP browser one can subscribe and contribute to one or more news groups covering a large variety of topics.
- OPERATING SYSTEM (OS):** Computer software developed to provide computer programs with standard facilities to interact with users and with computer hardware (via drivers). *See also* MS-DOS, UNIX, MacOS.
- PNG:** An improved royalty-free graphics file replacement for GIF.
- POP3:** Post Office Protocol 3 – an Internet protocol whereby email can be collected from a personal mailbox on an email server and moved off the server to a user's own computer.
- PROXY (SERVER):** A computer or device that transparently accepts Internet requests from a users computer and forwards them on to the required destination, providing enhanced performance (through caching) and/or enhanced security (by isolating the user computer from the Internet). *See* CACHING.
- PRINT SERVER:** A computer or device on a network that manages the sharing of one or more printers between multiple computers over a network. Many modern printers have a print server built in.
- ROUTER:** Where multiple networks are joined together, a router acts like a fast sorting office, examining the destination address of each information packet and passing or routing it to the appropriate network. Routers can select the most efficient route for packets.
- SMTP:** Simple Mail Transfer Protocol – an Internet protocol whereby a workstation can send email to a server or whereby two servers can exchange email.
- SNMP:** Simple Network Management Protocol – widely used protocol for remotely monitoring and managing network device status and function.
- SPAM:** A term used for unsolicited, generally junk, email. To spam someone is to send them (multiple) junk emails. Spam is becoming a major Internet problem with many estimates indicating that spam is becoming more prevalent than legitimate email. Most spam contains offers of pornography, get-rich schemes, prescription drugs, low cost finance or discount goods or services. Many legislatures around the globe are taking steps to ban or regulate spam.
- TAR:** Compression – a common mechanism on UNIX and Linux operating systems to compress information in order to save resources.
- TCP/IP:** Transmission Control Protocol/Internet Protocol – a protocol which is the lifeblood of the Internet, TCP/IP defines how information and requests generated by all other protocols are transmitted over the Internet. Information on the Internet is chopped up into small chunks or packets which are addressed with a destination and origination address. It sometimes happen that a packet gets lost and TCP/IP dictates how such a loss is handled.
- UNIX:** *See* body of article. Modern derivative versions include Linux, MacOS X, Solaris, BSD.
- USB:** Universal Serial Bus – standard for connecting serial devices such as scanners, mice, keyboards, modems and printers to computers. With USB, speeds of up to 10 Mbps are possible. USB2 is a revised, higher performance version of USB provides speeds up to 480 Mbps.
- URL:** Uniform Resource Locator – address of an Internet file or resource accessible on the Internet, e.g. <http://www.whitakersalmanack.co.uk>.
- VIRUS:** A computer program or script written for the express purpose of replicating itself onto as many machines as possible (much like its biological namesake) often with negative side effects to the host computer and computer network. Such effects vary from harmless screen messages to corruption of document integrity, network overload or compromising data security or privacy. Historically transmitted slowly by floppy disk and over networks within offices, the prevalence of Internet access allows viruses to spread globally within minutes.
- WAP:** Wireless Application Protocol – a set of standards to define how portable devices connected via radio waves (such as mobile telephones) can access Internet services.
- WARCHALKING:** To 'warchalk' is to mark an open or security-exposed Wi-Fi or other wireless network by writing symbols on or outside the relevant buildings in chalk.
- WAR DRIVING:** The activity of locating and exploiting security exposed Wi-Fi and other wireless networks to gain access to the network resource or information on or accessible to that network.
- WI-FI:** Industry brand name for the increasingly popular high frequency wireless local area Ethernet networking technology specification IEEE 802.11. Most prevalent is the 802.11b specification offering speeds of up to 11 Mps.
- WLAN:** Wireless local area network where information is transferred by radio frequency rather than wires between computers and base stations. As radio waves can pass through objects such as walls, it is becoming increasingly important for WLANs to be secured by encryption against unauthorised access.
- XML:** Extensible Mark-up Language, similar to HTML but more powerful, XML allows information to be encoded or tagged in a manner that is both human and computer readable.
- ZIP:** Compression – a popular mechanism on PCs to compress to compress information in order to save resources.

# THE ENVIRONMENT

Europe's environment has improved in several respects over the last decade but further progress is needed to manage the environmental impacts of agriculture, transport and energy, according to the European Environment Agency.

Emissions from transport are a growing concern throughout the EU. In the accession and candidate countries, carbon dioxide emissions from transport decreased 19 per cent between 1990 and 1995 but rose afterwards and in 2001 were 4 per cent higher than 1990 levels. In the previously existing member states (EU-15) transport emissions increased by nearly 21 per cent between 1990–2001. Environmental policies are developed at several levels – international conventions and protocols (of which there are over 50), European Directives (of which there are over 300), and national legislation and strategies.

## EUROPEAN UNION MEASURES

The European Union is developing an interlinked set of policies – the sixth Environmental Action Programme, the Cardiff process for the integration of environment into other policies and the EU sustainable development strategy – which form the framework for more detailed strategies. The Commission is also diversifying the instruments it uses in particular to include market-based instruments such as environmental taxes, and voluntary measures.

The Environmental Action Programme began in the 1970s. The Sixth Environmental Action Programme, *Environment 2010: Our Future, Our Choice*, was adopted in January 2001 and sets the programme to 2010. It proposes five priority areas: improving the implementation of existing legislation; integrating environmental concerns into other policies; working more closely with the market; empowering private citizens and helping them to change behaviour; and taking account of the environment in land-use planning and management decisions. The programme focuses on four topics: climate change, nature and biodiversity, environment and health, and natural resources and waste.

Much European Union environmental legislation is based around the principle that the polluter pays. The Environmental Liability Directive, agreed in February this year, will be used to hold polluters financially liable for damage they cause. It is due to enter into force in 2007.

## ENLARGEMENT

Ten countries (EU-10) joined the EU in May 2004 – Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovenia and Slovakia. The new member states have been granted transition measures, in particular for investment-heavy sectors such as waste water treatment. These measures vary from country to country and include extensions for meeting the targets and legally binding intermediate targets.

In general, most countries are on track to implement legislation. However, some countries have significant work to do in waste management and industrial pollution. Also, there are some worrying trends, such as a decline in rail transport for freight, and a 73 per cent increase in car ownership.

It is estimated that to achieve full implementation the new member states will have to spend on average 2–3 per

cent of GDP on the environment in the coming years. Current expenditure is generally well below this target. Financial assistance was given through a variety of EU programmes in the lead up to accession. Following accession, this will almost treble. Until the end of the EU's budgetary period in 2006, the new states will receive some €8 billion, which equates to more than 10 per cent of the total investment requirements.

## SUSTAINABLE DEVELOPMENT

The environmental agenda is increasingly becoming part of a wider move to address sustainability which incorporates social, environmental and economic development. In 2002, the World Summit on Sustainable Development was held in Johannesburg. Governments agreed on a series of commitments in five priority areas – water and sanitation, energy, health, agriculture, and biodiversity. Targets and timetables agreed include halving the number of people who lack access to clean water or proper sanitation by 2015 and reducing biodiversity loss by 2010.

Following the summit, the United Nations Commission on Sustainable Development has agreed its programme for the next 15 years. It will work in two-year cycles, with the first (2004–5) focusing on water, sanitation and human settlements. This will be followed by energy, climate change, atmosphere and industrial development in 2006–7. The EU's sustainable development strategy, adopted in May 2001, sets out long-term objectives, such as limiting major threats to public health and breaking the link between economic growth and transport growth.

In April 2004, a consultation was launched to develop a new UK sustainable development strategy. The three-month consultation asks for views on a wide range of issues from what should be in a UK vision of sustainable development to how to tackle unsustainable consumption patterns. The new framework is to be in place by early 2005. It will provide the background for separate strategies and plans by each administration.

The existing UK strategy *A Better Quality of Life* was published in May 1999. It provides a framework for integrating social, environmental and economic policies to meet four objectives: social progress, protection of the environment, prudent use of natural resources, and to maintain high and stable levels of economic growth and employment. The latest annual progress report highlighted areas of particular concern, such as the levels of waste generated and rising road traffic volumes, although the weakening in the link between road traffic and economic growth is encouraging.

The government has also developed a strategy on sustainable consumption and production. Key proposals include breaking the link between economic growth and environmental pollution, examining the whole life-cycle of products, and improving resource efficiency.

Local authorities also have a role to play in sustainable development. Under Local Agenda 21, which came out of the UN Conference on Environment and Development in Rio, Brazil in 1992, local authorities have an obligation to draw up sustainable development strategies for their areas. Regional Development Agencies take Local Agenda 21 strategies into account in sustainable development frameworks for each English region. At the World

Summit, the UK government committed itself to taking further action towards the implementation of Agenda 21 and achieving the Millennium Development Goals which have grown out of agreements and declarations at UN Conferences.

Many businesses are also working towards sustainable development and some are assessing and reporting their own progress with initiatives, such as the Global Reporting Initiative.

## WASTE

Waste policy in the UK follows a number of principles: the hierarchy of reduce, reuse, recycle, dispose; the proximity principle of disposing of waste close to its generation; and national self sufficiency. Directives from Europe are playing an increasingly important role in driving UK policy, particularly regarding commercial and industrial waste. For instance, the Landfill Directive, which was adopted in July 1999, sets stringent targets for reducing the amount of waste sent to landfill and the technical requirements for landfill sites.

The proposed European integrated products policy aims to internalise the environmental costs of products throughout their life-cycle through market forces, by focusing on eco-design and incentives to ensure increased demand for greener products. The policy will culminate in 2007 with the identification of a first set of products with the greatest potential for environmental improvement and the beginning of action to tackle them.

Greater responsibility for end-of-life products is already being addressed by the EU's producer responsibility directives for packaging waste, which came into force in the UK in 1997 and for which the EU has recently set new more stringent targets: the end-of-life-vehicle directive, which entered into force in December 2001; and the directives on waste from electrical and electronic equipment and on the restriction of the use of certain hazardous substances in such equipment which came into effect in February. A new directive concerning the collection and recycling of batteries has also been adopted.

In addition to meeting EU directives, the UK also has its own targets. To meet these the public and local authorities will have to vastly increase their current recycling rates. In 2002–3, 15.6 per cent of household waste was recycled and composted, up from 13.6 per cent in 2001–2. Scotland and Northern Ireland also have national waste strategies.

## CLIMATE CHANGE AND AIR POLLUTION

The UK's response to climate change is driven by the international Framework Convention on Climate Change. This is a binding agreement that has been signed and ratified by 189 countries. It was ratified in the UK in December 1993 and came into force in March 1994. It is intended to reduce the risks of global warming by limiting 'greenhouse' gas emissions.

Progress towards the convention's targets are assessed at regular conferences. At Kyoto in 1997, a protocol (the Kyoto Protocol) to the convention was adopted. It covers the six main greenhouse gases – carbon dioxide, methane, nitrous oxide, hydrofluorocarbons (HFCs), perfluorocarbons (PFCs) and sulphur hexafluoride. Under the protocol industrialised countries agreed to legally binding targets for cutting emissions of greenhouse gases by 5.2 per cent below 1990 levels by 2008–12. EU members agreed to an 8 per cent reduction and the UK's target is a 12.5 per cent cut. The ten accession (EU-10) countries have all ratified the Kyoto protocol and have their own

targets of between 6 per cent and 8 per cent. The EU's 8 per cent target now only refers to the previous 15 member states (EU-15).

The latest data from the European Environment Agency, published in December 2003, shows that emissions of greenhouse gases from the EU have decreased by 2.3 per cent between 1990 and 2001, just over one quarter of the way towards the target. Ten of the EU-15 member states (Austria, Belgium, Denmark, Finland, Greece, Ireland, Italy, the Netherlands, Portugal and Spain) are not on track to meet their targets. Seven of the ten accession countries are on track to achieve their target under Kyoto, with only Slovenia expecting to miss its target.

The Kyoto Protocol will enter into force 90 days after it has been ratified by 55 governments, including developed countries representing at least 55 per cent of that group's carbon dioxide emissions. It had been expected to enter into force in early 2003. This has not happened as ratification by either the US or Russia is still needed. The US has stated that it will not ratify the treaty. Russia has recently pledged to ratify, having been reluctant to do so because of the perceived negative economic impact of such a move. Despite the Government's positive stance, a number of key Russian organisations are lobbying against the move.

In November 2000, a UK climate change programme was published which sets out how the UK intends to meet its Kyoto target and progress towards its domestic goal of a 20 per cent cut in carbon dioxide emissions by 2010.

The European Commission also set up a European Climate Change Programme in 2000 to identify measures to meet the Kyoto target and will introduce a mandatory emissions trading scheme at company level for carbon dioxide in the European Union beginning in January 2005. The companies covered by the scheme account for almost half of the EU's total carbon dioxide emissions. The EU has also indicated that it is willing to link the scheme to trading schemes in other countries that have ratified the Kyoto Protocol. Under the scheme, member states will set limits on carbon dioxide emissions from energy-intensive companies by issuing allowances according to how much they are allowed to emit. Reductions below these limits will be tradable.

Member states are required to submit national allocation plans setting out how they will issue allowances to companies. The deadline for plans was 31 March for the EU-15 and 1 May for the EU-10. In May, the Commission had received just nine from the EU-15 and three from the EU-10 and infringement proceedings have started against those that have not submitted.

The EU's national emission ceilings directive sets upper limits for each member state for the total emissions in 2010 of the four pollutants responsible for acidification, eutrophication and ground-level ozone pollution (sulphur dioxide, nitrogen oxides, volatile organic compounds and ammonia), but leaves it largely to the member states to decide which measures to take in order to comply. For emissions of ground-level ozone, only the UK, Germany, the Netherlands and Finland are below the target path to meet their obligations under the directive. Emissions of Portugal, Spain, Greece, Ireland and Belgium are significantly above their target paths while of the accession countries, Slovenia, Hungary, Poland and the Czech Republic will need significant reductions to meet their 2010 targets.

At a European level, air pollutant emissions show a general decreasing trend. Between 1990 and 2000,

emissions of acidifying pollutants and ozone precursor gases decreased by 40 per cent and 29 per cent respectively. The European Integrated Pollution Prevention and Control (IPPC) Directive regulates emissions to any environmental medium from certain industrial and includes returning sites to a satisfactory state on closure, using energy efficiently and noise and vibration regulation. IPPC has been implemented in the UK through the Pollution Prevention and Control regulations 2000. Also, the UK's National Air Quality Strategy sets air quality objectives for the main pollutants (benzene, 1-3, butadiene, carbon monoxide, lead, nitrogen dioxide, sulphur dioxide, ozone, and particulates) to be met by 2003–8.

## WATER

Water quality targets are set at both EU and UK level for drinking water sources, waste water discharges, rivers, coastal water and bathing water. The EU's water framework directive, which entered into force in December 2000, has an objective to achieve 'good water status' throughout the EU by 2015. In response to the requirements of the framework directive, the Commission has proposed a new directive to protect groundwater from pollution. The UK's Water Act was granted royal assent late last year.

The Water Environment and Water Services Bill for Scotland completed its passage through the Scottish parliament in early 2003. It establishes, for the first time, a source-to-sea planning framework for river basin management. Meanwhile, proposals for amending the regulatory framework for water and sewerage services were published for consultation late last year.

The EC Bathing Water Directive sets standards for bathing waters. This applies to 391 coastal and nine inland bathing waters in the UK. This directive is over 25 years old. The commission adopted a proposal for a new directive in October 2002 which would set a much tighter bathing water quality standard than the existing Directive.

The Environment Agency sets river quality objectives for each stretch of river. Water quality is currently protected through licensing abstraction and regulating discharges. Consents to discharge sewage and industrial effluent are regulated under the Water Resources Act 1991 and the IPPC regime. Discharge consents are based on the river quality objectives and relevant EU directives and specify the concentration and quantity permitted.

The European Urban Waste Water Treatment Directive sets minimum standards for sewage treatment before discharge into coastal waters with the levels of treatment needed depending on the sensitivity of the receiving water. In 1999 the government set more stringent UK targets for all significant coastal discharges to have a minimum of secondary treatment by 2005.

## ENERGY

In February 2003, the UK government published a White Paper setting out a long-term strategy for UK Energy policy to 2050 combining environmental, security of supply, competitiveness and social goals. It builds on the Performance and Innovation Unit's (now the Prime Minister's Strategy Unit) Energy Review, published a year earlier.

In April 2004, the UK government published its first annual report on implementation of the white paper. A total of 112 milestones had been set as a first step towards achieving the long-term commitments, 56 have been met. An energy bill was also introduced in November 2003.

## ENVIRONMENT AND HEALTH

In October 2003, the European Commission put forward a proposal for a new chemicals policy under which industry will have to provide information on the effects of chemicals on human health and the environment as well as on safe ways of handling them. The proposal has been met with stiff opposition and still has a long way to go before it is implemented. The Commission has also launched a strategy that will tackle environmental risks for human health in a broader sense. The strategy on science, children, awareness, legislation and evaluation, known as Scale, was launched in June 2003. Apart from aiming to reduce diseases caused by environmental factors in Europe, it aims to strengthen the EU's capacity for policy making in the area.

The first cycle of the strategy, running from 2004 to 2010, will focus on four health effects – childhood respiratory diseases, asthma and allergies; neuro-development disorders; childhood cancer; and endocrine disrupting effects.

## SELECTED UK TARGETS

### *Global atmosphere*

- Reduce greenhouse gas emissions to 12.5 per cent below 1990 levels by 2010
- Reduce carbon dioxide emissions to 20 per cent below 1990 levels by 2010, and by 60 per cent by 2050

### *Air quality*

- Reduce sulphur dioxide emissions by 63 per cent based on 1990 levels by 2010
- Reduce emissions of nitrogen oxides by 41 per cent based on 1990 levels by 2010
- Reduce emissions of volatile organic compounds by 40 per cent based on 1990 levels by 2010

### *Fresh water and sea*

- 97 per cent of bathing waters to meet European directive standards consistently by 2005
- Provide secondary treatment for all significant coastal discharges (over 2,000 population equivalent) by 2005

### *Waste*

- Reduce industrial and commercial waste going to landfill by 85 per cent of 1998 levels by 2005
- Recover 40 per cent of municipal waste by 2005, 45 per cent by 2010 and 67 per cent by 2015
- Recycle or compost 25 per cent of household waste by 2005, 30 per cent by 2010 and 33 per cent by 2015
- Reduce biodegradable municipal waste sent to landfill to 75 per cent of 1995 levels by 2010
- Ensure 65 per cent of UK newspaper feedstock content is waste paper by end of 2003 and 70 per cent by end of 2006
- Proposed re-use and recovery of 85 per cent of the mass of end-of-life vehicles with a minimum of 80 per cent recycling by 2006, 95 per cent and 85 per cent by 2015
- EU target to reduce the amount of waste going to final disposal by 20 per cent by 2010 and 50 per cent by 2050
- Collect 4kg of household waste electrical and electronic equipment per head of population per year by 31 December 2006
- Provide segregated kerbside waste collection to over 90 per cent of households in Scotland by 2020

### *Land*

- Ensure 60 per cent of all new housing is built on re-used sites

### *Energy*

- Provide 10.4 per cent of electricity from renewable sources by 2010 in UK and Scotland

# CONSERVATION AND HERITAGE

## NATIONAL PARKS

### ENGLAND AND WALES

The ten National Parks of England and Wales were set up under the provisions of the National Parks and Access to the Countryside Act 1949 to conserve and protect scenic landscapes from inappropriate development and to provide access to the land for public enjoyment.

The Countryside Agency (established on 1 April 1999 from the merger of the Countryside Commission and the Rural Development Commission) is the statutory body which has the power to designate National Parks in England, and the Countryside Council for Wales is responsible for National Parks in Wales. Designations in England are confirmed by the Secretary of State for Environment, Food and Rural Affairs and those in Wales by the National Assembly for Wales. The designation of a National Park does not affect the ownership of the land or remove the rights of the local community. The majority of the land in the National Parks is owned by private landowners (74 per cent) or by bodies such as the National Trust (7 per cent) and the Forestry Commission (7 per cent). The National Park Authorities own only 2.3 per cent of the land.

The Environment Act 1995 replaced the existing National Park boards and committees with free-standing National Park Authorities (NPAs). NPAs are the sole local planning authorities for their areas and as such influence land use and development, and deal with planning applications. Their duties include conserving and enhancing the natural beauty, wildlife and cultural heritage of the National Parks; promoting opportunities for public understanding and enjoyment of the National Parks; and fostering the economic and social well-being of the communities within National Parks. The NPAs publish management plans as statements of their policies and appoint their own officers and staff.

Membership of the NPAs differs slightly between England and Wales. In England, those local authorities that have land in the Parks appoint one half of the members of the National Parks Authorities plus one other person. Of the remaining members, one half minus one person are parish representatives who are elected through a process of local democracy while the rest are appointed by the Secretary of State to represent the national interest. In Wales two-thirds of NPA members are appointed by the constituent local authorities and one-third by the National Assembly for Wales, advised by the Countryside Council for Wales.

Since April 2004 the Department for Environment, Food and Rural Affairs has provided 100 per cent of the funding for the parks in England through the National Park and Broads Authority Grant; a total of £35.76 million in 2004–5. In Wales, National Parks are funded via a grant from the National Assembly and levies raised from participating local authorities. In addition, all NPAs and the Broads Authority can take advantage of grants from other bodies including lottery and European grants.

The National Parks (with date designation confirmed) are:

**BRECON BEACONS** (1957), Powys (66 per cent)/Carmarthenshire/Rhondda, Cynon and Taff/Merthyr Tydfil/Blaenau Gwent/Monmouthshire, 1,349sq. km/519 sq. miles – The park is centred on the Beacons, Pen y Fan, Corn Du and Cribyn, but also includes the valley of the Usk, the Black Mountains to the east and the Black Mountain to the west. There are information centres at Brecon, Craig-y-nos Country Park, Abergavenny and Llandovery, a study centre at Danywenallt and a day visitor centre near Libanus.

*Information Office*, Plas y Ffynnon, Cambrian Way, Brecon, Powys LD3 7HP T 01874-624437

E enquiries@breconbeacons.org

*National Park Officer*, Christopher Gledhill

**DARTMOOR** (1951 and 1994), Devon, 954 sq. km/368 sq. miles – The park consists of moorland and rocky granite tors, and is rich in prehistoric remains. There are information centres at Haytor, Newbridge, Princetown and Postbridge.

*Information Office*, Parke, Bovey Tracey, Devon TQ13 9JQ T 01626-832093 E hq@dartmoor-npa.gov.uk

*Chief Executive*, Dr Nick Atkinson

**EXMOOR** (1954), Somerset (71 per cent)/Devon, 693 sq. km/268 sq. miles – Exmoor is a moorland plateau inhabited by wild ponies and red deer. There are many ancient remains and burial mounds. There are information centres at Lynmouth, County Gate, Dulverton and Combe Martin.

*Information Office*, Exmoor House, Dulverton, Somerset TA21 9HL T 01398-323665

E info@exmoor-nationalpark.gov.uk

*National Park Officer*, Dr Nigel Stone

**LAKE DISTRICT** (1951), Cumbria, 2,292 sq. km/885 sq. miles – The Lake District includes England's highest mountains (Scafell Pike, Helvellyn and Skiddaw) but it is most famous for its glaciated lakes. There are information centres at Broughton, Keswick, Waterhead, Hawkshead, Seatoller, Bowness, Grasmere, Conistone, Glenridding and Pooley Bridge and a park centre at Brockhole, Windermere.

*Information Office*, Murley Moss, Oxenholme Road, Kendal, Cumbria, LA9 7RL T 01539-724555

E hq@lake-district.gov.uk

*National Park Officer*, Paul Tiplady

**NORTH YORK MOORS** (1952), North Yorkshire (96 per cent)/Redcar and Cleveland, 1,432 sq. km/554 sq. miles – The park consists of woodland and moorland, and includes the Hambleton Hills and the Cleveland Way. There are information centres at Danby, Sutton Bank and at The Old Coastguard Station in Robin Hood's Bay.

*Information Office*, The Old Vicarage, Bondgate, Helmsley, York YO6 5BP T 01439-770657

E general@northyorkmoors-npa.gov.uk

*National Park Officer*, Andrew Wilson

**NORTHUMBERLAND** (1956), Northumberland, 1,049 sq. km/405 sq. miles – The park is an area of hill country stretching from Hadrian's Wall to the Scottish Border. There are information centres at Ingram, Once Brewed and Rothbury.

*Information Office*, Eastburn, South Park, Hexham,  
Northumberland NE46 1BS T 01434-605555  
E admin@nnpa.org.uk

*National Park Officer*, Graham Taylor  
PEAK DISTRICT (1951), Derbyshire (64 per cent)/  
Staffordshire/South Yorkshire/Cheshire/West  
Yorkshire/Greater Manchester, 1,438 sq. km/555 sq.  
miles – The Peak District includes the gritstone  
moors of the 'Dark Peak' and the limestone dales  
of the 'White Peak'. There are information  
centres at Bakewell, Edale, Castleton and Upper  
Derwent.

*Information Office*, Aldern House, Baslow Road, Bakewell,  
Derbyshire DE45 1AE T 01629-816200

E aldern@peakdistrict-npa.gov.uk

*National Park Officer*, Jim Dixon

PEMBROKESHIRE COAST (1952 and 1995),  
Pembrokeshire, 620 sq. km/240 sq. miles – The park  
includes cliffs, moorland and a number of islands,  
including Skomer. There are information centres at St  
David's and Newport.

*Information Office*, Llanion Park, Pembroke Dock,  
Pembrokeshire SA72 6DF T 0845-345 7275

E pcnp@pembrokeshirecoast.org.uk

*National Park Officer*, Nic Wheeler

SNOWDONIA/ERYRI (1951), Gwynedd/Conwy,  
2,171 sq. km/835 sq. miles – Snowdonia is an area of  
deep valleys and rugged mountains. There are  
information centres at Aberdyfi, Beddgelert, Betws y  
Coed, Blaenau Ffestiniog, Conwy, Dolgellau and  
Harlech.

*Information Office*, Penrhyndeudraeth, Gwynedd LL48 6LF  
T 01766-770274 E parc@eryri-npa.gov.uk

*Chief Executive*, Aneurin Phillips

YORKSHIRE DALES (1954), North Yorkshire (88 per  
cent)/Cumbria, 1,769 sq. km/683 sq. miles – The  
Yorkshire Dales are composed primarily of limestone  
overlaid in places by millstone grit. The three peaks of  
Ingleborough, Wharfedale and Pen-y-Ghent are within  
the park. There are information centres at Grassington,  
Hawes, Aysgarth Falls, Malham, Reeth and Sedburgh.

*Information Office*, Yorebridge House, Bainbridge, Leyburn,  
N. Yorks DL8 3EE T 01969-650456

E info@yorkshiredales.org.uk

*Chief Executive*, David Butterworth

Two other areas considered to have equivalent status to  
the National Parks are the Broads and the New Forest.  
The Broads Authority was established in 1989 under  
separate legislation to develop, conserve and manage the  
Norfolk and Suffolk Broads. In 1999 the Countryside  
Agency began the process of designating the New Forest  
and the South Downs (within the Sussex Downs and East  
Hampshire 'Areas of Outstanding Natural Beauty') as  
National Parks. On 28 June 2004 the Government  
announced that, following the finalisation of the  
boundary, the New Forest will become a National Park.

THE BROADS (1989), Norfolk, 303 sq. km/117 sq. miles  
– The Broads are located between Norwich and Great  
Yarmouth on the flood plains of the five rivers flowing  
through the area to the sea. The area is one of fens,  
winding waterways, woodland and marsh. The 40 or  
so broads are man-made, and are connected to the  
rivers by dikes, providing over 200 km of navigable  
waterways. There are information centres at Beccles,  
Hoveton, North West Tower (Yarmouth),  
Potter Heigham, Ranworth and Toad Hole.

*The Broads Authority*, 18 Colegate, Norwich NR3 1BQ  
T 01603 610734 E broads@broads-authority.gov.uk

*Chief Executive*, Dr John Packman

THE NEW FOREST Hampshire, 580 sq. km/224 sq. miles  
– The forest has been protected since 1079 when it was  
declared a royal hunting forest. The area consists of  
forest, ancient woodland and heathland. Much of the  
Forest is managed by the Forestry Commission, which  
provides several camp-sites. The main villages are  
Brockenhurst, Burley and Lyndhurst, which has a  
visitor centre.

*The New Forest Committee*, 4 High Street, Lyndhurst, Hants  
SO43 7BD T 023-8028 4144

E office@newforestcommittee.org.uk

*Chairman*, Ted Johnson, FRICS, *Committee Officer*,  
Maddy Jago

THE SOUTH DOWNS, West Sussex/Hampshire, 1,637 sq.  
km/632 sq. miles – The South Downs contains a  
diversity of natural habitats, including flower-studded  
chalk grassland, ancient woodland, flood meadow,  
lowland heath and rare chalk heathland.

*Sussex Downs Conservation Board*, Victorian Barn,  
Victorian Business Centre, Ford Lane, Ford, Arundel, West  
Sussex, BN18 0EF T 01234-558700

E info@southdowns-aonb.gov.uk

*Chief Officer*, Martin Beaton

## SCOTLAND

On 9 August 2000 The National Parks (Scotland) Bill  
received Royal Assent, providing the Parliament with the  
ability to create National Parks in Scotland. The first two  
Scottish National Parks, *Loch Lomond and the Trossachs*  
and the *Cairngorms*, became operational in 2002 and  
2003 respectively. The Act gives Scottish Parks wider  
powers than in England and Wales, including statutory  
responsibilities for the economy and rural communities.  
Membership of the two NPAs in Scotland consists of 20  
per cent directly elected members. The remaining 80 per  
cent are chosen by the Secretary of State, 40 per cent of  
which are nominated by the constituent Local Authorities.  
In Scotland, the National Parks are central Government  
bodies and wholly funded by the Scottish Executive.

CAIRNGORMS (2003), Morayshire, 3,800 sq. km/1,461  
sq. miles – The Cairngorms National Park is the largest  
in the UK. It displays a vast collection of landforms and  
includes four of Scotland's highest mountains.

*Information Office*, 14 The Square, Grantown-on-Spey,  
Morayshire, PH26 3HG T 01479-873535

E mainoffice@cairngorms.co.uk

*Chief Executive*, Jane Hope

LOCH LOMOND AND THE TROSSACHS (2002), Argyll  
and Bute/Stirling/West Dunbartonshire, 1,865 sq.  
km/720 sq. miles – The park boundaries encompass  
lochs, rivers, forests, 20 mountains above 3,000 ft  
including Ben Moore and a further 20 mountains  
between 2,500 ft and 3,000 ft.

*Information Office*, The Old Station, Balloch Road, Balloch  
G83 8SS T 01389-722600 E info@lochlomond-trossachs.org

*Chief Executive*, Bill Dalrymple

## NORTHERN IRELAND

There is power to designate National Parks in Northern  
Ireland under the Amenity Lands Act 1965 and the  
Nature Conservation and Amenity Lands Order (Northern  
Ireland) 1985.

## AREAS OF OUTSTANDING NATURAL BEAUTY

### ENGLAND AND WALES

Under the National Parks and Access to the Countryside Act 1949, provision was made for the designation of Areas of Outstanding Natural Beauty (AONBs) by the Countryside Commission. The Countryside Agency is now responsible for AONBs in England and since April 1991 the Countryside Council for Wales has been responsible for the Welsh AONBs. Designations in England are confirmed by the Secretary of State for Environment, Food and Rural Affairs and those in Wales by the National Assembly for Wales. The Countryside and Rights of Way Act 2000 provided for the creation of conservation boards for individual AONBs and placed greater responsibility on local authorities to protect them.

Although less emphasis is placed upon the provision of open-air enjoyment for the public than in the national parks, AONBs are areas which require the same degree of protection to conserve and enhance the natural beauty of the countryside. This includes protecting flora and fauna, geological and other landscape features. Overall responsibility for AONBs lies with the relevant local authorities, however, most fall within more than one local authority area. To co-ordinate planning and management responsibilities, AONBs are overseen by a Joint Advisory Committee (or similar body) which includes representatives from the local authorities, landowners, farmers, residents and conservation and recreation groups. In addition, an AONB officer is appointed to oversee matters. All AONBs also have to prepare Statements of Intent (or Commitment) and Management Plans. Since April 2002, 75 per cent of core funding for AONBs has been provided by central government through the Countryside Agency and Countryside Council for Wales.

The 41 Areas of Outstanding Natural Beauty (with date designation confirmed) are:

- ANGLESEY (1967), Anglesey, 221 sq. km/85 sq. miles  
 ARNSIDE AND SILVERDALE (1972), Cumbria/  
 Lancashire, 75 sq. km/29 sq. miles  
 BLACKDOWN HILLS (1991), Devon/Somerset, 370 sq.  
 km/143 sq. miles  
 CANNOCK CHASE (1958), Staffordshire, 68 sq. km/26  
 sq. miles  
 CHICHESTER HARBOUR (1964), Hampshire/West  
 Sussex, 74 sq. km/29 sq. miles  
 CHILTERNS (1965; extended 1990), Bedfordshire/  
 Buckinghamshire/Herefordshire/Oxfordshire, 833 sq.  
 km/322 sq. miles  
 CLWYDIAN RANGE (1985), Denbighshire/Flintshire,  
 157 sq. km/60 sq. miles  
 CORNWALL (1959; Camel estuary 1983), 958 sq. km/  
 370 sq. miles  
 COTSWOLDS (1966; extended 1990), Gloucestershire/  
 Oxfordshire/Wiltshire/Warwickshire/  
 Worcestershire, 2,038 sq. km/787 sq. miles  
 CRANBORNE CHASE AND WEST WILTSHIRE DOWNS  
 (1983), Dorset/Hampshire/Somerset/Wiltshire, 983  
 sq. km/379 sq. miles  
 DEDHAM VALE (1970; extended 1978, 1991), Essex/  
 Suffolk, 90 sq. km/35 sq. miles  
 DORSET (1959), 1,129 sq. km/436 sq. miles  
 EAST DEVON (1963), 268 sq. km/103 sq. miles  
 EAST HAMPSHIRE (1962), 383 sq. km/148 sq. miles  
 FOREST OF BOWLAND (1964), Lancashire/North  
 Yorkshire, 802 sq. km/310 sq. miles  
 GOWER (1956), Swansea, 188 sq. km/73 sq. miles  
 HIGH WEALD (1983), Kent/East Sussex/Surrey/West  
 Sussex, 1,460 sq. km/564 sq. miles  
 HOWARDIAN HILLS (1987), North Yorkshire, 204 sq.  
 km/79 sq. miles  
 ISLE OF WIGHT (1963), 189 sq. km/73 sq. miles  
 ISLES OF SCILLY (1976), 16 sq. km/6 sq. miles  
 KENT DOWNS (1968), 878 sq. km/339 sq. miles  
 LINCOLNSHIRE WOLDS (1973), 558 sq. km/215 sq.  
 miles  
 LLEYN (1957), Gwynedd, 161 sq. km/62 sq. miles  
 MALVERN HILLS (1959), Gloucestershire/Worcestershire,  
 150 sq. km/58 sq. miles  
 MENDIP HILLS (1972; extended 1989), Somerset, 198  
 sq. km/76 sq. miles  
 NIDDERDALE (1994), North Yorkshire, 603 sq. km/233  
 sq. miles  
 NORFOLK COAST (1968), 451 sq. km/174 sq. miles  
 NORTH DEVON (1960), 171 sq. km/66 sq. miles  
 NORTH PENNINES (1988), Cumbria/Durham/  
 Northumberland, 1,983 sq. km/766 sq. miles  
 NORTH WESSEX DOWNS (1972), Hampshire/  
 Oxfordshire/Wiltshire, 1,730 sq. km/668 sq. miles  
 NORTHUMBERLAND COAST (1958), 135 sq. km/52 sq.  
 miles  
 QUANTOCK HILLS (1957), Somerset, 99 sq. km/38 sq.  
 miles  
 SHROPSHIRE HILLS (1959), 804 sq. km/310 sq. miles  
 SOLWAY COAST (1964), Cumbria, 115 sq. km/44 sq.  
 miles  
 SOUTH DEVON (1960), 337 sq. km/130 sq. miles  
 SOUTH HAMPSHIRE COAST (1967), 77 sq. km/30 sq.  
 miles  
 SUFFOLK COAST AND HEATHS (1970), 403 sq. km/156  
 sq. miles  
 SURREY HILLS (1958), 419 sq. km/162 sq. miles  
 SUSSEX DOWNS (1966), 983 sq. km/379 sq. miles  
 TAMAR VALLEY (1995), Cornwall/Devon, 195 sq. km/  
 115 sq. miles  
 WYE VALLEY (1971), Gloucestershire/Herefordshire/  
 Monmouthshire, 326 sq. km/126 sq. miles

### NORTHERN IRELAND

The Department of the Environment for Northern Ireland, with advice from the Council for Nature Conservation and the Countryside, designates Areas of Outstanding Natural Beauty in Northern Ireland. At present there are nine and these cover a total area of approximately 284,948 hectares (704,103 acres). Dates given are those of designation.

- ANTRIM COAST AND GLENS (1988), Co. Antrim, 70,600  
 ha/174,452 acres

## NATIONAL SCENIC AREAS

In Scotland, National Scenic Areas have a broadly equivalent status to AONBs. Scottish Natural Heritage recognises areas of national scenic significance. At the end of June 2004 there were 40, covering a total area of 1,001,800 hectares (2,475,448 acres).

Development within National Scenic Areas is dealt with by local authorities, who are required to consult Scottish Natural Heritage concerning certain categories of development. Disagreements between Scottish Natural Heritage and local authorities are referred to the Scottish Executive. Land management uses can also be modified in the interest of scenic conservation.

ASSYNT-COIGACH, Highland, 90,200 ha/222,884 acres  
BEN NEVIS AND GLEN COE, Highland, 101,600 ha/  
251,053 acres

CAIRNGORM MOUNTAINS, Highland/Aberdeenshire/  
Moray, 67,200 ha/166,051 acres

CUILLIN HILLS, Highland, 21,900 ha/54,115 acres

SOUTH LEWIS, HARRIS AND NORTH UIST, Western  
Isles, 109,600 ha/270,822 acres

SOUTH UIST MACHAIR, Western Isles, 6,100 ha/15,073  
acres

THE TROSSACHS, Stirling, 4,600 ha/11,367 acres

TROTTERNISH, Highland, 5,000 ha/12,355 acres

UPPER TWEEDDALE, The Borders, 10,500 ha/25,945  
acres

WESTER ROSS, Highland, 145,300 ha/359,036 acres

## THE NATIONAL FOREST

The National Forest is being planted across 200 square miles of Derbyshire, Leicestershire and Staffordshire. Nearly six million trees, of mixed species but mainly broadleaved, have been planted, with the aim being to eventually cover about one-third of the designated area. The project is funded by the Department for Environment, Food and Rural Affairs. It was developed in 1992–5 by the Countryside Commission and is now run by the National Forest Company, which was established in April 1995. Under the National Forest Tender Scheme, anybody wishing to undertake a woodland creation project can submit a competitive bid to the National Forest Company.

NATIONAL FOREST COMPANY, Enterprise Glade, Bath  
Lane, Moira, Swadlincote, Derbyshire DE12 6BD

## SITES OF SPECIAL SCIENTIFIC INTEREST

Site of Special Scientific Interest (SSSI) is a legal notification applied to land in England, Scotland or Wales which English Nature (EN), Scottish Natural Heritage (SNH) or the Countryside Council for Wales (CCW) identifies as being of special interest because of its flora, fauna, geological or physiographical features. In some cases, SSSIs are managed as nature reserves.

EN, SNH and CCW must notify the designation of an SSSI to the local planning authority, every owner/occupier of the land, and the Secretary of State for Environment, Food and Rural Affairs, the Scottish Ministers or the National Assembly for Wales. Forestry and agricultural departments and a number of other bodies are also informed of this notification.

Objections to the notification of an SSSI can be made and ultimately considered at a full meeting of the Council of EN or CCW. In Scotland an objection will be dealt with by the appropriate area board or the main board of SNH, depending on the nature of the objection. Unresolved objections on scientific grounds must be referred to the Advisory Committee on SSSI.

The protection of these sites depends on the co-operation of individual landowners and occupiers. Owner/occupiers must consult EN, SNH or CCW and, in England and Wales, gain written consent before they can undertake certain listed activities on the site. In Scotland, owner/occupiers can carry out a listed operation four months after consultation, unless SNH obtains a Nature Conservation Order from Scottish Ministers. Funds are available through management agreements and grants to assist owners and occupiers in conserving sites' interests. As a last resort a site can be purchased.

The number and area of SSSIs in Britain as at May 2004 was:

	<i>No.</i>	<i>Hectares</i>	<i>Acres</i>
England	4,111	1,076,704	2,660,536
Scotland	1,451	1,005,152	2,482,725
Wales*	1,021	264,354	652,954

\* Some sites in Wales amalgamated 2002–3

#### NORTHERN IRELAND

In Northern Ireland 208 Areas of Special Scientific Interest (ASSIs) have been declared by the Department of the Environment for Northern Ireland.

#### NATIONAL NATURE RESERVES

National Nature Reserves are defined in the National Parks and Access to the Countryside Act 1949 as land designated for the study and preservation of flora and fauna, or of geological or physiographical features.

English Nature (EN), Scottish Natural Heritage (SNH) or the Countryside Council for Wales (CCW) can designate as a National Nature Reserve land which is being managed as a nature reserve under an agreement with one of the statutory nature conservation agencies; land held and managed by EN, SNH or CCW; or land held and managed as a nature reserve by another approved body. EN, SNH or CCW can make by-laws to protect reserves from undesirable activities; these are subject to confirmation by the Secretary of State for Environment, Food and Rural Affairs, the National Assembly for Wales or the Scottish Ministers in Scotland.

The number and area of National Nature Reserves in Britain as at May 2004 was:

	<i>No.</i>	<i>Hectares</i>	<i>Acres</i>
England	215	87,917	217,242
Scotland	66	117,228	289,612
Wales	67	24,123	59,584

#### NORTHERN IRELAND

National Nature Reserves are established and managed by the Department of the Environment for Northern Ireland, with advice from the Council for Nature Conservation and the Countryside. There are 48 National Nature Reserves covering 4,746.3 hectares (11,723 acres).

#### LOCAL NATURE RESERVES

Local Nature Reserves are defined in the National Parks and Access to the Countryside Act 1949 as land designated for the study and preservation of flora and fauna, or of geological or physiographical features. The Act gives local authorities in England, Scotland and Wales the power to acquire, declare and manage local nature reserves in consultation with English Nature, Scottish Natural Heritage and the Countryside Council for Wales. Other organisations, including wildlife trusts, may manage local nature reserves, providing that a local authority has a legal interest in the land.

The number and area of designated Local Nature Reserves in Britain as at May 2004 was:

	<i>No.</i>	<i>Hectares</i>	<i>Acres</i>
England	947	31,012	76,631
Scotland	36	9,410	23,252
Wales	54	4,890	12,078

#### FOREST NATURE RESERVES

In 1999 responsibility for forestry was transferred to Scottish Ministers and the National Assembly for Wales. Westminster retained responsibility for forestry in England and for international issues. In April 2003 Forest Enterprise, an executive agency of the Forestry Commission, ceased to exist as a single agency. Three new bodies for England, Scotland and Wales were created in its place. The Forest Enterprise manages 665,000 hectares in Scotland, 258,500 hectares in England and 130,000 hectares in Wales.

Forest Nature Reserves extend in size from under 50 hectares (124 acres) to over 500 hectares (1,236 acres). The largest include the Black Wood of Rannoch, by Loch Rannoch; Cannop Valley Oakwoods, Forest of Dean; Culbin Forest, near Forres; Glen Affric, near Fort Augustus; Kylerhea, Skye; Pembrey, Carmarthen Bay; Starr Forest, in Galloway Forest Park; and Wyre Forest, near Kidderminster.

#### NORTHERN IRELAND

There are 34 Forest Nature Reserves in Northern Ireland, covering 1,512 hectares (3,736 acres). They are designated and administered by the Forest Service, an agency of the Department of Agriculture and Rural Development for Northern Ireland. There are also 16 National Nature Reserves on Forest Service-owned property.

#### MARINE NATURE RESERVES

The Secretary of State for Environment, Food and Rural Affairs, the National Assembly for Wales and the Scottish Executive have the power to designate Marine Nature Reserves. English Nature, Scottish Natural Heritage and the Countryside Council for Wales select and manage these reserves. Marine Nature Reserves may be established in Northern Ireland under a 1985 Order.

Marine Nature Reserves provide protection for marine flora and fauna, and geological and physiographical features on land covered by tidal waters or parts of the sea in or adjacent to the UK. Reserves also provide opportunities for study and research.

The three statutory Marine Nature Reserves are:

LUNDY (1986), Bristol Channel  
KOMER (1990), Dyfed  
STRANGFORD LOUGH (1995), Northern Ireland

Non-statutory marine reserves have also been set up by conservation groups.

#### EUROPEAN MARINE SITES

The 1992 EC Habitats Directive and the 1979 Birds Directive allow the UK government to establish Special Areas of Conservation (SACs) or Special Protection Areas (SPAs) for animals and birds on land and at sea. Where the designated area includes sea or seashore it is described as a European marine site. The 1998–2002 UK Marine SACs project formed a demonstration initiative, funded partly by the EU, to establish management schemes for twelve of the marine SACs in the UK. In England, a further 11 management schemes have been published and five are being developed.

## WORLD HERITAGE SITES

The Convention Concerning the Protection of the World Cultural and Natural Heritage was adopted by the United Nations Educational, Scientific and Cultural Organisation (UNESCO) in 1972 and ratified by the UK in 1984. As at 1 May 2004 the convention had been ratified by 178 states. The convention provides for the identification, protection and conservation of cultural and natural sites of outstanding universal value.

Cultural sites may be:

- monuments
- groups of buildings
- sites of historic, aesthetic, archaeological, scientific, ethnologic or anthropologic value
- historic areas of towns
- 'cultural landscapes', i.e. sites whose characteristics are marked by significant interactions between human populations and their natural environment

Natural sites may be:

- those with remarkable physical, biological or geological formations
- those with outstanding universal value from the point of view of science, conservation or natural beauty
- the habitat of threatened species and plants

Governments which are party to the convention nominate sites in their country for inclusion in the World Cultural and Natural Heritage List. Nominations are considered by the World Heritage Committee, an inter-governmental committee composed of 21 representatives of the parties to the convention. The committee is advised by the International Council on Monuments and Sites (ICOMOS), the International Centre for the Study of the Preservation and Restoration of Cultural Property (ICCROM) and the World Conservation Union (IUCN). ICOMOS evaluates and reports on proposed cultural sites, ICCROM provides expert advice and training on how to conserve the listed sites and IUCN advises on proposed natural sites. The Department for Culture, Media and Sport represents the UK government in matters relating to the convention.

A prerequisite for inclusion in the World Cultural and Natural Heritage List is the existence of an effective legal protection system in the country in which the site is situated (e.g. listing, conservation areas and planning controls in the United Kingdom) and a detailed management plan to ensure the conservation of the site. Inclusion in the list does not confer any greater degree of protection on the site than that offered by the national protection framework.

If a site is considered to be in serious danger of decay or damage the committee may add it to a complementary list, the World Heritage in Danger List. Sites on this list may benefit from particular attention or emergency measures.

Financial support for the conservation of sites on the World Cultural and Natural Heritage List is provided by the World Heritage Fund. This is administered by the World Heritage Committee, which determines the financial and technical aid to be allocated. The fund's income is derived from contributions of the parties to the convention, voluntary contributions from other States, other United Nations and intergovernmental organisations, public or private bodies and individuals, through interest due on the fund and from events organised for the benefit of the fund.

## DESIGNATED SITES

As at 3 July 2004 there were 788 sites in 134 countries on the World Cultural and Natural Heritage List. Of these, 23 are in the United Kingdom and three in British overseas territories; 20 are listed for their cultural significance (†) and six for their natural significance (\*). The year in which sites were designated appears in parentheses.

### UNITED KINGDOM

- †Bath – the city (1987)
- †Blaenarvon, Wales (2000)
- †Blenheim Palace and Park, Oxfordshire (1987)
- †Canterbury Cathedral, St Augustine's Abbey, St Martin's Church, Kent (1988)
- †Castle and town walls of King Edward I, north Wales – Beaumaris, Anglesey, Caernarfon Castle, Conwy Castle, Harlech Castle (1986)
- †Derwent Valley Mills, Derbyshire (2001)
- \*Dorset and East Devon Coast (2001)
- †Durham Cathedral and Castle (1986)
- †Edinburgh Old and New Towns (1995)
- \*Giant's Causeway and Causeway coast, Co. Antrim (1986)
- †Greenwich, London – maritime Greenwich, including the Royal Naval College, Old Royal Observatory, Queen's House, town centre (1997)
- †Hadrian's Wall, northern England (1987)
- †Heart of Neolithic Orkney (1999)
- †Ironbridge Gorge, Shropshire – the world's first iron bridge and other early industrial sites (1986)
- †Liverpool – six areas of the Maritime Mercantile City (2004)
- †New Lanark, South Lanarkshire, Scotland (2001)
- †Royal Botanic Gardens, Kew (2003)
- \*St Kilda, Western Isles (1986)
- †Saltaire, West Yorkshire (2001)
- †Stonehenge, Avebury and related megalithic sites, Wiltshire (1986)
- †Studley Royal Park, Fountains Abbey, St Mary's Church, N. Yorkshire (1986)
- †Tower of London (1988)
- †Westminster Abbey, Palace of Westminster, St Margaret's Church, London (1987)

### BRITISH OVERSEAS TERRITORIES

- \*Henderson Island, Pitcairn Islands, South Pacific Ocean (1988)
- \*Gough Island wildlife reserve (part of Tristan da Cunha), South Atlantic Ocean (1995)
- \*St George town and related fortifications, Bermuda (2000)

# CONSERVATION OF WILDLIFE AND HABITATS

The UK is party to a number of international conventions.

## RAMSAR CONVENTION

The 1971 Ramsar Convention on Wetlands of International Importance especially as Waterfowl Habitat, entered into force in the UK in May 1976. As at May 2004, 138 countries were party to the convention.

The aim of the convention is the conservation and wise use of wetlands and their flora and fauna. Governments that are party to the convention must designate wetlands and include wetland conservation considerations in their land-use planning. A total of 1,364 wetland sites, totalling 121 million hectares have been designated for inclusion in the List of Wetlands of International Importance. The UK currently has 159\* designated sites covering 849,106 hectares. The member countries meet every three years to assess the progress of the convention and the next meeting is scheduled for November 2005.

The UK has set targets under the Ramsar Strategic Plan, 2003–8. Progress towards these is monitored by the UK Ramsar Committee, known as the Joint Working Party. The UK and the Republic of Ireland have established a formal protocol to ensure common monitoring standards for waterbirds in the two countries.

\* The UK government consolidated a number of overlapping sites in 2004, resulting in a lower total compared with 2003.

CH-1196 Gland, Switzerland T (+41) (22) 999 0170  
W [www.ramsar.org](http://www.ramsar.org)

## BIODIVERSITY

There is much synergy between the Ramsar Convention and the 1992 Convention on Biological Diversity. In 1996 the Ramsar Secretariat became a lead partner in implementing activities under the Convention on Biological Diversity with joint work plans. The UK ratified the Convention on Biological Diversity in June 1994. As at May 2004 there were 188 parties to the convention.

The objectives are the conservation of biological diversity, the sustainable use of its components and the fair and equitable sharing of the benefits arising out of the use of genetic resources. There are thematic work programmes addressing marine and coastal, forest, inland waters, dry land and sub-humid land. The Conference of the Parties to the Convention on Biological Diversity adopted a supplementary agreement to the Convention known as the *Cartagena Protocol on Biosafety* on 29 January 2000. The protocol seeks to protect biological diversity from potential risks that may be posed by introducing modified living organisms, resulting from modern biotechnology, into the environment. As at May 2004 101 countries were party to the protocol. The UK became party to the protocol on 17 February 2004.

The UK published its own Biodiversity Action Plan in 1994. A report from the UK Biodiversity Steering Group, published in 1995, proposed monitoring a list of 1,252 species to check on biodiversity within the UK.

A report, *Sustaining the Variety of Life: 5 years of the UK Biodiversity Action Plan*, was published in March 2001 and made a number of recommendations including to support actions for the conservation of species and habitats at UK, county and local levels. There are around 391 Species

Action Plans, 45 Habitat Action Plans and 162 Local Biodiversity Action Plans. There are four country groups: England Biodiversity Group, Scotland Biodiversity Forum, Northern Ireland Biodiversity Group and Wales Biodiversity Partnership. These are involved in implementing the action plans at national level. In October 2002, the England Biodiversity Group, DEFRA and the Biodiversity Policy Unit jointly launched a *Biodiversity Strategy for England* as part of the UK Biodiversity Action Plan.

W [www.ukbap.org.uk](http://www.ukbap.org.uk)

## CITES

The 1973 Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) came into force in the UK in July 1975. Currently 166 countries are members. The countries party to the convention ban commercial international trade in an agreed list of endangered species and regulate and monitor trade in others species that might become endangered. The convention covers approximately 5,000 species of animals and 28,000 species of plants.

The Conference of the Parties to CITES meets every two to three years to review the convention's implementation. The Global Wildlife Division at the Department for Environment, Food and Rural Affairs carries out the government's responsibilities under CITES and the Bonn Convention on the Conservation of Migratory Species of Wild Animals.

## BONN CONVENTION

The 1979 Convention on Conservation of Migratory Species of Wild Animals came into force in the UK in October 1979. As at 1 June 2004, 86 countries were party to the convention.

It requires the protection of listed endangered migratory species and encourages international agreements covering these and other threatened species. International agreements can range from legally binding treaties to less formal memoranda of understanding.

Six agreements have been concluded to date under the convention. They aim to conserve: seals in the Wadden Sea; bat populations in Europe; small cetaceans of the Baltic and North Seas; African-Eurasian migratory waterbirds; cetaceans of the Mediterranean and Black Seas; and albatrosses and petrels. A further seven memorandums of understanding have been agreed for the Siberian Crane, Slender-billed Curlew, marine turtles of the Atlantic coast of Africa, Indian Ocean and South-East Asia, the middle-European population of the Great Bustard, Bukhara Deer and the Aquatic Warbler.

## BERN CONVENTION

The 1979 Bern Convention on the Conservation of European Wildlife and Natural Habitats came into force in the UK in June 1982. Currently there are 45 Contracting Parties and a number of other states attend meetings as observers.

The aims are to conserve wild flora and fauna and their natural habitats, especially where this requires the co-operation of several countries, and to promote such co-operation. The convention gives particular emphasis to endangered and vulnerable species.

All parties to the convention must promote national conservation policies and take account of the conservation of wild flora and fauna when setting planning and development policies. Reports on contracting parties' conservation policies must be submitted to the Standing Committee every four years.

SECRETARIAT OF THE BERN CONVENTION STANDING COMMITTEE, Council of Europe, 67075 Strasbourg-Cedex, France T (+33) (3) 8841 2000 W www.coe.int

## EUROPEAN WILDLIFE TRADE REGULATION

The Council (EC) Regulation on the Protection of Species of Wild Fauna and Flora by Regulating Trade Therein came into force in the UK on 1 June 1997. It is intended to standardise wildlife trade regulations across Europe and to improve the application of CITES.

## UK LEGISLATION

The Wildlife and Countryside Act 1981 gives legal protection to a wide range of wild animals and plants. Subject to parliamentary approval, the Secretary of State for Environment, Food and Rural Affairs may vary the animals and plants given legal protection. The most recent variation of Schedules 5 and 8 came into effect in March and April 1998.

Under Section 9 of the Act it is an offence to kill, injure, take, possess or sell (whether alive or dead) any wild animal included in Schedule 5 of the Act and to disturb its place of shelter and protection or to destroy that place.

Under Section 13 of the Act it is illegal without a licence to pick, uproot, sell or destroy plants listed in Schedule 8. Since January 2001, under the Countryside and Rights of Way Act 2000, persons found guilty of an offence under part 1 of the Wildlife and Countryside Act 1981 face a maximum penalty of up to £5,000 and/or up to six months custodial sentence per specimen.

The Act lays down a close season for wild birds (other than game birds) from 1 February to 31 August inclusive, each year. Exceptions to these dates are made for:

Capercaillie and (except Scotland) Woodcock – 1 February to 30 September

Snipe – 1 February to 11 August

Birds listed on Schedule 2, part 1 (see below) (below high water mark) – 21 February to 31 August

Birds listed on Schedule 2, Part 1, which may be killed or taken outside the close season (except on Sundays and on Christmas Day in Scotland, and on Sundays in prescribed areas of England and Wales) are capercaillie, coot, certain wild duck (gadwall, goldeneye, mallard, pintail, pochard, shoveler, teal, tufted duck, wigeon), certain wild geese (Canada, greylag, pink-footed, white-fronted (in England

and Wales only)), moorhen, golden plover and woodcock. Section 16 of the 1981 Act allows licences to be issued on either an individual or general basis, to allow the killing, taking and sale of certain birds for specified reasons such as public health and safety. All other British birds are fully protected by law throughout the year.

## ANIMALS PROTECTED BY SCHEDULE 5

- Adder (*Vipera berus*)
- Allis shad (*Alosa alosa*)
- Atlantic Stream Crayfish (*Austropotomobius pallipes*)
- Anemone, Ivell's Sea (*Edwardisia ivelli*)
- Anemone, Starlet Sea (*Nematosella vectensis*)
- Apus, Tadpole shrimp (*Triops cancrivormis*)
- Bat, Horseshoe (*Rhinolophidae*, all species)
- Bat, Typical (*Vespertilionidae*, all species)
- Beetle (*Graphoderus zonatus*)
- Beetle (*Hypebaeus flavipes*)
- Beetle, Lesser Silver Water (*Hydrochara caraboides*)
- Beetle, Mire Pill (*Curimopsis nigrita*)
- Beetle, Rainbow Leaf (*Chrysolina cerealis*)
- Beetle, Stag (*Lucanus cervus*)
- Beetle, Violet Click (*Limoniscus violaceus*)
- Beetle, Water (*Paracymus aeneus*)
- Burbot (*Lota lota*)
- Butterfly, Adonis Blue (*Lysandra bellargus*)
- Butterfly, Black Hairstreak (*Strymonidia pruni*)
- Butterfly, Brown Hairstreak (*Thecla betulae*)
- Butterfly, Chalkhill Blue (*Lysandra coridon*)
- Butterfly, Chequered Skipper (*Carterocephalus palaemon*)
- Butterfly, Duke of Burgundy Fritillary (*Hamearis lucina*)
- Butterfly, Glanville Fritillary (*Melitaea cinxia*)
- Butterfly, Heath Fritillary (*Melitaea athalia* (or *Melitaea athalia*))
- Butterfly, High Brown Fritillary (*Argynnis adippe*)
- Butterfly, Large Blue (*Maculinea arion*)
- Butterfly, Large Copper (*Lycæna dispar*)
- Butterfly, Large Heath (*Coenonympha tullia*)
- Butterfly, Large Tortoiseshell (*Nymphalis polychloros*)
- Butterfly, Lulworth Skipper (*Thymelicus acteon*)
- Butterfly, Marsh Fritillary (*Eurodryas aurinia*)
- Butterfly, Mountain Ringlet (*Erebia epiphron*)
- Butterfly, Northern Brown Argus (*Aricia artaxerxes*)
- Butterfly, Pearl-bordered Fritillary (*Boloria euphrosyne*)
- Butterfly, Purple Emperor (*Apatura iris*)
- Butterfly, Silver Spotted Skipper (*Hesperia comma*)
- Butterfly, Silver-studded Blue (*Plebejus argus*)
- Butterfly, Small Blue (*Cupido minimus*)
- Butterfly, Swallowtail (*Papilio machaon*)
- Butterfly, White Letter Hairstreak (*Stymonida w-album*)
- Butterfly, Wood White (*Leptidea sinapis*)
- Cat, Wild (*Felis silvestris*)
- Cicada, New Forest (*Cicadetta montana*)
- Cricket, Field (*Gryllus campestris*)
- Cricket, Mole (*Gryllotalpa gryllotalpa*)
- Damselfly, Southern (*Coenagrion mercuriale*)
- Dolphin (*Cetacea*)
- Dormouse (*Muscardinus avellanarius*)
- Dragonfly, Norfolk Aeshna (*Aeshna isosceles*)
- Frog, Common (*Rana temporaria*)
- Goby, Couch's (*Gobius couchii*)
- Goby, Giant (*Gobius cobitis*)
- Grasshopper, Wart-biter (*Decticus verrucivorus*)
- Hatchet Shell, Northern (*Thyasira gouldi*)
- Hydroid, Marine (*Clavopsella navis*)
- Lagoon Snail (*Paludinella littorina*)
- Lagoon Snail, De Folin's (*Caecum armoricum*)
- Lagoon Worm, Tentacled (*Alkmaria romijni*)

Leech, Medicinal (*Hirudo medicinalis*)  
 Lizard, Sand (*Lacerta agilis*)  
 Lizard, Viviparous (*Lacerta vivipara*)  
 Marten, Pine (*Martes martes*)  
 Mat, Trembling Sea (*Victorella pavida*)  
 Moth, Barberry Carpet (*Pareulype berberata*)  
 Moth, Black-veined (*Siona lineata* (or *Idaea lineata*))  
 Moth, Essex Emerald (*Tbetidia smaragdaria*)  
 Moth, Fiery clearwing (*Bembecia chrysidiformis*)  
 Moth, Fisher's estuarine (*Gortyna borelii*)  
 Moth, New Forest Burnet (*Zygaena viciae*)  
 Moth, Reddish Buff (*Acosmetia caliginosa*)  
 Moth, Sussex Emerald (*Thalera fimbrialis*)  
 Mussel, Fan (*Atrina fragilis*)  
 Mussel, Freshwater Pearl (*Margaritifera margaritifera*)  
 Newt, Great Crested (or Warty) (*Triturus cristatus*)  
 Newt, Palmate (*Triturus helveticus*)  
 Newt, Smooth (*Triturus vulgaris*)  
 Otter, Common (*Lutra lutra*)  
 Porpoise (*Cetacea*)  
 Sandworm, Lagoon (*Armandia cirrhosa*)  
 Sea Fan, Pink (*Eunicella verrucosa*)  
 Sea Slug, Lagoon (*Tenellia adspersa*)  
 Shad, Twaite (*alosa fallax*)  
 Shark, Basking (*Cetorhinus maximus*)  
 Shrimp, Fairy (*Chirocephalus diaphanus*)  
 Shrimp, Lagoon Sand (*Gammarus insensibilis*)  
 Slow-worm (*Anguis fragilis*)  
 Snail, Glutinous (*Myxas glutinosa*)  
 Snail, Sandbowl (*Catinella arenaria*)  
 Snake, Grass (*Natrix natrix* (*Natrix helvetica*))  
 Snake, Smooth (*Coronella austriaca*)  
 Spider, Fen Raft (*Dolomedes plantarius*)  
 Spider, Ladybird (*Eresus niger*)  
 Squirrel, Red (*Sciurus vulgaris*)  
 Sturgeon (*Acipenser sturio*)  
 Toad, Common (*Bufo bufo*)  
 Toad, Natterjack (*Bufo calamita*)  
 Turtle, Marine (*Dermochelyidae* and *Cheloniidae*, all species)  
 Vendace (*Coregonus albula*)  
 Vole, Water (*Arvicola terrestris*)  
 Walrus (*Odobenus rosmarus*)  
 Whale (*Cetacea*)  
 Whitefish (*Coregonus lavaretus*)

#### PLANTS PROTECTED BY SCHEDULE 8

Adder's tongue, Least (*Ophioglossum lusitanicum*)  
 Alison, Small (*Alyssum alyssoides*)  
 Anomodon, Long leaved (*Anomodon longifolius*)  
 Beech-lichen, New Forest (*Enterographa elaborata*)  
 Blackwort (*Southbya nigrella*)  
 Bluebell (*Hyacinthoides non-scripta*)  
 Bolete, Royal (*Boletus regius*)  
 Broomrape, Bedstraw (*Orobancha caryophyllacea*)  
 Broomrape, Oxtongue (*Orobancha loricata*)  
 Broomrape, Thistle (*Orobancha reticulata*)  
 Cabbage, Lundy (*Rhynchosinapis wrightii*)  
 Calamint, Wood (*Calamintha sylvatica*)  
 Caloplaca, Snow (*Caloplaca nivalis*)  
 Catapyrenium, Tree (*Catapyrenium psoromoides*)  
 Catchfly, Alpine (*Lychnis alpina*)  
 Catillaria, Laurer's (*Catillaria laureri*)  
 Centaury, Slender (*Centaureum tenuiflorum*)  
 Cinquefoil, Rock (*Potentilla rupestris*)  
 Cladonia, Convoluted (*Cladonia convoluta*)  
 Cladonia, Upright Mountain (*Cladonia stricta*)  
 Clary, Meadow (*Salvia pratensis*)  
 Club-rush, Triangular (*Scirpus triquetrus*)

Colt's-foot, Purple (*Homogyne alpina*)  
 Cotoneaster, Wild (*Cotoneaster integerrimus*)  
 Cottongrass, Slender (*Erriophorum gracile*)  
 Cow-wheat, Field (*Melanpyrum arvense*)  
 Crocus, Sand (*Romulea columnae*)  
 Crystalwort, Lizard (*Riccia bifurca*)  
 Cudweed, Broad-leaved (*Filago pyramidata*)  
 Cudweed, Jersey (*Gnaphalium luteoalbum*)  
 Cudweed, Red-tipped (*Filago lutescens*)  
 Cut-grass (*Leersia oryzoides*)  
 Deptford Pink (England and Wales only) (*Dianthus armeria*)  
 Diapensia (*Diapensia lapponica*)  
 Dock, Shore (*Rumex rupestris*)  
 Earwort, Marsh (*Jamesoniella undulifolia*)  
 Eryngo, Field (*Eryngium campestre*)  
 Feather-moss, Polar (*Hygrohypnum polare*)  
 Fern, Dickie's bladder (*Cystopteris dickieana*)  
 Fern, Killarney (*Trichomanes speciosum*)  
 Flapwort, Norfolk (*Leiocolea rutheana*)  
 Fleabane, Alpine (*Erigeron borealis*)  
 Fleabane, Small (*Pulicaria vulgaris*)  
 Frostwort, Pointed (*Gymnomitrium apiculatum*)  
 Fungus, Hedgehog (*Heridium erinaceum*)  
 Galingale, Brown (*Cyperus fuscus*)  
 Gentian, Alpine (*Gentiana nivalis*)  
 Gentian, Dune (*Gentianella uliginosa*)  
 Gentian, Early (*Gentianella anglica*)  
 Gentian, Fringed (*Gentianella ciliata*)  
 Gentian, Spring (*Gentiana verna*)  
 Germander, Cut-leaved (*Teucrium botrys*)  
 Germander, Water (*Teucrium scordium*)  
 Gladiolus, Wild (*Gladiolus illyricus*)  
 Goblin Lights (*Catolechia wahlenbergii*)  
 Goosefoot, Stinking (*Chenopodium vulvaria*)  
 Grass-poly (*Lythrum hyssopifolia*)  
 Grimmia, Blunt-leaved (*Grimmia unicolor*)  
 Gyalecta, Elm (*Gyalecta ulmi*)  
 Hare's-ear, Sickle-leaved (*Bupleurum falcatum*)  
 Hare's-ear, Small (*Bupleurum baldense*)  
 Hawk's-beard, Stinking (*Crepis foetida*)  
 Hawkweed, Northroe (*Hieracium northroense*)  
 Hawkweed, Shetland (*Hieracium zelandicum*)  
 Hawkweed, Weak-leaved (*Hieracium attenuatifolium*)  
 Heath, Blue (*Phyllodoce caerulea*)  
 Helleborine, Red (*Cephalanthera rubra*)  
 Helleborine, Young's (*Epipactis youngiana*)  
 Horsetail, Branched (*Equisetum ramosissimum*)  
 Hound's-tongue, Green (*Cynoglossum germanicum*)  
 Knawel, Perennial (*Scleranthus perennis*)  
 Knotgrass, Sea (*Polygonum maritimum*)  
 Lady's-slipper (*Cypripedium calceolus*)  
 Lecanactis, Churchyard (*Lecanactis hemisphaerica*)  
 Lecanora, Tarn (*Lecanora archariana*)  
 Lecidea, Copper (*Lecidea inops*)  
 Leek, Round-headed (*Allium sphaerocephalon*)  
 Lettuce, Least (*Lactuca saligna*)  
 Lichen, Arctic kidney (*Nephroma arcticum*)  
 Lichen, Ciliate strap (*Heterodermia leucomelos*)  
 Lichen, Coralloid rosette (*Heterodermia propagulifera*)  
 Lichen, Ear-lobed dog (*Peltigera lepidophora*)  
 Lichen, Forked hair (*Bryoria furcellata*)  
 Lichen, Golden hair (*Teloschistes flavicans*)  
 Lichen, Orange fruited Elm (*Caloplaca luteoalba*)  
 Lichen, River jelly (*Collema dichotomum*)  
 Lichen, Scaly breck (*Squamarina lentigera*)  
 Lichen, Stary breck (*Buellia asterella*)  
 Lily, Snowdon (*Lloydia serotina*)

- Liverwort (*Petalophyllum ralfsi*)  
 Liverwort, Lindenbergs' Leafy (*Adelanthus lindenbergianus*)  
 Marsh-mallow, Rough (*Althaea hirsuta*)  
 Marshwort, Creeping (*Apium repens*)  
 Milk-parsley, Cambridge (*Selinum carvifolia*)  
 Moss (*Drepanocladus vernicosus*)  
 Moss, Alpine copper (*Mielichoferia mielichoferi*)  
 Moss, Baltic bog (*Sphagnum balticum*)  
 Moss, Blue dew (*Saelania glaucescens*)  
 Moss, Blunt-leaved bristle (*Orthotrichum obtusifolium*)  
 Moss, Bright green cave (*Cyclodictyon laetevirens*)  
 Moss, Cordate beard (*Barbula cordata*)  
 Moss, Cornish path (*Ditrichum cornubicum*)  
 Moss, Derbyshire feather (*Thamnobryum angustifolium*)  
 Moss, Dune thread (*Bryum mamillatum*)  
 Moss, Flamingo (*Desmatodon cernuus*)  
 Moss, Glaucous beard (*Barbula glauca*)  
 Moss, Green shield (*Buxbaumia viridis*)  
 Moss, Hair silk (*Plagiothecium piliferum*)  
 Moss, Knothole (*Zygodon forsteri*)  
 Moss, Large yellow feather (*Scorpidium turgescens*)  
 Moss, Millimetre (*Micromitrium tenerum*)  
 Moss, Multifruited river (*Cryphaea lamyana*)  
 Moss, Nowell's limestone (*Zygodon gracilis*)  
 Moss, Rigid apple (*Bartramia stricta*)  
 Moss, Round-leaved feather (*Rhyncostegium rotundifolium*)  
 Moss, Schleicher's thread (*Bryum schleicheri*)  
 Moss, Triangular pygmy (*Acaulon triquetrum*)  
 Moss, Vaucher's feather (*Hypnum vaucherii*)  
 Mudwort, Welsh (*Limosella australis*)  
 Naiad, Holly-leaved (*Najas marina*)  
 Naiad, Slender (*Najas flexilis*)  
 Orache, Stalked (*Halimione pedunculata*)  
 Orchid, Early spider (*Ophrys sphegodes*)  
 Orchid, Fen (*Liparis loeselii*)  
 Orchid, Ghost (*Epipogium aphyllum*)  
 Orchid, Lapland marsh (*Dactylorhiza lapponica*)  
 Orchid, Late spider (*Ophrys fuciflora*)  
 Orchid, Lizard (*Himantoglossum hircinum*)  
 Orchid, Military (*Orchis militaris*)  
 Orchid, Monkey (*Orchis simia*)  
 Pannaria, Caledonia (*Pannaria ignobilis*)  
 Parmelia, New Forest (*Parmelia minarum*)  
 Parmentaria, Oil stain (*Parmentaria chilensis*)  
 Pear, Plymouth (*Pyrus cordata*)  
 Penny-cress, Perfoliate (*Thlaspi perfoliatum*)  
 Pennyroyal (*Mentha pulegium*)  
 Pertusaria, Alpine moss (*Pertusaria bryontha*)  
 Physcia, Southern grey (*Physcia tribacioides*)  
 Pigmyweed (*Crassula aquatica*)  
 Pine, Ground (*Ajuga chamaepitys*)  
 Pink, Cheddar (*Dianthus gratianopolitanus*)  
 Pink, Childing (*Petroraghia nanteuilii*)  
 Plantain, Floating water (*Luronium natans*)  
 Polypore, Oak (*Buglossoporus pulvinus*)  
 Pseudocyphellaria, Ragged (*Pseudocyphellaria lacerata*)  
 Psora, Rusty Alpine (*Psora rubiformis*)  
 Puffball, Sandy Stilt (*Battarraea phalloides*)  
 Ragwort, Fen (*Senecio paludosus*)  
 Ramping-fumitory, Martin's (*Fumaria martinii*)  
 Rampion, Spiked (*Phyteuma spicatum*)  
 Restharrow, Small (*Ononis reclinata*)  
 Rock-cress, Alpine (*Arabis alpina*)  
 Rock-cress, Bristol (*Arabis stricta*)  
 Rustwort, Western (*Marsipella profunda*)  
 Sandwort, Norwegian (*Arenaria norvegica*)  
 Sandwort, Teesdale (*Minuartia stricta*)  
 Saxifrage, Drooping (*Saxifraga cernua*)  
 Saxifrage, Marsh (*Saxifraga hirusus*)  
 Saxifrage, Tufted (*Saxifraga cespitosa*)  
 Solenopsora, Serpentine (*Solenopsora liparina*)  
 Solomon's-seal, Whorled (*Polygonatum verticillatum*)  
 Sow-thistle, Alpine (*Cicerbita alpina*)  
 Spearwort, Adder's-tongue (*Ranunculus ophioglossifolius*)  
 Speedwell, Fingered (*Veronica triphyllos*)  
 Speedwell, Spiked (*Veronica spicata*)  
 Spike rush, Dwarf (*Eleocharis parvula*)  
 Stack Fleawort, South (*Tephrosia integrifolia* (ssp. *maritima*))  
 Star-of-Bethlehem, Early (*Gagea bohemica*)  
 Starfruit (*Damasium alisma*)  
 Stonewort, Bearded (*Chara canescens*)  
 Stonewort, Foxtail (*Lamprothamnium papulosum*)  
 Strapwort (*Corrigiola litoralis*)  
 Sulphur-tresses, Alpine (*Alectorina ochroleuca*)  
 Threadmoss, Long-leaved (*Bryum neodamense*)  
 Turpswort (*Geocalyx graveolens*)  
 Violet, Fen (*Viola persicifolia*)  
 Viper's-grass (*Scorzonera humilis*)  
 Water-plantain, Ribbon-leaved (*Alisma gramineum*)  
 Wood-sedge, Starved (*Carex depauperata*)  
 Woodsia, Alpine (*Woodsia alpina*)  
 Woodsia, Oblong (*Woodsia ilvenis*)  
 Wormwood, Field (*Artemisia campestris*)  
 Woundwort, Downy (*Stachys germanica*)  
 Woundwort, Limestone (*Stachys alpina*)  
 Yellow-rattle, Greater (*Rhinanthus serotinus*)

#### MOST UNDER THREAT

The animals and birds considered to be most under threat in Great Britain by the Joint Nature Conservation Committee are the high brown fritillary butterfly; violet click beetle; new forest burnet moth; corncrake; aquatic warbler; tree sparrow; wryneck; water vole; red squirrel; allis shad; and twaite shad.

# HISTORIC BUILDINGS AND MONUMENTS

Under the Planning (Listed Buildings and Conservation Areas) Act 1990, the Secretary of State for Culture, Media and Sport has a statutory duty to compile lists of buildings or groups of buildings in England which are of special architectural or historic interest. Under the Ancient Monuments and Archaeological Areas Act 1979 as amended by the National Heritage Act 1983, the Secretary of State is also responsible for compiling a schedule of ancient monuments. Decisions are taken on the advice of English Heritage.

Listed buildings are classified into Grade I, Grade II\* and Grade II. There are currently about 370,000 individual listed buildings in England, of which about 92 per cent are Grade II listed. Almost all pre-1700 buildings are listed, and most buildings of 1700 to 1840. English Heritage carries out thematic surveys of particular types of buildings with a view to making recommendations for listing, and members of the public may propose a building for consideration. The main purpose of listing is to ensure that care is taken in deciding the future of a building. No changes which affect the architectural or historic character of a listed building can be made without listed building consent (in addition to planning permission where relevant). Applications for listed building consent are normally dealt with by the local planning authority, although English Heritage is always consulted about proposals affecting Grade I and Grade II\* properties. It is a criminal offence to demolish a listed building, or alter it in such a way as to affect its character, without consent.

There are currently about 18,300 scheduled monuments in England. English Heritage is carrying out a Monuments Protection Programme assessing archaeological sites with a view to making recommendations for scheduling, and members of the public may propose a monument for consideration. All monuments proposed for scheduling are considered to be of national importance. Where buildings are both scheduled and listed, ancient monuments legislation takes precedence. The main purpose of scheduling a monument is to preserve it for the future and to protect it from damage, destruction or any unnecessary interference. Once a monument has been scheduled, scheduled monument consent is required before any works can be carried out. The scope of the control is more extensive and more detailed than that applied to listed buildings, but certain minor works, as detailed in the Ancient Monuments (Class Consents) Order 1994, may be carried out without consent. It is a criminal offence to carry out unauthorised work to scheduled monuments.

Under the Planning (Listed Buildings and Conservation Areas) Act 1990 and the Ancient Monuments and Archaeological Areas Act 1979, the Secretary of State for Wales is responsible for listing buildings and scheduling monuments in Wales on the advice of CADW, the Historic Buildings Council for Wales and the Royal Commission on the Ancient and Historical Monuments of Wales. The criteria for evaluating buildings are similar to those in England and the same listing system is used. There are approximately 26,400 listed buildings and approximately 3,500 scheduled monuments in Wales.

Under the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 and the Ancient

Monuments and Archaeological Areas Act 1979, Scottish Ministers are responsible for listing buildings and scheduling monuments in Scotland on the advice of Historic Scotland, the Historic Buildings Council for Scotland and the Royal Commission on the Ancient and Historical Monuments of Scotland. The criteria for evaluating buildings are similar to those in England but an A, B, C categorisation is used. There are approximately 46,000 listed buildings and 6,500 scheduled monuments in Scotland.

Under the Planning (Northern Ireland) Order 1991 and the Historic Monuments and Archaeological Objects (Northern Ireland) Order 1995, the Department of the Environment of the Northern Ireland Executive is responsible for listing buildings and scheduling monuments in Northern Ireland on the advice of the Historic Buildings Council for Northern Ireland and the Historic Monuments Council for Northern Ireland. The criteria for evaluating buildings are similar to those in England but no statutory grading system is used. There are approximately 8,500 listed buildings and 1,500 scheduled monuments in Northern Ireland.

## OPENING TO THE PUBLIC

The following is a selection of the many historic buildings and monuments open to the public. Admission charges and opening hours vary. Many properties are closed in winter (usually November–March) and some are also closed in the mornings. Most properties are closed on Christmas Eve, Christmas Day, Boxing Day and New Year's Day, and many are closed on Good Friday. During the winter season, many English Heritage monuments are closed on Mondays and Tuesdays and monuments in the care of CADW are closed on Sunday mornings. In Northern Ireland many monuments are closed on Mondays except on bank holidays. Information about a specific property should be checked by telephone or online.

## ENGLAND

Fortified house and bawn built in 1613

**WHITE ISLAND (EHS)**, Co. Fermanagh  
Tenth-century monastery and 12th-century church. Access by ferry

# MUSEUMS AND GALLERIES

There are over 2,500 museums and galleries in the United Kingdom. Around 1,800 are registered with the Museums, Libraries and Archives Council (MLA), which indicates that they have an appropriate constitution, are soundly financed, have adequate collection management standards and public services, and have access to professional curatorial advice. Museums must achieve full or provisional registration status in order to be eligible for grants from MLA and from Area Museums Councils. Many registered museums are run by a local authority.

The national museums and galleries receive direct government grant-in-aid. These are: British Museum; Imperial War Museum; National Army Museum; National Galleries of Scotland; National Gallery; National Maritime Museum; National Museums and Galleries on Merseyside; National Museum of Wales; National Museums of Scotland; National Portrait Gallery; Natural History Museum; RAF Museum; Royal Armouries; Science Museum; Tate Gallery; Ulster Folk and Transport Museum; Ulster Museum; Victoria and Albert Museum; Wallace Collection. An online art museum ([www.24hourmuseum.org.uk](http://www.24hourmuseum.org.uk)) has also been awarded national collection status.

## ENGLAND

**BARNARD CASTLE**, Co. Durham – *The Bowes Museum*,  
Westwick Road DL12 8NP T 01833-690606

W [www.bowesmuseum.org.uk](http://www.bowesmuseum.org.uk)

## CEMETERIES

*Abney Park*, Stamford Hill, N16 (35 acres), tomb of General Booth, founder of the Salvation Army, and memorials to

many Nonconformist divines. *Brompton*, Old Brompton Road, SW10 (40 acres), graves of Sir Henry Cole, Emmeline Pankhurst, John Wisden. *City of London Cemetery and Crematorium*, Aldersbrook Road, E12 (200 acres). *Golders Green Crematorium*, Hoop Lane, NW11 (12 acres), with Garden of Rest and memorials to many famous men and women. *Hampstead*, Fortune Green Road, NW6 (36 acres), graves of Kate Greenaway, Lord Lister, Marie Lloyd. *Highgate*, Swans Lane, N6 (38 acres), tombs of George Eliot, Faraday and Marx; guided tours only, west side. *Kensal Green*, Harrow Road, W10 (70 acres), tombs of Thackeray, Trollope, Sydney Smith, Wilkie Collins, Tom Hood, George Cruikshank, Leigh Hunt, I. K. Brunel and Charles Kemble. Churchyard of the former *Marylebone Chapel*, Marylebone High Street, W1, Charles Wesley and his son Samuel Wesley buried; chapel demolished in 1949, now Garden of Rest. *Nunhead*, Linden Grove, SE15 (26 acres), closed in 1969, subsequently restored and opened for burials. *St Marylebone Cemetery and Crematorium*, East End Road, N2 (47 acres). *West Norwood Cemetery and Crematorium*, Norwood High Street, SE27 (42 acres), tombs of Sir Henry Bessemer, Mrs Beeton, Sir Henry Tate and Joseph Whitaker (*Whitaker's Almanack*).

## MARKETS

The London markets are mostly administered by the Corporation of London. *Billingsgate* (fish), Thames Street site dating from 1875, a market site for over 1,000 years, moved to the Isle of Dogs in 1982. *Borough*, SE1 (vegetables, fruit, flowers, etc.), established on present site 1756, privately owned and run. *Covent Garden* (vegetables, fruit, flowers, etc.), established in 1661 under a charter of Charles II, moved in 1973 to Nine Elms, SW8. *Leadenhall*, EC3 (meat, poultry, fish, etc.), built 1881, part recently demolished. *London Fruit Exchange*, Brushfield Street, built by Corporation of London 1928–9 as buildings for Spitalfields market; not connected with the market since it moved in 1991. *Petticoat Lane*, Middlesex Street, E1, a market has existed on the site for over 500 years, now a Sunday morning market selling almost anything. *Portobello Road*, W11, originally for herbs and horse-trading from 1870; became famous for antiques after the closure of the Caledonian Market in 1948. *Smithfield*, *Central Meat*, *Fish*, *Fruit*, *Vegetable and Poultry Markets*, built 1851–66, the site of St Bartholomew's Fair from 12th- to 19th-century, new hall built 1963, market refurbished 1993–4. *Spitalfields*, E1 (vegetables, fruit, etc.), established 1682, modernised 1928, moved to Leyton in 1991. A much smaller market still exists on the original site on Commercial Street, selling arts, crafts, books, clothes and antiques on Sundays.

## MONUMENTS

CENOTAPH, Whitehall, London SW1. The word 'cenotaph' means 'empty tomb'. The monument, erected 'To the Glorious Dead', is a memorial to all ranks of the sea, land and air forces who gave their lives in the service of the Empire during the First World War. Designed by Sir Edwin Lutyens and erected as a temporary memorial in 1919, it was replaced by a permanent structure unveiled by George V on Armistice Day

1920. An additional inscription was made after the Second World War to commemorate those who gave their lives in that conflict.

LONDON MONUMENT, (commonly called The Monument), Monument Street, EC3. Built from designs of Wren, 1671–7, to commemorate the Great Fire of London, which broke out in Pudding Lane on 2 September 1666. The fluted Doric column is 120 ft high; the moulded cylinder above the balcony supporting a flaming vase of gilt bronze is an additional 42 ft; and the column is based on a square plinth 40 ft high (with fine carvings on the west face) making a total height of 202 ft. Splendid views of London from gallery at top of column (311 steps).

OTHER MONUMENTS, (sculptor's name in parenthesis). *Albert Memorial* (Durham), Kensington Gore; *Royal Air Force* (Blomfield), Victoria Embankment; *Viscount Alanbrooke*, Whitehall; *Beaconsfield*, Parliament Square; *Beatty* (Macmillan), Trafalgar Square; *Belgian Gratitude* (setting by Blomfield, statue by Rousseau), Victoria Embankment; *Boadicea* (or Boudicca), Queen of the Iceni (Thornycroft), Westminster Bridge; *Brunel* (Marochetti), Victoria Embankment; *Burghers of Calais* (Rodin), Victoria Tower Gardens, Westminster; *Burns* (Steel), Embankment Gardens; *Canada Memorial* (Granche), Green Park; *Carlyle* (Boehm), Chelsea Embankment; *Cavalry* (Jones), Hyde Park; *Edith Cavell* (Frampton), St Martin's Place; *Cenotaph* (Lutyens), Whitehall; *Charles I* (Le Sueur), Trafalgar Square; *Charles II* (Gibbons), South Court, Chelsea Hospital; *Churchill* (Roberts-Jones), Parliament Square; *Cleopatra's Needle*, (38.5 ft high, c.1500 BC, erected in 1877–8; the sphinxes are Victorian), Thames Embankment; *Clive* (Tweed), King Charles Street; *Captain Cook* (Brock), The Mall; *Crimean*, Broad Sanctuary; *Oliver Cromwell* (Thornycroft), outside Westminster Hall; *Cunningham* (Belsky), Trafalgar Square; *Gen. Charles de Gaulle*, Carlton Gardens; *Lord Dowding* (Faith Winter), Strand; *Duke of Cambridge* (Jones), Whitehall; *Duke of York* (124 ft), Carlton House Terrace; *Edward VII* (Mackennal), Waterloo Place; *Elizabeth I* (1586, oldest outdoor statue in London; from Ludgate), Fleet Street; *Eros* (Shaftesbury Memorial) (Gilbert), Piccadilly Circus; *Marechal Foch* (Mallisard, copy of one in Cassel, France), Grosvenor Gardens; *Charles James Fox* (Westmacott), Bloomsbury Square; *George III* (Cotes Wyatt), Cockspur Street; *George IV* (Chantrey), Trafalgar Square; *George V* (Reid Dick), Old Palace Yard; *George VI* (Macmillan), Carlton Gardens; *Gladstone* (Thornycroft), Strand; *Guards' (Crimea)* (Bell), Waterloo Place; *(Great War)* (Ledward, figures, Bradshaw, cenotaph), Horse Guards' Parade; *Haig* (Hardiman), Whitehall; *Sir Arthur (Bomber) Harris* (Faith Winter), Strand; *Irving* (Brock), north side of National Portrait Gallery; *James II* (Gibbons and/or pupils), Trafalgar Square; *Jellicoe* (Wheeler), Trafalgar Square; *Samuel Johnson* (Fitzgerald), opposite St Clement Danes; *Kitchener* (Tweed), Horse Guards' Parade; *Abraham Lincoln* (Saint-Gaudens, copy of one in Chicago), Parliament Square; *Milton* (Montford), St Giles, Cripplegate; *Mountbatten*, Foreign Office Green; *Nelson* (170 ft 2 in), Trafalgar Square, with Landseer's lions (cast from guns recovered from the wreck of the *Royal George*); *Florence Nightingale* (Walker), Waterloo Place; *Palmerston* (Woolner), Parliament Square; *Peel* (Noble), Parliament Square; *Pitt* (Chantrey), Hanover Square; *Portal* (Nemon), Embankment Gardens; *Prince Consort* (Bacon), Holborn Circus; *Queen Elizabeth Gate*, Hyde Park Corner; *Raleigh* (Macmillan), Whitehall; *Richard I* (*Coeur de Lion*)

(Marochetti), Old Palace Yard; *Roberts* (Bates), Horse Guards' Parade; *Franklin D. Roosevelt* (Reid Dick), Grosvenor Square; *Royal Artillery* (South Africa) (Colton), The Mall; *(Great War)*, Hyde Park Corner; *Captain Scott* (Lady Scott), Waterloo Place; *Shackleton* (Sarjeant Jagger), Kensington Gore; *Shakespeare* (Fontana, copy of one by Scheemakers in Westminster Abbey), Leicester Square; *Smuts* (Epstein), Parliament Square; *Sullivan* (Goscombe John), Victoria Embankment; *Trenchard* (Macmillan), Victoria Embankment; *Victoria Memorial*, in front of Buckingham Palace; *Raoul Wallenberg* (Phillip Jackson), Great Cumberland Place; *George Washington* (Houdon copy), Trafalgar Square; *Wellington* (Boehm), Hyde Park Corner, (Chantrey), outside Royal Exchange; *John Wesley* (Adams Acton), City Road; *William III* (Bacon), St James's Square; *Wolseley* (Goscombe John), Horse Guards' Parade.

## PARKS, GARDENS AND OPEN SPACES

### CORPORATION OF LONDON OPEN SPACES

Also smaller open spaces within the City of London, including *Finsbury Circus Gardens*.

### OTHER PARKS AND GARDENS

CHELSEA PHYSIC GARDEN, 66 Royal Hospital Road, SW3

4HS T 020-7352 5646 W [www.chelseaphysicgarden.co.uk](http://www.chelseaphysicgarden.co.uk)

A garden of general botanical research and education, maintaining a wide range of rare and unusual plants.

The garden was established in 1673 by the Society of Apothecaries.

### ROYAL PARKS

W [www.royalparks.gov.uk](http://www.royalparks.gov.uk)

*Bushy Park* (1,099 acres), Middx. Adjoining Hampton Court, contains avenue of horse-chestnuts enclosed in a fourfold avenue of limes planted by William III.

*Green Park* (40 acres), W1. Between Piccadilly and St James's Park, with Constitution Hill leading to Hyde Park Corner.

*Greenwich Park* (183 acres), SE10

*Hyde Park* (350 acres), W1/W2. From Park Lane to Kensington Gardens, containing the Serpentine lake. Fine gateway at Hyde Park Corner, with Apsley House, the Achilles Statue, Rotten Row and the Ladies' Mile. To the north-east is the Marble Arch, originally erected

by George IV at the entrance to Buckingham Palace and re-erected in the present position in 1851.

**Kensington Gardens** (275 acres), W2/A8. From the western boundary of Hyde Park to Kensington Palace, containing the Albert Memorial, Serpentine Gallery and Peter Pan statue.

**Kew, Royal Botanic Gardens** Richmond, Surrey, TW9 3AB T 020-8332 5655 E info@kew.org W www.rbgekew.org.uk. Officially inscribed on the UNESCO list of World Heritage Sites in July 2003.

**Regent's Park and Primrose Hill** (487 acres), NW1. From Marylebone Road to Primrose Hill surrounded by the Outer Circle and divided by the Broad Walk leading to the Zoological Gardens.

**Richmond Park** (2,500 acres), Middlesex

**St James's Park** (93 acres), SW1. From Whitehall to Buckingham Palace. Ornamental lake of 12 acres. The original suspension bridge built in 1857 was replaced in 1957. The Mall leads from the Admiralty Arch to Buckingham Palace, Birdcage Walk from Storey's Gate to Buckingham Palace.

**Hampton Court Park and Gardens** (669 acres), Surrey

## PLACES OF HISTORICAL AND CULTURAL INTEREST

**ALEXANDRA PALACE**, Alexandra Palace Way, Wood Green, N22 7AY T 020-8365 2121 W www.alexandrapalace.com The Victorian palace was severely damaged by fire in 1980 but was restored, and reopened in 1988. Alexandra Palace now provides modern facilities for exhibitions, conferences, banquets and leisure activities. There is an ice rink, a boating lake, the Phoenix Bar and a conservation area.

**BARBICAN CENTRE**, Silk Street, EC2Y 8DS T 020-7638 4141 W www.barbican.org.uk Owned, funded and managed by the Corporation of London, the Barbican Centre opened in 1982 and houses the Barbican Theatre, a studio theatre called The Pit, the Barbican Hall and is home to the London Symphony Orchestra. There are also three cinemas, six conference rooms, two art galleries, a sculpture court, a lending library, trade and banqueting facilities, a conservatory, shops, restaurants, cafes and bars.

**CHARTERHOUSE**, Charterhouse Square, EC1M 6AN T 020-7253 9503 A Carthusian monastery from 1371 to 1537, purchased in 1611 by Thomas Sutton, who endowed it as a residence for aged men 'of gentle birth' and a school for poor scholars (removed to Godalming in 1872).

**DOWNING STREET**, SW1 Number 10 Downing Street is the official town residence of the Prime Minister, No. 11 to the Chancellor of the Exchequer and No. 12 is the office of the Government Whips. The street was named after Sir George Downing, Bt., soldier and diplomat, who was MP for Morpeth from 1660 to 1684.

**GEORGE INN**, Borough High Street, SE1 1NH The last galleried inn in London, built in 1677. Now run as an ordinary public house.

**GREENWICH**, SE10. The Royal Naval College, T 020-8269 4747, was until 1873 the Greenwich Hospital. It was built by Charles II, largely from designs by John Webb, and by Queen Mary II and William III, from designs by Wren. It stands on the site of an ancient abbey, a royal house and Greenwich Palace which was constructed by Henry VII. Henry VIII, Mary I and Elizabeth I were born in the royal palace and Edward VI died there.

**Greenwich Park** (196.5 acres), T 020-8858 2608, was enclosed by Humphrey, Duke of Gloucester, and laid out by Charles II from the designs of Le Nôtre. On a hill in Greenwich Park is the *Royal Observatory* (founded 1675). Its buildings are now managed by the *National Maritime Museum*, T 020-8858 4422 and the earliest building is named Flamsteed House, after John Flamsteed (1646–1719), the first Astronomer Royal. *The Cutty Sark*, T 020-8858 3445 The last of the famous tea clippers was moved into a specially constructed dry dock in 1954 and opened to the public in 1957. Sir Francis Chichester's round-the-world yacht, *Gipsy Moth IV*, can also be seen.

**HORSE GUARDS**, Whitehall, SW1 Archway and offices built about 1753. The changing of the guard takes place at 11a.m. (10a.m. on Sundays) and the dismantled inspection at 4p.m. Only those with the Queen's permission may drive through the gates and archway into *Horse Guards' Parade*, where the Colour is 'trooped' on The Queen's official birthday.

**HOUSE OF COMMONS**, Westminster, London, SW1A 0AA T 020-7219 4272 E hcinfor@parliament.uk

**HOUSE OF LORDS**, Westminster, London, SW1A 0PW T 020-7219 3107 E hlinfor@parliament.uk

The royal palace of Westminster, originally built by Edward the Confessor, was the normal meeting place of Parliament from about 1340. St Stephen's Chapel was used from about 1550 for the meetings of the House of Commons, which had previously been held in the Chapter House or Refectory of Westminster Abbey. The House of Lords met in an apartment of the royal palace. The fire of 1834 destroyed much of the palace and the present Houses of Parliament were erected on the site from the designs of Sir Charles Barry and Augustus Welby Pugin between 1840 and 1867. The chamber of the House of Commons was destroyed by bombing in 1941 and a new Chamber designed by Sir Giles Gilbert Scott was used for the first time in 1950. *Westminster Hall and the Crypt Chapel* was the only part of the old palace of Westminster to survive the fire of 1834. It was built by William Rufus (1097–9) and altered by Richard II (1394–9). The hammerbeam roof of carved oak dates from 1396–8. The Hall was the scene of the trial of Charles I. *The Victoria Tower* of the House of Lords is about 330 ft high, and when Parliament is sitting the Union flag flies by day from its flagstaff. *The Clock Tower* of the House of Commons is about 320 ft high and contains 'Big Ben', the hour bell said to be named after Sir Benjamin Hall, First Commissioner of Works when the original bell was cast in 1856. This bell, which weighed 16 tons 11 cwt, was found to be cracked in 1857. The present bell (13.5 tons) is a recasting of the original and was first brought into use in 1859. The dials of the clock are 23 ft in diameter, the hands being 9 ft and 14 ft long (including balance piece). A light is displayed from the Clock Tower at night when Parliament is sitting. During session tours of the Houses of Parliament are only available to UK residents who have made advance arrangements through an MP or peer. Overseas visitors are no longer provided with permits to tour the Houses of Parliament during session, although they can tour during the summer opening and attend debates for both houses in the Strangers' Galleries (see below). During the summer recess tickets for tours of the Houses of Parliament can be booked by T 0870-906 3773 or bought on site at the ticket office on Abingdon Green opposite Parliament

and the Victoria Tower Gardens. The Strangers' Gallery of the House of Commons is open to the public when the house is sitting. To acquire tickets in advance UK residents should write to their local MP and overseas visitors should apply to their Embassy or High Commission in the UK for a permit. If none of these arrangements have been made, visitors should join the public queue outside St Stephen's Entrance, where there is also a queue for entry to the House of Lords Gallery.

**INNS OF COURT** The Inns of Court are ancient unincorporated bodies of lawyers which for more than five centuries have had the power to call to the Bar those of their members who have qualified for the rank or degree of Barrister-at-Law. There are four Inns of Court as well as many lesser inns.

*Lincoln's Inn*, Chancery Lane/Lincoln's Inn Fields, WC2 T 020-7405 1393 W [www.lincolnsinn.org.uk](http://www.lincolnsinn.org.uk) The most ancient of the inns with records dating back to 1422. The hall and library buildings are of 1845, although the library is first mentioned in 1474; the old hall (late 15th-century) and the chapel were rebuilt c. 1619–23.

*Inner Temple*, King's Bench Walk, EC4 T 020-7797 8208 W [www.innertemple.org.uk](http://www.innertemple.org.uk)

*Middle Temple*, Fleet Street/Victoria Embankment, EC4 T 020-7427 4800 W [www.middletemple.org.uk](http://www.middletemple.org.uk)

Records for the Middle and Inner temple date back to the beginning of the 16th century. The site was originally occupied by the Order of Knights Templars c.1160–1312. The two inns have separate halls thought to have been formed c. 1350. The division between the two societies was formalised in 1732 with Temple Church and the Masters house remaining in common. The Inner Temple Garden is normally open to the public on weekdays between 12.30p.m. and 3p.m.

*Temple Church*, EC4 T 020-7353 3470 The nave forms one of five remaining round churches in England. *Master of the Temple*, Revd Robin Griffith-Jones.

*Gray's Inn*, South Square, WC1 T 020-7458 7900 W [www.graysinn.org.uk](http://www.graysinn.org.uk) Founded early 14th-century; Hall 1556–8.

No other 'Inns' are active, but there are remains of *Staple Inn*, a gabled front on Holborn (opposite Gray's Inn Road). *Clement's Inn* (near St Clement Danes Church), *Clifford's Inn*, Fleet Street, and *Thavies Inn*, Holborn Circus, are all rebuilt. *Serjeants' Inn*, Fleet Street, and another (demolished 1910) of the same name in Chancery Lane, were composed of Serjeants-at-Law, the last of whom died in 1922.

**LLOYD'S**, One Lime Street, EC3M 7HA T 020-7327 1000 W [www.lloydsolondon.com](http://www.lloydsolondon.com) International insurance market which evolved during the 17th-century from Lloyd's Coffee House. The present building was opened for business in May 1986, and houses the Lutine Bell. Underwriting is on three floors with a total area of 114,000 sq. ft. The Lloyd's building is not open to the general public.

**LONDON EYE**, The Thames South Bank, SE1 T 0870-500 0600 W [www.londoneye.com](http://www.londoneye.com) Opened in February 2000 as London's millennium landmark, this 450ft observation wheel is the capital's fourth largest structure. The wheel provides a 30 minute ride offering spectacular panoramic views of the capital.

**LONDON ZOO**, Regent's Park, NW1 T 020-7722 3333 W [www.londonzoo.org](http://www.londonzoo.org)

**MADAME TUSSAUD'S AND THE LONDON PLANETARIUM**, Marylebone Road, NW1 5LR

T 0870-400 3000 W [www.madame-tussauds.co.uk](http://www.madame-tussauds.co.uk) Waxwork exhibition and interactive star show

**MARLBOROUGH HOUSE**, Pall Mall, SW1A 5HX Built by Wren for the first Duke of Marlborough and completed in 1711, the house reverted to the Crown in 1835. In 1863 it became the London house of the Prince of Wales and was the London home of Queen Mary until her death in 1953. In 1959 Marlborough House was given by The Queen as the headquarters for the Commonwealth Secretariat and it was opened as such in 1965. The Queen's Chapel, Marlborough Gate was begun in 1623 from the designs of Inigo Jones for the Infanta Maria of Spain, and completed for Queen Henrietta Maria.

**PORT OF LONDON**, Port of London Authority, Bakers' Hall, 7 Harp Lane, EC3R 6LB T 020-7743 7900 W [www.portoflondon.co.uk](http://www.portoflondon.co.uk) The Port of London covers the tidal section of the River Thames from Teddington to the seaward limit (the outer Tongue buoy and the Sunk light vessel), a distance of 150km. The governing body is the Port of London Authority (PLA). Cargo is handled at privately operated riverside terminals between Fulham and Canvey Island, including the enclosed dock at Tilbury, 40km below London Bridge. Passenger vessels and cruise liners can be handled at moorings at Greenwich, Tower Bridge and Tilbury.

**ROMAN REMAINS**, The city wall of Roman *Londinium* was largely rebuilt during the medieval period but sections may be seen near the White Tower in the Tower of London; at Tower Hill; at Coopers' Row; at All Hallows, London Wall, its vestry being built on the remains of a semi-circular Roman bastion; at St Alphage, London Wall, showing a succession of building repairs from the Roman until the late medieval period; and at St Giles, Cripplegate. Sections of the great forum and basilica, more than 165m<sup>2</sup>, have been encountered during excavations in the area of Leadenhall, Gracechurch Street and Lombard Street. Traces of Roman activity along the river include a massive riverside wall built in the late Roman period, and a succession of Roman timber quays along Lower and Upper Thames Street. Finds from these sites can be seen at the Museum of London.

Other major buildings are the amphitheatre at Guildhall; remains of bath-buildings in Upper and Lower Thames Street; and the temple of Mithras in Walbrook.

**ROYAL ALBERT HALL**, Kensington Gore, SW7 2AP T 020-7589 8212 W [www.royalalberthall.com](http://www.royalalberthall.com) The elliptical hall, one of the largest in the world, was completed in 1871, and since 1941 has been the venue each summer for the Promenade Concerts founded in 1895 by Sir Henry Wood. Other events include pop and classical music concerts, dance, opera, sporting events, conferences and banquets.

**ROYAL HOSPITAL, CHELSEA**, Royal Hospital Road, SW3 4SR T 020-7881 5204 W [www.chelsea-pensioners.co.uk](http://www.chelsea-pensioners.co.uk) Founded by Charles II in 1682, and built by Wren; opened in 1692 for old and disabled soldiers. The extensive grounds include the former Ranelagh Gardens and are the venue for the Chelsea Flower Show each May. *Governor*, Gen. Sir Jeremy Mackenzie, GCB, OBE.

**ROYAL OPERA HOUSE**, Covent Garden, WC2E 9DD T 020-7304 4000 W [www.royalopera.org](http://www.royalopera.org) Home of The Royal Ballet (1931) and The Royal Opera (1946). The Royal Opera House is the third theatre to be built on the site, opening 1858; the first was opened in 1732.

**ST JAMES'S PALACE**, Pall Mall, SW1A 1BP T 020-7930 4832 W [www.royal.gov.uk](http://www.royal.gov.uk) Built by Henry VIII; the Gatehouse and Presence Chamber remain; later alterations were made by Wren and Kent. Representatives of foreign powers are still accredited 'to the Court of St James's'. *Clarence House* (1825), the official London residence of the Prince of Wales and his sons, stands within the St James's Palace environs.

**ST PAUL'S CATHEDRAL**, St Paul's Churchyard, EC4M 8AD T 020-7236 4128 E [chapter@stpaulscathedral.org.uk](mailto:chapter@stpaulscathedral.org.uk) W [www.stpauls.co.uk](http://www.stpauls.co.uk) Built 1675–1710, cost £747,660. The cross on the dome is 365 ft above the ground level, the inner cupola 218 ft above the floor. 'Great Paul' in the south-west tower weighs nearly 17 tons. The organ by Father Smith (enlarged by Willis and rebuilt by Mander) is in a case carved by Grinling Gibbons, who also carved the choir stalls.

**SOMERSET HOUSE**, Strand and Victoria Embankment, WC2 The river façade (600 ft long) was built in 1776–86 from the designs of Sir William Chambers; the eastern extension, which houses part of King's College, was built by Smirke in 1829. Somerset House was the property of Lord Protector Somerset, at whose attainder in 1552 the palace passed to the Crown, and it was a royal residence until 1692. Somerset House has recently undergone extensive renovation and is home to the Gilbert Collection, Hermitage Rooms and the Courtauld Institute Gallery. Open-air concerts and ice-skating (Nov–Jan) are held in the courtyard

**SOUTH BANK**, SE1 The arts complex on the south bank of the River Thames which consists of the *Royal Festival Hall* T 020-7921 0600 W [www.rfh.org.uk](http://www.rfh.org.uk) (opened in 1951 for the Festival of Britain), the adjacent 1,056-seat *Queen Elizabeth Hall*, the *Purcell Room*, and the *Voice Box*.

The *National Film Theatre* (Opened 1952) T 020-7928 3232 W [www.bfi.org.uk](http://www.bfi.org.uk) Administered by the British Film Institute, has three auditoria showing over 2,000 films a year. The London Film Festival is held here every November. There is also an IMAX cinema with 500 seats.

The *Royal National Theatre* T 020-7452 3000 W [www.nationaltheatre.org.uk](http://www.nationaltheatre.org.uk) Opened in 1976 and stages classical, modern, new and neglected plays in its three auditoria: the Olivier theatre, the Lyttelton theatre and the Cottesloe theatre.

**SOUTHWARK CATHEDRAL**, London Bridge, SE1 9DA T 020-7367 6700 E [cathedral@dsward.org.uk](mailto:cathedral@dsward.org.uk) W [www.dsward.org](http://www.dsward.org) Mainly 13th-century, but the nave is largely rebuilt. The tomb of John Gower (1330–1408) is between the Bunyan and Chaucer memorial windows in the north aisle; Shakespeare's effigy, backed by a view of Southwark and the Globe Theatre, is in the south aisle; the tomb of Bishop Andrewes (died 1626) is near the screen. The lady chapel was the scene of the consistory courts of the reign of Mary (Gardiner and Bonner) and is still used as a consistory court. John Harvard, after whom Harvard University is named, was baptised here in 1607, and the chapel by the north choir aisle is his memorial chapel.

**THAMES EMBANKMENTS**. The *Victoria Embankment*, on the north side from Westminster to Blackfriars, was constructed by Sir Joseph Bazalgette (1819–91) for the Metropolitan Board of Works, 1864–70; the seats, of which the supports of some are a kneeling camel, laden with spicery, and of others a winged sphinx, were presented by the Grocers' Company and by W. H. Smith, MP, in 1874; the *Albert Embankment*, on the

south side from Westminster Bridge to Vauxhall, 1866–9; the *Chelsea Embankment*, 1871–4. The total cost exceeded £2,000,000. Bazalgette also inaugurated the London main drainage system, 1858–65. A medallion (*Flumini vincula posuit*) has been placed on a pier of the *Victoria Embankment* to commemorate the engineer.

**THAMES FLOOD BARRIER**. Officially opened in May 1984, though first used in February 1983, the barrier consists of ten rising sector gates which span 570 yards from bank to bank of the Thames at Woolwich Reach. When not in use the gates lie horizontally, allowing shipping to navigate the river normally; when the barrier is closed, the gates turn through 90 degrees to stand vertically more than 50 feet above the river bed. The barrier took eight years to complete and can be raised within about 30 minutes.

**THAMES TUNNELS**. The *Rotherhithe Tunnel*, opened 1908, connects Commercial Road, E14, with Lower Road, Rotherhithe SE16; it is 1 mile 332 yards long, of which 525 yards are under the river. The first *Blackwall Tunnel* (northbound vehicles only), opened 1897, connects East India Dock Road, Poplar, with Blackwall Lane, East Greenwich. The height restriction on the northbound tunnel is 13ft 4in. A second tunnel (for southbound vehicles only) opened 1967. The lengths of the tunnels measured from East India Dock Road to the Gate House on the south side are 6,215 ft (old tunnel) and 6,152 ft. *Greenwich Tunnel* (pedestrians only), opened 1902, connects the Isle of Dogs, Poplar, with Greenwich; it is 406 yards long. The *Woolwich Tunnel* (pedestrians only), opened 1912, connects North and South Woolwich below the passenger and vehicular ferry from North Woolwich Station, E6, to High Street, Woolwich, SE18; it is 552 yards long.

**WALTHAM CROSS**, Herts. One of the crosses (partly restored) erected by Edward I to mark a resting place of the corpse of Queen Eleanor on its way to Westminster Abbey. Ten crosses were erected, but only those at Geddington, Northampton and Waltham survive; 'Charing' Cross originally stood near the spot now occupied by the statue of Charles I at Whitehall.

**WESTMINSTER ABBEY**, Broad Sanctuary, SW1P 3PA T 0207-7222 5152 E [info@westminster-abbey.org](mailto:info@westminster-abbey.org) W [www.westminster-abbey.org](http://www.westminster-abbey.org)

Founded as a Benedictine monastery over 1,000 years ago, the Church was rebuilt by Edward the Confessor in 1065 and again by Henry III in the 13th-century. The Abbey is the resting place for monarchs including Edward I, Henry III, Henry V, Henry VII, Elizabeth I, Mary I and Mary Queen of Scots, and has been the setting of coronations since that of William the Conqueror in 1066. In Poets' Corner there are memorials to many literary figures, and many scientists and musicians are also remembered here. The grave of the Unknown Warrior is to be found in the nave.

**WESTMINSTER CATHEDRAL**, 42 Francis Street, SW1P 1QW T 020-7798 9055 W [www.westminstercathedral.org.uk](http://www.westminstercathedral.org.uk) Roman Catholic cathedral built 1895–1903 from the designs of J. F. Bentley. The campanile is 283 feet high.

# HALLMARKS

Hallmarks are the symbols stamped on gold, silver or platinum articles to indicate that they have been tested at an official Assay Office and that they conform to one of the legal standards. With certain exceptions, all gold, silver or platinum articles are required by law to be hallmarked before they are offered for sale. Hallmarking was instituted in England in 1300 under a statute of Edward I.

## MODERN HALLMARKS

Since 1 January 1999, UK hallmarks have consisted of three compulsory symbols – the sponsor's mark, the fineness (purity) mark and the assay office mark. Traditional marks such as the year date letter, the Britannia for 958 silver, the lion passant for 925 silver (lion rampant in Scotland) and the orb for 950 platinum may be added voluntarily. The distinction between UK and foreign articles has been removed, and more finenesses are now legal, reflecting the more common finenesses elsewhere in Europe.

### SPONSOR'S MARK

Instituted in England in 1363, the sponsor's mark was originally a device such as a bird or fleur-de-lis. Now it consists of the initial letters of the name or names of the manufacturer or firm. Where two or more sponsors have the same initials, there is a variation in the surrounding shield or style of letters.

### FINENESS (PURITY) MARK

The fineness (purity) mark indicates that the content of the precious metal in the alloy from which the article is made, is not less than the legal standard. The legal standard is the minimum content of precious metal by weight in parts per thousand, and the standards are:

Gold	999	
	990	
	916.6	(22 carat)
	750	(18 carat)
	585	(14 carat)
Silver	375	(9 carat)
	999	
	958.4	(Britannia)
Platinum	925	(sterling)
	800	
	999	
	950	
	900	
	850	

### ASSAY OFFICE MARK

This mark identifies the particular assay office at which the article was tested and marked. The British assay offices are:

LONDON, Goldsmiths' Hall, Gutter Lane, London EC2V 8AQ  
T 020-7606 8971 W [www.thegoldsmiths.co.uk](http://www.thegoldsmiths.co.uk)

BIRMINGHAM, PO Box 151, Newhall Street, Birmingham  
B3 1SB T 0121-236 6951 W [www.theassayoffice.co.uk](http://www.theassayoffice.co.uk)

SHEFFIELD, Guardian's Hall, 137 Portobello Street, Sheffield  
S1 4DS T 0114-275 5111 W [www.assayoffice.co.uk](http://www.assayoffice.co.uk)

EDINBURGH, Goldsmiths' Hall, 24a Broughton Street,  
Edinburgh EH1 3RH T 0131-556 1144  
W [www.assayofficescotland.com](http://www.assayofficescotland.com)

Assay offices formerly existed in other towns, e.g. Chester, Exeter, Glasgow, Newcastle, Norwich and York, each having its own distinguishing mark.

### DATE LETTER

The date letter shows the year in which an article was assayed and hallmarked. Each alphabetical cycle has a distinctive style of lettering or shape of shield. The date letters were different at the various assay offices and the particular office must be established from the assay office mark before reference is made to tables of date letters. Date letter marks became voluntary from 1 January 1999.

The table below shows specimen shields and letters used by the London Assay Office on silver articles in each period from 1498. The same letters are found on gold articles but the surrounding shield may differ. Since 1 January 1975, each office has used the same style of date letter and shield for all articles.

## OTHER MARKS

### FOREIGN GOODS

Foreign goods imported into the UK are required to be hallmarked before sale, unless they already bear a convention mark (see below) or a hallmark struck by an independent assay office in the European Economic Area which is deemed to be equivalent to a UK hallmark.

The following are the assay office marks used for gold until the end of 1998. For silver and platinum the symbols remain the same but the shields differ in shape.

London

Sheffield

Birmingham

Edinburgh

## CONVENTION HALLMARKS

Special marks at authorised assay offices of the signatory countries of the International Convention on Hallmarking (Austria, the Czech Republic, Denmark, Finland, Ireland, the Netherlands, Norway, Portugal, Sweden, Switzerland and the UK) are legally recognised in the United Kingdom as approved hallmarks. These consist of a sponsor's mark, a common control mark, a fineness mark (arabic numerals showing the standard in parts per thousand), and an assay office mark. There is no date letter.

The common control marks are:

*Gold (18 carat)*

*Silver*

*Platinum*

## COMMEMORATIVE MARKS

There are three other marks to commemorate special events: the silver jubilee of King George V and Queen Mary in 1935, the coronation of Queen Elizabeth II in 1953, and her silver jubilee in 1977. During 1999 and 2000 there was a voluntary additional Millennium Mark. A mark to commemorate the golden jubilee of Queen Elizabeth II was available during 2002.

# BRITISH CURRENCY

The unit of currency is the pound sterling (£) of 100 pence. The decimal system was introduced on 15 February 1971.

## COIN

<i>Gold Coins</i>	‡ <i>Bi-colour Coins</i>
*One hundred pounds £100	Two pounds £2
*Fifty pounds £50	<i>Nickel-Brass Coins</i>
*Twenty-five pounds £25	§Two pounds £2 (pre-1997)
*Ten pounds £10	One pound £1
Five pounds £5	
Two pounds £2	<i>Cupro-Nickel Coins</i>

Fourpence 4p	¶ <i>Copper-plated Steel Coins</i>
Threepence 3p	2 pence 2p
Twopence 2p	1 penny 1p
Penny 1p	

\*Britannia coins: gold bullion coins introduced 1987; silver coins introduced 1997

†Gifts of special money distributed by the Sovereign annually on Maundy Thursday to the number of aged poor men and women corresponding to the Sovereign's own age

‡Cupro-nickel centre and nickel-brass outer ring

§Commemorative coins; not intended for general circulation

¶Since September 1992, although in 1998 the 2p was struck in both copper-plated steel and bronze

## GOLD COIN

Gold ceased to circulate during the First World War. Since then controls on buying, selling and holding gold coin have been imposed at various times but have subsequently been revoked. Under the Exchange Control (Gold Coins Exemption) Order 1979, gold coins may now be imported and exported without restriction, except gold coins which are more than 50 years old and valued at a sum in excess of £8,000; these cannot be exported without specific authorisation from the Department of Trade and Industry.

Value Added Taxation on the sale of gold coins was revoked in 2000.

## SILVER COIN

Prior to 1920 silver coins were struck from sterling silver, an alloy of which 925 parts in 1,000 were silver. In 1920 the proportion of silver was reduced to 500 parts. From 1 January 1947 all 'silver' coins, except Maundy money, have been struck from cupro-nickel, an alloy of copper 75 parts and nickel 25 parts, except for the 20p, composed of copper 84 parts, nickel 16 parts. Maundy coins continue to be struck from sterling silver.

## BRONZE COIN

Bronze, introduced in 1860 to replace copper, is an alloy of copper 97 parts, zinc 2.5 parts and tin 0.5 part. These proportions have been subject to slight variations in the past. Bronze was replaced by copper-plated steel in September 1992 with the exception of 1998 when the 2p was made in both copper-plated steel and bronze.

## LEGAL TENDER

Gold (dated 1838 onwards, if not below least current weight)	to any amount
£5 (Crown since 1990)	to any amount
£2	to any amount
£1	to any amount
50p	up to £10
25p (Crown pre-1990)	up to £10
20p	up to £10
10p	up to £5
5p	up to £5
2p	up to 20p
1p	up to 20p

The £1 coin was introduced in 1983 to replace the £1 note. The following coins have ceased to be legal tender:

Farthing	31 December 1960
Halfpenny (½ d)	1 July 1969
Half-crown	1 January 1970
Threepence	31 August 1971
Penny (1d)	31 August 1971
Sixpence	30 June 1980
Halfpenny (½ p)	31 December 1984
old 5 pence	31 December 1990
old 10 pence	30 June 1993
old 50 pence	28 February 1998

The Channel Islands and the Isle of Man issue their own coinage, which are legal tender only in the island of issue.

	<i>Metal</i>	<i>Standard weight (g)</i>	<i>Standard diameter (mm)</i>
Penny	bronze	3.564	20.3
Penny	copper-plated steel	3.564	20.3
2 pence	bronze	7.128	25.9
2 pence	copper-plated steel	7.128	25.9
5p	cupro-nickel	3.25	18.0
10p	cupro-nickel	6.5	24.5
20p	cupro-nickel	5.0	21.4
25p Crown	cupro-nickel	28.28	38.6
50p	cupro-nickel	8.00	27.3
£1	nickel-brass	9.5	22.5
£2	nickel-brass	15.98	28.4
£2	cupro-nickel, nickel-brass	12.00	28.4
£5 Crown	cupro-nickel	28.28	38.6

The 'remedy' is the amount of variation from standard permitted in weight and fineness of coins when first issued from the Mint.

The Trial of the Pyx is the examination by a jury to ascertain that coins made by the Royal Mint, which have been set aside in the pyx (or box), are of the proper

weight, diameter and composition required by law. The trial is held annually, presided over by the Queen's Remembrancer (the Senior Master of the Supreme Court), with a jury of freemen of the Company of Goldsmiths.

## BANKNOTES

Bank of England notes are currently issued in denominations of £5, £10, £20 and £50 for the amount of the fiduciary note issue, and are legal tender in England and Wales. No £1 notes have been issued since 1984 and in March 1998 the outstanding notes were written off in accordance with the provision of the Currency Act 1983.

The current E series of notes was introduced from June 1990, replacing the D series (*see below*). The historical figures portrayed in this series are:

£5	May 2002–date	Elizabeth Fry
£5	June 1990–2003	George Stephenson*
£10	November 2000–date	Charles Darwin†
£20	June 1991–2001	Michael Faraday‡
£20	June 1999–date	Sir Edward Elgar
£50	April 1994–date	Sir John Houblon

\* Ceased to be legal tender on 21 November 2003

† The version of the Bank of England £10 banknote issued in April 1992, bearing a portrait of Charles Dickens, ceased to be legal tender on 31 July 2003

‡ Withdrawn from circulation on 28 February 2001

## NOTE CIRCULATION

Note circulation is highest at the two peak spending periods of the year, around Christmas and during the summer holiday period. The total value of notes in circulation at 2 January 2004 was £39,330 million, compared to £32,574 million at 23 December 2000.

The value of notes in circulation at the end of February 2002 and 2003 was:

	2002	2003
£5	£1,044m	£1,051m
£10	£5,928m	£5,932m
£20	£16,335m	£18,131m
£50	£5,203m	£5,446m
Other notes*	£874m	£3,306m
Total	£29,384m	£33,866m

\* Includes higher value notes used internally in the Bank of England, e.g. as cover for the note issues of banks in Scotland and Northern Ireland in excess of their permitted issue.

## LEGAL TENDER

Banknotes which are no longer legal tender are payable when presented at the head office of the Bank of England in London.

The white notes for £10, £20, £50, £100, £500 and £1,000, which were issued until April 1943, ceased to be legal tender in May 1945, and the white £5 note in March 1946.

The white £5 note issued between October 1945 and September 1956, the £5 notes issued between 1957 and 1963 (bearing a portrait of Britannia) and the first series to bear a portrait of The Queen, issued between 1963 and 1971, ceased to be legal tender in March 1961, June 1967 and September 1973 respectively.

The series of £1 notes issued during the years 1928 to

1960 and the 10 shilling notes issued from 1928 to 1961 (those without the royal portrait) ceased to be legal tender in May and October 1962 respectively. The £1 note first issued in March 1960 (bearing on the back a representation of Britannia) and the £10 note first issued in February 1964 (bearing a lion on the back), both bearing a portrait of The Queen on the front, ceased to be legal tender in June 1979. The £1 note first issued in 1978 ceased to be legal tender on 11 March 1988. The 10 shilling note was replaced by the 50p coin in October 1969, and ceased to be legal tender on 21 November 1970.

The D series of banknotes was introduced from 1970 and ceased to be legal tender from the dates shown below. The predominant identifying feature of each note was the portrayal on the back of a prominent figure from British history:

£1	Feb. 1978–March 1988	Sir Isaac Newton
£5	Nov. 1971–Nov. 1991	The Duke of Wellington
£10	Feb. 1975–May 1994	Florence Nightingale
£20	July 1970–March 1993	William Shakespeare
£50	March 1981–Sept. 1996	Sir Christopher Wren

The £1 coin was introduced on 21 April 1983 to replace the £1 note.

## OTHER BANKNOTES

**SCOTLAND** – Banknotes are issued by three Scottish banks. The Royal Bank of Scotland issues notes for £1, £5, £10, £20 and £100. Bank of Scotland and the Clydesdale Bank issue notes for £5, £10, £20, £50 and £100. Scottish notes are not legal tender in Scotland but they are an authorised currency.

**NORTHERN IRELAND** – Banknotes are issued by four banks in Northern Ireland. The Bank of Ireland, the Northern Bank and the Ulster Bank issue notes for £5, £10, £20, £50 and £100. The First Trust Bank issues notes for £10, £20, £50 and £100. Northern Ireland notes are not legal tender in Northern Ireland but they circulate widely and enjoy a status comparable to that of Bank of England notes.

**CHANNEL ISLANDS** – The States of Guernsey issues its own currency notes and coinage. The notes are for £1, £5, £10, £20 and £50, and the coins are for 1p, 2p, 5p, 10p, 20p, 50p, £1, £2 and £5. The States of Jersey issues its own currency notes and coinage. The notes are for £1, £5, £10, £20 and £50, and the coins are for 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2.

**THE ISLE OF MAN** – The Isle of Man Government issues notes for £1, £5, £10, £20 and £50. Although these notes are only legal tender in the Isle of Man, they are accepted at face value in branches of the clearing banks in the UK. The Isle of Man issues coins for 1p, 2p, 5p, 10p, 20p, 50p, £1, £2 and £5.

Although none of the series of notes specified above is legal tender in the UK, they are generally accepted by banks irrespective of their place of issue. At one time banks made a commission charge for handling Scottish and Irish notes but this was abolished some years ago.

# BANKING

The two main types of deposit-taking institutions are banks and building societies, although National Savings and Investments also provides savings products. Banks and building societies are supervised by the Financial Services Authority and National Savings and Investments is accountable to the Treasury. As a result of the conversion of several building societies into banks in the 1990s, the size of the banking sector, which was already substantially greater than the non-bank deposit-taking sector, increased further.

The main institutions within the British banking system are the Bank of England (the central bank), retail banks, investment banks and overseas banks. In its role as the central bank, the Bank of England acts as banker to the Government and as a note-issuing authority; it also oversees the efficient functioning of payment and settlement systems.

Since May 1997, the Bank of England has had operational responsibility for monetary policy. At monthly meetings of its monetary policy committee the Bank sets the interest rate at which it will lend to the money markets.

## OFFICIAL INTEREST RATES 2001-4

5 April 2001	5.50%
10 May 2001	5.25%
2 August 2001	5.00%
18 September 2001	4.75%
4 October 2001	4.50%
8 November 2001	4.00%
6 February 2003	3.75%
10 July 2003	3.50%
6 November 2003	3.75%
5 February 2004	4.00%
6 May 2004	4.25%
10 June 2004	4.50%
5 August 2004	4.75%

## RETAIL BANKS

Retail banks offer a wide variety of financial services to individuals and companies, including current and deposit accounts, loan and overdraft facilities, automated teller (cash dispenser) machines, cheque guarantee cards, credit and debit cards, investment services, pensions, insurance and mortgages. All banks offer varying degrees of telephone and internet banking facilities in addition to traditional branch services.

## MAJOR RETAIL BANKS' FINANCIAL RESULTS 2003

<i>Bank Group</i>	<i>Profit/(loss) before taxation</i>	<i>Profit/(loss) after taxation</i>	<i>Total assets</i>	<i>Number of UK Branches</i>
	<i>£m</i>	<i>£m</i>	<i>£m</i>	
Abbey	(686)	(644)	176,775	–
Alliance and Leicester	525	379	48,424	300
Barclays (incorporating Woolwich)	3,845	2,769	443,361	2,070
HBOS (Halifax/Bank of Scotland)	3,766	2,675	408,413	–
HSBC	2,244	1,603	246,104	1602
Lloyds/TSB	4,348	3,323	252,012	2,200+
Northern Rock	387	276	37,160	56
RBS Group (Royal Bank of Scotland including National Westminster)	6,159	4,249	455,275	2,270+

The Financial Ombudsman Service provides independent and impartial arbitration in disputes between banks and their customers.

## PAYMENT CLEARINGS

The Association for Payment Clearing Services (APACS) was set up in 1985 as a non-statutory association of major banks and building societies and is now an umbrella organisation for money transmission and payment clearings in the UK. It manages three clearing companies:

- BACS Payment Schemes Ltd (Banker's Automated Clearing Services) is responsible for bulk electronic clearing, processing direct debits, direct credits and standing orders
- the Cheque and Credit Clearing Company Ltd operates bulk clearing systems for cheques and paper credit items in Great Britain
- CHAPS Ltd (Clearing House Automated Payment System) provides multi-national same-day clearing for electronic funds transfers in sterling and euro

Membership of APACS is open to any member of a payment scheme which is widely used or significant in the UK. As at May 2004, APACS had 33 members, comprising the major banks, building societies and Royal Mail Group.

### ASSOCIATION FOR PAYMENT CLEARING SERVICES

(APACS), Mercury House, Triton Court, 14 Finsbury Square,

## GLOSSARY OF FINANCIAL TERMS

**AER (ANNUAL EQUIVALENT RATE)** – A notional rate quoted on savings and investment products which demonstrates the return on interest if interest was compounded and paid annually instead of monthly.

**APR (ANNUAL PERCENTAGE RATE)** – APR calculates the total amount of interest that is payable over the whole term of a loan. Companies offering loans, credit cards, mortgages or overdrafts are required by law to provide the APR rate.

**ATM (AUTOMATED TELLER MACHINES)** – Commonly referred to as cash machines, they enable users to access their bank accounts using a card and carry out transactions such as withdrawing cash. Some banks and independent ATM deployers charge for transactions.

- BANKER'S DRAFT** – A cheque drawn on a bank against a cash deposit. Banker's drafts are considered to be a secure way of receiving money in instances where a cheque would otherwise 'bounce' or where it is not desirable to receive cash.
- BASE RATE** – The minimum rate at which banks are prepared to lend money. The base rate acts as a benchmark for other interest rates, e.g. for mortgages or personal loans.
- CAPPED RATE MORTGAGES** – The interest rate applied to the loan is capped at a certain rate for a set period of time. Even if the base interest rate rises the borrower has the security of knowing that interest payments will not increase above a certain level. If the standard variable mortgage rate is less than the capped rate the borrower is charged at that rate, benefiting from any decrease in the base interest rate.
- CASH CARD** – Issued by banks and building societies for withdrawing cash from cash machines.
- CHARGE CARD** – Charge cards, e.g. American Express and Diners Club, can be used in a similar way to credit cards but the debt must be settled in full each month.
- CHIP AND PIN CARD** – A credit/debit card which incorporates an embedded chip containing unique owner details. When used with a PIN number, such cards offer greater security as they are less prone to fraud.
- CREDIT CARD** – Normally issued with a credit limit, credit cards can be used for purchases until the limit is reached. There is normally an interest-free period on the outstanding balance of up to 56 days. Charges can be avoided if the balance is paid off in full within the interest-free period. Alternatively part of the balance can be paid and in most cases there is a minimum amount set by the issuer (normally a percentage of the outstanding balance) which must be paid on a monthly basis. Some card issuers charge an annual fee and most issuers belong to a least one major credit card network, e.g. Mastercard or Visa.
- CRITICAL ILLNESS COVER** – Insurance cover against critical illnesses such as stroke, heart attack or cancer, which is designed to protect mortgage or other loan payments.
- DEBIT CARD** – Debit cards were introduced on a large scale in the UK in the mid-1980s, replacing cash and cheques for many smaller transactions, and can be used to purchase goods and services in shops and via mail order. They can be used to withdraw cash from ATMs in the UK and abroad and may also function as a cheque guarantee card. Funds are automatically withdrawn from an individual's bank account after making a purchase and no interest is charged.
- DISCOUNTED MORTGAGE** – Discounted mortgages offer an interest rate set at a margin below the standard variable rate for a set period of time.
- ENDOWMENT MORTGAGE** – Only the interest on a property loan is paid back to the lender each month as long as an endowment life insurance policy is taken out for an agreed amount of time, typically 25 years. When the policy matures the lender will take repayment of the money owed on the property loan and any surplus goes to the policyholder. If the Endowment policy shows a shortfall on projected returns, the policy holder must make further provision to pay off the mortgage.
- EPS (EARNINGS PER SHARE)** – EPS is a measure of how many pence a company is earning for every share issued. The EPS is calculated by dividing the company's pre-tax profit dividend by the number of shares in issue.
- EQUITY** – In housing terms, equity is the difference between the value of a property and the amount outstanding on any loan secured against it. Negative equity occurs when the loan is greater than the market value of the property.
- FIXED RATE MORTGAGE** – A repayment mortgage where the interest on the loan is fixed at a certain rate for a set amount of time, normally a period of between one and ten years. The interest rate does not vary with changes to the base rate resulting in the monthly mortgage payment remaining the same for the duration of the fixed period.
- INTEREST ONLY MORTGAGE** – Only interest is paid by the borrower and capital remains constant for the term of the loan. The onus is on the borrower to make provision to repay the capital at the end of the term. This is usually achieved through an investment vehicle such as an endowment policy or pension.
- ISA** – The Individual Savings Account is a means by which investors can save and invest without paying income or capital gains taxes on the proceeds. Money can be invested across three investment elements: cash, stocks and shares and life insurance products. There are limits to how much can be invested during any given tax year.
- LOAN TO VALUE** – The Loan to Value is the ratio between the size of a mortgage loan sought and the mortgage lender's valuation. On a loan of £55,000, for example on a property valued at £100,000, the loan to value is 55 per cent meaning that there is sufficient enough equity in the property for the lender to be reassured that if interest/capital repayments were stopped, it could sell property and recoup the money owed.
- MIG (MORTGAGE INDEMNITY GUARANTEE)** – MIG is an insurance policy designed to protect the lender against loss in the event of the borrower defaulting or ceasing to repay a mortgage.
- ONLINE BANKING** – Also known as internet or e-banking where everything from paying bills to arranging overdrafts can be carried out online.
- PIN (PERSONAL IDENTIFICATION NUMBER)** – A PIN is issued alongside a cash card to allow the user to access a bank account via an ATM. PINs are also issued with Smart, Credit and Debit Cards and are often requested in shops and restaurants as a further security measure when making a purchase.
- SMART CARDS** – Smart Cards are a new generation of cashless payment system. They carry more information than debit cards including mortgage and health details and a fixed number of units of real money. The card is used in conjunction with a PIN and once the money on the card is spent, it must be loaded up again by transferring money to it from a bank account via an ATM or by telephone.
- TELEPHONE BANKING** – Banking facilities which can be accessed via the telephone.
- VARIABLE RATE MORTGAGE** – Repayment mortgages where the interest rate set by the lender increases or decreases in relation to the base interest rate occasionally resulting in fluctuations in monthly repayments.

# FINANCIAL SERVICES REGULATION

## FINANCIAL SERVICES AUTHORITY

The FSA has been the single regulator for financial services in the UK since 1 December 2001, when the Financial Services and Markets Act 2000 (FSMA) came into force. The FSA's aim is to maintain efficient, orderly and clean financial markets and help consumers get a fair deal. The FSA is required to pursue four statutory objectives:

- maintaining market confidence
- raising public awareness
- protecting consumers
- reducing financial crime

The legislation also requires the FSA to carry out its general functions, whilst having regard to:

- using its resources in the most efficient way
- the responsibilities of regulated firms' own management
- being proportionate in imposing burdens or restrictions on the industry
- facilitating innovation
- the international character of financial services and the competitive position of the United Kingdom
- not impeding or distorting competition unnecessarily

## ORGANISATION AND STRUCTURE

The FSA is a company limited by guarantee, financed by levies on the industry. It receives no funds from the public purse. It is accountable to Treasury ministers and, through them, to Parliament. The FSA must report annually on the achievement of its statutory objectives to the Treasury, which is required to lay the report before Parliament.

The FSA's governing body is a board appointed by the Treasury and consists of a Chairman, a Chief Executive Officer, three executive directors and 11 non-executive directors (including the Deputy Chairman). The Board sets overall FSA policy. Day-to-day operational decisions and management of the staff are the responsibility of the Executive, which consists of three units: Regulatory Services, Retail Markets and Wholesale and Institutional Markets, each headed by a managing director.

The Budget for the FSA's mainstream regulatory activities for 2004–5 is £201.6 million, 2.2 percent higher than in 2003–4.

### FSA REGISTER OF AUTHORISED FIRMS AND PERSONS

The FSA maintains a register of all firms that are authorised to carry out investment business and are authorised deposit takers. The entry for each firm gives its name, address and telephone number; a reference number; its authorisation status (outlining exactly what financial services the firm is authorised to provide), stating which organisation regulates it and whether it can handle client money. In addition the FSA keeps a list of approved persons in the industry who are authorised to carry out functions regulated by the FSA. Each entry includes the list of controlled functions an individual is authorised to perform and for which firms.

From 31 October 2004, mortgage lending, sales and administration and from 14 January 2005, general

insurance sales and administration will become regulated activities. As a statutory requirement all companies carrying out these activities will need to be authorised by the FSA.

The Consumer Helpline is available to members of the public seeking information about firms and individuals listed on the register. In addition, the Helpline explains complaints procedures and provides information on what is and is not regulated by the FSA. Firms and individuals can also be checked on the FSA website.

*Chairman*, Callum McCarthy  
*Chief Executive Officer*, John Tiner

## COMPENSATION

Under the FSMA the Financial Services Compensation Scheme (FSCS) replaced eight previous compensation schemes. It provides compensation if an authorised firm is unable or likely to be unable to pay claims against it. This is usually when a firm stops trading or is insolvent. The FSCS covers deposits, insurance and investments. The FSCS is independent from the FSA, with separate staff and premises. However, the FSA appoints the board of the FSCS and sets its guidelines. The FSCS is funded by levies on authorised firms.

## DESIGNATED PROFESSIONAL BODIES

Professional firms are exempt from requiring direct regulation by the FSA if they carry out only certain restricted activities that arise out of, or are complementary to the provision of professional services, such as arranging the sale of shares on the instructions of executors or trustees or providing services to small, private companies. These firms are, however, supervised by Designated Professional Bodies (DPBs). There are a number of safeguards to protect consumers dealing with firms that do not require direct regulation. These arrangements include:

- the FSA's power to ban a specific firm from taking advantage of the exemption and to restrict the regulated activities permitted to the firms
- rules which require professional firms to ensure that their clients are aware that they are not authorised persons
- a requirement for the DPBs to supervise and regulate the firms and inform the FSA on how the professional firms carry on their regulated activities

The DPBs are:

## RECOGNISED INVESTMENT EXCHANGES

The FSA supervises seven Recognised Investment Exchanges (RIEs). These are organised markets on which member firms can trade investments such as equities and derivatives. Examples are the London Stock Exchange and the London Metal exchange. As a regulator the FSA must also focus on the impact of changes brought about by the continued growth in electronic trading by exchanges and other organisations. Issues such as how these changes affect market quality, reliability and access are important and the FSA works with the exchanges to ensure that new systems meet regulatory requirements. The RIEs are listed with their year of recognition:

## OMBUDSMAN SCHEMES

The Financial Ombudsman Service was set up by the Financial Services and Markets Act to provide consumers with a free, independent service for resolving disputes with financial firms. It brought together eight complaints-handling schemes within the financial sector including the Banking Ombudsman, the Insurance Ombudsman, the Investment Ombudsman and the Personal Investment Authority Ombudsman. It can make binding awards up to £100,000. The Financial Ombudsman Service can help with most financial complaints about:

- Banking services
- Credit cards issued by banks and building societies
- Endowment policies
- Financial and investment advice
- Health and loan protection insurance
- Household and buildings insurance
- Investment portfolio management
- Life assurance
- Mortgages
- Motor insurance
- Personal pension plans
- Private medical insurance
- Saving plans and accounts
- Stocks and shares
- Travel insurance
- Unit trusts and income bonds

Complainants must first complain to the firm involved. They do not have to accept the ombudsman's decision and are free to go to court if they wish.

The Pensions Ombudsman is appointed and operates under the Pension Schemes Act 1993 as amended by the Pensions Act 1995; he is responsible to Parliament. He investigates and decides complaints and disputes concerning occupational and personal pension schemes, primarily alleged maladministration by the persons responsible for managing pension schemes.

## THE TAKEOVER PANEL

---

The Takeover Panel was set up in 1968 in response to concern about practices unfair to shareholders in take-over bids for public and certain private companies. Its principal objective is to ensure equality of treatment, and fair opportunity for all shareholders to consider on its merits an offer that would result in the change of control of a company. It is a non-statutory body that operates the City code on take-overs and mergers.

The chairman, deputy chairmen and three lay members of the panel are appointed by the Bank of England. The remainder are representatives of the banking, insurance, investment, pension fund and accountancy professional bodies and the CBI.

# NATIONAL SAVINGS AND INVESTMENTS

National Savings and Investments (formerly National Savings) is one of the largest savings organisations in the UK, and is a government department and executive agency of HM Treasury. Savings and investment products are offered to personal savers and investors and the money is used to manage the national debt more effectively. When people invest in National Savings and Investments they are lending money to the government which pays them interest in return.

## TAX-FREE PRODUCTS

### NATIONAL SAVINGS AND INVESTMENT CERTIFICATES

#### INDEX-LINKED SAVING CERTIFICATES

Index-linked Saving Certificates are fixed rate investments that pay tax-free returns guaranteed to be above inflation. They are available in three and five-year terms and are sold in issues. The minimum investment for each issue is £100 and the maximum £15,000.

#### FIXED INTEREST CERTIFICATES

Fixed Interest Certificates are fixed rate investments that pay tax-free returns. They are available in two and five-year terms and are sold in issues for which the minimum investment is £100 and the maximum £15,000. The certificates are repaid in full with all interest gained at the end of the term.

#### PREMIUM BONDS

Premium Bonds are a government security and were first introduced in 1956. Premium Bonds enable savers to enter a regular draw for tax-free prizes, while retaining the right to get their money back. A sum equivalent to interest on each bond is put into a prize fund and distributed by monthly prize draws. The prizes are drawn by ERNIE (electronic random number indicator equipment) and are free of all UK income tax and capital gains tax. The top prize is £1 million.

Bonds are in units of £1, with a minimum purchase of £100; above this, purchases must be in multiples of £10, up to a maximum holding limit of £30,000 per person. The scheme offers a facility to reinvest prize wins automatically. Upon completion of an automatic prize reinvestment mandate, holders receive new bonds which are immediately eligible for future prize draws. Bonds can only be held in the name of an individual and not by organisations.

Bonds become eligible for prizes once they have been held for one clear calendar month following the month of purchase. Each £1 unit can win only one prize per draw, but it will be awarded the highest for which it is drawn. Bonds remain eligible for prizes until they are repaid. When a holder dies, bonds remain eligible for prizes up to and including the twelfth monthly draw after the month in which the holder dies.

Since the first prize draw in 1957, over 109 million prizes totalling £7 billion have been distributed.

#### CHILDREN'S BONUS BONDS

Children's Bonus Bonds were introduced in 1991. They can be bought for any child under 16 and will go on growing in value until he or she is 21. The bonds are sold in five-year issues at multiples of £25. For each issue the minimum holding is £25 and the maximum holding is £1,000 per child. Bonds for children under 16 must be held by a parent or guardian. All returns are totally exempt from UK income tax and a bonus is payable if the bond is held for the full five years.

## OTHER PRODUCTS

### GUARANTEED EQUITY BONDS

Guaranteed Equity Bonds are five year investments where the returns are linked to the performance of the FTSE-100 index with a guarantee that the original capital invested will be returned even if the FTSE-100 index fell over the five years. They are sold in limited issues with a minimum investment of £1,000 and a maximum of £1 million. The returns are subject to income tax on maturity.

### SAVINGS AND INVESTMENT ACCOUNTS

The Easy Access Savings Account was launched in January 2004 replacing the Ordinary Account (also known as the Post Office Savings Account) which was closed on 31 July 2004. The Easy Access Savings Account, offers access to savings via Post Office counters, an ATM card, telephone and the internet and can be opened with a minimum balance of £100 and has a maximum limit of £2 million (£4 million jointly). The interest is paid without deduction of tax at source. Holders of the Ordinary Account can no longer undertake transactions except for closing the account or transferring the funds to an Easy Access Savings Account or the Investment Account.

The Investment Account is a passbook account and requires one month notice for withdrawals. Repayments can be made without notice but incur a penalty equivalent to the previous 30 days' interest on the amount withdrawn.

Since April 1999 Individual Savings Accounts (ISAs) have been offered by National Savings and Investments. A cash mini ISA can be opened with £10. Interest is calculated daily and is free of tax. The same regulations apply for ISAs offered by all companies.

### INCOME BONDS

National Savings and Investments Income Bonds were introduced in 1982. They are suitable for those who want to receive regular monthly payments of interest while preserving the full cash value of their capital. The bonds are sold in multiples of £500. The minimum holding is £500 and the maximum £1 million (sole or joint holding). Interest is calculated on a day-to-day basis and paid monthly. Interest is taxable but is paid without deduction of tax at source.

### PENSIONERS GUARANTEED INCOME BONDS

Pensioners Guaranteed Income Bonds were introduced in January 1994 and are designed for people aged 60 and

over who wish to receive regular monthly payments with a rate of interest that is fixed for a period whilst preserving the full cash value of their investment. Five, two and one-year terms are available and are sold in issues. The minimum limit for each issue is £500. The maximum holding is £1,000,000 (sole or joint holding) with the rate of interest fixed and guaranteed for each bond purchased. Interest is taxable but is paid without deduction of tax at source. The original capital investment is repaid in full at the end of the term.

#### FIXED RATE SAVINGS BOND

Fixed Rate Savings Bonds are investments that earn fixed rates of interest. Five, three and one-year terms are available and are sold in issues. The minimum investment is £500 and the maximum £1 million. Interest, from which basic rate tax is deducted at source, can be paid out or reinvested into the bond monthly, annually or at the end of the term. Holders can also choose where the interest is paid. The original capital investment is repaid in full at the end of the term.

#### CAPITAL BONDS

National Savings and Investments Capital Bonds were introduced in 1989. Five year Capital Bonds are sold in issues. The interest is taxable each year (for those who pay income tax) but is not deducted at source. For each issue, the minimum investment is £100 and the maximum £1 million. Capital Bonds are repaid in full with all interest gained at the end of five years.

#### TREASURER'S ACCOUNT

The Treasurer's Account, introduced in September 1996, offers attractive rates and security to non-profit making organisations such as charities, friendly societies, clubs, etc. The minimum holding is £10,000 and the maximum is £2 million.

#### FURTHER INFORMATION

For the latest information on National Savings and Investments' products and interest rates call T 0845-964 5000 or visit W [www.nsandi.com](http://www.nsandi.com) or a Post Office branch. To buy National Savings and Investments' products call T 0500-500 000 or visit [www.nsandi.com](http://www.nsandi.com) or a Post Office branch.

# THE LONDON STOCK EXCHANGE

The London Stock Exchange serves the needs of industry and investors by providing facilities for raising capital and a central market-place for securities trading. This market-place covers government stocks (called gilts), UK and overseas company shares (called equities and fixed interest stocks), and other instruments such as covered warrants and Exchange Traded Funds (ETFs).

## PRIMARY MARKETS

The Exchange enables companies to raise capital for development and growth through the issue of securities. For a company entering the market for the first time there is a choice of Exchange markets, depending upon the size, history and requirements of the company. The first is the Main Market. A company's securities are admitted to the Official List by the UK Listing Authority (UKLA), a division of the Financial Services Authority, and also admitted to trading by the Exchange.

The Alternative Investment Market (AIM) was established in June 1995. It enables small, young and growing companies to raise capital, widen their investor base and have their shares traded on a regulated market without the expense of a full Exchange listing. Many companies use AIM as a stepping-stone to a full listing.

Once admitted to the AIM, all companies are obliged to keep their shareholders informed of their progress, making announcements of a price-sensitive nature through a Primary Information Provider. At 31 December 2003 there were 1,557 UK companies listed on the London Stock Exchange; their equity capital had a total market value of £1,356 billion. In addition, 381 international companies were listed, with a total equity market value of £1,975 billion. By the end of 2003 AIM had attracted 754 companies, with a total capitalisation of £184 billion.

UK equity turnover in 2003 was £1,876,922 million with an average of 182,000 bargains a day. International equity turnover in 2003 totalled £1,759,120 million.

## BIG BANG

During 1986 the London Stock Exchange went through the greatest period of change in its 200-year history. In March 1986 it opened its doors for the first time to overseas and corporate membership, allowing banks, insurance companies and overseas securities houses to become members of the Exchange and to buy existing member firms. On 27 October 1986, three major reforms took place and became known as 'Big Bang':

- the abolition of scales of minimum commissions, allowing clients to negotiate freely with their brokers about the charge for their services
- the abolition of the separation of member firms into brokers and jobbers: firms are now broker/dealers, able to act as agents on behalf of clients; to act as principals buying and selling shares for their own account; and to become registered market makers, making continuous buying and selling prices in specific securities

- the introduction of the Stock Exchange Automated Quotations (SEAQ) system

Since the introduction of SEAQ in 1986, dealing in stocks and shares has taken place by telephone in the firms' own dealing rooms, rather than face to face on the floor of the Exchange. The Stock Exchange Electronic Trading Service (SETS), launched in 1997, introduced order-driven trading in which deals are executed electronically on an electronic order book. SETS runs alongside SEAQ and allows remote access to the Exchange. The new systems also provide increased investor protection. All deals taking place via the Exchange systems are recorded on a database which can be used to resolve disputes or to carry out investigations.

Firms Trading on the London Stock Exchange buy and sell shares on behalf of the public, as well as institutions such as pension funds or insurance companies. In return for transacting the deal, the broker will charge a commission, which is usually based upon the value of the transaction. The market makers, or wholesalers, in each security do not charge a commission for their services, but will quote the broker two prices, a price at which they will buy and a price at which they will sell. It is the middle of these two prices which is published in lists of share prices in newspapers.

## REGULATION

The Financial Services Authority (FSA) has overall responsibility for regulating the UK's financial industry under the provisions of the Financial Services Act 1986. This Act requires investment businesses to be authorised and regulated by a self-regulating organisation (SRO) and compels business to be conducted through a recognised investment exchange (RIE). The London Stock Exchange is an RIE, regulating three main markets: UK equities, international equities and gilts.

## DEVELOPMENTS

On 15 March 2000, the 298 members voted to become shareholders in a demutualised London Stock Exchange, making possible the further commercialisation of the company.

At the end of May 2001 the exchange announced its intention to list on its own main market. The exchange listed on 20 July following an annual general meeting on 19 July 2001. The full listing is intended to enable the Exchange to exploit business opportunities with greater flexibility.

In 2003 the London Stock Exchange created EDX London (European Derivatives Exchange), a new international equity derivatives business, in partnership with the OM Group.

# INSURANCE

## AUTHORISATION AND REGULATION OF INSURANCE COMPANIES

On 1 December 2001 the Financial Services Authority (FSA) assumed its powers under the Financial Services and Markets Act 2000. This saw the FSA take over responsibility for a wide range of activities including the authorisation of insurance companies operating in the UK, the regulation of investment related insurance products and the preparations for a statutory regulation regime for general insurance products.

**FINANCIAL SERVICES AUTHORITY**  
25 The North Colonnade, London E14 5HS  
T 020-7066 1000 W [www.fsa.gov.uk](http://www.fsa.gov.uk)

### AUTHORISATION

The FSA's role is to ensure that firms to which it grants authorisation satisfy the necessary financial criteria, that the senior managers of the company are 'fit and proper persons' and that unauthorised firms are not permitted to trade. This part of FSA's role was previously undertaken by HM Treasury under the Insurance Companies Act 1982 which was repealed when the Financial Services and Markets Act came fully into force. At the end of 2003 there were over 1,000 insurance companies and friendly societies with authorisation from the FSA to transact one or more classes of insurance business in the UK. However, the single European insurance market, established in 1994, gave insurers authorised in any other EU country automatic UK authorisation without further formality. This means a potential market of over 5,000 insurance companies.

### REGULATION

At present, only investment-related life insurance contracts are regulated by statute. This is achieved by the formulation (after consultation) by the FSA of rules and guidance for regulated organisations. The FSA is also responsible for consumer education and the reduction of financial crime, in particular money laundering.

### COMPLAINTS

Disputes between policyholders and life or general insurers can be referred to the Financial Ombudsman Service. Policyholders with a complaint against their financial services provider must firstly take the matter to the highest level within that organisation. Thereafter, if it remains unresolved, the problem can be referred, free of charge, to the Ombudsman who examines the facts of the complaint and delivers a decision which is binding on the insurer (but not the policyholder). Small businesses with a turnover of up to £1m can also use the Financial Ombudsman Service which covers not just insurers but banks, building societies and investment firms.

*Ombudsman, Walter Merricks*

## ASSOCIATION OF BRITISH INSURERS

Over 96 per cent of the world-wide business of UK insurance companies is transacted by the 380 members of the Association of British Insurers (ABI). The ABI is a trade association which protects and promotes the interests of life and general insurers. Only insurers authorised in EU countries are eligible for membership. Brokers, intermediaries and claims handlers may not join the ABI but may have their own trade associations.

**ASSOCIATION OF BRITISH INSURERS (ABI)**  
51 Gresham Street, London EC2V 7HQ  
W [www.abi.org.uk](http://www.abi.org.uk)  
*Chairman, Richard Harvey*  
*Director-General, Mary Francis*

## GENERAL INSURANCE STANDARDS COUNCIL

The General Insurance Standards Council (GISC) is a non-statutory regulatory organisation for the general insurance industry. It was initially intended that the GISC would regulate the sales, advisory and service standards of insurers, intermediaries and brokers. However, in December 2001 the Treasury announced that the selling of general insurance would be regulated by the FSA. The transfer of responsibilities to the FSA is expected to take place on 14 January 2005.

**GENERAL INSURANCE STANDARDS COUNCIL**  
110 Cannon Street, London EC4N 6EU

## BALANCE OF PAYMENTS

The insurance industry contributes 1.2 per cent to the UK's Gross Domestic Product (GDP). In 2002 insurance companies generated net exports of £6.9bn.

## TAKE-OVERS AND MERGERS

Falling stock market returns continued to make insurance companies unattractive take-over targets in 2003. The result was the continuation of a very quiet period for take-overs and mergers.

## GENERAL INSURANCE

Liability insurance came under the spotlight in 2003 with the announcement just before Christmas 2002 of two official inquiries into the cost and availability of liability insurance. The first, from the Office of Fair Trading looked at all types of liability insurance. The second enquiry was conducted by the Department of Work and Pensions (DWP) and focused on the future of the compulsory, unlimited employers' liability system in the UK. Both inquiries had reported by June 2003 and concluded that premiums for this type of cover were in fact low by European standards and premium increases reflected the greater risks being faced due to an increasingly litigious society. This did not satisfy

employers who continued to press the Government for action on premium levels. Insurers responded with an initiative on loss prevention and workplace risk reduction which the DWP applauded in its second and final report, published in autumn 2003.

Publicity surrounding the cost of commercial insurance lead to suggestions that other types general insurance premiums were rising sharply. However, the AA Premium Index suggested that premium increases for home and motor insurance were at their lowest for around six years.

1 January 2003 saw the ABI statement of principles on flood insurance come into effect. This committed all ABI members (all the major insurers) to continue to cover homes and businesses in areas protected from flood to the Government's minimum standard or where there were plans to reach those standards by 2007. This was followed in March 2003 by an announcement from the Government of a major reform of flood protection spending. As weather damage claims are a very important part of property insurers' calculations, insurers have been determined to ensure that the Government adheres to its promised action on flood defences.

Insurers were alarmed in June 2003 by the announcement that the EU's Employment and Social Affairs Commissioner was considering the introduction of anti-discrimination legislation which would outlaw taking sex into account when setting premiums. Insurers pointed out that consumers often benefited from their ability to rate men and women differently, as in the case of premium discounts for women drivers for motor insurance. The end of 2003 saw the publication of the Draft Directive and the continuation of fierce lobbying by insurers to try to prevent the effects of this proposal which they maintain restricts their ability to underwrite.

During 2003 the FSA published its draft conduct of business rules for regulating general insurance which take effect in January 2005. An unlikely alliance of insurers, brokers and the Consumers' Association united to persuade the Government to reverse the FSA's proposal to exclude travel insurance sold by travel agents from the regulatory scheme.

Claims figures from insurers were, on the whole, good for 2003 with a dry summer causing subsidence to be the only type of property insurance claim recording rises on the previous year.

## LONDON INSURANCE MARKET

The London Insurance Market is a unique wholesale marketplace and a distinct, separate sector of the UK insurance and reinsurance industry. It is the world's leading market for internationally traded insurance and reinsurance, its business comprising mainly overseas non-life large and high-exposure risks. The market is centred on the City of London, which provides the required financial, banking, legal and other support infrastructure. Currently 52 per cent of London Market business is transacted at Lloyd's with 45 per cent through insurance companies and 3 per cent through Protection and Indemnity Clubs. In 2002 the market had a written gross premium income of over £24,000 million. Around 140 Lloyd's brokers service the market.

The trade association for the international insurers and reinsurers writing primarily non-marine insurance and all classes of reinsurance business in the London Market is the International Underwriting Association (IUA).

INTERNATIONAL UNDERWRITING ASSOCIATION (IUA)

## LLOYD'S OF LONDON

Lloyd's of London is an international market for almost all types of general insurance. Lloyd's currently has a capacity to accept insurance premiums of around £15,000 million. Much of this business comes from outside Great Britain and makes a valuable contribution to the balance of payments.

A policy is underwritten at Lloyd's by a mixture of private and corporate members, with corporate members having been admitted for the first time in 1992. Specialist underwriters accept insurance risks at Lloyd's on behalf of members (referred to as 'Names') grouped in syndicates. There are currently 66 syndicates of varying sizes, each managed by an underwriting agent approved by the Council of Lloyd's.

Individual members are still in the majority at Lloyd's with a total of 2,048 individuals as opposed to 752 corporate members. In 2003 the market capacity of the corporate sector was £13,092 million while individuals represented £1,869 million of capacity.

Lloyd's is incorporated by an Act of Parliament (Lloyd's Acts 1971 onwards) and is governed by the Council of Lloyd's which has 18 members. The structure immediately below this changed when, in September 2002, Lloyd's Members voted at an Extraordinary General Meeting to implement a new franchise system for the market with the aim of improving profitability. The first move was the introduction of a new governance structure replacing the Lloyd's Market Board and the Lloyd's Regulatory Board with a new Lloyd's Franchise Board comprising 11 members. Four main Committees report to this Board.

The Corporation is a non-profit making body chiefly financed by its members' subscriptions. It provides the premises, administrative staff and services enabling Lloyd's underwriting syndicates to conduct their business. It does not, however, assume corporate liability for the risks accepted by its members. Individual members are responsible to the full extent of their personal means for their underwriting affairs.

At present, Lloyd's syndicates have no direct contact with the public. All business is transacted through insurance brokers accredited by the Corporation of Lloyd's. In addition, non-Lloyd's brokers in the UK, when guaranteed by Lloyd's brokers, are able to deal directly with Lloyd's motor syndicates, a facility which has made the Lloyd's market more accessible to the insuring public.

The FSA has ultimate responsibility for the regulation of the Lloyd's market. However, in situations where Lloyd's internal regulatory and compensation arrangements are more far-reaching, as for example with the Lloyd's Central Fund, which safeguards claim payments to policyholders, the regulatory role is delegated to the Council of Lloyd's.

Lloyd's also provides the most comprehensive shipping intelligence service in the world. The shipping and other information received from Lloyd's agents, shipowners, news agencies and other sources throughout the world is collated and distributed to the media as well as to the maritime and commercial sectors in general. *Lloyd's List* is London's oldest daily newspaper and contains news of general commercial interest as well as shipping information. *Lloyd's Shipping Index*, also published daily, lists some 25,000 ocean-going vessels in alphabetical order and gives the latest known report of each.

## DEVELOPMENTS IN 2003

The 2003 result, on a pro-forma annual accounting basis, of £1,900 million profit was little short of remarkable and many of those who maintained their confidence in the Lloyd's market during the heavy losses and unrest of the past decades might be forgiven for having a broad smile at this result. It saw a doubling of the record profit of 2002 and reflected the very 'hard market' currently being experienced. The lack of any substantial catastrophes or natural disasters giving rise to insurance claims also contributed to this record figure.

Naturally, insurers are not naive enough to imagine that this kind of market or results like these will occur indefinitely, but the result has certainly helped the new corporate structure at Lloyd's get off to an excellent start.

The Market was shocked and saddened in 2003 by the premature death of former Chairman Saxon Riley. Mr Riley chaired the committee that masterminded the recent changes to the Lloyd's market structure.

## LIFE AND LONG-TERM INSURANCE AND PENSIONS

Life insurance and pensions providers seem to have spent 2003 trying to persuade the public, regulators and politicians that their products are not as bad as the media and others would suggest. Figures published in July 2003 suggest they still have some way to go as sales of stakeholder pensions were down 22 per cent on the same period of the previous year. It was not all bad news, however, as a report published in March 2003 pointed out that the returns on a 10 year with-profit policy were 6.4 per cent compared to 3.7 per cent for an average deposit account and 1.5 per cent for the stock market generally. Politicians did not seem to be impressed though as, in December 2003, the Treasury Select Committee launched an inquiry into the life insurance and savings industry and 'grilled' leading industry and regulatory figures on pension mis-selling and endowments.

In December 2002 the Government published the Pensions Green Paper, which called for more financial education, lighter regulation and simpler products to encourage more people to make better provision for their retirement. Although the Green Paper contained some good ideas some commentators felt it did not go far enough to address the problem of the 'savings gap' which could leave thirteen million future pensioners with inadequate provision. In a move in July 2003 the

Government announced a Pension Protection Fund but showed no inclination to offer financial incentives to encourage more saving.

In January 2003 the Treasury turned down a call from the Consumers' Association for a formal review on endowment policies. This reaction may have been based on a report from the Financial Services Authority which suggested that eight out of ten endowment mortgage holders said their mortgage was either on track or they had the savings to make up any shortfall. The survey also stated that two-thirds of those surveyed blamed the economy for their endowment's performance rather than their provider.

The war on Iraq raised some well-worn issues with insurers denying press reports that life insurance policies for service men and women would not pay if the policyholder was killed in action. This is wrong as, assuming it is correctly arranged, a life insurance policy pays out on death – with some conditions relating to suicide – no matter how it is caused.

The move by the EU to outlaw premium differences for men and women outlined in the general insurance section (above) was also causing concerns for life insurers. Annuities and life insurances both take account of the differing life expectancies of men and women – action which could be outlawed under the EU proposals.

In general, 2003 was another difficult year for life insurers with poor investment returns and bad publicity substantially reducing sales of new endowment policies.

# MUTUAL SOCIETIES

The term 'mutual societies' covers member-based organisations registered under the Building Societies Acts, the Friendly Societies Acts and the Industrial and Provident Societies Acts, many of which are familiar, long-established names.

Until 30 November 2001 the various statutory responsibilities for the supervision and registration of mutual societies rested with the Chief Registrar of Friendly Societies (CR), the Building Societies Commission (BSC) and the Friendly Societies Commission (FSC). The office of the CR and the Registry of Friendly Societies (RFS), from which the BSC and FSC were more recently supported, dated back to 1875. However, the existence in one form or another of an office for the registration of friendly societies dating back to 1829, was seen as bringing regulation and social control over a potentially revolutionary popular movement.

In 1997 the Government announced the creation of a single financial regulatory authority for the UK, the Financial Services Authority (FSA). The FSA initially supported the functions of the CR, BSC and FSC under contract. On the full entry into force of the Financial Services and Markets Act 2000 on 1 December 2001, the responsibilities and powers of the BSC, FSC and CR passed to the FSA. Information on the numbers of mutual societies with additions to and removals from the register in the year to 30 November 2002 are given in the following table:

	On register at beginning of year	Added during year	Removed during year	On register at end of year
<i>Friendly Societies Acts</i>

## *Building Societies Act*

Building Societies	66	-	1	65
--------------------	----	---	---	----

More recent, similarly detailed registration statistics have not been published by the FSA despite the intentions set out in its publication *Reporting on Mutual Societies under the Single Regulator* (June 2002). At the time of going to press the information made available gave the number of societies registered with the FSA as at 31 March 2004 in the following terms:

<i>Industrial and Provident Societies*</i>	<i>Societies (and branches) registered under the Friendly Societies Acts 1974 and 1992**</i>	<i>Credit Unions†</i>	<i>Building Societies‡</i>
8,322	2,377	628	63

\* Registered under the Industrial and Provident Societies Act 1965

\*\* Includes friendly societies, working men's clubs, benevolent societies and specially authorised societies

† Registered as credit unions under the Industrial and Provident Societies Act 1965

‡ Registered under the Building Societies Act 1986

## FRIENDLY SOCIETIES IN BRITAIN

Four different classes of society are registered under the Friendly Societies Act 1974. These are friendly societies, benevolent societies, working men's clubs and specially authorised societies. Friendly societies are voluntary mutual organisations, where the main purposes are assisting members during sickness, unemployment or retirement, and the provision of life assurance. Many of the older traditional societies complement their business activities by social activity and a general care for individual members in ways normally outside the scope of a purely commercial organisation. There are three main categories of friendly societies: societies with separately registered branches, commonly called orders; centralised societies, which conduct business directly with members (having no separately registered branches); and collecting societies which have traditionally conducted home service assurance. Collecting societies benefit from a number of deregulatory measures included in the Financial Services and Markets Act 2000 involving relaxation for the future administration of existing contracts and by the removal of

special requirements, in the industrial assurance legislation, concerning the selling of future contracts. Such business is subject to the general conduct of business rules governing the marketing and selling of investment products.

The Friendly Societies Act 1992 created a new legislative framework for friendly societies, enabling them to provide a wider range of services to their members and allowing them to compete on more equal terms with other financial institutions. At the same time it provided for more flexible prudential supervision to safeguard members of societies.

The Act enabled friendly societies to incorporate and establish subsidiaries, to provide various financial and other services to their members and the public. The activities which subsidiaries are able to conduct include those to establish and manage unit trust schemes and personal equity plans; to arrange for the provision of credit, whether as agents or providers; to carry on long-term or general insurance business; to provide insurance intermediary services; to provide fund management services for trustees of pension funds; to administer estates and execute trusts of wills; and to establish and manage sheltered housing, residential homes for the elderly, hospitals and nursing homes.

The Act established a new framework to oversee friendly societies, including a Friendly Societies Commission, now superseded by the FSA, whose principal functions are to regulate the activities of friendly societies, promote their financial stability and protect members' funds. All friendly societies carrying on insurance or non-insurance business require authorisation by the FSA, which has a broad range of prudential powers.

At 31 December 2001 there were 37 'life directive' societies, i.e. those subject to the requirements of EU Life Insurance Directives, and five 'incorporated' societies which were transacting long-term insurance business but not subject to the Directives. These 42 societies accounted for over 95 per cent of the total funds of the movement at 31 December 2001. Of the remaining 194 societies on the register, representing five per cent of the movement, almost 70 per cent were not authorised to accept new business though they continued to have liabilities to meet.

#### LIFE DIRECTIVE AND INCORPORATED SOCIETIES

	2000	2001
No. of Societies	43	42
Membership (000s)	5,512	4,936
Contribution income (000s)	1,219,663	1,285,166
Investment income (000s)	255,772	45,130
Benefits paid (000s)	1,201,628	1,252,807
Management expenses (000s)	327,864	235,895
Total assets	15,019,152	14,285,338

No new friendly societies may now be registered under the 1974 Act. Benevolent societies are established for any charitable or benevolent purpose, to provide the same type of benefits as would be permissible for a friendly society, but in contrast the benefits must be for persons who are not members instead of or in addition to members. Working men's clubs provide social and recreational facilities for members. Specially authorised societies are registered for any purpose authorised by the Treasury as a purpose to which some or all of the provisions of the 1974 Act ought to be extended. Examples are societies for the promotion of science,

literature and the arts, or to enable members to pursue an interest in sports and games.

## INDUSTRIAL AND PROVIDENT SOCIETIES IN BRITAIN

The Industrial and Provident Societies Act 1965 provides for the registration of societies and lays down the broad framework within which they must operate. Internal relations of societies are governed by their registered rules. Registration under the Act confers upon a society corporate status by its registered name with perpetual succession and a common seal, and limited liability. A society qualifies for registration if it is carrying on an industry, business or trade, and it satisfies the FSA either (a) that it is a bona fide co-operative society, or (b) that in view of the fact that its business is being, or is intended to be, conducted for the benefit of the community, there are special reasons why it should be registered under the Act rather than as a company under the Companies Act.

The Credit Unions Act 1979 added a new class of society registrable under the 1965 Act. It also made provision for the supervision of these savings and loan bodies. Unlike other classes, where the role of the FSA remains solely that of a registration authority, for Credit Unions (CUs) it became also the financial supervisor. On 2 July 2002 a new system of regulation by the FSA for all CUs came into effect. The key features of the new regulatory regime for CUs were: to meet a basic test of solvency (with additional capital requirements for the larger CUs); to maintain a minimum liquidity ratio; to meet the standard in FSA's rules for approved persons; to operate an effective complaints scheme with access to the Financial Ombudsman; to participate in the Financial Services Compensation Scheme providing members with deposit protection for the first time.

New legislation for industrial and provident societies, the Industrial and Provident Societies Act 2002, came into force in September 2002. It introduced two measures. The first brought industrial and provident societies into line with building societies on voting thresholds for conversion to company status. A resolution to convert would need to secure a 75 per cent majority on a minimum vote of 50 per cent of the membership to be successful. The second measure enabled the legislation to be amended more easily to bring it into line with company law.

Comparative figures for 2001 show that the housing sector remained the largest in terms of asset holdings at 30,724 million, followed by the general service sector at 25,409 million. Registration statistics for the year to November 2002 show that the clubs sector remained the largest in terms of numbers of societies with 3,269 clubs on the register at the beginning of the year, increasing to 3,282 by the end. The total number of societies (excluding credit unions) showed a net increase from 8,304 to 8,312 in the year to 30 November 2002.

Total membership in the credit union sector continued to grow with 366,000 members at the end of 2001 compared to 325,000 a year earlier. However, in 2001 there were only 23 new credit unions registered - the lowest number since 1987 - and 18 credit unions closed. In 2002 the total number of credit unions reduced from 698 to 686. By the 31 March 2004 the total was down to 628.

The principal statistics for all classes of society at the end of 2001 are given below. In this case, the figures relate to the end of 2001 except for the agriculture sector which are given as at the end of 2000.

	No. of societies	No. of members 000s	Funds of members £000s	Total assets £000s
Retail	133	4,558	1,904,469	3,233,109
Wholesale	65	45	858,925	2,573,656

Clubs	3,205	1,828	358,202	511,302
General				
service	1,108	605	2,193,797	25,409,438
Housing	2,865	434	9,078,603	30,724,286
Credit unions	698	366	248,674	263,404

## BUILDING SOCIETIES IN THE UK

The Building Societies Act 1997, which received royal assent on 21 March 1997, made substantive amendments to, but did not replace, the Building Societies Act 1986. It liberalised the statutory regime for building societies to enable them to compete on more level terms with other financial institutions without having to forego their mutual status. The Building Societies Act 1986 gave building societies a completely new legal framework for the first time since the initial comprehensive building society legislation in 1874. The 1986 Act set out detailed provisions in relation to: the constitution of building societies; building societies' powers in relation to raising funds, advances, loans, other assets and the provision of services; the powers of control of the Building Societies Commission (now superseded by the FSA); protection of investors, and complaints and disputes and; management of building societies, accounts and audit and mergers and transfers of business.

The 1986 Act was prescriptive in respect of building societies' powers and the way in which they were exercised. However, it gave numerous powers to the Building Societies Commission and/or the Treasury to make statutory instruments which, subject to parliamentary approval, can amend, extend and supplement the provisions of the Act. Since it came into force on 1 January 1987 the Act had been amended and extended considerably, especially in respect of building societies' powers.

The main purposes of the Building Societies Act 1997 are to: remove the prescriptive powers' regime relating to building societies and to replace it with a permissive

regime with appropriately revised balance-sheet 'nature limits', thus increasing the commercial freedom of societies and allowing increased competition and wider choice for customers; enhance the powers of control of the Building Societies Commission (now superseded by the FSA) and; introduce a package of measures to enhance the accountability of building societies' boards to their members and to make changes to the provisions relating to the transfer of a building society's business to a company.

The Act came fully into force on 21 October 1997. Under it a building society may pursue any activities set out in its memorandum, subject only to: principal purpose: its purpose or principal purpose must be that of making loans which are secured on residential properties and are funded substantially by its members; lending limit: at least 75 per cent of its business assets must be loans fully secured on residential property; funding limit: at least 50 per cent of its funds must be raised in the form of shares held by individual members; restrictions: subject to certain exceptions, it must not act as a market maker in securities, commodities or currencies; trade in commodities or currencies; enter into transactions involving derivatives, except in relation to hedging; nor create a floating charge over its assets and; prudential: it must comply with the criteria of prudential management.

All authorised building societies, after making the necessary changes to their memoranda and rules, are now operating under the more liberal statutory regime set out in the 1997 Act.

## OMBUDSMAN SCHEME

Complaints about the actions of building societies may be resolved through societies' own internal complaints procedures. All authorised building societies are, in addition, members of the Building Societies Ombudsmen scheme which provides an independent service to consider and determine complaints which are within its remit. The Financial Ombudsman Services provides consumers with a free, informal and independent service for resolving disputes with most providers of financial products and services. Complainants may contact the Service at South Quay Plaza, 183 Marsh Wall, London E14 9SR T 020-8964 1000.

Statistics for building society service activity, liabilities and assets for the five years 1999–2003 are set out in the following tables:

### BUILDING SOCIETIES 1999–2003 SERVICE ACTIVITY

Year	Societies Authorised	Branches	Estate		Shareholders	Depositors	Borrowers	Advances During Year		
			Agency Offices	Staff Full time Part time				Number 000s	Amount £m	
1999	69	2,384	611	32,722	10,379	21,774	722	3,044	519	26,555

Beer and cider duties	3.1	3.2	3.3
Betting and gaming duties	1.3	1.3	1.3
Air passenger duty	0.8	0.8	0.9
Insurance premium tax	2.1	2.3	2.4
Landfill tax	0.5	0.6	0.6
Climate change levy	0.8	0.8	0.8
Aggregates levy	0.2	0.3	0.3
Customs duties and levies	1.9	1.9	1.9
<b>TOTAL CUSTOMS AND EXCISE</b>	<b>108.7</b>	<b>116.4</b>	<b>121.6</b>
Vehicle excise duties	4.6	4.7	4.9
Oil royalties	0.4	0.0	0.0
Business rates <sup>3</sup>	18.5	18.7	19.1
Council tax	16.7	18.6	19.7
Other taxes and royalties <sup>4</sup>	10.9	12.3	13.2
<b>NET TAXES AND SOCIAL SECURITY CONTRIBUTIONS<sup>5</sup></b>	<b>375.6</b>	<b>398.2</b>	<b>429.4</b>
Accrual adjustments on taxes	-0.3	3.0	0.8
<i>Less own resources contribution to EC budget</i>	<i>-4.4</i>	<i>-4.5</i>	<i>-3.7</i>
<i>Less PC corporation tax payments</i>	<i>-0.1</i>	<i>-0.1</i>	<i>-0.1</i>
Tax credits adjustment <sup>6</sup>	1.1	0.5	0.6
Interest and dividends	4.5	4.1	4.9
Other receipts <sup>7</sup>	19.8	20.3	22.7
<b>CURRENT RECEIPTS</b>	<b>396.2</b>	<b>421.5</b>	<b>454.7</b>
North Sea revenues <sup>8</sup>	4.9	4.3	3.6

<sup>1</sup> National Accounts measure: gross of enhanced and payable tax credits.

<sup>2</sup> Includes enhanced company tax credits

<sup>3</sup> Includes district council rates in Northern Ireland paid by business.

<sup>4</sup> Includes VAT refunds and money paid into the National Lottery Distribution Fund.

<sup>5</sup> Includes VAT and 'traditional own resources' contributions to EC budget.

<sup>6</sup> Tax credits which are scored as negative tax in the calculation of net taxes and social security contributions but expenditure in the National accounts.

<sup>7</sup> Includes gross operating surplus and rent; net of oil royalties and business rate payments by Local Authorities.

<sup>8</sup> Consists of North Sea corporation tax, petroleum revenue tax and royalties.

### GOVERNMENT EXPENDITURE

The Economic and Fiscal Strategy Report in June 1998 introduced changes to the public expenditure control regime. Three-year departmental expenditure limits (DELs) now apply to most government departments. Spending which cannot easily be subject to three-year planning is reviewed annually in the Budget as annually managed expenditure (AME). Current and capital expenditure are treated separately.

#### DEPARTMENTAL EXPENDITURE LIMITS

# COST OF LIVING AND INFLATION RATES

The first cost of living index to be calculated took July 1914 as 100 and was based on the pattern of expenditure of working-class families in 1914. The cost of living index was superseded in 1947 by the general index of retail prices (RPI), although the older term is still popularly applied to it.

The Harmonised Index of Consumer Prices (HICP) was introduced in 1997 to enable comparisons within the European Union using an agreed methodology. On 10 December 2003 the Chancellor of the Exchequer announced that the UK inflation target was to change from one based on the Retail Prices Index excluding mortgage interest payments (RPIX) to one based on the HICP. At this time the National Statistician renamed the HICP as the Consumer Prices Index (CPI) to reflect its role as the main target measure of inflation for macroeconomic purposes. The UK HICP and CPI are one and the same and do not replace the RPI as the most general purpose measure of inflation for UK domestic use. Pensions and benefits and index-linked gilts continue to be calculated with reference to RPI or its derivatives.

## GENERAL INDEX OF RETAIL PRICES

The general index of retail prices measures the changes month by month in the average level of prices of goods and services purchased by households in the United Kingdom. The Office for National Statistics reviews the components of the Retail Price Index once every year to reflect changes in consumer preferences and the establishment of new products. The expenditure of high-income households (top 4 per cent) and of households which derive at least three quarters of their total income from state pensions and benefits are excluded.

The index is compiled using a selection of around 650 goods and services, and the prices charged for these items are collected at regular intervals in about 150 locations throughout the country. For the index, the price changes are weighted in accordance with the pattern of consumption of the average family.

## INFLATION RATE

The twelve-monthly percentage change in the 'all items' index of the RPI is usually referred to as the rate of inflation. The percentage change in prices between any two months/years can be obtained using the following formula:

$$\frac{\text{Later date RPI} - \text{Earlier date RPI}}{\text{Earlier date RPI}} \times 100$$

e.g. to find the rate of inflation for 1997, using the annual averages for 1996 and 1997:

$$\frac{157.5 - 152.7}{152.7} \times 100$$

## PURCHASING POWER OF THE POUND

Changes in the internal purchasing power of the pound may be defined as the 'inverse' of changes in the level of prices: when prices go up, the amount which can be purchased with a given sum of money goes down. To find the

purchasing power of the pound in one month or year, given that it was 100p in a previous month or year, the calculation would be:

$$100p \times \frac{\text{Earlier month/year RPI}}{\text{Later month/year RPI}}$$

Thus, if the purchasing power of the pound is taken to be 100p in 1975, the comparable purchasing power in 2002 would be:

$$100p \times \frac{34.2}{176.2} = 19.4p$$

For longer term comparisons, it has been the practice to use an index which has been constructed by linking together the RPI for the period 1962 to date; an index derived from the consumers expenditure deflator for the period from 1938 to 1962; and the prewar 'cost of living' index for the period 1914 to 1938. This long-term index enables the internal purchasing power of the pound to be calculated for any year from 1914 onwards. It should be noted that these figures can only be approximate.

	<i>Annual average RPI (January 1987 = 100)</i>	<i>Comparable purchasing power of £ in 1998</i>	<i>Rate of inflation (annual average)</i>
1914	2.8	58.18	
1915	3.5	46.54	
1920	7.0	23.27	
1925	5.0	32.58	
1930	4.5	36.20	
1935	4.0	40.72	
1938	4.4	37.02	
<i>There are no official figures for 1939-45</i>			
1946	7.4	22.01	
1950	9.0	18.10	
1955	11.2	14.54	
1960	12.6	12.93	
1965	14.8	11.00	
1970	18.5	8.80	
1975	34.2	4.76	
1980	66.8	2.44	18.0
1985	94.6	1.72	6.1
1990	126.1	1.29	9.5
1995	149.1	1.09	3.5
1996	152.7	1.07	2.4
1997	157.5	1.03	3.1
1998	162.9	1.00	3.4
1999	165.4	0.98	1.5
2000	170.3	0.96	3.0
2001	173.3	0.94	1.8
2002	176.2	0.92	1.7
2003	181.3	0.90	2.9

The RPI figures are published by the Office for National Statistics on either the second or third Tuesday in each month in a Consumer Price Indices bulletin and electronically on the National Statistics website [www.statistics.gov.uk](http://www.statistics.gov.uk). They are also available as a recorded message which can be heard by telephoning 020-7533 5866.

# TAXATION

## INCOME TAX

Income tax is charged on the taxable income of individuals for a year of assessment commencing on 6 April and ending on the following 5 April. Many changes have been introduced during recent years which affect both the calculation of income chargeable to tax and the rate or rates at which the amount of tax due must be determined. The following information is confined to the year of assessment 2004–5 ending on 5 April 2005 and has only limited application to earlier years. Changes which are to come into operation at a later date are briefly mentioned where information is available.

An individual's liability to satisfy income tax for 2004–5 is determined by establishing the level of taxable income for the year. This income must then be allocated between three different headings, namely: (a) all income excluding that arising from savings and dividends; (b) income from savings; and (c) company dividends, including distributions.

Once this allocation has been completed the first calculation must be limited to taxable income excluding that arising from both savings and dividends. This income will be reduced by an individual's personal allowance and any other available allowances. The first £2,020 of taxable income remaining is assessed to income tax at the starting rate of 10 per cent. The next £29,380 is taxable at the basic rate of 22 per cent. Should any excess over £31,400 (£2,020 plus £29,380) remain, this will be taxable at the higher rate of 40 per cent.

The second calculation is limited to income from savings, if any. Liability may arise at the starting rate of 10 per cent, the lower rate of 20 per cent or the higher rate of 40 per cent. There is no liability to income tax at the basic rate of 22 per cent. The appropriate rate which must be used is determined by adding income from savings to other taxable income, excluding dividends. To the extent that the addition does not increase taxable income above £2,020, income from savings is taxed at the starting rate of 10 per cent. Should this level be exceeded but total income does not reach £31,400 any excess remains taxable at the lower rate of 20 per cent. Where the addition of income from savings extends total income above £31,400 the excess is taxed at the higher rate of 40 per cent.

Finally, any company dividends are taxed at either the Schedule F ordinary rate of 10 per cent or the Schedule F upper rate of 32.5 per cent. The amount of dividends (with the addition of any tax credit) must be added to taxable income comprising general income together with income from savings. If this addition does not increase total taxable income above £31,400 dividends remain taxable at the ordinary rate of 10 per cent only. However, if or to the extent that the addition discloses dividends exceeding the £31,400 level the excess is taxed at the upper rate of 32.5 per cent.

Trustees administering settled property and personal representatives dealing with the estate of a deceased person are chargeable to income tax at the basic rate of 22 per cent. Where trustees retain discretionary powers or income from settled property is accumulated, liability may

be increased to 40 per cent. Lower rates apply where income is received in the form of dividends. It is expected that for 2005–6 and future years the first £500 of trust income will be taxed at the basic rate, in substitution for 40 per cent.

Companies residing in the UK are not liable to income tax but suffer corporation tax on income, profits and gains. Income arising overseas will often incur liability to foreign taxation. If that income is also chargeable to UK income tax, excessive liability could arise. The UK has concluded double taxation agreements with the governments of many overseas territories and these ensure that the same slice of income is not doubly taxed.

## HUSBAND AND WIFE

A husband and wife are separately taxed, with each entitled to his or her personal allowance. A married man 'living with' his wife can only obtain a married couple's allowance if one party to the marriage was over the age of 64 years before 6 April 2000. In the absence of any claim, this allowance must be used by the husband but where any balance remains the surplus may be transferred to the wife. It is possible for a married woman to claim half the basic married couple's allowance as of right. The entire basic allowance may be claimed by the wife, if her husband so agrees. Each spouse may obtain other allowances and reliefs where the required conditions are satisfied. Income must be accurately allocated between the couple by reference to the individual beneficially entitled to that income. Where income arises from jointly-held assets, this must be apportioned equally between husband and wife. However, from 6 April 2004 where the assets comprise shares in closely controlled companies, the allocation of dividends and other distributions will be based on the beneficial interests of each spouse. In other cases where the beneficial interests in jointly-held assets are not equal, a special declaration can be made to apportion income by reference to the actual interests in that income.

## SELF-ASSESSMENT

Self-assessment for income tax purposes affects individuals, trustees and personal representatives. Central to self-assessment is the requirement to deliver a completed tax return. This must normally be submitted by 31 January following the end of the year of assessment (the previous 5 April) to which the return relates. The taxpayer must also calculate the amount of income tax due. If a taxpayer wishes the Inland Revenue to calculate the tax due, the return must be forwarded to the Inland Revenue not later than the previous 30 September.

It is the responsibility of the taxpayer to submit payments of income tax on time. There are three different dates on which payments may fall due:

- (a) an interim payment due on 31 January in the year of assessment itself
- (b) a second interim payment due on the following 31 July
- (c) a balancing payment, or possibly a repayment, on the following 31 January

The two interim payments will be based on tax payable

for the previous year of assessment but liability may be reduced where income has fallen or avoided entirely where the amounts are not substantial.

The impact of self-assessment is largely restricted to some nine million persons receiving tax returns. These comprise self-employed individuals, those receiving income from the exploitation of land in the UK, company directors, others with investment income liable to higher rate income tax, trustees and personal representatives. Elderly persons receiving small amounts of untaxed income may be excluded from the need to complete a tax return. Others having relatively straightforward affairs may complete a shortened version of the normal return form.

Failure to submit completed tax returns by 31 January or to discharge payments of income tax on time will incur a liability to interest, surcharges and penalties.

## INCOME TAXABLE

For many years income tax has been assessed using a range of different schedules, with each applying to determine both the extent of liability and the amount to be included in taxable income. In most instances these schedules require that the actual income arising, or that which is deemed to arise, in a year of assessment will be charged to income tax for that year. However, a different basis must be used for business profits taxable under Case I or Case II of Schedule D. This basis requires taxable profits to be those for the business accounting period ending in the year of assessment, with special adjustments for the opening and closing years of a business.

The use of various schedules is being rapidly eroded. Schedule B no longer applies following the withdrawal of income tax liability on most commercial woodlands in the UK. Schedule C has also been withdrawn as a result of further changes in the tax system. However, as a result of the income tax legislation being re-written Schedule E ceased to apply on 6 April 2003, although this did not affect future liability to income tax on matters previously dealt with under that schedule. It is anticipated that the remaining schedules will be withdrawn on 6 April 2005 but, similarly, the replacement of those schedules with new legislation is unlikely to have any significant impact on income tax commitments.

The contents of those schedules which remain in operation for 2004–5 is outlined below, with a brief reference to the now obsolete Schedule E.

### *Schedule A*

Tax is charged under Schedule A on the annual profits or gains arising from a business carried on for the exploitation of land in the UK. The determination of profits from a Schedule A business adopts principles identical to those used when establishing the profits or gains of a trade, profession or vocation. Rents and other income from the exploitation of land are included in the calculation, and outgoings incurred wholly and exclusively for the purposes of the Schedule A business may be deducted from income.

Schedule A does not extend to profits from farming, market gardening or woodlands, nor does it apply to mineral rents and royalties. Premiums arising on the grant of a lease for a period not exceeding 50 years in duration are treated as rents. However, the amount of the taxable premium may be reduced by 2 per cent for each complete year, after the first 12 months, of the leasing period. Income arising from the provision of certain furnished holiday accommodation attracts a number of tax

advantages not otherwise available for most income chargeable under Schedule A. Receipts not exceeding £4,250 annually and accruing to an individual from letting property furnished in his or her own home are usually excluded from liability to income tax.

### *Schedule D*

This Schedule is divided into six Cases:

*Cases I and II* – profits arising from trades, professions and vocations, including farming and market gardening. Profits must be calculated on an accounting basis which provides ‘a true and fair view’ of business results. This remains subject to any statutory adjustment which may be required. For example, only sums laid out ‘wholly and exclusively’ for the purposes of a business may be subtracted from receipts, notwithstanding that those outgoings may reflect a proper accounting charge. Capital expenditure incurred on assets used for business purposes will often produce an entitlement to capital allowances which reduce the profits chargeable. These profits may also be reduced by claims for loss relief and other matters.

*Case III* – interest on government stocks not taxed at source, interest on National Savings and Investments deposits and discounts. Interest up to £70 on ordinary National Savings and Investments deposits is exempt from income tax. The exemption applies to both husband and wife separately. Interest on National Savings and Investments special investment accounts is not exempt. Interest and other items of savings income incur liability at the starting rate, lower rate or the higher rate depending on the level of the recipient’s income.

*Cases IV and V* – interest from overseas securities, rents, dividends and most other income accruing outside the UK. Assessment is based on the full amount of income arising, whether remitted to the UK or retained overseas, but individuals who are either not domiciled in the UK or who are ordinarily resident overseas may be taxed on a remittance basis. Interest received on most overseas investments is chargeable at the same rates as those which apply to interest from sources within the UK. Overseas dividends are usually taxed at 10 per cent or 32.5 per cent.

*Case VI* – sundry profits and annual receipts not assessed under any other Case or Schedule. These may include insurance commissions, post-cessation receipts from a discontinued business and numerous other receipts specifically charged under Case VI.

### *Schedule E*

This Schedule ceased to apply after 5 April 2003. Matters previously dealt with under Schedule E have been replaced by the following three headings, none of which involves the use of a Schedule:

- (a) employment income
- (b) pension income
- (c) social security income

This change in approach has not significantly affected the calculation of, and liability to, income tax (see below).

### *Schedule F*

This Schedule is concerned with dividends and distributions received from a UK resident company.

## EMPLOYMENT INCOME

Net taxable earnings arising in a year of assessment ending on 5 April are chargeable to income tax as employment income. This charge reflects taxable earnings

remaining after subtracting the total of allowable deductions.

Taxable earnings will include all salaries, wages, director's fees and other money sums. In addition, the value of a wide range of benefits must be added. These benefits include the provision of living accommodation on advantageous terms and advantages arising from the use of vouchers.

Further taxable benefits accrue to directors and employees who are not classed as 'lower paid'. These exempt individuals receive annual earnings of no more than £8,500 calculated by including potentially taxable benefits. Such taxable benefits include the reimbursement of expenses, the availability of motor cars for private motoring, the provision of fuel for private motoring, interest free loans and other benefits provided at the employer's expense. The cost of providing a limited range of childcare facilities and a works bus for the transportation of employees may be ignored. Mileage allowances paid to employees who provide their own motor vehicles or cycles for business travel may also be excluded, unless they exceed stated limits.

All taxable earnings received by an individual who is resident, ordinarily resident and domiciled in the UK are chargeable to income tax. However, limitations may apply where there is some foreign element.

A 'receipts basis' applies for determining the year of assessment to which taxable earnings must be allocated. In general, the date of receipt will comprise the earlier of the date of payment or the date entitlement arises. In the case of company directors it is the earlier of these two dates, with the addition of the following three, which establishes the time of receipt: the date earnings are credited in the company's books; where earnings for a period are determined after the end of that period, the date of determination; where earnings for a period are determined in that period, the last day of that period.

In arriving at the amount of net taxable earnings all expenses incurred wholly, exclusively and necessarily in the performance of the duties, together with the cost of business travel, may be deducted. Fees and subscriptions paid to certain professional bodies and learned societies may also be deducted. In addition, fees paid to managers by entertainers, actors and others in respect of taxable earnings may be deducted, up to a maximum of 17.5 per cent.

Compensation for loss of office and other sums received on the termination of an employment are assessable to income tax. However, the first £30,000 may be excluded with only the balance remaining chargeable, unless the compensatory payment is linked with the retirement of the recipient or the performance of their duties.

A range of other matters loosely linked to an employment may also create employment income. Rules similar to those outlined above apply also to the holder of an office.

#### PENSION INCOME

Pensions received from various sources, including an occupational pension scheme, personal pension scheme, retirement annuity scheme and from other types of arrangement are treated as pension income chargeable to income tax. Liability is based on the amounts received in a year of assessment. However, where the pension is attributable to certain payments made overseas, only 90 per cent is taxable.

#### SOCIAL SECURITY INCOME

Many social security benefits are not liable to income tax. However, benefits which are taxable as social security income include the state retirement pension, widow's pension, widowed mother's allowance and jobseeker's allowance. Short-term sick pay and maternity pay payable by an employer are also chargeable to tax. Incapacity benefit remains taxable but no liability arises on most short-term benefit.

#### PAY AS YOU EARN

The Pay as You Earn (PAYE) system is not an independent form of taxation but is designed to collect income tax by deduction from most taxable earnings. When paying taxable earnings to employees an employer is usually required to deduct income tax and to account for that tax to the Inland Revenue. In many cases this deduction procedure will fully exhaust the individual's liability to income tax, unless there is other income. The date of 'receipt' used to establish the time employment income arises also identifies the date of 'payment' when establishing liability to PAYE.

The PAYE system is used to collect tax on certain payments made 'in kind'. The system is also applied when collecting tax on many pensions, jobseeker's benefits, some incapacity benefits and maternity pay.

#### INCOME FROM SAVINGS

Many payments of interest made by building societies and banks are received after the deduction of income tax at the lower rate of 20 per cent. However, investors not liable to income tax may arrange to receive interest gross with no tax being deducted on payment.

Interest of this nature represents 'income from savings', an expression which also extends to interest on government securities, interest on a restricted range of National Savings and Investments products and the income element of purchased life annuities. In addition, 'income from savings' may extend to other income of a similar nature arising outside the United Kingdom. Not all forms of investment income are included in the list, notable exceptions comprising income from letting property and company dividends.

A great deal of interest arising from sources in the United Kingdom will be received after deduction of income tax at the lower rate of 20 per cent. Although this interest is not taxable at the basic rate it remains chargeable at the starting rate of 10 per cent, the lower rate of 20 per cent or the higher rate of 40 per cent. Where such interest, when added to other income, excluding dividends, falls within the starting rate band tax will be due at 10 per cent. As tax will have been suffered by deduction at the lower rate of 20 per cent a repayment of the excess may well be obtained from the Inland Revenue. To the extent that interest from savings when added to other income exceeds £2,020 but does not exceed £31,400, liability arises at the lower rate of 20 per cent. In those situations where, or to the extent that, income from savings when added to other income produces a combined total exceeding £31,400, liability arises at the higher rate of 40 per cent. As income tax will usually have been deducted at source at the rate of 20 per cent, higher rate liability arises at a further 20 per cent (40 per cent less 20 per cent).

#### DIVIDENDS

Dividends and other distributions paid by a UK resident company have a tax credit attached equal to one-ninth of

the sum received in 2004–5. Therefore, a recipient shareholder also residing in the UK who receives a cash dividend of £90 will have a tax credit of £10. The gross dividend or distribution (sum received plus tax credit) is regarded as having suffered income tax, equal to the tax credit, at the rate of 10 per cent. Where the shareholder is not liable, or not fully liable, to income tax it is not possible to claim a repayment of the tax credit. However, for 2004–5 dividends are taxed at the Schedule F ordinary rate of 10 per cent or the Schedule F upper rate of 32.5 per cent. Where the total income of an individual is not unduly substantial the amount of the tax credit, namely 10 per cent, will be offset against the Schedule F ordinary rate of income tax, which is also 10 per cent, leaving no further liability. Should the gross amount of dividends or distributions when added to other taxable income exceed £31,400 the excess is chargeable at the Schedule F upper rate of 32.5 per cent. The amount of the tax credit will then reduce tax otherwise payable at the upper rate. Although the rates of 10 per cent and 32.5 per cent apply primarily to dividends and distributions from United Kingdom companies, they also extend to income of a similar nature arising outside the UK.

#### INCOME NOT TAXABLE

Income which is not taxable in 2004–5 includes interest on National Savings and Investments saving certificates, most scholarship income, bounty payments to members of the armed services and annuities payable to the holders of certain awards. Dividend income arising from qualifying investments in personal equity plans (PEPs) and venture capital trusts is exempt from tax. Tax credits on dividends from such trusts cannot be recovered, nor is it possible for PEP managers to obtain repayment of credits after 5 April 2004. Payments made to an individual for the adoption of a child, together with income received under maintenance agreements and court orders made following separation or divorce will not be liable to tax. Nor will payments made under many deeds of covenant be recognised for tax purposes, unless the recipient is a charity. Interest arising on a tax exempt special savings account (TESSA) opened with a building society or bank will be exempt from tax if the account is maintained throughout a five-year period.

A popular investment, the individual savings account (ISA), is available to United Kingdom residents aged 18 years and over. The ISA may have three components, namely cash, stocks and shares and life assurance. Interest on the cash component, usually comprising bank or building society deposits, is exempt from income tax. Dividends on most quoted holdings in the stocks and shares component are also immune from liability to income tax, with tax credits being repaid only for years up to and including that ending on 5 April 2004. Income and gains accruing to the provider of the life assurance component will be free of all liability to taxation.

A maximum subscription of £7,000 can be made by an individual to an ISA during 2004–5. Of this sum no more than £3,000 can be allocated to the cash component and £1,000 to the life assurance component. Potential investors are provided with the choice of whether to invest in a maxi-ISA or in mini-ISAs. Should a maxi-ISA be selected, the entire £7,000 can be invested in stocks and shares, but the use of a mini-ISA limits such an investment to £3,000 with the balance of £4,000 capable of being used to invest in the cash and life assurance components. The maximum permitted subscription will be reduced after 5 April 2006.

Although new TESSA accounts can no longer be opened, where an existing TESSA matures at the end of a five-year period the capital (but not the income) proceeds can be separately invested in the cash component of an ISA. This is in addition to the normal limits governing investment in an ISA.

#### FOSTER CARERS

Profits arising to an individual from the provision of foster care are chargeable to income tax. Previously, the calculation of these taxable profits produced a great deal of uncertainty but a new arrangement was introduced for 2003–4 and future years. When determining the application of this arrangement for 2004–5, an individual must calculate two factors, namely:

- (a) a fixed amount of £10,000 for a given residence in a year. Where the residence is shared by two or more individuals providing foster care the amount of £10,000 must be apportioned. Should the period of review fall short of a full twelve-month period, £10,000 must be suitably reduced.
- (b) an amount per week for each foster child, comprising £200 per week for a child aged under 11 years and £250 per week for a child aged 11 or above.

Should the total receipts of an individual from the provision of foster care fall below the aggregate of (a) and (b) no liability to income tax will arise. However, should the receipts exceed the aggregate of (a) and (b) the individual is provided with a choice, namely:

- (i) to calculate profits in the normal way on total receipts less actual expenses and capital allowances, or
- (ii) to treat as taxable profits the amount by which total receipts from the provision of foster care exceed the aggregate of (a) and (b), without any separate relief for expenses or capital allowances.

#### ALLOWANCES

Allowances which can be obtained for 2004–5 are shown below.

##### *Personal allowance*

Basic personal allowance	£4,745
Those over 64 on 5 April 2005	£6,830
Those over 74 on 5 April 2005	£6,950

The increased allowance for older individuals is available for those who died during the year of assessment but who would otherwise have achieved the appropriate age not later than 5 April 2005. The amount of the increased personal allowance for older taxpayers will be reduced by one-half of total income in excess of £18,900. This reduction in the allowance will continue until it has been reduced to the basic personal allowance of £4,745. The personal allowance is given as a deduction in calculating taxable income and may therefore produce relief at the rate of 10, 22 or 40 per cent, as appropriate.

##### *Married couple's allowance*

A married man who was 'living with' his wife at any time in the year ending on 5 April 2005 will be entitled to a married couple's allowance if at least one party to the marriage reached the age of 65 years before 6 April 2000. The allowance, which therefore applies only to those born before 6 April 1935, cannot be obtained where a husband or wife reaches 65 on some future date.

The allowance is £5,725. It may be increased to

£5,795 where either party to the marriage was 75 or over on 5 April 2005. Where an individual would otherwise have reached the age of 75 by 5 April 2005 but who died earlier in the year, the increased allowance is given. The amount of the married couple's allowance will be reduced where the income of the husband (excluding the income of the wife) exceeds £18,900. In this situation the amount to be deducted from the allowance will comprise:

- (a) one-half of the husband's total income in excess of £18,900, less
- (b) the amount of any reduction made when calculating the husband's increased personal allowance.

This reduction in the married couple's allowance cannot reduce that allowance below a basic allowance of £2,210.

If a husband and wife were married during 2004–5, the married couple's allowance must be reduced by one-twelfth for each complete month commencing on 6 April 2004 and preceding the date of marriage.

Unlike the personal allowance, the married couple's allowance does not reduce taxable income. Relief is granted by reducing the tax otherwise payable by 10 per cent of the allowance. For example, where the basic allowance of £2,210 is available, the amount of tax payable may be reduced by £221. Should the amount of the reduction exceed tax otherwise payable, no tax will be due, nor will any repayment arise.

In the absence of any further action, the married couple's allowance will be given to the husband. If he is unable to utilise all or any part of that allowance due to an absence of income, the husband may transfer the unused portion to his wife. The decision whether or not to transfer remains at the discretion of the husband. However, a wife may file an election to obtain one-half of the basic married couple's allowance of £2,210 as of right, leaving the husband with the balance of that allowance. Alternatively, the couple may jointly elect that the entire basic allowance should be allocated to the wife only. Should either spouse be unable to utilise his or her share of the total married couple's allowance the unused part may be transferred to the other spouse.

#### *Blind person's allowance*

An allowance of £1,560 is available to an individual if at any time during the year ending on 5 April 2005, he or she was registered as blind. If the individual is 'living with' a wife or husband, any unused part of the blind person's allowance can be transferred to the other spouse. The allowance reduces taxable income and may therefore give rise to relief at the taxpayer's highest rate of income tax suffered.

#### MAINTENANCE PAYMENTS

Relief for maintenance payments made in 2004–5 to a separated spouse or a divorced former spouse is limited to £2,210 or the amount of the payment, whichever is smaller. A further requirement before relief can be obtained is that at least one of the parties to the transaction had reached his/her 65th birthday before 6 April 2000. No relief is available to younger parties. Relief is given at the rate of 10 per cent and subtracted from the amount of tax otherwise due by the payer. The maintenance payment is exempt from liability to income tax in the hands of the recipient.

#### INTEREST

In some instances, interest paid by a business proprietor may be included when calculating profits chargeable to

income tax under Case I or Case II of Schedule D. In addition, relief for interest paid on a loan applied to acquire or develop land and buildings for letting may be obtained by including the outlay in the calculation of income chargeable under Schedule A. However, many private individuals cannot obtain relief in this manner and must satisfy stringent requirements before relief will be forthcoming. In general terms it is a requirement that before interest can qualify for relief it must be paid for a qualifying purpose. Relief will not be available to the extent that interest exceeds a reasonable commercial rate and no relief is forthcoming for interest on an overdraft.

Interest paid in 2004–5 which can be treated as laid out for a qualifying purpose will include the following payments:

- (a) Interest on a loan used to acquire an interest in a close company or in a partnership, or to advance money to such a person or body
- (b) Interest on a loan to a member of a partnership to acquire machinery or plant for use in the partnership business
- (c) Interest on a loan to an employed person to acquire machinery or plant for the purposes of his or her employment
- (d) Interest on a loan made for the purpose of contributing capital to an industrial co-operative
- (e) Interest on a loan applied for investment in an employee-controlled company
- (f) Interest on a loan to personal representatives to provide funds for the payment of inheritance tax
- (g) Interest on a loan made to elderly persons for the purchase of an annuity where the loan is secured on land. If the loan exceeds £30,000, relief is limited to interest on this amount. This relief is restricted to income tax at the basic rate of 22 per cent. Whilst the relief remains for some borrowers, it cannot be obtained for interest only loans taken out after 8 March 1999.

Relief under headings (a) to (f) is given by deducting interest from taxable income. This enables the taxpayer to obtain relief at his or her top rate of tax suffered.

#### CHARITABLE DONATIONS

A number of charitable donations and qualify for tax relief and may involve donations of money or transferable assets. A popular arrangement is the Gift Aid scheme which requires the making of a money payment to a recognised charity. Providing that the donor receives little or no benefit in return, and certain formalities are complied with, the donation is then treated as a net sum paid after deducting income tax at the basic rate of 22 per cent. On the assumption that the donor suffers a sufficient amount of income tax at that rate, no additional income tax will be payable. However, if the donor suffers liability at the higher rate of 40 per cent, he/she may obtain relief for the outlay at the difference between the basic rate of 22 per cent and the higher rate of 40 per cent – 18 per cent – on the grossed up amount of the donation.

#### OTHER OUTGOINGS

Many employees pay contributions to an approved occupational pension scheme. The amount of their contributions may be deducted when calculating net taxable earnings treated as employment income. Relief should also be available for any additional voluntary contributions paid. Self-employed individuals and those receiving earnings not covered by an occupational pension scheme may contribute under personal pension

scheme arrangements or under stakeholder schemes. Individuals may also pay premiums under retirement annuity schemes if the arrangements were concluded before 1 July 1988. Contributions paid under all headings and which do not exceed upper limits may obtain income tax relief by deduction from taxable income. Revised arrangements governing relief for pension contributions and the treatment of pension schemes are to be introduced on 6 April 2006.

Subject to a maximum of £200,000 in 2004–5, the cost of subscribing for shares in an unquoted trading company or companies may qualify for relief under the Enterprise Investment Scheme. Many requirements must be satisfied before this relief can be obtained, but a husband and wife may each take advantage of the £200,000 maximum. Relief is given by reducing tax payable at the rate of 20 per cent of the share subscription cost. Further relief on an outlay up to a maximum of £200,000 annually is given at the increased rate of 40 per cent for a subscription of shares in a venture capital trust company. This increased rate applies only where shares are issued by such trusts after 5 April 2004 and not later than 5 April 2006 although the maximum investment limit continues beyond the latter date.

#### TAX CREDITS

Child tax credits and working tax credits are payable to qualifying individuals. Although the title of both credits incorporates the word 'tax', neither affects the amount of income tax payable or repayable. Both take the form of social security benefits.

#### CAPITAL GAINS TAX

An individual is potentially chargeable to capital gains tax on chargeable gains that accrue from disposals made by him/her during a year of assessment. The following information is largely confined to the year of assessment 2004–5, ending on 5 April 2005.

Liability extends to individuals who are either resident or ordinarily resident for the year but special rules apply where a person permanently leaves the UK or comes to this territory for the purpose of acquiring residence. Non-residents are not usually liable to capital gains tax unless they carry on a business in the UK through a branch or agency. However, individuals who left the UK after 16 March 1998 and who have been resident or ordinarily resident in at least four of the seven years preceding departure may remain liable to capital gains tax unless they reside overseas throughout a period of five complete tax years. Exceptions from this may apply where there is a disposal of assets acquired in the period of absence.

Trustees residing in the UK, together with personal representatives administering the estate of the deceased person, are chargeable to capital gains tax at the flat rate of 40 per cent but chargeable gains accruing to companies are assessable to corporation tax.

In earlier years, capital gains tax was chargeable on the net chargeable gains accruing to a person in a year of assessment after subtracting the annual exemption for that year. Net chargeable gains represented capital gains less capital losses arising from disposals carried out during the year. Unused losses brought forward from an earlier year could be offset against current net chargeable gains, but in the case of individuals were not to reduce the net gains below the annual exemption limit. It was possible to utilise trading losses against chargeable gains where those losses had not been offset against income.

#### TAPER RELIEF

However, the calculation of net gains chargeable to capital gains tax is now governed by the availability of taper relief. The purpose of this relief, which replaced the former indexation allowance, is to require that only a percentage of gains become chargeable to capital gains tax. Taper relief draws a distinction between business assets and non-business assets. The expression 'business asset' broadly identifies an asset used for business purposes in addition to some holdings of shares in both trading and non-trading companies. Where the nature of an asset has changed during the period of ownership from a business asset to a non-business asset, or vice versa, the asset must be effectively broken down into two parts. This may be particularly relevant where the period overlaps 5 April 2000, 5 April 2002 or 5 April 2003 when, on each occasion, some previously non-business assets were re-classified as business assets.

The percentage which must be used to calculate taper relief is governed by the number of complete years of ownership falling after 5 April 1998. Initially an additional 'bonus year' could be added for most assets acquired before 17 March 1998. This 'bonus year' continues to apply to non-business assets but has been withdrawn where the disposal of a business asset takes place after 5 April 2000.

The maximum percentage attributable to business assets was initially achieved after an ownership period extending throughout ten years but this period was reduced to one of four years only where the disposal occurred after 5 April 2000 and before 6 April 2002. Finally, where the disposal of business assets takes place on and after 6 April 2002 the ownership period has been further reduced. Once that period exceeds one year only 50 per cent of the gain will be chargeable, falling to 25 per cent where two whole years are exceeded. No corresponding changes have been made to the ownership period of non-business assets, which has remained unchanged since the introduction of taper relief on 6 April 1998. The percentages of gains remaining chargeable for disposals taking place on and after 6 April 2003 are shown in the following table:

<i>No. of whole years of ownership</i>	<i>Percentage of gain chargeable</i>	
	<i>Business assets</i>	<i>Non-business assets</i>
	<i>%</i>	<i>%</i>
1	50	100
2	25	100
3	25	95
4	25	90
5	25	85
6	25	80
7	25	75
8	25	70
9	25	65
10	25	60

If only chargeable gains arise from disposals carried out in 2004–5 the taper relief, if any, must be calculated by reference to each disposal. The aggregate sum of taper relief will then be subtracted from the total chargeable gains to produce the net gains for the year. Where disposals made in 2004–5 give rise to both gains and losses, the losses must be subtracted from the gains and taper relief calculated on the net sum remaining. It is necessary to allocate the losses between the gains where there are two or more disposals producing gains. Losses

brought forward from an earlier year must also be subtracted when calculating the net gains qualifying for taper relief. However, the losses brought forward are not to reduce the net gains below the annual exemption limit of £8,200 which applies for 2004–5.

#### ANNUAL EXEMPTION

The initial slice of net gains arising in a tax year is exempt from liability to capital gains tax. This slice, comprising the annual exemption, is £8,200 for 2004–5. Should any part of the exemption remain unused, this cannot be carried forward to a future year. A smaller exemption limit applies to most trusts.

#### RATES OF TAX

The net gains remaining, if any, calculated after subtracting the annual exemption, incur liability to capital gains tax for 2004–5. Although income tax rates are used for this purpose, liability arises only at the starting rate of 10 per cent, the lower rate of 20 per cent, the higher rate of 40 per cent, or a combination of the three rates. Unlike some income tax commitments, there is no liability at the basic rate of 22 per cent.

The first step is to calculate the amount of taxable income chargeable to income tax. This will include income from savings, company dividends and all other forms of taxable income. The second step is to add the amount of net chargeable gains to the taxable income chargeable to income tax. To the extent that this does not increase the aggregate total above £2,020, capital gains tax will be charged at the rate of 10 per cent. If the aggregate total exceeds £2,020 but does not exceed £31,400 any balance needed to reach £2,020 is chargeable at 10 per cent and the excess at 20 per cent. If, or to the extent that, any part of the chargeable gains exceed the limit of £31,400 the excess is chargeable at 40 per cent. Although some income tax rates are used, capital gains tax remains an entirely separate tax. Capital gains tax for 2004–5 falls due for payment in full on 31 January 2006. If payment is delayed, interest or surcharges may be imposed.

#### HUSBAND AND WIFE

Independent taxation requires that a husband and wife 'living together' are separately assessed to capital gains tax. Each spouse must independently calculate his or her gains and losses, with each entitled to the benefit of taper relief, if any, and the annual exemption of £8,200 for 2004–5. No liability to capital gains tax arises from the transfer of assets between husband and wife 'living together'.

#### DISPOSAL OF ASSETS

Before chargeable gains potentially liable to capital gains tax can arise, a disposal or deemed disposal of an asset must take place. This occurs not only where assets are sold or exchanged but applies on the making of a gift. There is also a disposal of assets where any capital sum is derived from assets, e.g. where compensation is received for loss or damage to an asset. The date on which a disposal must be treated as having taken place will determine the year of assessment into which the chargeable gain or allowable loss falls. In those cases where a disposal is made under an unconditional contract, the time of disposal will be that when the contract was entered into and not the subsequent date of conveyance or transfer. A disposal under a conditional contract or option is treated as taking place when the contract becomes unconditional or the

option is exercised. Disposals by way of gift are undertaken when the gift becomes effective.

#### VALUATION OF ASSETS

The amount received as consideration for the disposal of an asset will be the sum from which very limited outgoings must be deducted for the purpose of establishing the gain or loss. In cases where the consideration does not accurately reflect the value of the asset, a different basis must be used. This applies, in particular, where an asset is transferred by way of gift or otherwise than by a bargain made at arm's length. Such transactions are deemed to take place for a consideration representing market value, which will determine both the disposal proceeds accruing to the transferor and the cost of acquisition to the transferee.

Market value represents the price which an asset might reasonably be expected to fetch on a sale in the open market. In the case of unquoted shares or securities, it is to be assumed that the hypothetical purchaser in the open market would have available all the information which a prudent prospective purchaser of shares or securities might reasonably require if that person were proposing to purchase them from a willing vendor by private treaty and at arm's length. The market value of unquoted shares or securities will often be established following negotiations with the Inland Revenue Shares Valuation Division. The valuation of land and interests in land in the UK will be dealt with by the District Valuer. Special rules apply to determine the market value of shares quoted on the Stock Exchange.

#### DEDUCTION FOR OUTGOINGS

Once the actual or notional disposal proceeds have been determined, it only remains to subtract eligible outgoings for the purpose of computing the gain or loss. There is the general rule that any outgoings deducted, or which are available to be deducted, when calculating income tax liability must be ignored. Subject to this, deductions will usually be limited to:

- (a) the cost of acquiring the asset, together with incidental costs wholly and exclusively incurred in connection with the acquisition
- (b) expenditure incurred wholly and exclusively on the asset in enhancing its value, being expenditure reflected in the state or nature of the asset at the time of the disposal, and any other expenditure wholly and exclusively incurred in establishing, preserving or defending title to, or a right over, the asset
- (c) the incidental costs of making the disposal

Where the disposal concerns a leasehold interest having less than 50 years to run, any expenditure falling under (a) and (b) must be written off throughout the duration of the lease using a 'curved line' approach.

#### INDEXATION ALLOWANCE

For many years an indexation allowance could be inserted when calculating a gain on the disposal of an asset. The allowance was based on percentage increases in the retail prices index between the month of March 1982, or the month in which expenditure was incurred if later, and the month of disposal.

Taper relief has largely replaced the indexation allowance for disposals made after 5 April 1998. However, where an asset was acquired before this date, the indexation allowance will be calculated to the month of April 1998 and frozen. The frozen allowance then enters into the calculation of chargeable gain, if any, when

the asset is disposed of at some later date. The adjustment for the indexation allowance must be made before calculating taper relief on the net sum remaining.

#### EXEMPTIONS

There is a general exemption from liability to capital gains tax where the net gains of an individual for 2004–5 do not exceed £8,200. This general exemption applies separately to a husband and wife whether or not the parties are 'living together'. The disposal of many assets will not give rise to chargeable gains or allowable losses and these assets include:

- (a) private motor cars
- (b) government securities
- (c) loan stock and other securities (but not shares)
- (d) options and contracts relating to securities within (b) and (c)
- (e) National Savings and Investments Savings Certificates, Premium Bonds, Defence Bonds and National Development Bonds
- (f) currency of any description acquired for personal expenditure outside the UK
- (g) decorations awarded for valour
- (h) betting wins and pools, lottery or games prizes
- (i) compensation or damages for any wrong or injury suffered by an individual in his or her person, profession or vocation
- (j) life assurance and deferred annuity contracts where the person making the disposal is the original beneficial owner
- (k) dwelling-houses and land enjoyed with the residence which is an individual's only or main residence
- (l) tangible movable property, the consideration for the disposal of which does not exceed £6,000
- (m) certain tangible movable property which is a wasting asset having a life not exceeding 50 years
- (n) assets transferred to charities and other bodies
- (o) works of art, historic buildings and similar assets
- (p) assets used to provide maintenance funds for historic buildings
- (q) assets transferred to trustees for the benefit of employees
- (r) assets held in a Personal Equity Plan or Individual Savings Account

#### DWELLING-HOUSES

Exemption from capital gains tax will usually be available for any gain which accrues to an individual from the disposal of, or of an interest in, a dwelling-house or part of a dwelling-house which has been his or her only or main residence. The exemption extends to land which has been occupied and enjoyed with the residence as its garden or grounds. Some restriction may be necessary where the land exceeds half a hectare.

The gain will not be chargeable to capital gains tax if the dwelling-house, or part, has been the individual's only or main residence throughout the period of ownership, or throughout the entire period except for all or any part of the final three years. A proportionate part of the gain will be exempt in other cases if the dwelling-house has been the individual's only or main residence for part only of the period of ownership. In the case of property acquired before 31 March 1982, the period of ownership is treated as commencing on this date. Where part of the dwelling-house has been used exclusively for business purposes, that part of the gain attributable to business use will not be exempt. In those cases where part of a qualifying

dwelling-house has been used to provide rented residential accommodation, this non-personal use may frequently be ignored when calculating exemption from capital gains tax, unless relatively substantial sums are involved. Dwellings occupied by dependent relatives, separated spouses or divorced former spouses, may also qualify for the exemption, but only where occupation commenced before 6 April 1988.

#### ROLL-OVER RELIEF

Persons carrying on business will often undertake the disposal of an asset and use the proceeds to finance the acquisition of a replacement asset. Where this situation arises, a claim for roll-over relief may be available. The broad effect of such a claim is that all or part of the gain arising on the disposal of the old asset may be disregarded. The gain or part is then subtracted from the cost of acquiring the replacement asset. As this cost is reduced, any gain arising from the future disposal of the replacement asset will be correspondingly increased, unless a further roll-over situation then develops.

It remains a requirement that both the old and the replacement asset must be used for the purpose of the taxpayer's business or for the purpose of business carried out by a company in which the taxpayer retains an interest. Relief will only be available if the acquisition of the replacement asset takes place within a period commencing twelve months before, and ending three years after, the disposal of the old asset, although the Inland Revenue retains a discretion to extend this period where the circumstances were such that it was impossible for the taxpayer to acquire the replacement asset before the expiration of the normal time limit. Whilst many business assets qualify for roll-over relief there are exceptions.

Roll-over relief may also be available where a gain arises on the disposal of land or buildings to an authority capable of exercising compulsory purchase powers. Similar relief may be forthcoming where shares in a company are transferred to trustees administering an employees' share incentive plan for the benefit of persons employed by that company or group of companies of which the company is a member.

#### DEFERRAL RELIEF

A form of roll-over relief, known as 'deferral relief' enables gains arising on the disposal of an asset to be matched, in whole or in part, with a subscription for shares in a restricted range of unquoted trading companies, including certain companies whose shares are dealt in on the Alternative Investment Market. Where matching can be achieved any part of the gain arising on disposal, not exceeding the cost of the qualifying share subscription, may become the subject of a claim. Unlike the usual form of roll-over relief, this claim for deferral relief does not eliminate or reduce the chargeable gain. It has the effect of deferring that gain until the time of some future event, which will usually be identified by the disposal of the newly acquired shares or the loss of UK residential status by the shareholder. A similar form of deferral relief was previously available for gains arising on disposals which were matched with a qualifying share investment in a venture capital trust company. To the extent of the gain arising, which could not exceed the amount of the investment qualifying for income tax relief, that gain was deferred until the time of a future event, which would normally comprise the disposal of shares in the venture capital trust company or the loss of UK

residential status. However, this form of deferral relief was withdrawn for shares issued by a venture capital trust after 5 April 2004.

#### HOLD-OVER RELIEF – GIFTS

The gift of an asset is treated as a disposal made for a consideration equal to market value, with a corresponding acquisition by the transferee at an identical value. In the case of gifts made by individuals and a limited range of trustees to a transferee resident in the UK, a form of hold-over relief may be available. Relief, which must be claimed, is limited to the transfer of certain assets, including the following:

- (a) assets used for the purposes of a trade or similar activity carried on by the transferor or his/her personal company
- (b) shares or securities of a trading company which is not listed on a stock exchange
- (c) shares or securities of a trading company which is listed but which is the transferor's personal company
- (d) many interests in agricultural property qualifying for agricultural property relief for inheritance tax purposes
- (e) assets involved in transactions which are lifetime transfers for inheritance tax purposes, other than potentially exempt transfers

The transfer of shares or securities to a company is now precluded from obtaining relief. Restrictions may also arise where, after 10 December 2003, an individual transfers assets to trustees administering a trust in which the individual retains an interest or the assets transferred comprise a dwelling-house. Subject to these exceptions, the effect of a valid claim for hold-over relief is similar to that following a claim for roll-over relief on the disposal of business assets, but adjustments may be necessary where some consideration is given for the transfer, the asset has not been used for business purposes throughout the period of ownership, or not all assets of a company are used for business purposes.

#### DEATH

No capital gains tax is chargeable on the value of assets retained by an individual at the time of death. However, the personal representatives administering the deceased's estate are deemed to acquire those assets for a consideration representing market value on death. This ensures that any increase in value occurring before the date of death will not be chargeable to capital gains tax. If a legatee or other person acquires an asset under a will or intestacy no chargeable gain will accrue to the personal representatives, and the person taking the asset will also be treated as having acquired it at the time of death for its then market value.

#### INHERITANCE TAX

Liability to inheritance tax may arise on a limited range of lifetime gifts and other dispositions and also on the value of assets retained, or deemed to be retained, at the time of death. An individual's domicile at the time of any gift or on death is an important matter. Domicile will generally be determined by applying normal rules, although special considerations may be necessary where an individual was previously domiciled in the UK but subsequently acquired a domicile of choice overseas. In addition, individuals who have been resident in the UK for at least 17 of the previous 20 years at the time of an event are treated as domiciled in the UK for this purpose. Where a person was

domiciled, or treated as domiciled, in the UK at the time of a disposition or on death the location of assets is immaterial and full liability to inheritance tax arises. Individuals domiciled outside the UK are, however, chargeable to inheritance tax only on transactions or events affecting assets located in the UK. The assets of husband and wife are not merged for inheritance tax purposes. Each spouse is treated as a separate individual entitled to receive the benefit of his or her exemptions, reliefs and rates of tax. Where husband and wife retain similar assets, e.g. shares in the same family company, special 'related property' provisions may require the merger of those assets for valuation purposes only.

#### LIFETIME GIFTS AND DISPOSITIONS

Gifts and dispositions made during lifetime fall under four broad headings, namely:

- (a) dispositions which are not transfers of value
- (b) exempt transfers
- (c) potentially exempt transfers
- (d) chargeable transfers

##### *Dispositions which are not transfers of value*

Several lifetime transactions are not treated as transfers of value and may be entirely disregarded for inheritance tax purposes. These include transactions not intended to confer gratuitous benefit, the provision of family maintenance, the waiver of the right to receive remuneration or dividends, and the grant of agricultural tenancies for full consideration.

##### *Exempt transfers*

The main exempt transfers are:

*Transfers between spouses* – Transfers between husband and wife are usually exempt. However, if the transferor is, but the transferee spouse is not, domiciled in the UK, transfers will be exempt only to the extent that the total does not exceed £55,000. Unlike the requirement used for income tax and capital gains tax purposes, it is immaterial whether husband and wife are living together.

*Annual exemption* – The first £3,000 of gifts and other dispositions made in a year ending on 5 April is exempt. If the exemption is not used, or not wholly used, in any year the balance may be carried forward to the following year only. The annual exemption will only be available for a potentially exempt transfer if that transfer becomes chargeable by reason of the donor's subsequent death.

*Small gifts* – Outright gifts of £250 or less to any person in one year ending on 5 April are exempt.

*Normal expenditure* – A transfer made during lifetime and comprising normal expenditure is exempt. To obtain this exemption it must be shown that:

- (a) the transfer was made as part of the normal expenditure of the transferor;
- (b) taking one year with another, the transfer was made out of income; and
- (c) after allowing for all transfers of value forming part of normal expenditure the transferor was left with sufficient income to maintain his or her usual standard of living

*Gifts in consideration of marriage* – These are exempt if they satisfy certain requirements. The amount allowed will be governed by the relationship between the donor and a party to the marriage. Allowable amounts:

- (a) gifts by a parent, £5,000
- (b) gifts by a grandparent, £2,500
- (c) gifts by a party to the marriage, £2,500
- (d) gifts by other persons, £1,000

*Gifts to charities* – These are exempt from liability.

*Gifts to political parties* – Gifts which satisfy certain requirements are generally exempt.

*Gifts for national purposes* – Gifts made to certain bodies are exempt from liability. These bodies include, among others, the National Gallery, the British Museum, the National Trust, the National Art Collections Fund, the National Heritage Memorial Fund, the Historic Buildings and Monuments Commission for England (English Heritage), any local authority, and any university or university college in the UK.

A number of other gifts made for the public benefit are also exempt.

#### *Potentially exempt transfers*

Lifetime gifts and dispositions which are neither to be ignored nor comprise exempt transfers incur possible liability to inheritance tax. However, relief is available for a range of potentially exempt transfers. These comprise gifts made by an individual to:

- (a) a second individual
- (b) trustees administering an accumulation and maintenance trust
- (c) trustees administering a disabled person's trust

The accumulation and maintenance trust mentioned in (b) must provide that on reaching a specified age, not exceeding 25 years, a beneficiary will become absolutely entitled to trust assets or obtain an interest in possession in the income from those assets. Additions to the above list affect settled property administered by trustees where an individual, or individuals, retain an interest in possession. The transfer of assets to, the removal of assets from, or the rearrangement of interests in such property comprise potentially exempt transfers if the person transferring an interest and the person benefiting from the transfer are both individuals.

No immediate liability to inheritance tax will arise on the making of a potentially exempt transfer. Should the donor survive for a period of seven years, immunity from liability will be confirmed. However, the donor's death within the seven-year *inter vivos* period produces liability if the amounts involved are sufficiently substantial (see below).

#### *Chargeable transfers*

Any remaining lifetime gifts or dispositions which are neither to be ignored nor represent exempt transfers or potentially exempt transfers, incur liability to inheritance tax.

#### GIFTS WITH RESERVATION

A lifetime gift of assets made at any time after 17 March 1986 may incur additional liability to inheritance tax if the donor retains some interest in the subject matter of the gift. This may arise, for example, where a parent transfers a dwelling-house to a son or daughter and continues to occupy the property or to enjoy some benefit from that property. The retention of a benefit may be ignored where it is enjoyed in return for full consideration, perhaps a commercial rent, or where the benefit arises from changed circumstances which could not have been foreseen at the time of the original gift. The gift with reservation provisions will not usually apply to most exempt transfers.

There are three possibilities which may arise where the donor reserves or enjoys some benefit from the subject matter of a previous gift and subsequently dies, namely:

- (a) if no benefit is enjoyed within a period of seven years before death there can be no further liability
- (b) if the benefit ceased to be enjoyed within a period of seven years before the date of death, the original donor is deemed to have made a potentially exempt transfer representing the value of the asset at the time of cessation
- (c) if the benefit is enjoyed at the time of death, the value of the asset must be included when arriving at the value of the deceased's estate on death

It must be emphasised that the existence of a benefit enjoyed at any time within a period of seven years before death will establish liability to tax on gifts with reservation, notwithstanding that the gift may have been made many years earlier, providing it was undertaken after 17 March 1986.

#### DEATH

Immediately before the time of death an individual is deemed to make a transfer of value. This transfer will comprise the value of assets forming part of the deceased's estate after subtracting most liabilities. Any exempt transfers may, however, be excluded. These include transfers for the benefit of a surviving spouse, a charity and a qualifying political party, together with bequests to approved bodies and for national purposes.

Death may also trigger three additional liabilities:

- (a) A potentially exempt transfer made within the period of seven years ending on death loses its potential status and becomes chargeable to inheritance tax
- (b) The value of gifts made with reservation may incur liability if any benefit was enjoyed within a period of seven years preceding death
- (c) Additional tax may become payable for chargeable lifetime transfers made within seven years before death

#### VALUATIONS

The valuation of assets establishes the value transferred for lifetime dispositions and also the value of a person's estate at the time of death. The value of property will represent the price which might reasonably be expected from a sale in the open market.

In some cases it may be necessary to incorporate the value of 'related property'. This will include property comprised in the estate of the transferor's spouse and certain property previously transferred to charities. The purpose of the related property valuation rules is not to add the value of the property to the estate of the transferor. Related property must be merged to establish the aggregate value of the respective interests and this value is then apportioned, usually on a *pro rata* basis, to the separate interests.

The value of shares and securities listed on the Stock Exchange will be determined by extracting figures from the daily list of official prices.

Where quoted shares and securities are sold or the quotation is suspended within a period of 12 months following the date of death, a claim may be made to substitute the proceeds or subsequent value for the value on death. This claim will only be beneficial if the gross proceeds realised are lower or the value has fallen below market value at the time of death. A similar claim may be available for interests in land sold within a period of four years following death.

## RELIEF FOR SELECTED ASSETS

Special relief is made available for certain assets as follows:

*Woodlands*

Where woodlands pass on death the value will usually be included in the deceased's estate. However, an election may be made in respect of land in the UK on which trees or underwood is growing to delete the value of those assets. Relief is confined to the value of trees or underwood and does not extend to the land on which they are growing. Liability to inheritance tax will arise if and when the trees or underwood are subsequently sold.

*Agricultural property*

Relief is available for the agricultural value of agricultural property. Such property must be occupied and used for agricultural purposes and relief is confined to the agricultural value only.

The value transferred, either on a lifetime gift or on death, must be determined. This value may then be reduced by a percentage. For events taking place after 9 March 1992, a 100 per cent deduction will be available if the transferor retained vacant possession or could have obtained that possession within a period of 12 months following the transfer. In other cases, notably including land let to tenants, a lower deduction of 50 per cent is usually available. However, this lower deduction may be increased to 100 per cent if the letting was made after 31 August 1995.

It remains a requirement that the agricultural property was either occupied by the transferor for the purposes of agriculture throughout a two-year period ending on the date of the transfer, or was owned by him or her throughout a period of seven years ending on that date and also occupied for agricultural purposes.

*Business property*

Where the value transferred is attributable to relevant business property, that value may be reduced by a percentage. The reduction in value applies to:

- (a) property consisting of a business or an interest in a business (i.e. a partnership)
- (b) securities of an unquoted company which, together with any unquoted shares in the same company provided the transferor with control
- (c) other unquoted shares in a company
- (d) shares or securities of a quoted company which provided the transferor with control
- (e) any land, building, machinery or plant which, immediately before the transfer, was used wholly or mainly for the purposes of a business carried on by a company of which the transferor had control
- (f) any land, building, machinery or plant which, immediately before the transfer, was used wholly or mainly for the purposes of a business carried on by a partnership of which the transferor was a partner
- (g) any land, building, machinery or plant which, immediately before the transfer, was used wholly or mainly for the purposes of a business carried on by the transferor and was then settled property in which he/she retained an interest in possession

The percentage deduction has changed from time to time but for events occurring after 5 April 1996, a deduction of 100 per cent is available for assets falling within (a), (b) and (c). A deduction of 50 per cent remains for assets within (d) to (g).

It is a general requirement that the property must have

been retained for a period of two years before the transfer or death and restrictions may be necessary if the property has not been used wholly for business purposes. The same property cannot obtain both business property relief and the relief available for agricultural property.

## CALCULATION OF TAX PAYABLE

The calculation of inheritance tax payable adopts the use of a cumulative total. Each chargeable lifetime transfer is added to the total with a final addition made on death. The top slice added to the total for the current event determines the rate at which inheritance tax must be paid. However, the cumulative total will only include transfers made within a period of seven years before the current event and those undertaken outside this period must be excluded.

*Lifetime chargeable transfers*

The value transferred by the limited range of lifetime chargeable transfers must be added to the seven-year cumulative total to calculate whether any inheritance tax is due. Should the nil rate band be exceeded, tax will be imposed on the excess at the rate of 20 per cent. However, if the donor dies within a period of seven years from the date of the chargeable lifetime transfer, additional tax may be due. This is calculated by applying tax at the full rate or 40 per cent in substitution for the rate of 20 per cent previously used. The amount of tax is then reduced to a percentage by applying tapering relief. This percentage is governed by the number of years from the date of the lifetime gift to the date of death, as follows:

*Period of years before death*

Not more than 3	100%
More than 3 but not more than 4	80%
More than 4 but not more than 5	60%
More than 5 but not more than 6	40%
More than 6 but not more than 7	20%

Should this exercise produce liability greater than that previously paid at the 20 per cent rate on the lifetime transfer, additional tax, representing the difference, must be discharged. Where the calculation shows an amount falling below tax paid on the lifetime transfer, no additional liability can arise nor will the shortfall become repayable.

Tapering relief will, of course, only be available if the calculation discloses a liability to inheritance tax. There can be no liability to the extent that the lifetime transfer falls within the nil rate band.

*Potentially exempt transfers*

Where a potentially exempt transfer loses immunity from liability due to the donor's death within the seven-year *inter vivos* period, the value transferred by that transfer enters into the cumulative total. Any liability to inheritance tax will be calculated by applying the full rate of 40 per cent, reduced to the percentage governed by tapering relief if the original transfer occurred more than three years before death. Liability can only arise to the extent, if any, that the nil rate band is exceeded.

*Death*

The final addition to the seven-year cumulative total will comprise the value of an estate on death. Inheritance tax will be calculated by applying the full rate of 40 per cent to the extent the nil rate band is exceeded. No tapering relief can be obtained.

## RATES OF TAX

In earlier times there were several rates of inheritance tax which progressively increased as the value transferred grew in size. However, since 1988 there have been only three rates, namely:

- (a) a nil rate
- (b) a lifetime rate of 20 per cent
- (c) a full rate of 40 per cent

The nil rate band usually changes on an annual basis and for events taking place after 5 April 2004 applies to the first £263,000. Any excess over this level is taxable at 20 per cent or 40 per cent as the case may be.

## PAYMENT OF TAX

Inheritance tax usually falls due for payment six months after the end of the month in which the chargeable transaction takes place. Where a transfer other than that made on death occurs after 5 April and before the following 1 October, tax falls due on the following 30 April, although there are some exceptions to this. Inheritance tax attributable to the transfer of certain land, controlling shareholding interests, unquoted shares, businesses and interests in businesses, together with agricultural property, may usually be satisfied by instalments spread over ten years. Except in the case of non-agricultural land, where interest is charged on outstanding instalments, no liability to interest arises where tax is paid on the due date. In all cases, delay in the payment of tax may incur a liability to discharge interest.

## SETTLED PROPERTY

Complex rules apply to establish inheritance tax liability on settled property. Where a person is beneficially entitled to an interest in possession, that person is effectively deemed to own the property in which the interest subsists. It follows that where the interest comes to an end during the beneficiary's lifetime and some other person becomes entitled to the property or interest, the beneficiary is treated as having made a transfer of value. However, this will usually comprise a potentially exempt transfer incurring no immediate liability. In addition, no liability will arise where the property vests in the absolute ownership of the beneficiary retaining the interest in possession. The death of a person entitled to an interest in possession will require the value of the underlying property to be added to the value of the deceased's estate.

In the case of other settled property where there is no interest in possession (e.g. discretionary trusts), liability to tax will arise on each ten-year anniversary of the trust. There will also be liability if property ceases to be held on discretionary trusts before the first ten-year anniversary date is reached or between anniversaries. The rate of tax suffered will be governed by several considerations, including previous dispositions made by the settlor of the trust, transactions concluded by the trustees, and the period throughout which property has been held in trust.

Accumulation and maintenance settlements which require assets to be distributed, or interests in income to be created, not later than a beneficiary's 25th birthday may be exempt from any liability to inheritance tax.

## CORPORATION TAX

Profits, gains and income accruing to companies resident in the UK incur liability to corporation tax. Non-resident companies are immune from this tax unless they carry on a trade in the UK through a permanent establishment, branch or office. Companies residing outside the UK may

be liable to income tax at the basic rate on other income arising in the UK, perhaps from letting property. The following comments are confined to companies resident in the UK. Liability to corporation tax is governed by the profits, gains or income for an accounting period. This is usually the period for which financial accounts are made up, and in the case of companies preparing accounts to the same accounting date annually will comprise successive periods of 12 months.

## RATE OF TAX

The amount of profits or income for an accounting period must be determined on normal taxation principles. The special rules which apply to individuals where a source of income is acquired or discontinued are ignored and consideration is confined to the actual profits or income for an accounting period.

The rate of corporation tax is fixed for a financial year ending on 31 March. Where the accounting period of a company overlaps this date and there is a change in the rate of corporation tax, profits and income must be apportioned.

The main rate of corporation tax for each of the seven financial years ending on the 31 March 2000 to 31 March 2006 inclusive is 30 per cent. This may be reduced to a lower level where profits fall within the small companies' rate or companies' starting rate bands. Although the main rate of tax for the year ending on 31 March 2006 is known in advance, the small companies rate and the starting rate for the same year will not be announced until a later date.

## SMALL COMPANIES' RATE

Where the profits of a company do not exceed stated limits, corporation tax becomes payable at the small companies' rate. This may be replaced by a lower starting rate where profits are very small, as discussed later. It is the amount of profits and not the size of the company which governs the application of both the small companies' rate and the starting rate.

For each of the three financial years ending on 31 March 2000, 31 March 2001 and 31 March 2002 the small companies' rate remained at 20 per cent. It was then reduced to 19 per cent for each of the three years ending on 31 March 2003, 31 March 2004 and 31 March 2005.

The level of profits which a company may derive without losing the benefit of the small companies' rate is £300,000 for each of the six years. However, if profits exceed £300,000 but fall below £1,500,000, marginal small companies' rate relief applies. The effect of marginal relief is that the average rate of corporation tax imposed on all profits steadily increases from the lower small companies' rate of 19 per cent (or previously 20 per cent) to the main rate of 30 per cent, with tax being imposed on profits in the margin at an increased rate. Where a change in the rate of tax is introduced and the accounting period of a company overlaps 31 March, profits must be apportioned to establish the appropriate rate for each part of those profits.

The lower limit of £300,000 and the upper limit of £1,500,000 apply to a period of 12 months and must be proportionately reduced for shorter periods. Some restriction in the small companies' rate and the marginal rate may be necessary if there are two or more associated companies, namely companies under common control.

The small companies' rate is not available for close investment-holding companies.

**COMPANIES' STARTING RATE**

A companies' starting rate is available for each of the four financial years ending on 31 March 2001, 2002, 2003 and 2004. This rate applies where profits of a twelve-month period do not exceed £10,000, with marginal relief where profits exceed this figure but are not in excess of £50,000. The starting rate was 10 per cent for each of the financial years ending on 31 March 2001 and 31 March 2002 and zero for the two financial years ending on 31 March 2003 and 31 March 2004. The effect of marginal relief is to increase the average rate of tax suffered until it reaches the small companies' rate for the same financial year. The starting rate also applies for the twelve-month financial year ending on 31 March 2005 but there are two significant distinctions when compared with the previous year. The first requires that where profits do not exceed £10,000, a starting rate of 10 per cent will apply with marginal relief where larger profits are not in excess of £50,000. The second distinction applies where the company pays dividends or other distributions to a person who is not a second company. In this situation the amount of the distributions made in the financial year ending on 31 March 2005 must be established and compared with profits otherwise qualifying for the starting rate. The starting rate will not then apply to the amount of profits treated as distributed will attract corporation tax at the distribution rate of 19 per cent. Only the balance, if any, of profit not treated as distributed will be taxed at the starting rate. Should the distributions exceed the amount of profits, the excess distributions will be carried forward to future accounting periods thereby restricting the starting rate in those periods.

**PAYMENT OF TAX**

Corporation tax charged on profits for an accounting period usually falls due for payment in a single lump sum nine months after the end of that period. Most companies discharge corporation tax on this basis but other arrangements concern large companies for accounting periods ending on or after 1 July 1999. These companies must discharge their liability by four instalments. The receipt of annual profits amounting to £1,500,000 or more is sufficient to identify a large company. Where a company is a member of a group the profits of the entire group must be merged to establish whether the company is large.

**CAPITAL GAINS**

Chargeable gains arising to a company are calculated in a manner similar to that used for individuals. However, the withdrawal of the indexation allowance after April 1998, and the introduction of taper relief from the same date, have no application to companies. Nor are companies entitled to the annual exemption of £8,200. However, many gains arising to companies from the disposal of substantial shareholdings after 31 March 2002 are exempt from tax. Companies do not suffer capital gains tax on chargeable gains but incur liability to corporation tax. Tax is due on the full chargeable gain of an accounting period after subtracting relief for losses, if any.

**DISTRIBUTIONS**

Dividends and other qualifying distributions made by a UK resident company on or after 6 April 1999 are not satisfied after deduction of income tax. Similar outgoings made by a company previously required the payment of advance corporation tax but this obligation no longer

applies. The only effect which the payment of a dividend or the making of a distribution now has on a company is that the outlay cannot form an ingredient in the calculation of profits.

**INTEREST**

On making many payments of interest a company is required to deduct income tax at the lower rate of 20 per cent and account for the tax deducted to the Inland Revenue. The gross amount of interest paid will usually be included in the calculation of profits on which corporation tax becomes payable. The requirement to deduct tax will not usually apply where payments are being made to a second company.

**GROUPS OF COMPANIES**

Each company within a group is separately charged to corporation tax on profits, gains and income. However, where one group member realises a loss for which special rules apply, other than a capital loss, a claim may be made to offset the deficiency against profits of some other member of the same group.

The transfer of capital assets from one member of a group to a fellow member will usually incur no liability to tax on chargeable gains.

**SPORTS CLUBS**

Corporation tax is payable by 'companies', an expression which includes unincorporated associations. It follows that most clubs must be treated as companies potentially liable to corporation tax. However, a substantial exemption from liability is available to qualifying registered community amateur sports clubs. From April 2002 registered clubs have been exempt from liability to corporation tax on:

- (a) trading profits if turnover does not exceed £15,000 in a twelve-month period
- (b) bank and building society interest
- (c) income from property where gross rental income does not exceed £10,000 in a twelve-month period and
- (d) chargeable gains

The limit in (a) was doubled to £30,000 and that in (c) to £20,000 from 1 April 2004.

Among other advantages available to registered clubs is that donations may be received under the Gift Aid arrangements. Charities are also generally exempt from corporation tax where they operate through a company structure.

**COMPLIANCE**

For several years a 'pay and file' system affected all companies. A feature of this system required that tax should be payable nine months following the end of the accounting period involved, with accounts and returns being submitted three months later. This system was replaced following the introduction of self-assessment which extends to all companies for accounting periods ending after 30 June 1999.

Self-assessment requires that the corporation tax return should normally be submitted not later than 12 months following the end of the accounting period to which it relates. In addition, a copy of the financial accounts must be included. Failure to file the return within the appropriate time limit will incur a liability to penalties.

## VALUE ADDED TAX

Value added tax (VAT) is charged on the value of the supplies made by a registered trader and extends to both the supply of goods and the supply of services. Throughout it has been administered by Customs and Excise which merged with the Inland Revenue on 1 September 2004. Liability to account for VAT also arises on the value of goods imported into the UK from sources outside the European Community. In contrast goods imported by a trader from a second trader in a member state of the European Community attract no VAT on importation. Instead there is an acquisition tax whereby a trader who acquires goods must include the acquisition in his normal VAT return and account for the tax due. A UK trader who exports goods to a member state will not be required to account for VAT on the supply, if that trader observes the requirements laid down by regulations.

### REGISTRATION

All traders, including professional persons and companies, making taxable supplies of a value exceeding stated limits are required to register for VAT purposes. Taxable supplies represent the supply of goods and services potentially chargeable with VAT. The limits which govern mandatory registration are amended periodically, and from 1 April 2004 an unregistered trader must register:

- (a) at any time, if there are reasonable grounds for believing that the value of taxable supplies in the next 30 days will exceed £58,000
- (b) at the end of any month if the value of taxable supplies in the 12 months then ending has exceeded £58,000.

Liability to register under (b) may be avoided if it can be shown that the value of supplies in the period of 12 months then beginning will not exceed £56,000. There may, however, be liability to register immediately where a business is taken over from another trader as a 'going concern'. Other limits apply where goods are acquired from within the European Community.

Where the limits governing mandatory registration have been exceeded, the trader must notify Customs and Excise. In the event of failure to provide prompt notification, the person concerned will be required to account for VAT from the proper registration date. A trader whose taxable supplies do not reach the mandatory registration limits may apply for voluntary registration. This step may be thought advisable to recover input tax or to compete with other registered traders.

A registered trader may submit an application for deregistration if the value of taxable supplies subsequently falls. From 1 April 2004, an application for deregistration can be made if the value of taxable supplies for the year beginning on the application date is not expected to exceed £56,000.

### INPUT TAX

A registered trader will both suffer tax (input tax) when obtaining goods or services for the purposes of his business and also become liable to account for tax (output tax) on the value of goods and services which he or she supplies. Relief can usually be obtained for input tax suffered, either by setting that tax against output tax due or by repayment. Most items of input tax can be relieved in this manner. Where a registered trader makes both exempt supplies and taxable supplies to his customers or clients, there may be some restriction in the amount of input tax which can be recovered.

### OUTPUT TAX

When making a taxable supply of goods or services, a registered trader must account for output tax, if any, on the value of the supply. Usually the price charged by the registered trader will be increased by adding VAT but failure to make the required addition will not remove liability to account for output tax. The liability to account for output tax, and also relief for input tax, may be affected where a trader is using a special second-hand goods scheme.

### EXEMPT SUPPLIES

No VAT is chargeable on the supply of goods or services which are treated as exempt supplies. These include the provision of burial and cremation facilities, insurance, finance and education. The granting of a lease to occupy land or the sale of land will usually comprise an exempt supply, but there are numerous exceptions. In particular, the sale of new non-domestic buildings or certain buildings used by charities cannot be treated as exempt supplies. A taxable person may elect to tax rents and other supplies relating to buildings and agricultural land not used for residential or charitable purposes. Exempt supplies do not enter into the calculation of taxable supplies which governs liability to mandatory registration. Such supplies made by a registered trader may, however, limit the amount of input tax which can be relieved. It is for this reason that the election may be useful.

### RATES OF TAX

Two main rates of VAT have applied for many years, namely:

- (a) a zero, or nil, rate
- (b) a standard rate of 17.5 per cent

In addition, a special reduced rate of 5 per cent applies to a limited range of supplies including domestic fuels, installation of energy saving materials in domestic premises, certain residential conversions and renovations, and children's car seats. From 1 June 2004 the 5 per cent rate was extended to ground source heat pumps.

### ZERO-RATING

A large number of supplies are zero-rated. The following list is not exhaustive but indicates the wide range of supplies which may be included under this heading:

- (a) the supply of many items of food and drink. This does not include ice creams, chocolates, sweets, potato crisps and alcoholic drinks. Nor does it extend to supplies made in the course of catering or to items supplied for consumption in a restaurant or café. Whilst the supply of cold items, e.g. sandwiches for consumption away from the supplier's premises, is zero-rated, the supply of hot food, e.g. fish and chips, is not
- (b) animal feeding stuffs
- (c) sewerage and water, unless for industrial purposes
- (d) books, brochures, pamphlets, leaflets, newspapers, maps and charts
- (e) talking books for the blind and handicapped, and wireless sets for the blind
- (f) supplies of services, other than professional services, when constructing a new domestic building or a building to be used by a charity. The supply of materials for such a building is zero-rated, together with the sale or the grant of a long lease. Alterations to some protected buildings are zero-rated
- (g) the transportation of persons in a vehicle, ship or aircraft designed to carry not less than 10 persons

- (h) supplies of drugs, medicines and other aids for the handicapped
- (i) supplies of children's clothing and footwear
- (j) supplies of pedal cycle helmets
- (k) exports

Although no tax is due on a zero-rated supply, this does comprise a taxable supply which must be included in the calculation governing liability to register.

#### COLLECTION OF TAX

Registered traders submit VAT returns for accounting periods usually of three months in duration but arrangements can be made to submit returns on a monthly basis. Very large traders must account for tax on a monthly basis but this does not affect the three-monthly return. The return will show both the output tax due for supplies made by the trader in the accounting period and also the input tax for which relief is claimed. If the output tax exceeds input tax the balance must be remitted with the VAT return. Where input tax suffered exceeds the output tax due the registered trader may claim recovery of the excess from Customs and Excise.

This basis for collecting tax explains the structure of VAT. Where supplies are made between registered traders the supplier will account for an amount of tax which will usually be identical to the tax recovered by the person to whom the supply is made. However, where the supply is made to a person who is not a registered trader there can be no recovery of input tax and it is on this person that the final burden of VAT eventually falls.

Where goods are acquired by a UK trader from a supplier within a member state of the European Community, the trader must also account for the tax due on acquisition.

An optional annual accounting scheme is available for registered traders having an annual turnover of taxable supplies not exceeding £660,000. Traders joining the scheme may render returns annually. Nine interim payments of VAT will be made on account with a final balancing payment accompanying submission of the return. The number of interim payments may be reduced if turnover is small. Once a trader has joined the annual accounting scheme membership may continue until the annual taxable turnover reaches £825,000.

A further optional scheme, the flat rate scheme, is available to small businesses having an annual taxable turnover not exceeding £150,000 and whose total turnover including both exempt and other non-taxable income does not exceed £187,500 annually. Businesses able to satisfy these requirements may discharge VAT calculating a flat rate percentage of their total turnover. The rate used is governed by the trade sector into which the business falls. The scheme can no longer be used once turnover exceeds £225,000.

#### BAD DEBTS

Many retailers operate special retail schemes for calculating the amount of VAT due. These schemes are based on the volume of consideration received in an accounting period. Should a customer fail to pay for goods or services supplied, there will be no consideration on which to calculate VAT.

To avoid the problem of bad debts incurred by traders not operating a special retail scheme, an optional system of cash accounting is available. This scheme, confined to traders with annual taxable supplies not exceeding £660,000, enables returns to be made on a cash basis, in substitution for the normal supply basis. Traders using such a scheme will not include bad debts in the calculation of cash receipts. Use of the scheme will be discontinued once annual taxable turnover reaches £825,000.

Where neither the cash accounting arrangements nor a special retail scheme applies, output tax falls due on the value of the supply and liability is not affected by failure to receive consideration. However, where a debt is more than six months old, relief for bad debts will be forthcoming. The calculation of the six-month period commences from the date on which payment for the supply falls due. In those cases where a supplier obtains relief for a bad debt, the person to whom the supply has been made must refund any input tax relief which may have been granted.

#### OTHER SPECIAL SCHEMES

In addition to the schemes for retailers, there are several special schemes applied to calculate the amount of VAT due and which also limit the ability to recover input tax.

#### FARMERS

Farmers may elect to apply a special flat rate scheme. This scheme is available to farmers who are not registered traders.

# STAMP DUTY

For the majority of people, contact with stamp duty arises when they purchase a property. Duty is payable by the buyer as a way of raising revenue for the government based on the purchase price of a property, stocks and shares. This section aims to provide a broad overview of stamp duty as it may affect the average person. For comprehensive information, please consult a specialist publication or contact the Inland Revenue.

## STAMP DUTY LAND TAX

Stamp Duty Land Tax was introduced on 1 December 2003 and covers the purchase of houses, flats and other land, buildings and certain leases in the UK. The law was changed primarily to reduce tax avoidance in high-value commercial transactions while at the same time reducing the burden on small businesses and modernising the administration of tax for individuals. Under the new system, stamp duty on transactions involving property other than land, shares and interests in partnerships is abolished, removing many transactions from a tax burden. The majority of individuals buying or renting a residential property will see no immediate changes under the new regime, although administrative changes such as the ability to notify liability and pay duty electronically will help speed up the house-buying process in the long term.

Before 1 December 2003, purchasers of property had to submit documents providing all details of their purchase to the Stamp Office for 'stamping'. The purchaser's solicitor or licensed conveyancer would then send the stamped documentation to the appropriate land registry to register ownership of the property. Under Stamp Duty Land Tax, purchasers do not have to send documents for stamping – instead, a land transaction return form (SDLT1), which contains all information regarding the purchase that is relevant to the Inland Revenue, is signed by the purchaser. Buyers of property are responsible for completing the land transaction return and payment of Stamp Duty Land Tax, however, it is generally the case that a solicitor or licensed conveyancer acting for a buyer in a land transaction will complete the relevant paperwork.

Once the Inland Revenue has received the completed land transaction return and the payment of any Stamp Duty Land Tax due, a certificate will be issued which enables a solicitor or licensed conveyancer to register the property in the new owner's name at the Land Registry.

## RATES OF STAMP DUTY LAND TAX

The Stamp Duty Land Tax rates for buying a residential property (freehold or leasehold) are the same as under the pre-1 December 2003 system:

Purchase Price	Rate of Tax (% of purchase price)
£60,000 or less*	0%
£60,001 to £250,000	1%
£250,001 to £500,000	3%
£500,001 or more	4%

\*For transactions of non-residential property, the 0 per cent rate applies for purchases of up to £150,000. A 1 per cent rate is payable for transactions of £150,001 – £250,000; thereafter, rates are as per residential property transactions.

When assessing how much Stamp Duty Land Tax is payable, the entire purchase price must be taken into account. For example, on a property purchased for £300,000, 3 per cent, £9,000 is payable.

There are special rates for the rental element of leases. Since 1 December 2003, the charges have followed modern commercial practice in valuing the rent payable over the term of the lease at its net present value (NPV). There is a single rate of tax of 1 per cent of the amount by which the NPV of rental payments exceeds the threshold of £60,000 (residential property) or £150,000 (non-residential property). Where the NPV of a property is less than £60,000 (residential) or £150,000 (non-residential), no Stamp Duty Land Tax is payable on the rental element.

## FIXTURES AND CHATTELS

As well as buying a property a purchaser may buy things inside the property. Some things inside a property are, in law, part of the land. These are called 'fixtures'. Examples are fitted kitchen units and bathroom suites. Because these fixtures are part of the land, any price paid for them must be taken into account for Stamp Duty Land Tax purposes. Things inside a property that are not part of the land are called 'chattels'. Examples are free-standing cookers, curtains and fitted carpets. The purchase of chattels is not chargeable to Stamp Duty Land Tax. However, where both a property and chattels are purchased, the amount shown on the Land Transaction Return as the purchase price of the property must be a 'just and reasonable' apportionment of the total amount paid. As with other entries on the form, the purchaser is responsible for the accuracy of this information.

## STAMP DUTY RESERVE TAX

The main purpose of Stamp Duty Reserve Tax is to cover paperless share transactions and agreements to transfer 'chargeable securities' for consideration in money or money's worth. Stamp Duty Reserve Tax is collected primarily on share transactions that do not fall within the chargeable realm of Stamp Duty Land Tax. Stamp Duty Reserve Tax now accounts for the majority of taxation collected on share transactions effected through the UK's Exchanges.

## LATE RETURNS

The purchaser must send a Land Transaction Return, together with payment of any tax due, to the Inland Revenue within 30 days of the completion of the purchase. Where this is not done the purchaser will be charged a flat-rate penalty of £100 if the return is delivered within three months after the filing date, and £200 in any other case.

## HELP AND INFORMATION

Help and information on all aspects of Stamp Duty Land Tax and Stamp Duty Reserve Tax is available from [www.inlandrevenue.gov.uk](http://www.inlandrevenue.gov.uk) or by contacting 0845-603 0135.

# LEGAL NOTES

These notes outline certain aspects of the law as they might affect the average person; they are intended only as a broad guideline and are by no means definitive. The law is constantly changing so expert advice should always be taken. It is always advisable to consult a solicitor without delay; timely advice will set your mind at rest and sitting on your rights can mean that you lose them. Anyone who does not have a solicitor already can contact the following for assistance in finding one: Citizens Advice Bureau (W [www.nacab.org.uk](http://www.nacab.org.uk)), the Community Legal Service (W [www.legalservices.gov.uk](http://www.legalservices.gov.uk)), the Law Society of England and Wales (T 020-7242 1222 W [www.lawsociety.co.uk](http://www.lawsociety.co.uk)) or the Law Society of Scotland (T 0131-226 7411 W [www.lawscot.org.uk](http://www.lawscot.org.uk)). The community legal service fund and legal aid and assistance schemes exist to make the help of a lawyer available to those who would not otherwise be able to afford one. Entitlement depends on an individual's means.

## ABORTION

Under the provisions of the Abortion Act 1967, a legally-induced abortion must be: performed by a registered medical practitioner; carried out in an NHS hospital or other approved premises; and certified by two registered medical practitioners as justified on one or more of the following grounds:

- that the pregnancy has not exceeded its twenty-fourth week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman or any existing children of her family
- that the termination is necessary to prevent grave permanent injury to the physical or mental health of the pregnant woman
- that the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated
- that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped

In determining whether the continuance of a pregnancy would involve risk of injury to health, account may be taken of the pregnant woman's actual or reasonably foreseeable environment. The requirements relating to the opinion of two registered medical practitioners and to the performance of the abortion at an NHS hospital or other approved place cease to apply in circumstances where a registered medical practitioner is of the opinion, formed in good faith, that a termination is immediately necessary to save the life, or to prevent grave permanent injury to the physical or mental health, of the pregnant woman.

## ADOPTION

The Adoption of Children Act 2002 reforms the framework for domestic and inter-country adoption in England and Wales and some parts extend to Scotland and Northern Ireland. This section deals with the Act which, at the time of writing (1 August 2004), was only partially in force.

### ADOPTION ORDERS

A couple (whether married or two people living as partners in an enduring family relationship) may apply for an adoption order where both of them are over 21 or where one is only 18 but is the natural parent and the other is 21. An adoption order may be made for one applicant where that person is 21 and (a) the court is satisfied that person is the partner of a parent of the person to be adopted; (b) they are not married; or (c) they are married but their spouse is either unable to be found, is incapable by reason of ill-health of making an application or is separated from that person, living apart and the separation is likely to be permanent. There are certain qualifying conditions an applicant must meet, e.g. residency in the British Isles.

There are nine steps that may only be taken by an adoption agency (local authorities or adoption societies registered with them) or a person acting in pursuance of an order of the high court. These steps relate to arranging an adoption, receiving a child for adoption or causing another to carry out one of the steps. If a person or an adoption society act contrary to this provision they may commit an offence. There may be a defence to some steps taken where the proposed adopter is a parent (or partner to that parent), relative or guardian of the child.

Once an adoption has been arranged, a court order is necessary to make it legal; this may be obtained from the high court, county court or magistrate's court (including family proceedings court). An adoption order may not be given unless the court is either satisfied that the consent of the child's natural parents (or guardians) has correctly been given or that consent should be dispensed with, e.g. where the parent or guardian cannot be found, is incapable of giving consent or where the welfare of the child so demands.

An adoption order has the effect of extinguishing the parental responsibility that a person other than the adopters (or adopter) has for the child, although where an order is made on the application of the partner of the parent, that parent keeps parental responsibility. This means that once adopted, the child has the same status as a child born to the adoptive parents. In addition the child may lose rights to the estates of those losing their parental responsibility.

All adoption orders made in England and Wales must be added to in the Adopted Children Register that also contains particulars of children adopted under registrable foreign adoptions. The General Register Office keeps this register from which certificates may be obtained in a similar way to birth certificates. The General Register

Office also has equivalents in Scotland and Northern Ireland.

### TRACING PARENTS OR ADOPTED CHILDREN

An adult adopted person may apply to the Registrar-General to obtain a certified copy of his/her birth certificate. For those adopted before 12 November 1975 it is obligatory to receive counselling services before this information is given; for those adopted after that date counselling services are optional. There is an Adoption Contact Register, created after the 1989 Children Act, which provides a safe and confidential way for birth parents and other relatives to assure an adopted person that contact would be welcome. Further information can be obtained from:

#### BRITISH ASSOCIATION FOR ADOPTION AND FOSTERING (BAAF)

Skyline House, 200 Union Street, London SE1 0LX  
T 020-7593 2000 W [www.baaf.org.uk](http://www.baaf.org.uk)

### SCOTLAND

The relevant legislation is the Adoption (Scotland) Act 1978 (as amended by the Children Act 1995) and the Adoption and Children Act 2002. The provisions are similar to those described above. In Scotland, petitions for adoption are made to the Sheriff Court or the Court of Session. Further information can be obtained from:

T 0131-225 9285

#### SCOTTISH ADOPTION ADVICE SERVICE

16 Sandyford Place, Glasgow G3 7NB T 0141-248 7530

### BIRTHS (REGISTRATION)

It is the duty of the parents of a child born in England or Wales to register the birth within 42 days of the date of birth at the register office in the district in which the baby was born. If it is inconvenient to go to the district where the birth took place, the information for the registration may be given to a registrar in another district. Failure to register the birth within 42 days without reasonable cause may leave the parents liable to a penalty. If a birth has not been registered within 12 months of its occurrence it is possible for the late registration of the birth to be authorised by the Registrar-General provided certain requirements can be met.

If the parents of the child were married to each other at the time of the birth (or conception), either the mother or the father may register the birth. If the parents were not married to each other at the time of the child's birth (or conception), the father's particulars may be entered in the register only where he attends the register office with the mother and they sign the birth register together. Where an unmarried parent is unable to attend the register office, either parent may submit to the registrar a statutory declaration acknowledging the father's paternity; alternatively a parental responsibility agreement or appropriate court order may be produced to the registrar.

If the parents do not register the birth of their child the following people may do so: the occupier of the house or hospital where the child was born; a person who was present at the birth; or a person who is responsible for the

child. Upon registration of the birth a short certificate is issued.

### BIRTHS ABROAD

In certain countries the British Consul or High Commission may register the births and issue certificates which are then sent to the General Register Office. If a birth is registered in this way, the registration would show the person's claim to British citizenship, British Dependent Territories citizenship or British Overseas citizenship.

### SCOTLAND

In Scotland the birth of a child must be registered within 21 days at the register office of either the district in which the baby was born or the district in which the mother was resident at the time of the birth. Responsibility for registration is the same as in England and Wales. However, if the father of the child is not married to the mother and has not been married to her since the child's conception, the mother alone is responsible for registration. However, if the parents fail to register the birth, it may be registered by a relative of either parent. Failure to register the birth in the requisite time may lead to a court decree being granted by a Sheriff. If the child is born, either in or out of Scotland, on a ship, aircraft or land vehicle that ends its journey at any place in Scotland, the child, in most cases, will be registered as if born in that place.

### BIRTH, DEATH AND MARRIAGE CERTIFICATES

Certificates of births, deaths or marriages that have taken place in England and Wales since 1837 can be obtained from the Office for National Statistics (General Register Office) or the Family Records Centre. Certificates of births, marriages and deaths may be obtained: by a personal visit to the Family Records Centre; by post, telephone, fax or online; or locally from the register office where the event was originally registered. Marriage or death certificates may be obtained from the minister of the church in which the marriage took place. Any register office can advise about the best way to obtain certificates.

The fees for certificates are:

*From the Family Records Centre, London by personal application:*

Full certificate of birth, marriage or death, £7.00

Full certificate of adoption, £7.00

Short certificate of birth, £7.00

Short certificate of adoption, £5.50

*By postal application:*

Full certificate of birth, marriage or death, £11.50

Full certificate of birth, marriage or death with GRO index supplied, £8.50

Short abbreviated certificate of birth, £11.50

Short abbreviated certificate of adoption, £9.50

Extra copies of the same birth, marriage or death certificate issued at the same time, £7.00

A priority service is also available with certificates despatched on the working day following receipt of your application. For further information: T 0870-243 7788 W [www.statistics.gov.uk](http://www.statistics.gov.uk)

Indexes prepared from the registers are available for searching by the public at the Family Records Centre in London or at a Superintendent Registrar's Office; indexes at the latter relate only to births, deaths and marriages

which occurred in that registration district. There is no charge for searching the indexes in the Public Search Room at the Family Records Centre but a general search fee is charged for searches at a Superintendent Registrar's Office. A fee is charged for verifying index references against the records. The Society of Genealogists has many records of baptisms, marriages and deaths prior to 1837.

## SCOTLAND

Certificates of births, deaths or marriages that have taken place in Scotland since 1855 can be obtained from the General Register Office for Scotland by personal, postal, telephone or fax application or from the appropriate local registrar. The General Register Office for Scotland also keeps the Register of Divorces (including decrees of declaration of nullity of marriage), and holds parish registers dating from before 1855.

Statutory indexes of births between 1855 to 1903, marriages between 1855 to 1928 and deaths between 1855 to 1953 are available online at [www.scotlandsppeople.gov.uk](http://www.scotlandsppeople.gov.uk). Fees for certificates are:

*Certificates (full or abbreviated) of birth, death, marriage or adoption:*

Personal application: £11.00

Postal/telephone/fax: £13.00

Internet: £16.00

A priority service for a response within 24 hours is available for an additional fee of £10.00

*General search in the indexes to the statutory registers and parochial registers, per day or part thereof:*

Full day search (i.e. 9a.m. to 4.30p.m.), £17.00

Afternoon (i.e. 1p.m. to 4.30p.m.) search £10.00

Discounted full day (i.e. 9a.m. to 4.30p.m.) search with payment being made not less than 14 days in advance, £13.00 (only available for the period 1 December 2004 to 31 January 2005, bookings taken from 20 October)

One week search, £65.00

Four week search, £220.00

One quarter search, £500.00

One year search, £1,500.00

For more information, visit: [www.scotlandsppeople.gov.uk](http://www.scotlandsppeople.gov.uk)

## BRITISH CITIZENSHIP

The British Nationality Act 1981, as amended by the Nationality Immigration Act 2002, the British Overseas Territories Act 2002, the Adoption and Children Act 2002 and the Hong Kong (British Nationality) Order 1986 (as amended) which came into force on 1 January 1983 established three types of citizenship to replace the

single form of Citizenship of the UK and Colonies created by the British Nationality Act 1948. The three forms of citizenship are: British citizenship; British Dependent Territories citizenship; and British Overseas citizenship. Three residual categories were created: British Subjects; British Protected Persons; and British Nationals (Overseas).

Almost everyone who was a citizen of the UK and colonies and had a right of abode in the UK prior to the 1981 Act became British citizens when the Act came into force. British citizens have the right to live permanently in the UK and are free to leave and re-enter the UK at any time.

A person born on or after 1 January 1983 in the UK is entitled to British citizenship if he/she falls into one of the following categories:

- he/she has a parent who is a British citizen
- he/she has a parent who is settled in the UK
- he/she is a newborn infant found abandoned in the UK
- his/her parents subsequently settle in the UK
- he/she lives in the UK for the first ten years of his/her life and is not absent for more than 90 days in each of those years
- he/she is adopted in the UK and one of the adopters is a British Citizen

A person born outside the UK may acquire British citizenship if he/she falls into one of the following categories:

- he/she has a parent who is a British citizen otherwise than by descent, e.g., a parent who was born in the UK
- he/she has a parent who is a British citizen serving the Crown overseas
- the Home Secretary consents to his/her registration while he/she is a minor
- he/she is a British Dependent Territories citizen, a British Overseas citizen, a British subject or a British protected person and has been lawfully resident in the UK for five years
- he/she is a British Overseas Territories citizen, a British National (Overseas), a British Overseas citizen, a British subject or a British protected person and has been lawfully resident in the UK for five years
- he/she is adopted or naturalised

Where parents are married, the status of either may confer citizenship on their child. Currently if a child is illegitimate, the status of the mother determines the child's citizenship, however, this distinction is removed by the 2002 Act.

Under the 1981 Act, Commonwealth citizens and citizens of the Republic of Ireland were entitled to registration as British citizens before 1 January 1988. In 1985, citizens of the Falkland Islands were granted British citizenship.

Renunciation of British citizenship must be registered with the Home Secretary and will be revoked if no new citizenship or nationality is acquired within six months. If the renunciation was required in order to retain or acquire another citizenship or nationality, the citizenship may be reacquired once. The Secretary of State may deprive a person of a citizenship status if he is satisfied that the person has done anything seriously prejudicial to the vital interests of the United Kingdom, or a British overseas territory, unless making the order would have the effect of rendering a person stateless. A person may also be deprived of a citizenship status which results from his registration or naturalisation if the Secretary of State is satisfied that the registration or naturalisation was obtained by means of fraud, false representation or concealment of a material fact.

## BRITISH OVERSEAS TERRITORIES CITIZENSHIP

Under the 1981 Act, British Dependent Territories citizenship was conferred on citizens of the UK and colonies by birth, naturalisation or registration in British Dependent Territories. The Nationality, Immigration and Asylum Act 2002 removes the right of a wife or minor of a British Dependent Territories citizen to register automatically as a British Dependent Territories citizen. By virtue of the British Overseas Territories Act 2002, the British Dependent Territories are now known as British Overseas Territories and the citizens are British Overseas Territories citizens. Further, under that Act, anyone who is a British Overseas Territories Citizen (BOTC) (as renamed) immediately before commencement is to become a British citizen on commencement, although this does not apply to a person who is a BOTC by virtue only of a connection with the Sovereign Base Areas in Cyprus. In future, a BOTC may apply to be registered as a British citizen unless they are a BOTC by virtue only of a connection with the Sovereign Base Areas in Cyprus or have previously renounced British Citizenship.

The British Overseas Territories Act 2002 confers British citizenship and/or BOTC on persons connected by descent with the British Indian Ocean Territory if born between 1969 and 1983 to a mother who was a citizen of the UK and colonies by virtue of her birth in the British Indian Ocean Territory and who was not a British citizen or BOTC before commencement.

On 1 July 1997 citizens of Hong Kong who did not qualify to register as British citizens under the British Nationality (Hong Kong) Act 1990 lost their British Dependent Territories citizenship on the handover of sovereignty to China; they may, however, have applied to register as British Nationals (Overseas).

## BRITISH OVERSEAS CITIZENSHIP

Under the 1981 Act, this type of citizenship was conferred on any UK and colonies citizens who did not qualify for British citizenship or citizenship of the British Dependent (now Overseas) Territories. Following the Nationality, Immigration and Asylum Act 2002, the wife and minors of a British Overseas citizen may not automatically register as British Overseas citizens. By virtue of the 2002 Act, British Overseas citizens may be entitled to registration as British Citizens on completion of five years' legal residence in the UK or if they do not have any other nationality or citizenship and have not voluntarily renounced British citizenship after 4 July 2002.

## RESIDUAL CATEGORIES

British subjects, British protected persons and British Overseas citizens may be entitled to registration as British citizens if they do not have any other nationality or citizenship and have not voluntarily renounced any citizenship after 4 July 2002. Citizens of the Republic of Ireland who were also British subjects before 1 January 1949 can retain that status if they fulfil certain conditions.

## NATURALISATION

Naturalisation is granted at the discretion of the Home Secretary. The basic requirements are five years' residence (three years if the applicant is married to a British citizen), good character, adequate knowledge of the English, Welsh or Scottish Gaelic language, and an intention to reside permanently in the UK. The Nationality, Immigration and Asylum Act 2002 imposes an additional

requirement that the applicant must demonstrate sufficient knowledge about life in the UK and should attend a citizenship ceremony.

## CONSUMER LAW

### SALE OF GOODS

A sale of goods contract is the most common type of contract. It is governed by the Sale of Goods Act 1979 (as amended by the Sale and Supply of Goods Act 1994). The Act provides protection for buyers by implying terms into every sale of goods contract. These terms include:

- an implied term that the seller will pass good title to the buyer (unless the seller agrees to transfer only such title as he has)
- where the seller sells goods by reference to a description, an implied term that the goods will match that description and, where the sale is by sample and description, it will not be sufficient that the bulk of the goods corresponds with the sample if the goods do not also correspond with the description
- where goods are sold by a business seller, an implied term that the goods will be of satisfactory quality if they meet the standard that a reasonable person would regard as satisfactory taking into account any description of the goods, the price, and all other relevant circumstances. The quality of the goods includes their state and condition, relevant aspects being whether they are fit for the purposes for which such goods are commonly supplied, their appearance and finish, freedom from minor defects and their safety and durability. This term will not be implied, however, if a buyer has examined the goods and should have noticed the defect or if the seller specifically drew the buyer's attention to the defect
- where goods are sold by a business seller, an implied term that the goods are reasonably fit for any purpose made known to the seller by the buyer (either expressly or by implication), unless it is shown that the buyer does not rely on the seller's judgement, or it is not reasonable for him/her to do so
- where goods are sold by sample, implied terms that the bulk of the sample will correspond with the sample in quality, and that the goods are free from any defect rendering them unsatisfactory which would have been apparent on a reasonable examination of the sample.

Some of the above terms can be excluded from contracts by the seller. The seller's right to do this is, however, restricted by the Unfair Contract Terms Act 1977. The Act offers more protection to a buyer who 'deals as a consumer', (that is where the seller is selling in the course of a business, the goods are of a type ordinarily bought for private use and the goods are bought by a buyer who is not a business buyer though not allowing any liability for breach of the implied terms described above to be excluded). In a sale by auction or competitive tender, a buyer never deals as consumer. Also, a seller can never exclude the implied term as to title mentioned above.

### HIRE-PURCHASE AGREEMENTS

Terms similar to those implied in contracts of sales of goods are implied into contracts of hire purchase, under the Supply of Goods (Implied Terms) Act 1973. The 1977 Act limits the exclusion of these implied terms as before.

### SUPPLY OF GOODS AND SERVICES

Under the Supply of Goods and Services Act 1982, similar terms are also implied in other types of contract

under which ownership of goods passes, e.g., a contract for 'work and materials' such as supplying new parts while servicing a car, and contracts for the hire of goods (though not hire-purchase agreements). These types of contracts have additional implied terms:

- that the supplier will use reasonable care and skill in carrying out the service
- that the supplier will carry out the service in a reasonable time (unless the time has been agreed)
- that the supplier will make a reasonable charge (unless the charge has already been agreed)

The 1977 Act limits the exclusion of these implied terms in a similar manner as before.

#### UNFAIR TERMS

The Unfair Terms in Consumer Contracts Regulations 1999 apply to contracts between business sellers (or suppliers of goods and services) and consumers. Where the terms have not been individually negotiated, i.e. when the terms were drafted in advance so that the consumer was unable to influence those terms, there will be an unfair term where a term operates to the detriment of the consumer (i.e. carries a significant imbalance in the parties' rights and obligations arising under the contract). An unfair term does not bind the consumer but the contract will continue to bind the parties if it is capable of existing without the unfair term. The regulations contain a non-exhaustive list of terms which are regarded as unfair. Whether a term is regarded as fair or not will depend on many factors, including the nature of the goods or services, the surrounding circumstances (such as the bargaining strength of both parties) and the other terms in the contract.

#### TRADE DESCRIPTIONS

It is a criminal offence under the Trade Descriptions Act 1968 for a business seller to apply a false trade description of goods or to supply or offer to supply any goods to which a false description has been applied. A 'trade description' includes descriptions of quality, size, composition, fitness for purpose, performance, method of manufacture, and place and date of manufacture of the goods.

#### FAIR TRADING

The Fair Trading Act 1973 is designed to protect the consumer. It provides for the appointment of a Director-General of Fair Trading, one of whose duties is to review commercial activities in the UK relating to the supply of goods and services to consumers. An example of a practice which has been prohibited by a reference made under this Act is that of business sellers posing in advertisements as private sellers.

#### CONSUMER PROTECTION AND CREDIT

Under the Consumer Protection Act 1987, producers of goods are liable for any injury or for any damage exceeding £275 caused by a defect in their product (subject to certain defences).

The Consumer Protection (Cancellation of Contracts Concluded Away from Business Premises) Regulations 1987 allow consumers a seven-day period in which to cancel contracts for the supply of goods and services, where the contracts were made during an unsolicited visit by a trader to the consumer's home or workplace. A contract will not be enforceable at all in this situation unless the trader has written to the consumer to notify them of the right to cancel within 7 days.

Consumers are also afforded protection under the Consumer Protection (Distance Selling) Regulations 2000 in relation to e.g. cancellation periods.

In matters relating to the provision of credit (or the supply of goods on hire or hire-purchase), consumers are also protected by the Consumer Credit Act 1974. Under this Act a licence, issued by the Director-General of Fair Trading, is required to conduct a consumer credit or consumer hire business or an ancillary credit business. Any 'fit' person as defined within the Act may apply to the Director-General of Fair Trading for a licence, which is normally renewable after five years. A licence is not necessary if only exempt agreements are involved. The provisions of the Act only apply to 'regulated' agreements, i.e. those that are with individuals or partnerships, those that are not exempt (certain local authority and building society loans will be exempt), and those where the total credit does not exceed £25,000. Provisions include:

- the terms of the regulated agreement can be altered by the creditor provided the agreement gives him/her the right to do so; in such cases the debtor must be given proper notice of this
- in order for a creditor to enforce a regulated agreement, the agreement must comply with certain formalities and must be properly executed. The debtor must also be given specified information by the creditor or his/her broker or agent during the negotiations which take place before the signing of the agreement. The agreement must state certain information such as the amount of credit, the annual interest rate, the amount and timing of repayments
- if an agreement is signed other than at the creditor's (or credit broker's or negotiator's) place of business and oral representations were made in the debtor's presence during discussions pre-agreement, the debtor has a right to cancel the agreement. Time for cancellation expires five clear days after the debtor receives a second copy of the agreement. The agreement must inform the debtor of his right to cancel and how to cancel
- if the debtor is in arrears (or otherwise in breach of the agreement), the creditor must serve a default notice before taking any action such as repossessing the goods
- if the agreement is a hire-purchase or conditional sale agreement, the creditor cannot repossess the goods without a court order if the debtor has paid one-third of the total price of the goods
- in agreements where the debtor is required to make grossly exorbitant payments or where the agreement grossly contravenes the ordinary principles of fair trading, the debtor may request that the court alter or set aside some of the terms of the agreement. The agreement can also be reopened during enforcement proceedings by the court itself

Where a credit reference agency has been used to check the debtor's financial standing, the creditor must give the agency's name to the debtor, who is entitled to see the agency's file on him. A fee of £1 is payable to the agency.

#### SCOTLAND

The legislation governing the sale and supply of goods applies to Scotland as follows:

- the Sale of Goods Act 1979 applies with some modifications and it has been amended by the Sale and Supply of Goods Act 1994 and the Sale and Supply of Goods to Consumers Regulations 2002
- the Supply of Goods (Implied Terms) Act 1973 applies
- the Supply of Goods and Services Act 1982 does not extend to Scotland but some of its provisions were introduced by the Sale and Supply of Goods Act 1994
- only Parts II and III of the Unfair Contract Terms Act 1977 apply

- the Trade Descriptions Act 1968 applies with minor modifications
- the Consumer Credit Act 1974 applies
- the Consumer Protection Act 1987 applies
- the General Product Safety Regulations 1994 apply
- the Unfair Terms in Consumer Contracts Regulations 1999 apply
- the Unfair Terms in Consumer Contracts (Amendment) Regulations 2001 apply
- the Consumer Protection (Distance Selling) Regulations 2000 apply
- the Sale and Supply of Goods to Consumers Regulations 2002 apply

## DEATHS

If a death (including stillbirth) was expected, the doctor who attended the deceased during their final illness should be contacted. If the death was sudden or unexpected, the family doctor (if known) and police should be contacted. If the cause of death is quite clear the doctor will provide: a medical certificate that shows the cause of death and a formal notice that states that the doctor has signed the medical certificate and that explains how to get the death registered.

If the death was known to be caused by a natural illness but the doctor wishes to know more about the cause of death, he/she may ask the relatives for permission to carry out a post-mortem examination.

In England and Wales a coroner is responsible for investigating deaths occurring in the following circumstances:

- where there is no doctor who can issue a medical certificate of cause of death
- when no doctor has treated the deceased during his or her last illness or when the doctor attending the patient did not see him or her within 14 days before death, or after death
- when the death occurred during an operation or before recovery from the effect of an anaesthetic
- when the death was sudden and unexplained or attended by suspicious circumstances
- when the death might be due to an industrial injury or disease, or to accident, violence, neglect or abortion, attended by suspicious circumstances
- the death occurred in prison or in police custody

The doctor will write on the formal notice that the death has been referred to the coroner; if the post mortem shows that death was due to natural causes, the coroner may issue a notification which gives the cause of death so that the death can be registered. If the cause of death was violent or unnatural, the coroner is obliged to hold an inquest.

In Scotland the office of coroner does not exist. The local procurator fiscal inquires into sudden or suspicious deaths. A fatal accident inquiry will be held before the sheriff where the death has resulted from an accident during the course of the employment of the person who has died, or where the person who has died was in legal custody, or where the Lord Advocate deems it in the public interest that an inquiry be held.

### REGISTERING A DEATH

In England and Wales the death must be registered by the registrar of births and deaths for the district in which it occurred; details can be obtained from the doctor or local council, or at a post office or police station. From April 1997, information concerning a death can be given before any registrar of births and deaths in England and

Wales. The registrar will pass the relevant details to the registrar for the district where the death occurred, who will then register the death.

In England and Wales the death must normally be registered within five days; in Scotland it must be registered within eight days. If the death has been referred to the coroner/local procurator fiscal it cannot be registered until the registrar has received authority from the coroner/local procurator fiscal to do so. Failure to register a death involves a penalty in England and Wales and may lead to a court decree being granted by a sheriff in Scotland.

If the death occurred at a house or hospital, the death may be registered by:

- any relative of the deceased
- any person present at the death
- the occupier or any inmate of the house or hospital if he/she knew of the occurrence of the death
- any person making the funeral arrangements
- in Scotland, the deceased's executor or legal representative.

For deaths that took place elsewhere, the death may be registered by

- any relative of the deceased
- someone present at the death
- someone who found the body
- a person in charge of the body
- any person making the funeral arrangements

The majority of deaths are registered by a relative of the deceased. The registrar would normally allow one of the other listed persons to register the death only if there were no relatives available.

The person registering the death should take the medical certificate of the cause of death with them; it is also useful, though not essential, to take the deceased's birth and marriage certificates, NHS medical card (if possible), pension documents and life assurance details. The details given to the registrar must be absolutely correct, otherwise it may be difficult to change them later. The person registering the death should check the entry carefully before it is signed. The registrar will issue a certificate for burial or cremation and a certificate of registration of death; both are free of charge. A death certificate is a certified copy of the entry in the death register; these can be provided on payment of a fee and may be required for the following purposes:

- the will
- bank and building society accounts
- savings bank certificates and premium bonds
- insurance policies
- pension claims
- certificate for applicable Social Security Benefits.

If the death occurred abroad or on a foreign ship or aircraft, the death should be registered according to the local regulations of the relevant country and a death certificate should be obtained. The death can also be registered with the British Consul in that country and a record will be kept at the General Register Office. This avoids the expense of bringing the body back. After 12 months (3 months in Scotland) of death or the finding of a dead body, no death can be registered without the consent of the Registrar-General.

### BURIAL AND CREMATION

In most circumstances in England and Wales a certificate for burial or cremation must be obtained from the registrar before the burial or cremation can take place. If the death has been referred to the coroner, an order for burial or a certificate for cremation must be obtained. In

Scotland a body may be buried (but not cremated) before the death is registered.

Funeral costs can normally be repaid out of the deceased's estate and will be given priority over any other claims. If the deceased has left a will it may contain directions concerning the funeral; however, these directions need not be followed by the executor.

The deceased's papers should also indicate whether a grave space had already been arranged. This information will be contained in a document known as a 'Deed of Grant'. Most town churchyards and many suburban churchyards are no longer open for burial because they are full. Most cemeteries are non-denominational and may be owned by local authorities or private companies; fees vary.

If the body is to be cremated, an application form, two cremation certificates (for which there is a charge) or a certificate for cremation if the death was referred to the coroner, and a certificate signed by the medical referee must be completed in addition to the certificate for burial or cremation (the form is not required if the coroner has issued a certificate for cremation). All the forms are available from the funeral director or crematorium.

The registrar must be notified of the date, place and means of disposal of the body within 96 hours (England and Wales) or three days (Scotland).

If the death occurred abroad or on a foreign ship or aircraft, a local burial or cremation may be arranged. If the body is to be brought back to England or Wales, a death certificate from the relevant country or an authorisation for the removal of the body from the country of death from the coroner or relevant authority will be required. To arrange a funeral in England or Wales, an authenticated translation of a foreign death certificate or a death certificate issued in Scotland or Northern Ireland which must show the cause of death, is needed, together with a certificate of no liability to register from the registrar in England and Wales in whose sub-district it is intended to bury or cremate the body. If it is intended to cremate the body, a cremation order will be required from the Home Office or a certificate for cremation. Further information can be obtained from:

## DIVORCE AND RELATED MATTERS

### ENGLAND AND WALES

There are three types of matrimonial suit: those seeking the annulment of marriage, judicial separation and divorce. To obtain an annulment, judicial separation or divorce in England and Wales: if a European Union court (except Denmark) has jurisdiction, and the one commencing the proceedings (the petitioner) and the one defending the proceedings (the respondent) must be habitually resident in England and Wales; or the petitioner and the respondent must have been habitually resident in England and Wales and one of them must continue to reside there; or the respondent must be habitually resident in England and Wales; or the petitioner must have been habitually resident in England and Wales throughout the period of at least one year ending with the start of proceedings; or the petitioner

must be domiciled in England and Wales and must have been habitually resident in England and Wales throughout the period of at least six months, ending with the start of the proceedings; or both parties must have been domiciled in England and Wales; or if no European Union court (except Denmark) has jurisdiction, one or both of them must be domiciled in England and Wales. All cases are commenced in a divorce county court or in the Principal Registry in London. If a suit is defended, it may be transferred to the High Court.

### NULLITY OF MARRIAGE

Various circumstances will render a marriage invalid including if: there has been wilful non-consummation of the marriage; one partner has a venereal disease at the time of the marriage and the other did not know about it; the female partner was pregnant at the time of the marriage with another person's child and the male partner did not know of the pregnancy; the parties were within prohibited degrees of consanguinity, affinity or adoption; the parties were not male and female; either of the parties was already married; either of the parties was under the age of sixteen; the formalities of the marriage were defective, e.g. the marriage did not take place in an authorised building and both parties knew of the defect.

### SEPARATION

A couple may enter into a private agreement to separate by consent but for the agreement to be valid it must be followed by an immediate separation. Judicial separation does not dissolve a marriage and it is not necessary to prove that the marriage has irretrievably broken down. Either party can petition for a judicial separation at any time; the grounds listed below as grounds for divorce are also grounds for judicial separation. To petition for judicial separation, the parties do not have to prove that they have been married for twelve months or more. A financial settlement between spouses in a separation agreement or which accompanies a judicial separation will not necessarily bind the court after instigation of divorce proceedings.

### DIVORCE

Neither party can petition for divorce until at least one year after the date of the marriage. The sole ground for divorce is the irretrievable breakdown of the marriage; this must be proved on one or more of the following grounds:

- the respondent has committed adultery and the petitioner finds it intolerable to live with him/her; however, the petitioner cannot rely on an act of adultery by the respondent if they have lived together for more than six months after the discovery of the adultery
- the respondent has behaved in such a way that the petitioner cannot be reasonably be expected to continue living with him/her
- the respondent has deserted the petitioner for two years immediately before the petition
- the petitioner and the respondent have lived separately for two years immediately before the petition and the respondent consents to the divorce
- the petitioner and the respondent have lived separately for five years immediately before the petition

A total period of less than six months during which the parties have resumed living together is disregarded in determining whether the prescribed period of separation or desertion has been continuous (but may not be included as part of the period of separation). The Matrimonial Causes Act 1973 requires the solicitor for

the petitioner to certify whether the possibility of a reconciliation has been discussed with the petitioner.

#### THE DECREE NISI

A decree nisi does not dissolve or annul the marriage, but must be obtained before a divorce or annulment can take place. Where the suit is undefended, the evidence normally takes the form of a sworn written statement made by the petitioner which is considered by a district judge. If the judge is satisfied that the petitioner has proved the contents of the petition, a date will be set for the pronouncement of the decree nisi in open court: neither party need attend. If the judge is not satisfied that the petitioner has proved the contents of the petition or if the suit is defended, the petition will be heard in open court with parties giving oral evidence.

#### THE DECREE ABSOLUTE

The decree nisi is made absolute on the application of the petitioner after six weeks. If the petitioner does not apply, the respondent must wait for a further three months before application may be made. If the judge thinks it may be necessary to exercise a judge's powers under the Children Act 1989 in exceptional circumstances the granting of the decree absolute may be delayed. The decree absolute dissolves or annuls the marriage. Where the couple were married in accordance with Jewish or other religious usages, the court may require them to produce a declaration that they have taken such steps as are required to dissolve the marriage in accordance with those usages before the decree absolute is issued.

#### MAINTENANCE

Either party may be liable to pay maintenance to a spouse or former spouse. If there were any children of the marriage, both parties have a legal responsibility to support them financially if they can afford to do so. The courts are responsible for assessing maintenance for a spouse or former spouse, taking into account each parties' income and essential outgoings and other aspects of the case. The court also deals with any maintenance for a child that has been treated by the spouses as a child of the family such as a step-child and any property settlements.

The Child Support Agency (CSA) is responsible for assessing the maintenance that absent parents shall pay for their natural or adopted children (whether or not a marriage has taken place). The CSA accepts applications only when all the people involved are habitually resident in the UK; the courts will continue to deal with cases where one of the individuals lives abroad. The CSA deals with all new cases unless it is agreed by the spouses that the court may grant an Order for child support (but even in agreed jurisdiction cases one parent may give the other fourteen months' notice to have the case dealt with by the CSA).

A formula is used to work out how much child maintenance is payable under CSA jurisdiction. The formula requires the absent parent to pay 15 per cent net of post-tax, national insurance and pension contributions for one child, 20 per cent for two and 25 per cent for more than two. An earnings cap of £104,000 net a year applies. The income of the parent with care is not taken into account. Deductions are applied for staying contact for further children in the absent parent's household. In court jurisdiction cases, the CSA formula is adopted as a guideline only.

Some cases involving unusual circumstances are treated as special cases and the assessment is modified and in some cases the court retains jurisdiction (for educational

costs and high income cases, for example). Where there is financial need (e.g. because of disability or continuing education) maintenance may be ordered by the court for children even beyond the age of eighteen. CSA maintenance is reviewed automatically every two years. Either parent can report a change of circumstances and request a review at any time. An independent complaints examiner for the CSA has been appointed. If the absent parent does not pay CSA maintenance, the CSA may make an order for payments to be deducted directly from his/her salary; if all other methods fail, the CSA may take court action to enforce payment.

#### OTHER FINANCIAL RELIEF

After allowing the claimant's reasonable needs in terms of housing and a fund to provide income for life, the court has to measure a provisional award against the yardstick of equal division. The approach is based on percentage division and reasons being advanced for departure from it. Ongoing spousal maintenance cases can justify a departure. The court has a duty to consider making a once and for all capital award, such as a payment and/or property or pension transfer if this can be afforded. This is known as a clean break. Alternatively the court will make a capital award and an ongoing spousal maintenance award if a clean break cannot be afforded. Maintenance is often payable during joint lives or until the recipient's remarriage, subject to the ability to vary or terminate in the meantime. There is no concept of separate or marital property in England and Wales: all assets however derived are potentially vulnerable on divorce. This includes inherited wealth, gifted wealth and pre-marriage acquired wealth.

The court must consider the following factors when making financial orders, after giving first consideration to the welfare of any minor children of the family: the income, earning capacity, property and other financial resources which each of the parties to the marriage has or is likely to have in the foreseeable future, including in the case of earning capacity, any increase in that capacity which it would, in the opinion of the court, be reasonable to expect a party to the marriage to take steps to acquire; the financial needs, obligations and responsibilities which each of the parties to the marriage has or is likely to have in the foreseeable future; the standard of living enjoyed by the family before the breakdown of the marriage; the age of each party to the marriage and the duration of the marriage; any physical or mental disability of either of the parties to the marriage; the contribution which each of the parties has made or is likely in the foreseeable future to make to the welfare of the family, including any contribution by looking after the home or caring for the family; the conduct of each of the parties, if that conduct is such that it would, in the opinion of the court, be inequitable to disregard it; and in the case of proceedings for divorce or nullity of marriage, the value to each of the parties to the marriage of any benefit (for example a pension) which by reason of the dissolution of the marriage that party will lose the chance of acquiring.

The court has the power to award in addition to maintenance a lump sum order, a property transfer order and a pension sharing order as the main forms of financial relief.

#### COHABITING COUPLES

Rights of unmarried couples are not the same as for married couples. Agreements, whether express or inferred by conduct, often determine interests in money and property. Reliance upon inferences is problematic. By

virtue of this, it is worth considering entering into a contract which establishes how money and property should be divided in the event of a relationship breakdown. These contracts are commonly known as 'separation deeds' or 'cohabitation contracts'. New legislation is expected for homosexual couples entering into a civil partnership. They will secure similar rights and responsibilities to married couples.

## SCOTLAND

Although there is separate legislation for Scotland covering nullity of marriage, judicial separation, divorce and ancillary matters, the provisions are in most respects the same as those for England and Wales. The following is confined to major points on which the law in Scotland differs. An action for 'declarator of nullity' can be brought only in the Court of Session. Where a spouse is capable of sexual intercourse but refuses to consummate the marriage, this is not a ground of nullity in Scots law, though it could be a ground for divorce. The fact that a spouse was suffering from venereal disease at the time of marriage and the other spouse did not know this, is not a ground of nullity in Scots law, neither is the fact that a wife was pregnant by another man at the time of marriage and her husband did not know this. An action for judicial separation or divorce may be raised in the Court of Session; it may also be raised in the Sheriff Court if either party was resident in the sheriffdom for 40 days immediately before the date of the action or for 40 days ending not more than 40 days before the date of the action. The fee for starting a divorce petition in the Sheriff Court is £81.

When adultery is cited as proof that the marriage has broken down irretrievably, it is not necessary in Scotland to prove also that it is intolerable for the pursuer to live with the defender. In the case of desertion, irretrievable breakdown is not established if, after the two year desertion period has expired, the parties resume living together at any time after the end of three months from the date when they first resume living together.

Where a divorce action has been raised, it may be sisted or put on hold for a variety of reasons.

If the parties do cohabit during such postponement, no account is taken of the cohabitation if the action later proceeds.

In actions for divorce and separation, the court has the power to award a residence order in respect of any children of the marriage. The welfare of the children is of paramount importance, and the fact that a spouse has caused the breakdown of the marriage does not in itself preclude him/her from being awarded residence.

A simplified procedure for 'do-it-yourself' divorce was introduced in 1983 for certain divorces. If the action is based on two or five years' separation and will not be opposed, and if there are no children under 16 and no financial claims, and there is no sign that the applicant's spouse is unable to manage his or her affairs through mental illness or handicap, the applicant can write directly to the local sheriff court or to the Court of Session for the appropriate forms to enable him or her to proceed. The fee is £62, unless the applicant receives income support, family credit or legal advice and assistance, in which case there is no fee. An extract decree, which brings the marriage to an end, will be made available 14 days after the divorce has been granted. Further information can be obtained from:

## EMPLOYMENT LAW

### PAY AND CONDITIONS

The Employment Rights Act 1996 consolidates the statutory provisions relating to employees' rights. Employers must give each employee employed for one month or more a written statement containing the following information: names of employer and employee; date when employment began and the date on which the employee's period of *continuous* employment began (taking into account any employment with a previous employer which counts towards that period); remuneration and intervals at which it will be paid; job title or description of job; hours and place(s) of work; holiday entitlement and holiday pay; provisions concerning incapacity for work due to sickness and injury, including provisions for sick pay; details of pension scheme(s); length of notice period that employer and employee need to give to terminate employment; if the employment is not intended to be permanent, the period for which it is expected to continue or, if it is for a fixed term, the end date of the contract; details of any collective agreement which affects the terms of employment; details of disciplinary and grievance procedures; if the employee is to work outside the UK for more than one month, the period of such work and the currency in which payment is made.

This must be given to the employee within two months of the start of their employment. The Working Time Regulations 1998, the National Minimum Wage Act 1998 and the Employment Relations Act 1999 now supplement the 1996 Act. If the employer does not provide the written statement within two months then the employee can complain to an employment tribunal, which can specify the information that the employer should have given. The Employment Act 2002 is due to bring in a new provision allowing the tribunal to award compensation of between 2 and 4 weeks' pay when, in the context of an employee's successful tribunal claim, the employer is also found to have been in breach of the duty to provide the written statement at the time proceedings were commenced.

### FLEXIBLE WORKING

The Employment Act 2002 gives employees the right to apply for a flexible working pattern for the purpose of caring for a child and is intended to cover anyone who has responsibility for the upbringing of a child. If an application under the Act is rejected, it is open to the employee to complain to an employment tribunal.

### SICK PAY

Employees absent from work through illness or injury are entitled to receive Statutory Sick Pay (SSP) from the employer for a maximum period of 28 weeks in any three-year period. This applies to all employees, both men and women, up to the age of 65. The rate of SSP, as from 4 April 2004, is £102.80 per week.

### MATERNITY AND PARENTAL RIGHTS

Under the Employment Relations Act 1999, the

## THE PRINCIPAL REGISTRY

First Avenue House, 42-49 High Holborn, London WC2V 6NP

Employment Act 2002 and the Maternity and Parental Leave (Amendment) Regulations, both men and women are entitled to leave where they become a parent. Women are protected from discrimination, detriment or dismissal by reason of their pregnancy. Men are protected from suffering a detriment or dismissal for taking paternity or parental leave.

Women are entitled to 26 weeks' Ordinary Maternity Leave. There is no qualifying period of employment. Any woman who is absent from work during her Ordinary Maternity Leave period has the right to return to the job in which she was employed before her absence. An employee may take Additional Maternity Leave of up to 26 weeks if she has been continuously employed for not less than 26 weeks at the beginning of the 14th week before the expected week of childbirth. Women who qualify for Additional Maternity Leave will also qualify for Statutory Maternity Pay. Statutory Maternity Pay is payable for 26 weeks and generally starts when the employee stops work. Then first six weeks of SMP are paid at 90 per cent of the employer's average weekly earnings, and the remaining twenty weeks are paid at the rate of £102.80 per week (from 4 April 2004), or 90 per cent of weekly earnings, whichever is lower.

Employees are entitled to paternity leave for the purpose of caring for a child or supporting the child's mother on the birth or adoption of a child. The qualifying period of employment for this right is the same as for Additional Maternity Leave (that is, the employee must have been continuously employed for not less than 26 weeks at the beginning of the 14th week before the expected week of childbirth). The employee may take either one week's leave or two consecutive weeks' leave. This leave may be taken from the date of the child's birth to 56 days later. During their Paternity Leave, most employees will be entitled to Statutory Paternity Pay, which is paid at the same rate as Statutory Maternity Pay.

Employees are entitled to Ordinary Adoption Leave, Additional Adoption Leave and Adoption Pay subject to fulfilment of criteria similar to those in relation to Maternity Leave and Pay. Where a couple is adopting a child, one may take Adoption Leave, and the adopter's spouse or partner may take Paternity Leave.

Any employee with one year's service who has, or expects to have, responsibility for a child may take parental leave. Each parent is entitled to a total of 13 weeks' parental leave for each of their children but this leave must be taken before the child's fifth birthday (or eighteenth birthday if the child is disabled).

#### SUNDAY TRADING

The Sunday Trading Act 1994 gives shop workers the right not to be dismissed, selected for redundancy or to suffer any detriment (such as the denial of overtime, promotion or training) if they refuse to work on Sundays. This does not apply to those who, under their contracts, are employed to work on Sundays.

#### TERMINATION OF EMPLOYMENT

An employee may be dismissed without notice if guilty of gross misconduct but in other cases a period of notice must be given by the employer. The minimum periods of notice specified in the Employment Rights Act 1996 are: one week if the employee has been continuously employed for one month or more but for less than two years or two weeks if the employee has been continuously employed for at least two years. A week is added for every complete year of continuous employment up to 12 years

up to a maximum of 12 weeks, however, longer periods apply if these are specified in the contract of employment.

If an employee is dismissed with less notice than he/she is entitled to by statute, or under their contract if longer, the employer is generally liable to pay the employee in lieu of notice (or for the period of the contract for those on fixed-term contracts). Generally, no notice needs to be given of the expiry of a fixed-term contract. If the employer does not give the employee pay in lieu of notice then the employer becomes liable to pay the employee damages for wrongful dismissal. This claim for wrongful dismissal can be brought by the employee either in the court system or the employment tribunal, but if brought in the tribunal the maximum amount that can be awarded is £25,000. This claim can also be brought by an employee whose fixed-term contract has been terminated prematurely, and without justification, by the employer.

#### REDUNDANCY

An employee dismissed because of redundancy may be entitled to redundancy pay. This applies if: the employee has at least two years' continuous service; the employee is actually dismissed by the employer (even in cases of voluntary redundancy); or dismissal is due to redundancy. Redundancy can mean closure of the entire business, closure of a particular site of the business, overmanning (surplus employees) or reduction in work of a particular kind.

An employee may not be entitled to a redundancy payment if offered a suitable alternative job by the same employer. The amount of payment depends on the length of service, the age of the employee, and their earnings, subject to a weekly maximum of (currently) £270. The maximum award that can be made is £8,100. The redundancy payment is guaranteed by the State in cases where the employer becomes insolvent (subject to the conditions above).

#### UNFAIR DISMISSAL

Complaints of unfair dismissal are dealt with by an employment tribunal. Any employee with one year's continuous service (subject to exceptions) regardless of their hours of work, can make a complaint to the tribunal. At the tribunal, the employee must prove that he or she was dismissed, but it is for the employer to prove that the dismissal was due to one or more of the following acceptable reasons: the employee's capability or qualifications for the job he was employed to do; the employee's conduct; redundancy; a legal restriction preventing the continuation of the employee's contract; or some other substantial reason.

If the employer succeeds in showing this, the tribunal must then decide whether the employer acted reasonably in dismissing the employee for that reason. If the employee is found to have been unfairly dismissed, the tribunal can order that he/she be reinstated or compensated. Any person believing that they may have been unfairly dismissed should contact their local Citizens Advice Bureau or seek legal advice. A claim must be brought within 3 months of the date of termination of employment. The maximum award for unfair dismissal is £55,000 which relates to dismissals occurring on or after 1 February 2004.

#### DISCRIMINATION

Discrimination in employment on the grounds of sex, sexual orientation, race, colour, nationality, ethnic or national origins, religion or belief, married status or

(subject to wide exceptions) disability is unlawful. Discrimination legislation also covers sexual harassment and gender reassignment. Discrimination on the grounds of age will become unlawful when age discrimination legislation comes into force on 1 October 2006. The following legislation applies to those employed in Great Britain but not to employees in Northern Ireland or (subject to EC exceptions) to those who work mainly abroad:

- The Equal Pay Act 1970 (as amended) entitles men and women to equality in matters related to their contracts of employment. Those doing like work for the same employer are entitled to the same pay and conditions regardless of their sex
- The Sex Discrimination Act 1975 (as amended by the Sex Discrimination Act 1986) makes it unlawful to discriminate on grounds of sex or marital status (although, under the Act it is, in fact, only unlawful to discriminate against people because they are married, not because they are single). This covers all aspects of employment, including advertising for recruits, terms offered, opportunities for promotion and training, and dismissal procedures
- The Race Relations Act 1976 gives individuals the right not to be discriminated against on the grounds of race, colour, nationality, or ethnic or national origins. It applies to all aspects of employment
- The Disability Discrimination Act 1995 makes discrimination against a disabled person in all aspects of employment unlawful. An employer may show that the less favourable treatment is justified. The Act also imposes a duty on employers to make 'reasonable adjustments' to the arrangements and physical features of the workplace if these place disabled people at a substantial disadvantage compared with those who are not disabled. Employers with fewer than 15 employees are exempt from the Act's requirements
- The Employment Equality (Religion or Belief) Regulations 2003, which implement an EC Directive, make discrimination against a person on the grounds of religion or belief, in all aspects of employment, unlawful
- The Employment Equality (Sexual Orientation) Regulations 2003, which implement another aspect of the same EC directive, make discrimination against an individual on the grounds of sexual orientation, in all aspects of employment, unlawful

In Northern Ireland similar provisions exist but are contained in separate legislation (although the Disability Discrimination Act does extend to Northern Ireland).

The Employment Relations Act 1999 made a number of important changes to the existing law: a right of accompaniment. A worker attending a serious disciplinary or grievance hearing has the right to be accompanied by a trade union representative or co-worker of their choice; a new scheme of compulsory trade union recognition following a workplace ballot; greater protection from dismissal for striking employees.

The Employment Act 2002 has also made significant changes to the law in this area. It introduced a wide range of provisions covering new rights for working parents, dispute resolution in the workplace, including statutory grievance and disciplinary procedures, improvements to employment tribunal procedures, including the introduction of an equal pay questionnaire, provisions to implement the Fixed Term Work Directive, a new right to time off work for union learning representatives and a new right to request flexible working by parents of young children.

## ILLEGITIMACY AND LEGITIMATION

The Children Act 1989 gives the mother parental responsibility for the child. An unmarried father does not automatically acquire parental responsibility but can do so either by agreement with the mother (in prescribed form) or by applying to the court. The Adoption and Children Act 2002 (not yet fully in force) also makes provision for a father who is not married to the child's mother to acquire parental responsibility for the child if he becomes registered as the child's father. If an illegitimate child is to be adopted, the father's consent is required only where he has been awarded parental rights by the court.

Every child born to a married woman during marriage is presumed to be legitimate, unless the couple are separated under court order when the child is conceived, in which case the child is presumed not to be the husband's child. It is possible to challenge the presumption of legitimacy or illegitimacy through civil proceedings.

In Scotland, the relevant legislation is the Children (Scotland) Act 1995, which also gives the mother parental responsibility for her child whether or not she is married to the child's father. The father has automatic parental rights only if married to the mother. An unmarried father has no automatic parental rights but can acquire parental responsibility by applying to the court or by acquiring them under a parental responsibilities and parental rights agreement made with the mother. A child's father will only have automatic rights and responsibilities if he was married to the mother at the time of conception or subsequently marries her. The father of any child, regardless of parental rights, has a duty to aliment that child until he/she is 18 (25 if he/she is still in full-time education).

### LEGITIMATION

Under the Legitimacy Act 1976, an illegitimate person automatically becomes legitimate when his/her parents marry. This applies even where one of the parents was married to a third person at the time of the birth. In such cases it is necessary to re-register the birth of the child. In Scotland, the relevant legislation is the Legitimation (Scotland) Act 1968, the Adoption (Scotland) Act 1978 and the Law Reform (Parent and Child) Scotland Act 1986 which gives illegitimate and legitimate persons equal status.

## JURY SERVICE

### ENGLAND AND WALES

The Juries Act 1976, as amended by the Criminal Justice Act 2003 provides that every person registered as a parliamentary or local government elector between the ages of 18 and 70 who has been ordinarily resident in the UK (including, for this purpose, the Channel Islands and the Isle of Man) for any period of at least five years since reaching the age of 13, who is not mentally disordered or disqualified, is qualified to serve on a jury.

Under the amended Juries Act 1974, mentally disordered persons are defined as:

- A person who suffers or has suffered from mental illness, psychopathic disorder, mental handicap or severe mental handicap and on account of that condition either (a) is resident in a hospital or similar institution or (b) regularly attends for treatment by a medical practitioner.
- A person for the time being under guardianship under section 7 of the Mental Health Act 1983.

- A person who, under Part 7 of that Act, has been determined by a judge to be incapable, by reason of mental disorder, of managing and administering his property and affairs.

Disqualified persons are those:

- on bail in criminal proceedings
- who have at any time been sentenced in the United Kingdom, the Channel Islands or the Isle of Man (a) to imprisonment for life, detention for life or custody for life, (b) to detention during her Majesty's pleasure or during the pleasure of the Secretary of State, (c) to imprisonment for public protection or detention for public protection, (d) to an extended sentence under section 227 or 228 of the Criminal Justice Act 2003 or section 210A of the Criminal Procedure (Scotland) Act 1995, or (e) to a term of imprisonment of five years or more or a term of detention of five years or more.
- who at any time in the last ten years have
  - (a) in the United Kingdom, the Channel Islands or the Isle of Man
    - (i) served any part of a sentence of imprisonment or a sentence of detention, or (ii) had passed on him/her a suspended sentence of imprisonment or had made in respect of him/her a suspended order for detention
  - (b) in England and Wales, had made in respect of him/her a community order under section 177 of the Criminal Justice Act 2003, a community rehabilitation order, a community punishment order, a community punishment and rehabilitation order, a drug treatment and testing order or a drug abstinence order, or
  - (c) had made in respect of him/her any corresponding order under the law of Scotland, Northern Ireland, the Isle of Man or any of the Channel Islands

There is no longer a right to be excused from jury service, except for those who have served on a jury in the previous two years, but the court does have the discretion to excuse a juror from service, or defer the date of service, if good reason is shown.

If a person serves on a jury knowing himself/herself to be ineligible or disqualified, he/she is liable to be fined up to £5,000 if disqualified and up to £1,000 for all other offences. The defendant can object to any juror if he/she can show cause.

A juror may claim travelling expenses, a subsistence allowance and an allowance for other financial loss (e.g. loss of earnings or benefits, fees paid to carers or child-minders) up to a stated limit, however, following the amendments contained in the Criminal Justice Act 2003, the subsistence allowance may be paid for otherwise than in cash (such as the provision of facilities).

It is an offence for a juror to disclose what happened in the jury room even after the trial is over. A jury's verdict must normally be unanimous, but if no verdict has been reached after two hours' consideration (or such longer period as the court deems to be reasonable) a majority verdict is acceptable if ten jurors agree to it.

## SCOTLAND

Qualification criteria for jury service in Scotland are contained in the Law Reform (Miscellaneous Provisions) (Scotland) Act 1980 as amended by the Criminal Justice (Scotland) Act 2003. The maximum age for a juror is 65 and there are wide categories of people ineligible to serve as jurors or who can refuse to do so as of right.

Those ineligible for jury service include:

- the Judiciary, including those who have been classed as

such in the last 10 years (including judges, sheriffs, tribunal chairman, magistrates and registrars)

- those who have within the previous 5 years been concerned with the administration of justice (including advocates, solicitors, police and court officials)
- the mentally disordered (including persons receiving medical treatment for mental disorder and either are resident in a hospital or attend on more than one day each week and persons for the time being subject to guardianship under the Adults with Incapacity (Scotland) Act 2000)

Those disqualified from jury service include:

- those who have at any time been sentenced by a court in the UK (including, for this purpose, the Channel Islands and the Isle of Man) to a term of imprisonment or youth custody of 5 years or more
- those who have within the previous 10 years served any part of a sentence of 3 months or more of imprisonment, detention or youth custody or been detained in a borstal institution, and who are not rehabilitated persons for the purposes of the Rehabilitation of Offenders Act 1974
- persons who have been convicted of an offence where one or more of the following orders was made: (i) a probation order; (ii) a drug treatment and testing order; (iii) a community service order; (iv) a restriction of liberty order; (v) a community order under the Powers of Criminal Courts (Sentencing) Act 2000 or the Criminal Justice (Northern Ireland) Order; except where they are rehabilitated persons for the purposes of the Rehabilitation of Offenders Act 1974

Those who may be excused as of right from jury service include:

- members and officers of the Houses of Parliament; the Scottish Parliament and Executive and the European Parliament
  - full-time serving members of the armed forces
  - registered and practising members of the medical, dental, nursing, veterinary and pharmaceutical professions
  - ministers of any religion, vowed members of religious communities and those who are practising members of religious societies or orders whose beliefs are incompatible with jury service
  - those who have served on a jury in the previous 5 years
- The maximum fine for a person serving on a jury knowing himself/herself to be ineligible is £1,000. The maximum fine for failing to attend without good cause is also £1,000. Further information can be obtained from:

## LANDLORD AND TENANT

### RESIDENTIAL LETTINGS

The provisions outlined here apply only where the tenant lives in a separate dwelling from the landlord and where the dwelling is the tenant's only or main home. It does not apply to licensees such as lodgers, guests or service occupiers. The 1996 Housing Act radically changed certain aspects of the legislation referred to below; in particular, the grant of assured and assured shorthold tenancies under the Housing Act 1988.

**ASSURED SHORTHOLD TENANCIES**

If a tenancy was granted on or after 15 January 1989 and before 28 February 1997, the tenant might have an assured tenancy giving that tenant greater rights. The tenant could, for example, stay in possession of the dwelling for as long as the tenant observed the terms of the tenancy. The landlord cannot obtain possession from such a tenant unless the landlord can establish a specific ground for possession (set out in the Housing Act 1988) and obtains a court order. The rent payable is that agreed with the landlord unless the rent has been fixed by the rent assessment committee of the local authority. The tenant or the landlord may request that the committee sets the rent in line with open market rents for that type of property. Any rent increases that are to take place should be written into the agreement, but failing that, the landlord must give advance notice of the increase.

Under the Housing Act 1996, most new lettings entered into on or after 28 February 1997 will be assured shorthold tenancies. This means that tenants are given limited rights. The landlord must obtain a court order, however, to obtain possession if the tenant refuses to vacate at the end of the tenancy. If the tenant owes two months' rent or more, the landlord can serve notice proceedings and apply to the courts for an order for possession. If the tenancy is an assured shorthold tenancy, the court must grant the order.

**REGULATED AND SECURE TENANCIES**

Before the Housing Act 1988 came into force (15 January 1989) there were regulated tenancies; some are still in existence and are protected by the Rent Act 1977. Under this Act it is possible for the landlord or the tenant to apply to the local rent officer to have a 'fair' rent registered. The fair rent is then the maximum rent payable.

Secure tenancies are generally given to tenants of local authorities, housing associations and certain other bodies. This gives the tenant lifelong tenure unless the terms of the agreement are broken by the tenant. In certain circumstances those with secure tenancies may have the right to buy their property. In practice this right is generally only available to council tenants.

**AGRICULTURAL PROPERTY**

Tenancies in agricultural properties are governed by the Agricultural Holdings Act 1986 and the Rent (Agricultural) Act 1976, which give similar protections to those described above, e.g. security of tenure, right to compensation for disturbance, etc. The Agricultural Holdings (Scotland) Act 1991 applies similar provisions to Scotland.

**EVICTION**

Under the Protection from Eviction Act 1977 (as amended by the Housing Act 1988), a landlord must give reasonable notice that he/she is to evict the tenant, and in most cases a possession order, granted in court, is necessary. Notice is generally to be at least four weeks and in prescribed statutory form. It is illegal for a landlord to evict a person by putting their belongings onto the street, by changing the locks and so on. It is also illegal for a landlord to harass a tenant in any way in order to persuade him/her to give up the tenancy.

**LANDLORD RESPONSIBILITIES**

Under the Landlord and Tenant Act 1985, where the term of the lease is less than seven years, the landlord is responsible for maintaining the structure and exterior of

the property, for sanitation, for heating and hot water, and all installations for the supply of water, gas and electricity.

**LEASEHOLDERS**

Legally leaseholders have bought a long lease rather than a property and in certain limited circumstances the landlord can end the tenancy. Under the Leasehold Reform Act 1967 (as amended by the Housing Acts 1969, 1974 and 1980), leaseholders of houses may have the right to buy the freehold or to take an extended lease for a term of 50 years. This applies to leases where the term of the lease is over 21 years and where the leaseholder has occupied the house as his/her main residence for the last three years, or for a total of three years over the last ten.

The Leasehold Reform, Housing and Urban Development Act came into force in 1993 and allows the leaseholders of flats in certain circumstances to buy the freehold of the building in which they live.

Responsibility for maintenance of the structure, exterior and interior of the building should be set out in the lease. Usually the upkeep of the interior of his/her part of the property is the responsibility of the leaseholder, and responsibility for the structure, exterior and common interior areas is shared between the freeholder and the leaseholder(s).

If leaseholders are in any way dissatisfied with treatment from their landlord or with charges made in respect of lease extensions, they are entitled to have their situation evaluated by the Leasehold Valuation Tribunal.

The Commonhold and Leasehold Reform Act 2002 (not in force at the time of writing (1 August 2003)) makes provision for the freehold estate in land to be registered as commonhold land and for the legal interest in the land to be vested in a 'commonhold association' i.e. a private limited company.

**BUSINESS LETTINGS**

The Landlord and Tenant Acts 1927 and 1954 (as amended) give security of tenure to the tenants of most business premises. The landlord can only evict the tenant on one of the grounds laid down in the 1954 Act, and in some cases where the landlord repossesses the property the tenant may be entitled to compensation.

**SCOTLAND**

In Scotland assured and short assured tenancies exist for lettings after 2 January 1989 and are similar to assured tenancies in England and Wales. The relevant legislation is the Housing (Scotland) Act 1988.

Most tenancies created before 2 January 1989 were regulated tenancies and the Rent (Scotland) Act 1984 still applies where these exist. The Act defines, among other things, the circumstances in which a landlord can increase the rent when improvements are made to the property. The provisions of the Rent Act do not apply to tenancies where the landlord is the Crown, a local authority, the development corporation of a new town or a housing corporation.

The Housing (Scotland) Act 1987 and its provisions relate to local authority responsibilities for housing, the right to buy, and local authority secured tenancies. The provisions are broadly similar to England and Wales.

In Scotland, business premises are not controlled by statute to the same extent as in England and Wales, although the Tenancy of Shops (Scotland) Act 1949 gives some security to tenants of shops. Tenants of shops can apply to the sheriff, within 21 days of being served a

notice to quit, for a renewal of tenancy if threatened with eviction. This application may be dismissed on various grounds including where the landlord has offered to sell the property to the tenant at an agreed price or, in the absence of agreement as to price, at a price fixed by a single arbiter appointed by the parties or the sheriff. The Act extends to properties where the Crown or government departments are the landlords or the tenants. Under the Leases Act 1449 the landlord's successors (either purchasers or creditors) are bound by the agreement made with any tenants so long as the following conditions are met: the lease, if for more than one year, must be in writing; there must be a rent; there must be a term of expiry; the tenant must have entered into possession; the subjects of the lease must be land; and the landlord, if owner, must be infeft – i.e. the title deeds are recorded in the Register of Sasines or the Land Register.

## LEGAL AID

The Access to Justice Act 1999 has transformed what used to be known as the Legal Aid system. The Legal Aid Board has been abolished and replaced from 2 April 2000 with the Legal Services Commission (85 Gray's Inn Road, London, WC1X 8TX T 020-7759 0000 W [www.legalservices.gov.uk](http://www.legalservices.gov.uk)). The Legal Services Commission is responsible for the development and administration of two legal funding schemes in England and Wales, namely the Criminal Defence Service which replaced the old system of criminal legal aid, and the Community Legal Service fund, which replaced the old civil scheme of legal aid. The Community Legal Service is designed to increase access to legal information and advice by involving a much wider network of funders and providers in giving publicly funded legal services. In Scotland, provision of legal aid is governed by the Legal Aid (Scotland) Act 1986 and is administered by the Scottish Legal Aid Board. Information can be obtained from:

THE SCOTTISH LEGAL AID BOARD, 44 Drumsheugh Gardens, Edinburgh EH3 7SW T 0131-226 7961

### CIVIL LEGAL AID

From 1 January 2000, only organisations (solicitors or Citizens Advice Bureaux) with a contract with the Legal Services Commission have been able to give initial help in any civil matter. Moreover, from that date decisions about funding were devolved from the Legal Services Commission to contracted organisations in relation to any level of publicly funded service in family and immigration cases. For other types of case, applications for public funding are made through a solicitor (or other contracted legal services providers) in much the same way as the former Legal Aid. On 1 April 2001 the so-called civil contracting scheme was extended to cover all levels of service for all types of cases.

Under the new civil funding scheme there are broadly seven levels of service available: legal help; help at court (the first two types of service are limited to advice and assistance with preparing a case, but do not include representation); proved family help – either general family help or help with mediation (special levels of service for family cases); legal representation – either investigative help or full representation (this covers assistance with representation in court); support funding – either investigative support or litigation support (this is a new type of assistance which allows the costs of a privately funded case to be topped up from public funds. It is only

available for personal injury claims (excluding clinical negligence) and some multi-party action only); family mediation; and such other services as are specifically authorised by the Lord Chancellor.

In general, public funding is not available for the following type of cases: personal injury (except for the availability of support funding and clinical negligence claims); allegations of negligent damage to property; conveyancing; boundary disputes; the making of wills; matters of trust law; defamation proceedings; partnership disputes and company law; and other matters arising out of the carrying on of a business.

### ELIGIBILITY

Eligibility for funding from the Community Legal Service depends broadly on five factors: the level of service sought; whether the applicant qualifies financially; the merits of the applicant's case; a costs-benefits analysis (if the costs are likely to outweigh any benefit that might be gained from the proceedings, funding may be refused); and whether there is any public interest in the case being litigated (i.e. whether the case has a wider public interest beyond that of the parties involved – for example, a human rights case). The limits on capital and income above which a person is not entitled to public funding vary with the type of service sought.

### CONTRIBUTIONS

Some of those who qualify for Community Legal Service funding will have to contribute towards their legal costs. Contributions must be paid by anyone who has a disposable income or disposable capital exceeding a prescribed amount. The rules relating to applicable contributions are complex and detailed information can be obtained from the Legal Services Commission.

### STATUTORY CHARGE

A statutory charge is made if a person receives money or property in a case for which they have received legal aid. This means that the amount paid by the Community Legal Service fund on their behalf is deducted from the amount that the person receives. This does not apply if the court has ordered that the costs be paid by the other party (unless the amount paid by the other party does not cover all of the costs) or if the payments are for maintenance – or to the first £2,500 of any money or property the applicant gains or keeps in divorce cases and most other family proceedings – where the solicitor is advising the applicant whilst they attend family mediation under a 'help with mediation' certificate – where advice is given only under the 'legal help' scheme in any matter other than family or personal injury after 1 April 2000.

### CONTINGENCY OR CONDITIONAL FEES

Under this system legal representation is offered on a 'no win, no fee' basis. It provides an alternative form of assistance, especially for those cases which are ineligible for funding by the Community Legal Service. The main area for such work is in the field of personal injuries which claims are now largely exempt from public funding (except for clinical negligence claims).

Not all solicitors offer such a scheme and different solicitors may have different terms. The effect of the agreement is that solicitors will not make any charges until the case is concluded successfully. If a case is won then the losing party will usually have to pay towards

costs, with the winning party contributing around one-third.

### SCOTLAND

Civil legal aid in Scotland is administered by the Scottish Legal Aid Board and is available on a broadly similar basis to that which is available in England and Wales.

Under the Legal Advice and Assistance scheme, solicitors can provide initial legal advice and assistance short of representing clients in court proceedings on any legal matter subject to the prior authorisation of the Scottish Legal Aid Board of any further work. Under the same scheme, solicitors can also provide initial Advice By Way of Representation (ABWOR) to individuals in certain proceedings, again subject to the prior authorisation of the Board of any further representation work.

Under the Civil Legal Aid scheme, solicitors can provide representation to individuals in a wide variety of civil proceedings including family law and personal injury matters. Before Civil Legal Aid will be granted, the Scottish Legal Aid Board must be satisfied that the individual is financially eligible, that the case has merit and that the grant of Civil Legal Aid would be a reasonable expenditure of public funds. Representation can be provided in urgent cases under emergency Civil Legal Aid whilst an application for Civil Legal Aid is considered by the Board.

In order to qualify for Legal Advice and Assistance and/or Civil Legal Aid, individuals must be financially eligible according to the Scottish Legal Aid Board's criteria, which are similar to those used by under the CLS scheme in England and Wales. As in that jurisdiction, individuals may require to pay a contribution from income and/or capital, and a charge similar to the Statutory Charge (see above) is made against any money or property recovered or preserved on behalf of the individual.

Further information about the eligibility criteria for Legal Advice and Assistance and Civil Legal Aid in Scotland can be obtained from The Scottish Legal Aid Board (see details above) or from Scottish solicitors or Citizens Advice Bureaux.

### CRIMINAL LEGAL AID

The courts will grant criminal legal aid for representation if it is desirable in the interests of justice (e.g. if there are important questions of law to be argued or the case is so serious that if found guilty the person may go to prison) and the person needs help to pay their legal costs. Criminal legal aid covers the cost of preparing a case and legal representation (including the cost of a barrister) in criminal proceedings. It is also available for appeals against verdicts or sentences in magistrates' courts, the Crown Court or the Court of Appeal. It is not available for bringing a private prosecution in a criminal court.

If granted criminal legal aid, either the person may choose their own solicitor or the court will assign one. Contributions to the legal costs must be paid by anyone who has a disposable income or disposable capital which exceeds a prescribed amount. The rules relating to applicable contributions are complex and detailed information can be obtained from the Legal Services Commission.

### DUTY SOLICITORS

The Legal Aid Act 1988 also provides free advice and assistance to anyone questioned by the police (whether under arrest or helping the police with their enquiries). No means test or contributions are required for this.

### SCOTLAND

In Scotland, publicly funded legal advice, assistance and representation, and duty solicitors are available to persons suspected or accused of criminal offences on a similar basis to that in England and Wales. These services are administered by the Scottish Legal Aid Board, and fall into three main categories:

- Advice and Assistance – covers initial help by solicitors for persons who are financially eligible including general advice, correspondence and negotiation
- Advice by Way of Representation (ABWOR) under the Advice and Assistance scheme – covers preparation for and initial representation in certain proceedings including proceedings against financially eligible persons who have failed to obey certain orders of the sheriff court
- Criminal Legal Aid – covers representation of financially eligible persons charged with criminal offences, including dealing with bail, preparing their defence cases and, where appropriate, instructing advocates (the Scottish equivalent of barristers), as well as advice on appeals and preparation of notices of appeal

The instructed solicitor will decide whether an individual is financially eligible for initial Advice and Assistance or ABWOR, based upon their capital and income together with those of their spouse or partner, if they have one, unless they are separated or there is a conflict of interest between them. The individual may require to pay a contribution towards the cost and further work under Advice and Assistance or ABWOR is subject to the prior authorisation of the Scottish Legal Aid Board.

In 'summary' cases in the District or Sheriff Court in which a Justice of the Peace or Sheriff sits alone, applications for Criminal Legal Aid are made to the Scottish Legal Aid Board. In more serious 'solemn' cases in the Sheriff or High Court in which a Sheriff or Judge sits with a jury, applications are made to the court. The Board or court will decide whether it is 'in the interests of justice' to grant representation; for example, where the consequences of conviction could be loss of employment or imprisonment, where there are complex questions of law or where the accused person cannot understand the proceedings because they cannot speak English or are mentally ill. The accused person will not be required to pay a contribution to the cost of the case.

Further information about the eligibility criteria for Legal Advice and Assistance, ABWOR and Criminal Legal Aid in Scotland can be obtained from The Scottish Legal Aid Board (see details above) or from Scottish solicitors or Citizens Advice Bureaux. Further information can be obtained from:

THE SCOTTISH LEGAL AID BOARD

### MARRIAGE

Any two persons may marry provided that:

- they are at least 16 years old on the day of the marriage (in England and Wales persons under the age of 18 must generally obtain the consent of their parents; if consent is refused an appeal may be made to the High Court, the county court or a court of summary jurisdiction)
- they are not related to one another in a way which would prevent their marrying

- they are unmarried (a person who has already been married must produce documentary evidence that the previous marriage has been ended by death, divorce or annulment)
- they are not of the same sex
- they are capable of understanding the nature of a marriage ceremony and of consenting to marriage
- the marriage may be valid in England and Wales and void by the law of the domicile of both or either of the parties. The parties should check the marriage will be recognised as valid in their home country

#### DEGREES OF RELATIONSHIP

A marriage between persons within the prohibited degrees of consanguinity, affinity or adoption is void.

A man may not marry his mother, daughter, grandmother, granddaughter, sister, aunt, niece, great-grandmother, great-granddaughter, adoptive mother, former adoptive mother, adopted daughter or former adopted daughter. In some circumstances he may now be allowed to marry his former wife's daughter, former wife's granddaughter, father's former wife or grandfather's former wife.

A woman may not marry her father, son, grandfather, grandson, brother, uncle, nephew, great-grandfather, great-grandson, adoptive father, former adoptive father, adopted son or former adopted son. In some circumstances she may be allowed to marry her former husband's son, former husband's grandson, mother's former husband or grandmother's former husband.

#### ENGLAND AND WALES

##### TYPES OF MARRIAGE CEREMONY

It is possible to marry by either religious or civil ceremony. A religious ceremony can take place at a church or chapel of the Church of England or the Church in Wales, or at any other place of worship which has been formally registered by the Registrar General.

A civil ceremony can take place at a register office, a registered building or any other premises approved by the local authority.

An application for an approved premises licence must be made by the owners or trustees of the building concerned, it cannot be made by the prospective marriage couple. Approved premises must be regularly open to the public so that the marriage can be witnessed; the venue must be deemed to be a permanent and immovable structure. Open air ceremonies are prohibited.

Non Anglican marriages may also be solemnised following the issue of a Registrar-General's licence in unregistered premises where one of the parties is seriously ill, is not expected to recover, and cannot be moved to registered premises. Detained and housebound persons may be married at their place of residence.

##### MARRIAGE IN THE CHURCH OF ENGLAND OR THE CHURCH IN WALES

###### *Marriage by banns*

The marriage must take place in a parish in which one of the parties lives, or in a church in another parish if it is the usual place of worship of either or both of the parties. The banns must be called in the parish in which the marriage is to take place on three Sundays before the day of the ceremony; if either or both of the parties lives in a different parish the banns must also be called there. After three months the banns are no longer valid. The minister will not perform the marriage unless he or she is satisfied that the banns have been properly called.

###### *Marriage by common licence*

The vicar who is to conduct the marriage will arrange for a common licence to be issued by the diocesan bishop; this dispenses with the necessity for banns. One of the parties must have lived in the parish for 15 days immediately before the issuing of the licence or must usually worship at the church. At least one of the parties must be baptised. The licence is valid for three months.

###### *Marriage by special licence*

A special licence is granted by the Archbishop of Canterbury in special circumstances for the marriage to take place at any place, with or without previous residence in the parish, or at any time. Application must be made to the registrar of the FACULTY OFFICE, 1 The Sanctuary, London SW1P 3JT  
T 020-7222 5381

###### *Marriage by certificate*

The marriage can be conducted on the authority of the superintendent registrar's certificate, provided that the vicar's consent is obtained. One of the parties must live in the parish or must usually worship at the church.

##### MARRIAGE BY OTHER RELIGIOUS CEREMONY

One of the parties must normally live in the registration district where the marriage is to take place. In addition to giving notice to the superintendent registrar it may also be necessary to book a registrar to be present at the ceremony.

##### CIVIL MARRIAGE

A marriage may be solemnised at any register office, registered building or approved premises in England and Wales. The superintendent registrar of the district should be contacted, and, if the marriage is to take place at approved premises, the necessary arrangements at the venue must also be made.

##### NOTICE OF MARRIAGE

A notice of the marriage must be given in person to the superintendent registrar. Notice of marriage may be given in the following ways:

- by certificate. Both parties must have lived in a registration district in England or Wales for at least seven days immediately before giving notice at the local register office. If they live in different registration districts, notice must be given in both districts. The marriage can take place in any register office or other approved premises in England and Wales no sooner than 16 days after notice has been given, when the superintendent registrar issues a certificate
- by licence (often known as 'special licence'). One of the parties must have lived in a registration district in England or Wales for at least 15 days before giving notice at the register office; the other party need only be a resident of, or be physically in, England and Wales on the day notice is given. The marriage can take place one clear day (other than a Sunday, Christmas Day or Good Friday) after notice has been given

A notice of marriage is valid for 12 months, unless it is to take place in the Church of England or Church of Wales, when it will usually only be accepted within three months of publication. It should be possible to make an advance (provisional) booking 12 months before the ceremony. In this case it is still necessary to give formal notice three months before the marriage. When giving notice of the marriage it is necessary to produce official proof that any previous marriage has ended in divorce or death by

producing a decree absolute or death certificate; it is also useful, but not necessary, to take birth certificates or passports as proof of age and identity.

#### SOLEMNISATION OF THE MARRIAGE

On the day of the wedding there must be at least two other people present who are prepared to act as witnesses and sign the marriage register. A registrar of marriages must be present at a marriage in a register office or at approved premises, but an authorised person may act in the capacity of registrar in a registered building.

If the marriage takes place at approved premises, the room must be separate from any other activity on the premises at the time of the ceremony, and no food or drink can be sold or consumed in the room during the ceremony or for one hour beforehand.

The marriage must be solemnised between 8 a.m. and 6 p.m., with open doors. At some time during the ceremony the parties must make a declaration that they know of no legal impediment to the marriage and they must also say the contracting words; the declaratory and contracting words may vary according to the form of service. A civil marriage cannot contain any religious aspects.

#### CIVIL FEES

##### *Marriage at a Register Office*

By superintendent registrar's certificate, £94.00

This includes a fee of £34.00 for the registrar's attendance on the day of the wedding.

##### *Marriage on Approved Premises*

By superintendent registrar's certificate, £60.00

An additional fee will also be payable for the superintendent registrar's and registrar's attendance at the marriage. This is set locally by the local authority responsible. A further charge is likely to be made by the owners of the building for the use of the premises. For marriages taking place in a religious building other than the Church of England or Church of Wales, an additional fee of £40.00 is payable for the registrar's attendance at the marriage unless an 'Authorised Person' appointed by the trustees of the building have agreed to register the marriage. Additional fees may be charged by the trustees of the building for the wedding and by the person who performs the ceremony.

#### ECCLESIASTICAL FEES

(Church of England and Church in Wales\*)

##### *Marriage by banns*

For publication of banns, £18.00

For certificate of banns issued at time of publication, £9.00

For marriage service, £180.00

##### *Marriage by common licence*

Fee for licence, £62.00

##### *Marriage by special licence*

Fee for licence, £130.00

\* Some of these fees may not apply to the Church in Wales

## SCOTLAND

#### REGULAR MARRIAGES

A regular marriage is one that is celebrated by a minister of religion or authorised registrar or other celebrant. Each of the parties must complete a marriage notice form and return it to the district registrar for the area in which they are to be married, irrespective of where they live, at least 15 days before the ceremony is due to take place. The

district registrar must then enter the date of receipt and certain details in a marriage book kept for this purpose, and must also enter the names of the parties and the proposed date of marriage in a list which is displayed in a conspicuous place at the registration office until the date of the marriage has passed. All persons wishing to enter into a regular marriage in Scotland must follow the same preliminary procedure regardless of whether they intend to have a religious or civil ceremony. Before the marriage ceremony takes place any person may submit an objection in writing to the district registrar.

A marriage schedule, which is prepared by the registrar, will be issued to one or both of the parties in person up to seven days before a religious marriage; for a civil marriage the schedule will be available at the ceremony. The schedule must be handed to the celebrant before the ceremony starts; it must be signed immediately after the wedding and the marriage must be registered within three days.

The authority to conduct a religious marriage is deemed to be vested in the authorised celebrant rather than the building in which it takes place; open-air religious ceremonies are therefore permissible in Scotland.

Since 10 June 2002 it has been possible, under the Marriage (Scotland) Act 2002, for venues or couples to apply to the local council for a licence to allow a civil ceremony to take place at a venue other than a registration office. A list of licensed venues is also available on the General Registers of Scotland website at [www.gro-scotland.gov.uk](http://www.gro-scotland.gov.uk).

#### MARRIAGE BY COHABITATION WITH HABIT AND REPUTE

If two people live together constantly as husband and wife and are generally held to be such by the neighbourhood and among their friends and relations, there may arise a presumption from which marriage can be inferred. Before such a marriage can be registered, however, a decree of declarator of marriage must be obtained from the Court of Session.

#### CIVIL FEES

The fee for a religious marriage is £48.50, comprising a fee of £20.00 per person for the statutory notice of an intention to marry and an £8.50 fee for a copy of the marriage certificate. The basic fee for marriage in a registration office or under a local authority licence is £93.50, comprising a fee of £20 per person for each person submitting a notice of marriage to the district registrar, £45 for solemnisation of a civil marriage and £8.50 for a copy of the marriage certificate. There can be additional fees charged by the local authority. Further information can be obtained from:

## TOWN AND COUNTRY PLANNING

The planning system is important in helping to protect the environment, as well as assisting individuals in assessing their land rights. There are a number of Acts governing the development of land and buildings in England and Wales and advice should always be sought

from a Citizens Advice Bureau or local planning authority before undertaking building works on any land or to property. If development takes place which requires planning permission without permission being given enforcement action may take place and the situation may need to be rectified.

#### PLANNING PERMISSION

Planning permission is needed if the work involves:

- making a material change in use, such as dividing off part of the house so that it can be used as a separate home or dividing off part of the house for commercial use, e.g. for a workshop
- going against the terms of the original planning permission, e.g. there may be a restriction on fences in front gardens on an open-plan estate
- building, engineering for mining, except for the permissions below
- new or wider access to a main road
- additions or extensions to flats or maisonettes

Planning permission is not needed to carry out internal alterations or work which does not affect the external appearance of the building, and are not works for making good damage or works begun after 5 December 1968 for the alteration of a building by providing additional space in it underground.

There are certain types of development for which the Secretary of State for the Environment has granted general permissions (permitted development rights). These include: house extensions and additions (including conservatories, loft conversions, garages and dormer windows); buildings such as garden sheds and greenhouses; adding a porch; putting up fences, walls and gates; and laying patios, paths or driveways for domestic use. However, before carrying out any of the above permitted developments you must contact your local authority to find out whether the general permission has been modified in your area.

#### OTHER RESTRICTIONS

It may be necessary to obtain other types of permissions before carrying out any development. These permissions are separate from planning permission and apply regardless of whether or not planning permission is needed, e.g.:

- building regulations will probably apply if a new building is to be erected, if an existing one is to be altered or extended, or if the work involves building over a drain or sewer. The building control department of the local authority will advise on this
- any alterations to a listed building or the grounds of a listed building must be approved by the local authority. Listing will include not only the main building but everything in the curtilage of the building
- local authority approval is necessary if a building (or, in some circumstances, gates, walls, fences or railings) in a conservation area is to be demolished; each local authority keeps a register of all local buildings that are in conservation areas
- many trees are protected by tree preservation orders and must not be pruned or taken down without local authority consent
- bats and other species are protected and English Nature, the Countryside Council for Wales or Scottish Natural Heritage must be notified before any work is carried out that will affect the habitat of protected species, e.g. timber treatment, renovation or extensions of lofts

- any development in areas designated as a National Park, an Area of Outstanding National Beauty, a National Scenic Area or in the Norfolk or Suffolk Broads is subject to greater restrictions. The local planning authority will advise or refer enquirers to the relevant authority.

If you think you require planning permission, contact your local authority. There may also be restriction on development contained in the title to the property which should be considered when works are planned.

#### VOTERS' QUALIFICATIONS

Those entitled to vote at parliamentary, European Union and local government elections are those who are:

- on the electoral roll. Local authorities administer the roll and non-registration can lead to a fine of up to £1,000
- over 18 years old
- Commonwealth (which includes British) citizens or citizens of the Republic of Ireland
- In Northern Ireland electors must have been resident in Northern Ireland during the whole of the three month period prior to the relevant date

British citizens resident abroad are entitled to vote, for 15 years after leaving Britain, as overseas electors in parliamentary and EU elections in the constituency in which they were last resident. Members of the armed forces, Crown servants and employees of the British Council who are overseas and their spouses are entitled to vote regardless of how long they have been abroad. British citizens who have never been registered as an elector in the UK are not eligible to register as an overseas voter unless they left the UK before they were 18, providing they left the country no more than 15 years ago.

European Union citizens resident in the UK may vote in EU and local government elections. The main categories of people who are not entitled to vote are: sitting peers in the House of Lords (although members of the House of Lords can vote at elections to local authorities, devolved legislatures and European Parliament); patients detained under mental health legislation who have criminal convictions; those serving prison sentences; and those convicted within the previous five years of corrupt or illegal election practices.

Under the Representation of the Peoples Act 2000, several new groups of people are permitted to vote for the first time. These include: people who live on barges; unconvicted or remand prisoners; people in mental health hospitals (other than those with criminal convictions) and homeless people who have made a 'declaration of local connection'.

#### REGISTERING TO VOTE

Voters must be entered on an electoral register, which is updated on a monthly basis. The registration officer for each constituency is responsible for preparing and publishing the register. A registration form is sent to all households in the autumn of each year and the householder is required to provide details of all occupants who are eligible to vote, including ones who will reach their 18th birthday in the year covered by the register. Those who fail to give the required information or who give false information are liable to be fined. A draft register is usually published at the end of November. Any person whose name has been omitted may ask to be registered and should contact the registration officer.

Anyone on the register may object to the inclusion of another person's name, in which case he/she should notify the registration officer, who will investigate that person's eligibility. Supplementary electors lists are published throughout the duration of the register.

#### VOTING

Voting is not compulsory in the UK. Those who wish to vote generally vote in person at an allotted polling station. Postal votes are now available on request. Those who will be away at the time of the election, those who will not be able to attend in person due to physical incapacity or the nature of their occupation, and those who have changed address during the period for which the register is valid, may apply for a postal vote or nominate a proxy to vote for them. Overseas electors who wish to vote must do so by proxy.

Further information can be obtained from the local authority's electoral registration officer in England and Wales or the electoral registration office in Scotland, or the Chief Electoral Officer in Northern Ireland.

### WILLS AND INTESTACY

In a will a person leaves instructions as to the disposal of their property after they die. A will is also used to appoint executors (who will administer the estate), give directions as to the disposal of the body, appoint guardians for children and, for larger estates, can operate to reduce the level of inheritance tax. It is best to have a will drawn up by a solicitor but if a solicitor is not employed, the following points must be taken into account:

- if possible the will must not be prepared on behalf of another person by someone who is to benefit from it or who is a close relative of a major beneficiary
- the language used must be clear and unambiguous and it is better to avoid the use of legal terms where the same thing can be expressed in plain language
- it is better to rewrite the whole document if a mistake is made. If necessary, alterations can be made by striking through the words with a pen, and the signature or initials of the testator and the witnesses must be put in the margin opposite the alteration. No alteration of any kind should be made after the will has been executed
- if the person later wishes to change the will or part of it, it is better to write a new will revoking the old. The use of codicils (documents written as supplements or containing modifications to the will) should be left to a solicitor
- the will should be typed or printed, or if handwritten be legible and preferably in ink. Commercial will forms can be obtained from some stationers

#### LAPSED LEGATEES

If a person who has been left property in a will dies before the person who made the will, the gift fails and will pass to the person entitled to everything not otherwise disposed of (the residuary estate). If the person left the residuary estate dies before the person who made the will, their share will generally pass to the closest relative(s) of the person who made the will (as in intestacy) unless the will names a beneficiary such as a charity who will take as a 'long stop' if this gift is unable to take effect for any reason. It is always better to draw up a new will if a beneficiary predeceases the person who made the will.

#### EXECUTORS

It is usual to appoint two executors, although one is

sufficient. No more than four persons can deal with the estate of the person who has died. The name and address of each executor should be given in full (the addresses are not essential but including them adds clarity to the document). Executors should be 18 years of age or over. An executor may be a beneficiary of the will.

#### WITNESSES

A person who is a beneficiary of a will, or the spouse of a beneficiary at the time the will is signed, must not act as a witness or else he/she will be unable to take his/her gift. Husband and wife can both act as witnesses provided neither benefits from the will.

It is better that a person does not act as an executor and as a witness, as he/she can take no benefit under a will to which he/she is witness. The identity of the witnesses should be made as explicit as possible.

#### EXECUTION OF A WILL

The person making the will should sign his/her name at the foot of the document, in the presence of the two witnesses. The witnesses must then sign their names while the person making the will looks on. If this procedure is not adhered to, the will will be considered invalid. There are certain exceptional circumstances where these rules are relaxed, e.g. where the person may be too ill to sign.

#### CAPACITY TO MAKE A WILL

Anyone aged 18 or over can make a will. However, if there is any suspicion that the person making the will is not, through reasons of infirmity or age, fully in command of his/her faculties, it is advisable to arrange for a medical practitioner to examine the person making the will at the time it is to be executed to verify his/her mental capacity and to record that medical opinion in writing, and to ask the examining practitioner to act as a witness. If a person is not mentally able to make a will, the Court may do this for him/her by virtue of the Mental Health Act 1983.

#### REVOCATION

A will may be revoked or cancelled in a number of ways: a later will revokes an earlier one if it says so; otherwise the earlier will is impliedly revoked by the later one to the extent that it contradicts or repeats the earlier one; a will is also revoked if the physical document on which it is written is destroyed by the person whose will it is. There must be an intention to revoke the will. It may not be sufficient to obliterate the will with a pen; a will is revoked when the person marries, unless it is clear from the will that the person intended the will to stand after the marriage; and where a marriage ends in divorce or is annulled or declared void, gifts to the spouse and the appointment of the spouse as executor fail unless the will says that this is not to happen. A former spouse is treated as having predeceased the testator. A separation does not change the effect of a married person's will.

#### PROBATE AND LETTERS OF ADMINISTRATION

Probate is granted to the executors named in a will and once granted, the executors are obliged to carry out the instructions of the will. Letters of administration are granted where no executor is named in a will or is willing or able to act or where there is no will or no valid will; this gives a person, often the next of kin, similar powers and duties to those of an executor.

Applications for probate or for letters of administration can be made to the Principal Registry of the Family Division, to a district probate registry or to a probate sub-

registry. Applicants will need the following documents: the original will (if any); a certificate of death; oath for executors or administrators; particulars of all property and assets left by the deceased; a list of debts and funeral expenses. Certain property, up to the value of £5,000, may be disposed of without a grant of probate or letters of administration.

#### WHERE TO FIND A PROVED WILL

Since 1858 wills which have been proved, that is wills on which probate or letters of administration have been granted, must have been proved at the Principal Registry of the Family Division or at a district probate registry. The Lord Chancellor has power to direct where the original documents are kept but most are filed where they were proved and may be inspected there and a copy obtained. The Principal Registry also holds copies of all wills proved at district probate registries and these may be inspected at First Avenue House, High Holborn. An index of all grants, both of probate and of letters of administration, is compiled by the Principal Registry and may be seen either at the Principal Registry or at a district probate registry.

It is also possible to discover when a grant of probate or letters of administration is issued by requesting a standing search. In response to a request and for a small fee, a district probate registry will supply the names and addresses of executors or administrators and the registry in which the grant was made, of any grant in the estate of a specified person made in the previous 12 months or following six months. This is useful for applicants who may be beneficiaries to a will but who have lost contact with the deceased and for creditors of the deceased.

#### SCOTLAND

In Scotland any person over 12 and of sound mind can make a will. The person making the will can only freely dispose of the heritage and what is known as the 'dead's part' of the estate because: the spouse has the right to inherit one-third of the moveable estate if there are children or other descendants, and one-half of it if there are not; and children are entitled to one-third of the moveable estate if there is a surviving spouse, and one-half of it if there is not. The remaining portion is the dead's part, and legacies and bequests are payable from this. Debts are payable out of the whole estate before any division.

Since August 1995, wills no longer need to be 'holographed' and it is now only necessary to have one witness. The person making the will still needs to sign each page. It is better that the will is not witnessed by a beneficiary although the attestation would still be sound and the beneficiary would not have to relinquish the gift.

Subsequent marriage does not revoke a will but the birth of a child who is not provided for may do so. A will may be revoked by a subsequent will, either expressly or by implication, but in so far as the two can be read together both have effect. If a subsequent will is revoked, the earlier will is revived.

Wills may be registered in the sheriff court Books of the Sheriffdom in which the deceased lived or in the Books of Council and Session at the Registers of Scotland.

#### CONFIRMATION

Confirmation (the Scottish equivalent of probate) is obtained in the sheriff court of the sheriffdom in which the deceased was resident at the time of death. Executives are either 'nominated' (named by the deceased in the will)

or 'dative' (appointed by the court in cases where no executor is named in a will or in cases of intestacy). Applicants for confirmation must first provide an inventory of the deceased's estate and a schedule of debts, with an affidavit. In estates under £25,000 gross, confirmation can be obtained under a simplified procedure at reduced fees, with no need for a solicitor. The local sheriff clerk's office can provide assistance.

Further information can be obtained from:

#### SHERIFF CLERK'S OFFICE

Commissary Section, Sheriff Court House, Chambers Street, Edinburgh, EH1 1LB T 0131-225 2525

#### PRINCIPAL REGISTRY

Family Division, First Avenue House, 42-49 High Holborn, London WC2V 6NP T 020 7947 6980

#### REGISTERS OF SCOTLAND

Meadowbank House, 153 London Road, Edinburgh, EH8 7AU T 0131-659 6111

#### INTESTACY

Intestacy occurs when someone dies without leaving a will or leaves a will which is invalid or which does not take effect for some reason. Intestacy can be partial, for instance, if there is a will which disposes of some but not all of the testator's property. In such cases the person's estate (property, possessions, other assets following the payment of debts) passes to certain members of the family. The relevant legislation is the Administration of Estates Act 1925, as amended by various legislation including the Intestates Estates Act 1952, the Law Reform (Succession) Act 1995, and the Trusts of Land and Appointment of Trustees Act 1996 and Orders made there under. Some of the provisions of this legislation are described below. If a will has been written that disposes of only part of a person's property, these rules apply to the part which is undisposed of. If the person (intestate) leaves a spouse who survives for 28 days and children (legitimate, illegitimate and adopted children and other descendants), the estate is divided as follows:

- the spouse takes the 'personal chattels' (household articles, including cars, but nothing used for business purposes), £125,000 free of tax (with interest payable at 6 per cent from the time of the death until payment) and a life interest in half of the rest of the estate (which can be capitalised by the spouse if he/she wishes)
  - the rest of the estate goes to the children\*
- If the person leaves a spouse who survives for 28 days but no children:
- the spouse takes the personal chattels, £200,000 free of tax (interest payable as before) and full ownership of half of the rest of the estate
  - the other half of the rest of the estate goes to the parents (equally, if both alive) or, if none, to the brothers and sisters of the whole blood\*
  - if there are no parents or brothers or sisters of the whole blood or their children, the spouse takes the whole estate.

If there is no surviving spouse, the estate is distributed among those who survive the intestate as follows:

- to surviving children\*, but if none to
- parents (equally, if both alive), but if none to
- brothers and sisters of the whole blood\* (including issues of deceased ones), but if none to
- brothers and sisters of the half blood\* (including issues of deceased ones), but if none to

- grandparents (equally, if more than one), but if none to
- aunts and uncles of the whole blood\*, but if none to
- aunts and uncles of the half blood\*, but if none to
- the Crown, Duchy of Lancaster or the Duke of Cornwall (*bona vacantia*)

\* To inherit, a member of these groups must survive the intestate and attain 18, or marry under that age. If they die under 18 (unless married under that age), their share goes to others, if any, in the same group. If any member of these groups predeceases the intestate leaving children, their share is divided equally among their children.

In England and Wales the provisions of the Inheritance (Provision for Family and Dependants) Act 1975 may allow other people to claim provision from the deceased's assets. This Act also applies to cases where a will has been made and allows a person to apply to the Court if they feel that the will or rules of intestacy or both do not make adequate provision for them. The Court can order payment from the deceased's assets or the transfer of property from them if the applicant's claim is accepted. The application must be made within six months of the grant of probate or letters of administration and the following people can make an application:

- the spouse
- a former spouse who has not remarried
- a child of the deceased
- someone treated as a child of the deceased's family
- someone maintained by the deceased
- someone who has cohabited for two years before the death in the same household as the deceased and as the husband or wife of the deceased

## SCOTLAND

The rules of distribution are contained in the Succession (Scotland) Act 1964. A surviving spouse is entitled to 'prior rights'. This means that the spouse has the right to inherit:

- the matrimonial home up to a value of £130,000, or one matrimonial home if there is more than one, or, in certain circumstances, the value of the matrimonial home
- the furnishings and contents of that home, up to the value of £22,000
- a cash sum of £35,000 if the deceased left children or other descendants, or £58,000 if not.

These figures are increased from time to time by regulations.

Once prior rights have been satisfied *jus relict(ae)* and legitam are settled. Legal rights are:

*Jus relict(ae)* – the right of a surviving spouse to one half of the net moveable estate, after satisfaction of prior rights, if there are no surviving children; if there are surviving children, the spouse is entitled to one-third of the net moveable estate

*Legitim* – the right of surviving children to one-half of the net moveable estate if there is no surviving spouse; if there is a surviving spouse, the children are entitled to one-third of the net moveable estate after the satisfaction of prior rights

Where there are no surviving spouse or children, half of the estate is taken by the parents and half by the brothers and sisters. Failing that, the lines of succession, in general, are:

- to descendants
- if no descendants, then to collaterals (i.e. brothers and sisters) and parents
- surviving spouse

- if no collaterals or parents or spouse, then to ascendants collaterals (i.e. aunts and uncles), and so on in an ascending scale
- if all lines of succession fail, the estate passes to the Crown

Relatives of the whole blood are preferred to relatives of the half blood. The right of representation, i.e. the right of the issue of a person who would have succeeded if he/she had survived the intestate, also applies.

## CRIME STATISTICS

### RECORDED CRIME STATISTICS

# INTELLECTUAL PROPERTY

## COPYRIGHT

Copyright protects all original literary, dramatic, musical and artistic works (including photographs, maps and plans), published editions of works, computer programs, sound recordings, films (including video and DVD) and broadcasts (including cable, radio and satellite broadcasts, but excluding most transmissions on the internet). Under copyright the creators of these works can control the various ways in which their material may be exploited, the rights broadly covering copying, adapting, issuing (including renting and lending) copies to the public, performing in public, and broadcasting the material. The transfer of copyright works to formats accessible to visually impaired persons without infringement of copyright was enacted in 2002.

Copyright protection in the United Kingdom is automatic and there is no official registration system. Steps can be taken by the work's creator to provide evidence that he/she had the work at a particular time (e.g. by depositing a copy with a bank or solicitor). The main legislation is the Copyright, Designs and Patents Act 1988, which has been amended by other Acts and by Statutory Instrument to take account of EU Directives. As a result of an EU Directive effective from January 1996, the term of copyright protection for literary, dramatic, musical and artistic works lasts for 70 years after the death of the author, and for film lasts for 70 years after the death of the last to survive of the director, authors of the screenplay and dialogue, or the composer of any music specially created for the film. Sound recordings are protected for 50 years after their publication, and broadcasts for 50 years from the end of the year in which the first broadcast/transmission is made. Published editions remain under copyright protection for 25 years from the end of the year in which the edition was published.

The main international treaties protecting copyright are the Bern Convention for the Protection of Literary and Artistic Works (administered by the World Intellectual Property Organisation (WIPO)), the Rome Convention for the Protection of Performers, Producers of Phonograms and Broadcasting Organisations (administered jointly by UNESCO and the International Labour Organisation), and the Universal Copyright Convention (UNESCO); the UK is a signatory to these conventions. Copyright material created by UK nationals or residents is protected in each country which is a member of the conventions by the national law of that country. A list of participating countries may be obtained from the Patent Office.

Two treaties which strengthen and update international standards of protection, particularly in relation to new technologies, were agreed in December 1996: the WIPO Copyright Treaty, and the WIPO Performance and Phonograms Treaty. In May 2001 the European Union passed a new Directive, which in 2003 became law in the UK, aimed at harmonising copyright law throughout the EU to take account of the internet and other technologies. Further information can be found at

[www.intellectual-property.gov.uk](http://www.intellectual-property.gov.uk).

## LICENSING

Use of copyright material without seeking permission in each instance may be permitted under 'blanket' licences available from copyright licensing agencies. The

International Federation of Reproduction Rights Organisations facilitates agreements between its member licensing agencies and on behalf of its members with organisations such as the WIPO, UNESCO, the European Union and the Council of Europe.

## PATENTS

A patent is a document issued by the Patent Office relating to an invention and giving the proprietor the right for a limited period to stop others from making, using or selling the invention without the inventor's permission. In return the patentee pays a fee to cover the costs of processing the patent and publicly discloses details of the invention.

To qualify for a patent an invention must be new, must exhibit an inventive step, and must be capable of industrial application. The patent is valid for a maximum of 20 years from the date on which the application was filed, subject to payment of annual fees from the end of the fourth year. The Patent Office, established in 1852, is responsible for ensuring that all stages of an application comply with the Patents Act 1977, and that the invention meets the criteria for a patent.

The WIPO is responsible for administering many of the international conventions on intellectual property. The Patent Co-operation Treaty allows inventors to file a single application for patent rights in some or all of the contracting states. This application is searched by an International Searching Authority and published by the International Bureau of WIPO. It may also be the subject of an (optional) international preliminary examination. Applicants must then deal directly with the patent offices in the countries where they are seeking patent rights. The European Patent Convention allows inventors to obtain patent rights in all the contracting states by filing a single application with the European Patent Office.

## TRADE MARKS

Trade marks are a means of identification, whether a word or device or a combination of both, a logo, or the shape of goods or their packaging, which enable traders to make their goods or services readily distinguishable from those supplied by other traders. Registration prevents other traders using the same or similar trade marks for similar products or services for which the mark is registered. In the UK trade marks are registered at the Trade Marks Registry in the Patent Office. In order to qualify for registration a mark must be capable of distinguishing its proprietor's goods or services from those of other undertakings; it should be non-deceptive, should not be contrary to law or morality and should not be similar or identical to any earlier marks for the same or similar goods or services. The relevant current legislation is the Trade Marks Act 1994.

It is possible to obtain an international trade mark registration, effective in 76 countries, under the Madrid Agreement or the Madrid Protocol, to which the UK is party. British companies can obtain international trade mark registration through a single application to the WIPO in those countries party to the protocol.

The EC trade mark regulation is now in force and is administered by the Office for Harmonisation in the Internal Market (Trade Marks and Designs). The office

registers EC trade marks, which are valid throughout the European Union. The national registration of trade marks in member states continues in parallel with EC trade mark registration.

#### DOMAIN NAMES

A domain name is a name by which a company or organisation is known on the internet and is a short-hand way of identifying a company's website. A domain name has to be registered separately from a trade mark. Although there are many registrars prepared to register domain names, each country has a central registry to store unique names and addresses used on the internet. A list of accredited registrars can be found on [www.icann.org](http://www.icann.org).

### DESIGN PROTECTION

Design protection covers the outward appearance of an article and takes two forms in the UK, registered design and design right, which are not mutually exclusive. Registered design protects the aesthetic appearance of an article, including shape, configuration, pattern or ornament, although artistic works such as sculptures are excluded, being generally protected by copyright. In order to qualify for protection, a design must be new and materially different from earlier UK published designs. The owner of the design must apply to the Designs Registry at the Patent Office. Initial registration lasts for five years and can be extended in five-year increments to a maximum of 25 years. The current legislation is the Registered Designs Act 1949 (as amended).

UK applicants wishing to protect their designs in the EU can do so by applying for a Registered Community Design with the Office of Harmonisation in the Internal Market. Outside the EU separate applications must be made in each country in which protection is sought.

Design right is an automatic right which applies to the shape or configuration of articles and does not require registration. Unlike registered design, two-dimensional designs do not qualify for protection but designs of semiconductor chips (topographies) are protected by design right. Designs must be original and non-commonplace. The term of design right is ten years from first marketing of the design and the right is effective only in the UK. The current legislation is Part 3 of the Copyright, Designs and Patents Act 1988, amended on 9 December 2001 to incorporate the European Designs Directive.

### LEGAL DEPOSIT

Publishers are legally obliged to send one copy of every new printed publication distributed in the United Kingdom or Republic of Ireland to each of the legal deposit libraries within one month of publication. This is based on the Copyright Act of 1911 and the Irish Copyright Act 1963, replaced by similar provisions in the Copyright and Related Rights Act 2000. All printed publications come within the scope of legal deposit. A code of practice exists in the UK for the deposit of non-printed publications, however, the Legal Deposit Libraries Act 2003, which is not yet in force, extends legal deposit legislation to automatically include non-print publications. The aim of legal deposit is to keep a complete national archive of published works as a current reference and information source. The legal deposit libraries are the British Library, the Bodleian Library in Oxford, Cambridge University Library, the National Library of Scotland, the National Library of Wales, and Trinity College Library in Dublin.

# THE MEDIA

## OFFICE OF COMMUNICATIONS

The Office of Communications (Ofcom) is the regulator for the communication industries in the UK and has responsibility for television, radio, telecommunications and wireless communications services. It replaces the Broadcasting Standards Commission, the Independent Television Commission, the Radio Authority, the Radio Communications Agency and OfTel. Ofcom is required to report annually to parliament and exists to further the interests of consumers by: balancing choice and competition with the duty to foster plurality, protect viewers and listeners and promote cultural diversity in the media; and ensuring full and fair competition between communications providers.

### OFFICE OF COMMUNICATIONS (Ofcom)

Riverside House, 2A Southwark Bridge Road, London SE1 9HA

T 020-7981 3000

E [enq@ofcom.org.uk](mailto:enq@ofcom.org.uk)

W [www.ofcom.org.uk](http://www.ofcom.org.uk)

*Chief Executive, Stephen Carter*

## CROSS-MEDIA OWNERSHIP

The Communications Act 2003, which received Royal Assent on 17 July 2003, has overhauled the rules surrounding cross-media ownership. Some of them have been simplified and relaxed to encourage dispersion of ownership and new market entry while preventing the most influential media in any community being controlled by too narrow a range of interests. However, transfers and mergers will not be solely subject to examination on competition grounds by the competition authorities. The Secretary of State has a wide discretion to intervene and decide if a transaction is permissible on public interest grounds (relating both to newspapers and cross-media criteria, if broadcasting interests are also involved). Ofcom has an advisory role. Government and Parliamentary assurances were given that any intervention into local newspaper transfers would be rare and exceptional.

Cross-media regulation has been reduced to three core rules:

- No-one controlling more than 20 per cent of the national newspaper market may hold any licence for ITV or hold a stake in any of its services. A company may not own more than a 20 per cent share in such a service if more than 20 per cent of its stock is in turn owned by a national newspaper proprietor with more than 20 per cent of the market
- No-one owning a regional ITV licence may own more than 20 per cent of the local/regional newspaper market in the same region
- There should be at least three local commercial radio operators, and at least three local or regional commercial media voices (in TV, radio and newspapers) in most local communities.

As a consequence, some new forms of cross-holding have been introduced:

- Joint-ownership of national TV and national radio licences
- Joint ownership of a regional Channel 3 licence and a local radio licence in the same area (as long as there are two or more other radio stations that reach more than 50 per cent of the adult population in the radio station's area)
- Ownership of more than 20 per cent of the national newspaper market and national and/or local radio licences

## BROADCASTING

The public service television broadcasters in the UK are: the British Broadcasting Corporation (BBC), a public corporation, funded mainly by the television licence fee; Channel 4, a public corporation self-funded by advertising revenues; S4C, a public corporation broadcasting the fourth channel in Wales and funded by grant-in-aid from the Government and advertising revenue; and Channel 3 (ITV), Channel 5 (Five) and Teletext, commercial television companies, funded by advertising revenues. The Government sets the licence fee and awards grants to support the BBC and S4C.

On 1 May 1996 a royal charter came into force, establishing the framework for the BBC's activities until 2006. Within the framework provided by the charter, the BBC Governors are responsible for ensuring that the BBC meets all its statutory obligations. However, the Secretary of State for the Department of Culture, Media and Sport has the power to approve and review the operation of new licence fee funded public services. The BBC's regulator is the Office of Communications (Ofcom), although the Governors have some exclusive responsibilities, such as ensuring the editorial independence of the BBC. The S4C Authority regulates S4C, subject to the regulatory powers vested in Ofcom by the Communications Act 2003. Ofcom also monitors and licences Channel 3, Channel 4 and Channel 5. All three commercial stations have to fulfil programming obligations.

### COMPLAINTS

Under the Communications Act 2003 licensees are obliged to adhere to the provisions of Ofcom codes (including advertising, programme standards, fairness, privacy and sponsorship). Ofcom also inherited the Broadcasting Standards Commission's Standards Code and is transitionally applying it in respect of BBC/S4C programmes. Complainants should contact the broadcaster in the first instance (details can be found on Ofcom's website), however, if the complainant wishes the complaint to be considered by Ofcom, it will do so. Complaints should be made within a reasonable time as broadcasters are only required to keep recordings for the following periods of time: radio - 42 days, television - 90 days, and cable and satellite - 60 days.

### TELEVISION

All terrestrial channels are broadcast in colour on 625 lines UHF from a network of transmitting stations.

Transmissions are available to 99.4 per cent of the population. Signals of acceptable quality cannot be obtained where the line of sight path between transmitters and consumers is obstructed by hills, buildings or even local atmospheric conditions. The Department for Culture Media and Sport is responsible for the policy on the allocation of frequencies for television and radio broadcasting together with reception matters, liaising with OFCOM, which has overall control for the management of frequencies.

The Broadcasting Act 1990 made the BBC responsible for licence administration, and TV Licensing is the trading name used by the agents who collect the licence fee on behalf of the BBC. The total number of television licences in force in the UK at the end of 2004 was around 23 million of which over 99 per cent were for colour televisions. Annual television licence fees from 1 April 2004 are black and white £40.50; colour £121.00.

#### DIGITAL TELEVISION

Digital broadcasting has dramatically increased the number and reception quality of television channels. Sound and pictures are converted into a digital format and compressed, using as few bits as possible to convey the information on a digital signal. This technique enables several television channels to be carried in the space used by the current analogue signals to carry one channel. Digital signals can be received by standard aerials, satellite dishes or via cable but have to be decoded and turned back into sound and pictures by using a separate set-top box, or a decoder built into the television set (an integrated digital TV set/ iDTV). A basic package of channels is available for free and services are also offered by cable and satellite companies.

The Broadcasting Act 1996 provided for the licensing of 20 or more digital terrestrial television channels (on six frequency channels or 'multiplexes'). The first digital services went on air in autumn 1998. Analogue broadcasting will eventually be discontinued, with the frequencies sold to mobile telephone companies.

In June 2002, following the collapse of the ITV Digital terrestrial service, a consortium made up of the BBC, BSkyB and Crown Castle, the transmitter company, was awarded the DTT (Digital Terrestrial Television) licence by the Independent Television Commission. Freeview, a digital network, was launched on 30 October 2002. By 31 March 2004 digital penetration had reached over 53 per cent of UK households.

#### ESTIMATED AUDIENCE SHARE 2002-3

	Percentage*
ITV companies	24.0
BBC ONE	26.3
BBC TWO	11.3
Channel 4	9.6
Five	6.4
S4C Wales	0.3
Cable, satellite and digital channels	18.6

\*Rounded to one decimal point and only channels achieving a share of more than 0.1 per cent are included

#### THE BRITISH BROADCASTING CORPORATION

##### BBC TELEVISION

Television Centre, Wood Lane, London W12 7RJ  
T 020-8743 8000 W www.bbc.co.uk/info

The BBC's experiments in television broadcasting started in 1929 and in 1936 it began the world's first public service of high-definition television from Alexandra Palace. The BBC broadcasts two UK-wide terrestrial television services, BBC One and BBC Two; outside England these services are designated BBC Scotland on One, BBC Scotland on Two, BBC One Northern Ireland, BBC Two Northern Ireland, BBC Wales on One and BBC Wales on Two. The BBC's digital services include BBC One, BBC Two, BBC Three, BBC Four, BBC Knowledge, BBC News 24 and BBC Parliament. The services are funded by the licence fee.

##### BBC WORLDWIDE LTD

Woodlands, 80 Wood Lane, London W12 0TT  
T 020-8433 2000 W www.bbcworldwide.com

BBC Worldwide Limited is the commercial arm, and a wholly owned subsidiary, of the British Broadcasting Corporation. The company was formed in 1994 and exists in order to maximise the value of the BBC's programme and publishing assets for the benefit of the licence payer, re-investing profit in public service programming. BBC Worldwide's businesses include international programming distribution, television channels, magazines, books, videos, spoken word, music, DVDs, licensed products, CD-ROMs, English language teaching, videos for education and training, interactive telephony, co-production, library footage sales, exhibitions, live events, film and media monitoring.

#### INDEPENDENT TELEVISION NETWORK

The ITV network comprises 15 independent regional television licensees and one licensee providing the national breakfast-time service. Their licences were awarded by competitive tender for a minimum of ten years and commenced in January 1993. In addition to the terrestrial channel ITV1, ITV has launched the following digital channels: ITV2, ITV News and CiTV. Channel 4 and S4C (the fourth channel in Wales) were set up to provide programmes with a distinctive character and which appeal to interests not catered for by ITV and are also funded through advertising. Channel 5 began broadcasting in 1997 and now reaches about 80 per cent of the population.

##### ITV NETWORK CENTRE/ITV ASSOCIATION

200 Gray's Inn Road, London WC1X 8HF  
T 020-7843 8000 W www.itv.com

The ITV Network Centre is wholly owned by the ITV companies and undertakes commissioning and scheduling of programmes shown across the ITV network and, as with the BBC, 25 per cent of programmes must come from independent producers. There are over 1,500 independent production companies in the UK which generate over £1 billion of programming.

#### DIRECT BROADCASTING BY SATELLITE TELEVISION

- BRITISH SKY BROADCASTING LTD**  
6 Centaurs Business Park, Grant Way, Isleworth, Middx TW7 5QD  
T 020-7705 3000 W www.sky.com

British Sky Broadcasting is a direct broadcast satellite service operating in the UK and Ireland. Launched in February 1989, it was originally a four channel service, broadcast on a satellite owned by a Luxembourg-based

consortium. The failure of rival company British Satellite Broadcasting lead to a merger in 1990 and the formation of British Sky Broadcasting.

Sky Digital, launched on 1 October 1998, offers over 300 channels, pay-per-view services and interactive entertainment, including email, on-screen shopping and voting. BSkyB has 16 million viewers in 6.7 million households. BSkyB's own channels such as Sky News, Sky One and Sky Sports are available in a further 5.3 million homes receiving cable services in the UK and Ireland. BSkyB is listed on the London and New York Stock Exchanges.

#### RADIO

UK domestic radio services are broadcast across three wavebands: FM (or VHF), medium wave and long wave (used by BBC Radio 4). In the UK the FM waveband extends in frequency from 87.5 MHz to 108 MHz and the medium wave band extends from 531 kHz to 1602 kHz. Older radios are calibrated in wavelengths rather than frequency. To convert frequency to wavelength, divide 300,000 by the frequency in kHz. A number of radio stations are now being broadcast in both analogue and digital as well as a growing number in digital alone.

#### DIGITAL RADIO

DAB (Digital Audio Broadcasting) digital radio allows more services to be broadcast to a higher technical quality and provides the data facility for text and pictures. It improves the robustness of high fidelity radio services, especially compared with current FM and AM radio transmissions. It was developed in a collaborative research project under the pan-European EUREKA initiative and has been adopted as a world standard for new digital radio systems. The frequencies allocated for terrestrial digital radio in the UK are 217.5 to 230 MHz. Plans are underway for developing a framework for frequencies in the 1.5 GHz (or L-Band) range.

The Broadcasting Act 1996 provided for the licensing of digital radio services (on 'multiplexes', where a number of stations share one frequency to transmit their services). The BBC has been allocated a multiplex capable of broadcasting six to eight national stereo services; BBC digital broadcasts began in the London area in September 1995. A national digital multiplex has also been made available to the three independent national radio stations, and local and regional services (BBC and commercial) will use the remaining five multiplexes. OFCOM is responsible for awarding licences for capacity on the non-BBC multiplexes. The first national independent radio digital licence was awarded to Digital One, which began broadcasting in November 1999. The first local multiplex licence was awarded in May 1999 (to CE Digital, for Birmingham) and commenced broadcasting in May 2000.

It is necessary to possess a digital radio set in order to receive digital radio broadcasts. Several types of sets are available including portable radios, hi-fi stacks, car radios and PC cards. The latter bring digital radio to the desktop and associated data to the computer screen. The latest DAB radios include new functionality such as rewind, pause and record.

ESTIMATED AUDIENCE SHARE *as at end June 2004*

	<i>Percentage</i>
BBC Radio 1	8.3
BBC Radio 2	16.2
BBC Radio 3	1.1
BBC Radio 4	11.0

## BBC RADIO AND WORLD SERVICE

## BBC RADIO

Broadcasting House, Portland Place, London W1A 1AA  
T 020-7580 4468

BBC Radio broadcasts network services to the UK, Isle of Man and the Channel Islands. There is also a tier of national services in Wales, Scotland and Northern Ireland and 40 local radio stations in England and the Channel Islands. In Wales and Scotland there are also dedicated language services in Welsh and Gaelic respectively. The frequency allocated for digital BBC broadcasts is 225.648 MHz.

## BBC NETWORK RADIO SERVICES

- RADIO 1 (Contemporary pop music and entertainment news) – 24 hours a day. *Frequencies: 97.6–99.8 FM, coverage 99%*
- RADIO 2 (Popular music, entertainment, comedy and the arts) – 24 hours a day. *Frequencies: 88–90.2 FM, coverage 99%*
- RADIO 3 (Classical music, classic drama, documentaries and features) – 24 hours a day. *Frequencies: 90.2–92.4 FM, coverage 99%*
- RADIO 4 (News, documentaries, drama, entertainment, and cricket on long wave in season) – 5.55 a.m.–1.00 a.m. daily, with BBC World Service overnight. *Frequencies: 92.4–94.6 FM and 198 LW, coverage 99%*
- RADIO 5 LIVE (News and sport) – 24 hours a day. *Frequencies: 693 and 909 MW*
- RADIO 6 (Digital only) (Contemporary and classic pop and rock music) – 24 hours a day.
- RADIO 7 (Digital only) (Comedy and drama) – 7 a.m. to 1 a.m.
- BRITISH ASIAN RADIO (Digital only) (news, music and sport for British Asians)
- 1XTRA (Digital only) (new black music) – 24 hours a day.

## BBC NATIONAL RADIO SERVICES

- RADIO CYMRU (Welsh-language) *Frequencies: 92.4–94.6 FM, 95.7 FM (Llanfyllin), 96.1 FM (Llandinam), 96.8 FM and 103.5–105 FM, coverage 97%*
- RADIO FOYLE, *Frequencies: 79.2 AM; 93.1 MW*
- RADIO NAN GAIDHEAL (Gaelic service) *Frequencies: 103.5–105 FM, 990 MW in Aberdeen, coverage 90%*
- RADIO SCOTLAND *Frequencies: 810 MW plus two local fillers; 92.4–94.7 FM, coverage 99%. Local programmes on FM as above: Highlands; North-East; Borders; South-West (also 585 MW); Orkney; Shetland*

RADIO ULSTER *Frequencies: 1341 MW (873 MW Enniskillen), plus two local fillers; 92.4–95.4 FM, coverage 96%. Local programmes on RADIO FOYLE*

RADIO WALES *Frequencies: 882 MW plus two local fillers; 95.1 FM, 95.9 FM (Gwent), 103.9 FM (Cardiff), 95.4 FM (Wrexham), coverage 97%*

#### BBC WORLD SERVICE

8ush House, 5trand, London WC2B 4PH  
T 020-7240 3456

The BBC World Service broadcasts over 1,280 hours of programmes a week in 43 languages including English. It has a weekly audience of 150 million globally, of whom 42 million listen to English language services. Many services are also available by satellite and on the Internet. *UK frequencies*: 648 MW in southern England and on BBC Radio 4 at night.

The World Service is organised into five world regions, each responsible for programmes in English as well as regional languages.

AFRICA AND THE MIDDLE EAST, Arabic, French, Hausa, Kinyarwanda/Kirundi, Portuguese, Somali and Swahili; English programmes including *Network Africa* and *Focus on Africa*

ASIA AND THE PACIFIC, Bengali, Burmese, Cantonese, Hindi, Indonesian, Mandarin, Nepali, Sinhala, Tamil, Thai, Urdu and Vietnamese; English programmes including *East Asia Today*

EUROPE, Albanian, Bulgarian, Croatian, Czech, Greek, Hungarian, Macedonian, Polish, Romanian, Serbian, Slovak and Slovene; English programmes including *The World Today*

FORMER SOVIET UNION AND SOUTH-WEST ASIA, Azeri, Kazakh, Kyrgyz, Pashto, Persian, Russian, Turkish, Ukrainian and Uzbek

THE AMERICAS, Portuguese for Brazil, Spanish; English programmes including *The World* (a global news magazine for American listeners), *Caribbean Report* and *Calling the Falklands*

BBC ENGLISH teaches English world-wide through radio, television and a wide range of published and online courses

BBC AUDIENCE AND MARKET RESEARCH carries out audience research and sells printed publications and data

BBC MONITORING supplies news and information from the output of overseas radio and television stations and news agency sources

BBC WORLD SERVICE TRAINING runs journalism, management and skills training courses for overseas broadcasters

BBC WORLD SERVICE TRUST is a registered charity established in 1999 by BBC World Service. It promotes development through the innovative use of the media in the developing world. The trust presently works in 23 countries worldwide, tackling health, education and good governance.

#### INDEPENDENT RADIO

The Radio Authority (RA) began advertising new licences for the development of independent radio in January 1991. It awarded national and local radio licences (including regional licences), satellite and cable services licences, and long-term restricted service licences for stations serving non-commercial establishments such as hospitals and universities. The first national commercial digital multiplex licence was awarded in October 1998, a number of local digital multiplex licences followed. OFCOM is now responsible for licensing administration. As at August 2004, the impact of the changes in the regulation of commercial radio remained to be felt, however, OFCOM plans to take a different approach from the RA and there have been encouraging signs that a cost effective, transparent methodology will soon be implemented.

The Commercial Radio Companies Association is the trade body for commercial radio companies in the United Kingdom. It is a voluntary, non profit making body, funded by the subscriptions of its member radio companies, who share the cost of CRCA in proportion to their shares of the industry's broadcasting revenue, and was formed by the first radio companies when Independent Radio began in 1973.

# THE PRESS

The newspaper and periodical press in the UK is large and diverse, catering for a wide variety of views and interests. There is no state control or censorship of the press, though it is subject to the laws on publication and the Press Complaints Commission was set up by the industry as a means of self-regulation.

The press is not state-subsidised and receives few tax concessions. The income of most newspapers and periodicals is derived largely from sales and from advertising; the press is the largest advertising medium in Britain.

## SELF-REGULATION

The Press Complaints Commission was founded by the newspaper and magazine industry in January 1991 to replace the Press Council (established in 1953). It is a voluntary, non-statutory body set up to operate the press's self-regulation system following the Calcutt report in 1990 on privacy and related matters, when the industry feared that failure to regulate itself might lead to statutory regulation of the press. The performance of the Press Complaints Commission was reviewed after 18 months of operation (the *Calcutt Review of Press Self-Regulation*, presented to Parliament in January 1993) to determine whether statutory measures were required. No proposals for replacing the self-regulation system have been made to date. The Commission is funded by the industry through the Press Standards Board of Finance.

## COMPLAINTS

The Press Complaints Commission's aims are to consider, adjudicate, conciliate, and resolve complaints of unfair treatment by the press; and to ensure that the press maintains the highest professional standards with respect for generally recognised freedoms, including freedom of expression, the public's right to know, and the right of the press to operate free from improper pressure. The Commission judges newspaper and magazine conduct by a code of practice drafted by editors, agreed by the industry and ratified by the Commission.

Six of the Commission's members are editors of national, regional and local newspapers and magazines, and nine, including the chairman, are drawn from other fields. One member has been appointed Privacy Commissioner with special powers to investigate complaints about invasion of privacy. The PCC received 3,649 complaints in 2003.

Chairman, Sir Christopher Meyer, KCMG

## NEWSPAPERS

Newspapers are mostly financially independent of any political party, though most adopt a political stance in their editorial comments, usually reflecting proprietorial influence. Ownership of the national and regional daily

newspapers is concentrated in the hands of large corporations whose interests cover publishing and communications. The rules on cross-media ownership, as amended by the Broadcasting Act 1996, which limited the extent to which newspaper organisations may become involved in broadcasting, have been relaxed by the Communications Act 2003. Newspapers with over 20 per cent share of national circulation may own national and/or local radio licences.

There are about 13 daily and 13 Sunday national papers and several hundred local papers that are published weekly or twice-weekly. Scotland, Wales and Northern Ireland all have at least one daily and one Sunday national paper.

Newspapers are usually published in either broadsheet or tabloid format. The 'quality' daily papers, e.g. those providing detailed coverage of a wide range of public matters, have a broadsheet format. The tabloid papers take a more popular approach and are more illustrated.

## CIRCULATION (Net average for July 2004)

### National Daily Newspapers

Daily Express	939,384
Daily Mail	2,418,743

# BOOK PUBLISHERS

There are over 50,000 active publishers in the UK, but many of these are subsidiaries of larger publishing houses. The following list comprises a selection of publishers, their contact details and a letter code indicating the type of books published.

A	Fiction
B	Education
C	Religious
D	Technical and Scientific
E	Legal and Parliamentary
F	Medical
G	Commercial and Professional
H	Naval and Military
I	Dictionaries
J	Reference Books
K	Maps and Atlases
L	Directories and Guides
M	Music and Dance
N	Poetry, Film and Drama
O	Illustrated
P	Art and Architecture
Q	History, Archaeology, Biography
R	Politics, Sociology, Political Economy
S	Philosophy
T	Other Academic
U	Children's Books
V	Sports, Hobbies and Interests
W	Foreign language
X	General Literature, e.g. Travel, Essays, Humour

# EMPLOYERS' AND TRADE ASSOCIATIONS

Most national employers' associations are members of the Confederation of British Industry (CBI).

## CBI

Centre Point, 103 New Oxford Street, London WC1A 1DU  
T 020-7379 7400

The CBI was founded in 1965 and is an independent non-party political body financed by industry and commerce. It exists primarily to ensure that the Government understands the intentions, needs and problems of British business. It is the recognised spokesman for the business viewpoint and is consulted as such by the Government.

The CBI has a direct corporate membership employing over 4 million, and a trade association membership over 6 million of the workforce.

The governing body of the CBI is the Council, which meets four times a year in London under the chairmanship of the President. It is assisted by 17 expert standing committees which advise on the main aspects of policy. There are 12 regional councils and offices, covering the administrative regions of England, Wales, Scotland and Northern Ireland. There is also an office in Brussels and one in Washington.

*President, Sir John Egan*

*Director-General, Digby Jones*

WALES: 2 Caspian Point, Caspian Way, Cardiff Bay, Cardiff, CF10 4DQ T 029-2045 3710

# TRADE UNIONS

Nearly 80 per cent of trade union members belong to unions affiliated to the TUC.

The Central Arbitration Committee arbitrates on trade disputes, adjudicates on disclosure of information complaints, determines claims for statutory recognition under the Employment Relations Act 1999 and certain issues relating to the implementation of the European Works Council Directive.

## CENTRAL ARBITRATION COMMITTEE

Discovery House, 28-42 Banner Street, London EC1Y 8QE  
T 020-7251 9747 F 020-7251 3114 W www.cac.gov.uk

## TRADES UNION CONGRESS (TUC)

Congress House, 23-28 Great Russell Street, London WC1B 3LS  
T 020-7636 4030 F 020-7636 0632

W www.tuc.org.uk

The Trades Union Congress, founded in 1868, is an independent association of trade unions. The TUC promotes the rights and welfare of those in work and helps the unemployed. It helps its member unions promote membership in new areas and industries, and campaigns for rights at work for all employees, including part-time and temporary workers, whether union members or not. TUC representatives sit on many public bodies at national and international level. It makes representations to government, political parties, employers and international bodies such as the European Union.

The governing body of the TUC is the annual Congress. Between Congresses, business is conducted by a General Council, which meets five times a year, and an Executive Committee, which meets monthly. The full-time staff is headed by the General Secretary who is elected by Congress and is a permanent member of the General Council.

There are some 71 affiliated unions with a membership of nearly 7,000,000.

*President (2004-5)*, Jeannie Drake

*General Secretary*, B. Barber, elected 2002

## SCOTTISH TRADES UNION CONGRESS

333 Woodlands Road, Glasgow G3 6NG T 0141-337 8100  
F 0141-337 8101 E info@stuc.org.uk

The Congress was formed in 1897 and acts as a national centre for the trade union movement in Scotland. The STUC promotes the rights to welfare of those in work and helps the unemployed. It helps its member unions to promote membership in new areas and industries, and campaigns for rights at work for all employees, including part-time temporary workers, whether union members or not. It makes representations to government and employers. In June 2004 it consisted of 46 unions with a total membership of over 630,000.

The Annual Congress in April elects a 39-member General Council on the basis of six industrial sections.

*Chairperson*, Sandy Boyle

*General Secretary*, Bill Speirs

## THE EARTH

The shape of the Earth is that of an oblate spheroid or solid of revolution whose meridian sections are ellipses, whilst the sections at right angles are circles.

### DIMENSIONS

Equatorial diameter = 12,756.27 km (7,926.38 miles)

Polar diameter = 12,713.50 km (7,899.80 miles)

Equatorial circumference = 40,075.01 km (24,901.46 miles)

Polar circumference = 40,007.86 km (24,859.73 miles)

Mass = 5,974,000,000,000,000,000 tonnes (5.879×10<sup>21</sup> tons)

The equatorial circumference is divided into 360 degrees of longitude, which is measured in degrees, minutes and seconds east or west of the Greenwich meridian (0°) to 180°, the meridian 180° E. coinciding with 180° W. This dateline was internationally ratified on 13 October 1884.

Distance north and south of the Equator is measured in degrees, minutes and seconds of latitude. The Equator is 0°, the North Pole is 90° N. and the South Pole is 90° S. The Tropics lie at 23° 27' N. (Tropic of Cancer) and 23° 27' S. (Tropic of Capricorn). The Arctic Circle lies at 66° 33' N. and the Antarctic Circle at 66° 33' S. (NB The Tropics and the Arctic and Antarctic circles are affected by the slow decrease in obliquity of the ecliptic, of about 0.47 arcseconds per year. The effect of this is that the Arctic and Antarctic circles are currently moving towards their respective poles by about 14 metres per annum, while the Tropics move towards the Equator by the same amount.

### AREA, ETC.

The surface area of the Earth is 510,069,120 km<sup>2</sup> (196,938,800 miles<sup>2</sup>), of which the water area is 70.92 per cent and the land area is 29.08 per cent.

The radial velocity on the Earth's surface at the Equator is 1,669.79 km per hour (1,037.56 m.p.h.). The Earth's mean velocity in its orbit around the Sun is 107,229 km per hour (66,629 m.p.h.). The Earth's mean distance from the Sun is 149,597,870 km (92,955,807 miles).

## OCEANS

### AREA

	km <sup>2</sup>	miles <sup>2</sup>
Pacific	155,557,000	59,270,000
Atlantic	76,762,000	29,638,000
Indian	68,556,000	26,467,000
Southern	20,327,000	7,848,300
Arctic	14,056,000	5,427,000

The Equator divides the Pacific into the North and South Pacific and the Atlantic into the North and South Atlantic. In 2000 the International Hydrographic Organisation approved the description of the 20,327,000 km<sup>2</sup> (7,848,300 miles<sup>2</sup>) of circum-Antarctic waters up to 60° S. as the Southern Ocean – a seventh ocean.

## GREATEST OCEAN DEPTHS

<i>Greatest depth</i>	<i>Location</i>	<i>metres</i>	<i>feet</i>
Mariana Trench*	Pacific	10,924	35,840
Puerto Rico Trench	Atlantic	8,605	28,232
South Sandwich Trench	Southern	7,235	23,737
Java (Sunda) Trench	Indian	7,125	23,376
Molloy Deep	Arctic	5,680	18,400

\* A depth here of 11,034 metres/36,200 feet by the Soviet Vityaz is not internationally accepted.

## SEAS

### AREAS

	km <sup>2</sup>	miles <sup>2</sup>
South China	2,974,600	1,148,500
Caribbean	2,515,900	971,400
Mediterranean	2,509,900	969,100
Bering	2,261,000	873,000
Gulf of Mexico	1,507,600	582,100
Okhotsk	1,392,000	537,500
Japan	1,012,900	391,100
Hudson Bay	730,100	281,900
East China	664,600	256,600
Andaman	564,880	218,100
Black Sea	507,900	196,100
Red Sea	453,000	174,900
North Sea	427,100	164,900
Baltic Sea	382,000	147,500
Yellow Sea	294,000	113,500
Persian/Arabian Gulf	230,000	88,800

## GREATEST DEPTHS OF SEAS LISTED ABOVE

	<i>Maximum depth</i>	
	<i>metres</i>	<i>feet</i>
Caribbean	8,605	28,232
East China (Ryu Kyu Trench)	7,507	24,629
South China	7,258	23,812
Mediterranean (Ionian Basin)	5,150	16,896
Andaman	4,267	14,000
Bering	3,936	12,913
Gulf of Mexico	3,504	11,496
Okhotsk	3,365	11,040
Japan	3,053	10,016
Red Sea	2,266	7,434
Black Sea	2,212	7,257
North Sea	439	1,440
Hudson Bay	111	364
Baltic Sea	90	295
Persian Gulf	73	240
Yellow Sea	58	190

## THE CONTINENTS

There are six geographic continents, although America is often divided politically into North and Central America, and South America, so making seven.

AFRICA is surrounded by sea except for the narrow isthmus of Suez in the north-east, through which was cut the Suez Canal (1869). Its extreme longitudes are 17° 20'

W. at Cape Verde, Senegal, and 51° 24' E. at Raas Xaafunn, Somalia. The extreme latitudes are 37° 20' N. at Cape Blanc, Tunisia, and 34° 50' S. at Cape Agulhas, South Africa, about 4,400 miles apart. The Equator passes through the middle of the continent.

NORTH AMERICA, including Mexico, is surrounded by ocean except in the south, where the isthmian states of CENTRAL AMERICA link North America with South America. Its extreme longitudes are 168° 5' W. at Cape Prince of Wales, Alaska, and 55° 40' W. at Cape Charles, Newfoundland. The extreme continental latitudes are the tip of the Boothia peninsula, NW Territories, Canada (71° 51' N.) and 14° 22' N. in southern Mexico near La Victoria, Guatemala.

SOUTH AMERICA lies mostly in the southern hemisphere; the Equator passing through the north of the continent. It is surrounded by ocean except where it is joined to Central America in the north by the narrow isthmus through which was cut the Panama Canal (1914). Its extreme longitudes are 34° 47' W. at Cape Branco in Brazil and 81° 20' W. at Punta Pariña, Peru. The extreme continental latitudes are 12° 25' N. at Punta Gallinas, Colombia, and 53° 54' S. at the southernmost tip of Peninsula de Brunswick, Chile. Cape Horn, on Cape Island, Chile, lies in 55° 59' S.

ANTARCTICA lies almost entirely within the Antarctic Circle (66° 33' S.) and is the largest of the world's glaciated areas. Ninety-eight per cent of the continent is permanently ice-covered. The ice amounts to some 7.2 million cubic miles (30 million km<sup>3</sup>) and represents more than 70 per cent of the world's fresh water. The environment is too hostile for unsupported human habitation.

ASIA is the largest continent and occupies 29.6 per cent of the world's land surface. The extreme longitudes are 26° 05' E. at Baba Buran, Turkey and 169° 40' W. at Mys Dezhneva (East Cape), Russia, a distance of about 6,000 miles. Its extreme northern latitude is 77° 45' N. at Mys Chelyuskin, Russia, and it extends over 5,000 miles south to Tanjong Piai, Malaysia.

AUSTRALIA is the smallest of the continents and lies in the southern hemisphere. It is entirely surrounded by ocean. Its extreme longitudes are 113° 11' E. at Steep Point and 153° 11' E. at Cape Byron. The extreme latitudes are 10° 42' S. at Cape York and 39° S. at South East Point, Tasmania. Australia, together with New Zealand (Australasia), Papua New Guinea and the Pacific Islands, comprises Oceania.

EUROPE, including European Russia, is the smallest continent in the northern hemisphere. Its extreme latitudes are 71° 11' N. at Nord Kapp in Norway, and 36° 23' N. at Ákra Tainaron (Matapás) in southern Greece, a distance of about 2,400 miles. Its breadth from Cabo Carvoeiro in Portugal (9° 34' W.) in the west to the Kara River, north of the Urals (66° 30' E.) in the east is about 3,300 miles. The division between Europe and Asia is generally regarded as the watershed of the Ural Mountains; down the Ural river to Guryev, Kazakhstan; across the Caspian Sea to Apsheronkiy Poluostrov, near Baku; along the watershed of the Caucasus Mountains to Anapa and thence across the Black Sea to the Bosphorus in Turkey; across the Sea of Marmara to Çanakkale Bogazi (Dardanelles).

	<i>Area</i>	
	km <sup>2</sup>	miles <sup>2</sup>
Asia	43,998,000	16,988,000
* America	41,918,000	16,185,000
Africa	29,800,000	11,506,000
Antarctica	13,209,000	5,100,000
† Europe	9,699,000	3,745,000
Australia	7,618,493	2,941,526

\* North and Central America has an area of 24,255,000 km<sup>2</sup> (9,365,000 miles<sup>2</sup>)

† Includes 5,571,000 km<sup>2</sup>; (2,151,000 miles<sup>2</sup>) of former USSR territory, including the Baltic states, Belarus, Moldova, Ukraine and the part of Russia west of the Ural Mountains and Kazakhstan west of the Ural river. European Turkey (24,378 km<sup>2</sup>/9,412 miles<sup>2</sup>) comprises territory to the west and north of the Bosphorus and the Dardanelles

## GLACIATED AREAS

It is estimated that 15,915,000 km<sup>2</sup> (6,145,000 miles<sup>2</sup>) or 10.73 per cent of the world's land surface is permanently covered with ice. The largest glacier is the 515 km/320 mile-long Lambert-Fisher Ice Passage, Mac Robertson Land, Eastern Antarctica.

	<i>Area</i>	
	km <sup>2</sup>	miles <sup>2</sup>
South Polar regions	13,830,000	5,340,000
North Polar regions (incl. Greenland or Kalaallit Nunaat)	1,965,000	758,500
Alaska-Canada	58,800	22,700
Asia	37,800	14,600
South America	11,900	4,600
Europe	10,700	4,128
New Zealand	1,015	391
Africa	238	92

## PENINSULAS

	<i>Area</i>	
	km <sup>2</sup>	miles <sup>2</sup>
Arabian	3,250,000	1,250,000
Southern Indian	2,072,000	800,000
Alaskan	1,500,000	580,000
Labradorian	1,300,000	500,000
Scandinavian	800,300	309,000
Iberian	584,000	225,500

## LARGEST ISLANDS

<i>Island and Ocean</i>	<i>Area</i>	
	km <sup>2</sup>	miles <sup>2</sup>
Greenland (Kalaallit Nunaat), Arctic	2,175,500	840,000
New Guinea, Pacific	792,500	306,000
Borneo, Pacific	725,450	280,100
Madagascar, Indian	587,041	226,674
Baffin Island, Arctic	507,451	195,928
Sumatra, Indian	427,350	165,000
Honshu, Pacific	227,413	87,805
* Great Britain, Atlantic	218,077	84,200
Victoria Island, Arctic	217,292	83,897
Ellesmere Island, Arctic	196,236	75,767
Sulawesi (Celebes), Indian	189,036	72,987
South Island, NZ, Pacific	151,213	58,384

Java (Jawa), Indian	126,650	48,900
North Island, NZ, Pacific	114,487	44,204
Cuba, Atlantic	110,862	42,804
Newfoundland, Atlantic	108,855	42,030
Luzon, Pacific	105,360	40,680
Iceland, Atlantic	102,820	39,700
Mindanao, Pacific	95,247	36,775
Ireland, Atlantic	82,462	31,839

\* Mainland only

## LARGEST DESERTS

	Area (approx)	
	km <sup>2</sup>	miles <sup>2</sup>
The Sahara, N. Africa	9,000,000	3,500,000
The Gobi, Mongolia/China	1,300,000	500,000
Australian Desert (Great Sandy, Gibson, Simpson and Great Victoria)	1,120,000	460,000
Arabian Desert	1,000,000	385,000
Kalahari Desert, Botswana/ Namibia/S. Africa	570,000	220,000
Taklimakan Shamo, Mongolia/China	320,000	125,000
* Kara Kum, Turkmenistan	310,000	120,000
Thar Desert, India/Pakistan	260,000	100,000
Somali Desert, Somalia	260,000	100,000
Atacama Desert, Chile	180,000	70,000
Sonoran Desert, USA/ Mexico	180,000	70,000
Namib Namibia	135,000	52,000
Dasht-e Lut, Iran	52,000	20,000
Mojave Desert, USA	38,850	15,000

\* Together with the Kyzyl Kum (100,000 miles<sup>2</sup>) known as the Turkestan Desert

*Antarctica is described as a Polar Desert since precipitation is less than 5cm per annum.*

## DEEPEST DEPRESSIONS

	Maximum depth below sea level	
	metres	feet
Dead Sea, Jordan/Israel	408	1,338
Lake Assal, Djibouti	156	511
Turfan Depression, Sinkiang, China	153	505
Qattara Depression, Egypt	132	436
Mangyshlak peninsula, Kazakhstan	131	433
Danakil Depression, Ethiopia	116	383
Death Valley, California, USA	86	282
Salton Sink, California, USA	71	235
W. of Ustyurt plateau, Kazakhstan	70	230
Prikaspiyskaya Nizmennost', Russia/Kazakhstan	67	220
Lake Sarykamysh, Uzbekistan/ Turkmenistan	45	148
El Faiyûm, Egypt	44	147
Península Valdés, Chubut, Argentina	40	131
Lake Eyre, South Australia	16	52

The world's largest exposed depression is the Prikaspiyskaya Nizmennost' covering the hinterland of the northern third of the Caspian Sea, which is itself 28 m (92 ft) below sea level.

Western Antarctica and Central Greenland largely comprise crypto-depressions under ice burdens. The Antarctic Bentley subglacial trench has a bedrock 2,538 m (8,326 ft) below sea-level. In Greenland (lat. 73° N., long. 39° W.) the bedrock is 365 m (1,197 ft) below sea-level.

Nearly one quarter of the area of The Netherlands lies marginally below sea-level, an area of more than 10,000 km<sup>2</sup>/3,860 miles<sup>2</sup>.

## LONGEST MOUNTAIN RANGES

Range, and location	Length	
	km	miles
Cordillera de Los Andes, W. South America	7,200	4,500
Rocky Mountains, W. North America	4,800	3,000
Himalaya-Karakoram-Hindu Kush, S. Central Asia	3,850	2,400
Great Dividing Range, E. Australia	3,620	2,250
Trans-Antarctic Mts, Antarctica	3,540	2,200
Atlantic Coast Range, E. Brazil	3,050	1,900
West Sumatran-Javan Range, Indonesia	2,900	1,800
Aleutian Range, Alaska and NW Pacific	2,650	1,650
Tien Shan, S. Central Asia	2,250	1,400
Central New Guinea Range, Irian Jaya/Papua New Guinea	2,010	1,250

## HIGHEST MOUNTAINS

The world's twelve 8,000-metre (26,246 ft) mountains (*with five subsidiary peaks*) are all in the Himalaya-Karakoram-Hindu Kush ranges.

Mountain	Height metres	feet
Mt Everest* (Qomolangma)	8,850	29,035
K2 (Qogir)†	8,611	28,251
Kangchenjunga	8,597	28,208
Lhotse I	8,510	27,923
Makalu I	8,480	27,824
Lhotse Shar (II)	8,400	27,560
Dhaulagiri I	8,171	26,810
Manaslu I (Kutang I)	8,156	26,760
Cho Oyu	8,153	26,750
Nanga Parbat (Diamir)	8,125	26,660
Annapurna I	8,078	26,504
Gasherbrum I (Hidden Peak)	8,068	26,470
Broad Peak I	8,046	26,400
Shisham Pangma (Gosainthan)	8,012	26,287
Gasherbrum II	8,034	26,360
Makalu South-East	8,010	26,280
Broad Peak Central	8,000	26,246

\* Named after Sir George Everest (1790–1866), Surveyor-General of India 1830–43, in 1863. He pronounced his name Eve-rest

† Formerly named after Col. H. H. Godwin-Austen (1834–1923)

The culminating summits in the other major mountain ranges are:

<i>Mountain, by range or country</i>	<i>Height</i>	
	<i>metres</i>	<i>feet</i>
Pik Pobedy, Tien Shan	7,439	24,406
Cerro Aconcagua, Cordillera de Los Andes	6,960	22,834
Mt McKinley ( <i>S. Peak</i> ), Alaska Range	6,194	20,320
Kilimanjaro (Kibo), Tanzania	5,894	19,340
Hkakabo Razi, Myanmar	5,881	19,296
El'brus, ( <i>W. Peak</i> ), Caucasus	5,642	18,510
Citlaltépetl (Orizaba), Sierra Madre Oriental, Mexico	5,655	18,555
Vinson Massif, E. Antarctica	4,897	16,066
Puncak Jaya, Central New Guinea Range	4,884	16,023
Mt Blanc, Alps	4,807	15,771
Klyuchevskaya Sopka, Kamchatka peninsula, Russia	4,750	15,584
Ras Dashan, Ethiopian Highlands	4,620	15,158
Zard Kuh, Zagros Mts, Iran	4,547	14,921
Mt Kirkpatrick, Trans Antarctic	4,527	14,855
Mt Belukha, Altai Mts, Russia/ Kazakhstan	4,505	14,783
Mt Elbert, Rocky Mountains	4,400	14,433
Mt Rainier, Cascade Range, N. America	4,392	14,410
Nevado de Colima, Sierra Madre Occidental, Mexico	4,268	14,003
Jebel Toubkal, Atlas Mts, N. Africa	4,165	13,665
Kinabalu, Crocker Range, Borneo	4,101	13,455
Kerinci, West Sumatran-Javan Range, Indonesia	3,800	12,467
Jabal an Nabi Shu'ayb, N. Tihamat, Yemen	3,760	12,336
Mt Cook (Aorangi), Southern Alps, New Zealand	3,754	12,315
Teotepec, Sierra Madre del Sur, Mexico	3,703	12,149
Thaban Ntlenyana, Drakensberg, South Africa	3,482	11,425
Pico de Bandeira, Atlantic Coast Range	2,890	9,482
Shishaldin, Aleutian Range	2,861	9,387
Kosciusko, Great Dividing Range, Australia	2,228	7,310

## HIGHEST ACTIVE VOLCANOES

<i>Volcano and location</i>	<i>Height</i>	
	<i>metres</i>	<i>feet</i>
Ojos del Salado, Andes, Argentina/Chile	6,880	22,572
Volcán Llullaillaco, Andes, Argentina/Chile	6,723	22,057
Volcán Guallatiri, Andes, Chile	6,069	19,882
Cotopaxi, Andes, Ecuador	5,897	19,347
Tupungatito, Andes, Chile	5,640	18,504
Láscar, Andes, Chile	5,591	18,346
Popocatepetl, Mexico	5,465	17,930
Nevado del Ruiz, Colombia	5,321	17,457
Sangay, Andes, Ecuador	5,188	17,021
Irruputuncu, Chile	5,163	16,939
Klyuchevskaya Sopka, Kamchatka peninsula, Russia	4,835	15,863
Guagua Pichincha, Andes, Ecuador	4,784	15,696

Puracé, Colombia	4,756	15,601
Wrangell, Alaska, USA	4,316	14,163
Shasta, California, USA	4,316	14,163
Galeras, Colombia	4,275	14,028
Mauna Loa, Hawaii Is.	4,170	13,680
Cameroon, Cameroon	4,095	13,435

## OTHER NOTABLE VOLCANOES

	<i>Height</i>	
	<i>metres</i>	<i>feet</i>
Erebus, Ross Island, Antarctica	3,794	12,448
Fuji, Honshu, Japan	3,775	12,388
Santa Maria, Guatemala	3,772	12,375
Semeru, Java, Indonesia	3,675	12,060
Nyiragongo, Dem Rep. of Congo	3,474	11,400
Mt Etna, Sicily, Italy	3,368	11,053
Raung, Java, Indonesia	3,322	10,932
Sheveluch, Kamchatka, Russia	3,283	10,771
Llaima, Chile	3,125	10,253
Mt St Helens, Washington State, USA	2,549	8,363
Beerenberg, Jan Mayen Island	2,277	7,470
Pinatubo, Luzon, Philippines	1,598	5,249
Hekla, Iceland	1,491	4,892
Mt Unzen, Kyushu, Japan	1,360	4,462
Vesuvius, Italy	1,281	4,203
Kilauea, Hawaii, USA	1,249	4,009
Soufrière, St Vincent	1,178	3,865
Soufrière Hills, Montserrat	914	3,001
Stromboli, Lipari Is., Italy	926	3,038
Krakatau, Sunda Strait, Indonesia	813	2,667
Santoríni (Thíra), Aegean Sea, Greece	564	1,850
Tristan da Cunha, South Atlantic	243	800
Surtsey, off Iceland	173	568

## LARGEST LAKES

The areas of some of the lakes listed are subject to seasonal variation.

	<i>Area</i>		<i>Length</i>	
	<i>km<sup>2</sup></i>	<i>miles<sup>2</sup></i>	<i>km</i>	<i>miles</i>
Caspian Sea, Iran/ Azerbaijan/Russia/ Turkmenistan/ Kazakhstan	371,000	143,000	1,171	728
*Michigan-Huron, USA/ Canada	117,610	45,300	1,010	627
Superior, Canada/USA	82,100	31,700	563	350
Victoria, Uganda/ Tanzania/Kenya	69,500	26,828	362	225
Tanganyika, Dem. Rep. of Congo/ Tanzania/Zambia/ Burundi	32,900	12,665	725	450
Great Bear, Canada	31,328	12,096	309	192
‡Aral Sea, Kazakhstan/ Uzbekistan	30,700	11,850	320	200
†Baykal ( <i>Baikal</i> ), Russia	30,500	11,776	620	385
Malawi (Nyasa), Tanzania/ Malawi/Mozambique	28,900	11,150	580	360
Great Slave, Canada	28,570	11,031	480	298
Erie, Canada/USA	25,670	9,910	388	241
Winnipeg, Canada	24,390	9,417	428	266

Churchill, R. Churchill, Canada	1,132	249,000
Victoria ( <i>Mosi-oa-tunya</i> ), R. Zambezi, Zambia/ Zimbabwe	1,000	222,000

## TALLEST DAMS

	metres	feet
* Rogun, R. Vakhsh, Tajikistan	335	1,098
Nurek, R. Vakhsh, Tajikistan	300	984
Grande Dixence, Switzerland	285	935
* Longtan, R. Hangshui, China	285	935
Inguri, Georgia	272	892
Boruca, Costa Rica	267	876
Vaiont, Italy	262	859
Manuel M. Torres, Chicoasén, Mexico	261	856
Tehri, R. Bhagivathi, India	261	856

\* Construction ceased

The world's most massive dam is the Syncrude Tailings dam in Alberta, Canada, which will have a volume of 540 million cubic metres/706 million cubic yards. The Three Gorges Chang Jiang (Yangtze) Dam, China, with a crest length of 1,983 m/6,505 ft, is due for completion in 2009 (stage 3).

The Yacyretá-Apipe dam across the River Paraná, Argentina-Paraguay, is being completed to a length of 69,600 m/43.24 miles

## TALLEST INHABITED BUILDINGS

Building and city	Height	
	metres	feet
Taipei 101, Taipei, Taiwan (2003) (101 storeys)	509	1,671
Petronas Towers 1 and 11, Kuala Lumpur, Malaysia (1998) (88 storeys)	451.9	1,482
Sears Tower, Chicago (1974), (110 storeys)	443	1,454
Jin Mao, Shanghai, China (1998) (86 storeys)	420	1,378
International Finance Centre, Hong Kong (2003)	412	1,352
CITIC Plaza, Guangzhou, China (1996)	391	1,283
Shun Hing Square, Shenzhen, China (1996)	384	1,260
Empire State Building, New York <sup>2</sup> (1931)	381	1,250
Central Plaza, Hong Kong (1992)	373	1,227
Bank of China Tower, Hong Kong (1989)	368	1,209
Emirates Tower One, Dubai (2000)	355	1,165
The Centre, Hong Kong (1998)	350	1,148
Tuntex & Chein-Tai Tower, Taiwan (1998)	347	1,140
Aon Centre, Chicago (1973)	346	1,136
Kingdom Centre, Riyadh, Saudi Arabia (2001)	345	1,132
John Hancock Centre, Chicago (1969)	343	1,127
Baurj al Arab Hotel, Dubai (1999)	321	1,053
Chrysler Building, New York (1930)	318	1,046

1. With TV antennae, 520 m/1,707 ft

2. With TV tower (added 1950–1), 430.9 m/1,414 ft

Note: The Two World Trade Centre towers, One/North (1972) 110 storeys, 415 m 1,368 ft or 521m 1,716 ft with TV antennae; and Two/South (1973) 110 storeys, 415m 1,362 ft, were destroyed by two terrorist hijacked aircraft on 11 September 2001.

## TALLEST STRUCTURES

Structure and location	Height	
	metres	feet
* Warszawa Radio Mast, Konstantynow, Poland (1974)	646	2,120
KVLY (formerly KTHI)-TV Mast, Blanchard, North Dakota (guyed) (1963)	629	2,063
Indosat Telkom Tower, Jakarta, Indonesia	558	1,831
CN Tower, Metro Centre, Toronto, Canada (1975)	555	1,822
Ostankino Tower, Moscow (1967)	540	1,772

\* Collapsed during renovation, August 1991. New structure planned on site at Solkajawski. The USA has 8 other guyed TV towers above 555m (1,822 ft).

## LONGEST BRIDGES – BY SPAN

Bridge and location	Length	
	metres	feet
<b>SUSPENSION SPANS</b>		
Akashi-Kaikyo, Shikoku, Japan (1998)	1,990	6,529
Storebaelt East Bridge, Denmark (1998)	1,624	5,328
Humber Estuary, Humberside, England (1981)	1,410	4,626
Jiangyin (Yangtze), China (1999)	1,385	4,544
Tsing Ma, Hong Kong, China (1997)	1,377	4,518
Verrazano Narrows, Brooklyn–Staten I, USA (1964)	1,298	4,260
Golden Gate, San Francisco Bay, USA (1937)	1,280	4,200
Höga Kusten, Sweden (1997)	1,210	3,970
Chesapeake Bay No.2, Virginia, USA (1999)	1,158	3,800
Mackinac Straits, Michigan, USA (1957)	1,158	3,800
Minami Bisan-Seto, Japan (1988)	1,100	3,609
Bosporus II Fatih Sultan Mehmet, Istanbul, Turkey (1992)	1,090	3,576
Bosporus I, Istanbul, Turkey (1973)	1,074	3,524
George Washington, Hudson River, New York City, USA (1931)	1,067	3,500
Kurushima III, Japan (1999)	1,030	3,379
Kurushima II, Japan (1999)	1,020	3,346
Ponte 25 de Abril (Tagus), Lisbon, Portugal (1966) (road and rail)	1,013	3,323
Firth of Forth (road), nr Edinburgh, Scotland (1964)	1,006	3,300
Kita Bisan-Seto, Japan (1988)	990	3,248
* Severn River, Severn Estuary, England (1966)	988	3,240
* The main span of the 5.15 km/3.2 mile long Second Severn bridging, opened in 1996, is 456 m/1,496 ft.		
<b>CANTILEVER SPANS</b>		
Pont de Québec (rail-road), St Lawrence, Canada (1917)	548.6	1,800
Ravenswood, W. Virginia, USA	525.1	1,723
Firth of Forth (rail), nr Edinburgh, Scotland (two spans of 1,710 ft each) (1890)	521.2	1,710
Minato (Nanko), Osaka, Japan (1974)	510.0	1,673
Commodore Barry, Chester, Pennsylvania, USA (1975)	494.3	1,622
Greater New Orleans, Louisiana, USA (I 1958, II 1988)	480.0	1,575
Howrah (rail-road), Calcutta, India (1936–43)	457.2	1,500
<b>STEEL ARCH SPANS</b>		
Lupu, Shanghai, China (2003)	550.0	1,804
New River Gorge, Fayetteville, W. Virginia, USA (1977)	518.0	1,700
Bayonne (Kill van Kull), Bayonne, NJ–Staten I., USA (1931)	510.5	1,675
Sydney Harbour, Sydney, Australia (1932)	502.9	1,650

The 'floating' bridging at Evergreen Point, Seattle, Washington State, USA (1963), is 3,839 m/12,596 ft long, of which 2,310 m/7,578 ft floats.

The longest stretch of bridgings of any kind is that carrying the Interstate 55 and Interstate 10 highways at Manchac, Louisiana (1979), on twin concrete trestles over 55.21 km/34.31 miles.

## LONGEST VEHICULAR TUNNELS

Tunnel and location	Length	
	km	miles
* Seikan (rail), Tsugaru Channel, Japan (1988)	53.85	33.46
* Channel Tunnel, (rail) Cheriton, Kent–Sangatte, Calais (1994)	50.45	31.35
Moscow metro, Belyaev–Bittsevsky, Moscow, Russia (1979)	37.90	23.50
Northern Line tube, East Finchley–Morden, London (1939)	27.84	17.30
Iwate (rail), Japan (2002)	25.81	16.03
Laerdal–Aurland Road Link (2000)	24.51	15.22
* Oshimizu (rail), Honshu, Japan (1982)	22.17	13.78
Simplon II (rail), Brigue, Switzerland–Iselle, Italy (1922)	19.82	12.31
Simplon I (rail), Brigue, Switzerland–Iselle, Italy (1906)	19.80	12.30
Vereina, Switzerland (1999)	19.06	11.84
* Shin-Kanmon (rail), Kanmon Strait, Japan (1975)	18.68	11.61
Appennino (rail), Vernio, Italy (1934)	18.50	11.50
St Gotthard (road), Göschenen–Airolo, Switzerland (1980, re-opened 2001)	16.91	10.51
* Sub-aqueous		

The longest non-vehicular tunnelling in the world is the Delaware Aqueduct in New York, constructed in 1937–44 to a length of 168.9 km/105 miles.

The St. Gotthard (rail) tunnel (2010) will be 57.07 km/35.46 miles.

## BRITISH RAIL TUNNELS

	miles	yards
Severn, Bristol–Newport (1873–86)	4	484
Totley, Manchester–Sheffield	3	950
Standedge, Manchester–Huddersfield	3	66
Sodbury, Swindon–Bristol	2	924
Strood, Medway, Kent	2	426
Disley, Stockport–Sheffield	2	346
Ffestiniog, Llandudno–Blaenau Ffestiniog	2	338
Bramhope, Leeds–Harrogate	2	241
Cowburn, Manchester–Sheffield	2	182

The longest road tunnel in Britain is the Mersey Queensway Tunnel (1934) 3.42 km/2 miles 228 yards long. The longest canal tunnel, at Standedge, W. Yorks, is 5.12 km/3 miles 417 yards long. It was opened in 1811, closed in 1944 and reopened in 2001.

## LONGEST SHIP CANALS

<i>Canal (opening date)</i>	<i>Length</i>		<i>Min. depth</i>	
	km	miles	metres	feet
White Sea-Baltic (formerly Stalin) (1933), of which Canalised river	235	146.02	5.0	16.5
51.5 km/32 miles				
* Suez (1869)	162	100.60	12.9	42.3
Links Red and Mediterranean Seas				
V. I. Lenin Volga-Don (1952) Links Black and Caspian Seas	100	62.20	n/a	n/a
Kiel (or North Sea) (1895)	98	60.90	13.7	45.0
Links North and Baltic Seas				
* Houston (1940)	91	56.70	10.4	34.0
Links inland city with sea				
Alphonse XIII (1926)	85	53.00	7.6	25.0
Gives Seville access to sea				
Panama (1914)	82	50.71	12.5	41.0
Links Pacific Ocean and Caribbean Sea; lake chain, 78.9 km/49 miles dug				
Manchester Ship (1894)	64	39.70	8.5	28.0
Links city with Irish Channel				
Welland (1932)	43.5	27.00	8.8	29.0
Circumvents Niagara Falls and Rapids				
Brussels (Rupel Sea) (1922)	32	19.80	6.4	21.0
Renders Brussels an inland port				
* Has no locks				

The first section of China's Grand Canal, running 1,782 km/1,107 miles from Beijing to Hangzhou, was opened AD 610 and completed in 1283. Today it is limited to 2,000 tonne vessels.

The St Lawrence Seaway comprises the Beauharnois, Welland and Welland Bypass and Seaway 54-59 canals, and allows access to Duluth, Minnesota, USA via the Great Lakes from the Atlantic end of Canada's Gulf of St Lawrence, a distance of 3,769 km/2,342 miles. The St Lawrence Canal, completed in 1959, is 293 km/182 miles long.

# DISTANCES FROM LONDON BY AIR

This list details the distances in miles from London, Heathrow, to various cities (airports) abroad.

To	Miles				
Abidjan	3,197	Dhahran	3,143	Muscat	3,621
Abu Dhabi (International)	3,425	Dhaka	4,976	Nairobi (Jomo Kenyatta)	4,248

# TRAVEL OVERSEAS

## PASSPORT REGULATIONS

Application forms for United Kingdom passports can be obtained from the UK Passport Service's general telephone enquiry line or website, regional passport offices, or from main post offices and WorldChoice travel agents.

T 0870-521 0410

F 0901-4700 120

W [www.ukpa.gov.uk](http://www.ukpa.gov.uk)

### DURHAM

Passport Office, Millburngate House, Durham DH97 1PA

### LONDON

Passport Office, Globe House, 89 Eccleston Square, London SW1V 9PN

### LIVERPOOL

Passport Office, 5th Floor, India Buildings, Water Street, Liverpool L2 0OZ

### NEWPORT

Passport Office, Olympia House, Upper Dock Street, Newport, Gwent NP20 1XA

### PETERBOROUGH

Passport Office, Aragon Court, Northminster Road, Peterborough PE1 1QG

### GLASGOW

Passport Office, 3 Northgate, 96 Milton Street, Cowcaddens, Glasgow G4 0BT

### BELFAST

Passport Office, Hampton House, 47-53 High Street, Belfast BT1 2QS

The passport offices are open Monday-Saturday on an appointment-only basis (appointments should be arranged by calling the central telephone number listed above).

Standard postal applications are processed within three weeks. The completed application form should be posted, with the appropriate supporting documents and fee, to the regional passport office indicated on the addressed envelope which is provided with each application form. Accompanying cheques and postal orders should be crossed and made payable to 'The Passport Office'.

Applications can also be submitted through selected main post offices and WorldChoice travel agents ('partners'), who, in exchange for a small handling charge, will forward the application form to the relevant regional passport office after having checked that it has been completed correctly and has the appropriate documents attached. Applications through partners take a minimum of two weeks.

A passport cannot be issued or extended on behalf of a person already abroad; such persons should apply to the nearest British High Commission or Consulate.

UK passports are granted to:

- (i) British citizens
- (ii) British Dependent Territories citizens
- (iii) British Nationals (Overseas)
- (iv) British Overseas citizens
- (v) British Subjects
- (vi) British Protected Persons

UK passports are generally available for travel to all countries. The possession of a passport does not, however, exempt the holder from compliance with any immigration regulations in force in British or foreign countries, or from the necessity of obtaining a visa where required.

### ADULTS

A passport granted to a person over 16 will normally be valid for ten years and will not be renewable. Thereafter, or if at any time the passport contains no further space for visas, a new passport must be obtained.

The issue of passports including details of the holder's spouse has been discontinued, but existing family passports may be used until expiry. A spouse who is included in a family passport cannot travel on the passport without the holder.

### CHILDREN

Since 5 October 1998 all children under the age of 16 are required to have their own passport. This is primarily to help prevent child abductions. The passports are normally valid for five years, after which point a new passport application must be made. This replaced the system whereby children under the age of 16 could either have their own passport or be added to their parents' passports.

A passport granted to a child prior to this date was still valid for five years. On expiry, a new application must be made. Children included in their parents' passports when the new regulations came into force are not affected and can continue to travel on them until they reach the age of 16 or the passport expires or is amended.

### COUNTERSIGNATURES

The completed passport application form should be countersigned by an MP, justice of the peace, minister of religion, a professionally qualified person (e.g. doctor, engineer, lawyer, teacher), bank officer, military officer, established civil servant, police officer or a person of similar standing who has known the applicant for at least two years, and who is either a British citizen, British Dependent Territories citizen, British National (Overseas), British Overseas citizen, British Subject or a citizen of a Commonwealth country. A relative must not countersign the application.

If the application is for a child under the age of 16, the countersignature should be by someone of relevant standing who has known the parent or person with parental responsibility who signs the declaration of consent, rather than the child.

PHOTOGRAPHS

Two identical unmounted recent photographs of the applicant must be sent. These photographs should be printed on normal thin photographic paper and should be taken full face against a white background. The person who countersigns the application form should certify one photograph as a true likeness of the applicant.

DOCUMENTATION

The applicant's birth certificate or previous British passport, and other documents in support of the statements made in the application must be produced at the time of applying. Details of which documents are required are set out in the notes accompanying the application form.

If the applicant for a passport is a British national by naturalisation or registration, the certificate proving this must be produced with the application, unless the applicant holds a previous UK passport issued after registration or naturalisation.

48-PAGE PASSPORTS

The 48-page passport is intended to meet the needs of frequent travellers who fill standard passports well before the validity has expired. It is valid for ten years but is not available for children.

PASSPORT FEES\*

from September 2004

New adult passport	£42
New child passport	£25
Renewal or amendment of passport	£42
Renewal or amendment of child passport	£25
48-page passport	£54.50

\* Standard postal applications only. A £6 charge is added for applications made in person at a partner office in the UK.

HEALTH ADVICE

*Health Advice for Travellers* (booklet T6), published by the Department of Health, contains information on health precautions, reciprocal health agreements with other countries, and immunisation. It is available from some travel agents, local post offices or the Department of Health, Richmond House, 79 Whitehall, London SW1.

T 020-7210 4850 Minicom 020-7210 5025

E dhmail@doh.gsi.gov.uk (single copy orders).

IMMUNISATION

In very general terms immunisation against typhoid, polio and hepatitis A should be considered for all countries where standards of hygiene and sanitation may be less than ideal. Protection against malaria, in the form of tablets, as well as measures to avoid mosquito bites, is advised for visits to malarious areas.

Immunisation against yellow fever is compulsory for entry into some countries, either for all travellers or for those arriving from a yellow fever-infected area, and is recommended for all travellers to infected areas.

A doctor should be consulted, preferably at least eight weeks before departure, and will advise travellers and arrange vaccinations. Most doctors will charge a fee for a course of vaccinations. If children will be travelling outside Europe, North America, Australia and New Zealand, the doctor should be informed, especially if they have not completed their full course of childhood immunisation. As a precaution, it is also recommended that all travellers be up to date with their polio and tetanus inoculations.

Country-by-country guidance is set out in *Health Advice for Travellers*. Health care professionals can obtain up-to-date information about immunisation recommendations from the Department of Health publication *Health Information for Overseas Travel* or from:

MEDICAL TREATMENT ABROAD

Details of free or reduced cost emergency medical treatment when visiting European countries, and countries with which the UK has reciprocal health arrangements, are set out in *Health Advice for Travellers*. It also contains Form E111, the certificate that entitles people to urgent medical treatment in the European Economic Area (EEA), as well as guidance on its completion.

For countries where the UK has no health care agreements, including Canada, the USA, India, the Far East, and the whole of Africa and Latin America, it is advisable to take out medical insurance. A certain amount of insurance is also needed in countries with which the UK has health care agreements.

## ANTARCTIC

The Antarctic is generally defined as the area lying within the Antarctic Convergence, the zone where cold northward-flowing Antarctic sea water sinks below warmer southward-flowing water. This zone is at about latitude 50° S. in the Atlantic Ocean and latitude 55°–62° S. in the Pacific Ocean. The continent itself lies almost entirely within the Antarctic Circle, an area of about 13.66 million sq. km (5.3 million sq. miles), 99.67 per cent of which is permanently ice-covered. The average thickness of the ice is 2,450 m (7,100 ft) but in places exceeds 4,500 m (14,500 ft). Some mountains protrude, the highest being Vinson Massif, 4,897 m (16,067 ft). The lowest point has been recorded as the Bentley Subglacial Trench at –2,540 metres. The ice amounts to some 30 million cubic km (7.2 million cubic miles) and represents more than 70 per cent of the world's fresh water and 90 per cent of the world's ice. Much of the sea freezes in winter, forming fast ice which breaks up in summer and drifts north as pack ice.

The most conspicuous physical features of the continent are its high inland plateau (much of it over 3,000 m (10,000 ft)), the Transantarctic Mountains and the mountainous Antarctic Peninsula and off-lying islands which extend northwards towards South America.

### CLIMATE

On land, summer temperatures range from just above freezing around the coast to –34° C (about –30° F) on the plateau, and in winter from –20° C (about –4° F) on the coast to –65° C (about –85° F) inland. Over a large area the maxima do not exceed –15° C (+5° F).

Precipitation is scant over the plateau but amounts to 25–76 cm (10–30 in) (water equivalent) along the coast and some scientific stations are permanently buried by snow. Some rain falls over the more northerly areas in summer. Gravity winds on the plateau slopes and cyclonic storms further north can both exceed 160 km/h (100 mph).

### FLORA AND FAUNA

Although a small number of flowering plants, ferns and clubmosses occur on the sub-Antarctic islands, only two (a grass and a pearlwort) extend south of 60° S. Antarctic vegetation is dominated by lichens and mosses, with a few liverworts, algae and fungi.

The only land animals are tiny insects and mites with nematodes, rotifers and tardigrades in the mosses, but large numbers of seals, penguins and other sea-birds go ashore to breed in the summer. The emperor penguin is the only species that breeds ashore throughout the winter. By contrast, the Antarctic seas abound with life, a wide variety of invertebrates (including krill) and fish providing food for the seals, penguins and other birds, and a residual population of whales.

### POTENTIAL RESOURCES

Minerals may be present in great variety but not in commercially exploitable concentrations in accessible localities. There are indications that off-shore hydrocarbons may be present but mostly below great depths of stormy, ice-filled seas.

Currently, the chief interest is in marine protein, including the shrimp-like krill already fished commercially by Japan and Poland. It is estimated that

these could sustain a yield equal to the present total annual world fish catch.

### THE ANTARCTIC TREATY

The co-operative 12 nations (Argentina, Australia, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the Soviet Union, the UK and the USA) pledged themselves to promote scientific and technical co-operation unhampered by politics, and the Antarctic Treaty was signed by the 12 states in 1959. The signatories agreed to establish free use of the Antarctic continent for peaceful scientific purposes; to freeze all territorial claims and disputes in the Antarctic; to ban all military activities in the area; and to prohibit nuclear explosions and the disposal of radioactive waste. Since then additional agreements have been reached to promote conservation and regulate tourism, waste disposal and pollution.

The Antarctic Treaty was defined as covering areas south of latitude 60° S., excluding the high seas but including the ice shelves, and came into force in 1961. It has since been signed by a further 31 states, 14 of which are active in the Antarctic and have therefore been accorded consultative status, bringing the number of consultative parties to 26. In 1998 an extension to the treaty came into effect, placing a 50-year ban on mining, oil exploration and mineral extraction in Antarctica. Furthermore, all tourists, explorers and expeditions will now need permission to enter the Antarctic.

### TERRITORIAL CLAIMS

Under the provisions of the Antarctic Treaty all territorial claims and disputes were frozen. The US and Soviet governments also made it clear that although they had not made any specific territorial claims, they did not relinquish the right to make such claims.

Seven states have made claims in the Antarctic: Argentina claims the part of Antarctica between 74° W. and 25° W.; Chile that part between 90° W. and 53° W.; Britain claims the British Antarctic Territory, an area of 1,709,340 sq. km (660,000 sq. miles) between 20° and 80° W. longitude; France claims Terre Adélie, 432,000 sq. km (166,800 sq. miles) between 136° and 142° E.; Australia claims the Australian Antarctic Territory, 6,120,000 sq. km (2,320,000 sq. miles) between 160° and 45° E. longitude excluding Terre Adélie; Norway claims Queen Maud Land between 20° W. and 45° E.; and New Zealand claims the Ross Dependency, 450,000 sq. km (175,000 sq. miles) between 160° E. and 150° W. longitude. The Argentinian, British and Chilean claims overlap; the part of the continent between 90° W. and 150° W. is unclaimed by any state.

### SCIENTIFIC RESEARCH

There are some 26 nations with permanent research stations in Antarctica: Argentina (14), Australia (7), Brazil (1), Bulgaria (1), Chile (9), China (2), Ecuador (1), Finland (1), France (5), Germany (3), India (1), Italy (2), Japan (4), New Zealand (1), Norway (2), Peru (1), Poland (1), Republic of Korea (1), Russia (8), South Africa (4), Spain (2), Sweden (1), UK (5), Ukraine (1), Uruguay (1), USA (3).

While there are no indigenous inhabitants, during the summer (January) the population reaches around 3,500 people, mostly comprising of tourists, scientists and seasonal research workers.

## DEVELOPMENT

1950	Robert Schuman (French foreign minister) proposes that France and West Germany pool their coal and steel industries under a supranational authority (Schuman Plan)
1951	Paris Treaty signed by France, West Germany, Belgium, Italy, Luxembourg and the Netherlands, establishes the European Coal and Steel Community (ECSC)
1952	ECSC Treaty enters into force
1957	25 March: Treaty of Rome signed by the six ECSC member countries, establishes the European Economic Community (EEC) and the European Atomic Energy Authority (EURATOM). Treaty aims to create a customs union; remove obstacles to free movement of capital, goods, people and services; establish common external trade policy and common agricultural and fisheries policies; co-ordinate economic policies; harmonise social policies; promote co-operation in nuclear research
1958	1 January: EEC and EURATOM begin operation. Joint Parliament and Court of Justice established for all three communities, and the Commission, Council of Ministers, Economic and Social Committee and Investment Bank for the EEC established
1962	Common Agricultural Policy (CAP) agreed
1967	EEC, ECSC and EURATOM merge to form the European Communities (EC), with a single Council of Ministers and Commission
1968	EEC customs union completed Implementation of CAP completed
1974	Regular heads of governments summits begin
1975	'Own resources' funding of EC budget introduced UK renegotiates its terms of accession European Regional Development Fund created
1979	European Monetary System (EMS) comes into operation First direct elections to European Parliament (June)
1984	Fontainebleau summit settles UK annual budget rebate and agrees first major CAP reform
1986	Single European Act (SEA) signed European Political Co-operation (EPC) established
1988	Second major CAP reform
1991	Maastricht Treaty agreed
1992	31 December: Single internal market programme completed
1993	September: the exchange rate mechanism (ERM) of the EMS effectively suspended 1 November: The Maastricht Treaty enters into force, establishing the European Union (EU)
1994	1 January: European Economic Area (EEA) agreement comes into operation Norway rejects EU membership in referendum
1997	Amsterdam Treaty agreed
1998	11 states chosen to enter first round of European Monetary Union (EMU) European Central Bank replaces European Monetary Institute
1999	1 January: Euro launched March: 'Agenda 2000' financial and policy reform agreed 1 May: The Amsterdam Treaty enters into force

2000	9 December: Treaty of Nice agreed
2001	7 June: Ireland rejects Treaty of Nice in referendum
2002	1 January: Euro coins and banknotes enter circulation 23 July: ECSC Treaty expires following transfer of coal and steel sectors to the Treaty of Rome
2004	1 May: Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia become members of the European Union May: A draft EU constitution is discussed by the European Foreign ministers following the breakdown of discussion on the topic at the European Council summit in December 2003. 18 June: The European Constitution is finalised at the Brussels summit and it is agreed that the new constitution will be signed on 20 November 2004 in the Campidoglio Palace in Rome. It is scheduled to come into force in 2006.

## ENLARGEMENT AND EXTERNAL RELATIONS

The procedure for accession to the EU is laid down in the Treaty of Rome; states must be stable European democracies governed by the rule of law with free market economies. A membership application is studied by the Commission, which produces an Opinion. If the Opinion is positive, negotiations may be opened leading to an Accession Treaty which must be approved by all member state governments and parliaments, the European Parliament, and the applicant state's government and parliament.

*Recent applicants:* Morocco (applied 1987/rejected 1987), Turkey (applied 1987/negative Opinion 1989/offered accession partnership 1999), Cyprus (applied 1990/negotiations begun 1998), Malta (applied 1990/reapplied following a change of government 1998/negotiations begun 2000), Switzerland (applied 1992/application put on hold 1994), Hungary (applied 1994/negotiations begun 1998), Poland (applied 1994/negotiations begun 1998), Bulgaria (applied 1995/offered partnership 1998/negotiations begun 2000), Estonia (applied 1995/negotiations begun 1998), Latvia (applied 1995/offered partnership 1998/negotiations begun 2000), Lithuania (applied 1995/offered partnership 1998/negotiations begun 2000), Romania (applied 1995/offered partnership 1998/negotiations begun 2000), Slovakia (applied 1995/offered partnership 1998/negotiations begun 2000), the Czech Republic (applied 1996/negotiations begun 1998), Slovenia (applied 1996/negotiations begun 1998), Croatia (applied 2003).

Apart from the EEA Agreement, the EU has three types of agreements with other European and CIS states. 'Europe' agreements commit the EU and signatory states to long-term political and economic integration, a free trade zone (apart from agriculture and labour movement) and eventual EU membership. Government representatives from the signatory states are entitled to attend one summit and two finance and foreign council meetings a year. Agreements have been signed with Bulgaria (1993) and Romania (1993). Association agreements include a commitment to EU financial aid and to eventual membership; an agreement has been signed with Turkey (1963). Partnership and co-operation agreements (PCAs) are legal frameworks, based on the respect of democratic principles and human rights, setting

out the political, economic and trade relationship between the EU and its partner countries. Each PCA is a ten-year bilateral treaty signed and ratified by the EU and the individual state. Agreements have been implemented with Russia (1997), Ukraine (1998) and Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Moldova and Uzbekistan (1999). Agreements have been signed with Belarus (1995) and Turkmenistan (1998) but are not yet in force. At the PCA Council's St Petersburg summit in May 2003, it was decided to strengthen the existing co-operation council between Russia and the EU, to a Permanent Partnership Council (PPC). At the Council's first meeting on 27 April 2004 a protocol to the Partnership and Co-operation Agreement between the EU and the Russian Federation was signed, extending the agreement to the ten new Member States of the EU.

Agenda 2000, a document issued by the Commission in 1997, addressed both the challenges posed by further enlargement of the Union, the institutional reforms that would be required to enable the Union to function effectively with additional members, and also evaluated each applicant in relation to the accession criteria, establishing a new financial framework for the period 2000–6.

In March 1998, formal accession negotiations were begun with Hungary, Poland, Estonia, the Czech Republic, Slovenia and Cyprus; they were begun with Bulgaria, Romania, Latvia, Lithuania, Malta and Slovakia in 2000, following the Helsinki summit in December 1999, when it was also agreed that an accession partnership should be offered to Turkey.

The Göteborg summit in June 2001 agreed on a timetable for accession for the first group of countries to complete negotiations. At the Copenhagen summit in December 2002, Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia were invited to join the EU. The ten countries signed the Treaty of Accession in Athens on 16 April 2003 and became full members of the EU on 1 May 2004.

Following the findings of the European Commission's 2002 Regular Reports, accession plans for Bulgaria and Romania, which set 2007 as the target date for accession, were proposed. These plans were endorsed by the Copenhagen European Council in December 2002. In order for accession to take place in 2007, it was agreed by the Council that following the Commission's final recommendation on the readiness of the two countries for accession, a common Accession Treaty for Bulgaria and Romania should be signed by the end of 2005.

At the European Council meeting in Copenhagen in December 2002, the decision was made to recall the offer of an accession partnership to Turkey, following the Commission's conclusion that Turkey did not yet fully meet the required political criteria. The Commission was due to issue a report and recommendation by October 2004, on whether Turkey has fulfilled the Copenhagen political criteria. This is expected to influence the decision of the European Council, at its December 2004 meeting, on the possible opening of accession negotiations with Turkey.

## THE LEGISLATIVE PROCESS

The core of the EU policymaking process is a dialogue between the Commission, which initiates and implements policy, and the Council of Ministers, which takes policy decisions. An increasing degree of democratic control is exercised by the European Parliament.

The original legislative process is known as the consultative procedure. The Commission drafts a proposal which it submits to the Council and to the Parliament. The Council then consults the Economic and Social Committee (ESC), the Parliament and the Committee of the Regions; the Parliament may request that amendments are made. With or without these amendments, the proposal is then adopted by the Council and becomes law.

Under the Single European Act (SEA), the role of the Parliament was strengthened by the introduction of the co-operation procedure. The Parliament now has a second reading of proposals in some fields, and after the second reading its rejection of a proposal can only be overturned by a unanimous decision of the Council. The Maastricht Treaty extended the scope of the co-operation procedure, which was applied to Single Market laws and harmonisation, trans-European networks, development policy, the social fund, and some aspects of transport, environment, research, social policy and competition policy.

The SEA introduced the assent procedure, whereby an absolute majority of the Parliament must vote to approve laws in certain fields before they are passed. Issues covered by the assent procedure include foreign treaties, accession treaties, international agreements with budgetary implications, citizenship, residence rights, the CAP, and regional and structural funds.

The Maastricht Treaty introduced the co-decision procedure; if, after the Parliament's second reading of a proposal, the Council and Parliament fail to agree, a conciliation committee of the two will reach a compromise. If a compromise is not reached, the Parliament can reject the legislation by the vote of an absolute majority of its members. The Amsterdam Treaty extended the co-decision procedure to all areas covered by qualified majority voting, with the exception of measures related to European Monetary Union (EMU).

The Council issues the following legislation:

- Regulations, which are binding in their entirety and directly applicable to all member states; they do not need to be incorporated into national law to come into effect
- Directives, which are less specific, binding as to the result to be achieved but leaving the method of implementation open to member states; a directive thus has no force until it is incorporated into national law
- Decisions, which are also binding but are addressed solely to one or more member states or individuals in a member state
- Recommendations
- Opinions, which are merely persuasive

The Council also has certain budgetary powers, including the power to reject the budget as a whole and to increase expenditure or redistribute money within sectors. However, the final decision on whether the budget should be adopted or rejected lies with the Parliament.

The Council may delegate legislative powers to the Commission. These consist of implementing powers and technical updating of existing legislation.

The European Central Bank has legislative powers within its field of competence. The Commission also has limited legislative powers, where it has been delegated the power to implement or revise legislation by the Council.

## THE COMMUNITY BUDGET

The principles of funding the European Community budget were established by the Treaty of Rome and

remain with modifications to this day. There is a legally binding limit on the overall level of resources (known as 'own resources') that the Community can raise from its member states; this limit is defined as a percentage of gross national product (GNP). Budget revenue and expenditure must balance and there is therefore no deficit financing. The 'own resources' decision, which came into effect in 1975 and has been regularly updated, states that there are four sources of Community funding under which each member state makes contributions: levies charged on agricultural imports into the Community from non-member states; customs duties on imports from non-member states; contributions based on member states' shares of a notional Community harmonised VAT base; and contributions based on member states' shares of Community GNP. The latter is the budget-balancing item and covers the difference between total expenditure and the revenue from the other three sources. Since 1984 the UK has had an annual rebate equivalent to 66 per cent of the difference between what the UK contributes to the budget and what it receives. This was introduced to compensate the UK for disproportionate contributions caused by its high proportion of agricultural and non-agricultural imports from non-member states and its relatively small receipts from the Common Agricultural Policy, the most important portion of Community expenditure.

#### BUDGET 2004

	Million euro*
Agriculture	46.8
Structural Operations	41.0
External Action	5.2
Pre-accession Strategy	1.7
Internal policies	8.7
Administration	6.0
Compensation	1.4
Reserves	0.4
TOTAL	111.2

Source: General Budget of the European Union for the Financial Year 2004

\* 1 euro = £0.656 as at 17 June 2004

Under the Edinburgh summit agreement (December 1992) the EC budget rose to a maximum of 1.27 per cent of the EU's GNP in 1999. The agreed budget for 2000–6 will keep the 1.27 per cent ceiling, but resources devoted to the existing member states will fall to 0.98 per cent, with the remaining resources devoted to enlargement.

## THE COMMON AGRICULTURAL POLICY

The Common Agricultural Policy (CAP) was established to increase agricultural production, provide a fair standard of living for farmers and ensure the availability of food at reasonable prices. This aim was achieved by a number of mechanisms:

- import levies
- intervention purchase
- export subsidies

These measures stimulated production but also placed increasing demands on the EC budget which were exacerbated by the increase in EC members and yields enlarged by technological innovation; CAP now accounts for over 40 per cent of EC expenditure. To surmount

these problems reforms were agreed in 1984, 1988, 1992, 1997, 1999 and 2003.

### REFORMS

The 1984 reforms created the system of co-responsibility levies: farm payments to the EC by volume of product sold. This system was supplemented by national quotas for particular products, such as milk. The 1988 reforms emphasised 'set-aside', whereby farmers are given direct grants to take land out of production as a means of reducing surpluses. The set-aside reforms were extended in 1993 for another five years and to every farm in the EC. The 1999 reforms will further reduce surpluses of cereals, beef and milk by cutting the intervention prices by up to 20 per cent and compensating producers by making area payments. Under the reforms, CAP rules will also be simplified, eliminating inconsistencies between policies.

Under the Uruguay round agreement of GATT concluded in 1993, the EU was required, over a six-year period from 1 January 1995, to reduce its import levies by 36 per cent, reduce its domestic subsidies by 20 per cent, reduce its export subsidies by 36 per cent in value, and reduce its subsidised exports by 21 per cent in volume. Agenda 2000, the programme to overhaul the policies of the EU and prepare it for the accession of new member states, will temporarily increase the cost of the CAP by €1,000 million a year in compensation payments, but leave it broadly stable by the end of the current planning period in 2006.

On 26 June 2003, EU farm ministers adopted a fundamental reform of the CAP, which include the following provisions:

- a single farm payment for EU farmers, independent from production
- payment to be linked to the respect of environmental, food safety, animal and plant health and animal welfare standards, and the requirement to keep all farmland in good condition
- a strengthened rural development policy with more EU money to help farmers meet EU production standards starting in 2005
- a reduction in direct payments for bigger farms
- a mechanism for financial discipline to ensure that the farm budget fixed until 2013 is not exceeded

The single farm payment will enter into force in 2005, however, if a member state needs a transitional period due to its specific agricultural conditions, it may apply the single farm payment from 2007 at the latest. The 10 new EU members were also given access to a special €5.8 billion three-year funding package.

## THE SINGLE MARKET

Even after the removal of tariffs and quotas between member states in the 1970s and 1980s, the EC was still separated into a number of national markets by a series of non-tariff barriers. It was to overcome these internal barriers to trade that the concept of the Single Market was developed. The measures to be undertaken were codified in the Commission's 1985 White Paper on completing the internal market.

The White Paper included articles removing obstacles that distorted the internal market: the elimination of frontier controls; the mutual recognition of professional qualifications; the harmonisation of product specifications, largely by the mutual recognition of national standards; open tendering for public procurement contracts; the free movement of capital; the harmonisation

of VAT and excise duties; and the reduction of state aid to particular industries. The target date for the completion of this process was 31 December 1992. The Single European Act aided the completion of the Single Market by changing the legislative process within the EC, particularly with the introduction of qualified majority voting in the Council of Ministers for some policy areas, and the introduction of the assent procedure in the European Parliament. The SEA also extends EC competence into the fields of technology, the environment, regional policy, monetary policy and external policy. The Single Market came into effect on 1 January 1993. The full implementation of the elimination of frontier controls and the harmonisation of taxes have, however, been repeatedly delayed.

## THE EUROPEAN ECONOMIC AREA

The EC Single Market programme spurred European non-member states to open negotiations with the EC on preferential access for their goods, services, labour and capital to the Single Market. Principal among these states were European Free Trade Association (EFTA) members who opened negotiations on extending the Single Market to EFTA by the formation of the European Economic Area (EEA) encompassing all 19 EC and EFTA states. Agreement was reached in May 1992 but the operation of the EEA was delayed by its rejection in a Swiss referendum, necessitating an additional protocol agreed by the remaining 18 states. The EEA came into effect on 1 January 1994 after ratification by 17 member states (Liechtenstein joined on 1 May 1995 after adapting its customs union with Switzerland).

Austria, Finland and Sweden joined the EU itself on 1 January 1995, leaving only Norway, Iceland and Liechtenstein as the non-EU EEA members. Under the EEA agreement, the three states are to adopt the EU's *acquis communautaire*, apart from in the fields of agriculture, fisheries, and coal and steel.

The EEA is controlled by regular ministerial meetings and by a joint EU-EFTA committee which extends relevant EU legislation to EEA states. Apart from single market measures, there is co-operation in education, research and development, consumer policy and tourism. An EFTA Court of Justice has been established in Luxembourg and an EFTA Surveillance Authority in Brussels to supervise the implementation of the EEA Agreement.

## THE EUROPEAN MONETARY SYSTEM AND THE SINGLE CURRENCY

The European monetary system (EMS) began operation in March 1979 with three main purposes. The first was to establish monetary stability in Europe, initially in exchange rates between EC member state currencies through the exchange rate mechanism (ERM), and in the longer term to be part of a wider stabilisation process, overcoming inflation and budget and trade deficits. The second purpose was to overcome the constraints resulting from the interdependence of EC economies, and the third was to aid the long-term process of European monetary integration.

The Maastricht Treaty set in motion timetables for achieving economic and monetary union (EMU) and a single currency (the euro). At the Brussels summit in May 1998, 11 member states were judged to fulfil or be close

to fulfilling the necessary convergence criteria for participation in the first stage of EMU: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain.

The criteria were that:

- the budget deficit should be 3 per cent or less of gross domestic product (GDP)
- total national debt must not exceed 60 per cent of GDP
- inflation should be no more than 1.5 per cent above the average rate of the three best performing economies in the EU
- long-term interest rates should be no more than 2 per cent above the average of the three best performing economies in the EU in the previous 12 months
- applicants must have been members of the ERM for two years without having realigned or devalued their currency

Under the terms of a stability and growth pact agreed in Dublin in December 1996, penalties may be imposed on EMU members with high budget deficits. Governments with deficits exceeding 3 per cent of GDP will receive a warning and will be obliged to pay up to 0.5 per cent of their GDP into a fund after ten months. This will become a fine if the budget deficit is not rectified within two years. A member state with negative growth will be allowed to apply for an exemption from the fine in 'exceptional circumstances', e.g. a recession whereby GDP had fallen by 0.75 per cent or more during one year.

On 1 January 1999, the qualifying member states adopted the euro at irrevocably fixed exchange rates, the European Central Bank (ECB) took charge of the single monetary policy, and the euro replaced the ECU on a one-for-one basis.

On 19 June 2000, Greece was judged to have fulfilled the criteria for participation and adopted the euro on 1 January 2001. A referendum on the adoption of the euro was held in Denmark on 28 September 2000, but participation was rejected by the electorate.

The euro is now the legal currency in the participating states. Euro notes and coins were introduced on 1 January 2002 and circulated alongside national currencies for a period of up to two months, after which time national notes and coins ceased to be legal tender. The Swedish government held a referendum on adoption of the euro on 14 September 2003, in which 56 per cent voted against adopting the euro. On 10 June 2003 Britain announced that the euro would not be adopted at present on the grounds that the country was not economically ready to join the single currency. A future joining of the euro-zone was not ruled out. The 10 new EU member states are expected to adopt the euro when the necessary economic conditions have been met.

The ECB meets every two weeks to set interest rates for the countries participating in the euro. Its governing council has 17 members, being the six members of the ECB's executive board and the 12 governors of the national central banks of the participating states.

With the advent of EMU, the ERM was revised and Denmark became a member of ERM II, which requires it to maintain its currencies within set margins of the euro. Membership of ERM II is voluntary, although all member states outside the euro zone are encouraged to take part. Sweden and the UK are currently not members.

## THE MAASTRICHT TREATY

The Treaty on European Union was agreed at a meeting of the European Council in Maastricht, the Netherlands, in

December 1991. It came into effect in November 1993 following ratification by the member states.

Three 'pillars' formed the basis of the new treaty:

- the European Community with its established institutions and decision-making processes
- a Common Foreign and Security Policy (*see below*) with the Western European Union as the potential defence component of the EU
- co-operation in justice and home affairs, with the Council of Ministers to co-ordinate policies on asylum, immigration, conditions of entry, cross-border crime, drug trafficking and terrorism

The Treaty established a common European citizenship for nationals of all member states and introduced the principle of subsidiarity whereby decisions are taken at the most appropriate level: national, regional or local. It extended EC competency into the areas of environmental and industrial policies, consumer affairs, health, and education and training, and extended qualified majority voting in the Council of Ministers to some areas which had previously required a unanimous vote. The powers of the European Parliament over the budget and over the Commission were also enhanced and a co-decision procedure enabled the Parliament to override decisions made by the Council of Ministers in certain policy areas. A separate protocol to the Maastricht Treaty on social policy was agreed by 11 states and was incorporated into the Amsterdam Treaty in 1997 following adoption by the UK.

## COMMON FOREIGN AND SECURITY POLICY

The Common Foreign and Security Policy (CFSP) was created as a pillar of the EU by the Maastricht Treaty (*see above*). It adopted the machinery of the European Political Co-operation (EPC) framework which it replaced and was charged with providing a forum for member states and EU institutions to consult on foreign affairs.

The CFSP system is headed by the Council of the European Union, which provides general lines of policy. Specific policy decisions are taken by the Council of Foreign Ministers, which meets at least four times a year to determine areas for joint action. The High Representative of the CFSP initiates action, manages the CFSP and represents it abroad. The Council of Ministers is supported by the Political Committee which meets monthly, or within 48 hours if there is a crisis, to prepare for ministerial discussions. A group of correspondents, designated diplomats in each member's foreign ministry, provides day-to-day contact.

The Amsterdam Treaty introduced qualified majority voting for foreign affairs and created a high representative on CFSP to act as a spokesperson. It also established a new policy planning and early warning unit to monitor international developments. The unit is to consist of specialists from the member states, the Council and the Commission, as well as from the Western European Union (WEU).

The member states agreed at the Helsinki summit in December 1999 to establish a capability for military crisis-management operations, known as the rapid reaction force, which would be able to undertake peacemaking missions independently of NATO. The force was declared operational at the Laeken summit on 14–15 December 2001.

## THE AMSTERDAM TREATY

The treaties of Rome and Maastricht were again amended through the Treaty of Amsterdam, which was signed in October 1997 and which came into effect on 1 May 1999. It extends the scope of qualified majority voting and the powers of the European Parliament. It also includes a formal commitment to fundamental human rights, gives additional powers to the European Court of Justice and provides for the appointment of a High Representative for EU Common Foreign and Security Policy.

## THE SCHENGEN AGREEMENT

The Schengen Agreement was signed by France, Germany, Belgium, Luxembourg and the Netherlands in 1985. The Agreement committed the five states to abolishing internal border controls, erecting external frontiers against illegal immigrants, drug traffickers, terrorists and organised crime, and implementing the Schengen Information System to enable police stations and consular agents from Schengen member states to access data on specific individuals or vehicles and objects which are lost or stolen.

Subsequently signed by Spain and Portugal, the Agreement was ratified by the seven signatory states and entered into force in March 1995 with the removal of internal frontier, passport, customs and immigration controls. Italy and Austria became full members in April 1998 and Greece achieved full membership on 1 January 2000. Provisional agreement was reached in June 1995 between the signatory states and the Nordic Union on a merger of the two frontier-free zones – Denmark, Finland and Sweden joined in December 1996 and in March 2001 it was decided that the Schengen arrangements would also apply to Iceland and Norway. The ten member states who became members of the EU on 1 May 2004, do not yet form part of the Schengen zone but are timetabled to become full members of the zone by 2006. The UK and the Republic of Ireland have not signed the Agreement, but have expressed their intention to join in some aspects of its work.

The Schengen Agreement originated as an intergovernmental agreement but became part of the EU following the signing of the Amsterdam Treaty. A second generation Schengen Information System (SIS II) is planned for development.

## THE TREATY OF NICE

The Treaty of Nice aims to enable the EU to accommodate up to 13 new member states. It extends qualified majority voting to 30 further articles of the treaties that previously required unanimity. The weighting of votes in the EU Council is to be altered from 1 January 2005 in preparation for the new member states, whose numbers of votes have been set. To obtain a qualified majority, a decision will require a specified number of votes (to be reviewed following each accession); the decision will have to be approved by a majority of member states and represent at least 62 per cent of the total population of the EU. The Treaty also sets the number of MEPs that both existing and new member states will have following enlargement.

The Treaty of Maastricht established the right of groups of member states to work together without requiring the participation of all members (enhanced

co-operation); the Treaty of Nice removes the right of individual member states to veto the launch of enhanced co-operation and establishes a minimum number of eight member states for enhanced co-operation in the field of common foreign and security policy (CFSP).

The European Commission will be limited to one member per member state from 2005, with a maximum of 27 commissioners; a rotation system is to be introduced once EU membership exceeds 27 states.

The Treaty also adds to the powers of the President of the Commission and amends the rules of the operation of the Court of Justice.

The Treaty was rejected by 54 per cent of voters in a referendum in Ireland, the only country to put the issue to its electorate.

## THE LAEKEN SUMMIT

At the European Council held in Laeken, Belgium on 14–15 December 2001, a declaration was agreed which established a convention to prepare for treaty reforms at the intergovernmental conference which was held on 17–18 July 2004. The convention, composed of representatives from national governments (15 members), national parliaments (30), the European Parliament (16), the European Commission (2) and the applicant states (39), started work on 28 February 2002, under the chairmanship of former French president Valérie Giscard d'Estaing.

At the Intergovernmental Conference in July 2004, the Council produced a provisional consolidated version of the draft treaty establishing a Constitution for Europe. The treaty will replace the existing EU and EC treaties. It was expected to be signed by the Heads of State in October/November 2004. The European Constitution will only enter into force once it has been ratified by all the Member States.

The Laeken European Council also agreed a common definition of terrorism, decided to institute an EU-wide arrest warrant, creating a single security area and thereby making it no longer necessary to extradite those accused of serious crimes, and established Eurojust to co-ordinate cross-border co-operation in crime investigation.

## THE COUNCIL OF THE EUROPEAN UNION

Wetstraat 175, B-1048 Brussels, Belgium

The Council of the European Union (Council of Ministers) formally comprises the foreign ministers of the member states but in practice the ministers attending depend on the subject under discussion. Council decisions are taken by qualified majority vote (in which members' votes are weighted), by a simple majority, or by unanimity. The Council is assisted by a General Secretariat, whose head has since 1999 been the High Representative for the Common Foreign and Security Policy.

Unanimity votes are taken on sensitive issues such as taxation and constitutional matters; in preparation for an expanded Union, the Amsterdam Treaty extended areas where qualified majority votes may be taken, to areas such as Single Market laws and harmonisation, environment policy, health and safety, transport policy, overseas aid, research and development, culture, consumer protection, education and training, the development of a single currency and some aspects of social policy. Member states have weighted votes in the Council loosely proportional to their relative population sizes (see introductory table),

with a total of 321 votes. The acts of the Council can take the form of regulations, directives, decisions, common actions or common positions, recommendations or opinions. The Council can also adopt conclusions, declarations or resolutions. The number of votes each member state can cast is set by Treaties. The Treaties also define cases in which a simple majority, qualified majority or unanimity are required. From 1 November 2004, a qualified majority will be reached if the following two conditions are met:

- if a majority of member states approve (in some cases a two-thirds majority)
- a minimum of 232 votes is cast in favour of the proposal, i.e. 72.3 per cent of the total (roughly the same share as under the previous system)

In addition, a member state may ask for confirmation that the votes in favour represent at least 62 per cent of the total population of the Union. If this is found not to be the case, the decision will not be adopted.

The Treaty of Nice, which was agreed on 7–9 December 2000 and signed on 26 February 2001, agreed amendments to the treaties in relation to the size and composition of the European Commission, the weighting of votes and the extension of qualified majority voting in the Council of Ministers and other issues relating to the Treaty of Amsterdam. The extension of qualified majority voting to external border controls, the EU budget, the composition of the European Courts and certain committees, visa rules and, by 2007, structural funds, was also agreed.

The European Council, comprising the heads of state or government of the member states and the President of the European Commission, meets twice a year to provide overall policy direction. The presidency of the EC is held in rotation for six-month periods, setting the agenda for and chairing all Council meetings. The European Council holds a summit in the country holding the presidency at the end of its period in office. The holders of the presidency for the years 2004–5 are:

2004 Ireland, Netherlands  
2005 Luxembourg, UK

*Ambassador and UK Permanent Representative, John Grant, CMG, apptd 2000*

## THE EUROPEAN COMMISSION

Wetstraat 200, B-1049 Brussels, Belgium

Until 1 January 2005 the Commission consists of 25 Commissioners, two each from France, Germany, Italy, Spain and the UK, and one each from the remaining member states. As of 1 January 2005, and until the EU has 27 members, there will be one Commissioner per country. The members of the Commission are appointed for five-year renewable terms by the agreement of the member states; the terms run concurrently with the terms of the

European Parliament. The President and the other Commissioners are nominated by the governments of the member states, and, under the terms of the Nice Treaty, the appointments are approved by the European Parliament. The Commissioners pledge sole allegiance to the EC. The Commission initiates and implements EC legislation and is the guardian of the EC treaties. It is the exponent of Community-wide interests rather than the national preoccupations of the Council. Each Commissioner is supported by advisers and oversees whichever of the departments, known as Directorates-General (DGs), is assigned to him. Each Directorate-General is headed by a Director-General.

President José Durão Barroso was nominated by the governments of the member states on 28 June 2004 and the European Parliament confirmed his appointment with a secret ballot vote on 22 July 2004. He announced his new commission in August and officially took up the post in November 2004.

The Commission has a total staff of around 16,000 permanent civil servants.

#### COMMISSIONERS as at August 2004

*President*, José Manuel Barroso (Portugal)

*Vice-President, Enterprise and Industry*, Günter Verheugen (Germany)

*Vice-President, Institutional Relations and Communication Strategy*, Margot Wallström (Sweden)

*Vice-President, Justice, Freedom and Security*, Rocco Buttiglione (Italy)

*Vice-President, Transport*, Jacques Barrot (France)

*Administrative Affairs, Audit and Anti-Fraud*, Siim Kallas (Estonia)

*Agriculture and Rural Development*, Marian Fischer Boel (Denmark)

*Competition*, Neelie Kroes-Smit (Netherlands)

*Development and Humanitarian Aid*, Louis Michel (Belgium)

*Economic and Monetary Affairs*, Joaquín Almunia (Spain)

*Education, Training, Culture and Multilingualism*, Ján Figel (Slovakia)

*Employment, Social Affairs and Equal Opportunities*, Vladimír Špidla (Czech Republic)

*Energy*, László Kovács (Hungary)

*Enlargement*, Olli Rehn (Finland)

*External Relations and European Neighbourhood Policy*, Benita Ferrero-Waldner (Austria)

*Financial Programming and Budget*, Dalia Grybauskaitė (Lithuania)

*Fisheries and Maritime Affairs*, Joe Borg (Malta)

*Health and Consumers Protection*, Markos Kyprianou (Cyprus)

*Information Society and Media*, Viviane Reding (Luxembourg)

*Internal Market and Services*, Charlie McCreevy (Ireland)

*Regional Policy*, Danuta Hübner (Poland)

*Science and Research*, Janez Potočnik (Slovenia)

*Taxation and Customs Union*, Ingrida Udre (Latvia)

*Trade*, Peter Mandelson (UK)

## THE EUROPEAN PARLIAMENT

E.civis@europarl.eu.int W www.europarl.eu.int

The European Parliament (EP) originated as the Common Assembly of the ECSC; it acquired its present name in 1962. Members (MEPs) were initially appointed from the membership of national parliaments; direct elections to the Parliament were first held in 1979 and take place at five-year intervals. Elections to the Parliament are held on differing bases throughout the EC; in June 1999, British MEPs were elected for the first time by a 'regional list' system of proportional representation. The Parliament comprises 732 seats. The most recent elections were held in June 2004 and the next elections are to be held in June 2009. MEPs serve on committees which scrutinise draft EC legislation and the activities of the Commission. A minimum of 12 plenary sessions a year are held in Strasbourg and six additional shorter plenary sessions a year are held in Brussels, committees meet in Brussels, and the Secretariat's headquarters is in Luxembourg.

The EP has gradually expanded its influence within the EU through the Single European Act, which introduced the co-operation procedure, the Maastricht Treaty, which extended the co-operation procedure and introduced the co-decision procedure (see Legislative Process), and the Amsterdam Treaty, which effectively extended co-decision to all areas except economic and monetary union. It has general powers of supervision over the Commission, and consultation and co-decision with the Council; it votes to approve a newly appointed Commission and can dismiss it at any time by a two-thirds majority (as it threatened to do in January 1999). Under the Maastricht Treaty it has the right to be consulted on the appointment of the new Commission and can veto its appointment. It can reject the EU budget as a whole, alter non-compulsory expenditure not specified in the EU primary legislation, and can question the Commission's management of the budget and call in the Court of Auditors. Although the EP cannot directly initiate legislation, its reports can spur the Commission into action. In accordance with the Maastricht Treaty the EP appointed an ombudsman in October 1995, to provide citizens with redress against maladministration by EU institutions.

The Parliament's organisation is deliberately biased in favour of multinational political groupings, recognition of a political grouping in the parliament entitling it to offices, funding, representation on committees and influence in debates and legislation. A political grouping must comprise members from more than one member state; a grouping with members from two countries needs 23 members for recognition, a grouping with members from three countries needs 18 members, and a grouping with members from four or more countries needs only 14 members.

**THE COMMITTEE OF THE REGIONS**

Rue Montoyer 92–102, B-1000 Brussels, Belgium  
 E info@cor.eu.int W www.cor.eu.int

The Committee of the Regions (CoR) is the political assembly which provides local and regional authorities with a voice within the European Union. The EU Treaties oblige the European Commission and Council of Ministers to consult the Committee of the Regions whenever new proposals are made in areas which have repercussions at regional or local level. The CoR issues opinions on proposals for EU laws, which directly affect local and regional authorities. It can also draw up opinions on its own initiative, which enables it to put issues on the EU agenda.

The Committee has 317 full members and the same number of alternate members. They are proposed by the Member States to the Council of Ministers, which appoints them for a four-year renewable term of office. Members must hold a regional or local authority electoral mandate or be politically accountable to an elected assembly. They participate in the work of six specialist commissions which are responsible for drafting the CoR's opinions, for example on economic and social cohesion, trans-European infrastructure networks, social policy, the environment and vocational training.

*President, Peter Straub*

*Secretary-General, Gerhard Stahl*

**COURT OF FIRST INSTANCE**

Palais de la Cour de justice, Boulevard Konrad Adenauer, Kirchberg, L-2925 Luxembourg

Established under powers conferred by the Single European Act, the Court of First Instance has jurisdiction to hear and determine all actions brought by natural or legal persons. It is composed of 25 judges, appointed for renewable six-year terms by the governments of the member states. During 2003, 466 new cases were lodged at the court and 339 cases were concluded.

*President, B. Vesterdorf*

**COURT OF JUSTICE OF THE EUROPEAN COMMUNITIES**

Palais de la Cour de justice, Boulevard Konrad Adenauer, Kirchberg, L-2925 Luxembourg  
 E info@curia.eu.int W www.curia.eu.int

The Court of Justice is common to the two European Communities. It exists to safeguard the law in the interpretation and application of the Community treaties, to decide on the legality of decisions of the Council of Ministers or the Commission, and to determine infringements of the treaties. Cases may be brought to it by the member states, the Community institutions, firms or individuals. Its decisions are directly binding in the member countries, and the Maastricht Treaty enhanced the Court's powers by permitting it to impose fines on member states. The 25 judges and eight advocates general of the Court are appointed for renewable six-year terms by the member governments in concert. During 2003, 561 new cases were lodged at the court and 494 cases were concluded.

*President, V. Skouris*

*First Advocate-General, A. Tizzano*

**THE EUROPEAN CENTRAL BANK**

29 Kaiserstrasse, D-60311 Frankfurt-am-Main, Germany  
 E info@ecb.int W www.ecb.int

The European Central Bank (ECB), which superseded the European Monetary Institute, was established on 1 July 1998. Its governing bodies are the Executive Board, the Governing Council and the General Council. The Executive Board consists of the President, the Vice-President and four other members, who are appointed by the governments of the states participating in the single currency, at the level of Heads of State and Government. The Governing Council comprises the six members of the Executive Board and the governors of the national central banks of the participating states; the General Council comprises the President and Vice-President and the 25 governors of the national central banks, the other members of the Executive Board being entitled to participate but not to vote. The ECB is independent of national governments and of all other EU institutions. It became fully operational on 1 January 1999, and defines and implements the single monetary policy necessary for EMU. It operates as part of the European System of Central Banks (ESCB), which consists of the ECB and the national central banks of the EU member states.

*President, Jean-Claude Trichet (France)*

*Vice-President, Lucas Papademos (Greece)*

**THE EUROPEAN COURT OF AUDITORS**

12 rue Alcide De Gasperi, L-1615 Luxembourg  
 E euraud@eca.eu.int W www.eca.eu.int

The European Court of Auditors, established in 1977, examines the accounts of all revenue and expenditure of the European Communities and Community bodies and evaluates whether all revenue has been received and all expenditure incurred in a lawful and regular manner and in accordance with the principles of sound financial management. The Court issues an annual report and a statement of assurance as to the reliability of the accounts and the legality and regularity of the underlying transactions. It also publishes special reports on specific topics and delivers opinions on financial matters. The Court has one member from each member state appointed for a six-year term by the Council of Ministers following consultation with the European Parliament.

*President, Juan Manuel Fabra Vallés (Spain)*

**THE EUROPEAN ECONOMIC AND SOCIAL COMMITTEE**

Rue Belliard 97/113, B-1000 Brussels, Belgium  
 W www.esc.eu.int

The European Economic and Social Committee (EESC) is an advisory and consultative body. As of June 2004, it has 317 members appointed by the governments of 25 member states, and is divided into three groups: employers, workers, and other interest groups such as consumers, farmers and the self-employed. It issues opinions on draft EC legislation and can bring matters to the attention of the Commission, Council and Parliament. The EESC's competencies have increased as a result of revisions to the Treaty of Rome, and the Treaty Nice formally recognised the importance of the opinions of the EU's economic and social partners.

*President, Roger Briesch (France)*

## THE EUROPEAN ENVIRONMENT AGENCY

Kongens Nytorv 6, DK-1050 Copenhagen K, Denmark  
T (+45) 3336 7100 F (+45) 3336 7199  
E eea@eea.eu.int W org.eea.eu.int

The European Environment Agency (EEA) aims to support sustainable development and to help achieve significant and measurable improvement in Europe's environment, through the provision of information to policy-making agents and the public. The EEA has been operational since 1994. It is a European Union body but is open to non-EU countries that share its objectives. Following the accession of the 10 new European member states in June 2004, it has 31 members.

*Executive Director*, Ms Jacqueline McGlade

## THE EUROPEAN INVESTMENT BANK

100 boulevard Konrad Adenauer, L-2950 Luxembourg  
E info@eib.org W www.eib.org

The European Investment Bank (EIB) was set up in 1958 under the terms of the Treaty of Rome to finance capital investment projects promoting the balanced development of the European Community by providing loans for capital investment projects furthering EU policy objectives, in fields such as regional development, transport and communications, security of energy supplies, the environment, international competitiveness, support for small and medium-sized enterprises, health and education investment, and investment to encourage a knowledge-based economy.

Outside the EU, the EIB participates in the implementation of the EU's development policy, through long-term loans from its own resources or subordinated loans and risk capital from EU or member states' budgetary funds, in some 150 non-EU countries: in pre-accession countries and, under the terms of different association or co-operation agreements, with countries in the Mediterranean region, in the Balkans, in Latin America, Asia and South Africa, in Africa, the Caribbean and the Pacific.

The Bank's total financing operations in 2003 amounted to €42.3 billion, of which €34.2 billion was for investment within the EU.

In June 2000, the EIB launched the Innovation 2000 Initiative (i2i). At end 2003, the EIB Group had fully achieved its i2i objectives: in the period 2000-3, the EIB Group signed over 350 operations totalling €19.5 billion (€17 billion EIB plus €2.5 billion EIF). By the end of 2003 the i2i programme had completed the three-year term initially fixed by the Bank's Board of Directors, and the objective set under the 'Lisbon Strategy' was reaffirmed by various European Councils, resulting in a prolongation of the i2i programme until 2010.

The shareholders of the EIB are the 25 member states of the EU, who have all subscribed to the Bank's capital of €163.7 billion. The bulk of the funds required by the Bank to carry out its tasks are borrowed on the capital markets of the EU and non-member countries, and on the international market.

As it operates on a non-profit-making basis, the interest rates charged by the EIB reflect the cost of the Bank's borrowings and closely follow conditions in world capital markets.

The Board of Governors of the EIB consists of one government minister nominated by each of the member countries, usually the finance, economic affairs or treasury

minister, who lay down general directives on the credit policy of the Bank and appoint members to the Board of Directors (24 nominated by the member states, one by the European Commission), which takes decisions on the granting and raising of loans and the fixing of interest rates. A Management Committee, composed of the Bank's President and seven Vice-Presidents, also appointed by the Board of Governors, is responsible for the day-to-day operations of the Bank. The President and Vice-Presidents also preside as Chairmen and Vice-Chairmen at meetings of the Board of Directors.

*President*, Philippe Maystadt (Belgium)

## THE EUROPEAN POLICE OFFICE

PO Box 90850, NL-2509 LW The Hague, The Netherlands  
E info@europol.eu.int W www.europol.eu.int

The European Police Office (Europol) came into being on 1 October 1998 and assumed its full powers on 1 July 1999. It superseded the Europol Drugs Unit and exists to improve police co-operation between member states and to combat terrorism, illicit traffic in drugs and other serious forms of international crime. It is ultimately responsible to the Council. Each member state has set up a national unit to liaise with Europol, and the units send at least one liaison officer to represent its interests at Europol headquarters. Europol maintains a computerised information system, designed to facilitate the exchange of information between member states; the system is maintained by the national units and may be consulted by Europol agents. The computerised database may contain both personal and non-personal data; individuals are entitled to request access to data concerning themselves. Europol has a Management Board comprising one senior police representative from each member state. All Europol activities are monitored by an independent joint supervisory body to ensure the rights of the individual are upheld.

*Director*, Jürgen Storbeck (Germany)

# INTERNATIONAL ORGANISATIONS

## ANDEAN COMMUNITY

General Secretariat, Paseo de la Republica 3895, esq. Aramburs, San Isidro, Lima 27, Peru

T (+51) (1) 411 1400 F (+51) (1) 221 3329

E [contacto@comunidadandina.org](mailto:contacto@comunidadandina.org)

W [www.comunidadandina.org](http://www.comunidadandina.org)

The Andean Community came into being on 1 August 1997. It comprises five member states (Bolivia, Colombia, Ecuador, Peru and Venezuela) as well as the bodies of the Andean Integrated System (AIS). The Andean Community facilitates the development of the member countries through economic and social integration and co-operation, acceleration of the economic growth of the Andean countries, the promotion of job creation, furthering the aim of creating a Latin American common market, strengthening the position of the member states in the international economic context, and reducing the differences in development that exist between the member states.

It aims to achieve its objectives by a programme of complete trade liberalisation, a common external tariff, the reduction of border controls, the progressive harmonisation of economic and social policies, the co-ordination of national legislation in relevant fields, promoting industrialisation and agricultural development, and supporting technological development programmes.

The General Secretariat of the Andean Community is the executive body, which is responsible for administration, ensuring that member states comply with their obligations and resolving disputes. The General Secretariat operates under the direction of the Secretary-General, who is elected by the Andean Council of Foreign Ministers (ACFM). The General Secretariat can propose decisions or suggestions to the ACFM and to the Commission. It also manages the integration process, ensures that Community commitments are fulfilled, and maintains relations with the member countries and the executive bodies of other international organisations.

The Andean Presidential Council is the highest-level body of the AIS and comprises the presidents of the member states; it meets at least once a year and decides on new policies, evaluates the integration process and makes decisions on reports and suggestions from other bodies. The chairmanship is rotated among the members of the council on a calendar year basis. The ACFM co-ordinates the positions of the member states in international issues, signs international agreements on behalf of its member states and can issue decisions that are legally binding in the member states. The Commission of the Andean Community is composed of a plenipotentiary representative from each member state and makes, implements and evaluates policies in the field of trade and investment in the region. The Court of Justice of the Andean Community comprises one judge from each member state. It ensures the uniform implementation of decisions and settles disputes. The Andean Development Corporation aims to support the sustainable development of the member states by promoting trade and investment. The Andean Parliament became directly elected in 2003.

*Secretary-General, Allan Wagner Tizon*

## ARAB MAGHREB UNION

14 Rue Zalagh, Agdal, Rabat, Morocco

T (+212) (376) 71274 F (+212) (376) 71253

E [sg.uma@maghrebarabe.org](mailto:sg.uma@maghrebarabe.org)

W [www.maghrebarabe.org](http://www.maghrebarabe.org)

The treaty establishing the Arab Maghreb Union (AMU) was signed on 17 February 1989 by the heads of state of the five member states, Algeria, Libya, Mauritania, Morocco and Tunisia. The AMU aims to strengthen ties between the member states, who share strong historical, cultural and linguistic affinities, by developing agriculture and commerce, introducing the free circulation of goods and services, and establishing joint projects and economic co-operation programmes.

Decisions are made by the Council of Heads of State, which meets annually, and must be unanimous. A Council of Foreign Affairs Ministers meets regularly to prepare for the sessions of the Council of Heads of State. The Secretariat is based in Rabat and there is a Consultative Assembly, which consists of 30 representatives from each member state, based in Algiers, and a Court of Justice, with two judges from each country, based in Nouakchott, Mauritania.

*Secretary-General, Habib Boulares (Tunisia)*

## ARCTIC COUNCIL

Ministry for Foreign Affairs of Iceland, Raudararstigur 25,

15-150 Reykjavik, Iceland

T (+354) 545 9900 F (+354) 562 2373

W [www.arctic-council.org](http://www.arctic-council.org)

The Arctic Council was founded in 1996 in Ottawa, Canada and is a regional forum for socio-economic development and scientific research within the Arctic region. An inter-governmental forum, the Arctic Council comprises eight states including Canada, the USA, Denmark (including Greenland and The Faroe Islands), Finland, Norway, Sweden, Iceland and Russia. A further six organisations representing indigenous peoples are granted permanent participatory status and include the Saami Council, Inuit Circumpolar Conference and the Arctic Athabaskan Council.

Decisions within the Arctic Council are taken at biennial ministerial meetings attended by Foreign Ministers or designates of the member states. The chairmanship of the Council and Secretariat rotates among member states, also on a biennial basis. Between these meetings, the operation of the Council is administered by the Committee of Senior Arctic Officials.

The main scientific work of the Arctic Council is carried out in five working groups, each focusing on specific issues such as monitoring, assessment and prevention of pollution, climate change, biodiversity and public health.

*Executive-Secretary, Bryndis Kjartandottir (Iceland)*

**ASIAN DEVELOPMENT BANK**

PO Box 789, 0980 Manila, Philippines

 W www.adb.org

The Asian Development Bank (ADB) was founded in 1966 and is a multilateral financial institution dedicated to reducing poverty in Asia and the Pacific. The ADB extends loans, equity investments and technical assistance to governments and public and private enterprises in its developing member countries, promotes the investment of public and private capital for development and assists in the co-ordination of development policies and plans in the developing member countries. The bank's projects and programmes prioritise economic growth, human development, gender and development, good governance, environmental protection, private sector development and regional co-operation.

The ADB raises funds through members' contributions and bond issues on the world's capital markets. In 2002, the ADB provided loans totalling US\$5,600 million and technical assistance costing US\$179 million. There are 63 member countries in the Asian and Pacific region and in Western Europe and North America. The ADB's headquarters is in the Philippines and there are 24 offices around the world.

*President, Tadao Chino (Japan)*

**ASIA-PACIFIC ECONOMIC CO-OPERATION**

35 Heng Mui Keng Terrace, Singapore 119616  
 T (+65) 6775 6012 F (+65) 6775 6013  
 E info@mail.apecsec.org.sg  
 W www.apecsec.org.sg

Asia-Pacific Economic Co-operation (APEC) was founded in 1989 in response to the growing interdependence among Asia-Pacific economies. The 1994 Declaration of Common Resolve envisaged a free trade zone, to be established by 2010 in industrialised countries and by 2020 in developing member states. There are three pillars of APEC activities: trade and investment liberalisation, business facilitation, and economic and technical co-operation. Members define and fund work programmes for APEC's four committees, 11 working groups and other APEC fora.

The members are: Australia, Brunei, Canada, Chile, China (People's Republic), China (Hong Kong), Indonesia, Japan, Republic of Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, the Philippines, Russia, Singapore, Chinese Taipei, Thailand, the USA and Vietnam.

The APEC chairman is responsible for hosting the annual ministerial meeting of foreign and economic ministers. The chairmanship rotates annually among member states. Senior officials of the organisation make recommendations to the ministers and carry out their decisions. They oversee and co-ordinate budgets and work programmes. In addition, there are many advisory groups.

There is a permanent secretariat based in Singapore.  
*Executive-Director, HE Mario Artaza*

**ASSOCIATION OF SOUTH EAST ASIAN NATIONS**

70A Jalan Sisingamangaraja, Jakarta 12110, Indonesia  
 T (+62) (21) 726 2991 F (+62) (21) 739 8234  
 E public@asean.or.id  
 W www.asean.or.id

The Association of South East Asian Nations (ASEAN) was formed in 1967 with the aims of accelerating economic growth, social progress and cultural development, and ensuring regional stability. The founding members are Indonesia, Malaysia, the Philippines, Singapore and Thailand. Brunei and Vietnam joined in 1984 and 1995 respectively. Laos and Myanmar were admitted in July 1997. Cambodia was admitted on 30 April 1999.

The ASEAN Summit, a meeting of the heads of government, which convenes every three years, is ASEAN's highest authority, but informal summits are held annually. The ASEAN Ministerial Meeting (AMM) is an annual meeting of ASEAN foreign ministers and is responsible for the formulation of policy guidelines and the co-ordination of activities, although other relevant ministers are included in the AMM depending on the subject under discussion. The ASEAN Economic Ministers (AEM) meet annually to co-ordinate economic policy. The AMM and AEM usually hold a joint ministerial meeting before an ASEAN summit.

The 1992 Summit agreed to set up the ASEAN Free Trade Area (AFTA), which was fully implemented in 2003. A common preferential tariff was introduced in 1993. At the annual summit in 1995, a South East Asia nuclear weapon-free zone was declared.

The Secretary-General of ASEAN is appointed on merit by the heads of government and can initiate, advise, co-ordinate and implement ASEAN activities. In addition to the ASEAN Secretariat based in Jakarta, each member state has a national secretariat in its foreign ministry which organises and implements activities at national level.

*Secretary-General, Ong Keng Yong (Singapore)*

**BALTIC ASSEMBLY**

Tornu 4, Kazarmas III, Section C, Room 301, Riga, LV1050, Latvia  
 T (+371) 7225 178 F (+371) 7225 366  
 E baltasam@parks.lv W www.baltasam.org

Established in November 1991, the Baltic Assembly (BA) is an international organisation for co-operation between the parliaments of Estonia, Latvia and Lithuania. The legislature of each member state appoints 20 parliamentarians to the Assembly, including a head and deputy head of the national delegation. The Assembly holds two sessions per year in each of the member states in rotation. In addition, there are permanent and ad-hoc committees.

The Baltic Assembly meets once a year with the Baltic Council of Ministers, which comprises the heads of government and ministers of the Baltic states and promotes intergovernmental and regional co-operation between the Baltic States; the joint sessions are known as the Baltic Council.

*President, Janis Reivs (Latvia)*

## BANK FOR INTERNATIONAL SETTLEMENTS

Centralbahnplatz 2 & Aeschenplatz 1, CH-4002 Basel,

W www.bis.org

The Bank for International Settlements (BIS), which was founded in 1930, fosters international monetary and financial co-operation by acting as a forum to promote discussion and facilitate decision-making processes among central banks and within the international financial community. It also acts as a centre for economic and monetary research and an agent in connection with international financial operations.

The statutory organs of the BIS are the General Meeting and the Board of Directors. There are 50 member central banks. At present, around 130 central banks and international financial institutions place deposits with the BIS. Total currency deposits placed with the BIS amounted to approximately US\$122.5 billion at the end of March 2003, representing 6.5 per cent of world foreign exchange reserves. Administrative control is vested in the Board of Directors which comprises 17 members, including the Governor of the Bank of England. *Chairman of the Board of Directors and President of the Bank for International Settlements*, Nout Wellink (Netherlands)

## CAB INTERNATIONAL

Wallingford, Oxon OX10 8DE  
T 01491-832111 F 01491-833508  
E cabi@cabi.org W www.cabi.org

CAB International (CABI) (formerly the Commonwealth Agricultural Bureau) was founded in 1929. It generates, disseminates and applies scientific knowledge in support of sustainable development, with an emphasis on agriculture, forestry and natural resources and the needs of developing countries. The organisation is owned and governed by its 40 member governments, each represented on an Executive Council. A Governing Board provides guidance on policy issues.

CABI has two divisions: bioscience and publishing. These undertake research and consultancy aimed at raising agricultural productivity, conserving biological resources, protecting the environment and controlling disease. The organisation publishes books, journals and newsletters and produces bibliographic databases on agriculture, health and allied disciplines. It also undertakes contracted scientific research and provides consultancy services and information support to developing countries. Any country is eligible to apply for membership. Applications are by invitation from existing members and are authorised by a head of state or delegated authority.

*Director-General*, Dr Denis Blight

## CARIBBEAN COMMUNITY AND COMMON MARKET

PO Box 10827, Georgetown, Guyana  
T (+592) 226 9281/9 F (+592) 226 7816  
E carisec3@caricom.org  
W www.caricom.org

The Caribbean Community and Common Market (CARICOM) was established in 1973 with the signing of the Treaty of Chaguaramas, which was revised in 2001. The objectives of CARICOM are to improve working and

living standards, to aim for full employment, to promote economic development and convergence, to expand economic relations with third states, to enhance economic competitiveness and productivity, to co-ordinate member states' foreign and economic policies and enhance functional co-operation in the delivery of common services, including the promotion of activities in the fields of health, education, transport and telecommunications.

The supreme organ is the Conference of Heads of Government, which determines policy, takes strategic decisions and is responsible for resolving conflicts and all matters relating to the founding treaty. The Community Council of Ministers consists of ministers of government responsible for CARICOM affairs and any other ministers designated by member states, and is responsible for strategic planning in the areas of economic integration, functional co-operation and external relations. The principal administrative arm is the Secretariat, based in Guyana. The Bureau of the Conference of Heads of Government is the executive body. It comprises the Chairman of the Conference, the outgoing Chairman and the Secretary-General, who are authorised to initiate proposals and to secure the implementation of CARICOM decisions. In addition, there are four ministerial councils dealing with trade and economic development, foreign and community relations, human and social development, and finance and planning.

The 15 member states are Antigua and Barbuda, the Bahamas (which is not a member of the Common Market), Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, St Christopher and Nevis, St Lucia, St Vincent and the Grenadines, Suriname and Trinidad and Tobago. Anguilla, the British Virgin Islands and the Turks and Caicos Islands are associate members. Aruba, Bermuda, the Cayman Islands, Colombia, the Dominican Republic, Mexico, the Netherlands' Antilles, Puerto Rico and Venezuela have observer status.

*Secretary-General*, Edwin W. Carrington

## COMMISSION OF THE AFRICAN UNION

PO Box 3243, Addis Ababa, Ethiopia  
T (+251) (1) 517700 F (+251) (1) 517844

The Organisation of African Unity (OAU) was established in 1963 and has 53 members; Morocco suspended its participation in 1985 in protest at the Polisario-proclaimed Saharan Arab Democratic Republic (SADR), representing Western Sahara, being admitted as a member. The OAU aims to further African unity and solidarity, to co-ordinate political, economic, social and defence policies, and to eliminate colonialism in Africa.

The chief organs are the Assembly of heads of state or government, which is the supreme organ of the OAU and meets once a year to consider matters of common African concern and to co-ordinate the Organisation's policies; the Council of foreign ministers, which is the Organisation's executive body responsible for the implementation of the Assembly's policies, and which meets twice a year; and the Commission of Mediation, Conciliation and Arbitration which promotes the peaceful settlement of disputes between member countries. The main administrative body is the General Secretariat, based in Addis Ababa, headed by a Secretary-General who is elected by the Assembly for a four-year term.

Substantial budgetary arrears due to delays in the payment of national contributions has meant that the OAU continually faces difficulties in furthering its aims. In June 1991 the Assembly adopted an African Economic

Community Treaty which envisages establishment of the Economic Community after ratification by two-thirds of the OAU's membership. In June 1993 a mechanism was created for conflict prevention, management and resolution, and a peace fund was established.

Following an initiative put forward by Libyan leader Col. Muammar al-Gadhafi in September 1999, it was agreed at the 36th summit of the OAU in July 2000 in Lomé, Togo, to establish an African Union.

The creation of the African Union was declared at a summit meeting in Sirte on 1–2 March 2001, and it legally began operations on 26 May 2001. The first Assembly of the African Union took place in 2002.

*Secretary-General, Amara Essy (Cote d'Ivoire)*

## THE COMMONWEALTH

The Commonwealth is a voluntary association of 54 sovereign independent states together with their associated states and dependencies. All of the states were formerly parts of the British Empire or League of Nations (later the UN) mandated territories, except for Mozambique which was admitted as a unique case because of its history of co-operation with neighbouring Commonwealth nations.

The status and relationship of member nations were first defined by the Inter-Imperial Relations Committee of the 1926 Imperial Conference, when the six existing dominions (Australia, Canada, the Irish Free State, Newfoundland, New Zealand and South Africa) were described as 'autonomous Communities within the British Empire, equal in status, in no way subordinate one to another in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown and freely associated as Members of the British Commonwealth of Nations'. This formula was given legal substance by the Statute of Westminster 1931.

This concept of a group of countries owing allegiance to a single Crown changed in 1949 when India decided to become a republic. Her continued membership of the Commonwealth was agreed by the other members on the basis of her 'acceptance of the monarch as the symbol of the free association of its independent member nations and as such the Head of the Commonwealth'. This paved the way for other republics to join the association in due course. Member nations agreed at the time of the accession of Queen Elizabeth II to recognise Her Majesty as the new Head of the Commonwealth. However, the position is not vested in the British Crown.

## THE MODERN COMMONWEALTH

As the UK's former colonies joined, initially with India and Pakistan in 1947, the Commonwealth was transformed from a grouping of all-white dominions into a multiracial association of equal, sovereign nations. It increasingly focused on promoting development and racial equality. South Africa withdrew in 1961 when it became clear that its reapplication for membership on becoming a republic would be rejected over its policy of apartheid.

The new goals of advocating democracy, the rule of law, good government and social justice were enshrined in the Harare Commonwealth Declaration (1991), which formed the basis of new membership guidelines agreed in Cyprus in 1993. Following the adoption of measures at the New Zealand summit in 1995 against serious or persistent violations of these principles, Nigeria was suspended in 1995 and Sierra Leone was suspended in 1997 for anti-democratic behaviour. Sierra Leone's suspension was revoked in March 1998 when the

legitimate government was returned to power. Similarly, Nigeria's suspension was lifted on 29 May 1999, the day a newly elected civilian president took office. The heads of government meeting in Edinburgh in 1997 established a set of economic principles for the Commonwealth, promoting economic growth whilst protecting smaller member states from the negative effects of globalisation.

## MEMBERSHIP

Membership of the Commonwealth involves acceptance of the association's basic principles and is subject to the approval of existing members. There are 54 members at present. (The date of joining the Commonwealth is shown in parenthesis.)

*Antigua and Barbuda (1981)	Namibia (1990)
*Australia (1931)	Nauru (1968)
*The Bahamas (1973)	*New Zealand (1931)
Bangladesh (1972)	Nigeria (1960)
*Barbados (1966)	†Pakistan (1947)
*Belize (1981)	*Papua New Guinea (1975)
Botswana (1966)	*St Christopher and Nevis (1983)
Brunei (1984)	*St Lucia (1979)
Cameroon (1995)	*St Vincent and the Grenadines (1979)
*Canada (1931)	Samoa (1970)
Cyprus (1961)	Seychelles (1976)

The Gambia (1965)	*Solomon Islands (1978)
Ghana (1957)	South Africa (1931)
*Grenada (1974)	Sri Lanka (1948)
Guyana (1966)	Swaziland (1968)
India (1947)	Tanzania (1961)
*Jamaica (1962)	Tonga (1970)
Kenya (1963)	Trinidad and Tobago (1962)
Kiribati (1979)	*§ Tuvalu (1988)
Lesotho (1966)	Uganda (1962)
Malawi (1964)	*United Kingdom
Malaysia (1957)	Vanuatu (1980)
The Maldives (1982)	Zambia (1964)
Malta (1964)	‡Zimbabwe (1980)
Mauritius (1968)	
Mozambique (1995)	

\* Realms of Queen Elizabeth II

† Suspended 18 October 1999

‡ Suspended 20 March 2002

§ Originally a Special Member due to its small size, small economy and limited involvement in international affairs, Tuvalu became a full member on 1 September 2000.

## COUNTRIES WHICH HAVE LEFT THE COMMONWEALTH

Fiji (1987, rejoined 1997, suspended 2000, readmitted 21 December 2001)

Republic of Ireland (1949)

Pakistan (1972, rejoined 1989, suspended 1999)

South Africa (1961, rejoined 1994)

Of the 54 member states, 16 have Queen Elizabeth II as head of state, 33 are republics, and five have national monarchies.

In each of the realms where Queen Elizabeth II is head of state (except for the UK), she is personally represented by a Governor-General, who holds in all essential respects the same position in relation to the administration of public affairs in the realm as is held by Her Majesty in Britain. The Governor-General is appointed by The Queen on the advice of the government of the state concerned.

## INTERGOVERNMENTAL AND OTHER LINKS

The main forum for consultation is the Commonwealth heads of government meetings held biennially to discuss international developments and to consider co-operation among members. Decisions are reached by consensus, and the views of the meeting are set out in a communiqué. There are also annual meetings of finance ministers and frequent meetings of ministers and officials in other fields, such as education, health, women's affairs, agriculture and science. Intergovernmental links are complemented by the activities of some 300 Commonwealth non-governmental organisations linking professionals, sportsmen and sportswomen, and interest groups, forming a 'people's Commonwealth'. The Commonwealth Games take place every four years.

Assistance to other Commonwealth countries normally has priority in the bilateral aid programmes of the association's developed members (Australia, Britain, Canada and New Zealand), who direct about 30 per cent of their aid to other member countries. Developing Commonwealth nations also assist their poorer partners, and many Commonwealth voluntary organisations promote development.

## COMMONWEALTH SECRETARIAT

The Commonwealth has a secretariat, established in 1965 in London, which is funded by all member governments. This is the main agency for multilateral communication between member governments on issues relating to the Commonwealth as a whole. It promotes consultation and co-operation, disseminates information on matters of common concern, organises meetings including the biennial summits, co-ordinates Commonwealth activities, and provides technical assistance for economic and social development through the Commonwealth Fund for Technical Co-operation.

The Commonwealth Foundation was established by Commonwealth governments in 1966 as an autonomous body with a board of governors representing Commonwealth governments that fund the Foundation. It promotes and funds exchanges and other activities aimed at strengthening the skills and effectiveness of professionals and non-governmental organisations. It also promotes culture, rural development, social welfare and the role of women.

## COMMONWEALTH OF INDEPENDENT STATES

Ul. Kirova 17, Minsk, Belarus  
T (+375) (17) 222 3517 F (+375) (17) 227 2339  
E webmaster@www.cis.minsk.by  
W www.cis.minsk.by

The Commonwealth of Independent States (CIS) is a multilateral grouping of 12 sovereign states that were

formerly constituent republics of the USSR (Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan). It was formed in 1991. Georgia joined in 1993. The CIS charter, signed in 1993 by seven states (Armenia, Belarus, Kazakhstan, Kyrgyzstan, Russia, Tajikistan, Uzbekistan) and open for signing by the other states, formally established the functions of the organisation and the obligations of its member states.

The CIS acts as a co-ordinating mechanism for foreign, defence and economic policies and is a forum for addressing problems which have arisen from the break-up of the USSR. These matters are addressed in more than 70 inter-state, intergovernmental co-ordinating and consultative statutory bodies. However, member states have criticised the CIS for operating ineffectively and for failing to carry through decisions made by CIS organs.

## STRUCTURE

The two supreme CIS bodies are the Council of Heads of State and the Council of Heads of Government. The Council of Heads of State is the highest organ of the CIS and there are various ministerial, parliamentary, banking, economic and security councils. The Executive Committee, based in Minsk and Moscow, provides administrative support.

## DEFENCE CO-OPERATION

On becoming members of the CIS, the member states agreed to recognise their existing borders, respect one another's territorial integrity and reject the use of military force or other forms of coercion to settle disputes between them.

A Treaty on Collective Security was signed in 1992 by six states and a joint peacemaking force, to intervene in CIS conflicts, was agreed upon by nine states. Russia concluded bilateral and multilateral agreements with other CIS states under the supervision of the Council of Heads of Collective Security (established 1993). These were gradually upgraded into CIS agreements under the umbrella of the Treaty on Collective Security, enabling Russia to station troops in eight of the other 11 CIS states (not Moldova, Turkmenistan or Ukraine), and giving Russian forces *de facto* control of virtually all of the former USSR's external borders. Only Ukraine and Moldova remained outside the defence co-operation framework and did not sign the Treaty on Collective Security, from which Azerbaijan, Georgia and Uzbekistan withdrew in 1999, forming a new defensive grouping with Moldova and Ukraine. Russian border guards were also withdrawn from Georgia, Kyrgyzstan and Turkmenistan in 1999.

## ECONOMIC CO-OPERATION

In 1991, 11 republics signed a treaty forming an economic community. The principles of the treaty were embodied within the CIS and formed the basis of its economic co-operation. Members agreed to refrain from economic actions that would damage each other and to co-ordinate economic and monetary policies. A Co-ordinating Consultative Committee, an economic arbitration court and an inter-state bank were established. A single monetary unit, the rouble, was originally agreed upon by all member states, and the members recognised that the basis of recovery for their economies was private ownership, free enterprise and competition.

The 11 CIS members who signed the Treaty on the Establishment of an Economic Union in September 1993 (Ukraine is an associate member of the economic union)

committed themselves to a common economic space with free movement of goods, services, capital and labour. Belarus, Kazakhstan, Kyrgyzstan and Russia signed the Treaty on the Establishment of a Customs Union in March 1996; the treaty was later signed by Tajikistan and on 10 October 2000, the presidents of the five countries approved a treaty establishing the Eurasian Economic Community. In 2003, Russia, Ukraine, Belarus and Kazakhstan proposed the formation of a united economic zone.

### CO-OPERATION COUNCIL FOR THE ARAB STATES OF THE GULF

PO Box 7153, Riyadh 11-462, Saudi Arabia  
T (+966) (01) 482 7777 F (+966) (01) 482 9109  
W [www.gcc-sg.org](http://www.gcc-sg.org)

The Co-operation Council for the Arab States of the Gulf, or Gulf Co-operation Council (GCC), as it is informally known, was established on 25 May 1981 with the objectives of increasing co-ordination and integration between its member states, harmonising economic, commercial, educational and social policies and promoting scientific and technical innovation in key economic areas. The GCC has six members: Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates.

The highest authority of the GCC is the Supreme Council, whose presidency rotates among members' heads of states based on the (Arabic) alphabetical order of their names. It holds one regular session every year, but extraordinary sessions may be convened if necessary. The meeting of the Supreme Council is considered valid if attended by two-thirds of the member states.

The Ministerial Council, which ordinarily meets every three months, consists of the Foreign Ministers of the member states or other delegated ministers. The presidency of the Ministerial Council is held by the state which last presided over the Supreme Council or, if necessary, the state which is next to preside over the Supreme Council.

*Secretary-General, Abdul-Rhaman bin Hamad Al-Attiyah (Qatar)*

### COUNCIL OF THE BALTIC SEA STATES

Secretariat, Stromsberg, PO Box 2010, S-103 11 Stockholm, Sweden  
T (+46) (8) 440 1920 F (+46) (8) 440 1944  
E [cbss@cbss.st](mailto:cbss@cbss.st)  
W [www.cbss.st](http://www.cbss.st)

The Council of the Baltic Sea States (CBSS) was founded in March 1992 with the aim of creating a regional forum to increase co-operation and co-ordination among the states which border on the Baltic Sea in assisting new democratic institutions, economic and technical development, humanitarian aid and health, energy and environmental issues, cultural programmes, education, tourism, transportation and communication.

There are 12 members: Denmark, Estonia, Finland, Germany, Iceland, Latvia, Lithuania, Norway, Poland, Russia, Sweden and the European Commission.

The Council consists of the foreign ministers of each member state and a member of the European Commission. Chairmanship of the Council rotates on an annual basis, and the annual session is held in the country currently in the chair. The foreign minister of the presiding country is responsible for co-ordinating activities between the sessions.

*Chairmanship, 2004–5, Poland*

### COUNCIL OF EUROPE

F-67075 Strasbourg, France  
T (+33) (3) 8841 2033 F (+33) (3) 8841 2745  
E [infopoint@coe.int](mailto:infopoint@coe.int)  
W [www.coe.int](http://www.coe.int)

The Council of Europe was founded in 1949. Its aim is to achieve greater unity between its members, to safeguard their European heritage and to facilitate their progress in economic, social, cultural, educational, scientific, legal and administrative matters, and in the furtherance of pluralist democracy, human rights and fundamental freedoms.

There are 45 members. The organs are the Committee of Ministers, consisting of the foreign ministers of member countries, who meet twice yearly, and the Parliamentary Assembly of 313 members (and 313 substitutes), elected or chosen by the national parliaments of member countries in proportion to the relative strength of political parties. There is also a Joint Committee of Ministers and Representatives of the Parliamentary Assembly.

The Committee of Ministers is the executive organ. The majority of its conclusions take the form of international agreements (known as European Conventions) or recommendations to governments. Decisions of the Ministers may also be embodied in partial agreements to which a limited number of member governments are party. Member governments accredit Permanent Representatives to the Council in Strasbourg, who are also the Ministers' Deputies. The Committee of Deputies meets every month to transact business and to take decisions on behalf of Ministers.

The Parliamentary Assembly holds three week-long sessions a year. Its 13 permanent committees meet once or twice between each public plenary session of the Assembly. The Congress of Local and Regional Authorities of Europe each year brings together mayors and municipal councillors in the same numbers as the members of the Parliamentary Assembly.

One of the principal achievements of the Council of Europe is the European Convention on Human Rights (1950) under which was established the European Commission and the European Court of Human Rights, which were merged in 1993. The reorganised European Court of Human Rights sits in chambers of seven judges or exceptionally as a grand chamber of 17 judges. Litigants must exhaust legal processes in their own country before bringing cases before the court.

Among other conventions and agreements are the European Social Charter, the European Cultural Convention, the European Code of Social Security, the European Convention on the Protection of National Minorities, and conventions on extradition, the legal status of migrant workers, torture prevention, conservation and the transfer of sentenced prisoners. Most recently, the specialised bodies of the Venice Commission and Demosthenes have been set up to assist in developing legislative, administrative and constitutional reforms in central and eastern Europe.

Non-member states take part in certain Council of Europe activities on a regular or *ad hoc* basis; thus the Holy See participates in all the educational, cultural and sports activities. The European Youth Centre is an educational residential centre for young people. The European Youth Foundation provides youth organisations with funds for their international activities. The Council's ordinary budget for 2004 totalled €180,500,000.

## ECONOMIC COMMUNITY OF WEST AFRICAN STATES

Secretariat Building, 60 Yakubu Gowon Crescent, PMB 401, Abuja, Nigeria  
 T (+234) (9) 314 7647 9 F (+234) (9) 314 3005/6  
 E [info@ecowasmail.net](mailto:info@ecowasmail.net)  
 W [www.ecowas.int](http://www.ecowas.int)

The Economic Community of West African States (ECOWAS) was founded in 1975 and came into operation in 1977. It aims to promote the cultural, economic and social development of West Africa through mutual co-operation. A revised ECOWAS Treaty was signed in 1993 and came into effect in July 1995. It makes the prevention and control of regional conflicts an aim of ECOWAS and provides for the imposition of a community tax and for the establishment of a regional parliament, an economic and social council and a court of justice.

The supreme authority of ECOWAS is vested in the annual summit of heads of government of all 15 member states. A Council of Ministers, two from each member state, meets biannually to monitor the organisation and make recommendations to the summit. ECOWAS operates through a Secretariat, headed by the Executive Secretary. In addition there are four Deputy Executive Secretaries. The ECOWAS Parliament was inaugurated in November 2000 and justices for the Court of Justice were sworn in January 2001.

The Fund for Co-operation, Compensation and Development, situated at Lomé, Togo, has been restructured into three funds: the ECOWAS Regional Development Fund, the ECOWAS Bank for Investment and Development and the ECOWAS Regional Investment Bank. The funds finance development projects and provide compensation to member states that have suffered losses as a result of ECOWAS's policies, particularly trade liberalisation.

The members of ECOWAS are: Benin, Burkina Faso, Cape Verde, Cote d'Ivoire, Gambia, Ghana, Guinea, Guinea-Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone and Togo.

An ECOWAS Monitoring Group (ECOMOG) peacekeeping force has been involved in attempts to restore peace in Liberia (1990–6), in Guinea-Bissau (1998–9) and in Sierra Leone (1997–9).

*Executive Secretary*, Dr Mohammed Ibn Chambas (Ghana)

## EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT

One Exchange Square, London EC2A 2JN  
 T 020-7338 6000 F 020-7338 6100  
 W [www.ebrd.com](http://www.ebrd.com)

The European Bank for Reconstruction and Development (EBRD), established in 1991, is an international institution with 62 members (60 countries, the European Community and the European Investment Bank).

The aim of the EBRD is to build market economies and democracies in 27 countries in central and eastern Europe and central Asia.

The EBRD finances projects in both the private and public sectors, providing direct funding for financial institutions, infrastructure and other key sectors. The

main forms of the EBRD financing are loans, equity investments and guarantees. No more than 40 per cent of the EBRD's investment can be made in state-owned concerns. The EBRD is the largest foreign investor in the region's private sector and in addition to its own lending, facilitates significant foreign direct investment. The EBRD pays particular attention to strengthening the financial sector and to promoting small and medium-sized enterprises. It works in co-operation with national governments, private companies, and international organisations such as the OECD, the IMF, the World Bank and the UN specialised agencies.

The EBRD has a subscribed capital of €20 billion. The EBRD is also able to borrow on world capital markets. Its major subscribers are the USA, 10 per cent; Britain, France, Germany, Italy and Japan, 8.5 per cent each. As at the end of 2003, the EBRD had committed €3,700 million to 119 new projects. Net profit in 2003 reached €378,200 million.

The highest authority is the Board of Governors; each member appoints one Governor and one Alternate. The Governors delegate most powers to a 23-member Board of Directors; the Directors are responsible for the EBRD's operations and budget, and are elected by the Governors for three-year terms. The Governors also elect the President of the Board of Directors, who acts as the Bank's president for a four-year term.

*President of the Board of Directors*, Jean Lemierre (France)

## EUROPEAN FREE TRADE ASSOCIATION

*Headquarters*: 9–11 rue de Varembe, CH-1211 Geneva 20, Switzerland  
 T (+41)(22) 749 1111  
 W [www.efta.int](http://www.efta.int)  
*EEA matters*: Trierstraat 74, B-1040 Brussels, Belgium  
 T (+32) (2) 286 1711 F (+32) (2) 286 1750  
 E [mail.bx1@efta.int](mailto:mail.bx1@efta.int)

The European Free Trade Association (EFTA) was established in 1960 by Austria, Denmark, Norway, Portugal, Sweden, Switzerland and the UK, and was subsequently joined by Finland (associate member 1961, full member 1986), Iceland (1970) and Liechtenstein (1991). Six members have left to join the European Union: Denmark and the UK (1972), Portugal (1985), Austria, Finland and Sweden (1995). The existing members are Iceland, Liechtenstein, Norway and Switzerland.

The first objective of EFTA was to establish free trade in industrial products between members; this was achieved in 1966. Its second objective was the creation of a single market in western Europe and in 1972 EFTA signed free trade agreements with the EC covering trade in industrial goods; the remaining tariffs on industrial products were abolished in 1977 and the Luxembourg Declaration on broader co-operation between EFTA and the European Community was signed in 1984.

An agreement on the creation of the European Economic Area (EEA), an extension of the EC single market to the EFTA states, was signed in 1992 and entered into force on 1 January 1994. Switzerland rejected EEA membership in a referendum in 1992 and Liechtenstein joined on 1 May 1995 after adapting its customs union with Switzerland. The implementation of the agreement is supervised by the EEA Council, composed of EFTA and EU ministers, and the EFTA Surveillance Authority. The three EFTA EEA members also participate in a wide range of other EC programmes

including research and development, environmental matters, and education and training.

In June 2002, a free trade agreement between the EFTA states and Singapore was signed in Egilsstaðir (Iceland). In March 2003, EFTA initialled a free trade agreement with Chile in Geneva (Switzerland). The agreement with Chile is the second free trade agreement that the EFTA states have concluded with a country in the Americas, after the agreement concluded with Mexico in 2000. In March 2004, an initial Free Trade Agreement was reached with Lebanon. With these agreements the EFTA states will have concluded free trade agreements with 21 states and territories, representing a population of 344 million, in addition to the free trade relations with the European Union, comprising a population of 375 million. Negotiations on free trade agreements with South Africa, Tunisia and Egypt continued during 2004.

The EFTA Council is the principal organ of the Association. It meets regularly at the level of ambassadors to the EFTA Secretariat in Geneva.

*Secretary-General*, William Rossier (Switzerland)

*Deputy Secretary-General (Geneva)*, Pétur G. Thorsteinsson (Iceland)

*Deputy Secretary-General (Brussels)*, Oystein Hovdtkinn (Norway)

### EUROPEAN ORGANISATION FOR NUCLEAR RESEARCH (CERN)

CH-1211 Geneva 23, Switzerland

T (+41) (22) 767 6111 F (+41) (22) 767 6555

W [www.cern.ch](http://www.cern.ch)

The Convention establishing the European Organisation for Nuclear Research (CERN) came into force in 1954. CERN promotes European collaboration in high energy physics of a scientific, rather than a military nature.

The member countries are Austria, Belgium, Bulgaria, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Italy, the Netherlands, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland and the UK. India, Israel, Japan, Russia, Turkey, the USA, the EU Commission and UNESCO have observer status.

The Council, which is the highest policy-making body, comprises two delegates from each member state and is chaired by the President who is elected by the Council in Session. The Council also elects the Director-General, who is responsible for the internal organisation of CERN. The Director-General heads a workforce of approximately 2,500, including physicists, craftsmen, technicians and administrative staff. At present over 6,500 physicists use CERN's facilities.

The member countries contribute to the budget in proportion to their net national revenue. The 2004 budget was SFr 1,325 million.

*President of the Council*, Enzo Iarocci (Italy)

*Director-General (2004–8)*, Dr Robert Aymar (France)

### EUROPEAN SPACE AGENCY

8–10 rue Mario Nikis, F-75738 Paris Cedex 15, France

T (+33) (1) 5369 7654 F (+33) (1) 5369 7560

W [www.esa.int](http://www.esa.int)

The European Space Agency (ESA) was created in 1975 by the merger of the European Space Research Organisation (ESRO) and the European Launcher Development Organisation (ELDO). Its aims include the advancement of space research and technology and the implementation of a long-term European space policy.

The member countries are Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the UK. Greece and Luxembourg were due to officially join in 2004. Canada and Hungary are co-operating states. ESA's mandatory activities are funded by contributions from all the member states, calculated in accordance with each country's gross national income (GNI). In 2003, ESA's budget was €2,700 million.

The agency is directed by a Council composed of the representatives of the member states; its chief officer is the Director-General who is elected by the Council every four years.

*Director-General*, Jean-Jacques Dordain, *aptd* 2003

### FOOD AND AGRICULTURE ORGANISATION OF THE UNITED NATIONS

Viale delle Terme di Caracalla, I-00100 Rome, Italy

T (+39) (06) 5705 1 F (+39) (06) 5705 3152

E [fao-hq@fao.org](mailto:fao-hq@fao.org)

W [www.fao.org](http://www.fao.org)

The Food and Agriculture Organisation (FAO) is a specialised UN agency, established in 1945. It assists rural populations by raising levels of nutrition and living standards, and by encouraging greater efficiency in food production and distribution. It analyses and disseminates information on agriculture and natural resources. The FAO also advises governments on national agricultural policy and planning; its Investment Centre, together with the World Bank and other financial institutions, helps to prepare development projects. The FAO's field programme covers a range of activities, including strengthening crop production, rural and livestock development, and conservation.

The FAO's top priorities are sustainable agriculture, rural development and food security. The Organisation attempts to ensure the availability of adequate food supplies, stability in the flow of supplies and the securing of access to food by the poor. The FAO monitors potential famine areas. The Emergency Operations and Rehabilitation Division channels emergency aid from governments and other agencies, and assists in rehabilitation. The Technical Co-operation Programme responds to urgent or unforeseen requests for technical assistance.

The FAO has 188 members (187 states plus the EU). It is governed by a biennial conference of its members which sets a programme and budget. The budget for 2004–5 was US\$749.1 million, funded by member countries in proportion to their gross national products. The FAO is also funded by the UN Development Programme, donor governments and other institutions.

The Conference elects a Director-General and a 49-member Council which governs between conferences. The Regular and Field Programmes are administered by a Secretariat, headed by the Director-General. Five regional, five sub-regional and over 78 national offices help administer the Field Programme.

*Director-General*, Jacques Diouf (Senegal)

### GUAM

Office 105 Institute of International Relations,

36/1 Melnykova Street, Kyiv, Ukraine

T (+380) 213-7457 F (+380) 211-4428

W [www.guam.org](http://www.guam.org)

GUAM (Georgia, Ukraine, Uzbekistan, Azerbaijan and Moldova) was founded as a political, economic and strategic alliance designed to strengthen the independence and sovereignty of its members.

GUAM seeks to promote trade, economic growth, and co-operation between its members primarily through the establishment of a Eurasian-Transcaucasian transportation corridor (TRACECA). GUAM is also a forum for the discussion of security problems, promoting conflict resolution and a common position in international organisations.

Following growing co-operation between their countries, on 10 October 1997, the presidents of Azerbaijan, Georgia, Moldova and Ukraine declared their mutual interest in promoting co-operation, security, political and economic contacts. Uzbekistan joined the group in April 1999.

It was decided in September 2000 to convene summits of the Heads of State at least once a year, and meetings at the level of Ministers for Foreign Affairs at least twice a year. A Committee of National Co-ordinators meets quarterly.

### INTERNATIONAL ATOMIC ENERGY AGENCY

Vienna International Centre, Wagramerstrasse 5, PO Box 100, A-1400 Vienna, Austria  
T (+43) (1) 26000 F (+43) (1) 26007  
E [official.mail@iaea.org](mailto:official.mail@iaea.org)  
W [www.iaea.org](http://www.iaea.org)

The International Atomic Energy Agency (IAEA) was established in 1957. It is an intergovernmental organisation that reports to, but is not a specialised agency of, the UN.

The IAEA aims to enhance the contribution of atomic energy to peace, health and prosperity and to ensure that any assistance that it provides is not used for military purposes. It establishes atomic energy safety standards and offers services to its member states for the safe operation of their nuclear facilities and for radiation protection. It is the focal point for international conventions on the early notification of a nuclear accident, assistance in the case of such an accident, civil liability for nuclear damage, physical protection of nuclear material, nuclear safety and the safety of spent fuel and radioactive waste management. The IAEA also encourages research and training in nuclear power. It is additionally charged with drawing up safeguards and verifying their use in accordance with the Nuclear Non-Proliferation Treaty (NPT) 1968, the Treaty for the Prohibition of Nuclear Weapons in Latin America (Tlatelolco Treaty) 1968, the Treaty on a South Pacific Nuclear Free Zone (Rarotonga Treaty), the South East Asia Nuclear Weapon-Free Zone Treaty (Bangkok Treaty) and the African Nuclear Weapon-Free Zone Treaty (Pelindaba Treaty) 1996. Together with the Food and Agriculture Organisation and the World Health Organisation, the IAEA established an International Consultative Group on Food Irradiation in 1983.

The IAEA currently had 137 members as at June 2004. A General Conference of all its members meets annually to decide policy, a programme and a budget (2004, US\$268 million), as well as electing a Director-General and a 35-member Board of Governors. The Board meets

four times a year to formulate policy which is implemented by the Secretariat under a Director-General. *Director-General*, Mohamed El Baradei (Egypt)

### INTERNATIONAL CIVIL AVIATION ORGANISATION

999 University Street, Montréal, Québec, Canada H3C 5H7  
T (+1) (514) 954 8219 F (+1) (514) 954 6077  
E [icaohq@icao.int](mailto:icaohq@icao.int)  
W [www.icao.int](http://www.icao.int)

The International Civil Aviation Organisation (ICAO) was founded with the signing of the Chicago Convention on International Civil Aviation in 1944 and became a specialised agency of the United Nations in 1947. It sets international technical standards and recommends practices for all areas of civil aviation, including airworthiness, air navigation, air traffic control and pilot licensing. It encourages uniformity and simplicity in ground regulations and operations at international airports, including immigration and customs control. The ICAO also promotes regional air navigation, plans for ground facilities and collects and distributes air transport statistics world-wide. It is dedicated to improving safety and to the orderly development of civil aviation throughout the world.

The ICAO has 188 members and is governed by an assembly which meets at least once every three years. A Council of 52 members is elected, which represents leading air transport nations as well as less developed countries. The Council elects the President, appoints the Secretary-General and supervises the organisation through subsidiary committees, serviced by a Secretariat. *President of the Council*, Dr Assad Kotaite (Lebanon)  
*Secretary-General*, Dr Taieb Cherif (Algeria)  
*UK Representative*, N. J. Denton

### INTERNATIONAL CONFEDERATION OF FREE TRADE UNIONS

Koning Albert II laan 5, Bus 1, B-1210 Brussels, Belgium

The International Confederation of Free Trade Unions (ICFTU) was created in 1949. It aims to establish, maintain and promote free trade unions, and to promote peace with economic security and social justice.

Affiliated to the ICFTU are 233 individual unions and representative bodies in 152 countries and territories. There are 150 million members.

The Congress, the supreme authority of the ICFTU, convenes at least every four years. It is composed of delegates from the affiliated trade union organisations. The Congress elects an Executive Board of 53 members, including five nominated by the Women's Committee and one representing young workers, which meets not less than once a year. The Board establishes the budget and receives suggestions and proposals from affiliates as well as acting on behalf of the Confederation. The Congress also elects the General Secretary.

 W [www.interpol.int](http://www.interpol.int)

Interpol was set up in 1923 to establish an international criminal records office and to harmonise extradition procedures. As at May, the organisation comprised 181 member states.

Interpol's aims are to promote co-operation between criminal police authorities, and to support government agencies concerned with combating crime, whilst respecting national sovereignty. It is financed by annual contributions from the governments of member states.

Interpol's policy is decided by the General Assembly which meets annually; it is composed of delegates appointed by the member states. The 13-member Executive Committee is elected by the General Assembly from among the member states' delegates, and is chaired by the President, who has a four-year term of office. The permanent administrative organ is the General Secretariat, headed by the Secretary-General, who is appointed by the General Assembly.

The International Energy Agency (IEA), founded in 1974, is an autonomous agency within the framework of the Organisation for Economic Co-operation and Development (OECD).

The IEA's objectives include improvement of energy co-operation world-wide, increased efficiency, development of alternative energy sources and the promotion of relations between oil producing and oil consuming countries. The IEA also maintains an emergency system to alleviate the effects of severe oil supply disruptions.

The main decision-making body is the Governing Board, composed of senior energy officials from member countries. Various standing groups and special committees exist to facilitate the work of the Board. The IEA Secretariat, with a staff of energy experts, carries out the work of the Governing Board and its subordinate bodies. The Executive Director is appointed by the Board. The IEA has 26 member states.

The International Francophone Organisation (known as La Francophonie) is an intergovernmental organisation founded in 1970 by 21 French-speaking countries. It aims to prevent conflict and promote development and co-operation between the Francophone countries, to represent its member states internationally and to promote French culture and the use of the French language.

The Conference of Heads of State and Heads of Government of Countries using French as a Common Language, also known as the Francophone Summit, takes place biennially. Other institutions include the Ministerial Conference of La Francophonie, the Permanent Council of La Francophonie and the Secretariat.

The Ministerial Conference of La Francophonie, which consists of the foreign minister or the minister responsible for Francophone affairs of each member state, implements decisions made at the summits and makes preparations for the following summit. It also puts forward prospective new members.

The Permanent Council of La Francophonie, which is chaired by the Secretary-General and consists of representatives of the member states, oversees the execution of decisions made by the Ministerial Conference, allocates funds, and reviews and approves projects.

La Francophonie has a current membership of 51 member states and 5 observers.

 W [www.ifad.org](http://www.ifad.org)

The establishment of the International Fund for Agricultural Development (IFAD) was proposed by the 1974 World Food Conference and IFAD began operations as a UN specialised agency in 1977. Its purpose is to mobilise additional funds for agricultural and rural development projects in developing countries, provide employment and additional income for poor farmers, reduce malnutrition and improve food security systems.

IFAD has 163 members and membership is divided into three lists: List A (OECD countries), List B (OPEC countries), and List C (developing countries) which is subdivided into C1 (Africa), C2 (Europe, Asia and the Pacific) and C3 (Latin America and the Caribbean). All powers are vested in a Governing Council of all member countries. It elects an 18-member Executive Board (with 18 alternate members) responsible for IFAD's operations. The Council meets annually and elects a President who is also chairman of the Board. The President serves a four-year term that is renewable once and is assisted by a Vice-President and three Assistant Presidents.

Since its establishment, IFAD has committed a total of US\$8,100 million in loans and US\$35,400 million in grants for 653 approved projects in 115 countries and territories. IFAD's current annual commitment level is approximately \$450 million.

 E [info@ihb.mc](mailto:info@ihb.mc) W [www.iho.shom.fr](http://www.iho.shom.fr)

The International Hydrographic Organisation (IHO) was established in 1970 with its permanent Secretariat based in Monaco. An intergovernmental organisation that works in a purely consultative role, the IHO aims to support safety in international navigation and set policy for marine conservation. The IHO has a membership of 74

states that meet at five-yearly conferences to set policy, approve budget, review progress and adopt programmes of work to be pursued in the ensuing five-year period. Each member is represented at these conferences by their most senior hydrographer, usually the head of the hydrographic office for each particular country. All member states have an opportunity to initiate new proposals for IHO consideration and, during this time, a Directing Committee of three senior Hydrographers is also elected. Outside of its membership, the IHO acts to promote hydrography and facilitate the exchange of technology with developing countries as well as working towards a standardisation of nautical products, services and survey practices.

## INTERNATIONAL LABOUR ORGANISATION

4 route des Morillons, CH-1211 Geneva 22, Switzerland

T (+41) (22) 799 6111 F (+41) (22) 798 8685

W [www.ilo.org](http://www.ilo.org)

The International Labour Organisation (ILO) was established in 1919 as an autonomous body of the League of Nations and became the UN's first specialised agency in 1946. The ILO aims to increase employment, improve working conditions, raise living standards and encourage democratic development. It sets minimum international labour standards through the drafting of international conventions. Member countries are obliged to submit these to their domestic authorities for ratification, and thus undertake to bring their domestic legislation in line with the conventions. Members must report to the ILO periodically on how these regulations are being implemented. The ILO plays a major role in helping developing countries achieve economic stability and job expansion through its wide-ranging programme of technical co-operation. The ILO is also the world's principal resource centre for information, analysis and guidance on labour and employment. The organisation aims to improve working and living conditions throughout the world and to support the transition to democracy and market economies under way in many states.

The ILO had 176 members as at June 2004. It is composed of the International Labour Conference, the Governing Body and the International Labour Office. The Conference of members meets annually, and is attended by national delegations comprising two government delegates, one worker delegate and one employer delegate. It formulates international labour conventions and recommendations, provides a forum for discussion of world employment and social issues, and approves the ILO's programme and budget. The programme and budget set out four strategic objectives for the ILO: the promotion of fundamental principles and rights at work; the creation of greater employment and earning opportunities; the enhancement of social protection; and the strengthening of social dialogue.

The 56-member Governing Body, composed of 28 government, 14 worker and 14 employer members, acts as the ILO's executive council. Ten governments, including the UK, hold permanent seats on the Governing Body because of their industrial importance. There are also various regional conferences and advisory committees. The International Labour Office acts as a secretariat and as a centre for operations, publishing and research.

*Director-General, Juan Somavia (Chile)*

## INTERNATIONAL MARITIME ORGANISATION

4 Albert Embankment, London SE1 7SR

T 020-7735 7611 F 020-7587 3210

E [media@imo.org](mailto:media@imo.org)

W [www.imo.org](http://www.imo.org)

The International Maritime Organisation (IMO) was established as a UN specialised agency in 1948. Owing to delays in treaty ratification it did not commence operations until 1958. Originally it was called the Inter-Governmental Maritime Consultative Organisation (IMCO) but changed its name in 1982.

The IMO fosters intergovernmental co-operation in technical matters relating to international shipping, especially with regard to safety at sea, efficiency in navigation and protecting the marine environment by preventing and controlling marine pollution caused by shipping. The IMO is responsible for convening maritime conferences and drafting marine conventions. It also provides technical aid to countries wishing to develop their activities at sea.

The IMO had 163 members and three associate members as at March 2004. It is governed by an Assembly comprising delegates of all its members. It meets biennially to formulate policy, set a budget (2004–5, £46.2 million), vote on specific recommendations on pollution and maritime safety and elect the Council. The Council, which meets twice a year, fulfils the functions of the Assembly between sessions and appoints the Secretary-General. It consists of 40 members: ten from the world's largest shipping nations, ten from the nations most dependent on seaborne trade, and 20 other members to ensure a fair geographical representation. The Maritime Safety, Marine Environment Protection, Legal, Technical Co-operation and Facilitation Committees make reports and recommendations to the Council and the Assembly. There are a number of other specialist subsidiary committees. The IMO acts as the secretariat for the London Convention (1972) which regulates the disposal of land-generated waste at sea.

*Secretary-General, Efthimios E. Mitropoulos (Greece)*

## INTERNATIONAL MONETARY FUND

700 19th Street NW, Washington DC 20431, USA

T (+1) (202) 623 7300 F (+1) (202) 623 6278

E [publicaffairs@imf.org](mailto:publicaffairs@imf.org)

W [www.imf.org](http://www.imf.org)

The International Monetary Fund (IMF) was established in 1944, at the UN Monetary and Financial Conference held at Bretton Woods, New Hampshire. Its Articles of Agreement entered into force in 1945 and it began operations in 1947.

The IMF exists to promote international monetary co-operation, the expansion of world trade, and exchange stability. It advises members on their economic and financial policies; promotes policy co-ordination among the major industrial countries; and gives technical assistance in central banking, balance of payments accounting, taxation, and other financial matters. The IMF serves as a forum for members to discuss important financial and monetary issues and seeks the balanced growth of international trade and, through this, high levels of employment, income and productive capacity. As at June 2004 the IMF had 184 members.

Upon joining the IMF, a member is assigned a 'quota', based on the member's relative standing in the world

economy and its balance of payments position, that determines its capital subscription to the Fund, its access to IMF resources, its voting power, and its share in the allocation of Special Drawing Rights (SDRs). Quotas are reviewed every five years and adjusted accordingly. The SDR, an international reserve asset issued by the IMF, is calculated daily on a basket of usable currencies and is the IMF's unit of account; on 30 May 2004, 1 SDR equalled US\$1.45412. SDRs are allocated at intervals to supplement members' reserves and thereby improve international financial liquidity.

IMF financial resources derive primarily from members' capital subscriptions, which are equivalent to their quotas. In addition, the IMF is authorised to borrow from official lenders. It may also draw on a line of credit of SDR 18.5 billion from various countries under the so-called General Arrangements to Borrow (GAB). Periodic charges are also levied on financial assistance. At the end of January 2003, total outstanding IMF credits amounted to SDR 107 billion.

The IMF is not a bank and does not lend money; it provides temporary financial assistance by selling a member's SDRs or other members' currencies in exchange for the member's own currency. The member can then use the purchased currency to alleviate its balance of payments difficulties. The IMF's credit under its regular facilities is made available to members in tranches or segments of 25 per cent of quota. For first credit tranche purchases, members are required to demonstrate reasonable efforts to overcome their balance of payments difficulties. There are no performance criteria. Upper credit tranche purchases are normally associated with stand-by arrangements and are aimed at overcoming balance of payment difficulties and are required to meet certain performance criteria. Repurchases are made in three and a quarter to five years.

The IMF supports long-term efforts at economic reform and transformation as well as medium-term programmes under the extended Fund facility, which runs for three to four years and is aimed at overcoming balance of payments difficulties stemming from macroeconomic and structural problems. Members experiencing a temporary balance of payments shortfall have access to the compensatory and contingency financing facility.

The IMF is headed by a Board of Governors, comprising representatives of all members, which meets annually. The Governors delegate powers to 24 Executive Directors, who are appointed or elected by member countries. The Executive Directors operate the Fund on a daily basis under a Managing Director, whom they elect.

## INTERNATIONAL ORGANISATION FOR MIGRATION

17, Route des Morillons, CH-1211 Geneva 19, Switzerland

T (+41) 22717 9111 F (+41) 22798 6150

E [info@iom.int](mailto:info@iom.int) W [www.iom.int](http://www.iom.int)

The International Organisation for Migration (IOM) was founded in 1951 as an organisation to resettle European displaced persons and refugees. During the 1960s and 1970s the IOM developed links with the United Nations High Commissioner for Refugees (UNHCR) and began a programme of assistance and reintegration outside of the European region. There are currently 102 member states and 29 observers (including governmental and

non-governmental organisations). Internally, the IOM is led by a Director-General who is elected for a five-year term. The Director-General's Office has the constitutional authority to manage the organisation, carry out the activities within its mandate and develop current policies, procedures and strategies. The Office of the Inspector-General (OIG) incorporates the functions of evaluation, internal audit and assessment of projects for oversight purposes. The OIG is also involved in investigations within the formal complaints procedure.

The role of the IOM has recently expanded to cover migration health services, counter-trafficking measures, emergency and post-crises management and assisted voluntary returns.

*Director-General*, Brunson McKinley (USA)

## INTERNATIONAL RED CROSS AND RED CRESCENT MOVEMENT

19 avenue de la Paix, CH-1202 Geneva, Switzerland

T (+41) 22734-6001 W [www.icrc.org](http://www.icrc.org)

The International Red Cross and Red Crescent Movement is composed of three elements — the International Committee of the Red Cross, the International Federation of Red Cross and Red Crescent Societies and the national Red Cross and Red Crescent societies.

The International Committee of the Red Cross (ICRC), the organisation's founding body, was formed in 1863. It aims to negotiate between warring factions and to protect and assist victims of armed conflict. It also seeks to ensure the application of the Geneva Conventions with regard to prisoners of war and detainees.

The International Federation of Red Cross and Red Crescent Societies was founded in 1919 to contribute to the development of the humanitarian activities of national societies, to co-ordinate their relief operations for victims of natural disasters, and to care for refugees outside areas of conflict. There are Red Cross and Red Crescent societies in 175 countries, with a total membership of 250 million.

The International Conference of the Red Cross and Red Crescent meets every four years, bringing together delegates of the ICRC, the International Federation and the national societies, as well as representatives of nations bound by the Geneva Conventions.

## INTERNATIONAL TELECOMMUNICATION UNION

Place des Nations, CH-1211 Geneva 20, Switzerland

T (+41) (22) 730 5111 F (+41) (22) 733 7256

E [itu@mail.itu.int](mailto:itu@mail.itu.int)

W [www.itu.int](http://www.itu.int)

The International Telecommunication Union (ITU) was founded in Paris in 1865 as the International Telegraph Union and became a UN specialised agency in 1947.

ITU is an intergovernmental organisation for the development of telecommunications and the harmonisation of national telecommunication policies. ITU comprises 189 member states and some 700 members who represent public and private organisations involved in telecommunications. ITU's mission is to promote the development of telecommunications and

information and communication technologies; to promote and offer technical assistance to developing countries; and to promote at international level the adoption of a broader approach to the issues of telecommunications.

ITU fulfils its mission through initiatives aimed at promoting the growth and expansion of electronic commerce; a programme of strategic workshops; the adoption of international regulations and treaties governing uses of the frequency spectrum; the adoption of technical standards that foster global interconnectivity and interoperability and the provision of policy advice and technical assistance to developing countries.

ITU also organises world-wide and regional exhibitions and forums to exchange ideas, knowledge and technology.

*Secretary-General*, Yoshio Utsumi (Japan)

## LEAGUE OF ARAB STATES

Maidane Al-Tahrir, Cairo, Egypt

T (+20) (2) 575 0511 F (+20) (2) 574 0331

The purpose of the League of Arab States, founded in 1945, is to ensure co-operation among member states and protect their independence and sovereignty, to supervise the affairs and interests of Arab countries, to control the execution of agreements concluded among the member states, and to promote the process of integration among them. The League considers itself a regional organisation and has observer status at the United Nations.

Member states are Algeria, Bahrain, the Comoros, Djibouti, Egypt, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Palestine, Qatar, Saudi Arabia, Somalia, Sudan, Syria, Tunisia, the UAE and Yemen.

Member states participate in various specialised agencies of the League whose role is to develop specific areas of co-operation between Arab states. These include: the Arab Organisation for Mineral Resources; the Arab Monetary Fund; the Arab Satellite Communications Organisation; the Arab Academy of Maritime Transport; the Arab Bank for Economic Development in Africa; the Arab League Educational, Cultural and Scientific Organisation and the Council of Arab Economic Unity.

## MERCOSUR

Luis Piera 1992, piso 1, 11200-Montevideo, Uruguay

T (+598) (2) 402 9024 F (+598) (2) 400 0958

E [secretaria@mercosur.org.uy](mailto:secretaria@mercosur.org.uy)

W [www.mercosur.org.uy](http://www.mercosur.org.uy)

Brazil and Argentina signed a Treaty for Integration, Co-operation and Development in 1988 which aimed to create a common market between the two countries within ten years, with the elimination of all tariff barriers and harmonisation of macroeconomic policies; the agreement was to be open to other Latin American countries. Paraguay and Uruguay expressed their interest and MERCOSUR (the Southern Common Market) was created by the Treaty of Asunción, which was signed by the four countries on 26 March 1991. Chile became an associate member in 1996 and Bolivia in 1997.

The Common Market Council (CMC) is the highest-level agency of MERCOSUR, with authority to conduct its policy, and responsibility for compliance with the objects and time frames set forth in the Asunción Treaty. It comprises the ministers of foreign affairs and the

economy of the member states. Each country presides over the council for a period of six months, in rotating alphabetical order. The CMC meets at least once a year. The presidents of the member states can take part whenever possible.

The Common Market Group (CMG) is the executive body of MERCOSUR and is co-ordinated by the foreign ministries of the member states. Its function is to ensure compliance with the Asunción Treaty and to implement decisions made by the CMC, and where necessary, to help resolve disputes. It can establish subgroups to work on particular issues. It is composed of four permanent members and four substitutes from each country. It normally meets at least four times a year.

Other bodies include a Joint Parliamentary Committee, a Trade Commission and a Socio-economic Advisory Forum.

## NON-ALIGNED MOVEMENT

Permanent Representative to the UN, New York 10016, USA

T (+1) (212) 213 5583 F (+1) (212) 592 2498

W [www.nam.gov.za](http://www.nam.gov.za)

The Non-Aligned Movement (NAM) was created following a conference of non-aligned states held in Belgrade, Yugoslavia in September 1961. Members must be committed to the coexistence of states with different political and social systems, they must not be members of multinational military alliances allied to the great powers, and they should support national liberation movements.

NAM was set up to campaign for an end to colonialism, neo-colonialism, racism and occupation, the dissolution of military blocs, national self-determination for all countries and non-interference in internal affairs, north-south dialogue and political-economic co-operation in the third world (south-south relations) and a new world economic mechanism involving military disarmament and the use of the thereby freed means for development projects.

There are 117 members and 14 observers and about 28 further countries have guest status.

The chairmanship of NAM is held by the head of state of the country due to hold the following summit. The chairman is responsible for the promotion of the principles and activities of the movement and the country's ambassador to the UN represents the organisation at UN level.

## NORDIC COUNCIL

The Nordic Council was established in March 1952 as an advisory body on economic and social co-operation, comprising parliamentary delegates from Denmark, Iceland, Norway and Sweden. It was subsequently joined by Finland (1956), and representatives from the Faroes (1970), the Åland Islands (1970), and Greenland (1984).

Co-operation is regulated by the Treaty of Helsinki signed in 1962. This was amended in 1971 to create the Nordic Council of Ministers, which discusses all matters except defence and foreign affairs. Matters are given preparatory consideration by a Committee of Co-operation Ministers' Deputies and joint committees of officials. Decisions of the Council of Ministers, which are taken by consensus, are binding, although if ratification by member parliaments is required, decisions only become effective following parliamentary approval. The Council of Ministers is advised by the Nordic Council, to which it reports annually. There are Ministers for Nordic Co-operation in every member government.

The Nordic Council, comprising 87 voting delegates nominated from member parliaments and about 80 non-voting government representatives, meets at least once a year in plenary sessions. The full Council chooses a 13-member Praesidium, which conducts business between sessions. A Secretariat, headed by a Secretary-General, liaises with the Council of Ministers and provides administrative support. The Council of Ministers has a separate Secretariat.

W www.nafta-sec-alena.org

The leaders of Canada, Mexico and the USA signed the North American Free Trade Agreement (NAFTA) on 17 December 1992 in their respective capitals; it came into force on 1 January 1994 after being ratified by the legislatures of the three member states.

NAFTA aims to eliminate barriers to trade in goods and services, promote fair competition within the free trade area, protect and enforce intellectual property rights and create a framework for further co-operation. To achieve these aims, import tariffs and quotas are being removed, with the aim of achieving a free trade zone by 2008 at the latest.

The NAFTA Secretariat is composed of Canadian, Mexican and US sections. It is responsible for the administration of the dispute settlement provisions of the agreement, provides assistance to the Free Trade Commission and support for various committees and working groups, and facilitates the operation of the agreement.

## NORTH ATLANTIC TREATY ORGANISATION

Leopold III laan, Brussels B-1110, Belgium

T (+32) (2) 707 4111 F (+32) (2) 707 4579

E natodoc@hq.nato.int

W www.nato.int

The North Atlantic Treaty (Treaty of Washington) was signed in 1949 by Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the UK and the USA. Greece and Turkey

acceded to the Treaty in 1952, the Federal Republic of Germany in 1955 (the reunited Germany acceded in October 1990), Spain in 1982, and the Czech Republic, Hungary and Poland in 1999. Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia and Slovenia signed membership accords on 26 March 2003 and officially joined The North Atlantic Treaty Organisation (NATO) on 29 March 2004.

NATO is the structural framework for a political and military alliance designed to provide common security for its members through co-operation and consultation in political, military and economic as well as scientific and other non-military fields.

## STRUCTURE

The North Atlantic Council (NAC), chaired by the Secretary-General, is the highest authority of the Alliance and is composed of permanent representatives of the 26 member countries. It meets at ministerial level (foreign and/or defence ministers) at least twice a year. The permanent representatives (ambassadors) head national delegations of advisers and experts. The Defence Planning Committee (DPC) and the Nuclear Planning Group (NPG) are composed of representatives of all member countries except France (which does not participate in the integrated military structure). Both the DPC and the NPG also meet at ministerial level (defence ministers) at least twice a year. The NATO Secretary-General chairs the Council, the DPC and the NPG.

The senior military authority in NATO, under the Council and DPC, is the Military Committee composed of the Chief of Defence Staffs of each member country except Iceland, which has no military and is represented by a civilian. The Military Committee, which is assisted by an integrated international military staff, also meets in permanent session with permanent military representatives and is responsible for making recommendations to the Council and DPC on measures considered necessary for the common defence of the NATO area and for supplying guidance on military matters to the major NATO commanders. The Chairman of the Military Committee, elected for a period of two to three years, represents the committee on the Council.

The strategic area covered by the North Atlantic Treaty is divided between two major NATO commands (MNCs), European and Atlantic; and three major subordinate commands (MSCs) within Allied Command Europe, South, Central and North-West. There is also a Regional Planning Group (Canada and the United States).

The major NATO commanders are responsible for the development of defence plans for their respective areas, for the determination of force requirements and for the deployment and exercise of the forces under their command. The major NATO commanders report to the Military Committee. The 2002 Prague summit agreed to the reorganisation of NATO's command structure into two strategic commands, the (operational) Allied Command Operations (Europe) and the (functional) Allied Command Transformation (United States).

## POST COLD-WAR DEVELOPMENTS

The Euro-Atlantic Partnership Council (EAPC) was established in 1997 to develop closer security links with eastern European and former Soviet states. It focuses on defence planning, defence industry conversion, defence management and force structuring, and the democratic concepts of civilian-military relations. Its membership comprises the 26 NATO members and Albania, Armenia,

Austria, Azerbaijan, Belarus, Croatia, Finland, Georgia, Ireland, Kazakhstan, Kyrgyzstan, Macedonia, Moldova, Russia, Sweden, Switzerland, Tajikistan, Turkmenistan, Ukraine and Uzbekistan. Partnership for Peace (PfP) is the basis for practical security co-operation between NATO and individual partner countries in the fields of defence planning and budgeting, military exercises and civil emergency operations.

In 1997 NATO and Ukraine signed a charter establishing a programme of co-operation and consultation between them. NATO and Russia committed themselves to help build a stable, secure and undivided continent on the basis of partnership and mutual interest, when they signed the 1997 Founding Act on Mutual Relations, Co-operation and Security, which provided for the creation of a Permanent Joint Council, which meets at foreign minister level at least twice a year. In May 2002 agreement was reached on the establishment of the NATO-Russia Council in which Russia and the NATO member countries have an equal role in decision-making on policy to counter terrorism and other security threats. The Council meets every month with four ministerial-level meetings each year. The Mediterranean Dialogue, launched in 1994, aims to promote security and stability in the Mediterranean region and involves the NATO members plus Algeria, Egypt, Israel, Jordan, Mauritania, Morocco and Tunisia.

The development of a European Security and Defence Identity (ESDI), which would strengthen NATO's European pillar, was agreed at the 1999 Washington summit.

At the Washington summit a Defence Capabilities Initiative (DCI) was launched, which aims to improve defence capabilities and interoperability among Alliance forces to ensure the effectiveness of future multinational operations. A temporary High Level Steering Group (HLSG) was established to oversee the implementation of the DCI.

At the 2002 Prague summit a military concept for defence against terrorism was agreed, initiatives in the area of nuclear, biological and chemical weapons defence were endorsed and decisions were taken to strengthen NATO's defence against cyber attacks and to initiate a missile defence feasibility study.

#### NATO AND THE FORMER YUGOSLAVIA

In March 1999, NATO began air operations against military and industrial targets in Yugoslavia following the repression and ethnic cleansing of ethnic Albanians in Kosovo. Yugoslavia accepted a peace plan drawn up by NATO and Russia on 3 June 1999 and the withdrawal of Yugoslav forces from Kosovo took place between 10–20 June. On 12 June 1999, the NATO-led security force (KFOR) entered Kosovo to oversee the demilitarisation of the Kosovo Liberation Army (KLA), facilitate the return of over 850,000 refugees and provide humanitarian support. Demilitarisation of the KLA was completed on 20 September. KFOR remains in Kosovo providing assistance to the UN Mission in Kosovo (UNMIK) in creating a secure environment.

Following the brokering of a cease-fire to end fighting between ethnic Albanians and the Macedonian armed forces, NATO launched 'Operation Essential Harvest' on 22 August 2001 at the request of the Macedonian government. On 16 December 2002 'Operation Amber Fox/Task Force Fox' was replaced by 'Operation Allied Harmony', to provide support for international monitors and to assist the Macedonian government in taking

ownership of security throughout the country. 'Operation Allied Harmony' was terminated on 31 March 2003 and peacekeeping operations were handed over to the European Union.

11 SEPTEMBER 2001

Following the terrorist attacks on the USA on 11 September 2001, the NATO members immediately declared their solidarity with the USA and on 12 September formally invoked Article 5 of the Washington Treaty (which stipulates that an armed attack against one or more NATO members is to be considered an attack against all), declaring that the terrorist attack on the USA was an attack on the NATO alliance.

#### IRAQ WAR

On 19 February 2003, following a request by Turkey for defensive assistance in the event of a US-led war with Iraq, NATO's Defence and Planning Committee authorised deployment of surveillance aircraft and missile defences to help protect the country in the event of an attack on its territory or population. The deployment began on 20 February and was concluded on 16 April; the last elements of NATO forces deployed to Turkey left the country on 3 May 2003.

*Secretary-General and Chairman of the North Atlantic Council, of the DPC and of the NPG, Japp de hoop Schetto (Netherlands)*

#### ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

2 rue André-Pascal, F-75775 Paris

T (+33) (1) 4524 8200 F (+33) (1) 4524 8500

E [webmaster@oecd.org](mailto:webmaster@oecd.org)

W [www.oecd.org](http://www.oecd.org)

The Organisation for Economic Co-operation and Development (OECD) was formed in 1961 to replace the Organisation for European Economic Co-operation. It is the instrument for international co-operation among industrialised member countries on economic and social policies. Its objectives are to assist its member governments in the formulation and co-ordination of policies designed to achieve high, sustained economic growth while maintaining financial stability, to contribute to world trade on a multilateral basis and to stimulate members' aid to developing countries.

The members are Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Republic of Ireland, Italy, Japan, Republic of Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland, Turkey, the UK and the USA.

The Council is the supreme body of the organisation. It is composed of one representative for each member country and meets at permanent representative level under the chairmanship of the Secretary-General, and at ministerial level (usually once a year) under the chairmanship of a minister elected annually. Decisions and recommendations are adopted by the unanimous agreement of all members. Most of the OECD's work is undertaken in over 150 specialised committees and working parties. Five autonomous or semi-autonomous

bodies are associated in varying degrees to the Organisation: the Nuclear Energy Agency, the International Energy Agency, the Development Centre, the Centre for Educational Research and Innovation, and the European Conference of Ministers of Transport. These bodies, the committees and the Council are serviced by an international Secretariat headed by the Secretary-General. *Secretary-General*, Donald J. Johnston (Canada)  
*UK Permanent Representative*, David Lyscom

### ORGANISATION FOR SECURITY AND CO-OPERATION IN EUROPE

Kärntner Ring 5-7, A-1010 Vienna, Austria  
T (+43) (1) 514 36 180 F (+43) (1) 514 36 105  
E [info@osce.org](mailto:info@osce.org)  
W [www.osce.org](http://www.osce.org)

The Organisation for Security and Co-operation in Europe (OSCE) was launched in 1975 (as the Conference on Security and Co-operation in Europe (CSCE) under the Helsinki Final Act. This established agreements between NATO members, Warsaw Pact members, and neutral and non-aligned European countries covering security, co-operation and human rights.

The Charter of Paris for a New Europe, signed on 21 November 1990, committed members to support multiparty democracy, free-market economics, the rule of law, and human rights. The signatories also agreed to regular meetings of heads of government, ministers and officials. The first institutionalised heads of state and government summit was held in Helsinki in December 1992, at which the Helsinki Document was adopted. This declared the CSCE to be a regional organisation and defined the structures of the organisation. The summit also appointed a High Commissioner on National Minorities. At its December 1994 summit the CSCE was renamed the Organisation for Security and Co-operation in Europe.

Three structures have been established: the Ministerial Council, which comprises the foreign ministers of participating states and is the central decision-making and governing body, and which meets at least once a year; the Senior Council, which prepares work for the Ministerial Council, carries out its decisions and is responsible for the overview, management and co-ordination of OSCE activities and meets at least three times a year; and the Permanent Council, which is responsible for the day-to-day operational tasks of the OSCE and is the regular body for political consultation, meeting weekly. The chairmanship of the Ministerial Council, Senior Council and Permanent Council rotates among participating states with the Senior Council meeting in Prague and the Permanent Council in Vienna.

The OSCE is also underpinned by four permanent institutions: a Secretariat (Vienna); an Office for Democratic Institutions and Human Rights (Warsaw), which is charged with furthering human rights, democracy and the rule of law; an office of the High Commissioner on National Minorities (The Hague), which identifies ethnic tensions that might endanger peace and promotes their resolution; and a Representative on Freedom of the Media (Vienna), which is responsible for assisting governments in the furthering of free, independent and pluralistic media. There is also a documentation and conference centre in Prague, an OSCE Parliamentary Assembly with a secretariat based in Copenhagen, and a Court of Conciliation and Arbitration in Geneva.

The OSCE has monitoring missions in 16 OSCE countries. The OSCE supervised all elections in Bosnia-Herzegovina between 1996 and 2000 and in Kosovo since 2000. A Joint Consultative Group of the OSCE promotes the objectives and implementation of the Conventional Armed Forces in Europe (CFE) Treaty (1990) which limits conventional ground and air forces. In November 1999, the Charter on European Security committed the OSCE to co-operate with other organisations and institutions concerned with the promotion of security within the OSCE area. The OSCE has 55 participating states.

*Chair of the OSCE*, Bulgaria (2004); Slovenia (2005)  
*Chairman-in-Office*, Dr. Solomon Passy (Bulgaria)

### ORGANISATION OF AMERICAN STATES

17th Street and Constitution Avenue NW, Washington  
DC 20006, USA  
T (+1) (202) 458 3000 F (+1) (202) 458 6421  
E [pi@oas.org](mailto:pi@oas.org)  
W [www.oas.org](http://www.oas.org)

Originally founded in 1890 for largely commercial purposes, the Organisation of American States (OAS) adopted its present name and charter in 1948. The charter entered into force in 1951 and was amended in 1967, 1985 and 1996; the 1992 Protocol of Washington, which gives the OAS the right to suspend a member state whose democratically elected government is overturned by force, was ratified in 1997.

The OAS aims to strengthen the peace and security of the continent; to promote and consolidate representative democracy with due respect for the principle of non-intervention; to prevent possible causes of difficulties and to ensure the peaceful resolution of disputes arising among its member states; to provide for common action on the part of those states in the event of aggression; to seek the resolution of political, judicial and economic problems that may arise among them; to promote, by co-operative action, their economic, social and cultural development; and to achieve an effective limitation of conventional weapons so that resources can be devoted to economic and social development.

The Declaration of Principles and the Plan of Action resulting from the 1994 Miami summit and signed by all the members except Cuba, envisage the establishment of a free trade area, in which barriers to trade and investment will be progressively eliminated.

Policy is determined by the annual General Assembly, which is the supreme authority and elects the Secretary-General for a five-year term. The Meeting of Consultation of ministers of foreign affairs considers urgent problems on an *ad hoc* basis. The Permanent Council, comprising one representative from each member state, promotes friendly inter-state relations, acts as an intermediary in case of disputes arising between states and oversees the General Secretariat, the main administrative body. The Inter-American Council for Integral Development was created in 1996 by the ratification of the Protocol of Managua to promote sustainable development.

The 35 member states are Antigua and Barbuda, Argentina, the Bahamas, Barbados, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, St Christopher and Nevis, St Lucia, St Vincent and the Grenadines, Suriname, Trinidad and Tobago, Uruguay, the USA and Venezuela.

The European Union and 58 non-American states have permanent observer status.

*Secretary-General*, Dr César Gaviria Trujillo (Colombia)

## ORGANISATION OF ARAB PETROLEUM EXPORTING COUNTRIES

PO Box 20501, Safat 13066, Kuwait  
 T (+965) 484 4500 F (+965) 481 5747  
 E oapec@qualitynet.net  
 W www.oapecorg.org

The Organisation of Arab Petroleum Exporting Countries (OAPEC) was founded in 1968. Its objectives are to promote co-operation in economic activities, to safeguard members' interests, to unite efforts to ensure the flow of oil to consumer markets, and to create a favourable climate for the investment of capital and expertise.

The Ministerial Council is composed of oil ministers from the member countries and meets twice a year to determine policy and to approve the budgets and accounts of the General Secretariat and the Judicial Tribunal. The Judicial Tribunal is composed of seven part-time judges who rule on disputes between member countries and disputes between countries and oil companies. The executive organ of OAPEC is the General Secretariat.

The members are Algeria, Bahrain, Egypt, Iraq, Kuwait, Libya, Qatar, Saudi Arabia, Syria and the United Arab Emirates. Tunisia's membership has been inactive since 1987.

*Secretary-General*, Abdel-Aziz A. Al-Turki

## ORGANISATION OF THE BLACK SEA ECONOMIC CO-OPERATION

Permanent International Secretariat, Istinye Caddesi, Mûsir Fuad Pasa Yalısı, Eski Tersane, 34460 İstinye-İstanbul, Turkey  
 T (+90) (212) 229 6330/6335 F (+90) (212) 229 6336  
 E bsec@turk.net  
 W www.bsec-organization.org

The Black Sea Economic Co-operation (BSEC) resulted from the Istanbul Summit Declaration and the adoption of the Bosphorus Statement on 25 June 1992. BSEC acquired a permanent secretariat in 1994. Following the Yalta Summit of the Heads of State or Government in June 1998, a charter was drawn up to found the Organisation of the Black Sea Economic Co-operation, which was inaugurated on 1 May 1999.

The organisation aims to promote closer political and economic co-operation in the context of the European integration process between the countries in the Black Sea region and to foster security, regional initiatives, social justice, economic liberty and respect for human rights.

The Council of the Ministers of Foreign Affairs, the highest decision-making authority, meets twice yearly. The meetings rotate among the member states and the chairman is the foreign minister of the state in which the meeting is held. There is also a Committee of Senior Officials and 15 working groups, which deal with specific areas of co-operation.

There are 11 member states: Albania, Armenia, Azerbaijan, Bulgaria, Georgia, Greece, Moldova, Romania, Russia, Turkey and Ukraine.

*Secretary-General*, Valeri Chechelashvili (Georgia)

## ORGANISATION OF THE ISLAMIC CONFERENCE

PO Box 178, Jeddah 21411, Saudi Arabia

 W www.oic-oci.org

The Organisation of the Islamic Conference (OIC) was established in 1969 with the purpose of promoting solidarity and co-operation between Islamic countries. It also has the specific aims of co-ordinating efforts to safeguard the Muslim holy places, supporting the formation of a Palestinian state, assisting member states to maintain their independence, co-ordinating the views of member states in international forums such as the UN, and improving co-operation in the economic, cultural and scientific fields.

The OIC has three central organs, supreme among them the Conference of the Heads of State which meets once every three years to discuss issues of importance to Islamic states. The Conference of Foreign Ministers meets annually to prepare reports for the Conference of Heads of State. The General Secretariat carries out administrative tasks. It is headed by a Secretary-General who is elected by the Conference of Foreign Ministers for a non-renewable four-year term.

In addition to this structure, the OIC has several subsidiary bodies, specialised institutions, affiliated bodies and standing committees. These include the Islamic Solidarity Fund, to aid Islamic institutions in member countries, the Islamic Development Bank, to finance development projects in poorer member states and the Islamic Educational, Scientific and Cultural Organisation. The OIC runs various offices to organise the economic boycott of Israel.

The achievement of the OIC's aims has often been prevented by political rivalry and conflicts between member states, such as the Iran-Iraq war and the Iraqi invasion of Kuwait. Egypt's membership was suspended from 1979 to 1984 because of its peace treaty with Israel. Saudi Arabia, the main source of funding, exercises great influence within the OIC. Since 1991 the OIC has become more united and has spoken out against violence against Muslims in India, the Occupied Territories and Bosnia-Herzegovina. From 1993 to 1995 the OIC co-ordinated the offering of troops to the UN by Muslim states to protect Muslim areas of Bosnia-Herzegovina.

The Organisation has 56 members (55 sovereign Muslim states in Africa, the Middle East, central and south-east Asia and Europe, plus the Palestine Liberation Organisation) and three observers, the Central African Republic, Turkish Northern Cyprus and Cote d'Ivoire. It has an annual budget of US\$11 million.

*Secretary-General*, Dr Abdelouahed Belkeziz (Morocco)

## ORGANISATION OF THE PETROLEUM EXPORTING COUNTRIES

Obere Donaustrasse 93, A-1020 Vienna, Austria  
 T (+43) (1) 21112 279 F (+43) (1) 214 9827  
 E prid@opec.org  
 W www.opec.org

The Organisation of the Petroleum Exporting Countries (OPEC) was created in 1960 as a permanent intergovernmental organisation with the principal aims of unifying and co-ordinating the petroleum policies of its members, determining ways of protecting their interests individually and collectively, and ensuring the

stabilisation of prices in international oil markets with a view to eliminating unnecessary fluctuations. Since 1982 OPEC has attempted (only partially successfully) to impose overall production limits and production quotas in an attempt to maintain stable oil prices.

The supreme authority is the Conference of Ministers of oil, mines and energy of member countries, which meets at least twice a year to formulate policy. The Board of Governors, nominated by member countries, directs the management of OPEC and implements conference resolutions. The Secretariat carries out executive functions under the direction of the Board of Governors.

The member states are Algeria, Indonesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, the UAE and Venezuela. Ecuador withdrew in 1992 and Gabon in 1995.

OPEC member countries account for about 40 per cent of global crude oil production and 48 per cent of internationally traded crude oil, and have 80 per cent of the world's proven oil reserves. The value of OPEC oil exports in 2003 was US\$258 billion.

*Secretary-General*, HE Dr Purnomo Yugiantoro  
(Indonesia)

### PACIFIC ISLANDS FORUM

Secretariat, Private Mail 8ag, Suva, Fiji  
T (+679) 331 2600 F (+679) 330 5573  
E info@forumsec.org.fj  
W www.forumsec.org.fj

The Pacific Islands Forum (PIF) was established in 1971 and represents heads of governments of all the independent and self-governing Pacific Island countries. It aims to foster co-operation between its governments and to represent the interests of the region in international organisations. The PIF meets annually, following which a dialogue is conducted at ministerial level with the Forum dialogue partners (Canada, China, the European Union, France, India, Indonesia, Japan, Korea, Malaysia, the Philippines, the UK and the USA).

The members of the PIF are Australia, the Cook Islands, Micronesia, Fiji, Kiribati, Nauru, New Zealand, Niue, Palau, Papua New Guinea, the Marshall Islands, Samoa, the Solomon Islands, Tonga, Tuvalu and Vanuatu.

The PIF Secretariat comprises divisions dealing with development and economic policy, trade and investment, political and international affairs, and corporate services.

*Secretary-General*, Gregory Lawrence Urwin (Australia)

### SECRETARIAT OF THE PACIFIC COMMUNITY

BP D5, 98848 Nouméa Cedex, New Caledonia  
T (+687) 262000 F (+687) 263818  
E spc@spc.int  
W www.spc.int

The Secretariat of the Pacific Community (formerly the South Pacific Commission) was established in 1947 by Australia, France, the Netherlands, New Zealand, the UK and the USA with the aim of promoting the economic and social stability of the islands in the region. The Community now numbers 27 member states and territories: the five remaining founder states (the Netherlands has withdrawn), in which no programmes are run, and the other 22 states and territories of Melanesia, Micronesia and Polynesia.

The Secretariat of the Pacific Community (SPC) is a technical assistance agency with programmes in marine

resources (coastal and oceanic fisheries; maritime programme), land resources (agriculture, animal health and plant protection; forestry) and social resources (community health; socio-economic and statistical services; community education services). The governing body is the Conference of the Pacific Community, which meets every two years.

*Director-General*, Lourdes Pangelinan (Guam)

### SOUTH ASIAN ASSOCIATION FOR REGIONAL CO-OPERATION

PO Box 4222, Kathmandu, Nepal  
T (+977) (1) 4221794/4221785 F (+977) (1) 4227033/4223991  
E saarc@saarc-sec.org  
W www.saarc-sec.org

The South Asian Association for Regional Co-operation (SAARC) was established in 1985 by Bangladesh, Bhutan, India, the Maldives, Nepal, Pakistan and Sri Lanka. Its primary objective is the acceleration of the process of economic and social development in member states through collective action in agreed areas of co-operation. These include agriculture and rural development, human resource development, environment, meteorology and forestry, science and technology, transport and communications, energy, and social development.

A SAARC Preferential Trading Arrangement (SAPTA), which is designed to reduce tariffs on trade between SAARC member states, was signed in 1993 and entered into force in December 1995. A committee of experts was established in 1998 to draft a comprehensive treaty to create a South Asian Free Trade Area (SAFTA). Agreement was reached in January 2002 to work towards the establishment of a South Asian economic union.

The highest authority rests with the heads of state or government of each member state. The Council of Ministers, which meets twice a year, is made up of the foreign ministers of the member states; it is responsible for formulating policy and considering new projects. The Standing Committee is composed of the foreign secretaries of the member states and monitors and co-ordinates SAARC programmes; it meets twice a year. Technical committees are responsible for individual areas of SAARC's activities. The Secretariat co-ordinates, monitors, facilitates and promotes SAARC's activities and serves as a channel of communication between the association and other regional and intergovernmental institutions.

*Secretary-General*, Q. A. M. A. Rahim (Bangladesh)

### SOUTHERN AFRICAN DEVELOPMENT COMMUNITY

Private Bag 0095, Gaborone, Botswana  
T (+267) 351 863 F (+267) 372 848  
E sadcsec@sadc.int  
W www.sadc.int

The Southern African Development Community (SADC) was formed in August 1992 by the members of its predecessor, the Southern African Development Co-ordination Conference, founded in 1980 to harmonise economic development among the countries in Southern Africa and reduce their dependence on South Africa. The SADC now comprises 14 countries, including South Africa, and works on a regional basis to increase economic integration and regional security.

It aims to evolve common political values, systems and

institutions, to promote development and economic growth, regional security, self-sustaining development and the interdependence of member states, and to maximise production and strengthen and consolidate the historical, social and cultural links among the peoples of the region.

The headquarters of the SADC is in Gaborone, Botswana, but member states each have a responsibility for an area of economic activity.

*Executive Secretary*, Dr Prega Ramsamy  
*Chairman*, José Eduardo dos Santos (Angola)

## UNITED NATIONS

UN Plaza, New York, NY 10017, USA

T (+1) (212) 963 1234

W www.un.org

The United Nations (UN) is an intergovernmental organisation of member states, dedicated through signature of the UN Charter to the maintenance of international peace and security and the solution of economic, social and political problems through international co-operation.

The UN was founded as a successor to the League of Nations and inherited many of its procedures and institutions. The name 'United Nations' was first used in the Washington Declaration 1942 to describe the 26 states that had allied to fight the Axis powers. The UN Charter developed from discussions at the Moscow Conference of the foreign ministers of China, the UK, the USA and the Soviet Union in 1943. Further progress was made at Dumbarton Oaks, Washington, in 1944 during talks involving the same states. The role of the Security Council was formulated at the Yalta Conference in 1945. The Charter was formally drawn up by 50 allied nations at the San Francisco Conference between April and 26 June 1945, when it was signed. Following ratification the UN came into effect on 24 October 1945, which is celebrated annually as United Nations Day. The UN flag is light blue with the UN emblem centred in white.

The principal organs of the UN are the General Assembly, the Security Council, the Economic and Social Council, the Trusteeship Council, the Secretariat and the International Court of Justice. The Economic and Social Council and the Trusteeship Council are auxiliaries, charged with assisting and advising the General Assembly and Security Council. The official languages used are Arabic, Chinese, English, French, Russian and Spanish. Deliberations at the International Court of Justice are in English and French only.

A Millennium summit was held in New York on 6–8 September 2000 at which the reform of the UN was debated and an attempt was made to redefine its role.

## MEMBERSHIP

Membership is open to all countries which accept the Charter and its principle of peaceful co-existence. New members are admitted by the General Assembly on the recommendation of the Security Council. The original membership of 51 states has grown to 191.

Afghanistan; Albania; Algeria; Andorra; Angola; Antigua and Barbuda; Argentina\*; Armenia; Australia\*; Austria; Azerbaijan; Bahamas; Bahrain; Bangladesh; Barbados; Belarus\*; Belgium\*; Belize; Benin; Bhutan; Bolivia\*; Bosnia-Herzegovina; Botswana; Brazil\*; Brunei Darussalam; Bulgaria; Burkina Faso; Burundi; Cambodia; Cameroon; Canada\*; Cape Verde; Central African Republic; Chad; Chile\*; China\*; Colombia\*; Comoros;

Congo; Costa Rica\*; Côte d'Ivoire; Croatia; Cuba\*; Cyprus; Czech Republic; Democratic People's Republic of Korea; Democratic Republic of the Congo; Denmark\*; Djibouti; Dominica; Dominican Republic\*; Ecuador\*; Egypt\*; El Salvador\*; Equatorial Guinea; Eritrea; Estonia; Ethiopia\*; Fiji; Finland; France\*; Gabon; Gambia; Georgia; Germany; Ghana; Greece\*; Grenada; Guatemala\*; Guinea; Guinea-Bissau; Guyana; Haiti\*; Honduras\*; Hungary; Iceland; India\*; Indonesia; Iran\*; Iraq\*; Ireland; Israel; Italy; Jamaica; Japan; Jordan; Kazakhstan; Kenya; Kiribati; Korea, Democratic People's Republic of; Korea, Republic of; Kuwait; Kyrgyzstan; Laos; Latvia; Lebanon\*; Lesotho; Liberia\*; Libya; Liechtenstein; Lithuania; Luxembourg\*; Macedonia; Madagascar; Malawi; Malaysia; Maldives; Mali; Malta; Marshall Islands; Mauritania; Mauritius; Mexico\*; Micronesia (Federated States of); Moldova; Monaco; Mongolia; Morocco; Mozambique; Myanmar; Namibia; Nauru; Nepal; Netherlands\*; New Zealand\*; Nicaragua\*; Niger; Nigeria; Norway\*; Oman; Pakistan; Palau; Panama\*; Papua New Guinea; Paraguay\*; Peru\*; Philippines\*; Poland\*; Portugal; Qatar; Romania; Russia\*; Rwanda; St Christopher and Nevis; St Lucia; St Vincent and the Grenadines; Samoa; San Marino; São Tomé and Príncipe; Saudi Arabia\*; Senegal; Serbia and Montenegro; Seychelles; Sierra Leone; Singapore; Slovakia; Slovenia; Solomon Islands; Somalia; South Africa\*; Spain; Sri Lanka; Sudan; Suriname; Swaziland; Sweden; Syrian Arab Republic\*; Tajikistan; Tanzania; Thailand; Togo; Tonga; Trinidad and Tobago; Tunisia; Turkey\*; Turkmenistan; Tuvalu; Uganda; Ukraine\*; United Arab Emirates; United Kingdom\*; United States of America\*; Uruguay\*; Uzbekistan; Vanuatu; Venezuela\*; Vietnam; Yemen; Zambia; Zimbabwe.

\*Original member (i.e. from 1945). Czechoslovakia, Yugoslavia and the USSR were all original members until their dissolution.

## OBSERVERS

Permanent observer status is held by the Holy See. The Palestine Liberation Organisation has special observer status.

## THE GENERAL ASSEMBLY

UN Plaza, New York, NY 10017, USA

The General Assembly is the main deliberative organ of the UN. It consists of all members, each entitled to five representatives but having only one vote. The annual session begins on the third Tuesday of September, when the President is elected, and usually continues until mid-December. Special sessions are held on specific issues and emergency special sessions can be called within 24 hours.

The Assembly is empowered to discuss any matter within the scope of the Charter, except when it is under consideration by the Security Council, and to make recommendations. Under the 'uniting for peace' resolution, adopted in 1950, the Assembly may also take action to maintain international peace and security when the Security Council fails to do so because of a lack of unanimity of its permanent members. Important decisions, such as those on peace and security, the election of officers, the budget, etc., need a two-thirds majority. Others need a simple majority. The Assembly has effective power only over the internal operations of the UN itself; external recommendations are not legally binding.

The work of the General Assembly is divided among six main committees, on each of which every member

has the right to be represented: disarmament and international security; economic and financial; social, humanitarian and cultural; special political issues and decolonisation (including non-self governing territories); administrative and budgetary; and legal. In addition, the General Assembly appoints *ad hoc* committees to consider special issues, such as human rights, peacekeeping, disarmament and international law. All committees consider items referred to them by the Assembly and recommend draft resolutions to its plenary meeting.

The Assembly is assisted by a number of functional committees. The General Committee co-ordinates its proceedings and operations, while the Credentials Committee verifies the credentials of representatives. There are also two standing committees, the Advisory Committee on Administration and Budgetary Questions and the Committee on Contributions, which suggests the scale of members' payments to the UN.

*President of the General Assembly (2004–5), Julian R. Hunte*

The Assembly has created a large number of specialised bodies over the years, which are supervised jointly with the Economic and Social Council. They are supported by UN and voluntary contributions from governments, non-governmental organisations and individuals. These organisations include:

#### CONFERENCE ON DISARMAMENT

Palais des Nations, CH-1211 Geneva 10, Switzerland

Established by the UN as the Committee on Disarmament in 1962, the CD is the single multilateral disarmament negotiating forum. The present title of the organisation was adopted in 1984. There are 66 members.

A Chemical Weapons Convention was agreed in Paris in 1993 and came into force in April 1997 after being ratified by 87 countries. It bans the use, production, stockpiling and transfer of all chemical weapons. All US and Russian weapons must be destroyed within 15 years of the Convention entering into force and all other states' weapons must be destroyed within ten years.

#### THE UNITED NATIONS CHILDREN'S FUND (UNICEF)

3 UN Plaza, New York, NY 10017, USA

Established in 1947 to assist children and mothers in the immediate post-war period, UNICEF now concentrates on developing countries. It provides primary healthcare and health education. In particular, it conducts programmes in oral hydration, immunisation against leading diseases, child growth monitoring and the encouragement of breast-feeding. Its operations are often conducted in co-operation with the World Health Organisation (WHO).

#### THE UNITED NATIONS DEVELOPMENT PROGRAMME (UNDP)

1 UN Plaza, New York, NY 10017, USA

Established in 1966 from the merger of the UN Expanded Programme of Technical Assistance and the UN Special Fund, UNDP is the central funding agency for economic and social development projects around the world. Much of its annual expenditure is channelled through UN specialised agencies, governments and non-governmental organisations.

#### THE UNITED NATIONS HIGH COMMISSIONER FOR REFUGEES (UNHCR)

94 rue Montbrillant, PO Box 2500, CH-1211 Geneva 2, Switzerland

Established in 1951 to protect the rights and interests of refugees, UNHCR organises emergency relief and longer-term solutions, such as voluntary repatriation, local integration or resettlement.

#### THE UN RELIEF AND WORKS AGENCY FOR PALESTINE REFUGEES IN THE NEAR EAST (UNRWA)

Vienna International Centre, Wagramerstrasse 5, PO Box 700, A-1400 Vienna, Austria

Established in 1949 to bring relief to the Palestinians displaced by the Arab-Israeli conflict.

#### THE UNITED NATIONS HIGH COMMISSIONER FOR HUMAN RIGHTS

Established in 1993 to secure respect for, and prevent violations of human rights by engaging in dialogue with governments and international organisations. Responsible for the co-ordination of all UN human rights activities.

#### THE SECURITY COUNCIL

UN Plaza, New York, NY 10017, USA

The Security Council is the senior arm of the UN and has the primary responsibility for maintaining world peace and security. It consists of 15 members, each with one representative and one vote. There are five permanent members, China, France, Russia, the UK and the USA, and ten non-permanent members. Each of the non-permanent members is elected for a two-year term by a two-thirds majority of the General Assembly and is ineligible for immediate re-election. Five of the elective seats are allocated to Africa and Asia, one to eastern Europe, two to Latin America and two to western Europe and remaining countries. Procedural questions are determined by a majority vote. Other matters require a majority inclusive of the votes of the permanent members; they thus have a right of veto. The abstention of a permanent member does not constitute a veto. The presidency rotates each month by state in (English) alphabetical order. Parties to a dispute, other non-members and individuals can be invited to participate in Security Council debates but are not permitted to vote.

The Security Council is empowered to settle or adjudicate in disputes or situations which threaten international peace and security. It can adopt political, economic and military measures to achieve this end. Any matter considered to be a threat to or breach of the peace or an act of aggression can be brought to the Security Council's attention by any member state or by the Secretary-General. The Charter envisaged members placing at the disposal of the Security Council armed forces and other facilities which would be co-ordinated by the Military Staff Committee, composed of military representatives of the five permanent members. The Security Council is also supported by a Committee of Experts, to advise on procedural and technical matters, and a Committee on Admission of New Members.

Owing to superpower disunity, the Security Council rarely played the decisive role set out in the Charter; the Military Staff Committee was effectively suspended from 1948 until 1990, when a meeting was convened during the Gulf Crisis on the formation and control of

UN-supervised armed forces. However, at an extraordinary meeting of the Security Council in January 1992, heads of government laid plans to transform the UN in light of the changed post-Cold War world. The Secretary-General was asked to draw up a report on enhancing the UN's preventive diplomacy, peacemaking and peacekeeping ability. The report, *An Agenda for Peace*, was produced in June 1992 and centred on the establishment of a UN army composed of national contingents on permanent standby, as envisaged at the time of the UN's formation.

#### PEACEKEEPING FORCES

The Security Council has established a number of peacekeeping forces since its foundation, comprising contingents provided mainly by neutral and non-aligned UN members. Current operations include: the UN Truce Supervision Organisation (UNTSO), Israel, 1948; the UN Military Observer Group in India and Pakistan (UNMOGIP), 1949; the UN Peacekeeping Force in Cyprus (UNFICYP), 1964; the UN Disengagement Observer Force (UNDOF), Golan Heights, Syria, 1974; the UN Interim Force in Lebanon (UNIFIL), 1978; the UN Mission for the Referendum in Western Sahara (MINURSO), 1991; the UN Observer Mission in Georgia (UNOMIG), 1993; the United Nations Interim Administration Mission in Kosovo (UNMIK), 1999; the United Nations Mission in Sierra Leone (UNAMISIL), 1999; the United Nations Organisation Mission in the Democratic Republic of the Congo (MONUC), 1999; the United Nations Mission in Ethiopia and Eritrea (UNMEE), 2000; the United Nations Mission of Support in East Timor (UNMISSET), 2002; the United Nations Mission in Cote d'Ivoire (MINUCI), 2003 (replaced by the United Nations Operations in Cote d'Ivoire (UNOCI) in April 2004).

#### THE ECONOMIC AND SOCIAL COUNCIL

UN Plaza, New York, NY 10017, USA

The Economic and Social Council is responsible under the General Assembly for the economic and social work of the UN and for the co-ordination of the activities of the 15 specialised agencies and other UN bodies. It makes reports and recommendations on economic, social, cultural, educational, health and related matters, often in consultation with non-governmental organisations, passing the reports to the General Assembly and other UN bodies. It also drafts conventions for submission to the Assembly and calls conferences on matters within its remit.

The Council consists of 54 members, 18 of whom are elected annually by the General Assembly for a three-year term. Each has one vote and can be immediately re-elected on retirement. A President is elected annually and is also eligible for re-election. One substantive session is held annually and decisions are reached by simple majority vote of those present.

The Council has established a number of standing committees on particular issues and several commissions. Commissions include: Statistical, Human Rights, Social Development, Sustainable Development, Status of Women, Crime Prevention and Criminal Justice, Narcotic Drugs, Science and Technology for Development and Population; and Regional Economic Commissions for Europe, Asia and the Pacific, Western Asia, Latin America and Africa.

#### THE TRUSTEESHIP COUNCIL

UN Plaza, New York, NY 10017, USA

With the independence of the Republic of Palau in October 1994, all eleven trusteeships have now progressed to independence or merged with neighbouring states and the Trusteeship Council suspended its operations on 1 November 1994.

#### THE SECRETARIAT

UN Plaza, New York, NY 10017, USA

The Secretariat services the other UN organs and is headed by a Secretary-General elected by a majority vote of the General Assembly on the recommendation of the Security Council. He is assisted by an international staff, chosen to represent the international character of the organisation. The Secretary-General is charged with bringing to the attention of the Security Council any matter which he considers poses a threat to international peace and security. He may also bring other matters to the attention of the General Assembly and other UN bodies and may be entrusted by them with additional duties. As chief administrator to the UN, the Secretary-General is present in person or via representatives at all meetings of the other five main organs of the UN. He may also act as an impartial mediator in disputes between member states.

The power and influence of the Secretary-General has been determined largely by the character of the office-holder and by the state of relations between the superpowers. The thaw in these relations since the mid-1980s has increased the effectiveness of the UN, particularly in its attempts to intervene in international disputes. It helped to end the Iran-Iraq war and sponsored peace in Central America. Following Iraq's invasion of Kuwait in 1990 the UN took its first collective security action since the Korean War. Conflicts in Cyprus, East Timor, Libya, Nigeria and Western Sahara have been successfully prevented from escalating or spreading during Kofi Annan's time in office. In addition to maintenance of international security, ending poverty and inequality, improving education, reducing HIV/AIDS and safeguarding the environment were some of the issues outlined in the UN Millennium Report.

*Secretary-General*, Kofi Annan, apptd 1996 (Ghana)

*Deputy Secretary-General*, Louise Frechette

#### FORMER SECRETARIES-GENERAL

1946–53	Trygve Lie (Norway)
1953–61	Dag Hammarskjöld (Sweden)
1961–71	U Thant (Burma)
1971–81	Kurt Waldheim (Austria)
1981–91	Javier Pérez de Cuéllar (Peru)
1991–96	Boutros Boutros-Ghali (Egypt)

#### INTERNATIONAL COURT OF JUSTICE

The Peace Palace, NL-2517 KJ The Hague, The Netherlands

The International Court of Justice is the principal judicial organ of the UN. The Statute of the Court is an integral part of the Charter and all members of the UN are ipso facto parties to it. The Court is composed of 15 judges, elected by both the General Assembly and the Security Council for nine-year terms which are renewable. Judges may deliberate over cases in which their country is involved. If no judge on the bench is from a country which is a party to a dispute under consideration, that party may designate a judge to participate ad hoc in that

particular deliberation. If any party to a case fails to adhere to the judgement of the Court, the other party may have recourse to the Security Council.

*President*, Shi Jiuyong (China)

*Vice-President*, Raymond Ranjeva (Madagascar)

*Judges*, Rosalyn Higgins (UK); Pieter H. Kooijmans (Netherlands); Abdul G. Koroma (Sierra Leone); Gonzalo Parra-Aranguren (Venezuela); José Francisco Rezek (Brazil); Vladlen S. Vereshchetin (Russia); Awn Shawkat Al-Khasawneh (Jordan); Thomas Buergenthal (USA); Gilbert Guillaume (France); Nabil Elaraby (Egypt); Hisashi Owada (Japan); Bruno Simma (Germany); Peter Tomka (Slovakia)

#### INTERNATIONAL CRIMINAL TRIBUNAL FOR THE FORMER YUGOSLAVIA

Churchill Plein 1, PO Box 13888, NL-2501 EW The Hague, The Netherlands

In February 1993, the Security Council voted to establish a war crimes tribunal for the former Yugoslavia to hear cases covering grave breaches of the Geneva Conventions and crimes against humanity. The Court was inaugurated in November 1993 in The Hague with 11 judges elected by the UN General Assembly from 11 states, divided into two trial chambers of three judges each and an appeal chamber of five judges. The court is unable to force suspects to stand trial but is empowered to pass verdicts in the absence of suspects and can put suspects under an 'act of accusation' which prevents them from leaving their own country.

In October 1995, the tribunal formally charged the Bosnian Serb leaders Radovan Karadžić and Gen. Ratko Mladić, the Croatian Serb President Milan Martić and 21 others with genocide and crimes against humanity. By January 1997 only one of the 75 suspected war criminals to be indicted had been imprisoned. In May 1999, the tribunal formally charged the Yugoslav president Slobodan Milošević, the Serbian president Milan Milutinović, two other Serb politicians and the Yugoslav armed forces chief of staff Dragoljub Ojdanić.

For up-to-date information regarding indictments and judgements of the Tribunal, visit [www.un.org/icty](http://www.un.org/icty)

*President*, Theodor Meron (United States)

#### INTERNATIONAL CRIMINAL TRIBUNAL FOR RWANDA

Following serious violations of humanitarian law in Rwanda, the United Nations Security Council created the International Criminal Tribunal for Rwanda (ICTR) on 8 November 1994. The purpose of this measure was to contribute to the process of national reconciliation in Rwanda and to the maintenance of peace in the region. The tribunal was established for the prosecution of persons responsible for genocide and other serious violations of international humanitarian law committed in the territory of Rwanda between 1 January 1994 and 31 December 1994. It may also deal with the prosecution of Rwandan citizens responsible for genocide and other such violations of international law committed in the territory of neighbouring states during the same period.

*President*, Judge Erik Mose (Norway)

#### UNITED NATIONS MONITORING, VERIFICATION AND INSPECTION COMMISSION

Room 5-3120, New York, NY 10017, USA  
T (+1) (212) 963 3018 F (+1) (212) 963 3922  
W [www.unmovic.org](http://www.unmovic.org)

The United Nations Monitoring, Verification and Inspection Commission (UNMOVIC), was created by UN Security Council Resolution 1284, adopted in December 1999.

UNMOVIC is mandated to verify Iraq's compliance with its obligation not to possess or acquire weapons of mass destruction (biological or chemical weapons of mass destruction, together with ballistic missiles with a target distance of more than 150 km), to destroy all research, development and production facilities and to desist from the future development or acquisition of such weapons and operate a monitoring and verification programme to ensure that prohibited items and programmes are not reactivated.

In January 2003, three months after UN weapons inspectors were re-admitted, Dr Blix stated that Iraq had failed to disarm, greatly strengthening the American and British case for war. He insisted, however, that the weapons inspectors be given more time. US president George Bush presented the deadline of 17 March 2003 for Iraq to disarm and the UN removed all their staff from the region. A second UN resolution was not granted and on 19 March 2003 airstrikes led by the USA began against Baghdad without UN backing. In the thirteenth quarterly report of UNMOVIC, covering March to May 2003, Hans Blix stated that the Commission had at no point during the inspections in Iraq found evidence of the continuation or resumption of programmes of weapons of mass destruction or significant quantity of proscribed items – whether pre-1991 or after. He stressed that this did not mean that such items could not exist as there remained long lists of unaccounted items.

In resolution 1483 (May 2003) lifting Iraqi economic sanctions, the Security Council declared its intention to revisit the mandate of UNMOVIC, which remains ready to resume its work in Iraq. In July 2003 Kofi Annan announced the appointment of a new Executive Chairman to replace Hans Blix.

The United Nations Educational, Scientific and Cultural Organisation (UNESCO) was established in 1946. It promotes collaboration among its member states in education, science, culture and communication. It aims to further a universal respect for human rights, justice and the rule of law, without distinction of race, sex, language or religion, in accordance with the UN Charter.

UNESCO runs a number of programmes to improve education and extend access to it. It provides assistance to ensure the free flow of information and its wider and better balanced dissemination without any obstacle to freedom of expression, and to maintain cultural heritage in the face of development. It fosters research and study in all areas of the social and environmental sciences.

UNESCO had 190 member states as at June 2004. The General Conference, consisting of representatives of all the members, meets biennially to decide the programme and the budget. It elects the 58-member Executive Board, which supervises operations, and appoints a Director-General who heads a Secretariat responsible for carrying out the organisation's programmes. In most member states national commissions liaise with UNESCO to execute its programme. The UK withdrew from UNESCO in 1985; it rejoined on 1 July 1997.

E unido@unido.org W www.unido.org

The United Nations Industrial Development Organisation (UNIDO) was established in 1966 by the UN General Assembly to act as the central co-ordinating body for industrial activities within the UN. It became a UN specialised agency in 1985. UNIDO aims to help developing countries and those with economies in transition to develop sustainable industrialisation by concentrating on economic competitiveness, environmental awareness and employment issues both in the public and private sectors. UNIDO designs and implements programmes to support industrial development in individual member states and offers specialised support for programme development.

UNIDO had 171 members as at June 2004. It is funded by regular and operational budgets, together with contributions for technical co-operation activities. The regular budget is derived from member states' contributions. Technical co-operation is funded mainly through voluntary contributions from donor countries and institutions and by intergovernmental and non-governmental organisations. A General Conference of all

the members meets biennially to discuss strategy and policy, approve the budget (2004–5, regular budget €144 million) and elect the Director-General. The Industrial Development Board is composed of members from 53 member states and reviews the work programme and the budget, which is prepared by the Programme and Budget Committee.

W www.upu.int

The Universal Postal Union (UPU) was established by the Treaty of Bern 1874, taking effect from 1875, and became a UN specialised agency in 1948. The UPU is an intergovernmental organisation that exists to form and regulate a single postal territory of all member countries for the reciprocal exchange of correspondence without discrimination. With a total of 190 members, it also assists and advises on the improvement of postal services.

A Universal Postal Congress is the UPU's supreme authority and meets every five years. A Council of Administration composed of 41 members meets annually to ensure continuity between congresses, study regulatory developments and broad policies, approve the budget and examine proposed Treaty changes. A Postal Operations Council, composed of 40 members elected by the Congress, meets annually to deal with specific technical and operational issues. The three UPU bodies are served by the International Bureau, a secretariat headed by a Director-General.

Funding is provided by members according to a scale of contributions drawn up by the Congress. The Council of Administration sets the budget which amounts to approximately SFr 35,000,000 per year.

E unpo@unpo.org  
W www.unpo.org

The Unrepresented Nations and Peoples Organisation (UNPO) was founded in 1991 to offer an international forum for occupied nations, indigenous peoples and national minorities who are not represented in other international organisations.

UNPO does not aim to represent these nations and peoples, but rather to assist and empower them to represent themselves more effectively, and provides professional services and facilities as well as education and training in the fields of diplomacy, international and human rights law, democratic processes, institution building, conflict management and resolution, and environmental protection.

Participation is open to all nations and peoples who are inadequately represented at the United Nations and who declare allegiance to five principles relating to the right of self-determination of all peoples, human rights, democracy, non-violence and the rejection of terrorism, and protection of the natural environment. Applicants

must show that they constitute a 'nation or people' and that the organisation applying for membership is representative of that nation or people.

As at June 2004, there were 55 full members and five former members, who have achieved full independence.  
*Director-General*, Marino Busdachin (Croatia)

### WESTERN EUROPEAN UNION

Rue de l'Association 15, B-1000 Brussels, Belgium  
T (+32) (2) 500 4412 F (+32) (2) 500 4470  
E ueo.secretariatgeneral@skynet.be  
W www.w eu.int

The Western European Union (WEU) originated as the Brussels Treaty Organisation (BTO) established under the Treaty of Brussels, signed in 1948 by Belgium, France, Luxembourg, the Netherlands and the UK, to provide collective self-defence and economic and social collaboration amongst its signatories. The BTO was modified to become the WEU in 1954 with the admission of West Germany and Italy.

From the late 1970s onwards efforts were made to add a security dimension to the EC's European Political Co-operation. Opposition to these efforts from Denmark, Greece and Ireland led the remaining EC countries, all WEU members, to decide to reactivate the Union in 1984. Members committed themselves to harmonising their views on defence and security and developing a European security identity, while bearing in mind the importance of transatlantic relations. Portugal and Spain joined the WEU in 1988, and Greece became a full member in 1995.

In 1991, the EU Maastricht Treaty committed the European Community to the establishment of a Common Foreign and Security Policy (CFSP). The WEU was designated as the future defence component of the European Union and member states of the EU who were not already members of the WEU were invited to join or become observers. In November 1992 the WEU's role as the common security dimension of the EU was enhanced when WEU ministers signed a declaration with remaining European NATO members to give them various forms of WEU membership. Iceland, Norway and Turkey became associate members; the Republic of Ireland, Denmark, Austria, Finland and Sweden became observers. In 1994 the WEU reached agreements with Estonia, Latvia, Lithuania, Poland, the Czech Republic, Slovakia, Hungary, Romania and Bulgaria, under which they all became associate partners; Slovenia became an associate partner in 1996. The Czech Republic, Hungary and Poland, who had been associate partners, became associate members in 1999, following their accession to NATO.

The WEU has worked in close co-operation with the Atlantic Alliance, and relations between the WEU and NATO were developed on the basis of transparency and complementarity. The 1993 Luxembourg Declaration states that the WEU is ready to participate in the future work of the NATO Alliance as its European pillar, and at the Atlantic Alliance summit in January 1994, NATO expressed its readiness to make Alliance assets and capabilities available for WEU operations. In June 1996, NATO foreign and defence ministers approved the Combined Joint Task Force (CJTF) concept and the elaboration of multinational European command arrangements for WEU-led operations.

A Council of Ministers (foreign and defence) has met biannually in the capital of the presiding country; the presidency rotates biannually, and from 1999 the

sequence of WEU presidencies has been harmonised with those of the EU Council of Ministers. A Permanent Council of the member states' permanent representatives meets in Brussels. The Permanent Council is chaired by the Secretary-General and serviced by the Secretariat.

In 1999, NATO and the EU decided to establish a direct relationship; the EU committed itself to ensuring that it was able to take decisions on conflict prevention and crisis management and NATO agreed to give the EU access to its collective assets and capabilities for operations in which NATO as a whole was not engaged. The WEU's crisis management functions were transferred to the EU in July 2001. The necessary WEU functions and structures remain in place to enable member states to fulfil commitments arising from the modified Brussels Treaty including those relating to collective defence and institutional relationship with the WEU.

The Assembly of the WEU is composed of 115 parliamentarians of member states and meets twice annually in Paris to debate matters within the scope of the revised Brussels Treaty.

### WORLD BANK GROUP

1818 H Street NW, Washington DC 20433, USA  
T (+1) (202) 473 1000 F (+1) (202) 477 6391  
E feedback@worldbank.org  
W www.worldbank.org

The World Bank Group was founded in 1944 and is one of the world's largest sources of development assistance. The Bank has 183 members. Originally directed towards post-war reconstruction in Europe, the Bank subsequently turned towards assisting less-developed countries and is currently working in more than 100 developing countries. The Bank, works with government agencies, non-governmental organisations and the private sector to formulate assistance strategies. Its local offices implement the Bank's programme in each country. It has offices in more than 100 countries.

The Bank is owned by the governments of member countries and its capital is subscribed by its members. It finances its lending primarily from borrowing in world capital markets, and derives a substantial contribution to its resources from its retained earnings and the repayment of loans. The interest rate on its loans is calculated in relation to its cost of borrowing. Loans generally have a grace period of five years and are repayable within 20 years.

The World Bank Group consists of five institutions. The International Bank for Reconstruction and Development (IBRD) provides loans and development assistance to middle-income countries and creditworthy poorer countries. The International Finance Corporation (IFC) promotes private sector investment in developing member countries by mobilising domestic and foreign capital. The International Development Association (IDA) performs the same function as the World Bank but primarily to less-developed countries and on terms that bear less heavily on their balance of payments than IBRD loans. The Multilateral Investment Guarantee Agency (MIGA) promotes foreign direct investment in developing

states by providing guarantees to potential investors and advisory services to developing member countries. MIGA has a membership of 163 countries. The International Centre for Settlement of Investment Disputes (ICSID) provides facilities for the settlement by conciliation or arbitration of investment disputes between foreign investors and their host countries. ICSID has a membership of 154 countries.

The IBRD and its affiliates are financially and legally distinct but share headquarters. The IBRD is headed by a Board of Governors, consisting of one Governor and one alternate Governor appointed by each member country. Twenty-four Executive Directors exercise all powers of the Bank except those reserved to the Board of Governors. The President, elected by the Executive Directors, conducts the business of the Bank, assisted by an international staff. Membership in both the IFC and the IDA is open to all IBRD countries. The IDA is administered by the same staff as the Bank; the IFC has its own personnel but draws on the IBRD for administrative and other support. All share the same President.

The World Customs Organisation (WCO) is an independent body that works to enhance the effectiveness and efficiency of customs administrations worldwide. By developing the Harmonised Commodity Description and Coding System, the WCO introduced a universal goods classification and revenue collection method. The WCO also administers the World Trade Organisation Valuation Agreement.

With 159 member governments that process more than 95 per cent of international trade, the WCO is organised into a forum where each member has one representative and one vote. The WCO is directed by a Council and Policy Commission with financial advice from a Committee. Locally recruited staff are used to provide secretarial, translation, interpretation and general support services.

The UN International Health Conference, held in 1946, established the World Health Organisation (WHO) as a UN specialised agency, with effect from 1948. It is dedicated to attaining the highest possible level of health for all. It collaborates with member governments, UN agencies and other bodies to improve health standards, control communicable diseases and promote all aspects of family and environmental health. It seeks to raise the standards of health teaching and training, and promotes research through collaborating research centres world-wide.

WHO has 192 members and is governed by the annual World Health Assembly of members which meets to set policy, approve the budget, appoint a Director-General,

and adopt health conventions and regulations. It also elects 32 members who designate one expert to serve on the Executive Board. The Board effects the programme, suggests initiatives and is empowered to deal with emergencies. A Secretariat, headed by the Director-General, supervises the activities of six regional offices.

### WORLD INTELLECTUAL PROPERTY ORGANISATION

34 Chemin des Colombettes, CH-1211 Geneva 20, Switzerland  
T (+41) (22) 338 9111 F (+41) (22) 733 5428  
E wipo@wipo.int  
W www.wipo.int

The World Intellectual Property Organisation (WIPO) was established in 1967 by the Stockholm Convention, which entered into force in 1970. In addition to that Convention, WIPO administers 23 treaties, the principal ones being the Paris Convention for the Protection of Industrial Property and the Bern Convention for the Protection of Literary and Artistic Works. WIPO became a UN specialised agency in 1974.

WIPO promotes the protection of intellectual property throughout the world through co-operation among states, and the administration of various 'Unions', each founded on a multilateral treaty and dealing with the legal and administrative aspects of intellectual property.

Intellectual property comprises two main branches: industrial property (inventions, trademarks, industrial designs and appellations of origin); and copyright (literary, musical, photographic, audiovisual and artistic works, etc.). WIPO also assists creative intellectual activity and facilitates technology transfer, particularly to developing countries.

WIPO had 180 members as at June 2004. The biennial session of all its governing bodies sets policy, a programme and a budget (2004–5, SFr 639 million). A separate International Union for the Protection of New Varieties of Plants (UPOV), established by convention in 1961, is linked to WIPO. It has 45 members.

*Director-General*, Dr Kamil Idris (Sudan)

### WORLD METEOROLOGICAL ORGANISATION

Switzerland  
T (+41) (22) 730 8111 F (+41) (22) 730 8181  
E wmo@gateway.wmo.ch  
W www.wmo.int

The World Meteorological Organisation (WMO) was established in 1950 and became a UN specialised agency in 1951, succeeding the International Meteorological Organisation founded in 1873. It facilitates co-operation in the establishment of networks for making meteorological, climatological, hydrological and geophysical observations, as well as their exchange, processing and standardisation, and assists technology transfer, training and research. It also fosters collaboration between meteorological and hydrological services, and furthers the application of meteorology to aviation, shipping, environment, water problems, agriculture and the mitigation of natural disasters.

The WMO had 181 member states and six member territories as at March 2004. Six regional associations are responsible for the co-ordination of activities within their own regions. There are also eight technical commissions,

which study meteorological and hydrological problems, establish methodology and procedures, and make recommendations to the Executive Council and the Congress. The supreme authority is the World Meteorological Congress of member states and member territories, which meets every four years to determine general policy, make recommendations and set a budget (SFr 253.8 million for 2004–7). It also elects 27 members of the 37-member Executive Council, the other members being the President and three Vice-Presidents of the WMO, and the Presidents of the six regional associations, who are *ex-officio* members. The Council supervises the implementation of Congress decisions, initiates studies and makes recommendations on matters needing international action. The Secretariat is headed by a Secretary-General, appointed by the Congress.  
*Secretary-General, M. Jarraud (France)*

### WORLD TOURISM ORGANISATION

Capitan Haya 42, 28020 Madrid, Spain  
T (+34) 91567 8100 F (+34) 91571 3733  
E [omt@world-tourism.org](mailto:omt@world-tourism.org) W [www.world-tourism.org](http://www.world-tourism.org)

Originally formed in 1925 as the International Congress of Official Tour Associations, the World Tourism Organisation (WTO) was officially launched in 1975 as an intergovernmental body that acts as an executing agency of the United Nations Development Programme (UNDP). Primarily concerned with developing public and private sector partnerships, the WTO also promotes the Global Code of Ethics for Tourism, a framework of policy aimed at tour operators, governments, labour organisations and travellers.

The General Assembly is the principal gathering of the WTO and meets every two years in order to approve policy and budget. Every four years the Assembly will elect a Secretary-General. The Executive Council is WTO's governing board and meets twice a year to ensure the Organisation adheres to policy and budget. It is composed of 27 members of the General Assembly in a ratio of one to five full members. As host country of WTO's headquarters, Spain has a permanent seat on the Executive Council.

*Secretary-General, Francesco Frangialli (France)*

### WORLD TRADE ORGANISATION

Centre William Rappard, 154 rue de Lausanne,  
CH-1211 Geneva 21, Switzerland  
T (+41) 22 739 5111 F (+41) 22 731 4206  
E [enquiries@wto.org](mailto:enquiries@wto.org)  
W [www.wto.org](http://www.wto.org)

The World Trade Organisation was established on 1 January 1995 as the successor to the General Agreement on Tariffs and Trade (GATT). GATT was established in 1948 as an interim agreement until the charter of a new international trade organisation could be drafted by a committee of the UN Economic and Social Council and

ratified by member states. The charter was never ratified and GATT became the only regime for the regulation of world trade, evolving its own rules and procedures.

GATT was dedicated to the expansion of non-discriminatory international trade and progressively extended free trade via 'rounds' of multilateral negotiations. Eight rounds were concluded: Geneva (1947), Annecy (1948), Torquay (1950), Geneva (1956), Dillon (1960–1), Kennedy (1964–7), Tokyo (1973–9) and Uruguay (1986–94). The Final Act of the Uruguay Round was signed by trade ministers from the 128 GATT negotiating states and the EU in Marrakesh, Morocco, on 15 April 1994. It established the World Trade Organisation (WTO) to supersede GATT and implement the Uruguay Round agreements. The implementation of the Uruguay Round measures in 2002 resulted in a reduction on duties on manufactured goods from 40 per cent in the 1940s to 3 per cent. New talks on agriculture and services began in 2000 and were incorporated into a broader agenda launched at the 2001 Ministerial Conference in Doha, Qatar. The current round of negotiations is scheduled to be concluded by 2005.

The WTO is the legal and institutional foundation of the multilateral trading system. It provides the contractual obligations determining how governments frame and implement trade policy and provides the forum for the debate, negotiation and adjudication of trade problems. The WTO's principal aims are to liberalise world trade and place it on a secure basis, and it seeks to achieve this partly by an agreed set of trade rules and market access agreements and partly through further trade liberalisation negotiations. The WTO also administers and implements a further 29 multilateral agreements in fields such as agriculture, textiles and clothing, services, government procurement, rules of origin and intellectual property.

The highest authority of the WTO is the Ministerial Conference composed of all members, which meets at least once every two years. The General Council meets as required and acts on behalf of the Ministerial Conference in regard to the regular working of the WTO. Composed of all members, the General Council also convenes in two particular forms: as the Dispute Settlement Body, dealing with disputes between members arising from the Uruguay Round Final Act; and as the Trade Policy Review Body, conducting regular reviews of the trade policies of members. A secretariat of 500 staff headed by a Director-General services WTO bodies and provides trade performance and trade policy analysis.

As at June 2004 there were 147 WTO members. The WTO budget for 2004 was US\$125 million, with members' contributions calculated on the basis of their share of the total trade conducted by WTO members. The official languages of the WTO are English, French and Spanish.

*Director-General, Dr Supachai Panitchpakdi*

*Permanent UK Representative, Simon Fuller, 37–39 rue de Vermont, CH-1211 Geneva 20*

MORTALITY RATE (per 1,000 population) – 17.15 (2003)

HIV / AIDS ADULT PREVALENCE – 0.01 (2001)

DEATH PENALTY – Yes

POPULATION GROWTH RATE – 2.7 per cent

POPULATION DENSITY – 34 per sq. km (1999)

### CLIMATE AND TERRAIN

Mountains, chief among which are the Hindu Kush, cover three-quarters of the country, with plains in the north and south-west. Elevation extremes range from 7,485 m at the highest point (Amu Darya) to 258 m at the lowest (Nowshak). There are three great river basins, the Oxus, Helmand, and Kabul. Natural hazards are flooding, drought and earthquakes. The climate is arid to semi-arid, with extreme temperatures. Summers are hot and dry and the winters cold with heavy snowfalls, particularly in the northern mountains. Annual rainfall varies between 101 mm and 406 mm per year. The temperatures in Kabul range between  $-22^{\circ}\text{C}$  in January to  $39^{\circ}\text{C}$  in June.

### HISTORY AND POLITICS

In December 1979 Soviet troops invaded Afghanistan and installed a pro-Soviet government. Armed Islamic resistance groups, the mujahidin, fought against Soviet and Afghan forces until the government collapsed in April 1992. Mujahidin forces overran Kabul and declared an Islamic state.

Between 1994–98, divided mujahidin forces suffered heavy defeats at the hands of the Taliban (armed Islamic students), which extended its power across more than 90 per cent of the country. The forces of the former government were driven northwards. The United Islamic Front for the Salvation of Afghanistan (UIFSA) or Northern Alliance was formed by the four main mujahidin factions. The Taliban, thought to be backed by Pakistan and Saudi Arabia, imposed strict Shari'ah law.

Following the 11 September 2001 terrorist attacks on the USA, which had been carried out by Osama bin Laden's al-Qa'eda (the base) organisation, and Afghanistan's subsequent refusal to surrender bin Laden and the al-Qa'eda leadership to the US authorities, US and UK forces began military operations against al-Qa'eda and Taliban targets in Afghanistan on 7 October 2001. Intensive US air bombardment conducted from bases in Uzbekistan, Tajikistan and Pakistan, together with material and intelligence assistance by US and UK ground troops to Northern Alliance forces, swiftly caused the Taliban regime to collapse.

Moves to form an alternative government from among the anti-Taliban factions began in 2001 and leaders met near Bonn, Germany, where a multi-ethnic interim government was named. However, attempts to locate and capture Osama bin Laden and Mullah Omar, the Taliban leader, were unsuccessful and pockets of al-Qa'eda and Taliban forces remained at large in the country. Tensions stayed high throughout 2002 and 2003 and a 5,000-strong UN-mandated peacekeeping force, the International Security Assistance Force (ISAF), and 8,000 US troops remain in the country.

### POLITICAL SYSTEM

Following the collapse of Taliban rule in December 2001, an interim government was agreed, which was to hold office for six months pending the holding of a *Loya Jirga* (tribal council), which would appoint a transitional government. In June 2002, the *Loya Jirga* selected Hamid Karzai as transitional president of the country and the new government was sworn in, tasked with preparing for nationwide elections in October 2004. A new constitution was adopted in January 2004 establishing Afghanistan as an Islamic republic.

### HEAD OF STATE

## ECONOMY AND TRADE

The economy has been devastated by the political upheavals of the last 20 years. During this period, up to one-third of the population fled the country, with Pakistan and Iraq sheltering a combined peak of 4–6 million refugees. Afghanistan's problems were compounded by three successive years of drought, and by the end of 2000 one million people were thought to be close to starvation. However, by October 2002 1.7 million refugees had returned to the country.

While the traditional industries of agriculture, sheep rearing and the manufacture of silk, woollen hair cloths and carpets have diminished, the narcotics trade has grown. Opium production, banned under the Taliban, rose from 185 tonnes in 2001 to 2,700 tonnes in 2002. It is currently estimated that 80–90 per cent of heroin consumed in Europe comes from Afghan opium. Salt, silver, copper, coal, iron, lead, rubies, lapis lazuli, gold, chrome, barite, uranium and talc can be found in the region.

International efforts to rebuild Afghanistan were addressed at the Tokyo Donors Conference for Afghan Reconstruction in January 2002, when US\$4,500 million was pledged. Further World Bank and other aid was given in 2003. The eradication of the illegal opium trade and the search for oil and gas resources in the northern region are two major long-term objectives.

In the past, exports have been Persian lambskins (Karakul), dried fruits, nuts, cotton, raw wool, carpets, spice and natural gas, while the imports are chiefly oil, cotton yarn and piece goods, tea, sugar, machinery and transport equipment.

GDP – US\$19,000 million (2002); US\$700 per capita (2002)

ANNUAL AVERAGE GROWTH OF GDP – 6.0 per cent (1998)

INFLATION RATE – 56.7 per cent (1991); estimated to be 400 per cent in 1996

IMPORTS – US\$1,300 million (2001)

EXPORTS – US\$1,200 million (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£2,918,000	£9,871,000
Exports to UK	249,000	467,000

## COMMUNICATIONS

Main roads run from Kabul to Qandahar, Herat, Meymaneh via Mazar-e-Sharif and Feyzabad. Roads cross the border with Pakistan at Chaman and via the Khyber Pass, and there are roads from Herat to the borders of Turkmenistan and Iran. Much of the country's road system has been damaged during the fighting, although reconstruction work began in 2002. There are two international airports at Kabul and Qandahar and about 1,200 km of inland waterways.

## EDUCATION

Education is free and nominally compulsory, elementary schools having been established in most centres; there are secondary schools in large urban areas and four universities, in Kabul, Jalalabad, Balkh and Herat. In March 2002, schools reopened to 1.5 million children,

many of whom had not received schooling for six years under the Taliban.

ILLITERACY RATE – (m) 48.1 per cent; (f) 78.1 per cent (2000)

ENROLMENT (percentage of age group) – primary 29 per cent (1993); secondary 14 per cent (1993); tertiary 1.8 per cent (1990)

## MEDIA

Afghanistan's media were seriously restricted under Taliban rule. However, in late 2001 Radio Afghanistan returned to the air in Kabul after the Taliban deserted the capital, and within days Kabul TV also began broadcasting. Relays of foreign radio stations are available in Kabul, including the BBC, Radio France Internationale, the German-run Voice of Freedom, US-funded broadcasts from Radio Free Afghanistan and the Voice of America, and Radio Azadi run by the International Security Assistance Force (ISAF). Local radio stations include Radio Afghanistan, Erat Radio Khilid Kabul (RKK) and Arman FM. Television services are mainly provided by the state-run TV Afghanistan, but ownership of television sets is very limited (100,000 in 1999). Afghanistan's press now enjoys considerable freedom of expression, although print runs are small. Titles include *Hewad*, *Anis* and the Northern Alliance organ *Payam-e Mojahed*.

## CULTURE

Afghanistan has been at the crossroads of civilisations stretching back at least 3,000 years. Its strategic importance – located as it once was at the meeting point of Chinese, Indian and European civilisations along the ancient Silk Route – means that it has long been fought over, despite its forbidding terrain.

Due to prolonged armed conflicts, much of the outstanding cultural heritage has been destroyed. During the civil war the Kabul Museum was looted, and treasures such as the Kunduz Hoard (silver Greek-style coins) were stolen. This was followed during the Taliban regime by systematic ideological destruction. Most notably the giant Bamiyan Buddhas, carved by Buddhist monks in the fourth to sixth centuries, were demolished in March 2001, and Kabul's remaining collections of statues destroyed, including many stored within the Ministry of Information and Culture.

## ALBANIA

*Republika e Shqipërisë – Republic of Albania*

AREA – 28,748 sq. km. Neighbours: Serbia and Montenegro (north), Kosovo and Macedonia (east), Greece (south)

POPULATION – 3,731,000. Muslim (70 per cent), Greek Orthodox (20 per cent), Roman Catholic (10 per cent).

The language is Albanian

CAPITAL – Tirana (population, 353,400, 2003)

CURRENCY – Lek (Lk) of 100 qindarka

NATIONAL ANTHEM – Rreth Flamurit Të Për Bashkuar (The Flag That United Us In The Struggle)

NATIONAL DAY – 28 November

NATIONAL FLAG – Black two-headed eagle on a red field

MORTALITY RATE (per 1,000 population) – 6.48  
(2003)

HIV / AIDS ADULT PREVALENCE – 0.1 per cent  
(2001)

DEATH PENALTY – Yes\*

POPULATION BELOW POVERTY LINE – 30 per cent  
(2001)

POPULATION GROWTH RATE – 3.7 per cent

POPULATION DENSITY – 108 per sq. km (1999)

ILLITERACY RATE – (m) 7.6 per cent; (f) 20.5 per cent  
(2003)

ENROLMENT (percentage of age group) – primary 100  
per cent (1997); tertiary 12 per cent (1997)

## CLIMATE AND TERRAIN

Much of the country is mountainous, with the highest point at 2,753 m (Maja e Korabit), and nearly half is covered by forest. The lowest point of elevation is 0 m (Adriatic Sea). The climate is Mediterranean with frequent thunderstorms. The average daily temperature ranges from 8°C in January to 25°C in July.

## HISTORY AND POLITICS

Albania was under Turkish suzerainty from 1468 until 1912, when independence was declared. After a period of unrest, a republic was declared in 1925 and in 1928 a monarchy. The King went into exile in 1939 when the country was occupied by the Italians; Albania was liberated in November 1944. Elections in 1945 resulted in a Communist-controlled Assembly; the King was deposed *in absentia* and a republic declared in January 1946.

From 1946 to 1990 Albania was a one-party, Communist state. In 1990 the ban on religious worship was lifted and between 1990 and 1992 democratic elections took place. Rioting broke out in 1997 following the collapse of several pyramid investment schemes. Anti-government protests, taking the form of armed rebellion, spread throughout the country.

In 1999, Yugoslavia expelled thousands of Kosovar Albanians and over 400,000 fled to Albania. In April, Albania granted NATO unrestricted access to Albania's airspace, ports and military infrastructure and over 10,000 NATO troops were stationed there. By the end of 1999, nearly all of the refugees had left Albania and the number of NATO troops currently stationed in the country has fallen to 1,000.

The general election of 2001 resulted in the Socialist Party of Albania (SP) winning 70 seats and the Democratic Alliance (DAP) winning 36 seats in the 140-member People's Assembly. Albania's next election is scheduled for June 2005.

## HEAD OF STATE

*President*, Gen. Alfred Moisiu, (ret'd), *elected by the People's Assembly* 24 June 2002, *took office* 24 July 2002

## SELECTED GOVERNMENT MEMBERS as at July 2004

*Prime Minister*, Fatos Nano

*Deputy Prime Minister*, Namik Dokle

*Foreign Affairs*, Kastriot Islami

*Defence*, Pandeli Majko

*Economy*, Anastas Angjeli

*Finance*, Arben Malaj

## DEFENCE

The Army has 373 main battle tanks and 86 armoured personnel carriers. The Navy has 20 patrol and coastal combatant vessels at two bases. The Air Force has 26 combat aircraft.

MILITARY EXPENDITURE – 2.5 per cent of GDP (2002)

MILITARY PERSONNEL – 22,000: Army 16,000, Navy 2,500, Air Force 3,500

## ECONOMY AND TRADE

Albania is one of the poorest countries in Europe – a legacy of Communist rule and a sign of Albania's uneasy relationship with the post-Communist free-market economy.

Agriculture accounts for 40 per cent of economic output although only 20 per cent of this is exported. The main crops are wheat, maize, sugar beet, potatoes and fruit. Production is frequently restricted due to droughts and the use of outdated equipment. The principal industries are agricultural product processing, textiles, oil products and cement.

Since April 1992, the government has imposed austerity measures in an attempt to reduce the budget deficit and to cut inflation. Albania receives annual remittances from overseas workers (mainly in Greece and Turkey), of US\$400–600 million.

Exports include crude oil, minerals (bitumen, chrome, nickel, copper), tobacco, fruit and vegetables. Large chromium deposits are found in the region.

GNI – US\$4,833 million (2002); US\$1,380 per capita (2002)

GDP – US\$4,114 million (2001); US\$1,197 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 6.0 per cent (2002)

INFLATION RATE – 6 per cent (2002)

TOTAL EXTERNAL DEBT – US\$800 million (2002)

IMPORTS – US\$1,504 million (2002)

EXPORTS – US\$330 million (2002)

## BALANCE OF PAYMENTS

*Trade* – US\$1,155 million deficit (2002)

*Current account* – US\$408 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£18,905,000	£9,884,000
Exports to UK	2,873,000	3,927,000

## MEDIA

The public broadcaster is Albanian Radio and TV (RTSh). There are around 75 private television channels and approximately 30 private radio stations. Political parties, trade unions, religious groups and state bodies are prohibited from owning private television and radio stations but can own newspapers.

## CULTURE

Albanian culture is influenced by its geographical location (midway between Rome and Istanbul), its recent Russian-dominated political past, and its religions (Sunni Muslim, Roman Catholic and Albanian Orthodox). These influences can be discerned in the work of Albanian writers, who have gained prominence since 1909, when written Albanian was standardised. One of the country's most famous writers and literary critics is Fan Noli (1882–1965). Albania's most prominent contemporary writer is Ismail Kadare (b.1936).

## ALGERIA

*Al-Jumbūriyya al-Jazā'iriyya ad-Dimuqratiyya ash-Sha'biyya*  
– People's Democratic Republic of Algeria

AREA – 2,381,700 sq. km Neighbours: Morocco and Western Sahara (west), Mauritania and Mali (south-west), Niger (south-east), Libya and Tunisia (east)  
POPULATION – 30,841,000 (2001). Arabic and Berber are the official languages although French is also spoken. The state religion is Sunni Islam

## CLIMATE AND TERRAIN

Algeria, the second largest country in Africa after Sudan, has mild, wet winters and hot, dry summers. The climate is drier along the coastline and the high plateaus support cold winters.

Algeria is dominated by the Sahara Desert, which covers 80 per cent of its territory, and the majority of the population live on the northern coast. The mountains are subject to earthquakes, flooding and mudslides during the rainy season (November to March). The highest point of

elevation is 3,003 m (Tahat) and the lowest is -40 m (Chott Melhir).

## HISTORY AND POLITICS

Algeria was annexed to France from 1830 until gaining its independence in 1962 following an eight-year armed liberation struggle by the socialist Front de Liberation Nationale (FLN). Ben Bella was elected president in 1963, but was deposed in 1965 by Col. Houari Boumedine, who was formally elected president in 1976. Boumedine died in 1978 and was succeeded by Chadli Bendjedid.

A new constitution agreed by referendum in 1988 moved Algeria towards pluralism. However, the 1991 legislative elections were abandoned in anticipation of the success of the opposition Islamic Salvation Front (FIS), which had campaigned on a radical Islamist platform. President Bendjedid resigned and a Higher Committee of State (HCS), headed by former FLN veteran Mohammed Boudiaf, took power. Gen. Liamine Zeroul was elected president for a five-year term in November 1995, but announced his intention to stand down from office in September 1998. Abdelaziz Bouteflika was elected president in 1999. The other candidates decided to boycott the election some days before it took place, alleging that the military had intervened to rig the vote.

The FLN won the majority of the vote in the legislative elections of May 2002 (winning 199 of the 388 seats) and also achieved control in the municipal elections of October 2002. The most recent presidential elections took place in April 2004 and a second term was won by Abdelaziz Bouteflika (with 85 per cent of the vote). The FIS was banned in 1991 triggering civil unrest and an armed campaign between Islamic groups (the FIS-backed Islamic Salvation Army and the more extreme Armed Islamic Group) and the military. This conflict has claimed an estimated 100,000 lives since 1992.

Rioting broke out in the Berber-populated Kabyle region in 2001 resulting in about 80 deaths. A session of the National People's Assembly backed reform to give the Berber language, Tamazight, equal status with Arabic. The reform bill was approved by 482 votes with two abstentions and no opposition. During 2003 there was a resurgence of Islamist violence.

**POLITICAL SYSTEM**

The legislature is bicameral. The National People's Assembly (the lower chamber) has 389 members, directly elected for a five-year term. The *Majlis al-Umma* (Council of the Nation) is the upper chamber, with a third of its 144 members appointed by the President; two-thirds are indirectly elected for six-year terms, of which half are re-elected every three years.

**HEAD OF STATE**

*President, Defence, Abdelaziz Bouteflika, re-elected April 2004*

**SELECTED GOVERNMENT MEMBERS as at July 2004**

*Prime Minister, Ahmed Ouyahia*

*Finance, Abdelatif Benachenhou*

*Ministers of State, Abdelaziz Belkhadem (Foreign Affairs);*

**DEFENCE**

The Army has 1,000 main battle tanks and 730 armoured personnel carriers. The Navy has two submarines, three frigates and 25 patrol and coastal vessels. The Air Force has 175 combat aircraft and 93 armed helicopters.

**MILITARY EXPENDITURE** – 5.9 per cent of GDP (2002)

**MILITARY PERSONNEL** – 127,500: Army 110,000, Navy 7,500, Air Force 10,000; Paramilitaries 181,200

**CONSCRIPTION DURATION** – 18 months

**ECONOMY AND TRADE**

The main industry is hydrocarbons which accounted for 60 per cent of budget revenues and 30 per cent of GDP in 2003. Services provided 32 per cent of GDP and agriculture 8 per cent of GDP in 2003. Oil and natural gas are pumped from the Sahara to terminals on the coast before being exported; the gas is first liquefied at liquefaction plants at Skikda and Arzew, although pipelines serve Libya and Italy direct. In November 1996 a 1,200-km gas pipeline to Spain was opened, enabling Algeria to double its gas exports to Morocco, Spain, Germany and France.

Other major industries include a steel industry, motor vehicles, building materials, paper making, chemical products and metal manufactures. Most major industrial enterprises are still under state control.

Prior to 1989 the economy was centrally planned and state-controlled in most sectors. In 1994 the government accepted full economic reform and liberalisation under a programme agreed with the IMF. The

government reduced the budget deficit, devalued the currency and freed price controls. Algeria's foreign debt fell from 71.9 per cent of GDP in 1996 to 40.7 per cent in 2001. An extensive privatisation programme began in 1997. During 2000–3 the country's finances improved due to increased trade surpluses, record foreign exchange reserves and continued reductions to foreign debt.

Export earnings come mainly from crude oil and liquefied natural gas sales (97 per cent in 2003). Algeria's main trading partners are Italy, France, Spain, the USA and Brazil. Dates and wine are among the main food imports.

**GNI** – US\$51,000 million (2001); US\$1,650 per capita (2001)

**ANNUAL AVERAGE GROWTH OF GDP** – 6.0 per cent (2002)

**INFLATION RATE** – 5.3 per cent (2002)

**UNEMPLOYMENT** – 29.8 per cent (2000)

**TOTAL EXTERNAL DEBT** – US\$25,002 million (2000)

**IMPORTS** – US\$10,791 million (2002)

**EXPORTS** – US\$18,635 million (2002)

**FOREIGN DIRECT INVESTMENT** – US\$29 million (1997–2000)

<i>Trade with UK</i>	<i>2002</i>	<i>2003</i>
Imports from UK	£131,522,000	£190,142,000
Exports to UK	341,690,000	261,837,000

**MEDIA**

The state controls the television (Enterprise Nationale de Television) and radio stations (Radio-Television Algerienne) but domestic satellite dishes are used by the general population to receive French and European channels, some of which actively target Algerian viewers. There are five main daily newspapers, all of them published in French.

**ANDORRA**

*Principat d'Andorra – Principality of Andorra*

**AREA** – 464 sq. km. Neighbours: Spain and France

**POPULATION** – 90,000 (2001); less than one-quarter of the population is Andorran. The official language is Catalan, but French and Spanish (Castilian) are also spoken. The established religion is Roman Catholicism

**CAPITAL** – Andorra la Vella (population, 20,724, 2002)

**CURRENCY** – Euro (€) of 100 cents

**NATIONAL ANTHEM** – El Gran Carlemany, Mon Pare (Great Charlemagne, My Father)

**NATIONAL DAY** – 8 September

**NATIONAL FLAG** – Three vertical bands, blue, yellow, red; Andorran coat of arms frequently imposed on central (yellow) band but not essential

**LIFE EXPECTANCY (years)** – 83 (2001)

**MORTALITY RATE (per 1,000 population)** – 5.74 (2003)

**INFANT MORTALITY (per 1,000 births)** – 6 (2001)

**DEATH PENALTY** – No (abolished 1993)

**POPULATION GROWTH RATE** – 4.8 per cent (1990–2001)

**POPULATION DENSITY** – 194 per sq. km (2001)

**CLIMATE AND TERRAIN**

Located between the French and Spanish borders, Andorra is a country of dramatic mountains intersected with narrow valleys. A third of the country is classified as forest. The highest point of elevation is 2,946 m (Coma Pedrosa) while the lowest is 840 m (Riu Runer). The climate is alpine, with heavy snowfall in winter and warm summers. The average annual temperature ranges from 2°C in January to 19°C in July.

**HISTORY AND POLITICS**

Andorra is a small, neutral principality formed by a treaty in 1278. The first elections under the new constitution were held in 1993, and on 20 January 1994 the first sovereign government of Andorra took office. The Liberal Party of Andorra won the legislative elections of 2001, gaining 16 of the 28 seats in the General Council.

**POLITICAL SYSTEM**

Under a new constitution promulgated in May 1993, Andorra became an independent, democratic parliamentary co-principality, with sovereignty vested in the people rather than in the two co-princes, as had previously been the case. The constitution enables Andorra to establish an independent judiciary and to carry out its own foreign policy, whilst its people may now join trade unions and political parties. The two co-princes, the President of the French Republic and the Spanish Bishop of Urgel, remain heads of state but now only have the power to veto treaties with France and Spain which affect the state's borders and security. The co-princes are represented by Permanent Delegates of whom one is the French Prefect of the Pyrénées Orientales department at Perpignan and the other is the Spanish Vicar-General of the diocese of Urgel.

Andorra has a unicameral legislature of 28 members known as the *Consell General de las Valls d'Andorra* (Valleys of Andorra General Council), elected for a four-year term. Fourteen members are elected on a national list basis and 14 in seven dual-member constituencies based on Andorra's seven parishes. The Council appoints the head of the executive government, who designates government members.

*Permanent French Delegate*, Philippe Massoni

*Permanent Episcopal Delegate*, Nemesi Marqués Oste

**SELECTED GOVERNMENT MEMBERS as at July 2004**

*President of the Executive Council*, Marc Forné Molné

*Finance*, Mireia Maestre Cortadella

*Foreign Affairs*, Juli Minoves Triquell

*Justice and Interior*, Jordi Visent Guitart

ANDORRAN EMBASSY, 63 Westover Road, London

*Ambassador Extraordinary and Plenipotentiary*, HE Albert

Pintat, apptd 2002

BRITISH AMBASSADOR – HE Stephen Wright, resident at

Madrid, apptd 2003

**ECONOMY AND TRADE**

The economy is largely based on tourism (80 per cent of GDP, with nine million visitors annually), banking and commerce (due in part to the principality's tax-free status), tobacco, construction and forestry. Andorra has negotiated a customs union with the European Union which came into force in 1991.

GNI – US\$18,000 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.0 per cent (1998)

<i>Trade with UK</i>	2002	2003
Imports from UK	£7,355,000	£9,333,000
Exports to UK	169,000	314,000

**TRANSPORT INFRASTRUCTURE**

There are a total of 269 km of roads but no railways, airports, waterways or harbours. A road into Andorra from Spain is open all year round, and that from France is closed only occasionally in winter.

**MEDIA**

The Andorran media is heavily influenced by French and Spanish culture. There are two radio stations in Andorra, one privately owned and Radio Andorra, operated by the government, as well as a state owned television station and one major daily newspaper (*Diari d'Andorra El Periodic*).

**CULTURE**

The capital, Andorra la Vella, is over 1,100 years old and retains some of its ancient architecture and atmosphere in the Old Quarter (Barri Antic). The photographer Valenti Claverol (1902–2004) is particularly noted for his documentation of day-to-day life in Andorra and his work is considered a major example of vernacular photography.

**ANGOLA**

*República de Angola – Republic of Angola*

AREA – 1,246,700 sq. km. Neighbours: Democratic Republic of Congo (north and east), Zambia (east), Namibia (south). The enclave of Cabinda is separated from the rest of Angola by the Democratic Republic of Congo and also borders on the Republic of Congo  
POPULATION – 13,527,000. Main ethnic groups are Ovimbundu (37 per cent); Kimbundu (25 per cent); Bakongo (13 per cent). The official language is Portuguese

CAPITAL – ΨLuanda (population, 1,822,407, 1993)

CURRENCY – Readjusted kwanza (Kzr) of 100 lwei

NATIONAL DAY – 11 November (Independence Day)

NATIONAL FLAG – Red and black with a yellow star,

machete and cog-wheel

LIFE EXPECTANCY (years) – 45 (2001)

MORTALITY RATE (per 1,000 population) – 25.83

(2003)

INFANT MORTALITY (per 1,000 births) – 154 (2001)

HIV / AIDS ADULT PREVALENCE – 5.5 per cent (2001)

DEATH PENALTY – No (abolished 1992)

POPULATION GROWTH RATE – 3.1 per cent

(1990–2001)

POPULATION DENSITY – 11 per sq. km (2001)

ILLITERACY RATE – (m) 44 per cent; (f) 72 per cent

(1998)

ENROLMENT (percentage of age group) – tertiary 0.7 per

cent (1991)

**CLIMATE AND TERRAIN**

Angola's climate is tropical in the north (with a cool, dry season from May to October and a hot, rainy season from November to April) and sub-tropical in the south and

along the coast to Luanda. Angola's land rises from a narrow coastal plain to a large interior plateau that is prone to periodic flooding. The highest point of elevation is 2,620 m (Morro de Moco) and the lowest is 0 m (Atlantic Ocean).

## HISTORY AND POLITICS

After a Portuguese presence of five centuries, and an anti-colonial war since 1961, Angola became independent on 11 November 1975 in the midst of civil war. The Popular Movement for the Liberation of Angola (MPLA) took control early in 1976, but remained under pressure from the National Union for the Total Independence of Angola (UNITA). A peace agreement was signed between the government and UNITA in 1991 and multiparty legislative and presidential elections took place in 1992, which were won by the MPLA and its leader, José Eduardo dos Santos. UNITA refused to accept the results and the civil war resumed in 1993. In 1994 the UN sent in peacekeeping forces.

UNITA and the MPLA government signed a peace agreement (the Lusaka Protocol) in 1994. A government of national reconciliation was formed in April 1997 and 70 UNITA legislators took up their seats in parliament, although UNITA's leader, Dr Jonas Savimbi, rejected an offer of the vice-presidency. UNITA also refused to allow central state administration to be restored in key areas and fighting resumed in May 1997.

In October 1997 the UN Security Council ordered sanctions against UNITA for failing to meet its obligations under the Lusaka Protocol. UNITA returned much of its territory to government control in December, and in March 1998 UNITA became a legitimate political party. Three of its representatives were appointed governors of provinces of Angola.

Fighting continued and the UN Security Council adopted a resolution in September 1998 which urged the rejection of military force by all parties and named UNITA as 'the primary cause of the crisis in Angola'. In February 1999 the UN Security Council voted to withdraw the UN Observer Mission in Angola, the UN Secretary-General Kofi Annan having declared that the country was on the verge of a catastrophic breakdown and that there was no more peace to keep. The UN Security Council adopted a further resolution in April 2000, which called for an investigation into allegations that several countries had violated sanctions imposed on UNITA. Government forces succeeded in capturing large tracts of UNITA-controlled territory in late 2000. Following the death of Dr Jonas Savimbi in February 2002, UNITA and the government signed a formal cease-fire agreement in Luanda on 4 April 2002 and pledged to adhere to the 1994 peace agreement. In addition, provision was made for the demobilisation of around 100,000 UNITA fighters, to be monitored by the UN, and the provision of state aid for some 300,000 family members of these soldiers. In December 2002 the UN Security Council lifted all remaining economic and financial sanctions imposed on UNITA. Isaias Samakuva was elected leader of UNITA on 27 June 2003.

## SECESSION

In the northern enclave of Cabinda, the Front for the Liberation of the Cabinda Enclave (FLEC) fought a 20-year war of independence until the signing of a cease-fire with the government in September 1995, which was followed by the initialling of a peace agreement in April 1996.

## POLITICAL SYSTEM

The MPLA, formerly a Marxist-Leninist party, was the sole legal party until early 1991 when a multiparty system was adopted. The constitution declares Angola to be a democratic state and provides for a President, who appoints a Council of Ministers to assist him, and a 220-member National Assembly. In November 1996 the National Assembly adopted a constitutional amendment extending its mandate for between two and four years. The mandate was extended by the National Assembly on 17 October 2000 with no end date set.

## HEAD OF STATE

## DEFENCE

The Army has 400 main battle tanks and 170 armoured personnel carriers. The Navy has seven patrol vessels. The Air Force has 105 combat aircraft and 16 armed helicopters.

MILITARY EXPENDITURE – 9.8 per cent of GDP (2002)

MILITARY PERSONNEL – 129,000: Army 120,000, Navy 3,000, Air Force 6,000; Paramilitaries 10,000

## ECONOMY AND TRADE

Angola is Africa's second-largest exporter of oil (after Nigeria) and in 2002 oil accounted for 45 per cent of GDP and 90 per cent of foreign exchange earnings and government revenue. The government plans to double oil production by 2010. Angola is also rich in diamond deposits but much of the trade in these gems is unregulated. Principal agricultural crops are cassava, maize, bananas, coffee, palm oil and kernels, cotton and sisal. Coffee, sisal, maize and palm oil are exported; exports also include mahogany and other hardwoods from the tropical rain forests in the north of the country.

The government is attempting to restructure the socialist economy by free market reforms but is making little progress, with high inflation and a fragile economy.

The government raised fuel prices by 1,600 per cent in February 2000 in response to IMF demands to remove state subsidies on petroleum products.

GNI – US\$6,700 million (2001); US\$500 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 17.1 per cent (2002)

INFLATION RATE – 95.0 per cent (2002)

TOTAL EXTERNAL DEBT – US\$9,900 million (2002)

FOREIGN DIRECT INVESTMENT – US\$ 4,879 million (1997–2000)

Trade with UK	2002	2003
Imports from UK	£66,917,000	£103,728,000
Exports to UK	26,461,000	9,751,000

### TRANSPORT INFRASTRUCTURE

There are 51,429 km of roads, 46,080 km of which are unsurfaced. The majority of roads are in very poor condition and most travel is by convoy. There are many uncleared landmines in Angola, especially on roads in remote areas. There are 2,761 km of railway. Most internal travel takes place by air between the country's 244 airports (32 of which have surfaced runways).

### MEDIA

Angola's only news agency, Angop, the country's biggest broadcaster, Televisao Popular de Angola (TPA), and the country's only daily newspaper, *Jornal de Angolais*, are all government owned. There are several commercial radio stations, one private television station, and some subscription services (operated by Multichoice Angola) that include Brazilian and Portuguese channels.

### CULTURE

Up until relatively recently Angolan art was strictly controlled by the Ministry of Culture but since it released control in the late 1980s, art has become a significant industry. This liberalisation of the arts has affected many aspects of Angola's cultural life, creating, for example, a thriving traditional and contemporary music scene.

## ANTIGUA AND BARBUDA

### *State of Antigua and Barbuda*

AREA – 443 sq. km; Antigua 279 sq. km; Barbuda

160 sq. km; Redonda 1.2 sq. km

POPULATION – 65,000 (2001); the official language is English

CAPITAL – St John's (population, 24,226, 2000)

MAJOR TOWNS – Barbuda's main town is Codrington

CURRENCY – East Caribbean dollar (EC\$) of 100 cents

NATIONAL ANTHEM – Fair Antigua and Barbuda

NATIONAL DAY – 1 November (Independence Day)

NATIONAL FLAG – Red with an inverted triangle divided black over blue over white, with a rising gold sun on the white band

LIFE EXPECTANCY (years) – 71 (2001)

MORTALITY RATE (per 1,000 population) – 5.64 (2003)

INFANT MORTALITY (per 1,000 births) – 12 (2001)

DEATH PENALTY – Yes

POPULATION GROWTH RATE – 0.3 per cent (1990–2001)

POPULATION DENSITY – 147 per sq. km (2001)

URBAN POPULATION – 37 per cent (2001)

ILLITERACY RATE – (m) 5 per cent; (f) 5 per cent (2001)

MILITARY EXPENDITURE – 0.6 per cent of GDP (2001)

MILITARY PERSONNEL – 170: Army 125, Navy 45

### CLIMATE AND TERRAIN

The subtropical island of Antigua is part of the Leeward Islands in the eastern Caribbean. The elevation extremes range from 402 m at the highest point (Boggy Peak) to 0 m sea level (Caribbean Sea). It is distinguished from the rest of the Leeward Islands by its absence of high hills and forest, and has a drier climate than most of the West Indies.

Barbuda is 48 km away from Antigua. It is a very flat coral island with a large lagoon. Both of the islands lie within the hurricane belt and are subject to tropical storms and hurricanes between June and November.

### HISTORY AND POLITICS

Antigua was first settled by the English in 1632, and was granted to Lord Willoughby by Charles II. It became internally self-governing in 1967 and fully independent on 1 November 1981.

The United Progressive Party won the elections of March 2004 with a landslide victory (4 of 12 seats to the Antigua Labour Party's (ALP) with one tied) that removed the ALP from power for the first time in three decades.

### POLITICAL SYSTEM

Antigua and Barbuda is a constitutional monarchy with Queen Elizabeth II as Head of State, represented by the Governor-General. There is a Senate of 17 appointed members and a House of Representatives of 19 members, 17 of whom are elected every five years. The Attorney-General may be appointed.

*Governor-General*, HE Sir James Carlisle, GCMG

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Prime Minister*, Baldwin Spencer

*Minister of Finance, Economic Development and Planning*, Errol Cort

*Attorney General, Minister of Legal Affairs*, Justin Simon  
*Minister of Foreign Affairs, Tourism, International Travel, Trade*, Harold Lovell

### HIGH COMMISSION FOR ANTIGUA AND BARBUDA

15 Thayer Street, London W1M 5LD

T 020-7486 7073

*High Commissioner*, (vacant)

### BRITISH HIGH COMMISSION

PO Box 483, 11 Old Parham Road, St John's

T (+1 268) 462 0008/9

*High Commissioner*, HE John White, apptd 2001, resident at Bridgetown, Barbados

### ECONOMY AND TRADE

Antigua is now one of the Caribbean's most prosperous nations. The economy is largely based on tourism and related services (75 per cent of the workforce are employed in these areas), and offshore financial services. Agricultural production includes livestock, sea island cotton, mixed market gardening and fishing.

GNI – US\$630 million (2001); US\$9,150 per capita (2001)  
 ANNUAL AVERAGE GROWTH OF GDP – 0.2 per cent (2001)  
 INFLATION RATE – 1.0 per cent (2002)  
 IMPORTS – US\$414 million (1999)  
 EXPORTS – US\$38 million (1999)

#### BALANCE OF PAYMENTS

*Trade* – US\$283 million deficit (2001)  
*Current Account* – US\$47 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£17,144,000	£17,698,000
Exports to UK	1,853,000	9,657,000

#### MEDIA

Many of Antigua and Barbuda's television and radio stations are owned or controlled by the Antigua Labour Party. Antigua's first independent radio station began broadcasting in 2001.

#### CULTURE

Most of the inhabitants of Antigua and Barbuda are descendants of African slaves brought to the islands to work on sugar plantations by the British in the late 17th century. The islands are rich in British naval history (Lord Nelson built Nelson's Dockyard on Antigua in 1784) and perfectly preserved colonial architecture (in English Harbourn town) but support a vibrant and colourful Afro-Caribbean culture.

## ARGENTINA

*República Argentina – Argentine Republic*

AREA – 2,736,700 sq. km. Neighbours: Bolivia (north), Paraguay, Brazil and Uruguay (north-east), Chile (west) from which it is separated by the Cordillera de los Andes

POPULATION – 37,488,000 (2001). The language is Spanish

CAPITAL – ΨBuenos Aires (population, 11,453,725, 2001; metropolitan area 2,768,772)

MAJOR CITIES – Córdoba; ΨLa Plata;

ΨMar del Plata; Mendoza;

ΨRosario; San Miguel de Tucumán

CURRENCY – Peso of 10,000 australes

NATIONAL ANTHEM – Oid Mortales! (Hear, Oh Mortals!)

NATIONAL DAY – 25 May

NATIONAL FLAG – Horizontal bands of blue, white, blue; gold sun in centre of white band

LIFE EXPECTANCY (years) – 74 (2001)

MORTALITY RATE (per 1,000 population) – 7.58 (2003)

INFANT MORTALITY (per 1,000 births) – 16 (2001)

HIV / AIDS ADULT PREVALENCE – 0.7 per cent (2001)

DEATH PENALTY – Yes\*

POPULATION BELOW POVERTY LINE – 37 per cent (2001)

POPULATION GROWTH RATE – 1.3 per cent (1990–2001)

POPULATION DENSITY – 14 per sq. km (2001)

URBAN POPULATION – 88 per cent (2001)

#### CLIMATE AND TERRAIN

The Andes mountain range runs the full length of Argentina, a dramatic spine to the country's western border with Chile. Parts of the Andes are prone to earthquakes. Subtropical plains can be found in the north-east, arid, desert-like terrain in Patagonia (south), and rich, grassy Pampas in the east. Temperatures range from subtropical to subantarctic with an average annual temperature of 16°C. The highest point of elevation is 6,960 m (Cerro Aconcagua) and the lowest is –105 m (Laguna del Carbon).

#### HISTORY AND POLITICS

The estuary of La Plata was discovered in 1515 by Juan Díaz de Solís and the region was subsequently colonised by the Spanish. Spain ruled the territory from the 16th century until 1810. In 1816, after a long campaign of liberation conducted by General José de San Martín, independence was declared by the Congress of Tucumán. The country's constitution was adopted in 1853 followed by a period of national organisation.

President Juan Domingo Perón was overthrown in 1955 and there followed 18 years of instability until 1973 when he was recalled from exile. Perón died within a year and was succeeded by his widow, Vice-President Mara Estela Martínez de Perón. A coup led to the establishment of a military junta in 1976. Following the invasion, and subsequent defeat, of the Falkland Islands/Malvinas in 1982, the President, Gen. Galtieri, resigned and the Army appointed Gen. Bignone. A civilian president was elected in 1983.

In 2000 Vice-President Carlos Álvarez resigned in protest at the President's decision not to dismiss two senior officials involved in a bribery allegation. President Fernando de la Rúa resigned in 2001 in the face of serious unrest caused by the collapsing economy. Following a series of interim presidents, Eduardo Alberto Duhalde was appointed President by Congress on 1 January 2002, to serve for the rest of de la Rúa's term. He resigned before the first round of presidential elections, held in April 2003, in which former President Carlos Menem gained 24.4 per cent of the vote and Néstor Kirchner 22 per cent. Menem withdrew from the second round and Néstor Kirchner became President-elect by default and was sworn in as President on 25 May.

#### POLITICAL SYSTEM

The 1853 constitution was amended in 1994. Power is vested in the President who appoints the Cabinet and is directly elected for a once-renewable four-year term. A presidential candidate must win at least 45 per cent of the vote, or 40 per cent with a 10 per cent lead over the nearest challenger, to gain victory in the first round of voting; if no candidate meets these criteria, a second round must be held. The legislature consists of a 72-member (three for each province and three for Buenos Aires) Senate and a 257-member Chamber of Deputies. Half of the Chamber of Deputies is elected every two years. Deputies serve for a four-year term. Senators have served for a nine-year term, with a third being elected every three years, but the terms of all sitting senators ended in December 2001. In October 2001 the Senate was directly elected by the provinces for a six-year term, with one-third renewable every two years.

#### FEDERAL STRUCTURE

The republic is divided into 23 provinces, each with an elected Governor and legislature, and one federal district

(Buenos Aires), with an elected mayor and autonomous government.

#### HEAD OF STATE

*President*, Néstor Kirchner, sworn in 25 May 2003

*Vice-President*, Daniel Scioli

#### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Cabinet Chief*, Alberto Fernández

*Defence*, José Pampuro

*Economy*, Roberto Lavagna

*Foreign Relations, International Trade and Worship*, Rafael Bielsa

*Interior*, Anbal Fernández

E info@britishcouncil.org.ar

#### DEFENCE

The Army has 200 main battle tanks, 105 armoured infantry fighting vehicles and 422 armoured personnel carriers. The Navy has three submarines, five destroyers, eight frigates, 14 patrol and coastal vessels, 25 combat aircraft and 21 armed helicopters. The Air Force has 128 combat aircraft and 28 armed helicopters.

MILITARY EXPENDITURE – 1.4 per cent of GDP (2002)

MILITARY PERSONNEL – 71,400: Army 41,400, Navy 17,500, Air Force 12,500; Paramilitaries 31,240

#### ECONOMY AND TRADE

Since late 1998 Argentina has been in a recession. In 2001, measures to reassure international investors that the country would not default on its debt repayments were introduced. In November 2001, the President announced several economy-boosting measures but in December 2001 the government defaulted on part of its large public debt. A wave of protests took place across the country in the wake of continued economic instability. In 2003 the IMF made available an eight-month standby credit of approximately US\$1,580 million to cover Argentina's payment obligations to the IMF. It was also agreed that US\$2,000 million in repayments to the IMF would be postponed by one year, enabling Argentina to clear its arrears with the World Bank and the Inter-American Development Bank.

The main crops are wheat, maize, oats, barley, rye, linseed, sunflower seed, alfalfa, sugar, fruit and cotton. Argentina is pre-eminent in the production of beef, mutton and wool. There is an oil refinery in San Lorenzo (Santa Fé province). Natural gas is also produced. Coal, lead, zinc, tungsten, iron ore, sulphur, mica and salt are the other chief minerals being exploited. There are small worked deposits of beryllium, manganese, bismuth, uranium, antimony, copper, kaolin, arsenate, gold, silver

and tin. Coal is produced at the Río Turbio mine in the province of Santa Cruz.

Meat-packing is one of the principal industries; flour-milling, sugar-refining, and the wine industry are also important. In recent years progress has been made by the textile, plastic and machine tool industries and engineering, especially in the production of motor vehicles and steel manufactures. Argentina's main trading partners are Brazil and the USA.

GNI – US\$260,300 million (2001); US\$6,940 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 1.4 per cent (2002)

INFLATION RATE – 0.9 per cent (2000)

UNEMPLOYMENT – 15.0 per cent (2000)

TOTAL EXTERNAL DEBT – US\$146,172 million (2000)

IMPORTS – US\$8,990 million (2002)

EXPORTS – US\$25,709 million (2002)

FOREIGN DIRECT INVESTMENT – US\$48,389 million (1997–2000)

#### BALANCE OF PAYMENTS

*Trade* – US\$7,451 million surplus (2001)

*Current Account* – US\$4,554 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£127,923,000	£135,968,000
Exports to UK	246,502,000	257,579,000

#### TRANSPORT INFRASTRUCTURE

The 34,463 km of railway is state owned. The combined national and provincial road network totals approximately 215,471 km of which 63,348 km are surfaced. Investments of US\$20,000 million for new roads and an upgrade of existing infrastructure for road, rail and air transport are taking place (2000–5). There are two large ports at Ensenada (La Plata) and Buenos Aires.

#### EDUCATION

Education is compulsory and free from the age of six to 15. The total number of universities is over 50 with 24 national, 25 private and a small number of provincial universities.

ILLITERACY RATE – (m) 2.9 per cent; (f) 2.9 per cent (2003)

ENROLMENT (percentage of age group) – primary 100 per cent (1997); secondary 73 per cent (1997); tertiary 36 per cent (1997)

#### MEDIA

Argentina's media is well developed with over 150 daily newspapers (published in both English and Spanish), including seven major dailies published in Buenos Aires. There are more than a thousand commercial radio stations (many unlicensed), over 40 television stations and widespread access to cable television.

#### CULTURE

Culturally, Argentina enjoys an exciting blend of pre-colonial and European influences. The arts and literature of Spain still form the bedrock of Argentinean education, while the character of the 'gaucho' (cowboy) remains a powerful and archetypal presence within the cultural landscape.

Despite these often disparate influences, Argentina has produced some of the 20th century's most important writers including Jorge Luis Borges (1899–1986) and Julio Cortazar (1914–1984). Dance, architecture,

sport and cinema are all central to cultural life in Argentina.

## ARMENIA

*Hayastani Hanrapetut'yun – Republic of Armenia*

AREA – 29,800 sq. km. Neighbours: Azerbaijan (east and south-west), Georgia (north), Iran (south), Turkey (west)

POPULATION – 3,800,000 (2002 estimate). Armenians 93.8 per cent, Kurds 1.7 per cent and Russians 1.6 per cent. Azeris formed 2.6 per cent of the population, but most fled or were expelled after the outbreak of war with Azerbaijan. There are also Ukrainians, Greeks and Assyrians. The Armenian diaspora numbers some 5,300,000. Armenian is the official language, though Russian is widely spoken and understood. The main religion is Armenian Orthodox Christian (Armenian Church centred in Etchmiadzin). Armenia adopted Christianity as its official religion in AD 301, the first state in the world to do so

CAPITAL – Yerevan (population, 1,254,400, 1996 estimate)

CURRENCY – Dram of 100 louna

NATIONAL ANTHEM – Mer Hayrenik Azat, Ankakh (Land Of Our Fathers)

NATIONAL DAY – 21 September (Independence Day)

NATIONAL FLAG – Three horizontal stripes of red, blue and orange

MORTALITY RATE (per 1,000 population) – 10.16 (2003)

HIV / AIDS ADULT PREVALENCE – 0.2 per cent (2001)

DEATH PENALTY – Yes\*

POPULATION BELOW POVERTY LINE – 50 per cent (2002)

POPULATION GROWTH RATE – 0.2 per cent (1991–2001)

POPULATION DENSITY – 127 per sq. km (1999)

### CLIMATE AND TERRAIN

Armenia lies between the Black and Caspian Seas, occupying the south-western part of the Caucasus region of the former Soviet Union. It is very mountainous, consisting of several vast tablelands surrounded by ridges. The elevation extremes range from 4,090 m at the highest point (Aragats Lerrnagat) to 400 m at the lowest (Debed River). The climate is continental, dry and cold, but the Ararat valley has a long, hot and dry summer. Armenia is in an active seismic zone and the north of the country suffered an earthquake in 1988 that left an estimated 50,000 people dead.

### HISTORY AND POLITICS

Armenia was first unified in 95 BC but was divided between the Persian and Byzantine empires in AD 387 and then conquered in the 11th century by the Seljuk Turks and the Mongols. In the 16th century most of Armenia was incorporated into the Ottoman Empire. In 1639 the country was divided again, the most easterly areas, now the Republic of Armenia, becoming part of the Persian Empire. In 1828 eastern Armenia became part of the Russian Empire while western Armenia remained under Ottoman rule. The Ottomans launched pogroms

against the Armenians from 1894 onwards, and in 1915 to 1918 massacred 1,500,000 Armenians.

Armenia declared its independence on 28 May 1918, but was crushed and divided between Turkish and Soviet forces in 1920, with the area under Soviet control proclaimed a Soviet Socialist Republic in November 1920. The Soviet government was overthrown by a nationalist revolt in 1921 but reinstated by the Red Army a few months later. In early 1922 Armenia acceded to the USSR.

An Armenian nationalist movement gained power in national elections in mid-1990. In a referendum in 1991, 99 per cent of the electorate voted for independence, which was declared on 21 September 1991. Prime Minister Vazgen Sarkissian and six other politicians were shot dead in the National Assembly during an attempted coup on 27 October 1999.

Presidential elections took place in February 2003. Robert Kocharian was re-elected president following the second round of voting in which he gained over 65 per cent of the vote. In the general election held in May 2004 the Republican Party of Armenia (HHK) became the dominant political party.

### FOREIGN RELATIONS

The dispute between the (ethnic Armenian) Nagorno-Karabakh forces supported by Armenia and the Azeri government over Nagorno-Karabakh erupted into all-out war in May 1992, when Nagorno-Karabakh forces breached Azerbaijan's defences to form a land bridge to Armenia. By the end of summer 1992 all of Nagorno-Karabakh was under Armenian control, and by the end of 1993 all Azeri territory that separated Nagorno-Karabakh from Armenia and all mountainous Azeri territory around Nagorno-Karabakh was under the control of Nagorno-Karabakh Armenians. Armenia claims this territory as historically Armenian land arbitrarily given to Azerbaijan by Stalin in 1921–2. A cease-fire agreement between Armenia, Azerbaijan and Nagorno-Karabakh was reached in May 1994, and talks mediated by the Organisation for Security and Co-operation in Europe (OSCE) continue to seek a peaceful resolution to the dispute.

In August 1997 Armenia and Russia renewed a Treaty of Friendship, Co-operation and Mutual Assistance in effect since 1991.

### POLITICAL SYSTEM

There is a 131-member unicameral National Assembly (*Azgayin Joghov*), directly elected every four years. A new constitution was approved by a referendum in July 1995.

### HEAD OF STATE

*President*, Robert Kocharian, *elected* 30 March 1998, *re-elected* 5 March 2003

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Prime Minister*, Andranik Markarian

## DEFENCE

The Army has 110 main battle tanks, 110 armoured infantry fighting vehicles and 36 armoured personnel carriers. The Air Force has eight combat aircraft and 10 armed helicopters.

Russia maintains 3,500 army personnel in Armenia. An agreement on military co-operation with Russia was signed in 1996 which paved the way for joint military exercises. A protocol was also signed on the establishment of coalition troops in Transcaucasia and the planned use of Russian and Armenian armed forces as part of coalition troops in cases of mutual interest. On 19 December 2001, Russian President Vladimir Putin signed a federal law relating to an agreement between the Russian Federation and the Republic of Armenia on the joint planning of the use of troops (forces) in the interests of joint security provision. This stipulates measures to prevent the use by third countries of the territory of Armenia for purposes that may inflict damage on Russian national interests.

MILITARY EXPENDITURE – 6.4 per cent of GDP  
(2002)MILITARY PERSONNEL – 44,660: Army 41,500, Air  
Force 3,160; Paramilitaries 1,000

CONSCRIPTION DURATION – Two years

## ECONOMY AND TRADE

The Armenian economy has been badly affected by the Azeri and Turkish economic embargoes which have been in place since 1988. Armenia has a strong agricultural sector in low-lying areas, where industrial and fruit crops are grown. Grain is produced in the hills and the country is also noted for its wine and brandy. There are large mineral deposits including copper ore and molybdenum. Armenia has developed chemicals, industrial vehicles and textiles industries.

The government introduced a programme of economic reforms in November 1994 with IMF support, including the liberalisation of prices, stabilisation of the currency and privatisation.

In December 2002, the general council of the World Trade Organisation (WTO) voted to approve Armenia's application for membership.

In 2003, Russia assumed the management of Armenia's only nuclear power station and main electricity producer in exchange for US\$40 million in fuel debts.

GNI – US\$1,213 million (2002); US\$706 per capita  
(2002)ANNUAL AVERAGE GROWTH OF GDP – 12.0 per cent  
(2002)

INFLATION RATE – 3.0 per cent (2002)

UNEMPLOYMENT – 9.3 per cent (1998)

TOTAL EXTERNAL DEBT – US\$898 million (2000)

IMPORTS – US\$991 million (2002)

EXPORTS – US\$507 million (2002)

## BALANCE OF PAYMENTS

Trade – US\$420 million deficit (2001)

Current Account – US\$201 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£5,155,000	£5,575,000
Exports to UK	332,000	64,069,000

## EDUCATION

State education is free and compulsory for all children aged seven to 14. Children attend primary school for three years, until the age of nine, then progress on to secondary school for five years, until the age of 14. At the end of intermediate school a Certificate of Basic Education is awarded. Senior secondary school may be attended for two years from the ages of 14 to 16. There are 25 institutions of higher education in Armenia (including seven colleges).

ILLITERACY RATE – (m) 0.6 per cent; (f) 2 per cent

ENROLMENT (percentage of age group) – tertiary 12.0  
per cent (1996)

## MEDIA

Television and radio in Armenia are controlled by the state. All print and broadcast media is obliged to register with the Ministry of Justice.

## CULTURE

Armenia is Middle Eastern in character and atmosphere but with Christianity, not Islam, as the dominant religion – there are more than 40,000 churches and monuments throughout the country.

Major cultural figures include the poets Nahapet Kuchak (16th century) and Sayat-Nova (18th century), the composer Aram Khachaturian (1903–78), and the film director Sergo Parajanov (1924–90).

## AUSTRALIA

*The Commonwealth of Australia*

AREA – 7,682,300 sq. km

POPULATION – 19,941,000 (2003): 458,520 of

 URBAN POPULATION – 87 per cent (2001)

## CLIMATE AND TERRAIN

Australia is a continent, the world's sixth-largest country and home to a wide variety of landscapes and weather conditions. The interior is dominated by hot deserts and is only thinly populated. The eastern and south-eastern coastlines are the most densely populated areas and feature mountains, flat golden beaches and primary rain forests. The highest point of elevation is 2,229 m (Mount Kosciuszko) and the lowest is -15 m (Lake Eyre). The summer begins in December, the winter in June, the spring in September and the autumn in March. Average annual temperatures range from zero to 34°C.

## HISTORY AND POLITICS

Australia was discovered by Europeans in the 17th century. Its eastern coast was claimed by Capt. James Cook on behalf of Britain in 1770 and became a penal colony; Tasmania, Western Australia, South Australia, Victoria and Queensland were established as colonies between 1825 and 1859. The colonies were federated as the Commonwealth of Australia on 1 January 1901, at which time Australia gained dominion status within the British Empire. Australia became independent within the British Commonwealth by the 1931 Statute of Westminster. Following a referendum in 1967, the Aboriginal population was granted full political rights. In 1986, the Australia Act was passed, which abolished the remaining legislative, executive and judicial links to the UK, while retaining the British monarch as head of state.

In 1998, the Constitutional Convention voted by 89 votes to 52 to sever constitutional links with the United Kingdom monarchy. A national referendum was held on the issue in 1999; the proposition to make Australia a republic was defeated, with 45.3 per cent voting in favour and 54.7 per cent against.

The general election of 2001 was won by the ruling Liberal Party-National Party Coalition. A general election was scheduled for 9 October 2004.

## POLITICAL SYSTEM

The government is a federal commonwealth within the Commonwealth, the executive power being vested in the Sovereign (through the Governor-General) assisted by a federal government. Under the constitution the powers of the federal government are defined, and residuary legislative power remains with the states. The right of a state to legislate on any matter is not abrogated except in connection with matters exclusively under federal control, but where a state law is inconsistent with a law of the Commonwealth the latter prevails to the extent of the inconsistency.

Parliament consists of Queen Elizabeth II, the Senate and the House of Representatives. The constitution provides that the number of members of the House of Representatives shall be, as nearly as practicable, twice the number of senators. Members of the Senate are elected for six years by universal suffrage, half the members retiring every third year, except in the Australian Capital Territory

and the Northern Territory, where members are elected for a three-year term. Each of the six states returns 12 senators, and the Australian Capital Territory and the Northern Territory two each. The House of Representatives, similarly elected for a maximum of three years, contains members proportionate to the population, with a minimum of five members for each state. There are now 150 members in the House of Representatives, including two members for the Northern Territory and two for the Australian Capital Territory.

The High Court exercises jurisdiction over all matters arising under the constitution, all matters arising between the states and between residents of different states, matters to which the Commonwealth of Australia is a party, matters arising under any treaty, and matters affecting foreign representatives in Australia. The High Court also hears appeals from the Federal Court and from the Supreme Courts of states and territories.

The Federal Court of Australia has jurisdiction over important industrial and trade practices, intellectual property, administrative law, admiralty law and bankruptcy matters. It also acts as a court of appeal for decisions from the Australian Capital Territory Supreme Court and certain decisions of state Supreme Courts exercising federal jurisdiction. Each state has its own judicature of supreme, superior and minor courts for criminal and civil cases.

## FEDERAL STRUCTURE

In the states, executive authority is vested in a Governor (appointed by the Crown), assisted by a Council of Ministers or Executive Council. Each state has a legislature comprising a Legislative Council and a Legislative Assembly or House of Assembly which are elected for four-year terms, except Queensland, which has a Legislative Assembly only.

The Northern Territory and Australian Capital Territory have a Legislative Assembly only.

## STATES AND TERRITORIES

	<i>Area (sq. km)</i>	<i>Resident population 30 September 2003</i>	<i>Capital</i>	<i>Governor 2004</i>

## DEFENCE

The Army has 71 main battle tanks, 364 armoured personnel carriers, 255 light armoured vehicles, six

aircraft and 104 armed helicopters. The Navy has six submarines, 11 frigates, 15 patrol and coastal vessels and 16 armed helicopters. There are bases at Sydney, Stirling, Cairns, Darwin, Flinders, Jervis Bay and Noura. The Air Force has 161 combat aircraft.

MILITARY EXPENDITURE – 2.0 per cent of GDP (2002)  
MILITARY PERSONNEL – 53,650: Army 26,600, Navy 12,850, Air Force 14,200

## ECONOMY AND TRADE

The wide range of climatic and soil conditions has resulted in a diversity of crops. Generally, cereal crops (excluding rice and sorghum) are widely grown, while other crops are confined to specific locations in a few states. However, scant or erratic rainfall, limited potential for irrigation and unsuitable soils or topography have restricted intensive agriculture.

Cattle and sheep ranching is widespread and produces significant agricultural products including meat, meat derivatives, wool and dairy products.

Significant mineral resources include bauxite, coal, copper, crude petroleum, gems, gold, ilmenite, iron ore, lead, limestone, manganese, nickel, rutile, salt, silver, tin, tungsten, uranium, zinc and zircon. In 2001–2 338,000,000 tonnes of coal, 36,100,000 tonnes of crude oil, 36,000,000 cubic metres of natural gas, 185,000,000 tonnes of iron ore, 1,020,000 tonnes of lead, and 264 tonnes of gold were produced.

In 2002–3 the main exports were coal, not agglomerated (10.3 per cent); petroleum and related products (5.1 per cent); gold (4.8 per cent); iron ore and concentrates (4.6 per cent); aluminium (3.5 per cent). The major imports were motor vehicles, excluding public transport (7.7 per cent); petroleum and related products (5.9 per cent); aircraft and associated equipment (4.1 per cent); computer technology (3.7 per cent); medicaments (3.2 per cent); and telecommunications equipment (3.2 per cent)

Australia's main trading partners are Japan, the USA, New Zealand, China, Korea, Germany, Taiwan, Indonesia and the UK.

GNI – US\$385,900 million (2001); US\$19,900 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.0 per cent (2001)

INFLATION RATE – 2.4 per cent (2003)

UNEMPLOYMENT – 5.8 per cent (2004)

FOREIGN DIRECT INVESTMENT – US\$32,493 million (1997–2000)

IMPORTS – US\$72,690 billion (2002)

EXPORTS – US\$65,092 billion (2002)

**BALANCE OF PAYMENTS**

*Trade* – US\$5,428 million deficit (2002)

*Current Account* - US\$17,879 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£2,123,928,000	£2,300,935,000
Exports to UK	1,774,387,000	1,825,400,000

**TRANSPORT INFRASTRUCTURE**

There are six government-owned railway systems, operated by the State Rail Authority of NSW, VicRail, Queensland Government Railways, Western Australian Government Railways, the State Transport Authority of Southern Australia, and the National Rail Corporation (NRC). The NRC incorporates the former Commonwealth Railways system, and the Tasmanian and non-metropolitan South Australian railways (urban rail services in Southern Australia remain the responsibility of the State Transport Authority). In 2002 there was a total of 41,286 km of railway track.

The Northern Territory has three main ports: Darwin, and the private mining ports of Gove and Groote Eylandt. Most freight in the Territory is moved by road trains. These are massive trucks hauling two or three trailers, having a net capacity of about 100 tonnes and measuring up to 45 metres in length. There are a total of 811,603 km of highways.

**EDUCATION**

Education is administered by the state governments and is compulsory between the ages of six and 15 (16 in Tasmania). It is available at government schools controlled by the state education department and at private or independent schools, some of which are denominational. Tertiary education is available through universities and technical and further education colleges. There are 41 universities in Australia; the Australian Capital Territory has three universities, New South Wales 13, Queensland nine, Northern Territory one, South Australia three, Tasmania one, Victoria nine and Western Australia five.

ENROLMENT (percentage of age group) – primary 100 per cent (1997); secondary 100 per cent (1997); tertiary 80 per cent (1997)

**MEDIA**

Australia's leading newspapers are *The Sydney Morning Herald*, the *Herald Sun*, *The Australian*, *The Daily Telegraph*, *The Age*, *The West Australian*, *The Australian Financial Review*, and *The Advertiser*. There is an established tradition of public service broadcasting (via the Australian Broadcasting Corporation and the Special Broadcasting Service) and of commercial television (Seven Network, Nine Network, Ten Network). Australian media tycoon Rupert Murdoch owns News Corporation and a considerable subscription-based television empire.

The Australian film industry is small but highly-regarded and well funded. In 2004 there were 5.2 million internet users.

**CULTURE**

The roots of Australian Aboriginal art date back 30,000 years and modern Aboriginal artists use traditional forms in contemporary ways. Australian theatre excels in established formats but is also known for its experimental edge. The Australian literary scene is internationally

acclaimed with authors such as Patrick White (1912–90) winning the Nobel Prize in 1973 and Peter Carey (b.1943) and Thomas Keneally (b.1935) winning the Booker Prize. Australian actors such as Russell Crowe (b.1964), Nicole Kidman (b.1967) and Mel Gibson (b.1956) enjoy success in Hollywood.

**EXTERNAL TERRITORIES**

**ASHMORE AND CARTIER ISLANDS**

Ashmore Islands (known as Middle, East and West Islands) and Cartier Island are situated in the Indian Ocean 850 km and 790 km west of Darwin respectively. The islands are uninhabited. The territory has been administered by the Australian Government since 1933.

**THE AUSTRALIAN ANTARCTIC TERRITORY**

The Australian Antarctic Territory was established in 1933 and comprises all the islands and territories, other than Adélie Land, which are situated south of latitude 60° S. and lying between 160° E. longitude and 45° E. longitude. The territory is administered by the Antarctic Division of the Department of the Environment and Heritage.

**CHRISTMAS ISLAND**

AREA – 135 sq. km

POPULATION – 1,928 (2001)

Christmas Island is situated in the Indian Ocean about 1,408 km north-west of North West Cape in Western Australia. The island became an Australian territory in 1958 and is managed by the Department of Transport and Regional Services. The Shire of Christmas Island (SOCI) has nine elected members. SOCI is responsible for municipal functions and services on the island.

**COCOS (KEELING) ISLANDS**

AREA – 14 sq. km

POPULATION – 600 (2001)

The Cocos (Keeling) Islands are two separate atolls (North Keeling Island and, 24 km to the south, the main atoll) comprising some 27 small coral islands, situated in the Indian Ocean. The main islands of the southern atoll are West Island (about 9 km in length); Home Island, where the Cocos Malay community lives; Direction Island, Horsburgh and South Island.

The islands were declared a British possession in 1857. All land in the islands was granted to George Clunies-Ross and his heirs by Queen Victoria in 1886. In 1978 the Australian Government purchased all Clunies-Ross land and property interests except for the family home and grounds; the last of the remaining grounds were purchased in 1993. Between 1979 and 1984 most of the land was transferred to trusts with the Cocos (Keeling) Islands Council as trustee, the local government body established in 1979 which was replaced by the Shire of the Cocos (Keeling) Islands in July 1992.

In April 1984 the Cocos community, in a UN-supervised Act of Self-Determination, chose to integrate with Australia. The islands are managed by the Australian Government through the Department of Transport and Regional Services.

## CORAL SEA ISLANDS TERRITORY

The Coral Sea Islands Territory lies east of Queensland between the Great Barrier Reef and longitude 156° 06' E., and between latitudes 12° and 24° S. It comprises scattered islands, spread over a sea area of 780,000 sq. km. The islands are formed mainly of coral and sand, and most are extremely small. There is a manned meteorological station in the Willis Group but the remaining islands are uninhabited.

The territory is managed by the Department of Transport and Regional Services.

## HEARD ISLAND AND MCDONALD ISLANDS

The Territory of the Heard and McDonald Islands, about 4,100 km south-west of Perth, comprises all the islands and rocks lying between 52° 30' and 53° 30' S. latitude and 72° and 74° 30' E. longitude. The islands are administered by the Antarctic Division of the Department of the Environment and Heritage.

## NORFOLK ISLAND

AREA – 34.5 sq. km

POPULATION – 2,037 (2001)

SEAT OF GOVERNMENT – Kingston

Norfolk Island is situated in the South Pacific Ocean. It is about 8 km long by 5 km wide. The climate is mild and subtropical.

The island, discovered by Captain Cook in 1774, served as a penal colony from 1788 to 1814 and from 1825 to 1855. In 1856, 194 descendants of the *Bounty* mutineers accepted an invitation to leave Pitcairn and settle on Norfolk Island.

In 1979 Norfolk Island gained a substantial degree of self-government. Wide powers are exercised by a nine-member Legislative Assembly that is elected every three years. The Administrator is responsible to the Australian Minister for Regional Services, Territories and Local Government.

## AUSTRIA

*Republik Österreich – Republic of Austria*

AREA – 82,700 sq. km. Neighbours: the Czech Republic and Slovakia (north), Italy and Slovenia (south), Hungary (east), Germany (north-west), Switzerland and Liechtenstein (west)

POPULATION – 8,075,000 (2001). The language is German, but the rights of the Slovene, Croat, Hungarian, Czech, Slovak, Roma and Sinti minorities are protected. The predominant religion is Roman Catholicism

CAPITAL – Vienna, on the Danube (population, 1,550,123, 2001 census)

MAJOR CITIES – Graz; Innsbruck; Klagenfurt; Linz; Salzburg

CURRENCY – Euro (€) of 100 cents

NATIONAL ANTHEM – Land Der Berge, Land Am Strome (Land Of Mountains, Land On The River)

NATIONAL DAY – 26 October

NATIONAL FLAG – Three equal horizontal stripes of red, white, red

LIFE EXPECTANCY (years) – 78 (2001)

MORTALITY RATE (per 1,000 population) – 9.69 (2003)

HIV / AIDS ADULT PREVALENCE – 0.2 per cent (2001)

DEATH PENALTY – No (abolished 1968)

INFANT MORTALITY (per 1,000 births) – 5 (2001)

POPULATION GROWTH RATE – 0.4 per cent

(1990–2001)

POPULATION DENSITY – 98 per sq. km (2001)

## CLIMATE AND TERRAIN

The Austrian Alps (in the west and south of the country) are famous as a winter sports destination. The north and east of the country feature rolling hills and there is a temperate climate which averages from 2°C in January to 20°C in July. The highest point of elevation is 3,798 m (Grossglockner) and the lowest is 115 m (Neusiedler See).

## HISTORY AND POLITICS

The Austrian state dates back to the eighth century AD when Emperor Charlemagne conquered the territory and founded the *Ostmark*, the eastern march of the Holy Roman Empire, which had been settled from the sixth century onwards by Bavarian Germans. The Habsburg dynasty established an empire which united much of central Europe, including present-day Austria and Hungary. The Republic of Austria was established in 1918 on the break-up of the Austro-Hungarian Empire. In March 1938 Austria was incorporated into Nazi Germany under the name *Ostmark*. After the liberation of Vienna in 1945, the Republic of Austria was reconstituted within the 1937 frontiers and a freely-elected government took office in December 1945. The country was divided into four zones occupied respectively by the UK, USA, USSR and France, while Vienna was jointly occupied by the four powers. In 1955 the Austrian State Treaty was signed by the foreign ministers of the four powers and of Austria. This treaty recognised the re-establishment of Austria as a sovereign, independent and democratic state, having the same frontiers as on 1 January 1938. Austria acceded to the European Union on 1 January 1995.

After the Social Democrats and the Austrian People's Party (ÖVP) failed to form a coalition following the general election of 1999, a coalition government comprising the ÖVP and the far-right Austrian Freedom Party (FPÖ) (led by Jörg Haider, who had expressed support for some aspects of the wartime Nazi regime) was sworn in on 5 February 2000 after both parties signed a document expressing their commitment to the European Union and aversion to discrimination and intolerance. International opposition to the inclusion of the FP in the government resulted in the suspension of bilateral relations between the governments of the other EU members and Austria. In May, Jörg Haider resigned as leader of the FPÖ in an attempt to calm the situation. The suspension of relations between the EU members and Austria was lifted in September 2000 following an investigation into the Austrian government which cleared it of any wrongdoing. The ÖVP won the legislative elections of November 2002 with 42.3 per cent of the vote. But the Party did not gain enough votes to form a government of its own. After coalition talks with the Social Democrats and Greens failed, ÖVP leader Walter Schüssel announced in February 2003 that he had reformed his previous coalition with the FPÖ and a new Cabinet was appointed.

## POLITICAL SYSTEM

There is a bicameral national assembly; the lower house (*Nationalrat*) has 183 directly-elected members and the upper house (*Bundesrat*) has 64 representatives of the nine

provinces (dependent on population). There is a four per cent qualification for parliamentary representation.

### FEDERAL STRUCTURE

There are nine provinces (population figures for 2001): Burgenland (277,569); Carinthia (559,404); Lower Austria (1,545,804); Salzburg (515,327); Styria (1,183,303); Tirol (673,504); Upper Austria (1,376,797); Vienna (1,550,123); Vorarlberg (351,095).

### HEAD OF STATE

*President of the Republic of Austria*, Heinz Fischer, took office 8 July 2004

### SELECTED GOVERNMENT MEMBERS as at July 2004

*Chancellor*, Wolfgang Schüssel

*Vice-Chancellor, Minister for Infrastructure*, Hubert Gorbach

*Defence*, Günther Platter

*Finance*, Karl-Heinz Grasser

*Foreign Affairs*, Benita Ferrero-Waldner

*Interior*, Ernst Strasser

### AUSTRIAN EMBASSY

18 Belgrave Mews West, London SW1 8HU

T 020-7235 3731

*Ambassador Extraordinary and Plenipotentiary*, HE Alexander Christiani, apptd 2000

### BRITISH EMBASSY

*Ambassador Extraordinary and Plenipotentiary*, HE John MacGregor, CVO, apptd 2003

### BRITISH COUNCIL DIRECTOR, Dr Simon Cole

Schenkenstrasse 4, A-1010 Vienna

T (+43) (1) 533 2616

E bc.vienna@britishcouncil.at

### DEFENCE

The Army has 274 main battle tanks and 493 armoured personnel carriers. The Air Force has 52 combat aircraft and 11 armed helicopters.

**MILITARY EXPENDITURE** – 0.8 per cent of GDP (2001)

**MILITARY PERSONNEL** – Army 34,600, of which Air Force 6,850

**CONSCRIPTION DURATION** – Eight months, or seven months plus refresher training

### ECONOMY AND TRADE

Major industries include iron and steel production, chemicals, electrical goods, mechanical engineering, textiles and paper production. Agricultural products include wheat, rye, barley, oats, maize, potatoes, sugar beet and turnips. Timber forms a valuable source of Austria's indigenous wealth with approximately 47 per cent of the total land area consisting of forest areas. However, strict regulations have preserved Austria's environment from over-production. Foreign exchange receipts from tourism are a major contribution to the balance of payments. Austria suffered low economic growth in 2001 and 2002.

Main exports are processed goods (iron and steel, other metal goods, textiles, paper and cardboard products), machinery and transport equipment, other finished goods (including clothing), raw materials, chemical products and foodstuffs. Main imports are machinery and transport

equipment, processed goods, chemical products, foodstuffs, fuel and energy. Austria's main trading partners are Germany, Italy, France and Switzerland.

**GNI** – US\$194,700 million (2001); US\$23,940 per capita (2001)

**ANNUAL AVERAGE GROWTH OF GDP** – 3.3 per cent (2000)

**INFLATION RATE** – 2.4 per cent (2000)

**UNEMPLOYMENT** – 3.6 per cent (2000)

**FOREIGN DIRECT INVESTMENT** – US\$20,400 (1997–2000)

**IMPORTS** – US\$71,841 million (2002)

**EXPORTS** – US\$72,708 million (2002)

### BALANCE OF PAYMENTS

*Trade* – US\$3,572 million surplus (2002)

*Current Account* – US\$838 million surplus (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£1,204,200,000	£924,572,000
Exports to UK	2,177,800,000	1,869,438,000

### TRANSPORT INFRASTRUCTURE

There are 200,000 km of roads and a network of 1,613 km of *Autobahn* between major cities that also link up with German and Italian networks. The railways are state-owned and comprised 6,123 km of track in 2002, which includes 3,523 km of electrified track. Of the 425 km of waterways, 351 km are navigable and there is considerable trade through the Danube ports by both local and foreign shipping. There are six commercial airports.

### EDUCATION

Education is free and compulsory between the ages of six and 15 and there are good facilities for secondary, technical and professional education. There are 14 public, six private and six art universities.

**ENROLMENT** (percentage of age group) – primary 100 per cent (1997); secondary 100 per cent (1997); tertiary 48 per cent (1997)

### MEDIA

The public broadcaster Oesterreichischer Rundfunk (ORF) dominated Austrian television and radio for many years but there are now an increasing number of private broadcasters. By contrast, Austria's print media is largely privately owned. There are approximately six main daily titles including *Der Standard* and *Neve Vorarlberger*. In 2004 there were approximately 3.7 million internet users.

### CULTURE

During the 18th, 19th and 20th centuries Vienna was one of Europe's most culturally important cities, attracting musicians (Wolfgang Amadeus Mozart (1756–91), Johann Strauss Jr. (1825–99), Arnold Schoenberg (1874–1951), and Alban Berg (1885–1935)), philosophers (Ludwig Wittgenstein (1889–1951)), artists (Gustav Klimt (1862–1918)), physicists (Ludwig Boltzman (1844–1906) and Erwin Schrödinger (1887–1961)) and alternative thinkers (psychoanalyst Sigmund Freud (1865–1939)).

## AZERBAIJAN

*Azərbaycan Respublikası – Republic of Azerbaijan*

AREA – 86,600 sq. km. Neighbours: Iran (south), Armenia (west), Georgia and Russia (north)

POPULATION – 8,100,000 (2002 estimate): 83 per cent Azeri, 6 per cent Russian and 6 per cent Armenian.

There are also Kurds, Jews, Georgians and Turks. There are more Azeris in Iran than in Azerbaijan. The population is predominantly Shia Muslim although it was heavily secularised during the Soviet era. The language is Azeri

CAPITAL –  $\Psi$ Baki (Baku), population, 1,817,900, 2001 estimate

MAJOR CITIES – Gänçä; Sumqayıt

CURRENCY – Manat of 100 gopik

NATIONAL ANTHEM – Azerbaijan! Azerbaijan!

NATIONAL DAY – 28 May (Independence Day)

NATIONAL FLAG – Three horizontal stripes of blue, red and green with a white crescent and eight-pointed star in the centre

MORTALITY RATE (per 1,000 population) – 9.68 (2002)

HIV / AIDS ADULT PREVALENCE – 0.1 per cent (2001)

DEATH PENALTY – No (abolished 1998)

POPULATION BELOW POVERTY LINE – 49 per cent (2002)

POPULATION GROWTH RATE – 1 per cent (1991–2001)

POPULATION DENSITY – 92 per sq. km (1999)

### CLIMATE AND TERRAIN

Azerbaijan occupies the eastern part of the Caucasus region of the former Soviet Union, on the shore of the Caspian Sea. The highest point of elevation is 4,485 m (Bazarduzu Dagı) while the lowest is –28 m (Caspian Sea). The north-eastern part of the republic is taken up by the south-eastern end of the main Caucasus ridge, its south-western part by the smaller Caucasus hills and its south-eastern corner by the spurs of the Talysh Ridge. Central Azerbaijan is formed by a depression irrigated by the River Kura and the lower reaches of its tributary the Araks. Azerbaijan has a continental climate.

### HISTORY AND POLITICS

The Turkic Azeri people formed an independent state in the first century BC. By the seventh century, this precarious civilisation was invaded by Muslim Arabs who introduced Islam and secured the region as a province of the Muslim Caliphate. Azerbaijan was again invaded by Persia in the 16th century. The country was divided during the Russo-Persian wars of the early 19th century, the northern portion (present-day Azerbaijan) becoming part of the Russian Empire and the southern portion remaining Persian and subsequently Iranian.

In 1918 the Azerbaijan Democratic Republic was established. It was overthrown by Communists in 1918 and Azerbaijan acceded to the USSR in 1922.

In January 1990, the Azeri Popular Front took power from the local Communist Party and declared independence from the Soviet Union. Soviet troops overthrew the Popular Front and restored the Communist regime, which declared Azerbaijan's independence in August 1991.

Incumbent President Heydar Aliyev won the presidential elections of 1998, with 76.1 per cent of the vote. However, the elections were criticised by the Organisation for Security and Co-operation in Europe (OSCE) and other international monitoring groups. A

general election was held in 2000. The New Azerbaijan party, founded by Aliyev, won 62.5 per cent of the vote (78 seats). The election was boycotted by several parties, who alleged that electoral fraud had been committed; their claims were supported by OSCE observers. Repeat elections were held in January 2001 in 11 districts and Aliyev again took the vote. In October 2003 Aliyev withdrew from the presidential race due to health problems (he died in December 2003) and endorsed the campaign of his son, İlham, who was elected.

### SECESSION

In 1988 fighting broke out in the predominantly Armenian-populated region of Nagorno-Karabakh between Soviet Azeri forces and ethnic Armenians demanding unification with Armenia. In late 1993 Nagorno-Karabakh forces captured all of the region, together with all Azeri territory separating the region from Armenia (20 per cent of Azeri territory). Azeri forces pushed back the Nagorno-Karabakh forces in early 1994 before a cease-fire agreement was signed in May 1994. The fighting briefly flared up again along the Azeri-Armenian border in April and May 1997. Peace talks, held under the auspices of the OSCE, have yet to yield any significant results, although both sides reaffirmed their commitment to finding a peaceful solution at a meeting in October 1997, in which both sides rejected the idea of full independence for Nagorno-Karabakh as 'unrealistic'. President Aliyev held talks with President Kocharian of Armenia in 2001, but the leaders failed to reach an agreement.

### POLITICAL SYSTEM

A new constitution was approved by a referendum in November 1995, which created a presidential republic with executive power to be exercised by the President and with legislative power vested in the unicameral *Milli Majlis* (National Assembly). The *Milli Majlis* has 125 seats, of which 100 are directly elected and 25 are allocated by proportional representation. The President appoints the Prime Minister and the Cabinet. Both the President and the National Assembly are directly elected for five-year terms.

### HEAD OF STATE

*President*, İlham Aliyev, *assumed office* 31 October 2003

### SELECTED GOVERNMENT MEMBERS as at July 2004

*Prime Minister*, Artur Rasizade

*First Deputy Prime Ministers*, Yagub Abdulla Eyyubov; Abbas Abbasov

*Deputy Prime Ministers*, Abid Sarıfov; Ali Gasanov (*Chair of State Refugee Committee*); Elehin Efendiyev

*Defence*, Lt.-Gen. Safar Abiyev

*Finance*, Avaz Alakbarov

*Foreign Affairs*, Elmar Mamedyarov

*Interior*, Lt.-Gen. Ramil Usubov

E enquiries@britishcouncil.az

## DEFENCE

The Army has 220 main battle tanks, 135 armoured infantry fighting vehicles and 381 armoured personnel carriers. The Navy is based at Baku, with a share of the former Soviet Caspian Fleet Flotilla, comprising six patrol and coastal vessels. The Air Force has 48 combat aircraft and 15 attack helicopters.

MILITARY EXPENDITURE – 3.3 per cent of GDP (2002)

MILITARY PERSONNEL – 66,490: Army 56,840, Navy 1,750, Air Force 7,900; Paramilitaries 15,000

CONSCRIPTION DURATION – 17 months

## ECONOMY AND TRADE

Industry is dominated by oil and natural gas extraction and related industries centred in Baku and Sumgait and the large oil deposits in the Caspian Sea, estimated at more than 6,000 million barrels. Natural gas reserves are estimated to be more than 1,200,000 million cubic metres.

The republic is also rich in mineral resources, with iron, copper, aluminium, lead and zinc, and is important as cotton-growing and silkworm-breeding areas.

Around 90 per cent of agricultural land has been privatised. Grapes, cereals (primarily wheat, barley, maize and rice), cotton, vegetables and fruit are the major agricultural products.

GNI – US\$4,851 million (2000); US\$600 per capita (2000)

GDP – US\$5,692 million (2001); US\$655 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 11.0 per cent (1998)

INFLATION RATE – 1.8 per cent (2000)

UNEMPLOYMENT – 1.2 per cent (1999)

TOTAL EXTERNAL DEBT – US\$1,184 million (2000)

IMPORTS – US\$1,036 million (1999)

EXPORTS – US\$929 million (1999)

## BALANCE OF PAYMENTS

*Trade* – US\$482 million surplus (2002)

*Current Account* – US\$768 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£56,260,000	£139,681,000
Exports to UK	11,070,000	16,385,000

## TRANSPORT INFRASTRUCTURE

There are 2,200 km of railway track, much of it electrified, and over 25,000 km of roads. There are ferry links to Turkmenistan. Oil pipelines (1,631 km) link the Azeri oilfields to the Russian Black Sea port of Novorossiysk and the Georgian port of Supsa. Moscow has agreed to grant US\$300 million for the construction of the Azeri part of the north-south transport highway linking northern and central Europe with the Gulf countries across Azerbaijan. There are 72 airports.

## EDUCATION

Education up to university level is free. There are several universities and colleges of higher education.

ILLITERACY RATE – (m) 1 per cent; (f) 4 per cent (1989)

## MEDIA

The state runs press, television and radio in Azerbaijan but there is an increasingly successful private sector, boosted by the issue of five new regional television licences in 2002.

## CULTURE

Azerbaijan reflects both European (mainly Turkish and Russian) and Islamic cultures and has ancient and distinguished literary and musical traditions. The country is famous for its textiles – colourfully embroidered carpets, veils, towels and shawls featuring geometric patterns, sometimes worked with real gold or silver.

Azerbaijan was the birthplace of the prophet Zoroaster, who founded one of the first monotheistic religions in the world (sixth century BC).

## THE BAHAMAS

*The Commonwealth of The Bahamas*

AREA – 13,939 sq. km

POPULATION – 308,000 (2001). The language is English

CAPITAL – ΨNassau (population, 172,196, 1996 estimate)

CURRENCY – Bahamian dollar (B\$) of 100 cents

NATIONAL ANTHEM – March On, Bahamaland

NATIONAL DAY – 10 July (Independence Day)

NATIONAL FLAG – Horizontal stripes of aquamarine, gold and aquamarine, with a black equilateral triangle on the hoist

LIFE EXPECTANCY (years) – 69 (2001)

MORTALITY RATES (per 1,000 population) – 8.68 (2003)

INFANT MORTALITY (per 1,000 births) – 13 (2001)

HIV / AIDS ADULT PREVALENCE – 3.5 per cent (2001)

DEATH PENALTY – Yes

POPULATION GROWTH RATE – 1.7 per cent (1990-2001)

POPULATION DENSITY – 22 per sq. km (2001)

## CLIMATE AND TERRAIN

The Bahamas extend from the coast of Florida on the north-west almost to Hispaniola on the south-east. The group consists of more than 700 islands, and 2,400 cays. The extremes of elevation range from 63 m at the highest point (Mount Alvernia, Cat Island) to 0 m at the lowest (Atlantic Ocean). The 14 major islands are inhabited, as are a few of the smaller islands. The principal islands include: Abaco, Acklins, Andros, Berry Islands, Bimini, Cat Island, Crooked Island, Eleuthera, Exuma, Grand Bahama, Harbour Island, Inagua, Long Island, Mayaguana, New Providence (on which the capital, Nassau, is located), Ragged Island, Rum Cay, San Salvador and Spanish Wells. The climate is semitropical. The hurricane season is June to November.

**HISTORY AND POLITICS**

The Bahamas were settled by the British and became a Crown colony in 1717. Taken over in 1782 by the Spanish, the Treaty of Versailles in 1783 restored them to the British. The Bahamas gained independence on 10 July 1973.

A general election held in 2002 was won by the Progressive Liberal Party (PLP) which defeated the Free National Movement Party (FNM). The PLP holds 28 seats in the House of Assembly, the FNM eight seats and Independents four seats.

**POLITICAL SYSTEM**

The head of state is Queen Elizabeth II who is represented in the islands by a Governor-General. There is an appointed Senate of 16 members and a House of Assembly of 40 members elected by universal suffrage. *Governor-General*, Dame Ivy Dumont, DCMG

**SELECTED GOVERNMENT MEMBERS as at July 2004**

*Prime Minister, Finance*, Perry Christie  
*Deputy Prime Minister, National Security*, Cynthia Pratt  
*Minister of State for Finance*, James Smith  
*Foreign Affairs, Public Service*, Fred Mitchell

**BAHAMAS HIGH COMMISSION**

10 Chesterfield Street, London W1J 5JL  
T 020-7408 4488  
*High Commissioner*, HE Basil O'Brien, CMG, apptd 1999

**BRITISH HIGH COMMISSION**

Ansbacher House (3rd Floor), East Street  
PO Box N-7516, Nassau  
T (+1 242) 325 7471  
*High Commissioner*, HE Roderick Gemmill, OBE apptd 2003

**DEFENCE**

The Navy has seven patrol and coastal vessels, three harbour patrol units and four light aircraft.  
**MILITARY EXPENDITURE** – 0.5 per cent of GDP (2002)  
**MILITARY PERSONNEL** – Navy 860

**ECONOMY AND TRADE**

The Bahamas enjoy low inflation and have enjoyed sustained economic growth – making it the third wealthiest independent nation in the Americas.

Tourism (90 per cent of which originates from North America) employs about 40 per cent of the labour force and provides about half of the country's GDP. International banking and finance are also important, accounting for about 15 per cent of GDP. The absence of direct taxation coupled with internal stability have enabled the country to become one of the world's leading offshore financial centres. A securities exchange was opened in May 2000.

Manufacturing and agriculture account for less than 10 per cent of GDP. The most established industries are seafood, rum and salt. Agricultural production is mainly of fresh vegetables, fruit, meat and eggs. Reserves of aragonite and limestone are commercially exploited. Freeport is the country's leading industrial centre, with a pharmaceutical and chemicals plant, an oil trans-shipment and storage terminal, and port and bunkering facilities. There are also a brewery and a rum distillery on New Providence.

The imports are chiefly vehicles, manufactured articles,

chemicals and petroleum. The chief exports are machinery and transport equipment, foodstuffs and livestock, raw materials, chemicals, manufactured goods, and beverages and tobacco.

**GNI** – US\$20,100 per capita (2001)  
**ANNUAL AVERAGE GROWTH OF GDP** – 2.2 per cent (1998)

**INFLATION RATE** – 1.3 per cent (2004)

**UNEMPLOYMENT** – 7.7 per cent (1998)

**IMPORTS** – US\$1,614 billion (2002)

**EXPORTS** – US\$649 million (2002)

**BALANCE OF PAYMENTS**

*Trade* – US\$1,151 million deficit (2001)

*Current Account* – US\$348 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£36,257,000	£27,561,000
Exports to UK	20,676,000	5,210,000

**TRANSPORT INFRASTRUCTURE**

The main ports are Nassau (New Providence), Freeport (Grand Bahama) and Matthew Town (Inagua). International air services are operated from Abaco, Bimini, Eleuthera, Exuma, Grand Bahama and New Providence. More than 60 smaller airports and landing strips facilitate services between the islands, the services being mainly provided by Bahamasair, the national carrier. The Bahamas has some 2,693 km of roads, 1,546 km of which are paved. There are no railways.

**EDUCATION**

Education is compulsory between the ages of five and 16. More than 66,000 students are enrolled in Ministry of Education and independent schools in New Providence and the Family Islands.

**ILLITERACY RATE** – (m) 5.0 per cent; (f) 3.6 per cent (2000)

**CULTURE**

The urban centres of the Bahamas, such as Nassau and Freeport, are heavily influenced by North American culture but many islands have retained a unique atmosphere. English is the dominant language but it is sprinkled with a colourful *patois*. There are strong musical traditions in the islands, 'rake 'n' scrape' bands comprising guitar, accordion and shakers, being particularly popular.

**BAHRAIN**

*Dawlat al-Bahrayn – The Kingdom of Bahrain*

**AREA** – 694 sq. km

**POPULATION** – 652,000 (2001); about 70 per cent are Bahraini; about 40 per cent of the Bahrainis are Sunni Muslims, the remaining 60 per cent being Shias; the ruling family and many of the most prominent merchants are Sunnis. The official language is Arabic; English is often used for business, and Farsi, Hindi and Urdu are also spoken

**CAPITAL** – ΨManama (Al-Manamah) (population, 140,401, 1991 census)

**CURRENCY** – Bahraini dinar (BD) of 1,000 fils

NATIONAL ANTHEM – Bahrayn Ona, Baladolaman (Our Bahrain, Secure)

NATIONAL DAY – 16 December

NATIONAL FLAG – Red, with vertical serrated white bar next to staff

LIFE EXPECTANCY (years) – 74 (2001)

MORTALITY RATE (per 1,000 population) – 3.99 (2003)

HIV / AIDS ADULT PREVALENCE – 0.3 per cent (2001)

INFANT MORTALITY (per 1,000 births) – 13 (2001)

DEATH PENALTY – Yes

POPULATION GROWTH RATE – 2.6 per cent (1990–2001)

POPULATION DENSITY – 939 per sq. km (2001)

ILLITERACY RATE – (m) 9.0 per cent; (f) 17.4 per cent (2000)

## CLIMATE AND TERRAIN

Bahrain consists of a group of 33 low-lying islands situated approximately half-way down The Gulf, some 32 km off the east coast of Saudi Arabia. The largest of these, Bahrain Island, is about 48 km long and 16 km wide at its broadest, with the capital, Manama, situated on the north shore. The elevation extremes range from 122 m at the highest point (Jabal ad Dukhan) to 0 m at the lowest (Persian Gulf). The climate is hot and humid (with average annual temperatures ranging from 20°C to 40°C) with little rainfall.

## HISTORY AND POLITICS

Bahrain is a constitutional monarchy and has been fully independent since 1971, when British protectorate status was ended. The 1973 constitution provided for a National Assembly but this was dissolved in 1975. A 40-member Consultative Council, the *Majlis al-Shura*, was appointed in September 1996 but this is an advisory body with no legislative powers. A new constitution providing for Bahrain to become a constitutional monarchy with a partially elected parliament was approved in December 2000, endorsed by a referendum, in which women were able to vote for the first time.

The first legislative elections since 1973 were held on 24 October 2002 when 174 candidates, including eight women, stood for 37 seats in the newly created House of Representatives. Moderate Sunni Islamists and Independents won 21 of the 40 seats. However, the country's main Shia opposition groups boycotted the poll, citing a proposed legislative right of veto by the Shura Council.

## INSURGENCIES

Since 1994 Shi'ite protestors demanding the re-establishment of the National Assembly have regularly clashed with security forces and Shi'ite leaders have been detained. Opponents of the government have engaged in a sustained bombing campaign.

## HEAD OF STATE

*HH The Amir of Bahrain, C.-in -C., Bahram Defence Force, Shaikh Hamad bin Isa al-Khalifa, KCMG succeeded 6 March 1999, proclaimed king 14 February 2002*  
*Crown Prince, Chair of the National Economic Development Council, Shaikh Salman bin Hamad al-Khalifa*

## SELECTED GOVERNMENT MEMBERS as at July 2004

*Prime Minister, HH Shaikh Khalifa bin Sulman al-Khalifa*  
*Deputy Prime Minister, Foreign Affairs, Shaikh Mohammed bin Mubarak al-Khalifa*

*Deputy Prime Minister, Islamic Affairs, Shaikh Abdullah bin Khalid al-Khalifa*

*Defence, Maj.-Gen. Shaikh Khalifa bin Ahmed al-Khalifa*  
*Finance and National Economy, Abdullah Hassan Seif*  
*Interior, Maj.-Gen. Shaikh Rashid bin Abdulla bin Ahmed al-Khalifa*

## DEFENCE

The Army has 140 main battle tanks and 235 armoured personnel carriers. The Navy, based at Mina Salman, has one frigate and 10 patrol and coastal vessels. The Air Force has 34 combat aircraft and 40 armed helicopters.

MILITARY EXPENDITURE – 4.0 per cent of GDP (2002)

MILITARY PERSONNEL – 11,200: Army 8,500, Navy 1,200, Air Force 1,500; Paramilitaries 10,160

## ECONOMY AND TRADE

The largest sources of revenue are oil production and refining. The Bahrain field, discovered in 1932, is wholly owned by the Bahrain National Oil Co. The Sitra refinery derives about 70 per cent of its crude oil by submarine pipeline from Saudi Arabia. Bahrain also has a half share with Saudi Arabia in the profits of the offshore Abu Sa'afa field. A reservoir of natural gas has recently been developed on Bahrain Island. Petroleum accounted for 60 per cent of total export value in 2002. There is some heavy industry on the islands that includes a ship-repairing industry and a number of small to medium-sized industrial units. Bahrain has continued to develop as a financial centre and as a tourist destination. Apart from several commercial banks, many international banks have been licensed as offshore units; there are also money brokers and merchant banks. Services accounted for 64 per cent of GDP in 2002.

GNI – US\$7,250 million (2001); US\$11,130 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.9 per cent (2003)

INFLATION RATE – –0.2 per cent (2003)

IMPORTS – US\$4,985 billion (2002)

EXPORTS – US\$5,369 billion (2002)

## BALANCE OF PAYMENTS

*Trade* – US\$1,536 million surplus (2001)

*Current Account* – US\$157 million surplus (2001)

<i>Trade with UK</i>	<i>2002</i>	<i>2003</i>
Imports from UK	£132,414,000	£154,770,000
Exports to UK	77,724,000	80,552,000

**TRANSPORT INFRASTRUCTURE**

Bahrain International airport is one of the main air traffic centres of the Gulf; it is the headquarters of Gulf Air, and a stopping point on routes between Europe and Australia and the Far East for other airlines. A 25-km causeway links Bahrain to Saudi Arabia. Of the 3,261 km of road, over three quarters (2,531 km) is paved. There are no railways.

**MEDIA**

Domestic television and radio is state run by the Bahrain Radio and Television Corporation (BRTC). Bahrain has a free press but self-censorship is widely practised. There are four main daily newspapers, two of which are published in English. In 2002 there were 140,000 internet users.

**CULTURE**

Bahrain is one of the most liberal Gulf States. The capital, Manama, is typically modern but a slower, more traditional pace and way of life can still be found in the surrounding villages and islands.

**BANGLADESH**

*Gay Prajātantrī Bāmlādes* – *People's Republic of Bangladesh*

AREA – 130,200 sq. km. Neighbours: India (west, north and east), Myanmar (east)  
 POPULATION – 140,369,000 (2001). The state language is Bengali. Use of Bengali is compulsory in all government departments. English is understood and is used widely as an unofficial second language. The faith of 88 per cent of the population is Islam and 10.5 per cent Hinduism. Islam has been declared the state religion  
 CAPITAL – Dhaka (population, 9,912,908, 2001 census)  
 CURRENCY – Taka (Tk) of 100 paisa  
 NATIONAL ANTHEM – Amar Sonar Bangla (My Golden Bengal)  
 NATIONAL DAY – 26 March (Independence Day)  
 NATIONAL FLAG – Red circle on a bottle-green ground  
 LIFE EXPECTANCY (years) – 60 (2001)  
 MORTALITY RATE (per 1,000 population) – 8.63 (2003)  
 HIV / AIDS ADULT PREVALENCE – 0.1 per cent (2001)  
 INFANT MORTALITY (per 1,000 births) – 51 (2001)  
 DEATH PENALTY – Yes  
 POPULATION LIVING BELOW POVERTY LINE – 33.7 per cent (2000)  
 POPULATION GROWTH RATE – 2.2 per cent (1990–2001)  
 POPULATION DENSITY – 1,078 per sq. km (2001)  
 URBAN POPULATION – 26 per cent (2001)

**CLIMATE AND TERRAIN**

The climate is tropical: hot, wet and extremely humid during the summer, and mild and dry during the winter.

The country is crossed by a network of rivers, including the eastern arms of the Ganges (Padma), the Jamuna (Brahmaputra) and the Meghna, flowing into the Bay of Bengal. About a third of the country floods every year

during the monsoon season (June to September). Heavy flooding during the summer of 1998 left 23 million people homeless and killed 1,500.

The elevation extremes range from the highest point at 1,230 m (Keokradong) to the lowest at 0 m (Indian Ocean). Bangladesh is located in a high-risk earthquake zone.

**HISTORY AND POLITICS**

Prior to becoming the eastern province of Pakistan, Bangladesh had been the region of East Bengal and the Sylhet district of Assam of British India. The territory acceded to Pakistan in August 1947, then became a republic on 23 March 1956. Bangladesh achieved its independence from Pakistan on 16 December 1971, following a civil war. Pakistan and Bangladesh accorded one another mutual recognition in 1974.

In 1975 a one-party presidential system was introduced by the ruling Awami League, but this was replaced by a multiparty presidential system of government in 1978 by President Zia Rahman. After President Zia's assassination in 1981, Justice Abdus Sattar became President and was overthrown in a coup led by Army Chief Gen. Ershad in 1982. Following parliamentary elections in 1986, Gen. Ershad was elected president. Popular unrest forced his resignation in December 1990; the Bangladesh Nationalist Party (BNP) won the subsequent parliamentary elections. In August 1991 a constitutional amendment returned Bangladesh to parliamentary rule.

In December 1994, the opposition parties resigned from parliament, demanding fresh elections. Public disorder persisted despite a general election in 1996 which was won by the BNP, although turnout was a mere five per cent. In March 1996, Prime Minister Zia agreed to new elections; these elections in June 1996 produced a majority for the Awami League under Prime Minister Sheikh Hasina Wajed. In 1997 the BNP walked out of parliament, accusing the government of repression. They returned the following year after signing a memorandum of understanding with the government.

Border clashes occurred between Bangladeshi and Indian troops on the northern border in 2001.

In the elections of 2001, held under a caretaker government, the BNP-led four party alliance won more than two-thirds of the seats in Parliament. In October, Khaleda Zia was sworn in as prime minister for a fourth time. President Badruddoza Chowdhury resigned in June 2002 and Jamiruddin Sircar was appointed acting president. Iajuddin Ahmed was elected president in September 2002.

**POLITICAL SYSTEM**

There is a unicameral parliament (*Jatiya Sangsad*) of 300 directly elected members who can amend the constitution by a two-thirds majority.

**HEAD OF STATE**

*President, Iajuddin Ahmed, elected by Parliament 5 September 2002*

SELECTED GOVERNMENT MEMBERS *as at July 2004*  
*Prime Minister, Armed Forces Division, Cabinet Division,*  
*Defence, Establishment, Energy and Minerals, Hill Tracts*  
*Affairs, Primary and Mass Education, Khaleda Zia*  
*Finance and Planning, Saifur Rahman*  
*Foreign Affairs, Morshed Khan*  
*Minister of Law, Justice and Parliamentary Affairs, Moudad*  
 Ahmed

#### DEFENCE

The army has 180 main battle tanks and 130 armoured personnel carriers. The Navy has five frigates and 33 patrol and coastal vessels. The Air Force has 83 combat aircraft.

MILITARY EXPENDITURE – 1.4 per cent of GDP (2002)

MILITARY PERSONNEL – 125,500: Army 110,000, Navy 9,000, Air Force 6,500; Paramilitaries 63,200

#### ECONOMY AND TRADE

Bangladesh remains reliant on food production through agriculture, a primary occupation of over 70 per cent of the population. Products include rice, wheat, tobacco, tea, oil seeds, pulses and sugar cane. The chief industries are jute, cotton, tea, leather, pharmaceuticals, fertiliser, sugar, prawn fishing and natural gas. Garment manufacturing is the main export providing 73 per cent of export earnings (2003). Remittances sent home by Bangladeshis abroad are of considerable significance to the economy.

International financial institutions agreed in 2000 to provide around US\$2,000 million in additional aid over a 20-year period dependent on the introduction of free-market reforms.

GNI – US\$48,600 million (2001); US\$360 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 5.3 per cent (2001)

INFLATION RATE – 2.3 per cent (2000)

TOTAL EXTERNAL DEBT – US\$16,500 million (2002)

FOREIGN DIRECT INVESTMENT – US\$902 million (1997–2000)

IMPORTS – US\$7,914million (2002)

EXPORTS – US\$4,566 million (2002)

#### BALANCE OF PAYMENTS

*Current Account* – US\$535 million deficit (2001)

*Trade* – US\$2,049 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£66,185,000	£56,001,000
Exports to UK	481,836,000	570,802,000

#### TRANSPORT INFRASTRUCTURE

Principal seaports are Chittagong and Mongla. The Bangladesh Shipping Corporation was set up by the government to operate the Bangladesh merchant fleet. The principal airports are Dhaka (Zia International) and Chittagong. The international airline, Bangladesh Biman, serves Europe, the Middle East, South and South-East Asia, and an internal network. There are 2,706 km of railways, including a railway line linking the Bangladeshi town of Benapol with Petrapol in India. The country's 207,486-km road network has only 19,773 km of paved roads.

#### EDUCATION

Primary education is compulsory and free. There are 16 public universities, 29 private universities and more than 600 colleges.

ILLITERACY RATE – (m) 46.1 per cent; (f) 68.2 per cent (2003)

ENROLMENT (percentage of age group) – primary 96.6 per cent (2000); secondary 42.8 per cent (2000); tertiary 4.4 per cent (1990)

#### MEDIA

The main broadcast media (Bangladesh Television, (BTV)) is subject to censorship and is state owned. The main commercial stations are ATN Bangla TV and Channel i. The four main newspapers are *The Daily Star*, *The Dhaka Courier*, *The Independent* and *The New Nation*.

#### CULTURE

Bangladesh has a rich and ancient culture. Religious, theatre and folk traditions have Buddhist, Hindu and Muslim roots. Literature is dominated by the reputation of the great Bengali poet Rabindranath Tagore (1861–1941).

#### BARBADOS

AREA – 431 sq. km

POPULATION – 277,264 (2003). The official language is English

CAPITAL – ΨBridgetown in the parish of St Michael (population, 108,000, 1990)

MAJOR TOWNS – Holetown in St James, Oistins in Christ Church and Speightstown in St Peter

CURRENCY – Barbados dollar (BD\$) of 100 cents

NATIONAL ANTHEM – In Plenty And In Time Of Need

NATIONAL DAY– 30 November (Independence Day)

NATIONAL FLAG – Three vertical stripes, aquamarine, gold and aquamarine, with a trident head on gold stripe

LIFE EXPECTANCY (years) – 77 (2001)

MORTALITY RATE (per 1,000 population) – 9.02

INFANT MORTALITY (per 1,000 births) – 12 (2001)

HIV / AIDS ADULT PREVALENCE RATE – 1.2 per cent

DEATH PENALTY – Yes

POPULATION GROWTH RATE – 0.4 per cent (1990–2001)

POPULATION DENSITY – 622 per sq. km (2001)

URBAN POPULATION – 51 per cent (2001)

MILITARY EXPENDITURE – 0.5 per cent of GDP (2001)

MILITARY PERSONNEL – 610: Army 500, Navy 110

**CLIMATE AND TERRAIN**

Barbados is the most easterly of the Caribbean islands. The climate is tropical (the wet season is June to October) and the island is subject to occasional hurricanes. The land rises in a series of terraced tablelands and elevation extremes range from 336 m (Mt Hillaby) at the highest point to 0 m (Atlantic Ocean) at the lowest.

**HISTORY AND POLITICS**

The first inhabitants of Barbados were Arawak Indians but the island was uninhabited when settled by the British in 1627. It was a Crown Colony from 1652 during which time sugar, rum and molasses were its chief products. Barbados became an independent state within the Commonwealth on 30 November 1966.

In the general election of 2003 the governing Barbados Labour Party (BLP) won 23 seats in the 30-seat House of Assembly with the Democratic Labour Party (DLP) gaining seven seats.

**POLITICAL SYSTEM**

The head of state is the British sovereign whose local representative is the Governor-General. The legislature consists of a Senate and a House of Assembly. The Senate comprises 21 Senators appointed by the Governor-General for a five-year term, of whom 12 are appointed on the advice of the Prime Minister, two on the advice of the Leader of the Opposition and seven by the Governor-General at his/her discretion to represent religious, economic or social interests. The House of Assembly comprises 30 members elected every five years by adult suffrage.

There are 11 administrative areas (parishes): St Michael, Christ Church, St Andrew, St George, St James, St John, St Joseph, St Lucy, St Peter, St Philip and St Thomas.

*Governor-General*, HE Sir Clifford Husbands, GCMG, KA, apptd June 1996

**SELECTED GOVERNMENT MEMBERS as at July 2004**

*Prime Minister, Defence and Security, Finance and Economic Affairs*, Owen Arthur

*Deputy Prime Minister, Attorney-General, Home Affairs*, Mia Mottley

*Commerce, Consumer Affairs and Business Development*, Lynette Eastmond

*Foreign Affairs, Foreign Trade*, Billie Miller

*Minister of State, Foreign Affairs and Foreign Trade*, Kerrie Symmonds

**BARBADOS HIGH COMMISSION**

1 Great Russell Street, London WC1B 3ND

T 020-7631 4975

*High Commissioner*, HE Edwin Pollard

**BRITISH HIGH COMMISSION**

Lower Collymore Rock, PO Box 676, Bridgetown

T (+1 246) 430 7800

E britishhc@sunbeach.net

*High Commissioner*, HE C. John White, apptd 2001

**ECONOMY AND TRADE**

The economy has suffered as a result of the downturn in tourism in recent years, but offshore finance and information services remain a valuable source of foreign exchange earnings. Chief exports are sugar, chemicals, electronic components and clothing.

GNI – US\$2,610 million (2001); US\$9,750 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 2.5 per cent (1999)

INFLATION RATE – 2.4 per cent (2000)

UNEMPLOYMENT – 10.5 per cent (1999)

TOTAL EXTERNAL DEBT – US\$589 million (1999)

IMPORTS – US\$1,039 million (2002)

EXPORTS – US\$206 million (2002)

**BALANCE OF PAYMENTS**

*Trade* – US\$681 million deficit (2001)

*Current Account* – US\$94 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£39,600,000	£52,347,000
Exports to UK	25,008,000	20,921,000

**TRANSPORT INFRASTRUCTURE**

Barbados has some 1,793 km of roads, of which only 74 km are not surfaced. The Grantley Adams International airport is situated at Seawell, 19 km from Bridgetown. Bridgetown, the only port of entry, has a deep-water harbour with berths for eight ships; oil is pumped ashore at Spring Garden and at an Esso installation on the west coast.

**EDUCATION**

Education is free in government schools at primary (ages four to 11) and secondary (ages 11 to 18) levels. There are 74 government primary schools, 30 private primary schools, 23 government secondary schools and ten private secondary schools. Tertiary education is provided by a teachers college, a polytechnic, a community college and one of the three campuses of the University of the West Indies (the other two are on Trinidad and Jamaica).

ILLITERACY RATE – (m) 2 per cent; (f) 3.2 per cent (2003)

## BELARUS

*Respublika Belarus – Republic of Belarus*

AREA – 207,500 sq. km. Neighbours: Latvia and Lithuania (north), Russia (east), Ukraine (south), Poland (west)

POPULATION – 10,147,000 (2001): 78 per cent Belarusian, 13 per cent Russian, 4 per cent Polish and 3 per cent Ukrainian, with smaller numbers of Jews and Lithuanians. Belarusian and Russian have equal official language status. Most of the population are Belarusian Orthodox with a minority of Roman Catholics

CAPITAL – Minsk (population, 1,725,100); the administrative centre of the CIS

MAJOR CITIES – Brest; Homyel; Hrodna; Mahilyow; Vitsyebsk

CURRENCY – Belarusian rouble

NATIONAL ANTHEM – The former Soviet national anthem but with the words omitted

NATIONAL DAY – 3 July (Independence Day)

NATIONAL FLAG – Red with a green strip along the lower edge, and in the hoist a vertical red and white ornamental pattern

LIFE EXPECTANCY (years) – 69 (2001)

MORTALITY RATE (per 1,000 population) – 14.05 (2003)

HIV / AIDS ADULT PREVALENCE – 0.3 per cent (2001)

DEATH PENALTY – Yes

INFANT MORTALITY (per 1,000 births) – 17 (2001)

POPULATION BELOW POVERTY LINE – 22 per cent (1995)

POPULATION GROWTH RATE – 0.1 per cent (1990–2001)

POPULATION DENSITY – 49 per sq. km (2001)

URBAN POPULATION – 70 per cent (2001)

### CLIMATE AND TERRAIN

Belarus is a landlocked country situated in the western part of the European area of the former USSR. The main rivers are the upper reaches of the Dnieper, of the Niemen and of the Western Dvina. Much of the land is a plain, with many lakes, forests, swamps and marshy areas. The climate is continental with mild, humid winters and relatively cool and rainy summers. Elevation extremes range from 346 m (Dzyarzhynskaya Hara) at the highest point to 90 m (Nyoman River) at the lowest.

### HISTORY AND POLITICS

After being absorbed into Lithuania in the 13th century, Belarus flourished as a culturally significant medieval state. A period of Polish rule followed, but was superseded in the 18th century by a steadily expanding Russian Empire.

Belarus was devastated by German invasion in the Second World War; 25 per cent of the population was killed and thousands deported.

Belarus issued a Declaration of State Sovereignty on 27 July 1990 and declared its independence from the Soviet Union after the failed coup in Moscow in August 1991. Stanislav Shuskevich became Belarusian leader at the head of a coalition of communists and democrats, but he was forced to resign in January 1994 and was replaced by Gen. Mecheslav Grib who pursued closer political, economic and trade relations with Russia. The presidential election in June 1994 was won by Alexander Lukashenko.

The legislative election held in October 2000 was

condemned as neither free nor fair by opposition groups and international observers from the Organisation for Security and Co-operation in Europe (OSCE), the European Parliament and the Council of Europe. Most opposition parties boycotted the election and many opposition candidates were prevented from standing or intimidated into withdrawing by the authorities. Repeat elections were held in 13 of the 110 constituencies of the House of Representatives in March and April 2001. In the presidential elections held in September 2001 Lukashenko was re-elected with more than 75 per cent of the vote. Observers from the Commonwealth of Independent States (CIS) stated that the election was legitimate but observers from the OSCE announced that the election did not comply with OSCE standards. During 2002 the Belarusian authorities refused to renew the visas of OSCE staff but in December 2002 an agreement to open a new office in Minsk was reached and OSCE staff were readmitted to the country. This led to the lifting in April 2003 of travel bans imposed by the EU and the USA on President Lukashenko and seven other senior Belarusian officials because of the country's poor human rights record.

### FOREIGN RELATIONS

An agreement was signed with Russia in April 1996 to form a Commonwealth of Independent States (CIS). In April 1997 a treaty of union was signed with Russia. On 8 December 1999, the presidents of Belarus and Russia signed the Treaty on the Creation of a Union State, which committed the two countries to eventually becoming a confederal state.

### POLITICAL SYSTEM

The President's term of office is five years. The President has the authority to appoint half the members of the constitutional court and the electoral commission. The legislature is the bicameral National Assembly, comprising a 110-member House of Representatives (lower chamber) and a 64-member Council of the Republic (upper chamber). Eight members of the upper chamber are appointed by the President, the rest are indirectly elected by members of the local soviets (councils) in each region. Legislative elections were due to take place in October 2004.

### HEAD OF STATE

*President, Alexander Lukashenko, elected 10 July 1994, re-elected 9 September 2001*

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Prime Minister, Sergei Sidorsky*

*First Deputy Prime Minister, Vladimir I. Semashko*

*Deputy Prime Ministers, Roman Vnuchko (Agroindustrial Complex); Andrei Kobayakov (Economics, Trade and International Co-operation); Anatoly Tsutsunov; Vladimir Drazhin (Labour and Social Security, Social Affairs, Science)*

*Defence, Col.-Gen. Leonid Maltsev*

*Finance, Nikolai Korbut*

*Foreign Affairs, Sergei Martynov*

*Internal Affairs, Maj.-Gen. Vladimir Naumov*

### EMBASSY OF THE REPUBLIC OF BELARUS

Ambassador Extraordinary and Plenipotentiary, HE Brian Bennett, apptd 2002

## DEFENCE

The Army has 1,586 main battle tanks, 1,588 armoured infantry fighting vehicles and 916 armoured personnel carriers. The Air Force has 210 combat aircraft and 50 armed helicopters.

MILITARY EXPENDITURE – 2.5 per cent of GDP (2001)

MILITARY PERSONNEL – 72,940: Army 29,600, Central Units 25,170, Air Force and Air Defence Forces 18,170; Paramilitaries 110,000

CONSCRIPTION DURATION – Nine to 12 months

## ECONOMY AND TRADE

In May 1995 a customs union agreement with Russia took effect. A treaty was signed with Kazakhstan, Kyrgyzstan and Russia in March 1996 aimed at the establishment of a single customs territory. In 2000 the National Bank of Belarus (NBB) took action to liberalise the exchange market but it continues to struggle to maintain a stable exchange rate.

Industrial output increased 2.5 per cent in 2002. The principal industries are transport vehicles, machine-building, electronics, defence, chemicals and civil engineering.

GNI – US\$12,900 million (2001); US\$1,290 per capita (2001)

AVERAGE ANNUAL GROWTH OF GDP – 4.7 per cent (2002)

INFLATION RATE – 168.6 per cent (2000)

UNEMPLOYMENT – 2.1 per cent (2000)

TOTAL EXTERNAL DEBT – US\$851 million (2000)

FOREIGN DIRECT INVESTMENT – US\$664 million (1997–2000)

IMPORTS – US\$8,980 million (2002)

EXPORTS – US\$8,098 million (2002)

## BALANCE OF PAYMENTS

Trade – US\$779 million deficit (2001)

Current Account – US\$270 million deficit (2001)

Trade with UK	2002	2003
Imports from UK	£34,432,000	£39,182,000
Exports to UK	33,838,000	22,672,000

## TRANSPORT INFRASTRUCTURE

Belarus has 5,523 km of railways and an extensive canal and river system. Of the 74,385 km of roads only 8,182 km are unsurfaced but many are in bad repair. Of the 124 airports, 28 have paved runways.

## EDUCATION

The national education system comprises pre-school, general secondary, out-of-school, vocational training and trade schools, secondary specialised and higher education. General secondary education begins at the age of six.

ILLITERACY RATE – (m) 0.2 per cent; (f) 0.5 per cent (2003)

ENROLMENT (percentage of age group) – primary 98 per cent (1997); tertiary 44.0 per cent (1997)

## MEDIA

A Soviet-era attitude to press freedom remains as government controls media content and the appointment of senior editors in the print and broadcast media. State run newspapers and television channels receive large subsidies and support government policies. The most popular privately owned newspaper is *Belorusskaya Delovaya Gazeta*. The Belarusian National State Teleradio Company operates domestic radio and TV channels. Radio Baltic Waves (Baltijos Bangos) is a private broadcaster that targets Belarusian audiences but operates from Vilnius in Lithuania. In 2002 there were 808,700 internet users.

## CULTURE

Belarus has a strong musical tradition – in the form of Orthodox hymns and sermons as well as secular folk music – both ancient and modern. The literature of Belarus is very distinguished with the 17th-century poet Symeon of Polatsk being most influential in introducing the Baroque style to Russia. The country's most famous 20th-century writer is Natalia Arseneva, author of *Beneath the Blue Sky*.

## BELGIUM

*Koninkrijk België / Royaume de Belgique / Königreich Belgien – Kingdom of Belgium*

AREA – 30,200 sq. km. Neighbours: the Netherlands (north), France (south), Germany and Luxembourg (east)

POPULATION – 10,309,725 (2002). Greater Brussels 978,384; Flanders 5,972,781; Wallonia 3,358,560.

Roman Catholicism is the religion of 86 per cent of the population. The official languages are Flemish, French and German

CAPITAL – Brussels (population, 978,384, 2002)

MAJOR CITIES – ΨAntwerp, the chief port; Bruges;

Charleroi; ΨGhent; Liège; Leuven; Mons; Namur

CURRENCY – Euro (€) of 100 cents

NATIONAL ANTHEM – O Vaderland, O Edel Land Der Belgen (Oh Fatherland, Oh Noble Land Of The Belgians)

NATIONAL DAY – 21 July (Accession of King Leopold I, 1831)

NATIONAL FLAG – Three vertical bands, black, yellow, red

LIFE EXPECTANCY (years) – 79 (2001)

MORTALITY RATE (per 1,000 population) – 10.7 (2003)

HIV / AIDS ADULT PREVALENCE RATE – 0.2 per cent (2001)

INFANT MORTALITY (per 1,000 births) – 5 (2001)

DEATH PENALTY – No (abolished 1996)

POPULATION GROWTH RATE – 0.3 per cent (1990–2001)

POPULATION DENSITY – 340 per sq. km (2001)

URBAN POPULATION – 97 per cent (2001)

## CLIMATE AND TERRAIN

Belgium is divided into two distinct and contrasting regions. The west of the country is generally low-lying and fertile, while the eastern region, the tableland of the Ardennes, is more rugged with poorer soil. Elevation extremes range from 0 m sea level (North Sea) to 694 m at the highest point (Signal de Botrange). The polders near the coast, which are protected by dykes against floods, cover an area of 499 sq. km. The principal rivers are the Schelde and the Maas. Average temperatures range from 2°C in January to 18°C in July.

## HISTORY AND POLITICS

The kingdom formed part of the Low Countries (Netherlands) from 1815 until 14 October 1830, when a National Congress proclaimed its independence. Belgium was invaded by Germany in 1914 and Eupen and Malmédy were ceded to Belgium by Germany under the Versailles Treaty of 1919. The kingdom was again invaded by Germany in 1940 and was occupied by Nazi troops until liberated by the Allies in September 1944.

A general election was held in 2003 and a coalition government of Liberals and Socialists was sworn in on 12 July with Guy Verhofstadt of the Liberals and Democrats (VLD) as prime minister.

## POLITICAL SYSTEM

Belgium is a constitutional representative and hereditary monarchy with a bicameral legislature, consisting of the King, the Senate and the Chamber of Deputies. The parliamentary term is four years. Amendments to the constitution since 1968 have devolved power to the regions. The national government retains competence only in foreign and defence policies, the national budget and monetary policy, social security, and the judicial, legal and penal systems. The Senate has 71 seats, of which 40 are directly elected, 21 indirectly elected and ten co-opted by the Flemish and Francophone Communities. The Chamber of Deputies has 150 seats.

## FEDERAL STRUCTURE

There are three communities: Flemish, Francophone, Germanophone. Each community has its own assembly, which elects the community government. At this level, Flanders is covered by the Flemish Community Assembly; most of Wallonia is covered by the Francophone Community Assembly, and the areas of Wallonia in the German-speaking communities of Eupen and Malmédy are covered by the Germanophone Community Assembly; Brussels is covered by a Joint Community Commission of the Flemish and Francophone Community Assemblies.

At regional level, Belgium is divided into the three regions of Wallonia, Brussels and Flanders. Each region has its own assembly and government.

The ten provinces of Belgium are (with 2002 population): Antwerp (1,652,450); East Flanders (1,366,652); Flemish Brabant (1,022,821); Limburg (798,583); West Flanders (1,132,275); Hainaut (1,281,042); Liege (1,024,130); Luxembourg (250,406); Namur (447,775); Walloon Brabant (355,207). In addition, Belgium has 589 communes as the lowest level of local government.

*Minister-President of the Flemish Community and Flemish Region, Patrick Dewael*

*Minister-President of the Walloon Region, Jean-Claude Van Cauwenberghe*

*Minister-President of the French Community, Hervé Hasquin*

*Minister-President of the German-Speaking Community, Karl-Heinz Lambertz*

*Minister-President of the Brussels Capital Government, Jacques Simonet*

## HEAD OF STATE

*HM The King of the Belgians, King Albert II, born 6 June 1934; succeeded 9 August 1993; Heir, HRH Prince Philippe Léopold Louis Marie, born 15 April 1960*

## SELECTED GOVERNMENT MEMBERS as at July 2004

*Prime Minister, Guy Verhofstadt*

*Deputy Prime Minister and Minister for Budget and Private Enterprise, Johan Vande Lanotte*

*Deputy Prime Minister and Minister for Foreign Affairs, Louis Michel*

*Deputy Prime Minister for Interior, Patrick Dewael*

*Deputy Prime Minister and Minister of Justice, Laurette Onkelinx*

*Minister for Defence, André Flahaut*

*Minister of Finance, Didier Reynders*

E enquiries@britishcouncil.be

## DEFENCE

The Army has 143 main battle tanks, 332 armoured personnel carriers, 236 armoured infantry fighting vehicles and 74 helicopters. The Navy is based at Ostend and Zeebrugge and has three frigates. The Air Force has 90 combat aircraft.

The headquarters of NATO, SHAPE and the Western European Union Military Planning Cell are in Belgium; 1,400 US personnel are stationed in the country.

MILITARY EXPENDITURE – 1.3 per cent of GDP (2002)

MILITARY PERSONNEL – 37,500: Army 24,800, Navy 2,450, Air Force 10,250

## ECONOMY AND TRADE

The establishment of the European Commission and other EU institutions in Belgium in the 1950s brought multinational companies to the country and promoted the service sector which accounts for over two-thirds of Belgium's GDP. With no natural resources except coal, production of which has now ceased, industry is based largely on the processing of imported raw materials for export. Principal industries are steel and metal products, chemicals and petrochemicals, textiles, glass, and foodstuffs. Industry accounts for 24.4 per cent of GDP and services for 74.3 per cent (2001) – significantly lower than in previous years. In 2002 public debt was 100 per cent of GDP.

Belgium adopted the euro as its unit of currency on 1 January 2001.

External trade figures relate to Luxembourg as well as Belgium since the two countries formed an economic union in 1921. The main trading partners are Germany, France, the Netherlands and the UK. Around 75 per cent of Belgium's trade is with other European Union countries.

GNI – US\$245,300 million (2001); US\$23,850 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.0 per cent (2000)

INFLATION RATE – 2.5 per cent (2000)

UNEMPLOYMENT – 7.0 per cent (2000)

IMPORTS – US\$195,940 million (2002)

EXPORTS – US\$213 481 million (2002)

#### BALANCE OF PAYMENTS

Trade – US\$5,955 million surplus (Belgium and Luxembourg) (2002)

Current Account – US\$11,515 million surplus (2002)

Trade with UK	2002	2003
Imports from UK	£9,733,000,000	£8,091,023,000
Exports to UK	11,317,000,000	8,841,482,000

#### TRANSPORT INFRASTRUCTURE

The rail system is run by Belgian National Railways and at 3,471 km the network is one of the densest in the world. Major ports include Antwerp (the third largest port in Europe), Zeebrugge, Ghent and Ostend. There are 1,570 km of inland waterways; ship canals link Ghent with Terneuzen in the Netherlands, Willebroek Rupel with Brussels, Zeebrugge with Bruges, Liège with Antwerp and Charleroi with Brussels. The rivers Maas, Sambre and Schelde form an integral part of the network. There are nearly 148,216 km of roads, including 1,727 km of motorways.

#### EDUCATION

Nursery schools provide free education for children from two-and-a-half to six years. There are over 4,000 primary schools (six to 12 years), more than 1,000 secondary schools offering a general academic education, slightly over half of which are free institutions (predominantly Roman Catholic and subsidised by the state) and the remainder official institutions. The official school-leaving age is 18.

ENROLMENT (percentage of age group) – primary 100 per cent (1997); secondary 100 per cent (1997); tertiary 100 per cent (1997)

#### MEDIA

The Belgian media reflects the multi-lingual population. There are two broadcasting authorities with programming priorities in radio, TV and external broadcasting. RTBF is the French-language broadcaster. VRT is the Flemish broadcaster. There are also French and Flemish commercial television channels and Belgischer Rundfunk (BRF), a German-language radio broadcaster. Cable television is very popular with 95 per cent of the population subscribing to domestic and foreign channels. A small number of media groups own and run the main news publications. In 2002 there were 3.76 million internet users.

#### CULTURE

Brussels is a powerful European capital due to its status as the headquarters of the European Union and the North Atlantic Treaty Organisation (NATO).

Bruges, Belgium's top tourist destination, is a beautifully-preserved 13th-century town and is home to several excellent art collections.

Belgium is defined by language. The country is divided between those who speak Dutch (the Flemings) and those who speak French (the Walloons). Dutch is recognised as the official language in the northern areas and French in the southern (Walloon) area. Brussels is officially bilingual. There is a small German-speaking area (Eupen and Malmédy) along the German border, east of Liège. Famous Belgian writers include Georges Simenon (1903–89) and Jean Ray (1887–1954).

#### BELIZE

AREA – 22,800 sq. km. Neighbours: Mexico (north and north-west), Guatemala (west and south)

POPULATION – 231,000 (2001): 44 per cent Mestizo (Maya-Spanish); 26 per cent Creole; 11 per cent Maya; plus a number of East Indian and Spanish descent. The races are now inter-mixed. The majority of the population is Christian, about 58 per cent Catholic and 34 per cent Protestant. The official language and language of instruction is English. Spanish is also widely spoken and English Creole is the vernacular. There are also Garifuna and Maya speakers

CAPITAL – Belmopan (population, 8,130, 2000 census)

MAJOR CITIES – ΨBelize City, the former capital; Corozal; Dangriga; Orange Walk; San Ignacio

CURRENCY – Belize dollar (BZ\$) of 100 cents. The Belize dollar is tied to the US dollar

NATIONAL ANTHEM – Land Of The Free

NATIONAL DAY – 21 September (Independence Day)

NATIONAL FLAG – Blue ground with red band along top and bottom edges, and in the centre a white disc containing the coat of arms surrounded by a green garland

LIFE EXPECTANCY (years) – 74 (2001)

MORTALITY RATE (per 1,000 population) – 6.05 (2001)

INFANT MORTALITY (per 1,000 births) – 34 (2001)

HIV / AIDS ADULT PREVALENCE RATE – 2 per cent (2001)

DEATH PENALTY – Yes

POPULATION BELOW POVERTY LINE – 33 per cent (1999)

POPULATION GROWTH RATE – 2 per cent (1990–2001)

POPULATION DENSITY – 10 per sq. km (2001)

URBAN POPULATION – 48 per cent (2001)

MILITARY EXPENDITURE – 2.3 per cent of GDP (2002)

MILITARY PERSONNEL – Army 1,050

#### CLIMATE AND TERRAIN

Belize comprises a large coastal plain, swamps (in the north), fertile land (in the south) and the Maya Mountains. The highest point of elevation is 1,160 m (Victoria Peak), the lowest is at 0 m (Caribbean Sea). The climate is subtropical but is cooled by trade winds. There are frequent hurricanes (the hurricane season is June to November). Belize's inner coastal waters are protected by the world's second-largest barrier reef.

## HISTORY AND POLITICS

Numerous ruins in the area indicate that Belize was heavily populated by the Maya Indians. The first British settlement was established in 1638 but was subject to repeated attacks by the Spanish, who claimed sovereignty until defeated by the British Royal Navy and settlers in 1798. In 1871 the area was recognised by Britain as a colony and called British Honduras. The colony became self-governing in 1964, with the UK retaining control of foreign policy, internal security and defence. In 1973 the colony was renamed Belize, and was granted independence on 21 September 1981.

The general election held in 2003 was won by the ruling People's United Party who took 22 of the 29 seats in the House of Representatives.

## FOREIGN RELATIONS

There has been a longstanding territorial dispute with Guatemala which claims half of the territory of Belize. In September 2002 Belize and Guatemala agreed on a draft settlement to the dispute but by August 2003 Guatemala had informed the Organisation of American States (OAS), the brokers of the agreement, that it could not accept the terms of the settlement. The OAS continues to work with Guatemala and Belize to resolve the dispute.

## POLITICAL SYSTEM

Queen Elizabeth II is head of state, represented in Belize by a Governor-General. There is a bicameral National Assembly, comprising a House of Representatives (29 members directly elected for five years) and a Senate (13 members appointed by the Governor-General, including seven on the advice of the Prime Minister, three on the advice of the opposition leader, and one each from the National Trade Union Congress of Civil Society, the Belize Council of Churches and the Belize Chamber of Commerce). Executive power is vested in the Cabinet, which is responsible to the National Assembly.

*Governor-General*, HE Sir Colville Norbert Young, GCMG, apptd 17 November 1993

## SELECTED GOVERNMENT MEMBERS *as at July 2004*

## ECONOMY AND TRADE

About 27 per cent of the population is engaged in agriculture, which along with fishing accounted for more than 60 per cent of export revenue in 2002. The country is more or less self-sufficient in fresh beef, pork and poultry, but processed meat and dairy products are

imported. About 25 per cent of timber production (mostly mahogany) is exported and there is a large US market for lobster, conch and scale fish. The main export items are sugar, citrus fruits and juice, bananas and marine products. The UK and the USA account for over 90 per cent of export revenue. Tourism is the second largest foreign exchange earner after agriculture, providing over 20 per cent of GDP in 2001.

GNI – US\$730 million (2001); US\$2,940 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 8.9 per cent (2000)

INFLATION RATE – 0.6 per cent (2000)

TOTAL EXTERNAL DEBT – US\$499 million (2000)

IMPORTS – US\$409 million (2001)

EXPORTS – US\$166 million (2001)

## BALANCE OF PAYMENTS

*Trade* – US\$191 million deficit (2000)

*Current Account* – US\$139 million deficit (2000)

<i>Trade with UK</i>	2002	2003
Imports from UK	£13,710,000	£17,405,000
Exports to UK	31,559,000	42,000,000

## TRANSPORT INFRASTRUCTURE

The principal airport is at Belize City and various airlines operate international flights to the USA and other Central American states. The main port is also Belize City, which has deep water quays. Several inland waterways are navigable. There are 2,984 km of roads, including four main highways, but there is no railway system.

## EDUCATION

Education is free and compulsory from six to 14 years of age. There are 280 government and government-aided primary schools, 30 secondary schools and 11 tertiary institutions. The government maintains some schools but most are run by churches. The government administers and funds a school for mentally handicapped children and another for children with physical disabilities. Belize's first university, University College of Belize, opened in 1986.

ILLITERACY RATE – (m) 6.7 per cent; (f) 6.8 per cent (2000)

## MEDIA

The government-operated radio service was privatised in 1998 and there are now a variety of commercial radio stations. There are no daily newspapers but there is a number of privately owned weekly news publications. There are three main television stations (Channels 5, 7 and 9), all of which are commercial. An automatic telephone service, operated by Belize Telecommunications Ltd, covers the whole country.

## BENIN

*République du Bénin – Republic of Benin*

AREA – 112,622 sq. km. Neighbours: Togo (west),

Burkina Faso and Niger (north), Nigeria (east)

POPULATION – 5,828,000. The official language is French

CAPITAL – ΨPorto Novo (population, 232,756, 2000)

MAJOR TOWNS – ΨCotonou is the principal commercial town and port

CURRENCY – Franc CFA of 100 centimes  
 NATIONAL ANTHEM – L'aube nouvelle (The New Dawn)  
 NATIONAL DAY – 30 November  
 NATIONAL FLAG – Two horizontal stripes of yellow over red with a vertical green band in the hoist  
 MORTALITY RATE (per 1,000 population) – 13.65 (2003)  
 HIV / AIDS ADULT PREVALENCE – 3.6 per cent (2001)  
 DEATH PENALTY – Yes  
 POPULATION BELOW POVERTY LINE – 37 per cent (2001)  
 POPULATION GROWTH RATE – 2.8 per cent (1990–2001)  
 POPULATION DENSITY – 54 per sq. km (1999)  
 MILITARY EXPENDITURE – 1.8 per cent of GDP (2002)  
 MILITARY PERSONNEL – 4,550: Army 4,300, Navy 100, Air Force 150; Paramilitaries 2,500  
 CONSCRIPTION DURATION – 18 months (selective)  
 ILLITERACY RATE – (m) 43.1 per cent; (f) 75.3 per cent (2000)  
 ENROLMENT (percentage of age group) – primary 79 per cent (1997); tertiary 3 per cent (1997)

### CLIMATE AND TERRAIN

Benin (formerly known as Dahomey) has a short coastline of 124 km on the Gulf of Guinea but extends northwards inland for 699 km. The coast is a sandbar backed by lagoons that are fed by rivers. Elevation extremes range from 658 m (Mont Sokbara) at the highest point to 0 m (Atlantic Ocean) at the lowest. Benin has a tropical climate.

### HISTORY AND POLITICS

Very little is known of Benin's pre-colonial origins. Dahomey, on the site of modern-day Benin, was a West African kingdom founded in the 11th and 12th centuries that rose to prominence during the 15th and 16th centuries.

The first Europeans to visit the country were the Portuguese in 1472. Slavery became the region's primary commodity (hence its historical name of the Slave Coast).

Benin was placed under French administration in 1892 after the defeat of the Dahomey king and became an independent republic within the French Community in 1958; full independence outside the Community was proclaimed on 1 August 1960. Between 1963 and 1972 successive governments were overthrown by the military until a coup d'état in 1972 brought to power a Marxist-Leninist military government headed by Lt.-Col. Mathieu Kérékou.

A pluralistic constitution was adopted in December 1990 and legislative and presidential elections were held in 1991. Nicéphore Soglo was sworn in as president and appointed a Benin Renaissance Party (PRB)-dominated provisional government. He was defeated by Gen. Kérékou (by then a civilian politician) in the presidential election of 1996. In legislative elections held in 2003, the Presidential Movement won an overall parliamentary majority, winning 52 of the 83 seats in the National Assembly.

### POLITICAL SYSTEM

The President is head of government as well as head of state, and is directly elected for a five-year term. The President appoints and presides over the Council of Ministers. The National Assembly has 83 members, directly elected for a maximum of four years and by proportional representation.

### HEAD OF STATE

*President and Head of the Armed Forces*, HE Gen. Mathieu Kérékou, *elected* 1996, *re-elected* 22 March 2001, *sworn in* 3 April 2001

### SELECTED GOVERNMENT MEMBERS as at July 2004

*Finance and Economy*, Grégoire Laourou  
*Foreign Affairs and African Integration*, Rogatien Biaoou  
*Interior, Security and Territorial Administration*, Daniel Tawéma  
*Minister of State for National Defence*, Pierre Osho

### EMBASSY OF THE REPUBLIC OF BENIN

87 Avenue Victor Hugo, F-75116 Paris, France

T (+33) (1) 4500 9882

*Ambassador Extraordinary and Plenipotentiary*, HE Edgar-Yves Monnou

*Chargé d'Affaires*, Antoine Afouda

BRITISH AMBASSADOR, HE Philip Thomas, CMG, resident at Abuja, Nigeria

### HONORARY CONSULATE OF BENIN

Dolphin House, 16 The Broadway, Stanmore, Middlesex HA7 4DW

T 020-8954 8800

*Honorary Consul*, Lawrence Landau

### ECONOMY AND TRADE

The principal exports are cotton (accounting for 80 per cent of official exports and 40 per cent of GDP), palm products, groundnuts, shea-nuts, and coffee. Agriculture employs an estimated 55 per cent of the workforce. Small deposits of gold, iron and chrome have been found. Oil production started in 1983. Industries have been steadily privatised since 2001.

In 2000 the IMF and the International Development Association agreed to a US\$460 million debt reduction package for Benin. In March 2003 the IMF announced that Benin had taken the necessary steps to reach its completion point under the enhanced Heavily Indebted Poor Countries (HIPC) initiative.

GNI – US\$2,398 million (2000); US\$380 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 5.0 per cent (2000)

INFLATION RATE – 4.2 per cent (2000)

TOTAL EXTERNAL DEBT – US\$1,599 million (2000)

IMPORTS – US\$613 million (2000)

EXPORTS – US\$392 million (2000)

### BALANCE OF PAYMENTS

*Trade* – US\$214 million deficit (2000)

*Current Account* – US\$111 million deficit (2000)

<i>Trade with UK</i>	2002	2003
Imports from UK	£43,387,000	£46,563,000
Exports to UK	6,886,000	2,989,000

### CULTURE

Benin's population is ethnically varied but the main cultural divide is between the northern and southern regions. Benin's largest group, the Fon, live in the south, as do the Yoruba. The largest group in the north is the Bariba.

Pre-colonial Benin encouraged diverse artistic traditions some of which (such as the bronze heads of the Ife) have now disappeared and others, such as the

appliqué tapestries, now form the basis of an internationally important contemporary arts scene. Benin's most famous contemporary musician is Angelique Kidjo (b. 1960), who sings in Fon, Yuroba, English, French and Mina.

## BHUTAN

*Druk Gyal Khab – Kingdom of Bhutan*

AREA – 47,000 sq. km. Neighbours: Tibet (north), India (west, south and east)  
 POPULATION – 2,139,549 (2003): about 80 per cent are Buddhists, the remainder (mostly the Nepali Bhutanese) are Hindu. The official language, for administrative and religious purposes, is Dzongkha, a variant of Tibetan, which functions as a lingua franca amongst a variety of languages and dialects. Nepali remains a recognised language and English remains the medium of instruction and the working language of the administration  
 CAPITAL – Thimphu (population, 30,340, 1993 estimate)  
 CURRENCY – Ngultrum of 100 chetrum (Indian currency is also legal tender)  
 NATIONAL ANTHEM – Druk Tsendhen Koipi Gyelknep Na (In The Thunder Dragon Kingdom)  
 NATIONAL DAY – 17 December  
 NATIONAL FLAG – Saffron yellow and orange-red divided diagonally, with dragon device in centre  
 MORTALITY RATE (per 1,000 population) – 13.47 (2003)  
 HIV / AIDS ADULT PREVALENCE – 0.1 per cent (2001)  
 DEATH PENALTY – NO (abolished 2004)  
 POPULATION GROWTH RATE – 2.8 per cent  
 POPULATION DENSITY – 44 per sq. km (1999)  
 MILITARY EXPENDITURE – 3.3 per cent of GDP (2001)  
 ILLITERACY RATE – (m) 38.9 per cent; (f) 66.4 per cent (2000)

### CLIMATE AND TERRAIN

Bhutan is a landlocked country between China and India. There is a mountainous northern region which is infertile and sparsely populated, a central zone of upland valleys, where most of the population and cultivated land is found, and in the south the densely forested foothills of the Himalayas, which are mainly inhabited by Nepalese settlers and indigenous tribespeople. Extremes of elevation range from 7,553 m (Kula Kangri) at the highest point to 97 m (Drangme Chhu) at the lowest. The climate is dependent on altitude and average temperatures range from 4°C in January to 17°C in July. There is heavy annual rainfall of around 1,000 mm in the central valleys and 5,000 mm in the south.

### HISTORY AND POLITICS

In 1865 Britain and Bhutan signed the Treaty of Sinchulu in which Britain agreed to pay Bhutan an annual sum of money in return for some border territory. Under a 1949 treaty, Bhutan was guided by the advice of India in regard to its external relations. It retained its own diplomatic representatives and became a member of the UN. Bhutan receives an annual payment of Rs500,000 from India as

compensation for portions of its territory annexed by the British Government in India in 1864.

Since the 1950s Bhutan has been moving towards the establishment of more formal political institutions. In January 1989 the King introduced a code of national etiquette designed to protect the national culture and language from Nepali encroachment. These measures, together with the granting of citizenship only to Nepalis settled in Bhutan before 1958, led to an exodus of ethnic Nepalis to Nepal. In March 2001 Bhutan and Nepal began an agreed process of assessing which refugees were entitled to return to Bhutan. However, a number of Nepalese refugees went on hunger strike in early 2003 in protest against their conditions and the slow progress of the verification and repatriation process. The most recent legislative election was in June 2003 and all six cabinet ministers were re-elected.

### POLITICAL SYSTEM

Bhutan has a 150-member unicameral *Tshogdu Chhenmo* (National Assembly). The National Assembly meets twice a year. The ten-member Royal Advisory Council, nominated by the King and the National Assembly, acts as a consultative body when the National Assembly is not in session. The King is also assisted by the *Lhengyal Shungtshog* (Cabinet) which is led by an annually rotating chairman. Ministers are elected for a five-year term after which time they must face a vote of confidence. There are no political parties.

In July 1998 the King introduced reforms giving the legislature the right to dismiss the King (dependent on a two-thirds majority) and to nominate the members of the Cabinet, although the King retains the right to assign their portfolios. In November 2001 a draft constitution was initiated.

### HEAD OF STATE

*HM The King of Bhutan*, Jigme Singye Wangchuck, born 11 November 1955; succeeded his father July 1972; crowned 2 June 1974  
*Heir*, Crown Prince Jigme Gesar Namgyal Wangchuck, designated 31 October 1988

### SELECTED GOVERNMENT MEMBERS as at July 2004

*Chairman of the Cabinet, Home and Cultural Affairs*, Jigme Thinley  
*Finance*, Wangdi Norbu  
*Foreign Affairs*, Khandu Wangchuk

### ECONOMY

The economy is based on industry, which in 2002 accounted for 37 per cent of GDP, and agriculture (34 per cent of GDP). Agriculture and animal husbandry engage around 85 per cent of the workforce in what is largely a self-sufficient rural society. Services accounted for 29 per cent of GDP in 2002. The principal food crops are rice, wheat, maize and barley. Vegetables and fruit are also produced. Bhutan is the world's largest producer of cardamom, which forms its principal export to countries other than India. Agriculture is, however, limited by the country's mountainous topography and 60 per cent forest cover.

The mountains contain rich deposits of limestone, gypsum, dolomite and graphite and small amounts of coal, which are exported to India. There are a distillery and cement, chemicals and food-processing plants; a forestry industries complex is being expanded. Tourism

and postage stamps are increasingly important sources of foreign exchange.

Principal exports are electricity, calcium carbide and timber; main imports are rice, machinery and diesel oil.

GNI – US\$479 million (2000); US\$640 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 7.0 per cent (2001)

INFLATION RATE – 6.8 per cent (1999)

TOTAL EXTERNAL DEBT – US\$198 million (2000)

IMPORTS – US\$182 million (1999)

EXPORTS – US\$116 million (1999)

Trade with UK	2002	2003
Imports from UK	£1,279,000	£2,060,000
Exports to UK	640,000	347,000

## BOLIVIA

*República de Bolivia – Republic of Bolivia*

AREA – 1,084,400 sq. km. Neighbours: Brazil (north and east), Paraguay and Argentina (south), Chile and Peru (west)

POPULATION – 8,516,000 (2001): 12 per cent is of white European descent, 30 per cent Mestizo (mixed European-Indian), 25 per cent Quechua Indian and 17 per cent Aymará Indian. The official language is Spanish; Quechua and Aymará are also spoken. Roman Catholicism was the state religion until disestablishment in 1961

CAPITAL – La Paz, the seat of government (population, 739,453, 1998 estimate)

MAJOR CITIES – Cochabamba; El Alto; Oruro; Potosí; Santa Cruz; Sucre, the legal capital and seat of the judiciary

CURRENCY – Boliviano (\$b) of 100 centavos

NATIONAL ANTHEM – Bolivianos, El Hado Propicio (Oh Bolivia, Our Long-Felt Desires)

NATIONAL DAY – 6 August (Independence Day)

NATIONAL FLAG – Three horizontal bands, red, yellow, green

LIFE EXPECTANCY (years) – 63 (2001)

MORTALITY RATE (per 1,000 population) – 7.91 (2003)

INFANT MORTALITY (per 1,000 births) – 60 (2001)

HIV / AIDS ADULT PREVALENCE RATE – 0.1 per cent (2001)

DEATH PENALTY – Yes\*

POPULATION BELOW POVERTY LINE – 70 per cent (1999)

POPULATION GROWTH RATE – 2.4 per cent (1990–2001)

POPULATION DENSITY – 8 per sq. km (2001)

URBAN POPULATION – 63 per cent (2001)

rivers being the Itenez, Beni, Mamore and Madre de Dios. Bolivia is landlocked. The wet season is November to March. There is an average temperature of 26°C in most of the country but the south is prone to droughts and temperatures become subpolar at an altitude of 500 m.

## HISTORY AND POLITICS

The area of present-day Bolivia was assimilated into the Inca Empire in 1450. The Inca Empire was conquered by the Spanish in 1525. Bolivia won its independence from Spain in 1825 after a war of liberation led by Simón Bolívar (1783–1830), from whom the country derives its name. From 1964 to 1982 Bolivia was ruled by military juntas until civilian rule was restored.

A wave of protests and strikes took place in 2000 over economic hardship, but ended after the government made concessions to public sector workers and promised investment in areas where coca was produced. In April 2001 the protestors claimed that the government had failed to deliver the promised concessions and recommenced the campaign of demonstrations and strikes. Presidential and legislative elections were held in June 2002, but were inconclusive. Gonzalo Sánchez de Lozada was elected President in a vote by Congress on 4 August but resigned in October following extensive civil unrest. Vice-President Carlos D. Mesa Gisbert was sworn in as President on 17 October 2003.

## POLITICAL SYSTEM

The constitution provides for a directly elected Executive President who appoints the Cabinet. The legislature (Congress) consists of a 27-member Senate and a 130-member Chamber of Deputies. Both chambers and the President are elected for five-year terms.

## HEAD OF STATE

*President*, Carlos D. Mesa Gisbert, *sworn in* 17 October 2003

## CLIMATE AND TERRAIN

Bolivia's chief topographical feature is its great central plateau. Over 800 km in length, at an average altitude of 3,750 m above sea level, this plateau lies between the two great chains of the Andes, which traverse the country from south to north. Elevation extremes range from 6,542 m (Nevado Sajama) at the highest point to 90 m (Rio Paraguay) at the lowest. The total length of the navigable rivers is about 19,200 km, the principal

**DEFENCE**

The Army has 77 armoured personnel carriers. The Navy has 78 patrol vessels. The Air Force has 37 combat aircraft and 16 armed helicopters.

MILITARY EXPENDITURE – 1.6 per cent of GDP (2002)

MILITARY PERSONNEL – 31,500: Army 25,000, Navy 3,500, Air Force 3,000; Paramilitaries 37,100

CONSCRIPTION DURATION – 12 months (selective)

**ECONOMY AND TRADE**

Mining, natural gas, petroleum and agriculture are the principal industries. The ancient silver mines of Potosí are now worked chiefly for tin, but gold is obtained on the Eastern Cordillera of the Andes. Following a decline in the price of tin, many workers have taken to growing coca, which has become a significant export. Small quantities of oil are produced for internal consumption and gas (currently providing about a quarter of export income) is piped to Argentina; in December 1997 the World Bank approved financing for the 3,150-km Bolivia-Brazil gas pipeline, which is now in operation. Bolivia's natural gas output is an estimated 4,100 million cubic metres per year.

In 1996 the government signed an agreement with the South American Common Market (Mercosur) to create a free trade zone within 18 years.

Bolivia's principal exports are natural gas, tin, zinc, silver, gold, coffee and soya beans. The USA and UK are Bolivia's largest export trading partners. The country's low level of industrialisation requires Bolivia to be highly dependent on imports, mainly wheat and flour, iron and steel products, machinery, vehicles and textiles.

In 2004 President Mesa Gisbert announced an economic plan designed to revive the economy and bring debt under control.

GNI – US\$8,100 million (2001); US\$950 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.7 per cent (1998)

INFLATION RATE – 4.6 per cent (2000)

UNEMPLOYMENT – 7.4 per cent (2000)

TOTAL EXTERNAL DEBT – US\$5,762 million (2000)

FOREIGN DIRECT INVESTMENT – US\$3,222 million (1997–2000)

IMPORTS – US\$1,770 million (2002)

EXPORTS – US\$1,310 million (2002)

**BALANCE OF PAYMENTS**

*Trade* – US\$222 million deficit (2002)

*Current Account* – US\$335 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£8,111,000	£6,386,000
Exports to UK	11,593,000	10,540,000

**TRANSPORT INFRASTRUCTURE**

There are 3,519 km of railways in operation, but they are in a state of decay. There are about 53,790 km of roads, of which about 5 per cent are paved. Bolivia has 1,081 airports but only 12 have surfaced runways. In 1993 Bolivia and Peru signed an agreement granting Bolivia a concession of 162 hectares at the southern Peruvian port of Ilo for 98 years to construct a free trade zone.

**EDUCATION**

Elementary education is compulsory and free from the ages of six to 11. There are secondary schools in urban

centres but only about a third of children of secondary school age attend. There are 22 universities, four of which are private.

ILLITERACY RATE – (m) 6.9 per cent; (f) 18.4 per cent (2002)

**MEDIA**

Radio is the most important news media in Bolivia due to low literacy levels (particularly in rural areas). The media is largely privately owned and run. Journalists practise self-censorship. There are six daily newspapers. Television is mostly commercial with only one government run channel.

**CULTURE**

Bolivia's folk culture of weaving, dancing and music stretch back 3,000 years and have distinct regional characteristics. Religion is a mixture of Roman Catholicism and traditional Aymaran beliefs. Bolivia has the largest proportion of indigenous people (approximately two-thirds of the population) of any Latin American country and their lifestyles contrast sharply with the mostly Spanish-descended urban population.

**BOSNIA-HERCEGOVINA**

*Republika Bosna i Hercegovina – Republic of Bosnia and Hercegovina*

AREA – 51,197 sq. km. Neighbours: Serbia and Montenegro (east), Croatia (north and west)

POPULATION – 3,784,000; 4.4 million (2001 census):

44 per cent Bosniac, 33 per cent Serbs and 17 per cent Croats. The languages are Bosnian (spoken by Bosniacs and written in the Latin script), Serbian (spoken by Serbs and written in the Cyrillic alphabet) and Croatian (spoken by Croats and written in the Latin script)

CAPITAL – Sarajevo (population, 529,021, 2001 estimate)

MAJOR CITIES – Banja Luka; Mostar; Tuzla; Zenica

CURRENCY – Convertible marka

NATIONAL ANTHEM – Jedna Si Jedina (You Are Unique)

NATIONAL DAY – 1 March (anniversary of 1992 declaration of independence)

NATIONAL FLAG – Blue, bearing a yellow triangle above a line of white stars

MORTALITY RATE (per 1,000 population) – 8.21 (2003)

HIV / AIDS ADULT PREVALENCE RATE – 0.1 per cent (2001)

DEATH PENALTY – No (abolished 2001)

POPULATION GROWTH RATE – 2.1 per cent (1999)

POPULATION DENSITY – 75 per sq. km (1999)

MILITARY EXPENDITURE – 2.4 per cent of GDP (2002)

MILITARY PERSONNEL – Bosniac Army (VF-B): 9,200; Croat Defence Council (VF-H): 4,000; Bosnian Serb Army (VRS): 6,600

**CLIMATE AND TERRAIN**

Bosnia-Hercegovina is a mountainous country on the Balkan Peninsula. The highest point of elevation is 2,386 m (Maglic), the lowest point is 0 m (Adriatic Sea).

## HISTORY AND POLITICS

The country was settled by Slavs in the seventh century and conquered by the Ottoman Turks in 1463. Ruled by the Turks for over 400 years, the country came under Austro-Hungarian control in 1878. The assassination of the heir to the Austro-Hungarian throne in Sarajevo by an ethnic Serb precipitated the First World War, after which Bosnia-Herzegovina became part of the 'Kingdom of Serbs, Croats and Slovenes' (renamed Yugoslavia in 1929). It was occupied by German and Axis forces between 1941 and 1945. At the end of the war Bosnia-Herzegovina became part of the Socialist Federal Republic of Yugoslavia, which eventually collapsed with the secession of Slovenia and Croatia in 1991.

The Bosnia-Herzegovina government issued a declaration of sovereignty in October 1991 against the wishes of the ethnic Serb Democratic Party. Independence was declared on 1 March 1992 following a referendum which was boycotted by the Bosnian Serbs. Bosnia-Herzegovina was recognised as an independent state by the EU and USA in April 1992 and was admitted to UN membership in May 1992.

## THE WAR

Fighting broke out in March 1992 between the pro-independence Muslims and Bosnian Serbs who wanted to merge with the Serbian republic to form a Greater Serbia. The Bosnian Serbs, assisted by the Federal Yugoslav Army (JNA), gained control of 70 per cent of Bosnia and in August 1992 declared their own 'Republika Srpska' with its capital at Pale.

The Bosnian government (Muslim) forces formed an alliance with Bosnian Croat and Croat forces in early 1992 which collapsed in 1993. The Muslims then came under fire from both Bosnian Serb and Bosnian Croat forces.

In August 1993 the Bosnian Croats declared a 'Republic of Herceg-Bosna', with its capital in Mostar, and following a cease-fire in February 1994 joined the government forces in a Muslim-Croat Federation.

NATO galvanised the USA, Britain, France, Germany and Russia to form the Contact Group (CG) to co-ordinate peace efforts. The CG brought about a cease-fire in June 1994 and presented a peace plan, which was rejected by the Bosnian Serbs.

Fighting intensified in 1995, climaxing in a land-grab during the final months of the war. Bosnian Serb forces overran the UN safe areas of Zepa and Srebrenica in July, allegedly massacring thousands of fleeing Muslims, and then laid siege to the Bihać 'safe area' together with Croatian Serbs and rebel Muslims. Bosnian government and Croatian forces lifted the siege of Bihać in August, enabling a joint attack on Serb-held central Bosnia.

The foreign ministers of Bosnia, Croatia and Serbia (rump Yugoslavia) met in Geneva in September 1995 and agreed to a US-sponsored peace accord. A cease-fire agreement was signed on 5 October and observed from 22 October, delayed by a Federation advance in the west and north-west, and Bosnian Serbs overrunning Tuzla. In November 2002, Bosnian Serb Mitar Vasiljevic was sentenced by the International Criminal Tribunal for the Former Yugoslavia in The Hague to 20 years imprisonment for war crimes. Biljana Plavsic, the former President of the Republika Srpska, was sentenced in February 2003, to 11 years' imprisonment for crimes against humanity. Former Serbian President Milan

Milutinovic; former Yugoslav President Slobodan Milosevic; Dragoljub Ojdanic, Yugoslav Chief of Staff; Nikola Sainovic, Deputy Prime Minister of Serbia and Vljako Stojiljkovic, Minister of Internal Affairs of Serbia, are all currently on trial.

## THE PEACE AGREEMENT

The Dayton Peace Accord was signed in Paris on 14 December 1995. It was agreed to preserve Bosnia as a single state with a 51:49 division of territory between the Bosnian and Croat Federation and the Republika Srpska (Bosnian Serbs). A republican (national) government, presidency and democratically elected institutions, based in Federation-controlled Sarajevo, were provided for.

The Dayton agreement provided for the deployment of a NATO-led Peace Implementation Force (IFOR) which took over from UNPROFOR on 20 December 1995 and was mandated until December 1996. IFOR (60,000 troops) was replaced by a NATO-led Stabilisation Force (SFOR) (12,000 troops, reduced to 7,000 troops in May 2004).

## POLITICAL SYSTEM

Under the Dayton Peace Accord, the Bosnian republican (national) government was made responsible for foreign affairs, currency, citizenship and immigration. Executive authority was vested in a democratically elected rotating presidential triumvirate comprising a representative from each community, but in March 2001 the Assembly of Bosnia-Herzegovina nominated two members of a multi-ethnic party.

Legislative authority is vested in a bicameral parliament, the Assembly of Bosnia-Herzegovina, comprising a House of Peoples and a House of Representatives. Both houses have two-year terms. The House of Peoples has 15 members, ten from the Bosniac-Croat Federation and five from the Republika Srpska, who are selected by the House of Representatives. The House of Representatives has 42 members who are directly elected to the two constituent chambers, the Chamber of Deputies of the Federation, which has 28 members, and the Chamber of Deputies of the Republika Srpska, which has 14 members. Within the Bosniac-Croat Federation there is a 140-member House of Representatives and ten cantonal assemblies; in the Republika Srpska there is an 83-member People's Assembly.

Legislative elections and elections for the collective presidency and the presidency of the Republika Srpska were held in 2002. The winning parties were: the Bosniac Party of Democratic Action (SDA); the Serb Democratic Party (SDS) and the Croatian Democratic Community (HDZ). Dragan Čavić was elected President of the Republika Srpska and sworn in on 28 November. In January 2003, the all-Bosnian legislature approved the coalition government of Adnan Terzic of the SDA. Mirko Sarović, who was inaugurated as the first chair of the collective presidency in October 2002, resigned in April 2003. Borislav Paravac was elected to replace him and took office on 10 April. The chair of the Presidency rotates among its three members every eight months.

## HEADS OF STATE (FOR ALL BOSNIA-HERCEGOVINA)

*Presidency Members*, Suljman Tihic, Borislav Paravac, Dragan Cović

**HEAD OF THE FEDERATION***President, Niko Lozanić**Vice-Presidents, Sahbaz Džikanović; Desnica Radivojević***HEAD OF REPUBLIKA SRPSKA***President, Dragan Čović**Vice-Presidents, Adil Osmanović; Ivan Tomljenović***SELECTED GOVERNMENT MEMBERS (for all Bosnia-Herzegovina) as at July 2004***Prime Minister, European Integration, Adnan Terzić**Finance and Treasury, Ljerka Marić**Foreign Affairs, Mladen Ivanić***SELECTED GOVERNMENT MEMBERS OF FEDERATION CABINET as at July 2004***Prime Minister, Ahmet Hadžipašić**Deputy Prime Minister, Culture and Sport, Gavriilo**Grahovac**Deputy Prime Minister, Finance, Dragan Vrankić**Defence, Miroslav Nikolić**Interior, Mevludin Halilović***SELECTED GOVERNMENT MEMBERS OF REPUBLIKA SRPSKA as at July 2004***Prime Minister, Finance (acting), Dragan Mikerević**Defence, Milovan Stanković**Finance, Branko Krsmanović**Interior, Zoran Džerić***EMBASSY OF BOSNIA HERCEGOVINA**

**ECONOMY AND TRADE**

Wheat, maize, potatoes and cabbage are among the major crops; crude steel and lignite are among the principal mineral products.

GNI – US\$4,899 million (2000); US\$1,230 per capita (2000)

GDP – US\$4,769 million (2001); US\$1,074 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 20 per cent (1998)

TOTAL EXTERNAL DEBT – US\$2,828 million (2000)

<i>Trade with UK</i>	<i>2002</i>	<i>2003</i>
Imports from UK	£16,007,000	£12,531,000
Exports to UK	3,765,000	4,048,000

**TRANSPORT INFRASTRUCTURE**

There are 1,021 km of railways and 21,846 km of roads, 11,424 km of which are paved. Many waterways are still blocked by destroyed bridges, debris and silt. There are five heliports and 27 airports, eight of which are surfaced.

**MEDIA**

During the war all branches of the media were used by political factions to further their own propaganda aims. Since the 1995 Dayton Peace Accord, efforts have been made to reintroduce a more balanced press that crosses ethnic divides. These efforts have not been entirely successful and there is only limited press freedom. The Office of the High Representative is overseeing the development of a national broadcasting service. There are more than 200 commercial television and radio stations.

**CULTURE**

Modern-day Bosnia-Herzegovina is still dealing with the wounds left by three years of inter-ethnic war and people now divide geographically along religious lines – the Serb Republic is almost totally Christian and the Federation is mostly Muslim.

The country's most famous novelist is Ivo Andrić (1892–1974), winner of the Nobel Prize for literature in 1961.

**BOTSWANA***The Republic of Botswana*

AREA – 600,300 sq. km. Neighbours: South Africa (south and east), Zimbabwe (north and north-east), Namibia (west), Zambia (north)

POPULATION – 1,554,000 (2001): Batswana (95 per cent); the remainder are Bakalanga, Basarwa, Bakgalagadi, Basubya, Baherero, Bayei, Bambukushu and Europeans. The national language is Setswana and the official language is English

CAPITAL – Gaborone (population, 186,007, 2001 census)

MAJOR CITIES – Francistown; Molepolole; Selebi-Phikwe

CURRENCY – Pula (P) of 100 thebe

NATIONAL ANTHEM – Fatshe La Rona (Blessed Be This Noble Land)

NATIONAL DAY – 30 September

NATIONAL FLAG – Light blue with a horizontal black stripe fimbriated in white across the centre

LIFE EXPECTANCY (years) – 39 (2001)

MORTALITY RATE (per 1,000 population) – 31

INFANT MORTALITY (per 1,000 births) – 80 (2001)

HIV / AIDS ADULT PREVALENCE – 38.8 per cent (2001)

DEATH PENALTY – Yes

POPULATION BELOW POVERTY LINE – 47 per cent (2001)

POPULATION GROWTH RATE – 2.1 per cent (1990–2001)

POPULATION DENSITY – 3 per sq. km (2001)

URBAN POPULATION – 49 per cent (2001)

**CLIMATE AND TERRAIN**

A plateau at a height of about 1,200 m divides Botswana into two main topographical regions. To the east of the plateau, streams run into the Marico, Notwani and Limpopo rivers; to the west lies a flat region comprising the Bakgalagadi Desert, the Okavango Swamps and the Northern State Lands area. Elevation extremes range from 1,489 m (Tsodilo Hills) at the highest point to 513 m (junction of the Limpopo and Shashe Rivers) at the lowest. The climate is subtropical in the north (Okavango Delta, including the Central Kalahari Game Reserve) at the lowest, arid in the south and west (Kalahari Desert), and temperate in the east (arable farming land). Average annual temperatures range from 26°C in January to 13°C in July.

**HISTORY AND POLITICS**

The Tswana people were dominant in the area now known as Botswana from the 17th century. In 1885, at the request of indigenous chiefs fearing invasion by the Boers, Britain formally took control of Bechuanaland, and the northern part of the territory was declared a British protectorate, while land to the south of the Molopo river became British Bechuanaland, which was later incorporated into the Cape Colony. On 30 September 1966 the British Protectorate of Bechuanaland became a republic within the Commonwealth under the name Botswana.

The last general election (1999) was won by the Botswana Democratic Party with 33 seats to the Botswana National Front's seven seats. A general election was due to take place in October 2004.

**POLITICAL SYSTEM**

The President is head of state and is elected by an absolute majority in the National Assembly. He appoints as Vice-President a member of the National Assembly who is leader of government business in the National Assembly. The Assembly consists of the President, 40 members elected on a basis of universal adult suffrage, four co-opted members, and the Attorney-General (non-voting). Presidential and legislative elections are held every five years. There is also a 15-member House of Chiefs which considers legislation affecting the constitution and chieftaincy matters. In August 1997 the minimum voting age was lowered from 21 to 18. In 2002 the cabinet was increased in size from 16 to 20 members with the creation of four new ministerial posts.

**HEAD OF STATE**

*President, C-in-C. of the Armed Forces*, HE Festus Mogae, sworn in 2 April 1998

**DEFENCE**

The Army has 34 armoured personnel carriers. The Air Wing has 30 combat aircraft.

MILITARY EXPENDITURE – 4.5 per cent of GDP (2002)

MILITARY PERSONNEL – 9,000: Army 8,500, Air Wing 500; Paramilitaries 1,500

**ECONOMY AND TRADE**

Botswana is one of Africa's oldest continuous multiparty democracies and is commonly regarded as the continent's most stable and least corrupt country. Agriculture is predominantly pastoral and accounts for around 3 per cent of GDP. Cattle rearing accounts for about 85 per cent of agricultural output.

Mineral extraction and processing is now the major source of income following the opening of large mines for diamonds, copper and nickel. Botswana is the world's largest producer of diamonds (20 million carats a year), with diamonds accounting for 50 per cent of foreign exchange earnings and 33 per cent of GDP. Large deposits of coal have been discovered and are now being mined.

Service industries account for nearly half of GDP. Tourism is the third largest industry, generating about 7 per cent of GDP. Main imports are motor vehicles, machinery and electrical equipment and foodstuffs; main exports are diamonds, motor vehicles, cupro-nickel and beef.

Botswana is one of the few countries in Africa that invests in, rather than borrows from, the World Bank.

GNI – US\$5,300 million (2001); US\$3,100 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 4.2 per cent (2002)

INFLATION RATE – 8.6 per cent (2000)

TOTAL EXTERNAL DEBT – US\$360 million (2002)

FOREIGN DIRECT INVESTMENT – US\$262 million (2001)

IMPORTS – US\$1,809 million (2001)

EXPORTS – US\$1,948 million (1998)

**BALANCE OF PAYMENTS**

*Trade* – US\$675 million surplus (1999)

*Current Account* – US\$517 million surplus (1999)

<i>Trade with UK</i>	2002	2003
Imports from UK	£16,837,000	£13,194,000
Exports to UK	£1,036,914,000	£1,106,814,000

**TRANSPORT INFRASTRUCTURE**

The railway from Cape Town to Zimbabwe passes through eastern Botswana. The major road is the 595 km Trans-Kalahari Highway, completed in 1998, which connects the capital of Namibia with Gaborone. There are a total of 10,217 km of roads.

**EDUCATION**

Botswana does not have a compulsory education policy. Many children undergo ten years of education but the government announced in June 2004 that efforts would be made to increase this to 12 years (seven years of

primary education, three years of junior secondary, and two years of senior secondary). There are 800 primary schools, 206 community junior secondary schools, 23 government and government-aided senior secondary schools and one university.

ILLITERACY RATE – (m) 23.1 per cent; (f) 17.6 per cent (2003)

ENROLMENT (percentage of age group) – primary 100 per cent (1997); secondary 65 per cent (1997); tertiary 6 per cent (1997)

## MEDIA

Newspapers are mostly found in cities and towns. In rural areas radio is the most important news medium (there are state run and private commercial stations and programmes are broadcast in both English and Setswana). State run television (Botswana Television) was established in 2000.

## BRAZIL

*República Federativa do Brasil – Federative Republic of Brazil*

AREA – 8,456,500 sq. km. Neighbours: Guyana, Suriname, French Guiana, Colombia and Venezuela (north), Peru, Bolivia, Paraguay and Argentina (west), Uruguay (south)

POPULATION – 172,559,000 (2001). Portuguese is the national language. Spanish and English are widely spoken

CAPITAL – Brasília (population, 1,737,813, 2000 census)

MAJOR CITIES – Belo Horizonte; ΨFortaleza; ΨPorto Alegre; ΨRecife; ΨRio de Janeiro, the former capital; ΨSalvador; São Paulo

CURRENCY – Real of 100 centavos

NATIONAL ANTHEM – Ouviram Do Ipiranga Às Margens Plácidas (From Peaceful Ypiranga's Banks)

NATIONAL DAY – 7 September (Independence Day)

NATIONAL FLAG – Green with a yellow lozenge containing a blue sphere studded with white stars, and crossed by a white band with the motto *Ordem e Progresso*

LIFE EXPECTANCY (years) – 68 (2001)

MORTALITY RATE (per 1,000 population) – 6.13 (2003)

INFANT MORTALITY (per 1,000 births) – 31 (2001)

HIV / AIDS ADULT PREVALENCE – 0.7 per cent (2001)

DEATH PENALTY – Yes\*

POPULATION BELOW POVERTY LINE – 22 per cent (1998)

POPULATION GROWTH RATE – 1.4 per cent (1990–2001)

POPULATION DENSITY – 20 per sq. km (2001)

URBAN POPULATION – 82 per cent (2001)

## CLIMATE AND TERRAIN

Brazil is South America's biggest country, taking up almost half of the continent. There are five distinct topographical areas: the Amazon Basin (north and west, taking up nearly a third of the country), the River Plate Basin (south), the Guyanan Highlands (north of the Amazon), the Brazilian Highlands (south of the Amazon), and the coastal strip. Brazil is mostly tropical with the equator passing through the north and the Tropic of

Capricorn through the south-east. It is home to the world's biggest rain forest. The Amazon Basin sees annual rainfall of up to 2,000 mm a year and there is no dry season (average temperature 17°C). The north-east is the driest area of the country and can experience long periods of drought (average temperature 40°C). The southern states have a seasonal temperate climate (the average temperature is between 17°C and 19°C). Elevation extremes range from 3,014 m (Pico da Neblina) at the highest point to 0 m (Atlantic Ocean) at the lowest.

## HISTORY AND POLITICS

Brazil was claimed by the Portuguese navigator Pedro Ivaes Cabral in 1500 and colonised by Portugal in the early 16th century. In 1822 it became independent under Dom Pedro I, son of King João VI of Portugal, who had been forced to flee to Brazil during the Napoleonic Wars. In 1889, Dom Pedro II was dethroned and a republic was proclaimed. In 1985 Brazil returned to democratic rule after two decades of military government.

In the first round of presidential elections held in 2002 Luis Inácio 'Lula' da Silva of the Workers' Party (PT) gained 46.4 per cent of the vote. In the second round of the elections da Silva was elected President with 61.3 per cent of the vote. In the legislative elections of the same year the Workers' Party became the largest party in the Chamber of Deputies, winning 91 of the 513 seats. The PT then formed a coalition government with 11 other parties giving it control of 381 seats in the Chamber of Deputies and 53 seats out of 81 in the Senate.

## POLITICAL SYSTEM

Under the 1988 constitution the President, who heads the executive, is directly elected for a four-year term; in June 1997 the constitution was amended to allow the President to stand for a second term. The Congress consists of an 81-member Senate (three senators per state elected for an eight-year term) and a 513-member Chamber of Deputies which is elected every four years; the number of deputies per state depends upon the state's population. Each state has a Governor, and a Legislative Assembly with a four-year term.

## FEDERAL STRUCTURE

The Federative Republic of Brazil is composed of the federal district and 26 states (population 2000 census): Distrito Federal (2,043,169); Goiás (4,996,439); Mato Grosso (2,502,260); Mato Grosso do Sul (2,074,877); Acre (557,226); Amapá (423,581); Amazonas (2,813,085); Pará (6,189,550); Rondônia (1,337,792); Roraima (324,152); Tocantins (1,155,913); Alagoas (2,819,172); Bahia (13,066,910); Ceará (7,418,476); Maranhão (5,642,960); Paraíba (3,439,344); Pernambuco (7,911,937); Piauí (2,841,202); Rio Grande de Norte (2,771,538); Sergipe (1,781,714); Paraná (9,558,454); Rio Grande de Sul (10,181,749); Santa Catarina (5,349,580); Espírito Santo (3,094,390); Minas Gerais (17,866,402); Rio de Janeiro (14,367,083); São Paulo (39,969,476).

## DEFENCE

The Army has 178 main battle tanks, 803 armoured personnel carriers and 78 helicopters. The Navy has bases at Rio de Janeiro, Salvador, Recife, Belém, Florianópolis and Ladario. It is equipped with four submarines, one aircraft carrier, 14 frigates and 50 patrol and coastal vessels. Naval aviation has 24 combat aircraft and 54 armed helicopters; the Marines have 33 armoured personnel carriers. The Air Force has 254 combat aircraft.

MILITARY EXPENDITURE – 2.3 per cent of GDP (2002)

MILITARY PERSONNEL – 287,600: Army 189,000, Navy 48,600, Air Force 50,000; Paramilitaries 385,600

CONSCRIPTION DURATION – 12 months (can be extended to 18)

## ECONOMY AND TRADE

There are large mineral deposits including iron ore (hematite), manganese, bauxite, beryllium, chrome, nickel, tungsten, cassiterite, lead, gold, monazite (containing rare earths and thorium) and zirconium. Diamonds and precious and semi-precious stones are also found. Brazil is the world's largest producer of coffee; the other main agricultural products are cassava, maize, soya, rice, wheat, sugar, potatoes, cotton, cocoa, tobacco and peanuts. Tourism is a growing industry; Brazil attracted 5.1 million visitors in 2000. Services generated 72.9 per cent of GDP in 2002.

A new currency, the real, was introduced in 1994 to help control inflation, however, inflation rose to 12.5 per cent in 2002, the highest level for eight years.

Principal imports are machinery, fuel and lubricants, mineral products, transport equipment and chemicals. Principal exports are industrial goods, coffee, sugar cane, iron ore, tobacco and soya.

GNI – US\$528,900 million (2001); US\$3,070 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 1.5 per cent (2001)

INFLATION RATE – 10.2 per cent (2002)

UNEMPLOYMENT – 9.6 per cent (1999)

TOTAL EXTERNAL DEBT – US\$237,953 million (2000)

FOREIGN DIRECT INVESTMENT – US\$117,003 million (1997–2000)

IMPORTS – US\$49,580 million (2002)

EXPORTS – US\$60,362 million (2002)

### BALANCE OF PAYMENTS

*Trade* – US\$13,143 million surplus (2002)

*Current Account* – US\$7,696 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£887,614,000	£828,586,000
Exports to UK	1,414,884,000	1,512,283,000

## TRANSPORT INFRASTRUCTURE

There are 1,670,148 km of roads, of which 161,503 km are paved, and the route-length of railways is 30,129 km, of which 2,150 km are electrified. There are ten international airports and internal air services are highly developed. There are 43,000 km of navigable inland waterways. Rio de Janeiro and Santos are the two leading ports but there are also another 14 fully equipped harbours. A 3,415-km gas pipeline running from Santa Cruz, Bolivia, to São Paulo, was opened in 2000.

## EDUCATION

The education system includes both public and private institutions. Public education is free at all levels. Brazil has 42 million students (2002) and 30.5 million of these are enrolled in primary education.

ILLITERACY RATE – (m) 14.9 per cent; (f) 14.6 per cent (2000)

ENROLMENT (percentage of age group) – primary 96.5 per cent (2001); secondary 71.6 per cent (2001); tertiary 11 per cent (2002)

## MEDIA

Brazilian television is South America's biggest media industry with Brazilian-made soap operas, game shows and dramas exported all over the world. There are many Brazilian radio stations and television channels. Globo, Brazil's most successful broadcasting conglomerate, dominates the market and owns television and radio networks, newspapers and subscription television stations. In 2002 there were 14.3 million internet users.

## CULTURE

Brazil is a melting pot of races (European, African, Asian, Arab and indigenous communities are all well established), cultures, religious traditions, music and dance (the samba, bossa nova and lambada are world-famous). Luis de Camoes (1525–80) is widely regarded as Brazil's national poet. Like many other Latin American countries, one of Brazil's biggest cultural exports is football. The national team has won the World Cup a record five times.

## BRUNEI

*Negara Brunei Darussalam – State of Brunei Darussalam*

AREA – 5,300 sq. km. Neighbour: Malaysia  
 POPULATION – 335,000 (2001): 66.9 per cent Malay, 15.2 per cent Chinese, 5.9 per cent indigenous races and 12 per cent European, Indian and other races. The majority are Sunni Muslims. The official language is Malay; English and dialects of Chinese are also spoken  
 CAPITAL – Bandar Seri Begawan (population, 46,000, 2001 estimate)  
 CURRENCY – Brunei dollar (B\$) of 100 sen (fully interchangeable with Singapore currency)  
 NATIONAL ANTHEM – Allah Peliharakan Sultan (God Bless His Majesty)  
 NATIONAL DAY – 23 February  
 NATIONAL FLAG – Yellow with diagonal stripes of white over black and the arms in red all over the centre  
 LIFE EXPECTANCY (years) – 76 (2001)  
 MORTALITY RATE (per 1,000 population) – 3.39 (2003)  
 INFANT MORTALITY (per 1,000 births) – 6 (2001)  
 HIV / AIDS ADULT PREVALENCE – 0.2 per cent (2001)  
 DEATH PENALTY – No (abolished 1957)  
 POPULATION GROWTH RATE – 2.4 per cent (1990–2001)  
 POPULATION DENSITY – 63 per sq. km (2001)

### CLIMATE AND TERRAIN

Brunei is a tropical country with high levels of humidity and an average daily temperature of between 24°C and 30°C. The country is mostly rain forest (75 per cent), with extensive mangrove swamps along the coastal plain. There are mountains on the border with Sarawak (Malaysia). Elevation extremes range from 1,850 m (Bukit Pagon) at the highest point to 0 m (South China Sea) at the lowest.

### HISTORY AND POLITICS

Formerly a powerful Muslim sultanate that controlled Borneo and parts of the Philippines, Brunei was reduced to its present size by the mid-19th century and became a British Protectorate in 1888. In 1959 the Sultan promulgated the first written constitution and on 1 January 1984 Brunei resumed full independence from Britain.

### POLITICAL SYSTEM

Supreme executive authority rests with the Sultan, who presides over and is advised by the Privy Council, the Religious Council and the Council of Ministers. The Sultan effectively rules by decree as a state of emergency has been in effect since a revolt in 1962; there are no political parties and no elections.

### HEAD OF STATE

*HM The Sultan of Brunei*, HM Sultan Haji Hassanal Bolkiah Mu'izzaddin Waddaullah, Sultan and Yang Di-Pertuan, GCB, *acceded* 1967, *crowned* 1 August 1968

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

### DEFENCE

The Army has 39 armoured personnel carriers. The Navy, based in Muara, has six patrol and coastal vessels. The Air Force has five armed helicopters. On 9 January 2003 it was agreed by the Sultan and Tony Blair, that a battalion of the British Brigade of Gurkhas would continue to be stationed in Brunei for a further five years from 29 September 2003.

MILITARY EXPENDITURE – 5.2 per cent of GDP (2002)

MILITARY PERSONNEL – 7,000: Army 4,900, Navy 1,000, Air Force 1,100; Paramilitaries 3,750

### ECONOMY AND TRADE

Brunei is the fourth largest world producer of natural gas and in 1999 this was the country's top export. The economy is based on the production of this gas along with oil and also on income from overseas investments (which now exceed oil revenues). Royalties and taxes from these operations form the bulk of government revenue and have enabled the construction of free health, education and welfare services.

In 2001 agriculture accounted for 5 per cent of GDP, industry accounted for 45 per cent and services for 50 per cent. Imports cover 80 per cent of domestic food requirements.

GNI – US\$24,630 (2001)

ANNUAL AVERAGE GROWTH OF GDP – 1.0 per cent (1998)

<i>Trade with UK</i>	<i>2001</i>	<i>2002</i>
Imports from UK	£59,666,000	£61,263,000
Exports to UK	34,090,000	36,442,000

### TRANSPORT INFRASTRUCTURE

There are five ports, at Muara, Bandar Seri Begawan, Seria, Tutong and Kuala Belait, and an international airport at Bandar Seri Begawan. There are three heliports and 209 km of waterways. There are 13 km of privately owned railway. There is a road network of 2,525 km.

### EDUCATION

All levels of education are free. Children undertake seven years of primary education, three of lower secondary and two years of upper secondary which can be in a secondary school, a vocational school or technical college. There are 169 primary schools, 38 secondary schools, six technical and vocational colleges and two universities.

ILLITERACY RATE – (m) 1 per cent; (f) 1 per cent (2003)

**MEDIA**

The media is privately owned. The main publications are the *Borneo Bulletin* (English-language daily), *Brunei Direct* (online news service) and *Media Permata* (Malay-language daily). The only broadcast media organisation, radio Television Brunei (RTB), is state owned and controlled. It broadcasts television in Malay and English and radio in Malay, English, Mandarin Chinese and Gurkhali.

**CULTURE**

Brunei is famous for its traditional crafts of silverwork and weaving. The capital, Bandar Seri Begawan, is the only large town and is a mix of old (Kampung Ayer, an ancient area of 28 water villages built on stilts in the Brunei River) and new (ultra-modern public and government buildings set back from wide streets). Brunei is a Muslim country and Shari'ah law prevails in some areas.

**BULGARIA**

*Republika Bălgarija – Republic of Bulgaria*

AREA – 110,600 sq. km. Neighbours: Romania (north), Serbia and the Former Yugoslav Republic of Macedonia (west), Greece and Turkey (south)

POPULATION – 7,867,000 (2001): 85.7 per cent Bulgarian, 9.4 per cent Turkish, 3.7 per cent Roma, 1.2 per cent others. The language is Bulgarian, a Southern Slavonic tongue closely allied to Serbo-Croat and Russian with local admixtures of modern Greek, Albanian and Turkish words. The alphabet is Cyrillic. The predominant religion is the Bulgarian Orthodox Church (85.7 per cent of the population); Islam is the second largest religion (13.1 per cent).

CAPITAL – Sofia (population, 1,096,389, 2001 census)

MAJOR CITIES – ΨBurgas; Plovdiv; ΨVarna

CURRENCY – Lev of 100 stotinki

NATIONAL ANTHEM – Gorda Stara Planina (Proud And Ancient Mountains)

NATIONAL DAY – 3 March

NATIONAL FLAG – Three horizontal bands, white, green, red

LIFE EXPECTANCY (years) – 71 (2001)

MORTALITY RATE (per 1,000 population) – 14.34 (2003)

INFANT MORTALITY (per 1,000 births) – 14 (2001)

HIV / AIDS ADULT PREVALENCE – 0.1 per cent (2001)

DEATH PENALTY – No (abolished 1998)

POPULATION BELOW POVERTY LINE – 12.6 per cent (2001)

POPULATION GROWTH RATE – 0.9 per cent (1990–2001)

POPULATION DENSITY – 71 per sq. km (2001)

URBAN POPULATION – 68 per cent (2001)

**CLIMATE AND TERRAIN**

The Bulgarian landscape is dominated by mountains: the Balkan Mountains cross the country from west to east averaging 2,000 m in height; the Rhodope Mountains are found in the south-west, climbing to almost 3,000 m. Elevation extremes range from 2,925 m (Musala) at the highest point to 0 m (Black Sea) at the lowest.

Major rivers include the Danube, the Iskur and the Maritsa.

**HISTORY AND POLITICS**

Bulgarians are descended from Slavs who came to the area of modern-day Bulgaria in the fifth century AD. The Bulgarian state can trace its foundation back to 680 AD. Bulgaria was part of the Ottoman Empire from 1390 until 1877 when this period of rule was brought to an end with the aid of Russia.

A principality of Bulgaria was created by the Treaty of Berlin in 1878, and in 1908 the country was declared an independent kingdom. A coup d'état in September 1944 gave power to the Fatherland Front, a coalition of Communists, Agrarians and Social Democrats. In August 1945, the main body of Agrarians and Social Democrats left the government. A referendum in September 1946 led to the abolition of the monarchy and the establishment of a republic.

The Communist Party (BCP) dominated the post-war period. Bulgaria became a multiparty democracy in 1990.

In November 2001 the Bulgarian Socialist Party's (BSP) candidate, Georgi Parvanov, became president. The general election held in June was won by the National Movement for Simeon II (NDSV), a movement founded in April (2001) by the former king, which won 43.74 per cent of the vote and 120 of the 240 seats in the legislature. Simeon Saxecoburggotski, the former King, took office as prime minister on 24 July heading a cabinet dominated by the NDSV.

**POLITICAL SYSTEM**

A new constitution was adopted in 1991. It provides for a directly-elected President who serves for no more than two five-year terms. The chief executive is the Prime Minister, who is appointed by the President, and is usually the leader of the largest party in the legislature. There is a unicameral National Assembly of 240 members who are directly elected by proportional representation for four-year terms. Parliamentary elections are due in 2005 and Presidential elections in 2006.

**HEAD OF STATE**

*President*, Georgi Parvanov (BSP), *elected* 18 November 2001, *took office* 19 January 2002

*Vice-President*, Angel Marin (BSP)

**SELECTED GOVERNMENT MEMBERS as at July 2004**

*Prime Minister*, Simeon Saxecoburggotski

*First Deputy Prime Minister, European Affairs Co-ordinator*, Plamen Panayton

*Deputy Prime Minister, Economy*, Lydia Santova Shouleva

*Deputy Prime Minister, Labour and Social Policy*, Nikolay Vassilev Vassilev

*Defence*, Nikolay Avramov Svinarov

*Finance*, Milen Emilov Velchev

*Foreign Affairs*, Solomon Isak Passy

*Internal Affairs*, Georgi Petrov Petkanov

#### DEFENCE

The Army has 1,474 main battle tanks, 214 armoured infantry fighting vehicles and 1,643 armoured personnel carriers. The Navy has one submarine, one frigate, 23 patrol and coastal vessels, and nine armed helicopters. The Air Force has 232 combat aircraft and 43 armed helicopters. Bulgaria became a member of NATO in March 2004.

MILITARY EXPENDITURE – 2.5 per cent of GDP (2002)

MILITARY PERSONNEL – 42,470: Army 25,000, Navy 4,370, Air Force 13,100; Paramilitaries 34,000

CONSCRIPTION DURATION – Nine months

#### ECONOMY AND TRADE

The principal crops are wheat, maize, beet, tomatoes, tobacco, oleaginous seeds, fruit, vegetables and cotton. Around 24 per cent of the population is engaged in agriculture, which accounted for 12.5 per cent of GDP in 2002. Cadmium, coal, copper, pig iron, kaolin, lead, silver and zinc are produced. Industry accounted for about 28 per cent of GDP in 2002.

The government adopted a radical reform package in 1997, including pegging the lev to the Deutsche mark to stimulate the economy. A US\$300 million agreement was negotiated with the IMF at the end of 2001 to promote economic growth.

Bulgaria is highly dependent on trade and has been a member of the World Trade Organisation since 1996. The principal exports are textiles and clothing, iron and steel products, foodstuffs, beverages, industrial equipment, telecommunications and sound recording equipment, oil derivatives and non-ferrous metals.

Bulgaria is scheduled to join the European Union in 2007.

GNI – US\$13,200 million (2001); US\$1,650 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 3.5 per cent (1998)

INFLATION RATE – 10.3 per cent (2000)

UNEMPLOYMENT – 16.4 per cent (2000)

TOTAL EXTERNAL DEBT – US\$10,026 million (2000)

FOREIGN DIRECT INVESTMENT – US\$2,707 million (1997–2000)

IMPORTS – US\$7,981 million (2002)

EXPORTS – US\$5,745 million (2002)

#### BALANCE OF PAYMENTS

*Trade* – US\$1,593 million deficit (2002)

*Current Account* – US\$677 million deficit (2002)

<i>Trade with UK</i>	2002	2003
Imports from UK	£133,712,000	£153,709,000
Exports to UK	119,026,000	125,978,000

#### EDUCATION

Education is free and compulsory for children from six to 16 years inclusive. There are three universities (at Sofia, Plovdiv and Veliko Turnovo), an American University and 21 higher education establishments.

ILLITERACY RATE – (m) 0.9 per cent; (f) 1.8 per cent (2003)

ENROLMENT (percentage of age group) – primary 92 per cent (1996); secondary 74 per cent (1996); tertiary 41.2 per cent (1996)

#### TRANSPORT INFRASTRUCTURE

Bulgaria has a total of 4,294 km of railways, 37,286 km of roads and 470 km of waterways. There are six harbours (Burgas, Lom, Nesebur, Ruse, Varna and Vidin), 216 airports, 128 of which are surfaced, and one heliport.

#### MEDIA

In 1996 Bulgaria gave national radio and television the status of public services and granted them independence. In 2003 BTV, the country's first national commercial channel (part of the Rupert Murdoch News Corporation) was launched. In 2003 Nova TV became the second national commercial channel.

#### CULTURE

Bulgaria is still a country in transition from Communism. Some rural areas are virtually unchanged since the Communist era while urban centres are now radically Western in character and outlook. Bulgaria's Roman and Byzantine ruins are culturally significant, as are its churches and monasteries. Famous Bulgarian writers include Stoyan Mikhaylovski (1856–1927) and Jordan Iovkov (1884–1938).

#### BURKINA FASO

*République Démocratique du Burkina Faso – Democratic Republic of Burkina Faso*

AREA – 274,000 sq. km. Neighbours: Mali (west), Niger and Benin (east), Togo, Ghana and Côte d'Ivoire (south)

POPULATION – 11,087,000. The official language is French. Mossi, More, Dioula and Gourmantché are indigenous languages

CAPITAL – Ouagadougou (population, 1,000,000, 2000 estimate)

MAJOR CITIES – Bobo-Dioulasso; Koudougou

CURRENCY – Franc CFA of 100 centimes

NATIONAL ANTHEM – Ditanýé (Hymn of Victory)

NATIONAL DAY – 11 December

NATIONAL FLAG – Equal bands of red over green, with a yellow star in centre

MORTALITY RATE (per 1,000 population) – 18.76 (2003)

HIV / AIDS ADULT PREVALENCE – 6.5 per cent (2001)

DEATH PENALTY – No (abolished 1988)

POPULATION BELOW POVERTY LINE – 45 per cent (2001)

POPULATION GROWTH RATE – 3 per cent

POPULATION DENSITY – 42 per sq. km (1999)  
 MILITARY EXPENDITURE – 1.5 per cent of GDP (2002)  
 MILITARY PERSONNEL – 10,800: Army 6,400, Air Force  
 200, Paramilitaries 4,200  
 ILLITERACY RATE – (m) 66.1 per cent; (f) 85.9 per cent  
 (2000)  
 ENROLMENT (percentage of age group) – primary 40 per  
 cent (1997); tertiary 1 per cent (1997)

### CLIMATE AND TERRAIN

Burkina Faso is a landlocked state in West Africa. There are wooded savannahs in the south and the north is semi-desert with elevation extremes ranging from 749 m (Tena Kourou) at the highest point to 200 m (Mouhoun River) at the lowest. The wet season runs from June to October and the dry season from December to May (there are recurring droughts). Average annual temperatures range from 24°C in January to 28°C in July.

### HISTORY AND POLITICS

Burkina Faso (formerly Upper Volta) was part of the Mossi Empire during the 18th and 19th centuries. It was annexed by France in 1896 and between 1932 and 1947 was administered as part of the Colony of the Ivory Coast. It decided on 11 December 1958 to remain an autonomous republic within the French Community; full independence outside the Community was proclaimed on 5 August 1960. The name Burkina Faso ('land of upright men') was given to the country after independence (1983).

Following a number of military coups, Capt. Blaise Compaoré seized power from Thomas Sankara (who had also taken power by coup) in 1987. A new constitution was adopted in 1991. A general election was held in May 2002 and won by the Congress for Democracy and Progress (CDP). Presidential elections were held in November 1998 and won by Compaoré, the CDP candidate, in the face of a boycott by the opposition parties.

### POLITICAL SYSTEM

The parliament has two chambers: the Assemblée Nationale (111 deputies elected for five years) and the Chambre des Représentants (178 members elected for three-year terms). The President is elected on a seven-year mandate although there is a proposal to change this to five years from 2005.

### HEAD OF STATE

*President*, Capt. Blaise Compaoré, *assumed office* October 1987, *elected* December 1991, *re-elected* November 1998

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Prime Minister*, Paramanga Ernest Yonli

*Defence*, Yero Boli

*Finance and Budget*, Jean-Baptiste Compaoré

*Minister of State*, Youssouf Ouédraogo

### EMBASSY OF THE REPUBLIC OF BURKINA FASO

16 Place Guy d'Arezzo, 1180 Brussels, Belgium

T (+32) (2) 345 9912

*Ambassador Extraordinary and Plenipotentiary*, HE Kadré Désiré Ouédraogo, *apptd* 2001

BRITISH AMBASSADOR, HE Franois Gordon, CMG,  
 resident at Abidjan, Côte d'Ivoire

### ECONOMY AND TRADE

The principal industry is cattle and sheep rearing. Agriculture employs over 90 per cent of the workforce and contributes 33 per cent of GDP. The chief exports are cotton, livestock and animal feed, and gold. The chief imports are capital goods, foodstuffs and fuel oils.

The economy is fragile due to the high cost of services such as electricity, water and telephones, restricted access to healthcare and the limited nature of the export market. In June 2003 the IMF granted Burkina Faso a new three-year Poverty Reduction and Growth Facility worth around US\$17 million. The majority of this money will be used for macroeconomic restructuring.

GNI – US\$2,422 million (2000); US\$210 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 2.2 per cent (2000)

INFLATION RATE – 0.3 per cent (2000)

TOTAL EXTERNAL DEBT – US\$1,332 million (2000)

IMPORTS – US\$656 million (2001)

EXPORTS – US\$175 million (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£2,553,000	£3,730,000
Exports to UK	238,000	153,000

### TRANSPORT INFRASTRUCTURE

There are 12,506 km of roads, of which 2,001 km are surfaced. An estimated 60 per cent of the country's villages are further than 3 km from a main road and paths are impassable during the wet season. There are 622 km of railway track in operation and two main airports.

### MEDIA

The Ministry of Communication and Culture regulates the media. There are several private radio stations and a private television channel.

### CULTURE

The largest tribe is the Mossi (48 per cent) whose king, the Moro Naba, still wields moral influence. There are over 60 other ethnic groups including Gurunsi, Sénufo, Lobi, Bobo, Mande and Fulani. Despite its poverty Burkina Faso is admired for its music, dance, theatre and film. The art of the Mossi, Bobo and Lobi is famous (Burkina Faso has Africa's largest crafts market). Burkina Faso also plays host to the Pan-African Film Festival every two years.

## BURUNDI

*République du Burundi – Republic of Burundi*

AREA – 27,834 sq. km. Neighbours: Rwanda (north), Tanzania (east and south), Democratic Republic of Congo (west)

POPULATION – 6,194,000: 83 per cent Hutu, 15 per cent Tutsi. The official languages are Kirundi, a Bantu language, and French. Kiswahili is also used

CAPITAL – Bujumbura (formerly Usumbura) (population, 235,440, 1990)

MAJOR CITIES – Kitega

CURRENCY – Burundi franc of 100 centimes

NATIONAL DAY – 1 July

NATIONAL FLAG – Divided diagonally by a white saltire into red and green triangles; on a white disc in the centre three red six-pointed stars edged in green

NATIONAL ANTHEM – Burundi Bwacu (Dear Burundi)

MORTALITY RATE (per 1,000 population) – 17.8 (2003)

HIV / AIDS ADULT PREVALENCE – 8.3 per cent (2001)

DEATH PENALTY – Yes

POPULATION BELOW POVERTY LINE – 70 per cent (2002)

POPULATION GROWTH RATE – 2 per cent (1990–2001)

POPULATION DENSITY – 233 per sq. km (1999)

MILITARY EXPENDITURE – 5.9 per cent of GDP (2002)

MILITARY PERSONNEL – 50,500: Army 45,000, Paramilitaries 5,500

ILLITERACY RATE – (m) 43.4 per cent; (f) 59.3 per cent (2000)

ENROLMENT (percentage of age group) – primary 51 per cent (1997); secondary 7 per cent (1997)

### CLIMATE AND TERRAIN

This Central African state lies across the Nile-Congo watershed. An interior plateau rises 1,500 m to the country's highest point at 2,685 m (Mt Karonje). The River Ruzizi forms part of the north-west frontier with Zaire and Lake Kiki, in Rwanda, with Lake Tanganyika (at 780 m the lowest elevation in the country) in the south and east. The climate is equatorial. The dry season runs from June to September while the average daily temperature is 23°C.

### HISTORY AND POLITICS

Ruled by the Tutsi kingdom during the 16th century and then occupied by Germany in 1890, Burundi became independent as a constitutional monarchy on 1 July 1962. However, the monarchy was overthrown in 1966 and the country became a republic.

Although most of the population is Hutu, political and military power has traditionally rested with the Tutsi minority. Since the 1960s, Hutu attempts to overthrow Tutsi rule have resulted in ethnic massacres. The Tutsi-dominated army attempted a coup in 1993 in which President Melchior Ndadaye was killed. The government regained control in December but two months of inter-racial fighting left more than 30,000 dead and 500,000 as refugees.

The Front for Democracy in Burundi (FRODEBU) and the National Unity and Progress Party (UPRONA) agreed to form a coalition government in 1994 with a Tutsi prime minister and President Ntaryamira, a Hutu. On 6 April 1994 Ntaryamira was killed when the aircraft he was travelling in with President Habyarimana of Rwanda was shot down near Kigali, Rwanda's capital. The government was unable to halt attacks by the Tutsi-

dominated army and Hutu militias on each other's communities. The fighting claimed 200,000 lives in 1993–5.

In July 1996 the army again seized power and installed Maj. Buyoya as president. Political parties were banned and the National Assembly was suspended until October 1996 when fewer than half its deputies attended. A multi-ethnic government of national unity was formed in August 1996.

A transitional constitution, designed to provide for a political partnership between Hutus and Tutsis, came into being in June 1998 and a 117-member Transitional National Assembly was inaugurated in July 1998. An additional 53 members of the National Assembly were elected on 1 January 2002, in accordance with the Arusha peace deal.

In July 2001, Burundi's 19 political parties agreed a peace accord at talks hosted by former South African president, Nelson Mandela. Under the agreement, provision was made for a three-year transitional government to be headed by President Buyoya, a Tutsi, with a Hutu as vice-president – the two switching roles midway through the three-year term. In December 2002 the government signed a cease-fire agreement with the main Hutu rebel group, the National Council for the Defence of Democracy Forces for the Defence of Democracy (CNDD FDD). It was due to become effective on 30 December, but implementation of the cease-fire was delayed indefinitely. As part of the power-sharing agreement President Buyoya handed over the presidency to his Hutu vice-president, Domitien Ndayizeye, who was sworn into office on 30 April 2003 for an initial term of 18 months after which presidential elections would be held.

### HEAD OF STATE

*President*, Domitien Ndayizeye, *sworn in* 30 April 2003

*Vice-President*, Alphonse Marie Kadege

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Defence*, Maj.-Gen. Vincent Niyungeko

*External Relations and Co operation*, Therenca Sinunguraza

*Finance*, Athanase Gahungu

*Interior*, Simon Nyandwi

### EMBASSY OF THE REPUBLIC OF BURUNDI

T (+32) (2) 2304535

*Ambassador Extraordinary and Plenipotentiary*, HE

Ferdinand Nyabenda, apptd 2003

BRITISH AMBASSADOR, HE Susan Hogwood, OBE,

apptd 2001, resident at Kigali, Rwanda

### ECONOMY AND TRADE

The chief crop is coffee, accounting for around 50 per cent of export earnings in 2002. Tea, mineral, hide and skin exports are also important. Agriculture accounted for 41 per cent of GDP and employed over 90 per cent of the workforce in 2002. On 9 October 2002 the IMF approved a credit of US\$7.3 million in emergency post-conflict assistance to support the country's reconstruction and economic recovery programme.

GNI – US\$732 million (2000); US\$110 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 4.5 per cent (1998)

INFLATION RATE – 24.3 per cent (2000)

TOTAL EXTERNAL DEBT – US\$1,100 million (2000)

IMPORTS – US\$139 million (2001)  
 EXPORTS – US\$39 million (2001)

## BALANCE OF PAYMENTS

Trade – US\$59 million deficit (2000)  
 Current Account – US\$49 million deficit (2000)

Trade with UK	2002	2003
Imports from UK	£1,712,000	£1,940,000
Exports to UK	434,000	617,000

## TRANSPORT INFRASTRUCTURE

There are no railways in Burundi. There are 14,480 km of roads, but only 1,014 km of these are paved. There is one port, Bujumbura, and seven airports (one has a surfaced runway).

## MEDIA

La Radiodiffusion et Television Nationale de Burundi (RTNB) is the main TV station and it is government controlled. Low literacy levels mean that the dominant news media is radio. Radio Burundi (RTNB) broadcasts in Kirundi, Swahili, French and English and is state controlled. There are several newspapers but they are published sporadically due to government influence.

## CAMBODIA

*Preăh Réachéanachâkr Kâmpuchéa –  
 The Kingdom of Cambodia*

AREA – 181,035 sq. km. Neighbours: Laos (north), Thailand (north and west), Vietnam (east)  
 POPULATION – 13,000,000 (2003 census). The official language is Khmer. Chinese, Vietnamese and French are also spoken  
 CAPITAL – Phnom Penh (population, 1,200,000, 2003 census)  
 CURRENCY – Riel of 100 sen  
 NATIONAL ANTHEM – Nokoreach  
 NATIONAL DAY – 9 November (Independence Day)  
 NATIONAL FLAG – Three horizontal stripes of blue, red, blue, with the blue of double width and containing a representation of the temple of Angkor in white  
 LIFE EXPECTANCY (years) – 57 (2001)  
 HIV / AIDS ADULT PREVALENCE – 2.7 per cent (2001)  
 DEATH PENALTY – No (abolished 1997)  
 POPULATION GROWTH RATE – 2.7 per cent (1990–2001)  
 POPULATION DENSITY – 60 per sq. km (1999)  
 ENROLMENT (percentage of age group) – primary 100 per cent (1997); tertiary 24 per cent (1997)

## CLIMATE AND TERRAIN

Cambodia is a mostly flat country (with the exception of the Cardamom Mountains in the south-west and the uplands of the north-east). Dominated by the Mekong River, Cambodia is also home to Tonle Sap, the largest lake in south-east Asia. The monsoon season is from May to November. The highest point of elevation is at

1,810 m (Phnum Aoral) while the lowest is 0 m (Gulf of Thailand).

## HISTORY AND POLITICS

Although the Khmer people have inhabited the region for almost 2,000 years, the Khmer kingdom was at its strongest during the 11th century, with lands reaching to modern-day Laos, Thailand and Vietnam. The kingdom lost power and territory from 1432 onwards.

Cambodia became a French protectorate in 1863 and was granted independence within the French Union as an Associate State in 1949. Although full independence was proclaimed in 1953 and Prince Norodom Sihanouk became head of state, by 1970 Sihanouk was deposed and a Khmer Republic was declared.

In 1975, Phnom Penh fell to the North Vietnamese-backed Khmer Rouge. During Khmer Rouge rule hundreds of thousands of Cambodians fled into exile and an estimated two million were killed.

In 1978, Vietnamese troops invaded Cambodia and the state was renamed the People's Republic of Kampuchea (PRK); in 1989 it became the State of Cambodia (SOC). Following the Vietnamese withdrawal in 1989, the resistance forces regained ground.

In September 1990, the government and the resistance forces established a Supreme National Council and peace agreements were signed in October 1991. In March 1992 the United Nations Transitional Authority for Cambodia (UNTAC) assumed authority from the government in the run-up to the multiparty elections, which were held in May 1993. In September 1993 a new constitution was adopted under which Cambodia became a pluralist liberal democracy with a constitutional monarchy. Prince Sihanouk was elected king and he appointed a new government.

In 1998 a coalition government was formed with Hun Sen as Prime Minister and Prince Ranariddh as chairman of the National Assembly. Elections to the National Assembly were held on 27 July 2003. Prime Minister Hun Sen and his Cambodian People's Party (CPP) won 73 of the 123 parliamentary seats.

## INSURGENCIES

The Khmer Rouge was outlawed in 1994 and its leader Pol Pot was captured by a group of defectors in June 1997 and died in captivity in April 1998. The remaining 4,332 Khmer Rouge soldiers surrendered in February 1999.

In 1997 negotiations began between the Royal Government and the UN to set up an international tribunal to prosecute former leaders of the Khmer Rouge regime for atrocities committed during its rule. In 2001 the Royal Government approved legislation for the creation of the tribunal but in 2002 the UN broke off negotiations claiming that the planned court did not comply with international standards of justice. Negotiations resumed in November 2002 and in 2003 an agreement was signed by Cambodia and the UN allowing the majority of tribunal judges to be Cambodian but with a requirement for at least one foreign judge to support a tribunal ruling.

## POLITICAL SYSTEM

Legislative power is vested in the National Assembly, which has 123 members elected for five-year terms, and the Senate, which has 61 appointed members and was

formed on 25 March 1999, following an amendment to the constitution by the National Assembly. Executive power rests with the Royal Government, with the King having the power only to make appointments and declare a state of emergency, in consultation with the government.

#### HEAD OF STATE

*HM The King of Cambodia*, Norodom Sihanouk, *elected by the Council of the Throne* 24 September 1993

The Army has 150 main battle tanks and 190 armoured personnel carriers. The Navy has 4 patrol and coastal vessels. The Air Force has 24 combat aircraft.

MILITARY EXPENDITURE – 2.5 per cent of GDP (2002)

MILITARY PERSONNEL – 125,000: Army 75,000, Navy 3,000, Air Force 2,000, Provincial Forces 45,000; Paramilitaries 67,000

#### ECONOMY AND TRADE

The economy is largely based on agriculture, fishing and forestry. Agriculture employs over 75 per cent of the workforce and produced 30 per cent of GDP in 2003. In addition to rice, which is the staple crop, the major products are rubber, livestock, maize, timber, pepper, palm sugar, fresh and dried fish, kapok, beans, soya and tobacco. Textiles, leather goods, furnishings, timber and rubber are the main exports; the main imports are cigarettes, gold, diesel and oil. Tourism is the fastest-growing sector of the economy.

Extreme drought and flooding in 2002 ruined some US\$30 million worth of rice crops. Cambodia's debt to China was written off in November 2002.

GNI – US\$3,150 million (2000); US\$260 per capita (2000)

ANNUAL AVERAGE GROWTH OF GDP – 4.5 per cent (2003)

INFLATION RATE – 3.5 per cent (2002)

TOTAL EXTERNAL DEBT – US\$2,357 million (2000)

IMPORTS – US\$1,456million (2001)

EXPORTS – US\$1,296 million (2001)

BALANCE OF PAYMENTS

*Trade* – US\$348 million deficit (2001)

*Current Account* – US\$105 million deficit (2001)

<i>Trade with UK</i>	2002	2003
Imports from UK	£3,871,000	£3,572,000
Exports to UK	88,871,000	100,887,000

#### TRANSPORT INFRASTRUCTURE

The country has about 34,100 km of roads, although most are now in a state of disrepair. There are two railways, one from Phnom Penh to the Thai border, the other from Phnom Penh to Kampot and Sihanoukville (Kompong Som). Phnom Penh is on a river capable of receiving ships of up to 2,500 tons all the year round. The deep-water port at Sihanoukville (Kompong Som) on the Gulf of Thailand can receive ships of up to 10,000 tons. The port is linked to Phnom Penh by a modern highway.

#### MEDIA

Much of the Cambodian media is owned by political parties but the Prime Minister, Hun Sen, has been active in encouraging press freedom. The state broadcaster is National Television of Cambodia (TVK) and there are five other major commercial and privately owned channels. There are no restrictions on the ownership and use of private satellite dishes and foreign radio is also easily received and widely accessed.

#### CULTURE

Cambodia's Khmer culture can still be seen in the capital's many museums and temples. There are also vestiges of French colonial influence, most notably in the architecture and cuisine. The abandoned temples of Angkor Wat (9-13th centuries), a religious and administrative centre built by Khmer kings, are the country's most popular tourist destination.

#### CAMEROON

*République du Cameroun – Republic of Cameroon*

AREA – 465,400 sq. km. Neighbours: Nigeria (north and west), Chad and Central African Republic (east), Republic of Congo, Gabon and Equatorial Guinea (south)

POPULATION – 15,203,000 (2001). French and English are both official languages and enjoy equal status

CAPITAL – Yaoundé (population, 653,670, 1986 estimate)

MAJOR CITIES – ΨDouala is the commercial centre

CURRENCY – Franc CFA of 100 centimes

NATIONAL ANTHEM – O Cameroun, Berceau De Nos Ancêtres (O Cameroon, Thou Cradle Of Our Forefathers)

NATIONAL DAY – 20 May

NATIONAL FLAG – Vertical stripes of green, red and yellow with single five-pointed yellow star in centre of red stripe

LIFE EXPECTANCY (years) – 50 (2001)

MORTALITY RATE (per 1,000 population) – 15.3 (2003)

INFANT MORTALITY (per 1,000 births) – 96 (2001)

HIV / AIDS ADULT PREVALENCE – 11.8 per cent (2001)

DEATH PENALTY – Yes

POPULATION BELOW POVERTY LINE – 48 per cent (2000)

POPULATION GROWTH RATE – 2.4 per cent (1990–2001)

POPULATION DENSITY – 33 per sq. km (2001)

MILITARY EXPENDITURE – 1.2 per cent of GDP (2002)

MILITARY PERSONNEL – 23,100: Army 12,500, Navy 1,300, Air Force 300, Paramilitaries 9,000

ILLITERACY RATE – (m) 17.9 per cent; (f) 30.0 per cent (2000)

ENROLMENT (percentage of age group) – secondary 85 per cent (1997)

### CLIMATE AND TERRAIN

There are three main geographic zones: desert plains in the north (Lake Chad), mountains in the central region, and tropical rain forests in the south and east. The wet season runs from June to September in the north and from May to November in the south. Elevation extremes range from 4,095 m (Fako, on Mt Cameroon) at the highest point to 0 m (Atlantic Ocean) at the lowest.

### HISTORY AND POLITICS

The Bakas (Pygmies) and Bantu speakers of the Cameroonian highlands were probably the country's earliest peoples. Cameroon was controlled by the Dutch in the 17th century who established trade with Spain, Britain, France, Germany and the USA. The Fulani people of the western Sahel conquered northern Cameroon from the 1770s to the early 1800s.

The German colony of Kamerun, established in 1884, was captured by British and French forces in 1916 and divided into the League of Nations-mandated territories (later UN trusteeships) of East (French) and West (British) Cameroon. On 1 January 1960 East Cameroon became independent as the Republic of Cameroon. This was joined on 1 October 1961 by the southern part of West Cameroon after a plebiscite held under the auspices of the United Nations; the northern part joined Nigeria. Cameroon became a federal republic with separate East and West Cameroon state governments. After a plebiscite held in 1972, Cameroon became a unitary republic and a one-party state.

A coalition government was formed after the multiparty elections of 1992, following extensive unrest.

The Cameroon People's Democratic Movement (RDCP) retained its overall majority in the National Assembly in the legislative election of 2002. Opposition groups alleged widespread fraud in the conduct of the elections. A presidential election was scheduled for October 2004.

### INTERNATIONAL RELATIONS

There have been armed clashes with Nigeria over the disputed Bakassi peninsula which is rich in oil. In October 2002 Cameroon was given possession of the peninsula in a ruling by the International Court of Justice. Nigeria was awarded a series of other strategically significant territories near the land border. It was agreed on 15

November 2002 that a UN-led commission, the Cameroon-Nigeria Mixed Commission (CNMC), would be established to defuse tension in the long-running dispute. Negotiations are ongoing.

### POLITICAL SYSTEM

The President is directly elected for a seven-year term, and appoints the Prime Minister and Cabinet. The National Assembly comprises 180 members, directly elected for a five-year term. The 1995 constitutional amendments provided for the establishment of a senate (100 seats, ten per province with 70 members indirectly elected and 30 appointed by the President) however, this has yet to come into force.

### HEAD OF STATE

*President and Commander-in-Chief of the Armed Forces,* Paul Biya, *acceded* 6 November 1982, *elected* 14 January 1984, *re-elected* 24 April 1988, 10 October 1992, 12 October 1997

### SELECTED GOVERNMENT MEMBERS *as at July 2004*

*Prime Minister,* Peter Mafany Musonge  
*Defence,* Laurent Esso  
*Finance,* Michel Meva'a M'Eboutou  
*Foreign Affairs,* Francois-Xavier N'Goubeyou  
*Interior,* Marafa Hamidou Yaya

### HIGH COMMISSION FOR THE REPUBLIC OF CAMEROON

84 Holland Park, London W11 3SB

T 020-7727 0771

*Ambassador Extraordinary and Plenipotentiary,* HE Samuel Libock-Mbei, *apptd* 1995

### BRITISH HIGH COMMISSION

Avenue Winston Churchill, BP 547 Yaoundé

### ECONOMY AND TRADE

Principal products are cocoa, coffee, bananas, cotton, timber, groundnuts, aluminium, rubber and palm products. Crude petroleum is also one of Cameroon's principal products. Agriculture accounts for 46 per cent of GDP and employs 70 per cent of the workforce, services 33 per cent, and industry 21 per cent.

In July 2003 a new oil pipeline originating in Chad and passing through Cameroon opened. It is estimated that this could bring US\$500 million into Cameroon over the next 25 years. France, Italy, Spain, Belgium, the UK and Nigeria are Cameroon's main trading partners.

GNI – US\$8,700 million (2001); US\$580 per capita (2001)

ANNUAL AVERAGE GROWTH OF GDP – 5.3 per cent (2001)

INFLATION RATE – 5.3 per cent (1999)

TOTAL EXTERNAL DEBT – US\$8,600 million (2002)

FOREIGN DIRECT INVESTMENT – US\$166 million (1997–2000)

IMPORTS – US\$1,318 million (1999)

EXPORTS – US\$1,601 million (1999)

#### BALANCE OF PAYMENTS

Trade – US\$627 million surplus (1995)

Current Account – US\$90 million surplus (1995)

Trade with UK	2002	2003
Imports from UK	£35,739,000	£33,121,000
Exports to UK	64,673,000	97,610,000
