A105 de luxe Saloon

With its exciting new styling and superbly upholstered interior, the Austin A105 saloon is fully equipped for the lasting comfort of its occupants. Interior heating and overdrive are fitted as standard items of equipment and the six-cylinder, twin-carburettor, O.H.V. engine produces power in plenty for quick getaway, smooth powerful hill-climbing and fast cruising speeds in safe, super road-holding comfort.

A55 Cambridge Saloon

Like all other Austins this new A55 saloon is of all-steel unitary construction. With a four-cylinder 51 B.H.P. engine, it will maintain an effortless high cruising speed with the utmost economy. For increased fuel economy overdrive can be fitted at extra

A105 de luxe Saloon

With its exciting new styling and superbly upholstered interior, the Austin A105 saloon is fully equipped for the lasting comfort of its occupants. Interior heating and overdrive are fitted as standard items of equipment and the six-cylinder, twin-carburettor, O.H.V. engine produces power in plenty for quick getaway, smooth powerful hill-climbing and fast cruising speeds in safe, super road-holding comfort.

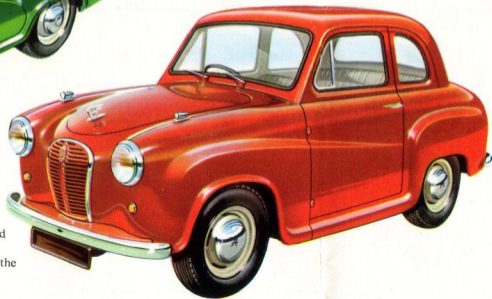

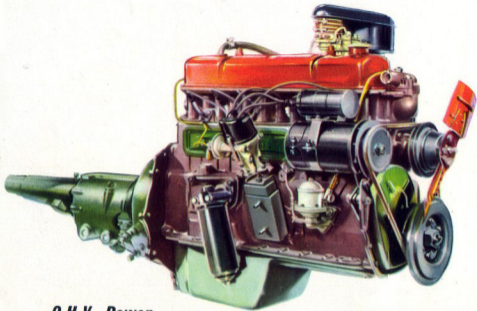

A35 Saloon

Smallest of the range, this car has excellent road holding qualities and an extremely lively performance. There is room in plenty for four people plus a generous quantity of luggage and even with a full load the car is still capable of attaining over 50 miles per gallon at a constant 30 miles per hour.

A55 Cambridge Saloon

Like all other Austins this new A55 saloon is of all-steel unitary construction. With a four-cylinder 51 B.H.P. engine, it will maintain an effortless high cruising speed with the utmost economy. For increased fuel economy overdrive can be fitted at extra cost, and "Manumatic" clutch control can also be fitted, whereby the clutch pedal is dispensed with. This easy-to-operate form of two-pedal motoring is available with standard or overdrive gearboxes.

O.H.V. Power

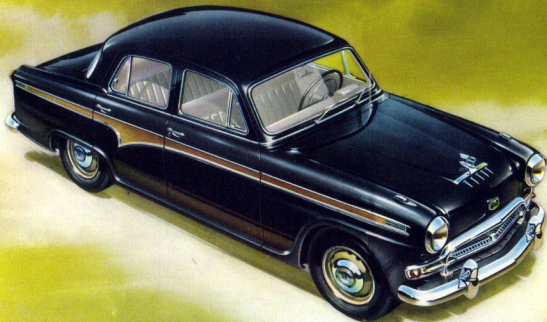

All Austin cars have high efficiency overhead valve engines specially developed for use with premium grade fuel. In countries where high grade fuel is not available, low compression engines will be fitted to all models except the A105 saloon.

A comfortable interior

The interior of every Austin — big and small — is upholstered in hard wearing materials and designed to give the maximum amount of travel comfort to its occupants.

Buy AUSTIN — and be proud of it!

A95 Westminister Saloon

Elegantly styled and equipped to carry up to six people in superb comfort, the Westminister is available in a wide range of modern colours. It is available in standard or de luxe form and overdrive or fully automatic transmission can be supplied at extra cost.

A95 Westminister Countryman

A perfect dual purpose vehicle — the Countryman has the same lively performance as the A95 Westminister saloon. A full six seater in its passenger form, the rear seat can either be folded flat, producing 62 cu. ft. of loadspace or folded in such a way that the divided squab provides a headrest for double bed space in the rear of the vehicle. The A95 Westminister Countryman has a four speed synchromesh gearbox, but fully automatic transmission is available, at extra cost, if desired.
