

# CATERHAM

*portfolio*

The Caterham Super Seven encompasses a range of performance models from the basic GTS through to the ultimate Seven, the JPE, developed in conjunction with F1 driver, Jonathan Palmer.

Colin Chapman, one of the all-time great engineering geniuses designed the original Lotus Seven and we at Caterham are proud to have acquired world-wide rights in 1973. We are proud to be custodians of the legend.

Caterham Cars has been responsible for manufacturing and marketing the Super Seven for more than 30 years and has developed it continuously to the latest state-of-the-art design. For instance, all chassis have aluminium honeycomb cockpit protection developed from our own racing programme.

The Super Seven is now celebrating 35 years of continuous production as a road car. Whether you are an enthusiast enjoying the annual Seven rally to St Moritz in Switzerland or were spectating at the Caterham outright victory in the 24 Hour race in the USA or other international races, please call our sales office to see how we can help make your dreams come true.

*Grabam Nearn,  
Managing Director, Caterham Cars*

La Caterham Super Seven comprend toute une gamme de voitures puissantes, de la GTS à la Seven suprême, la JPE qui été développée avec la coopération de Jonathan Palmer, pilote de Formule 1.

Colin Chapman, l'un des plus grands ingénieurs de tous les temps, dessina la première Seven pour Lotus. Nous sommes fiers d'avoir obtenu en 1973 les droits exclusifs de la Seven, et d'en être à ce jour les gardiens de sa légende.

Caterham Cars fabrique, vend la Super Seven depuis plus de 30 ans, et la développe continuellement en utilisant les dernières innovations technologiques. Par exemple, le poste de pilotage est entièrement protégé par des panneaux en nid d'abeille, protection qui fut à l'origine dessinée pour la Caterham de course.

La Super Seven célèbre cette année son 35ème anniversaire, tout comme la voiture de sport. Peut-être aimez-vous regarder le rallye annuel à St Moritz en Suisse, ou bien avez-vous vu la victoire de Caterham Cars aux 24 heures des Etats-Unis, ou plus récemment avez-vous assisté à une course internationale. Quoi qu'il en soit, nous vous invitons à entrer en contact avec nous afin de concrétiser ensemble votre rêve.

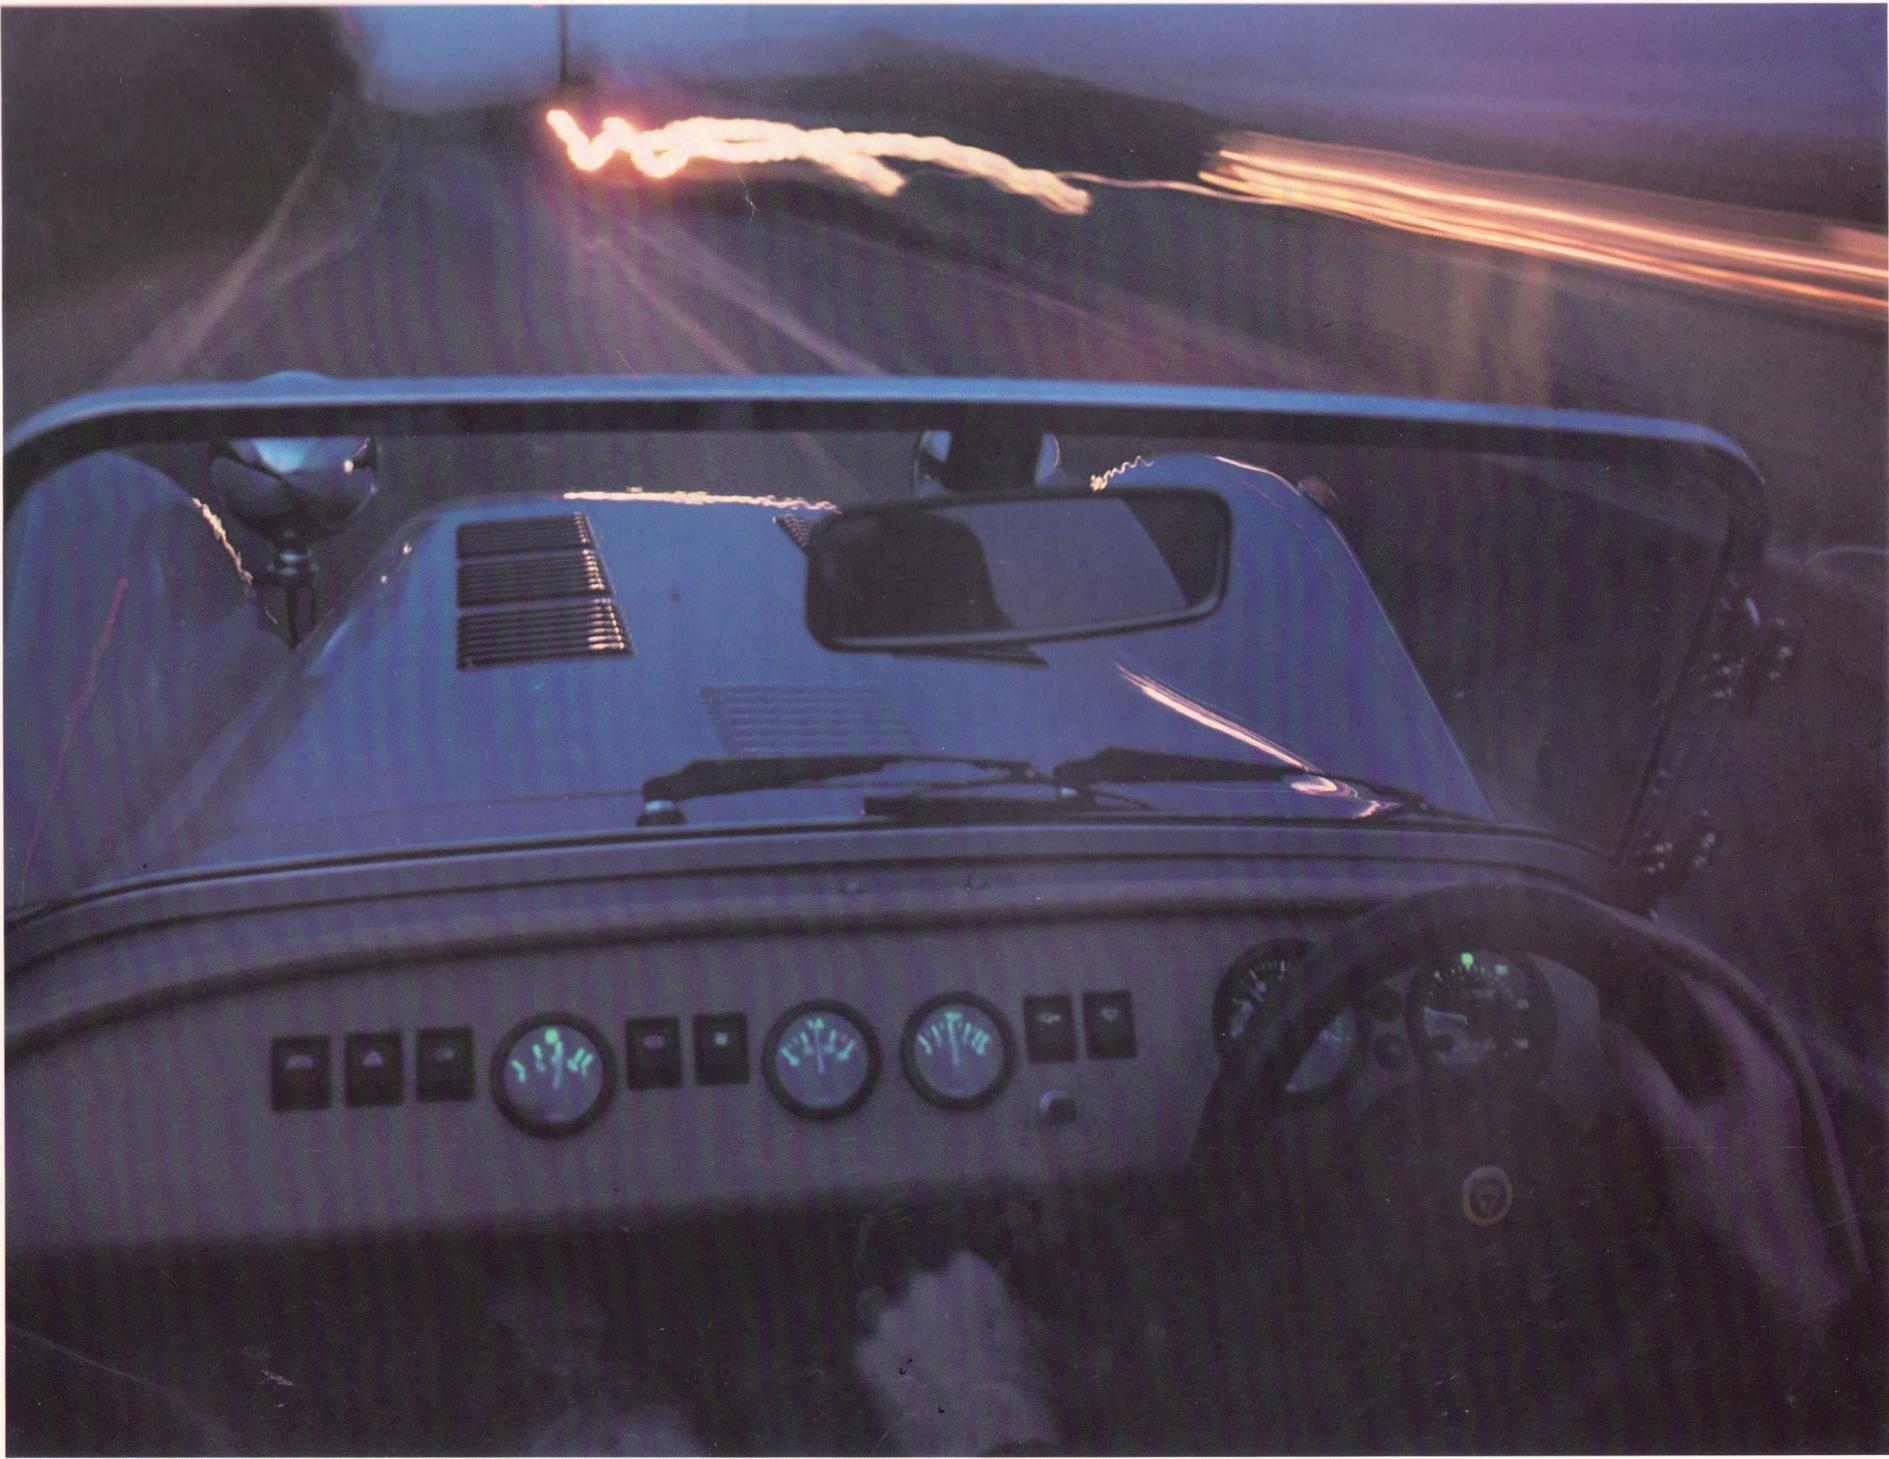

Die Caterham Super Seven-Serie umfaßt eine Reihe von Hochleistungsmodellen von dem GTS zum JPE-Spitzenmodell, das in Kooperation mit dem Formel 1-Fahrer Jonathan Palmer entwickelt wurde.

Die ersten Lotus Seven hat Colin Chapman, das unvergeßliche Genie des Ingenieurwesens, konstruiert. Wir sind stolz darauf, daß wir seit 1973 die alleinigen Rechte für den Seven haben, und daß wir die Legende hüten dürfen.

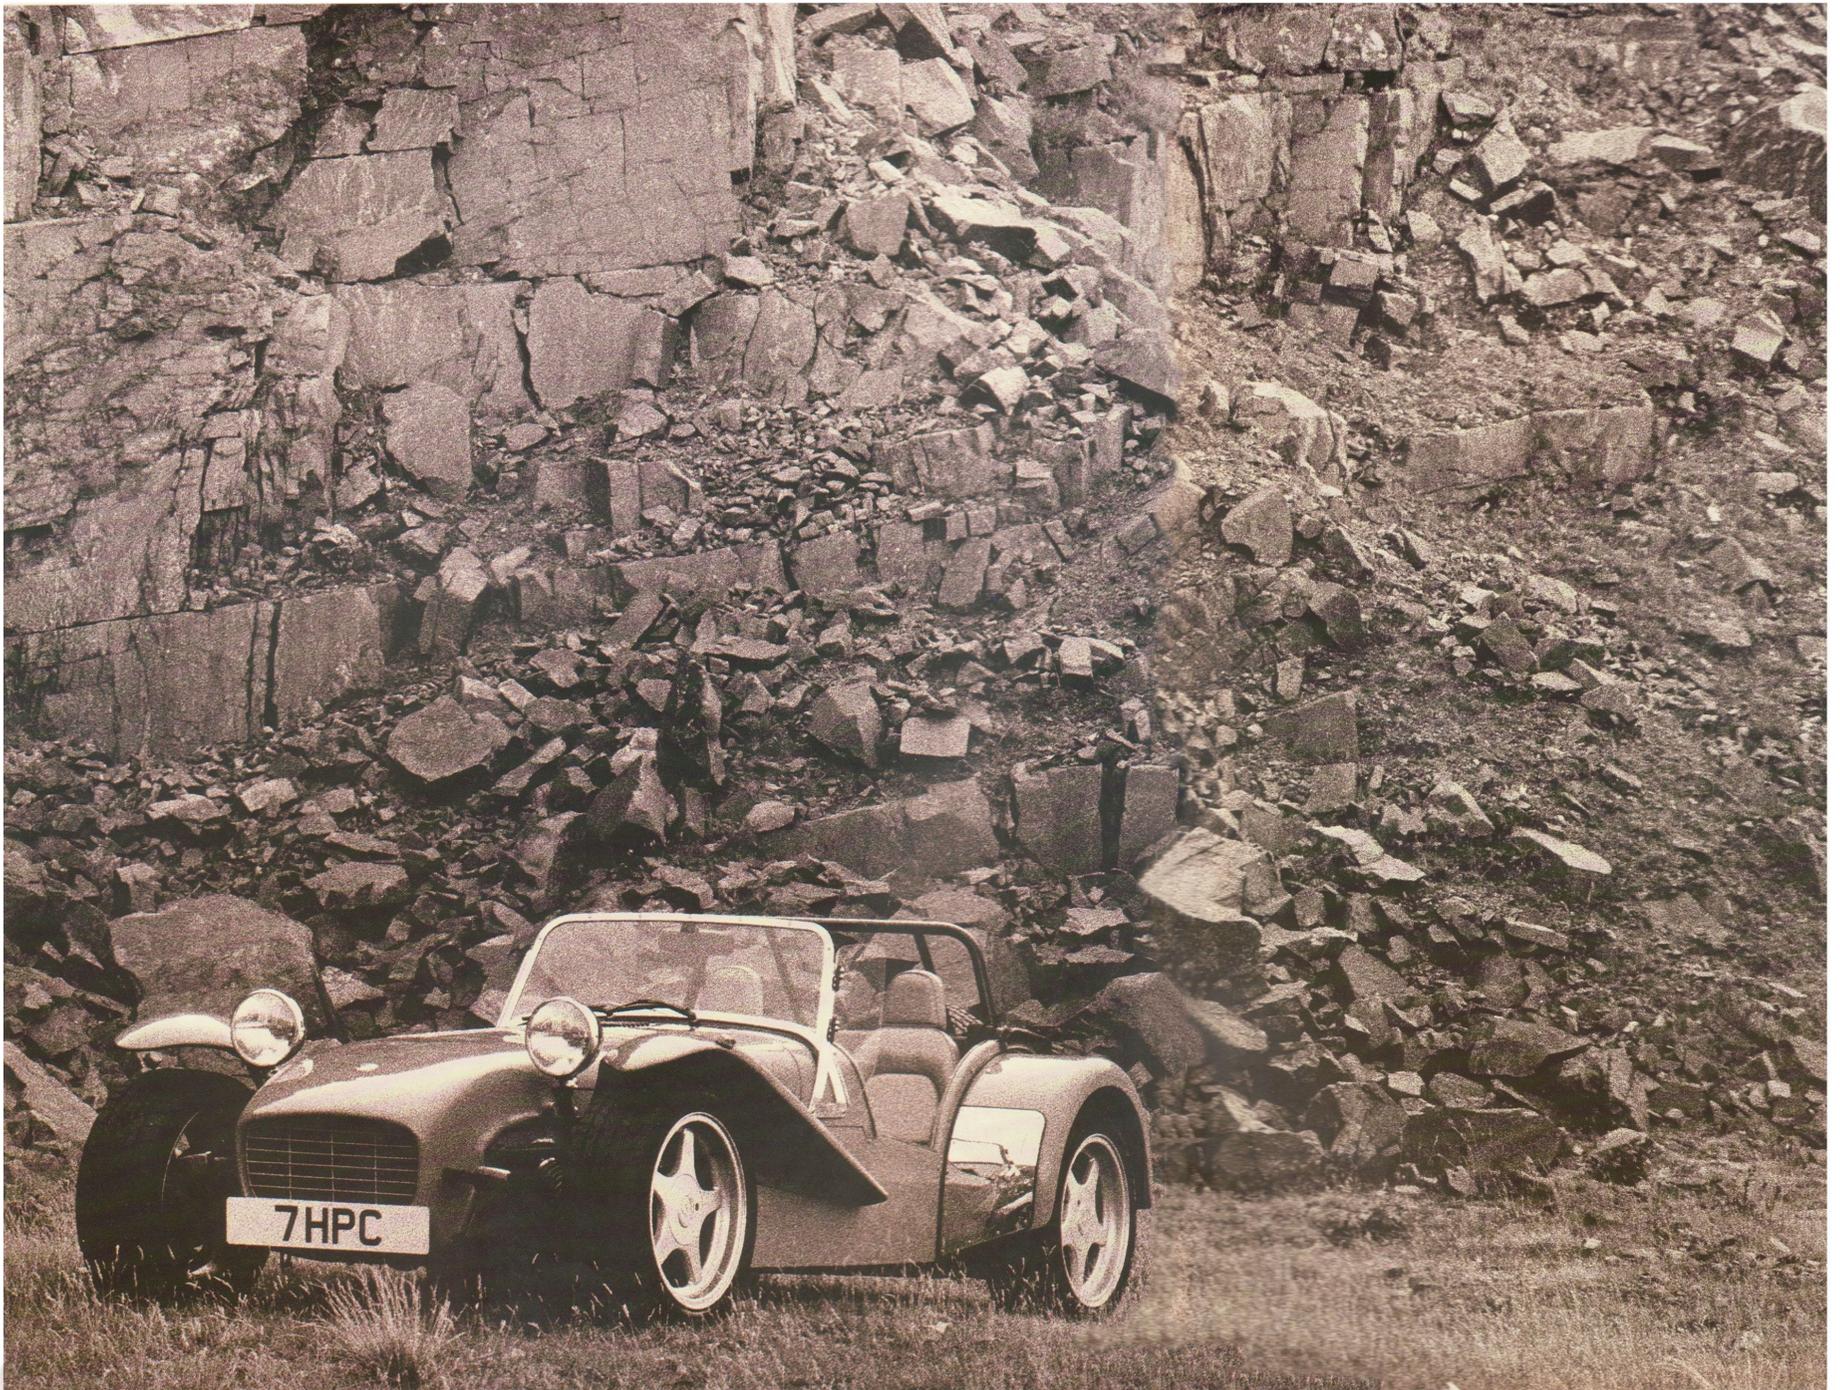

Seit mehr als 30 Jahren stellt Caterham Cars die Super Seven her und verkauft sie. Das Auto wird ständig der neuesten Technologie entsprechend weiter entwickelt. Zum Beispiel bekommen jetzt alle Fahrgestelle einen Cockpit-Schutz aus wabenförmigem Aluminium, das ursprünglich im Caterham-Rennwagen verwendet wurde.

Der Super Seven feiert jetzt 35-jähriges Jubiläum bei ununterbrochener Produktion als Straßenmodell. Vielleicht erleben Sie gern die jährliche Seven-Rallye nach St Moritz in der Schweiz. Vielleicht haben Sie beim Sieg von Caterham Cars im 24-Stunden-Rennen in den USA Zugeschaut, oder waren bei einem anderen internationalen Rennen dabei. Auf jeden Fall rufen Sie bei uns an, um herauszufinden, wie wir Ihnen helfen können, Ihre Träume zu erfüllen.

# They say...

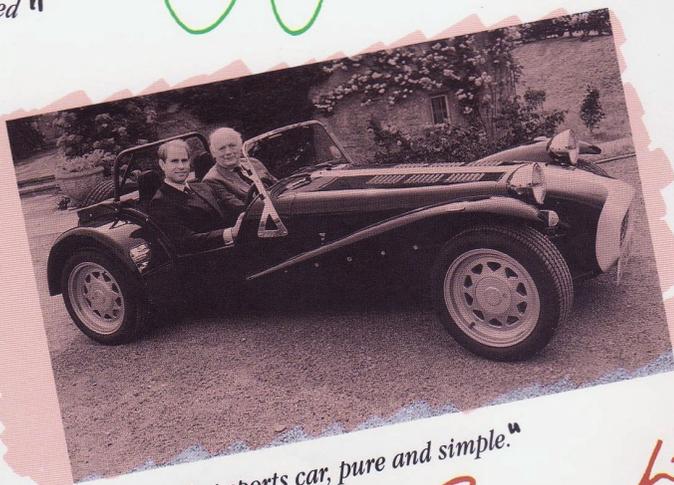

"I have more fun driving my Seven than anything else I have driven – the joys of car control rediscovered"  
Jonathan Palmer, GP Driver

"The Seven is a powerful testimony to my father's approach to high-performance engineering."  
Clive Chapman, Team Lotus

*Clive Chapman*

*Jonathan Palmer*

"The perfect sports car, pure and simple."  
Lord Montagu of Beaulieu

*Montagu of Beaulieu*

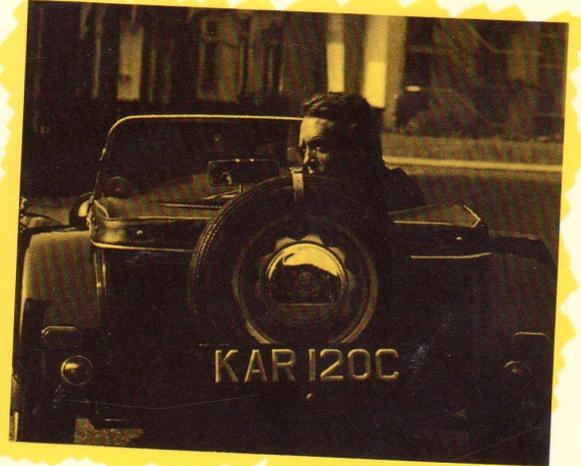

"Lots of fun to drive, very entertaining!"  
David Brabham. Race driver

*David Brabham*

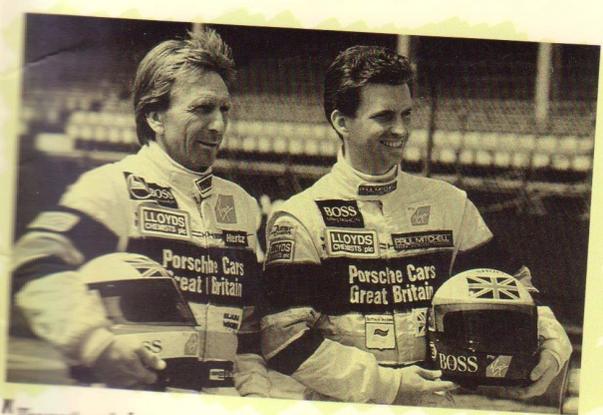

*"All my racing life, driving and spectating, there's been that motor sport feeling with Ferraris and Sevens. Caterhams still do it to me..."*  
 Chris Rea, Musician

*Chris Rea*

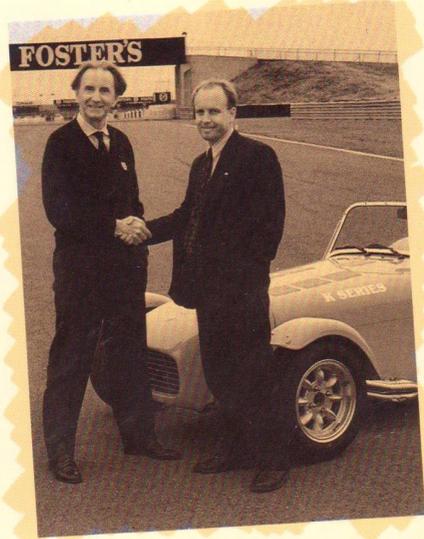

*"The Seven was the symbol of all the Prisoner represented... standing out from the crowd, quick, agile, independent and with a touch of the rebel"*  
 Patrick McGoochan, The Prisoner

*Patrick McGoochan*

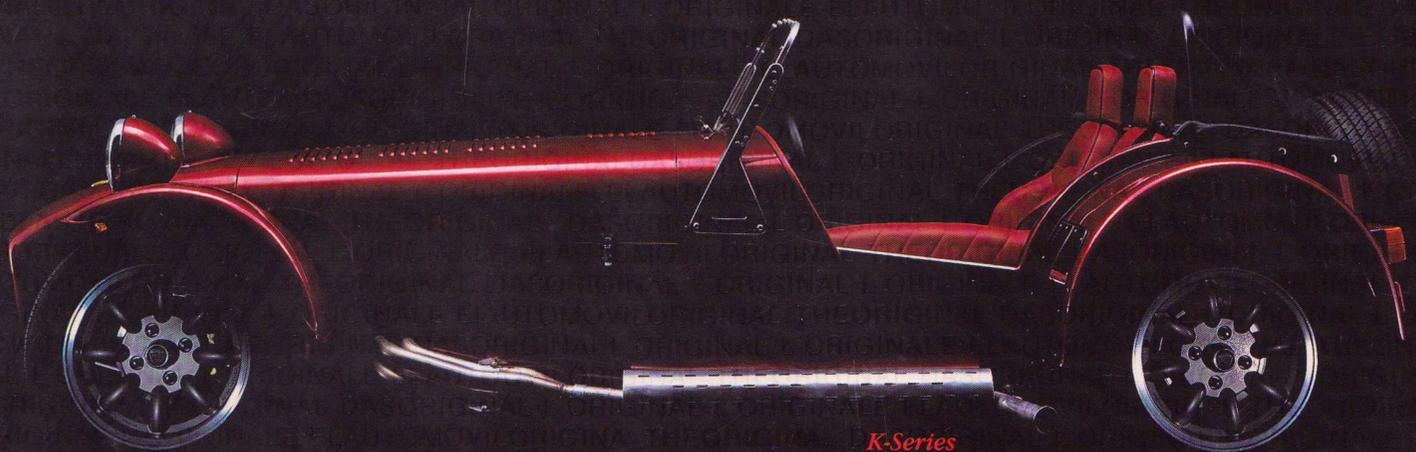

*"Twenty eight years ago the first race of my career was in a Seven... it's still as fine a way of getting into racing as ever."*  
 Derek Bell. Le Mans winner, here with his son, Justin

*Derek Bell*

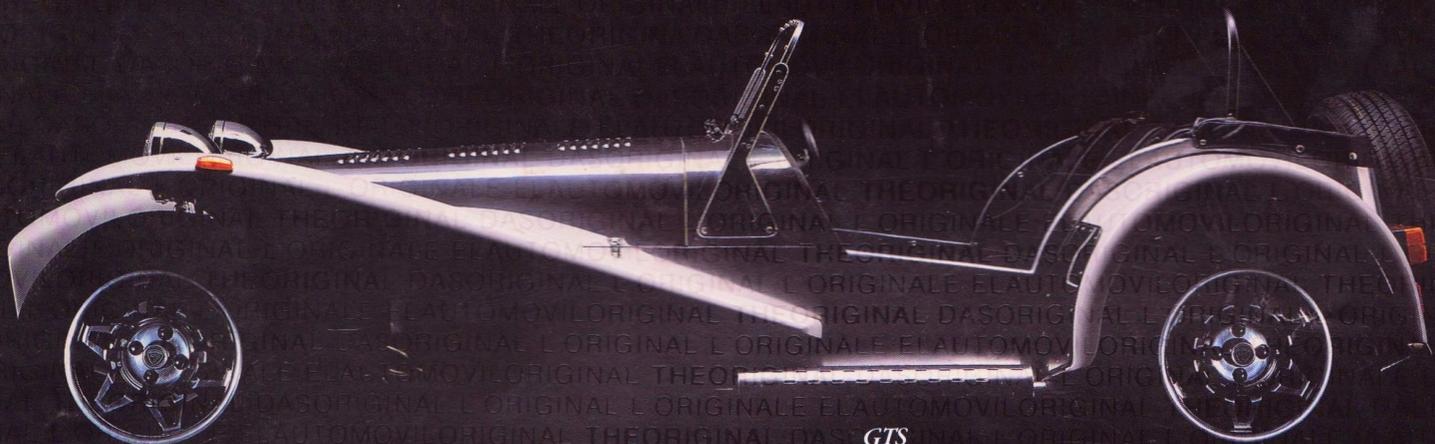

*"Caterham provides motoring as it should be, not as it has become."*  
 John Watson, Performance Driving Centre

*John Watson*
