Escort RS 2000

The champ is back

The legendary RS 2000 Mk II was built from 1976 to 1980 and achieved great success in competition events.

It's here! The exhilarating new Escort RS 2000 worthily carries on a coveted model designation evocative of competition victories on track and rally stages alike. Powered by a newly-developed 2.0 Catalyst engine producing a breathtaking 150 PS, the new RS 2000 blends outstanding performance with concern for the environment. Driveability is assured by the specially-developed slick new gearbox, performance-rated suspension and standard ABS braking system, to mention just a few technical features. The RS 2000 designation has always had special appeal for motoring enthusiasts, and the latest stunning version will fulfil all expectations. The waiting is over.

Ford has always lavished styling on RS models and the new RS 2000 is particularly striking in appearance. The bonnet power bulges emphasise the potency of the engine, and the aerodynamic body enhancements underline the performance character of this exhilarating new model. The smart alloy wheels also establish a sports appeal, in fact everything about the RS 2000 is an expression of performance and exhilaration. Available as standard in Diamond White and Radiant Red, or in Black or metallic finishes — Moondust Silver, Polaris Grey and Pacifica Blue — at extra cost, the RS 2000 creates a smart, stylish and, above all, performance image; an image which will command attention and respect.

The command driving position of the RS 2000 is every inch about control, driving satisfaction and creature comfort. The Recaro seats are comfortable and supportive, and the controls have been positioned for slickness of action and ease of operation. The steering is power-assisted, and the electrically-powered mirrors and front windows contribute to effortless and rewarding driving. The plush fabric trim is Panache velour, in fashionable Dark Grey, complementing the sports ambience. Once behind the wheel of an RS 2000, you'll know what performance motoring is all about.

The interior shown has the optional Radio/Cassette 2008 RDS, with a CD Player, Model 2028.

Specifications

Technical features

- **Engine:**

2.0 DOHC 16 Valve (Catalyst)
Runs on unleaded fuel only

- **Gearbox:**
